Margaret Faulkner of the extension department of the American Red Cross, operating out of the St. Louis, Missouri, office, has been named instructor for the Red Cross in the home nursing program. Up to 30 women may be enrolled in each class for instruction, Mrs. Boren reports.

Scurry County cotton ginnings for the 1943 season, climbing steadily day by day, stood Wednesday afternoon at 6,402 bales.

Guessers Scarce

Guesses on Scurry County's 1943 cotton crop were abundant this week, but no person who placed a guess on probable production will allow a quotation this week. With some 6,500 bales ginned to date for the 1943 season, majority of crop observers believe "about 65 per cent of the present crop" has been gathered, but will venture no definite guess above 10,000 bales—if that many.

Meet Footballers In Free Tilt Friday

Friday afternoon Snyder's Tigers are slated to meet the Colorado City Wolves in a full length scrimmage football game—second of the season for the Tigers.

The locals made a remarkable showing Friday evening at Roby, when they held the Lions to a scoreless tie. This happened after the Roby team gave Merkel a round touncing.

No admission prices will be assessed for Friday afternoon's clash, and sports fans of the entire county are expected to turn out en masse for the grid clash.

The Tigers, directed by Captain Bobby Hicks, have been undergoing rigid training this week in preparation for Friday afternoon's encounter.

Trial of Trio for Goat Confiscation To Be Lion Treat

Treat of the year for Snyder Lions and their ladies will be the hilarious trial this (Thursday) evening, 7:30 o'clock, in the county courtroom of Lions Ed Stahl, J. E. Blakey and Johnnie M. Ammons on charges of "willfully and with practical cut-throat skill" of exterminating "Victory," the club attendance goat.

Lions Roy Shahan and Lee T. Stinson form the prosecuting team for the case, and defendants will be represented by the firm of Sentell & Beard, attorneys extraordinary in such cases.

Judge E. O. Wedgworth will preside at the bench, and the barrister of Deep Creek and its tributaries promises an "unfair and partial hearing" for the three culprits.

Lions and ladies expect the trial and combined ladies' night attraction to prove a sensation. The courtroom is due to be jammed for the case, and only lack of space forbids letting the public "in on" the widely discussed network of evidence.

During the course of the trial and program, a paper sack lunch will be served attendees—including even the accused, in accordance with regulations to keep prisoners well fed under the unusual circumstances discovered.

City Officers to Purge Snyder of Homeless Dogs

Snyder's city officers are this week declaring unrestricted warfare on stray dogs within the city limits, and warn that dozens of homeless and flea-bitten "poaches" will soon be exterminated.

People who have been in the habit of bringing dogs, cats and other animals from the country are first warned, as a starter, to cease bringing them to the city limits and turning them loose.

Second, the unrestricted warfare on dogs will touch a lot of people who keep several barking, snapping dogs on their premises. City officers point out that it is ridiculous for people to harbor any and every stray pup or dog that wanders to their homes.

Those who have dogs to report are urged to contact Simon Best, city marshal, at once, or Al Preston, city sanitation officer. While it costs the city money to exterminate stray dogs, "poaches" without homes will be disposed of in short order.

Snyder, as has been repeatedly stated, has far too many stray dogs menacing public safety and decency, and proper measures will be taken at once to correct the evil.

Too, both city and rural residents are warned to cease from "dumping" dead cats, chickens and pups in vacant lots, back alleys and the like. People should always cremate or bury such animals deep underground.

The stray dog purge slated for Snyder is scheduled to reach all parts of town, and the whole-hearted cooperation of every Snyder resident is asked in the campaign.

Caliche Goes Down On Paving at Bridge

Caliche is going down rapidly this week on the two blocks of 25th Street west of Snyder's U. S. Highway 180 concrete bridge.

Tigers Hold Roby Squad to Scoreless Tie In Friday Tilt

In Snyder's first matched football game of the 1943 season, the Tigers, at Roby Stadium Friday evening, held the highly touted Roby Lions to a scoreless tie.

The non-conference clash, witnessed by a large number of Snyder football fans, and an unusually large number of Snyder teachers, was played clean cut all the way through. Snyder scored more first downs than Roby, but Tiger squadmen, sense in the first half of the game, made several bad fumbles.

Bobby Hicks, Tiger squad captain, reported to one injured in Friday night's classic. Tommy Major sustained only a slight nose injury.

The Tigers had another surprise for local fans, in that no substitutes on the squad were utilized.

"Ravaged Earth" Show Proceeds to Go to War Chest

Sponsored by Snyder's Will Layne American Legion Post No. 181, the famous Mark L. Moody motion picture show, "Ravaged Earth," will be presented here Wednesday evening of next week for entertainment lovers of Snyder and Scurry County.

Mark L. Moody, an American who lived 23 years in China, and who filmed the actual scenes of Japanese invasion, is well known in Texas and the South.

Profits from "Ravaged Earth," it is announced, will go to the county's United War Chest campaign. It will be shown here at the Harley Sadler tent theatre.

In making the shots from which "Ravaged Earth" was conceived, he had to resort to various stratagems in order to avoid detection by the Japanese. Most of the filming was done secretly, some of the shots being made by secreting the camera under his coat and exposing the film through a buttonhole. Others were made by the use of a periscope which enabled him to photograph the scenes over his shoulder.

After he completed the films, they were concealed in bamboo fishing poles and smuggled out of China and brought to the United States, where they were blown up to professional 35-millimeter size, edited, musical score added and a narration made by Knox Manning, well known radio commentator.

"Ravaged Earth" is the terrible but true story of the atrocities committed by the Japanese in China. It shows for the first time how the Japs fight. It tells the truth about what our boys are up against in the Pacific.

Willard Jones, Sworn to and subscribed before me this 8th day of October, 1943.—T. A. Boren, Notary Public.

Poem Eulogizes Life Of County Boy Who Died In Plane Crash

The following poem, written by Minnie Lee Williams of Hermleigh, is dedicated to Howard Etheredge, who died in a plane crash several weeks ago, while on his way home to visit his people on a furlough from the service of Uncle Sam:

Howard Etheredge was a fine young man
Who died in a plane crash on sacred land.
He was laid to rest beneath the sod
To await the coming of his God.
He was serving his country in a worthy cause,
Trying to help lick some enraged cutlaws;
He was sergeant over a bunch of guys
Who are fighting to protect the land where he lies.
Howard gave his all for the land he loved,
And is now resting in peace with the Lord above;
He did all he could to protect our land—
Like all will do who is a true American.

There are others, too, who are working hard
For the love of their land and their Lord;
But let's pray they will be spared to come back—
So won't you buy bonds to back the attack?
If all will do their share as Howard did,
They'll help our president fasten the lid
On three of the worst criminals the world ever knew—
And, folks, this means you and you and you!

So please think of our boys across the foam,
Who are anxious to hurry back home;
They are giving their life's blood to hasten the day—
So lend your money to help in the fray!
And when our boys get back from over there,
I'm sure you will be proud you did a share
To help defeat the Axis and defend our sod;
Then we'll join to sing praises to our blessed God.

Maternal Deaths in Texas Still Too High Says Health Officer

"Despite the development of scientific procedures that definitely reduce the hazards of child-bearing, maternal deaths in this country continue to remain much too high," Dr. Cox said today in a statement on maternal and child health in Texas.

"For example, during 1942 there were 404 deaths from this cause reported to the State Department of Health as having occurred in Texas alone. A review of these deaths shows that many of them were preventable. This is a tragedy which must be corrected."

It is an encouraging fact, however, Dr. Cox said, that during the last 10 years the ratio of maternal deaths to the number of live births in Texas has dropped from 7.6 to 3.8. This shows a marked progress in the prevention of maternal deaths consistently in recent years. In actual figures, during 1942 there were 12,775 live births in the state with 494 maternal deaths, while in 1933 a total of 103,895 live births resulted in 835 maternal deaths.

"A factor in keeping our maternal death rate at its present level is the failure of prospective mothers to realize their greater safety in placing themselves under the continuous supervision of a good physician throughout pregnancy," Dr. Cox said. "The value of this type of care cannot be over-estimated. Until this attitude on the part of expectant mothers is changed, maternal deaths will not reach the minimum which today is possible. In short, the individual has a definite responsibility to secure for herself that high professional care which is today available."

Senator and Mrs. Pat Bullock spent the week-end in Austin on business.

Lions Will Attend Zone Meeting at Lamesa Oct. 21

A number of Snyder Lions are scheduled to attend the Lions Club zone meeting that will be held next Thursday evening, October 21, at Lamesa, it was announced at Tuesday's weekly luncheon in the Manhattan Hotel.

Doris Mae Bley, Dot Rea, Doris Glen Willis and Janie Sue Jones, Fluvanna girls, sang "There'll Be Blue Birds Over the White Cliffs of Dover" and "If You Please."

Announcement was made that Colorado City will meet Snyder's Tigers Friday afternoon, 3:00 o'clock, at Trier Stadium in a non-conference football game. Admission will be free.

Motion for acquittal of the three alleged criminals, charged with disposing of the club goat, Victory, was made by one of the culprits, but died for lack of votes.

Announcement was made that the trial, therefore, against the disposers of Victory would be held this (Thursday) evening, 7:30 o'clock, in the county court room. Foy Wade, D. P. Williams and L. A. Chapman are members of the program committee. Edgar Taylor was named chairman of the arrangements committee.

Plans for Scurry County's United War Chest drive, beginning October 20, are complete, it was revealed.

Dr. Worley of Lubbock was a club guest Tuesday.

Had You Ever Thought

Stop signs in Snyder's business district, Mr. and Mrs. Motorist, mean just what they say, and slow signs mean that you must obey traffic regulations.

Negligence of our boys, girls, men and women in disobeying such signs will not be tolerated further. Had the thought occurred to you that your obeying traffic signs, stopping when the sign says stop and slowing down when you meet a slow sign, may cause other drivers to start obeying the law?

Please make sure to always drive slow through church, hospital and school zones.

Cotton Snood

Typical of the simple, certain-to-please things you can make at home these busy days is this knot-stitch snood of mercerized cotton. This particular style requires only two balls of mercerized crocheted or knitting cotton, and less than a yard of ribbon. Instructions for making a wide variety of models are obtainable everywhere, making it easy for milady to be the "tops" in style.

Mrs. Leland Herod and her mother, Mrs. John Green, spent the latter part of last week in San Angelo with relatives. They were accompanied by Mildred Herod, who also visited with relatives.

Employment Will Be Stabilized by Control

An employment stabilization plan, designed to provide the fullest use of manpower resources of Scurry and other counties in this area, will go into effect Friday, E. C. Logsdon, area director of the War Manpower Commission, Abilene, announced yesterday.

The plan, as proposed by the WMC provides for stabilization of employment by controls to eliminate wasteful turnover of labor, reduction of unnecessary labor migration and the direction of workers most needed in the war program.

HOW TO CURE THAT STICKY IRON

Don't "cuss" at a sticky sole plate on your electric iron. Here's an easy cure. Heat the iron, then rub the iron over a piece of paper sprinkled with salt. This removes starch or other substances. Then wax the sole plate by rubbing paraffin or beeswax over it. Finally remove the excess wax by running the iron over a clean piece of paper. Burnt starch may be removed with fine steel wool when iron is cool.

OTHER HINTS ON IRON CARE

- 1 Never iron over buttons, snaps, zippers or hooks and eyes. Hard objects scratch the sole plate of the iron.
- 2 Use extreme care to avoid dropping your iron. You may break some vital part that is impossible to replace.
- 3 Be sure iron is cool before putting it away. And don't wrap cord around the hot iron.
- 4 Take good care of your iron cord. Don't let it kink. Pull out plug by grasping plug, not the cord.

FIREMEN TAKE PRIZE MONEY AT CISCO MEET

First Place in Pumper Race and Second in Six-Man Hook-Up Copped by Snyder Team

Snyder's Volunteer Fire Department emerged last Thursday afternoon with first place in the pumper race and second place in the six-man hook-up race at semi-annual gathering of the Midwest Firemen's Association at Cisco.

The Snyder team for the pumper and hook-up race, composed of Doc Bynum, Roy J. Porter, Jim Hartley, Howell McClinton, B. H. Connally and N. W. Autry, marked up first time of 23 seconds flat in pumper events, and time of 17.1 second in the six-man hook-up race. Albany tallied time of 14.6 seconds in the six-man event.

Colorado City and Baird had a ladies' auxiliary team each that competed in pumper and hook-up events.

Business sessions held last Thursday afternoon were well attended. In the array of speakers, Chief N. W. Autry of the Snyder Volunteer Fire Department gave a report on the state convention.

Rev. W. B. Hicks of Baird, brother of the Snyder dentist, Dr. J. G. Hicks, and pastor of the Baird Methodist Church, brought the principal afternoon address. Chaplain for the Baird department, Rev. Hicks also worked as a member of the Baird team in competitive events.

All member towns, Chief Autry of the Snyder department reports, were well represented, and a new member, Moran, was secured.

Merkel was unanimously elected to host the spring semi-annual gathering.

Following registration and concert by the Cisco Lobo Band, Rev. E. A. Black, chaplain, pronounced invocation. Mayor Edward Lee of Cisco gave the welcome address, and John Mansfield of Merkel responded.

Royal entertainment and a beautiful "feed" were provided last Thursday evening by the Cisco Fire Department at Lake Cisco Park. The firemen's ball concluded the semi-annual convale.

In addition to Snyder team members listed previously, other Snyder firemen who attended the Midwest convention were Ivan Gatlin, Melvin Newton and Snyder department chaplain, Hubert C. Travis.

Soil and Water Conservation Raise Calf Production

Here's a scene on the range of Gordon Stone, a rancher and co-operator with the Martin-Howard County Soil Conservation District, which joins the Upper

Colorado Soil Conservation District of the south. A soil and water conservation program is being carried out on the ranch, which has reduced stock from

40 to 28 head per section. As a result, calf crop has increased 80 to 95 per cent, and weight of calves marketed has increased from 375 to 500 pounds each.

World Peace Move Gains Favor When Senate Group Acts

A discreetly worded resolution that pledges the United States to join with "free and sovereign" nations to establish and maintain international authority with power to preserve the peace won 7 to 1 approval by a Senate foreign relations sub-committee at Washington Wednesday.

Apparently assured of approval by the full committee, the measure will be introduced formally tomorrow by Chairman Tom Connally of Texas and may be ready for Senate debate—possibly in somewhat revised form—by the middle of November.

The measure, recommended over the objection of Senator LaFollette of Wisconsin, is a simple Senate resolution which does not require House action. The sub-committee thus ignored the House-approved Fulbright "lasting peace" resolution which called for Senate concurrence, although generally the two are similar. The full committee will consider the new proposal next week.

What this country needs right now is day clubs for night workers.

Soil District News Notes

Grass is the stockman's crop. His cattle and sheep are the means of harvesting and marketing that crop. Nature gave us a wide variety of excellent grasses; covered the land with it to insure a place for it to live; gave it methods and types of growth to help it open the soil, hold back the water, and make the most of the limited amounts of rain. Nature also intended that the grass grow high enough to warm in winter and cool in summer. The grass was also meant to have leaves enough wherein it could make food for the building of new roots and seeds and plants.

It was intended that these grasses be used by grazing animals. Buffalo, deer, antelope and other wild animals used the grass, and plants and animals alike grew and maintained themselves. All the wild grazing animals were on the move, however, grazing and moving on. Huge herds of buffalo came through in the spring, moving north, and back in the fall, going to winter grounds. Grass had a chance to grow while they were gone.

Why not consider how nature meant this grass to be used? Certainly we can't economically use this grass in the way nature did, but we can give it all the benefits that will show an increase in net return.

A decrease in stock numbers to the point where some grass is always on hand is probably the first step. Next the use of pastures under a definite rotation system whereby each pasture has a rest period in each season over a period of several years use.

Of course, the livestock bring in the cash return, but give them plenty of grass and they will do the rest.

Restoring of World Cotton Market Will Be Sought by Group

Seeking a restoration of world cotton markets lost with the outbreak of that war, industry representatives from growers to shippers met in Washington Wednesday with various federal officials who are developing post-war plans.

They conferred with Edward R. Stettinius, undersecretary of state; Acting Lend-Lease Administrator Bernard Knowlensberg; and Ray Smith, Department of Agriculture official in charge of post-war agricultural programs.

Major Burr Jackson of Hillsboro, chairman of the Texas state-wide cotton committee, said the group told Smith that a post-war program should contemplate an American export market of four to six million bales.

He said they discussed with Smith the necessity of providing sufficient acreage allotments to supply the domestic demands as well as the export cotton.

The cotton group also discussed with Smith a proposal which has

Country Butter To Be Graded by New Regulations

New government regulations requiring all country butter to be sold by grade may inconvenience farm homemakers of the county at first, but should lead eventually to the marketing of a higher quality product.

Estelita Rabel, county home demonstration agent, explains that the same grade which apply to creamery butter apply to country butter. These U. S. grades are AA or U. S. Score 93, A or U. S. Score 92, B or U. S. Score 90, C or U. S. Score 89. Butter scoring less than 89 is known as cooking grade or "no grade" butter.

Butter is scored and graded according to flavor, texture, color, salt and body, the specialist says. County Extension Service agents have butter score cards and can give farm families additional information about producing a high quality product and preparing it for market.

Producers may score their own butter or they may get others to grade it, but in any event the producer is wholly responsible for his butter meeting the score given it. Miss Rabel says. It is not necessary that the grade be stamped on the wrapping, but each container should show the weight and the name and address of the producer.

Practically no farm families sell more than 1,000 pounds in a single calendar month, so they do not receive a subsidy on butter they produce.

If a producer's butter is consistently scored above 90, it may be approved as "standardized" by the Texas Extension Service, and the producer may sell it in 4-H cartons. Information about "standardizing" may be obtained from county home demonstration agents. All 4-H cartons long have been recognized by Texas consumers as a sign of high quality.

A middle-aged woman lost her balance and fell out of a window into a garbage can. Chinaman passing remarked: "Americans very wasteful. That woman good for 10 years yet."

It has been made that the world's cotton markets be divided among the staple producing nations of the world in a manner like that contemplated for wheat.

Major Says All of Texas Heroes Did Not Die at Alamo

Scurry County's United War Chest drive, which opens here Wednesday, October 20, will not fall short of the \$6,100 quota assigned the county for the 18 worthy agencies, if letters from our boys overseas prove a barometer.

The following is a letter received by Mrs. J. Tom Padgett, Coleman, from her son, Major James T. Padgett, with the Second Battalion, 142nd Infantry of the 36th Division, that will be of interest to all Scurry County folks with boys overseas. The letter follows:

"My Dearest Mother: Your son is all right and as safe as conditions will permit, as I am keeping down and using my shovel. Yesterday I sprained my ankle running for a fox hole and it pained me very much, but it is better today.

"I have it taped and can get around with a cane. I found a cave in a mountain and have been living in it since yesterday. Although the noise was terrific and I answered the enemy 30 or 40 minutes.

"Some of the boys gathered what straw and I had a very comfortable bed. Texas people are o. k. and all of the heroes did not die at the Alamo. You will know about it although I can't say it at this time.

"Mother, you don't have to tell a person to pray where I am. There are two things you do automatically. Pray and dig for life. I guess both are essential. You can't possibly visualize what I have done and seen. The Coleman people, for example, haven't the remotest idea what their own boys have done for them. We are doing satisfactorily and will keep in touch with you. Love, JAMES."

Senate Acts to Slash Government Expense

In a "we mean business" mood, the Senate appropriations committee served notice on government departments and bureaus Wednesday that it intends to carry out Congressional economy demands paralleling the administration's drive for new billions in wartime revenue.

The committee voted to enlarge its staff of expert investigators for closer scrutiny of money requests and one committee member, Senator Thomas (D-Okla.), said the action meant that "we're through voting blank check and lump sum appropriations."

Higher Subsidy for Milk Producers Set

The War Food Administration announced Wednesday in Washington an increase in the minimum rates of subsidy payments offered dairy-men during October, November and December, in an effort to encourage greater production of milk for war needs.

The minimum rate for whole milk was increased from 25 to 30 cents per 100 pounds and the rate for buttermilk from three to four cents per pound. The maximum rates remain unchanged at 50 cents for whole milk and six cents for buttermilk for this region.

Overweight Oil Undermines Your Car

Why Lightest grades of oil are made safe for you by changing to Winter OIL-PLATING

Any oil that has been doing its best in your car for a while back, will be badly overweight this Winter. Everything ever said about not being caught with overweight oil goes double today on account of rationing. Your battery has been undercharged, because your car now runs fewer miles per start. Your gasoline has been wasted by the drag of overweight oil. Your engine has been abused because it hasn't been warm steadily enough for ideal lubrication. Your car could approach the end of its rope with any overweight oil apt to become jelly-like. Before Winter causes that, go light.

Whatever you do, change oil for lightness. At the same time though, you can make the whole big change to an OIL-PLATED engine, by getting popular-priced Conoco Nth motor oil—just as light as needed. OIL-PLATING is applied to inner engine surfaces as closely as chrome plating on your bumpers. The "magnet-like" properties of a Conoco Nth synthetic are the basis of OIL-PLATING. No plating would all drain down to the crankcase fast. It can long remain at its topmost point to safeguard the very first starting stroke. And right after that, even the lightest Conoco Nth oil assures an extremely strong normal type of fluid oil film. Oil film and OIL-PLATING are both present to rebuff wear, and that's how your engine can go through a long Winter—and a long War—always using its lightest possible Nth oil economically. Change at Your Mileage Merchant's Conoco station today. Continental Oil Company

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

Mrs. P. E. Price, County Resident 40 Years, Passes

Mrs. P. E. Price, 86-year-old Scurry County resident and wife of the late D. N. Price, passed away Tuesday evening, 8:00 o'clock, in a Corsicana hospital following a three-day illness.

Born November 20, 1861, in Navarro County, Mrs. Price and her husband moved to Scurry County from near Channing, on the Plains, in an early day. Mrs. Price had resided in Scurry County 40 years.

Mrs. Price went to Corsicana only last week, and intended to make her home with a niece. Stricken ill Saturday afternoon, she was taken to a Corsicana hospital Saturday evening.

Funeral services for Mrs. Price will be conducted this (Thursday) afternoon, 3:00 o'clock, at the Snyder Methodist Church. Rev. I. A. Smith, Snyder Methodist Church pastor, will officiate.

A long-time member of the Snyder church, Mrs. Price had been active in church work until frail health forced her to confine her engagements. In his lifetime, Mr. Price gave considerable amounts to Methodist kingdom work.

Odum Funeral Home will direct arrangements, and interment will be made in Snyder Cemetery.

Waste of Time. Bernard was generally in trouble. Finding that words had but little effect upon his child, the father resorted to sterner measures.

A neighbor, watching him chastise the boy, noticed with admiration that Bernard gave no outward indication of pain.

"Don't you ever cry when you're beaten, Bernard?" he asked.

"What's the use?" retorted the small boy. "The old man's deaf."

Honesty As Far As It Went.

There was a crash, and a ball came sailing through the kitchen window and landed at the housewife's feet. She quickly rushed to the door, only to find the street deserted.

About half an hour later a timid knock came on the door, and the scared voice of a small boy said: "Please, ma'am, here comes father to mend your window."

Looking up the street, she saw a man with a piece of glass approaching the house, so without further ado she returned the ball to the boy and praised him for being so honest.

It did not take the man long to repair the window. Then he turned to the housewife.

"That'll be \$1.50."

"What!" she exclaimed. "Wasn't that boy your son?"

"Bless you, ma'am," said the glazier, "ain't you his mother?"

Drive for War Chest Special Gifts to Be Finished This Week

N. M. Harpole, chairman of Scurry County's United War Chest special gifts committee, hopes the special gifts campaign will be finished this week—next—as a prelude to the opening next Wednesday morning of the county United War Chest campaign proper.

Chairman Harpole believes approximately 50 per cent of Scurry County's \$6,100 quota in the United War Chest drive will come from special gifts. Special gifts are made up of donors who contribute \$25 or more for the drive.

Any person who would like to be a special gifts donor, and who may not be contacted, is urged to contact Harpole at once. Efforts will be made to not overlook anyone in the gifts round-up.

Working with Harpole in the special gifts drive are: R. H. Odum, R. J. Randalls, J. O. Stinson, C. M. Wellborn, Maurice Brownfield, Buster Cauble and Harrie Winston.

Names of special gifts donors will be carried in The Times at an early date.

Mrs. Vanderburg, a 1938 graduate of Hermleigh High School, states she and her husband, assisted by their one-year-old daughter, Davida, are wheat farming and feel their duty lies in "feeding our brother and other brothers and sisters in the service."

Boren Says Average Farmer Can Feed Twenty More Fighting Men by Gains

America's soldiers, sailors and marines must be the best fed fighters in the world.

Enough additional meat, milk and eggs can be produced on the average farm in this community to feed 20 fighting men for an entire year.

So states Clyde Boren of Winston Feed Store, Purina merchant of Snyder, who is sponsoring a "Food for Victory Crusade" which has as its purpose the production of additional food so vital to our armed forces, war workers and fighting allies.

This additional food, the Purina merchant maintains, can be produced without increased livestock numbers—simply by applying better management, more thorough sanitation and more accurate feeding to the cows, pigs and chickens now on farms.

As his contribution to the war effort he is now helping farmers of the Snyder territory to help them evaluate their feeding operations with a view of stepping up food production to take care of 20 additional soldiers. He is using as guides a series of approved management practices which have been checked by the United States Department of Agriculture and Office of War Information.

Supporting his estimate that the average farmer can feed an additional 20 fighting men, the Purina merchant submits the following: Three out of 10 pigs die before weaning time. Better care of sows and pigs, adequate sanitation and better use of feed can result in two extra pigs per litter. From seven sows, farrowing twice a year, this would amount to 7,000 additional pounds of live pork—enough for 20 fighting men.

Better care of chicks and layers, adequate sanitation and disease control, proper management and best use of feed can increase egg yields from 110 eggs per year, the present average, to 180 eggs. On an average

Mutt Herod Says He's Even Prefer Wyoming to India

In a letter to his wife, Private Leland S. (Mutt) Herod, with an air corps group in India, expresses some thoughts that bring the war, and Scurry County's forthcoming United War Chest drive, close to home.

Excerpts from Mutt's letter follow: "I am now in India and if it were not so hot I would like it fine here. The natives are friendly, but are beggars. They ask every American soldier for cigarettes and take anything you will give them.

"We work every day, but have Sunday off. I like it here because we have a service club, which is very nice. We have writing desks, radios, victrolas, pool tables, ping-pong and nice easy chairs and American magazines and papers.

"This is some country," the Snyder boy concludes, "but I will take Texas and I would take Wyoming—and that's saying a lot."

A man went into a bar and ordered a Martini, drank it, chewed the bowl up and threw the stem over his shoulder. He continued this for about six Martinis and noticed that the bartender was staring at him.

"I guess you think I'm crazy, don't you?" he asked.

"I sure do," replied the bartender, "the stems are the best part."

OPEN LETTER To Poultry and Livestock Owners

SINCE there's not enough protein feed to go around, we must stretch our present supply to produce all the meat, milk and eggs necessary for VICTORY.

This means we dare not waste precious feed on unthrifty livestock or poultry. We must cull unprofitable producers — save more pigs — stamp out disease and parasites — prevent costly losses.

We know from our many contacts that most of these production "accidents" can be prevented. We are convinced that our food goals can be reached without additional labor or expense, and with the feed we now have, simply by plugging unnecessary production leaks and stopping easily-preventable loss and waste.

Accordingly, as our part in the "Food for Victory" effort, we have volunteered for "active-duty" in the service of feeders of this com-

munity to help stamp out such wasteful Production Saboteurs.

We will gladly assist in such feed-saving practices as culling chickens — worming pigs — disinfecting houses, birds and animals against parasites and disease — checking feeder and watering space, etc.

We also offer a helpful war-time production survey of your livestock and poultry, based on a series of practical production guides suggested and recommended by both national and state agricultural authorities.

This "feed-stretcher" service is offered to every feeder in this community regardless of the feed he is using. Nor will you be obligated in any way. We only wish to share with you and other patriotic Americans the important task of winning the War!

Barrel Scraping

Indication that we, as a nation, are getting down to the bottom of the manpower barrel is evidenced on all hands by calls for family men to the colors before Thanksgiving.

Drafting of family men, of course, is inevitable, but such course of action means we need a lot more fighting, and considerably less talking, to get this war won and over with.

Vanishing Butterfat

For the past several weeks, as Snyder dairymen will testify, people here and elsewhere have been, with justification, worried over the imminent milk shortage, and the dangerously low level to which supplies of butter have dipped in this area.

Despite theories our economic leaders may advance, there is going to be no way to get more milk from cows—either dairy or farm—until producers are allowed a fair and reasonable profit on their product.

Digging in to Win

All indications in the European theatre of operations point this week to the fact America and the United Nations are only now beginning to really fight—in the face of tougher and tougher going—and that our boys are digging in to win with the type of spirit that has made the American soldier great.

Naturally, American casualties will grow more numerous and heart-breaking as we force the enemy nearer extermination, but the soldiers on the front and the folks back home are certain by now that there will be no turning back.

United War Chest Drive

Scurry County's United War Chest Drive gets underway here Wednesday, October 20, with a quota of only \$5,100 to raise for 18 worthy agencies.

"If you were there, you would know what every penny of the drive is needed for," a soldier who holds high army rank said aptly this week.

Editorial of the Week

THOSE FREE GOVERNMENT ADS

U. S. Treasury Secretary Henry Morgenthau Jr. has suggested to the newspapers that they obtain from that department some nicely printed, in colors, placards to mail each and every business and professional man who helped to underwrite the series of ads that helped to put over the Third War Loan drive.

The Herald agrees that these men and women should be thanked by the newspapers, who had to get out and solicit the ads—and we might add that the Treasury Department could not miss out much to go to some trouble to thank the business men and women of America for paying for these ads that the government should pay for.

The Herald appreciates to the fullest the fine cooperation of the business firms in Brownfield who have paid for these ads—a few perhaps a bit grudgingly, but in the main good sports.

You doubtless have heard a great deal about the truck production program, designed to relieve our overloaded transportation system, but little is said about difficulties encountered today.

Current Comment

By LEON GUINN

Editor's Note—Expressions or opinions contained in the column are those of the writer and do not necessarily reflect the opinions or policies of The Times. Current Comment is merely carried as a feature column.

Now that our two-hemisphere offensive is beginning to get underway, look for the major push now to be in construction of airplanes, especially bombers.

If plans are pushed by Marvin Jones, War Food Administration chief, the high cost of living should show an appreciable drop within the next 60 days.

Some war industries are so desperately in need of skilled help they are holding out promises of post-war employment as a bait to get new blood into their organizations.

Guarantee of post-war employment to our soldiers, air corps members, marines, sailors and coast guardsmen, in fact, assumes a place of first importance in drafting America's plans for peace.

Answer to why OPA reduced the value of all "B" and "C" gasoline ration coupons to two gallons each can be found in the greatly reduced manufacture of motor gasoline in order to meet military requirements.

Needless to say, this column has been opposed to gasoline rationing from the outset of the program, but would agree with national leaders the present coupon reduction would be fair and square—if honestly needed to win the war.

When we find state and federal taxes have left only empty gaps, we in Texas, especially, are going to wonder where money for our school systems, etc. is to come from.

There naturally isn't too much to be said about the matter, but recent shipment of German war prisoners to the United States includes unusually large numbers of anti-Nazis and convicts forced to fight who gladly surrendered at the first opportunity.

WTCC PLANKS APPROVED BY LOCAL GROUP

Willard Jones Respected Snyder's Director in Region Organization At Thursday Conference

Meeting last Thursday evening of Scurry County Chamber of Commerce directors was marked by re-election of Willard Jones as Snyder's West Texas Chamber of Commerce director for the ensuing year and approval of all WTCC referendum planks but one.

C. B. Downing of Albany was nominated by the Scurry County chamber for district WTCC director. Planks of the WTCC referendum voted on last Thursday evening follow:

At the board of directors and referendum assembly meeting we favor judging and awarding the \$1,000 prizes in the Inter-Community War and Preservation Contest. For this plank Snyder has been an entry in at Midland and has been running the contest, which was inaugurated almost two years.

With the view of stimulating balanced and improved agriculture production, we favor the inauguration of an Inter-County Agricultural Production and Improvement Contest. For this plank:

We favor urging the Congress of the United States to declare itself for a free enterprise, free competition, private initiative and private financing system of national post-war economy; and we petition the Congress of the United States, first, when the victory has been won, to direct the termination of war-time rules, regulations and restrictions imposed upon the people and upon business, together with the liquidation of such war-time boards, bureaus and commissions making such rules; second, to liquidate, as far as practicable, all government agencies competing with private business, commerce and industry not necessary for the defense of the country or for continuing equal protection to employee and employer; and third, to foster equal opportunity for all private citizens in the production and flow of commerce free of government subsidy. For this plank:

We urge the executive board to investigate the practicability of establishing a permanent West Texas Chamber of Commerce Washington Bureau and pledge ourselves to paying a 15 per cent increase in membership quotas if so established. Against this plank:

We call for more positive independent and united action of Texas' elected administrative officers in the national freight rate parity movement. For this plank:

We favor creating an agricultural legislative and regulation committee for the purpose of studying production allotment provisions and of attaining allotment equality for West Texas producers. For this plank:

We favor advocating and working for passage by the Legislature of a statute dividing Texas into three State Highway Commission districts, providing for the appointment of one commissioner for each district and providing that the removal of any commissioner from his district

Poem by County Soldier Boy Urges Home Folks Write

Sergeant Roy M. Hanson, a Scurry County youth attached to Army Air Base 420th Bomb Squadron, Clovis, New Mexico, sends a poem, "A Forgotten Soldier," that Times readers will enjoy. The poem follows:

My life in the army is not easy, The days are tiresome and long; But I brighten up with happiness When I hear the mail bell gong.

We fall out in front of the mail house To see if we're lucky today— Everyone eager and nervous As though we were drawing our pay.

I can hardly wait until the H's Are next to come from the rack— And, oh, what a down-hearted soldier When I find none in the stack.

Slowly I tread back to the barracks, Kicking the rocks from the lane, Wondering if the night mail call Won't accidentally call my name.

You can't imagine how a letter Will make a soldier stand And brag on all the people Who are back in his dream-land.

Of course, I hear from the homefolks And a brother in the service, too— But what I want is a letter From you and you and you.

I write you and tell you my troubles, How I miss you day and night; So please just take off an hour And write and write and write.

I promise with all my honor I'll answer every one— And spell your name on a zero With my .50-caliber machine gun!

Travis Fambro Wants Times. Private Travis Fambro, son of Mr. and Mrs. T. J. Fambro, stationed at Bryan Field for the past six months, asked that The Times be renewed at once, "because a guy can't keep up with his Scurry County friends any other way." Travis, in the U. S. U. S. Air Corps, was formerly stationed at Lubbock Army Flying Field.

during the term of office shall vacate his appointment. For this plank:

In reaffirming and approving the over-all war program of the West Texas Chamber of Commerce the Scurry County Chamber of Commerce preferred provisions five (urging Congress to declare itself for a free enterprise, etc.) and eight (favoring creation of legislative and regulation committee to attain allotment equality for West Texas producers).

Thrift is always important, but doubly so in Wartime. When you save and conserve the life and wear in the things you own, it means that our factories can turn out more war goods for our fighting men, less replacements for civilians.

At last we have the answer to that old one about why does a chicken cross the road. Because there were not cars coming either way.

No Draft Board Meeting. Scurry County's Selective Service Draft Board did not hold a weekly meeting Monday evening of this week and consequently the only list of classifications carried in this week's Times are those made at last Monday evening's meeting. List of classifications made last week will be found elsewhere in this week's Times. The best advice: Don't give it! I see no evil; I speak no evil; I hear no evil. Boy—am I a sissy! "You sold me a car two weeks ago." "Yes, sir." "Tell me again all you said about it then. I'm getting discouraged."

Women at Work for a Railroad at War America needs millions of women to take over war jobs... to stay with those jobs... to help speed the day when our fighting men will return victorious! Santa Fe women are answering this call all along the line. Right now thousands of Santa Fe women are doing war-vital work to "keep 'em rolling." Many are pitching into "unglamorous" jobs... greasing engines, operating turntables, welding shovels, working in blacksmith shops, and cleaning roller bearings. They take pride in their work, too! Many of these women have husbands, sweethearts, brothers or sons in the armed forces. Many came to work to replace a Santa Fe relative who had been called into service. Others took jobs because they knew womanpower must step in when manpower goes to war. We of the Santa Fe salute these women who know that what they are doing is vital to Victory!
