Turkey Shoot Set All Time Record

The 17th Rotan Turkey Shoot, sponsored each year by the Rotan Volunteer Fire Department and the high school junior class, was held November 8, at 1 p.m. at the Clay Fowler Ranch, two miles north of Rotan.

Events this year include two set-ups for skeet shooting. Other events are the live turkey shoot, target shoot and bingo.

Garland "Soapy" Floyd was winner of the shotgun given by Firemen and the Juniors.

Prizes given top winners were live turkeys, frozen turkeys and canned hams.

Sponsors of the junior class, Coach Charlie Davis and Mrs. Norvell Kennedy, homemaking teacher, plus room parents and other parents of the junior class members assisted with the affair.

The shoot proved to be best in history as a total of \$1993.45 was realized from the event, to be used to finance projects of the two sponsoring groups. Both Firemen and Juniors expressed their appreciation for cooperation of everyone in making this the best shoot of the 17 years activities.

Petty Makes Only Correct Guess

Estimates in the Guessing Contest last week ranged from 6 to 84 points, but only correct guess of 32 total was made by Leo Petty of Abilene, a former Yellowhammer.

Dwight L. Carpen figured 31 points. In the group believing in 33 points were, Ronnie Teichelman, Mrs. Waymon Moore and Lawrence Bredemeyer.

Both Gary Webb and Virgil Weems had it figured at 30 points.

Guesses are not required to be on the coupon appearing on the booster page. If other members of your family wish to guess, just have them use slip of paper, but be sure to give hour and date you guess, so winner can be determined. Join the fun get your guess in early.

Mr. and Mrs. R. C. (Bob) Bigham and son Barney of Houston were in Rotan for the annual Homecoming celebration to visit with his parents Mr. and Mrs. Barney Bigham and family.

Here for Homecoming were Mr. and Mrs. Shady Lane of Haskell.

J. O. Kennedy, Rotan, who was in Callan Hospital for treatment several days was moved to Abilene Tuesday for possible surgery.

Rotan's Yellowhammers lost first game of the season at Homecoming to the strong aggregation of Haskell Indians. Outcome of bi-district play was confused Tuesday when a Haskell player was ruled ineligible when they played Hamlin. Haskell forfeited this game giving them a tie with Rotan in district play.

Rotan plays Anson Tigers Friday night and Haskell meets an arch football enemy-Stamford Bulldogs. If the Hammers defeat the Tigers they will be co-district champions with Haskell, should Haskell beat Stamford. Haskell would represent district 7 in the bi-district play due to their win over the Hammers. If the Hammers defeat the Tigers and Haskell lose to Stamford, Rotan will be district champions.

The Yellowhammers jumped to an early first quarter lead with two touchdowns by halfback Mickey Early, and it looked as if they might run away with the district crown in their first year as a AA school.

The first score was set up as Rotan's Norvell Kennedy pounced on a Haskell fumble on the third play of the game to give the Hammers the ball on the Haskell 31. Five plays later Early skirted left end from the four to cap the drive. Kennedy booted the PAT and Rotan owned an early 7-0 lead.

Again in the first period a Haskell miscue set up a TD as a high pass from center to the Haskell punter rolled into the end zone before he could recover and boot it out to the 30. 5 yards behind the original line of scrimmage.

Fullback Steve Nowlin took the ball 17 yards on the first carry of the series, then Early put six more points on the board, sprinting in from the five.

Hunting Season Opens Saturday

Roy Linn, local game warden, called attention to the fact Sunday that the opening of deer, wild turkey and quail season is just around the corner.

Open season on the animals and birds will begin Saturday. Deer season runs through Jan. 3 with the shooting hours being from thirty minutes before sunrise to thirty minutes after sundown.

The opening and closing dates and the shooting hours are the same as above on wild turkey. Quail season opening is the same as the above, but it extends through Feb. 15 with the bag limit on quail being 15 per day, Linn said.

Kennedy's boot made it 14-0 and things were looking up for the Hammers.

Then Haskell's defense toughened up, and the offense started moving.

On their first possession of the second period, Haskell marched 57 yards in six plays to dent their side of the scoreboard.

Quarterback Keith Everett capped the drive with a four yard end sweep with 8:05 left in the half. The PAT failed, and Rotan still maintained an eight point margin.

High scoring Charley Franklin sparked the next Haskell drive, returning a Rotan punt 32 yards to the Yellowhammer 44. A penalty moved the ball up to the 29, and three plays later Jackie Young took it in from the four. Again the two-point conversion attempt failed, and the half ended with Rotan clinging onto a slim two point margin, 14-12.

Neither team could get a sustaining drive across the end zone in the third period as both defenses got stingy as they backed up toward their own goal line, but early in the fourth period, Haskell got a drive to hold together and scored the TD. Starting from their own 42 and gobbling up the 58 yards to paydirt behind the running of Young and Everett, and the help of a crucial 15-yard penalty. Young went in for the go-ahead TD from the 10 with a little over six minutes left in the contest. The PAT failed and the margin was a scanty four points.

Rotan threatened twice in the remaining minutes, but a fumble shut down one drive, and time ran out on the other as Hargrove was forced to go to the air with desperation passes that have brought home the bacon in other contests this year, but fell short Friday night.

The bag limit on deer is two bucks per season with any deer having hardened antlers through the hide being a legal animal. The limit on wild turkeys is two per season and either a hen or gobbler is legal.

Mr. and Mrs. Don Gregory and children of Amarillo, Mrs. Veneta Trevina and daughter, Mrs. Jo Star and David of Stanton visited their mother Mrs. Minnie McKinney in Rotan last week end and attended Homecoming.

Rebekahs will have a cake sale at Darden's Department Store, Sat., November 21.

Homecoming '70 Is One of Best

Homecoming of Rotan Exes was pronounced one of the best in history by most of those attending. The game with Haskell did not dampen ardor of Exes, but a win would have been most welcome.

The gathering following the game and Saturday got many of the "old timers" together again and visiting was done throughout the day. Open house at home of Bernice Hardy Saturday was one of the highlights.

At halftime of the game Mrs. Larry Graham was revealed as Homecoming Queen. Other nominees honored were Mrs. Bill Hardy and Mrs. Lon Weems.

At business session Charles Thornton was named Vice-President for the coming year. He succeeds Ross Earl Smith of Sweetwater.

Named treasurer was Mary Lou Goodwin of Rotan. She succeeds Mrs. Buster Wright.

Bernice Hargrove, association president, was in charge of the business meeting. The president and secretary posts will be filled next year. The offices are rotated and filled ever two years.

Entertainment was by the Road Runners.

A large crowd of exes attended the banquet and program in the school cafeteria at 7 p. m. A dance at 9 p. m. in the Community Building concluded the homecoming activities.

Hobbs kept its District 3-B six-man record unblemished at 3-0 with a 66-20 win over McCauley at Hobbs Friday night.

The game was called one minute deep in the fourth period because of 45-point rule.

Mike Hull sparked the victory hitting 7 of 10 passes for 220 yards. He threw three TD passes to obett Molano and one to S. T. Dooley. Dooley also returned a punt 50 yards and scored on a 20-yard run.

Rudy Aguilar, Rudy Martinez and John Martinez all added touchdowns and the latter kicked six of nine two-point conversions.

Voters of Fisher County voted a heavier vote than was expected last Tuesday when they okayed three of the proposed Constitutional Amendments and rejected the other four including the controversial liquor by the drink measure.

On the drink measure voters here cast 1,127 ballots against it, while 379 ballots were cast for it.

In the governor's race they returned Preston Smith to office with a vote of 1,303 to 314 for Paul Eggers.

Fisher County voters favored Lloyd Bentsen with a vote of 1,292 to 325 for George Bush.

A total of 1,669 total ballots were cast in the Fisher County balloting.

Other voting in the county went as follows:

Lt. Governor-Ben Barnes 1, -340 and Byron Fullerton, 231; Attorney General-Crawford C. Martin, 1,420 and E. Yturri, 132; Comptroller of Public Accounts Roberts S. Calvert, 1,419 and S. L. Ready To Retire Call S.S. Office

Are you getting ready to retire? R. R. Tuley, Jr., social security manager in Abilene, has some tips that may help save you time and trouble when you apply for your social security benefits.

A telephone call to the social security office is a good first step. Someone there can answer your questions and tell you how to apply and when to do it. In fact, it all may be done by telephone in some cases.

It's generally a good idea to apply about 3 months before you reach age 65, whether retiring or not. Don't delay because you don't have any of the required documents or information. The people in the social security office will be glad to help you get the necessary information.

Tax Man Sam Sez

The 1971 Farmers Tax Guide will be available at your County Agent's office, as well as all the Internal Revenue Service offices, within a few days. If you are one of that vanishing breed of Texans that still till the soil for a living, you had better pick up a copy and start plowing through this year's tax problems. You may be interested in a copy even though you simply live on a farm, work for wages or a salary, and farm for food--and maybe a little profit. Actually the Farmers Tax Guide is as valuable for the city dweller who owns a farm and does his farming through the windshield of his car as it is for the on-the-farm dweller. The price is right--it's free.

Here for Homecoming were Mr. and Mrs. W. F. Owens of Texarkana.

Wrinkles are a vicious cycle.

In some dryers the heat that dries your clothes also bakes wrinkles into permanent press.

But you can buy a new gas dryer with a permanent press cool-down cycle that turns off the heat and cools off your clothes.

That means modern gas dryers won't add wrinkles to your wash and extra ironing to your work load. Because they have a cycle that keeps wrinkles from becoming vicious.

Garcia Receives Bronze Star Medal

Army Specialist 4 Richard R. Garcia, 22, son of Mr. and Mrs. Pedro P. Garcia, 401 E. Sherman St. Rotan, recently received the Bronze Star Medal near Cu Chi, Vietnam.
He was presented the Bronze Star Medal for distinguishing himself through meritorious service in connection with military operations against hostile forces in Vietnam. The medal, adopted in 1944, recognizes outstanding achievement.
Spec. Garcia received the award while assigned as a rifleman in Company D, 4th Battalion of the 25th Infantry Division's 9th Infantry.
He entered the army in June 1969, completed basic training at Ft. Bliss, Texas and was last stationed at Ft. Ord, Calif.

Mr. and Mrs. Hollis Swearingen, Rotan, spent the weekend in San Angelo visiting relatives.

Fickle Nickel
Nickel can give the metals it is alloyed with seemingly contradictory characteristics. One nickel alloy can stand heat that would melt most metals, while another can endure sub zero cold. Nickel is used in the most powerful magnets. In some combinations it is no more magnetic than wood. Some nickel alloys make thermostats work because they expand with heat and shrink with cold. However, other nickel alloys hardly change at all under fluctuating temperatures.

Of women past 65, only 44% live in their own home, 18% live in homes of relatives, 33% live alone or with a non-relative, and 7% are in institutions.

"Ye Shall Know The Truth"

DOES GOD HAVE A CHOICE?

Recently, in conversation with friends, one said, "If I were going to join any church, I would join 'so and so' church because I just like it better." Another said, "I would go to that church, but they don't have the kind of music I like." The plea of the day is "join the church of your choice." So men stand back and "choose" churches with about the same lightness with which they choose a T. V. show. It is with them all a matter of "I like."

It seems never to dawn on man that he is the offender--he has offended or sinned against God--that God is the offended party. Man needs to be reconciled to God, not God reconciled to man (2 Cor. 5:18-20). It is God that is to be pleased! If we enjoy salvation, it won't be because God met our conditions, but because we met His--it won't be because we worship and serve to please ourselves, but because we strove to please Him and walk in His ways! What does God like? What is His desire? What would God have me to do? This is that which should occupy my mind and claim my service--pleasing Him!

Even the Lord Jesus came "not to do mine own will, but the will of Him that sent me" (Jn. 6:38). We are told "Let this mind be in you, which was also in Christ Jesus" (Phil. 2:5). Jesus said, "And He that sent me is with me... for I do always the things that are pleasing to Him" (Jn. 8:29).

The Lord says "The way of man is not in himself; it is not in man that walketh to direct his own steps" (Jer. 10:23). And again, "For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord" (Isa. 55:8-9). "There are many devices in a man's heart; nevertheless the counsel of the Lord, that shall stand" (Pro. 19:21). If we will but obey the Lord, instead of joining the church of our choice, God will add us to the church of His choice (Acts 2:37-41, 47).

Yes, you may build upon the theory "You go your way and I'll go mine" but let this be remembered: If we go to heaven, it will be because we went the Lord's way.

Christain Science Rotan School Sunday Service Lunchroom Menu

Peace and love are actually available to everyone. This is a theme of the Lesson-Sermon, "Mortals and Immortals" to be read Sunday at Christian Science churches.

"If any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new," the Golden Text from II Corinthians states.

One of the passages to be read from Science and Health with Key to the Scriptures by Mary Baker Eddy states: "This scientific sense of being, forsaking matter for Spirit, by no means suggests man's absorption into Deity and the loss of his identity, but confers upon man enlarged individuality, a wider sphere of thought and action, a more expansive love, a higher and more permanent peace."

Nattie Roberts and sons of Abilene visited her parents Mr. and Mrs. Joe Roberts of Roby over the weekend.

Mr. and Mrs. Bob Clark, June, Vickie and J. R. of Harrah, Okla. were in Rotan last week end to attend Homecoming.

**State Health Dept.
Involved In Drug
Abuse Programs**

The State Health Department also is deeply involved in other drug abuse programs. Department personnel, working in the Governor's Task Force on Drug Abuse, are involved in the planning and development of a coordinated statewide, inter-agency attack on drug problems. They will be participants on Inter-agency Community Assistance Teams.

With the assistance of KUHT and the University of Houston, the State Health Department has produced a one-hour film that will be released to statewide television this fall. The film vividly portrays the scope of the problem in Texas and the reactions of parents and students to the use, misuse and abuse of legal and illegal drugs.

Purpose of the film is to stimulate communities and organizations to action.

For years the State Health Department has conducted statewide drug abuse education programs, mostly to school audiences. Emphasis now is informing the adult community.

Mr. and Mrs. Bill Gann and son of Merkel were in Rotan to visit her parents Mr. and Mrs. Pat McClure and attended Homecoming.

Joe Kennedy of Temple has been in Rotan several days visiting his parents Mr. and Mrs. J. O. Kennedy.

**Farm Bureau
Membership Gain**

The Texas Farm Bureau has ended its fiscal year with an all-time high membership of 121,158 families, according to Wayne L. Little, director of field services.

The new mark represents a gain of 4,536 over last year's previous high of 116,622. It was the 18th straight year for the state's largest general farm organization to show an increase in members.

A total of 158 of the 203 organized counties in Texas showed a gain over 1969, Little said.

TFB's fiscal year ended Oct. 31, and the membership figure was announced Nov. 5 following calculation of all members transmitted to the Waco headquarters by the end of October.

Little said the TFB has gained more members in the past four years than all other general farm organizations in Texas have on their rolls. The Texas organization ranks third in membership size among all state Farm Bureaus, behind Illinois and Indiana.

The field services director said Farm Bureau's continuing growth, in the face of a dwindling farm population, reflects the desire of Texas farmers and ranchers to promote and preserve the agricultural industry through their own organization.

A weekly public service feature from
the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

A major effort toward drug abuse education and prevention has been launched by the Texas State Department of Health.

The Department's Division of Food and Drugs and Public Health Education Division are cooperating in the development of new programs and services for the citizens of Texas.

The State Health Department is planning a series of 10 regional seminars on drug abuse and its community health implications. The first one is scheduled November 17 in State Health Department Region 7, headquartered in Tyler. Health professionals and community officials from the 36-county East Texas region will be eligible to attend the one-day seminar in the auditorium of the East Texas TB Hospital Annex.

The seminar will focus on the health aspects of drug abuse, detail current programs underway and examine possible future directions a local and state campaign against drug abuse

may take. The course content will include a history of drug traffic, the problem today, current state attack, and how communities can be organized. State Health Commissioner Dr. James E. Peavy will keynote the program.

The faculty will include a nationally-known drug abuse expert, Dr. Joe Schooler of the Texas Research Institute, a unit of the Texas Department of Mental Health and Mental Retardation. The health aspects of drug use and abuse, and current research, will be emphasized.

Also on the program will be Curtis Dickson, health information specialist with the State Health Department. He was a recent participant in the Western Institute of Drug Problems held in Portland, Oregon. Allan Schurr, assistant director of the Food and Drug Division of the State Health Department, and Hunter Brush, the Tyler district attorney, also will participate.

S.S. News

How may I file a request for Medicare payment? When should I file for a payment? Where do I get the forms to file a request for payment? Where do I send the request for payment? What can I do if I can't pay the doctor bills? According to R.R. Tuley, Jr., social security district manager in Abilene, these questions are commonly asked by persons covered by Medicare.

Medicare is now more than four years old and still there are those not fully aware of its protection. If you think you may be eligible for some Medicare benefits, or if you have a parent, relative, or friend who may be eligible, contact your nearest social security office. The trained representatives there will be glad to answer your questions and help you file a request for Medicare payment.

Under the law there are some time limits for claimant a refund of your medical expenses. For example, if you received medical services between October 1, 1968, and September 30, 1969, you must file a claim for any payment due by you by December 31, 1970. Medicare can pay you if your claim is sent in within the time limit, so don't lose money by waiting too long to send in your claim.

Remember, if you have any questions regarding requesting payment, or wish assistance in filing a request for payment,

contact your social security office in Abilene at Room 2321 of the Federal Building or see a representative of that office when he is in a town near you. A schedule of visits is on file at your local post office.

**Regional Delta
Gamma Meet Sat.**

One of the highlights of the 1970-71 year of Delta Kappa Gamma, international honorary society for women educators, will be the regional meeting to be held Saturday, Nov. 14, in San Angelo. Approximately 175 members of thirteen chapters are expected to attend the meeting to be held on the campus of Angelo State University.

The members of four chapters of San Angelo, Alpha Beta, Theta Xi, Theta Omicron, and Theta Pi together with Mrs. Georgia Edwards, chairman of the coordinating council will be hostesses for the meeting.

You can usually judge your friends by what they do rather than what they say.

A Plugged Nickel?

Although an ordinary "nickel" is worth only five cents, there are five "nickel" coins valued at \$50,000 apiece. This came about because five unauthorized Liberty Head "nickels" were minted in 1913, the year the Buffalo design took over. The "nickel" is actually 25 per cent nickel and 75 per cent copper.

COUNTY AGENT NEWS
by Richard Spencer

During the last half of November some 40,000 Texas ranchers and farmers will receive a livestock survey questionnaire from Cary Palmer, State Statistician for the Texas Crop and Livestock Reporting Service. This is a joint endeavor of the Texas Department of Agriculture and the Statistical Reporting Service, USDA, to provide a program of county estimates for Texas.

In Texas there are 254 counties and each farmer in each county is an important part of the State's agriculture. Their reports are needed to provide accurate estimates for Texas cattle, hogs and chickens. The year-end survey on sheep and goats will be made in late December.

We urge each farmer to fill out his questionnaire carefully and return it promptly in the self-addressed envelope to the Agricultural Statistician. This will do much to provide the accurate data needed for Texas. County statistics for 1969 and January 1, 1970 are now available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruit and Pecan. Prices Received and Prices Paid by Farmers and Cash Receipts from the Sale of Texas Farm Commodities and can be obtained by writing the Texas Crop and Livestock Reporting Service, Box 70, Austin, Texas 78767.

A good knowledge of new Federal income tax laws could save a farmer many dollars in the next three months.

Farmers prefiguring their final tax bill for 1970 should not overlook those 1969 revisions in the Federal tax code, many of which went into effect for the first time this year.

The Tax Reform Act of 1969 contains nine provisions that deal specifically with reporting income from the farm, as well as numerous other changes that affect all taxpayers.

Producers would do well to consult the new regulations before deciding whether to buy or sell a particular item between now and December or whether it would be more advantageous taxwise to wait until 1971. The goal of tax management is to avoid taxes, but rather, it is to minimize taxes paid, by taking advantage of all the provisions of the tax laws, as they apply to the farmer's particular operation.

Two of the Act's provisions affect the reporting of income from sales of livestock purchased for draft, breeding, sporting or dairying purposes. Formerly, all such income could be treated as capital gains which are taxable at the lower capital gains rate.

Previously, livestock used in the farm business were specifically exempted from recapture of depreciation. Depreciation claimed in the past could then be deducted from ordinary

income that is taxed at the usual rates.

Under the new law, the gain on the sale of livestock is to be treated as ordinary income, rather than a capital gain, up to the full value of previous depreciation deductions. This applies to depreciation taken after 1969.

The purpose of this change was to put livestock on the same tax base as other property used in business. Depreciation on which is normally recaptured at time of sale.

A second provision affecting livestock used for draft, breeding, sporting or dairy purposes, extends the holding period for certain animals before they can be sold and qualify for capital gains treatment. The old law allowed a 1-year holding period. The new retention period for horses and cattle in these categories is two years for stock acquired after December 31, 1969. The holding period for other livestock remains unchanged.

The objective of the 2-year provision is to assure that cattle and horses are in fact being held for the purposes specified, rather than for sale in the ordinary course of business.

Another revision in the tax law has to do with taxation of indemnities paid to farmers for crop damage or loss. The old law required farmers who used the cash accounting method to include crop insurance proceeds as part of the year's income, even though the crop itself might not have been sold until the following year, the farmer who customarily marketed his crop in the year following harvest was paying taxes on two crops in one year.

The 1969 Tax Reform Act eliminates this hardship by allowing farmers to defer the reporting of indemnities until the year following the loss, if they establish that under their usual practice, income from the damaged or destroyed crops would have been reported in the year following the year of the loss. This provision was effective for 1969 and subsequent years.

Other sections of the revised tax law that affect only farmers deal with limitation of farm losses, hobby losses, tax-free exchange of livestock of different sexes, recapture of soil and water conservation expenses and extension of the date for filing tax returns by farmers who do not file tax estimations.

Year-end tax moves should be aimed at leveling out income between tax years and avoiding the wide income

New Campaign Launched to Cut Drunken Driving

DWI Counterattack, a community action program to combat the problem of drunken driving, was launched at the 68th Annual Meeting of the American Automobile Association, in Beverly Hills, Cal. DWI means Driving While Intoxicated.

Alcohol is a major factor in more than half of the nation's annual toll of 56,000 traffic deaths, was launched at the 68th Annual Meeting of the American Automobile Association, in Beverly Hills, Cal. DWI means Driving While Intoxicated.

The basic premise of the plan, adapted from a project that has been operating with promise of success in Phoenix, Ariz., for the past four years, is that violators can be helped through their own efforts.

Under DWI Counterattack, persons convicted of drunken driving are required to attend a ten-hour, four-session corrective course.

There seems to be no such thing as peaceful assembly anymore. And those who "march for peace" appear to be the most violent of all. —H. F. Doherty, The Cavalier County (N.-Dak.) Republican.

It takes 2,000 bolts to hold a car together and only one nut to scatter them all over the highway. —James E. Patterson, The Big Sandy and Hawkins (Tex.) Journal.

swings into the higher brackets. You do this by deferring or accelerating income and deferring or prepaying expenses to fit your particular income situation.

Take a look at your total sales of both ordinary and capital items to date, then subtract all production expenses incurred to date plus all personal exemptions and allowed expenses plus amount of depreciation taken last year from total income to determine your taxable income picture.

The amount of taxable income will tell you whether you should sell some more products before year end and hold off buying next year's supply of seed, fertilizer, feed and other production items, or if you should do just the opposite.

Most farmers are busy with harvesting at the present and their thoughts are a long way from income taxes, but decisions made during the remainder of 1970 can affect that final tax bill.

The 4th Annual Meeting of the Texas Cattle Feeders Association will be held in Amarillo, November 16 and 17. An outstanding program has been lined up. If you are interested in the program, a few copies are available from my office.

Quail Important Bird To Area

To Fisher County residents short days and North winds mean harvest time. There are many crops to be gathered and one of the most enjoyable harvesting processes is found in the wild-life of the countryside. Wildlife means many things to different people but to some it's the thrill of hunting quail. The hunt is even more enjoyable and more productive when you know some of the requirements of good quail country, their habits and what they eat.

Quail use a wide variety of foods during the year. In their first few weeks of life, quail chicks feed almost entirely on small insects and larvae. Adult quail also feed heavily on insects during the spring and summer. They also enjoy a wide variety of fruits and succulent plants. But as fall approaches, the insect life and fruit supply diminish and quail become primarily seed eaters. They consume large quantities of weed seed, nuts such as acorns, and seed of certain kinds of grasses and shrubs.

Because of their preference for weed seeds during much of the year, quail are often found

along the margins of cropland fields, or over used weedy grasslands and on areas where soil disturbance results in good growth of weeds and forbs. Many land owners disk or plow strips of land near good quail cover to promote weed growth for the birds.

Even though they do much of their feeding in open areas, quail need protective cover nearby where they can readily seek shelter when disturbed. They rest in the shade of trees and shrubs during warm summer days and seek thick cover for shelter from storms or cold weather. Roosting sites are on open bare ground or in short grass areas where there are no obstructions to sudden flight to escape predators.

If your wildlife harvest is not as bountiful this year as you think it should be why not contact your local Soil Conservation Service for assistance in increasing wildlife without increasing pressure on your farm or ranch.

S Y M B O L S

...the world is full of them. National symbols, political symbols, religious symbols for most every type, race, creed, organization or business. It's getting so that we automatically judge a person by the symbol he wears. "See that man with the Star of David? He's a Jew. The one with the Cross is a Christian. Look at that guy wearing flowers, ...he's a hippie. Those with clenched fists are black power advocates. Donkeys are for Democrats, elephants for Republicans." Everyone knows that. Yes, but what if the symbols were to disappear? Ah, there's the rub. Then, just how could we know what a person really is? Even more important, would we know?

Check your life today...right now. Are you depending on symbols to identify you, to get you through? Do your actions read well? For sake of the record, just what manner of man are you? In the final analysis, only your actions, your life will tell. Attend church this week. It'll make a big difference.

try a little KINDNESS

Even a little litter can look like a lot. Leave yours in a trash basket where it belongs.

When your child and a neighbor's have a serious quarrel, remember that the neighbor also thinks his child is right.

Acts of kindness should be unconditional—except where kindness to the hair is concerned. Clairol's Kindness Protein Conditioner replaces oils in limp, lifeless hair and adds bounce and elasticity. It does its most professional job when combined with heat from a hair dryer.

Prevent steamy bathrooms. Run cold water in the tub before putting in the hot water.

The National Council on Alcoholism, 2 Park Avenue, New York, N.Y. 10016, reveals that 6,500,000 Americans are now victims of this tragic condition. Contribute generously to the council which is conducting a nation-wide fight on alcoholism.
