

STOCK YARDS DAILY JOURNAL

46 West Illinois Ave., St. Joseph, Mo. The St. Joseph Journal Publishing Co., Publishers.

W. E. WARRICK, Editor and Manager. Largest Outside Circulation of Any Paper Published in Buchanan County, Mo.

Entered at the Post Office at St. Joseph, Mo., as Second Class Matter, September 4, 1897.

Subscription Rates: Daily, per year \$4.00; Daily, six months \$2.50; Daily, three months \$1.50; Daily, one month \$0.50; Tri-Weekly, per year \$1.50; Tri-Weekly, per year \$1.00; Weekly, per year \$1.00.

In asking change of address, please state your former residence. State whether your paper is Daily, Tri-Weekly, Semi-Weekly or Weekly.

Advertising Rates Furnished on Application. Special 20 per cent commission allowed postmasters, who are authorized to take subscriptions.

BRIEF CITY NEWS.

There will be a meeting of the automobile owners of the city at the Casino at Lake Country at 8 o'clock tonight. Julius Krull and C. Jacobs were arrested at Krug Park last night by Patrolmen Gartland and Squires for disturbing the peace of the pleasure seekers in the park.

Overcome by heat, Charles Cooper fainted at Third and Felix streets last night and was removed to his home, Tenth and Seneca streets. His condition is not thought to be serious.

Miss Julia Fullerton has had for her guest the past week Miss Margaret McDougal of Maryville, Mo. She returned this morning, accompanied by Miss Fullerton, who will remain a week.

John Topa was arrested on Lake avenue Saturday night by Detectives Cunnery and Foster and Deputy Constable Campbell on a state warrant, charging him with carrying concealed weapons.

J. Harvey was arrested Saturday evening in the South End by Patrolmen Kelly and Walsh on a state warrant charging him with assault.

Charles Bersley, while doing a good fighting stunt at Sixth and Monterey streets, was arrested Saturday night by Patrolmen Gordon and D. Shea.

Myrtle R. Trues, 26 years old, wife of E. H. Trues, died early yesterday morning of diabetes. The body was sent to Robinson, Kansas yesterday morning for burial.

BOY DROWNS IN RIVER.

Roderick J. Winn, whose brother was killed by Fulton, Lost in River. Going out beyond his depth, Roderick J. Winn, the sixteen-year-old son of Mr. and Mrs. P. Winn 1207 Prospect avenue, was drowned yesterday about noon in the Missouri river, a mile above the Francis street depot.

The youth left home early yesterday morning, not telling his parents where he was going. He had not appeared at midnight last night, and his parents installed a search for him. His father called at the police station and identified the clothes held there as those of his son. Until the appearance of his father the police had not been able to learn the name of the boy.

A search will begin today for the body. Two years ago Mr. Winn had the misfortune to lose a child by poisoning. The child having eaten some candy offered it while playing at the Humbolt school. The parents are prostrated with grief.

AMUSEMENTS.

At the Crystal. Gehan and Spencer, judging by the applause tendered them at all performances yesterday, easily head the bill at the Crystal this week. They are as dancing marvels and they carry their title in good fashion. As buck and wing dancers they have no peer. The Colonial quartette was also well received as was Tom Mahoney, who introduces a new monologue stunt in the shape of a president of a hod carriers' union addressing a meeting.

At the Crystal. "Something out of the ordinary" is a remark that can properly be made of the Carl Hagenbeck & Great Wallace Shows Combined, which will exhibit in St. Joseph, Monday, August 10.

It has a reputation for producing remarkable surprises in its circus arena until the public has learned that it can attend an exhibition of the Hagenbeck & Great Wallace Circus expecting to see something new and different.

There is an unusual number of features with the Wallace show this season. It is difficult to pick the best. Some will like the trained wild beasts' exhibition or horse numbers. Others will prefer Lee Howlands, Borstal Troupe, the Sylvester Sisters, the three Corrells, the Daino Troupe, while some will spend most of the time laughing at the host of clowns, listening to Merrick's famous band, enjoying the races, admiring the animals or petting the beautiful horses. No matter which way one looks while under any one of the Hagenbeck & Wallace tents, he is sure to see something out of the ordinary.

The more gentle and quiet you can keep colts from the time they are foaled up to the time they are old enough to work the better.

DROWNED IN CHAUTAUQUA LAKE.

Miss Elsie Green, St. Joseph Young Lady. Meets Death in Waves. Word was received in St. Joseph early yesterday morning of the drowning in Chautauqua lake, New York, of Miss Elsie Green of this city.

Miss Elsie Green was 19 years old and daughter of Charles E. Green, 609 Bush street, manager of the Russell Brokerage company. She was prominent among the members of the younger social set and the news of her death has come as a shock to the many friends who had in St. Joseph.

News of her death was received here at 3 o'clock yesterday morning by Dr. L. A. Todd, the family physician, from Mrs. Green, who asked that Mr. Green be notified. Although still suffering from the effects of being over-heated several days ago, Mr. Green left at 9 o'clock yesterday morning for Chautauqua.

Miss Green was born and raised in St. Joseph and attended the high school for some time. Two years ago she left St. Joseph to attend school at Rosemary Hall, Greenwich, Conn. At the close of school this year she visited relatives in Virginia and then accompanied her grandmother to Chautauqua. Mrs. Green, her mother, left St. Joseph last Monday night to join her daughter, intending to bring her back to St. Joseph, where she was to have made her formal entrance into society this fall.

Miss Green's brother, Fitzhugh, is a cadet at Annapolis naval academy. He has joined his stricken mother at Chautauqua. The family is well known in local society circles and has been prominent in Christ church for a number of years.

BURNED IN EXPLOSION.

While coming north on the river near Lake Country last night in the motorboat "Jennie," Lander Smith was painfully burned about the head, neck and arms by an explosion of gasoline. He was treated by Dr. F. H. Ladd, at Webb's drug store in South St. Joseph.

KEEPS MAN'S LEG FOUR YEARS.

Minnesota Town Returns Limb. Pawned by Chicagoan. Crookston, Minn.—After holding a man's leg as hostage for four years, Chairman Sargent of the poor committee of the city of Crookston has forwarded the leg to Emil Johnson, the owner, who, in the meantime, has been getting along the best he could with only one peg.

Four years ago, when C. E. Misner, now of Pasadena, Cal., was chairman of the poor committee, Johnson came into Crookston from Winnipeg. He had just lost a leg in a railway accident and had purchased a \$150 artificial limb. He reached Crookston broke and wanted this city to give him fare to Duluth.

Misner was obdurate and said he would send him back across the Canadian border where he belonged. Johnson did not want to go that way, and offered to leave his leg here as a host- age until the money for the fare to Duluth was refunded. Misner agreed, and the leg was held here. The money was never forwarded, and, after holding the limb, which never fitted any of the crippled aldermen, it was finally decided to send Johnson his leg.

RETURNS LONG LOST JEWELS.

Newark, N. J.—A gold necklace and cross that were lost 27 years ago were returned to Mrs. Antone Fuerst of Waverley avenue and Kipp street a few days ago by a woman whose name Mrs. Fuerst doesn't know. The explanation the stranger offered was that the necklace was given to her 17 years ago by a friend on her deathbed. Mrs. Fuerst is trying to find out who had the necklace all these years.

Mrs. Fuerst lived in Prince street when she lost the necklace. One afternoon in 1881 she went to a nearby store wearing the necklace, and when she returned home it was gone. A search was made, but nothing was ever seen or heard of it.

The woman who returned the necklace, though she refused to tell her name or the name of the woman who gave it to her, explained to Mrs. Fuerst that a short time ago, while she was placing flowers on the grave of the woman who gave her the necklace, she spoke to a grave digger about it and the grave digger advised her to return it. She cogitated his advice for several days before she got up courage to follow it.

Entombed Miners Rescued.

Fernie, B. C., Aug. 1.—Twenty-three men were buried Friday morning by a cave-in in No. 2 mine at Coal Creek, owned by the Crows Nest Pass Coal company. The work of rescue was made difficult by gas, but rescuing parties had taken out 20 men alive at three o'clock Friday afternoon and the other three will probably be rescued. Three men were killed in this mine two months ago.

A Presidential Candidate Declines.

New York, Aug. 1.—Members of the Socialist labor party learned from the headquarters of the national executive committee Friday that M. R. Preston, now serving a sentence in Nevada for murder who was nominated as their candidate for president, had definitely refused to accept. A council was hastily called and August Gillhaus, an engineer of this city, was nominated for president as a "proxy" for Preston. Gillhaus has agreed to let Preston select the cabinet if he is elected.

STOCKS OF PROVISIONS

The following shows the stocks of provisions in South St. Joseph at close of business July 31, 1908, as officially reported to The Stock Yards Daily Journal:

Table with columns for July 31 1908, June 30 1908, July 31 1907, and July 31 1906. Rows include Mass pork (new) made since Oct. 1, 1907, lbs.; Mess pork (old) made previous Oct. 1, 1907, lbs.; Other kinds of lard, lbs.; P. S. lard in storage tanks and tierces, made since Oct. 1, 1907, lbs.; P. S. lard made from Oct. 1, 1905 to Oct. 1, 1907, lbs.; P. S. lard made previous to Oct. 1, 1907, lbs.; Other kinds of lard, lbs.; Short rib middles and rough or back-bone—Shoulder ribs, middles made since Oct. 1, '07, lbs.; Short rib middles and rough or back-bone—Shoulder ribs, middles made previous to Oct. 1, '07, lbs.; Extra short clear middles made since Oct. 1, '07, lbs.; Extra short rib middles, lbs.; Long clear middles, lbs.; Dry salted shoulders, lbs.; Sweet pickled hams, lbs.; Sweet pickled shoulders, lbs.; Sweet pickled shoulders, N. Y. style, lbs.; Dry salted hams, lbs.; Sweet pickled hams, lbs.; Sweet pickled California or picnic hams, lbs.; Sweet Pickled long clear shoulders, lbs.; Sweet pickled skinned hams, lbs.; Other cuts of meats, lbs.; Total weight cuts of meats.

LIVE HOGS. Received 181,536; Shipped 6,983; Driven out 176,983; Average weight, lbs. 215.

CHOKO CHERRIES KILL SHEEP.

Washington, D. C.—A number of sheep were recently poisoned by eating choke cherry leaves while passing over a driveway across part of the Manti national forest in Utah, and though the sheep driveways are not strictly part of the national forest range, the government has taken steps to prevent further losses to the sheepmen from this cause. Members of the force on the forests will cooperate with stockmen in cutting out the thickets of choke cherry bushes where they grow most densely, thus allowing the sheep to be buried through them, and in some cases the driveway will be changed so as to avoid the thickets altogether.

When the sheep enter this driveway they are hungry after a long trip over public highways, where forage is unobtainable. They eat the choke cherry leaves ravenously, though under ordinary conditions they would hardly touch them when an examination was made of the stomachs of several of the dead sheep and they were found filled with leaves, the cause of death was clearly established.

Stockmen throughout the west are coming more fully to recognize the benefits of government co-operation and range control. The whole grazing policy is to make the sheep herds and to insure its equitable use. Restriction is practiced not for its own sake, but for the good of the range and of the stockmen who depend upon it.

The range has deteriorated under the restricted use, and so the government is making investigations under the direction of F. V. Coville, botanist, bureau of plant industry, department of agriculture, with a view to re-seeding with better grass. Again, poisonous plants are often destructive to live stock and in this case Dr. C. D. Marsh of the bureau of plant industry is conducting a study to detect poisonous plants and suggests means of eradicating them.

There are also heavy losses from predatory animals, but the government hunters and trappers are busy reducing the number of mountain lions and timber wolves, which do most of the damage. Finally, there is the insignificant prairie dog, which selects the choicest grassy bottoms for its operations, strips them to the soil and plows up the ground for its burrows. The have gone after the prairie dog now, however, and by the use of effective poison will soon put an end to this pest.

CALEF WITHOUT HAIR.

Remarkable Freak of Nature Attracts Attention in South Dakota. Chester, S. D.—G. S. Smith of this place is the owner of a cow that recently gave birth to a calf which is entirely hairless. Its sire is a full-blood Durham, and its dam is also partially of the same breed. The animal is of good form, size and weight, rather large for its age, but of almost perfect physical development and, although it is now over a month old, it has not the sign of hair upon its skin, and there are no indications that any will ever grow upon any part of its body. The animal is of the female persuasion, enjoys good health, being vigorous and active, eats and drinks like other calves do, but in appearance is one of the most remarkable freaks of nature ever seen or heard of; in fact, nothing like it has ever been heard of in the world so far as known. Its color and the outward conditions of its skin bear strong resemblance to the elephant.

The animal is attracting great attention among the people of this locality. It is on exhibition in a tent near Mr. Sme's place of business in Chester, and the owner will place the calf on exhibition at the state and county fairs throughout the country this fall.

Sashes Much in Evidence.

A glance at the windows of the shops show that the sash has come into its own again, and that all sorts of extravagances in that direction may be expected. Not only do children wear sashes, but the young girls and older matrons have them, the simple blue and pink ribbons of sweet 16 and the velvet and heavy silk for 60 being equally popular.

You see this adv. So will others see yours. Try it.

Every Prudent Person. BANKING BY MAIL. Should keep a special private bank account separate and apart from their current account or regular business account. It might be considered as a Special Reserve Account to be drawn upon only in a special emergency or under extraordinary necessity, but available at all times. A STRIKE IN PARIS

A 24-HOUR GENERAL STRIKE CALLED BY THE LABOR FEDERATION.

LITTLE TROUBLE IS FEARED

Authorities Confident They Have Situation Well in Hand—100,000 Workmen Remain Idle on Monday.

Paris, Aug. 3.—The 24-hour general strike which the city is threatened Monday was the sole topic of conversation in Paris Sunday night. While there are no signs of panic, such as preceded the May Day manifestations of 1906, considerable anxiety and indignation prevails in the public mind.

The authorities are confident they have the situation well in hand. In addition to the large police force of Paris, the regular garrison numbers 25,000 men, and this force, it is held, is ample to assure order. The troops all have been confined to barracks so as to be available at a moment's notice.

The headquarters of the federation of labor Sunday was surrounded by imposing forces of police. Inside the building lengthy meetings were held but the results of them were kept strictly secret. The only announcement made was that the strike was certain of success and that substitutes had been elected to replace all the officers of the federation in case of their arrest.

The first signs this evening of the strike was when a number of printers did not put in an appearance at the newspaper offices, and it is feared that half the journals will be unable to print.

Those offices where work is proceeding are surrounded by police in order to ward off attacks by militant laborites.

The organizers of the strike announced late Sunday night that no manifestations have been arranged for Monday, either in Paris or at Vigneux and that the strikers would pass the day in their homes. The police while taking extraordinary precautions, do not anticipate disorders.

The newspaper quarter, which usually at night is astir with life, bears a quiet and deserted aspect. Fifteen newspapers will not appear Monday, but the most important organs will print, although some of them will be obliged to come out several hours earlier than usual.

New President in Panama. Panama, Aug. 3.—The electoral campaign ended Sunday when the electoral boards met in the capitals of the seven provinces to elect a president whose term will run from October of this year until 1912.

A Southern Train Wrecked. Atlanta, Ga., Aug. 3.—Train No. 38 on the Southern railway, the New Orleans-New York limited, northbound, which left here at noon Sunday, met with an accident some 30 miles from Charlotte, N. C., Sunday night.

Will Cancel His Tour. Montreal, Aug. 3.—Lord Roberts, who had sufficiently recovered to leave here Sunday for Ottawa, will, it is stated by his friends here, be obliged to cancel his projected Canadian tour and will sail for home next Friday.

Italians and Slavs Riot. Uniontown, Pa., Aug. 3.—One man dead and 25 others seriously injured, some of them fatally, are the results of a riot early Sunday between Italians and Slavs at Gates, one of the H. C. Frick Coke company plants, near Masontown.

Arrest Suspected Safe Blowers. Salina, Kan., Aug. 3.—W. G. Oliver and "Red" Harris, the two men released at Ellsworth, were arrested at Solomon and are being held on the charge of attempting to blow open the safe of Seymour & Co.'s office at Solomon.

TELEGRAPHIC BREVITIES.

There is a bitter famine throughout Australia and prices are rising rapidly. Cardinal Gibbons of Baltimore was received in audience by the pope on his arrival in Rome.

Floods in the vicinity of Florence, Col., caused by a cloudburst, caused a property loss estimated at \$100,000. While playing with a shotgun at Steamship Horda which just arrived Frank Burdock, a 15-year-old boy, shot and killed his 19-year-old sister.

One hundred observation telescopes are to be purchased by the ordnance department of the army. They are to be used in coast artillery practice to watch the fall of shots.

Attorney General Bonaparte has decided that national banks in Oklahoma cannot take advantage of the state law under which deposits in state banks are guaranteed.

The second debate between Senator Long and Joseph L. Bristow in the campaign for United States senator from Kansas occurred in Topeka the other day before an audience of 2,500 persons.

Henry Larson, a fireman on the steamship Horda which just arrived in New York from La Guna, Mexico, was taken to the Swineburn Island hospital with a well-developed case of yellow fever.

Kansas holders of stock and annuity certificates in the Great Western Agency company held a meeting in Topeka and adopted a plan to try and get control of the stock and assets of the company now in the hands of receivers.

SUNDAY'S BASE BALL.

- American League. At Chicago—Washington, 1; Chicago, 2. At St. Louis—Philadelphia, 5; St. Louis, 6. At Detroit—Boston, 8; Detroit, 4. American Association. At Columbus—Minneapolis, 5; Columbus, 10. Second game—Minneapolis, 1; Columbus, 7. At Toledo—St. Paul, 3; Toledo, 4. At Louisville—Kansas City, 2; Louisville, 4. At Milwaukee—Indianapolis, 1; Milwaukee, 9. Western Association. At Wichita—Topeka, 1; Wichita, 5. At Joplin—Oklahoma City, 2; Joplin, 1.

Was a Do Nothing Parliament.

London, Aug. 3.—Of 12 important measures foreshadowed in the king's speech at the opening of parliament in January just two had been passed up to the adjournment Saturday for the summer vacation. These were the Irish universities bill and the old age pension bill, neither of which was opposed in principle by the opposition.

Threatened With Rabies.

New York, Aug. 3.—Hurryng to Washington where they are to receive the pasteur treatment as a precaution against hydrophobia, a party of 12 men, members of the United States marine corps, and victims of a bite of a rabid dog on the Isthmus of Panama, arrived here Sunday on the Panama liner Finance.

Kaw Valley Potatoes Short.

Lawrence, Kan., Aug. 3.—The June floods this year cut short the potato crop in the Kaw valley fully 60 per cent. There will be only about 800 carloads in the valley, instead of 2,000 or more carloads, as was expected at planting time last spring. The shippers here and elsewhere load about 450 bushels in a car.

Springfield Doctor Dead.

Springfield, Mo., Aug. 3.—Dr. Shelby L. Knox died at his home here Saturday night after a brief illness. His sickness was caused when a week ago he drank a glass of buttermilk and medicine taken to stop pains that followed caused ptomaine poisoning.

Will Work Nine Hours.

Springfield, Mo., Aug. 3.—Twelve hundred men in the St. Louis & San Francisco railroad shops began Monday working nine hours a day. The men had been working four hours a day until July 1 when the time was increased to eight hours.

Rear Admiral Capps Returns.

San Francisco, Cal., Aug. 3.—Rear Admiral W. L. Capps, chief of the naval bureau of construction and repair, who sailed to Hawaii on board the battleship Kansas of the Atlantic fleet, returned Saturday on the Siberia.

Col. Watterston in New York.

New York, Aug. 3.—Col. Henry Watterston of Louisville, Ky., chairman of the press committee of the Democratic national committee, was a luncheon guest Sunday of Norman E. Mack, the Democratic chairman.

Toledo Music Teacher Dead.

Toledo, O., Aug. 3.—Prof. Charles H. Thompson, for the past ten years a professor of music in the public schools, died suddenly in a saloon in this city Sunday, apoplexy being the cause of death.

Clay Harris Still at Large.

Tulsa, Ok., Aug. 3.—Clay Harris, the murderer of his wife and child, is still at large and the officers have temporarily abandoned the hunt, following the failure of bloodhounds to take up the scent.

Entertained the Fairbanks.

Mackinac Island, Mich., Aug. 3.—United States Senator William Alden Smith Sunday night entertained Vice President Fairbanks and Mrs. Fairbanks at dinner at the Grand hotel.

SALE OF THE BIBLE

CHINA AND JAPAN BUY MORE THAN ENGLAND AND WALES.

Entire "Good Book" Has Been Translated Into 105 Tongues—Parts Have Been Edited for 208 Additional Peoples.

London.—In a single year more than 1,000,000 Bibles have been distributed throughout China, and 140,000 in Japan, according to the advance summary of the British and Foreign Bible society's one hundred and fourth annual report, while in England and Wales, where the year's demand has fallen off, only 1,105,000 have been sold.

Three additions have been added to the society's long list. In South America, where Lengua is spoken by the Indians of the Paraguayan Chaco, a version of St. Mark's gospel has been printed in this tongue; in the heart of Africa, St. Matthew's gospel has been printed for a Uganda tribe speaking a language called Lu-Nyan-kole; in India, two gospels are being published in Hindu-Sindhi. In six other languages versions are almost ready.

The publication of the canonical books of the Bible has been completed in two additional languages—in Giryama, for British East Africa, and in Ngunu-Etate, a combination of the dialects of two islands in the New Hebrides. With these, the number of complete Bibles is now 105.

The New Testament has been completed in Baffin's Land Eskimo, and in the Mombasa form of Swahili; these raise the number of New Testaments to 99. While 208 other languages, in which only some part of the testament has been issued, make up the total to 412 different languages. "In which the British and foreign Bible society has promoted the translation, printing and distribution of at least some part of God's book."

Important progress has also been made in revising versions whose quality requires improvement. Here we can mention only the two dominant languages of the far east. In Japan, a representative body of Japanese scholars and foreign missionaries has recently agreed upon a joint plan for revising the Japanese Bible. In China, the missionary conference at Shanghai in 1890 arranged for "Union" versions of the Chinese Bible in High Wenli, and in Mandarin. The task has been successfully fulfilled in all three cases, so far as concerns the New Testament.

The rapid influx into North America of immigrants from Europe has increased the demand for diglot Testaments, in which English is printed side by side with one or other of a dozen Continental versions. A new edition of the English Bible in Braille (raised) type for the blind is in preparation.

"Thus in divers portions and in divers manners, in the hands of the English and among the far-away folk of foreign speech under alien stars, God's book carries its own eternal message to the human heart."

The year's issues amount altogether to 5,688,381 volumes, a total of 272,900 copies above the output in the previous year, though still 289,000 below the record total announced two years ago.

The issues from the Bible house in London for the past year were 1,838,281 copies—an increase of 85,000 over the previous year. The growth here, however, has been in foreign versions sent out from London. The issues in English and Welsh amounted to 1,105,000 copies—a falling off of 112,000 from the previous year, which again was 114,000 below the year before. Of the society's issues, a smaller proportion are English and Welsh Scriptures than was the case ten years ago; then it was over 30 per cent., now it is under 20 per cent. of the total. For this, however, there may be a two-fold explanation. On one hand, people to-day who can afford them prefer more expensive editions, often with notes or helps, which they procure elsewhere than from the Bible house. On the other hand, some extremely cheap English editions have been put on the market by other publishers.

Man Arrested for Kindness. Bethlehem, Pa.—In doing an act of human kindness William Sandt violated the state game laws unconsciously and was arrested by Deputy Game Warden Asker of Allentown. Sandt was picking stones from a field at Freemansburg when he uncovered a nest of three rabbits. Fearing that they might be harmed he took them home.

The arrested followed and Sandt was fined \$38.35.

Offers \$1,000 for an Apple.

Spokane, Wash.—The best single apple in the world is worth just \$1,000 to its owner, provided it is on exhibition at the national apple show, which will be held in Spokane in December. The premium committee has not completed its work, but it has decided to make an offer of \$1,000 for the best individual apple displayed, no matter of what variety.

Gives Rats Hydrophobia.

City of Mexico.—A ranchman near Toluca recently inoculated a number of rats on his place with hydrophobia for the purpose of eradicating the pests. The disease quickly spread and is not only killing the rats, but other wild and domestic animals in that section. The inhabitants are much alarmed and want the epidemic stopped.

Grass Too Rich for Deer.

Edinburgh.—There is considerable illness among the deer in the highland forests, and in many instances the animals are reported to be dying. During the winter there was a scarcity of food, and the sudden growth of an unlimited supply of rich grass tempted them to overtax their digestive powers.

TO PROPAGATE MUSSELS.

Government Will Cultivate Bivalves for Their Shells.

Washington.—The government is going into the business of propagating that bivalve member of the family of bivalves—the mussel. The mussel is not to be multiplied to produce an addition to the food supply of the country, but is to be cultivated for its shell.

In the last year Commissioner of Fisheries Bowers states \$5,000,000 worth of fancy buttons have been made from mussel shells. The supply is getting scarce and propagation work is necessary.

Experiments by the fish commission have shown that mussels can be propagated rapidly and ponds can be constructed without considerable expense. Congress appropriated \$25,000 for the purpose of a hatchery, and its erection will be begun soon after July 1, when the money will be available.

It is Commissioner Bowers' intention to have a main hatchery and two branches, and the act requires them to be located somewhere in the Mississippi river valley. It is the present intention to erect the main hatchery and ponds near Muscatine or Davenport, and a branch at Winona, Minn. From these three places the Mississippi and other rivers will be supplied with young mussels to grow for manufacturing into "pearl" and other fancy buttons.

GOLD IN OLD MINT RUINS.

Miner Using Placer Outfit Realizes \$15,000 in Gold and Silver.

Denver.—Always having an eye to the main chance, A. M. Donaldson bought for a trifle the 1,000 loads of mixed debris from the contractor who had the job of pulling down the old mint at Sixteenth and Market streets. Donaldson had the stuff hauled and dumped on the bank of the Platte river, between Sixteenth and Nineteenth streets, and at once constructed an old-style placer miner's outfit. Thus far he has cleared up \$15,000 by panning.

He has a centrifugal pump, sever horse-power electric motor, sluice boxes, rifles and jig and just simply washes the dirt as in a regular placer mine.

"I expect to finish the last clean-up late in the fall," he said. "We run steadily from eight to nine hours each day and make a nightly clean-up, recovering a very nice profit in gold nuggets and flour gold as well as some silver."

"Years ago I was an employe of the mint. Being a practical placer miner, I quickly recognized that the mineral in coinage there then was far too soft to save it all."

UNCLE SAM AIDS BAT VICTIM.

Tells Owner of Mansion How to Get Rid of Pests.

Washington.—Dr. A. K. Fisher, the bug expert of the department of agriculture, received a letter the other day from Phillip Aylett, owner of a vast estate with a bat-infested mansion or it, at Montville, Va., asking for aid in getting rid of the pests.

The house was represented as one in which Patrick Henry had lived and was said to be so overrun with bats that the owner was contemplating burning it.

Dr. Fisher found that there were about 500 bats in the house, and that their eviction presented no difficult task. He advised Aylett to have all the holes in the eaves closed except two or three; then, about twilight, to fumigate the house thoroughly, and the bats would leave by the holes left open.

By closing the remaining holes and keeping them closed the bat question will be settled.

TAFT A GOOD "RISK."

Despite His 300 Pounds He Has \$50,000 Life Insurance.

Washington.—Notwithstanding his 300 pounds, William H. Taft is taken by the life insurance companies as a "good risk." The statement has been published that policies had been refused to him. On the contrary, the secretary carries \$50,000 in policies. Some of this insurance was issued even when he went to the tropical Philippines.

Though he is unusually heavy, Mr. Taft is tall and has a large frame. The weight is well distributed and he carries it well. He is an active man physically. He has a strong heart and excellent lungs. He has a good family record from an insurance company point of view, and has for that reason and because of his own physical condition more than the usual "expectancy of life."

Dreams Way Out of Mine.

Pottsville, Pa.—While imprisoned by a fall of coal in the West Schuylkill colliery David Moyer fell asleep, and dreamed he saw a manhole by which he could escape to the surface. When he awoke he succeeded in finding the manhole, which had been forgotten, and while efforts were being made to rescue him he surprised the rescuers by suddenly appearing in their midst.

Has French Decoration.

Miss Mary Cassatt is one of the few women painters who have been decorated with the Order of the Chevalier of the Legion of Honor. She has made a specialty of children's pictures and gets their "noble physiognomy," as a French writer terms it, most perfectly.

POLITICAL ANNOUNCEMENTS

JOSEPH ANDRIANO Candidate for SHERIFF Subject to the Republican Primaries.

Mr. Andriano is one of our oldest and most respected citizens. He is a man possessed of great sense of justice; liberal in his views, true to his friends, honest, courageous and consistent in every respect. He has held several offices of importance and trust, having been twice elected sheriff of this county; served the people five years as constable of the Fifth ward with credit to himself and his party. Therefore the Republican voters of this county will make no mistake if they cast their votes for Mr. Andriano, and place him on their tickets, for he will surely add great strength and victory to the Republican banner this fall.

JOS. ALBUS Candidate for SHERIFF Subject to the Republican Primary Election, August 4, 1908

DEAD IN BUSH FIRES

FERNIE, B. C., WIPE OFF THE MAP AND MANY LIVES ARE LOST.

5,000 PEOPLE HOMELESS

Hundreds of Lumbermen and Prospectors Scattered Through Territory Over Which Flames Are Sweeping.

Winnipeg, Man., Aug. 3.—As a result of bush fires the town of Fernie, B. C., is wiped off the map as a child cleans a slate; Michel, 14 miles distant, is in flames and the fate of Hosmer, Olson and Sparwood, intervening towns is in doubt, they being cut off from all communication. Over 100 lives are known to have been lost, 74 of them in Fernie. A territory of 100 square miles in extent is a seething mass of flames. Through it are scattered hundreds of lumbermen and prospectors, so that the actual loss of life will not be known for days. The property of the Canadian Pacific and Great Northern railways are destroyed, the bridges and rolling stock burned, so that it is impossible to enter or leave the burning area. The inhabitants of the towns have fled to open districts in the vicinity in the hope of safety. The railway companies have placed all available trains at their disposal and unless there is a change of wind within the next 24 hours the whole of the Crow's Nest Pass country will be left to the flames. There is no possibility of estimating the loss of life and property which will result from the flames are driven by a half gale, making it impossible to put up a fight against their advance. The conflagration is the greatest which has ever visited Canada and ranks only with the San Francisco disaster.

At present the fire is following the crest of the mountain chain above Sparwood, eating down into the valleys on either side. It is traveling at a tremendous rate and unless there is a change of wind will cross the boundary into Montana within the next 12 hours. There are thousands of mines and prospectors' claims in the track of the fire, all of which are in peril. A slight change of wind has occurred and Michel has been taken out of the more direct path.

Fire fighting apparatus is of no avail for the air is filled with fragments of burning wood and sheets of flames seem to leap ahead of the conflagration as though the air itself is in flames. The heat is intense and many of the fire fighters have gone down ahead of it.

Crambrook, B. C., Aug. 3.—W. Carswell, assistant superintendent of the Great Northern railway, arrived here from Fernie. He made his way out at great risk. Part of the trip was made on a handcar and the balance on foot. Every stick of timber along the line is burned and not a living thing is left. Mr. and Mrs. Forester and 28 men have arrived at Campbell's Sliding, having been forced to give up their fight to save the Sparwood mill. Five members of the party succumbed and others only escaped by traveling all night by the light of the fire.

The whole population of the district is being cleared out. Starvation has been added to the terrors. When the people left their homes for the protection camps little or no provisions were taken and now there are some 5,000 on the prairies with nothing to eat.

Ottawa, Ont., Aug. 3.—Sir Wilfrid Laurier received the following telegram Sunday evening from Crambrook, B. C.:

"Disastrous fire Kootenay Valley, Fernie, Hosmer, Crow's Nest and other places almost completely burned. Not less than 5,000 people homeless. Canadian Pacific railway carrying them to Elko and Crambrook. Every effort is being made locally, but these people are utterly without food or shelter. Fire covers 70 miles. Seventy lives lost. Immediate relief required. Telegraph instructions at once."

The premier will consult his colleagues the first thing in the morning to see what action can be taken by the federal government.

The Unwritten Law in Kansas. Cherryvale, Kan., Aug. 3.—Henry Behner, a farmer, shot and killed Tobe Sawyer at the latter's home five miles south of Cherryvale, Sunday. Behner gave himself up to the marshal of Cherryvale and was locked in jail. He will plead the "unwritten law," claiming that Sawyer wronged his 17-year-old daughter who worked for two weeks in the Sawyer home as a domestic. Both men are married and have families. Behner is 49 years old and Sawyer was 35. Both families are highly respected in the community.

Chicago Pioneer Dead. Chicago, Aug. 3.—Ezra Butler McCagg, a prominent citizen of Chicago since 1847, died at his home Sunday, aged 82 years. He was a member of the United States Sanitary commission during the Civil war and was elected a member of the Royal Legion for his services in this connection. He was best known in Chicago for his work in establishing the city's park system and as a founder or trustee of numerous public institutions.

TROOPS TO ENFORCE LAWS

GOV. FOLK ORDERS REGIMENT TO ST. LOUIS COUNTY.

National Guard to Assemble Near St. Charles on Next Saturday and Sunday.

St. Louis, Mo., Aug. 3.—Following his declaration of Saturday that he would send the national guard into St. Louis county to enforce the Sunday liquor laws and to preserve order, Gov. Folk Sunday night issued orders to Brig. Gen. H. C. Clark, commander of the National Guard of Missouri to assemble in St. Louis county next Saturday and Sunday practically the entire membership of the First regiment and battery "A," the state's best military organizations.

The infantry will gather at the National Guard target range near St. Charles, ostensibly for target practice while the battery will be ordered, it is said, on a "practice march" through the county. About 100 men of the battery will be mounted and will carry side arms.

On orders from the governor, Gen. Clark, Adjutant General De Armond and other state officers made a tour of the county Sunday. With few exceptions, they reported all saloons were closed and everything was orderly.

The determination to send state troops here was reached late Sunday night after a conference between Gov. Folk and Dr. Denny, foreman of the St. Louis county grand jury, which is investigating local conditions. Dr. Denny is said to have informed the governor that the presence of the National Guardsmen in the county would be welcomed and after learning the jury foreman's opinion of affairs, the executive issued the orders. Rensselaer, N. Y., opposite Albany.

WILL HELP THE DEMOCRATS.

Bonaparte's National Bank Decision Discussed at Fairview.

Fairview, Lincoln, Aug. 3.—Attorney-General Bonaparte's opinion delivered Saturday holding it to be illegal for national banks of Oklahoma to contribute toward the guaranty fund for the protection of depositors or to avail themselves of the other privileges of the state banking act was the subject of a good deal of discussion here Sunday. Prominent Democrats of Lincoln freely avowed that following so closely on the heels of the Standard oil reversal in Chicago and the contempt cases against the labor leaders in Washington the opinion of the federal attorney general still further strengthening the Democratic party in the present campaign. Mr. Bryan himself gave expression to the same effect. "It accentuates the issue," said he, "and emphasizes the necessity of legislation framed from the standpoint of the depositor rather than from the standpoint of the banker."

Farmers' First Public Flight.

New York, Aug. 3.—Henri Farman, who came from Paris to give a series of aeroplane exhibitions under the management of an American syndicate, made his first public flight in this country at the Brighton Beach race track Sunday evening. The exhibition was a success to the extent that it demonstrated the inventor's ability to fly under favorable atmospheric conditions and entertained some 2,000 enthusiastic spectators. Farman traveled nearly a third of a mile in about 39 seconds and did not appear to be hurrying. In rising, flying and alighting the air craft displayed a grace that would have delighted the soul of Darius Gress.

To Fight Philippine Mosquitoes.

Washington, Aug. 3.—Army medical experts in the Philippines have reported that Dengue fever, which was prevalent some months ago at Fort William McKinley, is not, in their opinion, contagious, but is carried by mosquitoes. It is recommended that the usual well known and thoroughly tested anti-mosquito measures be adopted at Fort William McKinley and wherever, in the Philippines there is any danger of a visitation of the disease.

Double Drowning Near St. Louis.

St. Louis, Mo., Aug. 3.—While other swimmers and scores of spectators on the banks, including women and children, thought they were joking and jeered at them, two men believed to have been W. P. Jarszawitz and W. J. Prustele, of 782 Milwaukee avenue, Chicago, each about 25 years old, were drowned late Sunday afternoon in the Meramec river. The bodies have not been recovered.

May Call on Mitchell.

Seranton, Pa., Aug. 3.—John Mitchell, former president of the United Mine Workers of America, and recently appointed mediator of the Civic Federation, it was announced here today, may be asked to act as a mediator in an effort to settle the troubles which threaten to result in a strike of the switchmen of the Delaware, Lackawanna & Western railroad.

Catholic Societies to Meet.

Boston, Aug. 3.—Delegates representing 2,000,000 Roman Catholics all over the United States, will attend the seventh national convention of the American Federation of Catholic societies, which will open for four days with a solemn service in Holy Cross cathedral Sunday, August 9.

TESTING AIRSHIPS

ARRANGEMENTS FOR FLIGHTS IN ARMY CONTESTS NEARLY COMPLETED.

BALDWIN IS TO FLY MONDAY

Government to Test Three Aerial Craft at Fort Meyer This Month—Wright Machine On the Way.

Washington, Aug. 3.—With the Wright brothers' flying machine on the way to Fort Meyer, the Herring aeroplane due in ten days, and the Baldwin dirigible ready to fly, the army airship tests have reached a point of added importance, and expectancy. Capt. Baldwin, assisted by Glenn H. Curtiss, the aeronaut and engine builder, Sunday thoroughly tested the motor and propeller which will send the new military dirigible through the air. It was announced that at six o'clock Monday evening, if a favorable wind prevails, the first preliminary trial of Capt. Baldwin's "Aeronaut" will take place. The test of the motor Sunday was satisfactory to both Capt. Baldwin and Mr. Curtiss. A little difficulty was at first experienced with a brand new carburetor which was used, but this was soon remedied, and as the speed was increased the propeller almost pulled the 70-foot framework off the supports upon which it rested.

Saturday the signal officer received a letter from Orville Wright, stating that his aeroplane will reach Fort Meyer this week. This announcement has added greatly to the interest centered in the tests. It is understood that A. M. Herring, whose aeroplane is to be delivered at Fort Meyer on the 13th is working night and day at his shop in New York, in order to complete his machine in time for prompt delivery.

It is now probable that the three aerial craft for which the government has contracted will be at Fort Meyer at the same time. Each of these airships has many new features, very little, in fact, being known about the two aeroplanes.

Orville Wright will fly his machine at Fort Meyer in the government trials at approximately the same time that his brother Wilbur Wright will fly in the aeroplane which the Wright brothers have had in France for the past year. The machine which is coming to Fort Meyer was built by the Wrights in Dayton, O.

A. M. Herring, the other government aeroplane contractor has worked on the aerial navigation problem for many years and it is said that he made a flight at St. Joseph, Mich., in November, 1898, in a machine which had many of the principles to be found in the Wright brothers' aeroplane, though on a larger scale.

Battleships Nearing Auckland.

Suva, Fiji Islands, Aug. 3.—The United States Atlantic fleet at 9 p. m. Saturday was in latitude 15.43 south, longitude 173.4 west, being distant from Auckland, New Zealand, 1,500 miles. At 6:30 o'clock in the morning the fleet changed its formation from line of squadron to single column and at seven o'clock passed the eastern end of Tutuila Island, Samoa and steamed close in along the coast, giving the people of the island an excellent view of the ships.

Acquitted of Land Fraud.

Portland, Ore., Aug. 3.—Ex-State Senator R. A. Booth of Eugene and his brother, James H. Booth, ex-receiver of the land office at Roseburg, and Thomas E. Singleton, who have been on trial for several days in the United States district court on a charge of conspiracy to defraud the government of 160 acres of public land in Douglas county, were acquitted by the jury Sunday.

New Hampshire Had Rough Passage.

Newport, R. I., Aug. 3.—The battleship New Hampshire returned here Sunday from the Tarentineary celebration at Quebec. The battleship had a rough passage from Quebec, which was left Wednesday morning. Fog enveloped her from the time she started until the Nantucket shoals were reached. Capt. Winslow had but two hours' sleep during the trip of 1,200 miles.

The Cuban Elections.

Havana, Aug. 3.—The result of Saturday's provincial and municipal elections is still hanging in the balance. Only fragmentary reports have been received from the interior but these indicate general conservative gains and point to the probability that the conservatives carried all the provinces with one or two exceptions.

Operation on Bishop Brent.

Boston, Mass., Aug. 3.—It became known Sunday that Bishop Charles H. Brent of the Philippine Islands, bishop elect of the Washington diocese, arrived in Boston Thursday, after a hurried trip across the continent from Vancouver, B. C., to undergo an operation here for nasal troubles.

Republican Literary Bureau Moves.

Washington, Aug. 3.—The Republican national and congressional committees literary bureau which has been conducted in this city under the direction of Francis Curtis, has been closed, the furniture and documents having been shipped to New York.

REPUBLICAN PRESS AGENT

RICHARD V. OULAHAN TO HAVE CHARGE OF LITERARY WORK.

Former Washington Correspondent of New York Sun Appointed by Chairman Hitchcock.

New York, Aug. 3.—Richard V. Oulahan, for many years the Washington correspondent of the New York Sun, will have general charge of all the literary work of the Republican national committee. This appointment was announced Sunday by Frank H. Hitchcock, the national chairman. Mr. Oulahan arrived in New York late Sunday night and will begin his duties Monday. Under the arrangements made for the consolidation of the press bureaus of the national committee and the congressional committee the preparation and distribution of all of the Republican literary work will be directed by Mr. Oulahan, who will be assisted by Francis Curtis of Springfield, Mass., whose selection as editor was announced two weeks ago.

The appointment of Mr. Oulahan is pleasing to Mr. Hitchcock and Representative McKinley of Illinois, chairman of the congressional committee. Mr. Oulahan is a native of the District of Columbia. He was an intimate friend of President Harrison and has held the confidence of all subsequent administrations. The confidence of Mr. Taft throughout his official life was given to Mr. Oulahan who also has held the friendship of Mr. Roosevelt ever since the latter's appointment as assistant secretary of the navy.

Mr. Oulahan is a member of the Gridiron club and has received many honors from fellow newspaper men who esteem him highly.

THE KANSAS ASSESSMENT.

More Than Six Times That of a Year Ago.

Topeka, Kan., Aug. 3.—The valuations of all property in Kansas for assessment purposes is \$2,481,766,715, according to the figures of the Kansas tax commission. These figures are practically correct. Five counties have not been equalized entirely, as the commission is waiting on some additional information, but this total includes an estimate of the values in these five counties. The total does not include the valuation of the property of the Western Union Telegraph company, which has enjoined the board from considering its property in making the assessments.

The tax levy for the state is nine-tenths of a mill, which will raise \$2,206,590. A year ago the tax levy was 6.3 mills. The valuations of Kansas property has been increased practically six times, or the value of property that was assessed has been increased three to five times and additional property, not heretofore assessed, brings the total for this year up to six times the total of a year ago, when the entire assessed valuation of all Kansas property was \$425,000,000.

Refused Them a Landing.

Willemstad, Curacao, Aug. 3.—The Dutch cruiser Gelderland arrived here Sunday from La Guaira, Venezuela. Her commander declares that he sent a boat ashore at La Guaira with an officer and was refused all means of communication with the shore. The authorities there, he says, declined to accept the letter bags and an official communication to the German minister, who is in charge of Dutch interests in Curacao. He reports also that Venezuela is preparing her forces for a defense of the country. It is generally believed here that Holland will take prompt and decisive action.

Bryan Joins a Union.

Lincoln, Neb., Aug. 3.—Lincoln Typographical union at its meeting Sunday voted to make William J. Bryan an honorary member. The action of the union was nearly unanimous, such opposition as there was being on the ground that the action might be construed as bringing politics into the union. To offset this Gov. Sheldon, who is a Republican, and friendly to organized labor, was also made an honorary member.

To Try for a Balloon Record.

Denver, Col., Aug. 3.—Roy Knabenshue, the aeronaut of Toledo, O., who will exhibit his new passenger carrying airship at the Colorado interstate fair and exposition the second week in September, will attempt to lower the world's record for a dirigible airship before returning to Toledo. He will start from Denver Saturday morning, September 12, for Omaha, 528 miles from Denver. The world's record now is 100 miles.

Rates for G. A. R. Encampment.

Toledo, O., Aug. 3.—A rate of one fare plus a half fare for the round trip will be the general rate made by the railroads from practically all parts of the country to the next annual encampment of the Grand Army of the Republic, to be held here the week beginning August 31. Extensions to September 15 for the return will be made upon the payment of one dollar.

Train Struck an Automobile.

New York, Aug. 3.—One man was killed and five others hurt, two of whom are likely to die, when an automobile was struck by a train on the Susquehanna railroad at a crossing in Bogota, N. J., late Sunday night.

Free Railroad Fares To and From St. Joseph Retail Merchants Ass'n.
