Vol. XVI. No. 34

ST. JOSEPH, MO., FRIDAY, SEPTEMBER 27, 1912

LAST EDITION.

TERMS: SINGLE COPY, 5 CENTS PER YEAR, \$5.00

STEER TRADE SLOW

PLAIN CLASS OF WESTERN FIND SLOW GOING—NOTHING GOOD OFFERED.

COWS AND HEIFERS WEAK

Bulls Unchanged—Good Veals Firm, Others Lower—Stockier and Feeder Trade Dull at Recent Declines.

A fairly good Friday run of cattle made appearance on the local market today, around 1100 head showing up. This included about 200 calves, Colorado, Oklahoma and Kansas pastures furnished the bulk of the run. It was a slow deal in the western steers, and weakness featured the undertone of the trade. Nothing choice was offered among the westerns and the market was barren of corn-fed material.

The supply of cattle during the week has been liberal, 10,230 points. Locally, the week's receipts total 12,500 head, an increase of 3,000 over the previous week and 1,100 over the year ago. The live market shows an aggregate of 196,000 head, 16,000 in excess of last week and 2,000 over the same week last year.

The local animals ran liberally to westerns and southwestern grassers, corn-fed offerings being very scarce throughout the week. Anything at all desirable in the feed line and a ready market, and prices were fully maintained at last week's closing quotations. A feature of the trade was the sale of 45 choice 1722-pound Missouri feed bulls at \$12.00 a head, the highest price by 25c per cent, ever paid for fat cattle on the local market. Other feed steers of a decent class sold at \$9.50 to \$10.75, some two to three points higher than a week ago. Some 1150 to 1200-pound native grass steers sold at \$7.50 to \$7.75 and were regarded as a high price.

It was a highly uneven market in the western grass steers which were freely offered during the week. The cleaning up of pasture herds is still in progress, and the market is a medium to heavy grade and half fat steers being thrown on the market. The feeling has been weak except on the good well-fatted weathers which have held steady. Other markets show sharp declines and this had a rather depressing effect here on the medium classes. Prices were closing up around 10 to 20c lower on the medium to heavy grade and half fat steers being thrown on the market. The feeling has been weak except on the good well-fatted weathers which have held steady. Other markets show sharp declines and this had a rather depressing effect here on the medium classes. Prices were closing up around 10 to 20c lower on the medium to heavy grade and half fat steers being thrown on the market.

RANGES—NATIVE DIVISION

Western cattle receipts were predominated in the receipts here today. Supply included a string of Colorado steers, a load or two of good steers, and several loads of mixed butchers' stock and stockers and feeders. Trade was rather slow in all classes and the tendency of prices was toward a cheaper level.

Cattle Receipts, 2500. Market extremely dull and generally lower. Hogs Receipts, 11,000. Market opened shade higher, later declined nickel. Top \$8.97 1/2, bulk \$8.49 to \$8.85.

SOUTH OMAHA, Sept. 27.—Special to The Journal: The Drivers' Journal-Stockman reports: Cattle—Receipts, 1200. Market slow, steady. Hogs—Receipts, 3700. Market 5¢ to 10¢ higher, top \$8.75, bulk \$8.35 to \$8.65.

EAST ST. LOUIS, Sept. 27.—Special to The Journal: The Daily Live Stock Reporter reports: Cattle—Receipts, 2200. Half south-erns. Market slow. Hogs—Receipts, 4400. Market 5¢ higher, top \$8.97 1/2, bulk \$8.49 to \$8.85.

FT. WORTH, Tex., Sept. 27.—Special to The Journal: The Daily Live Stock Reporter reports: Cattle—Receipts, 4000. Market steady. Hogs—Receipts, 1000. Market steady. Top \$9.05, bulk \$8.40 to \$8.95.

ST. JOSEPH CASH GRAIN MARKET

FIRM TRADE IN HOGS

LIGHT RECEIPTS TO SCALES EARLY AT STEADY TO STRONG PRICES.

TOP GRADES SELL AT \$8.75

General Quality Not as Good as Yesterday—Bulk of Sales Ranged From \$8.50 to \$8.75.

Hog receipts were light here today and supplies were moderate elsewhere. Estimates called for only 2,000 head in at this point and around 1,500 came in. Advices from outside points were fairly encouraging and sellers were able to get the market going at steady to strong prices, as compared with yesterday on the general run of hogs with a few spots where some of the traders quoted a nickel advance. Quality was not very attractive, light mixed and heavy packing grades forming the bulk of the offering. The best hogs at hand sold at \$8.75, the same as yesterday's top. There were fewer desirable butchers on sale in proportion to the week. Sales were confined to a materially narrower range than a short time ago. Weight is counted now where it was neglected a fortnight ago and the heavier class of hogs are selling close up to the light weights.

The market for pigs shows a slump tendency and sales today were rated 25 to 40¢ lower than the forepart of the week. Prices ranged from \$3.50 to \$3.75, with the bulk selling at \$3.50 to \$3.75. A week ago at \$3.40 to \$3.50, a month ago at \$3.50 to \$3.75, a year ago at \$2.20 to \$2.50, two years ago at \$2.25 to \$2.50, three years ago at \$1.75 to \$2.00, and four years ago at \$1.50 to \$1.75.

REPRESENTATIVE HOG SALES

OTHER LIVE STOCK MARKETS

CHICAGO, National Stock Yards, Ill., Sept. 27.—The Live Stock World reports: Cattle—Receipts, 2500. Market extremely dull and generally lower.

SOUTH OMAHA, Sept. 27.—Special to The Journal: The Drivers' Journal-Stockman reports: Cattle—Receipts, 1200. Market slow, steady.

EAST ST. LOUIS, Sept. 27.—Special to The Journal: The Daily Live Stock Reporter reports: Cattle—Receipts, 2200. Half south-erns. Market slow.

FT. WORTH, Tex., Sept. 27.—Special to The Journal: The Daily Live Stock Reporter reports: Cattle—Receipts, 4000. Market steady.

ST. JOSEPH CASH GRAIN MARKET

LAMB MARKET LOWER

PRICES DECLINE A DIME ON LIBERAL WEEK-END SUPPLY.

BEST LAMBS SOLD AT \$6.75

Lambs Closing 25¢ to 35¢ Lower—Sheep Down 15¢ to 25¢—Receipts This Week Largest of the Year.

Sellers of live mutton were given another hard workout today, rather liberal week-end receipts here and at other markets prompting packers to back further reductions. Receipts were estimated at 2,500, a total that included seven cars of western range lambs. Trade was slow and, despite better weather, packers succeeded in chipping off 10c on lamb purchases. Best lambs sold at \$6.75, with bulk of the day's supply selling at that figure.

RIBS

ITEMS IN BRIEF

Smith & Helm, of Andrew county, Missouri, disposed of a car of swine today.

IS UNDER METEOR MOUNTAIN

Thousands of Dollars Being Spent in Digging for Wealth Thought to Be Immense—Figuring on the Depth.

For Sale—One 20 horsepower Fairbank Morse horizontal gasoline engine, good as new; also one large size Bowser grinder, grinds any kind of grain for all purposes.

Excelsior Cattle Fattener has proven a great success. The cheapest and best feed that can be fed with corn, increases the gain, shortens time of feeding.

Champion Molasses Feed shortens feeding period, increases gain, reduces cost per pound of gain, equal good with ensilage.

Champion Feed Co., Tarkio, Mo.

Champion Feed saves corn. C. E. Noland, a regular shipper on this market and one of the heaviest contributors to the local receipts, had a car of hogs from his farm of Holt county, Missouri.

Ernest Zahnd, of Andrew county, 213 South Sixth street, St. Joseph, Mo.

Will be some soft corn.

The Early Planted Corn Escaped Injury, Says Taylor County Farmer.

That the recent frosts would mean quite a little soft corn over Iowa, Nebraska, Kansas and Missouri is the opinion of E. M. Manifold, of Taylor county, Iowa, who was on the local market yesterday with a car of hogs which sold at a very satisfactory price.

Coming with \$6,000 in cash.

J. C. Bryant bringing money for purses in National Coursing Meet.

MINERS SEEK METEOR

SUNK DEEP IN GROUND IN ARIZONA AND BELIEVED TO BE DIAMOND.

IS UNDER METEOR MOUNTAIN

Thousands of Dollars Being Spent in Digging for Wealth Thought to Be Immense—Figuring on the Depth.

Parker, Ariz., Sept. 27.—Several years ago a syndicate of mining men commenced sinking a shaft in Arizona to reach the largest diamond in the world, believed to be no less than half a mile thick.

Viewed from a distance Meteor Mountain looks little different from the countless other buttes that rear their heads above the southwest desert.

Scientists agree that this crater marks the place where a giant meteorite, as large as the circumference of the bowl would indicate, struck the earth in ages past, perhaps a million of years ago, and buried itself deep into the bowels of the earth.

After the meteorite sank into the earth the sand and dust settled into the depression of the crater and ever the edges of the huge bowl and assisted in the work of covering the meteorite.

The largest diamonds in the world including the Koh-i-noor, the Calliman, the Great Mogul of Panama, the Orloff, the Great Premier diamond, the Tiffany diamond, the Etiole Polaire, which is a dozen others of the same standard, worth in the aggregate hundreds of millions of dollars, might all be placed together in an ordinary box and not reach the top.

That the recent frosts would mean quite a little soft corn over Iowa, Nebraska, Kansas and Missouri is the opinion of E. M. Manifold, of Taylor county, Iowa, who was on the local market yesterday with a car of hogs which sold at a very satisfactory price.

Coming with \$6,000 in cash.

Advertising Rates Furnished on Application.

Usual 20 per cent commission allowed postmasters, who are authorized to take subscriptions.

CATTLE IMPORTS AND EXPORTS.

The number of cattle imported into the United States in the fiscal year 1912, says the Chicago Live Stock World, with a single exception, greater than in any preceding year, and the number exported less than in any year during the last quarter of a century.

The exportation of cattle from the United States has steadily declined in recent years, the number exported in 1904, the year of highest export record, having been 593,499; in 1907, 423,951; in 1909, 297,542; and in 1912, 102,594.

The change in trade currents, through which the United States has come to import more cattle than it exports, accompanies a striking reduction in the number of cattle on farms in the United States, as shown by the report of the department of agriculture, which put the total number of cattle on farms on January 1, 1912, at 57,829,969, against 72,522,926 on January 1, 1907, a fall of 20 per cent in five years.

The value of cattle imported in 1912 was more than one-half that of cattle exported, while in 1902, a decade earlier, the value of cattle imported was but one-eighth that of cattle exported.

The bureau of labor's report gives as the chief reason for the advance in foodstuffs cost the desertion of the agricultural industries by the people and the middleman's profit. Those are two good reasons, as far as they go, but they do not go quite far enough.

They are forcing an increase in the number of retail dealers of foodstuffs and as the cities grow there is an advanced cost in handling the goods from the farms to the consumers.

Jessie Played In the Sand Pile.

Daddy's Bedtime Story— Careless Jessie And Her Play Aprons

GRANDMA had given Evelyn a new apron. When grandma was a little girl all children wore aprons. Though she loved grandma, Evelyn was not very pleased with the gift.

"When I was small and lived in the country," daddy said, "little boys and girls both wore aprons. 'With all those nice big pockets you will find your apron very handy. Just think of the things you can keep in them.'"

"There was little Jessie. Jessie's mamma liked to see her dressed in nice frocks and looking neat. Jessie loved to go out into the garden and play with her brother. Boys' games, as you know, are often of a kind that soil little girls' gowns, so poor Jessie got many a scolding."

"It's the second clean dress I've put on you today," mother said to Jessie. "If this happens again I'll have to forbid your playing with the boys."

"Oh, let the child play outdoors all she can!" urged kindly grandma. "The romping with the boys will make her strong and healthy."

"I'm sorry," Jessie's mother answered, "but Jessie is so careless. She has so many clothes in the wash every week that Mary complains, and she is such a good servant I'm afraid of her leaving."

"Never mind," grandmother answered; "I'll find a way." "And she did. In a few days there came a package. It was marked for Jessie, and when opened out of it fell two of the dearest aprons.

Downs and Wyatt Dry Goods Co.

The "Townsend & Wyatt" Ready-to-Wear

is strikingly superior in styles, materials and workmanship. Whether in suits, dresses, coats, waists, skirts or what not, every garment is of the highest type, equaled only by the product of the finest custom tailors.

INDIANS ARE WEALTHIEST

Will Meet Next Week to Consider Their Growing Number. Washington, D. C., Sept. 26.—The interest of the 266,683 Indians of the United States is aroused just now over the forthcoming conference of all Indians of the United States, to be held in Columbus, O., during the first week in October.

Indians from all over America will converge in the capital city, to make their headquarters at the State University, and there discuss the rights and destiny of the race as Americans in America.

The leaders of the conference deny that the Indian is vanishing and assert the contrary. Representative Charles D. Carter says that it cannot be supposed that because the Indian has sold his buckskin shirt to a museum or stowed it away as an heirloom, that he vanished when he put on a tailor-made suit.

He reminded his interrogator that the Indians were the most wealthy people in America per capita, they having an average of \$3,500 each; and that the Indian still had enough land in his own right to equal the acreage of several large states. This, he said, was why land and dollar hungry white human sharks were willing to make all kinds of representations to prejudice the public as to the Indian and his fate.

Among the leaders of this movement, which is held under the auspices of the Society of American Indians, are many well known men and women in public and private life. These include senators, representatives, teachers, farmers, lawyers, doctors, artists, scientists, and politicians of all parties, and a host of thinking men and women, all Indians.

Among the scientific men of Indian blood are Prof. J. N. B. Hewett of the Smithsonian Institution, and Arthur C. Parker of Albany, N. Y., the state archeologist of New York. Mr. Parker is the secretary of the society.

WOULD DRAW LOTS.

Auto License Funds Divided Equally Would Be of Little Value. Bloomington, Ill., Sept. 26.—With insufficient funds at hand to make a showing in road construction, should the money be apportioned to the counties of the state, leaders in the better highway movement have proposed a drawing to determine which section of the state shall profit first from the auto license fund.

Eugene D. Fulks of Bloomington will lead a large delegation from this city and vicinity to the first annual convention of the Illinois Highway Improvement Association, which opens at Peoria on Friday, September 27.

The gathering will discuss the proper course of action in inducing the state legislature to favor the construction of a series of state highways or trunk lines of hard roads, using the money which has accumulated from the sale of automobile licenses.

The association has been advised, however, that the rural sentiment is strong in favor of such a distribution. The plan now proposed provides for a drawing. After the engineers make a report upon the most desirable routes between Prepsport and Carpio, between Danville and Quincy and other cross state lines thought feasible, it is proposed that the five or six roads selected by lot, the one drawn first to be given attention first and the others started after the first has been finished.

The association will recommend that, when the first road to be built has been selected, the legislature appropriate all of the money in the license fund for the construction of this particular road and appropriate an equal sum from the state treasury to apply upon the same improvement.

GOLD FOUND IN OKLAHOMA

Everybody Is Excited. Fort Smith, Ark., Sept. 27.—The reported discovery of gold at Albion, a small Oklahoma town west of this city, has created a world of interest not only in that state, but in other sections as well.

The reported discovery of gold at Albion, a small Oklahoma town west of this city, has created a world of interest not only in that state, but in other sections as well. The inhabitants of the village are not sufficiently educated upon mineralogy to determine whether the rock taken from the shaft of the "mine" that has been opened contains valuable ore or not, but every property owner is quietly investigating the character of the rock found on his land, and offers to purchase real estate draw forth staggering propositions.

L. C. Ashlock, who says he is a practical miner with years of experience in Colorado, claims to be the discoverer of the new field. There is no doubt that the rock in and about Albion contains many peculiar features that indicate mineral of some sort. This has been known by the inhabitants of the village for twenty years or more, but the thought that it contained gold or other precious metal never dawned upon them.

Ashlock purchased ten acres of land abutting the corporate limits of the town. In digging a well he unearthed several veins of rock which contain a high grade of quartz. Other features indicated to him that the rock contained gold and silver and an assay showed this to be the case. Ashlock already has secured sufficient capital to carry on his development work on a large scale. He has sunk a shaft and is prospecting the work with great vigor.

Ashlock's discovery has caused a large number of property owners also to dig wells and they encountered rock similar to the kind found by Ashlock. The situation has resolved itself into a game of wait—every one waiting to see the development of Ashlock's mine.

CITRUS FRUITS BY CARLOAD

State Combined to Give Country Plenty of the Product. Los Angeles, Cal., Sept. 26.—The shipments of citrus fruits from California for the season Nov. 1, 1909, to Oct. 31, 1910, while nearly 9,000 carloads less than the one ending 1909, were yet greater than in any year previous.

They totaled 33,959 carloads, of which 25,331 carloads of oranges and 4,674 carloads of lemons went from south of Tehachapi. The balance, 3,789 carloads, went from central and northern California. The Tulare district sending 2,229 carloads of oranges and 119 carloads of lemons; the northern district furnished the rest, 439 carloads.

The shipments were by freight and exclusive of what was marketed within the state and those shipped east by express. The development of the citrus industry in California, which now amounts to between 15,000,000 and 18,000,000 boxes, can be seen by reference to the table on the preceding page. It is nearly three times as great as all the other states combined.

The average cost of draining of this land will be \$12 an acre. When drained this land will be as productive as any in the United States, and its value will range from \$25 to \$200 an acre. Drainage of swamps on a gigantic scale looks as if it were the surest way of creating wealth in the South.

There are fifty-seven varieties of the culex, the commonest form of the mosquito. The average daily consumption of cigars in the United States is 21,715,443, and cigarettes 22,736,199.

WOULD DRAW LOTS.

Auto License Funds Divided Equally Would Be of Little Value. Bloomington, Ill., Sept. 26.—With insufficient funds at hand to make a showing in road construction, should the money be apportioned to the counties of the state, leaders in the better highway movement have proposed a drawing to determine which section of the state shall profit first from the auto license fund.

CREDIT ALL TO BLACK CAT

Partners and Employees of New York Real Estate Firm Have Joined Ranks of Believers.

Never say there is no luck in a black cat. For months a well-known real estate firm in the Fifth Avenue region had been doing just a rent-paying business. Then, one day, a gaunt, rib-showing, dejected black cat paused on the threshold and licked his chops, and looked in.

"Kitty, kitty," said the junior partner. Tom came in. The junior partner sent the office boy to the nearest restaurant to get a saucer of milk. That night Tom curled up on the junior's desk, and next day the latter made a \$400,000 sale.

"I've heard that care would kill a cat," said the managing partner. "But say, is there any danger to dear old Tom if we overfed him?"—Cincinnati Times Star.

HEARD ONLY CALL OF DUTY

Brave Irish Physician Scored Danger When Welfare of Patient Was at Stake.

The talk of how Dr. O'Brien of Inismore braved the Atlantic storm to help a sick patient has made all western Ireland ring with his praises. He received a wire that his services were urgently needed on the island of Inismore, but the storm was raging so fiercely that he had difficulty in finding a crew willing to put to sea.

It was a life and death battle all the way, half the men striving to keep the boat headed across the straits while the rest bailed out the water that was continually shipped. At length Inismore was reached, the patient's life was saved and the return journey began.

By that time a regular hurricane was blowing and several times the doctor and his crew seemed on the point of death when they happened upon some trawlers at anchor, with which they sheltered till a lull in the tempest enabled them to make a dash for the shore.

Something Hubby Didn't Know. Miss Elsie de Wolfe, America's best dressed woman, was talking about the draped skirts of the new fashions. "I heard an Easter anecdote the other day about these new skirts," she said.

"A young wife, at the Marlborough-Blenheim at Atlantic City, appeared before her husband in a draped suit of cream colored cloth, ready for the boardwalk's Easter parade. "How do I look, George?" she said. "Fine." "But tell me, George, does my skirt hang even all around?" "Yes," said George, after a close look. "Yes, quite even."

There are many Mohammedans in the country, and it is explained that only women doctors can come to their help in illness, as they do not permit men to see their wives and daughters. Many women have entered the medical profession in Russia proper, and there are a great many women practicing dentistry, a department of surgery which does not seem to have attractions for the English woman.

WIDOW TO GET HOMESTEAD

Has Complied With Residence Law While Supporting Children.

"Here," began a woman, "here's an article in the evening paper on 'Women's Work for the People Minded.' Her husband's going to be in a reactionary mood. 'I'd like to know,' he said, 'what women have ever done for the feeble-minded?'"

"They usually marry them, dear," replied his wife, sweetly.

An Engineer's Story of Health Restored

United Doctors Have a Friend in Mr. Brown, Well-Known St. Joseph Engineer.

Cured of Rheumatism He Now Goes Gladly to His Work. Of all the ills that afflict poor, suffering humanity, rheumatism has long been recognized as one to be most dreaded. There are many diseases which are dangerous and cause more or less suffering, but probably no disease causes so much pain and distress without endangering life as rheumatism, that foe of humanity which visits us in pain and leaves in its wake a harvest of swollen joints, twisted limbs, ruined hearts and broken lives.

However, these are progressive times and at last a system has been discovered which actually removes rheumatism from the body. The United treatment is no longer an experiment but has proved its worth in thousands of cases. The United Doctors cure rheumatism by not treating the symptoms of the disease at all. They long ago disproved the idea of giving opiates, aspirin, etc., for the pain, and instead they find the real cause of the disease which always lies in the delinquency of some vital organ, such as the kidneys or some of the digestive organs.

St. Joseph, Mo., Sept. 24, 1912. To Whom It May Concern: I have been wonderfully benefited by the United Doctors after suffering for over a year with rheumatism and kidney trouble. In fact, in less than two months' treatment I have practically recovered entirely. My rheumatism took form of sciatica of the hip with pains over the body and one foot so crippled I could scarcely get around. The United treatment is certainly quick and sure in its effects. I now feel like a new man, eat and sleep well and go to my work gladly. I have been an engineer in the Artesian Ice plant for some time and am known to many people, and I will be glad to tell any interested sufferer about the United Doctors and their treatment. V. M. BROWN, 1319 Garfield Ave.

Stop Paying Little Dealers Big Profits

BUY YOUR GROCERIES AS CHEAP AS LITTLE HOME RETAILERS DO. We Prepay the Freight

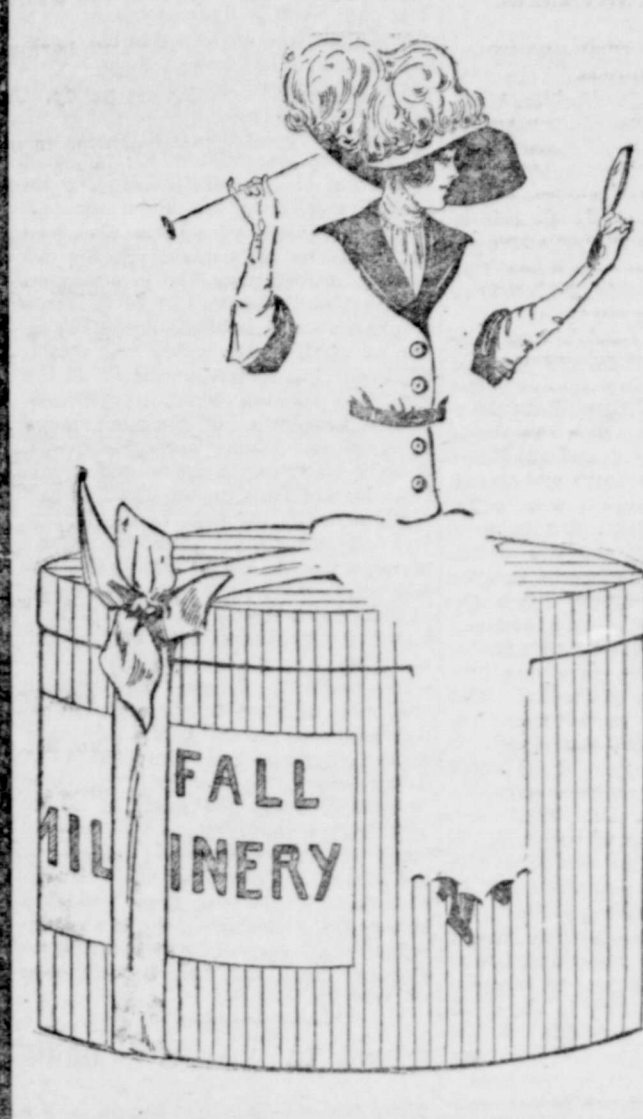

25 Lbs. of Granulated Sugar, \$1.00. If your order amounts to \$10 or more without sugar, but less than \$20, just add \$1.00 and get 25 Pounds of sugar for \$1. This does not apply upon the purchase of any one item.

Fall Millinery

While in buying your new fall suit or coat, just step across the floor and look at the most attractive collection of new fall hats we have shown in years.

The styles are authoritative, and the price range sufficiently wide to please everyone.

\$3.50 to \$50. The hats are of all sizes, all stylish materials, each trimmed with taste and care.

But the chief feature of our Autumn Hats is the Distinctive Style, a feature not very well explained in words, but which everyone of you will recognize at a glance when you see the hats. Why buy commonplace hats when you can get one of our artistic creations for the same prices.

You Are Invited to Come See Our Hats. Hensch Bros. Eighth and Felix St. Joseph, Mo.

WATERING TROUGHS LAST FOR LIFETIME

FOR SALE—Stock Watering Tanks, made of old boiler iron and frost never effect. One will outwear half a dozen galvanized iron tanks. Either oblong, round or square. These troughs have advantage over concrete tanks, can be moved where wanted. In the winter can have fire under them to keep water from freezing. Write for prices, or when in the city call at shop and inspect them. Good second-hand boiler flues for fence posts. Cheap.

T. C. Augustine Tank Works. Half Block from Show Ground. Cor. 5th and Cedar, St. Joseph, Mo.

ECZEMA

Also called Tetter, Salt Rheum, Puritus, Milk-Crust, Weeping Skin, etc. ECZEMA CAN BE CURED TO STAY, and when I say cured, I mean just what I say—CURED TO STAY, and not merely patched up for a while, to return worse than before. Remember I make this bold statement after putting two years of my time on this one disease and handling in the meantime a quarter of a million cases of this dreadful disease. Now, I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. If you will write me TODAY, I will send you a FREE TRIAL of my mild, soothing, guaranteed cure that will convince you more in a day than I or anyone else could in a month's time. If you are disgusted or discouraged, I dare you to give me a chance to prove my claims. By writing me today you will enjoy more real comfort than you had ever thought this world holds for you. Just try it and you will see that I am telling you the truth.

GUARD GOLD AT SEA

Means by Which Ocean Liners Carry Enormous Sums.

Fifty Millions in Kegs—Contents of Strong Rooms Sealed by Government Officials Are Secure From Theft in Transit.

New York.—The natural assumption would be that in the safeguarding of the treasure which the various countries are constantly sending one another by the big ocean liners there would be required the vigilance of many men.

Taking the specific case of one liner sailing under the British flag, we find that it has two strong rooms, the smaller of the two being in close proximity to the captain's office.

In the case of the British vessel mentioned there is another and larger secure room, situated next to the provision department. This is about 12 feet in length by 4 in width.

Gold usually is brought to the vessel on which it is to be shipped the day before the date of sailing, and it is stored away carefully before passengers embark.

The receipt given by the steamship company sets forth that so many kegs have been received for shipment, not for any stated amount of gold to the value of so much.

Although no armed guard stands by the strong room, two men watch the room constantly so long as the ship is in sight of land.

The total weight of one consignment of gold shipped by the British vessel in question amounted to something like 20,000 pounds, or sixteen tons, and the freight charges amounted to \$12,000, or, roughly speaking, one-eighth of 1 per cent.

MAD BULL GOES A BOY

Father Rushes to Aid and Beats Brute Off With a Club at Lakeside Park, Mo.

Lakeside Park, Mo.—A three-cornered fight occurred here between a mad bull, a young boy, Raymond Barnes, and the boy's father, who went to his assistance.

Young Barnes was badly gored before the elder Barnes beat the brute into submission.

The bull first attacked the boy, who screamed for help. His father heard the cries, and, with the aid of a stout club, went to his son's assistance.

By exerting all his strength the father knocked the bull semi-conscious.

He then hastily grabbed up his son and fled with him to a physician.

MAY PRODUCE HUMAN LIFE

Ultimate Possibility of It Is Suggested by Professor Macallum, the Scientist.

London.—The time may come when a human being can be constructed to order in a chemical laboratory. So it is hinted by Prof. A. B. Macallum, fellow of the Royal Society and a distinguished member of the British Association for the Advancement of Science.

"It was customary," says Professor Macallum, "to regard living matter as unique, with a parallel in the inorganic world and the secrets involved in its actions and activities as unsolvable enigmas.

He says the methods of the laboratory are not as yet those of nature, because nature works unerringly, unlaboriously, with an amazing economy of material and energy.

BOUND TO BE JAP'S BRIDE

Girl's Mother Says He Seems to Exercise an Uncanny Influence Over Her.

Asbury Park, N. J.—Miss Winifred Louise Barnes of Geneva, N. J., has confided to close friends that she intends to marry her wealthy Japanese suitor, Sangora Ono, despite all opposition.

Since the calling off of their marriage, which was to have taken place last Sunday at the Little Church Around the Corner in New York—called off for reasons not stated—Miss Barnes has been inaccessible to newspaper men.

But Ono was found at last at his boardwalk auction room.

There is reason to believe that opposition of the mother of the bride was the cause of the wedding being interrupted.

Ono has often been seen accompanying Miss Barnes to her boarding place, the Plaza hotel, and peering from her with a fond look and a squeeze of the hand.

LOVE REVIVES AND THEY WED

Result of Virginian's Return to His Native Town After an Absence of Forty Years.

Cape Charles, Va.—Mr. and Mrs. Andrew Crothers, a bridal couple, were passengers on board the New York express train from here en route to New York to spend their honeymoon.

The couple were sweethearts during their youth in their native town, Adamston, Va., and after a quarrel parted. This was forty years ago.

Mrs. Crothers, who was then Miss Lilliston, never heard from Mr. Crothers during the entire forty years. A few weeks ago he visited his home town and was surprised to hear that his sweetheart of early days never had married.

CAT IS RAISING RABBITS

Tabby, in Fargo, N. D., Some Time Ago Stole a Pup and Reared It.

Fargo.—Fred Hafner's house cat of abnormal maternal instincts again has created a sensation along Second avenue south.

Several days ago dogs broke into a rabbit coop in the vicinity and killed the older ones, leaving eight tiny rabbits. These were placed in a box and carried into a shed where the house cat had kittens.

Tabby immediately adopted them as her own. Since then she has been working overtime rearing both families. She seems to care more for the rabbits than the kittens.
