Ray's 'Ritin'

By RAY MARTIN

The Horace Blackburns came out to Gopher Flats Estate, our town house, the other night, and M. F., Horace, Bernice and I pushed back the calendar by more years than any one of us would admit, let our hair down (which is a good feat in itself in my case) and had one heck of a good time with the parlor game known as "do you remember when?"

You see we've known one another for a great many years, but this is the first time we have lived in the same town in many a day. Horace and I finished high school at the same school, and later Bernice taught in that school.

While it's lots of fun, — this "remember when" game there's nothing that will make you fully aware of your age like chatting with a couple of long-time friends again after two-score years.

We talked about such things as Sallie who wrote a book which actually sold. . . And did you know that Mary Ann has her third husband? Well, she has. She discarded Nos. 1 and 2 after the first one wound up in the pen and No. 2 became an alcoholic. Last time she got smart: She married for money!

And do you remember that cute little blonde who was the most delightful flapper in our class? What was her name? Oh, yes, Ruth. Well, Ruth now has three of the cutest little grandchildren you ever saw.

That sort of thing. It went on for hours.

And then Bernice suggested that come next spring we all go back to the annual high school reunion. It's got bigger and bigger each year, as might be expected with miracle drugs extending old grade life expectancy by a lot more years.

For a second or two it sounded like a pretty good idea, this going back to the spring reunion. But then I remembered the last one of those shindigs I attended, and I vowed at that time that I would never attend again.

I fully remember that reunion about seven years ago. It's always held on Saturday before Mother's Day, and usually starts with a tea along about 2 o'clock on a hot Saturday afternoon.

We went — mama and me. A very ancient and over-weight gal presided at the tea pot. There was something vaguely familiar about her, and she looked a lot like somebody's great-grandmother I had known a century ago. But it wasn't until I had added two lumps of sugar to my tea that I remembered: this fatish lady was once voted as the most beautiful girl in the class—MY CLASS, mind you!

And helping her with the chores of pouring tea was another slight. (See RAY'S, Page 5)

It's His Route Too. Isn't It?

If you see a big, sad-eyed yellow and white dog staring through the little windows of post office boxes, think nothing of it.

It's just Tippy, a dog of mixed ancestry but a bright mind (as minds go for dogs) who is standing by waiting to start his day's mail-delivery chore. And if his master is late, Tippy gets nervous and may whine a bit.

Tippy is a familiar sight out in the west part of Muleshoe.

It all started some time ago when Bobby Nobblett had the carrier's post out that way. Tippy (See POSTMAN, page 5)

People Outside Moscow Are Poor, Peery Discovers

Muleshoe's Rev. J. Frank Peery on a tour of Europe, has found Warsaw an interesting city. In the latest letter from the pastor of the First Methodist Church, he says:

"Warsaw was interesting; it was 87 per cent destroyed by the Germans during the war, but has built back at least 69 percent. All this without one cent of aid outside Poland.

Stalin built a 'Palace of Culture' which most Poles despise. They hate Germany for what (See PEOPLE, page 5)

Schools Will Cost \$759,221 in '62-63

Muleshoe board of trustees has set a tentative budget for the 1962-63 school year at \$759,221, it was announced Thursday following a meeting of the board this week.

Superintendent Neal Dillman said this is approximately the same as last year's amended budget.

Biggest single item is for teachers' salaries — \$475,000. In addition, instruction items include: \$100 for textbooks; \$2,000 for library; \$14,400 for teaching supplies, and \$3,500 for other expenses. This brought the total instruction costs to \$495,000.

Administration salaries were set in the tentative budget at \$31,300 with contracted services totaling \$2,000 and other expenses, \$4,000.

The school's fiscal year starts Sept. 1, and the law requires that the tentative budget be filed with county clerks in Lamb and Bailey counties and with the Texas Education Agency.

Dillman said there will be a small balance at the end of the present fiscal year, Aug. 31.

Health services will cost the schools a total of \$5,004, the officials estimate, of which \$4,804 will go for salaries and \$200 for other expenses.

Pupil transportation is another big item on the budget. This will (See SCHOOL, page 5)

The invocation will be given by Rev. Tommy Gleaton, pastor of Progress Methodist Church.

Frank Ellis, president of the Muleshoe Chamber of Commerce, will make the welcome remarks, and Byron Hardgrove, president of the Texas State Teachers Association (See LUNCHEON, page 5)

Public Asked to Aid Drive on Mosquitoes

City Manager Albert Field today appealed to the people of Muleshoe to aid in the campaign to rid the city of mosquitoes and flies.

"Every tin can or bucket that is left lying around to catch water is an ideal breeding place for mosquitoes," he said, "and tall weeds are an excellent place for the mosquitoes to hide during the daytime. In fact, buckets and cans offer a breeding place so great that it is impossible to keep ahead of the mosquitoes with our spraying program," he concluded.

Meantime, careful watch was being kept for any signs of encephalitis (sleeping sickness) which is caused by the bite of one type of mosquitoes.

Both hospitals here Thursday reported no cases of encephalitis, "so far as we know." However, one doctor said he "wouldn't be too much surprised if we have a case or two before long."

The city is doing its best to halt the mosquito-borne plague, but its facilities are limited to one 125-gallon spray machine.

"We are using this machine every night," Field said, "but it has such a large area to cover that we don't make it around a second or third time as soon as we would prefer."

The spray solution, DDT and malathion, is used every night except on "rainy nights," the city manager says. High winds also cut the efficiency of the spray.

A definite decrease in the number of flies has been noted as a result of the spray program.

The city official also urged all persons who have "rain lakes" on their farms around Muleshoe to drain the lakes or to treat the breeding places.

He also urged the cutting of weeds and tall grass. It is believed that mosquitoes may also breed in such growth since "only a little water is needed for mosquitoes, and some of these weeds are so dense they act as a shield to prevent water from drying up."

Mules to Start '62 Practice Sessions; Five Lettermen Back

Bill Taylor and his Muleshoe coaches will start the 1962 football edition for Muleshoe Mules next Monday with five lettermen returning and with a 35-to-40 man squad in sight.

For Monday marks the start of high school football practice throughout Texas.

Two new coaches will be on hand to assist. Willie McAlpin, formerly from Silvertown, will keep an eye on the guard and tackle work, and Bob Coleman will take over the ninth grade lads and also help with the varsity. He will be the coach who will do the scouting of teams which the Mules will meet this year. Louis Powers and Bobby Graves complete the coaching staff although Graves devotes most of his time to junior high.

Four seniors and a junior are Taylor's 1962 lettermen who will be back this year. There's Jerry Gilbreath, a half-back letterman from last year, who will be playing his final year of high school football. And Kenny Heathington, a 1961 quarterback, a junior, is due to return.

Then Alvin Reasoner is a senior tackle from last year's letter list, and Gerald White, a guard, are both lettermen from last year due to show up Monday. Ronnie Herd, who went down on kickoff last year, is another senior letterman who is returning.

Mass 1-Day Polio Immunization Project Planned in Four West Texas Counties

First Vaccine To Be Offered September 16

Muleshoe is to have a polio immunization day.

This announcement was made Thursday by the Lamb-Bailey-Hockley-Cochran Counties Medical Society with the first oral vaccination set for Sunday, September 16.

Dr. Ray E. Santos, Muleshoe physician, who is secretary-treasurer of the society, made the announcement for this area while similar announcements were made in the other three counties.

Details have not been completed, but the Society said "everybody from six weeks and older is urged to take the vaccine."

For Bailey County, Dr. Santos will be in charge of procuring the vaccine, and each county is making its own arrangements for administering the vaccine.

He said: "We urge everyone to take the vaccine whether he can pay for it or not."

He explained that "contributions will be accepted from those who CAN do so to help pay for the cost of the vaccine."

Other towns in the four-county area in which the program will be carried on simultaneously will be Littlefield, Levelland and Morton.

Many cities and counties throughout the southwest are staging these oral vaccine mass immunization programs.

County's Co-ops Spend \$1 Million, Half in Salaries

A joint financial statement, published this week by the cooperatives in Bailey County, reveals that the cooperatives spent more than \$1 million in the county during the past year. The exact figure is \$1,122,889.27. The largest figure is "wages and salaries," \$596,232.31 paid to employees who, in turn, spent most of it with local merchants.

"Dividends" accounted for the next largest portion with a total of \$440,733.52 being assigned to members; \$170,204.73 of this was refunded in "cash." The third largest item in the joint report was "property taxes" of \$29,961.76.

Other money accounted for was in "local hauling and freight," "donations and dues," and "other" (See CO-OPS, page 5)

Freeman Blasted, Praised by Debaters

Mr. Freeman, Secretary of Agriculture, has a workable farm program that would save the country millions of dollars if adopted. Mr. Freeman's farm program would drive the country toward socialism and would cost millions of dollars if put in effect. Those were the opposite views expressed by two West Texas farmers Friday night when they met to debate the merits or demerits of the Freeman-Kennedy farm bill.

The arena was the Lazbuddie high school auditorium, and the orators were Frank Hinkson, Lazbuddie, and Paul Lewis, Littlefield.

Hinkson opposed the Freeman-Kennedy plan; Lewis favored it. Basically the debate followed party lines, and the Democratic and Republican parties came in for some severe criticism, owing to which debater was speaking at the moment.

Hinkson said he was "proud to be a Republican." Lewis said he was "proud to be a Democrat." And along those lines the debate

was carried out with the Farm Bureau and Farmers Union coming in for criticism or praises, as the case might be.

Hinkson said the power Freeman would have under the Kennedy plan would be "like giving a hired hand a signed blank check and telling him to fill it out for any amount he wanted."

Lewis said the Democratic farm bill "will not be a move toward centralized control of agriculture. The farmers themselves will decide, by vote, whether they want the program continued if it is put into effect."

Hinkson called the feed grain section "ridiculous" and charged that the Freeman farm bill, if passed, would kill free enterprise, and would put the farmer under strict governmental control, with restrictions on production and marketing.

Lewis said, "even Sherman (president of Farm Bureau) does not advocate complete freedom in government" and added that Sherman's organization "wants to (See FREEMAN, page 5)

Chamber Nominates Officers, Directors

Eight Muleshoe and area business men and farmers have been selected as nominees for four directors' positions for the Muleshoe Chamber of Commerce, it was announced Thursday. In addition, the names of six directors, presently serving on the board, have been chosen as candidates for the three highest offices in the Chamber of Commerce. They were selected at this week's board meeting.

The nominating committee,

headed by Cecil Tate, will meet October 1, to canvass the ballots and announce the result of the voting.

Retiring directors are Owen Jones, Earl Harris, Irvin St. Clair, and W. F. Birdsong who was appointed in June to fill the unexpired term of W. B. McSpadden.

Linda Murray, Education Committee Chairman emphasized that the business people of Muleshoe will find the course very worthwhile.

Some of the topics to be covered in the sessions are: You and Public Relations. Seeing Your (See COURSE, page 5)

Residents Home From New York

Mrs. Scott Morris and grandson, Dannie Parsons, have just returned from a four week's vacation and enjoyed many sight-seeing trips.

They visited in the home of Mr. and Mrs. Herbert Burzee and son, Weslie, at Setauket, Long Island, N.Y.

While in that vicinity, they went on a ferry boat trip from Port Jefferson to Bridgeport, Conn. They spent five hours sightseeing in Connecticut, then returned by boat. The day was beautiful and water calm and they enjoyed the one and one-half hour trip by ferry.

Mrs. Morris was accompanied by her daughter and grandson on a train trip to New York City where they took a six hour bus tour which included lower New York, China Town, upper New York and Harlem, Times Square, Herald Street, United Nations Headquarters, Park Avenue, Rockefeller Center, Empire State Building and a stop made at Chatham Square for a tour of Chinatown and one at the Battery for a waterfront view of New York's magnificent harbor.

They also enjoyed a mile and a half tour by boat to the Statue of Liberty for a one-hour stay. The water was rough and although no one in the Morris party suffered sea sickness, many passengers aboard did.

The tour included a trip to Central Park, Cathedral of St. John the Divine, Columbia University, Grant's Tomb, and St. Patrick's Cathedral.

They report that of special interest was going through the St. John Cathedral and the heart of Harlem which is the largest Negro city in the world. They saw the glamour of Fifth Avenue with its shops.

Mrs. Jack Beddingfield Hostess To Afternoon Social For AAUW

Mrs. Jack Beddingfield was hostess for a frosted Coke party Wednesday afternoon at her home for members of the AAUW. President, Mrs. Beddingfield, presided over the business session held by the group. Plans were made for the first meeting which will be held August 31 in the First National Bank Community room. "Because of the size of our branch we feel we could better concentrate on these two fields," Mrs. Beddingfield said.

A budget covering all branch activities was discussed. Stationery is being sold to help take care of some of the expenses. This stationery has pictures of the Muleshoe schools on it. Those interested in buying a box of this stationery, please call 3-3140 and it will be delivered to you.

Members attending this meeting were Mrs. Joe Costin, Mrs. John Watson, Mrs. R. E. Everett, Mrs. E. W. Johnson, Mrs. Ola B. Jones, Mrs. J. W. Witherspoon and the hostess, Mrs. Jack Beddingfield.

HOUSTON HARTS HAVE BRUSH WITH TORNADO Mr. and Mrs. Houston Hart returned Tuesday from a vacation in the Ozarks. While at the Ozarks resort in Ant Creek Canyon, they were preparing to leave their cabin when informed that the cable was broken on the lift out due to an electrical storm, so their departure was delayed, and luckily so, because soon a tornado whistled down the canyon and passed within 150 yards of their

cabin. They later found that the boat dock had been destroyed along with forty boats. They lost all their fishing equipment. Coffee was served until 2:30 a. m. while waiting for the emergency rescue crews to reach the resort. They returned by way of Kansas City where they visited in the Bill Hart home.

Bureau Studies '62 Resolutions

Time is drawing near for formulation of resolutions to be considered by the membership of Farm Bureau in October. Resolutions chairman John Henderson and his committee men will be glad to have you talk to them regarding anything you believe would be good for membership consideration. Other committeemen are John Armstrong, Raymond Schueler and James Norton.

Give serious consideration to attending the convention in October, too. The more people present, the more apt are the resolutions to reflect the thinking of farmers in general, and that is what your organization desires. We hope it will be possible to have a county-wide policy development meeting, too, where the various issues can be discussed and formulated before time for action to be taken on them.

County Farm Bureau leaders will be attending a meeting in Lubbock August 22, where many of these matters will be discussed with a view to getting membership participation in decisions that will be forwarded to the State Farm Bureau Convention for further consideration.

We are glad to report that Farm Bureau is responsible for the amendment to the Trade Expansion Act that would avoid lowering of tariffs on imported products which would lead to declining income for farmers and ranchers.

There are just a few days left for filing for federal road tax refund on farm used gasoline. If you have not recently filed for the state refund, come in and do that, too.

If you do not favor the administration proposals for revamping the farm program, you should be a Farm Bureau member. CONSIDER THIS: Understanding is a wellspring of life unto him that hath it; but the instruction of fools is folly. Proverbs 16:22

WIGS-WIGS-WIGS Did you know that wigs—of all shapes and sizes—are the up and coming styles across the country? They can be fitted, styled, put over a swimmer's (or housewife's) frizzled hair, and off—for coffee or tea or a night out. Left at the beauty shop, for a shampoo and set, my lady can go off on errands while beautifying her wig piece.

John Quincy Adams, then an ex-President, was a passenger on the train involved in the United States in 1833. The train was passing through New Jersey when its axle broke. Cause was undetermined.

Curried Beans Have Mystic Charm

Is there anything more closely associated with India than the Taj Mahal? To the devotees of epicurean arts, curry stands on the same par.

This mysterious blend of many spices has a pungency and exotic flavor more and more homemakers are finding has unlimited use. It gives a new flavor treat to mundane leftovers, to rice, meats—even tomatoes.

It is this famous spice which imparts an air of the mysterious East to canned pork & beans with tomato sauce. Spiced with curry and a bit of chutney, Curried Pork & Beans will add another easy dish to your party menus for summer entertaining. Slivered almonds and toasted coconut add the final note of splendor. And, perhaps the most wonderful characteristic of this recipe, is that it can be done in a saucepan on the top of your stove. No need to heat the oven in an already summer-warm kitchen!

A tart molded salad of pineapple chunks and mandarin oranges compliments the tang of the curry in your meal. Slices of brown and serve French rolls add a contrasting crispness.

Curried Pork & Beans 3 to 4 tablespoons sliced blanched almonds 1 tablespoon butter or margarine 2 teaspoon curry powder 1 can (1 pound) pork & beans with tomato sauce 1 tablespoon chopped chutney 1 tablespoon orange juice Toasted shredded coconut, if desired

In saucepan, lightly brown almonds in butter. Stir in curry powder. Add beans, chutney, and orange juice. Heat, stirring now and then. Top each serving with coconut. Makes 2 to 3 servings.

 ly familiar gal. This one had three — count 'em — chins blossomed over onto an ample bosom. But for all her size, she barely had the strength to lift her diamond-bedecked (and wrinkled) hands to serve the little do-dads that go with tea. I was halfway back home at 2 o'clock in the morning before I had her classified. She was runner-up in MY class's beauty contest.

And it went on like that all through the tea. Once an old man came up to me and said, "I don't believe I have met you." His teeth didn't fit too well, and what hair he had was snow white, and there was a touch of palsy that plagued him.
 Well, he turned out to be the top athlete of that long-ago class. I had just got over that when a very familiar face appeared. I'd never forgot that girl's face. It was shaped like a heart, and was topped off with a mass of solid black hair (not puffed up with rats, either). And she had an olive skin and her eyes, black as ebony, were lit up from behind with youth, vitality and all-round beauty. I'd never forget her. And here was one at least who hadn't changed. This was Ruth.
 Only it wasn't Ruth, as it turned out. But she did admit that she was kin to that Ruth I thought she was. This little trick was her granddaughter who had just finished high school herself.

And then after the tea, there were bridge and what have you until it was time for the banquet itself.
 That big event they had in the high school gym. There was the usual singing of the high school song and the first verse of America (or does it have more than one verse?) and the invocation, said by somebody from the class of 1937.
 And there was an ancient fellow who was obviously toastmaster. Somebody had spilled water on my program so I couldn't make

 Lewis criticized the huge cost of the farm bill under the Republican leadership before Kennedy came into power.
 Hinkson said that the Democrats were in control of congress at the time and they—not the Republicans — made the laws. Lewis countered that Eisenhower "killed the democratic bills by use of his veto power."
 Hinkson said the nation is facing two choices: "Either we will have freedom and prosperity, or we will have government control and poverty."
 The debate was carried on in an orderly manner with Bill Woolley, Hub, as moderator. Each man had a 10-minute period for opening statements, 30 minutes for debate and five minutes for final rebuttal.
 Hinkson concluded by asking those who oppose the Kennedy-Freeman bill to "stand and be counted." A large number stood.
 Lewis in his closing statement, did not ask for his supporters to stand, but at the conclusion, a large number stood.
 Thus the debate ended on the same note as it started—with opposite views.

Both men showed a keen knowledge of the farm issue, and both had obviously made intensive research into the program.
 The Farmers Union was represented at the debate by its Texas president, Jay Naman, Waco, and by Joe Berg, Panhandle, vice-president of Texas Farmers Union.
 The challenge for the debate has been issued through the Journal by Leon Smith, Jr., for Lewis. Hinkson answered the challenge.
 started following Melvin Griffin, Nobblett's successor.
 Recently Griffin went mobile; when the parcel post man went on vacation, Griffin took over his place, and Tippy went along too. At first the idea of riding around a route seemed a bit odd to the old dog apparently, but there's no truth to the saying that you can't teach an old dog new tricks, because Tippy is riding now—and liking it very much.
 In fact the other night he refused to get out at all—just spent the night in the truck so he would be ready to start his day's "work" early the next morning.
 "I don't know what will happen when I go back to the foot route," Griffin says.

 er taxes".
 There are 100 full-time employees and 178 part-time employees who work for the cooperatives in Bailey County. It was pointed out that all true cooperatives pay all taxes except income taxes. The reason a cooperative is come taxes is that it is an "association", deals with its members, and collects for the cost of operation or services.
 If money is collected above the cost of operation or services, it is either returned in cash or assigned and will be returned later. Any business can do the same thing if it chooses.
 As far back as 1914, the Ford Motor Company announced that, if it sold 300,000 cars in 1915, each purchaser would be refunded \$50. The goal was reached and the \$15 million was returned to the customers. The court held this was not "taxable income" to the Ford Motor Company.
 If more than 15 per cent of the revenue derived by a cooperative comes from "non-members", the cooperative is subject to income taxes. Cooperatives, by contract with their patrons, agree to return pro-rata, everything above the cost of operation. Some years, rates or charges made are more than adequate to cover the expenses incurred; other years, they are not adequate.

 run to a total of \$50,300. Salaries are expected to total \$20,000, and replacement of vehicles was estimated at \$14,000. Transportation insurance was listed as a \$300 item, and other expenses at \$16,000.
 Plant operation is another major expense item on the tentative budget, totaling \$36,140. Of this amount, \$13,140 will go for salaries, \$500 for contracted service; \$4,000 for heat, \$11,000 for utilities \$7,000 for supplies and \$500 for other expenses.
 For plant maintenance, the budget sets aside \$21,932 of which \$7,932 is for salaries. Fixed charges total \$2,800, including \$2,700 for insurance.
 Revenues expected for the 1962-63 term, which, of course must total \$759,221 to cover expected expenses, include \$359,489 from local sources; \$398,232 from state sources and \$1,500 from sale of property.

Sandhill Wastes? Midland Bermuda Could Turn Those Wastes Into Productive Farms

There's a story floating around West Texas that goes like this:

"Last Sunday my wife and I went out in the country to look over a sandy-land farm. The next Sunday the farm came into town to look us over."

There's more than a little truth in the little story. The picture at the left is a familiar one in West Texas — and wastes which ever so often pick themselves up on the wings of wind and then pile down somewhere else, maybe a considerable distance away.

As It Looks

Now

Close-up, these sandy farms look like the lower picture. Coy Garrett (left) and Bobby Free sift the sands through their fingers. Free, with Oliver Cates of Lubbock, is farming Dr. W. F. Birdsong's farm southeast of Muleshoe. The owner has just signed up with SCS to put on a soil program which will change the entire picture of farming for that sandy-land farm.

Midland Bermuda, it is hoped, will replace the typical West Texas yucca, seen behind Garrett and Free.

The program is an extensive one and may take several years to complete. In fact, under the SCS project, a Great Plains Conservation Program, the owner may take as long as 10 years in which to complete the program.

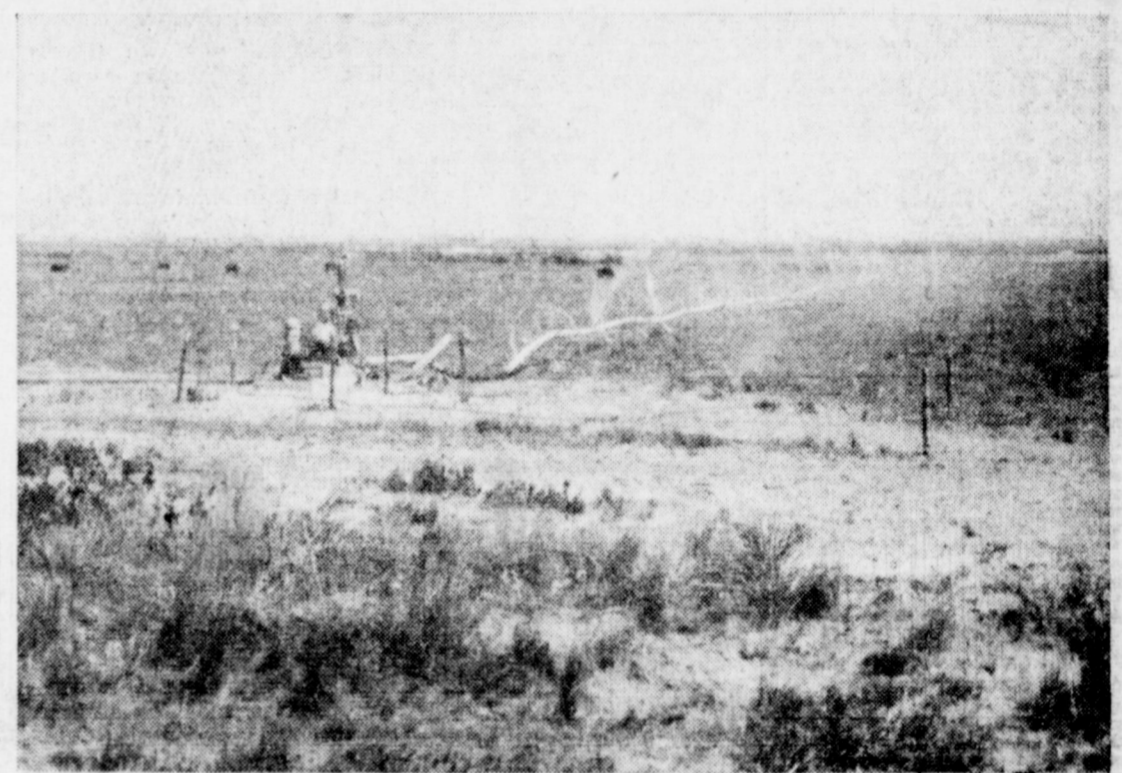

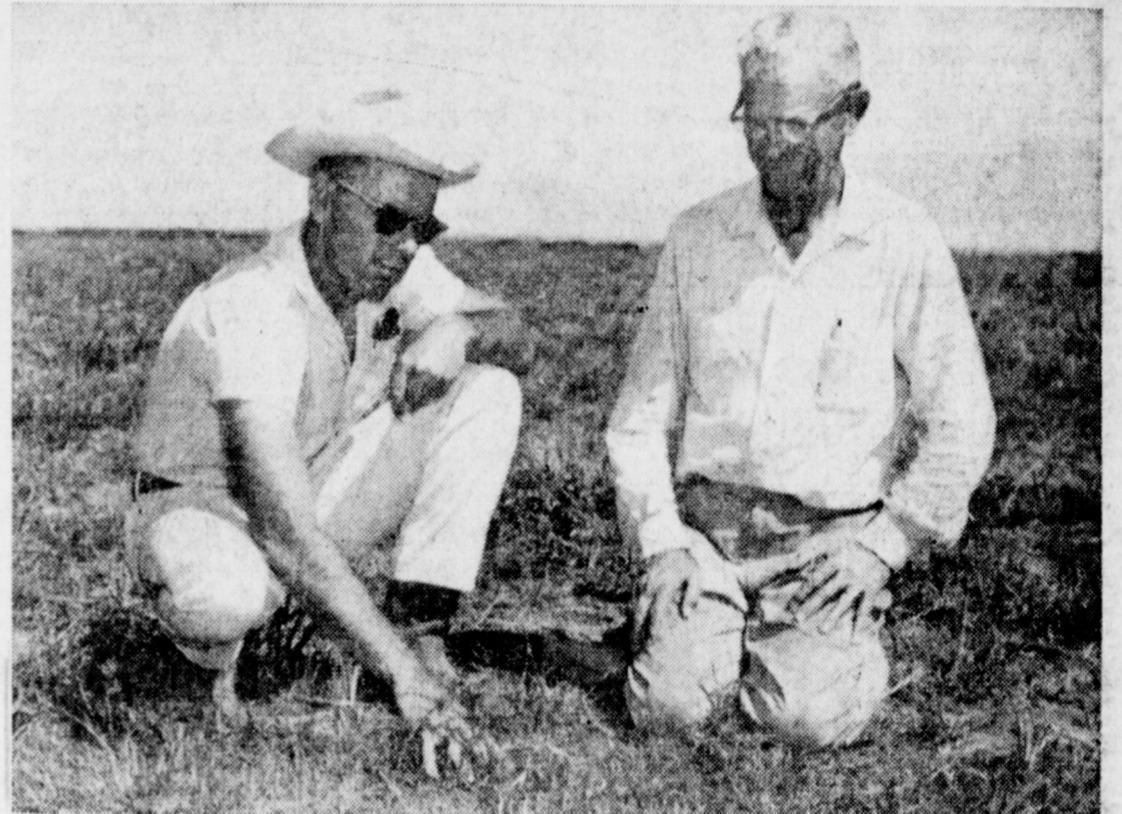

Midland Bermuda already is proving itself as a sand-hills stopper. The pictures on the right tell the story. E. O. Baker (right) kneels in his Midland Bermuda pasture a half-mile west of the Birdsong sandfarm to point to a healthy clump of Midland Bermuda planted early this year.

As It COULD

Look

The payoff is shown in the bottom picture at right. With irrigation (this is one of the new self-propelled irrigation systems) Bermuda not only is holding the sand, but it also is providing pasture for many head of fine Angus cattle. In the foreground is an unplanted area, which again shows only sand, yucca and buffalo grass.

SHOP MULESHOE FIRST

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost. Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

Value such as this has induced more people to invest in Chevrolet trucks every year since 1937.

This can be a good time to buy a modern new Chevrolet truck

Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time. Come in and take full advantage of it!

Senator John Tower (R-Texas), in his weekly report to Texas constituents today, discussed the trade expansion bill which is now being studied by the Senate Finance Committee. The text of his report:

In the State of Texas, many economic groups are seriously concerned about the effect on employment, business, and the economy of the State, if existing duties on foreign made products competitive with our production, here at home, were to be eliminated in pursuance of this proposed trade bill.

SANDHILLS PHILOSOPHER

Worried About Tax Cut? Don't, Says Philosopher; Folks Will Spend It

Editor's note: The Sandhills Philosopher on his Johnson grass farm tries to reassure a Washington expert this week, his letter reveals.

Dear editor: The difference between an expert and an ordinary man sometimes can be found in the kind of problems that bother them.

For example, I was reading in a newspaper last night during a television re-run which I wasn't interested in the first time that an economics expert in Washington was debating whether a tax cut should be made this year.

Now the phase of the question that was bothering him was not whether the government could afford it but what would the people do with a tax cut. I mean, he said that if the people took the tax out and spent it, that'd be fine, it would stimulate the national economy, which he claimed was the purpose of the proposed

cut. But, he contended, if the people took the cut and put it in the bank, this wouldn't stimulate the economy and would defeat the whole purpose, and this was causing him some grave concern.

This is what I'm talking about. It's hard for me to understand how a man can become so expert in his field that he can't know automatically what I'd do, along with 99 per cent of the rest of the people, if the government gave us a \$100 tax cut. It's a situation about which it's hard to keep a straight face.

But to ease his worries, I'd like to assure him that if the government will give me a tax cut, I will recognize my duty to my country and do my best to stimulate the national economy. I will not uneconomically, not to say unpatriotically, hide it in a mattress, bury it in a bank vault, or even hoard it in a savings bond.

No, sir. The minute I get it, I'll head for Muleshoe and stimulate the economy.

If that economics expert is seriously worried about me and most others taking our tax cuts and holding on to them and drying up the springs of business, I'd say he is approaching the point where he has run out of something to worry about, except maybe his own knowledge of people. I have a notion that if he'll look around, even just among his fellow economics experts, he'll find they're about as over-drawn as the rest of us.

Yours faithfully,
J. A.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

PIRACY
The colorful piracy of old captured your imagination but not that of the shipowners or the governments that lost their cargoes and treasures.

Pirates were "enemies of mankind." Their acts became crimes against that government as well as against the "law of nations." A government would try to catch and to punish them no matter how and where the piracy took place.

From these early days, a rule of international law called "the piracy principle" came into being as to crimes against mankind. Any nation might seize and punish such a person. He did not need to be one of its citizens. The crimes could be committed inside or outside its territory. Jurisdiction is worldwide.

Nations often punish their own people for crimes beyond its borders. Nations can punish aliens for crime within their borders. They can punish aliens for crimes committed against that country when they later come into that country. A nation can also punish an alien for piracy under international law.

What about war crimes done on orders of superiors? The World War II allies have declared that certain Nazi leaders committed punishable crimes against nations.

Now and then some nations may allow a court to try a person "in absentia." Such trials without the accused present were once popular, but little comes from such trials, and they are not as highly regarded as trials in which a person has a fair chance to defend himself.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 60 of Article III of the State Constitution, be amended to read as follows:
"Section 60. The Legislature shall have the power to pass such laws as may be necessary to enable all counties and other political subdivisions of this State to provide Workmen's Compensation insurance, including the right to provide its own insurance risk, for all employees of the county or political subdivision as may be necessary."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the date fixed by law for the General Election in November A.D. 1962, at which all ballots shall have printed thereon:
"FOR the Constitutional Amendment providing Workmen's Compensation insurance for all employees of all political subdivisions"; and
"AGAINST the Constitutional Amendment providing Workmen's Compensation insurance for all employees of all political subdivisions."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed Amendment. In counties or other subdivisions using voters machines, the above provisions for voting for and against this Constitutional Amendment shall be placed on said machine in such a manner that each voter may vote on such machine for or against the Constitutional Amendment.
Sec. 3. The Governor shall issue the necessary proclamation for said Election and have the same published as required by the Constitution and laws of this State.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Section 33 of Article XVI of the Constitution of the State of Texas be amended so as to hereafter read as follows:

Some people believe cooperatives are "tax free" . . . that they get a free ride at the expense of the taxpayers. Cooperatives do pay taxes and play a vital part in the progress of not only Bailey County but any county or area in which they are located. A "true cooperative" is an organization where a group of people pool their resources for the purpose of securing a service or product. Most of us, in the past, have more or less organized and pooled our resources in order to either get service or purchase a product at a saving. There is nothing illegal or un-American with this type of activity.

The cooperatives in Bailey County pay taxes, contribute to charities, pay for services received from local firms, and contribute generally to the betterment of the County. In some cases, cooperatives offer services and facilities which would not be available from any other source. Patrons of these institutions who receive dividends pay federal income taxes on the dividends. When you check the reports on this page, you will find the cooperatives are a vital part of the community . . . a part no citizen would want to be without.

Here are some of the combined totals taken from individual reports shown on this page.

State Government 'Moves' for a Day to Krueger's Town

EL CAMPO — The government of Texas actually will be taken to the people during "Operation Hometown" when Lieutenant Governor Culp Krueger diverts his own "Governor-for-a-day" ceremony, September 8, from the traditional Austin Capitol City site.

Thus, massed state agencies will become mobile for the day and will provide exhibits, booths, and other reflections of their routine affairs ordinarily concentra-

ted at the statehouse in Austin. Naturally this thriving coastal plains city of 8,000 is happily anticipating the distinction of being the "State Capitol" for the day.

Temporary quarters will be provided for the varied installations, with tents of assorted sizes and designs favored. Private homes will be utilized on a large scale to supplement existing transient housing facilities.

El Campo considers itself a typical Texas small town; but the local citizens, rallying behind their favorite son, are positive they have just that extra everything, as one native put it, to make this novel day in Texas history a worthy event.

Governor Krueger is a good example of the aggressive El Campo type. He is publisher of the

local newspaper, the "El Campo Leader News", which is considered one of the finest weeklies in the South, and also is owner of Radio Station KULP. He is a ranking member of the Texas State Senate and honored by his fellow senators by being named Acting Lieutenant Governor and President pro-tem of the Senate pending the election of a Lieutenant Governor to succeed Ben Ramsey, who resigned to accept appointment as a member of the Railroad Commission.

But Governor Krueger will be just another hometown boy for the day. State political celebrities will be present as will the heads of the major state agencies. Many boards and commissions will utilize the occasion to hold meetings

Attorney to Put Screws on "Blue Law" Violations

Karl L. Lovelady, Bailey county attorney, today announced he will instruct "all officers" to enforce the Sunday "blue laws." He pointed out that fines may range as high as \$500 or six months in jail, or both.

In an announcement issued Thursday he pointed out the items which set up the list and provide for penalties for violations.

He pointed out that the law does not apply to sales of "burial or shrouding material, newspapers, ice, ice cream, milk, nor to any sending of telegraph or telephone messages."

Certain time exemptions also are allowed and provisions are made for people whose religion sets Saturday as the Sabbath, such as Jews and Seventh Day Adventists. Such persons may keep their shops open on Sunday if they close on Saturday, he pointed out, but such stores cannot be open on both Saturday and Sunday.

It means a nation which devoted hundreds of millions of dollars to the reconstruction of battle-torn countries after World War II through the Marshall Plan. . . . Yankee Imperialism says a man has a right to happiness through a worthy life. Perhaps the Soviets could tell us how this compares with Russian Imperialism. The Soviets hold all the countries defeated by them under their yoke without any freedom at all."

STATE CAPITAL
Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

By VERN SANFORD
Texas Press Association
AUSTIN — Members of the 49th Armored Division of the Texas National Guard received a personal "Welcome home" from Gov. Price Daniel. He greeted them in front of the State Capitol.
Afterwards the Guardsmen paraded down Congress Avenue, then dismissed for their homes and civilian jobs.
Governor Daniel told a crowd of about 500 spectators: "When the President moved to augment the active army in the face of the Berlin crisis last year, the Texas National Guard was ready for this obligation, just as it always has faced up to its responsibilities since the first conflicts by Texas civilian-soldiers at Anahuac and Gonzales in 1835."
Among the returning soldiers was a father and son team, C. H. and Ronald H. Cheshire, both highway patrolmen with the Texas Department of Public Safety.
C. H. Cheshire, a chief warrant officer with the 49th, organized 42 other department employees — including his son, Ronald — into the "Texas DPS 49ers" during their stay at Fort Polk, Louisiana.

All have reported back to their civilian boss, Col. Homer Garrison Jr., DPS director. But the department still is 100 men short.
MORE MONEY FOR WELL STUDY — Governor Daniel has okayed the release of \$105,000 from Texas Railroad Commission funds to finance additional equipment, personnel and other expenses connected with the investigation of slant-well drilling and oil producing operations and pollution of public waters.
He also authorized Atty. Gen. Will Wilson to adjust his present appropriations to cover slant-well and anti-trust investigation expenses.
Meanwhile, the Railroad Commission called a temporary halt to oil well testing in East Texas and Hawkins fields, in order to rearrange personnel.
TWO TERM LIMIT? — Another effort may be made to limit a term of office of the governor.
Similar resolution was unsuccessfully sponsored in the 57th Legislature. New proposal would set the governor's term at four years. It provided that he could not succeed himself in office.
Many legislators feel that such a system actually stretches a political life rather than limiting it.

with Jolene Reid. The girls are spending several weeks with their grandparents, the Dodgen's of Littlefield.
Wanda Hubbard visited in Lubbock the past week with her uncle and family, Mr. and Mrs. Pete Hubbard, and also a girl friend, Donna Wall.

Dr. C. J. Rulman so reported to the House Committee on Saving Texas.
Dr. Rulman, director of mental health for the State Hospital Board, said about 25 per cent of the 16,000 patients in state hospitals are more than 65 years old.
"Our problem (in cutting state hospital costs) rests with patients who are physically sick," he said. "Of 3,500 elderly patients in state hospitals, only about 1,400 have serious psychiatric disorders."
HELP FOR RURAL HOSPITALS — Although federal funds have financed construction of more than one-third the hospital and medical facilities in the state, under the Hill-Burton Act, most of the aid has been given to big-city institutions.
Officials of the State Health Department, who make recommendations for the aid, feel that smaller communities have been penalized under former measuring standards. When new building allotments are authorized for Hill-Burton assistance in September, requests from rural areas will be weighed according to "relative need."
So far Hill-Burton projects around the state have been built at

a total cost of \$310,433,369, with the federal government footing \$110,102,770 of the bill.
The Hill-Burton program is so popular in Texas that federal financing is twice the national average of 15 per cent of total cost.
CRIME EXPLOSION — Texas prison wardens and agencies interested in rehabilitation of "first offenders" are being haunted by the expected population bulge just as are colleges, universities, and for that matter, all future planners.

Post-war bumper baby crops which started in 1947 are expected to hit the cell as well as the campus in full force in 1964.
Three phases of clemency — suspended sentence, judicial probation, and state parole — are being studied as a means of keeping youthful offenders out of the penitentiary.
Objective is to make the prison an old settlers' home for hardened congenital criminals who cannot be rehabilitated, and who have aged in making their record.
MARKET TESTING HELPFUL — "People who have never known — and cared less — about brucellosis eradication are now getting their heads cleaned up," Dr. Seymour J. Smith told state animal health commissioners.
Awakened interest is due to the state-federal plan of market testing, under which a county can be modified or certified brucellosis-free without testing every herd.
Another animal health officer, Dr. H. H. Payne of El Campo, told the group that he never had seen anything like the mosquito menace in May, June and July, which caused an estimated loss of 50,000 Texas cattle and ruined many more in Jefferson and Chambers counties alone. "Some cattle are permanently warped from the long period of stress," he said.

Payne said cattlemen in the two-county area may be "wide open" for more trouble if fall showers cause the same condition that began when spring showers made mosquito beds out of brackish pools created by Hurricane Carla.
SCREWWORM BATTLE RAGES — Weekly production of sterile screwworm flies has hit the 50,000,000 mark and is expected to reach 75,000,000 by September 1, according to Dr. G. D. Stallworth of the Texas Animal Health Commission.
He said the battle against screw worms, initiated a year ago, is going so well that the Kerrville sterile fly plant is being closed down and all production centered at Mission.
Outcome of the fight for screw worm eradication this year may depend on winter's weather whim. "We're at the mercy of winter weather," Dr. Stallworth said. "If a very mild winter occurs, the overwintering line that serves as

boundary for release of sterile flies, will have to be pushed farther north, and more resources and more flies will be needed."
NO DEATH FOR TAXES — Robert S. Calvert, State Comptroller, warns that merchants must pay the state sales tax on gross receipts despite a recent court ruling by District Judge Herman Jones.
Calvert expects a lot of merchants to quit paying the tax on sales of under 25 cents after reading about the ruling.
Judge Jones ruled that the state has no right to make the merchants pay while at the same time prohibiting them from collecting.
"There won't be any change until the suit finally is settled by the higher courts," Calvert said.
ADVOCATES EFFICIENCY STUDIES — Rep. George Preston of Paris, member of the committee on Saving Taxes, thinks the state can save a "big hunk of money" by efficiency studies.
"I have a feeling that some agencies in government may have 10 people on the staff with work for only two of them," Preston stated.

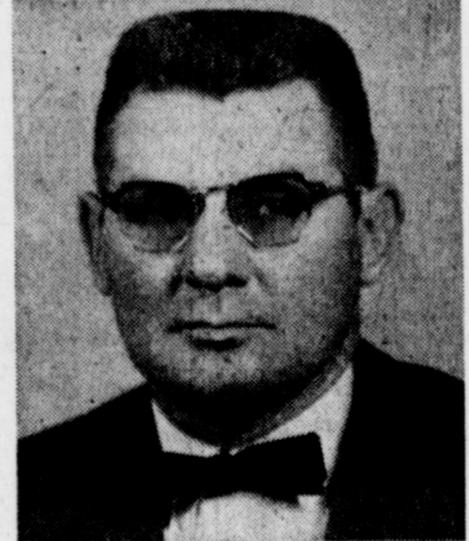

SAFE DRIVING DISCOUNTS — Safe drivers have received a belated boost from the Texas Association of Insurance Agents.
More than 400 of its members, meeting in Austin, unanimously recommended that the state board establish a new system of credits for good-record drivers.
Urged was a 5 per cent discount to policyholders with an accident-free year; 10 per cent for two years; and 15 per cent for three accident-free years.
Texas' controversial "merit rating" plan was revoked on August 1.
CHEAPER SCHOOL BUSES — Texas school boards shopping for new school buses this year will find prices sharply below last year.
Competitive bids received by the Texas State Board of Control show a substantial reduction in the prices since March of this year, and an even greater reduction over last year.
FIRST STEP TAKEN — Land SHOP MULESHOE FIRST!!

Commission Jerry Sadler reports that an informal meeting early this month between the School Land Advisory Committee marked the beginning of development of Texas' submerged lands.
He said the meeting "for all practical purposes initiated state industrial development of 1,500,000 acres of submerged lands and islands under the Reagan De la Garza Act."
Sadler also plans to ask the Legislature to amend the act to include development of recreation facilities.
VET LAND INSURANCE — The Veterans Land Board has reaffirmed its plans to offer credit insurance through a Dallas firm to 30,000 land purchasers despite a complaint lodged by Rep. Don Garrison of Houston.
William A. Harrison, insurance commissioner, advised Land Commissioner Jerry Sadler that a complaint concerning the company which will insure the veterans who borrow money from the state to buy land "seems to be an isolated case."
TEXAS OUT OF THE RED — Treasurer Jesse James reports that Texas' general revenue fund is out of the red after having been in deficit almost continuously for the past four years.
Revenues deposited to the credit of the general fund wiped out the deficit and raised it to a cash balance of \$4,601,020.
General fund may dip again periodically, but is expected to at least break even at the end of the current appropriation biennium, a year from now.

OUTDOORSMEN MEET — Henry Le Blanc, president of the Sportsmen's Clubs of Texas, invited members of outdoor clubs, the Boat Trades Association and water-skiing groups to meet with the SCOT Boat Safety Committee in Dallas on August 24. Enforcement of the Water Safety Act, regulating of boating, and building of boat ramps will be on the agenda. Also to be discussed will be the fees now being charged on some public waters for hunting, fishing and recreation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Article IX of the Constitution of the State of Texas is amended by adding thereto a new Section to read as follows:

Section 10(a). The Legislature may authorize the creation of two (2) hospital districts in Brazoria County, one of which shall include all or part of the West Columbia, Brazoria, and Damon Independent School Districts and the other coterminous with the Sweeny Independent School District, by majority vote of each such hospital district, consolidate the Sweeny Hospital District into the Damon, West Columbia, and Brazoria Hospital District at any time subsequent to the organization of the separate hospital districts.

"Such districts, if created, may be authorized to levy a tax not to exceed twenty-five cents \$25.00 on the one hundred dollar valuation of taxable property within the districts, provided no tax may be levied until approved by a majority vote of the districting residents, qualified, property-owning voters who may have already rendered their property tax assessment. The maximum rate of tax may be changed at subsequent elections, provided existing obligations are not increased, but in no event shall any change of rate exceed twenty-five cents (\$25) per one hundred dollar valuation.

"The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to acquire, construct, maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the acquisition, construction, purchase, repair or renovation of improvements and initially equipping the same and such bonds shall be payable from said twenty-five cent tax.

"(b) In addition to all other ad valorem taxes authorized under this Constitution and the laws of the State of Texas, Titus County is hereby

authorized and empowered to levy, assess and collect a tax not to exceed twenty-five cents (\$25.00) on the one hundred dollar valuation of taxable property in said County in any year for the purpose of paying the principal and interest on any bonds lawfully issued and to pay the maintenance and operation expenses thereof, provided said bonds and tax shall have been authorized at an election or elections held for that purpose by a majority of the qualified electors of Titus County, who own taxable property in said County and who have duly rendered the same for taxation, voting at said election. This provision shall be self-enacting and no enabling legislation hereunder shall be required. Any bond issued hereunder shall be issued in accordance with the General Laws, except as herein otherwise provided.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at the General Election to be held the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon:
