RECEIPTS OF STOCK BY CARS.

CATTLE.

Strong to 10c Higher.

The severe slump in values of all kinds bulls and common stock steers of all points were heavily stocked, five prinof beef cattle last week had the effect kinds ruled dull. the trade anticipated in reducing supplies at all points. Receipts in Chicago 118 w.... 942. 4 60 5...... 704. 4 20 approximated 20,000 which was about 96...... 918. 4 35 10...... 717. 4 00 7,000 less than last Monday, and in consequence values showed some improvement. The local supply was especially light and included only a few loads of good dressed beel steers which sold at \$6.00; some medium grades of dressed beef steers sold around \$5.55(a5.75 which sales were considered mostly 10c higher than last Friday, some instances of medium grades being more. A few lots of hay fed steers upon which feeder buyers were bidding lower were taken by the packers at about steady prices. There was only fair activity to the trade as sellers generally were asking a greater advance than buyers were willing to

The general situation is a little better than at the close of last week but it depends upon supplies in Chicago Wednesday as to whether sellers will be able to their customers to be especially moderate in marketing and the country can do much toward helping themselves by forexcess of the daily receipts. It was thoroughly demonstrated last week that prices in South St. Joseph were the trade was looking for. The five market highest in the country, and while buyers total, however, was around 16,000 short will no doubt endeavor to keep them on of the number arrived at the same points the level with values at competing points, on the opening day of last week. Qualit is more than probable that shippers ity of hogs on offer was very good and will find it to their advantage to send the range of prices the narrowest seen would have to be much larger than last week to materially change the healthy some instances went back on early bids

DAMAGED MISSOURI FRUIT.

the state strawberries have suffered stantly. more than any other kind of fruit. The damage is estimated at from 10 to 75 per cent, depending upon the condition of blooms in different localities. Apples had promised a very large crop. The extent of the damage cannot be fully ascertained for some time. but in most localities the correspondents are certain that the crop has been considerably damaged. Plums, cherries and grapes have been greatly damaged. A large acreage of early potatoes had been planted and in nearly all counties the potates that were up were frozen to the ground, but this will probably cause little damage, as they will grow again. Beans and other

tender vegetables were killed in several counties, but hardy vegetables, like peas, were uninjured.

TWO WIDOWS ONE PENSION.

Divorced Wife Secured Pension Upon Death of Former Husband-Wants Divorce Set Aside.

The hide situation is strong and prices about 1-4c higher, so we advance prices accordingly. Now that the season for pepperbox hides is about past, if hides are well taken off and properly salted they will be mostly straight hides that will bring our highest prices. In winter shippers cannot ship and receive full satisfaction because they do not properly salt cure their hides, but in summer there is no green and half cured hides, they are either cured or rotten. All hides that are well salted come to us in good shape and will bring full price. Commence now and for the next six months you will be fully satisfied. Phone, wire or write us before selling either hides or wool.
