## Ray's 'Retin'

By RAY MARTIN  
Move into a new town, and two days later somebody is sure to ask, "Well, how do you like our town by now?"  
It's like asking how you like a new pair of shoes or a new wife or something; that soon, who knows?  
Yet it's a favorable sign at that. Because the real question such folk are asking is: "How do you like our town? I hope you like it as well as we do who have lived here for sometime."  
Because we find that most people like their hometown and they want others to like it. That's just the way folk are, especially south-westerners.

We have found only one town in west Texas in which this is not the case. That particular town didn't ask how you like it for the very simple reason that they didn't give a darn whether you liked it or not.

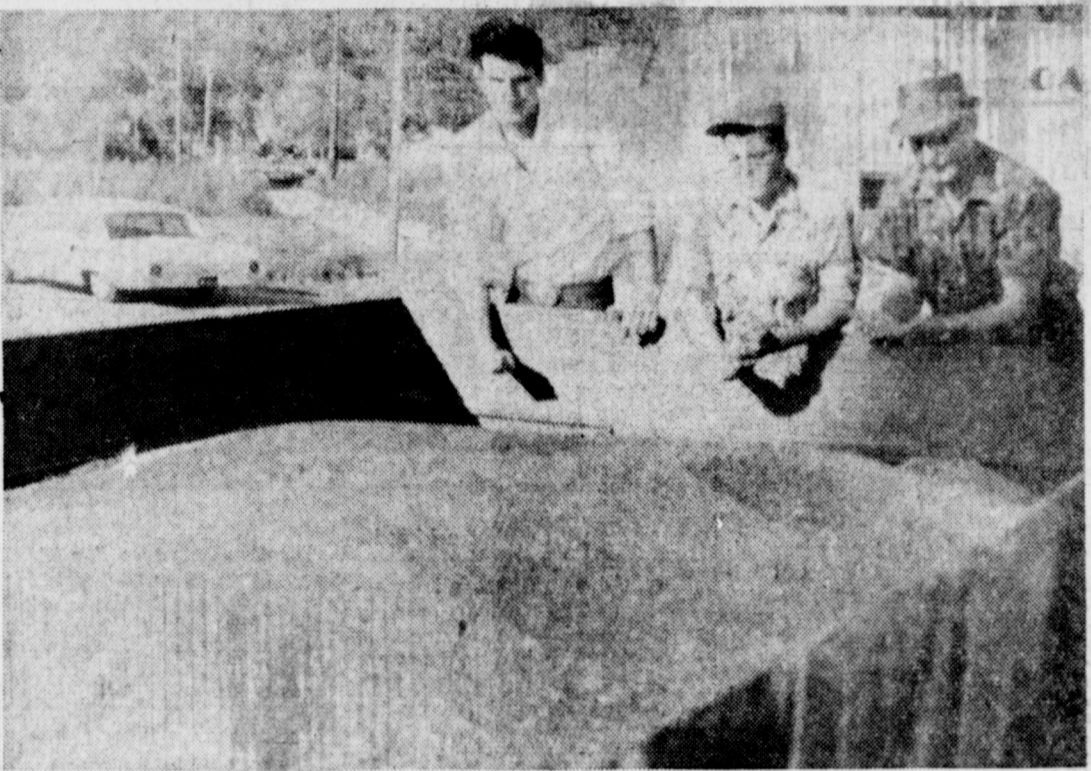

Funny town, that one! We arrived in that town in the middle of winter. A next door neighbor, maybe because she was just curious to know what kind of furniture we had, came right over and all but assisted the movers unload the truck. She was very friendly—THEN. But after we moved in it was three weeks before she came back again and I sincerely believe she came in at that time just to see if we had arranged the furniture right.  
But she was the only neighbor we ever met. The woman on the south had a clothesline that was near our clothesline, and one morning she and the missus happened to be hanging out their washing at the same time. The southward neighbor said, "I've been intending to come over but I just haven't got around to it." Well, she never did.

We had always been told that the best way to make friends in a new town was to go to church immediately. We did. We met the minister, the assistant minister and two members. There was a bald-headed man who helped take up the collection who nodded each Sunday morning, but other users didn't even go that far; they just poked a bulletin at you and said nothing.  
I went to men's breakfast one morning and was asked whose guest I might be. Nobody claimed me, of course, since I had gone of my own accord. One man, however, evidently did feel embarrassed, because he got up and introduced me as Roy Miller.  
I felt so good over getting even that much of an introduction that I didn't even bother to tell the folk that my name is not Roy Miller.

Missus and I used to wonder if we were seeing our dentist often enough or if maybe we weren't using the right kind of deodorant—you know, the kind that takes care of a big man's problems.  
So on quiet evenings—and that's the only kind we had—missus and I used to sit around and try to figure out that particular west Texas town. It became an interesting game for us.

Once I mentioned the matter of lack of friendliness to one of the women in the church who was serving a lunch at the church. I even admitted that we thought the church to be very cold. She replied, "Well, my husband and I never make our church carry our social life; we believe in having our friends outside the church." In other words, church for church's sake (a duty) and outside life for fun. What a funny idea.

We finally figured out why folk weren't friendly. There were three groups in the town: 1. The military who had a life all its own completely oblivious of the town. 2. The old-timers who had made their half-dozen friends each and needed no one outside to help. As the old mountain man put it, "We just aren't making any new friends these days be."

FIRST GRAIN — Here's the first grain to arrive in Muleshoe for 1962. On the truck are Robert Clark and J. D. Burris, who brought in the grain, Boone Allison (right) bought it for Muleshoe Elevator Co. The grain was grown by W. T. Beller, southeast of Muleshoe. (Journal Photo & Engraving)

## First '62 Grain Sells Here

Muleshoe has received its first 1962 grain sorghum, a 13,000 pound load from the W. T. Beller farm, seven miles east and three miles south of Muleshoe.  
The load was sold to Muleshoe Elevator Co., Wednesday. Price now is around \$1.70 per cwt.  
Boone Allison, manager of the elevator, said the grain was Texas hybrid 608, and that moisture content was high—around 17 to 19 percent, as is usually the case in early grain.  
The grain was produced on a dry-land farm and was taken from a 160-acre plot of grain. J. D. Burris and Robert Clark brought the load to town.  
Lamb county reported its first load last week.

The call was issued for 16 prospective jurors to gather next Wednesday, August 29 at 9:30 a.m. in the district court room. From this list a grand jury will be selected.

Court officials said they did not know how many matters will be brought to the attention of jury but indicated a number of items might be included on the agenda.

Called as prospective members of the jury were:

Ernest Kerr, Muleshoe; James L. Burkett, Maple; Bobby Airhart, Muleshoe; Arnold Akorn, Muleshoe; E. O. Baker, Muleshoe; Joe Smallwood, Route 2, Muleshoe; W. O. Truman Lindsey, Muleshoe; Judge Bills, who recently held a term of civil court here, has also announced a term of criminal court is scheduled for the first part of September. The docket has not been made up Wednesday.

HIJACKED — O. F. Phillips, filling station employee, shows where he was standing last Saturday morning when a man came into the station, asked for change and then forced Phillips to give him currency from the drawer when he opened the register. No trace of the hijacker, who jumped over an alley fence and fled, had been found Wednesday. The robber received only \$11 for his trouble. (Journal Photo & Engraving)

## Every See Asia, Poverty and All

Rev. J. Frank Peery, Methodist minister from Muleshoe who is traveling in Europe and Asia on a six-weeks' tour, reached Central Asia recently. His latest letter to the Journal reads:

"Hello from Central Asia—Tashkent and Samarkand in the Uzbek Republic of USSR. Over a million people in this huge oasis. There's an abundance of grapes, plums, peaches, melons, cotton and corn, all irrigated. Crops are beautiful; water comes from nearby snow-capped mountains. There's no rain here from April to December. This is the land of Genghis Khan—poverty, filth, stink ignorance such as I have never seen. Socialism and communism are the hard core here—posters and signs everywhere. "Our hotel is only five years old."  
(See PEERY, page 5)

## Grain, Cotton Outlook Bright

Crop prospects in Bailey County are good and insect damage is not alarming, says J. K. Adams, county farm agent.  
Jim Valentine, extension soil chemist for the Lubbock soil lab, visited Bailey county this week and expressed the belief "that both grain sorghum and cotton prospects in Bailey county are bright."  
Adams said the Lubbock farm expert was "highly impressed" with crop prospects here.

Valentine was here to check especially soil test plots in the county. He said he "believes I saw increased yield on lands which were treated with both phosphate and nitrogen as compared with those plots which received only nitrogen."  
Adams says one of the crop insect threats at the moment is from sorghum midges. He has received word from John G. Thom.

## Month's Accident Record: 11 Hurt

Bailey County had 11 rural accidents last month that injured six persons and caused an estimated property damage of \$8,690, D. S. Lawson, patrol supervisor for this area, said Thursday.

Through July, the report showed that the county had had 26 crashes and as a result, one person had been killed and 16 injured with property damage estimated at \$22,350. Thus more than one-third of the year's accidents to date occurred during July, always a high-accident month.  
The fatal accident report, however, will have to be changed to two as a result of the death last Saturday of J. E. Culpepper, 68, of Morton who was injured in an accident near Progress, July 21.  
For this 29-county area, Palo Pinto county was the only county

to report two deaths in accidents during July. Other counties which reported one death were Clay, Cochran, Hockley, Lubbock, Montague and Young.  
Among injuries, Lubbock led the list with 28 persons hurt in crashes. Lamb county had nine, Palo Pinto 20, Wichita 10, Wise 11, Young, five, Jack eight, Hockley five, Haskell two, Hale, 10, Garza, Floyd, and Baylor counties, one each, Cochran six, Clay 11, Bailey six and Archer five.

## 'Walk-Away' Bandit Rakes in Only \$11

A walk-in and walk-out bandit, young, well-built and calm, robbed a filling station attendant here of \$11 in currency last Saturday morning in a daring daylight robbery on U. S. 84 and 70 near downtown Muleshoe.

O. F. Phillips, early morning attendant at the station, said he came to work at 6 a.m., and 30 minutes later a young man walked in and asked for change for a candy vending machine.

Phillips went to the cash register to get the change. The young man stepped nearer, said, "I'll take all your money."

The attendant looked up into the muzzle of a "real big" gun which the would-be candy buyer was pointing at Phillips.

Without a word, Phillips scooped up all the currency in sight and handed it to the young robber. He didn't bother with the change.

The young man stuffed the money in his pocket and ran out of the station, heading for the alley. To reach it he had to jump over a concrete block fence.

And that's where the trail ended.

People in the neighborhood said they had seen an automobile in the neighborhood with two men in it. The car was parked with the

engine running. Officers surmise the hijacker made his way on foot to the waiting car.

Phillips had been an employee of the station for only four weeks. The station has been owned by Ronnie Ary since last April.

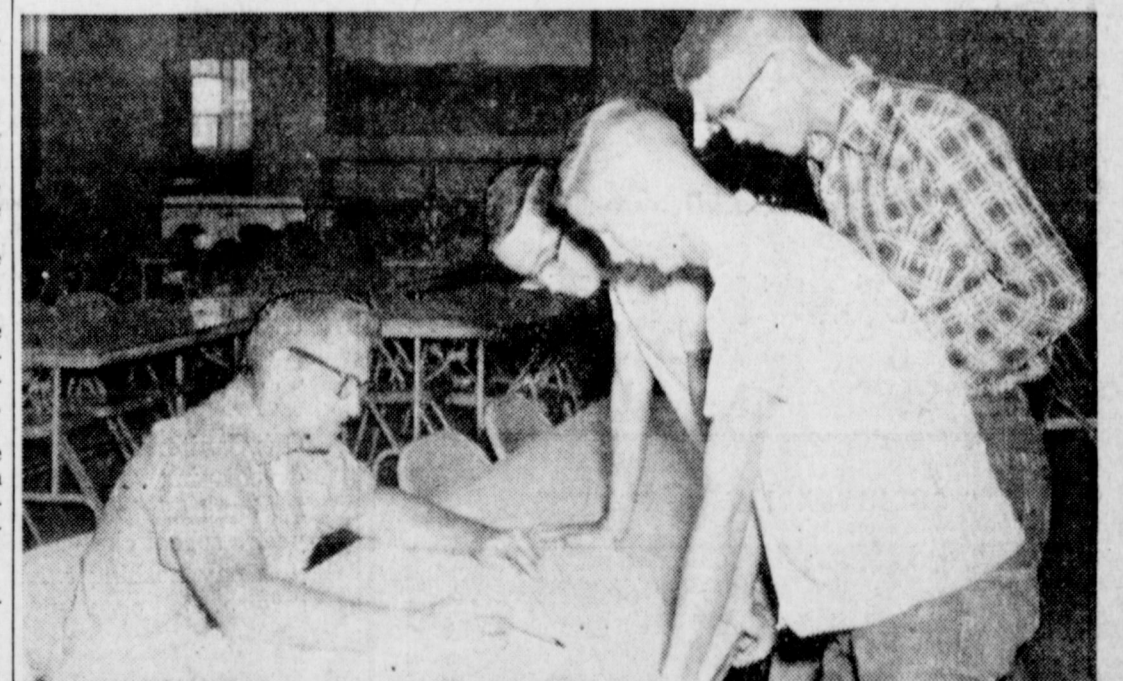

Phillips said he believed the robber was not more than 18 to 20 years old.

## Jail Report: 15 Persons Held

Dee Clements, Bailey County sheriff, showed in his jail report for the week that 15 persons had been lodged in the county jail for the period.

They included one each for driving while intoxicated, a drunk and vagrancy, held for the city; three for investigation by the county and one for aggravated assault; and eight persons held for the Texas Highway Department.

The last included three drunks, one for driving while intoxicated, one for driving without a license; two for affray and one for failure to pay.

ENROLMENT TIME — It's that time again as Muleshoe pupils started enrolling for the 1962-63 school term this week. Here Principal H. W. Callen enrolls three senior high school boys, Charles King, Jr., Jim Thompson and Ronnie Locke. Locke and Thompson are seniors, King is a junior. (Journal Photo & Engraving)

### C-C Seeks Items To Give Teachers

Gift items are needed for placing in the hospitality packs which will be presented all Muleshoe teachers next Thursday at the annual "Welcome Luncheon" for teachers, sponsored by the Rotary, Lions and Chamber of Commerce.

Items may be of an advertising nature, but should have a practical value as well. Each teacher will receive one of the hospitality packs as part of the welcome extended at the luncheon.

The luncheon will be held at noon August 30 in the high school cafeteria, and J. V. Peeler, past president of the Chamber of Commerce, and past president of the Lions club will be master of ceremonies.

C. L. Kay, vice president for public service at Lubbock Christian College will be the principal speaker.

Welcome remarks will be made by Frank Ellis, president of the Chamber of Commerce, with response for the teachers by Byron Hardgrove, president of the Texas State Teachers Association local chapter.

Approximately 100 teachers are expected to attend.

Items for the hospitality kit may be left at the Chamber office, or will be picked up by members of the committee.

### Center Whittles Its 'Open' Nights

Muleshoe Youth Center will go on a more restricted schedule next week, and after school opens youth nights will be limited to Friday and Saturday, Tootie Middlebrooks, adult president, said Thursday. This action was taken at a meeting Tuesday night.

Next week the center will be open only on Thursday and Saturday.

Another major "live" band dance is slated for Saturday, Sept. 1 when the Five Counts, Clovis, will provide the music. Fees will be 75 cents for members, \$1 for non-members.

Last Saturday night's dance was attended by 144 youths when The Trojans, Friona, provided the music.

### GOP Club Books Hayes as Speaker

O. W. "Bill" Hayes, republican nominee for Lieutenant-Governor of Texas, will speak in Muleshoe Tuesday night at a meeting of the Bailey-Parmer County Young Republicans, it was announced Thursday.

The Temple businessman will be making his second visit to Muleshoe, as he campaigned here earlier this year seeking his party's primary nomination.

Bill Hayes is a vice-president of the Continental Belton Company, manufacturers of farm equipment. He is married, and has one son, Kemp, 18, and two daughters, Kerry, 14, and Susan, 8.

Hayes is a former New Hampshire state legislator, as are his brother and mother. He enlisted in the army in 1942 and was separated with a rank of captain from the U-S Air Force in 1946.

Hayes spent 13 years in professional baseball, nine of those years as general manager. He received a national award as "Number-one-executive" of the year for minor leagues by the "Sporting News" in 1951.

Hayes is an active civic leader at Temple, and has served as president of a number of Temple and Bell County organizations.

The public is invited to hear Hayes speak at Tuesday's night meeting, to be held at 8:30 p.m. at the American Legion Hall in Muleshoe.

Mrs. Harold Wilson is the new secretary of the Bailey-Parmer Co. Young Republicans. She succeeds Mrs. Joe Briggs, who resigned.

### Mule Memorial Picture-Taker Here - Too Early

Muleshoe missed a chance at a feature story being written for Parade magazine Tuesday, by not having the Mule Monument erected.

Joe Swan, a former information representative for Texas A&M and a feature story writer, paid a visit to the Journal Tuesday and asked about the monument.

He expressed his intent to write the story had the monument been erected, and said he plans a return trip to take pictures and write the story when it is completed.

Swan is teaching journalism in San Jose College in California.

He added that the distribution of midge is not as general over the area this year as it was last, but extremely large populations are now being found."  
He said many farmers are spraying fields which have already bloomed. He says this is a waste of insecticides since midge damage occurs during the first four days after the head emerges from the boot.  
"Bollworms continue to cause serious loss. . . in many counties," the report from the Lubbock office says. However Bailey county is not included in the list.

Compound has 16 schools, eight nurseries, eight kindergartens, 182 doctors and the mothers work. They produce 240 million meters each year. They have fairly modern equipment, state owned, of course. cause we have all the friends we need." 3. The newcomers who timers' group nor the military.

We belonged in the last group, and because there were few of us, we didn't have any friends in that town of 30,000.  
And that's another thing: We have found from actual experience living in several different sized towns that: The friendliest places are the towns of under 5,000 and those of over 200,000. The in-betweens, including one large area town, we have NOT found to be friendly.

We also have found that people who say "come to see me," frequently don't mean it at all. Once I put such a person on the spot. I said, "Ok, when do you want us?" and the poor guy nearly fainted. It was in this town that I mentioned earlier.

The most foolish money we ever spent was for a doorbell at that town I mentioned. The only person who ever used it were the postman who had a letter with two cents due, a Fuller brush man and the paper boy.  
Now, we are finding Muleshoe to be friendly. In fact, folk have gone out of their way to be nice to us—not just surface friendliness such as the "come to see me sometime," greeting, but genuinely friendly. They've asked us to take part in events and we are pleased. Two groups have even asked me to play the organ, which indicates how far they will go to be friendly, even to being gluttons for punishment.

TODAY'S MEDITATION

Examples of Baptism

The nation of Israel was baptized in the cloud and in the sea. Ex. 14, 1Cor. 10:1-6.

Jesus after his resurrection commanded His disciples to baptize believers, yes, believers only, those that had been taught that they were sinners and that they needed to know that no one is able to save himself by his own power. Jesus wanted the nation to be taught first about his condition, and recognize that we are all sinners. We must teach the nation that after they believe, they must be baptized. Act. 2, 41.

May I call your attention to the fact that — they first received; What? The Word of God, and they gladly received; and then they were baptized for the Word of God is true and the truth will make you free of sin and mistakes.

Under the preaching of the Word of our God, the Lord opened Lydia's heart, and she was baptized. (Acts 16:15). It was the Word of God that she received, for the word of God is the only one that gives you the answer to your problems and it is sufficient to open your heart or your mind.

We, as Christians, need to teach the Word of God to the Nation. If we wanted to have a better understanding, God wanted you and me to read and teach the Bible, for the good of our Souls. Teach the people what to do, to be baptized.

### STOCKS AND BONDS

When you buy a share of stock, you own an interest in every single thing a firm has; when you buy one of its bonds, you don't own any part of the company. The bond or debenture is merely a promise to pay.

Suppose out of 1,000 shares outstanding, you own one share. Then you have an undivided one-thousandth share in the company not in any particular thing but in every piece.

When you buy a bond, you own no part of the company. The firm promises to pay the loan back when the bond matures.

As a rule, bondholders have little say directly about the firm or how it picks its officers and manages its business. Of course, lenders exercise indirect influence since they must have confidence in the firm and its management before they will part with their money.

Bondholders get their interest before any stockbroker gets his dividends; and should the firm go broke, they get paid out of its assets before the stockholders get

a nickel.

Preferred stock, as a rule, yields fixed dividends before the common stockholders get anything, but preferred stock dividends are payable only if declared by the corporation.

As a rule, common stockholders risk more and therefore stand to make greater profit (or loss).

The legal invention of the entity called a corporation has made vast public investment in industry and commerce possible. By allowing anybody to buy in or to lend to the firm, a corporation has made large scale research, production, and marketing possible while each investor can study and decide where he wants to risk his capital.

(This newsfeature prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Hurricanes usually are given feminine names in alphabetical order. However, the first hurricane of the 1949 season was dubbed "Harry" after President Harry S. Truman, who was visiting Miami at the time.

### THE SANDHILLS PHILOSOPHER

## He doubts There's Anything More Interesting in Space Than Here

Editor's note: The Sandhills Philosopher on his Johnson grass farm continues unenthusiastic about outer space, his letter this week indicates.

Dear editor:  
A neighbor of mine was awfully depressed the other day while those two Russians were sailing through space.

"They're just too far ahead of us," he kept saying. "We debate whether our men will stay up for three or four hours, while they debate whether theirs will stay up for three or four days."  
He shook his head as though all

was lost and it might not even be worth while farming again another year.

Well, now, I'll tell you. It's true that ever since Columbus discovered America and opened up the best source of foreign aid Europe ever had, man has been trying to reach out and explore some more, but I'm not sure the moon will be as rewarding to mankind as the discovery of America was. It may not have the soil we've got down here.

I don't know, nobody does, but it's possible that when man, Russian or American, does reach the moon and the first wild excitement of the feat is over and he has a chance to look around up there, he may discover that the earth sure looks good to him. May be like climbing a high mountain—once it's done, it ain't worth doing again.

## A & M Testing Service Set Up To Check Salt

A new service to aid farmers in combating salt problems on irrigated land has been announced by the Texas A&M College, according to County Agent J. K. Adams. Facilities for determining quality of irrigation water and measuring salt accumulations in the soil are now ready for full scale operations, Adams said.

Since all waters contain salt, a salinity threat exists to some degree in every area where irrigation is practiced. Salt problems are most apt to occur in the Trans Pecos, Coast Prairie, Rio Grande Valley and the Wichita Valley areas, but may exist in local area of the High Plains, Rolling Plains, Rio Grande Plain and other sections of the state.

Salinity tests of water reveal whether it is safe to use for irrigation purposes and what management practices or soil amendments, if any, are needed for sustained production. Soil salinity tests are also important because soil types determine in many cases whether saline water is usable, the agent pointed out.

A charge of \$5 will be made for testing water samples and \$4 for soil salinity tests. Testing of soil samples for fertilizer and limestone requirements will continue to cost \$2. A special set of forms has been developed for use of farmers in submitting water and soil samples for salinity testing. Bailey County farmers can obtain these forms along with additional information of salinity testing at County Agent's office in Muleshoe.

## More Driver Education Emphasis Needed, Safety Chief Declares

There is an urgent need for greater emphasis on driver education courses in Texas schools, J. O. Musick, General Manager of the Texas Safety Association, said Wednesday.

Wilburn McAlpin is driver education teacher in the Muleshoe schools, opening Sept. 3.

"If we are to succeed in training our youth today to be better drivers tomorrow, then we must make driver education courses available to them," Musick said.

The safety director pointed out that of the 1,402 public schools in Texas, there were only 671 offering driver education courses during the past year. Of the 105 non-public schools, 29 offered driver education courses.

This is less than a 50 per cent participation in driver education courses by Texas schools," Musick said.

Total enrollment for grades nine through 12 in public schools during the past year was 472,873 students. Non-public schools had an enrollment of 14,882 students.

"In state supported schools 49,421 students completed the basic driver education course which requires 30 clock hours of classroom instruction, six clock hours of observation and six clock hours of practice driving," he said.

"In non-public schools, 1,725 students received the basic driver education course including the observation and practice driving."

He explained these figures do not mean that only this number of students have received driver education, some of the number included in the total enrollment have already had instruction in driver education.

"However, we figure there were at least 130,320 students of eligible age who would have taken driver education if it had been available to them," Musick added.

The 130,320 figure represents the number of students enrolled in the tenth grades in all Texas schools. It is also the figure that the Texas Education Agency has used in determining the percentage of students receiving driver education in our schools last year.

This percentage is approximately 39 per cent.

Musick said safety experts agree that driver education is the key to traffic accident prevention.

"If we can reach drivers before they form bad driving habits, we can prevent many accidents that take their toll in death and disabling injury and cause an economic loss to our country," he said.

The Texas Safety Association director says the schools are the best place for training safe drivers.

"There are more than five million drivers in Texas today and this number is increasing. We are killing ourselves at the average rate of seven persons each day, besides injuring 305 or more persons in approximately 625 motor vehicle accidents," he continued.

"The population of Texas is nearing the 10 million mark. With at least 50 per cent of the population driving, we can assume that at least the same per cent of our students of today will become tomorrow's drivers.

"Certainly we cannot afford to instruct less than one-half of the students in our schools in traffic safety."

The Texas Safety Association urges all students to take available driver education courses whether or not they plan on becoming drivers.

"If the students learn the concept of traffic safety, they will become better pedestrians and pass-

enger as well as better drivers," Musick noted.

While citing the need for greater emphasis on driver education courses in Texas schools, Musick commended school administrators for their efforts in making the course available.

"We recognize the difficulty school administrators have in working the laboratory phase of the driver education courses into their curriculum," he said.

"One teacher can instruct about 30 students successfully in a classroom for the required 30 clock hours instruction, but the instructor can take only three students with him at one time for observation and practice driving."

Some school administrators have solved part of the scheduling difficulty by including the laboratory phase in the summer curriculum.

"This way students receiving the classroom instruction during the remaining combined 12 hours of observation and practice, can finish the full course and be eligible to take the state driver's license tests for an unrestricted driver's license," he explained.

TSAs has noted some students are taking the classroom instruction during the academic year, then completing the observation and practice driving phase by taking private driving lessons. This may cost the student \$20 to \$30, depending on the number of lessons, but it is one way students may satisfy the requirements to take the driving license examinations.

In Texas, students may be granted a driver's license after they reach the age of 14 if they successfully complete driver education courses that meet the requirements of the Texas State Department of Public Safety, and if they make a passing grade on the DPS examinations.

The only other way for anyone under the legal driving age of sixteen to obtain a driver's license is in a case of hardship where it is necessary for the person to drive. He still must pass the DPS examinations and be at least age 14.

## YOUR HEALTH Food Handlers Given Lessons In Sanitation

Over 15 million meals will be served in 20,000 Texas eating establishments this week. If you're average you'll eat at least two of them.

You could go into the vast majority of those restaurants and cafeterias and be assured of getting a wholesome meal—totally oblivious of the fact that you're eating food cooked and served by complete strangers.

How can this be, especially since some 26 different diseases can be spread by improperly handled food? Included in the list are such scourges as trichinosis, the deadly botulism, strep infections, and salmonellosis (food poisoning).

There are many reasons of course, but among the main ones

are the three-day short courses in sanitation conducted by the State Department of Health for persons engaged in food preparation and service. In the past five years, according to official records, thousands of Texans have taken instruction.

The subject matter, presented in a non-technical, easy-to-understand style with films and demonstrations covers such essential points as basic bacteriology, insect control and personal hygiene.

One public health instructor from the Department's Division of Public Health Education, assisted by local health officials, will put on a course anywhere in the State on request. Attendance is open to anyone, but usually those who come to the two-hour daily sessions are cafe and cafeteria personnel.

Some cities encourage total participation of all foodhandlers and one city has an ordinance requiring attendance.

When a restaurant employee completes the instruction, he is given a certificate of attendance, signed by the State Health Commissioner and attesting the fact that he has had the course. And when 80 percent of the workers in a food service establishment complete the course, the restaurant is awarded a placard suitable for framing and display so customer can see the owner has an interest in health protection.

All of which accentuate the importance of the short courses—and of the placard awarded to cafes when they support them. The next time you eat out look for it. It is a pledge to you that the restaurant is interested in your welfare.

## PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 70 proposing an Amendment to Article IX of the Constitution of the State of Texas by adding thereto a new Section authorizing the creation of two (2) hospital districts in Brazoria County, one to include all or part of the West Columbia, Brazoria and Damon Independent School Districts, and the other coterminous with the Sweeny Independent School District, providing for a possible consolidation of the two, providing a mode of financing and also authorizing construction, equipping, maintaining, and financing of a home for the aged in Titus County.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article IX of the Constitution of the State of Texas is amended by adding thereto a new Section to read as follows:

Section 10(a). The Legislature may authorize the creation of two (2) hospital districts in Brazoria County, one of which shall include all or part of the West Columbia, Brazoria, and Damon Independent School Districts, and the other coterminous with the Sweeny Independent School District. The qualified electors of the hospital districts may, by majority vote of such hospital district, consolidate the Sweeny Hospital District into the Damon, West Columbia, and Brazoria Hospital District at any time subsequent to the organization of the separate hospital districts.

"Such districts, if created, may be authorized to levy a tax not to exceed twenty-five cents (25c) on the one hundred dollar valuation of taxable property within the districts, provided no tax may be levied until approved by a majority vote of the participating resident, qualified, property-taxpaying voters who may have voted rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections, provided existing obligations are not impaired, but in no event shall any change of rate exceed twenty-five cents (25c) per one hundred dollar valuation.

"The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to acquire, construct, maintain and operate the hospital system; and the Legislature may authorize the district to issue tax bonds for the purpose of the acquisition, construction, purchase, repair or renovation of improvements and initially equipping the same and such bonds shall be payable from said twenty-five cent tax.

"(b) In addition to all other ad valorem taxes authorized under this Constitution and the laws of the State of Texas, Titus County is hereby authorized and empowered to levy, assess, and collect a tax not exceeding twenty-five cents (25c) on the one hundred dollar valuation of taxable property in said County in any one year for the purpose of paying the principal and interest on any bonds issued by said County for the purpose of constructing and equipping a home for the aged for the aged persons in said County and to pay the maintenance and operation expenses thereof, provided said bonds and tax shall have been authorized at an election or elections held for that purpose by a majority of the qualified electors of Titus County, who own taxable property in said County and who have duly rendered the same for taxation, voting at said election. This provision shall be self-enforcing and no enabling legislation hereunder shall be required. Any bond issued hereunder shall be issued in accordance with the General Laws except as herein otherwise provided.

### PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 25 proposing an Amendment to Section 69 of Article III of the Constitution of the State of Texas to authorize all counties and other political subdivisions of this State to provide insurance for all employees; providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 69 of Article III of the State Constitution be amended to read as follows:

"Section 69. The Legislature shall have the power to pass such laws as may be necessary to enable all counties and other political subdivisions of this State to provide insurance, including the right to provide its own insurance, for all employees of the county or political subdivision as in its judgment is necessary, required; and the Legislature shall provide suitable laws for the administration of such insurance in the counties or political subdivisions of this State and for the payment of

the costs, charges and premiums on such policies of insurance and the benefits to be paid thereunder."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the date fixed by law for the General Election in November A.D. 1962, at which all ballots shall have printed thereon:

"FOR the Constitutional Amendment providing Workman's Compensation Insurance for all employees of all political subdivisions;"

"AGAINST the Constitutional Amendment providing Workman's Compensation Insurance for all employees of all political subdivisions."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the ballot. In counties or other subdivisions using voting machines, the above provisions for voting shall be placed on such machine for or against the Constitutional Amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said Election and have the same published as required by the Constitution and laws of this State.

By VERN SANFORD  
Texas Press Association

AUSTIN—When Jim Leonard, executive secretary of the Republican Party in Texas, asked Atty. Gen. Will Wilson to impound ballots in Duval, Zapata and Starr counties after the general election in November... the Fall political campaign immediately got under way.

It was a quiet, but telling, legal order of impounding that Wilson filed in the 98th District Court in Austin. It cited the vaults of Duval County's district and county clerks as "not as adequate, accessible and safe" as the vault of the Corpus Christi State Bank.

Same charge was levied against county vaults in Starr and Zapata counties.

Court order instructs election judges and officials in the three South Texas counties to turn ballots, poll lists and all other election records over to a Texas Ranger. He then would deliver them to the Corpus Christi bank for safe keeping until the 98th District Judge, or his appointed representative could examine them.

With this sort of preamble, it looks like the Fall campaign might be a little more exciting than the democrat-dominated ones in past years.

Texas in Top Three

Texas returned to the number 3 spot among the "Top Ten" states, in industrial expansion, as the Texas Industrial Commission announced the addition of 28 new industries.

Although the big Houston and Dallas areas captured 17 of the new plants, 11 companies picked non-metropolitan towns as industrial sites. Jacksonville, Kaufman, Malakoff, Marfa, Mount Pleasant and Quanah

### PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWELVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

SENATE JOINT RESOLUTION NO. 19 proposing an Amendment to Article IX of the Constitution of the State of Texas to add a new Section to be known as Section 1-A which permits the Legislature to delegate certain zoning powers to the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be amended by adding thereto a new Section, immediately following Section 1, to be known as Section 1-A which shall read as follows:

"Section 1-A. The Legislature may authorize the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof to regulate and restrict the speed, parking and travel of motor vehicles on beaches available to the public by virtue of public right or submerged lands.

"The Legislature may enact any law not inconsistent with this Section which it may deem necessary to permit said counties to implement, enforce and administer the provisions contained herein."

"Should the Legislature enact legislation in anticipation of the adoption of this Amendment, such legislation shall not be invalid by reason of its anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the Legislature to delegate limited zoning powers to any county bordering on the Gulf of Mexico or the tidewater limits thereof."

"AGAINST the Constitutional Amendment authorizing the Legislature to delegate limited zoning powers to any county bordering on the Gulf of Mexico or the tidewater limits thereof."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and to the length of time as required by the Constitution and laws of this State.

reported new industries.

TIC is a state agency dedicated to stimulating more business in Texas by cooperating with chambers of commerce and other local level groups in bringing more industries to the state.

Allen Seagrath, commissioner's community coordinator, will speak at several industrial development meetings over the state during the next month.

Double Taxation

Texas Commission on state and local tax policy has suggested that virtually all intangible personal property held by Texans be exempt from taxation. This includes taxes on bank accounts, securities, mortgages and similar financial assets.

Highway Costs Low

Texas is building its Interstate Highway system for almost \$400,000 a mile less than the national average, according to the Texas Highway Department.

U. S. Bureau of Public Roads figures show Texas will complete its portion of the Interstate system at an estimated \$690,000 per mile, compared to the national average of about \$1,000,000.

Mental Hospitals Crowded

County judges are blamed for cramming state mental hospitals by committing too many old people, who really just need rest home care.

Board of State Hospitals and Special Schools reports that some mental institutions - especially the Kerrville State Hospital and the Confederate Home at Austin - are so crowded with old people there isn't enough room to care for the state's mentally ill.

Board member W. G. Kirklin of Odessa said he has been told that some juvenile delinquents, who aren't mentally ill, are also being routed into mental hospitals

by judges.

Corrective legislation is being studied.

Dr. C. J. Ruilman, director of mental health and hospitals, says facilities for 9,000 elderly people would be needed if the Legislature decides to care for them somewhere other than the mental hospitals.

Parks Plan Debated

State budget officials and parks experts differed on the popularity of the state's 50-plus public parks.

Parks Board told the Legislative Budget Board it wants \$2,100,000 to improve four parks and increase funds for others.

Reese Martin, vice-chairman of the board, claims record attendance. His optimism about public use of state parks was shared by Elio Urbanovsky and Charles Dorell of Texas Tech, who are working on a master plan for Texas' recreation facilities.

But Jess M. Irwin, Jr., governor's budget director, and Governor A. McGee, director of the Legislative Budget Board, were reluctant to recommend the Legislature's approval of a plan to spend \$800,000 to improve the newly-donated Wheatley Ranch in Blanco County (which already has a state park); \$550,000 at Lake Whitney State Park; \$650,000 for a new park in the Big Thicket; and \$300,000 for the new park at Falcon Lake.

Wildlife Fair Fares Well

State Game and Fish Commission's wildlife exhibit is such a prized attraction at fairs, sports events that it's being booked on a first-come, first-serve basis so everyone will have a chance to see it.

T. D. Carroll, G & F Commission's coordinator of information, said the exhibit—made up of live birds, mammals, reptiles and fish of Texas—will go on the road September 4. First showing is scheduled for the Floyd County Fair on September 6-8.

Exhibit will travel west from Floyd County; then move to East Texas for October dates; and to South Texas in November.

A & M Gets Reprieve

"For Men Only" apparently will continue to be the policy, for at least one more year, at Texas A&M College. The touchy matter of admitting women students has been temporarily side-stepped by the Texas Commission on Higher Education.

On the Commission's July meeting agenda, the issue was suspended when the Commission staff pleaded more time was needed for the study. Another school year will be under way before the matter can be given any further consideration.

Amendments Stir Campaigns

At least two of the 14 proposed constitutional amendments Texas voters will consider on November 6 appear to be firing campaigns.

Proposal No. 14 appears to be stirring opposition from the Texas Municipal League which asserts that this amendment as presently written "could virtually destroy municipal government in Texas, except for certain of its police powers."

Proposal No. 4 on the ballot would permit the state to buy conservation storage in locally or federally-owned reservoirs Gov. Price Daniel has called a special meeting of his statewide water advisory committee for September 10, for the express purpose of organizing support for the amendment.

School Prayer Ruling

Atty. Gen. Will Wilson has been asked to advise Texas public schools regarding the U. S. Supreme Court's highly controversial prayer opinion.

Request for an interpretation from Wilson came through Dr. J.

W. Edgar, commissioner of education, on a query from school officials at Port Arthur.

Wilson was asked:

1. Whether a school board can permit a student or teacher to say the blessing before meals, in a public school, without running afoul of the Supreme Court decision?
2. Whether school may authorize "a period of silent meditation" during the meal period?
3. Whether Bible-reading is permissible in classrooms or on assembly programs?
4. Whether the court's opinion permits public prayers at football games involving public school terms, or at other school-sponsored events?

Whopper Drought

Texas will have another mighty drought by 1970, is the prediction of Judge J. E. Sturrock, of the Texas Water Conservation Association.

Gigantic sunspots, many months old, still are raging at the center of our solar system, says Judge Sturrock.

When the great gusty winds of the universe die down, and the solar tumbledweeds stop tumbling, about 1970, Texas will have another mighty drought.

Meanwhile, Texas' rains and its "little droughts" like the current one, will follow each other in their normal seasons, says this leading authority on Texas water.

Cotton Picking Money

Cotton picking is brightening the outlook for a lot of people who are concerned with the State's budgetary problems—especially those in the Texas prison system.

Dr. George F. Beto, director, reports that fair weather for the next month during harvest would mean a \$2,000,000 crop from the system's 10,000 acres of cotton.

Texas or Mexico

Gov. Price Daniel says it will be up to the officials of El Paso whether the claim of Mexico to a section of El Paso will be honored.

House members returning to the Capitol this winter will be walking softly in the House chamber whether they intended to or not.

A plush new gold carpet is replacing the old tattered and threadbare one.

Plyboard was laid over the 1,000 square feet of floor to add strength and provide a smooth, even base for the new carpet.

In addition to the carpets and fresh paint, the ancient oak paneling has been restored to its natural finish.

More Road Funds

Contracts for building Texas highways may be stepped up by \$5,000,000 a month under an order unfreezing \$1,900,000,000 from a backlog in the federal highway trust fund.

J. C. Dingwall, assistant chief highway engineer, estimates that \$91,000,000 more federal funds will be released to Texas as a result.

Land Commissioner Jerry Sad-

ler opposes renewing the state lease of Matagorda Island to the federal government for a bombing range.

Of the 15,250 acres the U. S. Corps of Engineers has leased through condemnation since 1950 (for a rental of 6 cents per acre), the Air Force has subleased 13,842 acres of the tract to an individual for 19 cents per acre.

SHORTS SNORTS

Gov. Price Daniel has appointed Mrs. Florence Fenley of Uvalde and Brackettville as a member of the Texas Civil War Centennial Commission. She is a former member of the Texas House of Representatives.

Board of Pardons and Paroles has granted a year's leave of absence to its administrative director, Vincent O'Leary. He has been appointed head of a nationwide program for the establishment of institutes for parole board members at various universities in the U. S.

A civil suit has been filed in Austin district court seeking to restrain State Treas. Jesse James from paying all salaries to the Attorney General, Comptroller of Public Accounts, House Speaker, Land Commissioner, Pres. pro tem of the Senate, an Ex-pres. pro-tem of the Senate, on the grounds that the legislative redistricting of Texas does not afford equal representation to all.

SUSAN BIRDSONG VISITING

Susan will return this week and seven year old Sally Ann Holt will return with her to visit in the home of her grandparents, Dr. and Mrs. W. F. Birdsong and Mr. and Mrs. Horace Holt.

CLINTON MURRAH VISIT RELATIVES AND FRIENDS

Clinton Murrah, son of Mr. and Mrs. Claudis Murrah, Walsh, Colo., was in Muleshoe Monday visiting his grandmother, Mrs. Eva Murrah, and other relatives and friends.

Clinton attended graduation exercises for Shirley Bishop, Walsh, who is among eleven nurses to graduate Monday night from St. Johns Methodist Nurses School.

"We're glad daddy bought us a dishwasher," say Mrs. Kenneth Ware and daughter, Carrie, 208 EAST 21st LITTLEFIELD, TEXAS

Mrs. Ware's experience is most interesting — and enlightening. She had heard tales about dishwashers — untrue tales, of course, but how was she to know. Well, despite her objections at the time, her husband had a dishwasher installed in her new home. She says, "Now, I'm sure glad he did. I'll admit that I was completely misinformed, as I understood each dish had to be hand-washed first — this simply is not true. My electric dishwasher does the complete washing job for me."

## How to Build Public Relations Is Subject of Short Course Here

The art of building good public relations in business organizations is the subject of a course entitled "Public Relations" to be taught in Muleshoe beginning next Tuesday night.  
 Nuel Childs, training specialist from The University of Texas, will conduct the course. The course is specifically designed for owners, managers, and employees of retail, wholesale, and service organizations in the city.  
 In announcing the course, Linda Murray, chairman of the Continuing Education Committee of Muleshoe Chamber of Commerce, explained that each person will find this course meaningful to him. Public relations is focused on the level in which each person is involved.

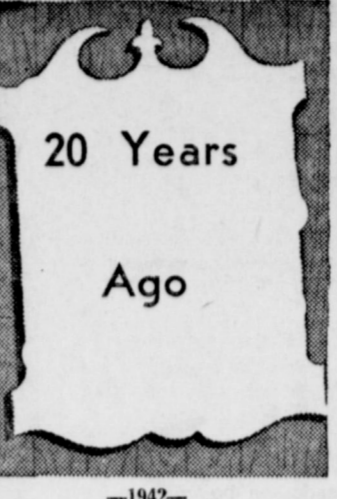

NEUL CHILDS

Topics to be covered in the sessions include what is public relations, you and public relations, seeing yourself as others see you, getting along with people, and why people behave as they do, and plus discussions of various public relations problems.

The Muleshoe Chamber of Commerce is sponsoring this course in cooperation with the Distributive Education Program of The University of Texas and the Texas Education Agency.

All meetings will be held at the Junior High School, beginning at 7:30 p.m. each evening. A small registration fee will be the only charge for the course. Enrollment is open to any person employed in retail, wholesale, or service businesses.

Childs, the instructor, was graduated from The University of Texas, receiving a Master's degree in marketing. He was with two large retail chain stores and some smaller wholesale and retail stores for 14 years. He has won high honors for exceptional training in U.S. Air Force Reserves, having taught for seven years. Childs has had extensive training and work in the field of finance and investments, both individual and institutional.  
 Additional information on the course may be had by contacting Linda Murray at C. R. Anthony Co., or the Chamber Office.
