### CATTLE.

#### Glut in Chicago Last Monday Cost The Country Big Sum.

Receipts for the week totaled 6,900, as compared with 8,623 the preceding week, 8,446 a month ago and 7,851 for the corresponding week a year ago. The supply at the five leading markets aggregated 125,900, as compared with 121,900 the preceding week, 148,700 a month ago and 138,000 for the corresponding week last year.

Although the receipts in the aggregate this week were only slightly in excess of the supply at the five points last week, the trade has been one of the most disastrous of the season to the country traders, and the semi-demoralization of values is directly traceable to the congestion of supplies in Chicago last Monday. Chicago papers freely concede that the abnormal receipts at that point last Monday cost the shippers on the market that day from \$50,000 to \$75,000, and add to this the loss sustained throughout the week by shippers at other points, and some idea can be obtained of the vast sum it cost the producers to favor Chicago with a few thousand more cattle than the trade could absorb. And the folly of it is the more apparent when it is considered that a more equal distribution of supplies upon that day would have averted this serious loss. All outside markets have a demand for more cattle than usually arrive on the first commercial day of the week, yet it seems that persistent campaign of education fails to impress upon the country the imperative necessity of keeping supplies in Chicago Mondays and Wednesdays to the minimum, by enlarging their shipments to the outside markets.

The severe drubbing of values during the week will no doubt have a tendency to check the forward movement to an extent that will allow of a little reaction, but the sense of the trade is that any recovery of values will only be temporary, as the price of cattle has now reached a point where the country would rather sacrifice the cattle than to continue the feeding of high priced corn, and this will result in further liberal marketing and a still further lowering of prices, especially if the country continues to overload Chicago on Mondays and Wednesdays.

### COWS, BULLS AND MIXED.

The trade in butcher stock this week suffered to a considerable extent in sympathy with the lower prices prevailing in the steer trade, and demonstrated that the country should handle

### HOGS.

#### Market Closes on High Level of the Week, Quality Good.

The hog trade was of short duration today. Supplies got in early, demand was good and a business basis was soon established at prices strong to 55c over the morning level of yesterday and 2 1/2c higher than the close of that day. This strength of today put prices on the highest level of the week and a point above the finish of last week, this in view of the fact that receipts on the local market are slightly above last week indicates a healthy condition of trade. Quality of hogs was quite good and a spread of 10c covered the extreme range in prices, ordinary to good heavy selling at \$5.25@5.27 1/2c though anything on the common heavy packing order would, perhaps, have had to sell down around \$5.20 had it been here, light and medium weights of fair to prime quality went at \$5.30@5.35 the latter price being made in two lots of fancy butcher pigs weighing around 190 pounds. No change was noted in the pig and stag situation. The market closes 10c@15c higher than low time of the week, which was on Wednesday.

Total receipts for the week at the local yards 51,840, as compared with 50,428 last week, 43,535 one month ago, 26,065 one year ago, 51,665 two years ago, 40,903 three years ago and 44,025 four years ago. Aggregate total for the week at five markets is 329,700, as compared with 333,000 last week, 369,000 one month ago, 284,000 one year ago, 387,700 two years ago, 316,400 three years ago and 233,500 four years ago.

Prices ranged from \$5.25@5.35, with bulk selling at \$5.27 1/2@5.32 1/2. Bulk yesterday sold at \$5.25@5.30, a week ago \$5.30@5.32 1/2, month ago at \$5.25@5.30, one year ago at \$5.17@5.22 1/2, two years ago at \$5.05@5.15, three years ago at \$4.85@5.05, four years ago at \$4.96@5.05.

The average cost was \$5.29 1/2, as compared with \$5.27 1/2 yesterday, \$5.31 1/2 a week ago, \$5.29 1/2 a month ago, \$7.50 three years ago and \$6.00 on the same day four years ago.

## A GREAT BEET CROP

Vast Area Planted to Sugar Beets in Colorado, Totals 125,000 Acres.

## A CONSERVATIVE ESTIMATE

Puts Value of Crop to Beet Farmers at \$6,250,000 For The Current Year.

Fort Collins, Colo., June 25.—The Express in discussing the beet situation says: Some interesting statistics have been compiled in regard to the growing sugar beet industry of this state by President J. R. McKinnie, of the Western Sugar & Land company, operating largely in the Grande Valley, Colorado's sugar beet acreage, 125,000 acres, comprising 80,000 acres in the northern section of the state, 38,000 acres in the Grand valley, and 7,000 acres in the southern section. The total crop for 1905 will approximate 1,250,000 tons. At a conservative estimate of \$5 per ton, farmers will receive \$6,250,000. The sugar output will be 125,000 tons, and at \$80 per ton, the manufacturers will receive \$10,000,000, with an additional \$2,000,000 from by-products, of which molasses is one of the most important. The cost of labor and manufacture will amount to \$2,500,000, with an additional \$1,500,000 for coal, coke and lime. The total investment in sugar beet factories is \$12,000,000. It is estimated that the net interest will be 8 per cent for this year. Another important item in the statistics is the benefit received by the coal, coke and lime dealers, who receive the \$1,500,000 expended for these supplies. Sheep and cattle growers of the state get the bulk of the profit from the pulp and beet tops.

HORSE MARKET

The auction sale of yesterday while not as large as previous sales of the kind that have been held in the new barns, was fully up to expectations in attendance of buyers and sellers of horses offered and prices realized.

Montgomery, Alabama, was a very good buyer which proved a genuine surprise, as an active southern demand was not looked for at this season of year.

The following quotations are those current and quotable for horses and mules at private sale.

HE WILL PROSECUTE

District Attorney Jerome Investigating Affairs of Equitable.

SUSPENDS THE SUMMER VACATION.

James H. Hyde Anxious to Have Ownership of Funds Determined—Equitable Agents Resign.

New York, June 24.—The regular summer vacation of the court of general sessions will be suspended this year so that the court may be available if District Attorney Jerome begins prosecution in connection with the affairs of the Equitable Life Assurance society.

Mr. Jerome in making his motion to suspend the court's vacation, said he had a letter from Gov. Higgins offering to place the evidence obtained by the superintendent of Insurance Hendricks at Mr. Jerome's disposal.

"It is unusual for the governor to address a letter such as I have received to the district attorney and it focuses public attention upon me. I have made arrangements with Justice Davy of the criminal branch of the supreme court and he will continue the June term of that court through the summer.

The powers of both courts can, if necessary, be invoked. It will take me sometime to learn whether I shall need the assistance of the courts."

Attorney General Julius M. Mayer was at his office Friday engaged in going over the proceedings of the Equitable society. When asked how soon he would begin action against the Equitable officers scored in the Hendricks report Mr. Mayer replied: "Action will be taken as soon as it is physically possible and it will not be a matter of weeks but of days only, before we will be ready. Not only have I got to go over the Hendricks report but the testimony which preceded that report and on which the report is based."

Mr. Hyde said he was most anxious for an immediate determination of the question of the ownership of this fund and "if he is right, as he believes himself to be, to relieve him by the judgment of the court from the criticisms that have been leveled against him in the report of the superintendent which he regards as most unjust and as based upon a total misapprehension of the law and facts."

Attorney General Mayer informed Mr. Hyde that he will avail himself of the offer to expedite an immediate determination in regard to the matter.

A number of agents who have worked under the management of Archibald C. Haines, a general agent for the Equitable in this city, resigned Friday. Mr. Haines held a larger force of agents than any other manager employed by the Equitable society. Friday he called his men together, told them that business had been miserable since the publication of the company's affairs, and said he knew that many of them could not afford to continue without doing any business.

Chairman Paul Morton, of the board of directors, will return to New York Saturday, it is expected.

Gov. Carter Resigns.

Honolulu, June 24.—Gov. Carter mailed his resignation to President Roosevelt Wednesday. The action, it is declared, was not due to the election of E. M. Brown as high sheriff, but had been under consideration some time. The resignation was the culmination of a long series of events which led Gov. Carter to the conclusion that he could be of more service to the territory of Hawaii outside the gubernatorial chair than in that position.

Will Appeal to Gov. Hoch.

Kansas City, Kan., June 24.—The committee from the Civic league, the Associated clubs and the W. C. T. U. of Wyandotte county, which visited Gov. Hoch recently and asked him to interest himself in the enforcement of the prohibition and gambling laws in Kansas City, Kan., are preparing a letter to the governor. They will urge him to take such steps to enforce the law in Wyandotte county as he has done in Wilson county.

Bennington, Kan., Depot Burns. Salina, Kan., June 24.—In a rain storm which visited this section of Kansas early Friday lightning struck the Union Pacific depot at Bennington, a small town in the southern part of Ottawa county. The building was burned with all contents, baggage, express and freight.

SWEDISH POLICY UNCERTAIN.

The Policy of King Oscar to Allow Norway to Secede Meets with Opposition.

Christiania, June 24.—The feeling aroused in Stockholm against King Oscar and the Swedish government has caused some uneasiness here. There is anxiety lest the riksdag should yield to this feeling and revoke the policy outlined by King Oscar.

The movement among Norwegians in the United States to petition President Roosevelt asking him to recognize the independence of Norway is favorably commented on here. It is pointed out that a million American citizens, who were born in Norway, are now anxious to rally to the support of the old country.

A dispatch from Stockholm to The National Tidende says that Premier Ramstedt has tendered his resignation but that King Oscar, backed up by many members of the cabinet, has requested him to withdraw it.

MAY PAROLE SICK.

American Officials in Manila so Instructed Regarding Russians on Board Warships.

Washington, June 24.—In response to a request cabled the war department by the governor general of the Philippines in behalf of the Russian admiral Enquist to be allowed to return his sick and wounded officers and men upon giving their parole not to engage in hostilities during the war and to be allowed to bring certain material for repairing damaged ships, the secretary has sent the following cablegram:

"You may allow Russian admiral to embark his sick and wounded officers and men on Russian hospital ships, daily expected, upon their giving parole not to engage in hostilities during the war. You may also allow them to bring from Shanghai material for repairing vessels, other than munitions of war, such as cordage, sail cloth, waste and oil for machinery, etc., but the vessels are still to remain in internment."

Wheat Crop Estimate.

Minneapolis, June 24.—H. V. Jones, the Minnesota grain expert, returned Friday from the southwest. Mr. Jones says the winter wheat crop will be between 340,000,000 and 370,000,000 bushels, but the final figures will not appear until after inspection of the Ohio valley. The Jones report indicates a crop of winter wheat 100,500,000 bushels less than the trade had figured on.

SITUATION SERIOUS.

Streets of Lodz, Poland, Barricaded by Strikers.

TROOPS KILL 50 AND WOUND 200.

The Strike Has Lost Its Economic Nature and Is Now Political Manifestation—Warsaw and Other Points Involved.

Lodz, Russia Poland, June 24.—Troops have stormed the barricades erected in the streets by the strikers. Fifty persons have been killed and 200 wounded. Martial law will be declared. St. Petersburg, June 24.—According to advices received here the situation in Poland is again exceedingly serious. Censored dispatches from Lodz, though giving few details, indicate that fierce street fighting was in progress Friday between the military and the striking workmen, who barricaded the thoroughfares in various quarters of the city and offered resistance which the troops met with volleys. The list of dead and wounded presumably is heavy, but not even an estimate has been received here. Russian correspondents telegraphing that the streets are entirely in the hands of the military and the mob and that it is unsafe to venture out to obtain details.

It is not known whether the fighting was continued last night, but it is feared that order can be restored only at a heavy sacrifice. Lodz has been in a turmoil for the past three days. The strike, which embraces 60,000 workers, appears to have entirely lost its economic nature and is now a vast political manifestation. All forms of public business activity have been suspended, the peaceful inhabitants remaining indoors in fear of their lives.

The political zeal of the manifestants has become inflamed by intoxicants from the vodka shops which were broken into and pillaged Thursday. At Warsaw a strike has commenced and disorders are looked for, and the trial of Orkley, who threw a bomb at a police station March 26, will probably result in other bomb outrages. A man was arrested Thursday morning armed with a bomb which was evidently intended to be used in court during the trial.

In the meanwhile the government has publicly disclaimed all designs as to the Russification of Poland, the committee of ministers in its deliberations or the school question, which were published Thursday, saying: "The committee considers it absolutely necessary to establish the fact that the Russification and denationalism of the Poles cannot possibly lie within the intent of the Russian government. The aim must rather be the amalgamation of the Polish people with the general body politic of Russia by peaceful means which will preserve Polish individuality, culture and language."

TO CURE PORTO RICANS. 100,000 Persons on the Island Said to Be Afflicted with "Lazy Worm." Washington, June 24.—According to a report received by the surgeon general of the army from Capt. B. K. Ashford, assistant surgeon and head of the Porto Rican anemia commission, 95 per cent of the 100,000 Porto Ricans living in the vicinity of Alibonito, near the center of the island, are afflicted with the "lazy worm."

Headquarters and a field hospital have been established by the commission at Alibonito and an appropriation of \$15,000 will be expended in the eradication of the disease according to the methods so successfully applied by Capt. Ashford last year. His record then was 4,500 cases treated with an appropriation of \$5,000. The treatment adopted has proved successful in nearly every case. The Porto Ricans have never understood the disease and believed it incurable. The many cures have aroused the population to great enthusiasm and the afflicted are applying in great numbers for treatment.

SLOW TO ACT. President Roosevelt Makes Little Headway in Arranging an Armistice. Washington, June 24.—Mr. Takahira, the Japanese minister, returned to Washington Friday afternoon from a visit of several days in New England and called at the White House Friday night where he was received by the president and remained for three-quarters of an hour. The minister would have nothing to say about his conference of the situation at this time, beyond remarking that "some matters must be settled first." The fact that the minister could give no assurances regarding an armistice prior to the convening of the conference tends to confirm the belief in official circles here that little headway has been made by the president in this direction. Up to a late hour Friday afternoon the Russian reply to the president's suggestions regarding an armistice had not been received and until this reply is received the result of this phase of the negotiations can not be known. In view of the fact that the president has thus far addressed himself simultaneously to both belligerent powers there is a disposition to believe that Mr. Takahira may have brought to the White House an expression of Japan's views upon an armistice in response to the president's well known hope

that a clash would not precede the conference. It has all along been understood that Japan would be unwilling to grant an armistice at this time unless thoroughly assured that Russia was seriously desirous of peace. Whether such assurances have been forthcoming is not known.

DRANK PRESIDENT'S HEALTH.

Emperor William Entertained Visiting Yachtsmen on Board the Hohenzollern—Delighted With Success of Race

Kiel, Germany, June 24.—Emperor William at the conclusion of the dinner which he gave on board the imperial yacht Hohenzollern to the yachtsmen who had taken part in the trans-Atlantic race, arose and said that as there were more Americans present than persons of any other nationality he would, with the consent of Lord Brassey who was one of the guests, propose the health of the president of the United States.

Privately the emperor said he was delighted with the success of the race which had attracted more entries and had turned out to be more interesting than he expected. He also added that he felt indebted to Allison V. Armour and C. L. F. Robinson, the American members of the committee, and the Americans had occasion to say that Commander H. G. Hebbinghaus had handled the questions connected with the race with much tact and judgment.

The cup won by the Atlantic is of massive silver one meter high and was designed by the emperor himself.

Among those present were Allison V. Armour, owner of the Utowana; George Lauder, Jr., owner of the Endymion; Lord Brassey, owner of the Sunbeam; Ambassador Tower and Admiral von Tirpitz, secretary of the admiralty.

PREPARING FOR INQUEST.

Coroners of Cleveland and Lake County to Investigate Deaths of Wreck Victims—Injured Improving.

Cleveland, June 24.—A marked improvement was reported Friday in the condition of Rudolph Cordua of Brooklyn, N. Y., and Fireman A. A. Gorman, the only victims of the Mentor accident who remain in Cleveland hospitals. It is believed that both men will recover.

Coroner Siegelstein of this county will go to Mentor to examine into the cause of the disaster. He will hold an inquest in connection with all of the victims who died in Cleveland. The coroner of Lake county, in which Mentor is located, will take charge of the inquest over those who died at the scene of the disaster. It is expected that both hearings will commence next Monday.

A bag containing jewels valued at \$32,000, the property of S. C. Beckwith of New York, supposed to have been stolen from the wrecked train at Mentor, was found Friday. It had been picked up in the wreckage and brought to the Lake Shore claim agent's office in Cleveland. Before the whereabouts of the jewels was known a search had been started for them on behalf of Mrs. Beckwith. Mr. Beckwith died soon after being removed from the wreck.

OSCAR WILL NOT ABDICATE.

No Foundation for the Report that the Swedish King Would Resign in Favor of His Son.

Stockholm, Sweden, June 24.—There is no foundation for the rumors circulating at Copenhagen and elsewhere of the probability of King Oscar abdicating in favor of the crown prince in consequence of the dissatisfaction of some of the factions with the government's pacific attitude in the crisis. No developments of importance are expected before June 27 when the debate will take place in the riksdag and the special joint committee of the chambers will be appointed to report on the government's proposal for a settlement of the questions growing out of the disruption of the union.

Loomis Will Visit Europe.

Washington, June 24.—Assistant Secretary Loomis, of the state department, expects to sail from New York Saturday for Europe to be absent about a month. He hopes to be in Paris about July 4, in which case he will participate in the exercises incident to the removal of the remains of John Paul Jones from that city to Cherbourg, preliminary to their transportation to the United States by Admiral Sigsbee's squadron.
