Do not send checks on country banks. Remit with postal order or draft payable to St. Joseph Journal Publishing Company.

Advertising Rates Furnished on Application. Usual 10 per cent commission allowed postmasters, who are authorized to take subscriptions.

BRIEF CITY NEWS.

Mrs. W. A. Richey of 5620 King Hill avenue left yesterday for Connetquot, N. Y. Richey will leave in a few days for Corpus Christi, Tex.

Mrs. H. J. Bowen and daughter are visiting relatives in Savannah, Mo.

Joseph Horski, 313 East Colorado avenue, has moved his family to Chicago.

Mrs. J. H. Harris, 521 East Missouri avenue, is in Kansas City visiting her daughter, Mrs. George Harrel.

Georgetown lodge No. 527, I. O. O. F., will hold its regular meeting this evening at Commerce hall. All members are urged to be present.

Roy Snaverly and George Hays of Cedar Springs addition are on a two weeks' visit in Kansas City.

Guy Adams of Tulsa, Okla., is visiting his parents, Mr. and Mrs. W. J. Adams, 492 East Missouri avenue.

THE BUSHING COPS.

Ordered to Look For Obscene Pictures in Arcades.

Moving pictures in the various arcades of the city are being thoroughly inspected by one of the officers of the local police department. Chief of Police Frane, shortly after the ordinance creating this new department, appointed one man to inspect the pictures after each change.

"As yet I have received no word from the officer I detailed to inspect the pictures that he had found any immoral ones," said Chief of Police Frane yesterday. "I inspected the pictures at first and then asked the city counselor if I could detail a man to do this regularly. I was informed that I could. I then took the man around and told him the sort of pictures which were under the ban. He shall continue to inspect as long as the arcades keep running."

PRINZ TAKES UP PERMIT.

Dancing Academy's Estimated Cost \$25,000; Twenty Rooms.

The permit for the big dancing academy which Prof. E. A. Prinz has announced that he will build was issued yesterday by Building Inspector L. W. Forgrave.

The permit specifies that the building is to be a three-story brick building 20 rooms. The building is to be 100 feet long and 126 feet wide. The estimated cost is \$25,000 and the fee for the permit amounted to \$12. The building is to be located on Robidoux street, between Ninth and Tenth streets. King & Hotchkiss are named as the contractors, and Trank & Heim as architects of the structure.

TO VIEW STREET GRADING.

Judge Mosman Names Commission on Damages.

Judge Mosman yesterday appointed commissioners to appraise the damages in several street grading cases, ordinances for which were passed in the city council. The appointees will meet in the office of circuit clerk at 9 o'clock Thursday morning and receive instructions as to how to proceed.

John Broder, W. E. Jamieson, W. D. Rush, W. H. Carpenter, Pat Martin and E. E. Townsend comprise a commission for the grading of two divisions of Twelfth street and Sycamore street. Scott Chippa, L. O. Weakley, B. S. Andrews, J. L. Zesler, A. D. Vorles and H. A. Owen were appointed for Holman street and Grand avenue. H. S. Smith, C. L. Buis and Claude Davis were appointed for Fourth street.

HAD PAWNS HIS COAT.

A telephone message was received at Central police station last night requesting the police to arrest Arch Parrish, a youth. His mother made the request of the police. She said Parrish had just returned from the harvest fields of Kansas and that he was out having a good time. She asked the police to keep him at the station until he sobered up, as she did not want him to spend all his money.

Parrish was arrested shortly afterward by Patrolman Osborne at Sixth and Mesanick streets on the charge of being drunk. When he was searched at the station the police discovered that he had spent all his money and had pawned his coat for 50 cents, which had also been spent.

About the only thing against raising horses is that they cost a little more at the start and are more liable to be injured by accidents.

SOCIETY HEARS CONCERT.

Banda Rossa Pleases Big Crowd—One Number Changed on the Program.

Society was out in good numbers last night to hear the Banda Rossa concert, and the Lake Contrary ball park, where the concert company is appearing was comfortably filled.

The evening's program was a very attractive one and but for one exception, was highly pleasing. The eighth number on the program was announced as being a grand selection from Madam Butterfly, but instead of playing this a sextet from Lucia and Mendelssohn's Song Without Words were substituted. Many were disappointed, as they had attended specially to hear the original number. One of the best hits of the evening was ballet music from William Tell. An encore, "Whistler and His Dog," by Arthur Pryor, was also vociferously received.

Owing to the excessive heat in the afternoon the concerts will be given the rest of the week in the Casino. The night performances will still be in the ball park. Tonight will be Elk's night, and the Best People On Earth are expected to turn out in large numbers. The program for tonight is as follows:

PART I. Wedding March, Mendelssohn; Romance, The Barber of Seville; Overture, Rossini; Rouge et Noir, Valse lente, L'atter Grand Selection from La Traviata.

PART II. Scenes Pittoresque Suite, Massenet; March, Serenade, Angelus, Ball Boheme Mine, Still Mine, Sorrentino; Trampet Solo, Bagga; Miserere from Il Trovatore; Verdi The Whistler and His Dog, Caprice, Pryor.

MARBLE FOR BURNES' BANK.

Installation Plans to Open New Quarters by September 12.

As soon as the building at the southwest corner of Fifth and Felix streets, occupied by the Block Brothers Clothing company, is vacated for the new one the firm is erecting at Sixth and Felix streets, the Burnes National bank will hustle into its new home, which, according to present plans, is to be made one of the prettiest banks in this part of the country. The bank expects to take possession by September 1 and the remodeling will be done in a rush by an extra large force.

The first shipment of Pavanza marble for the new quarters of the bank arrived in St. Joseph last Thursday. More is being sent right along. The marble, which is from Italy and very valuable, is shipped in crates and because of its worth is not made into carload lots. It will be put into storage until the contractors are ready to begin work, as will the fixtures and other material ordered. When the Burnes bank arranged to move to the Block building there was some uncertainty as to when the new quarters would be ready. The fixtures were ordered in February, to reach here August 1. Indications are that all will arrive by that time.

FEEDING COWS ON PASTURE.

One of the most common questions which we are asked at this time of the year is whether it is best to feed dairy cows grain while they are on pasture. We have been giving this subject attention for some time and find that, in general, the ordinary cow does not give returns for the grain she receives as long as the pasture is abundant, writes C. H. Echler of the Missouri College of Agriculture. A larger quantity of milk can be secured from any cow by feeding grain while on pasture. For this reason, if it is desirable to secure the very largest amount of milk, regardless of expense, there would be no question regarding the feeding of grain to cows on pasture. Any ordinary cow, however, will not increase the amount of milk more than one or two pounds for each pound of grain fed, which makes the cost of production entirely too high.

KANSAS CONDITIONS NORMAL.

Railroads Re-Employ Men, and New Banks Organize.

Topeka, July 21.—That business conditions are improving in Kansas is evidenced by these two striking facts: The railroads are putting their idle men to work and many new banks are being organized. "Report from different railroad centers show that conditions have almost reached normal," said State Labor Commissioner Johnson. "In some places the men are not putting in as much time as they did before the panic but most of them are steadily employed at good wages. This is particularly true of the mechanics. Many trainmen are still idle but they will be given work just as soon as the big wheat crop comes in to move."

"Although the story is still about over the country that the Western railroad shops are practically closed the fact is that they are running at almost full capacity. Only yesterday the Santa Fe advertised for 100 carpenters."

During the past month more than a dozen new banks have taken out charters, and the number seems to be on the increase right along. When the panic hit the country the bottom fell out of things and for several months no new banks were organized. But people got over the scare in due time, business began to improve and now the plan of organizing new banks is on going in all the territory. "It looks as if good times had broken loose all at once," said Assistant Bank Commissioner Albright. "Everybody wants to start a bank. Most of the applications come from the little crossroads towns. The large cities seem to be fairly well supplied with banks. Some one wants to establish a bank next door. It certainly indicates that the panic is over and that business is reaching its former stride."

REMOVE LAND RESTRICTIONS.

Muskogee, Okla., July 20.—The removal of restrictions from the sale of Indian lands in Muskogee was the cause of a great jubilee festival and celebration. The celebration will be inaugurated by the arrival of the new steamer City of Muskogee, now coming on a trip from Jeffersonville, Ind., by way of the Ohio, Mississippi and Arkansas rivers.

bran, oil-meal, oats, or any common feed.

In case there is not plenty of pasture, it will always pay to feed something to keep up the production of milk. If green feeds are available, they are the cheapest and just as effective as grain for the ordinary cows. However, if there is no green feed at hand, it will pay to feed grain rather than to allow the milk produced to decline for lack of feed.

The whole subject may be summed up by saying that it will always pay to feed a heavy-milking cow grain while on pasture but it does not pay to feed the inferior or even the ordinary milker, as long as the pastures are abundant. When the pasture is scarce it will pay to feed grain even to ordinary cows. It is not necessary to feed the expensive purchased feeds while the cows are on pasture, unless it be to those that are producing a very large amount of milk, and for this reason are being fed a heavy grain ration.

WHAT BURBANK HANST DONE.

Of course Luther Burbank has done a good many things, but I don't see much reason for rubbing one's vocal chords with resin so as to be able to shout his praises louder. Maybe I am a knocker, or jealous, or something. I wasn't aiming to ask for any credit for the idea, anyway.

To be sure, Luther has crossed the potato bug with the bean, to make the sugar market braker; has mixed the buckwheat stem with the sugar maple to produce self-syruped cakes; has grafted the sorghum cane with the cornstalk to bring about cornbread and molasses with little labor; has budded the apple upon the jack oak to make applejack from the cider or tree drip without waiting for fermentation; has crossed the pepper tree and box elder to bring an annual crop of ready-made pepper boxes, and add a little touch of the quaking asp to his already marvelous hybrid, and thus provided a self-shaking pepper box right off the tree; has learned from the bloom of the hawthorn tree how to tell he haws from she haws; has combined the slippery elm and the ice plant until he has produced an ideal wood for making toboggans and sleds; has crossed the ironwood with the birch and never caused a bit of rust; has crossed the dogwood with the pussy willow without any disturbance beyond a mere bark; has hybridized the tumbleweed with forest trees, so that the first strong autumn wind brings the lazy forester's winter wood home to him without the stroke of an ax or even hitching up the team; has mingled the ragweed with thyme until the wind sings ragtime through the branches of the mixture; has mingled the pollen of the honey locust, common locust and the wire grass until he will soon be able to supply the market with barb wire fences fresh from the fields—has even crossed a mountain range with a burro, and has great expectations of the results.

All these things, I understand, he has done. We are told in addition, of late, he has triumphantly announced the achievement of the thornless (or spineless) cactus. But that look at the things he hasn't done and should do before he is credited with having performed any large proportion of the labor that should be performed by a man to whom has been vouchsafed the power of alchemist and wizard.

He has not produced a hurtless pain, a pangless insult, a privationless poverty, a maliceless hate, a hungerless starvation, a fatiguelless weariness, a toilless work, a nightmareless misce boy, a colicless baby, a harmless gossip, a stingsless hornet, a venomless rattlesnake, an innocuous poisonous oak, a scentless onion, a burlesque chestnut, a brainless flour, a chaffless wheat, a discordless croak or a pianoless flat—Chicago News.

Webb City Miners Killed.

Joplin, Mo., July 21.—Two men were killed and a third seriously hurt Monday by an explosion in the Red Dog mine at Webb City. The dead are Ora W. Gilmore and Samuel M. Brown. Charles Enright was injured. The men were loading a shot in the roof of a drift and had dynamite for several other shots in the ground at their feet. The shot they were loading exploded prematurely, setting off the powder beneath them.

WILL INVESTIGATE GRAZING.

Secretaries of Agriculture to Study Effect of Pasturing on Watersheds. Washington, D. C., July 20.—An agreement has been made between the secretary of the interior and the secretary of agriculture for an investigation into the effect of the grazing of sheep and goats on the watersheds important to navigation. A. P. Potter, chief of the grazing branch of the forestry service, and D. D. Bronson of that bureau will co-operate in the investigations with officials of the reclamation service.

The Water Users' association and the Cattle Growers' and Sheep Growers' associations in Arizona have been invited to have representatives of their several interests accompany the representatives of the government. Investigations of the relation of stock grazing to water supply and other national forests will be carried on jointly by the reclamation service and the forest service. Mr. Potter left Washington for Santa Fe, N. M., to confer with Governor Curry regarding the proposed additions to the Prescott national forest.

There is a loss of available income in raising any kind of stock which is devoid of good quality, but this is especially true of horses.

TEN THOUSAND DOLLARS TO BE SPENT 151 Deaths in One Week of Children Under One Year of Age—Ignorant Mothers to Be Educated—Influx of Slavonic Population Blamed for High Death Rate.

Chicago, July 21.—The Chicago health department began a systematic effort to reduce the high death rate among babies in this city. Last week there were 151 deaths of children under one year old, as compared with 111 for the corresponding week of last year. The Health Bulletin says this increase is due to the increased Slavonic population and immediate efforts to further reduce the death rate must be directed to the education of the ignorant mother in the care of her child. The city has provided a fund of \$50,000 for the hot weather care of children and 75 physicians were placed in the field Monday. The first session was called to order in the ball room of the Antlers hotel by Mr. Hitchcock. He made a short talk in which he said he wanted the men to know each other and that if nothing more were accomplished he would feel that the assembly had been well worth while. After that a general discussion of the needs in the various states was had.

SATURDAY'S BUSINESS

CATTLE.

Receipts at All Points Show Big Increase For the Week.

A little clean-up business in the cattle yards today was on a basis of prices prevailing since Thursday. The market tone at the finish is a little more encouraging than during first half of the week, but it is not such as should stimulate any increase in the number of cattle coming from native sections. Southwestern ranges are now marketing cattle quite freely and the west and northwest countries have begun sending in a few market-ready cattle from the northern and western ranges will be in good beef condition and will take preference over native stock that has been filled out on the wash grass of the corn belt. There is not much doubt that dried fully fat heaves will sell well right along, but there is sure to be a wide spread between strictly dry-lot cattle and those that have been run on grass.

The week has brought out a considerable increase in receipts at the leading market centers compared with last week, the total at five points having been 122,000 against 100,000 the previous week. Compared with a year ago, however, there is a marked shortage, the total at that time having been 190,000. The increase this week has been largely from the western and southwestern ranges and moderately liberal supplies from these sources may be expected right along.

Prices for all kinds of steers have declined 25c to 40c during the week with the most severe depression having been on medium priced steers of natives. There has been a marked absence of fully ripe dry-lot cattle at all market centers, but even these have had to be marked down somewhat. It is likely that the weather has been a bigger factor than increased receipts in causing a slumping market. While prices have declined as severely as noted the final half of the week has seen a steady tone in the market and a better market tone if not recovery from these declines may follow, at least should the weather show a little let-up in this torrid temperature.

The best cattle here during the week have sold at \$3.75, but very strictly choice to prime grades would still sell at \$4.00, and \$4.25. Bulk of corp-fed steers have been of light to medium weight styles that sell between \$6.00 and \$6.75 with a big showing of grassy native stock selling from \$3.75 down to as low as \$1.50.

The small business transacted in this line of trade today was of a speculative clean-up character and did not furnish a market criterion.

A decline of 25c to 40c was registered in the beef of calves and heifers first half of the week, but since Wednesday prices have held stationary, rather firm, in fact. Receipts have not been liberal and the slump was sympathetic with declines in other lines of cattle. Sellers have had no difficulty in moving supplies at the declines, indicating a good, healthy demand here. Ranges have begun moving quite freely, a considerable number of Panhandle and western Kansas cows getting in this week. Quality of the offerings now coming is deficient, receipts including few good to choice lots of either cows or heifers. A few good cows landed at grades sold in a spread of \$3.50 to \$4.25 with fair killing styles at \$2.00 to \$4.00 and canners and cutters at \$2.00 to \$3.50. A range of \$3.50 to \$4.50 took a good share of the medium to pretty decent heifers with a few selling at \$5.00 and up. Prime corn-fed heifers would sell at \$5.50 or over, but there appears to be few of this class in the country.

Bull trade ruled dull most days this week and values are 10c to 20c lower. Calf values are 25c to 30c higher for the week.

Volume of stocker and feeder trade this week has not been very extensive, although showing a small increase over the preceding week. Receipts have been very moderate, nor has the inquiry for cattle suitable to go back to the country been such as to warrant much increase in supplies moving. Preparatory of the week saw the accumulation of a considerable number of run of stockers and feeders in dealers' hands, and a very dull outside inquiry. Thursday afternoon, however, a fair trade was reported and the close of the week finds only a moderate showing of cattle in the speculative division. Lack of country demand is attributed to the rush of farm work and the uncertainty concerning the size of the corn crop. Values registered a 10c to 20c break early in the week, but toward the finish there was a tendency toward firmness. A few choice feeders sold at \$4.25 to \$4.50, but most of arrivals this week were in the stoker class selling largely at \$3.00 to \$4.00.

Stock cows and heifers close 10c to 20c lower than a week ago. Bulk of the decent kinds sold in a range of \$2.00 to \$3.25.

RANGE CATTLE-NATIVE DIVISION.
The movement of cattle from the range country of the southwest is assuming larger proportions as the season advances. Supplies of cattle on the local market this week included quite a showing of steers from Kansas pastures and the Panhandle. Prices have been on a declining basis all week in sympathy with the general trend of values, the slump amounting to 25c to 40c compared with a week ago. Some good weighty Kansas Panhandle steers sold at \$5.75 to \$5.85, these showing some cord. It was mainly a \$3.00 to \$4.00 market for medium to pretty good grassers.

Proportion of butcher stuff has been light, but values are off to the extent of 25c to 40c compared with a week ago. Calves advanced 25c to 30c. Tops sold at \$5.75.

QUARANTINE DIVISION.
A little less than one-half total cattle arrivals at this point during the week was yarded in the southern division. In the main offerings were steers of a pretty decent class, the showing of butcher stuff being of small proportions. Declines on this side this week were about the same as on native steers, 25c to 40c. Best steers offered sold at \$4.45 with bulk of the decent grades going in a range of \$4.00 to \$4.40. Common light steers are quoted at \$3.50 and down.

Cow values show about the same decline as steers. Most of the decent cows and heifers on the quarantine side this week sold at \$2.75 to \$3.50. Calves close 25c to 30c higher than a week ago.

HOGS.
Weaker Turn in Prices For Finishing Day of the Week.

After a turn on middle days of the week that put prices about back to high time of

Monday the market was given another twist by buyers today that resulted in a decline of 5 cents from Friday prices on bulk of sales. There were a few sales early that were close to steady, but not enough of them to be called a market feature. Packers started out bidding flat 5c to 10c lower, but sellers were finally able to unload bulk of the crop at around a nickel under prices of the previous day.

While the bulk of trading was at only a nickel under Friday prices the finish showed further weakening and late bids were a full dime lower than yesterday, all outside markets reporting a bad finish at sharp decline.

While the market finishes slightly lower than extreme high time of the week prices current are still a shade higher than one week ago today.

It has been noted during the week that there has been some increase in the number of pigs coming and this may be expected to continue from now on. It is not a season of year for demand to be good for little pigs and yet prices for good kinds are a little higher for the week.

Total receipts for the week 42,200, against 41,944 last week, 96,229 a month ago, 44,027 one year ago, 35,290 two years ago, 40,792 three years ago and 15,833 four years ago.

The aggregate at five markets is 29,700, against 281,300 last week, 289,290 a month ago, 353,400 a year ago, 308,400 two years ago, 296,800 three years ago and 171,800 four years ago.

Prices ranged from \$6.50 to \$6.75, with the bulk selling at \$6.50 to \$6.67. The bulk yesterday sold at \$6.50 to \$6.67, a week ago at \$6.50 to \$6.67, a month ago at \$6.50 to \$6.67, two years ago at \$6.50 to \$6.67, three years ago at \$6.50 to \$6.67, four years ago at \$6.50 to \$6.67.

Quality of the offerings now coming is deficient, receipts including few good to choice lots of either cows or heifers. A few good cows landed at grades sold in a spread of \$3.50 to \$4.25 with fair killing styles at \$2.00 to \$4.00 and canners and cutters at \$2.00 to \$3.50. A range of \$3.50 to \$4.50 took a good share of the medium to pretty decent heifers with a few selling at \$5.00 and up. Prime corn-fed heifers would sell at \$5.50 or over, but there appears to be few of this class in the country.

Bull trade ruled dull most days this week and values are 10c to 20c lower. Calf values are 25c to 30c higher for the week.

Volume of stocker and feeder trade this week has not been very extensive, although showing a small increase over the preceding week. Receipts have been very moderate, nor has the inquiry for cattle suitable to go back to the country been such as to warrant much increase in supplies moving. Preparatory of the week saw the accumulation of a considerable number of run of stockers and feeders in dealers' hands, and a very dull outside inquiry. Thursday afternoon, however, a fair trade was reported and the close of the week finds only a moderate showing of cattle in the speculative division. Lack of country demand is attributed to the rush of farm work and the uncertainty concerning the size of the corn crop. Values registered a 10c to 20c break early in the week, but toward the finish there was a tendency toward firmness. A few choice feeders sold at \$4.25 to \$4.50, but most of arrivals this week were in the stoker class selling largely at \$3.00 to \$4.00.

Stock cows and heifers close 10c to 20c lower than a week ago. Bulk of the decent kinds sold in a range of \$2.00 to \$3.25.

RANGE CATTLE-NATIVE DIVISION.
The movement of cattle from the range country of the southwest is assuming larger proportions as the season advances. Supplies of cattle on the local market this week included quite a showing of steers from Kansas pastures and the Panhandle. Prices have been on a declining basis all week in sympathy with the general trend of values, the slump amounting to 25c to 40c compared with a week ago. Some good weighty Kansas Panhandle steers sold at \$5.75 to \$5.85, these showing some cord. It was mainly a \$3.00 to \$4.00 market for medium to pretty good grassers.

Proportion of butcher stuff has been light, but values are off to the extent of 25c to 40c compared with a week ago. Calves advanced 25c to 30c. Tops sold at \$5.75.

QUARANTINE DIVISION.
A little less than one-half total cattle arrivals at this point during the week was yarded in the southern division. In the main offerings were steers of a pretty decent class, the showing of butcher stuff being of small proportions. Declines on this side this week were about the same as on native steers, 25c to 40c. Best steers offered sold at \$4.45 with bulk of the decent grades going in a range of \$4.00 to \$4.40. Common light steers are quoted at \$3.50 and down.

Cow values show about the same decline as steers. Most of the decent cows and heifers on the quarantine side this week sold at \$2.75 to \$3.50. Calves close 25c to 30c higher than a week ago.

HOGS.
Weaker Turn in Prices For Finishing Day of the Week.

After a turn on middle days of the week that put prices about back to high time of

Monday the market was given another twist by buyers today that resulted in a decline of 5 cents from Friday prices on bulk of sales. There were a few sales early that were close to steady, but not enough of them to be called a market feature. Packers started out bidding flat 5c to 10c lower, but sellers were finally able to unload bulk of the crop at around a nickel under prices of the previous day.

While the bulk of trading was at only a nickel under Friday prices the finish showed further weakening and late bids were a full dime lower than yesterday, all outside markets reporting a bad finish at sharp decline.

While the market finishes slightly lower than extreme high time of the week prices current are still a shade higher than one week ago today.

It has been noted during the week that there has been some increase in the number of pigs coming and this may be expected to continue from now on. It is not a season of year for demand to be good for little pigs and yet prices for good kinds are a little higher for the week.

Total receipts for the week 42,200, against 41,944 last week, 96,229 a month ago, 44,027 one year ago, 35,290 two years ago, 40,792 three years ago and 15,833 four years ago.

The aggregate at five markets is 29,700, against 281,300 last week, 289,290 a month ago, 353,400 a year ago, 308,400 two years ago, 296,800 three years ago and 171,800 four years ago.

Prices ranged from \$6.50 to \$6.75, with the bulk selling at \$6.50 to \$6.67. The bulk yesterday sold at \$6.50 to \$6.67, a week ago at \$6.50 to \$6.67, a month ago at \$6.50 to \$6.67, two years ago at \$6.50 to \$6.67, three years ago at \$6.50 to \$6.67, four years ago at \$6.50 to \$6.67.

Pigs and Lights—100 lbs. and Under.

COWS, BULLS AND MIXED.
The small business transacted in this line of trade today was of a speculative clean-up character and did not furnish a market criterion.

A decline of 25c to 40c was registered in the beef of calves and heifers first half of the week, but since Wednesday prices have held stationary, rather firm, in fact. Receipts have not been liberal and the slump was sympathetic with declines in other lines of cattle. Sellers have had no difficulty in moving supplies at the declines, indicating a good, healthy demand here. Ranges have begun moving quite freely, a considerable number of Panhandle and western Kansas cows getting in this week. Quality of the offerings now coming is deficient, receipts including few good to choice lots of either cows or heifers. A few good cows landed at grades sold in a spread of \$3.50 to \$4.25 with fair killing styles at \$2.00 to \$4.00 and canners and cutters at \$2.00 to \$3.50. A range of \$3.50 to \$4.50 took a good share of the medium to pretty decent heifers with a few selling at \$5.00 and up. Prime corn-fed heifers would sell at \$5.50 or over, but there appears to be few of this class in the country.

POLITICAL ANNOUNCEMENTS

JOSEPH ANDRIANO
Candidate for SHERIFF Subject to the Republican Primaries.
Mr. Andriano is one of our oldest and most respected citizens. He is a man possessed of great sense of justice; liberal in his views, true to his friends, honest, courageous and competent in every respect. He has held several offices of importance and trust, having been twice elected sheriff of this county; served the people five years as constable of the fifth ward with credit to himself and his party. Therefore the Republican voters of this county will make no mistake if they cast their votes for Mr. Andriano, and place him on their ticket, for he will surely aid great strength and victory to the Republican banner this fall.

JOS. ALBUS
Candidate For
SHERIFF
Subject to the Republican Primary Election, August 4, 1908.

LEADERS CONFER

CHAIRMAN HITCHCOCK TALKS WITH WESTERN PARTY MEN AT COLORADO SPRINGS.

A "STOCK TAKING" SESSION

Committeemen From 16 States Conferred With the National Chairman Regarding Political Conditions in Their States.

Colorado Springs, Col., July 21.—The first session of the Republican leaders with Chairman Hitchcock of the national committee opened at 2 p. m. Monday and continued until nearly 8 o'clock. During that time members of the national committee and the chairmen of the state central committees from 16 states and the territories addressed the assembly and explained state conditions. Monday night Mr. Hitchcock talked individually with the leaders from the western states for the purpose of working out with still greater detail plans for opening and conducting the campaign. The greatest enthusiasm was displayed by all the participants in the conference.

Because of the late arrival of some of the western leaders no effort was made to get together in the forenoon. Instead those men who had already assembled procured automobiles and made a tour of the Garden of the Gods and Manitou Springs. The machine carrying C. C. Burson, the chairman of the New Mexico committee; W. E. Marin, a Republican leader of Mr. Hitchcock's clerks, stalled on a steep hill approaching the balanced rock, and through the failure of the brake, suddenly started down the hill backward.

The chauffeur commanded his passengers to jump, and they succeeded in clearing the car just as it reached the brink of a deep gully. The car turned turtle and was wrecked on the rocks below with the chauffeur, Thaddeus Thomasewski, underneath. He was not seriously hurt.

At 2 o'clock the representatives of all the states and territories invited by Mr. Hitchcock to meet here had arrived with the exception of Nevada, and it was decided to go on with the conference. Mr. Hitchcock addressed his co-workers briefly and explained that he brought them together to broaden their labors and secure cooperation of efforts. After that all of the men present talked about conditions in their states. They recited the shortcomings in the management of the national campaign in past years as it affected their state, and general discussion was held to devise means of remedying any defects that had been felt. The conferees described the meeting as a "stock taking" session.

The party of Republican leaders has arranged to ascend to Pikes peak Tuesday and to resume the conferences at 2 p. m. It has not been decided by Mr. Hitchcock when he will call the leaders from the central states to meet in Chicago, but it is probable that the date will be soon after the Taft notification ceremonies in Cincinnati.

Balloon Experiments Delayed. Omaha, July 21.—The government balloon experiments at Fort Omaha will not be undertaken before late in the fall and may be postponed until next spring. The big balloon house is not finished and there yet remain some additional installations of machinery for the hydrogen gas plant. Capt. C. W. Chandler, who is in charge of the signal station, is doing all possible consistent with principles of sound construction to push forward the work.

Tried to Blackmail His Mother. New York, July 21.—John A. Van Rensselaer, son of Mrs. John King Van Rensselaer, and a member of one of New York's oldest families, was taken into custody Monday night on a charge of attempted extortion. The arrest was made on advice from Chief of Police Crowley of Newport, R. I., who received a complaint from Mrs. Van Rensselaer that her son had written a letter threatening her bodily harm unless she provided him with funds.

Conferred With Judge Taft. Hot Springs, Va., July 21.—After a day devoted to conference with Judge Taft on the labor feature of his speech of acceptance Prof. Willis L. Moore, chief of the United States weather bureau, ventured with much reticence to say that organized labor, in his opinion, would be entirely satisfied with the position Judge Taft had taken. Twelve of the 50 typewritten pages of the speech, he said, were devoted to the labor problem.

Body of A. T. Posey Found. Eufaula, Ok., July 21.—The body of Alexander T. Posey, the famous Creek Indian writer, who was drowned in the overflow waters of North Canadian river near Eufaula on May 27, was found in a drift Monday near here. The burial will either be at Eufaula or at the old Posey homestead at Stidham, ten miles west.

Died in Physician's Office. Bartlesville, Ok., July 21.—J. E. F. McGee of Independence, Kan., died in a physician's office here Sunday night of heart failure. McGee was one of the best known oil men in the mid-continent field.

LABOR LEADERS SUMMONED

GOMPERS, MITCHELL AND MORRISON MAY BE IN CONTEMPT.

Must Show Cause on September 8 Why They Should Not Be Punished.

Washington, July 21.—In the Buck's Stove and Range case Justice Sander son of the district supreme court Monday summoned Samuel Gompers, president of the American Federation of Labor; Secretary Frank Morrison of that organization, and John Mitchell of the executive council and former president of the United Mine Workers of America to appear in court on September 8 next to show cause why they should not be punished for contempt of the court's injunctive order.

The citation is based on a petition of the Buck's Stove and Range company of St. Louis which alleges that an order issued by Justice Gould forbidding a national boycott by the American Federation of Labor has been violated by the public utterances and addresses of the three labor leaders named. It also is stated that Gompers caused to be published in the Federalist, the official organ of the federation, a certain article reflecting on the court's decision, and in alleged open defiance printing the name of the Buck Stove and Range company in the "We Don't Patronize" list. Gompers is quoted as saying to several newspapermen:

"So far as I am concerned, I wish to state this: When it comes to a choice between surrendering my rights as a free American citizen or violating the injunction of the court I do not hesitate to say that I shall exercise my rights as between the two."

Other utterances are quoted in which it is alleged Gompers and Morrison, in furtherance of an alleged plan to nullify the court's order, have published editorially and otherwise offensive references to the court's decision, including the name of the Buck Stove and Range company. The references, it is claimed, were made for the purpose of keeping alive the boycott as it existed before the order of the court, and were so framed as to affect the sale of the company's products. John Mitchell, at a meeting of the United Mine Workers last January put to a vote a resolution imposing a fine of \$5 on any member of that organization who purchased a stove or range of that company's make. The resolution also provided for the expulsion of a member in default of payment of the fine.

Queer Act of Somnambulist. St. Louis, July 21.—William Pohlman, a somnambulist, cut his throat in his sleep early Monday and only prompt work by physicians saved his life. Pohlman got his pocket knife out of his trousers and did not awaken, he said, until the steel entered his flesh.

Topoka Merchants Fined. Topoka, Kan., July 21.—Of the 21 Topoka business men arrested for doing business on Sunday 16 plead guilty in police court Monday and were fined \$2 each. It is understood the mayor will remit the fines.

Bishop Potter Suffers Relapse. Cooperstown, N. Y., July 21.—Bishop Henry C. Potter, who has been ill since June 27 at "Fernleigh," Mrs. Potter's home here, suffered a relapse Monday and Monday night his condition was again grave.

Senator Knox's Brother Dead. Pittsburgh, Pa., July 21.—Pittsburgh relatives have been notified of the death Monday at Los Angeles, Cal., of Thomas Budd Knox, brother of United States Senator Philander C. Knox.

MR. TAFT IN COURT

REPUBLICAN CANDIDATE ASSISTS IN DEDICATION OF VIRGINIA COURTHOUSE.

GIVEN A CORDIAL WELCOME

Talked of the Administration of Justice by the Courts to a Large Assemblage of People.

Hot Springs, Va., July 21.—Judge William H. Taft Monday assisted in the opening of court and in the dedication of a courthouse at Germantown, Va., five miles from Hot Springs. Judge Taft accepted the invitation to be present at this ceremony on the ground that it was a neighborhood affair. The subject of his speech was the administration of justice by the courts. He was greeted by a large assemblage of sojourners at neighboring resorts and countryfolk, many of whom traveled far to see and hear the Republican candidate for the presidency. He was given a cordial welcome.

The strength of the judiciary, he declared, was based on the fact that it rested on the principle that the people share in the responsibility for the work of the courts, in the form of duty on juries and in other capacities.

He justified proper criticism of the courts by the people because by such criticism "those who administer justice shall feel that they are under the critical eye of men and women entitled to have justice of the people administered without fear or favor." He could not come into the atmosphere of the court, he said, without a feeling of deep regret that he had ever left the bench. He concluded his remarks by congratulating Bath county on the fact that in it the two great political parties are nearly equally divided, which, he said, was a guarantee against evils in the administration of the government.

Judge Taft was heartily applauded when he opened his address and was frequently interrupted by applause. Mrs. Taft accompanied her husband to the courthouse, which was reached after a drive over splendid mountain roads.

A Canadian Labor Victory. Winnipeg, Manitoba, July 21.—The shop employees of the Canadian Pacific railway gained a signal victory Monday when the conciliation board, which has been investigating the matters in dispute between the employees and the men for several weeks, presented its report. The nine-hour day will continue to prevail in the west and will soon be granted in the east. No reduction was made in the scale of wages.

Charged With Manslaughter. Guthrie, Ok., July 21.—A coroner's jury Monday returned a verdict charging Charles Evans, foreman, and Del Aapwood, engineer of the Pioneer cotton mill, with manslaughter in the second degree in causing the death of Orma McCreight, the 45-year-old employe who was electrocuted Friday.

Kansas Negro a Murderer. Coffeyville, Kan., July 21.—Dick Waterhouse, a negro, aged 19 years, Monday shot and killed his wife, attempted to murder one of her woman friends, and, falling, shot himself in the head. He will recover.

Honduran Revolution Quelled. Washington, July 21.—President Davilla, the president of Honduras, has issued a notice, according to official information which has reached here, declaring that the revolution in that country is quelled.

FAIRVIEW GOSSIP

MR. BRYAN GIVEN A FRIGHT BY MISINFORMED EASTERN DEMOCRATS.

PROHIBITIONIST A VISITOR

Editor of California Voice Confers With Democratic Candidate—Appeal for Funds Begins to Bear Fruit.

Fairview, Lincoln, Neb., July 21.—Influential eastern Democrats Monday notified William J. Bryan that in their opinion the anti-injunction plank of the platform adopted at Denver was hardly worth the paper it was written on, the reason alleged by them being that the David B. Hill bill, passed by the senate, which is specifically indorsed by the Democracy, simply carried out the common law provision granting a jury trial in contempt cases "in the jurisdiction of the presiding judge." The plank was drafted on the assumption that the Hill bill was passed only after it had been amended by Senator Allen of Nebraska to make the trial by jury provision mandatory at the demand of the defendant.

Mr. Bryan spent several anxious hours after he received this information. While reasonably sure of his ground the allegation that he and the majority of the committee on resolutions had been "tricked" caused him worry and he admitted that he was to have an inquiry set on foot.

The Associated press correspondent Monday afternoon relieved his suspense by explaining to him that advices from Washington showed that the Hill bill, as finally adopted by the United States senate in 1895, provided for the summary punishment by the court in direct contempt cases, but making it mandatory for the court to grant a trial by jury in all cases where such contempt was committed outside the jurisdiction of the court, and where such jury trial was demanded by the accused. This was the Allen amendment, as Bryan remembered it, and it cleared up what threatened to become an awkward situation for the Democratic candidate for the presidency.

The part that the prohibition question will play in the campaign was talked over between Mr. Bryan and Wiley B. Phillips, editor of the California Voice, of Los Angeles, who is returning from Columbus, O., where he was a delegate to the national prohibition convention. "We agreed," said Mr. Phillips, "not to discuss for publication what was said at our conference." Mr. Phillips, however, volunteers the statement that unquestionably a number of the prohibitionists would vote for Mr. Bryan as against their own candidate. He thought the prohibition movement would affect the vote in the close states and was unwilling to concede to Judge Taft many of these votes.

The appeal of Mr. Bryan to the farmers of the country for campaign contributions is bearing fruit. Monday a number of responses were received, the sums enclosed varying in amount. Late Monday evening George Fred Williams of Boston arrived and was driven from the station to Fairview by Mr. Bryan. The two were in lengthy conference upon reaching the Bryan home, where Mr. Williams expected to spend the night.

Pay for Their Jobs. Honolulu, July 21.—The federal grand jury, which has just completed an inventory of the government work on the leper island of Molokai, which consists in the construction of a big leprosarium or hospital for the patients, has discovered that all the employes engaged in this work are aliens and that they pay 20 per cent of their wages to persons who procure them their situations.

Young Baptists Convene. Warrensburg, Mo., July 21.—The third annual assembly and the seventh annual convention of the Baptist Young People's union of Missouri convened at Pertle Springs Monday, and will continue in session seven days. Delegations of more than 100 represent the churches in St. Louis and Kansas City, while the state at large furnishes 300 delegates.

Noted Baptist Minister Dead. Atlanta, Ga., July 21.—Dr. M. B. Wharton, pastor of the Baptist church of Eufaula, Ala., and former United States consul to Sonneberg, Germany, died here Monday night, aged 69. Dr. Wharton was author of many religious books and was regarded as one of the ablest men in the Southern Baptist church.

Faking Gould Testimony. New York, July 21.—Charged with subornation of perjury in an alleged attempt to prepare false testimony for use in the divorce case of Helen K. Gould against Frank J. Gould Mrs. Julia E. Fleming, a seamstress, and Henry S. Mousley, member of a firm of private detectives, were arrested Monday night.

Injuries From a Thresher Fatal. Lawrence, Kan., July 21.—Roy Pancoast of Trenton, Mo., 22 years old, died here as the result of injuries suffered when he was run over by a thresher Saturday evening. He was here attending business college. The body will be sent to Trenton for burial.

St. Joseph, Mo. Topeka, Kan. Wichita, Kan. Grand Island, Neb. TALLOW, FURS, PELTS, WOOL, HIDES. WE are pleased to be able to report another advance over our last weeks' prices of 1-2c and our prices for the coming week will be 9c and 8c for No. 1 and No. 2 hides respectively. The demand is good from the smaller tanners, but the large tanners seem to be out of the market, they predicting that the prices will be lower. They say there is nothing in the leather, shoe or harness trade to justify the recent advances. The London wool sales are now in progress and there will be nothing much doing in the wool trade until they are ended. These sales will establish future values and considerable trading is looked for after they have closed. If you have any wool let us hear from you before you sell. We would be much pleased to have you submit us a sample of two average fleeces by express immediately and we will advise you our prices. Tallow market is firm and we are advancing our prices 1-4c per pound.

Deaf and Dumb on Duty. St. Louis.—The motorman must now wear a card in his hat forbidding others to speak to him and proclaiming his own inability to talk, on the Alton, Granite City & St. Louis traction lines. The card reads: "Don't talk to me. I am deaf and dumb while on duty." If the conductor wants to pass the time of day with the motorman the motorman must first stop the car. It is so ordered.

Attorney General Wade Ellis of Ohio is said to be slated to succeed Milton B. Purdy as assistant attorney general of the United States. Miss Ethel Roosevelt, second daughter of the president, recently celebrated her eighteenth birthday with a fancy dress party at Sagamore Hill. It is rumored that 7,000 Turkish soldiers in the Monastir district are in open revolt and that 32,000 troops have been ordered to the scene of the outbreak.

Swift's Digester Tankage —for Newly Weaned Pigs. The digestive organs of newly weaned pigs are so delicate that coarse, bulky, irritating meals cannot be fed with safety. Swift's Digester Tankage, appetizing, concentrated and nutritious is indispensable. It Keeps Them Growing. Tankage-fed pigs keep right on growing.
