West Coke County Nursing Home has received a superior rating after an inspection by Texas Department of Health. A letter of congratulations was received by Administrator James R. Sikes from Dr. Cesar M. Elizondo, chief of the department's Bureau of Long Term Care.

The rating places the home in Robert Lee in the top percentile of all homes in the state.

Things Getting Back to Normal

Things were getting back to normal by Wednesday of this week when the holiday season ended for most folks.

Classes started up again Wednesday at Robert Lee School. However, after going to school Wednesday and Thursday, another school holiday was on tap for Friday when classes will be dismissed for the Coke County Livestock Show.

Next week shows promise of being a time to get back into regular routine.

December Rains Above Normal

Unusually heavy rains for December in West Texas have fallen during the past two weeks. Some measurements reported during two different wet spells totaled more than two inches.

December is usually a light rainfall month for West Texas and the winter moisture helped bring up the 1979 total a little nearer to average.

Ranchmen were pleased with the moisture which should be a big help to small grains for winter grazing.

ECA Course to Start at Robert Lee

The Emergency Care Attendant (ECA) course being offered by the West Coke County Hospital District EMS will begin on Monday, Jan. 14. The class will meet at the Robert Lee High School from 6 - 10 p.m. each Monday for 10 weeks.

Persons interested in taking this course are reminded to pre-register by calling either Gene Hinnard (453-2584), Lou or Dorothea Helen Wright (453-2241) or the Hospital (453-2511).

The course normally costs each student between \$45 and \$50 plus the cost of the textbook. However, this course will utilize volunteer instructors and will be offered for between \$25 and \$30 including the cost of the textbook. The student can also realize a savings by taking the course locally thus saving both gas and travel time.

The type of material offered in the course is important to those who want to volunteer for the ambulance service, but is also of value to the average citizen. Information and training given will enable a person to render quality first aid care for his family or neighbors.

"Remember, the life you save may be that of your loved one," a spokesman said. "Please register for the course as soon as possible so arrangements can be completed. Call now before you forget!"

WTU to Make Study of Solar Energy

The possibility of using solar energy to generate electricity at one or more of West Texas Utilities Company's power plants will be examined in a study being conducted by the company's Plant Operation Department in cooperation with the Energy Systems Group of Rockwell International.

The study will take nine months and will be completed in June or July, 1980.

Targeted for the study is Unit Number Four at WTU's Paint Creek Power Station, which is located on Lake Stamford, between Haskell and Stamford. The unit was completed in 1971 and is the largest and newest of Paint Creek's four generating units. All are presently powered by natural gas, with oil used as a back-up fuel.

If results of the study are favorable, a proposal will be submitted to the Department of Energy for a grant to aid in constructing the equipment needed to re-power the unit with solar energy. WTU officials, however, emphasized that the program in its current stage is strictly a

research project.

"At best, the project is several steps away from becoming a reality", said Randal Meador, WTU vice president and director of engineering.

Meador said six similar studies are being made with United States Department of Energy funding and support, and that only two projects will be granted funds to aid in construction. The cost of constructing the two projects will be shared by DOE and the winning utilities.

By funding these demonstration plants, the DOE hopes to lower the cost of the solar equipment by mass production to make solar electric generation economically feasible in the near future. The selection of the projects to be granted construction funds will be based on the percentage of the cost to be shared by the utility and the engineering quality of the repowering system.

LETTERS TO THE EDITOR

Dear Editor:

I'm sorry to have the hometown paper stopped. It has been an old time paper in my family. My father was the second printer and third owner. He bought the Coke County Rustler from one of the Bynum brothers long before my time. Daddy said Rustler was too tough, ran a contest and the Observer was the winner.

Health conditions will be the cause of my moving around until there is an opening in Holiday Rest Home in Sweetwater.

Hope you and yours have a nice coming year!

Thank you,

Dear Editor:

Enclosed is my check for \$7.00 for a year's subscription to the Observer. Sorry I missed last year. I was in the hospitals a lot with a failing heart, but now I have a wonderful little Pacemaker--so all is well, and we are very thankful.

I still love Robert Lee, where I was born, reared, graduated from good old RLHS, and married by dear old Brother Simpson on Sunday, Dec. 17, 1922. How the years have sped by!

My regards to any of you old enough to remember Ruth Hamilton. Happy New Year!

the field of advertising, we would be glad to hear of any suggestions you might have to publicize this group. Few people in Robert Lee and West Coke County appear to be aware of the need for a good ambulance service with properly trained personnel to operate it. I am certain that most of the citizens of our county would be most willing to devote both time and money to the effort if they realized the need.

Again, thank you so much for your assistance. If we can ever be of service to you, please feel free to call on us.

Be prepared for tax audits

COLLEGE STATION — While most people worry about the once-a-year income tax filing deadline, a Texas A&M University accounting professor reminds that Internal Revenue Service auditing is a year-round affair.

In addition to reiterating that honesty is the best policy, Dr. Larry Crumbley has two suggestions for anyone about to be audited: Never send or give original records to the IRS, and if a special agent is conducting the audit, get a lawyer.

Crumbley advised making copies of records and giving them to the agent or the IRS. "If you give the original documentation, there is the risk of the agent losing it," he says.
