

NO CHANGE IN BEEF

SMALL RUN OF WESTERNS CLEANED UP AT STEADY SET OF FIGURES.

COWS AND HEIFERS FIRM

Good Clearance Afforded For the Small Supply—Veals and Bulls Unchanged—Stockers and Feeders Steady.

A fair Friday volume of trade was transacted in cattle here today without material change in the prevailing level of prices.

Beef cattle prices were forced down on heavy receipts this morning. The market was bearish.

Comparatively liberal marketing at this point during the week embraced the lightest showing of cattle here seen here on any previous week of the year.

Good, well-hardened western grass beef is meeting a favorable reception on the market.

Local receipts for the week total around 13,000, an increase of 2,000 over last week and a gain of 700 over the corresponding week a year ago.

Cows and heifers were in rather light supply on the market today. Outlet for the few offered was readily found on a steady basis of prices.

Cows and heifers shared in the general weakness that hit the cattle trade Monday.

General marketing of cattle Monday at the five markets was rather slow. Locally, buyers succeeded in taking off around 10,000 lb.

Cattle—Receipts, 2,000. Market steady. Hogs—Receipts, 5,000. Market steady.

Chicago Estimated Receipts, Chicago, Sept. 13.—Estimated receipts for Saturday: Cattle, 2,000; hogs, 7,000; sheep, 1,500.

South Omaha, Neb., Sept. 13.—Special to The Journal: The Drovers Journal-Stockman reports: Cattle—Receipts, 1,500.

St. Joseph, Mo., Sept. 13.—Special to The Journal: The Daily Live Stock Reporter reports: Cattle—Receipts, 3,000.

St. Louis, Mo., Sept. 13.—Special to The Journal: The Live Stock Reporter reports: Cattle—Receipts, 700.

HOG PRICES STIFFEN

EARLY TRADE ACTIVE AND VALUES A FULL NICKEL HIGHER.

LIGHTS SELL UP TO \$8.90

Market Slow on Late Arrivals—Bulk of Sales at Spread of \$8.30

The hog market showed a reactionary spirit today and prices were elevated fully a nickel from yesterday's general level.

Traders were fairly active at the higher end of the market. A general contraction in supplies this week has reflected a degree of strength into local trade.

Traders believed that the bumping prices is about over in view of lighter supplies in prospect. A general contraction in supplies this week has reflected a degree of strength into local trade.

PLAN GRAZING POLICY.

More Settled Conditions Between Whites and Indians.

Washington, D. C., Sept. 13.—The Indians of several western states are to receive revenue from grazing on approximately 7,000,000 acres of land which for years has borne them no revenue, as the result of an order recommended by Assistant Commissioner F. H. Abbott of the Indian office, and recently approved by First Assistant Secretary Samuel Adams of the Interior department.

The order, which became effective on September 1, will effect Indian lands which have been opened to white settlement by various acts of congress since 1904, but which still remain unsettled or unsold. The Indian lands on the Crook and Flathead reservations in Montana; Round Valley in California; Coeur d'Alene, Idaho; Fort Berthold and Standing Rock in North Dakota; Cheyenne river, Pine Ridge and Rosebud in South Dakota; Spokane in Washington, and Wind river in Wyoming are included in this order which will benefit approximately 25,000 Indians. On the Wind river reservation the order will not be effective until after September 19, on account of a sale of all the remaining ceded lands on this reservation advertised for that date by the general land office. Those who took out permits for the balance of the year will be given the preference for next year.

While this order will bring in a substantial revenue for the benefit of the Indians, the department believes that it will also bring about a more settled condition among white settlers and the Indians by establishing definite grazing areas under definite permits, which will enable the department to enforce the rights of the Indians as well as those of the whites. Stockmen who have written the Indian office do not object to paying a reasonable grazing fee for the exclusive use of the land and prefer it to the free range conditions under which they are technically trespassers. The regulations are promulgated jointly by the general land office and the Indian office and are so drawn as not to interfere with homestead settlement or sale of the surplus lands, but to settle the rights of the Indians being of primary importance, as the proceeds of the sales go to the Indians.

INDIANS' LODGE OF SORROW

Yuma Tribe Annually Gives Itself Up to Accumulated Grief.

Yuma, Ariz., Sept. 12.—The Yuma Kurook, a sort of aboriginal grand lodge of sorrow, has been concluded on the reservation across the Colorado river from this city. Ordinarily the Indians seek to forget the dead. Till recently, when the practice was stopped by the Indian bureau, all the effects of the late lamented were gathered and burned, even his horses being sacrificed to do him fitting honor for his happy hunting grounds. The dead were disposed of by cremation and hardly a relic was left by which to remember them. But, annually, at the Kurook, the title of memory is permitted to return and for several days the tribe gives itself up to the accumulated grief of a year, gathered together in family groups, propitiating the spirits by unstrained manifestation of sorrow. Bands of related Yumas will vicariously lament for hours at a time. There will be impromptu speeches testifying to the virtues of the dead. Dances will be held at intervals, though with all solemnity. Images will be set up, supposedly representing any of the dead, as the intimation of the sorrowing one may suggest. In the latter hours of the mournful feast usually are held mild mimed representations of wars of the past.

NEHAMA COUNTY FAIR SOON

Kansas Festival at Seneca Will Be Featured by Airship Flights.

Seneca, Kan., Sept. 12.—The 1912 Nehama county fair will be held Oct. 1, 2, 3 and 4 and indications are that it will be the best ever held in this section of the state. President J. H. Cohen and secretary M. E. Bennett have been busy for several months securing attractions and the prizes in all the departments have been considerably enlarged. In the speed ring the following purses have been decided upon: 2:55 trot, \$500; 2:19 pace, \$500; 2:17 trot, \$500; 2:24 trot, \$500; 2:50 pace, \$500; 2:12 pace, \$1,000; there will be a purse of \$100 each day in the running race. Besides these there will be a purse of \$30 the first day for the Nehama county trot race and one of \$100 for the five-eighths mile dash. Thorwell Andrews has been secured to make aviation flights daily in a Curtiss biplane. More than \$4,000 was spent by the association last year and they expect to double that amount this year. The prizes in the live stock, agricultural, culinary and fine arts department have been increased.

U. S. MONEY IN PEAT SCHEME

Chicago Man Heads Syndicate to Increase Its Heating Value.

Dublin, Ireland, Sept. 12.—Peat fuel is of such industrial importance to Ireland that financiers and patentees are constantly putting forward schemes in the hope of developing advantageously the vast peat formations of the country. Theodore Franklin, a Chicago man, is the latest experimenter to claim he has a process by which he can extract the water from the peat by an easier method than by exposing it to summer heat—as they do in Ireland today—and produce fuel that will have twice the heating capacity of coal at half the cost of the latter.

TO STICK TO HIS RANCH.

Titled Englishman May Not Return to Europe.

Butte, Mont., Sept. 12.—Cecil Talbot Clifton, the rancher of Musselshell county who became Baron Grey de Ruthyn by the death of a brother, may not return to England. He is of a retiring disposition and is little known among neighboring ranchers. He associates with no one except his ranch partner, Harold M. Lowther, also an Englishman and brother of the speaker of the house of commons. Lowther says Clifton is too much

YOUTH, TIME OF ANOMALIES

Springtime of Life is Full of Contradictions, But is Great Flood of Energy.

How shall I describe Youth, the time of contradictions and anomalies? The fiercest radicalism, the most dogged conservatism, irreparable gayety, bitter melancholy—all of these moods are equally part of that showery springtime of life. One thing, at least, it clearly is, a great, rich rush and flood of energy. It is as if the store of life had been accumulating through the slow, placid years of childhood, and suddenly the dam had broken and the waters rushed out, furious and uncontrolled, before settling down into the quieter channels of middle life. The youth is suddenly seized with a poignant consciousness of being alive, which is quite wanting to the naive unquestioning existence of the child. He finds himself overpoweringly urged toward self-expression. Just as the baby, born into a great, blooming, buzzing confusion, and attracted by every movement, every color, every sound, kicks madly in response in all directions, and only gradually gets his movements co-ordinated with the orderly and precise movements of his elders—so the youth suddenly born into a confusion of ideas and appeals and traditions responds in the most chaotic way to this new spiritual world, and only gradually learns to find his way about in it, and get his thoughts and feelings into some kind of order.—Atlantic Monthly.

DAILY VISIT MADE BY STOR

Kansas City Man is Made Recipient of Many Favors.

Kansas City, Mo., Sept. 13.—E. A. Chase, night agent for the taxicab company, dining in a restaurant at all when the stork made occasional visits to his home at Fifty-seventh street and Virginia avenue, but when the old bird began to make daily visits Chase thought it was time to call a halt. Wednesday night an excited voice over the telephone told Chase that the bird had just arrived and left a fine boy for the family. Chase was happy as could be.

Thursday morning as he hurried from the garage to the house to see the new arrival, he heard the family cow bellowing. He went to the moment and found that the bovine stork had been around and left a lusty young calf.

"Good morning," said Chase. Friday morning as he started to work, "Spec," the pride of the egg-producing plant in the Chase backyard, trotted proudly across his path with a fine young family which the hen stork had brought around that day.

Chase began to get worried. "It seems to be in the air around here," he said. But the climax came Saturday morning. Chase just had arrived home, frolicking around in the barnyard was "Nanny," the children's pet goat, and with her were a pair of kids that just had arrived.

"What next?" he exclaimed. Now Chase always comes in from the front. He fears to look into the backyard.

BUCHANAN RANKS SEVENTH

This County Has 317,885 Apple Trees—Webster County Eighth.

Columbia, Mo., Sept. 13.—Buchanan county ranks seventh among the 114 counties in the state in the number of apple trees, according to statistics compiled by the state board of horticulture. The county had in 1910, 317,885 trees. Webster county, in the Ozarks, ranks first, with 524,435 trees. Andrew county, in northwest Missouri, ranks eighth.

The number of trees in some of the northwest Missouri counties follows: Atchison, 158,323; Andrew, 297,379; Buchanan, 317,885; Clinton, 64,764; Clay, 119,247; Caldwell, 41,144; Carroll, 190,637; Charlton, 25,322; DeKalb, 17,574; Daviess, 167,259; Gentry, 121,751; Grundy, 195,317; Livingston, 205,992; Linn, 95,199; Nodaway, 252,040; Platte, 216,252; Ray, 83,732; Mercer, 116,519; Worth, 55,742.

RECRUITING UP THE NAVY

Force Now Is 5,634 Less Than Required by Law.

Washington, Sept. 13.—With the enlisted force of the navy nearly 6,000 men below its normal strength, the Navy department yesterday began an active campaign to get recruits for the fighting ships. The total enlisted force now is 46,763 or 5,634 less than required by law. One of the chief causes for the falling off was the long delay for congress in passing the naval appropriation bill, but this was complicated by the heavy demand for men on farms in the middle west. The navy, however, is looking forward to the autumn, when hundreds of men probably will be thrown out of work. Steps already have been taken to establish recruiting stations in Denver, Salt Lake City and Richmond, Va., while traveling parties have been sent into the country.

ALFALFA PALACE IN WYO.

To Be Held in Big Horn County Fair Grounds.

Basin, Wyo., Sept. 13.—The land show which is to be held in the alfalfa palace of the Big Horn county fair grounds September 17-20 promises to be a complete success. The alfalfa palace is now in course of construction and will be in readiness for exhibition by the week with the best of products ever grown in the basin and producers are interested as never before. It is felt that the land show will be worth a long trip to see it. Prizes aggregating over \$4,000 have been offered. The wild west features promise to be very attractive, a large number of wild horses having been brought in from the mountains. One of the exhibits at this show will be one of four car loads of tomatoes canned in Basin.

FARMERS TO SCHOOL SOON

Institutes Will Be Held in Missouri Sept. 16 to March 15.

Columbia, Mo., Sept. 13.—Institutes for Missouri farmers will be held this year from Sept. 16 to March 15, under the auspices of the state board of agriculture. The state has been divided into six districts and four weeks have been assigned to each district. Northwest Missouri is included in the Second and Third districts. The division of the counties are: Second District—Caldwell, Daviess, Harrison, Grundy, Livingston, Mercer and Ray. Dates assigned, Nov. 18-30 and Feb. 3-15. Third district—Atchison, Andrew, Buchanan, Clay, Clinton, DeKalb County, Holt, Nodaway, Platte and Webb. Dates assigned, Dec. 2-14 and Feb. 3-15.

COTTON PICKERS SCARCE

Alice, Tex., Sept. 13.—Cotton pickers are badly needed here since labor agents from other parts of the state anted the local supply away with promises of big wages. The fields are white and a heavy rain at this time would cause a large loss.

Use nitrate of soda or liquid manure for crops that are growing slowly.

ORIGIN OF A POPULAR DOG

Ancestors of the Scottish Terrier Were Used by the "Tudhunters" of the Highlands.

In ancient times each district in the Highlands had its "todhunter," whose duty it was to see carefully that the then flourishing firm of fox, otter and sheep did not do a too flourishing business in lamb or poultry. Sometimes these todhunters were of "the laird's men," sometimes they were farmers and graziers; but always they were local dignitaries. There was honor and considerable profit in their office, and in time it came to be more or less hereditary. Their duty was simple. They waged a war of extermination against the vermin, which, however, was a very different matter from the good old English sport of fox hunting.

In the rough country horse and hound would have been worse than useless, and reynard made his den in such rocky ground that he could not be dug out. The sole solution was a dog small enough to follow the fox, or otter, or badger, or wildcat into his lair; strong enough to bring him out dead or alive; and game enough to do both. A dog developed from this necessity, and that dog was the ancestor of the present-day Scottish terrier.—Outing.

Dressed Chicken.

She wanted to surprise her husband with a chicken dinner, but after she had gone out into their little chicken run and captured a toothsome-looking young rooster there, she lost her nerve. She simply couldn't bear to hand it the axe. There was a small bottle of chloroform in the house, however, so she decided to prepare his rooster for the oven via the anaesthesia route.

He succumbed quickly, but to her horror he recovered consciousness as soon as she had finished plucking him. Stricken with remorse then, she clothe his naked form in a hastily made suit of white flannel, that fitted him like a regular "varsity" garment. Then she turned him out into the chicken run again.

Editors insist upon happy endings of this tale is better left untold. Sufficient to say that although fluff feathers make fine birds, white flannel never made this rooster himself again.

Inconsiderate Knot.

The dryingdock of the schooner Forester, which put in at San Francisco the other day in distress, revealed the fact that the leak, the source of the schooner's distress, was merely a knothole. The knot in one of the bottom planks had fallen out, leaving a hole an inch wide by one and one-half inches long. To keep out the water that came through this knothole the Forester's pumps were kept going night and day and the vessel arrived with ten feet of water in its hold. The desertion of its hole by this faithless knot imperiled the lives of the schooner's crew and involved owners and underwriters in an expense of more than \$1,000. The hole has been plugged up; and as this is all that ailed the Forester the schooner will proceed on its voyage as soon as the cargo has been reloaded.

Strange Things in the Wash.

The women are in such a hurry these days to get to their clubs that they are rather careless in wrapping up their family washing which goes to the laundry. Such articles as combs, brushes, shoe-buttoners, pocket knives, dishes and many other articles are quite ordinary finds in family washings. Recently an Erie laundryman rolled a poodle dog out of a family washing. Last week he found an alarm clock.—Kansas City Journal.

Marrying for Money.

"Why do you prefer Mr. Jombat to Mr. Wipfiddle? Mr. Wipfiddle has the more money." "But Mr. Jombat has only one lung."

Where the Best to Buy

YOU want to buy goods, as far as possible, from firms who deal directly with farmers or who have their agents in your locality. You want to deal with reliable firms. You want to save unnecessary writing to firms who do not handle what you are hunting for. These wants are reasonable, and to fill them The Stock Yards Daily Journal will help you—free. Look over the coupon in this advertisement and if it lists anything you are thinking of buying soon, check it, and mail the coupon, with your name and address plainly written and we will do the rest. Hundreds of readers should avail themselves of The Stock Yards Daily Journal's offer to give genuine help in buying. Mail this request before you forget it. TEACH JEWS FARMING

EFFORTS TO INTEREST JEWISH YOUTHS IN AGRICULTURE MEETING WITH SUCCESS.

THEY ARE QUICK TO LEARN

Jewish Agricultural Aid Society Gives Short-Course Scholarships to Help Back-to-Farm Propaganda.

New York, Sept. 13.—The effort to interest Jewish youth in agricultural pursuits is gaining in strength because it is meeting with very gratifying results. It has been clear for a long time that the tendency of members of the Hebrew race to concentrate in cities and to crowd the mercantile as well as other professions was having a bad tendency.

According to a recent statement by the young people to apply for scholarships at agricultural colleges and pledges the successful competitors all their necessary expenses. Farming has been advocated as a remedy for congestion in the cities, and the Jewish Agricultural and Industrial Aid Association has been urging the young people to apply for scholarships at agricultural colleges and pledges the successful competitors all their necessary expenses.

It is a matter of record that notwithstanding serious handicaps under which these children of immigrants competed in the agricultural schools, they came out very well, indeed. Out of the twenty students in the New Jersey college, three won prizes, carrying off the first, third and fifth prizes in a poultry judging contest of competitors. The year before the one scholar of the Jewish Agricultural and Industrial Aid Society in North Dakota carried off the second prize in a stock judging contest in which about 200 students competed.

On account of the complaint of careless hunters shooting in the direction of public roads, toward settlements or over cultivated fields, or in among grazing stock, a provision was put into the law that it shall be unlawful for any person to shoot from or across any highway where there is cultivated land or dwelling-houses or among stock or other animals, which are grazing on and contiguous to the public highway.

Wild turkeys are considered as big game. One person not over 17 may accompany any person holding a license upon a hunting expedition. A man may hunt on his own premises without a license, but if he is found hunting elsewhere than on his own land without a license in his possession, or if he does not produce such license upon request of the Game Warden it is taken as evidence of the fact that he does not possess one.

THIS HAPPY MAN ENJOYS HIS WORK

J. E. Simonin Never Misses An Opportunity to Praise the United Doctors.

Cured Sooner Than Expected He Writes Grateful Letter. J. E. Simonin, of Wayne, Neb., had been ailing for a long time and had not found any doctor who understood his disease well enough to cure him until at last he went to the United Doctors, those expert medical specialists who have their St. Joseph Institute on the second floor of 729 Felix street. Now he writes the following letter:

U. S. CHAMBER OF COMMERCE

Officers of New National Organization to Meet in Boston, Sept. 20.

Washington, D. C., Sept. 12.—A call has been issued for the officers and directors of the Chamber of Commerce of the United States to meet in Boston, September 20th. In the three days session they will discuss the work of the chamber and will elect officers on the date of the annual meeting. There is a general desire that this shall occur at a time of the year convenient for the majority of business men. There has been some discussion of the idea of having the annual meeting of the chamber of commerce of the United States preceded by general commercial rallies in each state of the union. This would bring under the notice of all parts of the nation the commercial interests of development in each state during the year 1912.

General Secretary Elliot H. Goodwin will take part September 10th at Jersey City in the meeting to complete the organization of the New Jersey State Chamber of Commerce. J. G. Grosvenor Dawe, chief of editorial division, will address the American Road Congress in Atlantic City, September 30th on the relation of commercial organizations to road betterment. The American Association of Commercial Executives will use the headquarters of the Chamber of Commerce of the United States during

their convention in Washington, September 23-25.

The second number of The Nation's Business, which is published by the Chamber of Commerce for the use of editorial writers and organizations and distributed without charge to these groups, will be issued September 23.

MANY CATS ON LIMITED DIET

Neighbors Call It Starvation, But Scientists Disagree.

Huntington, N. Y., Sept. 12.—Many cats kept at the Carnegie Institute of Biological Research at Cold Springs Harbor are troubling some of the women here who love cats. The institute is carrying on a series of scientific experiments, part of which, it is said, consists of raising better cats, if that be possible.

The cat lovers declare the cats are not properly fed. At the institute they assert that the cats are not overfed because it is necessary that their blood shall be in the best of condition before satisfactory results can be obtained.

SHARK WEIGHS TWELVE TONS

Was Caught Near Miami, Fla.—Taxidermist Is Mounting It.

Washington, Sept. 12.—A leopard shark, weighing twelve tons, recently captured in the waters of the Atlantic near Miami, Fla., is being mounted by J. S. Warmbath, a taxidermist of this city. The fish is the largest of its kind ever captured in the Atlantic Ocean in that part of the country. The body is marked with spots similar in size and color to those of a shark. The fish is shaped like the ordinary shark excepting the tail, which resembles that of the whale. The big fish was captured after a terrific struggle by Capt. Charles H. Thompson, a noted sportsman of Florida.

GAME LAWS STRICT

Continued from Page One.

snags, trap lines, artificial light or similar device must not be used. Game may not be stored for more than five days during an open season.

The law prohibits the killing of antelope, elk, great mountain sheep, female deer, fawns, road runners, bob white, grouse or pheasant under heavy penalty. The penalty for killing an elk is \$200 for each deer \$100 for each antelope \$100 for each mountain sheep \$200. Fines for killing game out of season are the same. Possession of any game birds, the killing of which is prohibited during certain seasons of the year, shall be prima-facie evidence that they have been unlawfully killed, and the burden of proof is shifted to the defendant. In cases of this kind, where the Game Warden has been forced to order out a posse to capture the poacher, the cost of the posse is taxed against the defendant if he is convicted and he may be forced to serve a day in jail for each dollar of the fine.

On account of the complaint of careless hunters shooting in the direction of public roads, toward settlements or over cultivated fields, or in among grazing stock, a provision was put into the law that it shall be unlawful for any person to shoot from or across any highway where there is cultivated land or dwelling-houses or among stock or other animals, which are grazing on and contiguous to the public highway.

Wild turkeys are considered as big game. One person not over 17 may accompany any person holding a license upon a hunting expedition. A man may hunt on his own premises without a license, but if he is found hunting elsewhere than on his own land without a license in his possession, or if he does not produce such license upon request of the Game Warden it is taken as evidence of the fact that he does not possess one.

THIS HAPPY MAN ENJOYS HIS WORK

J. E. Simonin Never Misses An Opportunity to Praise the United Doctors.

Cured Sooner Than Expected He Writes Grateful Letter. J. E. Simonin, of Wayne, Neb., had been ailing for a long time and had not found any doctor who understood his disease well enough to cure him until at last he went to the United Doctors, those expert medical specialists who have their St. Joseph Institute on the second floor of 729 Felix street. Now he writes the following letter:

"United Doctors: I am more than pleased to write that I am feeling fine. I have not been able to enjoy my work in a long time as I have the past few weeks. One thing I notice is that I do not get the drowsy spells which I have been subject to for the past year or two. I am about over them entirely and feel so much better in every way, considering the short length of time I have been under your treatment, that I am certainly doing better than I had even hoped for and am well pleased.

"I speak a good word for you everywhere, for I know that no one can make a mistake in consulting you. J. E. SIMONIN."
