

Expect France to Quit Fight Friday

SIX SAID SLAIN AS NAZIS BOMB BRITAIN

By THE ASSOCIATED PRESS.
LONDON, June 20 (AP).—A Nazi air fleet authoritatively put at considerable more than 100 planes, dumped hundreds of bombs on England, Scotland and Wales last night and early today in the most extensive air raid of the war on this island kingdom.

At least six civilians were killed and "some sixty" injured, the government announced. It was the second raid in as many days on Britain and, considering the number of bombs dropped, the reported damage was slight.

The Nazis apparently changed their line of attack and aimed more at the individual areas than on Tuesday night, when 12 were killed.

British airmen exacted their toll of the raiders—downing three bombers while other aircraft were, the government reported, wrecking hangars and destroying aircraft on the ground at German-occupied airports in France.

Anti-aircraft fire accounted for another Nazi raider while several others were badly damaged.

Meanwhile, more help has arrived for Britain from Australia and New Zealand. Thousands of fighting Anzacs landed from world-famous liners at a British port, shouting for a "chance at Jerry."

The raids provided a realistic prelude to a secret session of parliament this afternoon on the subject of home defense. Prime Minister Winston Churchill and war minister Anthony Eden were expected to speak.

Last night, 50 members of parliament, representing all parties, drafted for presentation to the session a program which would enroll the

entire population for defense and establish special military units to combat fifth column activities.

Authoritative circles today denied Britain was trying to force Egypt into the war. Rumors to that effect are "most definitely untrue," these circles said.

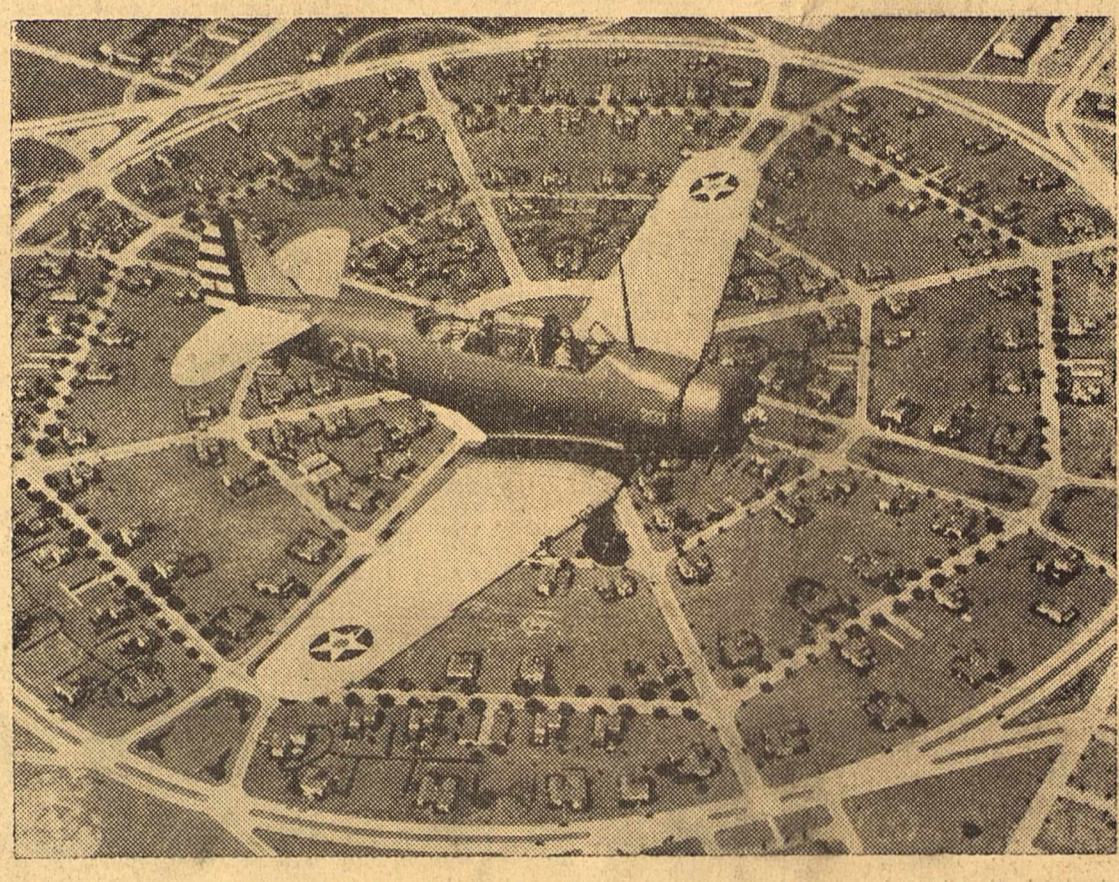

All that Britain asks, they said, is that Egypt execute her military alliance locally and in its spirit, and that anything which would hamper British military operations be discouraged.

Four new age groups will be registered in July under the speed-up enlargement of the British armed forces, the government informed the house of commons today.

Reuters, British news agency, in a dispatch from Jibuti, French Somaliland, said revolts against the Italians were beginning in each province of Ethiopia.

The Netherlands government in exile ordered its nationals between the ages of 20 and 26 throughout the world today to register with Netherlands diplomatic representatives for military service.

More Wings for the Army

High over Randolph Field, Texas, soars a basic training plane manned by a flying cadet and instructor. In addition to the giant training center at Randolph Field, two other training schools will soon be established, one in California, the other in Alabama. The Army Air Corps plans to produce annually 7,000 of the world's best trained pilots from these schools.

Perfect Defense to Be Built by U. S., Connally Declares

DALLAS, June 20 (AP).—Senator Tom Connally of Marlin envisions an "invulnerable and unconquerable" United States when its defense program is complete—but the people of this country must make "tremendous sacrifices of money and comfort" to make it so.

Connally suggested that after passage of a temporary tax bill that congress get to work in a measure "reconstructing and revising the entire federal tax structure."

He sent a statement to the Dallas Times-Herald today saying in part: "The United States is concerned with the security of the entire western hemisphere from alien or foreign influence. On June 17 the foreign relations committee, of which I am a member, secured passage through the senate of a joint resolution giving statutory reaffirmation of the Monroe Doctrine and serving notice on the world that the United States government will neither tolerate nor permit the transfer of title of any foreign lands in the western hemisphere from one non-American power to another non-American power."

"This means that she shall prevent by armed action, if necessary, the conquest of any European possessions in the western world, either those of France, Great Britain, the Netherlands, Denmark, Norway or any other powers."

"I favor sending naval vessels to (See DEFENSE, page 8)

15,000 Planes for Navy Approved by House Committee

WASHINGTON, June 20 (AP).—After hearing testimony that 10,000 planes would not be adequate for a proposed two-ocean fleet, the house naval committee recommended today a navy air force of 15,000 planes.

The testimony was given by Rear Admiral John H. Towers, chief of the naval air corps, who recalled that a lately enacted law put a 10,000-plane ceiling on the navy. But that, he reminded the committee, was before a new \$4,000,000,000 expansion of the fleet, designed to give it the size of a two-ocean navy, was projected.

The committee agreed to have Representative Maas (R-Minn.) who first advocated the 15,000 plane figure, offer the necessary legislation as an amendment when the bill providing for the new fleet expansion comes up in the house.

The amendment also would authorize the secretary of the navy to plan for whatever additional aircraft strength changing world conditions might dictate.

Towers testified he hoped a new naval air training base at Corpus Christi, Tex., would be completed in nine months, instead of the year scheduled, and that training would start January 1 at the new base at Jacksonville, Fla. He said training probably would start at Miami, Fla., about October 1.

The navy now has about 1,800 airplanes. Towers told the committee. There are 1,600 others on order, he added, and bids were opened yesterday for an additional 1,000. He said it was proposed to buy ap-

(See PLANES, page 8)

Two Republicans Nominated by Roosevelt for Cabinet Today

WASHINGTON, June 20 (AP).—President Roosevelt took steps today to form a coalition cabinet today by submitting to the senate the nominations of Colonel Frank Knox to be secretary of the navy, and Henry L. Stimson to be secretary of war.

Knox, publisher of the Chicago Daily News, was republican vice-presidential candidate in 1936. Stimson was secretary of state in the Hoover administration and secretary of war under President Taft.

The submission of the nominations was accompanied by a White House announcement—without amplification—that secretary Woodring had resigned his cabinet portfolio, effective on senate confirmation of the nomination of his successor.

White House officials said that Woodring's letter of resignation was "so personal" that the usual custom would not be followed and it would not be made public.

Knox will succeed Charles Edison, whose resignation as navy secretary becomes effective June 24. Edison quit the cabinet job to run for governor of New Jersey on the democratic slate.

The White House made no announcement regarding the two men selected from republican ranks for cabinet positions, other than to make public the fact that their names were sent to the senate.

The question of a coalition cabinet had been debated almost since the beginning of the present crisis in European affairs.

The discussion reached a peak of tension when Knox and subsequently Alf M. Landon, the 1936 republican presidential nominee, visited the White House a few weeks ago. Subsequently White House officials disavowed any coalition intentions and the subject faded.

Today's nominations, therefore, coming only four days before the opening of the republican national convention in Philadelphia, caught Washington unaware and set congressional and political circles abuzz with talk over its bearing on presidential politics.

Both Knox and Stimson, on occasion, have endorsed the administration's foreign policy. Knox has been, for a republican, a relatively frequent consultant of Mr. Roosevelt.

It was he who recently organized civilian committees to promote the program for training 50,000 plane pilots.

Knox is 66 years old. A native of Boston, he served with Theodore Roosevelt's "Rough Riders" in the Spanish-American War. He was overseas in the World War from May 1918 until February 1919, serving in the artillery. He holds his colonelcy in the 356th field artillery reserve.

The 73-year-old Stimson, like Knox, served with the artillery in France. He became a colonel in 1918. Born in New York City, he became a member of the bar in 1891 and after a career in law and politics was secretary of war under President Taft, governor general of the Philippines, secretary of state under President Hoover, chairman of the American delegation to the 1930 London naval conference, and chairman of the American delegation to the 1932 disarmament conference. Through letters to newspapers and otherwise he has been a supporter of Secretary Hull's policies in the state department post he once filled.

In his most recent public utterance Tuesday night Stimson urged the immediate adoption of "a system of universal compulsory training and service which would not only be the most potent evidence that we are in earnest but which is at the present moment imperative" (See CABINET, page 5)

"Reprisals" Against England Are Started by the Germans

By The Associated Press.
BERLIN, June 20 (AP).—German military might surged further over France today, engulfing Brest on the Brittany coast and Lyon near the Alpine frontier, even as contact was made with French peace emissaries and an aerial blitzkrieg was launched against England.

Significantly, the German high command declared that its air force "now has begun reprisals against England."

It reported capture of Brest, a port of entry for thousands of American doughboys of 1917-1918, but it remained for the French to acknowledge occupation of Lyon, their third largest city.

A snow-white plane carried the French envoys to an undisclosed meeting place behind the German lines to receive the German price for peace.

The word that General Charles Huntziger, Leon Noel, former French ambassador to Poland, Vice Admiral Leluc and Aviation General Bergeret had been named by the French government to receive the terms was relayed through Spain.

The message reached the German government at 1 a. m. (5 p. m., Wednesday, CST) and was relayed to Adolf Hitler three hours later.

"The high command of the Ger-

man forces thereupon gave the necessary instructions immediately and made preparations for receiving the French armistice delegation," said the German announcement. It did not, however, give the time or place for the meeting.

Brest and Lyon were but segments of the German victory across the width of France. Swift-moving columns also crossed the lower Loire river between Nantes, near the mouth, and Tours, erstwhile provisional capital of the French government.

The Reich added more than 200,000 men to its legions of war prisoners, according to the high command's daily communique, and among them was General Altmeyer, commander of the French 10th army. The 200,000 represented yesterday's captives.

The high command pictured the aerial assault on England as payment for night time allied raids on unfortified German towns.

Savoy to Be Occupied by The Italians

Is Area Mussolini Has Demanded From French Government

By The Associated Press
ROME, June 20 (AP).—Italian troops plan to occupy the Savoy regions of France while awaiting the outcome of armistice parleys between France and Adolf Hitler, Italian sources indicated today.

Savoy is one of the regions Italy has demanded from France, along with the city of Nice, the island of Corsica and Tunisia, in Africa.

The military expert of the Rome newspaper Il Tribuna, said the Italian action in Savoy would be "joined" to that of the German army along a line through Lyon, St. Didier and Clermont-Ferrand, which would bring the Germans to the edge of Savoy.

Italy's air power was flung today into operations over a vast zone in the Mediterranean and far down the eastern coast of Africa as Stefani, official Italian news agency, declared that by Saturday at the latest, there will be no more fighting between the axis powers and battered France.

French plenipotentiaries already have met Gerams, said Stefani, and are en route back to Bordeaux, presumably with harsh Nazi terms for peace in their hands.

The Italian high command declared its widespread air raids had caused great damage at many points and had destroyed British tanks in a fight on the frontier between Egypt and Libya.

Italians, said the command, bombed such points as the French Mediterranean possessions, Corsica, and the previously attacked French naval base at Bizerte, in Tunisia.

Acknowledging that her own territory had been bombed on the Ligurian coast and in Sardinia, the Italian news agency reported that British bases at Aden, Zulu, across the gulf of Aden in British Somaliland, Port Sudan, on the African coast of the Red Sea and other points in Sudan and Kenya.

In the sea war, said the Italians, a 2,500-ton French destroyer was sunk by an Italian submarine.

A competent Italian source indicated that axis peace terms would be presented to France on a "take it or leave it" basis.

Fascist circles considered it probable France would be occupied along (See SAVOY, page 8)

INTERNATIONAL AT-A-GLANCE

By THE ASSOCIATED PRESS.
ROME.—French armistice set for tomorrow or Saturday at latest, official Italian news agency says. France's envoys returning to Bordeaux, but dispatched from Geneva simultaneously, gave the first hint that the German mechanized machine has begun to wear out and falter.

Nevertheless, under dwindling French resistance, Hitler's armies swept further down into France, the high command announced.

Brest, French Atlantic port below Cherbourg, where the American expeditionary force landed (See TERMS, page 8)

LONDON.—Six civilians killed, 60 injured in most widespread air attack on Britain; at least three German raiders downed; three towns damaged; British bombers raid into German territory; parliament meets in secret war session; revolts against Italians reported in Ethiopia.

GENEVA.—French aircraft and troops from Africa said to have crossed Mediterranean to bolster defense of southern France; German mechanized units reported wearing out.

MEXICO CITY.—Cardenas reported authoritatively to have approved plan to quadruple Mexican armed forces with help from U. S.

TOKYO.—Japan announces lifting of Tientsin blockade under signed agreement with Britain and France; press takes on sharper tone on French Indo-China munitions traffic from China.

WASHINGTON.—See closer United States-Mexican relations result of European war.

At sea, the high command said, two motor torpedo boats destroyed a 4,000-ton steamer close to the English channel coast, a submarine sank a tanker of 8,000 tons and another "succeeded in shooting" three ships in convoy.

As against allied losses of 21 planes yesterday, the command said, six German planes are missing.

As a symbol of Germany's command of the French frontier region once protected by the Maginot line, the Reich's war flag was said to be flying from Strasbourg Cathedral while to the south a union was reached between German troops in the Belfort region, at the end of the Maginot line, and their comrades from across the Rhine.

Entrapped remnants of the French eastern army in northern Lorraine were said to have been "pressed together even tighter in the region

TERMS HEARD BY COMMISSION

By THE ASSOCIATED PRESS.
Hostilities between France and the axis armies are expected to cease Friday—or Saturday at the latest—the official Italian news agency reported today, asserting that French plenipotentiaries have started back to Bordeaux with the terms dictated by Hitler and Mussolini.

The place of meeting between the French envoys, who arrived in a snow-white plane "somewhere" in German-occupied northern France, was not given.

Berlin, blaming "the difficulties of news" transmission via Spain, said a French government communication naming France's four peace plenipotentiaries did not reach the German government until 1 a. m. today (5 p. m., C. S. T., Wednesday).

"It could be transmitted to the Fuehrer only at 4 a. m.," the broadcast said.

"The high command thereupon gave the necessary instructions immediately and made preparations for receiving the French armistice delegation."

Hitler's high command meanwhile announced the fall of Lyon, France's third largest city, and the capture of more than 200,000 prisoners, including General Altmeyer, commander of the 10th French army.

Fifty thousand French Poilus from the eastern Maginot line surrendered their arms this morning

BORDEAUX, France, June 20 (AP).—Informed observers say the word from Adolf Hitler which will govern France's action toward or against an armistice and peace is expected sometime during the night.

to Swiss soldiers and poured across the Swiss frontier.

Waves of German planes, attacking from midnight to dawn, rained new death and destruction on England in the opening phase of the "battle of Britain."

But the German radio, in a cryptic report, declared that "members of the French government are not at all agreed on the question of laying down arms"—lending credence to unconfirmed reports that France has learned the gist of the axis terms, found them too harsh for the nation's honor, and resolved to fight on.

These reports said President Lebrun and members of his government were ready to flee to Algiers, North Africa, to carry on the war from there, even if German troops capture all France.

The French admitted Nazi troops have occupied Lyon, rich industrial city, 300 miles south of Paris, but dispatches from Geneva simultaneously gave the first hint that the German mechanized machine has begun to wear out and falter.

Nevertheless, under dwindling French resistance, Hitler's armies swept further down into France, the high command announced.

Brest, French Atlantic port below Cherbourg, where the American expeditionary force landed (See TERMS, page 8)

"Drastic" Cut In Allowables Are Scheduled

By The Associated Press
AUSTIN, Tex., June 20 (AP).—A majority of the Texas railroad commission today ordered all Texas oil fields shut down on June 28 and 30, slashed 17,110 barrels daily from the allowable of certain southwest Texas fields, and stipulated five general shutdown days in July and August.

The order was said by members Jerry Sadler and Ernest O. Thompson to be the solution to the problem of overproduction and further loss of foreign markets.

Sadler estimated the two June shutdown days with the slash in southwest Texas output, effective Saturday, would result in a net daily average statewide production of 1,115,000 barrels. The U. S. Bureau of Mines recommendation for June production in Texas was 1,344,000.

The officials said the five shutin days each for July and August applied to the East Texas field which otherwise would have been closed 14 days each month. This will result in an estimated daily average production in East Texas of 425,000 barrels compared to a current 380,000 barrels.

The conference followed yesterday's announcement by Commissioner Jerry Sadler that production in the giant East Texas field would be (See ALLOWABLES, page 5)

Potash Fields Of Area Will Be Exploited

WASHINGTON, June 20 (AP).—The government may turn to that section of West Texas just north of Midland and Odessa for a good share of its future supplies of potash, a mineral vital to both war materials and agriculture.

When the World War broke out this country faced a serious problem in a severance of its European sources, for domestic fields were little known at that time.

The bureau of mines conducted explorations during the 1920's and discovered vast deposits of potash-bearing ores in West Texas and New Mexico.

Because of the low production costs in Europe, supplies in this country were not vigorously developed. At present the principal domestic production is in New Mexico and California.

A bureau of mines official said that with the outbreak of war last September, importations from Germany were stopped. From that country had come a large part of the potash used here in the manufacture of fertilizers.

With the huge armament program getting under way there will come increased demand for the mineral.

Here recently in conferences with war department officials was Capt. E. H. Simons, manager of the El Paso Chamber of Commerce. With Representative Ewing Thomson of El Paso, he urged that the department spend part of the \$50,000,000 provided in pending national defense legislation for the acquisition of strategic minerals in the development of the West Texas potash deposits.

They informed the department that ample warehouses were available in El Paso for the storage of potash, and other vital minerals and metals that might be produced in that area and held for use in emergencies.

Little International Oil Exposition Headlines Permian Basin Convention

ODESSA, June 20.—The most complete showing of oil field equipment in the Southwest this year will be seen in Odessa on Friday and Saturday, June 21-22, announced Jerry W. Debenport, general chairman of the Permian Basin Association Convention and manager of the Odessa Chamber of Commerce.

More than sixty (60) national supply and equipment companies have installed exhibits in the exposition building and on the grounds at new Floyd Gwin Park. Originally started as a showing of local oil equipment firms, the Little International Oil Exposition has more than doubled in size from the first plans.

Firms from Huntington, California, Oklahoma City and Tulsa have called and wired M. L. Atkinson, exhibit chairman, for exhibit space.

Permian Basin citizens and the hundreds from other parts of Texas and New Mexico who have signified their intentions of attending the Oil

Show and Convention will view the latest in oil field machinery and equipment. Value of the exhibits on the grounds of the Oil Show will be in excess of half a million dollars, Atkinson reports.

A feature of the Little International Oil Show on Saturday afternoon at one o'clock will be the giant anti-air parade through downtown Odessa of oil field equipment, rigs, swabbing units, pipe line crews, and trucks of all types and descriptions.

The Tucker Twins of Winters, Texas, Sweethearts of the Lions International, and guests of the Lions Club at the International Convention in Havana, Cuba, will be featured entertainers for the exposition and convention.

Four dances and a big barbecue are free to holders of the convention badges, of which more than two thousand have already been sold to Odessans.

Interpreting the War Today

Hope Seen for Next German Opponents In Wear and Tear on Nazi Machinery

BY DEWITT MacKENZIE
Associated Press Writer

Herr Hitler's seeming slowness in dealing with France's request for armistice terms has permitted the Nazi army to continue smashing at the exhausted French forces and overrunning still further important territory and cities.

Fascist circles in Rome rather let the cat out of the bag this morning when they said that virtually complete occupation of France by the German and Italian armies was probable before the French were handed the axis terms. That naturally puts the screws on the unhappy French government.

The reason for this maneuver needn't be sought far. Indeed, the German radio today unconsciously summed the thing up for us very neatly in a broadcast picked up in London. This stated that "members of the French government are not all agreed on the question of laying down arms."

That likely is true, and it is equally probable that many French people are dead against surrender. They would prefer to fight it out. This being the case, it won't be surprising if some French elements continue the struggle in cooperation with the British, no matter what the French government may feel forced to do.

The German operations seem to me to indicate that they are straining every nerve to race down the valley of the Rhone and make junction with the Italian forces somewhere in the Marseilles sector on the Mediterranean. This would be calculated to give control of the most important ports of the country. The Nazis are reported to have occupied the great industrial city of Lyon on the Rhone in the first drive.

In connection with this battle for the Rhone valley it is interesting to note a report from Geneva which says that the Nazi mechanized army is showing signs of wear and tear—isn't the same dashing machine which cut the allies to pieces in Flanders. Refugees say that scores of worn-out tanks and armored cars have been abandoned along the road.

Well, the Nazis still have all the power they need to continue lashing at France. The wear and tear on the German war-machine will be of great interest, however, to opponents who still have to deal with it.

British minister of information Duff Cooper, for instance, last night declared that the English had only to hold off the invader for a few months before the tide would turn in the allies' favor.

While all this has been forward, the Berlin press has started to direct the attention of the public toward Britain, with the cry "England is next."

In fact, the battle of Britain already is in its initial stages.

The Germans last night conducted the most widespread air raids they ever have attempted over the island, bombing England, Scotland and Wales. Some half dozen civilians were killed and sixty injured.

The significance of this raid lies in the fact that it demonstrates the ability of the Germans to reach most parts of the country from their new air bases along the English channel and north sea.

A terrific assault on Britain by air seems imminent. Last night's

U. S. Navy Bases in Latin-America May Be Asked of Nations

By The Associated Press
WASHINGTON, June 20 (AP)—Establishment of Latin-American bases for the United States navy, a usually well-informed source said today, may be one of the subjects raised at the projected Pan American conference of hemisphere problems of military and economic defense.

Both aircraft and fleet bases would be involved in any such discussion, this official said. Under Secretary of State Sumner Welles announced yesterday that the government had communicated with all 21 American republics, suggesting that an extraordinary conference be held immediately to consider all problems confronting the hemisphere as a result of the turn of events abroad.

The conference proposal was made known after Secretary Hull disclosed that notes had been sent Monday to Germany and Italy saying that the United States would not countenance any transfer of the British, French or Dutch possessions in the new world to a non-American country.

The matter of navy bases in Latin-American nations, it was emphasized, is still in the discussion stage.

Business Men Get Reducing Chance in Military Stations

SAN ANTONIO, June 20 (AP)—To 300 business men who want to reduce waist lines and think they can take it Uncle Sam offers 30 days in military camp at bargain rates.

The invitation to those between the ages of 25 and 50 was extended yesterday by Col. W. B. Tuttle, civilian aide to the secretary of war for the eighth corps area.

Two hundred will be trained at Camp Bullis, Tex., and 100 at Fort Sill, Okla., July 9 to Aug. 7. A charge of \$25.50 each covers rations and incidentals. The government will furnish uniforms, equipments and quarters.

They'll drill under a broiling southwestern sun and receive instructions similar to that in the Plattsburg camps during the world war.

Applicants "must be civic and business leaders." None will be accepted who is eligible for any existing citizens military training corps courses, a member of the national guard, reserve officers training corps or who is on a retired or pension list of the military or naval reserve.

German Not Surprised At U. S. "Monroe" Note

BERLIN, June 20 (AP)—Authorized German sources said today that the United States' note invoking the Monroe doctrine is in accord with the German conception of "America for Americans and Europe for Europeans."

These quarters said they saw "nothing sensational" in the note, delivered to Germany and other belligerents, informing them that the United States will not countenance any change of territory in the American from one non-American sovereignty to another.

Texas in Navy Drowns In Fall From Destroyer

VALLEJO, Calif., June 20 (AP)—Burl W. Williams, 26, seaman, first class, on the U.S.S. Destroyer Montgomery, drowned yesterday at Monterey Island after falling from the ship while he was working on one of its smaller boats.

Witnesses said Williams' head struck the ship's side as he plunged. He did not reappear, and his body was recovered about 45 minutes later by the navy yard crew and small boat crews from the Montgomery.

Williams enlisted about six years ago at Denton, Tex.

Clarence Scharbauer, who underwent surgery at a Dallas hospital last Friday, is improving steadily, friends here have been advised. Mrs. Scharbauer has returned to Midland for a few days. In a letter to the Reporter-Telegram editor, the Midland cattleman, hotel operator and civic leader said "I think when I get home I can ride em rough and scratch 'em often."

Friends here, knowing his frequent use of that expression, declared that he is feeling near "normal."

Washing, greasing or for flats call Southern Body Works, phone 477.

The Town Quack

It isn't usual that I would begin now to think about my next winter's wardrobe, but I was reading an Associated Press dispatch in which it said an armor plate of steel, combined with a rubber compound, had been found to have ample bullet penetration resistance. I'm interested.

Tomorrow and Saturday are the big days at Odessa. Don't miss the convention of the Permian Basin Association. Our neighbors over there are planning to entertain a lot of people in a big way, and it is hoped that citizens of Midland, headquarters of the association, will appear for the largest out-of-town attendance.

Manager Joyce Howell of Hotel Scharbauer has kindly consented for us to put up a board in the lobby on which will be posted, each day at about 2 o'clock, the market on a long list of stocks in which there is trading. Pending erection of the board, the Scharbauer Cigar Stand has proffered the use of its counter for display of the market report. If you are interested in any stocks at

al, they should be posted there. The paper each afternoon will carry a selected list of principal stocks, but the one posted will have a far wider range. Shortage of space and time, just before press time, keep us from using all of them in the paper.

Sunday will mark the end of our first week with full leased wire service of the Associated Press. Due to the great volume of copy received between 7 a.m. and 3 p.m. each week day, and 4 p.m. to 1 a.m. Sundays, it is up to us to select as far as possible the most interesting news. We hope to improve the paper each day through this facility, without relaxing our effort to cover the local news at the same time. In the latter effort, your help will be appreciated.

It's hard to have an original idea. Somebody on the (AP) wire sent a note to the editors that it had been suggested the United States proposition France to cancel the latter's war debt in exchange for the French fleet. When I mentioned it here I was told that Red Knight had been proposing that ever since the day it appeared France would capitulate.

And Hilary Bedford hit on the idea of urging the department of agriculture to divert range program funds to the cost of national defense. He mentioned it to Roy Parks who said he thought of the same thing but found that Jay Taylor of Amarillo had already been to Washington to propose the same idea, only to be told that this year's appropriation for range work would have to be

French Troops Forced To Enter Swiss Soil

GOUMOIS, France (On The French-Swiss Frontier), June 20 (AP)—The French army of the eastern Maginot line, at least 50,000 strong, surrendered its arms this morning to Swiss soldiers and poured into Switzerland.

Two generals and a large number of officers were among those surrendering. The army attempted unsuccessfully last night to blast a way through the German forces holding the central Jura gate in order to reach the French army of the south. The failure left no alternative but to enter Switzerland.

Lubbock Man Named Commander of VFW

GALVESTON, June 20 (AP)—The Texas veterans of foreign wars closed their annual convention here yesterday, selecting Fort Worth for the 1941 meeting place.

Among officers elected were: Tom H. Carter, Lubbock, commander, succeeding D. A. Dunlavey of Port Arthur; Mrs. Lydia Hays, Port Arthur, senior vice commander of the auxiliary; Mrs. Carrie Olson, McAllen, auxiliary guard; Mrs. Grace Turley, Sherman, auxiliary color-bearer; Mrs. Alberta Robinson, Odessa, auxiliary chief of staff; Mrs. Helen Longshore, Denison, auxiliary Americanism chairman; Mrs. Margaret Barnett, Big Spring, assistant conductress of the auxiliary.

Mrs. Hays also will be membership chairman for the auxiliary. spent as ordered, but that next year a new plan would be considered.

A couple of good ideas are contained in the two preceding paragraphs, no matter who all thought of them.

Why MIDLAND People ARE CHANGING to the modern GAS refrigerator!

Only Servel Electrolux freezes silently with NO MOVING PARTS

Women here and nearby, all over West Texas, who are buying their second refrigerator this year, are turning to the one automatic refrigerator with no moving parts in its freezing system—SERVEL ELECTROLUX! Nothing to wear, nothing to make a noise, now or years from now.

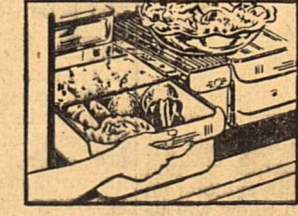

Says Mrs. D. S. KAUFMAN, Abilene, Texas: "After 12 years of daily use, our Servel Electrolux is just as economical, just as silent, and trouble-free, as when it was first installed in our home. A representative of the local Electrolux dealer called on us recently in an attempt to interest us in trading for a late model; but we declined because our old one is still giving us such excellent service."

Isn't that the kind of a refrigerator you want to buy? Come in and see how easy it is to own a new 1940 Servel Electrolux.

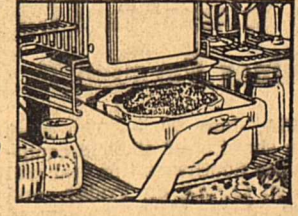

- NO MOVING PARTS TO WEAR in its freezing system
- PERMANENT SILENCE

FEMININE FANCIES By Kathleen Eiland

"The melancholy days are here" so far as the job of a society editor is concerned. By which we mean the summer days when study groups have decided not to pursue education for a while.

For the small daughters of the family who want "something to do" on long, drowsy afternoons, we recommend that harassed mothers look over the material which contains doll dresses printed in various colors, just ready to cut out.

Left to our own imagination, we should never have thought of putting pumpkin into cake. But there is a pumpkin cake, somewhat on the fashion of an upside down cake, with a topping (or is it a base?) of nuts and other things, which we find quite delicious.

One of those things which we've never been able to puzzle out is why it is so unbelievably hard to save money.

We sit down with pencil and paper and figure out nicely just how much should go into the bank this month and how much next month and the month after—all of it mounting up to a tidy little sum.

It's a hard world for the would-be saver with the instincts of a spendthrift. Do we know!

WHO'S WHO in "ORPHAN NELL" By GLADYS SIRDEVAN

THE DRUNK. To say that one character who says nothing—not even one line—in an entire play is an important character perhaps sounds a little untrue. Yet with Walter Wilkinson who plays the part of the drunk in the play, "Orphan Nell," it is true.

Walter Wilkinson, a native of Pennsylvania, has lived in Midland for two years. He is an employee of the Phillips Petroleum Company.

By mounting the two engines at the rear of the plane and using pusher propellers, additional space for armament and crew is provided in a new U.S. Army plane.

"Stomach Distress So Bad I Could Hardly Work" Says C. S. Gross: "After taking Adla Tablets the pains are relieved and I eat anything." Try Adla for excess stomach acidity on our money back guarantee. At your drug store. (Adv.)

Delta Dek Club Meets at Home of Mrs. Zay Kimberlin

Mrs. Zay Kimberlin, 305 N. Big Spring, favored Delta Dek club with a morning bridge at her home Wednesday at 9 o'clock.

Calendulas and zinnias brought summer colors into the party rooms where two tables were appointed for the games.

At the conclusion of play, high score was held by Mrs. Jack Mitchell, second high by Mrs. Roy Leach, and bingo prize by Mrs. Chas. Word.

Refreshments were served during the games.

Playing guests were Mrs. Leach and Mrs. J. C. Williamson.

Members present were: Mesdames Mitchell, Word, Jerard Bartley, John B. Richards, S. M. Laughlin, and the hostess.

Next meeting of the club will be with Mrs. Laughlin.

Personals

Gloria Corryell will leave Saturday for Wewahatche, Florida, where she will visit her cousin, Verre Byrd.

Returning Wednesday night from a trip to Dallas were Mrs. L. A. Denton, her son and his wife, Mr. and Mrs. K. L. Denton of Corvallis, Ore., and their daughter, Alice Louise, who are visiting here.

Miss Yvonne Cook of Ft. Worth has accepted a position in the office of the geological department of the Gulf Oil Corporation. She arrived Monday to assume her duties.

Mary Kathryn Taylor has gone to Waco to visit her aunt. She plans to be away until July 3.

Mr. and Mrs. Elton Hinze of Brownwood are here visiting her parents, Mr. and Mrs. C. E. Strawn. Mr. Hinze is a ministerial student and conducted prayer meeting at the Baptist church Wednesday evening.

Miss Eula Mae Glenn, teacher in Muskogee, Okla., whose home is in Fort Worth, left Tuesday night after visiting her grandmother, Mrs. Martha Jane Nolen, her uncle, W. A. Nolen, and her aunt, Mrs. Frances Parker here for the past week. She may return here later in the summer.

Coming Events

FRIDAY. Women's Golf Association will meet at the Country Club Friday morning at 8 o'clock for play. A business meeting will be held at 12 o'clock and luncheon will be served at one o'clock.

Children's Service League will meet with Mrs. W. T. Schneider, 2000 W. Brunson, Friday afternoon at 2 o'clock.

Belmont Bible class will meet with Mrs. J. L. Kelley, 401 North D street, Friday afternoon at 3:30 o'clock.

SATURDAY. Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5. The public is invited.

Army May Test Texan's Electric Machine Gun

DALLAS, June 20 (AP)—A flashless electric machine gun may become available to the United States army.

A Pittsburgh manufacturing company (Westinghouse) will study the weapon and attempt to perfect it. The gun is the invention of Virgil Riesby of Hull, Tex.

U. S. to Aid Mexico in Forming Stronger Army, Other Defenses

MEXICO CITY, June 20 (AP)—A high source declared today President Lazaro Cardenas has approved a program which would more than quadruple Mexico's armed forces with the aid of the United States.

The source asserted that within a few weeks a credit of more than \$10,000,000 from the United States would be made available to the Mexican government to carry out this expansion under 60 technical experts from the United States army and navy.

Additional millions would be allocated later by the Mexican finance ministry, it was reported.

The United States government was said to be determined that Mexico should not be used as an avenue of invasion by any aggressor power, and it was understood the American credits would be made available on generous terms.

The American determination was said to have been communicated to President Cardenas before Tuesday's cabinet session, at which universal military training and "other defense measures" were endorsed for congressional action next month to an extraordinary session of congress.

This defense program was reported on high authority to include: Increase of the standing army to more than 300,000, The Mexican army now counts 112,000 men, including those on reserve lists.

Increase of the officer corps by approximately 10,000, of whom 1,000 would be sent to American army centers for special training.

Acquisition of six destroyers from the United States to strengthen the Mexican navy.

Establishment of air bases at strategic points around Puerto Mexico, Acapulco, Tampico, Salina Cruz, Veracruz, and Quintana Roo.

Improvement of port facilities at Veracruz, Puerto Mexico and Salina Cruz—including deepening of channels, new wharves and repair and supply facilities.

Rapid completion of Mexico's section of the Pan-American highway and improvement of roads so that motorized trucks could be moved swiftly between Mexico City and Veracruz and Acapulco.

Leasing of the railway across the Tehuantepec Isthmus in southern Mexico to the United States with the understanding the latter would put the line in usable condition.

Cost of repairing the railroad was estimated at \$5,000,000.

WASHINGTON, June 20 (AP)—More than a million persons die of malaria in India each year.

Stringent Levies On War Profits Voted in Senate

BY WILLIAM B. ARDERY

WASHINGTON, June 20 (AP)—A defiant senate ignored administration pleas for a non-controversial revenue bill last night and approved defense tax legislation only after voting stringent levies on those who would profit from war.

The chamber agreed to the lower income tax exemptions and most of the excise tax boosts which the house passed in an effort to raise an extra \$1,007,000,000 a year. Then the senate added:

1. An immediate excess profits tax on all corporations to produce between \$400,000,000 and \$500,000,000 annually.

2. War profits taxes which Senator Connally (D-Tex), the sponsor, estimated would raise about \$8,000,000,000 a year from individuals and

American-owned oil properties, the United States government ended its policy of giving Mexico a definite commitment to buy a certain amount of silver regularly.

How, ever, it continued to buy Mexican silver in the world market, along with that produced in other countries.

In 1938, silver imports from Mexico were \$42,375,000; in 1939, \$31,773,000; in the first five months of this year, \$12,164,000.

Unable to sell the output of these properties to the American companies from which they were expropriated, Mexico turned to selling oil on a barter basis to Germany.

The outbreak of the European war and the institution of the British blockade closed this market.

Mexico has refused to arbitrate the claims of American oil companies, as Secretary Hull suggested, but in May she reached a settlement with one of the concerns—the Sinclair oil company—and is now selling oil to it.

Trade between the two countries generally is on the rise. United States exports of merchandise to Mexico totaled \$62,016,000 in 1938, increased to \$83,177,000 in 1939, and amounted to \$30,566,000 in the first four months of this year.

General imports into the United States from Mexico aggregated \$49,000,000 in 1938, \$56,321,000 in 1939, and \$25,745,000 in the first four months of this year.

Following the expropriation of

Girl Scout Troops Hold Joint Meetings To Swim, Hear Talks

Girl Scouts of all troops are now meeting twice a week on Tuesday and Thursday mornings at 9 o'clock at Pagoda Pool for swimming lessons, officials announced today. The meetings on Friday will be omitted for some time.

After the swimming period, the girls gather at the Presbyterian church where Dr. C. G. Yarbrough, director of the city-county health unit, is presenting a series of first aid lectures.

A full-sized hydraulic landing gear has been installed at the army air school at Glendale, Calif. The mechanism is mounted on a special framework which permits it to operate as if on a plane.

Worry of FALSE TEETH Slipping or Irritating

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives you a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug store. (Adv.)

Lyon Falls Before Germans as Peace Negotiations Underway

By The Associated Press.

BORDEAUX, June 20.—France gave up her third largest city, Lyon, to German invaders today while a snow-white plane carried her supplicants for a soldier's peace to a rendezvous with Adolf Hitler or his agents.

The Reichsfuehrer's terms for halting the blitzkrieg still were undisclosed publicly.

The French council of ministers, meeting with President Lebrun, pondered the grave situation of France amid unconfirmed reports that the French somehow had prevailed the Hitler terms, had found them too harsh and had decided to continue the fight, possibly from French North Africa.

A communique said that the president and minister went into a hour and a half session at 9 a.m. (2 a.m. CST), but the announcement gave no reason for the meeting.

The presence of Lebrun at least amended one phase of the France-will-fight-on rumors, for it had been said that the president, as well as other leaders had gone or were ready to go to Algiers, a department of France in North Africa, there to set up the structure of government for a continued fight.

The most exact, if incomplete, word on the future of France, however, was that a white plane of peace—hastily painted to spare it from German airmen and anti-aircraft gunners—left a southern French airport early this morning with three French plenipotentiaries to receive the German terms.

Delivery of the peace terms to France will not be conclusive. They must be acted upon by the French government. Meanwhile the war went on.

As if to demonstrate the Reich's over-powering aerial superiority, German planes during the night

roared down upon this provisional capital on the Atlantic seaboard for Bordeaux's first bombardment of the war. Unofficial estimates said that more than 60 persons were killed or injured.

Of Germany's new conquests of French soil, the French reported that more than 60 persons were killed (570,000) was occupied by German forces driving down the Alier and Rhone valleys.

Five German parachutists dropping behind the fighting front during the night were arrested, the French said.

Reports from Lyon said the city was calm and public services were functioning.

Lyon police patrolled without arms.

It was pointed out that if France should choose to continue the fight from Africa, she and Britain could squeeze Italian Libya. (A large part of the French navy presumably is in the Mediterranean, and in Spain it was said French military planes had been flying in large numbers from France to North Africa.)

It was reported today from Geneva, however, French warplanes and troops from North Africa had crossed the Mediterranean to help the French armies in France halt the German drive in the southeast.

France's armies were fighting in isolated groups, although a military commentator said last night, "each nevertheless has conserved its cohesion of maneuver in retreat."

The French were declared to have engaged the central German forces in "a new battle" on the middle Loire river before withdrawing to "establish themselves on a more favorable line."

The French were backed up against the Mediterranean, the Pyrenees Mountains along the Spanish border and the Atlantic ocean.

Heart Is Defined As Powerhouse for Negative Electricity

By HOWARD W. BLAKESLEE

Associated Press Science Editor.

SEATTLE, June 20.—A discovery that the heart is a powerhouse of negative electricity was announced to the American Association for the Advancement of Science here today.

The discovery was interpreted by its authors as a new explanation of the working of metabolism, which is the energy production of living tissues.

The negative electricity discovery was reported jointly by Dr. George Crile, surgeon, Dr. Otto Glasser, physicist, and Daniel P. Quiring, anatomist, of Cleveland.

They measured the electrical charge on the red corpuscles of the blood. This charge, they said, is a negative electrical potential, averaging in animals four thousandths of a volt. Their experiments showed that the red corpuscles take on the charge as a result of the heart beat.

They doubled the voltage to eight thousandths, merely by speeding up the heart beat with adrenalin. By many other means, some mechanical, they slowed or speeded the heart. Always there was a rise or fall of electrical potential of the red cells within the heart rate.

Dr. Crile said this explains for the first time why all the body is electrically negative, while the brain and nervous system are electrically positive. The negatively charged red corpuscles, three trillion in number, travel through 62,000 miles of capillaries and in so doing transfer some

Duke of Windsor Moves His Residence to Spain

CANNES, France, June 20 (AP).—The Duke of Windsor left his Riviera residence by automobile Wednesday head for Spain. The American-born duchess already has departed.

The Duke had been in the south of France since late May, after leaving his post as liaison officer between the French and British armies.

With the Duchess, he was staying at their villa at Cap d'Antibes, near Cannes.

Officials in London denied, however, that he had left the army and, on June 8, said he was visiting the French troops on the nearby Italian border and would return shortly to "the headquarters of his mission."

Shortly before the Duke departed today, he was reported to have told the British consul at Cannes he did not plan to return to England.

of their negative charge to the tissues.

The brain and nerve tissues meanwhile remain positive because they take up oxygen at a more rapid rate than any other body tissues.

The result, said Dr. Crile, is a difference of potential, or electrical tension, between the brain and nerves on one side and the tissues on the other.

Speeding the heart, as in work, raises the potential so that the system can almost instantly do more work. The potential drops with illness and fatigue, and disappeared with death.

READ THE CLASSIFIEDS

Draft Bill Filed in Congress by Solon

WASHINGTON, June 20 (AP).—Senator Burke (D-Neb) introduced today a universal draft bill calling for selective compulsory military training.

Registration of all men between 18 and 65 would be required. Those between 21 and 45 would be liable for training and service in land and naval forces. Those between 18 and 21 and between 45 and 65 would be liable for training and service in home defense units.

British, Italian Air Forces Meet in Large Battle

CAIRO, Egypt, June 20 (AP).—Britain's Royal Air Force reported today that its planes had met Italian fighters in an air battle off Bugbuq, Egypt, shooting down three of the Italian planes and severely damaging two others. One British fighter plane was missing.

The clash occurred yesterday, the R.A.F. said, with Italian fighters engaging British bombers and fighters.

A communique reporting the battle said that, as a result of aerial activity in the past 24 hours, the Italians had lost eight planes certainly and probably five more.

Bugbuq lies on the Mediterranean, about 35 miles east of the Libyan border.

Repeal of Freight Rate Slash Refused

AUSTIN, June 20 (AP).—The railroad commission today refused to reconsider an order reducing freight rates in Texas on a vast number of commodities by 12 1/2 per cent, effective July 1.

Members Jerry Sadler and Ernest O. Thompson announced they had signed an order denying a rehearing sought by 59 rail carriers and a majority of the state's motor freight lines.

Sadler said the reduction, applying to rates in the first class scale and a number of related rates, would save shippers an estimated \$17,500,000 annually.

The rail carriers, claiming an eight-year deficit of \$119,000,000, asserted the commission disregarded evidence of the original hearing showing already inadequate earnings.

Odessa Episcopal Group to Sponsor Silver Tea, June 26

The auxiliary of St. John's Mission, new Episcopal church at Odessa, will sponsor a silver tea at the home of Mrs. E. L. Lasseter on the evening of June 26. It has been announced here.

The hours will be from 7 o'clock until 9 o'clock and all Midland Episcopalians are invited to attend.

Argentina's Defense Program Speeded Up

BUENOS AIRES, June 20 (AP).—The Argentine government sent to congress today a rearmament program calling for expenditure of 600,000,000 pesos (about \$180,000,000) for expansion of the nation's defenses.

Of this sum, 110,000,000 about \$33,000,000 would be spent for aviation forces.

Condition of Myron Taylor Said Serious

ROME, June 20 (AP).—The condition of Myron C. Taylor, President Roosevelt's representative to the Vatican, was described last night by attendants as serious, but not alarming. His illness, ascribed partly to overwork, has kept him in bed at his villa in Florence.

COMPTROLLER RESIGNS.

WASHINGTON, June 20 (AP).—President Roosevelt accepted with "regret" today the resignation of Fred H. Brown, former New Hampshire senator, as comptroller general of the United States. Brown had been ill for some months.

Three Indictments Returned in Bombing

LUBBOCK, Texas, June 20 (AP).—Three indictments were the law's answer to the second of two bombings of the homes of Lubbock court officials.

A 72nd District grand jury this morning reported to Judge Daniel A. Blair three true bills charging four offenses to two defendants.

Haskell Ford, honkey-tonk operator, was charged with assault to murder and arson in one indictment, with perjury in another.

R. J. Jeffers, taxicab driver, was charged with accessory to assault with attempt to murder.

Ford is held in jail in lieu of \$7,000 bail under charge of having set off a dynamite bomb the morning of June 12 on the front porch of Judge E. L. Pitts, 99th district judge and the nemesis of the illegal beer racket here.

None was hurt, but the residence was badly damaged, when two sticks of dynamite exploded. Jeffers, it is charged, drove Ford to and from the Pitts residence. He posted \$3,000 bail.

The residence of Robert J. Allen, county attorney, earlier had been bombed.

VISITS SISTER

Mrs. C. C. Prewitt, with her daughter Norma Jane, is here from Corpus Christi visiting her sister, Mrs. Johnny Livingston, and family. She plans to be here until July 6.

Washing, greasing or for flats call Southern Body Works, phone 477.

Allowables---

(Continued from page 1)

cut from the current 380,000 barrels daily average to 240,000 during a 15-day emergency order effective Saturday.

The Commissioner, asserting he had conferred with Chairman Lon A. Smith, also declared he would recommend a "drastic" allowable reduction for the rest of the state but said he favored increasing Panhandle fields to a marginal allowable of 20 barrels per well.

The emergency East Texas order, Sadler explained, would return the

field to an old proration schedule recently upheld by the U. S. supreme court, changing the basic allowable from 690,000 barrels daily to 518,000 at a setting a minimum of 20 barrels per well with the remainder based on 2.32 per cent of the hourly potential.

He stated the 14-day-a-month shut-downs currently applying in the field would remain in effect, permitting only six production days during the period.

The reduction, he said, would be "applied mainly on major oil companies and operators of large tracts, adding that the commission planned a hearing in which to base a permanent order within 15 days.

"Effective July 1," he continued,

Cabinet---

(Continued from page 1)

if we are to have men ready to operate the planes and other munitions, the creation of which committee has just authorized."

Stimson said in his radio speech that America "should not be fooled by the evident bluff of Hitler's so-called fifth column movements in South America."

"There are, on the face of them, attempts to frighten us from send-

"We will lift some of the shutdown days in the East Texas pool."

FROM SAGERTON.

Mrs. B. Hess and Miss Beulah Mae Summers of Sagerton are visiting in the home of Mrs. J. M. Reising here.

ing help where it will be most effective," he said.

"I believe that if we use our brains and curb our prejudices we can, by keeping command of the sea, beat her (Germany) again as we did in 1918."

Stimson advocated that the United States "throw open all of our ports to the British and French navy and merchant marine for repairs, refueling and other services."

GEOLOGISTS' LUNCHEON POSTPONED

The Midland Geological Society's bi-weekly luncheon scheduled for June 21 has been postponed in favor of the Geologists and Engineers luncheon to be held in Odessa on the same date. The Midland geologists will have their luncheon June 28.

KIWANAS NAME CHIEF

MINNEAPOLIS, June 20 (AP).—Election of Mark A. Smith of Thomaston, Ga., as 1049-41 president of Kiwanis International was announced today at the annual convention.

FOUR RUNS IN THREE INNINGS CAUSE COWBOYS TO LOSE, 2-4

Will Play the Borger Gassers Next 3 Nights

PAMPA, June 20. (Special).—The Pampa Oilers came back strong to defeat the Midland Cowboys last night by a score of 4-2.

"Lefty" Dilbeck gave the visitors nine hits but spaced them well in all except the seventh and ninth innings. He didn't walk a man and struck out seven.

Pitcher Morrie Engle of Midland was rapped for five hits and all the Oilers runs in the first three innings. After that he was invincible, giving up only one hit.

Midland scored first in the seventh on a triple by Sam Sealing and a single by Curt Schmidt and again in the ninth on a double by Sam Hale and another single by Schmidt.

Sam Malvica, Pampa shortstop, had a big night with 11 assists and three putouts without an error. He participated in three double plays, all of which halted Midland scoring threats.

The Cowboys left today for Borger where they will be for the next three nights.

Score by innings:
Pampa 600 1001-2-9 1
Midland 211 000 00X-4 6 2
Engle and Wilson; Dilbeck and Summers.

Sports Roundup

By **EDDIE BRIETZ**

NEW YORK, June 20 (AP).—Louis to polish off Godoy in six heats or less tonight. . . Pepper Martin, who hasn't shaved since the Cards started winning, is having trouble getting into the hotel dining rooms. He looks like the original Tarzan, only worse. . . When they finally get around to asking Joe Medwick for his side, he'll probably exonerate Bob Bowman of any intentional beaming—the two were good friends.

Today's Guest Star.

Dick Walsh, Albany, (N.Y.) Times-Union: "They're striking up the old Tiger Rag in Detroit again, and for the first time since 1939 it's ringing with stir. . . With the Tigers riding along in second place, the other clubs are beginning to think seriously about 'Hold That Tiger'."

Blame Ill Dushay.

Three Washington players were asked to explain the deep slump of the Senators. "It's all on account of Italy getting into the war," one said. . . Italy getting into the war uninvited Bananas Bonura. . . He can't sleep no more. . . He can't eat no more. . . He can't field no more. . . And everybody's slumping in sympathy with Zeke."

Members of the Rockville Country Club at Rockville Center, L.I. have hit upon a novel plan to help the Red Cross. . . They'll contribute a portion of their July 4 side bet winnings. . . A good-looking member of the Red Cross will be stationed at the 18th hole to collect the dough. . . It would be nice if golf clubs all over the country would swipe the idea.

Wrong-Hand Golfers To Tee Off Today

SEGUIN, June 20 (AP).—Golfers who swing from the other side of the tee will flood the course here today.

It's the third annual Left-Handers' tournament and some 50 of the southpaws are due to post qualifying scores.

Louis Must Decisively Defeat Godoy to Prove He Is More Than Best of Poor Lot

BY HARRY GRAYSON
NEA Sports Editor

NEW YORK—Joe Louis faces the task of straightening up Arturo Godoy at Yankee Stadium tonight.

To escape double trouble, Louis had best do this within 10 of the scheduled 15 rounds, for Godoy is a tireless individual with a remarkable pair of legs.

If Godoy, the scrapper, is among those present after 10 heats, he may give Louis some anxious moments, despite the fact he can't hit as hard as Fred Astaire.

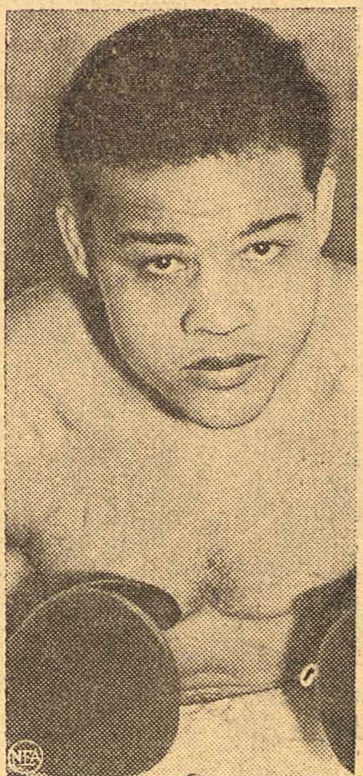

And if Louis permits Godoy to

By **GAVLE TALBOT**

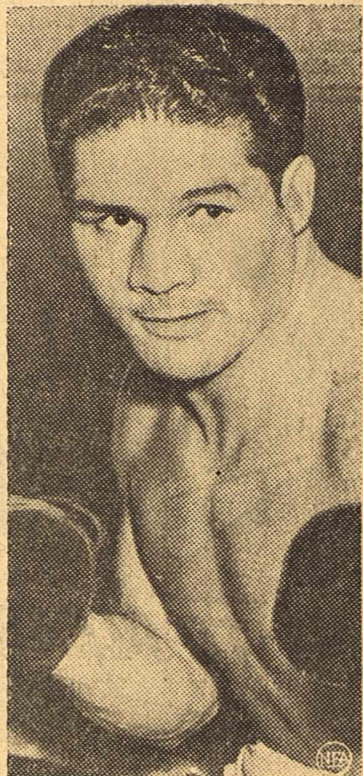

NEW YORK, June 20 (AP).—Arturo Godoy of Chile, who is something less than an inspired fighter, gets his second chance at the world heavyweight championship tonight when, barring rain, he meets Joe Louis over the 15-round route in Yankee Stadium.

Their scrap last February was far from sensational, yet the mere fact that he lasted 15 rounds with the negro champion qualified the South American iron man for an encore. The betting is 5 to 1 against Godoy lifting the title, yet most experts give him an excellent chance of going the limit again.

go the route, he again will meet up with the world champion kiss-

Joe Louis

Arturo Godoy

had been told they had just watched him box 15 rounds, they would have been frightfully disappointed.

Had Louis and Godoy been a couple of blokes named Joe they would have been tossed from the premises.

In the old days, a fighter who kept his chin as close to the canvas as Godoy, would have been told to straighten up and fight.

IT'S UP TO LOUIS TO STRAIGHTEN GOODY UP

ANYTHING goes nowadays, so it is Louis who must do the straightening up.

Godoy must straighten up when he whacks Louis around the head or moves in to grab him. It is then that the Brown Bomber must demonstrate with body punches that he is something more than a looper against a moving target or anyone who doesn't fight precisely according to the book.

Al Weill objects to Referee Donovan, who gave Louis 10 rounds the last trip and who has refereed all 14 of the titleholder's New York scraps and one in Cleveland.

Mike Jacobs has his nerve charging \$27.50 for a meeting of two blokes who ought to be made to pay their way in.

But, as it has been repeatedly pointed out, no one is clubbed over the head and forced to attend anything.

And the fact that it will draw something more than \$100,000 is additional evidence that the public, like a bass, will still bite.

Dallas Captures Two Games From Hornsby's Indians

By The Associated Press

The Texas League, packed with sensations the first two months of the campaign has simmered down to the mundane task of establishing four contenders for the Shaughnessy play-off.

First in was Houston that ran up a string of victories.

Next it was young Howard Pollet, who won a dozen straight pitching victories for Houston and had hopes of smashing the consecutive win mark.

But Houston, after getting a long lead, settled back and now is playing .500 per cent ball. That seems to be good enough for the present as none of the other clubs is doing better.

Last night Pollet was blasted out in the fifth inning as San Antonio split even in a six-game series with the Buffs by taking the final 8-7.

Another erstwhile sensation, Shreveport, has tumbled from the first division to the rim of the cellar. The Sports split a double-header last night, taking the nightcap 1-0 from Beaumont after dropping the opener 3-1.

And Rogers Hornsby, the ex-big leaguer who ran up a string of victories as manager of the Oklahoma City Reddies, saw his club drop two games to Dallas, 3-2 and 7-0.

The schedule: San Antonio at Beaumont (Day) Okla. City at Ft. Worth (N.) Tulsa at Dallas (N.) Houston at Shreveport (N).

Veteran Senator From Vermont Dies Today

WASHINGTON, June 20 (AP).—Senator Ernest Willard Gibson of Vermont died today at the age of 67. A lawyer, he had served in congress for 16 years.

He had been ill of a heart ailment for more than a week. Senator Gibson served all 11 his years in congress as a republican. He entered congress first in 1924 as a member of the house. In 1933 he went to the senate. He was a member of the naval committee, one of the key legislative groups at work on national defense legislation.

Recently developed was a one-coat airplane lacquer that weighs only 15 pounds per plane, and has added five miles an hour to its air speed.

Seven Texans Still In Running for Top Place in Trans-Miss

TULSA, Okla., June 20 (AP).—If it doesn't come to Oklahoma, the Trans-Mississippi golf crown will find a wearer in Texas, Colorado, Michigan, Illinois, Arizona, Kansas, Indiana or California.

Those states still were represented today as 32 survivors teed off for the first of two 18-hole rounds. The field will be trimmed to eight quarter-finalists by sundown.

Eighteen Oklahomans came through the first round. Seven winners hailed from Texas, and the other seven states had one man each in the running.

Rise out of the pavement and puncture the tires of enemy motorcycle riders.

Inventor Suggests Bear Trap Use to Halt Enemy Tanks

BY EDDIE GILMORE

WASHINGTON, June 20 (AP).—Amid the country's plans for national defense, inventors are flooding the patent office with ideas ranging from bear traps for enemy tanks to a proposal for enlisting whales in a war against submarines.

Every week brings a new batch of ideas which the patent office calls impractical and which it rejects.

The tank trap suggestion came from a man who said he had spent years trapping bears and big game, and that a huge steel trap would work just as well on a tank as on a grizzly.

The whale plans came from a man who said that whales could be captured, equipped with submarine-fouling armor, and released to raise havoc with the enemy.

Another man said he had a machine which could be installed at strategic points and when a fifth columnist came along with a concealed map, the machine would sound an alarm.

This was called a "map detector." Still another rejected invention called for an apparatus which its creator claimed not only would catch bombs dropped from the air, but would cause them in water.

A man who wouldn't go into detail said he had an idea for an anti-dive bomber. The general theory behind it was a machine shooting out such a strong current of air that the plane couldn't dive into it.

One inventor had a plan for important highways to be mined with gadgets which would cause nails to

MUSTANG BOYS' CLUB COLUMN

The Musty Mustangs are quite busy doing all sorts of things to earn the required number of merits to qualify for the annual free three days camp in August—handicraft, safety, swimming, animal trapping, marksmanship, knot tying, stamp collecting, match-folder collecting, reading approved books, picking up nails and glass in the yard, Indian fire-building, rustling comic books for the club, passing bicycle safety test, unusual performance in baseball, acrobatics or what have you.

50 points are required to win the trip. It looks as if 100 boys may qualify. Last year 84 boys qualified. One boy brought in a skunk he had trapped. Another brought a live water-moccasin snake 300 miles. The club rooms are open every morning in the week except Wednesday and Friday for boys who wish to earn these points. On Wednesday and Friday mornings Mustang Water sports are held at the Pagoda swimming pool at 5c a session plus Mustang Card. Two evenings each week the Mustangs play softball with the City League. Wednesday and Saturday nights are for fun pow-wows at which anything might happen.

Last night a rip-roaring good time was had in a series of heap-nuch-crazy-games known to the boys as "Dizzy-Derbies." New games are being used each time. Saturday the new games will make the outside lighted courts look like an insane asylum in distress.

Eight beautiful medals were received from the National Rifle Association yesterday for the boys who qualified as "Pro-marksmen." These boys also received handsome certificates. Sergeant Elmo Reeves is doing fine work with a class of about 50 boys in Marksmanship. He will be on hand Saturday morning at the range for boys who desire to shoot for medals. The boys boys were Jack Kinney, Albert Johnson, J. C. Stevens, Allan Lowe, Donald Merritt, Glen Brunson, Bradford Clendennen, George Poe, Nuff Sed.

During March, 1940, Trans-Canada Airlines carried 3169 passengers.

Play First Game Against Midland Next Wednesday

DALLAS, June 20. (AP).—President Price of the West Texas-New Mexico League announced today that Odessa would replace Big Spring in the loop.

Price said Big Spring failed to make expenses and that owner Tony Rego transferred to Odessa after a majority of the franchise operators had voted approval. Big Spring local interests had first been given the opportunity to take over the club, Price added.

Odessa was a charter member of the league in 1937 but did not finish out the season. The town has shown a large increase in population since then and wanted in the league at the start of the season but not place was open, Price said.

The opening game at Odessa will be June 26. The club will take the same schedule and standing as Big Spring.

Rideouts Wind Up Second and Third In Ontario Meei

BUFFALO, N. Y., June 20 (AP).—Blaine and Wayne Rideout, the North Texas State runners, finished second and third here yesterday in the mile event of the 20th annual track and field meet sponsored by the Erie police club of Buffalo and nearby Crystal Beach, Ont.

The Rideout twins alternated in the lead for the first three-quarters of the Erie mile, only to lose to Walter Mehl, 23, University of Wisconsin law student. The time was 4:24.6.

Blaine Rideout finished second, 12 yards behind Mehl, with his twin three yards back and Ted Nehrlich, Downtown Y.M.C.A., Buffalo, in fourth place.

It is reported by authorities that the German air force at the outbreak of the war had a total air force of 9612 planes and 10,000 pilots.

LEGALS

AN ORDINANCE AUTHORIZING THE ARREST, WITHOUT WARRANT, BY A CITY POLICE OFFICER, OF PERSONS WHO ARE FOUND IN SUSPICIOUS PLACES OR UNDER SUSPICIOUS CIRCUMSTANCES, OR PERSONS WHO COMMIT AN OFFENSE IN THE PRESENCE OF SUCH OFFICER OR OFFICERS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MIDLAND:

Section I. That arrest, without warrant, may be made by the Chief of Police, City Marshal, or any other Officer of the City of Midland, when offenses against the laws or ordinances of the City are committed in their presence or where persons are found in suspicious places, and under circumstances which reasonably show that such persons have been guilty of some felony or breach of the peace, or threaten or are about to commit some offense against the laws of the City.

Section II. Whereas, it is necessary that this ordinance become effective immediately in order to protect the life, property, safety, health and well-being of the public and of the citizens of the City, the absence of the authority of the Chief of Police, or City Marshal, or other Police Officers of the City to make arrests without warrants under the circumstances and limitations set out in Section I hereof, creates an emergency and a necessity for such powers to become effective immediately, and requires a suspension of the rules requiring ordinances to be read on separate dates; and such emergency is said to exist and said rule is hereby suspended and this ordinance is to be effective from and after its passage.

Passed and approved this 10th day of June, 1940.

M. C. ULMER, Mayor.

Attest:
 J. C. Hudman, City Secretary.

Oil News---

(Continued from page 1)

Cochran County.
 The Texas Company No. 1-F Mallet Land & Cattle Company, wildcat in southeastern Cochran, is drilling time at 4,888 feet.

Magnolia Petroleum Company No. 1 Mallet, extending east-side Dugan pool production three-fourths of a mile northeast, swabbed and flowed 130 barrels of oil in five hours on unofficial test. It has been acidized with 11,500 gallons and is bottomed in lime at 5,038 feet.

Crane County.
 Gulf Oil Corporation No. 5 M. B. McKnight, western Crane deep wildcat, is drilling at 6,710 feet in lime. Northeast of the Sandhills deep Permian pool in western Crane, Gulf No. 12 W. N. Waddell et al is drilling unchanged at 4,350 feet in lime.

Gulf No. 1-F University, eastern Crane wildcat, is drilling anhydrite and salt at 1,600 feet.

Crockett County.
 J. N. Gregory of Midland and Bryce McCandless of San Angelo No. 1 Shannon, western Crockett wildcat east of the Soma pool, yesterday had reached depth of 385 feet in cretaceous lime.

In the Soma pool, Mudge Oil Co. No. 1 Noelke Livestock Company is drilling at 530 feet in red rock, and Henry Schooler No. 1 Noelke is drilling the same formation at 300 feet. Nine miles to the east and slightly south, Moore Exploration Company of Midland No. 1 A. C. Hoover had 1,350 feet of oil in the hole as it cleaned out to 2,110, 40 feet of bottom.

Continental Oil Company et al No. 4-B J. S. Todd unit, seeking Strawn, lower Pennsylvanian, production in the Todd deep pool of north central Crockett, is drilling shale below 2,720 feet.

Dawson County.
 Ray A. Albaugh No. 2 John Robinson, wildcat in northwest Dawson, resumed drilling at 5,110 feet after nearly a week's shut down and had reached 5,125 feet in lime. It is carrying sulphur water encountered in strata entered at 4,983 feet.

Ector County.
 Oil Well Drilling Company No. 1 Paul Moss, farthest southeast Foster pool producer, was bailed from 4:30 to 7 a.m. this morning, with recovery mostly acid water and drilling mud. Fluid rose 600 feet during the two and one-half hours of bailing. Casting swab then was run three times; first two pulls each recovered 500 feet of fluid, mostly oil. The last pull recovered 150 feet of mud. Bailing to clean out has been resumed. The well is bottomed at 4,225 feet in lime and has been shot.

Gaines County.
 In the Seminole pool, Magnolia and Atlantic No. 2-221 H.&J. is drilling below 4,810 feet in lime.

Howard County.
 C. T. McLaughlin & Company, Inc. et al Midland No. 1 Pete Johnson, wildcat several miles northeast of Big Spring, is drilling past 1,900 feet in anhydrite.

Led by Col. Guiber, six BT-14's South of the Snyder pool, eastern Howard, Magnolia No. 1-40 O'Daniel had drilled to 5,125 feet in lime.

Pecos County.
 Plymouth Oil Company No. 1 Richard Levy et al this morning had drilled to 4,225 feet in lime. The northern Pecos deep test was cored earlier in the week from 4,050 to 4,102 feet. First core from 4,050-67, returned 15 feet of lime bearing a slight show of oil; that from 4,067-77 obtained recovery of nine feet of lime showing oil. A drillstem test from 4,050-77 feet then was taken, with rise of 80 feet of drilling mud during the 75 minutes testing tool was open. Core from 4,077-88 showed a little oil in the 11 feet of lime recovered. Sulphur water was present in 14 feet of lime pulled after coring from 4,088 to 4,102 feet.

Terry County.
 Gulf No. 3 Mallet, in the south extension area of the Slaughter pool of Hockley county, is standing at 4,800 feet in lime after cementing 5 1-2-inch casing on bottom with 200 sacks.

Ward County.
 Coring had reached 7,963 feet this morning in Gulf No. 5 Wristen Brothers, southeastern Ward Ordovician test.

OUT OUR WAY

left today for Randolph Field, San Antonio, after an overnight stop at Midland Municipal Airport.

Major Kirksey, in an O-47, also departed for Duncan Field and so did Lieut. Denison in a C-39. The latter had been here overnight, while Major Kirksey arrived Tuesday.

Lieut. Tullison led a flight of two scouting planes which arrived from El Paso, en route to Hensley Field, Dallas.

Col. Reed, flying a B-18, came from Randolph Field and will return there.

Only civil craft reported was a bi-motored Beecherat of the Olson Drilling Company which arrived from Tulsa, Okla., flown by Pilot Reed.

Midland Girls to Meet Monahans in Ball Game Tonight
 A picked team of Midland girl softball players tonight at 9:15 will meet the strong Monahans team at the park on South Main street. The Monahans team is rated one of the strongest in West Texas and is favored to win over the Midland aggregation. Preceding the game, the Jeff's Sporting Goods team of Midland will meet the Goldsmith Oilers of Goldsmith. The game will start at eight o'clock.

OUT OUR WAY
 By J. R. WILLIAMS

GOOD NIGHT! TH SECOND IN COMMAND HAS DISCOVERED YOU GUYS AINT DOIN' YOUR DUTY. HE'S STUCK HIS MITT IN A PAN AN' FOUND DIRT!
 WELL, HE'S ALSO DISCOVERED TH' OL' MAN AINT DOIN' HIS DUTY, SO WHAT'S HE GOIN' T'DO ABOUT IT?
 THAT SHOWS HOW TH' HUMAN MIND WORKS—HE'S DUMB ENOUGH TO GIT HIS FINGER DIRTY—AN' THEN BRIGHT ENOUGH TO SAY NOTHIN' ABOUT IT—I HOPE!
