Live Stock in Sight.

The following shows the estimated receipts of cattle, hogs and sheep at the five principal western markets: Cattle Hogs Sheep 2,000 23,600 10,000 1,000 8,000 6,000 1,000 9,700 2,200 6,000 7,500 2,100 Kansas City .....

2,000 28,000 1,000 8,000 1,000 9,700 600 7,500 800 1,000 Ecuth St. Joseph ... East St. Louis ....

basis of prices and the market for the week is closing in comparatively good and encouraging tone. Of the week's trade the best thing that can be said is that the local mar-

ket has been holding up splendidly as compared with all of the outside points and prices have been main-tained on a strong level as compared with these other points. Prices for the general run of fat steers have been declining at all points and this market has not escaped but the depreciation has not been as severe here as at the outside points. This has been proven by split shipments and by sales of cattle that have been forwarded from this point after having been bid by the local buyers. In a general way fed steers are 10 to 15 cents lower than at the close of the previous week and in instances big heavy cattle have sold more than 15 cents lower. But there has been no time when there was not an outlet for the steers. This, too, in the face of the fact that the supply of fat today brings the total for this market these kinds here this week have been steers has been proportionally large for the entire week. While there has been the decline noted the market for the week is closing up in good active tone and prices for Thursday were a shade better, than on earlier the week at all of the leading points the week. The outlook seems days of the week. The outlook seems to be fairly favorable but a spread in the range of prices seems probable demands were made for a 10 cent re-

to be fairly favorable but a spread in the range of prices seems probable within the next few weeks.

The best steers to sell here in load lots during the week made \$6.30, there not having been any strictly choice to prime beeves offered; the bulk of medium and handy weight steers have been selling in a range of \$5.75 \omega 6.25 and the choice fat light weights have been getting close within the same range. Not many killer steers have been selling as low as \$5.50.

COWS, BULLS AND MIXED. In some cases of heavy cows there has been some decline noted during the week but for the general run of she stock the supply has not been above the demand at any time and above the demand at any time and the market has been a good and active one right along. There are some of the choke kinds of fed heifers coming and they are meeting with an active demand right along. Prime lots of little steers and heifers mixed have sold up to \$6.00 during the week and straight heifers have made \$5.50 \$\text{0.565}\$ right along. Top for cows has been around \$5.35; the bulk of the dressed beef cows and heifers have been selling in a range of \$4.50 \$\tilde{\theta}\$. with canners and cutters at \$4.50 \$\tilde{\theta}\$. with canners and cutters at \$4.50 \$\tilde{\theta}\$. with canners and cutters at \$4.50 \$\tilde{\theta}\$. down. The market in this line is in

good condition and there does not seem to be a prospect of overstocking the trade. There is a big demand for stock cows and helfers and not many fre coming that fit this class of trade. In the calf trade it is coming time of year for increased supplies of young veals and the market has taken a long drop, prices being 50 to 75 cents lower than at this time last week for all grades of years but good

steady, as there is a good demand for them to be taken to farms and held for running on grass. In the bull trade there is a demand that is con-tinuing to use the few right good butchers at steady prices but for the bulk of the bulls that are coming prices are off fully 15 cents for the

veek.

STOCKERS AND FEEDERS.
All traders interested were glad to see a light supply of cattle marked for the stocker and feeder division this morning as with a big assortment to fixed cattle on hand and a poor outlet local dealers were not inclined to increase their holdings unless at lower cost. However, supplies were hardly enough to establish a market and with prospects of making a dent of considerable proportions in their holdings before the week closes buyers took the light receipts in good season at generally steady prices as compared with yesterday.

Dullness in the country demand

Market Has Been Well Sustained Compared With Other Points.

There was but little to the market of today. Arrivals were not to exceed 500 and of these there were but a few scattered small lots of fat steers that were closed out at a steady basis of prices and the market of points.

Sale at 10 to 15c lower prices.

Good to choice feeding steers are quotable at \$5.25 @ 5.75; medium to good grades \$4.50 @ 5.25; good to fancy stock steers \$4.75 @ 5.50, and common to fair \$3.75 @ 4.50; stock helfers \$4.00 @ 4.65 for fair to strictly good kinds, at last week's close. Improvements in conditions at eastern dressed mutton centers has been the chief factor.

Yourlings and Cales. ton centers has been the chief factor in enabling sellers to put the market on a higher basis. On Monday with the largest single day supply of the season on hand sellers were expecting a lower market but were agreeably surprised when packers agreed to take all offerings at steady figures on the basis of last week's advance. On succeeding days of the week receipts have been held down to moderate proportions and with a good demand prevailing at all times seller have fared better than was expected.
Big end of the week's supply has been lambs mostly from Colorado feedlots. Quality has been attractive and top for the week is the highest for some time. Best lambs seen here this week arrived Thursday and were this week arrived Thursday and were this week arrived Thursday and were at \$6.35 with the bulk of the seph. Mo. Total ..... 175 put over at \$6.35 with the bulk of ing in a range of \$5.85@6.25. Yearwere wanted at \$5.65 and that figure took the bulk of the week's supply Ewes reached \$4.75 but they were in west lambs ..... 77 200 west lambs.....

the grades that sell at \$4.60@4.65 256 west lambs...... 76 west lambs..... 77 248 west lambs..... 280 nat lambs. . . . . . . . . 74 174 west lambs..... 92 west lambs.....

### STOCK CATTLE TOO HIGH.

"We would like to have some light cattle but they look too high," said Nels Jensen of Fility, Neb. who was at the yards yesterday with a load of good steers that were bought for the New York Butchers' Dressed Meat association at a price that was within 5 cents per hundred pounds of the top of the market. This sentiment of Mr. Jensen is one that is common of late that were had a sent that the sent that were some light outlined the demands of Medero, which he said were as follows:

Abolition of the reelection of president.

Election of the governors in a state that the following that the said were as follows:

sociation at a price that was within sociation at a price that was within the cents per hundred pounds of the top of the market. This sentiment of Mr. Jensen is one that is common of late and yet it is found that there is an outlet for all of the sock cattle that can be found on the markets. This points to one of two conditions for next fall and winter, viz: The conservation of the land laws so that the plantations now as extensive as from 1,000,000 to 10,000,000 acres may be a large in the plantations now as extensive as from 1,000,000 to 10,000,000 acres may be real Manager Silfer was called from his bed to be notified of its approach to give orders for its the high priced beef.

### KAWVILLE LIE NAILED.

False Report Being Circulated About Unloading of Stock.

One of the latest stories of the arguments used by agents of the Kan-sas City stock yards has just come to light, and it shows how small that outfit can get in its sneaking fight against the St. Joseph market. On a train coming in from the Republican valley in Nebraska. Wednesday, there were a number of shippers who had sheep. part of it was billed to St. Joseph. mark Of the consignors to the St. Joseph today market was Mr. G. C. Hoffman of Arapahoe. An agent for the Kansas City yards was on the train and was doing a strenuous job of soliciting for a change of billing of the St. Joseph stock to the down-river market. The

"I know better than that, for I Considered That Aid From United number of times and can tell you that stock is unloaded as fast as it arrives at the yards," said Mr. Hoffman.

Mexican Republic—Ministers of Furthermore, as between having the Any Peace Commission Must Be stock stand in the cars until morning and having it bumped around for the extra haul and the stops at the sevextra haul and the stops at the several stations between St. Joseph and Kansas City, I believe I would take a here today with three cars of mut-

duced, but at that it is about up to the calibre of the post card. Mr.

Kindness to Feathered Friends Will Be Repaid Many Fold.

Fargo, N. D., March 17.—There are for sale a few days only. Call or many things which may be done to write. D. B. Robertson, The Real Esencourage birds, according to Dr. W. tate Man, 918 Corby-Forsee Bldg., St. is now fighting in the field.

Senor Garza has been in communication with Madero and has acquainted Madero with whatever negotiations have been carried on in Washington and New York looking to a settlement. Francisco Madero is looked ment. Francisco Madero is looked upon as the revolutionary president and as representing the will of the insurrectos and no peace plans will be surrectos and no peace plans will be surrectos and no peace plans will be surrectos and no peace plans will be has given his entered into until he has given his consent and fully gone over the details. Garza said.

Madero the Leader.

# City Office—Rooms 2 and 3, Rock Island Building, corner Sixta and Ed.

HILDREN," said daddy one evening, "here is a story about a great musician, one of the greatest musicians who have ever fived or earth. His name was Beethoven, and he wrote many very beauti ful compositions.

"One evening Beethoven was walking with a friend in the city of Bonn in Germany, in which he lived. It was a beautiful moonlight night. Just as the two men were passing the door of a little cottage in the poor part of the city they heard the notes of a piano. They stopped to listen. The pianist was playing one of Beethoven's own pieces and playing it very well. The music topped, and Beethoven and his friend heard a girl's sad voice saying:

'Oh, brother, if I could only go to the great concert at Cologne, at which the great Beethoven is to play! But of course I know that it is impossible, for we are too poor.

"Beethoven felt very sorry for the poor girl and said to his friend: "'Let us go in. If the poor girl cannot go to the concert I will play for

"So they knocked at the door, and when they were admitted they saw a poor shoemaker and his sister. Beethoven said: "'My friend and I heard your playing. I am something of a musician, and

if you will allow me I shall play for you. "Of course the poor folks were glad to have the well dressed gentleman play for them. Beethoven said:

"'I see you have no music. How did you play?" "But when he turned to the girl and saw that she was blind he said:

"'I beg your pardon. But permit me to play for you now. "So the great musician sat down at the poor girl's piano and played better than he had ever played before. When he had finished, the candle which had been burning very low, flickered and sank and went out. Then Beethoven rose to say good night, but the poor shoemaker said:

"'Oh, sir, never have we hoped to hear such music as you have played for on to be particularly anxious to us tonight. Will you not tell us your name? "'My name is Beethoven,' said the great musician. 'You may have heard.

> "Just then his friend opened the door to let in the moonlight. The rays of the moon entered the room and filled it with soft light, almost as bright as daylight. Then Beethoven sat down again at the plane and played music which no one had ever heard before, a wonderful composition which is now called 'The Moonlight Sonata.'

### Sensation Oats new Sensation Oats are noted for their rapid and vigorous

growth and early maturity. They mature so early that the rust does not affect them. They yield from 60 to 100 bushels per acre on ordinary land. They are a white oat, grains large and plump, with thin hull, often running overweight 6 to 10 pounds. When you sow my new Sensation Oats you have an insurance policy on your crop, one that insures you against early drouth, rust or blight; one that always insures you a good crop. They grow medium height, strong stiff straw, and always stand well upon any kind of land. In short, I believe my new Sensation Oats to be the best ever introduced for earliness, enormous yielding qualities and freedom from rust and blight. One man writes from Wisconsin that he threshed 576 bushels of Sensation Oats from 5 bushels of seed. My prices make it possible for every farmer to try a few bushels of these oats. also have Early Champion Oats, Pride of Clinton (white) Corn, Klondyke (yellow) Corn, Clover Seed, Timothy Seed, Cow Peas, Poultry Feed, Etc. Everything in field seeds. I raise all my Write for prices and samples.

Negro Minstrel's Good Story of Joke on His Manager, Jean Havez, and Himself.

President Taft, who admires all humorists and laugh producers, was conning, as the two alighted from a zerland. train in a middle-sized town in the west, Dockstader reproached Havez with this: "Jean, I'd like to know what you have ever done for me. Here I am paying you a princely salary, and you don't give me any returns for "Why, Lew," objected Havez, greatly grieved, "how can you say that, after all I've done for you?" "All you have done,' said Dockstader, "has been to write a good song for me occasionally, or give me a little advertising in means of rewards for the best records. the newspapers, or dig me up a more or less bum joke. That isn't enough. "Why, Lew," said Havez, "I've made you the most famous man in the country; even more famous than the president. You can't go anywhere without people knowing who you are the minute your name is mentioned. Everybody in this country knows Lew Dockstader, and you owe your fame to me.' They went to the best hotel in the town, and Dockstader registered in a bold hand, "Lew Dockstader." The clerk looked at him politely and inquired: "Will you need a sample room, Mr. Dockstader?"

LEARNING THE AIR'S SECRETS

Mysteries of Wind Pressure That Mean a Great Deal to the Flying Man.

The public seems never to tire of bearing of the exploits of daring aviators, but has little thought or appreciation of the men who are making a scientific study of some of the phenomena of the air and trying to find out some of its secrets.

Such an investigator is M. Eiffel, who has installed near the town of the same name in Paris an aerodynamic laboratory and is studying by experiment the pressure of the wind ipon planes of different shapes and inclined at different angles to the air. Hardly spectacular, such experim ints; but each bit of knowledge so & ined helps in the final conquest of the air. One astonishing fact, and one that no one attempts to explain, has just been announced. It is that upon a square plane, such as many aeroplanes have, the wind pressure is one and a half times as great at an angle of 38 degrees as when the same plane is

urned square against the wind. But when planes of different shapes are used, the results are very different, and many of the formulae now accepted are upset. It is by such painstaking methods that progress in aviation must henceforth be made.

By-Product From Smelter Acid. It is announced by the geological survey that the discovery of phosphate rock in Montana is likely to have an important effect in providing an outlet for the sulphuric acid that might be manufactured by the big smelters there, but which is now allowed to go to waste and poisons the range within a radius of thirty miles from the smelter works. The withdrawal of the phosphate lands from homestead entry was announced some weeks ago after the fields were reported by Hoyt Dale, one of the field geologists. These deposits are extensive and are considered of great potential value. The smelter trouble with the production of sulphuric acid fumes has been investigated by the bureau of animal industry of the department of agriculture. There have been a number of suits against the smelters, but they Stockmen will find home comforts have allowed the acid fumes to go to waste for lack of some profitable way to employ them. With the combination of cheap sulphuric acid and phosphate rock in close proximity, the officers of the geological survey say cheap phosphate fertilizers are a pos-

> Teachers Not Agreed. It will be interesting to the teachers

of the country to watch the little tilt between the trustees of the National Educational association and the president, Mrs. Ella Flagg Young. Nicholas Murray Butler having beeh elected chairman of the trustees' board, will no doubt set about affairs in the old way, while Mrs. Young wants a new method of procedure. Mrs. Young will probably ask for an accounting of the fund of \$173,000 belonging to the association and no doubt Mr. Butler will cheerfully aid her.

Device to Disarm Submarines. The French are experimenting with new device for protecting warships against submarines when the former are stationary. It consists of groups ameter, filled with high explosives and moored around the battleship, the cylinders being so connected with comes in contact with one or more of them it is entangled by the entire group, whose simultaneous detonation wrecks the submarine.

Famous Sayings. An lowa woman who looked into the barn and saw her husband hanging to a cross beam is reported to

### \$350 Piano FREE Second Prize-Ladies' Locket and Chain, also \$150.00 credit towards the purchase of any new piano in our store. Third Prize-Gentlemans' Gold Watch. Fourth Prize-Ladies Diamond Ring. Fifth Prize-One Pair Opera Glasses. Sixth Prize-Gentleman's Scarf Pin. Seventh Prize-Ladies' Brooch. In addition to the above prizes a beautiful souvenir will be given PRIZE A Real Puzzle With Real Prizes

HOW TO SOLVE IT-The puzzle is to take the numbers run-26 ning from 1 to 12, inclusive, and so arrange them in the squares that each column of figures, up and down and crosswise, will total 26. point the way, we have set down the figures from the CORRECT SOLUTION in one of the columns. The other numerals—NOT US-ING A FIGURE MORE THAN ONCE-are to be placed so that they will total 26 in each column. Few will get all four columns: some will probably get but one or two in addition to the column already

CONDITIONS AND RULES

The Contest is free and open to every man, woman and child in the United States, except those connected in any way with the Pi-FIRST PRIZE will be awarded to the one sending in the neatest

and most original correct answer.

The Second Prize will be awarded to the one sending in the neatest correct answer. All of the above prizes will be awarded according to merit as determined by the judges, whose decision shall be final. All prizes must be called for within twelve (12) days after close of contest. Every contestant must send us the name and address of at least one family not owning a piano, so we can send them our catalogue and Factory-to-Home Selling Plan which cuts it all middlemen and saves to the piano buyers these enormous rofits. This is the only store within hundreds of miles where you an deal with the manufacturer direct.

Hurry your answer-bring or mall to our store. Enclose self-addressed envelope.

Contest closes 6 p. m., March 25, 1911.
