PROTECT THE BIRDS

International Movement Submitted to Our Government.

Fourteen of World Powers Be Arrayed Against Butchery of Feathered Tribe of Globe for Millinery Ornamentation.

New York—To array 14 of the world powers against the butchery of the birds of the globe for millinery ornamentation is the object of an international movement...

For the first time in history the ornithological authorities in their international conclave are reported to have been able to unite upon some simple course of action that would best check the economic loss of billions of dollars each year...

"Americans need the help of the great world powers—as every other people need our help—to check the destruction of the birds who work for our common prosperity and health."

JAPANESE ARE LEAVING U. S.

Figures Show Exodus in Last Two and One-Half Years Exceeds Rate of Immigration.

Chicago—K. Yamasaki, Japanese consul in Chicago, made public the other day a statement prepared by Matsuo Nagai, acting consul general of Japan in San Francisco...

NO EYE JABBERS IN MOSCOW

Women Cannot Get Aboard Cars if They Have Hatpins With Uncovered Points.

Moscow.—The prefect of this city is suddenly popular with the men. But the women regard him as a meddling and ignorant person.

RIDES A BUCKING PORPOISE

Too Big to Land by Hoop and Line, Sea Denizen Gives Fisherman Startling Experience.

New York—Captain Charles Penny, of Flinders, L. I., is probably the first man who has successfully ridden a bucking porpoise.

"Wait a minute, boy; I'm going to have that fellow," said Penny. Without removing shoes, clothes or hat, he leaped overboard, landed astride of the broad back of the fish...

"Here's a collection of facts that are of no practical use to anybody," said the assistant. "All right," answered the editor. "Head them up 'Things Worth Knowing' and let them go."

HAD A FRIENDSHIP FOR ALL

Little Girl's Cheery "Goodby" That Called Forth Sympathetic Response From Fellow Passengers.

Her mother said: "Oh, dear! Isn't that awful? What will people think?" But the people themselves seemed to think it the prettiest scene they had witnessed that day.

"Good-by, everybody," she said. The words carried to the far end of the car. They made every one sit up. Two or three persons called out a responsive "Good-by," two or three said "Bless the child!" and all smiled.

LOVE A TREMENDOUS POWER

Is the incalculable and Universally Recognized Impetus of All Successful Social Machinery.

Love is the wind, the tide, the wave, the sunshine. Its power is incalculable; it is many horse power. It never ceases, it never sleeps; it can move with the globe without a restive place.

COME BACK HOME.

Missouri Home Coming Movement Reaching Far Away.

"The coming back" of homesick disappointed and despondent Missourians, who have gone elsewhere for fortune seeking in the last ten years and have failed in their quest, has reached as far away as Merrill, Wisconsin; Spokane, Washington and Imperial, California, not considering places closer at hand. From everywhere arises the reply of, "we hear you and we will be with you, if we can."

In this tone runs the advance information from Labor Commissioner J. C. A. Hiller's 1910 Red Book, taken from the chapter devoted to this interesting and thrilling subject. The letters which are pouring into Jefferson City in reply to the invitation of Missouri to its unfortunate pilgrims, who have wandered away and have not fared well elsewhere to come back, speak well for the wide circulation of the newspapers of St. Louis, Kansas City, St. Joseph, Springfield and Joplin. It would take a bushel basket to hold all and they come from points all over the South, North and West.

Hiller's "coming back" crusade is being taken up and helped along in an enthusiastic manner, not alone by Missourians, who are still here, but also by the rural press, which is advising all farmers to remain here and be prosperous, contented and happy. One editorial comment, taken from a Morgan county weekly reads:

"Can Missourians come back?" You bet they can, and when they do the glad hand will be extended, and the fattest calf killed, two of them if necessary, to show them that we hold no grudge against them for their error in leaving the Imperial State."

Stay at Home. Supervising Statistician A. T. Edmondson of the Bureau of Labor Statistics, who has been named in charge of the "home coming" crusade by Commissioner Hiller, gives out for publication the following letters just to show the movement is fast becoming a reality, and to let others, who are thinking of leaving this good old state to try their fortunes elsewhere, know what has happened and the majority of those who roamed away, and how anxious they are to "come back" to Missouri.

Newton, Scott county, Arkansas.—Send me your Red Book, please. I want to come back and am going to come back to dear Missouri. If you want to know my reasons I have twenty-five good ones. I want to be within the boundary by January next.

Imperial, California, Aug. 1, 1910.—I have just read your appeal to all Missourians to return to old Missouri by January, 1911. I, for one, aim to join the home coming crusade. I have been away from old Missouri ever since January, 1904, and I have tried several different Western states and none of them seem to me like my home in Missouri, where I was born and raised. I think it will be a great home coming for us all, and won't it be a happy meeting to see that great multitude of 25,000 to 30,000 Missourians flocking back to their native state. I am living in Imperial Valley in the extreme southwestern part of California. The thermometer has stood every day for the last two months from 110 to 122 in the shade. I tell you it makes a person feel like they will melt away. We have killed over 160 rattlesnakes around our house this summer. If there is anyone that doubts this statement I can show them for we have the rattles in our house to prove our statement. While I am writing this letter the thermometer is standing at 122 in the shade; here is heat wishes to all Missourians and wishing success to you in your grand undertaking. Please send me literature.

Cass County Farmers. Harrisonville, Mo., Aug. 1, 1910.—The following named men are a few of the good farmers that have gone from our county (Cass county, Mo.) during the past year or so. They, we believe, want to come back to the state of good homes. Send them some printed matter, or send us some and we will forward it to them and others we know that are only waiting for an invitation to come home. These good Missouri people hate to acknowledge that they made a mistake and are only waiting for some one to ask them to come back. I believe they will come if invited. Just an excuse to come is all that is necessary. Will send you other names later on: Mr. R. E. Manley, 908 Kentucky Ave., Rosewell, N. M.; Wm. Daugherty, Artesia, N. M.; E. E. McCrory, Hereford, Texas; D. A. McCrory, Stratford, Texas; J. H. Stair, Douglas, Oklahoma; W. T. Dorchel,

Stratford, Texas; J. E. Wilson, Amarillo, Texas.

St. Louis, Mo., July 31, 1910.—Having read a good deal about the home coming crusade in Missouri I want to state my son's case to you (unbeknowning to him). He bought a farm in Crawford county, one mile from Weaco about 75 acres. He was doing fine; had a good crop, but the bad weather this spring came very near ruining him. As the place is only part paid for he could not pay the incumbrance, so he sold his horses and furniture, paid the interest on the note and went to Chicago to work at his trade, an electrician. Now he is not only a good electrician, but a good farmer as well as he was raised on a farm. My object in writing to you and have you write to him is, he has a wife and four children and I know he would do better on a farm and I almost believe he would come back, if not to his old place, to some other place in good old Missouri. Hoping I am not asking too much.

Wants to Come Back. Cincinnati, Arkansas.—I would like to come back. I left St. Louis two years ago and can't come back. I would like to get 40 acres and make a home. I can do general carpenter work. Was raised on a farm in Illinois. Can give St. Louis and Illinois references. Would like a farm on shares for two to five years, everything furnished. Can raise \$500 by January 1, 1911. Am 42 years old, married, no children. Any kindness much appreciated.

Salem, Illinois.—I see in the papers your crusade to bring back to Missouri all farmers who have left there. Now I would like to have your advice about Butler and Ripley counties. Are they healthy and productive? If you cannot give me advice, could you tell me some one else to write to. I am from Boone county.

A Prodigal Son. Mellette, Okla., July 28, 1910.—With much interest I have just read your "come back to Missouri" movement as published in a Missouri paper. I have to acknowledge that I am one of Missouri's prodigal sons who came to this country in 1901, and have been here with my family ever since.

For the state of Oklahoma I have no words of commendation, but, in the language of the article referred to I do sometimes get a little "homesick." I was raised from boyhood in Howell county, and afterwards lived for five years, just before coming out here, in Reynolds county.

Kindly mail me a copy of your "Red Book," together with maps and other information relative to your project, and oblige.

Merrill, Wis., July 28, 1910.—I was once a resident of Missouri, and like a great many more moved away to try and better myself, but have always been in touch of what was going on through friends and Missouri newspapers to which I am a regular subscriber. I am thinking of moving back and engaging in general farming and stock raising. I would like to have some of your advice and literature. Also let me know if there is any government land around Ava, Mo., still open and how many acres can be taken up. Also if you can assist me in getting reduced rates if I decide to come back. Tell me all you can in regard to the soil, climate and people in and around Ava and east of Ava. I have a father and mother and one brother living in Lakdonia, Mo., and one brother in St. Louis. Would like to hear from you soon, as I am anticipating a trip down there this fall.

Back to Missouri. Sherwood, Ore., July 29, 1910.—Saw in a St. Louis paper that you are trying to form a crusade to get Missourians back to the native state. I wish you would please send me, and also my friends, a book apiece. I did live in Callaway county, Missouri, and I am not as sick as some seem to be. I expect to move back to Missouri. I am a native born Missourian. Born in St. Louis, Mo., lived 44 years in Missouri and expect to be in Missouri as soon as I can sell my farm here. I can give you names of several people that have left Missouri.

Montrose, Colo., July 28, 1910.—Enclosed find names and addresses of some former good citizens of Missouri who I think would be just as well contented if they were back there: Fred Fieble, Admsfield, Wash.; D. J. Hayden, Wenatchee, Wash.; Etanley T. Hayden, Wenatchee, Wash.; John H. Hayden, E. 1817 Jackson Ave., Spokane, Wash. Please send circulars to same. I want to buy 40 or 20 acres of improved land in Missouri; would prefer to locate north of Missouri river; want some shade trees. I have lived in Kansas, Washington and Colorado. Missouri is better than all.

The first balloon ascent was made in 1783.

BIG CROWDS AT SIOUX CITY

Live Stock Show Proving Big Feature, City in Gala Attire.

Sioux City, Ia., Sept. 20.—Under the most favorable weather conditions the annual Interstate fair grounds were thrown open here yesterday morning. Entries in the live stock department are the largest in the history of the fair. The finest stock from the four surrounding states, Iowa, Nebraska, South Dakota and Minnesota are on display and it is conceded to be the grandest assemblage of the kind ever brought together in this section of the great northwest. The whole city is in holiday dress, no expense or pains being spared in decorating the main streets and principal business houses. Extra trains are running on all the railroads leading into the city and bringing in thousands of visitors.

Yesterday was children's and old soldier's day and the little folk and grizzled old warriors were there in large numbers as the free guests of the fair association. However, a record breaking crowd for Monday paid their way into the grounds.

Judging of live stock began this morning at 9 o'clock and will continue until the awards are all made. An exceptionally large crowd is present. Racing occupies the leading place on the program for the afternoons. There is a big list of entries in each speed event and with the track in excellent condition and it is expected to see some speed records broken during the week.

GREAT GOLD STRIKE AT OURAY. Ouray, Colo.—Another strike of enormously rich gold ore has been made on the Ironclad side, on the Diamond trail, near here. Men with crowbars dug into the side of the trail at a spot passed almost hourly by veteran miners and prospectors, and in a few minutes had broken into a cavity the walls and floors of which were of almost pure gold. Three weeks ago a similar strike was made at the same place.

During twenty years charters for 203 railroads, aggregating a mileage of 82,000 miles, were issued, and only twenty-five of these constructed a part of the line for which they were organized.

Sick Women Cured!

\$3.00 RECIPE FREE.

A God-Send to Many Sufferers.

There seems to be at least one noble woman who has not only the ability but the willingness to help suffering women. Dr. Bertha C. Day of Fort Wayne, Ind., has proved beyond question her deep-seated sympathy for sick and discouraged women. She offers to send free of cost, charge or expense to any woman suffering from leucorrhoea, or whitish discharge, spermatorrhea, ulceration, displacement or falling of the womb, profuse scanty or painful periods, uterine or ovarian troubles, change of life, or any other female trouble, a specially selected recipe for the cure of her particular ailment; a recipe used by her in the successful treatment of women who suffered as you now suffer.

We know at first hand some of her remarkable cures. We have letters from all over the country testifying to her ability to cure ill women after other doctors and even operations failed. One cured patient in Clinton, Mo., writes:

"May the blessing of God rest upon Dr. Day in her noble work of relieving sufferings of women, is the prayer of one who knows by experience." From Webb, Miss., a grateful woman writes: "It was a Godsend to me." Another in Spencer, Va., says: "It has done me more good than all other medicines."

And so we say to you, write at once; tell what and how you suffer; address your letter to Dr. Bertha C. Day, 427 Day Bldg., Ft. Wayne, Indiana, and she will send you free in plain sealed envelope a proved recipe for your cure in the privacy of your own home.

Parisian Cloak & Suit Co.

The Spot for Values. 121 South 8th Street.

The St. Joseph Stock Yards Co. Extends a cordial invitation to the public to attend the Fifth Annual Live Stock and Horse Show, to be held in St. Joseph the week of September 26 to October 1, inclusive. The exhibition of all kinds of live stock will be larger and better than ever exhibited before; an especial feature of which will be the carload exhibits of feeding and fat cattle which will be sold at auction Friday, Sept. 30. Fine entertainment provided for each afternoon and evening. This will be a good week to be on the market with your stock as packers want everything in the killing line, and commission men will be active in securing consignments and buyers for stock and feeding cattle. EXCHANGE DIRECTORY. Following is a List of the Commission Merchants in the Live Stock Exchange at the St. Joseph Stock Yards. Blanchard & Co., rooms 326-328. Byers Bros. & Co., rooms 202-204. Wholesale Store, Fourth and Francis Streets

This Gives Everybody an Opportunity to Buy at Wholesale Prices.

H. M. HUNDLEY, W. A. GRAHAM, J. M. BRADY, RECEIVERS FOR **Hundley Dry Goods Company, St. Joseph, Mo.**

LIGHTS ON THE SUEZ CANAL

Every Vessel Passing Through the Big Ditch Must Carry a Number of the Search Variety.

Every war vessel carries from one to twenty searchlights, and every vessel of any description whatever passing through the Suez canal has to carry one of special pattern. A searchlight consists essentially of an arc lamp of special form, a parabolic mirror and a base to hold the lot, the case being mounted so as to be capable of movement in two directions, viz., vertically and horizontally. The hood, as this case is called, is made of sheet steel about 3-32 inch thick. The turntable trunnions, etc., are cast in gunmetal, the arms which support the hood are of cast steel. The lamp box is formed as part of the hood. The mirror is carried on springs in the back cover, and at the front of the hood is a "front glass" mounted in a gunmetal ring, and the dispersion lens, when carried, is hinged on in front of this. Training is carried out by means of a worm and worm-wheel, or by a rack and pinion. Slowing is effected by means of a pinion which gears into a crown wheel on the underside of the turntable, or else it is done directly by hand. The Suez canal regulations require that the projector shall be capable of giving the light required under two different conditions—in the first case a broad, flat beam of light illuminating both banks and the canal uninterrupted, this being used when no other ship is approaching; in the other case they require a beam having the same angle of divergence and consequently the same width as the first, but divided into two portions, with a dark interval between, thus giving light at both sides but not directly in front and so not interfering with navigation of the approaching vessel.

AN EDUCATED COOK NEEDED

Kitchen Experiments Are Often at the Expense of the Physical Well-Being of the Household.

Social standing depends partly upon the nature of the individual's calling with regard to the preparation necessary to the exercise of his function. The civil engineer is presumed to be a more agreeable companion for cultured persons than the stable boy, because of his education. The lawyer is required to know more than the scavenger. The surgeon is likely to be more widely read than the pugilist. The diplomat is, presumably, better informed than the chimney sweep. The cook, as at present constituted, belongs at the bottom rung of the social ladder, because her calling has no educational requirements. The in-

SCHOPENHAUER AND SHAKESPEARE, OR INTERPRET WAGNER AND STRAUSS.

But the class is not required to know the difference between the meanings of "physiology" and "phlebotomy." The cook is not expected to know anything more about the ingredients that should enter into the composition of a corn dodger than she can learn in the course of often-repeated experiments and at the expense of the physical well being of the household. She neither knows nor cares what the effect of certain foods may be, and the employer shares her ignorance. It is said to be a fact that more persons die before their time from the results of eating than from drinking.—Louisville Courier-Journal.

A Nice Distinction.

He was hurrying for the train, somewhat impeded by a clumsy crate containing a large, live turkey. As he approached the gate the guard stopped him with a gesture. "You can't take that through here," he said. "That'll have to be checked or go by express." "But I can't stop," declared the passenger. "I've got to get this train," and he tried to push through again. "The guard held him back. "That is baggage," he said, firmly, "and it must go in the baggage car." "Oh, no," replied the other, with a charming and confident smile, "it's luggage. Don't you see I'm lugging it?" and he had slipped by before the astonished guard had caught his breath.—Youth's Companion.

Five Aces Disastrous.

In some states it is considered extremely unhealthful to hold more than four aces in a poker contest. In Arkansas any man finding five aces in his hand will do well to do his best to keep it to himself and be careful about not saying anything about it to any one outside of his own immediate family. The condition of Edward Wolfe of Blytheville, Ark., now in the People's hospital, a razor bruise from ear to ear, is enough to convince any one of the truth of the above statement. In an argument following the display of five aces by Wolfe in a poker bout near the Missouri line, Wolfe was injured under the chin. It is thought that his five aces may prove fatal. Needless to say, he has resolved to play bridge with feeble old women when seeking amusement at the gaming table hereafter.

Raspberry Jam From Carrots. London.—The tricks of the food-

THE DAILY MENTAL MENU

Assimilation and Elimination of the Contents of the Big Newspaper.

The meal is prepared for one person; the menu for many persons. Now, the newspaper is not a meal; it is a menu. It is not edited for one person but for many persons. Not for "the mass" or "the masses," that is a corroding superstition. There is no "mass" to read a newspaper—only individuals. But into the newspaper there is put a wide variety of things because there is a wide variety of persons in the world this year.

A Nice Distinction.

The man who wants only a bunch of grapes and a little tea and toast for breakfast cannot understand the individual next him who is of huskiness, who demands buckwheat cakes, sausages and pie; yet the hotel must take in both. So must the newspaper. The art of newspaper reading may be divided into two parts—elimination and assimilation, the St. Louis Republic says. No one individual not concerned in the making of newspapers has any business with the whole paper. The reader should select what concerns him in the day's news and pass by the rest on the other side. Failure to do that leads to the reading of much more than can be read carefully. Result: Misty impressions and vague, purposeless thinking. The real news of the day for any one human being is contained in not more than a dozen "stories;" choose the dozen that concern you and concentrate on them. Don't try to cover everything in the paper—not even everything on politics or sport. There are 20 different oyster dishes on a good menu, but to get enough nitrogen to keep from starvation a man would have to eat 14 dozen a day.

SCIENCE OF SCARPOLOGY

It is the Analyzing of Down-at-the-Heel Condition of Your Fellow.

Those who have hitherto been interested in analyzing the down at heel condition of a section of their fellow creatures may be pleased to hear that they have been dabbling in a science distinguished by the name of scarpology, of which Doctor Garrier of Basle, Switzerland, is the chief exponent. It is the art of knowing men and women by the examination of their footwear. Criminal investigators as well as others who wish to read character accurately cannot afford to disregard scarpology, says a writer. Given a pair of shoes worn by their owner for at least two months and he can tell

SAFEGUARD OF ALL FREEDOM

Without Liberty of the Press the World Would Return to Its Old Barbarism.

The liberty of the press is the highest safeguard of all free government. Ours could not exist without it. It is like a great exulting and abounding river. It is fed by the dew of heaven which distill their sweetest drops to form it. It gushes from the hill as it breaks from the deep caverns of the earth. It is augmented by a thousand affluents that dash from the mountain top to separate again into a thousand bounteous and irrigating streams around.

Curious Spoons.

At the present time we are familiar with all manner and shapes of spoons intended for divers purposes, but some of the old-fashioned ones are certainly curiosities. For instance, there is the long, marrow spoon, used a couple decades ago for the extraction of marrow from bones. This spoon was made double, one end being employed for small bones and the other for those of larger bore. Another odd spoon was used for mulberries. This had a perforated bowl, and with this a little sugar was sprinkled on the berry, which was then conveyed to the mouth on the spiked end of the handle.

Another Panacea.

A physician of some note has just announced another panacea for all the ills humanity is heir to. It consists simply of sunshine. It must, however, fall upon the bare skin. Among the afflictions which it is said to have cured by this means are tubercular ulcerations, skin diseases, old cuts and sores and obesity. "An abdomen triple plated with adipose tissue will melt like snow under the caresses of the sun," it is declared. "To take a sun bath," the doctor explains, "it suffices simply to stretch one's self completely unclothed in the direct rays of the sun, taking care always to protect the head, and above all the back of the neck. There must be no intermediary between the skin and the sunlight, for the chemical power of the solar rays is completely nullified by clothing and by glass. The inclination of the rays is also important; when they fall perpendicularly their action is much greater; oblique rays glance on the contrary, from the surface of the skin, and are without effect."

Unwise Neglect.

Never take off to-morrow the collar you should change to-day.
