Best Steers Closing Steady To 10c Off—Others 10 to 25c Down For The Week. Top BEEVES UP TO \$3.40

Unevenness One of Prominent Features of Week's Business in Butchers' Stock—Veals Lower—Stockers Decline Sharply.

The usual small week-end run of cattle reaching the local yards today included few fat steers and business in this line was not of large enough volume to offer a reliable basis for price comparison purposes.

Cattle receipts for the week at the local yards aggregate approximately 8,300 head, practically the same as for the preceding week but 2,900 larger than for the corresponding period a year ago.

On the better grades of steers salable at \$7.75 and up the market, while lacking the snap and action so prominently displayed last week, showed but little weakness and closing prices are steady to 10c lower than a week ago.

The following prices are quotable on the St. Joseph market: Choice to prime steers, \$8.00 to \$8.50; good to choice, \$7.50 to \$8.00; fair to good steers, \$7.00 to \$7.50; common to fair, \$6.50 to \$7.00; good to fancy yearlings, \$6.75 to \$7.25.

COWS, BULLS AND MIXED. Cows, bulls and mixed are characterized by the week's trade in cows, heifers and mixed yearlings.

The following table shows the local receipts from January 1, 1912, and receipts for the corresponding time in 1911:

Table with 5 columns: Month, 1911, 1912, Dec, Inc. Data includes Cattle, Hogs, and Sheep.

TO TREAT FRUIT TREES

REPRESENTATIVE OF STATE EXPERIMENT STATION HERE TO DEMONSTRATE SPRAYING. Fruit Growers Interested

Orchard Just North of St. Joseph Selected to Demonstrate Advantages of Scientific Methods of Treating Fruit Trees.

F. W. Faurot, field representative of the Missouri fruit experiment station at Mountain Grove, came to St. Joseph yesterday to take charge of the orchard of S. N. Cox, two miles north of Krug Park on the Amazonia road, for demonstration work in spraying.

The orchard covers twelve acres and contains all the standard varieties of apple trees. It was selected for demonstration purposes because it is typical of a class of Missouri orchards that have not been cared for in the proper way.

Mr. Faurot will spray the orchard four or five times during the spring and summer, and developments will be watched by fruit growers throughout this part of the state.

The spraying yesterday was for the disease of apple scab, which causes the apple to break down and for apple blotch, which causes a sooty appearance of the outside of the fruit and injures its sale.

Mr. Faurot met with the fruit growers of St. Joseph and vicinity at the court house this morning at 10 o'clock, and again at 2 o'clock this afternoon.

COMIC KING IN U.S. Emperor of Sahara Now Lives in New York. Ruler is Without Funds—Former Boulevardier, Known as 'The Little Sugar Bowl,' is Plaintiff in Big Law Suit.

New York—Jacques Lebaudy, first emperor of the Sahara, idler of the Paris boulevards and one time lover of the spectacular, has found New York a place where he can indulge in many of the eccentricities which made him notorious in France and elsewhere.

Strange as it may seem, in a city where publicity is the lot of doers of the Sahara in the six years that he has spent in exile here has had many adventures which have escaped notice.

As was his wish when he came here an exile from France, but with money to burn, he has effaced himself, has joined the submerged tenth as it were.

The suit brought by Jacques Premier, as he used to sign himself on hotel registers, is really an echo of his Saharan expedition. It was in 1906 that Lebaudy, forced to abandon his scheme of empire in the desert owing to the refusal of the powers to recognize his claims, determined to seek an asylum in the United States.

While the former idler of the Paris boulevards is now seeking a fortune in the courts of this country, that does not mean that he is penniless. He yet has a large fortune. An investigation of the career of the emonarch of the desert in this country revealed that at the time Mr. Harman was reported to be about to rehabilitate the Erie Lebaudy was shrewd enough to purchase a large block of Erie shares at from \$12 to \$15 a share, which he afterward disposed of at from \$30 to \$35 a share.

TIRES OF AFFINITY. Former Crown Princess Is Plaintiff in Divorce Suit.

Was Separated From Prince Because of Escapade With Tutor—Afterwards Married a Musician—Now Seeks to Be Free.

Rome.—The trial of the suit of the Countess Montignoso, formerly crown princess of Saxony, for a legal separation from her husband, Enrico Toselli, was begun here and promises to be replete with sensations. In her petition the former princess accuses Signor Toselli with having misappropriated money and jewelry belonging to her in order to lead a vicious, lazy and immoral life, and further alleges that during her absence Toselli invited women to their villa, decked them out in her finery, and afterward openly escorted them through the streets of Florence.

Princess Louise, or the Countess Montignoso, first came into notoriety in 1902, when she disappeared from the court of Dresden and was not located for several days, when she was found at Geneva in company with M. Giron, a former tutor of her children, who had been ordered out of Saxony on account of his attentions to the princess.

After her flight Louise assumed the title of Countess Montignoso, and was granted an income of \$7,500 a year from her former husband. The princess then came to Italy, where he had an affair with the Marquis Guiccardini, which caused the latter's wife to leave him and sue for divorce. Louise next met Signor Toselli, who was a music teacher with a very modest income. They eloped to London, where they were married in 1907.

The pair have not lived together for nearly two years, but not until recently were any steps taken looking to a legal separation. The fact that the countess now seeks her freedom has given rise to a report that she has another matrimonial venture in view and consequently desires to rid herself of the Italian pianist.
