Farewell Compliment To Mrs. King Sides Given Last Week by Ingleside

As a farewell compliment to Mrs. King Sides, who moved last Thursday from Snyder to make her home in Big Spring, Mrs. W. W. McCarty entertained at a forty-two party last Wednesday afternoon. Members of the Ingleside Study Club, of which Mrs. Sides has been a member, and a few other guests were invited.

Home of Mrs. McCarty, immediate past president of Ingleside Club, was lovely in its decorations of attractive arranged bouquets of petunias, roses and other summer garden flowers.

In the late afternoon presentation of a handsome silver tray with the club's name engraved on it to Mrs. Sides was the climax of the affair. Mrs. Clyde M. Boren, vice president of Ingleside Club, paid high tribute to Mrs. Sides in a farewell message. Mrs. Boren pointed out her untiring work in her clubs, school, church, home and town, as a true and loyal friend, a good citizen and a thoroughly charming person.

The past year Mrs. Sides has been head of Ingleside Club's child welfare activities. Original plans for the welfare work in Snyder came from the club, and since the local welfare unit was organized several years ago, a county welfare committee has been appointed by the county Commissioners Court.

A talented musician, Mrs. Sides has been serving as organist at the

MARINELLO SHOP COOLS

New air conditioning equipment was installed this week at the Marinello Beauty Shop, located in the old post office building just east of the square on 26th Street. Mrs. Bea Fish, operator, states the cooling unit is a part of the general modernization being given the beauty shop.

Verna Lou Maule, daughter of Mr. and Mrs. M. M. Maule, left Sunday for Roswell, New Mexico, where she will spend several days with her sister, Georgia Maule.

Mrs. Butler Smiser and mother, Mrs. Bernice Doak, Junene and Tom Francis of Ft. Worth, and Mrs. Oma Johnson of Bakersville, California, were in Snyder Saturday for a short visit with the Maurice Brownfield family. They had been visiting at Idalou with the F. M. Brownfields, and were en route to Ft. Worth.

Mr. and Mrs. C. C. Nesbitt and Mr. Nesbitt's sister, the former Ora Nesbitt, of Oklahoma City were in Snyder last week-end visiting with relatives and friends. The trio was en route to California for an extended stay.

Eldon Birdwell, student in A. & M. College, College Station, this summer, spent the week-end with local relatives and friends.

Mrs. Z. F. Samples of McAllen has been visiting for several days in the homes of J. M. Doak and Mrs. W. E. Doak.

Methodist Church (her father, Rev. C. A. Bickley, is presiding elder of the Abilene Methodist District), and her husband has been the music director. With her music interests, also, has come membership in the Musical Coterie and numerous requests to appear on programs of all sorts.

Teaching in the primary grades of the local school, club and church work along with caring for a home, husband and young son, James, has kept the former local woman busy, but not too busy to answer questions in a charming voice and assist in outside activities of all the organizations with which she was associated.

A delicious ice course was passed by the hostess to the following members of Ingleside Club: Mmes. Sides, Harold Brown, W. F. Cox, G. H. Leath, C. C. Moseley, J. M. Newton, T. W. Pollard, R. J. Randals, H. P. Redwine, W. W. Smith, H. L. Vann, Tom Boren, Carl England and the hostess.

Other guests were Mmes. C. F. Seniell, E. F. McCarty and J. E. LeMond.

At the close of the party Ingleside Club held a brief business meeting, discussing yearbooks for next year, which will be handed out soon, and individual roll calls for the book.

Demonstration Club Notes

Estella Rabel, Agent

Fifteen women representing the Scurry County Home Demonstration Clubs attended the training school for testing pressure cooker gauges Saturday afternoon, 3:00 o'clock, in the office of the home agent. Other phases of home canning methods were discussed at the gathering.

Check Pressure Gauges
Check the gauges on pressure cookers with a maximum thermometer at least once a year; oftener would be better. This thermometer should be enclosed in a metal case to prevent breaking so easily.

Before using check the maximum thermometer by holding the bulb end well under boiling water. Boil for a few minutes and if the reading remains 212 degrees F. or 100 degrees C. then the thermometer is correct for these tests, unless the altitude is higher than 2,000 feet.

Shake the mercury down in the thermometer each time after using it; and each time before using see that the mercury is below 228 degrees F.

For checking the gauges prepare the pressure cooker as for canning. Place the metal jacketed maximum thermometer in an empty jar and set it in the center of the pressure cooker on the rack, or suspend in the pressure cooker. Close the cooker, place it on the fire, exhaust the air by letting the steam escape for seven minutes in a steady stream or until the reading on the dial reads one-half to one-pound pressure before closing the petcock. Close the petcock, and when the gauge reads 10 pounds or 240 degrees F. hold at this temperature for five minutes, remove at once from the heat. Let the gauge return to five pounds pressure; after which open the petcock slowly. When the dial registers zero, open the cooker carefully. The thermometer reading should be 240 degrees F. Repeat this test for 15 pounds of pressure, which would be 250 degrees F. and five pounds which would be 228 degrees F.

Violet McKnight, who is taking special summer studies at Hardin-Simmons University, Abilene, was the week-end guest of her parents, Mr. and Mrs. Fred A. Grayum, and her son, Grayum McKnight.

Mr. and Mrs. Novis Rodgers, Mr. and Mrs. Dan Rodgers and Dorothy Strayhorn, accompanied by Postmaster Phil Boucher of Post, were among those who attended the Texas Cowboy Reunion at Stamford Monday and Tuesday.

Merl Price and family were in Brownwood over the week-end and remained through the Fourth, visiting with friends and relatives.

Max Brownfield and family of Goldsmith have been visiting with relatives and friends in Snyder for several days. They spent the Fourth holidays with Mr. Brownfield's parents, Mr. and Mrs. F. M. Brownfield, at Idalou.

Perfect Costume for Summertime Gayety

As the perfect costume for dining and dancing, this romantic frock of blue-and-white, cotton organdie, printed to look like lace, is selected. The dress has a white organdie collar and neckline interest is heightened by a nosegay of red flowers. White and blue draped crepe-de-chine sandals, white bag and a bracelet of Bermuda orange blossoms complete the picture.

Baptist YWA Members and Leaders Attending House Party For District

A delegation of Snyder Baptist young women and several representatives from other churches of the county joined large groups from the Mitchell-Scurry, Big Spring and Lamesa Associations for a District YWA house party that began Tuesday afternoon at the Colorado City First Baptist Church.

The party will close this (Thursday) afternoon. Snyder was represented by Ruby Lavender, local educational director, Mrs. D. V. Merritt, local YWA sponsor, and Misses Annie Sue Slovacek, Lottie Mae Webb, Marva Nell Curtis, Nell Verna LeMond, Geraldine Chapman, Velma Lee Edmondson, Mabel and Adell Watkins.

Registration for the house party started at 3:00 o'clock Tuesday afternoon, followed by a picnic supper at 6:00 o'clock. Members of the hostess YWA, assisted by members of the junior YWA, entertained at the home of Mrs. T. A. Patterson with a formal reception.

The address of welcome by Fern Kelley of Colorado City preceded a response by Adell Watkins of Snyder, district president.

Wednesday's program opened at 7:00 o'clock with sunrise services, followed by a breakfast and a conference in charge of Mrs. R. L. Mathis, state young people's leader. Games, stunts and swimming were

Wednesday afternoon diversions, with a special service in the church auditorium Wednesday night.

Miss Lavender directed music for the entire house party. Frances Merle Cooper is president of the senior YWA; Alice Womack of the junior organization; Juanita Barton, formerly of Snyder, is junior sponsor.

Mrs. Velma Bruton left Sunday for Slaton to spend several days with a sister.

Mr. and Mrs. Bill Collins of Carlsbad, New Mexico, were guests last week of the Joe Stinson and Fred A. Grayum families in Snyder.

Kenneth Alexander of Colorado City visited with her parents, Mr. and Mrs. A. C. Alexander, over the week-end.

Mr. and Mrs. H. L. Chenault of Oklahoma City, with Maxie Chenault of Lubbock, were week-end guests of Mrs. P. C. Chenault.

Mrs. H. P. Rogers and her daughter, Mrs. Dell Paulk, visited with friends at Weatherford over the week-end.

Mayme Lee Gibson, employee at the Economy Store, returned this week from a 10-day vacation trip to Oklahoma City and Paris, Texas.

Wynona Keller returned Sunday from a visit of several days with her grandmother, Mrs. J. R. G. Burt, at Dumas. Mr. and Mrs. John Keller and Ramona met her in Lubbock.

H. L. Vann and son, Bobbie, were in Stamford Sunday, guests of the manager of J. C. Penney Company store, who has been ill for several months.

HEAT WAVE

You'll Appreciate Your Electric Refrigerator MORE During HOT WEATHER

• Hot, summer weather is the real test of any refrigerator. Unless your refrigerator delivers constant, food-saving cold, even on 100-degree days, you have only part-time refrigeration which means food wastage, inconvenience and other troubles.

With Electric Refrigeration, full realization of its value comes when the hottest part of the summer arrives. Regardless of how high the temperature gets outside, the temperature inside your electric refrigerator is low enough to keep foods fresh, to freeze desserts and to make a plentiful supply of ice cubes on short notice.

A few pennies pay for electricity to run your refrigerator a whole day. That is why we say that "Electricity is Cheap."

FHA

Dear Home Owner:

So many Scurry County folks have found the FHA Plan a convenient way to make their homes more attractive, we think you will be interested, too.

This plan, as you know, offers a way to pay for new paint, new paper and redecorating, a few dollars a month—in payments to fit your budget.

For instance, there's no need to put off outside paint protection until it means extra expense. You can save your home now and save the cost afterward.

Add an extra room, fix up the kitchen, bath room and garage, install Venetian blinds, new fixtures, etc.

Perhaps when you investigate the FHA Plan you'll discover you can fix up your home both outside and inside. We'll be glad to give you an estimate without obligation, and tell you more about this convenient budget plan for redecorating.

News From Snyder Papers of Other Years

FORTY-FOUR YEARS AGO

From The Scurry County News, July 4, 1895

Messrs. I. W. Boren, Sam Lockwood, and Misses Mattie Lockwood, Lora Wood and Ella Bean are in Claymont celebrating the anniversary of American independence.

Women have worn corsets from the earliest times. The mummy of an Egyptian princess, who lived 2,000 years before Christ, was discovered in 1872, and round the waist was a contrivance closely resembling the modern corset.

J. W. Davis of Anson has submitted a proposition to Waco in behalf of the people of Jones County endeavoring to secure the cooperation of that city in the construction of a railway from Anson to Albany, there to connect with the Texas Central. Description of the country by Mr. Davis shows that section to be in a state of unexampled prosperity.

B. L. Crump of Colorado was in our city this week. Snyder seems to have a charm for him.

Some of our young folks go north to Claymont and some south to Colorado, still seeking pleasure.

The people should not complain at the continued rains. We've had heavy rains, but no floods. Gentle daily showers do nothing but good.

Elder W. W. Wernher left a cotton bloom at our office Saturday; also a number of the finest mill heads we ever saw. Some are over a foot long.

Denver has a preacher named Passmore, who is said to be fervid, fluent and furious. To hear him go on one is impressed that there is but one honest preacher, and he is him. This man thinks, or says he does, that the world is peeing along toward perdition like an ox to the shambles. His zeal is commendable, but his judgment is lame.

THIRTY-NINE YEARS AGO

From The Coming West, July 5, 1900

Ernest Duke, who has been working on the Half Circle S Ranch, came in town last week and will spend the summer here.

W. A. Johnson was in town Monday after a load of wire with which to build a calf pasture, preparatory to weaning his calves.

Sid Johnson, who ranches in Fisher County, was here Sunday attending the protracted meeting.

Boley Brown was here Thursday of last week, en route home from the R Ranch, where he delivered 2,000 head of cattle he recently sold.

Miss Pearl Justice, who is attending the summer normal at Roby, came in to enjoy the Fourth of July.

The brick kiln burnt by Contractor McDugal has been opened, and the brick pronounced by those calculated to be known as being first class. They will be used in the new bank building.

The Snyder Cornet Band had an interesting business meeting Monday night, at which C. R. Buchanan was elected business manager.

EIGHTEEN YEARS AGO

From The Snyder Signal, July 8, 1921

A two days barbecue will be staged at Hermleigh July 14 and 15. All kinds of entertainment, rodeo and fiddlers' contest, sack races, speaking, etc. One ball game first day and two the second, together with merry-go-round and band music.

Jim Massey, who holds the world's championship bulldogging title, will fight it out for the title again this year with Mike Hastings of Cheyenne at the world's champion cowboy contest at Grant Park, Canada.

MORE CHECKS REACH COUNTY

The arrival since June 22 of 281 soil conservation checks, amounting to \$23,141.25, brings the total of funds received to date by Scurry County on the 1938 program to \$253,712.93, according to information received Tuesday from the county agent's office.

Speeding up of payments on the remaining conservation checks due county farmers on the 1938 AAA program was promised this week by I. W. Duggan, director of the Southern Division, Department of Agriculture. This speeding up process was hastened by Senator Tom Connally and Congressman George Mahon on the heels of the recent county flood, hail and wind.

Five hundred more AAA checks are still due county farmers on last year's soil program.

Browning Cleans Up And Changes Store

Considerable rearranging has been done by Browning Food Market, north of the square on Highway 7, toward remodeling damages done by the county's recent wind and water disaster.

The meat counter has been moved to the south side of the store, with feed and flour moved to the store's north side, and a general repainting program in the store was completed this week. Hollis Browning, operator, says a carload of Beverly's feed and flour arrived at the food market Tuesday.

Browning's will be visited Tuesday, July 11, 6:45 p. m., by Colonel Wheat and his bewley's Chuck Waggon Gang.

A. C. Kincaid and wife spent the Fourth with relatives at Littlefield, guests of Mrs. Kincaid's parents, Mr. and Mrs. T. M. Springer. J. V. Robinson and wife left Sunday for Dallas, where they visited with Mr. Robinson's parents and other relatives over the Independence holidays.

C. E. Ross and daughter, Gertrude, were week-end visitors in Wise County and Ft. Worth.

Mrs. Joe Skeeters of Ontario, California, has been visiting with her mother, Mrs. H. P. Rogers, the past two weeks.

Tim O. Cook and wife joined the George Avery family of Hermleigh for a picnic at Lake Sweetwater on the evening of the Fourth.

Gordon Rogers, student in Weatherford Junior College during the summer term, visited relatives here over the week-end and through the Fourth holidays.

Prentice Riley and Gerald Haney leave today for Lamesa, where they will enroll in the Lamesa OCC camp.

Mr. and Mrs. Pete Bradbury and children, Wayne and Caroline, of Abilene, spent several days with their parents, Mr. and Mrs. J. S. Bradbury.

Jim is the son of Mr. and Mrs. J. W. Massey.

The four days annual encampment of the Boy Scouts is being held this week on the Cable Ranch seven miles south of town. The encampment, which began Tuesday, will last through Saturday.

Giles Garner has finished threshing his grain on his place two miles northwest of town. He has 72 acres, and threshed out 2,208 bushels, making nearly 31 bushels per acre, grading No. 1 wheat.

NINE YEARS AGO

From The Scurry County Times, July 10, 1930

Former Governor Pat M. Neff was in Snyder Tuesday in connection with a bus and truck hearing on applications for motor coach and truck lines in Western and Northwestern Texas.

Nine members of the Snyder Golf and Country Club went to Lamesa Sunday, where they were given a sound thrashing at golf.

Lee Stinson, president of the West Texas Pharmaceutical Association, was in Abilene Sunday for a conference with members concerning the August meeting at Abilene.

THE TIMES TABLE

MAURICE BROWNFIELD is an outstanding merchant. As he retires from the grocery business in Snyder, many of his friends check back on his 11-year career to determine the why of his success. The cover never asked Maurice for Times' formula, but we would guess that it can be summarized in three phrases: 1. Buy intelligently and sell tentively; 2. Buy intelligently to allow a fair profit; and 3. Give the customer service. Snyder is hoping to see an energetic merchant will continue to be an active, forward-looking citizen in his home town.

C. T. McLaughlin, owner of the Diamond "M" Ranch, recently gave Scurry County its most important display of good horsemanship... important because of the prestige and people it brought to Snyder and Scurry County. As he plans for an even greater show next year, Snyder should be sure that the ranch owner and lover of fine animal flesh is given every possible support for his 1940 show.

FRANCES E. JONES is going to town. The former editor of Fluvanna's lively Stampede and correspondent for The Times is sports editor of the Lass-O' campus newspaper at Texas State College for Women, this summer. She and her co-workers are experimenting with a tabloid size paper modelled after metropolitan dailies, and are also pioneering in modern ideas of news classification. The sophomore journalism student wrote columns for the Waco Times-Herald and the Eastland Record last year on the activities of students from these territories at TSCW. The lively, friendly, ambitious young woman is remembered principally by Snyder business men because of her do-it-or-die spirit in selling advertising for her Fluvanna school paper.

THE DUNN 4-H CLUB boys gave the county state-wide publicity this week when they were asked to be on the Short Course program at College Station. Too much credit cannot be given T. B. Hicks—and the trustees and superintendent who stood behind him—in developing, despite tremendous odds, an outstanding group of young entertainers. And the boys are learning too, that farm and ranch practices can be improved by study, careful planning—and hard work.

Geraldine Longbotham, who spent the week-end with Mr. and Mrs. Fred Hallman of Midland, visited Tuesday and Tuesday night with her parents, Mr. and Mrs. Bernard Longbotham. Miss Longbotham left Wednesday for her home at Ft. Worth, 2909 Elizabeth Boulevard.

Frank Arnett and family spent the Fourth at Sweetwater, watching the boat races, and picnicking.

Making the Most of Pastures

By T. C. Richardson, Associate Editor, Farm and Ranch Breeder-Feeder Association

The mower is conceded to be the best pasture-growing implement, and this applies sometimes to planted summer pastures (sudan grass, etc.) as well as to permanent pastures where the mower keeps down weed competition with the grass. Both on permanent and temporary pastures the use of the mower cannot be dated by the calendar, but must depend upon the conditions to be met. In most of the Southwest the spring growth of weeds has already been moved before now, or has been permitted to seed. Certain other weeds, however, come along later in the season and should be mowed about the time they begin blooming.

Briars and sprouts of various kinds, and seedlings of certain trees, also yield to the mower's persistent use. It is generally conceded that July and August are the best months in which to cut sprouts, robbing the roots of the sustaining foliage before the storage of food in the roots is completed for the season. This operation is hard on the mower but worth it, and an old mower which is past its usefulness for cutting grass will still cut weeds and sprouts. Many farmers who have no hay to cut are buying second-hand mowers to use on the weeds and sprouts in pastures.

unmowed, and seed the ground for next year. Temporary summer pastures will also furnish more and better grazing if they are divided and the divisions grazed in rotation. Here again the temporary fence, electric or otherwise, pays well for the trouble and the moderate expense of installing. Dollars are lost every year on many Southwestern farms through failure to take advantage of the grazing available, when it is available. There must be animals to graze and fence to confine them, but there is no form of wasted opportunity so common, and which offers so great a promise for extra farm income.

The new agriculture which is growing out of the cotton crisis is a balanced agriculture, of which both crops and livestock are essential parts. We have too long thought of "agriculture" as crop farming, and "animal industry" as a thing apart. True agriculture includes both, for nature's own laws demand that plants and animals be kept together in that God-given reciprocal relation by which each feeds the other and the residue returns to the soil—nothing lost.

There are times, however, when the mower is also important in the temporary pasture. Everyone knows that when sudan or other hay and pasture grasses begin to get "stemmy"—that is when they shoot up the coarse seed stems and start making seed, they are less palatable to livestock and also less nutritious. We have all seen such a pasture where the foliage has been eaten off and the bare stems left standing.

If the pasture gets ahead of the animals which graze it—that is when they do not keep it grazed fairly close—the mower comes into play to cut back the seed stems and throw all the growth into new foliage instead of seed. Fresh growth has a higher protein content than old growth, and is more palatable besides. It will pay to run the mower over the temporary sudan grass pastures even though there is not enough hay to rake and cure, whenever stock do not keep the stalks down.

After corn is laid by grass and weeds often spring up and grow luxuriantly. This late summer growth can be turned into cash by grazing the corn fields with sheep. Fencing off such temporary grazing has been greatly cheapened and simplified by the invention of the electric fence, which, with one or two wires properly installed and energized (by battery or power) keeps the animals within bounds quite effectively. The sheep may destroy a small amount of corn, but the gains from the grass and weeds will more than offset the loss in grain, and the corn ground will be in better condition than if the weeds and grass were permitted to grow.

Overflow Crowd In Colorado For County Program

An overflow crowd of 6,500 Mitchell County residents and their neighbors attended the "neighbor night" program put on by Mrs. Hilbert Lambert's pupils Friday night at Colorado City's Ruddick Park as the first amateur hour series sponsored by the Colorado City Chamber of Commerce.

Loudest applause was drawn by the adagio dance of Billy Biggs, who was awarded first prize. Billy was assisted in presenting her dance number by John Hilburn Biggs and John A. Staley Jr.

The four Reed sisters of Dermott—Bobbie, Billie, Verna and Doris—were given second place for their negro comedy number. Third went to Billy Wilford, Forrest Crowder, Edwanda Spears, Frances Staley and Patsy Snodgrass for their hill-billy comedy.

Mrs. Hilbert Lambert, who arranged the program, was assisted by her husband, Hilton Lambert, who acted as master of ceremonies. Accompanists were Margaret Dell Prim and Mrs. Joe T. Johnston. Talent from Snyder, Pluvanna, Dermott, Hemleigh and Dunn was represented on Mrs. Lambert's program of 23 numbers that included tap, adagio and acrobatic dancing, songs and readings.

Others, besides first, second and third place winners, who took part on the program were: T. J. Teters, Sue and Eddie Stephens, Armin Moffett, Elsie Vernon, Louise Rea, Nelda Bell and Ethel Lynn York, Billy Graham, Joan and Bobbie Vaughn, Jimmie Dean Shepherd, Bettie Lynn Gatlin, Jeannean Lapour, Dorothy Riley, Johnnie Dell Brock, Nancy and Joan Johnson.

Charley Morrow and Harry Chapman, who have been employed on Highway 15 between Gall and Lamesa, are now working on the Gall-Snyder section of the highway following completion of work on the western strip.

Customer: "I would like to buy that flag but the price is too high. If you'll knock off a dollar I'll take it."

Ten Firemen Going To Midwest Meeting In Mitchell County

Ten members of Snyder Volunteer Fire Department, led by Chief N. W. Autry, Clyde Boren and Melvin Newton, will attend opening sessions of the three-day quarterly meeting of the Midwest Firemen's Association convention at Colorado City this (Thursday) afternoon.

Boren will serve on the credentials committee at the convention, while Newton will officiate as a drill committee member.

A strong bid will be put in by Snyder to act as host for the next quarterly association convention in October. Chief Autry said Tuesday. The Colorado City convention will close Saturday.

Emmitt Butts and W. W. Smith are the two official delegates of the local department, elected at a recent meeting. Doc Bynum and Ed Griffin are alternates.

Ed Majors, Colorado City fire chief, will be host chief for the convention. A feature of the gathering will be a barbecue supper at Ruddick Park for firemen and their wives.

Mrs. A. J. Riley returned Monday from Lubbock, after spending a few days at the bedside of her granddaughter, Merlyn June Griffin of Clovis, New Mexico, who has been quite ill in a Lubbock hospital. Mrs. Riley left her granddaughter considerably improved.

Scurry Average, Borden Far Down In County Debts

Scurry County is just below average and Borden County is among the lowest counties in the state, according to figures just released by State Auditor Tom Kling to show the indebtedness per \$100 valuation throughout the state.

The Scurry County \$100-valuation debt is \$10.23, and the Borden indebtedness is 45 cents. Borden is second only to Wise County in the total debt based on each \$100 valuation. Wise County has only 29 cents per \$100 of indebtedness. The only other counties with less than \$1 indebtedness for each \$100 of real value are as follows: Crane, 70 cents; Glasscock, 60 cents; Gregg, 83 cents; King, 47 cents; Mason, 60 cents; Montgomery, 90 cents; Re-fugio, 99 cents; Reagan, 61 cents; Schleicher, 79 cents; Upshur, 88 cents; Yoakum, 50 cents.

Hidalgo is the highest county in the state, with \$68.51 for each \$100 worth of taxable property. The auditor points out that he took the actual, not the assessed valuation of property, as the basis for his figures.

Scurry was among 45 counties reporting debts in excess of \$10 per \$100. Here are a few comparative figures for this vicinity: Eastland, \$23.87; Stephens, \$18.66; Brown, \$16.46; Taylor, \$13.07; Fisher, \$15.68; Childress, \$12.08; Hale, \$11.57; Lubbock \$11.02; Nolan, \$11.93.

The world knows Chevrolet passenger cars and trucks are first in value, and that's why the world has placed them first in sales!

Important to every motor car buyer is the fact that Chevrolet, first in passenger car sales, is also first in motor truck sales, because truck buyers select the trucks that pay the greatest returns.

The same qualities that distinguish Chevrolet trucks exist in equal degree in Chevrolet passenger cars. You may choose your Chevrolet solely for its beauty, comfort, or performance—but you will get in addition that all-important extra value.

Crop Conditions Very Favorable In Most of W. T.

Continued in nearly all districts of this area of Texas is up to a good (and well) cultivated and chopped, and should develop favorably with continued warm weather; the regular monthly report of Santa Fe Railway shows, as of July 1, so far very little insect damage has been reported.

Weather conditions during June in most portions of Texas served by the Santa Fe generally was cloudy and hot, with several good rains falling over the territory early in the month, followed by showers, with the result that crop conditions are very favorable.

Small grain harvest continues and with favorable weather should be completed within another week. With yields turning out slightly better than was expected a month ago, the Texas wheat crop should reach and possibly exceed the 30,000,000 bushels, estimated officially at that time. By July 1, harvest virtually will be completed along the Orient line of the Santa Fe and on the South Plains, with yields of from five to 15 bushels on about 50 per cent of the acreage sown, the balance having been abandoned.

In the Panhandle proper, there has been some delay due to wet weather. Here, where yields are running all the way from five to 40 bushels per acre and tending toward a fair average, harvesting is not more than half finished.

Because of dry weather in many sections of West Texas, cotton and feed crops got a late start but have been benefitted by recent rains. Outlook for summer grazing also has been improved.

Mr. and Mrs. L. O. Dorfman of Boston, Massachusetts, and their two sons, John Charles and Leo Hart, spent the week-end with Mr. and Mrs. Nelson Dunn, Mr. Dorfman's brother of Mrs. Dunn, with Mrs. Dorfman and their two sons, were en route to Boston after attending the San Francisco Exposition.

E. W. Graves Rites In Abilene Thursday At Home of Sister

Funeral services for E. W. Graves, 68-year-old photographer who died in a local hospital last Wednesday night, were held Thursday afternoon, 3:30 o'clock, at the home of a sister, Mrs. W. N. Henderson, 645 Kirkwood Avenue, Abilene.

A former Abilene resident, Graves worked for a number of years at Post. Falling health resulted in him moving to East Snyder about nine months ago.

Rev. H. C. Gordon, assisted by Rev. I. A. Smith, conducted final rites. Pallbearers were Roy Robertson, Oscar Greer, Will Curry, Dick Rowland, Charley Roberson and R. G. Graves.

Funeral arrangements were in charge of Odom Funeral Home, with burial in Abilene's Cedar Hill Cemetery.

PIGGLY WIGGLY at SNYDER Now Under New Ownership and Management

Folks, We Came to Town on the Run

Wednesday morning marked the starting of a new regime in the Snyder Piggly Wiggly Store when a new owner and manager took charge of the popular food-buying establishment.

I come to Snyder with a desire to be a good citizen, and a determination to make myself useful to the community in all its endeavors.

Of course, we came to town on the run, with lots of things to do in starting our new relationships in Snyder.

There will be no shake-up in the force of Piggly Wiggly—all the boys who have been "regular equipment" at the store will continue to give you that famous Piggly Wiggly smiling service.

Drive up, folks... hitch your "hoss." Get down, come in... and there'll be a friendly handshake and a cordial smile from New Citizen—

C. V. MORRIS.

Martin News

Mayme Lee Gibson, Correspondent
Every farmer in this community was damaged by the recent floods, wind and hail. Some lost garages, some henhouses, windmills, barns. Several house roofs were damaged, many turkeys and chickens were killed. Tom C. Davis lost a milk cow, killed by lightning. Mrs. Marvin Lemons lost 90 chickens, the largest number lost by any one family. Most of the farmers have planted their cotton over—too late, some thought, so feed was planted instead.
Guests in the S. H. Musgrove home have been Mr. and Mrs. Lewis Smith of the Canyon community. Mr. Smith's parents from the Plains and Mrs. Billie Morgan of Hot Springs, Arkansas. It had been 40 years since the elder Smiths and Musgroves had met. Mr. and Mrs. Davis White of Snyder were also Sunday guests in the Musgrove home.
Mr. and Mrs. Wray Huckabee visited their daughter and her husband, Mr. and Mrs. Morris Collier, in Midland.
Herman Huckabee has gone to Savannah, Missouri, for eye treatments.
Week-end guests in the Guy Glenn home were Mr. and Mrs. C. Church, Mr. and Mrs. Ira Stanley, Mr. and Mrs. Britt Baker and Elaine Jones, Mrs. C. R. Sherrell and Laurel Sherrell from Merkel; Mr. and Mrs. C. W. Ramsey and Bobby Ray of Tahoka.
Mrs. Allen Armstrong has returned from Ft. Worth, where she was called to the bedside of her mother. She was accompanied by her son, Donald, and daughter, Mrs. Tom Brooks. Their mother and grandmother were improving when they left her.
Week-end guests in the Marvin Lemons home were Mr. and Mrs. Howard Hogue of Brownfield, Mr. and Mrs. Byron Wren of Colorado City and Mrs. Nellie Blair of Snyder.
Robert, Henry, Truett, Don and Cornelia Gibson of Shallowater spent the week-end in the home of their uncle, G. D. Gibson.
Mrs. Willie Gibson returned home Wednesday from a week's visit with her parents in Paris.

Another Word For It

The recent disastrous flood is already showing its silver lining.

Many farmers, convinced that cotton, at the best, will not yield too much this year, are venturing farther into the field of diversification than at any other time in recent years. Diversification is a big word that has hit stumps here and there. Why not just say, then, "home-living"? Then we'd have a real word for it!

No matter under what name the time-honored subject proceeds, however, the fact remains as sure as little bugs make big ones, that West Texas must live at home if she lives at all.

Scurry County, sad to say, is slowly dropping behind in the procession of West Texas counties that depend on hogs, chicken, turkeys, dairy cows, goats, truck gardens and good horseflesh. While other counties count their prosperity in terms of dozens of eggs, pounds of butterfat and price per hog-pound, we continue to measure Scurry County prosperity only in terms of bales of cotton.

If the flood can make that measurement just one of many ways in which we judge our year-round prosperity, perhaps the property and crop damage will not have all been washed down the Colorado River.

The Farmer's Pledge

The Times has clipped such an encouraging short declaration by Theodore H. Lampe, titled "The Farmer's Pledge," that our readers would be done a grave injustice if it were withheld from republication.

"Do you want to see your neighbor succeed as well as yourself," Mr. Lampe asks. "Then take this pledge:

"My family shall eat no substitute for what we can raise on the farm. We shall serve an abundance of eggs, butter, milk and meats raised on our own farm on our own table.

"We shall campaign against any substitutes for butter, lard or other farm products and vigorously encourage our neighbors to do likewise."

"If every farmer will make the above pledge, it will increase consumption of our products 10 to 15 percent and values of farm products at least that much. Complete farmer consumption of farm products will increase consumption more than all the export trade, and set an example for our city cousins."

Editorial of the Week

NEWSPAPER POLLS IN TEXAS

From *The Capital Observer*, Austin:

Here's an idea which we pass along free of charge to papers everywhere away from the immediate vicinity of the capitol where all thinking is more or less tinged with too close contact with the political situation.

What Texas needs right now, along the line of politics, are a number of polls by newspapers which get out among the people, preferably the country weeklies. Do the people of Texas approve, or disapprove, of the end product of the 46th Texas Legislature? Do they want their taxes written into the Constitution? Do they want to pay a sales tax? Are they willing to pay a sales tax if it be shown that a sales tax is the only way? How much more liberal do they think pensions should be? Or do they think pensions are sufficiently liberal, or too liberal?

From a purely academic standpoint, this column would like to see the results of several such polls; and no doubt members of the Texas Legislature and Governor W. Lee O'Daniel also would like to see them. It might be interesting to the governor, furthermore, to ask whether the people think he should call a special session to finance pensions; whether the people think everybody who thinks differently from the governor is either a tax dodger or a professional politician!

And the governor should be willing to put his faith in newspaper polls; the polls almost uniformly predicted his election when nobody in politics thought his election possible.

Men's Sports Clothes

Talkative Tillie says if sports clothes for men continue to become more bizarre and comfortable, it won't be long until one cannot tell the difference between a man in the summertime and a man enjoying the summertime.

To the Short Course

To the Short Course they went! Scurry County, as usual, sent her full share of boys and girls, men and women to the annual farmers' event at College Station. As long as the popular summer gathering majors on better farm practices—not more regimented farm practices—it will serve Texas in the future as it has done in the past.

PURRING THE CAT IN THE BAG

When workers at a Petersburg, Illinois, flour mill missed a "mama" cat and kittens last week in the plant, a search was instituted immediately for the mouse catcher, but nowhere could they find either cat or kittens. . . This week a Peoria, Illinois, customer wired that "a car of flour received o. k., but contained cat and kittens which were not ordered." . . And that, flour mill employees opined, ought to be literally putting the cat in the bag!

COUNTY FARMERS OPTIMISTIC

County farmers who have been working early and late to get 35,000 flood-levelled acres of cottonlands replanted in Scurry County before July 1 are rather optimistic—despite the barbs of skeptics—about the prospect of harvesting an average cotton crop this year, if they are blessed with favorable conditions and a late fall.

Determined that their acres shall produce fruit for the harvest, farmers are getting into the swing of weed mowing season with such a vim that county fields will probably be cleaned out and in good shape two weeks from now, although in some sectors of the county ground has been "too wet to plow" until the past few days. . . We hardly ever think of calling weeds by any other name out here in West Texas where the outlaws of the vegetable kingdom can cause farmers some anxious moments at a crucial time; but state officials in California and eight Northern states, who helped enact new type weed laws last year, are racking their brains for a high-sounding name to replace that of weeds in order that farmers will care to get rid of them.

Although the law is very unpopular, every state except Mississippi has long since passed statutes requiring that weeds along public highways and in certain agricultural areas be cut before they go to seed. During the past eight years attempts have been made to popularize weed eradication by setting up "weed districts" within counties of some states, but farmers the nation over have reached the conclusion that they should be left alone with their perennial weed killing problems.

THEY HARNESS VOLCANOES

Volcanoes in Italy's 20-square-mile "Valley of Hell" area in Tuscany are being harnessed by ingenious Italian scientists to provide electricity for railroads and factories in Northern Italy, since the entire nation is sadly handicapped by lack of coal reserves. Almost 2,000, living in perhaps the most dangerous land on earth, are engaged in digging the 1,000-foot-deep steam wells and running huge turbines that in turn provide electricity for over 800 northern Italian industrial plants.

Live steam for what is doubtless the world's most unique electrification project is piped from the volcano wells to tanks that in turn convert water already stored into steam for turbine power. By-products in the "Valley of Hell" turbine plants obtained from the live steam surging from the earth's bosom include 8,000,000 tons of borax, carbonic acid and other chemicals. Workers in the Tuscany Valley electrification project last only a few years, but the entire set-up is one of Mussolini's prized "self-sufficiency" industrialization projects.

EXPROPRIATED OIL LANDS

U. S. oil company officials saw in the return to Old Mexico this week of Ambassador Najera new hope for settling the dispute over expropriated American oil lands in the near future, since Najera intends to arrange for some type of agreement with President Cardenas before returning to the United States. . . At the moment, Najera can exert plenty of pressure with Cardenas, since General Portirio, who is backing Avila Camacho for president of Mexico, is promising U. S. oil men prompt settlement of expropriation claims if Camacho is elected. . . Najera realizes Camacho must be stopped, or else Mexico's highly overdone industrial revolution will—and already is—falling.

POTATOES AREN'T FATENING!

The British Potato Marketing Board last week hired eight "potato girls" dressed in scanty shorts to convince plump housewives that potatoes aren't fattening. . . Slightly jittery over 2,000,000 men under arms in Germany at the moment for "summer maneuvers," British officials are bending every effort to sell the British public on low-cost foods in order that the army and navy can have plenty to eat—if war breaks loose over madhouse Europe.

ANOTHER YELLOW SCOURGE

Experts predict the good earth of war-gutted China will soon be inundated by another disastrous flood, due to the Yellow River's new course, cut out last year, being far too narrow and shallow to take care of the annual rains that start in July. . . Countless coolie farmers who inhabit the Central China areas controlled by the Japanese will doubtless suffer tremendous losses in life and property if the Yellow River goes on a rampage this month.

COTTON HOUSES BEING BUILT

"The untiring search for more cotton uses marches on," F. E. Lichte, cotton gin specialist of the Texas Extension Service stated Monday, "with cotton fabricated houses being tried out now in an effort to hasten consumption of the fleecy staple. . . That more cotton can be used in America is evidenced by the many industrial plants willing to use cotton materials in various ways if researchers can make cotton fibers stand up to required specifications. . . We seem to be long on ideas for using more cotton, but short on ways and means to make the product stand up where fiber strength is concerned.

During the alterations in Europe, we, too, are doing big things, in a quiet way. The sky has been repainted in a New York planetarium.—Detroit News.

LIONS SET TO MEET TONIGHT

An evening of fun, food and fellowship will be on tap for Lions Club members at the ladies' night program to be held at Dermott Park tonight (Thursday), 8:00 o'clock, announce W. W. Smith, H. A. Lattimore and Hadley Reeve, committeemen.

A feature of the program will be installation of new officers for the fiscal year that began Saturday. Inclement weather made it necessary to postpone the installation from two previously set dates.

String band numbers will precede installation of new officers. Accord music will be followed by the address of the evening, to be given by R. S. Covey, superintendent of Sweetwater schools.

Aspermont Shots Claim Dr. Wylie; Burial In Snyder

The Times learns as it goes to press that:

Dr. D. C. Wylie Jr., 41, under a charge of murder in the fatal shooting of Dr. D. L. Dodd at Aspermont, died early Wednesday night in a Stamford hospital. Funeral services will be held this (Thursday) afternoon, 5:00 o'clock, at the First Methodist Church, Rev. H. L. Thurston, assisted by Rev. I. A. Smith and Rev. J. B. Rowan, will conduct final rites. Maples Funeral Home will be in charge of funeral arrangements, with burial in Snyder Cemetery.

Survivors include his widow, a seven-year-old daughter, Mary Lou Wylie, a brother, Dr. John Wylie, CCC camp surgeon in Wyoming, four half brothers of Dallas, and his mother, Mrs. D. C. Wylie Sr. of Dallas. Mrs. Wylie is a former Snyder resident.

Funeral services for Dr. D. L. Dodd, 41-year-old Aspermont physician who died Friday night of gunshot wounds, were conducted Monday afternoon, 3:00 o'clock, at the First Baptist Church, Aspermont. Rev. J. B. Rowan, pastor, officiated. Maples Funeral Home was in charge of arrangements for burial in Aspermont Cemetery.

Dr. Dodd was widely known in Snyder and Scurry County.

Dr. Dodd was the victim of a blast from a .410 gauge shotgun in the hands of Dr. D. C. Wylie Jr. according to findings of Justice of Peace E. B. Featherston. Dr. Wylie's father was a Hermleigh resident for a number of years.

Facing murder charges filed by T. E. Knight, Stonevalley County attorney, Dr. Wylie is in a Stamford hospital in a critical condition. He is suffering from a 22 calibre bullet wound just below the heart. He was found at his home, wounded, shortly after the fatal shooting of Dr. Dodd.

Cook: "Did the company say anything about the cooking?"

Maid: "No, but I noticed them praying before they started eating."

Nutting: "You've got a pretty place here, Joe, but it looks bare yet."

Cutting: "Oh, it's only because the trees are so young. I hope they'll have grown to a good size before you come again."

"I'm glad to find you as you were," said the old friend. "Your great wealth hasn't changed you a bit."

"Well," replied the candid millionaire, "it has changed me in one or two things. I'm now 'eccentric' where I used to be impolite; and 'delightfully witty' where I used to be rude."

No Need to Try This on Yours

This picture was taken, not at a circus, as one might suppose, but in the factory grounds of an electric refrigerator manufacturer. The obliging elephant is balancing his full weight of over four tons on the top of a 1939 Frigidaire to demonstrate the great structural strength of the one-piece steel cabinet. The testers could have accomplished the same result with several tons of bricks, but they found it a lot more fun to use the elephant. The above scene is entirely genuine, and no trick photography of any kind was used.

JUNE REVEALS MORE BUILDING COMBINES HIT COUNTY GRAIN

That the building trend is on the upgrade in Snyder following the recent wind and water disaster is evidenced by June building permits totaling \$6,600, members of the City Council learned at their Monday night meeting, presided over by Mayor H. G. Towle.

Building permits for the year to date total \$109,000.

Bills approved at the Monday night meeting amounted to \$2,963.-22. June water collections were \$1,839.57, while tax collections for the month were \$210.57.

Ray Dickson Getting Acquainted With Job

Ray Dickson, new Chamber of Commerce secretary, who assumed official duties Saturday, has been busy this week getting acquainted with farmers, ranchers, business men and others of the county, and getting acquainted with the office routine of his new position.

W. R. Bell, president of the Chamber of Commerce, announced Wednesday that a meeting of the board of directors will be held at the organization's office Friday night, 8:00 o'clock. All directors are urged by Bell to attend.

POLLARD at Snyder Garage

SPOTTED RAIN STRIKES AREA

Spotted showers that gave Snyder 1.5 of an inch rainfall Saturday night were heavier in some portions of the county.

Some damage from washing rains was reported from a small area west of Snyder, and several scattered communities received three-fourths of an inch to an inch of moisture.

As a whole, the light rains will help young feed and cotton, some of it planted since the recent flood and hail.

Revival Feast Seen Under Brush Arbor

An old-fashioned brush arbor, erected on the site of the school building that burned recently, is the setting for the revival meeting that began at Ennis Creek Sunday night under direction of Rev. John R. Denning of Big Spring, widely known radio and pulpit evangelist.

"A revival feast is anticipated," declares Rev. C. E. Leslie of Hermleigh, pastor, who is in charge of the singing. "We invite the general public to come and join us in the blessing of this old-time gospel series."

Thursday night of this week, by popular request, the evangelist will preach on "Present World Events, and Their Relation to the Second Coming of Christ."

LOOK at Your Eyes

AND CHECK THESE POINTS!

- Are Your Eyes Bloodshot?
Bloodshot eyes are indicative of overworked eye nerves and muscles. This condition can generally be corrected by wearing glasses fitted by a competent and efficient optometrist. He knows how to correct eye defects.
- New Wrinkles Around Your Eyes?
You can stop them now! Wrinkles are generally caused by excessive or continuous squinting due to defective eyesight. Eliminate the cause for wrinkles by consulting an optometrist at your early convenience.
- Eyes Appear Strained?
Do you often have headaches? Both conditions are often due to poor vision. The most efficient remedy for these "maladies" is a pair of properly prescribed glasses.
- Eyes Tire Quickly?
If the ordinary routine of every-day life, including the reading of standard-size newspaper of book type, tires your eyes, you should consult a competent optometrist. He can tell you if you need glasses.

IF YOU HAVE ANY OF THESE SYMPTOMS—CONSULT A COMPETENT OPTOMETRIST
