

NATIVE BEEVES FIRM

SUPPLY LIMITED AND BEST HERE OF THE KINDS SELLING AROUND \$9.10

WESTERN GRASSERS SLOW

Texas Steers Firm—Top \$6.40—Cows and Heifers Steady to Strong

Native fed cattle were numerous on the yards today than was the case Monday but at that the supply did not number in excess of half a dozen loads and none of the offerings were of high selling caliber.

General receipts were fair, the estimate being placed around 2,500 head, as against 2,892 last Tuesday and 2,859 a ear ago.

Early wires indicated slow tone to the trade at outside centers and the early movement in the Kansas-western steers was not overly active.

On the Texas side the market showed relatively good volume and action with sales rated generally steady with the previous day. Best of the southern steers sold at \$5.90 to \$6.40.

Good to choice, \$9.00 to \$9.50; fair to good steers, \$8.00 to \$8.50; common to fair, \$5.50 to \$7.00; good to fancy yearlings, \$7.75 to \$9.00.

Receipts of cows, heifers and mixed yearling classes were on the moderate order again today and a strong tone featured the trading.

There was not a great deal of change in bulls and steers and for the most part sales were quoted steady. Good to choice veals continue ready sellers at the crest of the season's boom.

HOG VALUES HAMMERED

BUYERS ENFORCE A DIME CUT ON BULK OF THEIR PORCINE PURCHASES.

TRADE REASONABLY ACTIVE

General Quality Well Up to That of Monday—Top \$8.75, With the Bulk of Sales Ranging From \$8.35 to \$8.65.

Packers' ax fell in the hog market today, chopping off a "big" dime from yesterday's level of values, with extreme cases where it took 15c to measure the cut.

Business in the hog market was moderately active today, with reports indicating a general lowering of cost at the markets today buyers had the situation where they could dictate lower terms on their purchases.

Prices ranged from \$8.25 to \$8.75, with the bulk yesterday sold at \$8.45 to \$8.75, a week ago at \$8.25 to \$8.75, a month ago at \$8.30 to \$8.60, a year ago at \$6.50 to \$6.75, two years ago at \$5.50 to \$5.90, and four years ago at \$4.50 to \$5.00.

ITEMS IN BRIEF

Wilson & Popham, big Texas ranchmen, had in five cars of hogs for today's market.

R. C. Good, of Hamburg, Ia., marketed a load of porkers here today.

J. M. Ashbrook, who ships extensively from Geneva, Neb., had in a mixed shipment of stock today.

H. K. Shaw, of Hotchkiss, T. Tanner, of Superior, G. A. Fallon, of Angus, F. W. Hinz, of Daykin, and F. E. Hale, of Diller, were noted among the Nebraskans who marketed mixed lots here today.

R. J. Reynolds, of Tecumseh, Neb., contributed a load of wethers to today's receipts.

C. M. Cundiff, of Mayville, Mo., disposed of a load of cattle and hogs here today.

T. H. Wilson, a heavy shipper of Galatin, Mo., and a warm friend of the St. Joseph market, had in a car of cattle today billed from Lock Springs.

Among the Kansas pasturemen who contributed to the receipts of the hog market at this point, came the following: W. C. Koster, W. F. Whit-berry, who patronizes this market exclusively.

C. D. Hawkins, of Osborn, Mo., had one load of hogs on today's market.

Byron Farmers' Elevator Co., of Byrd, Neb., had a load of cattle in today's market.

Mr. Ayr, Ia., was represented here today by Al Guthrie, with one car of hogs.

Mr. Brown, of Osborn, Mo., sent in one load of hogs for today's market.

Sharp & Jamison, of Gower, Mo., had a shipment of hogs on sale today.

Excelsior Cattle Fattener has proven a great success. The cheapest and best feed for hogs is made by this firm. It shortens the time of feeding.

J. P. Severin, of Benda, Kan., one of the most regular shippers with this market, has a car of hogs on sale today.

Champion Molasses Feed shortens feeding period, increases gain, reduces cost per pound of gain, equally good with ensilage.

H. Welch, a prosperous shipper of standard beef production, has a car of hogs for the local trade today.

For the best values in whiskeys, try Heitz's, 207 So. 6th St.

THE CATTLE SITUATION

PROF. CHAS. F. CURTISS DISCUSSES PRESENT AND FUTURE OF BEEF CATTLE SUPPLY.

SHORTAGE BIG; PRICES HIGH

Smaller Area of Land Now Available for Breeding Grounds—Every Encouragement for Corn Belt Farmers to Grow and Feed Cattle.

Chicago, Ill., Sept. 17.—Prof. Chas. F. Curtiss, of the Iowa State College, discussed the cattle situation in an article in the Live Stock Report, urging more extensive breeding of cattle on the corn belt farms.

Prof. Curtiss writes in the report as follows: "The expectations that have been placed on the corn belt for some time, it is believed, will be met. The supply of beef is inadequate. Thousands of cattle are daily going to the slaughter, but the supply to the country to be finished on the abundant supply of cheap feed now on hand and coming to maturity in the ripening months is marked in the shortage. However, that the packers would buy everything fit for decent beef at prices prohibitive to feeders. The result is that practically all of what would ordinarily constitute the better class of feeders are going directly to the block with two to five hundred pounds less weight than they ought to carry.

This situation has not grown up suddenly. A number of causes have contributed to curtail beef production. There has been a gradual but constant liquidation of native herd cattle in the range. Government projects have put large areas under irrigation. Dry farming and the siren song of the large extent of colony promoter have forced the cattle raisers to range out some of which might better have been retained for grazing purposes. The supply of feeders coming from the range of unsatisfactory quality and market conditions, and the attractive prevailing prices for grain and dairy products, the past year's short crop and hay crop, all combined to bring up high prices of these products, reduced feeding operations to a minimum. High priced corn always curtails beef production, and the fact was still further accentuated by the general drought conditions that prevailed in 1911, forcing the premature marketing of stock.

As a result of these conditions, the 1911 merely brought about the culmination of influences affecting the beef situation that had been in operation for a period of five to ten years. At present, the movement of cattle feeding is almost imperative in some localities on account of shortage of feeding stock. Some relief is looked for in the run of the season.

Considerable relief is expected from the range, which promises to be of good quality. Some of this supply will come from the Canadian ranges. Present prices in Chicago will not tend to pay the duty and net more than any other market.

It is useless to talk about investigations or to undertake to fix the blame on the farmer, or anyone else. The situation has grown out of economic conditions, and changed agricultural conditions. It is the duty of the wide gap between the price realized by the producer and the price paid by the consumer. Perhaps this can be remedied, if so, it ought to be from the consumer's side.

ST. JOSEPH'S NEW THEATER

Wm. Grew to Open Modern Playhouse Here September 29.

The brightest news in the theatrical world of the past thirty days is the announcement that the Lyric theater is to be opened by Wm. Grew and his splendid stock company, the Lyric Theater, which has been renamed "Grew's Lyric."

The Lyric theater has been remodelled at an expense of over eight thousand dollars and when opened on Sept. 29th will be the prettiest and best theater in St. Joseph. Every requirement of the fire department and building inspector has been met with.

The old stairs have been taken out and an incline plane put in, such as is used in all large public buildings today. A separate entrance and exit has been built for the balcony so that in time of trouble there would be no chance for a jam or panic. The entire theater has been redecorated in cream and gold and the draperies and carpets are a rich red.

In addition to the company Mr. Grew has had in St. Joseph all summer, he is bringing a New York leading troupe of the late New York theater. For the opening play "The Virginian" has been secured and the second week the "Chorus Lady" will be produced.

The people of St. Joseph are to be congratulated on securing such a good company to play great plays at small prices.

THEATRICAL AMUSEMENTS.

At the Lyric—Until Thursday, matinee daily, a popular musical comedy, "Baby Doll."

At the New Lyric—Until Thursday, Cooper's new musical extravaganza, "Beauty, Youth and Folly."

IN WOMAN'S REALM

MISCELLANEOUS RECIPES. Apple Ginger—Four pounds sour apples, 4 lemons, 2 pounds sugar, 1 ounce white ginger root.

Chopped Peas—Four pounds peas, 1/2 pound Canton ginger, 2 pounds sugar, 4 lemons, Pare, core and chop peas; wash lemons, remove seeds and chop lemons; add sugar and ginger root, and cook very slowly six hours.

Peach Marmalade—Four pounds peaches, 4 pounds sugar, juice 2 lemons, 1/2 ounce ginger root, Pare, core and chop peaches in pieces; add sugar and cook slowly 2 hours; add lemon juice, Pour into glasses and cover.

Fried Green Tomatoes—Slice firm green tomatoes less than half an inch thick, and roll in peppered and salted flour. Heat a mixture of half butter, half lard in a frying pan. Lay in the floured tomatoes and fry rather slowly, turning once, carefully. Take up with a perforator and skimmer, and drain off every drop of grease.

German Sandwiches—Spread thin slices of entire wheat or rye bread with butter, then spread with marmalade and sprinkle with finely chopped walnut meats. Chopped celery, walnuts and cream cheese makes another good combination, also chopped figs which have been cooked to a paste with a small quantity of water.

Baked Potatoes with Eggs—Scald and peel the potatoes; cut a slice in the end, and, with a spoon, remove the inner portion. With care, so as not to break the yolk, drop an egg into each potato; season with salt and pepper. Place the potatoes on a buttered granite or earthenware plate and bake until the eggs are set.

Vegetable Salad—Put through the vegetable cutter one-half of a small cabbage, 2 small raw carrots and two sweet green peppers (after removing the seeds). Serve with cream dressing on a bed of lettuce leaves.

Delicate Currant Pudding—One cup currant juice, one cup water, six tablespoons of cornstarch, one-eighth teaspoon of salt, one-half cup of sugar, whites of two eggs. Put currant juice and water on to cook; boil until the sugar is dissolved, and then mix with the cornstarch and currant juice, which have been mixed to a smooth paste with a little cold water.

Buttermilk Muffins Without Eggs—Two cups of flour, one tablespoon of sugar, one-half teaspoon of soda, one-half teaspoon of salt, one cup of buttermilk, two tablespoons of melted butter. Mix in the order given and beat thoroughly. Bake in well-greased muffin pans twenty-five minutes in a hot oven.

Hot Pat—Remove the bone and cut in small pieces two pounds from the neck of lamb. Grease a casserole or deep baking dish, line the bottom and sides with thin slices of raw potato; season with salt and pepper.

Dreamworld Muffins—Two cups of flour, one-quarter cup of sugar, one-half teaspoon of soda, one cup of sour cream, one egg beaten light. Mix in the order given and beat well. Pour into well-greased muffin pans and bake thirty minutes.

Peas and Carrots—One cup of carrots cut in dice and cooked, two cups of cooked green peas, four tablespoons of cream, one tablespoon of butter, salt and pepper. Put the carrots in a pan with a little water, and cook for a half hour in a pint of water. Cover and bake in a moderate oven one and one-half hours.

Cream Cheese and Cherry Salad—Dress small balls of cream cheese, cream, the cherries. Cut the cherries in halves and place a half cherry on two sides of the cheese ball. Serve on hearts of lettuce, with French dressing, highly seasoned with paprika.

Feed Watermelon—Cut the pulp of watermelon in inch cubes, sprinkle with sugar and a little salt and cinnamon. Put in an ice cream freezer or pan, surround with ice and salt and let it remain forty-five minutes. Serve in champagne glasses.

Sold Indian's Cattle. Puckwasa, S. D., Sept. 16.—To capture a rattlesnake with 14 rattles.

NEED OF BETTER ROADS

BIG LOSS MOVING CROPS THIS YEAR BECAUSE OF CONDITION OF HIGHWAYS.

SMALL PER CENT IMPROVED. Only 8 Per Cent of Public Highways of Improved Type—Some Facts to Be Brought Before National Road Congress.

Washington, Sept. 17.—That not less than \$25,000,000 would be saved to the country in the cost of hauling the present record breaking crop if 20 per cent of the public highways of the country were improved, is the assertion of J. E. Pennybacker, Jr., executive secretary of the American Road Congress, which is holding a convention at Atlantic City September 30 to October 5.

Mr. Pennybacker, before becoming the secretary of the American Association of Public Highway Improvement, which, with the American Automobile Association and the National Association of Machinery and Material Manufacturers, is holding a convention at Atlantic City, was the chief of the road management department in the United States office of public roads, and has made a comparative study of the cost of hauling crops over good and bad roads.

Because of his knowledge of the actual needs of the country, Mr. Pennybacker was selected as executive secretary of the American Road Congress, which is to crystallize the road movement in America. In an interview Mr. Pennybacker says that he believes that the American Road Congress will so influence public sentiment that it will be merely a matter of a few years before 20 per cent of the public highways of the United States will have been improved. At the present time little over 8 per cent of the public highways are of the improved type.

The government's prediction that the crop now being harvested will exceed any previous year's yield, said Mr. Pennybacker, "should serve to call attention to the great losses that are being sustained by farmers and consumers in the hauling of crops. It is estimated that the improvement of the main roads of this country, approximately 20 per cent would result in an annual saving of at least \$25,000,000 in the cost of hauling alone, which would be sufficient to improve 50,000 miles of road at a further cost of \$5,000 per mile. In five years this would improve 250,000 miles, which would be sufficient to bring the total mileage of improved roads up to 29 per cent.

There are more than 25,000,000 farm horses and mules in the United States, valued at \$2,700,000,000; valued at \$1,500,000 horse-drawn vehicles valued at \$1,500,000,000. More than 450,000 automobiles valued at about \$500,000,000. A depreciation of 6 per cent caused by the wear and tear of bad roads, would amount to \$16,000,000 annually, which at \$5,000 per mile would be sufficient to build 32,000 miles of improved roads.

These are but a few great economic facts which will be brought to the attention of the American people at the American Road Congress to be held in Atlantic City September 30 to October 5. Once the people realize the great waste involved in bad roads, there will be little delay in the improvement of the main arteries of commerce throughout the country. The whole subject is so big that we have made arrangements to treat it in sections at the congress, each section, such as legislative, administrative, finance and education having been placed under the auspices of the representative organizations in those particular fields."

**WINNING FIGHT ON TICK.**

Government Officials Are Confident of Eradicating the Costly Pest.

Washington, Sept. 17.—Government experts are gradually pressing the fever tick into smaller confines in the south. The work is being pushed this summer and department of agricultural officials believe that with the continued co-operation of the federal and state authorities, the pest which now causes an annual loss estimated at from \$4,000,000 to \$100,000,000, may be lessened within two months.

**WILL DISCUSS IRRIGATION**

Meeting For That Purpose at Garden City This Fall.

Manhattan, Kan., Sept. 17.—Kansas is to have a state irrigation meeting this fall. It is to be a two-day meeting and will be held at Garden City, October 24 and 25. Topics relating to the development of irrigation in Kansas will be discussed by Kansas men. Every farmer and land owner in the great plains region of the state will be expected to attend and hear the discussions.

H. R. Walker, irrigation engineer in the extension service of the agricultural college, has spent considerable time this year in the western part of the state looking over the irrigation possibilities and advising in the installation of plants. He found the western farmers everywhere intensely interested in irrigation. The suggestion of a state meeting to discuss irrigation problems met with popular favor with these men who are eager to know more about this branch of farming.

Garden City was selected as the place to hold this meeting as it will give visitors an opportunity to see the big pumping plants there and also the big pumping plant there and also at Scott City. The Garden City Commercial club will entertain the visitors with motor trips to the pumping plants and to the irrigation station. County commissioners, city councils, agricultural associations, and commercial clubs in the western half of the state will be asked to send delegates to this meeting.

**TO HAVE ALL NIGHT BANK**

Staid Old London Follows American Example.

London, Sept. 17.—An all night bank, modeled on those which have been so successful in the United States, is to be established here in a short time. A company has already been registered, and the scheme has met with strong encouragement from business men.

The new institution will be especially welcomed by houses of entertainment of all sorts, which at the present time are compelled to keep their nightly takings under a strong guard until the banks open the next day.

The eighteen hours during which it is impossible in London to either deposit or withdraw money often form a very awkward period for people who either have too much or too little the money, for their comfort until the next day.

**GUIDE TO CRATER LAKE PARK**

Government Tells of Beautiful Attractions in Oregon.

Washington, Sept. 17.—Methods of seeing the wonderful Crater Lake national park in Oregon, the principal attraction of which is a beautiful lake situated in the crater of an extinct volcano, are described in a circular entitled "General Information Regarding Crater Lake National Park," just issued by the Department of the Interior. This park is situated on the summit of the Cascade range in south-central Oregon. It has an area of 13,450 acres and is located in the midst of a beautiful mountain country, the principal attraction being Crater Lake, a body of water having

**THE DOCTOR AND HIS MORNING MAIL**

It is a Great Pleasure to Open Dozens of Letters From Grateful Patients.

United Doctors Receive Many Such Letters—Hundreds of Testimonials Come by Mail.

There is a certain feeling of pleasure and expectancy which anyone feels upon opening a letter, whether it is a love letter, a friend's letter, or a business letter—it is always eagerly opened.

The mail which comes to the United Doctors, those great medical specialists who have their St. Joseph institute located on the second floor of 720 Felix street, is perhaps the most interesting and wholly pleasant stack of letters that comes to any address in the city. The United Doctors' mail consists almost wholly of letters of praise and commendation from cured patients, or patients who are getting well and write to tell how much better they are feeling. It contains letters from women, letters from men, letters from fathers, mothers, business men, farmers, lawyers and from persons of all ages and walks of life, but the theme is always the same: "I am so much better," "God bless you, doctors," "You saved my life and made it worth living."

One reason why the United Doctors always cure their patients is that they are very careful to never treat an incurable case, thus the record of cures is always clear and they take no money from incurables as is the case of many doctors. The new treatment used by these specialists cures many who could not even be helped by ordinary drugs. A fair sample of hundreds of letters received by the United Doctors is the following: from Mr. Brame, of Maryville, whose feet a short time ago were so badly crippled by rheumatism that he could scarcely get around at all:

"Dear Doctor: I have taken out all of my medicine and am feeling much better. I can walk fairly well now. My kidneys are much better and I am sure I will be still further helped."

"JAMES A. BRAME,"  
1122 North Walnut street.  
An Iowa lady writes: "Haven't felt a pain in my side in four months. Hardly seems now that I ever had calistons."

A Kansas man, Mr. J. Horan of "Purcell, says: "I am still feeling fine, Doctor, and working hard every day. I don't look like the person who a few months ago was starved to a skeleton from indigestion and ulcers of the stomach."

The United Doctors never publish a letter or use a name without the request or consent of a patient, so hundreds of these letters of praise are never seen by any eye but the doctors' as he looks over his morning mail.

**VALENTINE QUILTS THE JOB**

Indian Commissioner Disagreed With President on "Religious Garb Case."

Beverly, Mass., Sept. 17.—The resignation of Robert G. Valentine as commissioner of the bureau of Indian Affairs and the proof sheets of President Taft's decision in the "religious garb case," which officials here declare had a bearing on that resignation, came to Beverly on the same train last night. The resignation was accepted promptly, but no successor to Valentine will be named until Secretary of the Interior Fisher returns from a Mexican visit in the next few days. The president's decision in the religious garb case probably will be made public in Washington in about 10 days, with the finding of Mr. Fisher.

The president several months ago suspended an order of Mr. Valentine forbidding the wearing of religious garb by teachers in Indian schools and made a "case" which has occupied much of his attention as well as most of Mr. Fisher's.

**HOLD PLOWING CONTESTS**

John Brice, Jr., Wins Grand Prize Near Cherokee.

Cherokee, Ia., Sept. 17.—The sixth annual plowing match of Rock and Pilot townships was held at the Steve Welch farm, five miles southwest of town. These events have become the agricultural event of the county, a large number of prizes are offered and thousands attend and enjoy a day of genuine recreation, sport and contest. The day was fine, with large crowds in attendance.

John Brice, Jr., the winner last year, again won the grand sweepstakes and retains the cup another year. Jerome Clow won first in the gang class and Donald Corrington first in the boys' class.

The Rock Stones beat the Cleghorn team 3 to 2, in a fine game of ball.

**BARLEY CHOKES HARVESTERS.**

Palouse, Wash., Sept. 16.—Barley grows so tall and rank in this part of the state this summer as to choke the ordinary harvester, so that mowing machines have had to be used to cut the grain. From the fields the barley was hauled to the separators like hay. Fields of barley yielding 100 bushels to the acre were a usual thing in this section this year.

**THRIFTY STOCK**

PAYS MORE MONEY GIVES MORE SATISFACTION.

PARKE, DAVIS & CO. DETROIT, MICH. U.S.A.

**ECZEMA**

Also called Tetter, Salt Rheum, Pimples, Milk Crust, Weeping Skin, etc.

ECZEMA CAN BE CURED TO STAY, and when I say cured, I mean just what I say—CURED, and not merely checked up for awhile, to return worse than before. Remember I make this broad statement after putting ten years of my time on this one disease and handling in the meantime a quarter of a million cases of this dreadful disease. Now, I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is a chance to show you that I know what I am talking about. If you will write me TODAY, I will send you a FREE TRIAL of my mild, soothing, guaranteed cure that will comfort you more than any other. If you are disgusted or discouraged, I dare you to give me a chance to prove my claims. By writing me today you will enjoy more real comfort than you have ever known. This word note for you. Just try it and you will see that I am telling you the truth.

Dr. J. E. Cassaday, 13 Park Square, Seattle, Wa. Reference: Third Nat. Bank, Seattle, Wa. Could you do a better act than to send this notice to some poor sufferer of Eczema?

THE CATTLE SITUATION

Continued from Page One.

The Americans are beef-eating people. We will continue to be heavy consumers of beef for many years to come. Beef diet is responsible for no small degree of American achievement.

There are limitless brands of breakfast foods, but the scientist has found no substitute for beefsteak. The chemist has no formula that will satisfy a man's appetite for a prime rib roast.

With a 15 per cent shortage of beef cattle in the past five years and a 20 per cent increase in population during the past ten years, it is not strange that beef is selling high.

The liberal corn crop that is in sight will stimulate feeding and result in lower prices, but not those of former days. Previous low prices and unprofitable conditions are a factor in the present shortage.

It will not be difficult to restore feeding operations if feeding cattle are obtainable. Present market prices of beef and good crops will stimulate permanent solution of the problem.

The situation is not alarming—it is encouraging. It means that beef production will be shifted from the cheap grazing lands of the West to the corn belt. It will undoubtedly result in more stable prices on a more profitable basis.

There is every encouragement in the present situation and in the permanently changed conditions of the corn belt farmer to grow and feed good cattle. There will be more demand for good breeding stock of the early maturing, easy finishing type.

FREE BUREAU FOR DAIRYMEN

Prisco Plans to Promote Raising of Blooded Stock in Ozarks.

Springfield, Mo., Sept. 16.—At the final session of the convention of the Missouri State Dairy Association here announcement was made that the Prisco railroad would establish a free bureau of information for dairymen in the Ozark regions.

One of the purposes of the bureau is to establish closer relations between dairymen near the larger cities and those in this section in order to secure surplus dairy calves for the Ozark dairies. These calves, many of them from registered stock, are sold to butchers by big dairy owners who do not care to raise them.

ECHO OF BALLINGER CASE

The Once Famous Cunningham Claims Cancelled.

Seattle, Sept. 16.—By order of the acting commissioner of the general land office, the register and receiver of the Juneau, Alaska, land office has placed on record the cancellation for fraud of the 32 so-called Cunningham coal claims in the Bering sea country.

The lands now are a part of the public domain, and the \$52,800 paid into the United States treasury by the claimants is forfeited. The claimants may apply for a writ of mandamus in a District of Columbia court, but cannot appeal from the final decision of Secretary of Interior Fisher, dated August 29, canceling the claims.

Wireless apparatus which has worked successfully from heights of 2,000 feet has been perfected by a French aviator.
