

MODERNITY — A towering steel derrick, topped by the antenna of an FM radio, with the J. C. Mitchell ranch house in the background, complete with

city conveniences, shows the modern living in the oil country. The Mitchell ranch is northwest of Sanderson in Terrell County. The small white

house to the right houses the transmitter of the radio which provides communication with the oil company's district office, many miles away.

Cockrell Buying Hospital Control

Snyder General Hospital, a stock company owned institution that has been operating as a corporation since its establishment in 1939, under direction of a board of directors, may become a privately directed institution on July 1 with acquisition of a majority of the stock by Dr. C. R. Cockrell, chief surgeon at the hospital for the past six years.

Arrangements for handling voting in the second series of school consolidations in the Snyder area were being set up this week. Three districts—Lloyd Mountain, Turner and Plainview—will vote Saturday on a merger plan with the Snyder Independent School district.

Ten individual stockholders of the institution, holding a total of 287 shares of the stock of the hospital, which represents voting control, recently pooled their holdings for purpose of sale and entered into a contract with Dr. Cockrell for the sale of the stock.

Students from all five of the districts mentioned, as well as those from eight other neighboring districts, have been attending Snyder Schools last year, and some of them for several years.

Agreed price of the stock was \$50 per share, plus a proportionate part of the net cash on hand at the close of business on June 30, 1948.

Snyder district, counting the recently added territory, scholastics and valuations from Woodard and Bethel now embraces 71 square miles of territory with property valuations of \$2,848,970, and 967 scholastics.

Buck Ashe and Band Play for Tuesday Hop

Buck Ashe and his string band will play for a pre-rodeo dance at the Scurry County Rodeo platform in Northeast Snyder, it was announced this week by officials of the Scurry County Rodeo Association.

New Lions Club Officers to Take Places in Rites

New officers of the Snyder Lions Club for the club year beginning July 1 will be installed in a ladies' night outdoor program at the Snyder Country Club, it was announced Tuesday at the noon luncheon of the civic group in the Manhattan dining room.

Tuesday night's dance is a "warm up" to the dances that will be staged at the rodeo grounds preceding and during this year's rodeo performances, officials said.

Guests at the Tuesday luncheon were Carl Glady of Stanton, J. E. Sharp and Colie Fish.

Snyder Band Doing Good Summer Work

Good work is being done during the summer by the Snyder Tiger Band, according to Purris F. Williams, director. About 80 beginners and advanced band students are taking twice-a-week lessons at the school, Williams reports.

Outlaw Withdraws in Representative Race

N. C. Outlaw, Post attorney, late Tuesday advised A. C. Preuit, Scurry County Democratic chairman, to withdraw his name from the county's ballot.

The musical organization will play for the parade and at performances of the Scurry County Rodeo in Snyder July 14, 15, 16 and 17.

One of the group had appeared before Justice of the Peace W. C. Davidson Tuesday and paid a fine of \$1 plus costs of \$13. The other four had agreed to pay fines, according to Merritt.

Five More Gamblers Picked Up by Sheriff

Sheriff Lloyd H. Merritt continues to pick up groups of gamblers in his rounds of the county. Five men were arrested by the sheriff in a garage on the east highway about 1:00 p.m. Sunday night.

No Trace Found of Convict Who Sawed Out Tuesday

Insect Spraying Started In City

Mosquitoes and flies, along with numerous other insects, were on the condemned-to-die list of Snyder city officials this week as operation of the city's new power spray got underway. And thousands of the pests were literally "biting the dust."

Spraying operations were started Monday morning, but because of high winds it was decided to wait until the atmosphere was still when more effective results can be expected, city officials said.

Sponsors Enter Contest as Rodeo In City Shaping

Several applications for entry in the sponsor contest at the Scurry County Rodeo have been received already, according to Mr. and Mrs. Garrett Harrell, who are handling the sponsor contest for this year.

Wanda Koonsman, daughter of Mr. and Mrs. Jesse Koonsman, will be Snyder's host sponsor for the girls.

Short Wheat Crop in County Half Shipped

Scurry County's wheat crop was about half shipped out this week, grain buyers and railroad agents estimated. And the half of the crop amounted to three cars.

Only 24 Names to Go On Ballot in County

Scurry County voters will have its smallest county ballot in many years when they go to the polls in the Democratic primary election July 24, according to A. C. Preuit, county Democratic committee chairman.

Second Scout Group At Camp This Week

Second group of Boys Scouts from Snyder left Monday morning for a week's camp in the newly acquired Buffalo Trail Scout Ranch in the Davis Mountains, southwest of Balmorhea.

Escapee Linked With Theft of Car Tuesday Night

No definite trace of Cecil Chester Davis, 26-year-old escaped convict who Tuesday noon sawed his way out of the Scurry County jail, could be established this (Thursday) morning, according to Sheriff Lloyd H. Merritt.

His escape was being connected with the theft Tuesday night of a 1936 model Ford two-door sedan belonging to Alfred E. Vernon, operator of the Snyder Hatchery, from in front of his East Snyder home.

Two other men brought here from Darrington Prison Farm with Davis, John Tom Rawlings, 21, and Harvey Lee Glass, both of Sweetwater, were cellmates of Davis but did not escape.

Merritt said he was doubtful if the other two men could squeeze out the eight by 11 inch opening which had been sawed out, since Davis' small size aided him in his escape.

The three had been placed in the jail run-around about 9:30 o'clock Tuesday morning following difficulty with plumbing in their cells.

Davis, Rawlings and Glass were confederates in a break from Darrington Prison farm February 7, and were objects of a manhunt through a wide West Texas area.

Davis and Rawlings were captured at Colorado City, Glass surrendered April 14 in Sweetwater.

The three convicts had been scheduled to go to trial Wednesday in 32nd District Court for theft of the Alfred Weathers car in Snyder on the night of February 8.

The manhunt for Davis had drawn peace officers from several counties. Included in those working were Scurry County Deputy Sheriff Vernie Head, Ranger Captain Bob Crowder of Lubbock, Rangers Kelly Rogers and Raz Renfro of Lubbock, Ranger J. L. Rogers of Lamesa and State Highway Patrolmen J. R. Reed and T. T. Brady of Sweetwater.

The jail break occurred Tuesday noon while no officers were in the jail, Merritt said. Mrs. Merritt said she heard a commotion on the second floor of the jail and called her husband in the courthouse two blocks away.

Saw used by Davis has not been found, the sheriff said. He could not account for the method used in smuggling the file or saw into the jail.

Vernon said his green-gray Ford, license No. BM4643, was taken from in front of his house Tuesday night between 10:00 p. m. and 7:30 a. m. Wednesday. He had left the keys in the machine. Vernon wittily said he doubted if the car would go far, because it uses an excessive amount of lubricating oil.

Santa Fe Engineer Injured in Fall from Locomotive Tuesday

I. G. Smith, 55-year-old engineer of Slaton, who suffered head contusions and broken fingers on both hands when he fell from the platform on his south-bound freight locomotive Tuesday evening at the Snyder station, was reported Wednesday as doing nicely in a San Angelo hospital.

Smith fell accidentally from his engine, striking the brick pavement near the rails. The accident occurred about 8:30 o'clock Tuesday night. He was taken to the hospital in an Odom ambulance which was called by R. G. Carroll, night operator at the Santa Fe station. Physicians at the hospital said Smith's injuries were not serious.

The engineer was taken to a San Angelo hospital Wednesday for further treatment.

Smith's train was held over at Snyder for several hours until a relief engineer could arrive from Slaton.

Rev. Robinson Slates Appointment at Ira

Rev. Jack Robinson, student in McMurry College, Abilene, will fill the pulpit at Ira Methodist Church Sunday morning and evening for the first time since his appointment to the pastorate by the Northwest Texas Methodist Conference. Ira community people are urged by church leaders to greet the new pastor.

Rev. Robinson comes to the Ira church from the New Mexico conference.

WHO'S NEW

New arrivals at Snyder General Hospital since last week's report in The Times have been: A daughter for Mr. and Mrs. Hubert Starnes of Snyder. Weighing nine pounds seven ounces when she arrived June 19, the little lady has been named Linda Ann.

A son for Mr. and Mrs. R. C. Latham of Cuthbert, who arrived June 19. Weighing 10 pounds three ounces, Robert Glenn is the calling name of young Mr. Latham.

BATTLE OF BRAINS—In a grinding three-hour competitive examination at the A. & M. College of Texas, 215 honor graduates of Texas high schools fought it out for \$50,000 worth

of college scholarships. The 50 winners, who will receive four-year opportunity awards at Texas A. & M. College, were announced this week. Selected on the basis of need, scholarship, leadership

and character, winners will receive \$200 to \$300 per year, plus an opportunity to earn other college expenses, for their full four years. Entries were from all over the state.

The WOMAN'S Page

Joanne Miller, Bride-Elect, Feted at Gift Tea in Everett Home Wednesday

Miss Joanne Miller, bride-elect of Jack Taylor, was honored Wednesday afternoon at a tea in the home of Mrs. Dewey Everett. Hostesses for the occasion were Mrs. Everett, Mrs. Clyde Miller and Mrs. Frank Miller.

The house was beautifully decorated, a daisy motif being used throughout the home. The archway from the reception room to the dining room was entwined with lace fern and pink daisies. The table was laid with a lace cloth over green. A large bowl of daisies was used as a centerpiece, and the names Joan and Jack were spelled in daisy petals.

Miss Joanne Miller had lunch from a crystal service to the guests, who were invited into the dining room by Miss Mary Lou Thompson.

Music was furnished during the tea hours by Misses Mildred Glenn and Dewey Faye Everett.

Misses Faith Miller and Lou Miller presided at the bride's book.

Those attending and sending gifts were Mrs. Ethel Eiland, Mrs. Lora Miller, Mrs. Ivan Galtlin, Betty Lynn Galtlin, Mrs. W. D. Everett, Mrs. Sterling Williams, Mrs. J. K. Mitchell, Mrs. Emmitt LeFors, Mrs. H. H. Siland, Mrs. Ernest Taylor, Mrs. Melvin Stoker, Mrs. Gerald Gordon, Dorelle Stoker, Mrs. C. E. Pith, Mrs. O. D. McGlaun, Joy McGlaun, Mrs. Carnie Popcoe, Edith Popcoe,

Littlepage-Everett Marriage to Be July 23

Engagement and approaching marriage of Miss Eida Jean Littlepage to Jesse Everett was announced this week.

The ceremony for the popular Snyder young people will be performed at 8:00 o'clock p. m. on Wednesday, July 23, at the First Methodist Church.

Miss Littlepage is the daughter of Mr. and Mrs. J. O. Littlepage of Snyder, and Mr. Everett is the son of Mr. and Mrs. W. D. Everett, also of Snyder.

Double Wedding at Tuscola Said Saturday

Rev. S. A. Sifford of Tuscola, former Methodist pastor at Hermleigh and Dunn, performed the double wedding ceremony for two Snyder County couples Saturday evening at his home, where the young folks drove for the rites.

Felix (Mutt) Bolding and Miss Eva Nell Quitt of Dunn and Reginald (Rex) Bolding and Miss Anne Lois Wade of Merkel were united in marriage in the ceremony. The men are brothers.

Mrs. Felix Bolding graduated from Snyder High School in May. She has lived at Dunn and is the daughter of Mrs. Charlie Quitt.

Mrs. Reginald Bolding has been living with her parents at Merkel.

Felix is engaged in farming in the Dunn community, where he and his bride will make their home.

Reginald, who has been employed with the Texas Highway Department at Big Spring, and his bride will make their home at the Howard County capital.

Felix (Mutt) was in the Navy for three years, and has been farming with his father since he was discharged. Reginald (Rex) also put in time in the Navy. Following his discharge in March of this year he has been working with the highway department.

Guests over the week-end of Mrs. J. M. Dess were her daughter, Mrs. W. M. Sawyer, and husband of John, son City.

Whitfield, Mrs. Joe Monroe, Mrs. Mabel Brock, Mrs. W. H. Jones, Mrs. Warren Dodson, Mrs. Jim York, Mrs. Edgar Taylor, Mrs. Elmo Crowder, Mrs. A. D. Erwin, Eleanor Erwin, May McClinton, Mrs. Joe Brown, Mrs. Joe Middleton, Lavonne Middleton, Mrs. Ted Johnson, Mrs. J. C. Morgan, Mrs. Collie Fish, Mrs. Sam Williams, Mrs. Claire Smith, Mrs. E. J. Babb, Mrs. Ophelia Blackard, Mrs. Virginia, Mrs. John Keller, Mrs. Ramona Keller, Mrs. Max West, Mrs. Inez Brown, Mrs. J. O. Mrs. Rose Blanchard, Mrs. J. O. Dodson, Mrs. Richard Harder, Mrs. Zack Taylor, Jean Peter, Wanda Whitwood, Doris Taveras, Rosaline Schryer.

Mrs. Stella Carter Weds Seburn Cline

Mrs. Stella Carter became the bride of Seburn Cline Tuesday evening at 8:30 o'clock at the home of the bride's mother, Mrs. W. F. Burney, in East Snyder. Clifford Taylor, minister of the First Christian Church, officiated.

Bridesmaid was Helen Jo Warren, and best man was Noble Oliver of Colorado City. Only close relatives attended the ceremony.

Mrs. Cline has been employed at the Hollywood Shop. Cline is engaged in oil well drilling operations in the Snyder area.

Following the ceremony, a reception for the wedding party was held in the Burney home.

After a short honeymoon the couple will be at home at Snyder.

Let The Times handle your subscriptions to magazines and papers.

Bonnie Woodson Honoree at Shower

Bonnie Woodson, bride-elect of Harley Bruton, was named honoree of a bridal shower given June 9 in the home of Mrs. B. S. Pitzer, when Mrs. Pitzer, Mrs. Jack Keller and Mrs. Carl Keller were hostesses.

The Pitzer home was decorated with a profusion of daisies.

Entertainment was furnished by Mrs. Forrest Beavers, who gave two readings.

Attending the shower and sending gifts were Mrs. Bea Foraker, Mrs. Ross Pate, Mrs. Buddy Howell, Mrs. T. B. Knight, Mrs. Ennis Floyd, Mrs. Arthur Roberts, Mrs. Ralph Neal, Mrs. Forrest Beavers, Mrs. E. J. Richardson, Mrs. Nona Cumble, Mrs. Alma Fowler, Mrs. Elmo Crowder, Mrs. G. R. Austin, Mrs. Earl Bentley, Mrs. J. M. Billingsley, Mrs. Carl Keller, Mrs. John Irwin, Mrs. Howell McClinton, Mrs. Erle Ramsey, Mrs. Edd Thompson, Mrs. Lloyd Gordon, Mrs. Sam Spikes, Mrs. Mack Davis, Mrs. R. O. McClure, Mrs. T. L. Lollar, Mrs. S. R. Clements, Mrs. J. H. Langford, Mrs. R. D. Kile, Mrs. Foch Walton, Mrs. George Moore, Mrs. A. D. Erwin, Mrs. Carl Whitfield;

Mrs. John Keller, Mrs. W. R. Bell, Mrs. John Cole, Mrs. J. W. Scott, Mrs. Berry Moreland, Mrs. Julia McDowell, Mrs. S. E. Keller, Mrs. Albert Buchanan, Mrs. Verdie Eades, Mrs. C. M. Lyons, Mrs. S. R. Walden, Mrs. Bryan Jordan Jr., Mrs. Bruce Woodson, Mrs. Lou Everett, Mrs. Earl Fish, Mrs. Harvey Devers, Mrs. Juez Rhodes, Mrs. Leonard Keller, Mrs. E. E. Kimmel;

Misses Margie Targart, Dessie and Clare McFarland, Frances Leath, Letha Woodard, Barbara Inman, Jerry Johnson, Charlotte Faver, Valdean Keller, Cara Mae Lewis, Buns Higgins, Octavia Moore, Clarice McGlaun, Jo Ann McGlaun, Betty Lynn Galtlin, Jane Ann Woodson, Patsy Spikes, Eleanor Erwin, Doris Floyd, Dean Johnson, Veda Mae Cumble, Ramona Keller, Dorothy Riley; and Waylan Bruton and Charles Ray Lyons.

Plainview Women Discuss Tax on Coops

Plainview Home Demonstration Club met last Tuesday in the home of Mrs. Roy Staton. Roll call was answered, minutes read and dues collected.

Since this was a leaders' meeting, the demonstrators showed ways of making cheese, pecan, orange and peanut butter biscuits. The biscuits were judged separately by the club members and proved to be delicious.

A round table discussion was had on the subject "Should Texas Coops Be Taxed?"

After a recreation period, refreshments of punch and cookies were served to the following: Mrs. Roy Staton, Lowell Thornburg, Doyle Pogue, Clarence Moore, Robert H. Chambers, A. K. Murphy, B. H. Young and Rex Woodard; Miss Lillian Huffstatter; and a new member, Mrs. Bert Orwell.

W. S. Chapman of Norris City, Illinois, is visiting with his son, L. R. Chapman, and wife, at the Manhattan dining room.

Mr. and Mrs. Mickey Ellis of El Paso spent the week-end with Mr. and Mrs. C. L. Banks. Mrs. Ellis is the former Pearl Boykin, who lived in Snyder when a girl.

Woman's old problem relieved by 2-way help

What to do for woman's oldest problem, functional monthly pain? Many a girl and woman has found the answer in Casper's 2-way help. You see, Casper may make things lots easier for you in either of two ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional periodic pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help build up resistance for the trying days to come. Casper is scientifically prepared and scientifically tested. If you suffer "at those certain times", get Casper today.

Wife of Snyder Flyer At Tea in Japan

Mrs. Margaret L. Botvidson, wife of Captain Charles C. Botvidson of Snyder, recently attended a formal tea at the Misawa Officers Club for all women on Misawa Air Force Base in Japan in honor of Mrs. Hughes, wife of Colonel Louis R. Hughes Jr., base commander.

"Mrs. Botvidson is at the Fifth Air Force Base in Japan with her husband, who has been a member of the U. S. Army Air Force for a number of months, according to a release from the base to The Times.

Mrs. W. E. Shultz and children of Clovis, New Mexico, returned this week to their home after a several-day visit with her mother, Mrs. Alice Jacobs.

Union Women Talk on Income Tax

Union Home Demonstration Club met Tuesday afternoon in the home of Mrs. Jack Wright with Mrs. Frances Neel as hostess.

Eight women answered roll call with their favorite household hint. An interesting discussion on the income tax was conducted by Mrs. Neel, Mrs. Wright, Mrs. Pate, Ploy Smith and Mrs. Pate Hogue.

At the conclusion of the meeting refreshments of ice cream and cake were served to the following: Mrs. Ploy Smith, Frances Neel, H. J. Schulze, Pate Hogue, Mae Pate, Jack Wright, A. M. McPherson, Ada Fawcett and one visitor, Margaret Bata McPherson.

Next meeting of the Union club will be July 27 in the home of Mrs. Pate Hogue.

SAYS RETONGA GAVE HER GREAT RELIEF

Gas on Stomach, Muscular Aches and Pains, Sluggish Elimination, Weakened Feeling, All Promptly Relieved, Says Mrs. Era Manning in Discussing Her Own Case.

"A good friend personally recommended Retonga to me and I can say that she did not praise this medicine half strong enough." Gladly states Mrs. Era Manning, resident of 409 Barrera Street, San Antonio, Texas. The mother of seven children, Mrs. Manning is a member of the Baptist Church. She gratefully continues:

"If meal time had never come it would have been all the same to me, for food seemed to sour in my stomach and burn inside me like acid. I suffered so much distress from gas on my stomach and bloating that sometimes I could hardly get my breath. I thought I was at the end of my row I felt so weakened and

worn out. My shoulder and arm muscles pained and ached something awful and I had to rely on strong purgatives, my whole body seemed so full of toxic poisons.

"The very first bottle of Retonga gave me wonderful relief. I have a grand appetite now and can eat anything I want with no fear of distress from acid indigestion. I no longer rely on harsh purgatives, I sleep good, feel refreshed when I get up, and my house work is a pleasure instead of a drag. No one can be more thankful than I am for Retonga."

The active ingredients of Retonga are purely herbal, combined with Vitamin B-1. Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency and constipation. If the first bottle fails to give you gratifying relief, your money will be refunded. You can get Retonga at Snyder Drugs and all good rug stores.—(ad-c)

Jewel Pieper Wins Trip to 4-H Club Roundup with First in Dress Review

Jewel Pieper, 4-H Club girl from Hermleigh, was designated as Scurry County's official representative to the State 4-H Club Roundup at Collee Station in August by virtue of her winning first place in the County 4-H Dress Review staged Tuesday at Snyder High School. Her dress entry was adjudged best of those entered by girls 14 years of age and above.

Jewel was awarded a cash prize of \$10 by the Scurry County Chamber of Commerce to be used on the trip August 16 to 21 at Collee Station. Two other girls to be named later were provided \$5 each on expenses of the trip.

Other prizes awarded in the dress review were announced by Miss Mary Louise Pehl, county home demonstration agent, as follows:

Dresses—10 to 12-year age group: Carolyn Branson of Turner, first; Betty Hillis of Hermleigh, second; and Jayme Bills of Snyder, third.

Dresses—12 to 14-year age group: Patsy Andrews of Hermleigh, first; Marjorie Vandiver of Hermleigh and Tess Fulford of Fluvanna, second; and Ruth Eastman of Snyder and Wanda Sue Vandiver of Hermleigh, third.

Dresses—14 years and above: Jewel Pieper of Hermleigh, first; Emma Louise Gless of Snyder, second; and Glema Newton of Ira, third.

Aprons—Millie Davis of Ennis Creek, first; Joan Bowling of Dunn, second; and Louise Thompson of Ennis Creek, third.

Cup Towels—Eleanor Browning of Fluvanna, first; Patricia Wade of Ennis Creek, second; and Millie Davis of Ennis Creek, third.

Embroidered Dresser Set—Louise Thompson of Ennis Creek, first.

Judges for the review's entries were Mrs. Dan Gibson, home economics teacher in Snyder High School; Miss Alice Cross, home economics teacher in Hermleigh High School; and Mrs. Mary Drummond, home demonstration agent of Mitchell County.

Ribbons were awarded to all winners in the various divisions. Scrapbooks were presented to these first place winners in the divisions: Carolyn Branson, Patsy Andrews, Millie Davis and Eleanor Browning, donated by the Chamber of Commerce.

All girls entering work in the review were presented pencils bearing the 4-H Club emblem.

Numbers of mothers of the girls and others viewed the garments and other items featured in the review. This was the first such review staged by 4-H Club girls of the county.

Most people dislike a woman who is not dignified, and a man who is. Silk stockings were first seen in the sixteenth century but they weren't really observed until the twentieth century.

DELEGATES HUDDLE—Members of the Texas delegation hold a confab at a session of the Republican national convention in Philadelphia. Left to right: Carlos Watson of Brownsville, Joe Ingraham of Houston and John A. Donaldson of Victoria

Cowboy Reunion Group Sets Meet Ruring Rodeo

When the Texas Cowboy Reunion Association members meet at the original Texas Cowboy Reunion at Stamford July 2, 3 and 5, there will be many distinguished guests and members on its roster, according to a news release from the Stamford Cowboy Reunion to The Times. Ernest O. Thompson, Bill Murray and Olin Culbertson, Texas Railroad Commission members, will be among the guests at the annual affair.

Several Scurry County old-timers are members of the association.

The Texas Cowboy Reunion Association was first organized at the original Texas Cowboy Reunion on June 28, 1930, and is now incorporated. It is the largest cowboy organization in the world. The membership is made up of cowboys required to be 50 years of age or over, and to have been actual cowboys 35 years prior to registration. Its roll at one time listed 1,500, but time has reduced the ranks to a regular membership of 650. Widows of deceased members have the right to succeed to the membership of their husbands, and many take advantage of that privilege. Several of them have served on the board of directors. Many distinguished ranchers, colorful trail drivers, artists, authors and professional men who rode the range for years have graced the Texas Cowboy Reunion rolls.

New Equipment Put In Joe Graham Shop

Several major pieces of new equipment have recently been installed by Joe Graham in his cleaning and pressing establishment.

Besides a new quick heating boiler, other new fixtures include an Adjusta-Form which shapes coats by steam while buttoned on a form; Cissel Rapid Dry machine which forms dresses and skirts to correct size and shape; and Excelsior hand pressing units which handle special pressing functions on collars, cuffs, sleeves, waists, etc.

Snyder area people are invited by Graham to inspect the new equipment.

Rotary Club Host To City Council at Luncheon Meet

All six members of the Snyder City Council and Mayor Forest G. Sears were honored guests at the Thursday luncheon meeting of Snyder Rotary Club last week at the Snyder Country Club. They were Don Robison, Carl Herod, Ernest Taylor, Ivan Gatlin, A. M. Roberts and Bob Terry. Sears and Taylor are members of the club.

Taking advantage of the presence of the city governing body, suggestions were made by Rotarians, led by J. B. Turner, for purchase of a city garbage truck. A club committee composed of Com Ezell, W. E. Holcomb and J. B. Turner was appointed by President-Elect W. A. Casseday to work with the council members on the proposition.

Mayor Sears reported that \$300 had been contributed by the Rotary and Lions Clubs and Snyder Fire Department for purchase of an insect spraying outfit.

A musical program was rendered by Clinta Barbara Blackard and Freddie McFarland, who sang two numbers, accompanied at the piano by Mrs. Ophelia Blackard. Betty Lynn Gatlin and her father, Ivan Gatlin, rendered two selections each. Councilman Gatlin played a piano number blindfolded with the keys of the instrument covered with a cloth.

It was announced that several officials of the Snyder Rotary Club were planning to attend the annual 127th District convention this weekend at Lubbock.

Besides the councilmen and those on the program J. M. Lawrence of Sweetwater was another guest.

Mrs. Birdwell to Host Methodist Women

Woman's Society of Christian Service of the First Methodist Church met Monday afternoon in the basement of the church, with 10 members present.

Following a business session presided over by Mrs. Cliff Birdwell, president, a lesson on "Be Still and Know That I Am God" was conducted.

The society will meet next Monday in the home of Mrs. Birdwell.

Vivian Lane to Wed Clarence H. Schkade

Mr. and Mrs. Alton Greenfield are announcing the engagement and approaching marriage of their daughter, Vivian Lujuana Lane, to Clarence Herbert Schkade, son of Mr. and Mrs. A. J. Schkade of Albany.

The wedding will take place on Sunday, July 4.

Miss Juanita Butler of Newkirk, Oklahoma, has returned home after visiting with her uncle and aunt, Mr. and Mrs. H. A. Mullins.

CITATION BY PUBLICATION

The State of Texas, To Helen C. Norris, a female, Antonio Cardone, Michael J. Darcy, Russell H. Curtis, Beatrice Leonard, a female, Emil Oswald, Albert Mogerly, the unknown heirs of Albert Mogerly, deceased, Mae Bradley Saklatvala, deceased, Charles W. Bradley, deceased, Charles W. Bradley, deceased, Augustus Day and the unknown heirs of Augustus Day, deceased.

You are hereby commanded to be and appear before the District Court of the 32nd Judicial District of Texas, to be held in and for the County of Scurry, Texas, at the courthouse thereof, in the City of Snyder, Texas, at 10 o'clock a. m. on the 2nd day of August, 1948, to answer to the complaint of the plaintiff, filed in said Court on the 8th day of June, 1948, against the said Helen C. Norris, a widow, Helen I. Valentine, a female, Charles Phillips, Antonio Cardone, Michael J. Darcy, Russell H. Curtis, Beatrice Leonard, a female, Emil Oswald, Albert Mogerly, Mrs. Albert Mogerly, deceased, Mae Bradley Saklatvala, deceased, Louis A. Bradley, George Bradley, Mrs. Charles W. Bradley, Mrs. Charles W. Bradley, the unknown heirs of Charles W. Bradley, deceased, Augustus Day, Isaac I. Day, the unknown heirs of Augustus Day, deceased; defendants; for suit, said suit being numbered 4451, the nature of which demand is as follows, to-wit:

Action by plaintiff, who is owner of an undivided one-fourth interest in fee in the oil, gas and other minerals lying in and under the following described lands situated in Scurry County, Texas, to secure the plaintiff an oil, gas and mineral lease, covering the respective undivided mineral interests being owned by the defendants herein, the respective interests set opposite their names hereinafter set forth, whereby such receiver, under the orders of the Court, may execute and deliver to the plaintiff an oil, gas and mineral lease, covering the respective undivided mineral interests owned by the defendants herein, the nature of which demand is as follows, to-wit:

Description of Land: Lot No. 1 being the east 7/8 acres, more or less, of the 42 acre, more or less, Block 97, H. & T. Railway Company Survey, Scurry County, Texas.

Defendants' ownership of undivided interests in the minerals in the above described land is as follows:

Helen C. Norris, undivided 1/8th; Helen Valentine, undivided 1/8th; Charles Phillips, undivided 1/8th; Antonio Cardone, undivided 1/8th; Michael J. Darcy, undivided 1/8th; Russell H. Curtis, undivided 1/8th; Beatrice Leonard, undivided 1/8th; Emil Oswald, undivided 1/8th; Albert Mogerly, Mrs. Albert Mogerly, and unknown heirs of Albert Mogerly, deceased, undivided 1/8th; Mae Bradley Saklatvala, Louis A. Bradley, George Bradley, Mrs. Charles W. Bradley, the unknown heirs of Charles W. Bradley, deceased, undivided 1/8th; Augustus Day, Isaac I. Day, and the unknown heirs of Augustus Day, deceased, undivided 1/8th; total 29/32th.

Special Pleas Relied Upon: In addition to owning an undivided 1/8th interest in the minerals in and under the above described land in fee, plaintiff owns an undivided 1/8th interest in the oil, gas and mineral leasehold estate in and under said above described land, and under said above described land, the reason of owning certain duly recorded oil, gas and mineral leases covering said land. Defendants own the respective interest set opposite their names, as above, by reason of duly recorded mineral or royalty conveyances filed of record in the office of the County Clerk of Scurry County, Texas, but such defendants have not paid taxes on said mineral interests nor have they rendered the same for taxes during the last successive five years next preceding the date of this action.

As partial consideration to keep in force and effect the leases which plaintiff owned in and under the above described land, plaintiff agreed with the respective lessors to drill or cause to be drilled a test well for oil and gas on such land to a depth of 1200 feet or the sand known as the Ira Shallow Pay, and plaintiff has contracted for the drilling of such well to be commenced not later than August 1, 1948, provided he can deliver oil and gas leases covering all of the above described land by such date.

Plaintiff has made repeated and diligent efforts to locate the above named defendants, but said efforts have been unsuccessful.

Prayer: Plaintiff prays that the defendants be cited to answer herein, and that a receiver be appointed by the Court for said undivided mineral interests owned by said defendants, and, further, that such receiver, after being duly appointed by the Court, be ordered to execute and deliver to plaintiff herein an oil, gas and mineral lease covering such outstanding mineral interests upon such terms and conditions as the Court may prescribe, and that the Court costs in this behalf incurred be charged to the receiver and paid for by him out of the monies paid by plaintiff herein for the purchase of said oil, gas and mineral leases from said receiver.

Herein fail not, but of this writ make answer as the law requires. If this citation is not served within 30 days after its issuance it shall be returned unavailing.

Herein fail not, but of this writ make answer as the law requires. Witness: Mrs. T. E. Weatherhead, Clerk of the District Court of Scurry County, Texas.

Given under my hand and seal of said Court, at office in City of Snyder, Texas, this 21st day of June, 1948.

Attest: Mrs. E. E. Weatherhead, Clerk, District Court, Scurry County, Texas.

Presbyterian Church
Rev. Wm. A. Casseday, Minister

The Friendly Home-Like Church With a Welcome for All

The auditorium of the church is now air conditioned. Worshipers can now worship in comfort. The public is cordially invited to worship with us. We invite strangers, the unwedded and those who have no Church Home to ally with us. You will always receive a hearty welcome in the Presbyterian Church.

Bro. Casseday says: We have enjoyed the boys and girls and all who have used our basement each Friday evening for skating and recreation. The basement will be closed to skating during the month of August only, and on September 2 the basement will be again opened to the hundreds who have enjoyed this recreation. All are invited... all are welcome.

Softball League Shapes After All Teams in Games

Play in the Scurry County Softball League for boys' and girls' teams during the past week began to shape the races, since every team ad played as many as one game and some one of them three games.

In the girls' section the Ira nine was seated in top place along with the Legion girls, with Ira having won two games and the Legion girls one.

Results of games since last week's report in The Times follow:
Girls' teams—Legion 21, Tri-Service 0; Ira 15, V. F. W. 5; and Ira 11, Hermleigh 8.

Boys' teams—Legion 7, Fire Department 3; Ira 15, V. F. W. 9; Hermleigh 6, Ira 5.

Standings in the boys' division look like this:

Team	P.	W.	L.	Pct.
Hermleigh	2	2	0	1.000
Legion	1	1	0	1.000
Ira	3	2	1	.666
Fire Dept.	2	1	1	.500
National Guard	2	1	1	.500
V. F. W.	2	1	1	.500
Fluvanna	2	0	2	.000

Standings in the girls' division, including Tuesday night's games follow:

Team	P.	W.	L.	Pct.
Ira	2	2	0	1.000
Legion	1	1	0	1.000
Tri-Service	2	1	1	.500
Fluvanna	1	0	1	.000
V. F. W.	1	0	1	.000
Hermleigh	1	0	1	.000

Announcement Posted by Sterling Williams

Sterling Williams, seeking his third term as representative from the 124th Representative District of Texas, authorized The Times to insert his name in the paper's political announcement column.

Williams says a more extended story about his candidacy will be printed later in the campaign.

The district is composed of Borden, Garza, Kent, Stonewall, Scurry and Dickens Counties.

BRUCE LLOYD, who attended Snyder Schools in 1925 and 1926, was in Snyder last week in the interest of his candidacy for the office of state treasurer.

Escaped Convicts Given Two More Years for Theft

Three West Texas men, Harvey Lee Glass and John S. Rawlins of Sweetwater and Chester Davis of Colorado City, had two more years added to their prison sentences Thursday when they pleaded guilty to charges of automobile theft when arraigned before District Judge A. S. Mauzey in 32nd District Court at Colorado City.

The trio escaped from Darrington Prison Farm February 7 and Rawlins and Davis were recaptured at Colorado City about three days later during an attempt to steal an automobile belonging to John Kimberling.

The trio had stolen the car of Alfred Weathers in Snyder on the night of February 10 and drove to Colorado City.

Kimberling and a companion intercepted the trio while transferring some of their belongings from the Weathers car to the Kimberling car, and Rawlins and Davis were recaptured. Glass made off in the car and remained at large until he voluntarily surrendered to Sheriff Bill Sample in Sweetwater about midnight April 15.

Candidates elected with the X are often defeated with the XX.

Children of W. R. Shultz Meet for First in 30 Years

The seven children of W. R. Shultz met in his home in North Snyder Sunday to observe the Snyder pioneer's eighty-second birthday and Father's Day. This was the first time all the family had been together in 30 years.

The family attended church services Sunday morning and sat in a group.

Present for the happy occasion were Mrs. Genevieve Smiley and four children of Tranquility, California; Mrs. Robbie Panter and six children of Dallas; J. J. Shultz of Freeport; Mr. and Mrs. Holly Shuler of Snyder, their son and family of Hobbs, New Mexico; Mr. and Mrs. W. E. Shultz and six children of Clovis, New Mexico; Mr. and Mrs. Wren O. Moore of Laredo; Mr. and Mrs. Marvin West and six children of Pettit; Singleton Prather of Muleshoe, who lived with Mr. Shultz years ago in East Texas; Birdie and Mildred Ross, long ago neighbors who now live at Olney; Mrs. Pearl Martin of Snyder; and Miss Josie Moore of Warren, Arizona.

Numerous pictures were made of the group in the afternoon. The guests left late Sunday for their homes, wishing "Dad Shultz" many more birthdays to come.

Election Officials to Be Paid \$5 Per Day

Scurry County election officials will be paid \$5 per day this year, it was decided by members of the county Democratic executive committee which met Monday, according to A. C. Preull, chairman. Pay of \$4 per day was allowed two years ago, and previous to that \$3 per day had been paid for years.

Cost of holding this year's primary election on July 24 was estimated by the committee at \$1,563. Assessments were made against 27 county candidates, and their pro rata part is the highest in the history of the county, since this year's ballot has the smallest number of candidates for many years.

See The Times for rubber stamps.

Join Farm Bureau with More Than One Million Others... And Help Agriculture...

What Helps Farming and Ranching Helps Every One In Scurry County.

Farm Bureau sponsored and worked to put through Congress the R. E. A. bill, the 90% parity on farm products bill and many others. Helped defeat the 4c per gallon tax on tractor gas in the State legislature and worked with the State Law Makers for and against all bills effecting agriculture.

Farmers and Ranchers are represented in Washington and Austin through Farm Bureau.

Farm Bureau stands and works for a balanced economy between Business, Labor, and Agriculture. We must have this if we have prosperous nation and avoid another depression.

NOTICE!

We have been granted a 30 day extension to July 15th to enroll new members in the Blue Cross Hospital Service and will become effective as of the date of application for the quarter beginning July 1st.

There is no age limit provided you are in good health. We have more than 700 members in Scurry County, lets make it 1000.

ROSS WILLIAMS, President
STERLING TAYLOR, Service Agt.

Santa Fe Carloadings Show Big Week Gain

Santa Fe System carloadings for the week ending June 19, 1948, were 32,220, compared with 28,987 for the same week in 1947. Cars received from connections totaled 11,757 compared with 10,424 for the same week in 1947.

Total cars moved were 43,977 compared with 39,111 for the same week in 1947. Santa Fe handled a total of 41,901 cars in the preceding week of this year.

We never did learn whether Kilroy settled down or Richard got the door open.

Texas Electric Show at Sweetwater To Feature Modern Science Research

The story of atomic energy, told in non-scientific terms, will be a highlight of the Texas Electric Show of 1948 when it opens a three-day performance Tuesday at 6:00 o'clock p. m. at the Sweetwater High School, to which Snyder area people are especially invited.

Raymond R. Schiff, 21-year-old nuclear physicist of the Westinghouse Research Laboratories, will present the "Theater of Atoms" in the school auditorium at 7:30 and 9:30 o'clock each of the three evenings. Mr. Schiff presents numerous demonstrations aimed at informing and clearing up much of the misinformation regarding the use of atomic power.

These demonstrations will include a model atom smashes, a demonstration of atomic bomb chain reaction, a display of an early form of atom smashing and other exhibits.

Mr. Schiff's presentation shows use of the prospectively used of atomic energy in peace time, and he explains how the principle may be able in the future to provide power for entire cities. He predicts many other uses and applications that will be beneficial, as well as explaining the atomic bomb development.

The Texas Electric Show of 1948 marks the premiere public showing of the "Theater of Atoms" and presents an opportunity for residents of this area to be among the first in the world to see an understandable exhibit of atomic energy.

In the gymnasium, a specially arranged presentation of the famous

Walton and O'Rourke puppet show will be shown on a special stage. Reddy Kilowatt, the figure that symbolizes electric power, will be the principal star of the puppet show which will be presented at 7:00, 8:00, 9:00 and 10:00 p. m. each evening.

Exhibits and demonstrations of electrical appliances will be open from 6:00 to 11:00 o'clock each evening in the gymnasium where latest models of more than 50 manufacturers of electrical appliances will be shown.

Also a leading feature of the Texas Electric Show of 1948 will be the farm and ranch electrical exhibit, where electric equipment for farms and ranches will be exhibited.

The Texas Electric Show of 1948 will be in Sweetwater starting Tuesday, June 29, through Thursday, July 1. Admission will be free.

Snyder General Hospital

Patients at Snyder General Hospital since last week's report in The Times have been:

Medical Patients—H. F. Billingsley of Dunn; Mrs. W. S. Goodlett of Dunn; Mrs. J. A. McKinley Jr. of Snyder; Mrs. Leon Andress of Arsh Route, Snyder; Mrs. O. J. Howell of Birmingham, Alabama; Mrs. T. J. Cain of Arsh Route, Snyder; Mrs. Hollis Carmen of Snyder; Mrs. Comer Liles of Justiceburg.

Surgery Patients—Mrs. G. M. Knox of Houston; Connie Sue Morton, daughter of Mr. and Mrs. N. T. Morton of Snyder.

Remaining Patients—Mrs. William Jobe of Birmingham Alabama; Mrs. Edna Bowling of Birmingham, Alabama; Mrs. J. P. Piner of Snyder.

Use a washing powder to clean painted woodwork or walls before repainting.

Income taxes may be unpleasant, but we know of no other tax that we'd like to pay in larger amounts.

MAKING FRIENDS—The small Reddy Kilowatt puppet will talk to youngsters as he visits displays between puppet shows at the Texas Electric Show of 1948. Puppet shows will be staged at 7:00, 8:00, 9:00 and 10:00 o'clock

each evening of the Texas Electric Show at Sweetwater High School, next Tuesday, Wednesday and Thursday. Doors will be open from 6:00 to 11:00 each evening. Admission will be free, according to J. E. Blakey.

Parity for Farm Products to Drop After 1949 Period

Farmers of Scurry County areas, as well as others all over the country, were concerned this week with the definite government sponsored trend for lower prices for farm commodities.

The new farm price support legislation which Congress sent to the white house in Washington early Sunday would revise the formula for parity, the figure on which price props are based.

A compromise worked out at the eleventh hour of the session would continue most of the present high war-time support levels through 1949 and then put into effect a permanent structure of somewhat lower support.

The new parity formula is designed to bring all commodities under the same plan.

Parity is a calculated figure aimed at keeping the prices of farm products in line with those of other segments of the economy. At the ration that exists in some base period generally favorable to agriculture.

The formula originally was based on the 1909-14 period. But it was found that some inequities resulted and different base periods were designated for specific crops so that at present some 25 or 30 periods are in use.

Under the new formula, worked out by Department of Agriculture economists, it is expected that the 1909-14 period will hold good for all crops.

For agricultural prices as a whole, it is not designed to raise or lower their present relation to other prices but it would revise somewhat the relation among various farm crops.

Maybe the cost of living is too high; but most of us are sure trying to get our money's worth.

Funeral for Mrs. R. L. Lightfoot at Fluvanna Today

Mrs. R. L. Lightfoot, 52, died in a Sweetwater hospital early Tuesday after an illness of several weeks. Wife of a long-time Fluvanna community farmer, Mrs. Lightfoot had been a resident of the county for about 40 years.

Funeral services are scheduled for 3:00 o'clock this (Thursday) afternoon at the Fluvanna Methodist Church, Rev. A. L. Patterson, pastor of the Fundamental Baptist Church at Sweetwater, assisted by Rev. Sam H. Young, former Snyder minister and now pastor of Highland Heights Methodist Church at Sweetwater, will officiate.

Interment will be in the Fluvanna Cemetery under direction of Patterson Funeral Home of Sweetwater.

Surviving Mrs. Lightfoot are the husband of Fluvanna; three sons, Truman Lightfoot of Jal, New Mexico, Jewell Lightfoot of Sweetwater and Billy Lightfoot of Sweetwater; four daughters, Mrs. Jim Clanton and Mrs. Pete Bradshaw of Sweetwater, Mrs. J. W. Jackson of Leonard and Miss Merle Lightfoot of Dallas; three brothers, Simon Best of Snyder, J. N. Best and R. B. Best of Sweetwater; and four sisters, Mrs. Otha Miller of Littlefield, Mrs. Jim Patterson of Porterville, California, Mrs. Reagan Armstrong of Salinas, California, and Mrs. Charles Stracener of Sweetwater.

Mr. and Mrs. Lance Mullins have returned to their home at Bridgeport, Connecticut, after spending several days with their parents, Mr. and Mrs. H. A. Mullins. Lance declared Snyder had grown so much he liked not to have recognized the old town.

Side-stepping only gets you farther away from where you hope you are going.

Gray No. 1 Well On T. F. Blackard Site Flowing Oil

Probably the best well in the eastern side of the Sharon Ridge oil field was brought in Monday night about 11:30 o'clock, when the E. G. Gray No. 1 T. F. Blackard well flowed by heads at the rate of 200 barrels per day, according to Mr. Blackard, who was here from Carrizo Springs to see the well brought in.

The well, bottomed at 1,720 feet, showed a good gas pressure, and flowed by heads from midnight Monday until middle of the week.

Drilled with cable tools, the well is an offset to the Ellis wells to the east. The new producer is 12 miles south of Snyder. Located on the northwest 40 acres of the southwest quarter of Section 193, the well is on a block of land sold 17 years ago by T. F. Blackard, on which he retained the mineral rights. He had leased the tract two years ago for \$7.50 per acre, he told The Times Tuesday.

Blackard said three other wells are slated to be drilled on the block by Gray.

Oleo Tax Repeal Put Off by Legislators

Members of Congress from the northern dairy states last week-end put the oleomargarine issue on the dead hook for the session that adjourned Saturday.

People of Scurry County and other cotton producing areas of the South were concerned with repeal of the taxes on oleo that hampers the marketing of oleo.

Senator Thyne, Republican of Minnesota, said in Washington last week that the measure to repeal all federal taxes on oleomargarine "is very definitely laid away—peacefully and comfortably."

If Petrillo would just stop the juke box musicians he'd regain a lot of lost popularity.

W. C. T. U. to Host Picnic at School

Family style picnic is being scheduled on the Snyder High School campus park by the Snyder Woman's Christian Temperance Union, according to officials of the group, next Thursday, July 1, beginning at 10:00 o'clock a. m.

A recreational period will be provided for the children, and a short service will precede the picnic style lunch. Topic for the service will be "Safeguard Characters," on which program several speakers will participate, it is announced.

Lunch will be served to the group about 11:30 o'clock it is announced by W. C. T. U. leaders.

Treasurer of the Snyder unit reports that funds raised from the Mother's Day proclamation by the state W. C. T. U. president as follows: Three ladies' Bible classes of the First Baptist Church gave \$11.15; one ladies' Bible class of the First Presbyterian Church gave \$3.20; three ladies' Bible classes of the First Christian Church gave \$3; four ladies' Bible classes of the First Methodist Church gave \$8.71; new memberships accounted for \$3; and renewals netted \$2—for a total of \$31.06. From this fund were sent 15 new and one renewal subscriptions to The Union Signal, five new W. C. T. U. memberships and one renewal membership. Officials of the local union express gratitude to all these groups.

"Remember the picnic next Thursday, and come," leaders urge.

Congress Pushes Through Bills Fast Saturday Night to Close Long Grind

Weary-eyed and subdued, the 80th Congress left Washington Sunday expecting to go back before the end of the year.

In a grueling, stumbling final two days it had shoved through last-minute farm legislation, emphatically sent a peace-time draft on its way to the law books, and warmed up heavy political artillery for the national party conventions.

It also gave strong backing to the compromise \$6,030,710,228 foreign aid bill. The House passed it 319 to 62, and the Senate whopped it through on a voice vote.

The agreement was \$95,000,000 less than the Senate voted and more than a billion more than the House first approved. However, the big argument was settled on the Senate's

terms. The money is appropriated for 15 months, but can be spent in 12 months if the president thinks it necessary.

Signals from Republican leaders changed almost by the minute in the long closing hours, and a murky dawn caught the lawmakers still at their desks. The senators had been there 44 hours and 15 minutes, and House members 20 hours and 55 minutes when the adjournment gavel finally fell at 5:55 a. m. in the House and 6:15 a. m. in the Senate.

Leaders left it so they can call Congress back to the job, and Speaker Martin of Massachusetts told reporters they probably will do it. Republicans will be ready to beat President Truman to the punch if he makes Congress' record any more of an issue in the presidential campaign, Martin said.

The farm bill came to the floor after an off-again, on-again night of leadership conferences. It was a hybrid made up of a temporary bill which passed the House last week and parts of a long-range bill approved earlier by the Senate.

Briefly, it will do this: Continue present price supports through 1939, and provided a new long-range program, at somewhat lower levels, to go into effect in 1950.

In both the House and Senate Democrats taunted Republicans for the scramble over the bill. One Republican member resigned from the conference committee that wrote the measure, and the conference was in almost continuous session most of the night.

Inkograph pens at The Times.

ANCHORS AWEIGH—The fair haired lass who captains this vessel won't have any trouble rounding up a crew (and maybe even a few stowaways) in such a sunback dress designed by Junior Miss of California. The National Cotton Council says the captivating cruise fashion is of cowboy blue cotton denim, with a ruffle of white eyelet embroidery adding a touch of femininity to the seafaring ensemble.

Joel C. Johnson Says Army Life Not Bad

Corporal Joel C. Johnson of 1010 26th Street, Snyder, has decided that life in the Philippines is not all work and it's not all play—it's a combination of both, declares a press release to The Times from headquarters of the 13th Air Force at Manila.

Corporal Johnson recently spent 10 days of furlough at the Camp John Hay Rest Center at Baguio in the mountains of Northern Luzon, the island on which Clark Air Force Base is located.

Camp John Hay is at an altitude of approximately 5,000 feet, and on his return Corporal Johnson described the weather there as "just like in Texas."

Keeping the poultry brooder dry often keeps down an outbreak of coccidiosis.

E. S. & P. Icing Lots Of Cars These Days

Roscoe, Snyder & Pacific Railway, the 28-mile-long railroad from Roscoe to Snyder, continues to do a big business, according to A. C. Preull, Snyder agent.

Through traffic on the road has been heavy during recent weeks, Preull says. Big daily shipments of fruits and vegetables from California on its way to the Eastern retail centers have accounted for heavy traffic. Refrigerator cars are being iced every day and night at Snyder as the cars are transferred from the Santa Fe, iced, then shunted to Roscoe to the Texas & Pacific lines.

Mrs. J. E. Leer and daughter, Dorothy Dell of Vernon visited from last Friday through Thursday with Mr. and Mrs. Com Ezell and boys. Mrs. Leer is a sister of Mrs. Ezell.

Stockmen Urged To Be Alert for Screw Worm Fly

While Scurry County stock owners have done a good work in controlling screw worm flies the last few years, County Agent Oscar Fowler urged first of the week continued alertness on the part of stock raisers in handling the insects that are constantly a threat to animals.

Fowler said that records released recently by O. G. Babcock of the U. S. Department of Agriculture's Bureau of Entomology at Kerrville, indicated that screw worm fly survival ordinarily covers 40 to 60 Texas Counties during the winter, the past year's survey indicates that winter survival was noted in only 10 counties. No survival was shown for Scurry County.

Fowler declared that the screw worm fly cannot be eliminated with DDT solutions, infections by the fly can be controlled. He recommended that control measures be practiced at least twice a year—in the spring and early fall.

"The screw worm fly does not deposit all its eggs in one wound, so diligence in protecting all wounds in animals is imperative," Fowler said.

For an effective spray the county agent recommended use of eight pounds of 50 per cent DDT to 100 gallons of water, which will make a five per cent solution that may be sprayed directly onto animals without ill effects to the livestock.

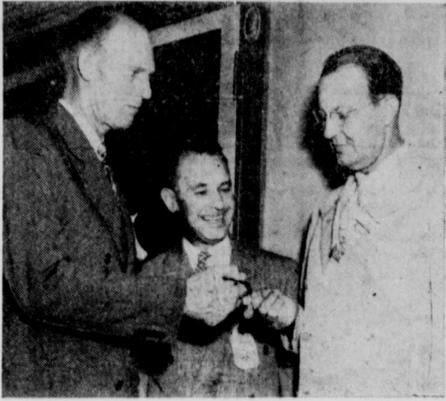

Fowler points out that increase of screw worm flies during mid-summer is not as great as in the spring and early fall on account of the hot dry weather.

Agent Attends Range Management School

County Agent Oscar Fowler left Snyder Wednesday for Sonora, where he is attending the second annual range management school being conducted under auspices of the Extension Service of Texas A. & M. College. About 25 county agents from seven Texas districts were expected to attend the school. Fowler was one of three attendants from the District 7 area.

Specialists in range management were scheduled to direct activities at the Sonora Experiment Station from June 24 through July 4, Fowler said. From then until July 10 scattered demonstrations and experiments in Southwest Texas pasture lands were slated.

Office of County Agent Fowler is to be closed until July 12 the agent declared.

GOLDEN KEY—Robert Matherne (right) of Baytown, newly elected president of the Texas Press Association, is shown receiving from Paul M. Fulks (left) of Wolfe City, retiring president, the golden diamond-squid key to the Texas treasure chest at the State Fair of Texas upon his election by the press group last week-end in San Antonio. Witnessing the ceremony is Millard Cope of the Marshall News Record, who represented the

Texas Newspaper Publishers Association at the convention. The golden key, which is being passed down from president to president, will be used 38 years hence to open the treasure chest on the 100th anniversary of the State Fair. Embedded in 1938 in a monument to the founders of the State Fair, the chest contains historical documents and copies of more than 100 Texas newspapers, including a copy of The Scurry County Times.

Levelland Plans Rodeo July 2-4 as Biggest Yet Held

Plans are rapidly getting underway for the biggest annual rodeo ever held at Levelland, which is set for July 2, 3 and 4, said Bert Eads, president of the Levelland Rodeo Association, sponsors of the event, in a news release to The Times this week.

Night performances are scheduled for July 2 and 3, and matinees for July 3 and 4.

Levelland Lions Club is sponsoring two booster trips, with the Levelland High School Band furnishing the music, one of which will be Wednesday and the other June 29.

The Lions Club also is decorating the entire business district with red, white and blue flags and other emblems.

Junior Chamber of Commerce will conduct a parade at 10:00 o'clock Saturday morning, July 3.

City Federation of Women's Clubs is selling tickets and advertising for the daily programs, with one-fourth of the net proceeds going to the women for a club and youth center building.

All the Same Difference.

Second Little Girl—"We take from him, too."

Slight Declines In Cotton Prices Tallied for Week

Cotton prices declined slightly this week in comparatively slow spot markets, according to the weekly release of the Department of Agriculture to The Times. Trade attention was focused on developments relating to the ECA cotton purchase program and the progress of the new crop.

Mill buying was limited to small lots for prompt shipment. Inquiries and offerings were light in volume. Slow trading persisted in textile markets and there was continued pressure on prices for many constructions. The first bale of cotton ginned from the new crop was sold at auction at the Houston Cotton Exchange on June 14.

Weather conditions were generally favorable over the cotton belt and good crop progress was reported in most sections.

Cotton prices were steady to weaker during the week. Spot prices for middling 15-16 inch in the 10 spot pound Thursday, June 17, against markets averaged 37.04 cents per 37.15 cents a week earlier and 37.71 cents on the same date a year ago. The average spot price for the week ended Wednesday was 37.10 cents per pound against 37.53 cents for the previous week. The discounts for the lower grades and shorter staples widened further during the week. Grade premiums were about unchanged but staple premiums narrowed considerably. Prices for July, 1948, futures declined nine points during the week compared with an increase of 19 points for October, 1948, and a 10 point increase for December, 1948, futures.

Market activity was slow again this week. Offerings of the medium and higher qualities were scarce and inquiries were mostly for the new crop cotton. Demand was generally dull and trading in spot markets was quiet. Mills took a small quantity of cotton for immediate needs but merchants and shippers report that very little new crop business has been booked.

Reported sales in the 10 spot markets totaled 48,200 bales for the week against 40,200 bales in the preceding week and 31,700 a year ago. The CCO entered into the market with an offer to purchase about 2,500 bales of cotton for the United Nations International Children's Emergency Fund. Registered sales under the cotton export program

Woman's World Proper Technique Will Make Washdays Cheerful and Cool

By Erta Haley

A WOMAN said to me recently, "There's nothing to washing clothes. People have done it for thousands of years and surely they know how."

That may be true, but many people have never seen a washing done properly and, as it is with many simple tasks, there's always a right way.

Many women, for example, do not sort their clothes. In fact, they've never heard of such nonsense! Don't they all go through the machine? Yes, they do, but if they come out the lighter or darker shade of gray, well then, they simply didn't let the machine run long enough or they were short of soap! One of the common faults in using a machine for washing is overloading. You must get the proper loads in to have best results. You can simplify the laundering problem a lot just by sorting the clothes and running them through in the following order:

The least soiled things like bed linen are run through first. Naturally we assume that you change weekly and linen is not allowed to get very dirty.

If table linens are less soiled run these through first, then bed linens.

Shirts and light colored things with perhaps a few towels make up the third load.

Moderately soiled cottons and linens, towels and slightly soiled

Organize laundering by sorting . . .

wearing apparel follow the light colored load.

Dark colored clothing and rather dirty clothes go into the fifth load.

Heavy articles such as rugs or mats go in last. Do not run too many at one time.

Treat All Stains Before Laundering

Clothing with stains or clothing which needs to be bleached needs attention before washing. Check over the stain situation and remove these. Rinse thoroughly before washing.

When you use a bleach, make certain this is rinsed thoroughly before you put it in to wash. Also be certain not to get the bleach on other pieces while you work.

Use Hand Laundry For Some Clothing

Certain articles of clothing and household articles are best done by hand since they require such gentle handling. In this class are included silks, curtains, laces, fragile lingerie and accessories such as fine

When you live where it's clean, dry sheets the old-fashioned way, spreading them on the lawn to give them an intense whiteness and sweet fragrance.

Keep colored sheets away from direct sunlight. Hang them in the shade of a tree when possible.

The trick to ironing sheets properly is to keep the hems straight and even. On pillow cases, work away from the closed corners.

All sheets should be folded uniformly. Twice lengthwise and as many times the other way as needed. Sew tabs on sheets as to size so you'll know which ones to pull out for use.

Pile clean clothing on bottom of pile; take things as needed from the top and everything will wear evenly.

And proper hanging.

gloves, hose and pieces of neckwear.

These are best done weekly on a day other than the regular laundry if there are a lot of them. Many of these, like neckwear, hose and gloves, can be given a daily sud-sud in the wash bowl.

The recipe for doing them is somewhat similar: Gentle suds with lukewarm water with gentle squeezing and handling and absence of rubbing or wringing.

Use clear, cooling water for rinsing out the last piece of soap.

Stretch gently into shape. This saves ironing on gloves, saves hose and makes neckwear easier to press.

When washing fine things take off rings and jewelry and file broken nails so you won't injure the fabric.

Wash Frequently Enough To Keep Clothes Best

Materials may have a high wearability rating, but you should wash everything before it is so bogged down with dirt that it's impossible to get clean.

Washing Turkish towels is extremely important, because they wear longer, stay brighter and fresher when done frequently. Save

Summer is the ideal time for novelties in accessories, those whimsical notes that give you and your casual summer costumes such a grand pickup. One of the prettiest of these ideas is the matching of hat and bag in rough straws, that lovely burnt color which is a dream in itself.

This gives a magnificent background for brilliant plaid ribbon, polka dots, kelly green and other exciting colors.

You can't go wrong when you purchase a cooling suit of rayon sharkskin or gabardine for smooth daytime and traveling wear. These suits wear well and always help give you that band-box look.

Aqua is one of the colors of the season, and almost every woman can wear it. However, if you're the type, pink is very popular, too, and you'll see it in suits as well as dresses.

One feature you'll like about linen is the play of its gorgeous colors in silhouettes that make the most of very smart simplicity. Cooling combinations are lavender trimmed with white, and green and white.

Have you noticed how many of the flowing effects on skirts are achieved by gathered knife-like pleats? They're for old and young alike as long as you want to look graceful as well as fashionable.

Kathleen Norris Says:

Politics Cures Loneliness

By Kathleen Norris

There you'll find spectacled women, women with bulbous noses, smart and stupid women, fat and thin, dowdy and stylish.

By KATHLEEN NORRIS

SHE is 31. She is alone in the world, living in a one-room apartment in a big city. She is plain — her nose, she says, is inclined to look shiny and bulbous, she wears glasses and her color is too high in winter when her hands and feet get cold and her face hot. She has few friends because most of her friends have married and gone away from the business world into home-making, wifehood and motherhood.

Gertrude White feels herself a failure. She is very unhappy. She went to a psychoanalyst, but all he told her in seven sessions was to try to forget a lonely and handicapped childhood and a self-sacrificing youth and assert herself and her potential of happiness and success.

"I like men, but am horribly shy and self-conscious when in their company. I try to think of subjects interesting to them, but succeed only in making such artificial remarks that my purpose is perfectly obvious and they either answer briefly or wander away to some other woman."

"You don't know," Gertrude's letter continues, "how I envy women luckier than I in the way they seem to know how to live. Their simplest achievements seem miraculous to me — having men buzz about them at dances; receiving invitations, attentions, offers of marriage; going through all the steps of engagement and marriage and then proudly taking their places in the social group as wives and mothers. I don't know how to get started. I know I could be loving and capable if I had a chance. I've never had a chance."

Can't Make Friends

"Please don't tell me," she finishes, "to show men simple friendliness and interest and forget myself in trying to win their friendship — that's just what I do! Please don't tell me to enlarge my interests and join a class of some kind. Because I did, with the hope that it would bring new contacts into my life. The only friends I made in a Spanish class were an old man and his wife, who stuck to me so that everyone thought them my father and mother. And even they never asked me to their home!"

"I want terribly to find myself. I don't want to die, 30 years from now, never having lived."

All right, Gertrude, I will not make you the usual suggestions of charity work in some hospital or community house or study in some night class. I will ask you to do two things.

The last woman to whom I gave this recipe was in a bad way, indeed. She had gone down to the lowest depth a woman can plumb. Ridden by physical disease and a consuming hunger for drugs, she staggered into my life 10 years ago. Now she lives in Texas, raises Shetland ponies and has a good husband. She is a happy, successful woman.

My suggestion to Inez was this same one—to go into a church every day, sit thinking for a while and then kneel to say only the brief prayer, "CREATE A NEW HEART IN ME, O GOD." This prayer never

Look at the women at these meetings, the women at parent-teacher meetings and the women flocking out of church on Sunday morning. There you'll find spectacled women, women with bulbous noses, smart and stupid women, fat and thin, dowdy and stylish—all successfully married and many the mothers of children. They didn't do it on their looks. They gained what they have gained because they realized from their very girlhood days that men are like women, too—thin, fat, stupid, smart, shy, inhibited, lonely—and that most of them want to find mates. But since the start is so hard for you in your own group, go to some good, rowdy meetings, where everyone talks to everyone else, and breaks the ice. Good luck to you!

TRAVEL ABROAD INCREASES WASHINGTON. — More Americans than ever are planning to travel abroad despite the troubled political situation over there.

Trans-Atlantic steamship passenger volume is 25.5 per cent above last year's. Air travel has increased 31.2 per cent and it looks now as though seats for the Atlantic trip will be in greater demand this year than last year.

The state department said applications for passports are increasing.

Women on Jobs

or three types of work, so if one plan did not work out, she might try a second or a third.

With plans A, B and C ready for use as circumstances indicated, the young woman could avoid aimlessly drifting from job to job, he said.

Specifically, Endicott advised young college women to beware of careers in crowded fields where they must compete with men—unless they had a husband to support them meanwhile.

Eduator Advises College

EVANSTON, Ill.—A college woman ought to have several job qualifications as she faces the years after graduation, according to the advice of Frank S. Endicott, director of placement and assistant professor of education at Northwestern University.

Endicott spoke at the annual careers conference for women, sponsored by the Women's Self-Government association. He said a girl would be wise to prepare for two

She is very unhappy . . .

Star Dust

STAGE SCREEN RADIO

By INEZ GERHARD

JEAN ARTHUR has a way of stamping a role as her own so definitely that it is impossible to imagine anyone else playing it as well. Returning to the screen in "A Foreign Affair," she has taken on an assignment that many ac-

JEAN ARTHUR

tresses would shun. She plays a dowdy, too earnest woman who loses her head completely when a handsome man makes love to her. True, the young man is John Lund, who is much like Clark Gable in Gable's younger days. Marlene Dietrich completes the trio. Most of the picture was shot in Berlin, and while it is a comedy, there are serious undertones.

Errol Flynn is turning sportscaster when he fills in for Bill Stern on the "Sports Newsreel" July 23 while Stern is in London for the Olympics. Stern may relate his sports stories at the Palladium, for \$4,500 weekly.

Anne Burr, menace on "Big Sister," did three unsuccessful auditions in an attempt to break into radio. So she turned to Broadway, and appeared in five plays. The last, "The Hasty Heart," took John Lund and Richard Basehart to Hollywood and gave Anne a leading role—without an audition. Because of her deep voice, she draws many "menace" roles.

Lowell Thomas, veteran CBS newscaster, is investigating the possibilities of short-wave broadcasting from Palestine if he goes there this summer to do a series of on-the-spot broadcasts, but nothing is settled yet.

Nine-year-old Luana Patten, featured in Walt Disney's "Melody Time" and "So Dear to My Heart," will mingle with real-life characters in her next picture, a Universal comedy with Claudette Colbert and Fred MacMurray.

Jane Wyman has sold her first oil painting. She was inspired by the beauty of the California coast when she went on location for "Johnny Belinda." The price was \$4.50. The frame cost Jane \$4.

Jerry Wayne, a singing star a few years ago, is singing his way back to the top. You heard him on "The Ed Wynn Show," "The Hit Parade" and "The Jerry Wayne Show"; now he is acting as manager of ceremonies and singing five times a week on CBS. It is a variety show, with a vocal or instrumental guest star each evening.

Barbara Bel Geddes, who did so little in "I Remember Mama," will have a real chance to display her undeniable talent as an actress in RKO's "Bed of Roses." She will play a youthful, captivating woman who uses her charm ruthlessly—what actress wouldn't jump at that role! She went to Hollywood after making a hit on Broadway, and should be a big star there.

Odds and Ends . . . Three well-known names star NBC's summer list—Morton Downey, Jane Pickens and Jack Pearl . . . And two daytime serials have returned to the air—"Hilltop House" and "We Love and Learn." The latter permanently replaces "Katie's Daughters." Wanda Hendrix, one of Hollywood's tiniest actresses, eats five meals a day, under doctor's orders; meals were served every two hours on the set of "Now and Forever" . . . Ninety-one of Hollywood's most beautiful girls were screened at Warners for 48 roles as bathing girls in "The Girl from Jones Beach." Those who have seen the place won't recognize it!

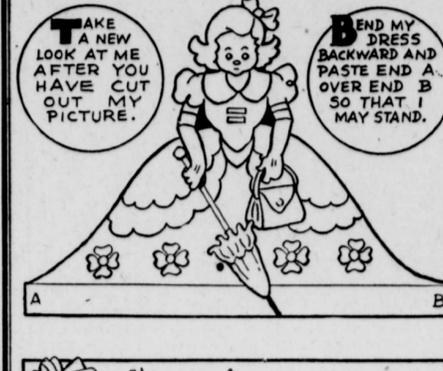

In Earl Wrightson, "The Family Hour" has a male star for the first time, perhaps because he can do both popular and classical songs authentically. He was a regular member of the cast from May, 1945, to September, 1946, and has sung in opera, concert, a Broadway musical and television. Since he was in his teens he has paid for music lessons by holding a full-time job. The first was in a Baltimore bank, where he met his wife; they were in adjoining "cages."

Eve Arden says she has spent so much money on her summer wardrobe that she can't afford a vacation. She'll have a chance to wear the clothes when she does summer stock in California, Massachusetts and Connecticut.

Thomas Gomez, 300-pound actor, suffered arm and leg bruises when he fell into the ocean from a raft in a scene for "Key Largo." The "ocean," however, was only 18 inches deep.

SQUIRE SQUARE

CONGRESSMEN WHO WERE SO DISTURBED OVER THOSE VOICE OF AMERICA BROADCASTS SHOULD LISTEN TO A SOAP OPERA SOMETIME FOR A REAL WALLOP.

No golf instructor can give you too many things to watch at a time. As a rule just one thing is enough.

Portlight

By GRANTLAND RICE

THERE are many millions who take either a keen or a casual interest in what happens day by day in baseball. But there are nothing like the passionate interest some three or four million golfers have in reducing their score.

Baseball's major interest belongs to spectators. Golf's major interest belongs to the players and competitors. Golf is one of the greatest health-making and training games of all time for the multitude.

Baseball is one of the greatest fan games or mental relaxations for the crowd, minus any physical aid. The golfer's interest is largely personal. "How can I chop off a stroke or two," asks Bill Brown, "so I can trim that fathead, Jack Smith, who makes me play him even?"

There are things you can do or at least try. For example here are tips that came direct from Harry Vardon:

"Vardon gave me a great tip," Walter Hagen told me one day. "It was about playing shots from heavy rough or from the sand in bunkers. I used to go into the rough or walk into a bunker gripping a niblick as if it were a matter of life or death. It meant power."

"Don't do that," Vardon told me. "Grip the club lightly or gently in your hands. Get the full play of your hands and wrists. Eliminate tension, as far as you can. Most people in trouble, in the rough or the bunker, nearly always develop too much tension. This is the spot where you can't afford tension. Just ease up."

Another Vardon tip came years ago from a British publisher whose short game was phenomenal.

"I'll tell you who helped me," he said. "It was Vardon on chip shots. Vardon showed me how to pick out a spot or a target just an inch ahead of the ball. This helped me to chip or swing through the ball. It prevented stabbing or jabbing."

"Vardon is an amazing man," the publisher said, "on the simple side of the game. He doesn't use a straight left arm. He breaks his left elbow, bends it. But his left arm is straight at impact. That is when it counts. That is where almost everything that counts takes place. At impact."

On chip shots you might try the Vardon system—picking out a spot an inch beyond the ball as the target.

Golf Is Personal

Golf is your game. To a large degree baseball, football and boxing are someone else's game. Golf is the playing game. Tennis is a playing game. The others are spectator's games.

How can you pare away that extra stroke or two—maybe three or four strokes? Here are just a few more tips:

BEN HOGAN: "At the finish of my swing, the right hand is in control. The left hand is important until the final smash."

"But I can give you another good tip. It concerns putting. Most putts are missed because there is knee-and-body motion when you stroke the ball. I concentrate on locking my knees so there can be no knee-or-body motion. Putting belongs entirely to the hands and wrists. Keep the body still and then stroke the ball. But concentrate on stroking the ball."

GENE SARAZEN: "The big weakness in golf is the tension most golfers develop in being too slow. They say golf is not a game of motion. It is with me. I hit a drive. Then as I walk up to the ball I make up my mind on the club I need. That won't take over a second or two."

"It's the same way on the green. Don't hurry. But don't get tied up. Keep moving. When you've decided on the club you need, forget everything else. Concentrate on that club only. But never hurry any swing."

"Here is an excellent tip. Never hurry any swing or any part of a swing. You can loaf on your backswing. But it is more important to loaf on your downswing."

Delay in Downsizing

"In my opinion," Tommy Armour has told me several times, "the delay in the downsizing is the most single important feature in golf. This was a big factor in Vardon's swing, the finest swinger I ever saw play. It was a big feature in Bobby Jones' swing in his later campaigns. I mean after 1922. Hagen was never in a hurry. He was a magnificent timer."

"I wonder how many golfers know they start their downsizing before they finish their backswing? They simply can't wait to hit the ball. They get about two-thirds back and then the downsizing starts."

"I would say this is the biggest common weakness in golf. The main idea is not to hurry anything. You can loaf on your backswing—you can loaf on your downswing. Not too much, but enough to keep everything smooth. Don't ever rush that downsizing. That even goes for chip shots."

"Lawson Little came to me once for lessons before he went abroad to play in the British Amateur championship," the former champion continued. "I did only one thing for him. I got Lawson to delay his downsizing. That's all. Nothing else. Just take a little more time on starting his downsizing. Lawson won the British Amateur twice in succession and later won the U. S. Open."

No golf instructor can give you too many things to watch at a time. As a rule just one thing is enough.

Babson Urges Young People Seeking Jobs to Find Place for Own Abilities

Babson Park, Mass.—At this time of year thousands of young people leave school to look for jobs. Many are through with school. They want work by which they can make a living. Others are looking for summer jobs. They want to use their vacations profitably. Some of you young people have written asking for job hunting tips.

Too many young people, when asked what they can do, reply, "Anything." This is a sure way of not getting a job. Well, here is some good advice from me: Collect a few facts about a company before you go for an interview. Know something about its product. Know why you want to work for this particular company. Be able to give enthusiastic reasons for wanting the job and to state definitely your own qualifications.

Tell the employment manager what work experiences you have had. Convey to him the kind of a person you are. Give him the impression that you would be a good producer for his company because of your interests, abilities, experience and personality. Don't tell him you need a job. Talk of his troubles, not yours.

The Babson Institute has contacts with hundreds of employers across the country. I have made a trip through the Mid-West where I talked with employment managers, sales managers, presidents and directors of corporations. They re-

port that, more than anything else, young people are in too much of a hurry. Remember you are worthless to an employer until you learn something about a company and its problems.

My father used to say, "It takes two years to make a two-year-old heifer." He was right. You can't sell until you know your product. There is no place like the stockroom to learn this fundamental. If you really want to go places on a job, be willing to start at the bottom and do your job well. Don't be afraid of getting your hands dirty.

One Middle Western employer is currently telling a story about a wealthy young socialite. This young man could have stepped into a lucrative family business. Instead he went to another manufacturer and said, "I am absolutely worthless to you but there is nothing I want more than to learn your business. The only way I can learn is to go into the shop and roll up my sleeves and go to work. I want that opportunity to start at the bottom and get a good background." The employer was so impressed with this young man's sincerity and foresight that he hired him to the spot.

One thing employers will find out about you is whether or not you are a good producer. This will be determined by school records, part-time work experiences, confidential recommendations and so forth. You would be surprised how easy it is for an experienced interviewer to size up a fellow who wants a job "gold-bricking." Time and again, I have heard business men say, "The young person who hasn't learned how to produce isn't worth a plugged nickel to me."

America is what she is today because of the blood and sweat of our forefathers. Only your willingness

and ability to produce to capacity will keep her great. Hence, such traits as responsibility, persistence, courage and enthusiasm will go a long way to help you act and get things done. Adaptability and flexibility, the power to think and reason clearly are also traits much sought by employers.

But above everything the most important qualification is character. It seems to me that without question there is nothing more important in an employee than a strong character. The man of character is the man who gives an honest day's production and then some.

Three Snyder People Enrolled for Summer Classes at H-SU

Three persons from Snyder are among the 1,105 students enrolled for the first six weeks term of the 1948 summer session at Hardin-Simmons University, Abilene, Alton B. Lee, registrar at the college, has disclosed in a release to The Times.

They are Miss Jomnie Delle Brock, daughter of Mrs. Mabel Brock; T. E. Green, son of Mr. and Mrs. G. G. Green; and Mrs. M. E. Stanfield.

The 1,105 students comprise the largest summer time student body in the school's history, Lee said, representing an increase of 136 students over last summer's previous all-time high.

The current term will close July 10 with a second six weeks session scheduled to begin on July 12. A three-week class will be held from August 20 through September 9.

Approximately 150 of the 1,105 students are doing graduate work, while many are public school teachers finishing out their degrees. More than 200 are new students at Hardin-Simmons.

for his day's wages. He is the man who gets ahead. There will always be opportunity for well trained, serious minded young people of character.

15 County 4-H Boys To Attend Lake Camp

Probably 15 Scurry County 4-H Club boys will attend a three-day District 7 encampment at Lake Brownwood July 19, 20 and 21, it was announced first of the week by County Agent Oscar Fowler, who will accompany the boys.

The boys, to be selected from the 4-H Clubs of the county, will camp on the shores of Brownwood Lake. Daily instruction periods in club work will intersperse recreational activities.

Fowler said that probably 150 boys from over District 7 will attend the three-day outing.

Some Concessions at Rodeo Still Available

Several concessions at the Scurry County Rodeo still are available, according to officials of the Scurry County Rodeo Association.

J. M. Newton at Newton's Grocery is in charge of the concessions. Persons desiring to arrange to handle concessions at this year's rodeo on July 14, 15, 16 and 17 are asked to contact Newton for particulars.

Our Soil Is Our Most Valuable Asset . . .

Nature's gift to the people of the world, our soil is our greatest heritage. As we preserve its fertility so shall we prosper or go backward.

Good plant litter on a field protects it from wind and water erosion, helps it soak up more water, improves the soil by adding humus. Here wheat stubble, cut with the combine set high so that long stalks would be left, protects a field.

Snyder area soils that have been robbed of much of their fertility by continued crop production without the return of needed enrichment are prone to get like the cow that is milked without being fed. Give your soil a break—let it rest occasionally and feed it by adding humus.

Talk with your Soil Conservation District leaders for suggestions on soil conservation methods, practical pasture resting practices.

Snyder Continues to Use All Water Desired as Area Towns Curtail Use

Snyder water consumers continued to use all the water they wanted during June, and prospects are that easily an all-time high consumption will be established for the month.

This is in direct contrast to many towns and cities of Texas as they faced water shortages and overtaxed filtering and pumping facilities.

A loudspeaker, for example was used at Colorado City, our neighbor to the south, last week to ask water users to use less water. Household-ers were requested to stop watering lawns until further notice. The town is supplied from deep water wells. Additional wells and water system improvements have failed to keep ahead of the town's growth, and the shortage has been aggravated by a week of temperatures above 100 degrees after a long spring drought, a news story declares.

Sweetwater, to the southeast, was urging big users to go light on use of water, and asked home owners to water their lawns only as abso-

lutely necessary. City officials declared that there was still a good supply in the two city lakes, but pumping facilities were having difficulty in keeping the pressure up in the water mains of the Nolan County capital.

And not only was West Texas suffering from water shortages—for example:

Fort Worth, faced with the worst shortage in its history, slapped an official ban Saturday on outside watering. Factories and homes were asked to close down evaporative coolers.

In Dallas, City Manager Thomas appealed Saturday to all household-ers not to water their lawns between 4:00 p. m. and 8:30 p. m. Low water pressure cut off the supply to several outlying sections last Friday.

At Corpus Christi, where the drought is the worst since 1938, the City Council has urged voluntary rationing. There is a critical water shortage there because of lack of

Swayne Williams Is Serving in Air Force Unit on Guam Island

Sergeant Swayne Williams, formerly of Artesia, New Mexico, and son of Mr. and Mrs. Roy Blackstock of 1111 25th Street, Snyder, is now serving with the Far East Air Forces on the island of Guam, according to a release from the Marianas Air Material Area's public information office to The Times.

Sergeant Williams is currently assigned as a warehouse clerk with the 19th Air Supply Squadron at the Marianas Air Material Area. This command, known as Marama to the personnel of the Far East Air Forces, is life service and supply agency serving strategic air units of the Far East Air Forces in this area of the Pacific. It is under the com-

mand of Brigadier General Arthur Thomas.

After enlisting in the Army in April of 1946 at Carlsbad, New Mexico, Williams was sent to Fort Bliss, Texas, for basic training. Upon completion of basic training, he was stationed at Sheppard Field. He was then sent to Buckley Field and Lowry Field in Colorado. In December of 1946 he went to Hamilton Field, California, for overseas assignment. Departing from the San Francisco port of embarkation on January 13, 1947, he arrived on Guam in January of 1948.

Before entering the service Williams attended school at Oklahoma City. He was later employed by the Barnett Company of Artesia, New Mexico. He was recently promoted from corporal to sergeant at Harmon Field.

Snyder Rotarians to Attend District Meet

Several members of the Snyder Rotary Club indicated first of the week that they would attend the annual convention of District 127 of Rotary International at Lubbock this week-end. The convention will be held Sunday and Monday, with main business sessions scheduled for the latter day.

Retiring President R. A. Schooling, President-elect W. A. Cassaday, Ernest Taylor, A. C. Alexander and Bentley Balze were among those arranging to attend, with several others also slated to go.

Typewriter ribbons for all makes of machines at The Times.

rain in the Nueces River watershed, its source of supply. At San Antonio, W. D. Master-son, general manager of the city water board, said that should the drought continue and the underground water levels get lower, the city will face a possible water shortage before the fall rains come.

Captain Schiebel Points to Duty in National Guard as Service for Draft

Captain Bill Schiebel, commanding officer of Company A, 124th Reconnaissance Squadron of the Texas National Guard at Snyder, this week pointed out some of the many advantages of being a member of the guard.

"According to the adjutant general, members of the Texas National Guard will not be subject to call under the new Selective Service Act which was passed Sunday morning at Washington," Captain Schiebel said.

"Of course, the National Guard is not seeking draft dodgers, but for the man who has started a career or who is attending college, it is the means of continuing his present work while accomplishing the military service that will be required of all men between the ages of 19 and 25," Schiebel explained.

"The pay and allowances are the same as for comparable grades and rank in the regular Army," Schiebel added. "The training is under the

supervision of regular Army personnel and the equipment is the same as is used under combat conditions."

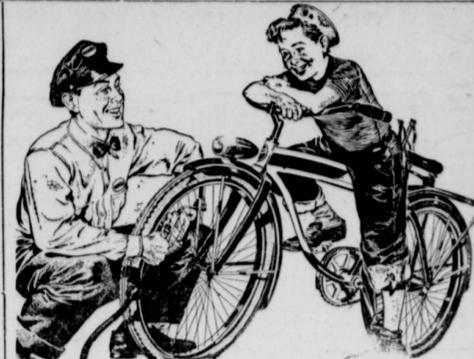

Training periods for Troop A are held every Thursday evening at the armory, block south of the city hall. Considerable equipment has been received during the past several months for the local unit, and other materiel is expected along.

Passenger List Incomplete.

A smart guy said to the bus driver the other morning: "Well, Noah, you've got here at last. Is the ark full?"

Bus Driver—"No, we need one more monkey. Come on in."

FIRST AID to the AILING HOUSE

by Roger C. Whitman

QUESTION: How can I put a maple finish on an unpainted wooden table?

ANSWER: First rub down the wood with fine sandpaper and steel wool until the surfaces are smooth and "satin"-like; then wipe off the dust with turpentine. If you wish to have an orange maple color, you can get this effect by the application of two coats of pure orange shellac. The first coat should be thinned half-and-half with denatured alcohol. For other shades, apply an oil stain, selecting the color that you prefer from a color-card at your local paint store. Apply the stain as directed on the label and finish with two coats of quick-drying varnish.

QUESTION: The mortar is powdering between the bricks of our chimney. How can I repair it?

ANSWER: Clean out the old mortar to a depth of half an inch or so, wet the grooves with water, then pack with a mixture of 1 part portland cement, 1 part hydrated lime and 5 parts of clean, coarse sand with just enough water to make a workable mixture.

QUESTION: Our windows have a rusty film on the outside due to the screens being left on all winter. How can I get them clean?

ANSWER: Make a fairly thick paste of scratchless scouring powder and kerosene and spread it over the glass. After half an hour or so, rub with the same mixture. Finish cleaning with one of the soapless cleaning powders.

Rows 15,000 Miles Yearly

Within Sight of His Home

MIDDLEPORT, OHIO. — Arvin Roush, Clifton, W. Va., rows a boat an estimated 15,000 miles a year yet never gets more than three-quarters of a mile from his home.

Roush, operator of the Clifton-Middleport ferry across the Ohio river, is one of the fast-disappearing clan of hardy ferry operators who still work their ferries by hand. They have been replaced mostly by toll-free bridges.

Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer backache, headache, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOANS PILLS

HOUSEHOLD HINTS

If you've been frying fish in a pan, sprinkle it with salt and add hot water. You'll get rid of fish odors which tend to cling to the pan.

Stiffen the bristles of brushes by adding two teaspoonfuls of powdered alum to each cup of water used for rinsing the brush.

Brush the crumbs out of a "pop-up" toaster with a chicken feather. Used carefully, it won't damage filaments.

First-aid for a cracked dish can be applied by placing it in a pan of milk and boiling for forty-five minutes.

A coat of floor wax on the metal trays of the refrigerator will forestall rust.

To prevent cuts stick a piece of adhesive tape on your thumb when paring vegetables.

Sour milk added to the rinse water will add luster to linoleum.

THE NEW LOOK

By WILLIAM CUTHBERT

JOE KAUFMAN stood in front of the mirror. Two years in the penitentiary hadn't taken the plumpness from his body nor the color from his cheeks. The tint of silver about his temples was becoming, and the change from drab, loose fitting prison gray to tailor-made banker's gray gave him confidence.

"I've got that new look, Pinky," he said to the man who had been his cellmate during his first year of confinement.

"Don't get any new ideas, Joe," Pinky said as he sat on the edge of the bed, "you better do like I'm doin'; go straight!"

"Hogwash," Joe laughed. "The cops have me figured as a counterfeiter, but I'm straight up that angle. They'll never suspect me of being a stickup man."

Pinky stood up. He was tall like Joe, but thin. "If you won't take the job I've got for you, Joe, then this is good-by."

Joe was thoughtful for a minute, then he said, "So you don't know who is putting out that new batch of counterfeit bills?"

"I thought you said you were giving 'em counterfeiting," Pinky snapped.

"I am," Joe assured him. "I guess it's just professional jealousy to hear that someone else is putting out stuff that is almost perfect."

"All I know is that you've got to use a magnifying glass to find the flaws," Pinky told him. "That's the way," Joe mused. "Batson is still up the river, Jaeger and Sims are in South America, Pete and Wilson have dropped out of sight and nobody knows where they've vanished to, and Barody stopped a bullet when the cops raided his plant. It just can't be any of the old gang. Somebody new must have moved in."

pavement, he saw Sergeant Cain straighten up. He walked to a restaurant, and took his time ordering and eating, noticing that the sergeant was keeping a hungry eye on him outside the window.

Joe then spent a couple of hours in a cheap movie, and was aware that Sergeant Cain was sitting only a few rows behind him.

Then he decided it was time to give the detective the slip.

He was followed from the theater, but kept his eyes open as he walked along the street. Suddenly he saw

With a quick movement he was inside the cab and snapping orders to the driver.

what he was waiting for, a cruising taxicab.

With a quick movement he was inside the cab and snapping orders to the driver.

The taxi leaped forward, and Joe looked out of the rear window in time to see Sergeant Cain waving to a taxicab that was traveling in the opposite direction. Joe's taxi turned half a dozen corners before he was definitely satisfied that he had lost Sergeant Cain. Then he had the driver take him to within a half block of the Roxy.

Joe worked his way cautiously to the back of the night club. He smiled when he saw the fire escape. It was the kind that needed weight to carry the bottom section down to the ground.

Joe climbed a rainspout and reached out and grabbed the side rail. As he rode the section to the ground, the rusty iron's screech filled the night, and Joe stood still for a full minute, waiting to learn if anyone inside had heard the sound.

He decided finally that the other noises out in the street had drowned out the sound. He went up the steps until he reached a window which opened into a corridor. He forced the window without too much trouble and climbed inside.

Music was playing out on the dance floor and the sound of laughing voices penetrated the walls, but nothing stirred in the corridor.

Joe tied a handkerchief over his mouth and nose, and pulled his hat down over his eyes. He glanced around to refresh his memory, and smiled. Apparently this was to be one of his lucky nights. He saw the light through the glass in the door of the room he sought, and shoved the door open.

Startled, Lee Stanley looked up from behind a desk at the gun which Joe held in a steady hand. There

one had entered the corridor, then he ran to the window.

There was no way of knowing how much money he had in his pockets, but he felt sure that it was enough for him to leave the city and have a free and easy life for a few months.

A half hour later, as Joe stepped into his room, he was chucking to himself. He envisioned Sergeant Cain hurrying about the city trying to pick up his trail.

He switched on the lights, then froze. Sergeant Cain was leaning against the wall, toying with his Colt police positive.

"What—what do you want?" Joe stammered.

"The way you gave me the slip," Sergeant Cain said, "I figured you were anxious to contact that new counterfeiting gang. Also figured the best place to pick you up was right here."

Joe relaxed and sat on the bed. He said, "I'm through with counterfeiting. At the same time he eased the gun from his hip pocket and deftly pushed it under the pillow.

"How about if I see what you have in your pockets?" Sergeant Cain asked.

Joe stood up and smiled. He had nothing to fear. The detective had no way of knowing where the money came from, and he felt sure that Lee Stanley wouldn't report the holdup to the police. He didn't know how Lee had become big-time, but he was sure his method wasn't honest, and he wouldn't want the law poking into his business.

Sergeant Cain found the twenty dollar bills and stepped back a safe distance from Joe. He took a small magnifying glass from his pocket and examined a twenty.

Instead of giving the bills back to Joe, he stuffed them into his own pockets and said, "You sure worked fast. Joe. Loaded with counterfeit money already. Come on, you're going to headquarters."

"Counterfeits!" Joe gasped. Thoughts began to race through his mind. So that was how Lee Stanley had become big-time! He was using a printing press—and if Joe told the police where he got the money, his life wouldn't be worth a dime.

Sergeant Cain snapped a pair of handcuffs on his wrists.

Joe looked at his tailored clothes and realized he was about to lose that new look.

As he started to walk toward the door, he wondered if Pinky would keep that job open for him, for a couple of years?

GOD'S PROMISES

OUT of an olden book I take
Bright words and weave them into a life-
trous thing:
A bow of promise for my own heart's sake,
A glory for my spirit's confiding,
And when the day is dark I set it there
Where I can see its colors on the air,
In fabric spun of God's own precious words,
His everlasting covenant to man;
It pierces through the darkest cloud, it guides
The whole of earth and heaven in its span;
These promises that I have set apart
Into a bow of comfort for my heart.

Grace Noll Crowell

Male Grouse Termed Vain as Any Female

WASHINGTON—The male grouse is more vain than any female. Authority for that assertion is government scientists of the fish and wildlife service.

"All we have to do is stick a mirror in a wire box trap and we can catch all the male grouse we want," insists Dr. Bennett Logan. In the past, Logan asserts, grouse have been so hard to catch that

little is known of their habits, especially as to why 80 per cent of them die off every 10 years.

As a phase of its present campaign, the wildlife service is building better grouse traps in order to band the legs of the birds.

To determine where to put the grouse traps, all a scientist has to do is listen to the grouse "booming." Twice a year the male picks out an old log as his "territory." There he stands for days, beating his wings to attract the female.

Summer Parties

ARE YOU PLANNING to do more than your share of entertaining during the warm weather? You'll want to tuck these tips into a safe place to help make the refreshment problem easy. For here are party deserts, sandwiches, cooling thirst-quenchers and cookies that are sure-fire hits with whatever crowd you plan to serve.

Make parties easy on yourself, by working in advance, and thus keeping yourself cool and collected at least a half an hour before guests arrive.

FOR BRIDAL or baby showers, or for simple commencement party serving, a plate of sandwiches and an ice cream beverage are perfect foods. You'll like these:

Chocolate Mix (Makes 1 Pint)

2 1/2 ounces unsweetened chocolate
1/2 cup water
3/4 cup sugar
1/4 teaspoon salt
1/2 cup heavy cream, whipped

Place chocolate and water in saucepan and cook until thick. Use low heat and stir frequently. Add sugar and salt, bringing mixture to a boil. Let cool, then fold in whipped cream. Store in covered jar in refrigerator. For a cold beverage, use one to two tablespoons of the mix to a glass of milk, beating with rotary beater. Top with vanilla ice cream and sprinkle chocolate shavings or gratings on top of ice cream. One pint of the mix is enough for about 32 servings.

If you are entertaining elegantly for a shower or commencement party, make sandwich filling (1 1/2 cups) of tuna fish or crabmeat and shrimp) and serve in cream puffs instead of between bread. Everyone will like this clever and different touch. Here's the way to make the puffs.

Cream Puffs (Makes 1 dozen large or 4 dozen small puffs)

1/2 cup shortening
1/8 teaspoon salt
1/2 cup boiling water
1 cup sifted flour
4 eggs, unbeat

Add shortening and salt to boiling water and heat to boiling. Reduce heat, add flour all at once and stir vigorously until mixture forms a ball around the spoon, leaving the pan clean.

Remove from heat. Add one egg at a time, beating five minutes after each addition. Continue beating until mixture is thick and shiny and breaks from the spoon.

Shape on an ungreased cookie sheet, using one teaspoon or one tablespoon, depending upon the size desired. (The smaller size is preferable if you are using the puffs for sandwiches.) Bake in a very hot (450 degree) oven for 20 minutes. Reduce heat to moderate (350 degrees) and bake 15 to 20 minutes longer. Cool. Split and fill.

COOKIES AND BEVERAGE make a delightful but even simpler type of refreshment:

Butterworth Bars

3/4 cup sifted flour
1/2 teaspoon baking powder
1/2 teaspoon salt
1/3 cup shortening
1/2 cup brown sugar
1/2 teaspoon vanilla
1/4 cup milk
3/4 cup oatmeal
1/4 cup nuts

LYNN SAYS:

Are You Putting Salads Over With Success?

Most people will eat salads when they are properly prepared. Check over these tips to improve your salad making.

Some fish, fruit and vegetables are marinated, that is soaked in dressing, before mixing with other ingredients and serving to increase their tang and flavor. When marinating is called for in a recipe, let them marinate for an hour or so.

In potato salad it is desirable to have the dressing soak into the potato; therefore, this is mixed an hour or so before the potato salad is served.

Freshness and crispness are prime assets in making salad. They also should be thoroughly chilled whether served on the dining room table or picnic ground.

No part of the salad must droop over the plate or bowl on which it is served. Place the salad gracefully and carefully on its serving dish.

Plan to have all ingredients in the refrigerator a minimum of two hours before making the salad. A good way is to wash fruit, vegetables and lettuce when you buy or bring them in from the garden. Then they will be ready for use at any time.

The bowl and plate on which a salad is served also should be well chilled to increase palatability.

Salad dressing is tossed into a salad just before serving so the ingredients will remain crisp.

Frozen salads are not actually frozen because the fruit or vegetables in them should never freeze. However the mayonnaise or whipped cream in them is frozen so that it has the texture of a mousse.

All the lettuce should be palatable for the salad. Cut off the stem end that is frequently too difficult to eat gracefully.

If you are using two types of meat in a salad, cut one in smaller pieces than the other.

Cut salad materials in uniform pieces to improve their appearance.

Peasant Table Built From Full Pattern

DINE out on this gayly decorated, easy-to-build Peasant Table. Ideally suited for use on porch, lawn or dining room. Full size pattern simplifies making and decorating.

User merely traces pattern on lumber specified, cuts and assembles exactly where pattern indicates. No special tools or skills required. A matching bench, suitable for use on lawn or porch, can be made from Pattern No. 37.

Sent 25c for Peasant Table Pattern No. 17 to East-Bild Pattern Company, Department W, Pleasantville, New York.

Baby Girl Sweater Fits To Fit Cocker Spaniel

INDIANAPOLIS, IND.—Two former school classmates met in a Terre Haute, Ind., elevator one day and began informing each other of the latest events in their lives.

Paul Hartwig remarked, "We have a beautiful four-month-old baby girl at our house. You must see her."

Mrs. Parker, who is Hartwig's former schoolmate, bought a little wool sweater for the baby and had it delivered to the Hartwigs.

She received a letter which thanked her for the gift but apologized: "Our baby won't be able to wear it. Our darling girl is a registered cocker spaniel!"

FOR YOUR RECIPE FILE

RICE KRISPIES MARSHMALLOW SQUARES!

1/2 cup butter (margarine) (2 1/2 oz.)
1/2 lb. marshmallows (about 2 1/2 doz.)
1/2 teaspoon vanilla
1 pkg. Kellogg's Rice Krispies (5 1/2 oz.)

Heat butter or margarine and marshmallows over water until syrupy. Beat in vanilla. Put Rice Krispies in greased bowl and pour mixture on top. Mix well. Press into 9 x 13 greased shallow tin. Cut into 2 1/2" squares when cool. Yield: 24 delicious Rice Krispies Marshmallow Squares. Everyone will love them!

Hogs, Poultry Products and Feed Gain On Markets as Most Others Decline

Mixed strength and weakness appeared at Southwest farm markets during the past week. The U. S. Department of Agriculture's Production and Marketing Administration reports in its weekly release to The Times this week.

Fryers showed strength at some markets during the week, with prices ranging largely from 38 to 42 cents a pound. Other poultry and eggs remained firm. Heavy hens sold mainly from 25 to 30 cents, and turkey hens from 35 to 41 cents. Eggs generally brought the top support level of 37 cents a dozen, with some premium eggs higher.

Hog prices scored substantial gains of \$1 to \$2.50 during the week, and sows rose as much as \$3.50 at some markets. Monday's trading at San Antonio and Fort Worth reached a top of \$28 on good and choice medium weight butchers, while the bulk at Oklahoma City and Kansas City moved at \$27.25 to 27.75. Denver bid \$23 to \$23.50.

Slaughter steers and stocker and feeder cattle held their own fairly well for the week, but killing cows and calves sold \$1 to \$2 lower at most Southwest markets. Common and medium cows sold generally from \$17 to \$21.50, though San Antonio paid only \$15 to 17.50. Common and medium calves ranged from \$16 to \$25 at Texas markets. Wichita paid \$28 for top vealers and calves. Good and choice vealers brought mainly \$27 to \$31.50 at Denver and \$25 to \$29 at Kansas City.

Slaughter lambs were generally lower priced at Southwest markets after early-week gains and later losses. Other sheep classes showed little or no change. Spring lambs sold at \$23.50 down at Oklahoma City. Medium and good grades brought \$20 to \$24 at Fort Worth, and \$28 to \$29 at Denver and Kansas City.

Quiet wool trading included a few sales of average French combing lints in Texas. More peaches featured liberal supplies of fruits and vegetables at Southwest markets. Local Early Rose and Red Bird brought \$2 to \$2.50 a bushel at Fort Worth. Potatoes held around support prices at shipping points, while onions eased some. Heavy shipments of good quality East Texas tomatoes moved in fair to slow demand.

Sorghums dropped 35 to 40 cents per 100 pounds to feature the week's grain trade. Barley fell 10 cents a bushel, but other grains scored advances of one to five cents. A flood of new crop offerings pushed No. 2 yellow milo down to \$3.25 to \$3.35 and barley to \$1.5 to \$1.80. No. 2 white oats sold around \$1.20 to \$1.33, white corn \$2.44 1/2, and No. 1 hard ordinary wheat \$2.42.

Feed markets turned firmer as drought parched pastures brought active inquiry. Hot, dry weather revived demand or may also, though increased new crop offerings held prices down. Peanut trading continued slow.

Unusually narrow fluctuations during the week let cotton 50 cents to \$3.50 a bale lower Monday. Spot middling 15-16 inch closed at 37.15 cent, a pound at Dallas, 36.50 at Houston and Galveston, 36.65 at Little Rock, and 37 cent at New Orleans.

Frame Structures to Be Used by Schools

Tentative plans for next school sessions at Snyder call for moving of at least two frame structures onto the campus of the present four-block grounds in order to better handle the students that will come to Snyder for class work next year.

Enrollment of nearly 1,200 pupils is expected to continue to tax the system until more adequate buildings can be built.

School officials declared this week that long-range plans call for construction of permanent buildings in time for the 1949-50 school session. Snyder has been caring for pupils for 12 to 13 neighboring common school districts for the past several years under contract and transfer arrangements.

Politics Is Warming Up

And before we say what we intended, let us advise that the grammar of the heading is correct. Noah Webster says in his big volume in our front office: "Politics is plural in form but construed as singular." It still sounds odd, doesn't it?

While only passing interest is being demonstrated in the county's political picture as the final filing date comes Saturday, one can hear nominal buzzings on the district and state races as they shape up.

No doubt the United States senator's race will top everything in interest. Even if no hill-billy music is to be provided by W. Lee O'Daniel, there seems to be plenty of other music being thrown the way of Texas voters by former Governor Coke R. Stevenson, Congressman Lyndon Johnson and George Peddy. Other contenders are Roscoe H. Collier, Otis Myers, F. B. Clark, Cyclone Davis, Frank G. Cortez and Jesse C. Saunders.

Race for governor also is furnishing growing interest as several candidates lambast Governor Beauford H. Jester. After Jester's seat at Austin are Roger Q. Evans, Charles B. Hutchinson, Caso March, W. J. Minton and Holmes A. May. Jester seems to be holding his own in his race for reelection.

Consolidation Is Practical

School consolidations are being promoted all over the state of Texas, according to a raft of exchanges that come to The Times office every week. The mergers are a mark of progress for the school children of the state.

The old-fashioned idea of resentment by some of the people of rural communities is fast passing from the picture as consolidations are being voted. Of course, it is difficult for any local community citizen to give up his little school house, but the numerous advantages of modern equipment, better trained teachers, more varied subjects, more personal attention, classifications by grades for pupils of a given age, and other opportunities more than offset the presence of a small school in any community in which one or two teachers endeavor to teach several grades during the same day.

With completion of the present consolidation program of the Snyder district and surrounding districts the children of this section of West Texas will have one of the finest school systems available anywhere. Having the districts that have looked to Snyder for schooling all in one district will simplify administration, tax matters and assistance from the state.

They Come Back for Value

Just as many former Scurry County residents are gradually coming back to the "old home county" with a new respect for the region's people, spirit and opportunities, so are others coming back to the county's stores for values for their money. They are learning again that the dollar will go farther with the local merchant in the long run.

More and more "shysters" are operating in the cities now than ever before. A lot of the so-called bargains that are being thrown on the markets today turn out to be "bug-a-boos" that are expensive in the long run.

There's a lot of comfort in dealing with your home town merchant in the knowledge that he will still be at the same old stand tomorrow, where he will look you in the eye and adjust any dissatisfaction that might arise over his goods or his services.

After all, the best place to trade is with your home town merchant, who provides your schools, your police protection, your paved streets, your churches and other privileges you enjoy. Think it over!

Editorial of the Week

FAITH IN THE DOLLAR

Not without reason, many Americans still worry about inflation. Yet our dollar, little as it will buy in comparison with that of 1938, is a symbol of stability to many other countries. It takes a million Chinese dollars to equal one of ours. In many countries, money has become almost meaningless. All that counts is food or something that can be bartered for food. German counterfeiters have quit printing fake marks to print phony ration cards.

Similar conditions exist in many lands. In Tokyo a maternity house allowed 169 babies to die of starvation to get their ration cards. A Japanese judge who refused to violate the law by buying in black markets died of starvation last year. In India, where production has declined since the war, prices are triple what they were in 1938. One reason that production has gone down is that workers do not have enough to eat.

The relative stability of our dollar, in the face of our heavy expenditures for foreign relief, adds to our influence abroad. The dollar has replaced the nineteenth century pound as an economic balance wheel. But it will remain in that position only as long as we resist run-away inflation here. Foreign considerations, as well as domestic ones, call for continued efforts to keep prices and wages in line and to check governmental spending.—Dallas Morning News.

Current Comment

Editor's Note—Expressions or opinions contained in this column are those of the writer and do not necessarily reflect the opinions or policies of The Times. Current Comment is merely carried as a feature column by The Times.

By LEON GUINN.

Take it for what it may be worth, but observers certain facts are emerging to show that Yugoslavia... Tito, by the way, seems to have united the Serbs are firmly convinced that behind the Iron Curtain is the weakest link in Russia's chain of slave camps, and Croats in something of a silent hatred for his anti-Catholic regime. . . . Underground opposition to Tito is believed to run as high as 30 per cent. . . . You will note that Stalin had to do something in a hurry, despite a relative importance of the Italian election, to put some "props" under "trembling Tito." . . . Behind-the-counter dealing is going on so rapidly over Yugoslavia one may expect almost anything to happen within the next 90 days.

A mantle of gloom hangs over our shipping docks at the moment because of the deepening post-war slump in shipping business. . . . Foreign operators using considerable foresight, got in on the cream of the shipping business to such an extent some American operators have seen volume drop by at least one-third. . . . Only a couple of years back U. S. flag ships carried around 70 per cent of all United States export cargo (excluding petroleum). In the year just behind us this volume dropped to 57 per cent. . . . U. S. labor costs are so much higher than anywhere else on the globe that foreign operators can do the job, show a profit and keep going at levels that would break U. S. shippers. . . . It will be out of line to see the next Congress drum up the idea of increased aid for our merchant marine.

Straws in the early morning breeze indicate the butter interests after all can yet win their fight against legislation removing federal taxes from oleomargarine. . . . Members of the Senate Finance Committee added to the House-okeed bill an amendment which would require margarine sold in public places to be so labeled that it would be easily detected from butter. . . . Therefore, a good scotch-bloc can be put in the way when the measure goes back to the House, for unanimous consent of the House will be mandatory to appoint conferees. Rely on the advocates of butter to make "cannon ammunition" out of this fact and keep the margarine makers at bay.

Word is getting around that the Democrats are working up a campaign to force Congress back into session after the national convention. . . . They believe they can well embarrass the Republicans by pointing to the many important bills that did not get under the blue ribbon by June 19. . . . The COP, however, is determined to go through with the "be-rock" program and might succeed. . . . In fact, the Republicans were traveling in "road gear" on some of their proposals. . . . Republican leaders declared at closing sessions of Congress they were leaving the doors open for recalling of the law makers to Washington if President Truman continues to lambast the GOP-dominated Congress at the expense of the gullible public.

Our Democrats, rest assured, will concentrate on certain elections with the over-all objective of salvaging offices to holding the party together for two and four years hence campaigns. . . . Illinois seems a hopeful objective at the moment, as does Minnesota. . . . In West Virginia, for example, where former Senator Neely, who posed out former Senator Holt for the Demo nomination, will have strong labor backing against Senator Revercomb. . . . The very bitterness, incidentally, of the Republican pre-convention campaign offers much hope for the boys now in the driver's seat, and expected deadlocks at the GOP convention in Philadelphia could very well prove a Democratic windfall.

Definite indication that government leaders believe that a trend toward lower farm prices is in the wind was indicated by action on the support prices for farm commodities. Downward parity pegs are proposed for the years 1949 and 1950. . . . Probably more average prices for farm prices will be adopted as base for determining parity by selecting periods of years when prices were not quite so high as those establishing the base for parity now. . . . Years selected for cotton parity, for example, were changed from the original 1909-14 price levels after all crop parities were based on that period. Most farm parity prices then were changed to varying periods when prices were more favorable to that particular crop. . . . Congress voted to continue the present parity program through 1949.

According to a book publisher, only a person who has suffered can write a modern novel. If that's true, then we'd say that anyone who has read a modern novel can write one.

Beautiful is the activity which works for good, and beautiful the stillness which waits for good; blessed the self-sacrifice of one, and blessed the self-forgetfulness of the other.—Collyer.

To Market, to Market without leaving home!

Do your marketing right in your own home from a Deepfreeze home freezer. Save time, food, work and money. Cut shopping trips to one a week—or one a month, if you wish. Shop only when you're in the mood—only on nice days—when prices are right and quality is rightest!

With a Deepfreeze home freezer, you always can have a great variety, a better quality, and a larger quantity of food on hand in your home—all at lower cost.

Meal planning is simplified—you've more time for leisure—more peace of mind—a greater sense of security. You're prepared for any emergency, too—from unexpected guests to special diets for invalids.

And while giving all these benefits, a Deepfreeze home freezer actually pays for itself with the money it saves. Come in and let us prove this to you—with figures for your family, your budget, your way of living.

There's only One! **Deepfreeze HOME FREEZER** Come in today for a Demonstration!
