

Commissioners And Veterans To Meet Monday Evening

Sherman County Commissioners Court members will have a special called meeting at the courthouse in Stratford at 8:30 P. M. Monday, September 16, for the purpose of determining whether or not discharged veterans desire a County Service Officer.

A county service officer who can be made available in the county at the present time is a World War I veteran who has been trained in securing the benefits of the 70 features offered to veterans in the G. I. Bill of Rights.

The Commissioners' Court is of an open mind on the proposition and will secure the part time service of a County Service officer if a sufficient number of veterans in the county are interested enough in his services to attend the meeting Monday night and let their desires as tax payers be known to the court.

Sherman County veterans as a whole have considered the G. I. Bill of Rights a bitter joke except for its educational feature. In most instances those who have attempted to comply with requirements for announced benefits have met with failure.

It is a known fact that had returning veterans in the county been familiar with the method of application for benefit payments during the natural period of readjustment when they were returning to modes of civilian life almost each one would have been eligible for payment of several hundred dollars which would have represented the distribution of several thousand dollars in the county as it has been paid in those instances where an established service made such information available.

At present the issue as to whether or not the county will have a paid service officer held responsible for securing eligible benefits for veterans and their dependents remains squarely before the veterans of the county for their decision.

The Commissioners' Court has made it plain that they do not expect to take action in securing the services of a service officer merely on the request of a few interested veterans. They believe that if veterans are interested in the services of a man for this purpose that they will give enough of their time to attend the meeting Monday night to let their desires be known.

Share Food, Save Lives

You can help the starving people get more food by using fresh food and canning or preserving for winter.

Eat less wheat products and fats, such as bread, cereals, macaroni, pies, cookies, cakes, and salad dressing. Serve more plentiful foods, potatoes, eggs, poultry, fish, fruits and vegetables that are in season.

Waste nothing. Buy no more than you can use. Dress up leftovers. Clean your plate. Re-use, then salvage kitchen fats.

Keep your garden working the rest of the summer and during the fall season. Plan to can, freeze, pickle, or otherwise preserve some of your garden surplus and put up fruits while they are abundant. By stocking your pantry with home-preserved food, you assure a more adequate supply for your own family next winter. Miss Dorothy Dixon, Home Demonstration Agent, states.

E. E. HAMILTON.

For State Representative, 124th Legislative District:
WILLIAM J. (Bill) CRAIG.

For District Judge, 69th Judicial District:
HARRY SCHULTZ.

W. B. Butler Died Suddenly Sunday Night

W. B. Butler, 65, of Vivian, Louisiana, a guest in the home of his brother, E. W. Butler, for the last two weeks, passed away Sunday night while enroute to the hospital at Dalhart in the Wilson ambulance.

Mr. Butler has been subject to heart trouble for several years but recently had seemingly been enjoying much better health. He had attended church services Sunday evening and was seemingly in the best of health.

About 11:00 o'clock he called for his brother, E. W. Butler. Upon his arrival at his brother's bedside, he informed him that he was suffering a heart attack from which he would never recover. He calmly bade farewells and gave instructions as to his business.

The remains were returned to Vivian, Louisiana for funeral services.

Mr. and Mrs. E. W. Butler and E. W. Butler, Jr., accompanied Mrs. W. B. Butler to Vivian.

Other survivors besides his wife and brother here are two brothers, M. A. Butler of Rodesa, Louisiana, and Jesse Butler of Conroe, Texas.

Used Car Buyers Urged To Secure Ownership Titles

AUSTIN. — Buyers of used cars are warned to secure from the seller acceptable proof of ownership as the State Highway Department moved toward wiping out traffic in stolen and mortgaged motor vehicles in Texas.

"All County Tax Collectors have now received instructions to hold the line in requiring proof of ownership on all applications for vehicle titles," E. J. Amey, Director of Motor Vehicle Registration announced. Applications for Texas titles are made through local Tax Collectors under the present law.

"Properly assigned certificate of title from any of the thirty States having a title law similar to Texas is the best evidence of ownership. The purchaser should insist upon receiving a release of any lien recorded on a Texas title or a title issued by any other state," Amey stated.

Outlining minimum acceptable ownership proof of vehicles brought into Texas from any of the seventeen non-title States, which includes Louisiana, Amey announced, "We will accept a 1945 license receipt from Louisiana or other non-title State and the current receipt if both are in the name of the person applying for the Texas title."

"Bills of Sale showing all changes in ownership must supplement such 1945 license receipt, if applicant for a Texas title is not the same person in whose name the receipt is issued," he added.

Strict enforcement of the Texas title law was endorsed at a recent meeting of car dealers, enforcement officers, tax collectors and representatives of finance and insurance companies. The meeting had been called to determine if present requirements for title were meeting with the approval of all concerned.

"Numerous stolen and mortgaged cars bearing license plates from non-title States have been sold in Texas," Amey stated. "Purchasers of such vehicles are unable to obtain valid titles in Texas and the vehicles are subject to seizure by their lawful owners."

The National Automobile Theft Bureau has estimated that the current requirements of the Highway Department have reduced sales of stolen cars in Texas by

Bindweed Spraying Demonstration Tuesday

Floyd Wiginton and Arthur Milton of Stratford sprayed bindweeds with 2-4-D in a public demonstration Tuesday morning.

Roy Allen furnished a tractor and operated his power sprayer on approximately 1 acre of bindweeds on Mr. Milton's farm 5 miles south of Stratford, and about 2 acres of bindweeds on Mr. Wiginton's farm 7 miles southeast of Stratford. The power sprayer was equipped with two 25-foot pressure hoses and the spray guns were operated by two men. This crew of three sprayed an acre of bindweeds in 45 minutes.

2-4-D dust was used at a cost of \$6.00 for spraying 1 acre for the first time.

E. Goule, County Agent, presented a board with 5 bindweeds posted on it, showing the results obtained from treatment with 2-4-D, given June 25 and August 1 of this year on the W. O. Bryant farm.

One bindweed root had penetrated 38 1-2 inches deep in the soil and examination revealed the 2-4-D had killed 32 inches of it. The bottom 6 inches showed signs of dying, but some of the roots were still green 30 days after treatment. On the other 4 plants, the tops were dead and the vertical roots were dead from 4 to 12 inches deep in the ground, but some of the lateral roots were still alive and 2 of the 5 had pushed new plants to the surface from the lateral roots. Mr. Goule explained that further examination of the bindweeds treated would be made in continuation of the field test of 2-4-D used on bindweeds in Sherman County this year. It is apparent, from results obtained from the tests, that more than 1 application may be required to eradicate bindweeds.

Miss Peggy Morse Becomes Bride Of Jimmie Jackson

Miss Peggy Morse, daughter of Mr. and Mrs. Melvin Phillips, became the bride of James W. (Jimmie) Jackson, son of Mr. and Mrs. J. W. Jackson of Pryor, Oklahoma in a double ring ceremony solemnized in the parsonage of the Baptist Church in Clayton, New Mexico Thursday of last week with Rev. C. Paul Rich officiating.

The bride wore a light blue garter suit with black accessories. Her corsage was of gardenias and she carried a bouquet of American beauty rose buds.

Miss Lenoir Alexander, maid of honor, wore a light blue wool suit with black accessories, and a corsage of pink carnations.

James Mullican served the groom as best man.

Following the ceremony, Mr. and Mrs. Jackson, Miss Alexander and James Mullican were honored with a wedding supper in the Silver Moon Cafe at Clayton by the parents of the bride, Mr. and Mrs. Melvin Phillips.

Mr. and Mrs. Jackson returned to Stratford Tuesday from a wedding trip to Oklahoma City, Tulsa, and Pryor, Oklahoma.

Mrs. Jackson graduated from Stratford High School with the class of 1945, and attended Texas Technological College at Lubbock.

Mr. Jackson recently received his discharge from the army air corps after 4 years of service, and has been employed in Dumas.

The newly weds will make their home in Stratford.

Taylor And Son Bag Antelopes On First Day Hunting

G. L. Taylor and son, T. L. Taylor, went to Colorado Friday for the antelope hunting season. Each killed a buck their first trips out Saturday morning.

half.

Baptist Revival Services Begin Sunday Morning

Rev. H. L. White, evangelist of Commerce, Texas, will open revival services at the Baptist Church in Stratford Sunday morning. The services will be conducted daily at 10:00 A. M. and 7:30 P. M. through Sunday, September 29.

Rev. White is known in this territory for his work in the revival meeting held at the Baptist Church about a year ago.

He will be assisted in the meeting by Edgar A. Spearman, noted gospel singer of Dallas, Texas.

An invitation is being extended by the church to members of all denominations to attend the meeting.

Miss Kidwell Honored With Pre-Nuptial Shower

A pre-nuptial shower honoring Miss Mary Woodford Kidwell, bride elect of Carroll Wisdom, was given in the home of Mrs. Arthur Ross Thursday afternoon. The hostesses were Mrs. Frank Mehner, Mrs. William Pendleton and Miss Marijo Brown.

Miss Fern Cunningham presided at the guest book. Mrs. John Kidwell, Mrs. Wisdom of Amarillo, and Mrs. Baskin Brown, assisted with the large number of lovely gifts.

During the afternoon, Mrs. Sam Wohlford, Mrs. Homer Smith, Mrs. Charles Wisdom, and Mrs. O. L. McMinn poured coffee for the guests from an attractively set table.

The gifts were numerous and of a wide selection. They should find a suitable place in the bride elects new home which will be in Jefferson City, Missouri. Miss Kidwell is the bride elect of Carroll Wisdom, formerly of Amarillo.

Their marriage will be solemnized at the Methodist Church in Stratford October 15th.

Mrs. Ledbetter Honored With Bridal Shower

Mrs. Leo Ledbetter was honored with a bridal shower Tuesday afternoon at the home of Mrs. D. L. Buckles with Mrs. R. C. Buckles assisting as co-hostess.

Guests arriving during the hours of 2:30 to 5:30 were served refreshments of punch and cookies.

The recent bride was the recipient of many beautiful and useful gifts.

28 Attended Lions Club Meeting

Twenty-three members and five guests, including Rev. Howard Whatley, Rev. G. M. Eastman, Kenneth Kendrick, W. T. Crabtree, and Byron Bain, attended the meeting of the Lions Club at the Palace Cafe Tuesday night.

Rev. Whatley, cub scoutmaster, and Rev. Eastman, scoutmaster, made talks on scout work.

Entertainment featured piano solos by Byron Bain.

The club will meet as usual Tuesday of next week.

Phillips Announces New Drilling Location

Attend Peace Officers Meeting In Liberal, Kansas

Sheriff John Kidwell and County Judge L. P. Hunter attended the five-state convention of Peace Officers of Texas, New Mexico, Colorado, Oklahoma and Kansas which was held in Liberal, Kansas Tuesday.

Principal speakers stressed the need for correcting juvenile delinquency as a means of preventing crime.

Foundations Poured For Three New Brick Business Buildings

Foundations are being poured this week for three new business buildings to be built between the Southwestern Public Service building and the Lovelace Department store building. Two of the new brick and tile structures are to be 30 by 60 feet which are being built by County Judge Arthur Ullom of Dumas. The 20 by 60 structure is that being built by G. L. Taylor.

L. L. Lyon is the construction foreman.

Roxy Theatre Installs New Projectors

Two new projector machines were installed at the Roxy Theatre the later part of last week. The new equipment is part of the Cummings' program to insure better entertainment.

Mrs. Dortch Hostess To El Martes Club

El Martes was graciously entertained by Mrs. M. Dortch. Arrangements of fall flowers made the entertaining rooms most inviting.

The club game was played and enjoyed during the afternoon. At 5 o'clock the hostess served tasty refreshments to members and guests. Mrs. D. L. Buckles, Mrs. Elmer Hudson, Mrs. Earl Shirk and Mrs. Herbert Folsom.

2 Discharges Filed

James Daniel Sue, Jr., S1C, USNR, who received his discharge at the separation center in Norman, Oklahoma January 19 filed his discharge with the county clerk this week. Sue was a veteran of the Asiatic-Pacific fleet.

Claude Fedric, Pfc, U. S. Army, filed his discharge which he received last week. Serving with the 7th cavalry, he is a veteran of the Asiatic-Pacific campaign, and was awarded one bronze star and the good conduct medal along with the victory medal.

Less Hogs, But More Money

In January of 1937 there were 298,000 more hogs in Texas than there are today.

That sounds like a blow to Texas swine production, but a comparison of values shows that prices and quality are more important than mere quantity in production. Even though there are almost 3,000 less hogs in the state now than in 1937, today's value of Texas hogs is set at \$34,005,000, as compared with the 1937 value which was only \$4,202,000.

These figures were released from the Agricultural Economics Service Center which has been recently set up at the Texas A. and M. College Extension Service.

Figures from the service center are reminders of what did and can happen to values of farm and ranch products. For instance, hogs in 1919 were averaging \$18.60, but were at a \$2.59 average in 1933.

For an over-all view of what the "depression days" did to agriculture in this state, the service center has figures showing that it took Texas farmers 13 years to again reach a cash income of 20 million dollars after seeing it fall below that figure in 1929.

Assembly of God Church

Welcome to Assembly of God Church, across street from Court-house.

Sunday School 10:00 A. M. Morning Worship 11:00 A. M. Evangelistic service Sunday evening 8:00 P. M.

Phillips Petroleum Company representatives announced the companies intention to drill for gas on section 23, Block 1-C, this week. The location is in the northeastern part of the county.

Drilling with rotary tools continues at the Shamrock Fisher No. 1.

The drilling site of the Shamrock Price No. 4 still remains abandoned awaiting the arrival of cable tools for completing the well for gas.

Dalhart And Dumas Doctors Will Visit Stratford Each Week

Dr. J. P. Price, Jr., Dumas, and Dr. W. D. Maxwell, Dalhart, Osteopathic Physicians and Surgeons, have made arrangements to use the office vacated by Dr. Leta Boswell in the City Hall, to make weekly calls to Stratford.

Dr. Price of Dumas, will be in the office at the City Hall in Stratford Friday mornings during the hours of 8:00 to 12:00 A. M.

Dr. Maxwell of Dalhart will be at his office in Stratford on Tuesday afternoons during the hours of 1:00 to 6:00 P. M.

Dr. Price and Dr. Maxwell, who were here Sunday, stated that they only hoped to make this arrangement in order to provide Stratford with some medical services until a doctor moved to Stratford to make it his permanent home. At this time they said, they would wish him well and turn their practice over to him.

R. E. Goodnights In Car Accident Saturday Night

Mr. and Mrs. R. E. Goodnight of Guymon narrowly escaped serious injury Saturday night when their car plunged into the ravine near Big Rock on U. S. Highway 287.

Mr. Goodnight apparently fell asleep while approaching Stratford from the south just as he came over the hill south of the concrete bridge. Driving to the left side of the road and over the shallow bar-pit, the car plunged into the deep ravine between the highway and the Santa Fe tracks making a few turns around the steep hillside before turning over and stopping on all four wheels in the deep part of the triangular ravine.

The occupants of the car suffered only minor bruises and scratches.

Why We Sing And Do Not Play

I am often asked why we do not use the instrument in worship. My answer is:

1. We have no new testament authority for it. Jesus did not teach it, neither did His apostles. Jesus said to the apostles: "Whatsoever you bind on earth shall be bound in heaven, and whatsoever you loose on earth shall be loosed in heaven." Matthew 16:19. We have no account of them ever using it, neither did they teach its use in the worship.

He also told the apostles that He would send them the Holy Spirit to guide them into all truth. They do not command us to use it.

2. Singing is better and sweeter without the instrument. If you do not believe this, just attend the services at the Church of Christ and be convinced. "Come and see."

A. C. Huff, a servant of the Church.

PROGRESS-TYPESETTING

1822-1880
HUNDREDS OF COMPOSING MACHINES PATENTED IN AMERICA... THE "TRICE" HAD 18,000 PARTS - TOOK 20 YEARS TO BUILD - COST \$1,000,000!

Ground Oats Replaces Flour in Spicy Oatmeal Cake

Something new has been discovered in the cake world: a recipe which uses ground oats instead of flour! Spicy Oatmeal Cake definitely saves flour, since it uses none at all. According to established cake connoisseurs it has a flavor that is delightfully different. Grinding rolled oats with the fine blade of a food chopper is the special trick called for in the recipe. And the cake is as easy to combine as muffins, since it uses the same technique. Vitamin B, iron, food-energy and excellent protein in the rolled oats give high nutritional value to this tempting cake. With cinnamon, nutmeg, raisins, and nutmeats combining their distinctive flavors with the nut-toasty taste of the ground oats, Spicy Oatmeal Cake is super-delicious! You'll bring them running — guests and family alike — by serving this new and timely dessert which can be topped with whipped cream or your favorite frosting. Fluffy white icing is especially appealing — it complements the rich color of the oatmeal cake.

Spicy Oatmeal Cake Temperature: 350°

Time: 25 minutes	3 1/2 cups Rolled Oats (quick or old-fashioned, uncooked)	1/4 teaspoon nutmeg
	1/2 cup sugar	1 cup raisins
	1 teaspoon soda	1/2 cup chopped nutmeats
	1 teaspoon salt	1/2 cup melted shortening
	2 teaspoons cinnamon	1 teaspoon vanilla
		2 tablespoons water
		4 beaten eggs

- Grind oats with fine blade of food chopper. Measure 2 1/2 cups of the ground oats.
- Mix together ground oats, sugar, soda, salt and spices until thoroughly blended.
- Add raisins, nutmeats, melted shortening, vanilla, water and slightly beaten eggs, stirring lightly.
- Bake in two waxed paper lined 8-inch round layer cake pans in a moderate oven (350° F.) for about 25 minutes.

impinge at any point on the manufacture of nuclear energy."

Mrs. Luce followed with: "Its essential principle, which is State monopoly and control in the hands of a few administrative appointees, strikes near to the heart of political liberty", then concluded: "If you vote against this bill you may be choosing death for millions of your fellow citizens by atomization. I, for one, dare not make such a ghastly choice."

Voorhis Confused
Congressman Voorhis of California, equally confused, expressed fear that "atomic energy, the very energy of the sun itself", might be "privately patented or monopolized by some one corporation." Atomic energy could not be patented any more than could electrical energy or the energy of the winds and the waves. Patents are upon devices and methods for the utilization of energy.

In the electrical field there are hundreds of thousands of patents on devices for such utilization. The competitive race for superior inventions, to be patented, has given us our almost uncanny applications of electrical energy, from the telegraph clear through to modern radar and television. Without this frightening law the same competitive race should produce for our people similar results from atomic energy unless, as held by some scientists, the importance of atomic energy in industry is much overrated.

Lanham Offers Substitute
A sober note of practicality was introduced by Representative Fritz G. Lanham of Texas. The House reacted significantly to a substitute, offered by Mr. Lanham, for the Sovietized Section 11 of the McMahon Bill.

Section 11 proposed to establish, as to the entire atomic field, the anti-incentive principle of commissar control found elsewhere only in Russian regimentation confiscating, in behalf of the dominant minority of that nation, all invention. The House-Senate Conference Committee read the well-timed Bikini headlines, and sent the bill back to the House with the already defeated Sovietized Section 11 again in it.

Mr. Lanham's substitute for this transplanting to America of the Soviet system was strongly supported by Smaller Manufacturers associated with National Patent Council and by outstanding patent law associations. His substitute, which conformed the bill to Constitutional concepts supporting our Patent System, was accepted by a House vote of more than 2 to 1.

Opponents of the bill claim it only necessary for the commission to declare copper fissionable to establish commission control of all industry.

Restore Section 11
In the bill as finally enacted the Sovietized Section 11 was fully restored, and the provision for an all-civilian commission (with death penalty control of all fissionable materials and related inventions) was retained by confused

House and Senate majorities, assured by their leaders that the legislation would be "temporary" and would be repealed as soon as a mysterious "emergency" had passed.

Any wage earner who would like to have a statement of the wages credited in his social security account may secure a self-addressed post card which was prepared for that purpose. There is no charge except for the one-cent postage stamp. The cards should be requested from the Social Security

September Landscape Gardening

COLLEGE STATION, Sept. 11. — Mulch material will protect roots of flowers and other landscape plants, and enriches the soil when it decays.

According to Sadie Hatfield, specialist in landscape gardening of Texas A. and M. College Extension Service, the best mulch for flowers is the decayed material found around oat, wheat and hay stacks or near feed grinders and trench silos. Leaves in ditches and under trees also make good mulch.

In applying the mulch, it should be spread six to eight inches deep, Miss Hatfield says. When that has settled to as low as a two inch thickness, more should be added.

Many flowers that were killed by heat in August may be replanted in September. In the colder parts of the state, only hardy plants like the hollyhock and gayfeather can be safely planted now. However, most all sections, these are some the flowers that may be replant-

Her Thoughtfulness Helps to Save Food

In support of UNRRA's plea to use wheat-substitutes so that this country can fulfill its promise to help feed starving Europe, pretty Shirley Nelson serves a loaf of oatmeal bread. And to avoid waste, she takes a tip from her baker and wraps the loaf in waxed paper to keep it fresh and moist. Housewives are urged to conserve food and use wheat-substitutes until Europe's wheat can be harvested.

ed this month: arctotis, baby-breath, balsam, calendula, candytuft, Chinese forget-me-not, cockscomb, coreopsis, cornflower, delphinium, laceflower, larkspur, mignonette, pansy, petunia, phlox, pinks, queenslace, salvia, scabiosa, snapdragon, stock, strawflower and sweet-william.

THE LOW DOWN FROM HICKORY GROVE

What this country needs to know is, how much is 41 billion bucks. We been seeing Congress dish up 100 million, or 2 billion without battin' an eye, for so long, that we do not even look to see if it is a million or a billion. The Sheriff has not drove up yet, so what the heck. What is an extra 3 ciphers, more or less.

So with your congressman coming home, it is now a good time to quiz the gent. Maybe he can tell you what is 41 billion. But if he can't, and he gets confused or red in the face, you can tell him the answer. I dug up my slide-rule. Here is what it says. If you have 41 billion bucks in one dollar bills and you lay 'em end to end, they would go 142 times around the earth, at the middle. And computin' still further with my slipstick, these 142 separate round the world strips would make one single band of carpet 30 feet wide. Some pavement that would be, or is, and the dinero to be coughed up via taxes, income and other kinds. And that is just one year's expense of the Government. Next year it will be another 30 foot layer of greenbacks, 25,000 miles long.

One good thing you can say for dog-days this year, Congress is not in session, and addin' further to our miseries.

Yours with the low down,
JO SERRA.

Dress Revue Winner Chosen

For one day at least, Joyce Chambers, 17, of Tarrant County, was conceded to be the best dressed 4-H Club girl in Texas.

Joyce was ranked first among 50 county winners in the state dress

revue contest at the 4-H Round-up on the campus of Texas A. and M. College. She will represent Texas in the revue at the National 4-H Congress in Chicago this fall and will be awarded a government savings bond by a textile corporation.

The winning costume, which Joyce wore first in the Easter parade, consisted of a navy blue wool crepe bolero suit with white hat and gloves, red dress shoes, and a red shoulder-strap bag. She copied the suit from one she'd seen advertised at \$125 in a newspaper. It cost \$13.04. Joyce's pure silk blouse cost only a nickel for thread

since she made it from a Japanese parachute sent her by a friend stationed in Tokyo. The blouse was brightened by a rose on the left shoulder applied with textile paints. Joyce learned textile painting at a 4-H Club camp two years ago.

A bolero was chosen, Joyce said, to cut her height. "And since I'm five feet seven and one-half inches tall, I can stand a little cutting."

The judges, Iris Davenport of Nashville, Tennessee, and Katharine Randall of Oklahoma City, praised the workmanship, poise, and resourcefulness of the winner.

Joyce is a daughter of Mr. and Mrs. C. F. Chambers of Everman, and entered North Texas Agricultural College at Arlington this summer after graduating from high school as valedictorian. She has been a 4-H Club member for eight years, recently under the tutelage of Gayle Roberts and Mrs. Winnie S. Stewart, Tarrant County home demonstration agent and as-

sistant.

If the nation's fire losses continue to mount at present rate, an all-time high in fire destruction will be set. Farm fire losses are keeping pace with the general increase.

Rural Electrification has approved loans totaling \$4,366,000 to 14 borrowers in nine states.

Listen My Fellow Citizens

... the story of a big family—more than 1,200 strong. They are experienced, trained men and women—they are citizens of the territory we serve and they are interested in its welfare. Most of our employees are home owners. They are your neighbors; their children play with yours—they belong to your churches, your lodges, your clubs.

They buy groceries, and clothes; pay dentist and doctor bills—and taxes.

In their working day they have only one purpose—to serve you with essential electric service at the lowest rates possible.

SOUTHWESTERN PUBLIC SERVICE COMPANY

22 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Q. What is the name of this cut of meat?

A. This is Canadian style bacon, shown in the roll. It is an entirely different cut from ordinary bacon.

Q. What is Canadian style bacon, and how is it identified?

A. Canadian style bacon is the portion of the pork loin which has had the bones and tenderloin muscle removed and which has been cured and smoked. It has the appearance of a roll and is often inclosed in a stockinet or cellophane covering. The meat is very lean and is the same color as smoked ham.

Q. How is this cut prepared?

A. When cooked whole, Canadian style bacon may be roasted in an open shallow pan in a slow oven (300° F.); or it may be simmered in water. When cooked and properly stored it will keep a long time. Sliced Canadian style bacon may be broiled, panbroiled or fried. When cooking by each of these meat cookery methods care should be taken to cook the meat slowly.

Local News

Mr. and Mrs. Earl Riffe returned Wednesday of last week from Roswell, New Mexico where they took their son, Don Riffe, who has enrolled in the New Mexico Military Institute.

Mrs. V. M. King left Saturday morning for a few weeks visit at Marlin, Texas where she is taking treatment.

Mr. and Mrs. Raymond Loper of

Norman, Oklahoma and Mrs. Paul Wilkerson, Tulsa, Oklahoma, were guests of Mr. and Mrs. A. H. Dawson, Jr. over the week end.

Mr. and Mrs. Ernest Lovelace and children returned Tuesday from a business trip to Fort Worth and Dallas.

Ernest Cummings, Ralph Harding and Wright Davis spent the week end fishing at Eagle Nest, New Mexico.

Mr. and Mrs. Claire Douglas, Goodman, Kansas, visited friends

Kid Homes of Ants Says Scientist!

While some ants are harmless, most of them carry filth, and may contribute to various illnesses when they come in contact with food, it was stated recently by Dr. Heber C. Donohoe, entomologist of the Peterman Laboratories, who recommended to the nation's housewives that their homes be kept free of all ants.

The best way to destroy ants calls for an insecticide in powder form. Place it in unbroken lines—about a half inch wide—across all avenues of entrance. If ants enter house through kitchen door, place line of powder next to sill and extend it from one side of door to the other (as pictured above). Make ants cross killing agent at some point as they enter house. That's all that's necessary to kill them.

To assure best results, choose an insecticide in powder form designed especially for ants, then follow above directions.

and relatives in Stratford and Dalhart the first of the week.

Mr. and Mrs. J. W. Garoutte left this week for Ojo Caliente, New Mexico where Mr. Garoutte is taking treatment.

Bill Green, Amarillo, visited Mr. and Mrs. N. D. Kelp and Johnnie Bill Green Sunday.

Mr. and Mrs. W. S. Frizzell have received word that their son, Sergeant William S. Frizzell, Jr., is on his way home from Osaka, Japan.

BREAKING TRAIL.....

WE'VE BEEN AT IT FOR 22 YEARS

Twenty-two years ago your Public Service Company started breaking trail—trails of progress.

A pioneer in building ahead for the future, the Southwestern Public Service Company has anticipated future demands for electric service by spreading its network of lines and building new power plants.

A PIONEER IN BUILDING AHEAD FOR THE FUTURE

Today, in a 12 million dollar expansion program, new power lines are going up throughout our area; there'll be more reliable, low cost electricity for homes, farms, and factories.

Now you too, can plan on building ahead for the future—a future of better living, better farming, better working conditions—electrically.

Another in a series of advertisements designed to help build this fast-growing territory in which we serve.

Student Nurses Learn Lab Technique

Typical Texas hospital scene showing student nurses at laboratory test work. The Texas League of Nursing Education, in cooperation with other state agencies, has called for the enrollment of 2,000 students nurses in September to help avert a shortage that threatens hospital bed space, which already is 23 per cent below capacity in the nation because of a dearth of nurses. Above picture made at Harris Memorial Hospital, Fort Worth.

FARM REAL ESTATE ON RISE

Farm real estate prices climbed
another four per cent during
March, April, May and June, the
U. S. Department of Agriculture
reports. This recent increase
brings the real estate prices to a 13
per cent rise since July of last
year. Prices now are 77 per cent
above the 1935-39 average and only
14 per cent below the 1920 infla-
tionary peak.

Some employees who have moved
and who have lost their social
security account number card seem
to think it is compulsory to secure
a duplicate card from the office
where they secured the original.
The facts are that any field office
of the Social Security Administra-
tion will be glad to accept an ap-
plication for a duplicate and there
by saving the applicant time and
expense in wiring or writing back
to the office where the original
was issued. The nearest office of
the social security administration
is at Amarillo, Texas.

166 Texas Counties Produce Oil And Gas

Oil and gas development covers all of Texas, a map prepared by the Texas Mid-Continent Oil and Gas Association shows. Every one of Texas' 254 counties now produces or has produced oil or gas, or has land under lease for oil and gas exploration, the map reveals.
Nearly 54,000,000 acres, or virtually one-third of the State's total land area, are now leased to Texas oil and gas operators. Last year their lease and royalty payments to Texas farmers, ranchers and other land-owners totalled \$215,000,000, providing a large "extra crop" for Texas agriculturalists. Since 1919 such payments have aggregated more than two billion dollars, or an extra cash bonus of nearly one-seventh of the value of all Texas agricultural crops during this period, the association reported.
Oil and gas are now produced in approximately 1,100 different fields in 166 counties scattered through Texas, while an additional 17 counties formerly produced. The 71 other counties are now being actively explored for oil and gas, with land under lease for drilling.

TEXAS FOOD LOCKER PLANTS

There are now 402 frozen food locker plants doing business in Texas. A nation wide count showed 8,025 food locker plants in the United States. There were only 2,870 in 1940.

"We Are Open 24 Hours A Day"

You Don't Hunt Bears With a Slingshot

And you're sure hunting trouble
when you put cheap, bogus replacement
parts on your genuine John Deere
Quality-Built Equipment.

The saddest and sorriest folks we know of are
those who go around looking for bargain re-
placement parts—and find them; the folks who
learn too late that a bargain today is a head-
ache tomorrow.

Remember that when you put an inferior
part on a high-quality implement, you're not
repairing; you're seriously impairing the work-
ing and wearing qualities of that implement—
it all boils down to the age-old saying that a
chain is only as strong as its weakest link.

So, be wise! Buy only genuine John Deere
repair parts for your John Deere equipment.

Watch Your Kidneys!

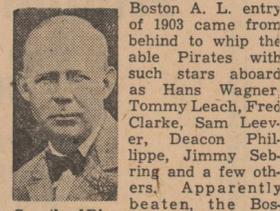

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

THE somewhat dusty files show that a Boston club has never lost a world series contest, with six victories out of six starts — five for the Red Sox and one for the Braves. This world series mop up began 43 years ago. It began when the

Grantland Rice

Boston A. L. entry of 1903 came from behind to whip the able Pirates with such stars aboard as Hans Wagner, Tommy Leach, Fred Clarke, Sam Leever, Deacon Phillippe, Jimmy Sebring and a few others. Apparently beaten, the Bostonian delegation rallied to ride home on the stout right arm and the stouter heart of Big Bill Dineen. That was victory No. 1, although the world series of 1903 was on the unofficial side.

Nine years later the Red Sox found John McGraw and his Giants in the road. This series went to eight games, where in the final spasm Giant support blew wide open as Christy Mathewson lost a contest he should have won in a common canter.

Earlier in this meeting, around the fifth inning, Harry Hooper saved the day for Boston with the most spectacular of all world series catches when he pulled down Larry Doyle's almost sure home run over the right field fence. The ball already had passed over the fence when Hooper made the miracle catch, crashing into the crowd. He must have used a net.

Speaker Clinches Flag

After that Fred Snodgrass dropped Clyde Engle's easy fly to center that popped into his glove—and then popped out again, Engle reaching second. That was a bit discouraging. But a moment later on, Matty fed Tris Speaker a slow floater and Tris lifted the ball on a high foul pop-up near first base that Fred Merkle lost. Chief Myers made a futile chase as Merkle was vainly looking in various directions for the ball. The high pop-up dropped between these two only 10 feet from first base. Then Speaker broke it up with a single, scoring Engle.

Two years later the Braves crashed into the big show by beating the Athletics four straight. Rudolph, Tyler and James did it. The famous Athletics curled up like a feather attached to a burning match. In these three world series Boston was three up.

In 1915 the Red Sox broke back into the great white spotlight again. They lost to Alexander, one of the great pitchers of all time, and then won the next four games.

In 1916 they won the pennant again and took on the Dodgers. The main feature here was Babe Ruth's extra inning victory over Sherrod Smith. The Babe was then a great left-hander in the box.

Ruth's Last Hurling

In 1918, the Red Sox returned to the post-season carnival for the fifth time. That year they whipped the Cubs where Babe Ruth, dating back to 1916, turned in 29 scoreless innings. Babe was the master of that party, his final as a pitcher before he turned to home-run hitting at Ed Barrows' suggestion. Babe usually carried the world series along with him, using his pitching or batting eye for this worthy purpose. It has now been a matter of 28 years since Boston saw its last world series.

In the last 10 years, Tom Yawkey has spent enough money to win three championships, but this happened in the era or epoch where the Yankees had too much stuff.

It is only natural that Boston supporters are looking for another world series mop-up, making it seven in a row. This time they have the best team the home of the bean and the cod ever has sent into action. It is an even better team than the 1912 outfit that knew Speaker, Lewis and Hooper for the finest defensive outfield in baseball history. Plus Smokey Joe Wood in the box. Plus Bill Carrigan back of the bat.

The 1946 Red Sox carry baseball's two essentials — hitting and pitching. But the Red Sox road record proves that Joe Cronin's young men are far from being invincible. They are the best team in baseball, anyway, although their man-against-man selection doesn't leave any wide margin over the Dodgers or Cardinals, who also can play their share of baseball.

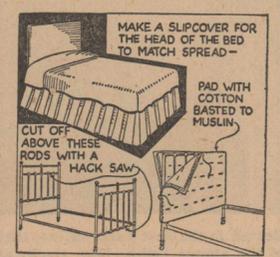

Query and Comment

Bystanders and non-combatants can think up more questions than I can answer. But here are a few belated attempts from recent mail:

Sideliner — Among the more important and leading college football games of the coming season you can list Army-Notre Dame; Army-Michigan; Illinois-Notre Dame; Alabama-Georgia and Georgia-Oklahoma A. and M. There will be many others, but these will be among the best.

Bedspread With a Permanent Valance

A BED with a valance to the floor has a well-dressed appearance that is lacking when a short spread is used. A plain valance like this repeating a color in the room would be just as attractive used with an old fashioned

quilt for a spread; or with a crocheted or plain spread. Five and one-half yards of any 36-inch material split lengthwise right down the center does it.

This bedspread is from Home-Making BOOK NO. 4 which also contains illustrated directions for more than thirty other things to make for the home. Readers may get a copy of BOOK 4 for 15 cents by sending request to:

MRS. RUTH WYETH SPEARS Bedford Hills, N. Y. Drawer 10 Enclose 15 cents for Book No. 4. Name _____ Address _____

Lost Arrow Peak Only One in U. S. Not Scaled

The only rock formation in the United States that has never been climbed is the 2,800-foot Last Arrow peak in Yosemite valley, owing to the excessive steepness and smoothness of its last 1,500 feet, says Collier's.

Another attempt to scale it will soon be made by a group of mountaineers who, to sleep at night, will tie themselves against the vertical face of the pinnacle.

ENJOY HAPPY LIFE & ENERGY

take HIGH ENERGY TONIC

Scott's Emulsion helps tone up the system, build stamina, energy and resistance when you feel "dragged out" and run-down—and your diet lacks the natural A&D Vitamins and the energy-building natural oils you need. Remember—many doctors recommend good-tasting Scott's. Buy today—all druggists.

SCOTT'S EMULSION YEAR-ROUND TONIC

FOR LOOSE DANDRUFF To help remove unsightly flakes and keep hair looking well groomed, rub into MORLINE HAIR TONIC

"ASTHMADOR" — Helps "Save the Day"

THE TIME TESTED INHALANT TREATMENT Inhale the rich, aromatic fumes of DR. R. SCHIEFFELMANN'S ASTHMADOR the next time you have an attack of bronchial asthma. ASTHMADOR is inexpensive—easy to use—nothing to take internally—a dependable, effective treatment that helps relieve the agony of the attack—helps distressed breathing. Sold by druggists everywhere under our money-back guarantee—three convenient forms: ASTHMADOR powder, cigarettes or pipe mixture.

Yodora checks perspiration odor

THE SOOTHINGEST WAY Made with a face cream base, Yodora is actually soothing to normal skins. No harsh chemicals or irritating salts. Won't harm skin or clothing. Stays soft and creamy, never gets grainy. Try gentle Yodora—feel the wonderful difference! McKesson & Robbins, Inc., Bridgeport, Conn.

One of the best home ways to BUILD UP RED BLOOD

if you lack BLOOD-IRON You girls and women who suffer so from simple anemia that you're pale, weak, "dragged out"—this may be due to lack of blood-iron. So try Lydia E. Pinkham's TABLETS—one of the best home ways to build up red blood—in such cases, Pinkham's Tablets are one of the greatest blood-iron tonics you can buy! At all drugstores.

JESUS AND COVETOUSNESS

LESSON TEXT—Exodus 20:17; Proverbs 11:23, 24; Luke 12:15. MEMORY SELECTION—He that trusteth in his riches shall fall; but the righteous shall flourish as a branch.—Proverbs 11:28.

The Ten Commandments, the study of which we conclude today (the remaining lessons of the quarter deal with other laws), have been revealed to us as being characterized by their brevity, their comprehensive touch with all of life, and fidelity to the right. But they are also unique and different from all other laws in that they reach into the inner recesses of a man's heart, a realm where only God can judge and act.

This last commandment (against covetousness) emphasizes that point, for it does not expressly require or forbid any act, but deals with the motive of man's action. Man can judge another man's acts, but he cannot judge his motives, desires or thoughts. God must do that.

But man can, by the grace of God, control his motives; and hence we have this commandment and its interpretation.

I. Covetousness — What It Is (Exod. 20:17).

To covet does not mean just to desire, but to have an unrestrained desire for that which we ought not to have or which by right belongs to another.

It shows itself in our day in a more general way — an inordinate desire for possessions in general. There too man loses himself. It may be a surprise to many to learn that coveting, or desiring what belongs to another, is a sin. It has become one of the "respectable sins" accepted in the best circles and practiced by many church people.

As a matter of fact, this sin underlies all the other sins against which the commandments speak. He who has a love for money and an evil desire to have his neighbor's possessions will hate, lie, steal, cheat, kill. In fact, as Dr. G. Campbell Morgan says, "The whole realm of human interrelations is disorganized and broken up by the dishonoring of the tenth commandment."

II. Covetousness — What It Does (Prov. 11:23, 24; Luke 12:13-21).

1. It Makes a Man Stingy (Prov. 11:23, 24). The righteous man seeks that which is good and he knows nothing of the close-fisted stinginess which withholds from God and man. Sometimes to economize is to lose, and to be liberal is to gain—especially in the things of God.

God gives liberally (James 1:5), and the man who knows God scatters not only his money, but his riches of mind and service for God's glory.

In sad contrast is the man who keeps his possessions for himself and reaps only the barrenness of soul and leanness of life.

2. It Makes a Man Envious (Luke 12:13-15). Noting the ability of Jesus in dealing with others, this man thought to divert the Lord from his real ministry to the souls of men to the settling of social problems—all because he was greedy.

Some church leaders think that is our business now — to preach and promote a social gospel. They had better reread verse 14.

3. It Makes a Man Selfish (Luke 12:16, 17). The one who was known to his friends as the "rich man" (v. 16) was known to God as a "fool" (v. 20), because having more than he could use he hoarded it for himself. One wonders what he had to say for himself when that very night he was called into the presence of God to give an account of his stewardship (v. 20). If you are similarly situated and have the same attitude, what will you say in that day?

4. It Makes a Man Proud (Luke 12:18). All around him were the hungry. He needed no barns, for there were the empty hands of the needy; but money had made him hard and proud. He would build bigger barns, perhaps the biggest in that community. People would marvel at his prosperity and he would live long to enjoy it.

But it did not work out that way, for, alas, it is true of covetousness that—

5. It Makes a Man Foolish (Luke 12:19-21). The man who reckons without God is sure to come to grief. Leaving him out of one's thinking and planning invites disaster.

God called, and he who had thought to go on for years in selfish pleasure, found that he must go and leave it all. Worse yet, he had to face the judgment of God upon his eternal soul.

Do not fail to note that there is a way to lay up treasures in heaven — by a "close walk with Christ, coming to appreciate and cultivate the joys of the spirit," and so using one's possessions that they count for the glory of God. Even gold can be so invested for God as to send it on to eternity. What an opportunity!

The American Way
The Sixth Column
(By George Peck)

The depression of the 1930's and the Second World War introduced an epidemic of new words, terms and phrases into the English language, not to mention a countless number of alphabetical bureaus. Your correspondent humbly begs

pardon for having fallen a victim to this word-coining contagion, and, with your permission, he would like to inject still another new caption into the already badly overcrowded maze of recently coined names, to wit, "Sixth Column."

Prior to the Second World War and while it was in progress, we heard much about "Fifth Column"

THE SMOKE of battle has cleared in the past year, but not that of American industry—nor of the atomic bomb. The stacks of factories (right) are pouring forth their cumulus of spent energy as the productivity of American genius is transformed from the uses of war to the ways of peace. And out over the distant tropical atoll of Bikini the atomic cloud (left) has risen, as much a promise of civilization's physical reconstruction as a threat of its future annihilation.
(Official U. S. Navy photos)

activities in Europe, and their paralyzing and devastating effects upon Poland, Finland, Denmark, Norway, Holland, Belgium, France, and even upon England. Thanks to our Federal Bureau of Investigation and other governmental agencies, the "Fifth Column" was checkmated in America before it

could get in its deadly work. But today in the United States there is a "Sixth Column." It is a threat to our welfare and security. This "Sixth Column" is especially dangerous because as a nation and individuals we seem to be unaware of its existence. Many of those who make up its membership, would indignantly deny belonging to it, as far as they are concerned, it is a secret organization and they are not even in on the secret.

As I see it, this "Sixth Column" is made up of three principal groups of citizens.

The First takes in those countless thousands of native-born Americans who see in the present situation, a failure of our American System of Free Enterprise, and are willing to have it scrapped; who have come to the conclusion that "Capitalism" is dying on its feet; that the "Profit and Loss System" is outmoded and that we must substitute for it, a "System of Production For-Use-And-Not-For-Profit."

The Second Group comprises those million who sit idly by, failing to exercise their electoral franchise bought for them at such great cost by the founders of this nation; who are too lazy, or too indifferent to put forth the simple effort of going to the polls to vote.

The Third Group rounding out the "Sixth Column" is the most dangerous because it knows what it is trying to do. There is neither indifference nor lack of knowledge in this group. It consists of the "Economic Planners," the demagogues who have succeeded in centralizing more and more power in the Federal government—the very thing which our Founding Fathers so sagely warned against. This is the group which is mainly responsible for the retarding of the re-conversion program, for it has left no stone unturned to hamper legitimate business, which had it been left to its own devices, would long since have gotten on to full production.

The first "Sixth Column" group, made up of the defeatists, perhaps can be weaned away from its false ideas and delusions of futility; the second, comprising the "Let George Do Its" and the "Don't Give A Darns," perhaps can be aroused from its lethargy. As to the third

group, there is no possible solution, except to oust it from the nation's capitol.

group, there is no possible solution, except to oust it from the nation's capitol.

unrepresentative bureaucrats.

TEXAS FIRST IN TURKEY BREEDING

In a turkey improvement plan during 1945, Texas led the 23 states participating in breeding improvement work. There were 1,091 U. S. approved turkey flocks reported in the state.

How Many Good Days Are There

Did you ever know a year when there were enough good days for doing your work?

That's why it's a good idea to have your McCormick-Deering Machines in smooth running condition before it's time to use them. Then, when you can get out in the field, there will be no breakdowns to delay you.

So order your parts early — while you're thinking of it. We'll see that you get original IHC Parts.

Binder Twine

Is in stock in sufficient quantity to supply your needs.

W. T. MARTIN
HARDWARE—IMPLEMENTS AND FURNITURE

Your Home
By Frances Ainsworth

The present wheat emergency has not changed the bread habits in our family. When I was a young girl learning to cook, my Mother taught me the importance of avoiding waste in food—and I think some of the hints I learned will help you to conserve bread now.

We don't throw away left-overs at our house—if bread does become slightly stale, I make toast or use it for bread dressings and puddings. If there is still left-over bread, I roll it into crumbs and pack it away in my refrigerator until I make a dish that requires a crumb topping.

Incidentally, I've found that by opening just one end of the bread wrapper—and carefully reclosing the waxed paper, then placing the bread in the refrigerator—it stays moist and fresh much longer. And, too, I wash my refrigerator at least once a week with vinegar. It's just an extra precaution that stops any mouldings.

You know, it's really surprising how much food can be saved with just a few such precautions as these. And every crumb we save here—means prolonged life for a neighbor in Europe. That certainly makes it worth the effort, doesn't it?
