Fisher County auditor, Al Finch told those present that the county is presently putting 6¢ of residents and other minor oil every 95¢ into the permanent improvement fund. Due to the increased ad valorem tax an adgeneral fund plus 4¢ from the Road and Bridge operating fund which approximates atotal of \$43,000 annually. Due to our present warrent indebtedness on the County Tax Assessors and County Clerks buidling, 4¢ is presently required to make the payments on this structure for the next three years. At the end of the three year period, an additional 4¢ will be available to the building fund. That will make a total, at the end of 3 years, of 18¢ or \$55,000 that will be available for the new court house payment.

Finch also stated that he did not recommend that time warrant be issued based soley on a 10 year basis. He did recommend that "on or before time warrants" be issued on a twenty years basis and two warrants be retired annually. His thinking was that should our valuation fall the county's obligation could still be met without any change to our tax rate or tax

Some of the oil representatives also wanted to know if the county had secured any firm bids on the interest rate it would be paying. Thurman Terry indicated that the commissioners had not pursued the project to such an extent as to secure firm bids as vet, but assured those present that the county would most likely be able to secure a

Pritchett and Abbott's representative indicated that although the county's producing days had declined from 26.9 in Oct. 1970 to 19-1/2 in 1971 that this did not necessarily mean a decrease in oil valuation for next year. He said the oil was still there, it was just not being pumped from below the surface.

Commissioner E. J. Kiker asked those present if they felt like now was the time for the new court house. Bill Field's remark was "definitely". Mrs. Max Carriker of Roby was present at the meeting and remarked that she felt like many people were of the opinion that they would have the final say (yes or no) as to whether the county builds a new court house. Judge Ammons pointed out that the members of the commisioners court had the right according to law to provide adquate facilities for county employees. The county residents could vote on a bond issue or could vote to change the location of the court house, but it was the commissioners responsibility to provide adequate space.

Judge Ammons announced at the Monday meeting that the Fihser County Commissioners will meet for their regular monthly meeting on November 8th at 9:00 a.m. and will condiser and possibly vote on the construction of a new court house. This meeting is open to the pub-

Roby City Council Approves \$85,321 Yearly Budget

for their regular monthly meeting on October 18 and approved a proposed budget of \$85,321 for fiscal year 1971-72.

Commissioner Jimmy Price onded by Jimmy Hayes to accept the proposed budget. 1971-72 wages and salaries for the city of Roby was set at \$22,755 Supplies which include utilities insurance, office supplies, water purchases were listed at \$45+ 300, and capital outlay which includes water line warrants. water and sewer bonds, seal

coating streets, and swimming pool payments amounted to \$16, 266 in the 1971-72 proposed budget. Roby's anticipated spending for next year is approximately \$1,700 less than they anticipate receiving.

The proposed budget is drawn up on the assumption that \$19,000 will be taken in from taxes; \$1,200 collected on delinguent taxes; \$1,400 derived from franchise taxes and \$7,500 collected from sales taxes. The city also projects an income of \$41,000 from the sale of water to city residents, \$12,000 from sewer revenue, \$4,000 from miscellaneous revenue and \$1,600 income from the city swimming pool. Roby's projected income for fiscal year 1971-72 is estimated at \$87,000,00

YELLOWHAMMERS NOTICE TO 7-AA

served notice on District 7-AA last Friday night that they are alive and kicking and did not intend to be taken for granted. Rotan surprised a large turnout of Yellowhammer fans by

showing signs of greatness for the first time this season. Individual players have had good games (i.e. Duke vs Stanton) but as a team we lacked poise in past games. We lacked the ability to score on any given play. We were dubbed a "hit'em hard 2 or 3 yard running team,"but last week we unveiled the new look as an explosive offensive machine, well oiled, with all eleven pistons functioning as a team.

The Rotan Vellowhammers

Lupe Aliniz, Neal Summers, Paul Wylie and Bruce Jones lined up deep to take the opening kickoff of district play last Friday night. Jones fielded the pigskin at the 14-yard line and slashed to the 36 before being

Neal Summers received the opening offensive call from scrimmage and responded with a 3- yard gain over right tackle. Dave Springer snagged a Norvelle Kennedy pass on 3rd and 6 to give Rotan the first of 13 first downs for the evening. Rotan's first drive ended in frustration as Summers was hit and stopped about 2 feet from a touchdown.

from Kennedy on 1-goal from the 6 yard line and lost 7 yards as Merkel players swarmed the 150 pound junior back. Kennedy threw incomplete to Springer on second down and failed to find an open receiver on third down as frustrations continued to mount. Faced with 4th and 13 Rotan's signal-caller passed complete to Earl Ray Pearson at the 4 yard line. Kennedy's throw was off target but Pearson managed to make the catch and Rotan was forced to give up the

Powell, Markham, Duke and Flores refused to give ground defensively and forced the Badgers to kick on 4th and 4.

Merkel's punt went over the head of Harold Gruben and rolled to the 8 yard line. His backfield companion Bruce Jones upended two would-be-tacklers at that point and gave Gruben the running room to start out on a 38- yard return.

How many people have you helped today? That is the measure of your usefulness in the community, to the world, and eventually it will measure your value of yourself. There is really no excuse for not lending a help ing hand and there is certainly no other way you can permanently benefit yourself except by helping others. . . Letter To The Editor

Dear Editor:

I would like to express my feelings in regard to the New Fisher County Directory as one of the advertisers. I, as well as others feel that we have been taken. Following is a list of reasons why:

I was led to believe that there would be a complete list of residents, including husban's name, wife's name, number of children in family, husband and wife's occupation.

That there would be a complete list of businesses in the county and the nature of that business.

It was implied that the directory was being published in the county, by the businesses of the county, for the benefit of the county business and its people. Now check said directory on the cover. Not a single Fisher County advertiser. Now check inside. Fifty percent of the other advertising is from outside the county. Does it make sense for me and other Fisher County businesses to provide a means for out of town and out of county businesses to reach into the homes of our community and take from our people the money that builds our towns, paves our streets, maintain our schools and churches? Does it make sense for a County that by vote has determined that it will be dry and then we as businesses to provide a way for the liquor interest to reach into our homes?

Where in the Directory is the statistics and pertinent information as stated on the cover?

Why is part of Roby's residents listed in McCaulley? Why is a business that does not exist listed and one that has been in business for months not listed?

A few months ago a number of our businessmen were in Austin for a meeting with the State Industrial Board and one of the statements they make to us over

Back in 1915, the Texas Health Department became the instrument for enforcement of the McNealus Anti-Pollution Act. That act was designed to "preserve the purity of our water supplies." Today Texas has more sewage treatment plants than any other state and ranks at the top in total number of public drinking water supplies.

Drinking water supplies serving communities, common carriers food processing plants and parks are subject to thorough inspection of health officials. Plans for new systems as well as improvements and expansion of existing systems are reviewed for health hazards and compliance with Health Department rules and regulations. Water utility operators are examined by the Health Department and, where qualified, are issued a certificate of com-

"The quantity and quality of drinking water in Texas is in excellent condition, at least for the moment, "says C. K. Foster, Director of Sanitary Engineering Division of the Texas Health Department. "It's in much better condition now than 10 to 15 years ago, due to expansion and extension of facilities, and public awareness.

In Texas every community with a population of 10,000 or more now has an approved public water supply system, as do many smaller communities.

Travelers may have noticed that some communities have a sign posted at their city limits announcing that their municipal water supply has been approved by the State Health Department. This sign indicates that the water supply does more than meet the minimum requirements of a public water supply and State Health Department regulations.

Today there are some 450 public water supplies across the state that have been approved by the State Health Department and certified as meeting high environmental health protection standards. Health officials say these systems serve approximately 90 percent of the population of Texas. They have achieved what amounts to a blue-ribbon award for health protection and excellence. These 450 systems, while serving most of the population. represent only a small portion of the approximately 3, 000 public water systems in Texas. The remainder are generally in accordance with the minimum standards set by the State Health Depart-

MCCAULLEY. . NORMAN POND DELAYED OCT. 12

McCaulley's Eagles finally got back into the win column last Friday (Oct. 15) after two straight losses, by downing the Hobbs ing. November 8, at 9:00 p. m., Panthers 32-12. Our boys played a solid first half, but several inor injures plus a spirited Hobbs team made the second half al-

> McCaulley scored on its first series of downs as Eddie Gibson set up the score with a 73- yard scamper that carried to the Hobbs one-yard line. Gibson then flipped a pass to Daniel Benavides for the TD. On the next series, the Eagles again marched down the field with Gibson plugging it over from the four. Johnny Santos kicked the PAT, giving us a 14-0 lead after one quarter. The second quarter was much the same as we drove to the Hobbs 10yard line before quarterback Johnny Santos hit Benavides for another 6-pointer Santos again made the PAT good and the Eagles led 22-0 at halftime.

The third quarter was almost a repeat of the first quarter, as Gibson broke one this time from 65 yards and the TD. Later in the period. Gibson again hit Benavides for the final score of the night for the Eagles.

Gibson was by far the workhorse on the Eagle offense as he carried the ball 21 times for 210 yards, and completed 5 of 6 passes for 93 yards. Daniel Bevavides aided the cause considerably as his driving catches put him on the board as high scorer of the game with 18 points.

Defensively, the Eagles were led by 120 pound junior. James Griffin, who managed 13 tackles for the night. Freshman, Tony Garcia had 9 and Freshman Ronnie Kiser had 10.

We were fairly well pleased with the Eagle performance Friday night, although we weren't really up for it. Injuries have been discouraging and the Eagles had one of their slowest nights Fri-

Next Saturday we travel to Hermleigh for their Homecoming game. We look for a tough time bout should stand well in the contest if we can leave our injuries at home.

Our grade school bys notched up another victory, making them 5-0 for the season, as they defeated Hermleigh 60-18 Thursday in a daytime gan e. Next week winds up the season for our boys with our young Eagles playing the Hobbs Panthers Thursday night

Card of Thanks

Just a word of thanks for the cards, calls, prayers, visits, flowers, etc. for me and my family this past month. Unless you have been there, you cannot imagine how these things do help.

I especially thank those who stood by Bill during the surgery and helped him in so many ways. Thank you for thinking of Fairy and helping her. She had to stay here and just wait for news. Lubbock Methodist Hospital and everyone I met there were very nice to me, but Rotan is the best because it's home. I am doing fine and will welcome calls and visits since I cannot get out for a while. May God Bless all of you for just being so very thought-

A way to combat these uncertainties is through the use of improved perennial species. The improved grasses adapted to this area could include Coastal, Lovegrass, Kleingrass and TAM Wintergreen Harding grass. Since these grasses are permanently established, they make use of available moisture, start growth earlier and produce forage while being established.

The most ideal situation would be to have a three- grass system utilizing Costal, Lovegrass and TAM Wintergreen Hardinggrass. Coastal would be used during the summer months, Lovegrass in spring and fall, and the Hardinggrass used in the winter months. Kleingrass could be substituted for Lovegrass in this system except in extreme north west Texas. Kleingrass breaks dormancy about 10-14 days later than Lovegrass and does have cold damage from late freezes in that area.

Various two-grass systems could also be used efficiently. These would include Kleingrass-TAM Wintergreen, Coastal-TAM Wintergreen or Coastal-Lovegrass The Coastal-Lovegrasssystem would possibly be more effective in south than north Texas since Lovegrass will furnish green forage about one out of three winters as far north as Ste-Another use of any of these

improved grasses would be to supplement native pastures during periods of stress or low production. Maintaining a pasture of the species which would fit into your system when most likely needed might keep one from selling livestock at a time when prices are low. Research in- Reporting Service, Box 70, Austin dicates that maintaining improved pastures at a level of 15 percent of native range area will allow one to double the stocking rate. The average stocking rate of

one animal unit/20 acres in the Rolling Plains area could be greatly enchanced by utilizing 1 or more of these improved grass species. The annual carrying capacity could be increased to 1 AU/5 acres even in the Rolling Plains area if one of the above mentioned systems is properly utilized. With a little supplemental irrigation one AU/2 or 3 acres could possibly be accomplished.

Farmers and ranchers are encouraged to spray their cattle for lice in the fall instead of waiting until they are noticeably infested.

Treating cattle for lice now is effective because of mild weather, shorter hair on cattle and a small lice population. The low population found now is the source of this winters population. Information on the insecticides recommended for louse control is available at the County Extension office.

Before buying insecticide for spraying cattle, read the label on the container completely. Pay particular attention to warnings and restrictions listed on the label and check on waiting periods, especially is some treated cattle may go to slaughter.

Some 65,000 Texas farmers and ranchers will receive a crop or livestock questionnaire during the last half of November or December. The year-end survey on sheep and goats will be made in late December.

This roundup survey of agricultural crop production, livestock numbers and cash receipts from farming and ranching is made annually by the Texas Crop and Livestock Reporting Service. The Texas Department of Agriculture and the Statistical Reporting Service, U.S.Department of Agriculture, are joined together to provide a continuing program of information on Texas Agriculture.

Texas has 254 counties and each producer is an important part of the State's agriculture. Each farmer or rancher receiving a questionnaire is urged to fill it out carefully and return it promptly in the self- addressed envelope to the Agricultural Statistician in Austin.

County statistics for 1970 and January 1, 1971 are now available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Pecans and Cash Receipts from the sale of Texas Farm Commodities. Bulletins are available at the Texas Crop and Livestock 78767 and from John C. White. Texas Commissioner of Agriculture, Box 12847, Capitol Station, Austin, 78711.

FOOTBALL RUMBLES

The Roby High School squad had an open week, last I riday but will meet the Rule team there this Friday at 7:30 p.m.

My article this week is devoted entirely to the Powder Puff football game held at Lion Stadium this past Friday night. The Furple Ardvarks beat the Blue Babes 16-6 but not without a tough

At half-time the boys in the picture above performed on the field. Football Sweetheart was crowned by the Blue Babes, with Larry Reed receiving the honor. He was presented a bouquet of roses, and was asked to make a speech, and after some aid from former twirlers and cheerleaders, he turned to the fans and said Eat your hearts out". The football hero was crowned also, with Zana Anderson receiving this honor.

In the last of the third quarter, the Blue Babes were hasty and made a touchdown. Zana Anderson ran the yardage for the only

Rotan by Charlie Davis

The Yellowhammers did a fine job against Merkel last Friday. It's always good to win your first district game. It was hard to pick an outstanding player. I felt that it took team effort to

We got one boy hurt during the game. Elwood Mize chipped his elbow. Elwood will be out for about 5 weeks.

Hamlin has a young team. They have nearly as much speed as Stamford. Hamlin will always play Rotan a hard ballgame. We

Roby by Ted Posey

This week will have been a busy one by the end of tomorrow night. Tuesday we played Sweetwater Freshmen, also, our girl's basketball team was in Trent. Tonight our Jr. High boys are in Jayton and tomorrow we will travel to Rule. As I mentioned last week I was making some changes. Starting against Rule will be Keith Matthies at quarterback: Donnie Stephens and Mark Kiser at halfbacks; and Roby Revis at fullback. Rule will provide quite a test for our boys. They have three boys that are very speedy. Rule will work quite a bit on our defensive ends. With their speed they run at the end quite a lot. We have designed our defense to stop the end runs to this will weaken us at other defensive points. We are hoping that definate keys will enable us to take up the slack at these weak points. Rule beat Bronte last week 28-6 and Bronte beat us 34-14. You can tell, if score comparions are of any value, that we will have to play a flawless game.

I definitely feel that we will play Rule a good game. We follow the next week against Jayton, our first district game. Our boys are maintaining a good attitude and with a good game against Rule we can beat Jayton. The idea of district champions is not out of reason. From season standpoint, our district has not fared very well. Altogether the teams in our district have a total of 6 wins to date. Jayton is our Homecoming as well asour first district game and this gives us a double reason to win that

Note: Perhaps we should enlist Jennifer Holcomb, Becky Kiker, N. W., Washington, D. C. 20006 Sheree Thompson and Terry Lou Posey after watching them perform in the girls Powder Puff football game last Friday night. Really quite a show these girls put on for the crowd, or perhaps the spectacular performance was for ex-player David Noles who returned from college to referee the game.

McCaulley by Norman Pond

What a night for football. Nothing went right for us, everything went wrong. In the first quarter fullback, Eddie Gibson, dislocated his shoulder for the second time. This probably finishes the season for him. We had to work hard to make Hermleigh's Hometer score of 39-6 over us.

Finally in the fourth quarter we cranked up a long drive that produced a score with Larry Marshall doing the scoring. He got two of our measly three touchdowns and kicked one PAT. A few minutes later James Spalding picked off a Hermleigh pass and ran 35 yards for the score. A final effort saw the game end with our Eagles on the Hermleigh 15 yard line.

McCaulley Jr. High team wrapped up District honors Thursday night as they defeated Hobbs 60-18. All scoring of that game was done in the first half as the "B" teams proved themselves about equal in the second half. It was the final conference game of the season for the Eagles and notched their season record at 6-0. There will be a practice game with Highland tonight to wind up the season. The Eagles so far have racked up a combined score of 291 points to their opponents 48 and have never been behind on the scoreboard. Danny Lujan was chosen "Football Hero" at last Thursday's game and Fonda Jeffrey was crowned "Football

The AFL-CIO has for years taken a pre-eminent and consistent anti-communist position. The Union's President, George Meany, has long been known for opposition to policies of cold war weakenss and has been foremost with warnings against Com-

Just recently the AFL-CIO has produced an excellent document entitles "Who is the Imperialist? This publication puts together a fact-laden study of trends, incidents and policies in the cold war since the epoch of World War II. It answers with clarity the charges of the Marxists and the New Left that the United States is an imperialistic Nation, with designs to subjugate other countries to her will.

The AFL-CIO pamphlet cites chapter and verse in a remarkable sequence of events to show that it is the Soviet Union and Red China who are the imperialists in today's world. Both have pursued a course of global expansion while the Free World has steadily reduced its perimeters.

Set forth in detail is the historical record, giving names, places and dates of direct aggression and how the Communists have created the largest slave empire in modern times.

The Union's study describes with accuracy how the Communists powers have annexed near 825,000 square miles of territory, involving at least 25 million people in eleven Nations.In addition they have gained virtual control over another thirteen satellite countries with about a million square miles and more than 146 million inhabitants. Adding up the attainment by agfression, not counting Russia and Red China themselves, comes to an imperialistic empire of almost two million square miles, inside of which live 172 million human beings.

Communism has grown to a gigantic force which controls all or parts of at least twenty countries, approximately sixteen million square miles and over a billion people. To this can be added those people of Cambodia, Laos and Vietnam under Communist domination, the extent of which is difficult to estimate.

While the communists have been running up their score of domination over Nations who had little or no chance to resist, the free Nations have granted independence to just about all their colonial holdings. The AFL-CIO lists 68 states which achieved self-determination between the end of World War II and the present, comprising more than 13 million square miles of the Earth's surface and the independence of near one and a

So, who is the imperialist, the AFL-CIO asks. The preparation makes it perfectly clear and documents its findings with hard

BUDGET MEATS THAT MEN WILL EAT"

It is no problem to cook a good economical meat dish; the problem arises only when you try to get people to eat it. I mean, of course, men. Children, poor dears, can be bullied into finishing what ever is left on their plates, or enough at least to ward off starvation. Women are so birdable a woman living alone can subsist on almost anything edible and a woman friend, for the pleasure of your company, will cheerfully share yesterday's warmed over tuna casserole. But, men--now they are something else---but, before I'm accused of being a latter-day suffragette, I hasten to point out that the critical husband adds spice to life and cooking, even the fussy ones. Have you ever had this question asked about a dish you prepared with care, "What is this"? or an absent ing money should be a gentle hint to scratch this recipe from your

Yes, for a recipe to have a place in your files "of good things to prepare" this is a criterion for measuring its place, if a second helping is asked for, keep the recipe.

Let us consider some ways of using the meat that your market frequently puts on sale. I myself have spent many embarrassing number of hours in my life just standing around inddecisively in super markets, peering into meat displays and wondering how to use the specials. Here are a few recipes that attempt to solve this particular problem. They are family approved.

> "Chuck Roast In Foil" 2-1/2 to 4 lb. (7 bond) Chuck Roast 1 pkg. (1-1/4 oz.)Onion Soup Mix

Put meat on a large piece of foil and spread onion soup mix on top. Pad any sharp piece of bone with extra foil, then wrap meat with double fold, so that no steam can escape.

Put in a shallow roasting pan. Bake smaller roasts for 3 hours, larger roasts for 3-1/2 hours, both in slow ovens (300 deg.) Makes 3 to 5 servings, depending on size of roast. This is really good.

"Beef Pizzaiola"

When this is in the oven, everyone in the family will tell you he is getting very hungry.

- 1 Chuck Steak (about 2 pounds) unseasoned meat tenderizer
- 1 can tomatoes
- 1/2 teaspoon oregano
- 1 clove garlic, minced 1 t. minced parsley
- 1 T. minced onion
- 1/4 t. salt and sprinkling of black pepper
- 2 T. Vegetable oil
- 1/2 lb. Mozzarella cheese 1 T. grated Parmesan Cheese
- 1. Tenderize meat as suggested by the manufacturer, using unseasonded tenderizer.

2. Cut meat into serving pieces, then reassemble into original shape in shallow oblong baking dish. Try to use a dish that is a good fit for the meat.

3. Drain off half the juice from the tomatoes; break up the tomatoes witha fork. Reserve the drained juice.

4. To tomatoes, add oregano, parsley, garlic, minced onion, salt and pepper. Mix and pour over meat with 2 tablespoons of vegetable oil dribbled over all.

5. Bake in moderate oven (350 deg.) uncovered, for about 1-1/2 hours. Look at the meat occassionally and add some of the reserved tomato juice, if bottom of dish is getting dry, in order to prevent charring. (Charring is also apt to occur if the dish is too large for amount of meat).

6. Top with slices of mozzarella cheese. Sprinkle parmesan cheese over this and bake for 15 minutes longer or until cheese is golden and meat is tender. For children you may wish to omit cheese from pieces they are to be served.

> "Pork Steaks with Capers" (or Red Currant Jelly)

4 Pork Shoulder Steaks

Salt & Pepper 1/4 cup flour 1/4 cup water

- 2 T. Oleo 2 T. capers, drained 1. Trim fat from steaks very well. Dredge with flour.
- 2. Heat butter in skillet and brown meat over medium heat. 3. Sprinkle steaks with salt and pepper.
- 4. Add water, cover, reduce heat and cook very slowly for
- about 35 minutes.

5. Add capers, cover and cook 10 minutes longer or until meat

is tender. Serves 4. Variation: Omit capers and when meat is tender, remove chops and spread one side with 2 tablespoons mashed red jelly, a pinch of ginger and a grating of orange rind and put under broiler for 3 minutes to glaze. Turn and spread other side with same and

I do so hope these will ehlp to prepare some enjoyable meals for your family.

Here's a fast dessert for lunch for the kids. "Quick Fudge Brownies"

350 deg. oven (Pan, 13x9x2)

1 pkg. brownie mix (1 pound 6 oz.)

1 cup sour cream

broil another 3 minutes.

1/2 cup chopped nuts

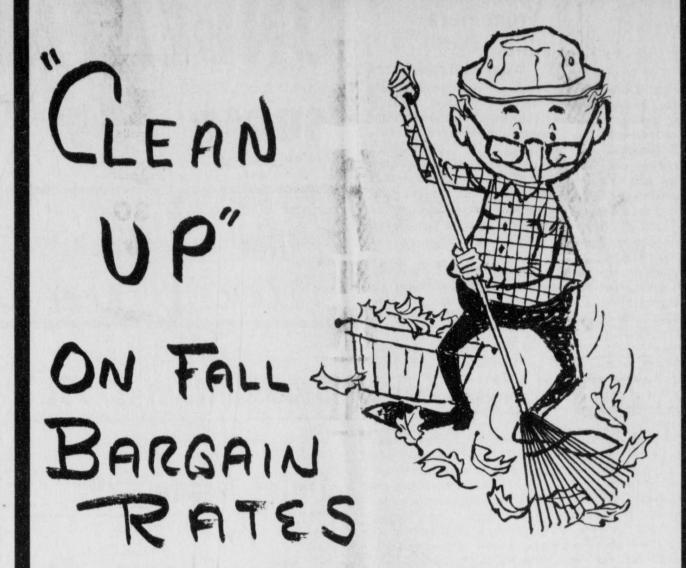

Prepare mix as directed, replace water in directions with sour cream. Spread in pan, top with nuts. Bake at 350 deg. Cool and cut. Wrap in foil for picnic or next day.

Until later.....
