BABSON DISCUSSES PRICES

Gloucester, Mass., August 16.—An important event has happened here at the world's largest fishing port. There has recently been a radical break in the wholesale price of fish. When it first happened last month, we did not take it seriously, thinking it was due to a temporary surplus which sometimes happens in the summer and when everyone wants to go fishing! But the market's recent action raises very important questions in which every reader of this column should be interested.

WHAT HAPPENED AFTER WORLD WAR I

Following World War I, commodity prices in general climbed from an index average of 260 at the time of the Armistice in 1919 to a high of 337 in the summer of 1920. From that date, they began to fall constantly each month for a year, so that by August, 1921, they had gone off 183 and were down to 154. This was less than half their price in August, 1920. From this low, they slowly recovered to 215 in the spring of 1923, after which they again slowly declined with seasonal and other fluctuations to a low of 94 in February, 1933.

From this low, they climbed to 166 in April, 1937; again fell throughout 1938 and 1939. From this point, they gradually climbed upward until they again reached 166 in May, 1941. By government controls, the price index level was kept down to about 200 until peace came in 1945. In a general way, fish followed the same cycle with certain variations depending upon how much labor was needed for processing, canning or freezing the fish after it left the boat. Let me now return to my first statement that an important event has happened here at Gloucester, namely, there has been a big break in the boat price of fish.

FISH AS A BAROMETER

Here are the facts: Before World War I, the best barometers of the fish market were cod,—both fresh and salt cod. These sold at around \$2.50 and \$5.00 respectively at that time. During World War I, the prices strengthened and reached a high of \$3.75 and \$7.75 respectively in 1918. Then came a break and the prices fell to \$2.27 and \$5.00 respectively in 1919. They rose again with general prices and then fell off, with up-and-downs, to a low of \$1.50 and \$3.50 in 1922, although they did not reach their lowest prices until 1932. From then on fish gradually increased until last month.

About ten years ago, a new fish became the bellwether. In Gloucester, it is known as "red fish"; but after it is filleted and frozen and reaches the city where this column is published it is known by various names, such as "sea perch," "rose fish" or "white filets". In 1935, this red fish sold for one cent a pound at the wharf. When World War II broke, it was selling at about two cents. From this figure, it climbed to nearly seven and one-half cents. The price has now suddenly broken to three and one-half cents—a decline of about 50 per cent.

WHAT ABOUT CATTLE AND COTTON?

But here is the important point which every reader should note: Following World War I, fish was one of the first important commodities to break in price. It was followed by cattle, hogs, cotton, etc. Shoes, shirts and other manufactured goods fell a year later. As wish led the procession upward before World Wars I and II, and led the procession downward following World War I, the question is whether other commodities are to follow fish again now? If so, this event which is happening in Gloucester should be watched by wholesale buyers of all commodities. If fish is again to be a leader, then cattle and cotton will tumble within a year; while shoes and textiles will tumble within two years.

Because commodity prices begin to decline there is no reason for now being bearish on the stock market. Commodity prices declined almost continuously from 1923 to 1929. Hence, I am still bullish on well-selected stocks.

Navy Recruiter Is Coming To City Monday, Aug. 26

In an announcement from the U. S. Navy Recruiting Station at Abilene, Chief M. N. Fulgham will make a trip to Snyder Monday, August 26, and may be contacted at the Snyder Post Office. Beginning at 2:30 o'clock in the afternoon, he will interview applicants and answer any questions regarding enlistment in the Navy.

This, the communication stated, will be the last trip for recruiters to Snyder this month. Pointing out requirements, and advantages of an early enlistment, the announcement brings to attention of boys the necessity of having parents, sign for them if they are under 21 years of age. Men 17 to 30 may enlist in the Navy and still continue to draw the dependency allowance during active service, and for six months after the official termination of the war.

The new pay scale is now in effect, which amounts to about 50 percent above the war-time rate of pay, and all men enlisting before October 6, 1946, will come under the full benefits of the GI Bill of Rights upon completion of enlistment.

There are over 50 different trades, H. F. Lindsey, Chief Boat-swain Mate, stated, in which a Navy man may specialize.

Men wishing to enlist in the Navy can save a trip to Abilene by contacting Chief Fulgham here Monday.

Veterans Warned On Acceptance of Unearned Checks

The Veterans Administration issued a clarion warning this week to the effect that Veterans who fail to notify the Veterans Administration when they interrupt their training or education and continue to accept Government allowances are subject to severe penalties.

Beginning September 1, a blank form is to be mailed with each check, and the form must be returned to the Disbursement office that mailed the check when a Veteran's training or education is interrupted.

Infringements of this nature, the report states, may be punishable by not more than \$1000 fine or by imprisonment for not more than one year—or both.

Scurry's First 1946 Bale Sold For 32.75 Pound

Starting the ball to rolling in the local cotton market, Sidney Galyean, manager of the Scurry office of the Sweetwater Production Credit Corp., in Snyder, purchased the first bale of 1946 cotton in the county from O. D. Devers here almost two weeks ago at 32.75. The bale was ginned August 7th at Tra and weighed 531 pounds.

Galyean made private purchase of his first bale as a boost to the county's beginning season, and stated that quality and turn-out were both good.

Devers received approximately \$172.00 for the bale, and was also awarded the "First Bale Prize" by merchants of \$43.00.

Mr. and Mrs. L. A. Crenshaw and son Howard Randle were visiting his parents, Mr. and Mrs. Loy Crenshaw this week end. L. A. is working in Coleman.

Fluvanna Church Christ Starting Revival Aug. 25

With Bro. Wallace Gooch, of Dallas, occupying the pulpit for a series of services, the Fluvanna Church of Christ will start a revival meeting Sunday, August 25th, running through September 1.

Both morning and evening services will be held, announcement from Fluvanna states, and the general public has been invited out to hear the instructive sermons.

Morning services, the Times has been advised, will be held in the church, and evening services will be out of doors.

Following an early morning "kickoff" breakfast at the Manhattan Hotel a group of local business men contacted practically every business concern in Snyder to solicit aid for the newly formed Snyder Athletic Council.

A very pleasing and cooperative reception was extended most of the solicitors in each and every business they contacted. The goal to be reached on this drive was to be \$1500.00. At noon August 20, day of the drive, approximately \$1100.00 had been raised and several reports had not been turned in. Several pledges had been made by phone that had not been contacted at press time so it appears that the drive will be a success and the goal will be reached. It is true that some business men were not contacted from some reason or another, but they will either be contacted or they may turn their contribution in to either N. T. Underwood at the Scurry County Chamber of Commerce office in the Snyder National Bank Building or John Blum at his office.

The purpose of the Snyder Athletic Council is to work with the school in developing athletics to their former level in Snyder. It will not specify that funds be used for any one sport, but for a well rounded sports program for both the young men and young women in Snyder High School. It is their purpose to have some activity going on at all times that each student can participate in it some way or another.

This council will consist of three school men and four business men picked from the Junior Chamber of Commerce, Scurry County Chamber of Commerce, Lions Club and Veterans groups. This group of men will control the athletic program from a financial point of view and in so doing relieve the school board and administration of that added burden.

In summing up advantages of the new plan, members of the Council remark that: "The Council wants to thank the citizens of Snyder for their splendid support on this drive. This is a worth-while project that each of us should take an interest in. It appears that most of the City is behind the group and we hope that they will see fit to support us in any way that will aid in getting the stimulated program to working as fast as possible."

Mahon Answers DAV's On Query About Benefits

In answer to a question submitted to hundreds of officials and statesmen throughout the nation on "what they thought to be of first importance to disabled war Veterans," the information to be used as a guide in their deliberations by delegates attending the 25th national convention of DAV in Portland, Oregon, September 2-6, many of the nation's tap-rank immediate reply, a report reveals, that disabled Veterans made the far reaching and influential results of such an organized plan would materially affect the county's disabled Veterans.

A statement made by Rep. George Mahon, in Washington, was forwarded to the Times from Portland, and is reproduced here: "The nation owes much to old veterans, but its greatest debt is to the disabled veteran. The disabled veteran has a right to look to Congress, and for my part, he shall not look in vain. I am the ranking majority member of the seven-man sub-Committee of the House Appropriations Committee which handles all appropriations for the Veterans Administration. In my conversations with General Bradley and others I have stressed the importance of giving first consideration to the disabled veterans of our nation. In view of my key position on the Committee, I feel I can be helpful and you may be sure of my continued best efforts."

Press-time reports from Sheriff Earl Strawn, badly injured two weeks ago when a negro fired a .38 calibre "soft-nose" bullet into his right arm, stated that he was gradually improving, but that he would continue to keep his arm in plaster cast for several weeks.

Commenting on the generous action of citizens and officers coming to his aid and in capturing Floy Wellington, negro charged in the case, Strawn said: "I want to extend my thanks to all of the county officers, Texas Rangers, Highway patrolmen, Fire Department and citizens in helping to track down Wellington. They did a good job."

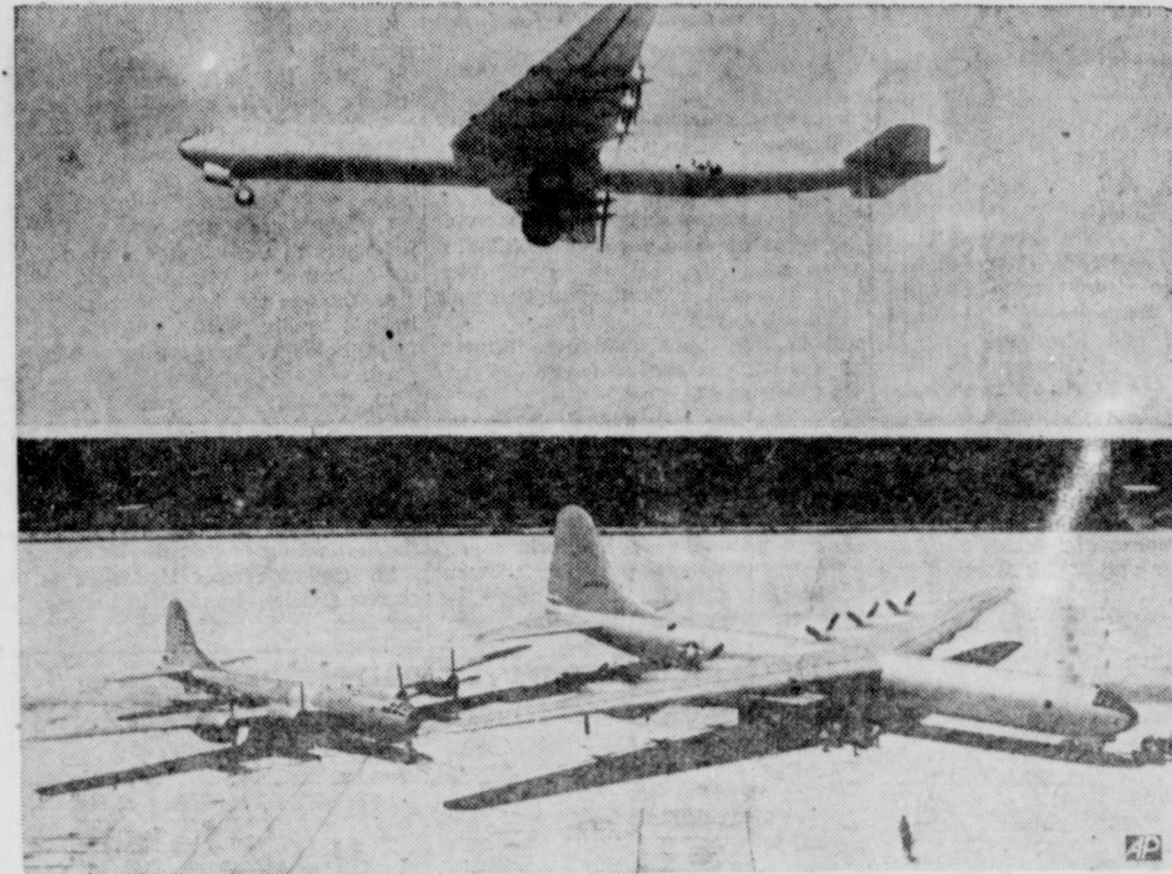

Sheriff Strawn is now at his home, and friends are admitted at any time to see him.

The Farm Security Administration Office To Move

According to Gerald C. Gordon, FSA Supervisor, the FSA office will be moved this week from its location in the basement of the Fair Store to the offices formerly housing the Red Cross in the City County building, known as the NYA building. This building is about two blocks southwest of the City Square.

The move, Gordon state, will take place the latter part of the week—probably Thursday or Friday. Following the move, the office will be open again for business on Monday, August 26th. Those people having business with the office are requested to keep these changes in mind.

Coupons Give Picture Of Sentiment On Trash Haul

It has been said that "nothing can reflect the cohibe of the people better than an expression of the people,"—and that would seem to hold true in the Scurry County Times' recently begun tabulation of the people's sentiment by coupon vote for institution of trash hauling in the residential section of the city of Snyder.

The Times' coupon merely furnished the people a method of expressing their desire for the service, and a surprisingly large number of people have already signed and returned coupons, with a few coming in every day.

Up to press time today, 202 people had mailed or brought in signed coupons. The tabulation is of course unofficial, and no names will be used by the Times. After tabulation in this office, the coupons will be destroyed, and any official action in the matter would be taken up from the beginning, since the Times survey is made for a general check-up to benefit the people themselves.

If you have wondered what those 202 people generally think about securing regular trash hauling in the residential section, we present some of the information. The amounts filled in for payment of trash hauling on a monthly basis, trash to be picked up once each week, ranges from 50c to \$2.50, and when all the figures were averaged, the amount was \$1.60. That means the average person out of that 202 would be willing to pay \$1.60 per month for such a service. Perhaps (Continued on page 10)

Sheriff Strawn Reported To Be Much Improved

Hermleigh Gets First Bale 1946 Cotton Monday

In a telephone message from Minnie Lee Williams, Hermleigh correspondent to the Scurry County Times, she reports that the first bale of 1946 cotton was brought in to Hermleigh to be ginned Monday.

This first bale netted 460 pounds of lint to Anton Freytag, who produced the cotton, and a later report to Miss Williams from Ed Stroble, manager of the Planters Gin Company there, stated that three more bales had been brought in since hte first bale Monday.

Although this first Hermleigh bale is about two weeks behind the first bale in Ira, it is earlier than the past few years in that section.

ARMY SEEKS EVIDENCE OF JAP CRUELTY FROM COUNTY BOYS

A nation-wide campaign to contact 2,661 former American prisoners of the Japanese—discharged Army and Navy personnel and civilians—was initiated this week by the Army in a concerted effort to obtain depositions concerning war crimes and atrocities for use as evidence in the war crimes trials at Tokyo, the War Crimes Branch of the Civil Affairs Division announced.

Both the Veteran's Administration and the Attorney General's office will cooperate with the Army in taking the statements of the ex-POWs. Branch and regional offices of the VA and all Federal District Attorneys have been provided with lists of ex-POWs who have been requested to give depositions, and have been briefed also in the procedure for taking evidentiary statements.

The War Crimes Branch of the Civil Affairs Division, War Department, will act as the coordinating agency for the project. Eight officers from the Legal Section of General Headquarters, Supreme Commander for the Allied Powers, Tokyo, have returned to the United States to supervise the over-all plan. These officers will set up headquarters in the six Army

Master Sergeant Carl S. Hargrove, son of Mr. and Mrs. E. C. Hargrove, 1900 Avenue R, Snyder, a liberated prisoner of war of the Japanese, is a patient at Brooke General Hospital, Brooke Army Medical Center, Fort Sam Houston. Carl has recently been questioned by ranking Army investigators in the mass compilation of evidence to be used in Jap War Criminal trials now going on in Japan and in the Philippines. He has been in Snyder for some time prior to being called back to the hospital for a check-up of his physical condition. He is one of the valiant Americans who survived the "Death March" in the Philippines.

The Colorado City Booster Group Is Coming Aug. 30

In the second day of a wide-ranging booster tour advertising their Annual Colorado City Promies Round-Up, September 4th to 7th, a group of citizens from that city will pass through Snyder, Friday, August 30, and will make a bid for Scurry County fans to visit their big celebration.

The schedule sheet calls for the boosters to arrive here at 3:15 in the afternoon, leaving at 4:15. Towns visited on the second day tour will be Westbrook, Coahoma, Big Spring, Stanton, Midland, Lamesa, on in to Snyder before the return to Colorado City.

World Championship Calf Roping Coming To Midland Sept. 2

Billed as the top Labor Day celebration of the Permian Basin Area, the annual world-championship calf roping contests will be held at Midland on Monday, September 2, under the sponsorship of Midland Fair, Inc.

In the feature event on the holiday card, Toots Mansfield of Rankin will meet Homer Pettigrew of Grady, N. M., in a championship calf roping match. The two rodeo stars will rope and tie 12 calves each for a purse of \$2,000.

Mansfield is the present world's champion calf roping. He held the title for the last five years.

Legion Meeting Slated Tonight

Foy Wade, Vice-Commander of the local post of the American Legion, informed the Times yesterday that an important meeting will be held at the Legion Hut tonight, at which time a "grand feed" and additional business matters will be discussed.

In a recent installation, Elmer Taylor was elected to the place of Commander and Forrest W. Beavers was elected Adjutant, and at the meeting tonight, some committees are to be appointed for work on post projects.

The big feed, Wade explained, should be put over in grand style, and all members are urged to be present.

Softball League In Play-off Tourney

The Snyder Soft Ball League will have a play off tournament this coming Monday and Tuesday nights, August 26th and 27th, at 8:00 p.m. at the High School Stadium.

The teams participating in the play off will be the Lions and the Hermleigh T. and three. A two out of three winner will decide the championship and if three games are necessary another date will be selected for the play off game.

The winner will receive a trophy donated by Mr. Babb of the Lee McMe and Auto Store, Firestone Distributors in Snyder. The trophy is a statue of a Ball Player mounted on a pedestal and polished Wood base. The pedestal has a name on it. This trophy can be seen at the store until the evening of suitable place to engrave the winner's name.

These games will be the last of the soft ball season in Snyder, and a large crowd of witnesses are expected. The games are free and there are plenty of seats for everyone.

Hermleigh Phone Exchange Issuing New Directories

The Hermleigh Telephone Exchange is now sporting a new 16-page telephone directory, just off the press of the Scurry County Times, and printed to conform to orders of Mrs. W. H. McQuaid, manager.

The new directory is dated as of August, 1946, carries 164 tabulated telephone numbers, and advertising represents a number of firms in Hermleigh, Dunn, Inadale, Colorado City, Pryon and Snyder.

Distribution of the books has already started.

Aggie And HD Agents Make Study Of Conditions; Give Out Pointers

County Agent J. N. Caviness and County Home Demonstration Agent Estella Rabel have been busy making a study of general conditions in the county, and give out some good pointers in the following lists that may be of great value to farmers and home makers. Their instructive pointers have been classified in the following manner:

AUGUST IS THE MONTH

For the farmer to—

1. Check wheat bins for insect infestation.
2. Get the barnyard and farm-yard drainage system working.
3. Repair and oil up machinery not in use for storage.
4. Patch roofs in anticipation of fall rains.
5. Plant that Irish potato crop.
6. Cut wood for the winter fuel supply.
7. Build a stock pond or repair the old one.
8. Repair or build new terraces.
9. Check pasture fences for possible leaks.
10. Paint up and clean up for fall.
11. Repair the combine and get it ready for storage.
12. Watch for signs of prussic acid poisoning of livestock.
13. Cull poultry flocks for winter laying needs.
14. Plow fence lines and weeded

Dairymen Say OPA Control Not Needed Compare Prices Against Other Fields

Restoring OPA price controls and subsidies on dairy products will bring back shortages and black markets and cost the consumer more in the long run, representatives of the dairy industry's nine national trade associations told the Price Decontrol Board at a hearing in Washington.

As Spokesman for the Dairy Industry Committee, W. A. Wentworth of New York said that conditions do not warrant returning milk and dairy products to price control on August 20. There are ample supplies, he declared, and prices have not risen unreasonably above levels necessary to absorb the abandoned subsidies.

With the exception of 1942, present dairy supplies for civilians are greater than ever before, he said, and the per person supply is 18 per cent above pre-war levels. Total milk production has risen 16 per cent above the average yearly production before the war.

RUPTURE SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Settles Hotel, Big Spring, Wednesday only, August 28, from 9 A. M. to 4 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge. 6509 N. Artesian Ave., Chicago 45 Large incisional hernia or rupture following surgical operation especially solicited.

places to rid the farm of a fire hazard.

15. Take precautions to keep down flies, ticks, and mosquitoes to protect cattle from disease.

16. Guard against how cholera by vaccinating hogs.

For the homemaker to—

1. Can all possible vegetables and fruits.
2. Plan that fall garden to feed the family.
3. Check up on winter clothing needs.
4. Plan economical clothing for school children.
5. Make plans for enjoying and helping family to enjoy fall season.
6. Begin saving up material and making plans for children's Halloween party.
7. Check quilts for winter use.
8. Make good will by having neighbors in some evening for real, old-fashioned watermelon feed.
9. Change the home schedule to include family picnics, either away from home or in your own back yard.
10. Encourage children to make their own toys, or find some other hobby.
11. Help children assume responsibility by having them care for their own rooms and help with the harvesting and storing of food.
12. Collect recipes that save on scarce articles, to use in winter menus.

Hubert Rea Dies Abilene Hospital

Jeff Hubert Rea, of Hermleigh, Texas, succumbed to a heart attack in an Abilene hospital Saturday night, August 17.

He was a son of Mr. and Mrs. B. Y. Rea of Hermleigh, and was born September 23, 1893 in Scurry County and had resided in Hermleigh until 1945. Since that time he had been ill and was receiving treatment in the Abilene hospital at the time of his death.

Funeral services were held Sunday afternoon at 4 o'clock in the Methodist Church at Hermleigh. Bro. Mason of Hermleigh assisted by Bro. Herring of Snyder, officiated. Burial services were held at the Pyron cemetery with Odum Funeral Home in charge.

Surviving are the parents, Mr. and Mrs. B. Y. Rea, four brothers, Clyde Rea of Abilene, Boyd Rea of Anton, W. C. Rea of Hermleigh, L. B. Rea of Lubbock; also four sisters, Mrs. Eunice Connor of Ropesville, Mrs. Redie Sealy of Snyder, Mrs. Sallie Pankey of Clovis, New Mexico; and Mrs. Hallie Rea of Hermleigh.

ALLAN SHIVERS

To You For

LIEUTENANT GOVERNOR

I know you will be pleased with the type of service Allan Shivers will render. He is really "our kind of folks." He will reflect credit and honor on the State of Texas. A vote for Allan Shivers on August 24th is a vote for a more progressive Texas.

PAT BULLOCK

State Senator, 24th District

Senator Allan Shivers of Jefferson County, leading candidate for Lieutenant Governor, asks for promotion to that important office solely upon the basis of his record of service to his state and country.

He is known far and wide as one of the most active members of the Senate, and his record there is outstanding. Now the senior member of the Senate, he has served as chairman and co-chairman of all its committees. He knows the rules and will carry them out properly, fairly and honestly. He has the necessary experience we need in a lieutenant governor — the official whose principal duty is to preside over the men who make our laws and spend our tax money.

A lawyer, farmer, legislator and loyal Democrat, Allan Shivers waived his exemption and served two years with the Army, during which time he earned five battle stars. He is the only veteran in this race.

Mrs. R.F. Leard Visits In Ada, Oklahoma

Mrs. R. F. Leard visited with her brother, J. D. Brown and family of Shannon, Texas. Their father D. B. Brown of Joshua, Texas, joined them and they motored to Ada, Okla., to visit their sister and daughter Mrs. Edd Castoe, whom they had not seen in 20 years.

It was a happy reunion for father, brother and sister and their families.

Mrs. Leonard Pope is in the St. Mary's hospital at Lubbock, having her eye operated on for cataract. At last report she was doing nicely. We wish for her a speedy recovery.

Man Had Brick In His Stomach For 10 Years

One man recently stated that for 10 years he felt like he had a brick in his stomach. This feeling was due to the lump of undigested food he always had inside of him. He was weak, worn out, headachy, swollen with gas and terribly constipated. Recently he started taking INNER-AID and says the feeling like a brick in his stomach disappeared the second day. Bowels are regular now, gas and headaches are gone and he feels like a new man.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores here in Scurry County.

Your Fall Program For Winter Vegetables Should Be Started Now

Everyone is complaining about high food prices. Why not grow some in your own back yard? It is hard to generate enthusiasm in outside work during August but NOW is the time to take the FIRST STEP, says J. N. Caviness, County Agent.

STEP NO. 1. Cut off non-bearing tomato plants to a point near the ground line where several young sucker sprouts are growing from the main stem. Apply a handful of 5-10-5 commercial fertilizer around each plant and work the ground thoroughly. The young sprouts will grow out into a new top and produce a fall crop of fruit.

Other summer vegetables such as pepper and okra should be refertilized and cultivated to maintain summer and fall production.

STEP NO. II. Remove all vegetable plants that have spent their

period of usefulness and throw them over the garden fence. Then and grass, leaving the ground perfectly clean.

STEP NO. III. If the soil has enough moisture in it to plow or spade up without becoming "cloddy," this should be done immediately after the weeding. If barnyard fertilizer or compost is available, spread it over the surface of the soil and plow under at the time the soil is prepared. At this season there is little danger of damage from the use of this material. It will be of much value in the soil in retaining moisture if the fall season is dry.

STEP NO. IV. What shall you plant first? Only heat tolerant vegetables should be planted in August or September. These are onion sets, mustard greens, or turnips, green beans, Irish potatoes, squash, radish, and cabbage. Leave space for later plantings of cool season vegetables, such as spinach, beets, carrots, and lettuce.

IRISH POTATOES: Select the small potatoes (the size of a fifty cent piece or larger) and treat them with Semesan Bel or Bichloride of Mercury (1-2 oz. to 4 gallons of water) for 20 minutes. Then spread out the potatoes in a cool location and cover them with damp sacks or straw. When the eyes show signs of sprouting, plant the whole potatoes one foot apart in the row. Do not plant in dry soil. Irrigate the open furrows thoroughly, wetting the soil before planting.

CABBAGE: Start the plant bed in August by planting a single row and sowing the seed at the rate of 6 to 10 per foot. When the plants get large enough for transplanting, thinning to a spacing of one foot apart should be done. Adjoining rows can be planted from the seed bed row which must be irrigated as often as is necessary to keep the plants growing vigorously. Copenhagen Market and American Drumhead Savoy are good home garden varieties.

ONIONS: Onion plants are not available at this season but sets can be obtained at most seed stores. By planting onion sets in August or September, fresh green onions will be available throughout the winter season.

GREEN BEANS: Plant the bush

Hausler Resident Of Hermeligh Dies

Thomas Hausler, long time resident of Scurry County succumbed August 16 at the Snyder General Hospital.

Hausler was born April 25, 1872. He moved to the United States in 1901 living in Lavaca County until 1907, when he moved to Scurry County.

Funeral services were conducted at the Catholic Church at Hermeligh, August 17, at 3:30. Father Ballard officiated. Mr. Hausler was a member of the Catholic Church at Hermeligh.

Surviving him are his widow, Mrs. Maria Hausler, and eight children: John A. Hausler of Fresno, California; Mrs. James A. Harrel of Woodville, Texas; Mrs. E. Y. Thompson of Snyder; Mrs. Frank Hunschurser of Corpus Christi, Texas; Mrs. R. R. Hary of Bernerton, Washington; Thomas H. Hausler of Higgins, Texas; Mrs. T. G. Clark of Big Springs, Texas; Mrs. Jim Pantalone of San Diego, California.

Trusky Brings Home Another Prize Saddle

A notice sent out by officials of the Top O' Texas Rodeo and Cutting Horse contest at Pampa the past week states that Trusky, valuable cutting horse owned by Jesse Everett and ridden by Milt Bennett, won the saddle award in the Pampa show.

According to Pampa's tabulation, this makes the fourth time that Bennett and Trusky have defeated Emory Birdwell and his fine mount since Birdwell was given his top rating by the judges in the Pat Stock Show in Fort Worth.

Trusky was taken to the Ranger rodeo this week.

type, using the Stringless Greenpod variety. Be sure that the soil is kept moist during the period of germination and until the plants are 6 to 8 inches in height.

MUSTARD AND TURNIPS: These two "fall greens" grow best in soil heavily fertilized with barnyard fertilizer or compost. For a hundred foot row of turnips, apply 50 to 100 pounds in the open furrow, mix it with the soil, then sow the seed. As growth takes place, thin the turnip plants to 3 to 4 inches apart by using the young tops for "greens."

Loins Club Hear Rev. L. E. Ball And Rev. Creswell

Rev. Creswell, pastor of the North Side Baptist church addressed the Loins Club Tuesday at the noon luncheon, in behalf of Bro. Clifton Rogers, who left Wednesday morning for Houston where he will take up his work as pastor of the Humble Road Church of Christ.

Rev. Creswell mentioned the many activities that Bro. Rogers took part in, which included the Loins Club, Scout Master of Troop 35, leader in promoting football, basketball and other school athletics, assisted War Bond and Red Cross drives, active in Chamber of Commerce work, leader in youth center activities and was always ready and willing to serve as Master of Ceremonies at dinners and other gatherings.

Mr. Roy Camp, evangelist singer at the First Baptist church revival, sang a solo, "Sunrise," and was accompanied at the piano by Mrs. Camp.

Rev. L. E. Ball of Sweetwater, who is holding the revival at the First Baptist church addressed the Loins Club on "What Kind of Men Do We Need In The Post War World," which he stated is an opportunity for men to do their best. Rev. Ball said, it is a time when we need men of conviction, that is, men who stand for something; it is a time when we need men that are obligated, obligated to their home, family and country; he further stated we need men of courage, that is men who see their duty and courage to do it; and lastly he mentioned the need for men with faith, faith in his business his fellowman, his church and his God.

Tom Bean, new Athletic director of Snyder Public schools was introduced and he expressed his "thanks" to the Club and the public for the splendid backing that has been given the newly formed

Allan Shivers Runs For Lt. Governor On Qualifications

Senator Allan Shivers, leading candidate for lieutenant governor, is seeking election to that office solely on the basis of his qualifications of wide training and experience.

In every way, Allan Shivers, the legislator, lawyer, farmer and World War II combat veteran, is exceptionally qualified for the No. 2 state office. As a state senator for a number of years, he established an excellent record of public service. A loyal Democrat and native Texan, he is a man of highest character and splendid personality. The majority of Texans believe he will reflect credit and honor on the State of Texas.

Shivers, a war veteran of two years overseas, during which time he earned 5 battle stars, did his best to make this a free country for a free people. He will continue that course as lieutenant governor.

He has conducted a dignified campaign, free of mud-slinging and personalities. His platform appeals to every Texan: Better farm-to-market roads, better salaries for school teachers, enlarged public safety facilities, a thorough public health program, redistricting of the state for legislative purposes, greater aid to the aged, real assistance to war veterans, reorganization of the pardon and parole system, a first class university for the colored, and equal responsibility from both labor and management. He is against a sales, state income or any other form of new taxes.

Allan Shivers will be the lieutenant governor of all the people. In addition to integrity, sincerity and ability, he has a background of training and a record of public service already performed which gives him the right to ask for promotion.

Scientists At Long Last Solve Wheat's Origin

AP Special Washington Service

COLLEGE STATION, —AP—One of nature's greatest mysteries, the origin of the common bread wheat, which has puzzled agricultural scientists for centuries, has at last been solved by two scientists of the U. S. Department of Agriculture working in cooperation with the Texas and Missouri Agricultural Experiment Stations.

This discovery has a decidedly practical application in wheat breeding, since it supplies a means of avoiding sterility in crosses of the emmers, or feed wheats, and durum, or macaroni wheats, with the common bread wheats. Heretofore, plant breeders have found it difficult to transfer the high resistance to several diseases possessed by certain varieties of the emmers and durum to the common wheats because of differences in chromosome numbers. These differences often cause the hybrids to be partially or completely sterile.

In the new breeding procedure the practice is to first cross the emmer or durum variety with *Aegilops squarrosa*, a wild grass native to Southwest Asia. The resulting sterile hybrids are then treated with colchicine to make them fertile through doubling of their chromosomes. The new fertile forms have the same chromosome numbers as the common wheats and they produce highly fertile hybrids when crossed with them.

It had long been generally conceded that there was no wild plant sufficiently like our common wheat to have given rise to it by direct descent. The only wild wheats belong to the *elinkorn* and *emmer* families, neither of which could have been the direct ancestor because both have lower chromosome numbers than the common, or bread wheats.

Many scientists have worked on the problem of the origin of common wheats, and have made contributions toward its final solution. As early as 1913, E. S. McFadden, USDA associate agronomist in cereal crops and diseases, now assigned to the Texas Agricultural Experiment Station, but then of South Dakota, started experiments to test a theory that the common wheats were "fixed hybrids" of two wild or cultivated emmers and some other wild grass, presumably some species of *Aegilops*. He ultimately arrived at the conclusion that *Aegilops squarrosa* was the only species that could have contributed all of the characteristics that differentiate the common wheats from the emmers.

It was deduced by McFadden that a "fixed hybrid" of the wild or cultivated emmer with *Aegilops squarrosa* should produce *Triticum spelta*, a primitive form of bread wheat. He finally obtained a hybrid between these forms in 1931, but the hybrid was completely sterile. Nevertheless, it had all of the characteristics of *Triticum spelta*, as he had anticipated. In order to make this plant fertile, it would be necessary to double its chromosome numbers, and no easy method of doing so was known at that time.

A few years later, Dr. E. R. Sears of the USDA, working at the Missouri Agricultural Experiment Station, developed a very effective and simple method of doubling chromosome numbers in sterile cereal hybrids. McFadden and Sears working together, had, by 1941, produced the fertile fixed hybrid desired, and it was in every respect a typical *Triticum spelta*. They published a preliminary statement on their work in 1944, and a final paper in 1946.

Meanwhile, several other scientists, working in foreign countries, had reached essentially the same conclusions as McFadden and Sears, but had not succeeded in synthesizing the species. G. N. Pathak had suggested from a study of morphology of the chromosome of *Aegilops* species that *Aegilops squarrosa* might have contributed seven of the twenty-one pairs of chromosomes found in the common wheats.

Just recently word has been received that one of the eminent scientists of war-torn Japan, Dr. H. Kihara, had reached the conclusion, based on morphology and chromosome pairing in the sterile hybrids, that *Aegilops squarrosa* had contributed the third set of seven pairs of chromosomes of the common wheats. Kihara had published his conclusions in a preliminary article in Japanese in 1944 without knowing of the work done by McFadden and Sears, which was reported the same year.

STABILIZING WAGE DOLLARS

Writing in an official AP of L publication, William Green recently urged the 7,000,000 members of his organization to "stabilize their wage dollars by helping to increase volume of production which can wipe out scarcities and the danger of runaway inflation." An accompanying cartoon drives this thought home with its caption: Bring prices down by producing the goods!

If Mr. Green is able to make this message felt he will be doing a signal service for all the American people, as well as union labor. For, as the New York Herald Tribune puts it, "Here in the simplest terms is the fundamental answer to the whole problem of inflation—production." There are, of course, other factors involved, such as excessive government spending which in itself is a strong inflationary influence. But production is at the root of everything.

Our industrial potential is the greatest on earth by a wide margin. We have, in addition, a superbly

DAWN OF A NEW ERA

No one denies that we are now entering a new world in many respects—not all, of course—but certainly hundreds of angles change in everyday life, in business modes, and to be sure nothing has changed more than the voting methods of the American people.

Sitting down to a desk in a newspaper office and glancing over the hundreds of exchanges among weekly and daily papers and magazines, is, we believe, one of the most forceful concepts of this reasoning brought out today. Many newspapermen have accepted the challenge from "a changing world," and meet the challenge broadly—some, it seems, fail to move forward in step with the trend of the times. To fail to keep abreast, to us, appears futile; it is a demand that must be met.

This change is drastic—and good!

A few years ago rural sections, American citizen dwellers in those areas, received their weekly paper, took for granted most of the things the editor said about John Doe, who was up for election to some office, and if the editor happened to dislike Pete Buck, or disagreed with his ideas, he could ignore Pete, mention him seldom, if at all, and nine chances to one John Doe was elected. The newspaper had "come out" for John Doe, and as they termed it, "put him over."

Those days are gone forever; a new regime is here.

In these days of fast news, things are different. The farmer who used to be a week late learning what was going on, now gets up in the wee hours of the morning, listens to his radio, does many chores, drives in to town and before the average city man is well awake and can tell you most of the news that has not yet been heard on "main street."

Frankly, this newspaper is glad of that change; it brings the country weekly to its real value to a community; it sets up "fair practice acts" that they must follow to deserve the respect and goodwill of all subscribers. It means that your country weekly has no need to "tear its shirt and pull its hair" trying to elect John Doe and defeat Pete Buck.

On the other side, this new world means, too, that people are voting more and more for a platform that will fit their needs rather than for some particular man. They vote chiefly for what the candidate stands for.

Thus, your country weekly has a defined duty. Not so much a "disguised line of bull" about some candidate's super-fine character (which could seldom be guaranteed as much by the newspaper as it could by his next-door neighbor), but to fairly define as much as possible the platform and aims of each candidate—and then credit all voters with plenty of good judgment to make their own choice. To our way of thinking: "Now we are getting somewhere."

On August 24th the people will go to the polls to settle a number of political races. We have no suggestion on who you should vote for, but we do have a friendly request: "GO OUT AND VOTE FOR SOMEBODY!"

INDEPENDENT STORES ORGANIZE

The independent retail stores of the country are getting set to meet whatever competition the chains have to offer in this postwar period. That is the gist of a recent article in the Wall Street Journal.

As the Journal says, "Significant of the determination to 'keep the pace' is the fact that more and more independent merchants are associating themselves with large central supplying organizations, which, because of their giant size, can offer to their small retail associates merchandising advantages enabling them to compete with the big chain outlets."

Some of these big supply outfits furnish dry goods. Some furnish foods. They all work on the principle of big turnover and small unit profits—which is precisely the principle that led to success for the chains. One of the old-established alliances has more than 5,000 independent stores affiliated with it, thus out-distancing any chain organization.

This is the kind of progress that makes fair competition for all retailers—and guarantees maximum service and economy for the consumer. Chain competes against chain, independent competes against independent—and chains and independents compete against each other. And the customer profits thereby.

No one need worry about the chains driving the independents out of business. The intelligent independent gives the chains plenty of competition. It gets its fair share of the business. And the public benefits all along the line.

efficient distribution machine to take the goods to the consumer once the factories produce them. Retailers, led by the big chain organizations, have been a frontline defense against unavoidable price increases. They have led the war against the black market. But, until adequate production is resumed, their work can be only partially successful.

Price control by government, at best, is but a temporary and incomplete expedient. Rising prices are the symptoms of inflation—not the cause. If we produce the goods, we will have price stability.

Mayor Ratliff Urges Greater Fats-Salvage Effort To Build Soap Stock

Mayor Ratliff knows the why and how of saving more used fats; he'd be a handy-man in any kitchen from what we've learned of his culinary knowledge. This was the opinion expressed yesterday by Lou Metcalf, who interviewed Mayor W. K. Ratliff in his offices in connection with the Government's fat-salvage program. Metcalf is local salesman for Lever Brothers Company.

Metcalf is putting on a special campaign for used fats to help prevent soap shortages. Metcalf quoted Mayor Ratliff as follows: "Everyone should get behind the Government's campaign for more used fats, so that more soaps and other scarce goods, such as fabrics and electrical appliances can be produced, and so that more food fats can be released for the hungry peoples of other countries. I think that no one would willingly waste used fats after learning how essential they are to the daily well-being of each of us. The Government will let us know when to stop. Until then, we must save every drop."

Mayor Ratliff heartily endorsed the assistance being given the Government's fat salvage operations by Lever Brothers Company—makers of Lux, Rinso, Lifebuoy and Swan. That company has just conducted a drive among its employees and the families and friends of its employees to help in the job of saving more used fats. Now they're out to help meat dealers.

MRS. BROWNING'S GROUP WINS FIRST IN COLORADO

Mrs. Alford Browning with her musical Brownies won first place in the Amateur contest at Ruddle Park, Colorado City, Friday night, August 16.

The two contest numbers were "Silver Dew On The Blue Grass Tonight," vocal by C. A. Dacus, and "Lazy Day," by Mrs. Browning and her daughter, Johnnie.

The musical Brownies will furnish the music for the Colorado City Rodeo dances and will accompany the group on the Booster tour, August 30th and 31st. Mrs. Browning will be remembered by many Scurry Countians, as she, with her band, played for the Scurry County Rodeo in 1943.

After the contest Friday night, the Musical Brownies furnished a crowd of 500 with requested numbers. Those playing were Mrs. Browning, Johnnie Reed Ryan, Albert Browning, C. A. and Kenneth Dacus.

Mexico is supposed to be an Indian name for "habitation of the god of war."

Mr. and Mrs. V. L. Stanley of Pasadena, California have been visiting Mrs. Stanley's parents, Rev. and Mrs. O. B. Herring.

Mr. and Mrs. Sterling Taylor visited their son and wife, Mr. and Mrs. Carroll Taylor in Lubbock, Sunday.

Dr. E. Brock Dies In Wichita Falls

Mr. and Mrs. Louie Brock of Hermleigh, were in Snyder the first of the week, and while here informed Times representatives that they had recently returned from Dublin, Texas, where they attended the funeral of Mr. Brock's grandfather, Dr. E. Brock, who passed away in the home of a niece, Mrs. Jennie Wilkes, in Wichita Falls.

Funeral services were conducted at the Harrell Funeral Home in Dublin, with Rev. Oby Nelson, Baptist pastor, officiating. Interment was made in the Dublin Cemetery. Mrs. Brock, the wife, was buried there in 1944, and interment was made of their infant daughter there several years ago.

Dr. Brock was born September 6, 1856, in Arkansas, and with his parents moved to Collin County, Texas, in 1876. In 1877 he was married to Miss Lenora Williamson of Plano, Texas. To this union eight children were born.

Dr. Brock was well known in Hermleigh, having practiced medicine there for many years. He was a member of the Methodist church; a charter member of the Dublin Knights of Pythias lodge, and also a member of Odd Fellows lodge. Earlier he had engaged in the drug business, also grocery business, in Dublin. He moved to Waco in 1896, where he began the study of medicine, graduating from Loyola university in New Orleans. He had practiced medicine in Waco, West, and Hermleigh. He retired and moved to Wichita Falls in 1928.

Survivors are Charles Brock, Yoakum; Marvin, now living in British Honduras; Ernest, San Diego; Fred, living at College Station; Herbert Brock, Hermleigh, and Mrs. W. E. Bell, Wichita Falls. Besides the sons and daughters there are 17 grandchildren, 17 great-grandchildren and one great-great-grandchild.

Shahans Announce Marriage Soon of Daughter, Jeann

Rev. and Mrs. Roy Shahans, San Angelo, are announcing the approaching marriage of their daughter, Roy Jeann, to Kenneth O. Browning on Tuesday evening, September 3rd, eight o'clock, at the Emmanuel Baptist Church in San Angelo. Rev. Shahans, father of the bride, will read the ceremony.

Home address of the Shahans, formerly residents of this city where Rev. Shahans was pastor of the First Baptist Church, is now 104 East 8th Street, San Angelo.

Roy Jeann has a host of friends in Snyder who will be glad to know of her approaching marriage and the privilege of extending her and the family good wishes. Roy Jeann finished high school in Littlefield, Texas, with the class of 1942, and graduated from Wayland Baptist College, Plainview, in 1944. She was active in college social and fraternal affairs, being a member of the girls' quartet; chorus; served on the staff of the college paper, "The Jackrabbit," and on the Yearbook, "The Traveler." She served as president of Gamma Delta sorority two years.

Roy Jeann had her B.S. degree from Hardin - Simmons, Abilene, this month, where she majored in business administration. As in her earlier work in Plainview, she was active at all times in the University: member of the Chorus, Players Club, B. A. Club, and of Beta Mu Kappa. She is now employed in the business office of Hardin-Simmons University.

Kenneth is the son of Mr. and Mrs. Fred H. Browning ofampa, Texas. He graduated from Lefors high school in 1941, entering Wayland, at Plainview, to finish with the class of 1943. He was editor of "The Jackrabbit," college newspaper, was a member of the Speech Club; Band; Chorus; B. S. U. Council; College Quartet; and an active member in the International Relations Club.

Kenneth enlisted in the Army Air Corps and served 30 months, seeing action in the Pacific theatre - on Guam and many other of the islands. He plans to enroll in Hardin-Simmons in the fall semester as a Junior, majoring in Chemical Engineering.

Gregory - Shifflett Ceremony Read August Seventeenth

Evelyn Gregory, daughter of Mr. and Mrs. Robert Gregory of the Cap Rock community, south of Falls, and Ernest Shifflett, son of Mr. and Mrs. Howard Shifflett, of Polar, were united in marriage at the Apostolic Faith Church here Saturday evening, August 17th, eight o'clock, with Rev. Elvis Bishop performing the ceremony.

The bride wore a blue dress with white accessories. For something old she wore a lavalier belonging to her mother, and for something blue she carried a dress-making sheer lace handkerchief.

The out-of-town guests at the wedding were Mr. and Mrs. Dick Gregory of Hillsboro, Texas; Mr. and Mrs. Roy Barrier and sons of Meadow, Texas, and Margie Heath, of Snyder.

MRS. CHARLES KINCAID

LeMond-Kincaid Vows Spoken In Double-ring Ceremony August 15

Marriage vows were repeated by Eva Louise LeMond, daughter of Mr. and Mrs. J. E. LeMond, and Charles Weldon Kincaid, son of Mr. and Mrs. A. C. Kincaid, Thursday evening, August the fifteenth, at eight o'clock.

A double ring ceremony took place at the home of the bride's parents before an improvised altar arranged with a background of fern and white gladioli. Illumination was provided by white tapers burning in branched candelabra under which two large baskets of white gladioli were placed. The couple repeated their vows and knelt on a satin covered prayer bench for the prayer. The Reverend J. William Mason performed the ceremony.

Imogene Webster, of Lubbock, played as pre-nuptial selections, "Ah, Sweet Mystery of Life," "I Love Thee," and "Poem of Love." Then, Miss Webster accompanied Mrs. Robert L. Phifer, college room mate of the bride and also of Lubbock, who sang "I Promise You," and "Because." Miss Webster played Wagner's "Bridal Chorus" from Lohengrin as the Bride party entered the room. During the ceremony, she played Debussy's "Clare de Lune."

Nell Verna LeMond, sister of the bride, was maid-of-honor, Bernice LeMond, other sister of the bride, and Dell Smith, sister of the groom, were bridesmaids. All wore dresses styled after the bride's, and had matching tiaras and mits.

The maid-of-honor wore pink organza and carried a nosegay of blue asters; the bridesmaids wore blue dotted swiss and carried nosegays of pink asters.

Attending Mr. Kincaid as best man was his cousin, J. Floyd Smith of Lubbock. Ushers were Jamie Caviness and William Leftwich. Candles were lighted by Tommy Smith, nephew of the groom, and Jerry LeMond, daughter of Mr. and Mrs. Roy LeMond of Post.

The bride, given in marriage by her father, entered wearing the model gown in which she was crowned university queen of Har-

ding band around a reflector and topped with a satin-covered arch with white wedding bells. White tapers were in crystal candle holders and appointments were in crystal. The three-tiered wedding cake was cut by the couple. Mrs. J. Floyd Smith, of Lubbock, served the cake and Mrs. Ixon Joyce presided at the punch bowl. Mrs. Ethel Eiland and Mrs. Cyde M. Boren assisted in the dining room. Miss Katherine Northcutt was in charge of the register where the guests left their names in the hand-painted bride's book.

After the reception the couple left for a wedding trip to points in New Mexico. For traveling the bride selected a shadow-plaid blue woolen suit with Dolman sleeves and a matching hat with a shell pink plume. Her other accessories were black, and her corsage was the orchid from her bridal bouquet.

The couple will make their home at 1810 Thirtieth Street, Snyder.

Mr. and Mrs. J. D. Reynolds, of Carlsbad, New Mexico, were visitors here last week in the home of his mother, Mrs. A. G. Reynolds. They returned home Friday.

Hermleigh Wins Over Junior C of C; Lions Club Defeats Fire Dept.

By BILL SCHIEBEL

In the regular games on Friday, August 16th the Hermleigh Team beat the Junior C. C. and the Lions Club defeated the Fire Dept.

In the first game the Jr. C. C.'s started right in by making three runs in the first inning featured by Rat Keller's home run. The Hermleigh Team came right back in their half of the inning and scored five runs to go ahead and stay there. In the first of the fourth inning with the score 6 to 5 the Hermleigh team pulled a fast double play to stop a Jr. C. C. rally. Rosen got on first on an error. Gooch Weller struck out. Boren hit a line drive to the second baseman Jodon who made a running stop and fired the ball to first to catch Rosen off the plate. In the last of the fourth Layman hit a home run with one aboard to put the Hermleigh team in the lead. Layman also hit a double in the last inning to score Houston to add to the final score which was Hermleigh 10 and the Jr. C. C.'s 6.

The second game brought the Fire Department and the Lions club together and the Lions emerged winner by the score of 12 to 8. The Lions Club went ahead in the first of the first inning when they scored 9 runs and then scored three more in the fifth to make in a settled issue. Davis the Fire Department pitcher had a fine inning in the fourth when he only threw four pitched balls and retired the side. Morrow filed out to left field on the first pitched ball. Strayhorn watched a ball go past and then filed to the second baseman and Coffee hit a fly ball to the left fielder to retire the side.

Crenshaw relieved Davis in the first of the seventh after the damage had been done to retire the side with three straight strike outs ending the game.

Snyder Girls All Star Soft Ball Club Defeats Sweetwater Girls Team

By BILL SCHIEBEL

On Thursday night, August 15th, the Girls All Star team from the Snyder Girl's League scored a victory over the Bankhead Cafe team of Sweetwater by the score of 9 to 5. The All Star team was composed of members of the teams representing Ira, Fluvanna, Hermleigh and Snyder and the players were picked by the four managers of these teams. The following girls were picked to represent the league in the game with the Bankhead team. Browning, Fluvanna, short stop; Holdren, Ira, pitcher; Davenport, Snyder catcher; Bishop, Ira, 3rd base; Davidson, Hermleigh, left field; Hardee, Ira, 2nd base; Hendricks, Hermleigh, center field; Stewart, Snyder, 1st base; and Grosman, Hermleigh, right field.

The All Star team played excellent ball through the first four innings, both in the field and at bat. Led by Bishop, both fielding and hitting the All Stars got off to a fast start making two runs in the second inning, four in the third and three in the fourth inning to complete their scoring. The Bankhead team was held hitless until Turner got a hit in the fourth inning. Turner pitched the last two innings for the Bankheads and held the All Stars hitless and scoreless. Turner was a former all star basketball player for the Hermleigh High school team for the last few years. Turner also got three of the six hits for the visitors. In the sixth inning the Bankheads started a rally and batted completely around. Their five runs in this inning were not enough to catch up but they gave the All Stars a scare.

The outstanding players of the evening were the third baseman for the All Stars, Bishop from Ira and the catcher Davenport from Snyder. Bishop got three hits for four times at bat and covered third base like an All Star. She made several difficult stops and fast throws to retire runners at first. Mrs. O. E. Hannah of Snyder Davenport caught a fine game and spent Thursday night with her son, had the crowd cheering for her Alton Milkin. She also visited Aunt hustle and spirit. Turner was the High Lannum. Mr. and Mrs. Hub Carmichael, outstanding player for the Bankhead Cafe team.

Von Roeder Club Wins Fast Game Over All-Stars

On Thursday night, August 17 the Boys All Star team was given a royal beating by the Von Roeder Seed Farms Team to the tune of 14 to 0. The Seed Farmers behind the four hit pitching of J. Sterling hit the All Star Pitcher Boren for 14 safe hits many of them for extra bases and three for home runs.

The Von Roeder Team started off fast with a Long Home run by J. Sterling the third man up in the first inning. The hit went over the left fielders head and over the first row of cars. This home run was followed by another round tripper by Thompson the next man up to bat. Another run was scored in the first inning putting the Seedsmen ahead and they were never pushed from there on. The All Stars came closest to scoring when Price got the first hit of the game off of Sterling in the fifth inning. The bases became loaded on three fielders choices only to have men cut down on the base paths. To add to the fine ball playing the Von Roeder team made a bouie killing in the second inning after Rat Keller had gotten on first base on an error by the third baseman, Pat

TO THE VOTERS OF PEECINCT NO. 1:
I am a little late in thanking you for your support in the recent election, but I sure do appreciate everything that was done to help me, to those who did not vote for me, we are still friends. I have lived in Scurry County all of my life, and expect to stay on. According to the local paper of July 25th, 1946, Bisque says he has almost \$10,000.00. So let's all help him spend it on the roads as he says, it is in the Road and Bridge Fund.
If Bisque will work the roads the next two years like he has worked them the last three months they will be in the best shape that they have been in for the last four years.
Respectfully,
Dwight Monroe

OF AUTOMATIC CENTRAL GAS HEAT

You can sleep to the last minute then get up in a warm home

CLOSET-TYPE AUTOMATIC FURNACE

Even plans for a modest cottage today include an automatic central gas heating system. There's good reason. A closet-type central furnace needs little space for its installation. It provides the finest, most healthful kind of heat. And if installed when house is built its moderate cost becomes part of home cost which is spread out over many months or years.

All you do is turn the furnace on in fall and off in spring. In between, you'll enjoy cleaned, warmed, balanced air throughout the house at just the temperature you like. No more getting up to light the fire, then going back to bed to wait for house to warm. No wall sweating. No stuffy air. So why not include Vented Central gas heat in your new home or remodeling plans.

For the cottage where space is limited this closet-type furnace is ideal for installation in small space. It provides clean, warm air throughout the house. It is completely automatic. It is quiet, efficient and costs little to operate.

BUTTER, BREAD, MILK, SUGAR—ALL ARE UP IN PRICE

But

ELECTRIC RATES ARE DOWN

Every housewife knows that overall living costs have gone up and up. But there is one important item in cost of living that has gone down in price—your dependable electric service.

All during the war customers of Texas Electric Service Company used electricity without rationing... without any increase in price. Now electric service costs less than ever.

WHY THE PRICE OF ELECTRICITY IS DOWN

Texas Electric Service Company reduced residential, commercial and industrial electric rates recently. Like other businesses, our costs have risen, but these increased costs have been largely offset by the substantial population and business growth, and greatly increased overall use of electric service. This latest reduction continued the long-established policy of this Company to pass along to its customers the benefits of increased use and savings resulting from technical improvements in electric power generation, transmission and distribution.

Veterans News

Q. How can a veteran get assistance with his unemployment problems?

A. The veteran may consult a veterans employment representative in a local office or in the state central office of the employment service, a local service organization, a school or a community veterans center.

Q. If a veteran is unable to find work, where can he obtain specific information concerning unemployment allowances?

A. Inquire at the public employment office or the office of the unemployment compensation agency in the state or territory in which the veteran resides.

Q. Are there any penalties in case the veteran accepts readjustment allowances to which he is not entitled?

A. Any veteran who knowingly accepts an allowance to which he is not entitled shall be ineligible to receive further readjustment allowances. Also, the law provides for fine and imprisonment for anyone who fraudulently obtains payment or makes a false statement in order to cause allowances to be issued under the act.

Q. Does a veteran who is partially unemployed have a right to readjustment allowances?

A. Yes, a veteran who works less than his normal number of hours and who receives less than \$23 per week should inquire at the nearest public employment office of the state unemployment compensation agency as to his eligibility for partial readjustment allowances.

Q. Can a veteran have a loan guaranteed or insured to buy or construct more than a single-family home?

A. Yes, but one veteran cannot get a guaranteed or insured loan to buy or build more than a four-family home. If more than one veteran is buying, then the basic four-family home is allowed for the group and this may be increased by one additional family unit for each veteran participating; thus two veterans can buy or build a six-family home, three veterans a seven family home, etc.

and Mrs. G. H. Bishop and Mrs. D. E. Holdren attended church at Dunn, Sunday night.

Sunday visitors of Mr. and Mrs. J. Z. Carruthers were Mr. and Mrs. Cliff Kellum and son, and Mrs. Wood of Bethel.

FISH FROM LONE PRAIRIE

—Some of the best bass fishing in Texas can be found in Coleman county, which looks like pretty dry territory on the map. Jack Whitley (left) and Henry T. Peebles, ranch hands, are holding a string of bass, blue gill, bream and catfish caught in one of the county's 2,000 man-made ponds. Originally dug to provide water for stock and domestic use, the ponds now produce so many fish they are being sold commercially. (APPHOTO).

"AAA" FARM NEWS

FARM PRODUCT PARITIES

AS OF JULY 15, 1946

According to figures released by USDA based on a July 16, 1946 report, all crops and livestock are bringing about Parity prices except hay, peanuts and eggs. Hay prices are only 64 percent of parity, peanuts 994 percent and eggs 90 percent. Other crops and livestock are as follows: Wheat 106 percent, Corn 153 percent, Oats 107 percent, Cotton 125 percent, Potatoes 101 percent, Sweet Potatoes 157 percent, Hogs 116 percent, Beef Cattle 154 percent, Veal Calves 124 percent, Lambs 136 percent, Butterfat 145 percent, and chickens 130 percent.

POOR PICKING, BAD GINNING, GIVES LOW GRADE COTTON

Based on price difference in Commodity Credit Corporation loan rates announced May 1946, the difference in price of high-grade cotton and low grade cotton is too great to go unnoticed. When Middling 15-16 is worth \$140 per bale or 28c per pound, other grades of same staple length have the following values:

Good Middling \$142.25, Strict Middling \$141.75, Middling \$140.00, Strict Low Middling \$132.75, Low Middling \$116.75, Strict Good Ordinary \$104.75, Good Ordinary \$99.00.

High-grade cotton production has decreased. Last year only 4.2 percent of American cotton graded Strict Middling or better and 30.7 percent Middling or better. Weather and the labor shortage were contributing causes, but we must pick, handle, and gin the 1946 crop so better grades will be produced. Poor picking and bad ginning gives low-grade cotton.

In 1945 we produced less than 375,000 bales of Upland Strict Middling or better, about 2,300,000 bales of Middling, about 2,900,000 bales of Strict Low Middling, nearly 2,000,000 bales of Low Middling or lower.

During 1928-1929, 48 percent of our cotton was Strict Middling or better white. This proportion had dropped steadily since then, except during the 1934-1935 season when it returned almost to the 1928-1929 level. In 1942-1943 it fell to slightly more than 7 percent of production. 1943-1944 crop contained a little less than 15 percent in 1945, amount of Strict Middling or better was only 4.2 percent of the crop.

FAMINE RELIEF

On Friday, July 12, the President released publicly the report made to him by Secretary Anderson on the 1945-1946 Famine Relief Food Shipments.

"Many phases of the total work necessary in making such an accomplishment possible have been performed by our own organization. We here in the Division want to express to you, and through you to others in the organization, as well as every cooperating agency and individual, our feeling that splendid action on this program has been performed by everyone in their individual way."

"We also urge that you convey to your field organization the sincere sentiment of appreciation for their having been an aggressive party to such a worth while enterprise."

FARM FACTS WORTH KNOWING

Q. When should my growing pullets be moved to the laying house?

A. Usually it is best to put the pullets into the laying house when their production is between 5 and 10 percent.

Q. What is considered a desirable weaning weight for pigs?

A. Weaning weights are important. Recent records from the Ralston Purina Company's Research Farm at Gray Summit, Mo., show continuous increase in the weaning weights of spring-farrowed pigs. The pigs from the 1946 farrowing averaged 49.6 pounds each at the age of nine weeks. These gilts and sows are on a two-litter-a-year program.

Q. Is 2-4-D, the hormone weed killer, harmful to animals?

A. Extensive tests indicate that animals coming in contact with weeds sprayed with 2-4-D suffer no ill effects. Pure 2-4-D is not poisonous by the usual standards. Some 2-4-D preparations containing toxic impurities have appeared on the market, however, so be sure your supply comes from a reputable manufacturer.

Q. How much feeder space do growing turkeys need?

A. They need about six inches per bird. Thus, a 5 ft. feeder will take care of 20 growing turkeys to market age.

Q. V. at is the proper age for breeding rabbits?

A. A young doe should not be bred before 7 or 8 months of age. Many breeders determine breeding time by weight and maintain that young does (medium or heavy breeds) should not be bred at less than 8½ pounds. Bucks may be used for breeding at 7 or 8 months of age, depending on the degree of development.

Send your questions about any phase of Farm Facts to: FARM FACTS, 815 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

WE wish to express our gratitude to individuals, cooperating groups and businesses for service which they rendered in making the entire program a complete success to date.

BOYCE HOUSE Gives You Texas

There was a fellow who was so narrow between the eyes that he could look through a keyhole with both eyes at the same time.

And all of us have known men who make a good first impression but they can't maintain it—they are superficial. When you go through their front door, you're in their backyard.

"GROWING OLD"

By Robert C. Medaris

They say that I am growing old; I've heard them tell it times untold in language plain and bold. But I'm not growing old; This frail shell in which I dwell is growing old, I know quite well, But I am not the shell.

What if my hair is turning gray? "Gray hairs are honorable," they say; What if my eyesight is growing dim?

I still can see to follow Him Who sacrificed His life for me Upon the Cross of Calvary. Why should I care if Time's old plow Has left its furrows on my brow?

Then how can I be growing old When safe within my Saviour's fold? Ere long this soul shall fly away And leave this tenement of clay; "This robe of flesh I'll drop and rise To seize the everlasting prize"; I'll meet you on the streets of gold And prove that I'm not growing old.

A. B. Sealy who has been visiting his parents, Mr. and Mrs. N. J. Sealy is returning to Ocean Side, California where he is to return to duty in the Marine Corps.

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas authorizing the Legislature to appropriate Seventy-five Thousand (\$75,000.00) Dollars, or so much thereof as may be necessary, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization of the Governor of Texas on August 31, 1937.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be amended by adding a new section, as follows:

"The Legislature is authorized to appropriate so much money as may be necessary, not to exceed Seventy-five Thousand (\$75,000.00) Dollars, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31, 1937."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the next general election to be held on the first Tuesday after the first Monday in November, A. D. 1946, at which all ballots shall have printed thereon:

"FOR THE CONSTITUTIONAL AMENDMENT AUTHORIZING THE LEGISLATURE TO PAY FOR BUILDING CONSTRUCTED FOR JOHN TARLETON AGRICULTURAL COLLEGE."

"AGAINST THE CONSTITUTIONAL AMENDMENT AUTHORIZING THE LEGISLATURE TO PAY FOR BUILDING CONSTRUCTED FOR JOHN TARLETON AGRICULTURAL COLLEGE."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Section 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this state.

Section 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election. 7-4c

HOUSE JOINT RESOLUTION

proposing an Amendment to Article 16 of the Constitution of the State of Texas, by adding thereto Section 62 providing a Retirement, Disability and Death Compensation Fund for the appointive officers and employees of the State; limiting the amount contributed by the State to such Fund; providing for investment of Fund with certain exceptions; prohibiting recipients of benefits hereunder from receiving other direct aid from the State; authorizing counties to provide and administer such a Fund for appointive county officers and employees after favorable vote in a county election for such purpose; limiting the amount contributed by the county to such Fund; providing for investment of Fund with certain exceptions; prohibiting recipients of benefits from said Fund from receiving other direct aid from the State; and providing for an election, necessary form of ballot, and publication on the question of adoption of this Amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 16 of the Constitution of the State of Texas be amended by adding thereto Section 62, which shall read as follows:

"Sec. 62 (a). The Legislature shall have the right to levy taxes to provide a Retirement, Disability and Death Compensation Fund for the appointive officers and employees of the State; provided that the amount contributed by the State to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time five per centum (5%) of the compensation paid to each such person by the State, and shall in no one year exceed the sum of One Hundred and Eighty Dollars (\$180) for any such person.

"All funds provided from the compensation of such person, or by the State of Texas, for such Retirement, Disability and Death Compensation Fund, as are received by the Treasury of the State of Texas, shall be invested in bonds of the United States, or in bonds issued by any agency of the United States Government, the payment of the principal of and interest on which is guaranteed by the United States, provided that a sufficient amount of said funds shall be kept on hand to meet the immediate payment of the amount likely to become due each year out of said Fund, such amount of funds to be kept on hand to be determined by the agency which may be provided by law to administer said Fund; and provided that the recipients of benefits from said Fund shall not be eligible for any other pension or retirement funds or direct aid from the State of Texas, unless the Fund, the creation of which is provided for herein, contributed by the State, is released to the State of Texas as a condition to receiving such other pension aid."

"(b). Each county shall have the right to provide for and administer a Retirement, Disability and Death Compensation Fund for the appointive officers and employees of the county; provided same is authorized by a majority vote of the qualified voters of such county and after such election has been advertised by being published in at least one newspaper of general circulation in said county once each week for four consecutive weeks; provided that the amount contributed by the county to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time five per centum (5%) of the compensation paid to each such person by the county, and shall in no one year exceed the sum of One Hundred and Eighty Dollars (\$180) for any such person.

"All funds provided from the compensation of each such person, or by the county, for such Retirement, Disability and Death Compensation Fund, as are received by the county, shall be invested in bonds of the United States, or in bonds issued by the State of Texas, or in bonds of the United States, or in bonds issued by any agency of the United States Government, the payment of the principal of and interest on which is guaranteed by the United States, provided that a sufficient amount of said funds shall be kept on hand to meet the immediate payment of the amount likely to become due each year out of said Fund, such amount of funds to be kept on hand to be determined by the agency which may be provided by law to administer said Fund; and provided that the recipients of benefits from said Fund shall not be eligible for any other pension or retirement funds or direct aid from the State of Texas, unless the Fund, the creation of which is provided for herein, contributed by the State, is released to the State of Texas as a condition to receiving such other pension aid."

"(c). The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at the General Election to be held in November, 1946, at which election each ballot shall have printed thereon the following words:

"FOR THE Amendment to the Constitution of the State providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roads; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

"AGAINST the Amendment to the Constitution of the State of Texas providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roads; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

"Each voter shall scratch one of said clauses on the ballot, leaving the one expressing his vote on the proposed Amendment."

Section 1. That Article VIII of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as 7-a and to read as follows:

"Section 7-a. Subject to legislative appropriation, allocation and direction, all net revenues remaining after payment of all refunds allowed by law and expenses of collection derived from motor vehicle registration fees, and all taxes, except gross production and ad valorem taxes, on motor fuels and lubricants used to propel motor vehicles over public roads, shall be used for the sole purpose of acquiring rights-of-way, constructing, maintaining, and policing such public roads, and for the administration of such laws as may be prescribed by the Legislature pertaining to the supervision of traffic and safety on such roads; and for the payment of the principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945, for payment out of the County and Road District Highway Fund under existing law; provided, however, that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; and provided, however, that the net revenue derived by counties from motor vehicle registration fees shall never be less than the maximum amounts allowed to be retained by each county and the percentage allowed to be retained by each county under the laws in effect on January 1, 1945. Nothing contained herein shall be construed as authorizing the pledging of the State's credit for any purpose."

Section 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at the General Election to be held in November, 1946, at which election each ballot shall have printed thereon the following words:

"FOR the Amendment to the Constitution of the State providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roads; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

HOUSE JOINT RESOLUTION

proposing an Amendment to article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 49-b, creating a Veterans' Land Board and establishing a Veterans' Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 49-b which shall read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Legislature shall provide by law for the issuance by said

Board of not to exceed Twenty-five Million Dollars (\$25,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas in such form, denominations, and upon such terms as shall be prescribed by law, provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum.

"In the sale of any such bonds a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent Free School Funds; such bonds to be issued only as needed, in the opinion of the Veterans' Land Board under legislative authorization.

"The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, in such quantities, and on such terms, and at such prices and such rates of interest, and under such rules and regulations as may be prescribed by law; provided, however, that any such lands remaining unsold at the expiration of eight (8) years after the effective date of this Amendment may be sold to anyone as shall be prescribed by law.

"All moneys received and which have been received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, in like manner as shall be provided for the sale of lands purchased with the proceeds from the sales of the bonds provided for herein, for a period of eight (8) years from the effective date of this Amendment; provided, however, that so much of such moneys as may be necessary to pay interest on the bonds herein provided for shall be set aside for that purpose. District 2 Club Boys Gather For Encampment At Lubbock Last Week

Club boys from the 20 county district 2 of 4-H work in Texas gathered at Lubbock Army Air Field, Monday, Tuesday and Wednesday, August 12, 13 and 14 for the 3 day annual encampment that combined business and pleasure, reported a good time, according to J. N. Caviness, County Agricultural Agent.

The annual event was under general supervision of W. N. Williamson, District Agricultural Agent.

Registration started at 10 o'clock August 12 with attendance totaling more than 250, including the County Agent from each of the

20 counties in the district and about as many adult 4-H club leaders from the various counties. Barracks at the nearly-abandoned Army post were used for the encampment. The program was filled with a variety of activities both entertaining and educational, Caviness said, including rifle shooting, various games, work demonstrations and reports.

4-H boys from Scurry County who attended the camp were: Bruce Cox, Dalton Ball, Don A. Jones, Bill Jones and Billy Gene Pylant, Fluvanna; Arlie Joe Burleson and Bobby Ray Newton, Ira; Jimmy Beck, Snyder; Carl Williams, Billy Hudnall, Hermleigh.

Caviness and Haskell Beard, Vocational - Coordinator accompanied the boys to Lubbock.

areas. Statements will be forwarded from the Areas to the War Crimes Branch in Washington, where they will be collected and then sent to Tokyo.

Letters have been sent to each former PW from who a deposition is desired, urging him to visit either a Federal District Attorney's office or a Veterans Administration office. Local addresses of these offices are included in the letter.

Originally an attempt was made to contact every former PW immediately on his release from confinement and have him fill out a questionnaire, the answers to which would reflect his personal knowledge of war crimes, and its potential value as trial evidence. It was hoped that this would provide an adequate basis for the presentation of war crimes evidence.

If a questionnaire indicated that the PW had information which would be of value, he was questioned further by trained investigators and his testimony reduced to writing.

However, as the trials progressed, it became increasingly apparent that the statements available for use represented only a small percentage of the total number of Americans who were held prisoner by the Japanese and, further, that particular points needing coverage often were not included in statements that were possessed by the prosecuting teams.

The present plan was devised to avoid the necessity of having the prosecuting teams request statements or additional information from PWs as each individual case arose and, also, to complete the record of the war crimes trials in Japan for historical purposes.

Trash Coupons—

(Continued from page one)

on a broad scale figures monthly could be placed lower than that. Many people commented on the coupon about trash hauling, and we'll let you in on some of their remarks:

"Whatever is reasonable," was the common one on some of the first coupons to be mailed in. No figures were included.

"Trash should be moved twice weekly,"—and the figure on this coupon was placed at \$1.50 per month.

"Very glad to have this service at \$1.50."

It may be noted by the way the coupon reads that all figures are based on monthly scale of pay. Others stated:

"Something the town needs."

"Glad to pay whatever is decided on by those in charge of the project."

"Twice a month would help—if not each week."

"This is a necessity, not a luxury."

"Snyder must keep clean."

"Every progressive town has it."

"Needed badly!"—Five coupons were marked with those exact words, and figures ranged from \$1.00 to \$2.00.

"Regular garbage collection is a necessary part of any progressive city."

"We feel that this is more than a necessity."

"We need this service badly in Snyder."

"I would be willing to pay \$1.00 more if the service was more often than once weekly."

"Aren't we lucky? Let's never risk a second invitation to Polio; the dirty invitation might be accepted."

Then there are two coupons we would like to omit, but to be fair in this report, we include them. The dollar (\$4.00) in the coupon read like this "nothing."

and OIL-PLATE Your Engine!

NO one knows just why Saturn is the only planet to have rings around it. We do know, however, that mighty forces of gravitational attraction hold them there. Through extensive research into the forces of attraction between molecules of liquids and solids, Conoco scientists are able to bring America's motorists the benefits of new and better oils.

Using the force of molecular attraction (basic force that holds things together), a special ingredient in Conoco Nth motor oil is attracted to working surfaces of your engine. In fact, so strong is this attraction that cylinder walls are OIL-PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs . . . prevents it from all draining down to

the crankcase, even overnight . . . you get these benefits:

added protection during the vital periods when you first start your engine

added protection from corrosive action when your engine is not in use

added protection from wear that leads to fouling sludge and carbon

added smooth, silent miles

That's why you'd be safer to OIL-PLATE your engine now . . . at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company

Dunn News

Mrs. Bama Clark, Correspondent

We are all appreciating this cooler weather the last few days.

Mrs. E. D. Holden and Mrs. Delma Holden of Ira were in Dunn and visited in the home of Mrs. Ray Amos last Friday.

The Methodist meeting closed Sunday night. There was a good meeting with four addition to the church and large crowds attended.

The Church of Christ meeting is going on this week. The public is cordially invited to attend.

Rev. R. O. Browder is out of town this week in a revival meeting.

Mrs. Anderson of Hermleigh is spending this week with her daughter Mrs. R. O. Browder and son Bobby.

Charles Delores and Dimple Clark were called to Snyder. Their grandfather Tomas Hausler passed away Friday and was laid to rest in the Hermleigh cemetery Saturday.

We have always been told that the 13th of the month was an un-

lucky day, but for the Cotton family it was a very happy occasion. They gathered for a family reunion at the Church of Christ tabernacle. Those present to enjoy the day were: Nellie and Leonard Cotton of Snyder; Mr. and Mrs. Dock Richardson, Mr. and Mrs. E. J. Richardson and baby, Mr. and Mrs. Joe Drinkard, all of Snyder; Mrs. Henry Beaty of Lubbock; Mr. and Mrs. T. L. Kimmell of Loop; Mr. and Mrs. Lonn Cotton and two boys of Seagraves; Mr. and Mrs.

Lloyd Cotton and two boys of Andrews; Mr. and Mrs. Herman Cotton and children of Vainmeyer, Ill.; Mr. and Mrs. H. C. Cotton and son, Edward of Clyde; Neta Cotton of San Antonio; Mrs. Yulalia and two children.

We are sorry to hear of Mrs. M. O. Nail having to go to the hospital at Abilene last Saturday. She received a broken collar bone and bruises in a car wreck, a week or 10 days ago, while on a visit to her son at Hillsboro. We wish her a speedy recovery.
