CATTLE

Good Showing of Fed Cattle, Market Holds About Steady.

The receipts of cattle continue liberal at all of the leading points, although not running quite up to the figures of last week. The total at the five points for the two expired days of the week is 129,000 and is 5,000 less than were at the same points for the like period last week but about the same as a year ago. At the local market the total for the two days is 2,000 less than for the same time last week and 2,400 less than a year ago.

The local supply included the biggest showing of fed steers that has been here for some time and while there was nothing fancy in the offerings there were some very good kinds of beefs. The market did not show much life at the start but it was not long until the feeders began to move toward the scales and prices at which they were selling were considered about steady for the most part although there was some attempt on the part of the buyers to get prices a little lower. There were sales of the good kinds of fed cattle at prices ranging from \$7.00 to \$7.50 and anything fancy would bring a higher price than the latter figure. Fair grades of native beefs sold at \$6.25 to \$6.75 and the common kind at \$5.75 to \$6.00. The market clearly showed that the trade would appreciate a larger proportion of these fed cattle to go along with these liberal supplies of range beef. The supply of rangers was quite liberal but included more cows than had been coming.

COVS, BULLS AND MIXED.

There was still a dearth of native stock noted in the arrivals of cattle at the yards but the increased proportion of cows from the range countries is helping out some in the demand for this class of possession market was not as brisk at the start as it has been noted in the recent past and there was some attempt to buy cattle at lower prices but when the stock got to moving to the scales it was at close to a steady level of prices and there was an outlet for all of the stock on offer. Buyers still claim that they are not getting enough of the canner and cutter grades of the stock and the weakness in the market here is due to the oversupplies of opening day of the week at the other river markets.

Dry fed heifers are quotable at \$4.75 to \$5.00; bulk are selling at \$3.75 to \$4.25, and common kinds at about

Receipts Light All Around But Market Rules 5 to 15 Cents Lower.

The supplies of hogs are still running light but the packing interests seem determined not to let prices go any higher. The total supply at the leading markets for the week to date is only 68,000 and is 8,000 less than for the same time last week and 36,000 less than for the same time last year. At the local market the run is 10,000 more than for the same time last week and slightly in excess of the same period last year. The buying interest was bearish from the start this morning and with a little increase in the proportion of the popular light weights they demanded and were able to secure a decline of around a nickel from yesterday prices for these kinds while for the heavier weights prices were 10 to 15 cents lower with some of the heavy sows being quoted 20 cents under prices for the same kinds yesterday. The market was a little slow to get started but the supply was pretty well out of first hands before noon.

Prices ranged from \$8.75 to \$9.55, with the bulk selling at \$9.00 to \$9.25. The bulk yesterday sold at \$9.00 to 9.35, a week ago at \$9.25 to 9.70, a month ago at \$8.60 to 9.00, a year ago at \$8.10 to \$8.25, two years ago at \$6.80 to \$7.10, three years ago at \$6.00 to 6.25, four years ago at \$6.00 to 6.30.

Stockers and Feeders.
There are still plenty of stock cattle although there is a little better outside inquiry than there was on the opening days of last week. The prices for the heavy weights are holding up in price, the heavy weights are considerably lower than a week ago but were about steady to weak. There is a large supply of cattle in the stocker division and they are generally of a pretty good kind but with the heavy weights predominating and at the late decline these kinds should be worth considering for short feeding operations. There are not enough stock heifers coming to meet the demand and prices are holding steady.

Choice to fancy feeding steers are quotable at about \$4.50 to \$5.50, medium to good grades \$4.00 to \$4.50, and fancy stock steers \$3.50 to \$4.25, and common to fair \$3.25 to \$3.75; stock heifers \$2.75 to \$3.50 for fair to strictly good kinds; stock cows \$3.00 to \$3.50, and stock calves \$3.50 to \$4.50.

PUBLIC LAND LEFT

Owned by the Government.
Large Area in the Country Still Settlers Yet Have Chance Total Now Remaining Is About 731,000,000 Acres in South West and Alaska.

MUCH OF LAND IS GOOD
Policy of Reservation for Forests and Mineral Lands Takes Much of Good Land Out of Reach of Settler—Big Reclamation Projects Now Being Directed to Swamp Lands—Much Good Land to Be Had Cheap.

Washington, Sept. 19.—The matter of public land is one not well understood in the country, and reference is made from time to time to the fact that there is still a vast area of land still owned by the government. But it must be said that the days when homestead claims could be made at nominal cost are passing. The rapid settlement of the west has changed this. There is still, however, a large domain of land held by the nation, a considerable part of which will ultimately be thrown open to settlement. To be exact, it comprises, according to a recent report, about 731,000,000 acres, located principally west of the Mississippi, in the south and in Alaska. A considerable proportion of it—294,000,000 acres, exclusive of that for military purposes—has been withdrawn from settlement, some of it being unsuitable for that purpose, although a portion of it will eventually be reclaimed by irrigation; in the latter class are 17,000,000 acres. Of the 294,000,000 acres mentioned as not being available for settlement, national forests aggregate about 193,000,000 acres, including a large area in Porto Rico.

The greater part of this land is in Alaska, where 26,761,000 acres have been withdrawn from settlement as national forests, as has also all land there containing coal, estimated at about 7,850,000 acres. Not all of the latter is commercially valuable, however.

COUNTRY IS HOLDING OWNS.

It does not look as if the bears in oats were having things as easy as they were and it has become a little too popular for press the selling side of the market because of the big crops and the big stocks. Country offerings have been small for a few days and receipts have fallen off sharply. The market gave hint of fresh strength Wednesday, but it will not make much headway, according to authorities, if wheat and corn continue heavy. Farmers have stopped selling and the movement has dropped below that of last year. Many traders have regarded it as safe to sell May oats short, but with prices down below 20 cents in the country the men with the goods are not letting go of them at a rate which makes it easy selling for the advocate of lower prices.

ARE WE COMING TO THIS?

Brooklyn Eagle: Eggs are to be sold by the pound to insure a square deal. The moral law is working its way through our food and may reach the hotels and restaurants some day. Scales will be provided at each table and when the bill of fare calls for "two ounces of egg, ten cents," the exact quantity will be furnished to the consumer or he will send out for a policeman, and, pointing to the scales, will be able to convince the officer that a crime is being committed. The indefinite and misleading words, "portion" and "half portion" will no longer hide the guises of the cook, modified as it may be by the fact that the patron is not tipping the waiter. On the contrary, the bill of fare will state precisely that "fourteen ounces of beef are supplied, together with one and one-half ounces of fat and three ounces of gravy, showing a test of forty-two per cent beef dripping, the balance being protein and carbonaceous elements all approved by the Food and Drug Act and the amendments thereto."

A SILVER PITCHER.

Heretofore in the Interstate Live Stock shows it has been the custom to award a silver loving cup to the winner of the championship in the individual fat steer class. This year the management has decided to make a change from this custom and instead of the loving cup a handsomely designed and carved silver pitcher is to be given. It is argued that the loving cup is only an ornament, while the pitcher is designed to be something useful as well as ornamental. The pitcher will arrive in the city this morning and will be placed on exhibition in an up-town jewelry store.

All is hustle and bustle in and about the show grounds this week, getting things in readiness for the opening of the show next Monday. A force of decorators arrived yesterday from Chicago and have begun the work of dressing the show grounds; the live stock exchange and other buildings belonging to the stock yards company in the colors of the show, which are red and white. Several consignments of stock for the show have already arrived and they will be coming along all week, but the big rush of arrivals will not begin until about Saturday morning, as much of the stock to be shown here is at other shows this week.

DEVELOPING THE SOIL.

Commencing on the address delivered by James J. Hill at the Portland Fair and Live Stock association, the New York Tribune says there is no real cause for discouragement in the agricultural outlook. New methods in agriculture will double the present productive capacity of the country and give it once more an ample food supply. The agricultural department has done a work of enormous value in spreading new ideas in regard to the productiveness of soils and expedi-

Daddy's Bedtime Story—"Who? Who?" Said the Owl

"ONCE upon a time," said daddy, "there was an old owl which had its home in a big tree in the woods near a little country village. The owl, you know, is a wise bird—the wisest of all the birds. This owl had the habit of asking, 'Who, who? just at the right time.'
'Did he really ask questions, daddy?' asked Evelyn.
Daddy laughed. 'No, dear, he did not. But the owl's cry, you know, sounds just like 'Who, who?' so the people thought that the owl was asking questions.
'One evening just as it was growing dark some mischievous boys met in the woods near the old owl's home. They were going to play a trick on some one by playing ghost. One of the boys was to put a sheet about him, stand at a gate and wave his arms while another boy threw a stone against the door to make the owner of the house come out. But while the boys were laughing over the fun they were going to have one of them said, 'But whom shall we play the joke on?' Just then the owl, which had heard them talking, said in his deep, deep voice:
'Who? Who? Who?
'The boys did not expect to hear anything just then, and they were scared almost out of their wits. They thought some one had overheard them, so they ran home and gave up the idea of playing the trick.
'Another time there were two bad men traveling through the country looking for a house to rob. When they reached this village they stopped in the woods to make their plans. One of them said:
'Let's go and rob the house of Farmer Robinson. He's rich, and we'll get lots of money from him.' But the other robber said:
'No, he's got a big, fierce dog, and, besides, he keeps a gun behind the door. Let's go instead and rob the Widow Jones.'
'Just then right behind them they heard a loud, deep voice saying:
'Who? Who? Who?
'They thought some one had overheard them, and it scared them so that they started running and never stopped until they were far away.
'Another time the schoolteacher was walking in the woods. She had promised a prize to the boy or girl who had done the lessons best. Two children had received equal marks, and she did not know to whom to give the prize. As she walked she said to herself: 'Shall I give the prize to Willie Brown or Susie Green?' Just then the owl said:
'Who? Who? Who?
'But the teacher was wise. She knew it was the owl. 'I think, Mr. Owl, I'll give the prize to each of them,' she said."

on a warm dish when ready to serve. A tomato sauce is poured over the cheese just before sending in to table.
A New Recipe.—A novel way to fix veal or beef loaf for a luncheon or picnic is to put two or three hard boiled eggs in the center of the loaf before baking and then when it is cut into slices the center of each slice adds much to the appearance.
Meat Loaf.—One and one-half pounds Hamburger steak, one-half pounds salt pork, six crackers, rolled; two eggs beaten. Add to one-half pint milk; mix with above; salt, pepper, pinch of paprika, sage, and two small onions, chopped fine. Press into pan after having been mixed thoroughly, and add one-half pint of milk. Into which you put two tablespoonsful of bacon fat; throw over top of loaf; it will absorb all of the milk in baking. Will serve fourteen people; the cost of which is less than 30 cents. Bake two hours in slow oven.

THE LAUNDRY.
To Wash White Silk.—After washing carefully in the usual way, add one tablespoonful of wood alcohol to the rinsing water. It will prevent white silk from becoming yellow. This is recommended by one who has had great success in laundering white silk garments in this way.
To Set Colors.—To set green, blue, lavender, and pink colors in wash seeds soak in alum water before washing. Two ounces to a tub of water. Black, dark blue and gray should be soaked in strong salted water.

IN WOMAN'S REALM

LOAF RECIPES.
Veal Loaf.—Buy one-half pound ham trimmings and one and one-half pounds veal. Put the meat in water, season and boil until it is tender. Have a cupful of stock left. Drain the meat and run through a food chopper. Put a long narrow pan put half of the meat on which lay, end to end, four or five hard boiled eggs. Now put in the rest of the meat. Over this pour the stock into which has been dissolved one tablespoonful of gelatine. Set aside to cool and when set, slice thin and serve with lettuce or parsley.
Cheese Loaf.—Grate one-half pound of cheese, mix one pint of coarsely crumbed bread with one-half pint of minced boiled ham from which all fat has been removed. Line a buttered pan with some of the breadcrumb mixture; place over the crumbs some of the cheese and continue in this manner until dish is filled; add salt and pepper to season, and pour over all one pint of milk. Let stand for five minutes, then bake in moderate oven for twenty minutes. Run a knife around the edges of the pan, inverting

PRINTING PHOTO ON APPLES.

Occasionally much interest is aroused by the appearance in a fruit store of a few apples on which appear perfect photographs, not pasted on but apparently a thin skin of the fruit itself.

Though interesting the method of making picture apples is simple and not at all difficult if the fruit is of a red variety. Just before the apple begins to turn a photographic film is fastened about it in such a manner that it will not move and blur the picture. The foliage is then removed so that the apple is exposed to the direct rays of the sun, and nature does the printing.

Probably some clever advertiser will take advantage of this method some day, and we may be handed an apple on which is attractively etched something like "If I Give You Pains, Take Pepper Peppin Pills."

Sheep seem to be able to subsist on the poorest land of South America's furthest extremity.

TALLOW, PELTS, WOOL, FURS and HIDES

THE hide market is still hanging fire, occasional sales being made to tanners, but they are still talking lower prices and only buying when they must have hides. It is predicted, by those that think they know, that we will sell hides one cent a pound less than at present prices within the next thirty to sixty days. We do not pretend to say what will happen. We will wait and see.

Old Joel Whiskey

For Home Use, it is absolutely necessary to get pure whiskey. It is imperative to have the best. Old Joel Whiskey is a drinkable whiskey with an unequalled flavor and smoothness. It is a genuine whiskey—absolutely free from ether, aromatics or fuel oils, therefore invaluable for home and medicinal purposes.

THE BEST TEST of beer is what people do about it; not what somebody says. And what the people actually DO is to buy **Budweiser**.

Americans have a reputation for sensing character; and once they prove it they'll stand without hitching. That's why they're standing by **BUDWEISER** today—they have proven the Budweiser-character for pre-eminent purity and quality.

Budweiser sales are the highest in the world, yet the Budweiser-price-at-the-brewery is also the highest. If we ever permitted **Budweiser** to lose in quality, it would inevitably lose in popularity and sales. But we won't; therefore it can't. **Budweiser** is its own best test.

PROMOTING ALFALFA GROWTH. Dr. Deal of the Michigan Experiment Station, in an address not long ago, laid down the following ten rules as necessary to make a growth of alfalfa for a period of ten years or more:

1. Select land that is deeply drained. Swampy lands or soils in which the hard pan comes very close to the surface will not make a proper place for alfalfa.
2. Prepare the land as for a crop of wheat.
3. If the soil is not alkaline, apply air-slacked lime.
4. Sow about 4 pounds of good, clean seed to the acre at the time of corn planting, or else early in August, if the soil is moist then.
5. With alfalfa seed sow orchard grass or tall oat grass, about a peck each to the acre.
6. Excellent results may also be obtained by adding 2 pounds of timothy seed.
7. Under no circumstances should a so-called nurse crop be sown.
8. If nodules are not produced, on the roots, inoculate with soil containing them.
9. Clip young growth from one to three times.
10. Cut when a few plants of alfalfa are first in bloom.
11. Leave a moderate growth in the fall as a mulch.

The increase in the number of insane in the state of New York during the last twenty years has reached 97 per cent, while the population has increased in the same time only 33 per cent.

Canada's public debt on February 28, 1910, was \$28,558,880 net, an increase of \$20,500,000 in twelve months. The increase is small compared with the great railway work Canada is doing or aiding to be done.
