THE BEEF CATTLE SHORTAGE.

THE BEEF CATTLE SHORTAGE. We have received from an Indian-apolis reader a newspaper clipping in which is given the federal bureau of statistics report on April cattle mar-ketings at seven principal western points. These figures show an increase over April, 1911, and the reader asks, "where is that cattle shortage?" says the Chicago Drovers Journal,

The government report says: "Recelpts of cattle and calves at the seven mincipal markets is a seven hasty ablutions in a tin pan, they will principal markets in April, totaling 637,022 head, show a very slight increase when compared with the April receipts of the two preceding years. The receipts of cattle and calves for the four months of the present year, however, 2,626,648 head, show a slight decline when compared with the resters. ceipts during the same period in previous years. The April, 1912, receipts of cattle show an increase in Chicago, St. Joseph, St. Paul and Sioux City and a decrease in Kansas City, St. Louis and Omaha, when compared with the receipts in April, 1911."

Reader, one month's increase in cattle marketings is hardly significant of larger general supplies in producing channels. All kinds of infleunces often effect an abnormal period of marketing, and in the light of May

WILL TAKE TITANIC'S PLACE

Britannic, New 50,000-Ton White Star Liner Will Be Ready Late in 1913.

Star liner which will take the place of the Titanic in the fall of 1913, is to be named Britannic. It will be the same length as the Olympic, 869 feet. The White Star line has had two ves-sels bearing the name Britanic. They both earned large sums for the com-pany and the name is considered bocks.

She Threw Herself on the Bed in Agony.

WATTRO

and and

finger as he left her that night. It was much more wonderful than anything she had dreamed and frightened her a little.

The next morning she went in to the city and browsed in the delights of chiffons and such, trying to decide just what she would buy for the wonderful wedding. Her means were small, and when late afternoon came she had a handbag comfortably filled with samples and three style books under her arm. She was very tired, having entirely forgotten to eat luncheon, and had to run to catch the six o'clock car out. She tumbled pell mell into her seat just as the car pulled out, dropping samples from the handbag that had come open during the chase.

Presently her attention was drawn to the two men in the seat ahead by hearing the name "Artie Palmer" mentioned. Electra leaned forward and deliberately listened. Whatever concerned Artie Palmer concerned her. "Yes, I'm glad he's tied up at last.

The lady is quite all right, too, and MISSOURI Artie needs the money."

"But it does seem a funny thing to think of Artie and the lady of the house hitting it off together, he's

been a free-lance so long." "Wonder how he came out on that trip to Rockville? Bet he hung around some skirt there all the time

digging out ideas of a 'village wom-an' for that blessed paper. Well, so long, old man. See you tomorrow," and the speaker swung off at the ho-

Electra sat huddled back in her seat. They were never talking about her when they mentioned the lady of the house, for she had no money to bring him. Was it possible that he New York, June 3.—It is announced here that the new 50,000-ton White Star liner which will take the place of the Titanic in the fall of 1912 is in the fall of 1

GFTTING FIRM BUTTER that the husband hold the purse strings. After many other difficulties had been smoothed over the case was continued two weeks to give the new DAIRYMAN AT IDAHO EXPERImethods a trial. The couple left, but MENT STATION TELLS HOW TO at the door the woman turned to the judge and said: PRODUCE THIS RESULT. "Dat will be all right, but Ah must insist dat he pinch his mouf an' stop IS DIFFICULT IN SUMMER talking about me."-Indianapolis News.

IS MOST POPULAR OF BOOKS

Bible Holds This Proud Position Partly on Account of Its Pure Literature.

Moscow, Idaho, June 3 .- With the soft butter fat which is produced at this season of the year and the warm weather coming on it is rather diffi-cult to secure a firm-bodied butter, says G. E. Frevert, dairyman at the

softness Is Due to High Per Centage

of Olein in the Fat and Not

to Presence of Excess Moisture.

also affects the per cent of old omparatively low temperature question is sometimes asked what temperature cream should be urned at in order to obtain a firm dy in the butter. This question can-t be answered directly, as the hard-ss or softness of the fat varies with is of solutions of the fat varies with the above mentioned factors. An ac-trate thermometer should be used and a trial churning at a certain tem-rature should guide the butter-aker for the succeeding churning. If butter comes soft a lower chur temperature should be employed

to bring the temperature of the am down so as to have the butter ne in granules the size of wheat rules. When butter is too soft it es in a flaky instead of a granular In order to secure a fine waxy body

outter great care should be ot to overchurn. This also apbuttermilk or in the wash wate lable to produce a weak-bodie ter. The glass in the churn shoul watched carefully and as soon a granules have reached the desir ermilk should be dray a washing the butter six or eig tions of the churn are sufficie butter should not be allowed temperature or a few degrees than the cream before churning. t should not be allowed to be-soft after it has been made so on the market or to the con-

The Bible is the most popular book in the world on account of its pure literature. Say what we will concerning the advancement of modern methods of style and beauties of expres-

a higher per cent of olein in the fait of not to the presence of moisture is some might suppose. Olein has a ry low melting point as compared ith the other glycerids of fat found butter fat. The per cent of olein rries with the individuality and breed the cows, and the feed which they ceive. The time of the lacation pe-to also affects the per cent of olein the style of writers like Ruskin and the style of writers like Ruskin and When the cows go on grass in the pring there is a high per cent of olein, ausing the butter fat to become soft ness to the Bible for his indebtedness to the Bible for his phraseology. Charles Fox said more than once that he owed to the perusal of the Bible his vocabulary. The variety of expression to be found on the part of the different writers is strangely commingled with unity of expression due in large part to the fact that all of these men are writing with at least one great purpose in view. For we have in the Bible a style which is more or less uniform from beginning to end-even the style of expression. -The Christian Herald.

"Memento Garden."

A very popular woman has what she calls a "memento garden." All the flowers therein come from bulbs saved s to the washing of the butter r the buttermilk has been re-red. Excessive churning either in give these pots of tulips or hyacinths away before the bloom was over either to the furnace man or to some other employe coming in daily, but one day a friend who had a country place asked for the bulbs of a particularly beautiful box of coral pink tulips, the flowers having a spicy and unusual dene soft during the washing and ng process if the best body is de-The wash water should be the sider her own flower beds, and theres after the various lots of bulbs were dried and "bagged." Each bag was he butter should be worked in a cool boom and should be worked only hough to dissolve and distribute the tents were eventually planted was marked to correspond. Thus each spring brings a reminder of kind friends, and the air is fragrant with their gifts. With proper care and STILL HAD A POINT TO MAKE favorable weather conditions the bulbs will bloom for a lifetime, and thus
