Rotterdam Surrenders After Constant Fire From Nazi Bombings

BY J. REILLY O'SULLIVAN.

PARIS, May 15. (AP).—Netherlands Foreign Minister Elco Van Leffens estimated today that the Dutch army suffered 100,000 men killed, or one-fourth of its total strength.

He said that Holland's fleet was almost intact and had joined allied naval forces, adding that resistance was continuing in Zeeland province and troops which had crossed into Belgium from Southern Holland would enter allied armies.

AMSTERDAM, May 15. (AP).—Bomb-blasted and encircled, The Netherlands high command last night ordered its troops to cease fighting the German invaders everywhere except in the fringe of low islands on the kingdom's southwest coast.

The order was given by General Henri Gerard Winkelman, commander-in-chief of the small Dutch army which for five days took all the punishment the German army could administer.

Holland's queen and government, in leaving the country, had made General Winkelman their highest representative and empowered him to make any military decisions he considered necessary. He had supreme power, therefore, to issue the "cease fire" order.

The government had fled to England with Queen Wilhelmina. From there she will rule The Netherlands colonial possessions, an empire of 750,000 square miles and a population of 60,000,000.

But the proud, rich motherland, with 8,600,000 people and a territory of 12,700 square miles, has fallen in the war between Germany and England and France from which she tried so hard to stay aloof.

Fighting still was going on in the Zealand Islands, valuable to Germany as submarine bases from which to attack England.

But General Winkelman told his army elsewhere to cease fighting in order to "save the civilian population and prevent further bloodshed."

His order was issued after the Germans had forced the surrender of Rotterdam by furious bombing which had set afire a large part of that great seaport city.

Into this western seaport, behind all the labyrinth of rivers, floodwaters and canals upon which the Dutch had counted to defend it to the last, the Nazis had driven the claws of their armored columns.

Utrecht, in the center of the main line of water defenses, where the Nazis had broken through, was (See DUTCH, page 8)

Today's War Map

This telephoto map shows, in heavy black line, the battle front set up by the German forces. Experts believe that the heavy Nazi pressure in the center area, designated as the "great battle line" may force a decision in the struggle of armies for the lowland countries and may be a turning pivot in the entire war.

Nazis Said Tossed Back Along Meuse

600,000 Men Engaged In Finish Fight on Front of 100 Miles

PARIS, May 15. (AP).—The French command reported tonight about half of the German forces which crossed the Meuse river yesterday had been driven back.

It estimated 20 divisions, a total of 600,000 men, were pitted in a finish fight in the "battle of the Meuse." Violent French counter-attacks were reported after a French war ministry spokesman admitted nazis had crossed the river.

The major struggle apparently centered around Sedan, ten miles within France from the Belgian frontier.

The Germans, hurtling 60 miles from their own border, through Luxembourg and Belgium, engaged the French in a vast new conflict which is being called "the greatest battle of all times in all countries."

Both sides flung tanks, planes, guns and men into furious fighting, for their armies were involved in a life or death struggle.

On the whole front, French dispatches estimated, the Germans are employing between 6,000 and 7,000 planes. The main front extends for 100 miles, along the Meuse from the Belgian citadel of Liege through Namur and Dinant, Belgium, to the French fortresses around Sedan, (part of France's northern defenses known as "the little Maginot Line.")

Two German armored divisions, followed by masses of infantry on foot and artillery hauled by tractors, reached the Meuse Valley in a giant bound southwest through the Ardennes Mountains and forests of Belgium.

Liege, Namur, Dinant and Sedan were attained by the Germans, French military commentators acknowledged.

The French, after delaying the German advance with light cavalry units, took their stand on the Meuse. Their Sedan line lies seven miles within French territory.

French military dispatches acknowledged German entry into Sedan, most of which lies on the east bank of the river.

House Committee Approves New WPA Outlays of Money

WASHINGTON, May 15. (AP).—A \$975,650,000 WPA appropriation, spendable in eight months if necessary, was recommended today by the house appropriations committee, which reported lessening of "ambitious" relief administration.

The appropriation, which the committee approved as President Roosevelt had requested it, was a part of the \$1,111,754,819 emergency relief supply bill for the fiscal year beginning July 1.

The sub-committee investigating the WPA disbursements in the coastal states in Texas, in proportion to the number of project employees, were among the lowest in the nation, and the worst situation was found in Louisiana, where some state officials have faced criminal charges.

Convention Review Heard at Luncheon

Brief reviews of convention activities were heard at the Lions club luncheon today in the absence of a planned program, several committeemen relating their part of the convention, held here last week.

Mayor M. C. Ulmer announced that next Sunday had been proclaimed Citizenship Day by President Roosevelt, adding that his own proclamation of Midland would be published this afternoon. (The publication can be found elsewhere on this page.)

The mayor announced the pastors of the churches of the city had unanimously agreed to devote a part of the time during Sunday services to stressing the importance of the day. He pointed out that citizens, on Citizenship Day especially, would do well to think more of their responsibilities to the country than complaining about their rights being violated by the laws of the (See CONVENTION, page 8)

New Nazi Coordinated Technique

A German advance guard halts beside a tank to watch the effects of their artillery fire on an objective before continuing their rush through Belgium. This picture illustrates the new technique used by the Nazis to take strongly fortified enemy positions. Artillery and aerial fire is used to shatter an outpost of strength, then, before the enemy can reorganize the territory for defense, the Nazi mechanized army and infantry move in. This is probably the system used by the Germans to take the French city of Sedan, the starting point of the Maginot Line. It has been reported that Germany had taken Sedan in an encircling movement.

Billion Extra May Be Asked to Expand U. S. Defense Measures

WASHINGTON, May 15. (AP).—President Roosevelt sped work today on his request for an extraordinary defense program expected to cost \$976,000,000, but the White House said he would be unable to shape it for submission to congress before tomorrow.

It was understood the amount the President has decided upon will not be disclosed until the message reaches congress.

An extraordinary arms program boosting next fiscal year's defense spending to over \$2,500,000,000 was reported in the making last night after President Roosevelt had asserted, with the utmost emphasis, that European events dictated an immediate expansion and modernization of America's armed forces.

Coastless, seated behind a desk piled high with papers as the result of long conferences on the subject, Mr. Roosevelt informed reporters that the program may cost a great deal of money, but must be undertaken in any event. He said that whether the money was raised by borrowing, increasing the \$45,000,000,000 legal limit on the national debt or by taxation was a minor detail.

The important thing, he said, was the national defense, and the main thing was to get the money to work making America's defenses impregnable against foreign attack.

A special message to Congress detailing his recommendations will go to the capital today if he can finish it by then, he said, and if not will be dispatched by Thursday.

There was no official word as to what sum he would ask, but estimates in high quarters ranged from \$750,000,000 to roughly \$1,000,000,000. Even the lower figure, when added to sums already voted or pending, would raise the total defense outlay for the year starting July 1 above \$2,500,000,000.

In addition to the President's pronouncement, defense questions and developments linked with war abroad had filled Washington's day.

General John J. Pershing, commander of American forces in France in the World War, said in a formal statement that "extra energy

in this country" should be devoted to "preparedness against the possibility of war."

The State Department announced that the United States was willing to make a joint protest with other American republics against Germany's invasion of Holland, Luxembourg and Belgium.

3. The navy recommended an immediate appropriation of \$300,000,000 for expediting work on 68 combat and auxiliary vessels, now under construction, with the work week in shipyard employments increased from 32 or 40 to 48 hours and three shifts on the job.

4. Senator Taft (R-Ohio) accused the administration of using the emergency defense situation as "an excuse to exceed the debt limit, which is really being broken through its own domestic extravagance."

5. Senator La Follette (Prog-Wis) demanded an "intelligent tax program." Senator McNary of Oregon, the Republican leader, said he was opposed to raising the debt limit; that additional defense needs should be met through new taxes.

6. Senator Lodge (R-Mass.), noting the tremendous effectiveness of Germany's aviation, called for the establishment of "at least three new training centers in the United States so that our production of pilots will keep pace with our production of airplanes."

7. Secretary Hull said the 19,561 Americans in Italy had been advised to leave that country, in terms comparable to those used in warning American citizens to quit other nations now at war.

The trend of events in Europe, Germany's smashing mechanized attack on Belgium and Holland, the importance of its air force in the Nazi strategic scheme, had obviously deeply impressed Mr. Roosevelt. There were two reasons, he said, for reinforcing American defenses:

1. The gain in knowledge from experiences of the last few weeks and months.

2. The progress of military events in the last few weeks, which inevitably had brought the defense picture on the United States a little closer to the United States.

How much money his program would cost, he could not at the moment say but he feared the sum would be high.

Whether the navy's \$300,000,000 proposal would be included in Mr. Roosevelt's recommendation to Congress was a matter of speculation, but many thought that at least a portion of that sum would be proposed, together with additional money for the army and the air corps.

FROM COLORADO Mrs. Frank Clarke of Denver, Colorado, is visiting her niece, Miss Marguerite Hester, here.

TIP OF MAGINOT LINE IS PIERCED

By ASSOCIATED PRESS. German troops sweeping into France on the sixth day of war in western Europe have "pierced" the northwest extension of France's Maginot Line, the German high command reported today.

The French high command admitted Germans had crossed the Meuse river under impetus of a massive land and air attack but said the Nazi tide had been hurled back six miles.

German forces penetrated originally ten miles beyond the river, or 20 miles into France, but the French said the thrust was reduced to a four-mile salient south of the river by a fierce French counter-attack.

Narvik Expected to Fall to Allies in The Next Few Days

STOCKHOLM, May 15. (AP).—The newspaper Tidningen said today allied bombardments in recent days had devastated the Norwegian port of Narvik and that the German garrison could not hold the town much longer.

The newspaper's correspondent said fresh French troops and tanks had been landed from transports for an assault on the town.

Arrangements for Motorcade to Big Spring Friday Made

Arrangements for the operating of the giant motorcade to Big Spring Friday morning for the annual convention of the West Texas Chamber of Commerce were nearing completion this morning, although the goal of 100 cars had not been reached.

The motorcade will start forming on West Missouri street in front of Mackey Motor Co. Friday morning at 9:45 o'clock, the caravan to start moving promptly at 10:30.

Chamber of Commerce officials this morning issued a statement urging as many local citizens as possible to join in the motorcade, making the caravan the longest ever to leave Midland. Persons driving

All Midland citizens who have paid their WTCC convention registration fee are urged to call by the chamber of commerce office in Hotel Scharbauer this afternoon or Thursday morning to get their badges which will entitle them to attend all convention activities. The badges were received here yesterday afternoon.

ing to Big Spring in the group will back up Midland's invitation for the 1941 convention of the West Texas Chamber of Commerce. Securing of the convention will mean much to Midland and the cooperation of the entire citizenry in making a notable showing in Big Spring is requested.

A final plea for advance convention registrations was also made by chamber of commerce officials who have guaranteed Big Spring at least 100 registrations. The registration fee of \$1.00 will admit the purchaser to all convention activities on Thursday, Friday and Saturday. It was pointed out, however, that those not desiring to register may join in the motorcade and that placards to go on the sides of their cars may be had for 25 cents.

The motorcade will start gathering on West Missouri street Friday morning at 9:45 o'clock, departure being scheduled for 10:30. Following arrival in Big Spring, the group will parade through the downtown streets and will participate in the big parade Friday afternoon, following the Midland high school band.

Seniors of 1940 Present Class Day Program Tuesday

Seniors of 1940 held the spotlight Tuesday evening when they presented their class day exercises at the high school auditorium.

James Frank Johnson, as class historian, retold the experiences of approximately 100 seniors through their four years of high school.

Nell Ruth Bedford forecast the future of the graduates in her class prophecy.

Lois May Lynch was class gifter and Jim McHargue, president of the class of 1940, presented the last will and testament of the group which is leaving Midland high school this year.

Choral readings and songs were presented by Midland high students and the boys' glee club sang a number.

Mrs. De Lo Douglas, director of music in the high school, presented a solo, "A Perfect Day" with violin obligato by Mrs. Lloyd Haseltine and piano accompaniment by Mrs. Hoit Jowell.

Rev. J. E. Pickering offered invocation for the program which was attended by a large crowd.

New Crockett Well Sure of Commercial Yield After Acid

BY FRANK GARDNER

Responding to "wash" with approximately 500 gallons of acid, Moore Exploration Company of Midland and Olson Drilling Company of Tulsa No. 1 Noelke Live-stock Company, second new pool opener in western Crockett county, today was assured of commercial production as it swabbed through tubing at an estimated rate of 75 to 100 barrels per day.

Fluid still is cut from 10 to 15 per cent with basic sediment and acid residue. Swab was being run five to six times hourly.

Acid treatment under pressure is planned later today, and it is expected that the injection will further increase output, possibly to the extent that the well will flow. The Moore and Olson well drilled and cored oil-streaked lime from 2,145 to 2,233 feet, total depth, and was estimated good for 50 barrels a day on swab prior to acidization.

Oil is 27.4 gravity, corrected. Location is in section 10, block GG, H. E. & W. T. survey, six miles southeast of Soma Oil & Gas Company's recent 1,039-foot, 778-barrel discovery on the same ranch.

An east offset to the Soma well, Lewis & Shannon No. 1 Noelke, had drilled past 355 feet in red rock.

Ector Outpost Cored

Cores from 4,114 to 4,204 feet in Everts Drilling Company of Dallas No. 1 J. L. Johnson, Ector county wildcat two miles southeast of the Goldsmith pool, were about 70 per cent recovered and showed traces of saturation and bleeding. The well is drilling ahead below 4,258 feet in lime.

Llano Oil Company No. 2-B O. B. Holl, deep Permian test in the North Cowden deep pool of northern Ector is standing after cementing 7-inch casing on bottom at 5,995 feet in lime with 400 sacks.

Forest Development Corporation No. 1 Paul Moss, Ector strike extends the Foster pool a mile and a half south, is shut in awaiting potential gauge after raising 2-inch tubing to 4,033, 170 feet off bottom. The official test will be started tomorrow morning. Before tubing was raised, the well flowed 142 barrels of oil in eight hours.

North Area Wildcats

Stanolind Oil & Gas Company No. 2 J. E. Rayner, quarter-mile east outcrop to the Cedar Lake pool of northeastern Gaines county, is drilling below 3,026 feet in anhydrite, red rock and salt. Anhydrite was topped at 2,010 feet, datum of plus, 1,083, which is practically flat with the well's west offset, No. 1 Rayner, the pool opener.

800 Scouts Expected To Attend Round-Up In Big Spring Fri.

Carrying out the organization motto of "Be Prepared," Big Spring Boy Scout leaders stood ready to entertain more than 800 boys and leaders from the 15-county Buffalo Trail Council area at the annual Round-up affair here this weekend.

After conferring with S. P. Gaskin, Sweetwater, area executive, Albert S. Darby, local Camping Chairman, announced that an arrangement was complete for the event. Nat Shick's 60-man committee had completed its job of securing enough beef and food to insure the traditional Saturday barbecue luncheon.

Its success, however, was expected to be clinched by the announcement that Bill Olson, who has worked uninterruptedly at the job for a decade, would again be the cook. Ever since there has been an area gathering of scouts here, Bill Olson has been doing the cooking, and during that time he has prepared around two tons of meat, hundreds of pounds of beans, several pots of "Gentleman from Odessa," along with other trimmings. He has been connected with the event continuously longer than any one else.

Gaskin said that many Troops probably would arrive here Thursday evening in time to participate in the "Adventure Trail" hunt the following morning, and that most Troops would be on hand in time to join in the All-Youth Parade of the West Texas chamber of commerce at 2:00 p.m. Friday and the Americanization meeting following immediately afterwards.

Friday evening Oscar H. Benson, National Director of Rural Scouting, Boy Scouts of America, will appear at the Council Campfire, likely to be held in the City's new amphitheatre at the City Park and which seats 6,000.

Saturday there will be the usual spirited contests between Troops of the 15 counties in Scoutcraft, athletic events and novelty stunts in addition to the barbecue. Presentation of ribbons to the winners will climax the Round-up Saturday afternoon.

Almost on the eve of the Round-up opening, the Executive Board of the Council Tuesday night heard a report from Gaskin that the area already had exceeded its membership quota for the year. The Board, representing a cross-section of business leaders in this section, met at the Scout Hut in the City Park.

GUEST OF BRYANTS

Mrs. Frank Wylie of Cedar Hill is the guest of Mr. and Mrs. W. Bryant.

TO WAQO

Mr. and Mrs. Ray Beville will leave Thursday for Waco on a vacation trip. They plan to be away about two weeks.

Hunted Trouble

Democracy Gains in America

A year or more ago there was a great deal of apprehension about our fellow American nations and their democracy. There wasn't any democracy, cried many writers, the loudest being those on the left wing. And such as existed was yielding to the pressure tactics of European dictatorships.

Now there was, and is, too much truth about this. But it has been repeatedly pointed out that South American dictatorships are different from those of Europe. In Europe, the totalitarian countries cry out against democracy as rotten and outmoded. But in South America even the most iron-fisted dictators pay lip service to democracy and insist that they are merely holding the reins until the people are more able to rule themselves. In the hearts of the people the democratic ideal of Bolivar and San Martin has never died.

How fares democracy to the south during the past year? Here are a few examples:

Mexico is in the midst of a presidential campaign in which the greatest freedom has been permitted. Unless something intervenes, there is every reason to believe that the vote will be a more effective and free choice than for many years, perhaps ever.

Costa Rica has just inaugurated Calderon Guardia, elected by a record majority in a free election.

Cuba is in the midst of a campaign in which Fulgencia Batista, the dictator, is running for president. Opposition movements have been allowed considerable freedom. The election, even if it be less than 100 per cent democratic, is certainly an improvement over Batista's earlier seizure of power.

Chile's popular-front elected administration has stood firm for two years. Argentina and Brazil have firmly stamped out both Fascist and Communist efforts at putsches.

Inauguration of Gen. Enrique Penaranda del Castillo in Bolivia saw constitutional government restored there after years of dictatorship. President Benavides of Peru, a virtual dictator, retired at the end of his term, and his successor, Manuel Prado Ugarteche, promises a more liberal regime.

All this is not to argue that all these and other southern countries are now 100 per cent democratic. Are we, as far as that goes?

But there is reason to hold to the faith that the Americas still move slowly and steadily toward the goal of freedom.

Officials Crack Down On Fraud Job Claims

ABILENE, May 15.—The Texas Unemployment Compensation Commission began its promised crackdown on alleged fraudulent claims for jobless benefits, as criminal charges were filed against claimants in the Abilene district.

"More charges will be filed as soon as we can check the payrolls of other companies, providing we find violations," H. H. Rumph, District Supervising Examiner, stated. Alleging in the cases already filed that the claimants had failed to report their earnings during periods for which they claimed jobless benefits, the Commission brought the charges under the misrepresentation and nondisclosure provisions of the Texas Act.

Experts say the best foundation for an innerspring mattress is either a coil spring with a platform top or closed coils, or a firm box spring. Innerspring mattresses need a firm foundation. Hair or cotton mattresses require a very resilient spring to provide the most comfort—a very flexible box spring or an open-top coil spring.

The cases were filed before Judge Carl P. Hulsey of the Taylor County Court and Judge Omar T. Burleson of the Jones County Court.

BROADWAY GARAGE
Hejl's Service
207 West Wall—Phone 140—Midland, Texas

I've been tricked I got hold of a copy of the Southwestern Historical Quarterly on account of a story entitled "Charles William Post, the Rain Maker." I thought it was about C. W. Post of Midland until I read it, and then I found it was about the founder of Post City, Texas. But the article is well worth the money and the Quarterly is well worth a \$3.00 per year membership in the Texas State Historical Association. For full particulars, address that organization at University Station, Austin, Texas.

As our sports department said the other day, all the Cowboys need is to play some home games. They have been a delight to the eye of sports fans since returning from a tough road trip. The Cowboys are going to be up in the top brackets this season, and the Owners Duffy and Schabauer should be thanked for bringing to the home folks "the great American game" on a silver platter. These games deserve to be patronized liberally, and those who patronize them will get their money's worth.

More American citizens are discussing the immediate likelihood of this country's entry in the world

LEGALS

No. 3358
THE STATE OF TEXAS
TO THE SHERIFF OR ANY CONSTABLE OF MIDLAND COUNTY, GREETING:

CATTON'S WASHINGTON COLUMN

BY BRUCE CATTON
Reporter-Telegram
Washington Correspondent

WASHINGTON. — The longstanding row between C. I. O.'s National Maritime Union and the Bureau of Marine Inspection and Navigation is beginning to break into the open.

Biggest Maritime Union complaint is the charge the bureau has been anti-union and has used its powers under the navigation laws to discipline militant union men while letting steamship owners off with a slap on the wrist.

Early this month the union distributed about Washington a pamphlet, summing up its charges, demanding a revision of policies by the bureau, and calling for dismissal of the bureau's director, Commander R. S. Field. This will touch off some fireworks.

The bureau is a part of the Department of Commerce, and hence is responsible to Harry Hopkins. It is an open secret that top department people aren't wholly satisfied with the bureau's record and that certain changes are in the cards.

There will be an immediate backfire, however, if anything of the kind comes on the heels of the union's pamphlet. For the rumors of an impending shake-up in the bureau sound to some congressmen like advance announcements of a "surrender to the C. I. O." and some ardent anti-Dealers are already collecting ammunition.

The nature of the Plaintiff's demand being as follows, to-wit: In the First Court, Plaintiff sues in trespass to try title for the title and possession of:

All of Lot No. 7, in Block 29, situated partly in the original town of Midland and partly in the Homestead Addition to the town of Midland, Midland County, Texas, being a lot 50 feet in width fronting on Pecos Street by 140 feet in depth; and for One Dollar damages. In the Second, Third and Fourth Courts of said Petition, Plaintiff, sues for the title and possession of said lands, claiming the same under the three five and ten year statute of limitations, respectively.

HEREIN FAIL, NOT, And have you before said Court, on the said first day of the next term thereof, this Writ with your endorsement thereon, showing how you have executed the same.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT and issued at office in Midland, Texas, this 30th day of April, A. D. 1940.

NETTIE C. ROMER,
Clerk of the District Court,
Midland County, Texas.

HITLER SHOTS WORKS, GAMBLERS RULE OF ALL EUROPE AGAINST STARVATION

BY THOMAS M. JOHNSON
NEA Service Military Writer

HITLER gambles starvation by blockade against rule over Europe—or over even more than Europe. Our own peace too is threatened by the Nazi invasion of Holland and Belgium. If it succeeds we are alone in a world largely hostile.

Will it succeed? The Nazis could win a minimum objective by overrunning northern Holland where the Dutch can fight little but delayed action, and British help can arrive only by narrow seas. In such seas German air power has just recently stymied British sea power. Air power may well enable the German army to win this minimum objective in Holland, whereupon German planes and submarines can intensify the danger of already endangered Britain.

But that will hardly win the war this summer. To do that Hitler must strike the main Franco-British armies a shattering blow and now the best opening is through the "low countries."

Holland and Belgium are flat, far more free of natural barriers than the French frontier. The Kaiser took this northern route in 1914. He spared the Dutch, but completely surprised the weak Belgian army, blew up its forts with new heavy artillery.

BOTH BELGIUM AND HOLLAND READY

TODAY Hitler tackles Dutch and Belgians both. Although both are fully warned, strongly fortified and have—Belgium especially—2,000 d armies totaling a potential 1,500,000. They are weakest in the air with perhaps a thousand planes of different types combined. Germany has a superiority in the air over

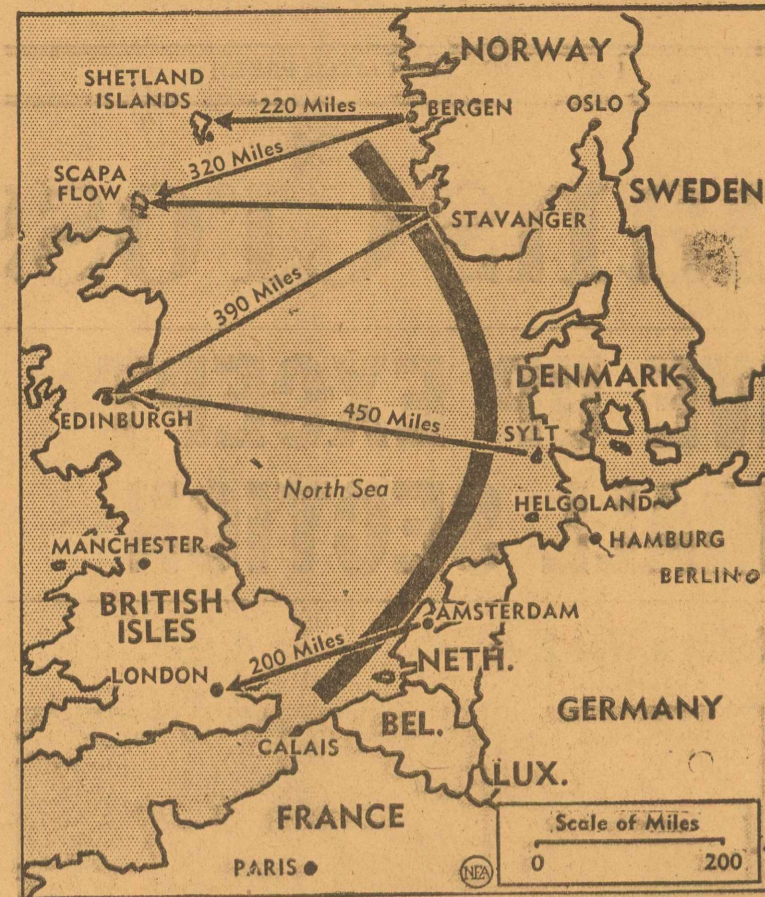

As Field interprets the law, once a sailor has signed articles aboard ship he is under contract. Under that interpretation, a sit-down strike by men who have signed on is illegal, even though the ship may be tied up at a wharf.

Field points out, however, a man may not be held to involuntary servitude aboard ship; if a crew wants to strike its members may simply go ashore, or desert ship, without suffering any penalty other than forfeiture of pay.

BUREAU CAUGHT IN OLD UNION ROW

TO a certain extent, the bureau has been caught in the old A. F. L.-C. I. O. crossfire. Under the navigation laws as revised in 1936, merchant seamen are supposed to possess continuous discharge books giving a record of each voyage. The C. I. O. sailors have denounced this as a "pink book," asserting it makes possible black-listing of union sailors; the y carry certificates of identification, instead, A. F. L. sailors, on the other hand, use the book.

Don't overlook the fact that the Dies committee has been gathering a good deal of testimony about alleged Communist influence in the National Maritime Union. That will be drawn on heavily, if the union's scrap with the bureau comes to a showdown.

A vicious semi-circle opposite the British Isles is the aim of the German drive into the Netherlands and Belgium. Map shows how Hitler would complete his springboard for Blitzkrieg against England by subjecting completely the two low countries.

the allies in the west of 3 to 2 or even greater. It is superiorly enough to hamper British efforts to land troops by sea in northern Holland, although here the good Dutch navy will help.

Work of WPA Sewing Room to Be Viewed Here During Nationally-Observed Week

In view of the fact that next week, Midland's WPA projects will observe "This Work Pays Your Community Week," citizens will double be roused to increased interest in the activities of the sewing room here. During that week, visitors are invited to see the project in operation during the hours of 7 to 12 o'clock in the morning, 12:30 to 2 o'clock in the afternoon and 6 to 9 o'clock in the evening.

King cotton, one of the major surplus items which the state of Texas has been instrumental in supplying to the world market, has a staunch friend in the sewing room in Midland, according to sponsors of the project.

Thousands of yards of cotton material are used each month in District 19, which includes Midland county. Consequently a huge bite is taken from the blanket of surplus cotton. The sewing room project is manned by needy persons taken from the Works Project Administration rolls in Midland county and the sponsorship of Midland county commissioner's court. This has made it possible for needy workers to produce cotton garments of all sizes for all ages for distribution to destitute families in each county.

Employees who have not been familiar with sewing work when first assigned to the sewing room, have been given sufficient training to enable the workers to do the work required. This training has served in good stead for the workers and in many instances has enabled the as a housekeeper or seamstress. It works to gain private employment

to drive a spearhead between Holland and Belgium and with the Maas river as protection sweep out westward, flank the Maginot line and beat the allies in the field. This movement the Nazi air force is aiding by landing troops to seize the Dutch canals, flooding stations, and the Belgium railroad junction through which would come allied reinforcements from France.

BRITISH NOT FITTED FOR ALL FRONTS

SOME British units are seasoned regulars. More are newer formations better fitted for holding quiet French sectors than for such open warfare as we shall now see, lightning-like in its rapidity, fearful in its demand on troops and especially on officers.

But the French are another story. Theirs is the best army in Europe in organization, homogeneity, staff work and peace time training. The Nazis surpass it in equipment and in fighting experience.

That experience was gained against under-equipped Poland and unaware Norway. Now Germany strikes the real thing. Her hope is not in her army alone but in the air power that largely won those trials there. On both sides she bases a prodigious gamble.

If she seems to be winning, she probably counts on Mussolini joining in attacking France. The bombing of Lyons and of Switzerland may be preparations or diversions. France may be squeezed in the pinchers north and south or France and Britain may counter-attack through the Balkans. Then, who knows what Russia will do and Japan? Armageddon has begun.

"So you're supposed to be Man's best friend!"

"Woof, woof, Old Hound. You must be sharing all of your master's burdens and cares. I'll bet he's the type that overworks and overworryes—and gets nowhere. Now take my boss—he has plenty to do and plenty to think about. But you'll never find him trying to squeeze two days' work into one... or brooding over things that never happen. No sir; he's steady and cheerful—usually whistling when I meet him at the gate. And, when we go inside to the Mrs. and the kids, boy, is he welcome. He loves his home—and he loves to be host. He understands the meaning of hospitality... the good friends it attracts... the feeling of security his friends bring him. Why don't you chase over some time? It'll do you good to see the way we live."

Latin America Receives 11,000 Out of Spain

MEXICO, D. F. (UP) — Latin America has taken more Spanish refugees than Russia, according to figures released here by Constanza de la Mora, former chief of the press division of the Republican government of Spain.

Senora de la Mora, whose husband was chief of aviation for the Loyalists, is in Mexico assisting the Spanish refugee committees in their task of resettlement of thousands of fugitive Spaniards.

The committees have officially registered 6,000 refugees in Mexico, she said, in addition to which there are 2,000 unregistered persons who have entered the republic through the assistance of relatives, or by their own means.

According to her figures there

are between 3,000 and 4,000 more in all other Latin American countries, led by Chile with 2,500. She estimated Russia today had received 8,000 Spanish refugees, 6,500 fewer than in Latin America.

Russia Opened Doors Wide.
Russia offered to take all the veterans and all the children of the loyalists, she said, but the committee preferred to send many of them west.

"Of all the refugees in the world, the Spanish refugees are the luckiest, to be accepted in the Americas," she said.

Senora de la Mora said there were still 180,000 of her people refugees in France. She criticized the French government for the treatment many of them were getting, allegedly in concentration camps, and charged that others were being pressed into service in labor gangs.

She thanked President Lazaro Cardenas and the nation for being the first country in the world to give the loyalist refugees haven. Before Gen. Francisco Franco had won the war, Mexico accepted several hundred children of loyalist families.

She said frankly that the refugee committee's rehabilitation projects in Mexico were only partly successful thus far. She said that three school establishments in the capital for children were progressing and that two publishing houses were moderately successful, helping in cultural work. But she said these publishing firms, Edipsa and Seneca, were merging into one organization. Among the publications will be Romance, a periodical of stories; Amiga, a women's magazine, and Rom-

Allies Guard Rich Oil Treasure in Caribbean

Contained in the myriad of refinery tanks of the Dutch West Indian islands of Curacao (where above photo was taken) and Aruba is one-third the highest test gasoline available to Allies—life blood of their aviation. Because no change of sovereignty occurred when Allies recently landed troops on these islands 40 miles off Venezuelan coast to protect oil against Nazi sabotage, U. S. saw no violation of Monroe Doctrine.

patatoes, a comic book for children. **Works Projects Retarded.**

Agricultural and industrial projects were having a harder time getting started she said. One of the agricultural operations includes an area of 300,000 acres near Santa Clara in the northern state of Chihuahua. The refugees have started a metallurgy plant in the capital here.

Senora de la Mora said the committees had plans to start fishing, plywood manufacturing and porcelain manufacturing projects. Most of the 6,000 registered refugees in Mexico are children; there are 1,500 classed as competent, including persons of widely scattered professions such as newspapermen, lawyers, farmers, teachers, doctors, nurses, mechanics, dressmakers, accountants—and 52 disabled persons. She said there were records of 600 unemployed among the group. Food and lodging are being provided for them by the committees.

She said that among the refugees communists were distinctly a minority.

Dissension Among Groups.
There has been noticeable dis-

Solomon Folk Live Strangely

CAMBRIDGE, Mass. (UP).—The queer life of the Solomon Island negroes is described by a youthful Harvard anthropologist and his wife who spent two years in the village of Siwai on the Pacific Island of Bougainville.

The island is ringed by a three-mile coastal swamp and then rises to rugged mountain chains 10,000 feet high. There are two active volcanoes on the 150-square mile island and about once a week there are earthquakes of considerable violence, resulting in landslides.

Dr. Douglas L. Oliver of Harvard's University Museum visited the island to solve a "puzzling ethnic black spot." The natives are black skinned and on surrounding islands are natives of lighter skins, straighter profiles and less hairy bodies. The results of the expedition will not be known for several years, but it is believed these natives have the same origin as the natives of New Guinea.

Once Were Head Hunters.
Member of the Siwai tribe formerly were head hunters, but that practice lapsed in 1920 when the island came under British mandate. Since then, Oliver reports, the natives rely upon sorcery to vanquish their enemies.

A tribesman, Oliver says, will invoke an evil demon against his enemy by hiding a lock of the foe's hair, or a fingernail or a piece of food in a jungle spot of evil reputation.

To avenge the death of one believed killed by sorcery, a piece of wood is placed in the hand and mouth of the dead man and then buried in an "evil" spot. The sorcerer, it is thought, then is caused to waste away.

Wear Palm-Leaf Hats.
Adult male natives wear cone-shaped hats of palm leaves, usually in sets of five—four small hats telescoped inside a larger outer one. In one section boys are given basket-shaped hats and are not allowed to remove them in the presence of women until they are married.

"Failure to avoid this tabu," Oliver said, "involves the penalty of death for girls who may see the

boys."

It required 10 months for Oliver to obtain a working knowledge of the complex Siwai language. Typical of the difficulties, he said, is the fact that the Siwai has not only the two noun classes of masculine and feminine, but also has 48 other classes covering round-thing objects, fat objects, trees, birds, etc.

He said that the Siwai verb is so complicated that in one word a tribesman can fuse the person and specific number of both the subject and the predicate, the tense, the exact time of the occurrence, the grammatical mood and other factors.

WTCC---

(Continued from page 1)

discriminatory freight rates. Many look forward to an important announcement by Jerry Sadler, member of the state railroad commission, when he makes the principal address at the first general session Thursday afternoon.

Other big names are in the convention program, among them Gov. W. Lee O'Daniel, who with Mrs. O'Daniel will arrive here Friday noon to participate in the massive Youth parade; the Americanization rally following in the city auditorium, with a "Message to Youth"; and to make the featured talk on "The Citizen and his Government" at the concluding general session Saturday morning.

Oscar H. Benson, New York, national director of rural scouting, Boy Scouts of America, will make the principal address at the Americanization meeting, in tune with the convention's theme, the "American Way of Life."

Other Business Sessions.
Another phase of the regional chamber's vital program will be handled by three competent West Texans at the producers' general assembly Friday morning. Joe A. Clarke, Albany, president of the West Central Texas Oil and Gas Association, will talk on oil problems. Jay Taylor, Amarillo, president of the Texas & Southwestern Cattle Raisers Association, will view ranching matters. H. G. Parr, Fort Worth, head of the State-Wide Cotton committee's trade barrier section, will analyze the cotton situation.

Last on the three days program, the WTCC session for studying mounting governmental costs and stressing assistance to public officials by taxpayers' groups in budget making, is expected to prove an interesting meeting.

Governor O'Daniel will be the principal speaker at this final session. Talks also will be made by Rupert F. Asplund of Santa Fe, veteran director of the New Mexico Taxpayers' association, and Dr. Geo. C. Hester, of the school of government of Southwestern University at Georgetown.

The convention will get going Thursday morning with the first meeting of the important works committee under D. H. Bolin, Wichita Falls, as chairman. The initial batch of resolutions will be presented to the WTCC directors at their

first luncheon Thursday noon, at which 10 district directors will be elected. Three other sessions are in prospect for the works group. Tom Garrard, Tahoka, has called a meeting of the election committee for Thursday morning to certify the more than 200 directors and clear the way for balloting on the 1941 convention city. Mineral Well, Midland and Waco all have tossed hats into the ring and are sending large delegations. Midland Tuesday forwarded 100 registrations.

J. S. Bridwell, Wichita Falls, vice-president of the WTCC, will preside at all general assemblies, while Vice-President A. F. Ashford will be in charge of directors' meetings. J. J. Gallaher, Graham, will present the annual WTCC awards. Houston Hart, San Angelo, will present the officers elected at the final directors' breakfast on Saturday morning. Tom Garrard will announce the winning convention city.

The WTCC parade this year is theming the "American Way of Life," to be expressed mostly by marching youths: 1,000 Boy Scouts, 4-H Club boys and girls, more than a score of bands, and 40 girl sponsors. Gov. and Mrs. O'Daniel will lead the official section of the parade, riding in an open car. Prominently placed will be the Leathers family of Clarendon, "Typical West Texas American Family," and their alternates, the John J. Prudes of Rankin. The typical family will make six convention appearances before departing for the New York World's Fair on a week's expense-paid trip.

Last count on entries in the various contests showed 66 My Home Towners and 40 sponsors. These girls from all over West Texas will take part in the convention revue, "Life in America," and compete for designation (by audience secret balloting) as "Miss West Texas" for 1940-41. Nightly dances at the principal hotels here will be other convention entertainment features.

**Pagoda Pool Opens
Friday for Season**
The Pagoda swimming pool will open for the summer Friday afternoon at 2 o'clock. The pool will be open daily from 7:00 a.m. until noon and from 1:00 p.m. until 10:00 p.m.

Considerable effort has been expended in placing the grounds and all equipment in excellent condition. The interior of the pool has been repainted, the bath-house renovated and grass sown around the pool. A regulation diving board has also been installed.

Safety and cleanliness are being emphasized to the last detail. A competent, qualified Red Cross life-guard will be on duty at all times. For safety reasons only one diving board will be used. Sanitary, sterile foot baths will be placed at dressing room exits. The entire bath-house quarters will be scrubbed daily with disinfectant. The water in the pool will be kept sterilized at all times in accordance with State Sanitary requirements. Dr. Yarbrough, county physician will make periodic inspections to assure the public that a high standard of cleanliness is being maintained. Showers

Summer School To Open May 20

Summer school will open at the high school building Monday, May 20, Supt. W. W. Lackey announced today.

Prin. A. L. Gilbreth of junior high school and Miss Tommie French of North Ward will teach.

Pupils desiring to attend the school are asked to communicate with Mr. Gilbreth or Miss French at their respective school buildings this week or to phone the superintendent's office at the high school.

The session will be about eight weeks in length.

Woman Judge Defends Feminine Job Holders

CLEBURNE, Tex. (UP) — Mrs. Sarah T. Hughes of Dallas, Texas, only woman district judge, pooh-poohs the suggestion that job-holding married women add to the list of the nation's unemployed men.

She told local members of the Business and Professional Women's Club that most of the 3,000,000 married women who work hold some kind of domestic job. Nearly all unemployed men come from industry, she said.

"A steel worker would not push a baby buggy for someone else," she said.

City Bowling League Is Organized Tuesday

The City Bowling League was organized last night for the summer season in a meeting held at the Plamor Palace.

Officers elected were Wilburn Page, president; Berte Haigh, vice-president; Al Boring, secretary and treasurer.

The first night of play will start Thursday and thereafter the matches will be held each Tuesday night at eight o'clock.

The following teams make up the league: Blatz beer, City Drug, Lions club, Martin Linen supply co., Payne barber shop, Petroleum cleaners, Piggly-Wiggly, Tot's Gulf service station.

PARTY AT COUNTRY CLUB

A bingo party and dancing for Country Club members only will be sponsored at the Country Club tonight at 7:45 o'clock. All Country Club members are urged to be present.

It will be required before entering the pool. Orderly crowds and orderly swimming will be assured.

It is the desire of the management to afford many happy hours of clean refreshing swimming to the public during the hot summer months. Constructive suggestions will be welcomed at any time.

HE STARTED AS A "GRUNT" and helped develop a great telephone system for Texas

FORTY YEARS AGO this man was a *grunt*... a telephone lineman's helper. His eyes have seen a miracle... the development of the Bell telephone system that today serves nearly 550,000 Texas telephones. His hands helped make the miracle come true.

When he was "breaking in," there were less than 25,000 Bell telephones in Texas. Based on present standards, the service then was slow and not very dependable or clear. Sometimes it took hours to complete a long distance call.

Today, from the sidelines, this old-timer watches with keen delight as 8,500 Texas telephone workers carry on. The job is bigger now, but the goal is still the same... to furnish Texas with the best telephone service possible, at the lowest cost to the user.

*Probably so called because he did the heavy lifting for the linemen on the pole.

Engagement of Miss Dunagan and A. A. Jones Announced at Coffee

To announce the engagement and approaching marriage of her daughter, Miss Lorena Dunagan, to A. A. ("Poosty") Jones, Mrs. John Dunagan entertained with a coffee at the home of Mrs. Eula Mahoney, 614 W. Tennessee, Tuesday morning from 11 o'clock until 12. The wedding will take place early in June at the bride's home here. Pink roses were arranged at vantage points in the living room and a pink-and-white color scheme was favored in party appointments. In the receiving line were Mrs. Mahoney, Mrs. John Dunagan, the bride-elect, and Miss Helen Dunagan.

News of the approaching marriage was revealed to guests by means of scrolls tied with white ribbon which were on the coffee plates. These scrolls bore the announcement, "Poosty and Lorena, June 7." The coffee table, where Mrs. C. M. Dunagan poured for guests, stressed the bridal theme in its centerpiece of an archway of pink roses under which stood the miniature figures of a bride and groom.

Mrs. Woodrow Beatty and Mrs. J. B. Bain assisted in the dining room. Mrs. Lee Cornelius presented piano numbers during the morning.

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic or neuritic pain, try this simple inexpensive home recipe. Get a package of Ru-Ex Compound, mix it with a quart of water, add the juice of 4 lemons. Often within 48 hours—sometimes overnight—splendid results are obtained. If the pains do not quickly leave you, Ru-Ex will cost you nothing to try. Ru-Ex Compound is for sale & recommended by

Mrs. Graham Is Speaker at Session Of Valley View Club

Mrs. J. T. Graham was the main speaker at the meeting of the Valley View home demonstration club Tuesday for which Mrs. Cleo Brown was hostess at the home of her mother, Mrs. D. M. Bizzell.

The speaker told of home and farm demonstrations in an interesting discussion. Mrs. G. C. Brunson was in charge of the program and introduced the visitors, Mrs. Graham and Miss June Edwards.

Refreshments were served to: Mmes. Brunson, Mary Thompson, B. L. Mason, J. D. Bartlett, Andy Brooks, Bennie Bizzell, Doyle Lester, Harvey Kiser, L. B. Stewart, D. M. Bizzell and the hostess, and the two visitors.

Mrs. Lynch Reads Program at Meeting Of Delphian Chapter

Mrs. A. E. Lynch led the program on "The World War and Its Consequences" at the meeting of the Delphian chapter in the private dining room of Hotel Scharbauer, Tuesday morning.

The following topics were discussed: "England Weathers the Darkest Hours of Its History"—Mrs. Geo. Grant. "The Last Difficult Struggles"—Roundtable discussion. "Unpeaceful Times of Peace"—Roundtable discussion. "Foreign Crises Complicate Domestic Policies"—Mrs. C. M. Linehan. "Britain Under a Labor Government"—Mrs. W. Earl Chapman. "Adjustments at Home and Abroad"—Mrs. F. D. Breedlove. "Ritual Disarmament and Economic Change"—Roundtable discussion. Mrs. Chas. Klapproth presided.

Mrs. Hal Peck presented an interesting resume of the Delphian handbook for the year. Mrs. Klapproth expressed appreciation for the chapter and presented by Mrs. Hal Peck at the recent coffee. Present were: Mmes. Walter Cowden, W. Earl Chapman, Geo. Grant, S. H. Hudkins, C. L. Klapproth, A. E. Lynch, C. M. Linehan, Hal Peck, A. J. Cooper, F. D. Breedlove and Ralph Troseth.

Although the feathers of silkies may be either white or black, their skin always is black. They are the Negroes of the fowl race. A flannel cloth dipped in dry oatmeal makes a good cleaner for painted woodwork.

Hold Everything!

"Dad, meet Bill and Joe—they want to get a loan and I told them you were a banker."

HOW to EAT to BEAT the HEAT

YOU can dig a lot of health out of that back yard; vitality and vitamins.

Nothing gives greater returns than those hours in your garden. But to get the best returns it is important to know which plants provide the most food value. Tomatoes are especially rich in vitamin C, as well as in vitamin A. Even green tomatoes have their valuable vitamin content. Tomatoes, incidentally, are among Alice H. Smith

the new vegetables which can be safely canned without use of a pressure cooker. Next come carrots, cooked or uncooked. They are high in food value and important because their delicious flavor stimulates the appetite. Leaf lettuce requires much less work than head lettuce and has more food value. The dark green leaves are high in iron content and Vitamin A. Parsley is another important vegetable. Save a few inches for a parsley bed in the garden. Parsley, however, should be eaten, not merely used as a garnish for some other food, often less important. Parsley is high in vitamin A and C and minerals, especially iron. Beets are worth any space you can give them. They should be planted fairly thick and then thinned. The younger tops will provide a choice vegetable, a fine substitute for those who do not like spinach. In fact, all the green, leafy vegetables are good. Peas and beans likewise are excellent. If your family happens to like white turnips be sure you serve the turnip tops as a vegetable. You'll overlook good food if you don't.

Potatoes are important, if you have the space. They are not only good energy-producing food but potatoes are high in mineral content and contain an appreciable amount of vitamin C. Finally, there's the dandelion. Whole lots are filled with them at this time of the year. They are delicious cooked or served as a Salad or in a salad bowl with other greens and a dash of French dressing.

Gardening is a good way to get your sunshine, and you raise vitamins.

NEXT: Diet and income. Between 1760 and 1765, one wolf in central Europe devoured 93 persons and mangled 30 more. It weighed 165 pounds.

D. A. R. Has Final Meeting of Season; Plans for Future

Lieut. Wm. Brewer chapter of the D. A. R. held its concluding meeting for this club year at the home of Mrs. J. M. Caldwell, 223 South H street, Tuesday afternoon. The session was devoted mostly to completing business for the year and plans for activities to be carried on through the summer. It was decided that committees for this year shall also function again next year. Officers regularly serve for two years.

Mrs. John P. Buder was elected corresponding secretary. It was announced that the chapter will sponsor a radio program on the flag in June, possibly June 14. Mrs. James H. Goodman will be in charge of this program. Mrs. Ben W. Smith was in charge of yesterday's program on the use of the flag, taking the place of Mrs. J. D. Robinson who was out of the city.

Mrs. Barker was a visitor. Two members of the chapter who live at Fort Stockton, Mrs. Harry Harris and Mrs. B. D. Blades, were present.

Five of the six new members of the chapter were also in attendance. They were: Mmes. Geo. Glass, Butler, Geo. Burton, L. Waldo Leggett, Geo. Ratliff, Mrs. Sidwell the sixth new member, was absent.

Other members present were: Mmes. H. C. Wheeler, Erle Payne, Goodman, Smith, Tom Sealy, Jack Wilkinson, John Perkins, Earl Powell of Stanton, Miss Edna Hanna, and the hostess.

Mrs. J. W. Roberts Hostess for Shower In Pink-and-Blue

Tuesday afternoon Mrs. J. W. Roberts was hostess at her home, 512 S. Lorraine, for a pink-and-blue shower honoring her daughter-in-law, Mrs. R. E. Roberts, who moved from Midland to Mountainair, N.M., a short time ago.

Later in the afternoon, the hostess received a wire saying that Mr. and Mrs. R. E. Roberts were parents of a daughter born yesterday at Mountainair. The baby weighed 6 1/2 pounds, has been named Sharon Suella.

Making the event one of special interest to relatives and friends was the fact that the baby was born on the birthday of her paternal grandmother, Mrs. J. W. Roberts of Midland, and also on the birthday of her maternal grandfather, N. K. Bickford of Denver, Colorado.

For the shower, the Roberts home had been decorated with pink and blue crepe paper and baby pictures, carrying out the theme of the party. Bunco games were played. At the tea hour, sandwiches of pink and blue bread were served along with pink lemonade and other refreshments. Colored paper napkins and cups added brightness to the service.

The Lorado Sewing club, as an organization, presented gifts for the honoree.

Bringing gifts were: Mmes. Vestter, Tekel, Jay Wadkins, Haskell Wadkins, R. Rotan, Clint Osborne, Grace Rhoads, C. M. Bird, Hawkins, J. A. Andrews, Sarah Sue and Ella Lou Roberts, and the hostess.

We, the Women

BY RUTH MILLETT. A successful woman is often a sorry lot. Only by her clothes and her conversation could you tell that she is a SUCCESS.

Constant thinking about herself and the best way to put herself across has made her a little glassy-eyed on any other subject. Talk to her about you or anything else, and her mind wanders.

You would have about as much chance walking with a jesterbug as you would have getting her to discuss any topic calmly, quietly, and at length. She doesn't want to exchange ideas—she wants only one thing from conversation—to impress the other person.

If she has gone in for the feminine role, and prides herself on it, she will be sweet as pie socially. But it is the kind of sweetness that is dished out as generously to those she secretly despises as to the persons who have been friends to her.

UNHAPPY, BUT CLINGS TO JOB. SHE isn't really happy in her role. At least she doesn't look happy, and she is forever talking about "getting away from it all." But she wouldn't give up her place for anything on earth.

Usually there is an unhappy romance in her life. Somewhere she let the ambition and drive that have made her a success mess up her romance.

PARENTS are making a big mistake. In a pushing, shoving, crowding world, they are bringing up their children to be modest. And modesty is a virtue that only the man or woman who is a recognized genius, or who has made his mark can afford. In a set-up where there are more

people than jobs, modesty is a terrific handicap. It isn't even called modesty any more—it is called an "inferiority complex."

MODESTY IS OVERTERATED VIRTUE.

HOW modesty ever came to be regarded so highly in a competitive world is a puzzle. For it isn't a hard thing to achieve—or fake.

In fact, it is much simpler to appear modest, and so not invite competition and criticism than it is to walk cockily and dare the world to get you down. Instead of squelching their children at every turn and holding up modesty as a virtue to them, parents today should try every scheme they know to make their children sure of themselves.

To the sure, society falls flat on its face. To the sure, go the jobs. To the sure, go promotions and opportunities. To the sure, goes respect.

BEWARE MAKING CHILD A "SMART ALECK."

THIS doesn't mean that a child should be made to think that he is a lot smarter, a lot more attractive, a lot more capable than he is. But he should be allowed to think that he is a little smarter, a little more attractive, a little more capable than he is—not a little or a lot less.

Parents can no longer be satisfied with making their children "nice people." They are also responsible for seeing that the children are capable of doing their share of pushing. Not a pleasant, easy fact to face. But the truth.

LOOK LIKE ONE.

If you have two rather narrow windows close together, your room will appear more spacious if you treat the two windows as one unit, using simple straight hangings at the outer sides, a graceful valance across the top and, if you wish, a single length of material concealing the wall space between.

Coming Events

THURSDAY.

Jolitte Bridge club will meet with Mrs. C. R. Pritch at her home at the Magnolia Park Farm Thursday afternoon at 2:45 o'clock.

Friendship club will meet with Mrs. W. C. Moore, 210 E. Kentucky, Thursday afternoon at 2 o'clock.

Bien Amigos club will meet with Mrs. W. B. Harkrider, 1306 W. Texas, Thursday afternoon at 1:30 o'clock for a dessert-bridge.

Lucky Thirteen club will meet with Mrs. W. N. Cole, 700 N. Marienfeld, Thursday afternoon at 3:15.

Needlecraft club will meet Thursday afternoon at 2:30 o'clock with Mrs. A. W. Wyatt, 515 Holmsley, instead of with Mrs. J. K. Wright as previously announced.

FRIDAY.

Junior G.A.'s will meet at the Baptist church Friday afternoon at 4 o'clock.

Women's Golf Association will meet at the Country Club Friday morning at 8 o'clock for play. A business session is to be held at 12 o'clock and luncheon will be served at one. Hostesses for the day will be: Mmes. R. P. Coats, H. S. Forgeron, G. E. Hall, C. J. Ward.

Child Study club will hold its final meeting of the year in the form of a luncheon in the Blue Room of Hotel Scharbauer Friday afternoon at one o'clock.

Primary department of the Baptist Sunday school will have a picnic Friday afternoon. Children will meet at the church at 2 o'clock and go to Cloverdale Park.

Miriam club will meet with Mrs. Babe Mayfield, 606 N. Big Spring, Friday evening at the usual hour.

Belmont Bible class will meet with Mrs. A. B. Sitckney, 707 W. Tennessee, Friday afternoon at 3:30.

The Episcopal church will hold a parish picnic at Cloverdale Park Friday afternoon at 5:30 o'clock. All Episcopalians, their friends, and friends of the church are invited. For information, those interested are invited to call Mrs. J. P. Butler, phone 650.

SATURDAY

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock. Pictures on Old Mexico will be shown. All children and adults interested are invited to attend.

Russia Studied At Club's Last Regular Meeting

Business and study were combined in the last regular meeting of the club year held by the Twentieth Century club at the home of Mrs. H. D. Dickson, 609 Cuthbert, Tuesday afternoon.

Announcement was made that the club program for next year will be a miscellaneous study on "A More Abundant Life."

Mrs. Oliver Haag reported on the organization of a Junior Twentieth Century Study club.

Mrs. Wm. Osborn was elected corresponding secretary for next year to take the place of Mrs. M. L. Weatherall who has resigned because she is leaving Midland.

Mrs. W. L. Simmons was re-instated in the club. Resignation of Mrs. C. T. Vicedallo, who has moved away from Midland, was accepted.

Three new members, Mrs. D. A. Pass, Mrs. R. D. Monkress, and Mrs. L. C. Tennis, were officially welcomed.

Study program for the afternoon was on Russia. Mrs. W. C. Fritz discussed Stalin and the progress he has made for Communistic Russia.

Mrs. A. M. McClure then gave a contradictory report on the dictator, taken from Eugene Lyons' book "Stalin."

Mrs. F. R. Wallace presented some facts on Russian standards of living.

Mrs. Dickson presented reports of the French Intelligence Service on "Why Russia Can't Fight."

Present were: Mmes. Ross Carr, A. M. East, S. M. Erskine, W. C. Fritz, Oliver Haag, Joseph Mims, Wm. Osburn, Jerry Phillips, Ed Reichardt, R. P. Simpson, J. F. Sirdevan, M. L. Weatherall, A. M. McClure, John Redfern, F. R. Wallace, L. Chase, R. T. Wade, R. D. Monkress, D. A. Pass, and the hostess.

Altruists Meet For Bridge at Mills Home

Mrs. John B. Mills, 912 W. Kentucky, and Mrs. Sherwood O'Neal were cohostesses for a social meeting of the Altruists at the home of the former Tuesday evening. Garden flowers decorated the playing room where two tables were laid for the bridge games which formed diversion for the evening.

Mrs. Hugh C. Walker held high score and Mrs. Olin Fryar cut. A salad plate was served to: Mmes. J. R. Custer, Fred Hallman, B. W. Reecer, L. H. Tiffin, Walker, Fryar, Miss Marguerite Bivens, Miss Maudelee Roberts, and the hostesses.

WAKE UP YOUR LIVER BILE--

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go. The liver should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Gas bloats up your stomach. You get constipated. You feel sour, sick and the world looks punk. It takes those good, old Carter's Little Liver Pills to get these two pints of bile flowing freely to make you feel "up and up." Amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 10¢ and 50¢. Stubbornly refuse anything else.

25% DISCOUNT FROM LIST PRICE

"AT THESE PRICES—YOU'RE WISE TO PUT ON A WHOLE SET OF NEW Firestone STANDARD TIRES"

YES, sir! The famous Firestone Standard Tire, choice of millions of motorists for safety, quality and long, dependable mileage—now at a 25% discount from list price.

Here is the only low priced tire made with the patented Firestone Gum-Dipped Cord Body for greatest protection against blowouts. Don't forget that!

It has a deep, tough, rugged tread for long wear—scientifically designed to protect against skidding. Think of that!

And it carries the Firestone Lifetime Guarantee, with no time or mileage limit. Remember that!

Drive in today. At our present prices, you can save money by letting us equip your car with a whole set of new Firestone Standard Tires—the value sensation of 1940!

TRIPLE BY BENITES GIVES COWBOYS WIN; MEET LUBBOCK TONIGHT

Fourth Victory In Row Tabbed Over Gassers

A screaming triple to right field by little Augie Benites, Midland's rookie second baseman, in the eighth inning last night sent one runner home and Augie followed right on his heels on a misplay at third in an effort to catch him out to give the Cowboys a 5-3 win over the Borger Gassers and a clean sweep of the two-game series. It was the fourth win in a row for home team.

The Cowboys will meet the Lubbock Hubbers here for the next three nights. The Hubbers have captured the league pennant for the past two years but this year with a team composed principally of rookies, have been in the cellar most of the time.

Bob Mitchell was the starting hurler for the Cowboys last night and lasted until two men were out in the ninth but gave way to "Red" Hay who retired the one man to face him. For six innings, Bob pitched two-hit ball. In the seventh, he threw a home run ball to Gordon Nell, and then threw one that Tinsley hit back at him, the ball taking a bad hop and catching Bob in the body with force enough that Bob well knew he was hit. He picked up the ball and threw Tinsley out but walked the next two men to face him before he could finally get the third man out. In the eighth, he gave up a couple of runs on a triple, double, single and another hit in the ninth before he was jerked.

The Gassers missed a swell opportunity to take the lead in the eighth when, with three on and two out, Manager Nell tried to steal home. Mitchell got rid of the ball in a hurry and Jim Rowden was waiting for Nell with it when the manager slid home.

The Cowboys were outlast, 6-3, but they took full advantage of seven walks off pitcher Hart. Three of the five runs scored by Midland were made by runners who had walked.

Each team had one man die on base in the first inning, Borger getting one on through an error and Manager Hale doubling in the last half of the frame.

In the second, the Cowboys started the scoring when Jordan walked, moved up to third on a single by Ward and scored as Benites was forcing Ward at second. Rowden walked but Mitchell hit one back to the pitcher and Benites was out in home as he tried to catch the Borger catcher napping.

That was all the scoring until the fifth when the Cowboys pushed across two more runs. After Mitchell had been retired, Burris got a Texas Leaguer single into right, moved up to second on a passed ball and moved up to third on another passed ball as Naranjo was walked. Ruble stole second and scored behind Burris when Hale got his second double.

Nell's mighty home run in the seventh gave the Gassers their first tally. In the fourth, Nell hit one that Kirby Jordan backed against the fence in the deepest part of center field to catch but there was no chance to catch his home run ball. It was far over the left field fence. The Gassers tied it up in the eighth, "Tex" Chandler, who was released by Midland yesterday and signed by Borger, got a

triple to right center after one man was out. Bobby Decker hit one that went for a double when Ward got to the ball but could not hold on to it. Chandler scoring. Short was out on an infield grounder but Nell singled to send Decker home. Tinsley was then safe when Jordan dropped his high fly in center. Nell holding up at second. Bell was then given a base when Rowden tipped his bat, putting three on, but Nell was out trying to steal home.

The game was won in the eighth. Scaling started it off with a walk. Jordan flew out to center. Ward struck out with Scaling stealing second on the third strike. Benites then came to bat and with the count one and one on him hit a curve on a line that rapped the fence in right center. Augie slid in to third but when Decker's relay to third was high and over Williams' head the Cowboy second sacker jumped to his feet and raced home before the ball could be thrown in.

Williams led off the ninth for the Gassers with a double but Reynolds struck out and pinch hitter Gresson grounded out weakly to first and it appeared Mitchell would get out unharmed. However, after he had thrown two balls to Chandler, he was pulled and Hay took over. "Red" promptly threw a couple of called strikes, a ball, and then one that Chandler skied out behind second. Burris was under the ball and waited for it as it came down.

Manager Hale and Benites accounted for all the Cowboy runs with two hits each. The skipper drove in two and scoring another, Nell, as usual, counted for two of the runs scored by the Gassers.

The box score:

	B	A	R	H	P	O	A	E
Borger	5	1	1	2	2	0		
Chandler ss	4	1	1	2	6	1

This Is NEWS---U. S. C. Likely to Lose National Cinder Crown to Stanford

Once the gun sounds, exploding Clyde Jeffrey away from his marks, it doesn't take the Stanford sprinter much time to hit the tape 100 or 220 yards away.

BY JERRY BRONDFIELD

NEA Service Staff Correspondent

MAYBE this is the open season on champions. It's a little early to tell.

But if you were startled by the Yankees floundering around at the bottom of the American League, wait'll we tell you that the Southern California track and field dynasty also is tottering in the throne room.

Although the U. S. defeated Stanford in a dual meet a short while ago, the Indians are the best bet to relieve the Trojans of their National Collegiate title since well, since Troy first started making it a one-team show. Which is more years ago than most folks can remember.

The all-around strength of U. S. C. makes Dean Cromwell's leads the greatest dual meet team in the country and it was this balance—a preponderance of second and third places—which beat the Cards at Los Angeles.

INDIANS EASILY CAN TAKE FOUR FIRSTS

BUT the Nationals at Minneapolis in June stacks up like this: Stanford brilliance in individual events, plus the almost certain victories of stars from other schools, equals the

where of Troy.

When Southern Cal gained four first places in the big show a year ago it'll be lucky to grab two this trip.

Stanford, however, is in position to grab four and possibly five firsts: The Indians took nine out of 14 events from the Trojans.

Clyde Jeffrey, current "fastest human," can be tabbed for victories in the 100 and 220, where he can post times of 9.4 and 20.6. Jeff also anchors the 3:10.5 world record-holding mile relay team, which includes Charley Shaw, Ernie Clark and Craig Williamson. There isn't a quartet in sight, that figures to even crowd them at the time.

Paul Moore astounded everyone by turning in a 4:11.5 mile against U. S. C. and he'll stand a lot of beating at Minneapolis.

ANDERSON DOES BIG PART WITH WEIGHTS

THERE aren't many weight men hanging around who'll leave the dais farther than the 156. Jeff big Stan Anderson can do. The hefty tackle can also put the shot a few inches beyond 55 feet, which should establish him as nothing worse than second choice in the Nationals. There's just no beating Georgetown's A. Blozis, who some

Several entries have already been received and more are coming in daily for the City Tennis tournament that will begin here on May 24, club officials announced today.

John Hills is receiving all entries and with other officials of the club will pair off the matches later. Any resident of Midland, whether a member of the club or not, will be allowed to enter the tournament. Following is an entry that may be filled by anyone desiring to enter:

For instance, Don Boydston of Oklahoma A. & M. is good enough to beat out Troy's Johnny Wilson in the high jump. Ed Burrows of Princeton easily should take Southern Cal's Art Reading in the 880, and Ken Dills, Trojan pole vaulter, will have plenty of trouble with Beefus Bryan of Texas. And Fred Wolcott of Rice is more than a match for the U. S. C. hurdle brigade.

Those were the events in which the Trojans showed most of their superiority over Stanford. So you can see how everything adds up for Troy's downfall.

Entries Piling Up For Tennis Tourney To Start on May 24

Several entries have already been received and more are coming in daily for the City Tennis tournament that will begin here on May 24, club officials announced today.

John Hills is receiving all entries and with other officials of the club will pair off the matches later. Any resident of Midland, whether a member of the club or not, will be allowed to enter the tournament. Following is an entry that may be filled by anyone desiring to enter:

For instance, Don Boydston of Oklahoma A. & M. is good enough to beat out Troy's Johnny Wilson in the high jump. Ed Burrows of Princeton easily should take Southern Cal's Art Reading in the 880, and Ken Dills, Trojan pole vaulter, will have plenty of trouble with Beefus Bryan of Texas. And Fred Wolcott of Rice is more than a match for the U. S. C. hurdle brigade.

Those were the events in which the Trojans showed most of their superiority over Stanford. So you can see how everything adds up for Troy's downfall.

New Champ—New Money

Happily surveying a check for \$9,711, the biggest fistful of cash he's held in a long, long time, if ever, spidery Lew Jenkins, the Sweet Swatter of Sweetwater, Tex., contemplates the joys of being lightweight champion after kayoing Lou Ambers in the 3rd round of recent title bout in New York.

brother, Dick, who broke in last year as an outfielder with Springfield, pointing toward a fly-chasing job with the St. Louis Cardinals.

Bucky Harris declares rookie Jimmy Pofahl is the best defensive shortstop Washington has had since Roger Peckinpaugh. Joe Cronin has appointed Jimmy Fofahl field captain of the Boston Red Sox, a job that carries \$600 in extra pay.

Tot Pressnell, Brooklyn knuckleball ace, arouses mixed feelings in the chests of his home town fans when he pitches for the Brooklyn in Cincinnati. His fellow-citizens ran a special train and gave Tot a gold watch last summer, but the home town, Findlay, O., is only 40 miles from Cincinnati and crammed with Red roots.

The New Covenant Presbyterian team of the Louisville Church League can boast this year of being the only church team in the United States with a couple of graduates playing key infield spots on major league teams. Billy Herman, Chicago Cubs' second baseman, starred for the Covenanters about 10 years before Peeewe Reese, now with Brooklyn, stepped from their shortstop position to the Louisville Colonels.

BLENDED 33 TIMES TO MAKE ONE GREAT BEER

IT TAKES 33 SEPARATE BREWS TO MAKE A SINGLE GLASS OF THIS DELICIOUS BEER!

As thousands of beer lovers set down a cool, clear glass of Pabst Blue Ribbon, they say: "Gosh, how do they do it?"

Well, one swift answer is . . . 33 Blends! . . . Not one, or two, or five, but 33 separate "brews" from 33 separate kettles!

Each brew is as fine as choicest ingredients and Pabst's 96 years of experience can make it!

But brewing is a natural process, and Nature never yields two brews that are exactly alike even with the same formula and strict scientific control. That's why Pabst goes to so much extra work and expense to bring together 33 separate brews in perfect blend—dictated by the Blue Ribbon formula.

As in the finest champagnes, coffee, tobacco, it's expertly balanced blending that gives Blue Ribbon its unvarying goodness. The result is: America's Premium Beer . . . with a smoothness that is unique . . . and a taste that is always the same.

Sometime today, have the pleasure of meeting Blue Ribbon.

It's the BLEND that betters the Beer
Pabst Blue Ribbon
and Prove it

First in the Homes of America—and the Largest Selling American Beer in the Rest of the World!

Youth Leisure To Be Utilized

STATE COLLEGE, Pa. (UP).—The Federal Works Project Administration will undertake the biggest leisure-time program for children in its five-year history this summer when it launches a statewide project in Pennsylvania to smash juvenile delinquency "and preserve faith in America."
 During the 10 weeks from the close of school in June to the reopening in September trained WPA leaders will be assigned to more than 1,000 playgrounds in the state, supplementing undermanned staffs in local communities and instituting recreational programs in towns which have none.
Athletes to Participate.
 These recreation leaders, including among them unemployed musicians, circus men, cabinet makers, and former college football stars, will teach the vacationing school children how to make use of leisure time and how to keep out of mischief.

Farm Interest On Mortgages Down Sharply

By FRED BAILEY
 United Press Staff Correspondent.
 WASHINGTON (UP).—Farm mortgage interest charges of approximately \$357,000,000 last year were the lowest in 23 years, according to a survey made by the department of agriculture.
 The comparatively low figure was due in part to lower interest rates and in part to a reduction from \$11,000,000,000 to \$7,000,000,000 in the farm mortgage debt, the department said.
 The average interest charge on farm mortgages has been reduced to about 5 per cent, compared with 6 1/2 per cent 20 years ago, the survey disclosed. The Farm Credit Administration loan is 3 1/2 per cent.
Foreclosures Once Heavy.
 The reduction in the farm mortgage debt was due largely to more than 200,000 farm foreclosures during the depression. Payments on principal during 1937, 1938 and 1939 reduced the principal still further, officials said.
 In 1938 and last year approximately \$1 out of every \$22 of cash farm income was needed to meet interest charges on mortgages. The highest percentage was in 1932, when \$1 out of every \$9 was required to pay mortgage interest.
 Interest charges last year were only slightly more than half the all-time record of \$80,000,000 in 1932 when the record indebtedness was estimated at \$11,000,000,000. The debt was \$9,631,000,000 in 1930.
 The department said that since about one-third of the farms in the country are mortgaged, it was probable that mortgage interest during the past two years was about 12 to 15 per cent of the cash income on those farms.
Interest Scaled Down.
 Interest charges to borrowers from the Federal Land Banks and the Land Bank commissioner were scaled down approximately 28 per cent in the past two years, the department said. That resulted in an estimated saving of \$39,000,000 a year to borrowers.
 Approximately one-third of the total farm mortgage debt is held by the Federal Land Banks and the Land Bank commissioner. Approximately 25 per cent of the borrowers from those two semi-federal agencies are now in default for one year or more on interest payments, it was shown.
 Farm Credit Administration officials estimated that the land banks and commissioner now have more than 250,000 delinquent loans. Many of those are behind on principal payments as well as interest payments, officials said.

continue the program through the winter, they will be urged to organize self-governing bodies, patterned after projects like Pittsburgh's "Hill City," where youths run their own model communities to encourage leadership and respect the law.
 Similar projects are under way in New Kensington, New Castle and "The success of our activities during the past few years in reducing juvenile delinquency and encouraging communities to expand their recreational facilities," explained Luther D. Grossman, state assistant WPA recreational supervisor, "shows that a well-coor-

College Gives Lighting Guide For Home Use

AMHERST, Mass. (UP).—A man needs as much light for shaving as his wife does for powdering her nose but their son studying his lessons requires twice as much. If noted, statewide program can do an even better job and build up at the same time a generation of Americans thankful for the opportunities accorded them."

the wife takes up the family mending, the amount of light should be tripled.
 Thus advises Mrs. Harriet J. Haynes, home management specialist at Massachusetts State College, in a better lighting campaign. She reports from her research that prolonged sewing requires 50 to 100 foot candles of light, or approximately the illumination shed by a 60 watt lamp at a distance of one foot.
 For the children's study table, Mrs. Haynes suggests 20 to 50 foot candles of light. And to illuminate those daily attempts at facial beauty and dressing table should have 10 to 30 foot candles.

"Good lighting should be adequate, glareless and even distributed," says Mrs. Haynes. "In a well-lighted home, there are on exposed bulbs, and the light is diffused by bowls, globes and shades."
 To get "your money's worth in light, she recommends selecting inside frosted bulbs of the proper voltage for the home, and keeping them clean. "The thrifty home manager will use open-top shades with white or near white linings. She will keep the diffusing bowls clean. When she has the walls done over, she will remember that white reflects 80 per cent of the light."

Prairie Lee to Have Closing Programs on Thursday and Friday

Closing exercises of the Prairie Lee school will be held on Thursday night and Friday night of this week.

The Thursday night program will be presented by the intermediate grades and will consist of the following numbers:

- "A Welcome" — Vanda Dunn
 - "Rainbow's End" — Third, fourth and fifth grades
 - Piano solo — Evelyn Ware
 - Reading — "Hard Luck" — Billie Ray Bizzell
 - Play — "Have I Taken Poison?" — Fourth and fifth grades
 - "A Boy's Lament" — Johnnie Max Harris
 - "Novelty Number" — Lavada Crudup, J. C. Skelton, Reta Livingston, Forrest Harris, Billie La Jean Pig
 - Play — "Hands Up" — Fifth and sixth grades.
- Musical numbers will be presented by Billie La Jean and Valda Dee

Pigg and Lavada and Avalene Crudup. The seventh grade graduation exercises will be held on Friday night and the primary room and upper grades will present their program the same evening.

The following students will be graduated from the grammar grades: Helen Ruth Harris, Gladys Lay, Lillie Rose Meissner, Vivian Harris, Robine Sells, Avalene Crudup, Billie Patterson, Doris Preston.

Students of the school had a werner roast at Cloverdale Park Saturday night.

Standardized Tests. Pupils have taken their final standardized test and all other requirements for standardizing the school have been met. Miss Sue B. Mann is expected to arrive in a few days to make a final scoring for the school. Mrs. Blanche Alcorn of Stokes and Prin. F. L. Bass of Valley View gave the tests.

Trustees of the Prairie Lee school met Monday night for the purpose of discussing the purchase of a new bus for another year. It was decided to purchase a new chassis for the old bus and to repair the body of

the bus. No final decision was made as to the make of truck to be used.

COOP OFFICERS. Midland County Cooperative Society met Saturday night for election of new officers. The following were chosen: President, A. M. Stanley; vice-president, J. C. Miles; secretary, W. E. Pigg; directors, A. W. Wallace, C. Fryer, Terry Elkin.

Date of the annual meeting was changed from first Saturday to second Saturday. The regular meeting date is on the second Saturday in each month.

Jack Taylor was seriously burned Sunday while filling a truck with gasoline. The car backfired, causing the explosion. The boy is in a Midland hospital.

Films of Mexico Will Be Shown

Films of Old Mexico will be shown at the Story Hour in the children's library, Saturday morning at 10 o'clock, it has been announced.

Because of the widespread interest in the Southern Republic, the sponsors of the Story Hour urge all adults who wish to see something of the land below the Rio Grande to attend the show, along with all children.

Mrs. W. Bryant, Story Hour director, will discuss things the would-be traveler in Mexico should know before entering the country.

Dutch--

(Continued from page 1)

threatened "with complete annihilation," in the words of General Winkelman.

The great petroleum stores, both in the eastern part of the harbor and the depot of the Batafische Petroleum Company and at the western end in Petroleum Haven, were fired by order of General Winkelman. Shortly before noon, there were several explosions and a huge column of black smoke and flame billowed into the sky.

The German armies, or at least their "elite" platoons, have circled below the nation's vaulted main line of flood water and gun defenses and have come up behind, crossing the great bridge over the Hollandsch Diep, southern North Sea inlet on the lower west coast.

(The Diep, according to military plan, was to have formed the southwestern flange of the water line, but the fact that the great bridge was not destroyed made it impotent as a defense for western Holland.) These columns were swarming on burning Rotterdam. Parachute troops and seaplane transports first struck at Rotterdam last Friday, and the fighting in and outside that great seaport had been continuous.

The Hague, seat of government abandoned last night by queen and cabinet, is but 15 miles northwest of Rotterdam. To the north, at the eastern end of the 16-mile dyke and motor road which runs across the outlet of the Zuider Zee and connects the two northern peninsulas of the country, the German were attacking. Last night they assaulted the dyke after an hour's shellfire, but were repulsed.

Should the Germans cross the dyke to De Oever, they would be less than 40 miles due north of Amsterdam, with virtually open country between.

The Dutch themselves had set their Amsterdam oil stores afire earlier in the day to keep Germans from getting them.

General Winkelman, in ordering cessation of resistance, told his

Convention--

(Continued from page 1)

The mayor announced that Attorney Joe Mims would make a 15-minute address Sunday afternoon at 1:15 on Americanism in observance of Citizenship Day.

President Claude O. Crane announced the state Lions convention would be held in Sweetwater on May 26-27-28 and urged Midland members to attend if it were possible. Crane also praised members of the club for successfully holding district 2-T convention here and asked a rising vote of thanks to Bill Collyns, who directed the convention. After the vote was given, Crane proposed that a committee be named to purchase a gift for Bill in appreciation for the work done by him. This was unanimously acted upon.

Collyns told members of many compliments received from visiting delegates upon how the convention was carried out and called upon committeemen Clint Myrick, Thad Steele, Butler Hurley, Jno. P. Butler, Geo. Phillipus and Berte Haigh for short talks. All expressed thanks to members of the club and to other citizens of Midland for cooperation in staging the convention.

Collyns then announced the Midland motorcycle that will journey to Big Spring Friday for the West Texas chamber of commerce convention, urging Lions to become members of the motorcycle. He also made a plea for all members to aid in completing the census count in Midland this week, urging all to be sure that everyone in their home had been enumerated.

Wm. H. Hester, Delbert Downing and Wilburn Page were voted new members of the club. Visitors were Green Dugan, Abilene; Bill German, Jess Rodgers, Luncheon was served by ladies of the First Methodist church.

Oil News--

(Continued From Page One)

county, is drilling at 4,653 feet in line.

Magnolia Petroleum Company No. 1 Mallett Land & Cattle Company, one-half miles northeast of an east extension producer in the Duggan pool of southeastern Cochran county, is drilling at 2,470 feet in anhydrite. Driller logged anhydrite top at 2,321 feet.

In southwestern Gaines, Richmond Drilling Company Mascho Oil Company and W. P. Hansgan No. 1 G. R. Brumley et al will drill plug tomorrow from 10 3/4-inch casing cemented at 314 feet with 200 sacks. Total depth is 323 in red rock.

Ordovician Test To Core

In the Apco pool of northern Pecos, which produces from the Ellenberger, lower Ordovician, Childress Royalty Company Joplin, Mo. No. 1-B Masterston is drilling at 4,450 feet in lime and will start coring tonight.

Southeastern Ward's closely watched Ordovician test, Gulf Oil Corporation No. 5 Wristen Brothers, had reached depth of 7,058 feet early today.

IS DISCHARGED

Jimmie Midkiff, son of Mr. and Mrs. Hunter Midkiff, was dismissed today from a Midland hospital where he had been treated for injuries received in an accident when a chicken coop struck him on the head.

Roosevelt and Taft Get Ohio Delegations

WASHINGTON, May 15 (AP) — President Roosevelt and Senator Taft (R-Ohio) picked up Ohio's delegations to the Democratic and Republican national convention Tuesday while West Virginia elected uninstructed delegates.

Ohio will have 52 votes in each national convention. Of the 524 delegates chosen so far to the Democratic convention, 481 are committed, by pledge or by expression of preference, to support a third term. There will be a total of 1,094 votes in the convention.

The Ohio delegates were pledged nominally for Charles Sawyer, national committeeman, as a "favorite son" but were bound to support the President if he runs.

Before the Ohio primary Taft had only two delegates—from North Carolina—formally pledged but his supporters claimed uninstructed supporters in a number of states. The Republicans now have selected

702 of their 1,000 delegates.

There was no presidential preference but the CIO tested its political strength in West Virginia and old-age pension advocates sought to nominate a senatorial candidate in Ohio.

The CIO supported Senator Matthew M. Neely for governor and Judge Harley M. Kilgore for senator in the West Virginia democratic primary, which was featured by a feud between "statehouse" and federal factions of the party.

By Associated Press.

West Virginia's "baby senator" of 1934, Rush D. Holt, trailed two opponents today in returns from Tuesday's democratic primary. Holt as one of the anti-new deal senators.

Ohio voters will make their senatorial choice in November between Mayor Harold Burton of Cleveland, republican, and John McSweeney, democrat.

Midland Teacher to Work for Sorority

Miss Norene Kirby, English teacher of Midland high school, has been chosen a member of the field staff of Beta Sigma Phi, cultural

and social sorority for young women, and in this capacity will organize in Northeast United States chapters of the sorority in Northeast United States this summer. Exact locale in which she will work has not been made known to Miss Kirby but she has been asked if she would like to work in New England. Her address at headquarters will be: International Beta Sigma Phi Offices, 3525 Broadway, Kansas City, Mo.

Two Arrests Made in Cattle Stealing Ring

CLOVIS, N. M., May 15 (AP)—Officers Tuesday announced the arrest of two brothers alleged in complaints to have shipped rustled cattle to markets in several states.

State ronce Captain Roy Vermillion revealed W. R. Bussell, 39, of Friona, Texas, was jailed here on complaints filed in Clovis, Tucuman and Hereford, Texas.

In custody at Lubbock, officers said, was Bussell's younger brother, 24-year-old J. M. (Mike) Bussell.

Several hundred head of stock, alleged to have been stolen, were traced to sales rings, ranches and feed lots in Texas, Kansas, Oklahoma, California and Iowa. Some 90 head were traced through one sales ring in Lubbock, Vermillion said.

RETURNS HOME. Mrs. Jeanette Whitmire has returned to her home here after having undergone treatment in an Odessa hospital.

"I COMPARED OLDS WITH CARS COSTING LESS— FOUND I COULD GET NOT ONLY MORE SAFETY, BUT MORE SIZE, STYLE AND COMFORT IN OLDS —AND AT VERY LITTLE DIFFERENCE IN PRICE!"

TALK about safety! The small extra amount you pay for an Olds "60" brings the greatest array of safety features ever—including Unisteel Body by Fisher, Hi-Test Safety Plate Glass, self-energizing Super-Hydraulic Brakes, Dual Center-Control Steering and the extra power and performance of a big 95 H. P. Econo-Master Engine. But that's not all! You get added size, better looks, greater comfort and finer quality. See and drive an Olds "60" today!

\$807 Olds prices begin at \$807 for Coupes, \$853 for Sedans, delivered at Lansing, Michigan. Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice. A GENERAL MOTORS VALUE Help promote safety—dim your lights when passing!
