Twenty-Five Killed In Crash Of Air Liner

Fine Program Arranged For Second Day Of 1940 Midland Rodeo

Rain Fails to Dampen Enthusiasm Of More Than 5,000 Spectators at Saturday's Thrilling Performances

Thrills and spills aplenty greeted the crowds that attended the two initial sessions of the Midland rodeo yesterday, despite rain and threats of rain that kept attendance below what was expected.

Although the rain dampened the spectators during the afternoon show, it did not dampen enthusiasm of those present. Last night's show was probably one of the best that will be given during the three days as far as action and speed are concerned. Events were run off with precision and timeliness that kept the spectators on their feet during most of the evening. The cowboys fell into the attitude of the spectators before the show was more than a few minutes old and "put out" all during the evening.

More entertainment is promised visitors and residents this afternoon and tonight, again tomorrow afternoon and night. The show this afternoon will start at 2 o'clock and the night show will get underway promptly at 8 o'clock.

Top Cowhans Are Here.

The West's favorite sport is being exemplified in full at the three-day show here with the top performers in the rodeo world enrolled. There is action throughout with no delays.

Start of the afternoon show was delayed as a driving rain fell for approximately 20 minutes. As a result, the crowd of approximately 3,500 persons was smaller than anticipated.

Enthusiasm was high throughout the show with the customers "whooping it up" whether cowboys were successful or unsuccessful in the various events. Quick times in the various events or better than fair times by the contestants brought in large quantities from the house.

Throughout the afternoon, the famed Hardin-Simmons Cowboys rode RODEO, page 6.

Surveys Indicate House Will Pass Conservation Bill

WASHINGTON, Aug. 31 (AP)—Members of the military committee said today informal surveys indicated the house would pass the Burke-Wadsworth conservation bill next week, but that there was considerable opposition to proposals to permit the government to condemn and take over private industrial plants for defense.

Some legislators went so far as to predict privately the industry provision would be omitted from the house bill on the final vote. They said, however, a modification permitting government operation of these facilities would stand at least an even chance of being accepted.

Age Issue Takes Back Seat

Coming quickly to the forefront of the capitol discussion on the legislation, this same temporarily related to the background arguments for the fundamental provisions for registering men from 21 to 44, inclusive, and making them liable for year's military training.

A battle is expected over the age provisions, however, as the senate had for registration only of men 21 to 30, inclusive.

Confident that the conscription bill would be enacted without delay, congress leaders optimistically set their sights for a clean calendar within two or three weeks in order to be in a position to take an indefinite recess or, possibly a sine die adjournment.

The senate amendment, authorizing the government to take over industrial facilities found necessary for defense if a satisfactory arrangement with the owner could not be reached, ran into some opposition in the house military committee.

Walter D. Cline, Oil Operator, Seriously Ill

WICHITA FALLS, Aug. 31 (AP)—Attending physicians tonight described the condition of Walter D. Cline, immediate past Shrine Imperial Potentate, as satisfactory but still serious.

Cline is ill of a heart ailment. The Wichita Falls oil operator was stricken last night en route to Fort Worth on a business trip.

Former Knights Templar Commander Is Dead

SAN ANGELO, Aug. 31 (AP)—Frank M. Purkayle, chief engineer of the brotherhood of locomotive engineers here and former commander of the Knights Templar, died suddenly last night. He had been here for the Santa Fe 31st. Funeral service will be Monday morning.

German Bombs Fire English City Sunday

By The Associated Press.

A huriling hurricane of literally thousands of incendiary bombs spread flames over a city in northeast England last night and early today as great masses of German planes roared over for more than six hours in what may well have been the greatest single raid of the war.

British censorship carefully guarded identity of the city, which may have been Liverpool, England's most important northwest port and possibly the most important in the entire Seagirt kingdom now that London is under such constant aerial harassment.

The British acknowledged an air raid shelter was hit, that there were a number of casualties and much damage to private property. An entire block of offices was reported set on fire. No military damage was acknowledged.

The massive assault came as the Germans, having settled territorial disputes in their "back yard" and taken hapless Rumania under their wing, flung renewed attacks on all of England with mounting ferocity.

More Raids On London

London was hammered almost ceaselessly throughout Saturday, by six waves of raiders, and was kept awake three hours this morning by less numerous raiders.

The Germans seemed determined to smash the Royal Air force if at all possible.

Bombs on Berlin

For the RAF is a stern barrier to Germany's long-threatened but unattempted invasion, and continues to shower bombs of its own on Berlin, throughout Germany and on Germany's ally, Italy, as well as on neutral-contiguous countries.

British Take Three German Subjects Off Big American Liner

JERSEY CITY, Aug. 31 (AP)—Puzzled officers and passengers of the American export liner Exochordis, told tonight how British authorities at Bermuda, disregarding the captain's protests, removed three German subjects from the ship without explanation and seized rolls of war film from an American photographer after a scuffle.

The vessel, which arrived today from Lisbon, with 166 passengers, also took 425 pouches of mail to British censors at the Bermuda stop.

Capt. Wenzell Habel said he believed the incident was the first since the start of the war in which passengers had been taken off a vessel flying the American flag.

He said British authorities asked by name for Dr. Herbert Block, 37, Adolf Sandhaus, 41, and Hans Schiffman, 33.

The British made no comment, Capt. Habel said, and refused either to entertain his protest of their action or to explain why they wanted the three passengers.

Four Brooding Men in Death Row of Prison

McALISTER, Okla., Aug. 31 (AP)—Four brooding men—all condemned to die for the deaths of kinmen—sit in death row and wait for the long last walk to Oklahoma's electric chair.

Only one is fairly certain when he will die and he is icily indifferent. He is Roger Cunningham, 4-year-old Oklahoma City federal housing inspector, who strangled his wife. He goes down Nov. 15.

A 58-year-old Olivier, La., farmer, Warren Abby, another convicted wife slayer, looks hopefully to the criminal court of appeals, where his petition has stayed the execution of the state had planned.

Beat Wife to Death

Abby met and married a 62-year-old widow through a matrimonial agency in 1935, beat her to death with a connecting rod on a roadside near Clinton last Oct. 6, the state says. Abby pleaded self-defense, said his wife drew a gun. The state contends he had married her for her property.

The third is Roy Murphy, 40-year-old Enid laborer. He shot his brother Harry and his sister-in-law to death on the night of Jan. 13, 1939 after a family argument in Harry Murphy's cabin.

He also lives on the hope the criminal court will spare his life.

Fourth of the grim quartette is J. D. Tuggle, a youth of 21, who bludgeoned his uncle and aunt to death May 9. He alone did not appeal.

Two-Mile Parade Formally Opens Sixth Annual Rodeo for Midland

Midlanders and out-of-town visitors thronged the streets Saturday morning to watch the longest parade ever staged in Midland formally inaugurate the big rodeo.

The parade was conservatively estimated to have been two miles long with hundreds of participants. At least 300 horses, ridden by sponsors, contestants and others played an active part in making the colorful spectacle a success.

Every color horse and every mode of cowboy attire was displayed. Prized roping horses, to be used by contestants, and those of the sponsors took up a sizeable portion of the parade.

Texans' Thirst Is Providing More Revenue for State

AUSTIN, Aug. 31 (AP)—Texans' thirst is producing more and more revenue for the state.

When the liquor board closed its books on the current fiscal year at midnight it had collected \$7,009,642, exceeding \$7,000,000 for the first time since the board was established in 1935. Net revenue was up \$276,948 over 198, the previous high.

Expenditures for the year are \$723,508 compared with \$1,000,456 two years ago.

Since its creation the board has collected \$31,389,106 of which \$27,039,471 went to the old age assistance, available school and general revenue funds.

MAYOR IS INJURED

VAN HORN, Aug. 31 (AP)—H. A. Coffield, mayor of Marfa, and Major George Barnes of Fort D. A. Russell were injured yesterday when a car in which they were riding skidded and overturned near here.

Coffield was only slightly injured. Barnes, suffering more serious injuries, was taken by ambulance to El Paso's Beaumont army hospital.

United States Senator Aboard Plane Which Exploded in Blue Ridge Mountains During Rain

LOVETTSVILLE, Va., Aug. 31 (AP)—A Pennsylvania Central Airlines plane crashed at the foot of the Blue Ridge Mountains near here today carrying 25 persons, including Senator Ernest Lundeen (FL-Minn), to their death. It was literally blown to bits when it exploded after hitting the ground.

John Rhodes, reporter of the Winchester, Va., Evening Star, who went to the scene for the Associated Press, said parts of the plane, dismembered bodies, and clothing were scattered over a two-acre plot.

Those aboard the plane realized they were going to crash, Rhodes said, because a note dropped by the stewardess, Margaret Carson of Pittsburgh, was found on a farm some three miles from the spot where the plane went down.

Rhodes said she asked that who reported the note notify the Pittsburgh office of the airline that the plane was "going down."

Investigating officers estimated she barely got the note out of the plane, perhaps two minutes, before it struck the ground.

Rain Was Blinding.

The area where the crash occurred is a wild and rugged terrain with many mountain peaks, not very high but close together. There was a blinding rain at the time, Rhodes said, but it was obvious it was in trouble because it was flying low.

It was on the farm of Clarence Bishop, in a hollow by the edge of the clover field that the plane came down. It flew over Lovettsville, in the northern tip of Loudoun county, about 1:50 p. m. (CST). Rhodes said he learned.

Soon it was over Bishop's farm and getting lower. Henry Thompson, who lived within an eighth of a mile, and his brother, Leroy, with Bishop were the first reach the scene.

Henry Thompson said it was so "dark" at that time, because of rain, clouds and fog, that he couldn't see it. He heard the motor, and heard the pilot apparently "zoom" his motor to try and get some altitude.

Hit Ground and Exploded.

The plane, the Thompsons and Bishop told Rhodes, made a "swish" sound as it hit the ground, and then exploded. It didn't explode in the air, but just as or just after it struck.

They ran over, found bodies "blown all to pieces," the luggage and clothing strewn all over, and one of the tires of the landing gear burst. That was all of the plane that burned.

The tremendous force of the explosion severed the plane. The tail structure, intact, was found about 100 yards from the motor.

Rhodes said parts of some of the bodies were heard across a cornfield 100 yards from the crash scene.

Dr. John Gibson, coroner of Loudoun, said "there was not any doubt but that all persons aboard were killed instantly," Rhodes reported. (See PLANE CRASH, page 3)

Passenger List Included Many Government Men

PITTSBURGH, Aug. 31 (AP)—Pennsylvania Central Airlines reported tonight the following as the official passenger list of the Washington Pittsburgh air liner that crashed near Lovettsville, Va., today, killing 25 persons:

Texas Net Daily Oil Allowable Shows Increase

AUSTIN, Aug. 31 (AP)—Railroad commission engineers reported a total net daily oil allowable of 1,246,983 barrels for the week ended today, an increase of 4,149 barrels over last week.

The allowable was 79,717 barrels under the U. S. Bureau of Mines estimate for August demand in Texas. Considering an estimated 2 1/2 per cent underproduction, Texas output would be 110,884 barrels below the bureau's recommendations for August.

A 90-day production order, effective tomorrow, will permit an estimated daily average allowable of 1,298,528 barrels which with expected underproduction would result in a flow of 1,266,065 barrels, 54,235 barrels under the bureau's September forecast.

Hartzell Stephens, who underwent an appendectomy in Plainview Friday, was reported Saturday to be doing well. He is the son of Mrs. Myrtle Stephens.

Atlantic Coast Towns Brace for Hurricane As New Storm Brews

MANTEO, N. C., Aug. 31 (AP)—Port towns braced tonight for a hurricane which apparently was bearing down on the bleak sand banks of North Carolina and the Virginia Capes.

The storm, the second in three weeks to threaten the South Atlantic seaboard, sent barometers falling at the coast guard station at Cape Hatteras—the graveyard of the Atlantic—and angry seas rose along the Carolina banks.

The weather bureau predicted the hurricane probably would hit the coast Sunday.

M. C. Ulmer Marks 34 Years With Bank

Friday, August 30, held a special significance for Mayor M. C. Ulmer for it marked his thirty-fourth consecutive year of connection with the First National Bank and his thirty-second year of active employment with the concern.

His connection with the bank began in 1906 as bookkeeper. Today he is cashier and executive head of the institution. In the interim the few years in which he was not actively employed at the bank found him associated with it in an official capacity.

Walker Appointed Postmaster Gen., Succeeding Farley

HYDE PARK, N. Y., Aug. 31 (AP)—President Roosevelt announced today Franck C. Walker, New York lawyer and formerly treasurer of the democratic national committee, would be the new postmaster general succeeding James A. Farley who gave up his cabinet portfolio today.

The setting for the announcement was an annual reception for the president by members of the Roosevelt home club, an organization of his friends and neighbors.

The president praised the retiring Farley, adding that "Jim," with a family to support, "finds it necessary—as some of the rest of us may have to do—to go back to private life."

Brother of Lackey Dies in Ft. Worth

T. E. Lackey, brother of School Superintendent W. W. Lackey of Midland, died in Fort Worth.

Funeral services will be held at the Crowder Funeral Home in Fort Worth at 9:30 o'clock Monday. Burial will be at Caldwell at 4:30 p. m. Monday.

T. E. Lackey was in ill health several years. W. W. Lackey was at his bedside most of the summer. T. E. Lackey visited in Midland several times and had a large number of friends here.

Pall bearers will be James Metzger, Pleasure Richter, A. N. Cutbirth, Clyde Cutbirth, D. Branch, J. P. Porter.

Slight Injury Is Received in Parade

Gene Cook, employed at the Marcus Gilt riding stable, suffered a sprained ankle Saturday morning during the parade which opened the sixth annual Midland rodeo, when his horse fell with him on the pavement near the Petroleum building.

Cook was rushed to a hospital by an ambulance, but was released when his injury was found to be less serious than at first feared.

Todd Deep Pool Attracts the Attention of West Texas Oilmen

By FRANK GARDNER.

West Texas' attention this week was attracted to the Todd deep pool of north central Crockett county as a southeast edge well indicated record production for the area and a one-half mile west extension loomed.

Continental Oil Company and others No. 5-B J. S. Todd unit proved a one-quarter mile south and east spread of the pool and also showed for one of the largest wells when it tested natural flow of an estimated 100 to 150 barrels of oil hourly.

No. 5-B Todd is an east offset to No. 4-B Todd, record 3,480-barrel-per-day natural oiler. The new well is producing from crinoidal lime of the Strawn, lower Pennsylvania, which it topped at 5,785 feet, 3,296 feet below sea level and 84 feet lower than No. 4-B Todd. No. 5-B Todd cemented 7-inch casing at 5,792 feet. It showed main pay in oil-saturated lime from 5,818 to 5,895 feet, the total depth. Location is 660 feet from the south, 1,980 from the east line of section 29, block WX, G. C. & S. P. survey.

Extension Promised

South offset to its No. 4-B Todd had been staked by Conoco at No. 6-B Todd, 660 feet out of the northeast corner of section 32, block WX, See (OIL NEWS) page 6

Who'll Say "I Do" On Horseback?

Who are the bride and groom who will repeat their marriage vows in the horseback wedding at the rodeo tonight?

That is a question asked by many Midland people today—and not all of them of the feminine persuasion.

The identity of the couple is a closely-guarded secret during the days of preparation for the ceremony, an innovation in rodeo programs here.

Whoever they are, both the bride and groom will be on horseback, as will the minister and all members of the wedding party.

Gifts worth more than two hundred dollars have been contributed to the "mystery couple."

Regulatory Oil And Gas Decrees Are Announced

AUSTIN, Aug. 31 (AP)—Oil and gas regulatory decrees made public by the railroad commission today included gas proration in the Redessa field, retroactive exemptions from oil shutdown days, promulgation of rules for the Fig Ridge field and several miscellaneous orders. Allowable production during September of sweet natural gas in the Redessa field gave the Dees-Young sand 300,000 M. C. F. daily, the Gloyd sand 1,040,760 M. C. F. and the Hill sand 339,900 M. C. F. Exempted from all shutdown days of June, July and August were the C. M. Lusk Ramsey state farm oil wells Nos. 2, 3, 4, 5 and 6 in the Lochridge field, Brazoria county. The west Beaumont field, Jefferson county, was exempted from seven shutdown days in August and one in July, both months having had nine close-in days by the general allowable order expiring today. More Exemptions The Hardin field, Liberty county, was exempted from four closure days in August while the Ezzell field, Live Oak and McMullen counties, was not required to shutdown on the final closure day in August. Rules for the Fig Ridge field, Chambers county, provided wells should be drilled no nearer to each other than 83 feet with at least 467 feet to property lines. Proration was established on a 20-acre unit basis and operators were permitted to divide units on a 40-acre plan. Allowable production of the J. K. Hughes Oil company's Ed Smith No. 1 well in Long Lake field, Anderson county, was increased from 20 barrels daily to 37. The company was permitted to clear 1,500 barrels of crude produced to avoid physical waste. A special order permitted the recycling of gas from wells in the San Salvador field, Hidalgo county. Hearings were set for Sept. 9 on applications for increased allowable on the Wiegand brothers' W. C. Hill No. 1 well in Caldwell county and the Elling Oil Corporation's R. C. Appling No. 1 well in Darst Creek field, Guadalupe county, and proposed amending of the maximum gas-oil ratio rule for Harper field, Ector county.

Durocher Optimistic as Schedule Favors Dodgers in Dash to Wire

By HARRY GRAYSON NEA Service Sports Editor. NEW YORK. — What's the chance of a repeat of the 1920 world series? That 1920 series was at once the most spectacular and daffy of all series, unless one excepts the 1934 series when the Brothers Dean took charge. Cleveland's chances can be summed up in a word—swell. With Feller backed up by two better than fair pitchers, the Indians can't even talk themselves out of this one. Brooklyn's chances depend on two situations dovetailing, a consistent pace by the Dodgers and a slump by Cincinnati. The Reds, except for Walters and Derringer, are an ordinary club and neither Bucky nor Paul has been a ball of fire the last month.

"The schedule favors us; we'll win" says Boss Leo Durocher, above, who had active duty forced on him by an injury to Pee Wee Reese. Whitlow Wyatt, inset, is the man Durocher is counting upon to pitch the Dodgers to the flag.

DUROCHER OUTLASTS ENEMIES, CRITICISM LEO DUROCHER was a debatable choice as manager but he wound up being selected as the manager of the year for 1939. A guy with a million enemies in baseball, he has outlasted every criticism and has done a juggling job with a mediocre pitching staff that would make Fuji Fatsuyama, of the old Gus Sun circuit, turn green with envy. Durocher has one pitcher who has a right to take his pay-check on the first and fifteenth without blushing—Whitlow Wyatt. Wyatt, despite an average won and lost record, is the best finger in the National League. The Dodger hopes, characteristically enough, ride with a pitcher who spent 11 weeks last fall with his leg in a cast. True enough, the heel injury suffered by Pee Wee Reese is likely to keep the brilliant rookie shortstop out for the season but this won't be too great a calamity. Boss Durocher is still some shucks as a shortfielder himself. Leo would have preferred running the club from the bench during the stretch drive, but he has no alternative now, of course.

REDS WIND UP AWAY FROM HOME THE Dodgers are home practically the entire month of September and the Reds play only six games at home after Labor Day. This may tilt the scales against the Reds, if they're skidding as they enter the home stretch. A series between Cleveland and Brooklyn should be profitable, as any series is bound to be with one end played in the vast Municipal Stadium and spectacular as any series must be bringing two such clubs together. The Dodgers and the Indians—hold your hats, boys. Remember 1920—an unassisted triple play, a homer with the bases filled, a Dodger player nabbed for ticket speculation! Let's all pull for this one.

Jim Ferguson Inspects Cattle on Birthday

AUSTIN, Aug. 31 (AP)—Just turned 69 today, Jim Ferguson, key-stone of many a Texas political tempest, checked off another milestone of a still active life by inspecting cattle in the broiling sun. The twice governor of Texas was too busy to take note of the event, reserving what little celebration that was scheduled for a family dinner at his Austin home tomorrow. Asked if he felt to be 69 he quipped: "Just one year older than 68."

Hitler Orders German Army to Protect Rumania

BUCHAREST, Rumania, Aug. 31 (AP)—Adolf Hitler has promised to protect Rumania with the German army as he has been protecting little Slovakia, foreign minister Mihail Manoilescu told the nation tonight. (Slovakia, independent remnant of Czechoslovakia, is a virtual military protectorate of the Reich.) Even as the minister broadcast, confirming the supreme place Nazi arms are to occupy hereafter in this country as a consequence of the axis-dictated settlement of the Transylvania issue, most of the Rumanian army of 1,300,000 was being demobilized to make way for German armored divisions reported coming here to occupy part of this country's territory. Germany, said the foreign minister in a broadcast to the people, has given to Rumania an absolute military guarantee "unlike that ever given any other country in the world except little Slovakia." Manoilescu had just returned from Vienna—where Germany and Italy forced the decision that took 17,000 to 21,000 square miles of territory from Rumania. "The minute Rumania territory is violated," he said, "the Nazi army will shoot." But he added that this guaranty was "directed at no nation in particular."

German Commentators Claim Victory Over England Now in Sight; Results Of 12-Months of War Are Announced

BERLIN, Aug. 31 (AP)—Germany pulled the curtain tonight on a year of war and her military commentators declared the heightened roar of battle over England meant the "catastrophe" is approaching for "our last enemy." They said the Nazi air arm, after trying for three weeks to "soften" England for the final blow, was "preparing the final defeat." In those three weeks, Nazis said, 1,193 British planes and 99 barrage balloons had been destroyed, not including today's operations. The Nazi high command minimized efforts of the British raid on Berlin, in which high explosive and incendiary bombs were rained on the German capital during an hour and 37 minute alarm that kept the city's population clinging to air raid shelters. Nevertheless several apartment houses and business buildings were wrecked, the big Siemens Schuckert Electrical Equipment factory damaged and scattered fires started in the southeastern section of the city. One bomb fell in the courtyard of the Linden street fire department headquarters. (This is only four blocks east of the Wilhelmstrasse, on which the Reich chancellery, the foreign office and other important government buildings are located. Ten civilians were killed and 28 injured in a raid early Thursday on outlying districts. Enforce Blockade In the war at sea, the German high command reported that Nazi U-boats enforcing the "total" blockade of Britain sank three British merchant ships totalling 29,000 tons, one a 12,000-ton tanker, off the Hebrides yesterday. Germans, striking a tabulation of the results of 12 months of war produced this summary: 6,950 allied planes, in air battles and by anti-aircraft guns; 155 barrage balloons; 400 allied tanks; 10 warships sunk and 30 damaged by coastal batteries. Germany's losses in manpower were listed as 39,000 dead, 143,000 wounded and 24,000 missing, compared with 580,000 casualties in the first four months of the world war.

HUTCHINS WOULD PROHIBIT VOLUNTEER ENLISTMENTS

CHICAGO, Aug. 31 (AP)—Dr. Robert M. Hutchins, president of the University of Chicago, said today he favored reliance upon selective service for national defense to the point of prohibiting volunteer enlistments. "The whole effort in any selective service," he averred in an interview, "is just what the name implies—to put people where they belong. Volunteering defeats that."

Washington and Capitals Show Population Gains WASHINGTON, Aug. 31 (AP)—census figures disclosed today that Washington and the 48 state capitals had an average 1930-40 population gain of 10 per cent while many industrial cities declined in size. The figures are not yet detailed enough to show how governmental employment figured in gains of state capitals, but Washington's 36 per cent jump to 653,153 was attributed almost wholly to increases in federal payroll. Among state capitals there was a 62 per cent rise that brought Austin, Tex., to 86,311; a 50 per cent boost bringing Tallahassee, Fla., to 16,097; and a 40 per cent leap to 65,434 in the count of Phoenix Ariz.

Texas Has Deficit Of \$24,000,000 at End Fiscal Year

By HOWARD C. MARSHALL

AUSTIN, Aug. 31. (AP.)—A varicolored picture of state government finances was presented today as the fiscal year ended. Experts generally countered unfavorable with favorable aspects.

There was a deficit of approximately \$24,000,000 in the general revenue fund and a strong probability it would grow by \$3,000,000 because of commitments already made. It had mounted \$5,000,000 in the last 12 months.

The problem of financing old age pensions as the people seem to want it financed, matching individual contributions for teachers' retirement, aiding dependent children and helping needy blind remained unsolved.

But on the other hand, considering all funds, of which there are about 100, there was an overall cash balance of \$18,000,000.

Pension Deficit Declines

The deficit in the Confederate pension fund, \$3,052,000 last September 1, had decreased to approximately \$2,000,000, and bade fair, due to a high death rate among pensioners, to continue to decline.

The final installment of \$180,000 to be paid September 10 in wipe-out, a bank loan of \$2,300,000 a few years ago to avoid a cut at the time of old age pensions.

In 1943 the last of the famous \$20,000,000 in "bread" bonds will have been paid off, probably releasing \$2,750,000 a year revenue now allocated for that purpose.

Regarding the general fund deficit, not everyone views it with alarm. Some think it a good thing to have hanging over members of the legislature as a restraint on expenditures. They suggest revenue is adequate to eliminate it if appropriations are curtailed.

Others would levy moderate new taxes gradually to put the fund on a cash basis.

The general fund deficit exists, despite an overall cash balance, because so many funds, all in the treasury, are ear-marked for special purposes. Money in these funds may be used to meet general government expenses.

Plane Crash--

(Continued From Page One)

He said Dr. Gibson had collected what remained of 12 bodies, five of them women.

"There just wasn't anything like a whole body there in that blackness," Rhodes said. "I saw the body of the pilot, one arm was blown away and his body crushed."

Dr. Gibson said he had not even considered when an inquest would be held. "We've got to wait for daylight and get out there to see what the scene really looks like. It is terrible."

Find Most Mail.

All or most of the mail aboard the plane had been collected tonight as officers used searchlights over the area.

The plane got over the first range of the Blue Ridge, Rhodes said, and crashed before reaching the next. It did not hit a peak, he reported.

"You couldn't see this afternoon or early tonight," Rhodes said, "but as we stood out on the field, it cleared and through the darkness came the blinker beacon erected atop a mountain to guide planes. That wasn't far from the scene."

Bishop said telephone service in the area was disrupted because of the weather. The road was a mass of mud.

Indication that the pilot, Capt. Lowell Seroggins of Washington, may have become lost in the cloud-burst and fog came from a report of Paul Rogers, a lumberman who lives near Hillsboro, Va., and who told Rhodes that he saw the plane heading west, a few minutes before it crashed.

The scene is equidistant between Lovettsville and Hillsboro, about seven miles from each.

Residents described today's rain as the worst in seven years.

"You simply can't imagine such a scene of disaster and wreckage as that shot out there in the Blue Ridge," Rhodes said.

Roosevelt Says Democratic Program Has Improved Conditions for Wage Earners, Farmers and Business Men

HYDE PARK, N. Y., Aug. 31. (AP.)

—President Roosevelt said in a Labor Day statement tonight that wage earners, farmers and business men could view with satisfaction the improvement in their lot and that of the nation "in the last seven years."

That improvement has come, he asserted, "largely as a result of a far-reaching economic and social program conceived in democratic principles and dedicated to the common good."

Because of the defense program, Mr. Roosevelt said, this Labor Day calls for a more than ordinary observance, and for the dedication of labor, management, farmers and government to a common purpose of protecting and continuing "this great democracy."

He assured wage earners that their contribution would not be "at the cost of lowered labor standards or impaired social advances." These wage earners, he said, are well aware of the great economic and social gains they have made "in the last seven years."

Material and economic advances since 1933, the president said, "have been accomplished in a democracy, for a democracy and by a democracy and they can only be retained and expanded through a continuation of the principles and practices to which we as a nation have always been committed and which we are determined shall be unchanged."

Lists Gains.

Among the gains, the chief executive noted:

Nine million more jobs now than in 1933 in non-agricultural employment, aside from work for more than 2,000,000 additional persons for the WPA, CCC and NYA.

An increase in payrolls of manufacturing industries in the same period by "the enormous weekly total of \$110,000,000."

Cash income of American farmers \$3,000,000,000 greater last year than in 1932, exclusive of \$807,000,000 in benefit payments. Promises of a further increase this year.

Combined net profits of \$648,000,000 for 400 leading industrial firms in the first six months of 1940—"a very large gain over last year" and a contrast with 1932 when "most corporations were showing little or no profit."

"These are material gains of which we may well be proud," the president asserted. "And they have been accompanied since 1933 by such social advances as are embodied in the social security program, for which this and future generations will always be thankful."

Willkie Says War Resources Board Opposed Granting Emergency Powers To Existing Executive Agencies

RUSHVILLE, Ind., Aug. 31 (AP) Declaring "we must not set up a dictatorship to fight dictators," Wendell L. Willkie told newspaper men today a confidential report of the now disbanded war resources board had opposed granting emergency wartime powers to existing executive and quasi-judicial agencies.

The republican presidential nominee recited what he said were quotations from the report in renewing his demand that President Roosevelt give his views on the Overton-Russell amendment to the senate subscription bill.

That amendment would permit the government to seize plants and other facilities needed for defense if the secretaries of war and navy could not reach agreements with the owners.

The PAYOFF

Although this kind of weather certainly does not make a person think of football to a great extent, here are a bunch of interesting facts picked up that it will be well for grid fans to tuck up in a convenient spot.

Rules for recording football statistics have been promulgated by a special committee of the N.C.A.A. Football Rules Committee, headed by George F. Veenker of Iowa State College.

Pointing out that a great difference of opinion existed in interpretations and rules, the committee, consisting of Venkt Fielding H. Yost of Michigan and Harry O. Stuhldreher of Wisconsin, drew up a set of instructions to permit this statistical work to be standardized.

The committee's rules follow: FIRST DOWNS

A first down shall be recorded only when the yardsticks are ordered forward by the officials. Consequently, no first down is recorded when a touchdown is scored.

A lateral pass is always a component of the ultimate play whether it precedes or follows that play.

NET YARDS RUSHING

Rushing yardage is measured from the line of scrimmage to the point where the ball is declared dead.

The rushing total is a net figure. All rushing losses must be recorded to account for the net figure.

All gains on lateral passes which originated or grew out of a rushing play are included in rushing yardage.

FORWARD PASSES

Forward pass gains are measured from the scrimmage line to the point where the ball is declared dead, to include both length of pass and running advance after completion.

Loss from a completed forward pass which did not advance the ball to the scrimmage line is a yardage charge against passing gain. (Note: An item is included on the standard form "Forwards completed behind line.")

Record any loss by a player apparently intending to pass but thrown behind line as a loss by rushing. He is not a passer until he has thrown the ball, and he remains at all times the option of running.

Interception returns are measured from the point of interception to the point where the ball is declared dead.

There is no pass completed by penalty. A gain through interference on a passing play is a penalty against the defending team and the yardage involved against the defensive team. No pass attempted or completed will be recorded in the summary.

KICKS AND KICK RETURNS

Punts are measured from the line of scrimmage to the point of ultimate advance if the ball remains in the field of play or goes out of bounds. (Note: "Ultimate advance" is the point where ball goes out of bounds, is downed, or is recovered by the defense to attempt a run-back.) In event of a receiver's

muff, the punt is measured to point of recovery.

When a punt goes over the goal line, distance of the punt is measured from the line of scrimmage to the 20-yard line only. (Note: This would be measured to behind the goal line in event of legal return from back of goal line.)

Like punts, kickoff distances are to be recorded by calculating the distance from the point kicked to the point where the opponent receives ball, or where it is recovered by the kicking team. Thus, an opening kickoff which goes in the end zone and is not returned is recorded as having gone 40 yards, since it will be put in play on the 20-yard line.

Punts blocked are included in item "Number of Punts" and the yardage of a partly blocked kick is included under "Punts Average." (Note: When a blocked punt is recovered by the defense the yards involved will be treated as a kick run-back. When the kicking team recovers and advances a blocked punt the yardage involved will be recorded as a gain or loss by run from scrimmage. In any event the defense is credited with a blocked kick.)

Only the number of punts and kickoffs which the receiving team actually attempts to return are included under kick returns. The return will be measured from the point the returning player actually gains control of the ball to the point where the ball is declared dead unless the ball is lost, in which event measurement is to the point of the fumble.

On attempted field goals, since the goal posts are 10 yards behind the goal line, record the distance of attempted field goals as the distance from scrimmage line where ball was put in play to the goal line and add ten yards.

PENALTIES

All penalties and penalty yardage are charged to the team regardless of whether it had possession of the ball.

While eating a hard-boiled egg, Boone Smith of Richlands, Va., was surprised to find a rifle bullet in the yolk.

COWBOYS MEET ODESSA DRILLERS HERE THIS AFTERNOON AT 3

Defeat Pampa in Final Game of The '40 Season

PAMPA, Sept. 1 (Special)—The Midland Cowboys made it two in a row here tonight when they broke a tie in the eighth inning and captured a 5-4 decision.

"Lefty" Lucas went the route for the visitors, limiting the Oilers to six hits. Three errors by his mates gave the locals as many runs.

The Cowboys return home Sunday to meet the Odessa Drillers in a game that will start at 3 o'clock. Two games Monday afternoon, the first starting at 1:30, will wind up the season.

After Pampa had taken a two run lead in the first inning tonight, the Cowboys came back with three in the second and one in the third to gain a lead they never relinquished.

However, the Oilers picked up one in the sixth and another in the seventh to tie up the score before the visitors got one in the eighth that sewed up the game. Lucas retired the side the ninth to gain his eighteenth victory.

Championship of WTNM Remains To Be Decided

DALLAS, Aug. 31 (AP)—The end of the West Texas-New Mexico League season is only 48 hours away but before tonight's games it was not certain which team would finish first, second, third or fourth.

At the end of 136 games, Amarillo and Pampa tied for first place, were only four and one-half games ahead of Borger, in fourth. In between was Lubbock.

League President Milton Price of Dallas said the most definite statement he could make at this time was that the championship playoffs will open Wednesday "somewhere and between somebody."

Texas Interscholastic League Grid Warriors Begin Fall Drive Monday

By HAROLD V. RATLIFF Associated Press Staff

The Texas Interscholastic League's legions of brawn begin the drive down the gridiron trail Monday.

From Panhandle to Gulf, from pine woods to the Rio Grande the potential Baughs, O'Briens and Kinkaid swing into a grid that extends over a third of a year.

Quite a robust offspring of the Interscholastic League is football as played today by some 20,000 boys. It is the feature of the year—the state's mightiest sports show.

Monday marks the start of the twenty-first campaign with 774 schools boasting football teams.

The Class AA division, which plays to a state championship, has 104 teams. Class A, which decides regional titles, has 286. Class B, which plays to bi-district titles, shows 255. Six-man football, which determines district championships only, has 129 schools.

The field is dotted with outstanding teams as the decks are cleared for a simultaneous start. Under league rules no school can open fall training until Sept. 1.

Amarillo in the Panhandle, Wichita Falls in West Texas, Sherman in North Texas, Longview in the east, Waco and Corsicana in central Texas and Austin and Robstown in the south are some of the standouts.

Lubbock, the defending champion, returns with a potentially strong team but on the basis of material does not look equal to Amarillo, a squad expected to compare favorably with the title outfits of a few years ago in this Panhandle city.

Conn-Pastor Match Described as Lulu Of Boxing Program

By SID FEDER NEW YORK, Aug. 31 (AP)—A fight between a pastor and a Lulu of boxing was described as a Lulu of boxing today.

The postponement of the fight from mid-August, accompanied by a switch in locale to the Polo Grounds to Madison Square Garden, just about wiped out all of promoter Mike Jacobs's rosy dreams to start his turnstiles a-clicking with a September fight between the victor and the Brown Bomber.

There has been talk that Jacobs still is toying around with the idea of putting on a heavyweight title fight in October, possibly in Los Angeles, between Louis and Madcap Maxie Baer, or, if Madcap Maxie can't be persuaded to go to the post, against Friday's winner.

However, those "in the know" advise you not to bet the family jewels on it.

The betting men have stored their charity back in mothballs, and the July 1-2 odds favoring Conn, which were offered before rain—and the absence of interest by the customers, have become just something pleasant to remember, like last Thanksgiving's turkey.

BABE RITCHE WILL REFEREE TITLE BOUT

ODESSA, Aug. 31 (AP)—Deputy commissioner Tony Slaughter tonight approved Babe Ritchie of Lubbock, former state heavyweight boxing champion, as referee for the state featherweight title bout here next Friday night between Henry Hook of Indiana and Noah Valadez of San Angelo.

Record Field Anticipated for Invitation Tournament Here

Arrangements were completed this weekend for the greatest invitation golf tournament Midland has ever held, starting Friday and lasting through Sunday.

It will be the first invitation tournament held on the Country Club since completion of green grasses and fairways. The Midland course is now recognized as one of the best in West Texas since the many improvements have been made.

Qualifying scores may be posted any time during the week with medalist scores to be posted Friday only. Friday night at 7:30 a big barbecue dinner and Calcutta Pool sale will be held at the clubhouse.

More than \$500 in prizes have been purchased and will go to the winners. As many flights as are necessary will be played. Contestants in the first five flights will play 18 holes, finals excepted, while the lower flights will play only nine holes, finals excepted.

Some of the outstanding golfers of the state, including Harry Todd of Dallas and Red Roden, along with top golfers of New Mexico, have indicated they would enter the tourney here. "Spec" Stewart of Roswell, New Mexico champion, has tentatively entered.

Entrance fee has been set at three dollars. Winner and runner-up in each flight, consolation winners and medalist will be awarded prizes.

All the top flight golfers of the Permian Basin have indicated they would compete in the tournament, thereby assuring the best golf ever witnessed here in a tournament.

Southwest Conference Football Officials Discuss 1940 Rules

DALLAS, Tex., Aug. 31 (AP)—Football officials and coaches from the southwest gathered here today for their annual rules interpretation session.

Chief topic of lobby debate at the gathering will be Texas A. and M.'s chances of winning the southwest conference championship for the second consecutive season.

The Aggies and their rivals, as well as most other college teams in this section, will open fall training programs Thursday.

DETAILED SURVEY OF TEXAS OIL NEARS COMPLETION

AUSTIN, Aug. 31 (AP)—A detailed survey of Texas' vast oil and gas resources for national defense purposes may be completed in September, the Railroad Commission oil and gas division reported today.

Suggested by Commission Ernest O. Thompson, a colonel in charge of a machine gun battalion in France during the World War, the inventory will include maps locating the state's 93,000-odd oil and gas wells, pipelines, railroads, highways and refineries.

Bud Kennedy Is Rookie Of Year, Mack Says

PHILADELPHIA, Aug. 31 (AP)—The outstanding event of the American League this year, says Connie Mack, is the rise of Robert (Bud) Kennedy, young rookie third baseman for the Chicago White Sox.

Others may marvel at the failure of the New York Yankees to be in first place, or wonder what happened to Connie Mack's own Athletics, but the venerable Philadelphia manager prefers to discuss the Windy City youngster's feats.

Mack rates Kennedy above both Ray Mack and Lou Boudreau, great second base combination of Cleveland. He's "the rookie of the year," said Connie.

KILGORE, Aug. 31 (AP)—J. Malcolm Grim, president of the Kilgore baseball club, has announced that unless someone else takes over the Kilgore franchise for next year the city will not be represented in the East Texas League.

"I am through with baseball," Grim said. He said Kilgore's working agreement with the St. Louis Cardinals' organization had not been renewed.

36th DIVISION MAY TRAIN AT BROWNWOOD

AUSTIN, Aug. 31 (AP)—A reliable source reported today the 36th division of the Texas National Guard would train on a 2,000-acre site near Brownwood when and if it is called for a year's active duty by the president.

Although members of the Adjutant General's staff here were non-

committal, it was understood the war department is nearing completion of an agreement for leasing the north central Texas site.

Half estate, one-mile south outpost to the Soma pool, is fishing for bit, bottomed at 1,372 feet in anhydrite. It topped Yates sand at 952 feet, datum of plus 1,451, which is said to be not unfavorable. Location is 450 feet from the north, 1090 from the east line of section 65, block 1, I. & G. N. survey.

One and one-half mile south extension of production on the Upton county side of the Gulf-McElroy pool of Crane-Upton was presaged by Texas Pacific Coal & Oil Company No. 1 Virginia Eddleman (Yeager & Armstrong) as it made one bailer of heavy oil hourly while drilling above the horizon in which main pay is expected. First oil came in at around 3,000 feet, and increases continued to 3,050 feet, depth at which the prospect last was reported drilling. It is located 2,200 feet from the north, 1,320 from the east line of section 208, block F, C. C. S. D. & R. G. N. G. survey.

Plymouth Oil Company No. 1 Richard Levy et al, northern Pecos county wildcat, originally slated to go to the Ordovician, halted drilling at 6,473 feet in Devonian chert because of slow progress and was plugged back to 4,072 feet in the lower Permian. Operators cemented 5 1/2-inch casing at 3,999 feet and now are swabbing hole 800 feet from the surface prior to testing and possibly acidizing zone which showed oil. No. 1 Levy is 468 feet out of the southwest corner of section 104, block 8, H. & G. N. survey.

Stockton High Gains Test Taubert, McKee & Siemoneit No. 1 Mrs. Virginia W. Crockett, scheduled Ordovician test in the McKee area near Imperial in northern Pecos drilled plug from 9 5/8-inch casing cemented at 2,902 feet and is drilling ahead below 2,905 feet in Permian lime. Pipe was set through flowing sulphur water encountered from 2,490 to 2,505 feet. Some minor shows of oil also were logged both above and below the sulphur water, but they will not be tested. Location of No. 1 Crockett is 660 feet out of the southwest corner of the Crockett tract in section 4 1/2, block 3, H. & T. C. survey.

On the "Fort Stockton high" 17 miles northeast of Fort Stockton in western Pecos, D. Peckle of Granhalls will drill No. 1 E. J. 40-Hour Week for Defense Work Is Government Plan

WASHINGTON, Aug. 31 (AP)—The defense commission, in a pre-Labor Day statement, endorsed today the 40-hour work week in defense industries and urged strict compliance with all labor standards laws.

The statement also recommended adherence to local custom with regard to the payment of overtime wages for work in excess of 40 hours, and work done on Saturdays, Sundays and holidays.

The pronouncement was the first from a government agency in recognition of next week's annual labor holiday. President Roosevelt will deliver his Labor Day message in an address at Chickamauga, Tenn., Monday.

Organized labor's own attitude toward the defense program and work standard is expected to be discussed in addresses Monday by John L. Lewis and William Green, heads of the CIO and AFL. Green will speak at a labor meeting in Denver and Lewis will broadcast (NBC 3 p. m. CST) from Washington.

J. W. Neal, Once Head of Coffee Company, Dies

HOUSTON, Aug. 31 (AP)—Funeral services for J. W. Neal, business man, philanthropist and civic leader, will be held tomorrow.

Neal died today after an illness of more than a year. He was born at Fountain Run, Ky., on January 12, 1865.

When he was 20 he went to Nashville to work with a wholesale grocery firm and became interested in the coffee business. It was in 1896 that he and Joel Cheek organized the Cheek-Neal Coffee company, which made Maxwell House coffee internationally known.

In 1903 Neal visited Texas in the interests of the coffee company. While he was in the state, he predicted Houston would become the largest city in the southwest and, confident of his prediction, moved his family here. He opened a branch of the Cheek-Neal Coffee company.

His company was sold to General Foods in 1928. Not wishing to retire from business, Neal bought the controlling interest in a bank and became chairman of the board.

Charge Farmer With Slaying His Estranged Wife

HENRYETTA, Okla., Aug. 31 (AP) Critically injured in fighting arrest, Fred Berry, 45-year-old farmer, was charged with murdering his 32-year-old estranged wife today after a brief series of violent episodes.

Mrs. Berry was shot four times, an official was slightly wounded and Berry was laid low with an iron pipe. He was given an even chance to recover.

Police Chief Tom Liddell gave this account: Berry drove to a house a mile west of here where his wife was staying, called her to the door and shot her three times in the chest.

Wrecks Car The farmer put the wounded woman in his car and wrecked it at the edge of town. Her screams attracted passersby who called police and an ambulance.

A motorist attempted to take Mrs. Berry to the hospital in his car but was halted by Berry who flourished a pistol and chased him down the highway. Berry returned to the scene and again shot his wife in the chest.

Policeman Homer Howard and ambulance driver Alvie Buchanan arrived and the officer ordered Berry to surrender. Berry fired, the bullet grazing Howard's head. Howard shot Berry through the left arm. Buchanan felt the farmer with a pipe and took the couple to a hospital where Mrs. Berry died.

Woman Shot to Death Near Corsicana, Texas

CORSICANA, Aug. 31 (AP)—Officers said tonight they still were without clue to the identity of a woman who was found shot to death on a side road near here yesterday. More than two thousand persons viewed the body in an effort to identify her.

The body of the woman, an expectant mother, was trussed in a gown, sheet, blanket, and comfort, when found. She was about 25 years old.

There was a wound from a small caliber bullet in her temple.

Barron lived in Midland about 12 years, coming here from Mt. Vernon.

Survivors include his widow, four daughters, Mrs. C. E. Majors, Paris; Mrs. R. W. Cumberth, Mrs. Walter Wingo, Mrs. J. D. Monroe, all of Midland; four sons, R. J. Barron, Parris; B. A. L. G., Edwin, R. J. Barron, all of Midland; and one brother, M. L. Barron, Mount Vernon.

Tanks Crash Through Roof to Kill Five Persons

ATLANTIC CITY, N. J., Aug. 31 (AP)—Two tanks filled with 40,000 gallons of water crashed through the roof of a bath house on the boardwalk today, killing at least five persons and injuring ten.

The dead: Mrs. Fannie Arbor, 42, Philadelphia. Mrs. Sophie Constain, 55, Philadelphia. Hyman Shutoff, Philadelphia. Two unidentified women.

Masses of Labor Day weekend visitors swarmed around the scene on the boardwalk watching police and firemen striving to recover bodies from the wreckage.

Police expressed fear there might be more bodies in the basement, which was flooded with water and unreachable at a late hour tonight.

Dent Removers WE RESTORE—VALUE!

When we expertly remove Dents from car body or fenders, we help to increase car-value! A car that is banged and battered, loses value—both in trade-opinion and in everybody's estimate. We charge little for removing unsightly Dents and sheet-metal injuries. Drive in—and save a lot!

New Wildcatting Activity Holds New Mexico Spotlight in Week

HOBBS, N. M., Aug. 31. — New wildcatting activity held the spotlight again this week in Southeast New Mexico as tests were started in the Dayton area of Eddy county and an outpost was staked on the Eddy side of the Maljamar pool, which lies chiefly in Lea county. A mile and a half southwest of Martin Yates, Jr., et al No. 1 E. L. McCally, discovery producer of the Dayton area, Yates and Bassett & Birney et al have spudded their No. 1 Fedell. Last reported drilling below 240 feet in red shale, No. 1 Fedell is located 330 feet out of the northwest corner of section 35-18s-26e. Another wildcat, some 10 miles west of Lake McMillan in the Dayton area, has been staked by Dooley & Haynes at No. 1 Martin, 1,980 feet from the north and west lines of section 9-19s-25e. West of Maljamar Bedingfield & Walker No. 1 Seale, four miles southeast of Lake McMillan and located in the southeast corner of section 10-20s-27e, is drilling below 756 feet in anhydrite. Three-quarters of a mile west of Emperor Oil Company production on the Eddy side of the Maljamar pool Skelly Oil Company has staked No. 1-B J. S. Lea, 1,980 feet from the south, 660 from the east line of section 23-17s-31e. New test at the Root area of Eddy has been started by Western Production Company in the No. 2-C Keely, 660 feet out of the northwest corner of section 13-17s-29e. It is drilling below 230 feet in sand. Grayburg Producer. Wildcat failure for Eddy was seen at Weathers et al No. 1 Flood, 660 feet out of the southeast corner of section 24-18s-23e. It was abandoned at total depth of 1,740 feet in lime after showing only sulphur water, topped at 1,470 feet. Producer for the Grayburg pool of Eddy was completed by Premier Petroleum Company at No. 7-F Beeson, 990 feet from the north, 330 from the east line of section 31-17s-30e. Its initial production was 54 barrels of oil in 24 hours flowing through 1/4-inch choke on 2-inch tubing set at 2,785 feet with packer at 2,649 feet. The well was re-shotted with 120 quarts of nitro from 2,830 feet, where first pay was found, to 2,845 feet, total depth, as follow-up to initial charge of 120 quarts from 2,820 to 2,845 feet. News Off Rig has been moved off of A & M Petroleum Company No. 2 State, Eddy wildcat 2,310 feet from the south and east lines of section 15-21s-27e. The test had reached a depth of 350 feet in lime. It is understood that rig has gone to R. J. Johnson No. 1 Harbold, test in section 26-17s-27e, which has been shut down for some time at total depth of 555 feet. J. A. Harris No. 1 Josey, wildcat 330 feet from the south, 2,310 from the east line of section 19-20s-23e in Eddy, at last reports had drilled to 520 feet in hard lime. In the northeast part of Eddy's Loco Hills pool, Aston & Fair No. 5-B State has been completed on a pump for production of 95 barrels of oil and 65 barrels of water per day. It topped pay at 2,858 feet and is bottomed in sand at 2,868 feet. The well was shot with 70 quarts from 2,800 to 2,867 feet. It is located 660 feet from the south, 330 from the west line of section 32-17s-30e. Lea County Wildcats Ventura Oil Company No. 1 H. L. Lowe, deep test in northeastern Lea, was 50 feet short of contract depth as it drilled to 5,950 feet in hard lime. The well topped solid lime high structurally at 4,810 feet, 747 feet below sea level, but has found uniform hard, dense lime section with only occasional streaks of oil stain-

50 Years Spent in Same Home

Lum Daugherty of Midland today has the peculiar experience of celebrating his 50th birthday in the house in which he was born. The house, built in 1886, on the "outskirts" of the city, stands now at 301 North Big Spring street, only a half dozen blocks from the heart of the city. Except for nine months spent in the army during World War I, Lum has spent most of his life in Midland. He spent two months at Camp Cody in Deming, N. M., and in Camp Dix, Trenton, N. J., then seven months in the front line trenches, "escaping without a scratch." Lum owns ranches in Winkler county, Lea county, N. M., and in Arizona. Several producing oil wells have been discovered on the ranch in Winkler county. A twin sister, Mrs. Fred Leck, who lives in New Mexico, was unable to be here today for the birthday celebration, being confined to an Albuquerque hospital. He is pictured above with his mother, Mrs. Mary Daugherty, who recently celebrated her 90th birthday.

Stock Market Holds Gain Despite Selling

By FREDERICK GARDNER NEW YORK, Aug. 31 (AP). — The stock market held its own today, despite extensive profit selling on Friday's bulge, and the majority of leaders finished a general recovery week pointing slightly higher. Bolstering the list, brokers said, was growing confidence of financial quarters that the British would be able to ward off the Germans; increasing optimism for the business outlook at home, and hopes the national tax program and other constructive legislation would be pushed through congress at an early date. The aviation group exhibited moderate strength throughout, but pivoted on steels, motors, rails, utilities, oils and coppers milled over a narrow range. The Associated Press average of 60 stocks succeeded in showing a net advance of 1.1 of a point at 43.6, and on the week was up 1.3 points, and the second successive weekly gain. A month ago the composite stood at 42.9 and a year ago at 46.7. The day's activity was accentuated by the appearance of a number of large blocks of low-priced issues. The result was a turnover of 363,890 shares, best for a Saturday since

Blitz-Year Ends; Burden on U. S.

Can it be only a year ago that the world's peace machinery thudded to complete breakdown, and war spread like an ugly blot over the face of Europe? Can a single year have so changed the world?

Yes, only a year. On Sept. 1, 1939, Hitler's legions crossed the border into Poland. On the 3d Britain and France declared war, the effort to make Hitler draw back having proved useless. On the 10th Canada went in.

So short a time ago, and yet so long. We almost forget the spark that set it off. It was the argument over Danzig and the Polish corridor, a not insoluble problem which the slightest good will would have peaceably settled. The cause lay deeper, but the immediate spark was Danzig and the corridor.

Within a month Poland lay prostrate. Within two months the United States had repealed the embargo on arms that had been designed to keep war aloof. Within three months Russia had attacked Finland, and within three more had overpowered her. The eighth month saw Norway and Denmark invaded and conquered. The ninth saw Belgium, Luxembourg, and the Netherlands invaded; the 10th saw the surrender of France and Italy's entrance into the war. The 11th month saw Russian seizure of the three Baltic states, and the final month of the year found England herself at death grips in defense of the island empire.

The same 12 months have seen the United States turn resolutely to arming itself and to building a water-tight dike of defense around the New World. Sparks of war economy and psychology have leaped the ocean and burn brightly in the United States despite its unshaken resolution to keep clear of the European holocaust.

Perhaps never in history have such tremendous changes come in a single year. The tempo of human affairs has speeded up almost beyond understanding or endurance.

We do not know what another year will bring. But we know it is no longer possible merely to float on these tremendous tides.

Defense against dynamic forces must be dynamic. We have liberty to preserve, and a free way of life and living; so we must be strong. We have a future to build, the gateways to a brave new world to open; so we must be wise.

Four Speakers Now Signed by Town Hall

Four speakers, including Cornelius Vanderbilt Jr., have been signed by Midland Town Hall club on its lecture series this year, officials today announced. Others include Hawthorne Daniel, James Gheen, and Ella Enslow, the first woman selected to speak to the group.

Daniel will open the lecture series Sept. 26. Dates for the appearance of a number of other speakers will be determined later.

A Town Hall membership drive opens this week. Meanwhile payment of annual dues is being accepted.

OPTOMETRIST MOVES.

Dr. W. L. Sutton, optometrist, has moved his office from the Petroleum Building to the ground floor of Hotel Scharbauer on S. Loraine street.

P. D. Moore, Midland oil man, heads Town Hall as president in this its third year.

Every Cow Hand in this area is invited to attend Bible lesson Sunday, 10 a. m., at City Hall on "Majesty of Labor." (Adv.)

LOVE ON THE LINE

BY PAUL FRIGGENS

CARRIE GOES TO A DANCE

CAST OF CHARACTERS
CARRIE LANE—an eastern girl who came into the frontier west to find a home.
MARK DEUEL—a homesteader who keeps his business to himself.
ASHTON OAKS—a land agent, with town lots to sell.

YESTERDAY, Ashton Oaks follows Carrie to her claim, tries to interest her in buying town lots, interest her in buying town lots. When she refuses, he drives away, she nor Deuel has heard the last of it. Late that night, Newt Gale sees a figure crouched in the darkness near the land office, recognizes Oaks.

CHAPTER VI

MARK went to bed but he couldn't sleep after leaving Carrie Lane. There in the shadows, she had stood close to him, called him Mark. "Mark, I am afraid, terribly afraid," she had said. And he had wanted to take her in his arms, protect her. Now, he could imagine her near him again, and saying, "Mark, Mark," over and over. He could imagine he was kissing her and telling her not to worry, that everything would work out all right, that he would see life would always be all right for Carrie Lane.

All through the next day, Mark pictured Carrie Lane, heard her calling his name, until it seemed he could not wait another hour to see her. Even Ma Parmley noticed his preoccupation at the supper table and promptly laid it to Carrie Lane, loudly—all of which didn't help Mark's embarrassment before the other homesteaders.

Saturday, Mark saw her, late in the afternoon as he was passing the hotel. His nerves tingled. She had come to town to stay with the Taylors. Her saddy would be completed Monday and she would move in.

"Might be a long time again before you'll see me," she told Mark jokingly, as he stopped, apparently casually, to talk with her and the Taylors.

"Doesn't that call for some sort of celebration, then?" Mark asked, instantly seizing his opportunity. "There's a dance here tonight over the store. I'd like very much to take you—that is, if it's all right with the Taylors."

Mark marveled afterward that he was able to say all this so quickly when his heart seemed to pound till it hurt. He had wanted to call her "Carrie," too, but somehow he couldn't quite bring himself to it.

"All right with us," Mrs. Taylor raised her brows. "Wouldn't be all right with us if you didn't." She winked at Ed, who promptly reminded his wife the Taylors were going to the dance, too, if Mrs. Taylor could "scare up a clean shirt" somewhere for him.

CARRIE and the Taylors were ready and waiting at Sioux Springs House when Mark came for them. Carrie wore the same white dress she had on that first day Mark saw her. Looking at her, Mark saw speechless for a minute. "You sure look nice," he told her, awkwardly.

The Taylors had put on their Sunday clothes and they looked little like the homesteaders who had come to town earlier that day. Mark's vest, white boiled shirt and gray suit had wrought as great a change.

Carrie was happier than he had ever seen her as they walked down Main Street to the dance hall over Bill Williams' general store. Together they made a striking picture—Mark, tall, imposing, handsome; Carrie on his arm, gay, laughing, bonneted head held high. Intuitively denim-clad homesteaders and booted freighters reached respectfully for their hats as the couple passed, gathered in curious little knots in their wake.

The party was well under way when Mark led the way up an outside stairs to the low-ceilinged dance hall. A solitary fiddle whined below the din of dancing and conversation. Mark recognized the "Arkansas Traveler."

The small room was hot, crowded. Lanky, awkward young "soddies" lined the dance floor, packed to overflowing. Carrie saw quickly the men outnumbered the women three to one, felt every eye upon her.

They swung out into the jostling, milling crowd. Carrie in Mark's arms—for the first time. It was unbelievably thrilling. "Mark," Carrie smiled up into his face, "I hope we get along better than some of the couples I see here tonight." She tossed her head, indicating a bewhiskered freighter who was stomping about the floor pumping his partner's arm for dear life. And there were more like him. They laughed together. The noise grew louder and louder, they moved faster and faster, bumping, shoving, twisting, dodging. Never had Carrie attended a dance like this and yet, never had she been happier.

They came back to the Taylors breathless, Carrie flushed, wilted; Mark perspiring, more handsome, Carrie thought, than ever. "Well, bombed Ed Taylor, 'guess it's safe for us to tackle, now that you and Mark got out alive," and added, "but don't think, Mark Deuel, you're gonna have all them dances to yourself." He winked broadly as the solitary fiddler, mounted on a box at the end of the room, struck up again with "Devil's Dream" and the din was resumed.

THEY danced till midnight, Mark and Carrie, danced waltzes and two-steps, and the schottische and the square dance, whirling until it seemed they might drop, and loathed every precious minute of it. Mark holding Carrie in his arms, drew her closer on the last waltz, till he felt the sweetness of her golden hair against his cheek, her face close to his. Somehow, Mark knew intuitively Carrie Lane was as tense, breathless as he.

And then it happened. It was a tag waltz. Mark felt a heavy slap on his shoulder and turned to face Ashton Oaks. Instantly, Mark saw the man was drunk, reeling. He tried to ignore the agent, but it was too late. Carrie saw him, too, went white.

"Sorry, my dance," Oaks said through thick lips, and moved between Carrie and Mark. "Sorry, but it isn't," said Mark quietly, trying to move out onto the floor again. Oaks showed Mark aside roughly, taking Carrie in his arms. Instantly, the other dancers, sensing trouble, drew back, left the three conspicuously in the center of the floor.

The music screamed on, but the room grew quiet, tense. "Oaks," Mark whispered on him, "if you are a gentleman, you will please let my partner alone."

Mark moved to lead Carrie from the floor. It was the least he might have said, but it was too much. Grasped Carrie tighter, Oaks stood there for a second, staggering, sneering. Then he said it, so loud he could be heard across the room. "Your partner? You might be interested to know, Mr. Deuel, I spent the afternoon with her out at Rock Creek."

Mark never recalled exactly what happened after that. He lunged in blind fury at Ashton Oaks, fists swinging, seizing him by the throat, while Carrie, screaming, ran back to the Taylors. The crowd closed in and it was over as quickly as it began. Panting, his collar torn open, Oaks was hurried from the dance hall by brawny homesteaders. The fiddler struck up "Devil's Dream," and some one yelled, "Supper—come and get 'fore we throw it out!" Carrie and Mark were caught in the rush hall over Bill Williams' general store. Together they made a striking picture—Mark, tall, imposing, handsome; Carrie on his arm, gay, laughing, bonneted head held high. Intuitively denim-clad homesteaders and booted freighters reached respectfully for their hats as the couple passed, gathered in curious little knots in their wake.

The party was well under way when Mark led the way up an outside stairs to the low-ceilinged dance hall. A solitary fiddle whined below the din of dancing and conversation. Mark recognized the "Arkansas Traveler."

Surprise Is Still Deadliest Weapon Of European War

By EDWARD E. BOMAR, Associated Press Staff Writer

The war that started just a year ago with the sudden invasion of Poland has served as a continuous demonstration that surprise is still the deadliest of weapons.

Statesmen, army general staffs and military experts almost without exception have been as mistaken as the man in the street in anticipating the conflict's course.

Even Adolf Hitler and his advisers, who possessed the initiative from the start, must have been startled repeatedly at the power of the military and psychological forces they called into being.

Hardly a military man foresaw with any degree of certainty the destruction of Poland three weeks after the first blitzkrieg was launched last September 1. The invasion of Norway was as complete a surprise to the world at large as it was to the unsuspecting Norwegians themselves.

No Warnings on France
Not even the gloomiest of allied cassandras voiced a warning that the army of France, which neutral officers often termed the world's finest, would be wiped out as an organized force in less time than required for the conquest of Poland.

It is no secret that the foremost American army men were as deceived as French and British leaders as to the striking power of the German army and air force.

After Munich, France and Britain were far less confident, but they felt fairly secure behind the Maginot Line and the British fleet. If war came, it was to be relatively economical, with the allies on the defensive while Germany was squeezed into submission by a blockade. What was feared was "total war" by air on civilian populations before the allies built up their own defenses against this new peril.

For months the strategy appeared so effective that an Italian general in February suggested the possibility of another 30 years war like that of the seventh century.

It is mostly forgotten now, but the predictions were confounded as completely a quarter century ago.

160 Families Given Aid by Children's Service League

Summary of the work of the Children's Service League since its organization last November, as given by Mrs. J. W. Christian in a recent radio broadcast, showed that 160 families have been given aid. These cases have been divided almost equally between the white, Mexican, and negro populations of the town.

Main purpose of the organization is to make and distribute layettes to deserving families and 56 layettes, complete with blankets, gowns, dresses, and other articles have been given as needed.

Other needs have been filled by the League, as well. It has collected and distributed used clothing to about 85 families; has helped four families rehabilitate themselves after their homes were destroyed by fire; has sent one child to Dallas for medical treatment; has financed four tonsilectomies and two major operations and furnished glasses for two persons; has furnished cod liver oil to a rickets case with the result that the child is now able to walk; has furnished special chair and table for a child who has spastic paralysis; and now is making ar-

Fort Worth Visitors Arrive for Rodeo

Twenty eight Fort Worth business men and women, following custom established several years ago, arrived in Midland aboard a special coach on the train Saturday morning to attend the annual rodeo.

Several of the visitors returned last night while others in the party plan on staying through Monday.

Those making the trip were: L. H. Whitacre, C. L. Oden, Dan Hudson, Roy Barton, Mrs. Herbert Pelton, Mrs. W. C. Rogers, A. Hunn, J. B. Thomas, Jack Brown, Roy Jones, John A. Olson, William Masie, Mr. and Mrs. H. H. Wilkinson, Mr. and Mrs. Bert Trimble, Mr. and Mrs. Ollie Graves, M. A. Fuller, Champ Clark, D. G. Talbot, John B. Davis, J. D. Davis, E. W. Nicodemus, John S. Brown, Frank Reeves; arrangements for a wheel chair.

Money for the work of the League is raised through dues paid by members, contributions from interested persons and organizations, and an annual benefit bridge. Mrs. Christian expressed appreciation for the assistance given the group in this way.

Four quarts of milk, donated for the purpose, are now being distributed to tuberculous children. Contributions for this work will be welcomed by the League.

Are You Superstitious

ABOUT CROPS?

BY RUTH FARRAR, NEA Service Correspondent

THERE are more do's and don'ts about the planting and care of crops than there are in all the quiet books ever written.

A whole madhouse of superstitions, folk traditions, and astrological omens defines the proper and propitious days for planting everything from garden peas to fruit trees.

Here are a few of the rules for the tremendous collection of Dr. A. Cartwright of the University of Oklahoma, who has spent more than 30 years collecting popular American superstitions:

If cucumber seeds are planted by a woman, the vines will be amount to much. If cucumbers are planted in the morning, they will "bloom themselves to death."

Drive an old-fashioned hat made of nail into an apple tree, make it produce better. If one laughs while planting corn, the grains on the cob will be irregular and too far apart.

A farmer must not have his hat on during the growing season. His crops will mature too slowly if he does.

Pepper will produce better if planter is angry when the seeds are dropped into the ground. A white Christmas insures good fruit crop.

If beans are planted in the afternoon, the plants will out their blooms.

If you set tobacco plants Sunday, the grub worms will take them. Save the last ear of your sheaf of corn to insure a good crop for the next year.

Crops that bear fruit above the top of the ground should be planted in the light of the moon if they are to produce well. All plants to produce fruit below the ground should be planted in the dark of the moon.

If you wish watermelons to well, you must plant them when apple trees are in full bloom. Whether it be wet or dry, the melons should be planted the 25th of July.

Corn does best if planted with the whippoorwill begins calling the spring. If you hang a yarn string of bean plants, frost cannot injure them.

When angleworms are found near the surface of the soil, there is no immediate danger of frost. If potatoes are not dug in the light of the moon, they will rot.

Weeds will die and not sprout again if you cut them in the dark of the moon between the 18th and 20th of August.

When the full moon comes Sunday in July, heavy crops are sured for that year. Plant cotton when the sign of the twins and there will be two bolls of cotton in place of one.

In some sections of east Tennessee, fruit farmers believe that a rock tied to the branches or forks of a fruit tree which has not been bearing will bring about a heavy yield of fruit.

Choice of College to Attend Draws Attention of Midland Young People

Marriage vies with college life for attention of the class of 1940, with several members having already said "I do" and thus put an end to the trouble of choosing between the relative merits of this school and that.

Those who choose a school career have decided to try the fate of Midland High exes in both out-of-state and Texas schools, in business colleges and in large and small academic schools. Others plan to remain in Midland.

Virginia Ford has already taken the plunge into the wider world by enrolling for a secretarial course in Miami Jacobs Business College at Dayton, Ohio. In fact, she is already at her studies, having started work on the past Tuesday.

Elinor May Hedrick, who was salutatorian of the '40 class of Midland high, is another choosing an out-of-state institution. She and Lois May Lynch and Jacqueline Campbell will go to Christian College at Columbia, Missouri.

Nell Ruth Bedford had also planned to go to Christian College but changed her mind and will enroll as a freshman at the University of Texas where her older sister, Anna Beth, has one more year before graduation.

Glenn Brunson will leave shortly for Kemper Military School at Booneville, Missouri, to enroll when the term opens September 10.

Myrtle Jean Butler is not planning to go away to school this year. Neither is Dorothy Caswell.

To Arlington

George Ray Hyatt and J. R. Dublin have chosen North Texas Agricultural College at Arlington as their Alma Mater and will trek there about September 18.

Betty Longbaugh will leave about September 15 for Lubbock to matriculate at Texas Technological college. Joyce Saunders has also elected Tech for her school and she and her mother will go to Lubbock about September 11. The Saunders family plans to move to Lubbock.

Still in an I-may-go-I-may-not-go state is Joanna Barber who may or may not decide to attend the Nursing School at Lubbock. And Terry Tidwell who may or may not go to Texas Tech.

Josephine Barber thinks she will go to Draughon's Business college at Lubbock.

Louise Bryan, Eddy Gene Cole, and Margaret Murray have chosen to wear a wedding ring instead of a college pin and are now Mrs. Roy Jones, Mrs. Tolbert Bell, and Mrs. Frank Savage.

Bill McGraw will attend Schreiner Institute at Kerrville, leaving here in time to be there by September 10.

Brothers Undecided

Jimmy and Johnny Pickering, the music-making brothers, are pondering a decision between such schools as Phillips University, Texas Christian University and others. They will probably settle the question during the next few days.

Inez Pittman has gone to San Antonio where she will take a course in Johnson Beauty Academy.

Bill Van Huss Jr. plans to enroll at Sul Ross College at Alpine, with September 17 set as probable date of his bidding farewell to Midland.

Thomas Wright is expected to attend San Angelo Junior College.

Darrell Johnson will leave about September 12 for College Station to enter A&M. James Frank Johnson will likewise attend that school.

Paul Klatt has chosen to continue his education (and gridiron activities) at the College of Mines and Metallurgy at El Paso.

The University of Texas has been selected by Bill Kimbrough for his school home and he will leave Midland in time to attend Rush Week before opening of the term on September 19.

Elwanda Hays has not yet decided whether to attend Texas Technological College or to spend the winter in Midland.

To TSCW

College life for Mary Jane Harper will open at Texas State College for Women, where her mother was a student. Mary Jane plans to leave Midland September 17.

Coleman Collier is undecided whether to enroll at Texas Technological College or to remain in Midland this winter and do post-graduate work at the high school and study some business courses.

Frances Guffey has started her post-high school training in earnest, having been a student all summer in Draughon's Business College at Abilene which her sister, Lois, is also attending.

John Tarleton Agricultural College at Stephenville will claim Louise McClain and Lucille McHargue for their freshman work.

Wallace Reid Jackson will leave September 9 to enter Abilene Christian College. He will study for the ministry.

Eula Fay Whitson is to be here the first part of the winter but plans to attend business college during the second term.

Home Town Girls

Others planning to be "home-town girls" this year are Marian and Marie Newton, Nita Stovall, Wilma Norman, Jerolene Prestidge, Dorothy Ruth Maulding, and probably Jayne Tidmore.

Sylvia Louise Ficke will do post-graduate work in high school here.

Jim McHargue will enter Schreiner Institute at Kerrville.

North Texas Agricultural College at Arlington will list E. J. Ragsdale as one of its freshman students this month.

Turning in preparation for a business career, Auretha Turner and Merie Scott will attend Draughon's Business College at Abilene.

Hesitating between the University of Texas at Austin and John Tarleton Agricultural College at Stephenville, Frank Wade Arrington has not yet decided where he will attend school. He was valedictorian of the class of '40 here.

Duffy Brock Stanley plans to spend the winter in Midland, and J. E. Wallace likewise intends to be

here. So does Howard Palmer. Plans are indefinite for Marie Beachamp who will probably remain if a business school is established but if it is not probably will attend school elsewhere.

Louise Pliska will enter the University of Texas.

Glenn Brown will leave in a few days for Lubbock where he will enter Texas Technological College.

Conrad Watson probably will spend the winter here, though he may attend Texas Tech.

Helen Louise Connor will be here until January or February when she plans to enter Baylor School of Nursing. She is too young to enter now.

Nellie Mae Terry is another who is making plans to remain at home this winter. Marjorie Warner plans to be home this year also, deferring her college entry till next year. Lottie Mae Bryant will also be home.

Mann Rankin will not go away to school but will start work for an oil company.

Lodell Vest has been attending school at Sul Ross in Alpine this summer but will spend this winter teaching on the Dick Midkiff ranch.

Jay Francis will go to Texas Tech and Temple Harris to the Texas College of Mines and Metallurgy at El Paso.

Truman Horn will probably attend the Lubbock school also.

Upper-Classmen Busy With To-College Plans

In addition to the large group of eager-eyed freshmen who will leave Midland soon to be initiated into the mysteries of campus life, there is another sizeable group of young men and women who return to college as something not awe-inspiring and new but something familiar and well-liked—those cocky sophomores and dignified juniors and slightly-remiscent seniors who know the ways of collegiate work and play.

The University of Texas will attract a large group of students including Anna Beth Bedford, Jack Carroll, Alfred Vogel, Billy Noble, Freddie Pae Turner, Jeanne Davis, Bob Throckmorton, B. C. Girdley, C. A. Goldsmith, Frank Nixon, Harry Sindorf, and Paul Anderson.

Bobby Martin will return to Schreiner Institute at Kerrville.

Aldredge Estes will go to Texas Technological College at Lubbock.

Goodrich Etel again will attend Abilene Christian College.

Barbara Jean Harper and Julian Cowden are planning to return to Hockaday at Dallas.

Bess Eldson will study in Teachers College at Canyon again this year.

Vera Guthrie will be a student in Texas Tech. Doris LaRue Stapleton and Mary Adelia Kendrick will likewise be in the Lubbock school again this year.

Billy Joe Hall will return to John Tarleton Agricultural College at Stephenville. Jack Hanks will attend the same school.

Jack Nobles and John Dublin Jr. will return to New Mexico Military Institute at Roswell.

Kitty Gene Ellis will return to Baylor University at Waco. Her brother, Vernell Ellis Jr., will go back to Texas A&M at College Station. Courtney Cowden plans to go to Texas Tech.

Patsy Collings, Ann Upham Honored Jointly at Party

Ann Upham, daughter of Mr. and Mrs. W. R. Upham, and Patsy Collings, daughter of Mr. and Mrs. H. S. Collings, were honored on their ninth birthday anniversaries with a party given by their parents at the Upham home east of town, Thursday evening.

About 24 children were present. A feature of the celebration was that instead of a single birthday cake there were two, one white and one pink, lighted by pink candles. Supper was served to the guests. Games were played and ice cream and cake were served later in the evening.

Mrs. Frank Savage Is Complimented With Shower

Honoring Mrs. Frank L. Savage, who was Miss Margaret Murray until her marriage recently, Mrs. J. P. French was hostess for a miscellaneous shower at her home, 410 N. Marienfeld, Thursday evening at 8 o'clock.

Garden flowers were used in house decorations.

Gifts were presented to the bride in a decorated basket, presentation being made by the hostess and Miss Ruth Lusk. The packages were opened and inspected, contents ranging from wool blankets to electric percolator and toaster, with linens predominating.

Conversation and listening to the radio were other amusements for the group.

At the refreshment hour, a drink and clever "fortune telling" cookies bearing such indications of the future as horse shoes and wedding rings were served.

Guests signed in a decorated bride's book.

Present were: The honoree, Mrs. C. G. Murray, Misses Lusk, Delphya Woods, Sara Sue Roberts, Skippy King, Edna Earle Linberry, Nita Stovall, Cleo Tidwell, Dorothy Mauldin, Mrs. John Kelly, Mrs. Elmo Linebarger, Misses Louise Whitson, Betty Caffey, Dorothy Hines, Mildred Braden, and the hostess.

Gifts were sent by: Mrs. Delo Douglas, Misses Vivian Glidewell, Ruth Freeman, Jane Doran, Betty Longbaugh, Mrs. Dick Hamlin, Mrs. J. J. Bailey, Mrs. Roy Jones, and the hostess' mother.

FEMININE FANCIES

By Kathleen Eiland

Here's another year's rodeo in full swing, with every one's pulses quickening to the sound of horses' hoofs and the rattle of spurs and to the sight of bright shirts and gay bandannas.

For these three days Midland reverts to its origin as a cowtown and looks upon the cowboy as king for the time being. And we, of course, along with the rest of the citizens realize suddenly how desirable a catleman's life is.

There's no more appealing part in the rodeo parade than the child riders. And our vote for a natural hero goes to the little boy on the Shetland pony who carried an even smaller brother (or sister) before him.

Wonder if we couldn't guess the store which is being visited most often these days by teen-age girls? The one which has an "oomph-meter" should have particular allure for them, we'd say.

Simply by grasping a clear globe filled with liquid the young miss can tell her rating with her masculine acquaintances by watching the liquid rise through a long tube to points marking them as "cold and aloof," "interesting," "infatuated," "in a dither," or "true love."

As a matter of fact, we know of considerable interest being shown in the contraption by women who have left the teen-age a number of years behind.

Oh well, it's fun, anyway.

Wonderful are the ways of plastic, that multi-useful material which was so recently invented.

Now there is a plastic knife, believe it or not, which is said to be superior for slicing cakes. Besides its unusual material, this knife has the added unusual feature of having holes in the blade, which are said to improve its efficiency.

We can't exactly see how but maybe soon.

TO MEET AT FORSAN

Big Meeting Associational meeting of Baptists will be held at Forsan on Tuesday and Wednesday of this week. Rev. H. D. Bruce, Midland pastor, will be moderator.

American Missionaries Reported Killed

Dr. and Mrs. Robert Grieve (above) of Spokane, Wash., were reported by the British governor general Friday to have been killed during an Italian plane's machine gun and bombing attack on an isolated mission in Anglo-Egyptian Sudan.

At Your Library

Rain Before Seven, by John August: The scene is America; the time is the present; the people are like people you know; the plot is one to make you wary of all strangers. It is a spy theme—the story of what amounts to Fifth Column activities in a manufacturing town near Boston—and it is entirely convincing.

Letty and the Law, by Faith Baldwin: Young and pretty Letty McDonald was quite a handful. And because her guardian felt he was getting too old to handle female spitfires, he turned her management over to David Alcott. All his life, David had had but one love—the Law. Fighting his way from a small upstate town to a good job in Manhattan, he'd had no time for either girls or glamour. But when Letty—rich and spoiled—arrived from Europe, his education began. A witty romance.

Whiteoak Heritage, by Mazo de la Roche: A new volume in the author's famous saga of the Whiteoak family of Jalna. In point of time this is the second book in the series following "Young Renny" and preceding "Jalna." It tells of the year which followed Renny's return from the war—1919-1920. In his absence his father has died and Renny is now responsible for the estate which has run down rather badly under the regency of his elderly uncle. All in all, a typical, busy Jalna year is portrayed.

Zane Grey Again. 20,000 On the Hoof, by Zane Grey: The dream of building up a great herd of cattle in central Arizona had taken complete possession of Logan Huett. Here is the thrilling story of how Logan and his young wife built their cabin, carefully nursed the nucleus of the longed-for 20,000 head of cattle, and, at last, against

ester and Mrs. Jewell Neal of San Angelo.

Mr. and Mrs. M. Prager of Big Spring are visiting Mr. and Mrs. I. J. Prager during the weekend.

Mr. and Mrs. Arnold Scharbauer and children of Five Wells are spending the rodeo weekend in Midland.

Among visitors in Midland Saturday for the rodeo were Mrs. B. C. Hendricks, Mrs. Tucker and Mrs. Hendricks of Odessa.

Mr. and Mrs. Onis Littlefield and children of Bangor are the guests of Mrs. Raymond Doyle.

Mrs. W. H. White of Odessa was a visitor in Midland Saturday.

Mr. and Mrs. E. Hazen Woods have returned from a vacation trip, high point of which was a Gulf cruise to Miami, Fla. They also visited Galveston, Houston, Austin, and other places in Texas.

tremendous odds, achieved their goal.

Doctor Dogbody's Life, by James Norman Hall: There are ten of these expert tales told in a water-side inn by an 18th-century sea dog whose adventures rival Captain Hornblower's and whose imagination surpasses Munchausen's. The doctor was wont to regale his fellows with tales of his many adventures and, above all, with that one supreme adventure which cost him his left leg. The story of this calamity never staled for, astonishingly, it was never the same story.

The Defenders, by F. Hoellering: With appealing characters; sense of beauty and scenes of violence; with love, laughter and tears, this novel tells, in terms of Austria of 1924, of men and women who learned what it means to be "the defenders" of all they loved and valued in life; who learned what it means to be torn from a life, a love or a work—in which they had hoped to find peace and dignity—to face the forces of violence abroad in the world today. Essentially it is the love story of Maria Steiger—but the canvas is enormous. It is a modern story but the historical moment which it describes already belongs to the ages.

The Grassleaves Mystery, by E. P. Oppenheim: On occasion, Lady Grassleaves, an elderly woman whose hobby is the growing of herbs, would rent one of the bungalows on her Riviera estate. David Granet, an Englishman anxious to rent one of the bungalows, goes to see her and finds her dead and the household in a panic. Because of the sinister atmosphere—and particularly after seeing Lady Grassleaves' niece, Granet determines to stand by. The plot thickens, but all ends well.

Sabatini Writes. Master-At-Arms, by Rafael Sabatini: A rich and exciting adventure story laid in France just before Napoleon came into power. The hero, an emigre who has become a fencing master in London, is drawn into intrigues which result in his going back to France to take part in the expedition sent by England to recapture Normandy. This new novel marks a return of Mr. Sabatini to his earlier technique of a strong romantic hero, with history a pattern in the background rather than the dominant element.

The Ghost Plane, by Arthur Stringer: In the north woods of Canada, a foreign agent posing as a naturalist, steals an airplane from the transport line . . . and though often sighted, it cannot be found. How Alan Slade of the airline, with the help of Lynn, daughter of the Flying Padre, circumvents a plot to steal a precious mineral, necessary for the enemy's totalitarian armament work, makes an exciting story of modern aviation and romance.

Shotgun Gold, by W. C. Tuttle: When Jim Randall was scuttled out of the town of Turquoise by warnings from persons unknown, Roaring Rigby became sheriff. Old Judge Beal had courage enough to stay on although he, too, had been warned. It was at that crucial hour that

NOT only beautiful, but practical as well, are this dramatically simple salad bowl and graceful servers of crystal clear plastic, for the plastic is surprisingly resistant to breakage. The deep, fluid scallops and gleaming clarity create an illusion of icy coolness around your salad.

A scientific expedition in New Guinea found rats measuring three feet from tail tip to nose.

Abraham Lincoln made only five autographed copies of his famous Gettysburg address.

Hashknife Hartley and Sleepy Stevens came to town. How this amusing pair deal with the situation is told in a swiftly-moving story characterized by humor, plenty of action, and no lack of ingenuity.

Madame Dorthea, by Sigrid Undset: In this new novel, Sigrid Undset sets her scene in 18th century Norway, and in it she deals with the age-old problems of love, family, life, and religion. The story, kaleidoscopic in movement, hinges on the disappearance of Madame Dorthea's husband. Next to Dorthea and her sons, the most outstanding character is probably her domineering mother, married for the fourth time to the peasant-born Sheriff Lunde. It is a recreation, in fact and spirit, of a bygone age.

As Cowboy Worked to Stay Aboard

George Yardley, Roswell cowboy, is shown in the above picture as he outlasted a tough bronc named Stop Light to ring up a bunch of points in the Saturday afternoon show of the Midland Rodeo. Yardley has entered practically every one of the Midland Rodeos and annually walks off with a lot of the prize cash. His ride was only one of several that thrilled customers as the sixth annual Midland Rodeo got underway.

SADDLES and PLOWS

Roads made of a combination of molasses and coal tar have proved practical in India.

Georg Glass of Midland and Jim Parker of Odessa have just returned from a trip to the Hereford area and report that the ranges there were pretty dry at this time. Parker bought a Corriena heifer from Lee Cocconougher.

Many people in the cotton trade expect domestic consumption in the current season to set an all-time high, perhaps over 8,000,000 bales.

Early arrivals of rodeo contestants included: A. C. Wike, of San Angelo; George Yardley, Roswell, N. M.; Tack Bolton, Redrock; Elmo Wall, Fort Worth; Frank Griffin, Coleman; and Van Brown, Houston.

Of the rain that falls on the soil, only about 50 per cent is available for plant growth under the average conditions. The other half is lost through run-off and evaporation.

A. C. Wike went to London, in 1934 with the late Tex Austin rodeo. A. C. has been a contestant in most of the big rodeos in the U. S., including Madison Square Garden and other outstanding rodeos. He won the bronc riding contest at the St. Louis, Missouri, rodeo in 1937 and also was a big money winner in the bronc riding contest at Madison Square Garden in 1934.

George Yardley won the bronc riding contest in the last year's Midland Rodeo.

Elmo Wall of Fort Worth was judged the all-around champion cowboy at the Carlsbad, N. M., rodeo, July 4. Poultry may now be dry picked on a machine invented in Great Britain and introduced in the United States. One operator in a Brooklyn establishment is reported to have averaged 50 chickens an hour.

Forrest King recently sold 20 registered, two year old heifers to Dr. C. E. Wilson of Wink, Texas.

Infants can be given meat as early as 10 days after birth with no digestive or kidney disturbances, according to Dr. Leo K. Campbell of the University of Chicago, who says the only requirement is that the meat be scraped so that chewing is not required.

Eighty-one horses are in the first annual horse show. The last entries include J. M. Cook, Garden City, Texas; M. D. Means, San Angelo, Texas; and Jack Shisler, Barstow; Carl Hightower, Garden City; Duwain Hughes, Merizon; Hugh Crouch, Lometa; Tom Elrod, Odessa; Roscoe Hazlewood, Stanton.

Included in the Colburn and Knight Rodeo stock, which is being used in the Midland Rodeo, is a bucking horse named 'Hell's Angel' which was voted the greatest bucking horse ever known to the rodeo world.

Not Anti-aircraft—Just "Sun-gun"

This looks like a super-colossal anti-aircraft cannon, but the device—a special lensless camera—"shoots" the sun, instead of planes. With it, a group of nine U. S. scientists, now en route to Brazil, will snap the October 1 eclipse of the sun. Shown operating the "sun-gun" are expedition members Arthur Hoag, Brown University astronomy student, left, and Dr. Charles Smiley, foreground, Brown astronomy expert. At rear are W. Edwin Stevens, left, and J. Frank Morrissey, amateur astronomers.

The Height Of Romance

A high time was had by all at the recent wedding of Arno Rudolphi and Ann Hayward, of New York, for the ceremony was performed with bride, groom, minister and wedding attendants sitting in parachutes, 50 feet up, at the New York World's Fair parachute jump. Here's the highly romantic couple saying "I do" to Rev. Homer A. Tomlinson, right.

Portrait of Sir John Greig Latham, Australia's first Minister to Japan followed announcement that the two countries would exchange envoys. Sir John, Chief Justice of the Commonwealth High Court, is well-liked in Japan, having led a good-will mission there in 1934.

Calls Lindbergh, Ford, Nazi Tools

In a recent speech over the Canadian Broadcasting Corp. system, Robert E. Sherwood, above, famed Pulitzer Prize playwright, called Henry Ford "stupid" and scored both as important men who have succumbed to Nazism.

No Underdone or Overcooked Coffee

NO DANGER of underdone or overcooked coffee with this automatic electric coffee maker. It boils the water and drips it through the coffee in practically no time at all, and the automatic control switches off the current at just the right moment. It will look well on the breakfast table, too, for it has nice lines and comes in shining black or a rich wine shade.
