BAD WEATHER FAILS TO HALT BORDER EVENT

Hundreds Brave Morning Cold ho Witness Highly Successful Club Boys' Show

A stiff norther and overcast skies Saturday morning seemed only to whet interest in Borden County's first annual agricultural field day and boys' livestock show at Gall.

By noon the sun began to break through in patches, and more than 2,000 people from Borden, Scurry, Dawson, Howard, Mitchell and Crosby Counties gathered around barbecue pits and a 107-gallon coffee pot to enjoy an old-fashioned basket lunch.

Disagreeable weather held down general livestock and poultry exhibits, but the excellence of club boys' baby beavers overshadowed any disappointment that might have been brought by the cold and wind.

Best for First Show.
Ralph Howe, first Borden agent, now Crosby County agent, judge of the show, said the number and quality of the animals was far better than anything he had ever seen as a "first" show. He was assisted in judging by C. C. Nunnally, assistant agent of Crosby County.

County Agent E. B. McLeary, under whose guidance the show was organized, declared the show's success assured making it an annual event. Maggie Williams, county-district clerk, and other long-time county residents, said it was the biggest thing Borden County had seen in years.

The grand champion baby beef of the show, weighed in at 780 pounds, was shown by Lewis Clark of the Lamesa Four-H Club, who also placed first and second in drylot calves under 800 pounds.

More Than \$50 Prizes.
More than \$50 in cash prizes were paid young Clark and the following other winners of the boys' Four-H and FFA livestock show:

Drylot calves under 800 pounds—First, Clark second, Clark; third, Clarence Simpson, Gall Four-H Club; fourth, Simpson; fifth, Darrell Parker, Borden County Four-H Club.

Drylot calves over 800 pounds—First, Ralph Burleson, Dawson County Four-H Club; second, Elbert Harvey, Dawson County; third, Weldon Street, Gall Club; fourth, Sims Taylor, Scurry County Four-H Club; fifth, Whit Thompson, Scurry Club.

Milk fed calves—First, Weldon Street, Borden Four-H; second, Street; third, Buddy Smoot, Borden Four-H.

Lambs, Sows, Barrows.
Individual lambs—First, second and third, O. D. Jackson, Gall Four-H Club; fourth, Carlton Daugherty, Fluvanna FFA.

Lambs, group of three—First and second, Jackson; third, "Weenie Boes" Stavelly, Fluvanna FFA; fourth, Daugherty, Fluvanna FFA.

Brood sows—First and second, J. D. Patterson, Fluvanna FFA; third, Daugherty, Fluvanna FFA.

Barrows—First, second and third, J. D. Patterson, Fluvanna FFA; fourth, Gerald Buchanan, Borden County Four-H Club.

The entertainment program included an opening concert Saturday morning by Snyder's Tiger Band in uniform, directed by J. M. Hensley. String band numbers were given by Borden County, Fluvanna and Dunn's Hillbilly group.

Mrs. Smoot Winner.
Warren Berzett presided as master of ceremonies for the entertainment program. A highlight was the winning Saturday morning of the old fiddlers' contest by Mrs. Lona Smoot, after close competition.

Nolan von Roeder, E. H. Lilly of the Scurry Chamber of Commerce, and Mrs. Bill Miller acted as judges for the old fiddlers' contest, and the old-fashioned jig dancing contest, won by Bard Massingill, who placed second in the fiddlers' contest. Cleo Smoot placed second in the stepping competition.

Directed by E. O. Wedgeworth, the Fluvanna Harmony Band gave varied program numbers. Iona Patterson and Frances Stavelly gave vocal selections.

Counting Tiger Band members, more than 150 Snyder people went to Gall in a group Saturday morning, with over 50 remaining all day. Fluvanna Lamesa, Big Spring and Dunn were well represented with enthused delegations.

The Queen of Hermleigh School

Pretty Louise Rea, Queen of the Hermleigh Schools, is shown above in her coronation costume of white taffeta and her jeweled crown. Daughter of Mr. and Mrs. L. B. Rea, Louise was elected at the school's Halloween carnival and crowned in an impressive ceremony at the dedication of the new gymnasium-auditorium held recently.

HOBBS PLANS TO ENTERTAIN SONG SESSION

Four County Singing Convention to Be Held Saturday-Sunday, March 11 and 12

Final plans are being made this week to entertain around 1,200 singers at Hobbs Saturday night and Sunday, March 11-12, when the 1939 spring Four County Singing Convention meets at Hobbs School auditorium.

Dewey Niedecken, convention president, stated Tuesday that all business will be transacted at the Saturday night session, preceding the second-Sunday song program.

Arrangements have been completed, reports Eddie Williams of Hobbs, vice president of the convention, to provide basket lunches for all visitors at the song fest. One of the principal things that will be decided on at the Sunday meet will be selection of the next convention site.

Program specialties will include representatives from the Stamps, Hartford and Vaughn Music Companies; the Snyder, Lorraine, Big Spring and Lubbock quartets. Ablelene will send a delegation of singers headed by Wade Willis and Sims Clark.

Scurry, Fisher, Mitchell and Nolan Counties compose the territory served by the Four County Singing Convention, but many singers attend from a number of adjoining counties. Miss Treasea Williams is the new convention secretary.

PALACE SPRUCES UP.
Palace Sandwich Shop, located at a door north of the Palace Theatre, has spruced up this week with a new flooring of linoleum and re-painting of the interior in a soft cream color. Mr. and Mrs. Jim Woody, who operate the cafe, say business has justified the overhaul job.

Texas Program

An opening number by the Tiger Band will be a feature of the Texas Independence Day program that will be held at Snyder School gymnasium tonight (Thursday), starting at 7:30 o'clock.

After the invocation by Rev. I. A. Smith, Methodist pastor, S. L. Morgan of Hermleigh will lead a group singing of songs. Several school chorus clubs will offer numbers.

E. J. Anderson will offer the evening's principal address on "What Texas Means to Me," after which an Independence Day dramatization will follow by Snyder School Texas history class. Roy O. Irvin, who is in charge of the program, states "the public is cordially invited to attend the observance."

REPORT 1,600 FEET OF OIL IN ROTARY WELL

Favorable Showings in Three New Tests Bring New Excitement in Southwest Scurry

Reports early this morning (Thursday) indicated that 1,600 feet of oil was standing in the hole in Coffield & Guthrie rotary test in the new Ira oil field 16 miles southwest of town.

Halliburton Chemical Company was testing samples this morning preparatory to acidizing saturated sections found in the test from 2,070 to 2,452 feet, where the well was bottomed.

Location of the Coffield & Guthrie No. 1 A-First National Bank rotary test is 330 feet from the north and east lines of the northeast quarter of Section 129.

Good Production Seen.
Lime porosity, plus the saturated sections encountered in the last 400 feet of hole, points to a bigger producer for Coffield & Guthrie than the W. L. Callahan which had a potential test of 183 barrels, if acidizing of the best bears out correlated data. The Coffield & Guthrie well will probably be acidized Saturday.

The well logged marker formations higher than those encountered in the original Spears & Brownfield pool opener. Completion will extend the new Ira pool one-half mile north. Magnolia holds the north offset 80 acres.

The Yarborough & Wheeler No. 1 W. H. Sterling well was drilling late Wednesday night at 2,350 feet in lime formation.

The Sterling test, which has had the best showings in the "upper pay" of any of the three well acidizing in the Ira field, will mean a one mile northeast extension to the new oil pool if completed.

Teas Casing Cemented.
Paul Teas No. 1 W. P. Thompson, located 1,890 feet from the west line, and 960 feet from the north line, northwest quarter of Section 129, cemented casing Monday at 2,165 feet preparatory to being drilled in early next week.

The Teas test is a one-half mile west extension to the producing wells.

Leasing activities in the Ira sector took a sharp upward turn during the past 24 hours, with leases selling near the Coffield & Guthrie, Yarborough & Wheeler, and Paul Teas wells from \$10 to \$40 an acre, basic prices. Trading in royalty and mineral interest was also lively this morning.

Koonsman Marks Time.
A report Wednesday night from the Forest Development Company-Jesse Koonsman test five miles north of Camp Springs indicated that the Forest Development crew was "marking time."

The Koonsman test, which was bottomed at 5,004 feet, struck saturated showings at 4,275 feet, and another showing in the Canyon formation around 4,800 feet.

Resignation this week of G. W. Woodard Forest Development's land chief, and K. B. Nowles, chief engineer, has brought about a shakeup in the personnel, and left the matter of acidizing the Koonsman test undecided.

Contrary to persistent reports, rig on the Koonsman test had not been removed up until this morning, nor had any of the equipment been taken away. Rotary equipment was taken down last week so cable tools can be used, if Forest decides to continue operations.

SIMS ON EAST SIDE.
Shorty Sims, who has been bartering here for a number of years, is now connected with the Shipp & Butts shop on the east side of the square, where a third chair has been added. J. E. Shipp and Emmitt Butts invite their and Shorty's friends to make themselves at home in the three-way shop.

Largest Amount of Pension Checks in Recent Months Here

Scurry County's largest amount in recent months for old age assistance checks—\$32,124 worth—was received for February at the office of Charles J. Lewis, county clerk, Tuesday.

The checks, ranging from \$8 for the lowest to \$25 for the highest, went to 194 recipients. The amount received for January by the county's needy aged totaled \$3,100.

The State Board of Control, acting as the Texas Old Age Assistance Commission, made present payment levels for old age pensioners secure for the net few months by selling \$900,000 in state warrants last Saturday.

Although the placing of \$900,000 in additional funds in the pension fund at hand will assure present payment until September the Old Age Assistance Commission warned last week additional revenues will have to be found before next fall.

Damages of \$15,744 Sought by W. J. Ely

Total damages of \$15,744.33 are sought in a suit filed in district court several days ago by W. J. Ely. J. D. Lettwich and Lonnie Sewell are named as defendants.

Sewell, the suit alleges, was driver and Lettwich was owner of a truck that was involved in an accident in East Snyder, December 14, in which Mrs. W. J. Ely was injured and the Ely car was damaged.

Attorneys for the plaintiff are H. J. Brice of Snyder, Dallas Scarborough and W. R. Ely of Abilene.

Directors of the Scurry County Chamber of Commerce announce election of W. R. Bell, meat market operator and long-time civic leader, as president of the civic organization for the fiscal year beginning February 1. He succeeds Forest Sears, who has served for four years.

All committees, with the exception of the highway committee, were announced Tuesday night at the conclusion of a directors' meeting. A full highway committee, headed by Forest Sears, will be announced in a few days, said President Bell.

Good Attendance at Churches' Institute

Despite disagreeable weather conditions attendance at the training institute being held by three local churches has been good. Others who signed for the courses are urged by the leaders to come these last two nights, tonight and Friday, at 7:00 o'clock to the First Presbyterian Church.

Teaching the courses are Rev. J. E. Shewbert of Lorraine, Mrs. King Sides, A. J. Cody and Rev. W. M. Clark. Rev. I. A. Smith is in general charge of the institute since Rev. James E. Spivey moved to Denison early this week. Cooperation in holding the institute are the Presbyterian, Methodist and First Christian churches.

Dawson County Second to Scurry in Number of Visitors at Borden Show

Dawson County trailed behind Scurry County Saturday in the number of visitors that attended Borden County's first annual agricultural field day and boys' livestock show at Gall. Some of the visitors from the counties represented are listed below:

Dawson County delegation was headed by A. G. Bearden, secretary, Lamesa Chamber of Commerce, and Joe Williams, county agent. London Donnell of the Soil Conservation Service had the following SCS attaches with him:

Looking 'Em Over—And Howe!

Ralph Howe was really looking them over and chewing his cigar when this picture was snapped at Borden County's livestock show Saturday morning. The Borden, Dawson and Scurry County boys at the heads

of the fat Hereford calves were shivering heartily as the Crosby County agent picked the winners. But they put on a good show—and the sun came out in the afternoon to warm Gall, and insure success of the event.

TRIBUTE PAID SPIVEY AS HE LEAVES TOWN

Service Club and Guests Honor Minister as a Man, as a Citizen And as a Pastor

The hat that was given Rev. James E. Spivey Tuesday at noon by a number of local friends was an exact fit. It would have been several sizes too small if the eulogies that had just been given the leavestaking pastor had gone to his head.

Praised as a man, as a citizen and as a pastor, Rev. Spivey replied with the simple statement: "I don't feel big; I feel little, humbled."

The occasion for the hat presentation was the Lions Club luncheon, to which several other local citizens were invited. King Sides directed the program. Behind it was the announcement several days ago that Rev. Spivey, pastor of the First Presbyterian Church for three years, was leaving Snyder to become pastor of the First Presbyterian Church at Denison.

They Left Wednesday.
Rev. and Mrs. Spivey left yesterday for their new home.

Hadley Reeve, former roommate of the young pastor, spoke of him as a man. "He is my friend, he is your friend," said Reeve. "I think he is a swell fellow."

Lee T. Stimson, a guest, said of Rev. Spivey as he discussed him as a citizen: "I don't believe Snyder has ever boasted a citizen who has so indelibly imprinted himself on the lives of young and old."

E. H. Lilly, describing Rev. Spivey as a pastor, with a peer, declared "he is the most successful pastor of his age and experience that I have ever known." Lilly read a poem which, he related, was written by a Snyder woman and which was symbolic of the high regard in which the minister is held by the women of the community.

Two Pastoral Tributes.
From Rev. Ira Harrison, Baptist pastor, and Rev. A. W. Waddill, Methodist minister, came tributes. Rev. Harrison said: "As a brother pastor, Rev. Spivey is very, very cooperative, congenial and sympathetic." Rev. Waddill, in presenting a glass water set, dropped the wrapped glassware, with the declaration that he was just so nervous that he couldn't hold the gift.

Other guests of the day included Melvin Blackard, Dr. C. E. Helms, D. C. Howell, Pastor E. B. Chancellor of the First Christian Church, J. P. Billingsley and E. J. Anderson.

W. R. Bell, first vice president, presided in the absence of President H. L. Wren.

MOVE TO SNYDER.

P. B. Coughran, who will be in active charge of construction on Snyder's new \$112,000 PWA-sponsored school building, and Mrs. Coughran, moved to Snyder from Abilene Tuesday. They have rented part of the S. T. Elza home in East Snyder, and will stay there during construction of the school building.

Formal Opening for Strawn's This Week

Free serving of Admiration coffee all day Friday will be a feature of Strawn's Cafe formal opening on the east side of the square. Strawn's offers Snyder one of its most modern eating places.

In addition to new shelves, a rearrangement of the counters has been completed. Strawn's Cafe has been air conditioned throughout. Mr. and Mrs. Earl Strawn invite old and new friends over Friday.

Mrs. Garth Austin and Miss Callie DeShazo are being employed as waitresses in the new cafe, which occupies part of the G. B. Clark Building.

ANNUAL SCOUT DRIVE WILL BE BEGUN FRIDAY

Series of Activities for Boys and Parents Scheduled for Month Says Chairman Ely

Annual Boy Scout drive will be started here Friday, said W. J. Ely, chairman of the Snyder District, yesterday. The leader of this zone expressed the belief that the liberal support given last fiscal year will be increased by a number of new members.

"Where does this money go?" is the first question asked by many citizens, said the chairman yesterday. He pointed out that only 11 cents of the Boy Scout dollar goes for strictly administrative expenses—"a remarkably low administration expense for any organization"—and that the remainder of the dollar is divided as follows:

Where Dollars Go.
Activities, 15 cents; camping, 10 cents; field service, 25 cents; cubbing, 10 cents; training, 10 cents; badges and supplies, four cents; telephone, telegraph and postage, three cents; national service, three cents; registration, records, accounting, nine cents.

Several special activities for Boy Scouts and parents are planned for this month, said Jack Penrose, field man, who is here this week. Field details in another article in this issue of The Times.

Ely and other scout leaders declare Penrose, who is on the field a large amount of the time, as well as other paid workers and services, are worth far more than what the Snyder District—composed of troops at Snyder, Turner, Fluvanna, Pryor, Hermleigh, Dunn and Ira—is having annually.

Members Past Year.
The following members—"and we thank each of them for a generous contribution"—have been enrolled during the past year, said Ely:

Bryant-Link Company, Jack Colwell, D. & D. Auto Supply, H. S. Darby, Warren Dodson, H. E. Elard, W. J. Ely, Ivan Gatlin, J. G. Hicks, J. R. Hicks, Marcel Josephson, W. P. King, G. H. Leath, Mrs. T. More Scouting

Three meetings of special interest to Boy Scouts, scout leaders and present have been announced:

First, a Snyder District scoutmaster's round table meeting will be held in the Boy Scout hall Monday night, March 6, 7:30 o'clock.

Third, parents of boys of cubbing ages—nine, 10 and 11 years—are urged to gather in the high school building Monday afternoon, 4:30 o'clock, for a conference with Al Stiles, Buffalo Troop Council executive. Harbison, Troop Councilmaster, says: "The younger boy's question 'What can I do now?' is answered with a constructive program of cubbing."

President Bell

W. R. Bell, who has taken an active part in Snyder affairs for a number of years, was named several days ago as president of the Scurry County Chamber of Commerce, succeeding Forest Sears. Former local publisher, now in the meat market business, Bell is a former member of the City Council, present first vice president of Snyder Lions Club.

Terraplane Coach, Found on Highway, Remains Ownerless

The discovery last Tuesday of an abandoned 1935 model Terraplane coach five miles south of Fluvanna has kept local officers busy this week trying to find an owner for the car.

The Terraplane, equipped with Lynn County license plates, was taken to the home of H. C. Flournoy, Fluvanna justice of the peace, where it is being kept this week. Driver's licenses found on the steering wheel were issued to an O'Donnell man and San Angelo woman.

The sheriff's department is still guessing as to a probable motive concerning the abandoned car, since it is apparently in good mechanical condition.

In fact, local officers are seeking a claimant who has a "lost, stolen, or strayed" car. If positive identification can be made, it will stop rumors the car might have been blown this way by one of those famous Plains sandstorms.

STATE LEADER TALKS TO CLUB ON CHILDREN

Lyda M. Cagle of Austin, state organizer of child welfare units, was guest speaker at a regular meeting of Ingleside Study Club Tuesday afternoon. Entire program for the afternoon was devoted to Miss Cagle's talk and discussion of the local Child Welfare Association unit, which is sponsored by Ingleside Study Club.

The speaker was introduced by Mrs. R. J. Randalls, who was director for the planned program, after roll call, to which members responded with individual topics. The meeting was held at the home of Mrs. Hal A. Lattimore.

Ideas for supervised play, story hours and other recreation for children of the community were advanced by the state worker, who placed emphasis on the fact that these projects need not be devoted to underprivileged children but may include all in the community. Continuation of furnishing milk and clothes for the needy children was also discussed.

That the county judge be asked to appoint a county committee for benefit of child welfare will be asked locally this week. The Snyder unit is already affiliated with the state association. Mrs. Raymond Sims was chairman the past two years, and Mrs. King Sides has been appointed for this year.

At the close of the meeting Mrs. Lattimore passed a plate of cheese sandwiches, fruit cake and hot coffee to Miss Cagle and the following Ingleside Club members: Mmes. Clyde Boren, Harold Brown, W. Good Crowd Out For Ennis Creek Play Last Week

"One of the best crowds in recent years" was the way community leaders described the throng that gathered at Ennis Creek Friday night for presentation of the P-T. A sponsored play, "Wild Ginger."

Standing room was almost at a premium when the three-act comedy, using local talent, was started at 8:30 o'clock. Visitors attended from Snyder, Lloyd Mountain, Ira, and other communities.

A feature of the evening's entertainment was found in numbers rendered by a string band quartet composed of Hunley and Tinsley Rainwater, Willie Morrow and Noger Stone, between acts. Duet numbers were given by Misses Joyce Tate and Nadell Wilson, with Mrs. Woodrow Smith giving a solo.

A list of "Wild Ginger" characters follows: Jake Tallman, Woodrow Smith, Geoffrey Freeman, Kenneth Panter, Sanford Lakey, Anthea Wade, Marwood Lakey, Johnnie Panter, Wuzzy Walker, Toss Rainwater, Mr. Peterson, Noger Stone; Virginia Tollman, Fay Floyd; Rachel Lee, Imogene Panter; Miss Stanley, Eula Merle Wiman; Mrs. Walter, Mildred Rainwater; and Jaunita Lakey, Jewel Hornsey.

Mrs. Dee Ross, P-T. A. president, together with Gladys Wiman and Woodrow Smith, play directors, wish to "publicly express appreciation for the support given our community play."

Woodrow Smith and Miss Gladys Wiman, teachers in the Ennis Creek School, say funds derived from ticket sales will be used entirely for local equipment.

Snyder visitors included Roy O. Irvin, county superintendent, and Mrs. Roy Irvin; Ollie Stinson, E. H. Lilly, Chamber of Commerce secretary, Leon Guinn, "Little" Pitzer, "Shorty" Shepherd, J. S. Pitzer, Miss Ruby Thomas, Richard Crenshaw, and others.

Community leaders at Plainview urge the public to attend the second performance of "Wild Ginger," since on-fourth the funds derived will be used by Plainview School.

Small Acrobatic Dancer Is Again Contest Winner

Acrobatic dancing of talented Mary Ellen Brown clicked again in amateur performances in this section Friday night when she was awarded first prize of \$25 cash at the close of an Abilene contest. She celebrated her victory by spending the week-end with her aunt, Mrs. Earl Brown, in Abilene.

Sponsored by Abilene's veterans of Foreign Wars, the local high school girl was presented along with 20 other leading amateur acts from West Texas in the Fair Park auditorium before an audience of 500 people. Invitation for Mary Ellen to appear in the contest came from John Owens, director of the show. Winners were named by vote of the audience.

Placing second in the contest was Christeen Ables, Abilene acrobatic dancer, who received \$15 cash. C. E. Green of Jayton won third place with a series of imitations, comic and songs.

Daughter of Mr. and Mrs. George H. Brown, Mary Ellen is a freshman in Snyder High School. She is the smallest student in the entire high school, and she is always greeted with enthusiasm as she presents her almost impossible feats. Many Ellen is not taking dancing this year, but she is composing her own numbers, keeping in practice as mascot of both girls' and boys' high school tumbling teams.

All together, Mary Ellen has won over \$100 cash in amateur contests besides numerous other prizes. She has paced in practically every contest in which her acrobatic numbers have been entered. Most distant amateur contest first prize captured by the local dancer was in Denver, Colorado, in the summer of 1937, and she has taken two first places in Dallas contests.

Last summer Mary Ellen studied under a New York dance teacher in Hollywood, California. She was presented by invitation in acrobatic dances at the Palomar Club in Hollywood. The club has the distinction of housing the largest dance floor in the world. She was "Miss Snyder" at Dallas and Fort Worth Centennial Shows.

Mrs. C. E. Maedgen and daughter, Mary Ellen, of Lubbock were Saturday guests of Mrs. R. W. Cunningham.

Children Warned Not to Fly Kites Near Light Lines

With the kite flying season at hand, Texas Electric Service Company issued today its annual appeal to parents to warn children flying kites to keep away from electric lines.

"That the innocent pastime of kite flying can be exceedingly dangerous is brought out forcibly by the fact that many accidents occurred in the year just past because of children getting their metalized kites tangled in power lines," according to A. S. Legg, district manager of Texas Electric Service Company, in Snyder Friday.

"Too often children use metal wire in the place of string on their kites and when this wire comes in contact with a power line the result is instantly disastrous. Even plain kite strings sometimes carry current, especially if the string is wet. The best idea, regardless of how the kite is built or what kind of string is being used, is to see that it is flown in open spaces where no power lines are located," Legg said.

"If a kite should become entangled in power lines, be sure that children do not climb the poles or use long sticks to try to get the kite down. Call our company office and a trained lineman will be sent to rescue the kite if it is possible to do so."

NOT MANY CAR PLATES MOVE

The tax assessor-collector's office had issued 50 sets of 1939 car license plates up until 9:00 o'clock this morning (Thursday). County motorists have only one month left in which to buy the new car and truck tags before the April 1 deadline.

If car and truck registration runs anything at all like it did in 1938, says Herman Darby, tax assessor-collector. There will be around 1,900 tags and 500 truck tags to issue this month.

The 1939 purple and gold car tags, which were placed on cars February 1, could be placed on cars or trucks after Wednesday of this week. April 1 is the deadline for purchasing the plates.

This letter of appreciation came to The Times this week from Rev. James E. Spivey, who is leaving Snyder to take up leadership of the First Presbyterian Church at Denton:

The Scurry County Times, Snyder, Texas, Gentlemen: When the paper goes to press this week I shall have closed my last day of service in Snyder and Scurry County. Please allow me to express to you and to all others through your appreciation for all of the kindnesses that have been shown Mrs. Spivey and me during our years in this community.

We shall never forget our happy associations in the religious life, the social and civic activities and in the homes of the people here; and we pray for the continued development of Scurry County along lines conducive to Christian growth.

We have appreciated from the depth of our hearts the cooperation that has been shown by your paper in all the worthwhile enterprises of the community. It reflects the spirit of righteousness and the zeal for public improvement which burns in the hearts of so many people in Scurry County.

May God's richest blessings be upon you all.

Faithfully yours, James E. Spivey.

HIGH HOPE FOR PYRON POWER

Pyron community continues to hold high hope for a power and light line in the near future, according to M. H. Greenwood, superintendent of the Pyron School, who has been working on the project along with other community leaders.

The new line would come either via the government's REA through the Texas Electric Service Company, which serves all other Scurry County points. It would probably come out of Hermleigh.

Citizens of the Pyron community are looking forward to a newly-calculated road from the highway to the school.

Superintendents Seek to Recover 1938 State Fund

Roy O. Irvin, county superintendent, and School Superintendent E. O. Wedgworth, Cleo W. Tarter, E. L. Farr, and E. O. Wedgworth composed a group of school officials who went to Austin Monday in regard to proposed legislation that effects county schools.

The group went largely to see what can be done about recovering some \$6,000 county school money lost last year when the state equalization fund was pruned down severely.

Representatives from nearly all West Texas districts are pledging their support to a current bill for emergency appropriations that would take care of the 1938 rural aid and transportation deficit; and at the same time guarantee at least an 80 per cent payment on this year's equalization fund, the school officials reported.

"There is hope," the group reported further, "that we may get some of last year's rural aid and transportation deficits weeded down, in addition to the proposed 80 per cent payment on the 1938-1939 rural aid and transportation appropriations now falling due."

What Would You Do With a Million Dollars

A staggering question for most individuals, when the responsibility of such a sum is realized? Yet the protection and disposition of such sums is a responsibility that a bank must constantly assume. The necessity for adequate knowledge concerning the investment of any great amount of money makes this a function that no one individual can satisfactorily perform. It requires widespread interests, far-reaching contacts.

And your bank, with a staff adequately trained in all phases of finance, is capable of the performance of this service.

To a Solid Man

Snyder was not cut out for a "flashy" town. On several occasions she has tried to pull bizarre stunts for publicity's sake, and in every case the stunt has backfired. This is a solid town, and it boasts many solid men—men who do not follow every will-o'-the-wisp scheme of promised prosperity and growth. It is no surprise, therefore, that the Scurry County Chamber of Commerce has chosen a solid man as its president. The man is W. R. Bell, whose quiet wisdom has meant much to the town and county through the years. With wholehearted support, he will lead the community into new realms of solid growth this year.

The new president has a solid foundation on which to build, too... a foundation made more sure by the untiring efforts of retiring President Forest Sears and his co-officers and directors.

As one of the town wits has put it: "The Bell's a-ringing a new note of promise and hope for Snyder and Scurry County."

Well Done, Borden

Borden County waded through tough weather and other drawbacks last Saturday to stage a "first" farm, ranch and club show that marks a new era in the history of a progressive people.

Many of the old-timers over at Gail recalled "the good old days," when that community was the center of the social and business life of a wide ranching area. That was before railroads, highways and other twentieth century innovations practically changed the map of Texas.

With a brilliant feather in her cap as a result of the big show last Saturday, it is certain that Gail and Borden County will go on to regain some of its lost place in the West Texas sun.

A remarkable game management program, a new courthouse, a new highway, an outstanding soil-water conservation program, and a new interest in even better ranching practices are but a few of the new features that are being added.

Editorial of the Week

SWEETWATER AS HEREFORD CENTER ATTRACTS NATION'S BREEDERS

Again it is the pleasure of the Sweetwater Reporter to present its annual edition devoted to the purebred Hereford cattle industry of this area. As Walter Boothe has so frequently said, you can find more top heads of registered Herefords within a few hours from Sweetwater than any other known point. When you consider the importance of Hereford breeding that just about puts the center of it right here. That is true both in number of herds and the quality of the cattle. Good blood lines are here and progressive breeders are aware of that fact as evidenced by the successful sales held each year.

Without a doubt more people have come from distant points to Sweetwater because of its Herefords than any of the activities that center here. Sales both public and private command the attention of breeders from many states of the nation and both Canada and Mexico. To have achieved this good reputation the Hereford industry here has provided through the years a type of cattle that is outstanding and meritorious in the eyes of breeders.

Tribute should be paid to such men as the late John R. Lewis, and to J. D. Dulaney still in the business, for their early activities in establishing Herefords here. In those days when the Longhorn was still a factor it took courage and vision to go into registered Hereford breeding. On the foundations laid early in this century has come the present success of Sweetwater area Herefords.

The Reporter is happy to devote itself to publicizing Sweetwater Herefords, not only in its annual edition but during all days of the year. This publicity reaches out into the far corners of the area, beyond and into other states.—Sweetwater Reporter.

Editors' Note—The Times joins other newspapers of West Texas in congratulating The Reporter on its annual Hereford edition. And it would not be amiss to add that Scurry County, as well as Nolan County, is assuming increasing importance in the nation's Hereford picture).

Best editorial of the week: It appeared in Ken, one of those flashy new magazines. The map of Spain is being struck by a blast from a giant bomber. The bomb is shown striking the letter "S," leaving only "Pain." Says the cartoon: "The 'S' is silent."

According to figures released by the F. W. Dodge Corporation, new building construction in America reached a 10-year peak for December. Building contracts throughout the nation totaled \$389,439,000, which is 86 per cent more than for December, 1937. Some contractors seem to think the new construction wave will continue well into 1939, but most construction men say the almost empty coffers of PWA, plus the increasing tighter requirements of FHA, will put an effective damper on a major building boom. The important point, however, is that the building industry can, and has been revived.

People will be remembering this time next year the outstanding success E. B. McLeroy, county agent, and the folks of Borden County made of Saturday's first annual agricultural field day and livestock show at Gail—a show in which interest seemed only to be "whooped up" by that early Saturday morning installment of icy wind and cloudy skies. It was a show many counties, with more population, couldn't have put across in such grand style.

Saturday's roundup, from any angle, was the type of event where city met the country, and the country went to Gail. Nearly every out-of-county visitor that could be cornered said the spirit of friendliness evidenced at the Borden County show was one of the most noteworthy highlights—the type of friendliness that has made West Texas famous as America's only remaining "cow country where the latching string is always out."

Borden County, which is located in a cozy niche of the caprock foothills, has been referred to several times in recent years as the remaining link between the Old West and the new in the sense first-time visitors to the county usually get the impression ranching is carried on as it was 50 years ago—and get a surprise when they find Borden County people are slightly ahead of most West Texas people in modern trends.

Ed. H. Moss, a University of Texas student from Giddings, has perfected a "polariscope" instrument which he says can be used to actually photograph a bridge when it "bends" or buckles under an excessive amount of strain. The main thought behind the "polariscope" invented by Moss is that structural weakness in designs and steel beams can be detected before a bridge does happen to fall in with an overload or something. We wouldn't doubt but what young Moss has something in his photographing machine, but we'd hate to be on a bridge trying to get a shot of it and the mass of bridge material start "bending."

Treating seed Irish potatoes for scab costs only five to 10 cents a sack, but it may well be the factor that will determine whether or not a farmer makes a success with potatoes, says J. P. Rosborough, horticulturist at Texas A. & M. College. The two accepted treatments for scab control in seed Irish potatoes calls for hot formaldehyde for large lots or bi-chloride of mercury for small lots. Either method will control scab and reduce black scurf, a disease that attacks young potato sprouts and causes poor stands.

During recent unearthing excavations of an underground cemetery at Tuna El Gebel, Upper Egypt, a papyrus containing the only known copy of Pharaoh's Code of Law was brought to light, after having accumulated the dust of centuries in a jar that apparently at one time belonged to a high priest. Professor Sami Gabr of Faud University, who announced the "find," said last week the papyrus strip was nearly five feet long and about 30 inches wide.

Which reminds us that scientists and researchers are constantly digging into the past, trying to unravel for us a record of civilization that shows an upward climb from the aboriginal stages of man to the human machine as we know him today. Now, if some unborn scientist of the future happens to go grazing among the debris of some of our present day cities and unearths, perchance, a few True Stories or Rangeland Romances, it might be said that we of the twentieth century went through a sharp reversal of man's upward climb on the civilized ladder.

One of the outstanding bits of research accomplished in recent weeks has been the development by Monsanto Chemical Company of a compound that fireproofs cotton, paper, wood, and even woolen material without altering textures as such as compounds used at present. In the realm of cotton research, it seems that everything has been done lately, except find some new route by which our huge surplus of the fleecy staple can be scaled down, without resorting to ruinously low prices for the white gold of the gin stands.

Jumping bedsprings may soon be a haunting reality with light sleepers, if an adjustable bedspring which has been put on the market finds favor with the American consumer. The concern making this newly termed "adjustable bedspring" says a lever on the side will regulate the center springs to accommodate either a heavy or light person; thus keeping the mattress from sagging or "humping" in the middle.

Great Granddad, saith the familiar song, "slept on the floor with the dogs and the cats, but great grandson would get a crick, and couldn't take that." Now it seems great grandson will shortly have some jumping bedsprings that can be levered to his every whim. We pity the fellow suffering from "coffee nerves" who tries to regulate the new gadget to suit his feelings.

Dr. Thurman C. Nelson, professor of zoology at Rutgers University, gave the medical profession a jolt last week when he stated 17,000,000 Americans have trichinosis, a disease caused by eating raw or underdone pork. "Particularly disturbing," Dr. Nelson says, "is the fact that the medical profession as a whole does not recognize this parasitic infestation, but writes down a diagnosis of typhoid, intestinal flu, pleurisy, or may even operate for appendicitis."

VISITS SNYDER COMMANDERY

The Snyder Commandery, Knights Templar, will be visited Monday evening, March 6, 7:00 o'clock, by Daniel N. Cushing of San Antonio, V. E. D. grand commander. He will be representing Tell V. McCoy, grand commander of the Grand Commandery of Knights Templar of Texas.

It will be annual inspection time for the Snyder Commandery No. 69. Sir Knights are asked but not required to appear in full uniform. Dinner will be served at 7:00 o'clock.

It is also planned to have motion pictures of opening ceremonies in the evening program, and a school of instructions in the afternoon.

SNYDER TAKES SCHOOL COUNT

The taking of the city school census will be well underway by the last of the week, J. S. Bradbury, city secretary, reported Tuesday.

City residents are kindly requested to refrain from slamming doors in the census taker's face, since a \$22 loss will be incurred with each scholastic missed.

Some people have been rather indifferent in recent years toward enumeration of all school age children, but since the 1939 scholastic apportionment is \$22 per capita, it is felt that all will cooperate in the city-wide gathering of school statistics.

W. J. Moffett Has Opened New Station

W. J. Moffett, who has opened a new filling station and grocery a block north of the hospital, stated Tuesday his formal opening day will be tomorrow (Friday).

Moffett, who has used modern fixtures throughout in his new station, will handle Phillips 66 gasoline and oils, and will handle staple and fancy groceries. The station is equipped with new rest rooms and other conveniences.

Deaths from malaria fever in the United States have decreased 61 per cent since 1900, according to U. S. Census Bureau reports.

Desperate Pair

The natives of Coleman were flabbergasted, and their wonderment knew no bounds, when three Scurry County officers went into a cafe there early this week, propelling two desperate characters who were handcuffed together.

C. Wedgeworth, Snyder superintendent, one of the "officers," paid for the five meals. The other "officers," Superintendents E. L. Farr of Hermleigh and Cleo W. Tarter of Dunn, would have paid had they laughed or even grinned seriously during the eating period. As the quintet left the cafe, many of the natives crowded around for a bit of information, but not a word was breathed about where the desperate pair was being taken or what they were arrested for.

P. S.—County Superintendent Roy O. Irvin and Fluvanna Superintendent E. O. Wedgeworth were the "culprits." The five school men were just having a little fun on their return trip from Austin.

Legion Claim Man In Snyder Tuesday

John T. Gray, a state service American Legion attaché with headquarters at Abilene, was in Snyder Tuesday accepting claims from World War veterans and widows of vets for government compensation.

Gray, who accepts claims from 15 West Texas counties, stated the "volume of claims being filed by Scurry County veterans and widows of veterans indicates this county is in a fortunate position in regard to the indigent and crippled war veterans.

FIRST SCHOOL WORK STARTS

Workmen started in earnest on Snyder's new school building this week, with formal work order having been issued late last week. The actual work was started Wednesday morning by Dunlap & Coughran of Abilene, general contractors.

Work sheds are being built, preliminary check-ups are being made, and material is being placed on the ground.

Following the policy of Will O'Connell, San Angelo contractor who demolished the old building and put down the foundation, the Abilene firm will use local men wherever possible.
