By RAY MARTIN

Got a letter earlier this month from an old friend of mine, one Sandy Saunders, Chicago, in which he said, "Please write some copy on National Dairy Month." There is a good reason why Sandy would want a newsman to write something about National Dairy Month: he's public relations director for American Dairy Association.

Ok, Sandy. Here's something about the dairy business, of which I know very little. But I'm always glad to accommodate a friend, and besides, I like cows. There are some cows I have known that I like better than some people. Such a "friend" was Brownie. I guess I was about 8 years old when we got Brownie. Mostly she was a Brown Swiss, although her ancestry was a bit mixed up with Shorthorns, Jerseys or what have you.

But Brownie was an even-tempered old lady who calmly stood in the lot, chewed her cud and tended strictly to her own business. The only times Brownie seemed to worry at all were the times when she had a new calf, and like most mothers, she was always concerned about the welfare of her offspring. Particularly was Butch a problem. He was a rambunctious bull calf that eventually had gone bad in history and picked up some of the characteristics of his wilder relatives.

Brownie, as I said, worried about Butch who cavorted around the lot in careless abandon. He banged into things, he kicked at everything from a fly to a horse. Once the neighbor's dog came over and got into the cowlot; Butch disliked dogs, so proceeded literally to kick the dog over the fence. I don't believe that dog ever liked us after that; at least he never came around again.

Brownie had one weakness: cotton seed meal. We kept it locked up in a small shed in the cowlot, but Brownie always hoped that somebody would forget and leave the door open sometime. Somebody did. I remember Dad got up one morning, went out to milk and came back frowning; somebody had left the door open and Brownie had got in and had eaten herself straight into a first class bellyache in all her stomachs. She was lying sprawled on the ground moaning, swelled up bigger than a king-sized balloon.

It took the doctoring of all the neighbors and my Dad to get Brownie back to good health. But Brownie never seemed to learn; like an alcoholic she couldn't resist cottonseed meal. She was (See RAY'S, Page 7)

First Talent Show is Ready

Muleshoe will stage the first of a series of monthly talent shows tonight at the senior high school auditorium, starting at 8 p.m., Pat Glover, chairman of the talent series, has announced. Tickets may be bought at the door for \$1 for adults and 75 cents for school students. Pre-school age boys and girls will not need tickets.

A number of acts have been booked for this first show to round out a full evening's entertainment. Fran Powers is to sing, the Daes are to play, and Littlefield is sending talent Singer Larry Nigh will entertain.

Along with George Bell and Western Aces, Talent from Plainview will also be featured.

In addition to the musical numbers, Daes will furnish the music for at least two contests — a limbo setto and a twist contest, Glover has announced.

Bells for Freedom To Ring July 4th

Bells in Muleshoe will ring for freedom for four minutes July 4th, it was announced this week by the Muleshoe Study Club president, Mrs. O. N. Jennings.

It's all a part of a nationwide movement launched by the General Federation of Women's clubs to "Make Freedom Ring on the Fourth of July."

The organization is staging the freedom ringing of the bells throughout its 16,500 clubs.

Mrs. Jennings says Mayor Arthur Crow has issued a proclamation which will be published soon, backing the movement.

Crop Prospects Good

Despite hail, hard gully-washing rains and cool weather which has prevented quick growth of crops, the prospects for crops in Bailey County were good as the middle of June approached.

This was revealed in a general survey of crop conditions for the entire county, and, although much replanting has been necessary, with dry, warm weather on hand, most farm experts were optimistic.

To say the least, conditions were much brighter at the start of this week than at the start of the same week a year ago, and crops generally are much farther along than they were on June 11 last year.

County Agent J. K. Adams, after looking over the crop situation, summed it up like this: "There is no reason to assume that we will have a smaller cotton crop than last year, as based on conditions at the first of the week." He added a cautious footnote however: "As is always the case, the date of a killing frost next fall will be the deciding factor, along with the rainfall on dryland cotton during the summer."

Last year's record yields, it was pointed out, were made despite late plantings — some as late as the end of June, but experts hastened to point out that last year's peak yields were due largely to an unusually late freeze. The first killing frost in 1962 occurred around October 22.

If the same conditions prevail this year, Adams summed up, "We could have much more cotton if rainfall on dryland and frost stay off as long as last year."

Mosquito Spray Program Starts

Muleshoe has started spraying its mosquitoes which have popped out like politicians at a box supper since June rains have filled every sunken place with water.

City Manager Albert Field said this week has "been the first time the weather has permitted us to spray." If weather is wet, or if the wind is blowing, spraying cannot be done successfully, he explained.

Late afternoon and evening spraying is being done with a mixture of DDT and Chloridine and Toxephine. Lakes in the Muleshoe area will be dusted with DHC by Morgan Locker, Muleshoe aviator.

Costs Up, but School Tax Rate For 1963-64 Unchanged at \$1.60

Muleshoe school tax rate during 1963-64 school year will remain unchanged, at \$1.60 per hundred the board of education announced this week following their June meeting Monday night.

Maintenance was set at \$1.23; interest and sinking fund at .37 cents. The assessed valuation has increased from \$23,289,040 in 1962-63 to \$24,811,115 for 1963-64.

Total budget has increased from \$761,387 in 1962-63 to \$805,894 for 1963-64.

It was explained that the greatest additional cost was the addition of five teachers and the activating of new classrooms to take care of increased enrollment of students.

Tentatively, the 1963-64 budget has been set at \$805,894 as compared with \$761,387 the previous year.

By items, the budget includes these 1963-64 figures as compared with the previous year:

Administrative costs:	\$95,000
Instruction:	\$37,000
Health:	\$4,940
Transportation:	\$50,400
Operation:	\$37,500
Fixed charges:	\$2,500
Student activity:	\$6,000

Capital outlay: \$17,500; \$23,291. Debt service: \$88,954; \$83,920. Revenue, by previous year, was estimated as follows:

Local Tax — Maintenance:	\$289,918
Local Tax — Debt:	\$87,211
Interest, gifts and rent:	\$1,800
Totals for local tax:	\$378,929
State — Per capita:	\$155,530
State — Tax and operation:	\$147,022
Transportation:	\$221,438
Vocational Education:	\$43,797
NDEA:	\$2,700
Totals:	\$720,630

Three New Teachers are Named; Attendance Shows Sharp Gains

Muleshoe board of education employed three new teachers at their meeting Monday night, and heard an attendance report showing a substantial increase since 1961, it was announced Wednesday by Neal Dillman, superintendent.

Named were Glynna Masten, for girls physical education instructor and junior high school basketball coach; Jim Marfin, for senior high school English, and Mrs. Blanche Johnson as elementary librarian.

Miss Masten has a degree from Wayland college, and played basketball with Wayland's famous "Flying Queens" which has made trips to Russia and Brazil with all-star squads from the United States. Her home is at Sudan.

Martin has a degree from Texas Tech with major in English. He was reared at Lamesa.

Mrs. Johnson has taught in the Muleshoe schools for a number of years. She holds a B. S. degree from Texas Tech and has taken additional library work at Western State College, Gunnison, Colo., and at the University of Utah.

Enrollment is on the increase in Muleshoe schools, Dillman told the board in his resume of attendance for the past two school years.

White average enrollment in 1962-63 was 1,872.87 as compared with 1,768.5 during the previous year. This is an increase of 104.27. In average daily attendance, these figures were revealed by

These Beards Are Getting Wild 'n Woolly!

Right and left (as the pictures on the right and left show quite clearly) men in Muleshoe are growing beards, plain, fancy and just run-of-the-mine kind.

There are "amb chops", full beards, Vandykes, mustaches — or what have you. Some of them even defy description, and look more like a clothes brush that got off to a bad start in the factory.

Nevertheless, Muleshoites have turned them loose, and are joining in wholeheartedly (or whole whiskerily) in the Golden Jubilee celebration, marking Muleshoe's 50th anniversary.

The beard-growing spree is sponsored by the Muleshoe Jaycees, who themselves are turning out some pretty fancy facial foliage these days.

Several persons have been dunked — literally — for failure to have facial decorations. A stock tank on Main Street served as a watery reminder to those who failed to lay aside their razors or else neglected to pay the \$1.50 fee for the privilege of scraping off their whiskers each day.

The contest has been even more (See BEARDS, Page 7)

Burglars Auger Through Floor of Hotel To Gain Entrance to Jewelry Store

Two Latin-Americans who checked into the Elite Hotel last Sunday and then went to work in their room with king-sized hand drills, robbed Lindsey's Jewelry by gaining entrance through the ceiling straight from their room above.

Truman Lindsey said at mid-week that he had not completed checking his losses, but he figures 25 watches were missing, 40 or 50 birthstone and pearl rings and two transistor radios.

"And there may be more," he added, "after we have had time to look over the stock thoroughly."

Mrs. W. T. Tiffie, operator of the Elite Hotel, said the two men registered Sunday "at about noon" under the names of Ranton Mavis and Jose Ladivon, but they gave no address. She said they were assigned room 10 which is directly over the jewelry store's storeroom at the back of the store. She said one of the men came out of the room "now and then," but that the other one stayed in the room most of the time throughout the afternoon and evening.

At 9 o'clock Monday morning when the maid, Nell Crutinger, checked the room, she discovered the large square hole in the floor. Another hole through the metal ceiling of the jewelry store had been cut.

Downstairs, the hole in the ceiling had not been discovered since the portion entered was in the darkened stockroom.

Officers said the men apparently used large hand-operated drills to make an opening through the floor large enough to admit their bodies. Mrs. Tiffie said the men "were quite large," and apparently had to drill scores of holes. She said no one in the hotel heard the men at work. "Obviously they didn't dare to use saws as they would have been detected," she said.

Mrs. Tiffie said the two men had asked to see some rooms, and she showed them to room 14 and room 10. They said they preferred room 10 "because it contained two beds." Officers surmise they had figured out what room would be easiest to use as an entryway to the jewelry store stockroom.

The two were believed to have carried away their loot in a pillow slip since a pillow slip was (See BURGLARS, Page 7)

Ministers Back 'Question 7' Movie

Bailey county Ministerial Alliance will sponsor the showing of the famous movie, "Question 7" at Cox Drive-In theatre here June 19 and 20, it was announced this week.

The basic plot in "Question 7" is known to have occurred at least twice.

Lothar Wolff, the film's producer, first heard it several years ago when he was a house guest at an East Berlin home. Another guest — a pastor — told of the actions of the Communist officials of his small East German town to convince his son to join the party.

"He's an intelligent boy, with talent more than most," the pastor told Wolff, "but he cannot continue in school unless he goes along with them. If he does not, then he faces a lifetime of manual labor. He must make his choice in writing his answers to a political test which has been discussed (See MINISTERS, Page 7)

Copy Deadline For Issue Nears

Copy for Muleshoe Journal's big June 30 anniversary edition continued to flow in the week as deadline for the issue neared.

Publisher L. B. Hall sounded an appeal to all persons who would like to have stories in the anniversary edition to send in their material as soon as possible. Several persons who have lived in the area for some time are writing their personal experiences in the early days, and these stories especially are needed now, Hall said.

Meantime, subscribers were again reminded they can have extra copies sent to friends or relatives for 50 cents per copy.

Rhonda Wagnon Is Worthy Advisor

RHONDA WAGNON

Rhonda Wagnon, daughter of Mr. and Mrs. B. H. Wagnon, was installed as Worthy Advisor of Muleshoe Assembly No. 161 Order of the Rainbow for girls, Saturday night, at the Masonic Hall.

Mrs. Mary Hunt introduced the installing officers who were: Ruby Lee Kerr, Worthy Advisor; Jerie Wagnon, Marshal, Rhonda's sister-in-law; Judy Reed, chaplain, a cousin; Delores Williams, Recorder, also a cousin; and Janie Brantley, musician.

Other officers installed were: Worthy Associate Advisor, Shirley Richards; Charity, Susan Birdsong; Hope, Wanda Harris; Faith, Nine Ed Bovell; Chaplain, Sonja Bass; Drill Leader, Pam Kerr; Love, Judy Elliott; Religion, Marcie Williams; Nature, Pam St. Clair; Immortality, Cindy Davis; Fidelity, Doris King; Patriotism, Linda Timmons; Service, Lynn Ericson; Confidential Observer, Debbie Bryant; Outer Observer, Kerry Beddingfield; musician, Terry Bryant; and choir director, Dianne Bryant.

After the installation service, a flower drill led by Shirley Richards was presented to Rhonda by her officers. Each girl carried a single yellow rose which at the end of the drill was put atop her daddy's Masonic Bible.

The theme was "My God and I Walk Down Life's Pathway and Thence... Over the Rainbow." Rhonda's chosen colors were yellow and lilac; her flower, the yellow rose and her symbol, the rainbow. The hall was decorated with rainbows made out of net ruffles. A spray of yellow roses was across each rainbow.

Mrs. B. H. Wagnon was introduced. Rhonda presented her with flowers and a gift to express her love and appreciation. Flowers were also presented to Joe Pat and Jeanine Wagnon and Mrs. Delores Ivy, Rhonda's aunt.

Others introduced were: Mrs. Mary Farley, Deputy Grand Patron; Clarence Jones, Worshipful Master; Mr. and Mrs. Elbert Nowell, Worthy Matron and Patron. The Advisory Board, all past Mother Advisors and Worthy Advisors and Earnest Kerr, Rainbow Dad, were presented for introduction.

The program consisted of Miss D'ann Garrett, Rhonda's cousin, singing "My God and I". Jeanine Wagnon then read a poem "Walk Down Life's Pathway" which was written especially for the installation by Mrs. Horace Blackburn. This was followed by Miss Sandra

Scott singing "Over the Rainbow." Miss Kathy Moore accompanied them at the piano.

The benediction was given by Harmon Elliott, Chairman of the Advisory Board. The new officers then had the retiring march after which refreshments were served.

Several special guests and close relatives were unable to attend because of the weather. However, guests were present from El Paso, Lubbock, and Las Cruces, N. M.

Rhonda had a most unusual experience while getting from her home northeast of Muleshoe to Masonic Hall for her installation, and is perhaps the only Worthy Advisor in history of Muleshoe Rainbows who rode a horse on part of the journey.

Saturday's downpour came as the family made preparations to attend the installation and they thought flood waters from the rain would have receded before time to leave, but, quite on the contrary, as water rushed from higher ground and accumulated in a draw between town and the Wagnon home.

While the crowd waited at the hall for Rhonda to appear, the Wagnons and their neighbors were trying to get through in cars and tractors to get here. Finally, some of the many waiting at the hall drove out to see what the delay was and tried, in vain, to help.

Finally, a neighbor, Jim Ward rode across the water on his horse and with her evening dress in a plastic bag held high above her head, Rhonda rode with him through the swift running water

to a car where her aunt and uncle, Mr. and Mrs. Hopper Ivy were waiting.

Some 1 1/2 hours later than scheduled, Rhonda was installed. Her father, B. H. Wagnon and brother, Billy Wayne, and B. H. were not present, to be introduced during the ceremony as planned. They were tired and muddy, but proud that Rhonda's installation was not spoiled after all and that the crowd had waited patiently for the event to take place.

Rainbow Girls Plan To Attend Grand Assembly

Muleshoe Rainbow girls who will attend Grand Assembly of Rainbows at Houston next week are: Debbie Bulloch, Sonja Bass, Rhonda Wagnon, and Mrs. Mary Hunt, Mother Advisor.

The girls will leave from Plainview by chartered bus Saturday night, June 15, and will return Thursday, June 20.

Marriage Vows Pledged By Belinda Hendon and Lee Oden In Church

Belinda Lynette Hendon, daughter of Mr. and Mrs. H. W. Hendon, became the bride of Granvil Lee Oden, son of Mr. and Mrs. Houston Oden, in a single ring ceremony Friday, May 31, at 7 p.m. in the First Methodist Church Chapel, Rev. J. Frank Peery, pastor, officiated.

The bride, presented in marriage by her father, wore a street-length gown of Chantilly lace over satin. The fitted bodice featured a round neckline and long sleeves that tapered to petal points over her hands. The short veil of silk illusion was attached to a seed pearl crown. She carried a bouquet of white carnations with yellow rose buds.

Yvonne Hendon, sister of the bride, was maid of honor. JoAnn Mock was bridesmaid. They wore identical dresses of yellow cotton satin with yellow chiffon overskirts with white accessories. They carried long stemmed yellow roses.

Kenneth Don Oden, brother of the groom, was best man. Gary Bullis, brother-in-law of the groom, was groomsmen. Troy and Truman Layman, Earth, were ushers.

Music was provided by Patsy Holley. Linda Oden registered the guests.

Following the wedding, a reception was held in the bride's parents' home. Assisting with the reception were Jean Killingsworth and Mrs. Gary Bullis.

The groom is a 1960 graduate of Springlake High School, and the bride is a 1963 graduate of Muleshoe High School.

After a trip to Ruidoso, N. M., the couple will be at home in Earth where the groom is employed by Quicksall-Prayer Co.

Out of town guests were: Mr. and Mrs. J. W. Waller, O'Donnell; Mr. and Mrs. D. W. Hocker and daughters, Midland; Mr. and Mrs. Gene Hendon and family, Lamesa; Mrs. Jim N. Burket and daughters, O'Donnell; W. T. Hendon, Welch; Mrs. Lacy Kirk and sons, Amarillo; Mrs. Malvin Duncan and Johnny, Plainview.

ART SHOW WINNER—Everett McAdams, Odessa college sophomore student won first in the student division of the Permian Basin Art Show held there on his water color painting. Everett is the son of Mr. and Mrs. H. W. McAdams, Odessa, and the grandson of Mrs. Clyde Bray and W. B. McAdams, Muleshoe. He is pictured here with his painting and with Dr. Myrtle Bell, psychology and education instructor at the college. Dr. Emilio Caballero, head of the art department at West Texas State College judged the show.

Talk on Freedom Forum Given By Mrs. Burelsmith

Betty Burelsmith was the speaker at the Bailey County Farm Bureau Women's Committee Workshop meeting on Thursday June 6, in the First National Bank Community Room. Several local business and civic organizations sponsored Mrs. Burelsmith when she attended the annual Freedom Forum held at Lubbock Christian College in May.

Mrs. Burelsmith reviewed some of the Freedom Forum speakers' speeches. She said that the college has available a large number of tapes and films which could be used in the study and understanding of our American Heritage and our free enterprise economic system. These films and tapes are available to any civic group.

"As citizens in the only nation founded upon Christian religious and economic principles," she stressed, "responsibility to understand, protect, and promote those principles."

The Women's Committee will have as their guest speaker at their quarterly luncheon on July 2, State Representative, Bill Clayton.

Birdsongs Return From Colorado

Dr. and Mrs. W. F. Birdsong and family have returned after vacationing in Colorado for ten days.

While away, they went to Denver, saw Royal Gorge, Canyon City, took the Cheyenne Mountain trip, Pikes Peak, the Mint, Denver's City Museum and many other things of interest.

They were guests in the home of Dr. Birdsong's nephew and father, the Ernest Granvilles and also visited with the Joe Grimseys, formerly of Muleshoe.

George Birdsong enrolled in National Electronic School in Denver and will complete the course in 9 months. He will live in a 35 room colonial home which has been converted to accommodate students.

Plentiful Foods Includes Sugar

COLLEGE STATION — June 13 "Sugar already on hand or committed to the United States for 1963 totals 500,000 tons more than last year's entire national consumption," reported Under Secretary of Agriculture Charles S. Murphy in comments made recently regarding the upswing in domestic sugar prices.

"These new commitments have been made within the past few days," he added, "and the speculative bubble in sugar is bound to burst in the face of this plentiful supply."

"Speculators may be able to keep the bubble going for a while, but not for very long" he declared. At the same time, he warned that people who load up high priced sugar may sustain losses when the price goes down.

"Current Congressional hearing on the sugar situation," he said, "will show plentiful supplies and this will help restore stability in the sugar market."

He noted that a relatively tight situation in world sugar supplies early this year created uncertainty in the market, and gave speculators a chance to bid up prices.

Hayride Slated By Rainbow Girls

The Muleshoe Rainbow girls met Monday night at the Masonic Hall. Rhonda Wagnon, Worthy Advisor, and Mary Hunt, Mother Advisor, presided at the meeting.

The group discussed a party which will be held on June 28. It will start with a workshop and will end with a hayride to the sandhills. The girls may invite guests to attend.

Karen Jones, past Worthy Advisor, presented Mrs. Hunt with a gift to express her appreciation. Mrs. Hunt also presented Karen a gift for her accomplishments and sincere interest while she and Worthy Advisor, Karen was also presented the past Worthy Advisor's pin by Rhonda Wagnon.

Karen presented Rhonda with a miniature gavel which is to be worn on a necklace. Rhonda is the eighth Worthy Advisor to wear the gavel since it was purchased at Grand Assembly at Houston some two years ago.

New USCC Head Says Business Man is 'Soft'

WASHINGTON — Edwin P. Neilan, the new president of the Chamber of Commerce of the United States, believes that the average businessman "has become soft and is taking things a little easy; he needs to buckle down."

When he calls businessmen "soft," Mr. Neilan, a former semipro football player, means that they are not taking the initiative to mobilize local talent and resources to solve local problems.

He is convinced that a revival of grass roots initiative and a sense of responsibility is badly needed. He says, "our cities and counties are being nationalized right out from under us."

Mr. Neilan is president and chairman of the board of the Bank of Delaware at Wilmington. He took office May 1 as president of the Chamber. He is determined to intensify Chamber programs to encourage businessmen to help their communities solve their own problems.

"Government must be kept at home as much as possible," Mr. Neilan says. "When it gets as far away as Washington, you just can't control it."

For the steady growth of the federal government and the budget, Mr. Neilan credits the career servants.

"Never quote me as blaming the Kennedy or Eisenhower Administration for the big budget," Mr. Neilan says. "The creators of the budget are the career policy-makers. They lose in one session of Congress — or one year of an Administration — and they get it all back the next year."

IN OKLAHOMA

Kay Killingsworth, daughter of Mr. and Mrs. O. G. Killingsworth, is spending several weeks in Checotah, Okla., where she will be visiting with relatives there.

Mrs. Black Hosts Friendship Club

The Friendship Club met last Thursday night at the home of Mrs. Frankie Black, hostess. Mrs. Minnie Dunn served as co-hostess. They served a full-course meal to those attending.

Following the meal, Mrs. Ray Griffiths gave a devotional thought on "Prayer."

The club conducted a short business meeting at which they decided to meet at the home of Mrs. Mildred Andrews at 6:30 p.m. June 18, from where they will go to the El Monterey at Clovis for a Mexican dinner. After business, the club enjoyed a period of fellowship.

Members attending were: Mrs. Mildred Andrews, Mrs. Adell Beatty, Mrs. Mary Young, Mrs. Maud Young, Mrs. Mae Busbice, Mrs. Hattie Griffiths, Mrs. Erma Ray, Mrs. Lela Dutton, Mrs. Sammie Moore, Mrs. Lou Precure, Mrs. Lois Witherspoon, Mrs. Ruth Shafer, Mrs. Audie King, Mrs. Rob Damron, Mrs. Billie Mathis, Mrs. Lolo Bryant, and the hostesses, Mrs. Frankie Black and Mrs. Minnie Dunn.

Donald Taylor On Mediterranean

Midshipman Donald O. Taylor, First Class, son of Mr. and Mrs. Donald W. Taylor, Muleshoe, departed on June 3 for Charleston, S. C., where he will report aboard the USS Dyess, a destroyer picket ship.

Donald will embark for Mediterranean waters on a two month training cruise which is a part of the four-year program he receives at the U. S. Naval Academy. The ship will be crossing the Atlantic and joining the Sixth Fleet where it will be participating in fleet exercises and giving its seven midshipmen aboard a look at the life of junior officers in the Navy.

Don plans on spending nine days in Europe at the termination of the cruise and will visit Italy, Switzerland, France, and Germany before returning to the United States on or about July 31. He will then return home for a thirty day leave before returning to the academy in September to begin his final year.

PASSING PARADE — Could be that the Six Flags Marching Band here was heralding the opening the first of this month of daily operations for the historical-theme park, Six Flags, located between Dallas and Fort Worth, has started its seven-days-a-week operation. After Labor Day, the park will be open on weekends until December 1.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Texas Research League, a nonprofit government study organization that does many administration studies at the request of the state, has issued a report on its year-long probe of the Railroad Commission. Many of its recommendations on agency management and oil and gas conservation already are being programmed.

One scheduled change involves the staffing and management of Railroad Commission district offices. Responsibilities with respect to wells and staff members are so varied that the League believes the system unfairly imbalanced.

District 8 in Midland, for example, has approximately four times as many wells as District 4 in Corpus Christi, but each office is staffed with only four engineers. Wichita Falls has more than twice as many wells as Houston, but two less field men.

Four field men watch over 62-148 operating wells in the Midland district, yet 21 men oversee 26,036 wells in the Kilgore area. League's answer to the problem is to redistrict and cut the districts from 12 to 10.

The huge Midland district would be divided into three areas with new offices at Lubbock and Fort Stockton.

San Angelo, Refugio, Mount Pleasant and Palestine offices would be absorbed by other districts under the new operation plan.

PADRE ISLAND — If and when Congress approves a \$1,500,000 appropriation to meet the land-buying needs of Padre Island National Seashore park, newly-named park superintendent William L. Bowen will begin to acquire land for the proposed 80.5 mile coastal playground.

U. S. Secretary of the Interior Stewart Udall said Bowen will open an office in Corpus Christi some time after July 1 with a small staff. Bowen, Kansas-born veteran of the national park service, took part in preliminary studies leading to the establishment of the new national seashore area

on Padre Island.

COMMITTEE AT WORK — Gov. John B. Connally entertained his "Committee of 25" with a coffee, then set them to work. Committee has the year-long task of studying education beyond the high school.

Connally told them Texas needs a "total policy to guide all institutions, all segments of our higher education enterprise." He said this included state, church and private schools, junior and senior colleges and academic and technical institutions.

Committee met and decided to send their chairman, H. B. Zachry of San Antonio, suggestions on how to approach the challenge. They meet again in August.

SPECIAL SESSION — Rumors of a special session to get an appropriations bill more to Governor Connally's liking still are going around. But now predictions are being made about a January session, rather than one in the summer or fall.

Connally said he didn't like the one passed by the Legislature in the regular session because it "short-changed" higher education.

HOME-BUILDING ABUSES — Reported abuses of home building practices and loans were the subject of a recent conversation between Governor Connally and Lubbock District Attorney Alton Griffin, president of the state district and county attorneys' association.

Connally said, "It may be that additional legislation will be necessary to get at the heart of the matter."

One reported abuse that concerns them is the alleged practice of "double contracting" wherein 100 per cent home financing is achieved by cushioning appraisals and other real estate sales documents.

APPOINTMENTS — Connally appointed three new members to the State Finance Commission, including S. R. Jones Jr., president of the First Pasadena State Bank in Pasadena, and Rex Baker, Jr., president of Southwestern Savings Association of Houston. He also reappointed Taylor attorney Ro-

man J. Bartosh.

Bert Fields, Dallas oil operator, was reappointed and named chairman of the Texas Turnpike Authority, on which he has served since 1953. A new appointee is J. M. Haggard Jr., of Dallas, vice-president of the company that manufactures Haggard slacks for men.

Haggard replaced Armistead Rust of San Angelo.

CARR'S CHORES LIGHTENED — After August 23, the governor will have to make 15 more state board appointments. These 15 citizens named will take the place of just one man — Attorney General Waggoner Carr.

Switch was made possible by a bill, supported by the attorney general, which passed during the recent legislative session. End result will be to peel down the pile of "ex-officio" jobs, which have burdened attorneys general in the past, and give Carr more time for his main job as the state's head lawyer.

POST MORTEM — About 300 state labor leaders came to Austin to reflect on the accomplishments — or lack of accomplishments — of the 58th Legislature. Speakers at the seminar included Rep. Dick Cherry, Waco Democrat, and Rep. Ike Harris, Dallas Republican, and Sen. A. R. (Babe) Schwartz of Galveston.

"The 58th could turn out better than the 59th," Cherry said. "Next time, you'll have the problem of a big tax session and a second-term speaker (Speaker Byron Tunnell, supposedly) running for Attorney General."

As session achievements, Cherry listed the Padre Island bill, Municipal Annexation bill, Tourist Development program, Water Storage expansion and provisions for teacher retirement.

Measures for rural development, which did not pass, were among what he considered failures of the Legislature.

GOOD NEWS — Although state and federal animal health officials reported that 72 Texas counties are not tagged "screw-worm infested" the report was good news, said R. R. G. Garrett, executive director of the Texas Animal Health Commission.

confirmed as screwworm in the March 31-April 27 period represented a decrease of 95 to 98 per cent in the number of cases in years before the screwworm eradication project went into effect.

"We're real happy with the success of the program," Dr. Garrett said. "We hope to be completely successful in wiping out the screwworm by the end of the three-year program." He said livestock producers were responsible for the stamping out of the costly pest in at least two ways: Through their \$3,000,000 contributions and through "excellent" cooperation in reporting cases and sending samples.

"It's strictly a producers' program . . . initiated by livestock producers and wholeheartedly supported by producers."

The three-year, \$12,000,000 producer-federal-state program almost has reached the mid-way point in its progress.

BUS DRIVER OF THE YEAR Records of more than 8,000 school bus drivers were screened before Elmer J. Ashby of the Carlisle Independent School District, Rusk County, was selected "Texas Public School Bus Driver of the Year" by the Texas Education Agency.

In 25 years of service, Ashby transported school children 300,000 accident-free miles, without missing a day for personal or superficial reasons.

'STATES' RIGHTS — The 58th Legislature passed two proposed "states' rights" amendments to the U. S. Constitution. But both are a long way from changing the law of the land.

One would make it simple for the states to initiate other amendments to the constitution; the other would prevent federal courts from ruling on states redistricting as population shifts occur.

SIDE-DRESS

WITH THE FULL MIGHT OF NITROGEN

It's now or never for this year's cotton and grain crops. The nitrogen needed for an abundant, high quality harvest should be applied before the 12th week of growth or before the plant begins to boot or bloom. Anhydrous ammonia supplies this nitrogen in the largest quantity by volume and in the most usable form. We recommend and sell Shamrock Nitromite because we know it to be a fine brand of anhydrous ammonia, 82.2% nitrogen.

a cottonseed-meal-aholic, I guess.

But Brownie served our family (there were only three of us) for many years, I guess. Anyway, the time finally came when Brownie had to be sold, and I can remember standing at the bay window and crying as they led old Brownie away, tied behind the butcher's buggy. In fact, to this day I can remember old Brownie, switching her long tail back and forth and staring back now and then at the home which she would never see again.

Brownie was succeeded by Queenie, a nervous Jersey whose temperament was nothing like as sweet as Brownie's. Queenie never did care particularly for small boys, of which I was one. I watered her through the fence, and even then she was not at all friendly. In fact, the only time I could go into the barnlot was when I was with one of my parents. Of course it kept me from having to do any of the barn chores.

One time I attempted to rescue a kite that had landed smack in the middle of the cowlot. I thought Queenie was occupied in chewing her cud and probably wouldn't notice a small boy sneaking into her private realm. She did. I grabbed the kite and beat it for the gate as fast as possible — but not fast enough. Queenie caught me in the seat and gave me a quick assist over the fence. I landed on my tummy, unscratched, but the pants that I was wearing were beyond repair with a complete southern exposure.

Queenie didn't stay with us too long. She not only didn't like small boys, but she had no use for women, either, and once when Dad had gone off to a school superintendent's meeting, mother attempted to milk Queenie. She came near having the same experience I had with the kite, and the neighbor man had to come over and do the job until Dad returned.

Mother, always a quiet person, got her cander up over that incident, and as a result, Queenie was traded off as soon as Dad got home. I think she put it something like that: "It's either Queenie or me." Dad reasoned he had better get a new cow; good wives

Crop--

(Continued from Page 1)
of these crops increasing each year, this was pointed to as an optimistic sign. Tomatoes, for example, withstood the hail in pretty good shape. Since that is one crop that is planted thick in the row, hail could damage only a small part of the crop, and it is expected that a uniform stand will result except in the most severely haled-out regions. Irish Potatoes, Adams said, "smiled right through the heavy rains."

Field corn and grain sorghum will survive hail better than any other crop, and in a few short weeks, it will be hard to distinguish the haled-out areas from the others by looking at corn and grain sorghum, he concluded.

More dryland cotton is up to a good stand on this date by many thousands acres than we had last year on June 11.

Irrigated cotton is in about the same condition as at this same time last year except for loss of stand from seedling diseases. Due to the dryer weather last year, seedling diseases failed to show up to any great extent. Of course, he cautioned, it is too early to tell the severity of this damage (seedling disease).

Pastures are looking exceptionally well. "The only way they could be better," Adams said, "would be to be rid of noxious weeds and shrubs. The grass that is present now certainly is giving the range cattle the easiest living they have had in many years."

to \$425,465 as compared with \$400,398 last year.

Sale of Property and Insurance: \$1,500 (unchanged from last year.) These figures give an expected revenue equal to the expected costs.

TO BIG SPRING

Mr. and Mrs. Ray Martin were weekend guests in the home of their daughter and son-in-law, Mr. and Mrs. Edward White, Big Spring. Upon retiring, they said we could all appreciate West Texas temperatures as it was extremely hot there and air conditioners were going "full blast" by 8:30 a.m.

Bossie's calf," he said, "and I just thought you might like to have it. She's going to make an awfully nice cow." She did.

It's all quite different nowadays, with any of the cows which provide the dairy products for our table. The products come in neat packages and are left twice a week by the dairyman who also has never seen the source of that milk. But I believe it's better that way. At least I've never lost the seat of my pants to a milkman. And that, Sandy, is my contribution to National Dairy Month.

tributed through the schools. He doesn't know what he should do." The story stayed in Wolff's mind and it later became the plot around which writer Allan Sloane wove many other true incidents from East Germany in creating the story for "Question 7".

Wolff next heard the story years later when "Question 7" was being filmed on location near Hamburg. A pastor, recently escaped from the East, had been engaged to serve as an advisor on the shooting set.

The pastor looked over the script and became agitated. "It's me," he said, "My boy. My wife." And he told how Communist officials had put pressure upon him and his church and had tried to persuade his son to forsake the church and join the party. Eventually, the boy had fled to the West. The pressures had increased, however, and the pastor's wife, too, had had to leave and finally the pastor himself, reluctant as he was to abandon his parish, had been forced to flee for his own physical safety.

Board--

ended as compared with 32.48 for the previous school year, or an average gain of 20.64.

The board also was given a progress report on summer maintenance: All floors in east and west De Sazo buildings have been cleaned and waxed. Grass has been planted or sprigged on junior high grounds, DeShazo; the football field and the practice field. Walls of closets in the senior high choral room have been removed to make additional classrooms.

"The room next to the coaches' office in the gymnasium are being made ready for painting, and ceiling and lights installed. This will be used as an additional classroom the board was told.

Cracks in the plaster in the walls of every classroom in the junior high building have been repaired and rooms are ready to be painted. Sample fluorescent lighting fixtures have been installed in two rooms at DeShazo and one room at Richland Hills for the board to see and make selection of the type they want to start installing.

IT COULD HAPPEN ONLY HERE — These three pictures were made Monday, and only four miles apart. While water from weekend rains was still deep on U.S. 84 (top picture) a farmer a short distance away was running a sand fighter (center picture) while on a nearby farm, cotton was being replanted.

WASHINGTON NEWSLETTER
FROM SENATOR **JOHN TOWER**
Committee: Banking and Currency
Labor and Public Welfare

AGRICULTURE — The stunning upset of Administration proposals for the nation's wheat farmer was probably the most significant item of the month, if not the year, as far as agriculture was concerned. Another, less dramatic perhaps but no less important to Texans, was the beginning of committee consideration of proposed cotton legislation. These two subjects will be discussed briefly here, with other proposals that have a bearing on the agricultural economy of our state.

WHEAT: As you are no doubt aware the wheat farmers of America said "no" to an Administration proposal that would have placed them in an economic and agricultural straight jacket. Their vote was an example for all Americans, particularly for those cynical ones in our midst who say the trend toward complete socialization cannot be reversed. In my opinion, the American people owe the wheat farmers a vote of thanks, for if the vote had approved the Administration's proposals it would have been taken as an indication that complete regimentation is the order of the day.

Thirty years of artificially inspired circumstances cannot be abandoned overnight, however, without unfavorable reactions for the people involved. It is for this reason that we must enact legislation that will protect the wheat farmer while at the same time continuing the march to agricultural freedom. Ultimately the government should get out of the business of regulating and controlling the American farmer. In the meantime the farmer should have more choice in the matter of crops, with price supports used as a guarantee against disastrous prices, rather than as a means to jack the price of agricultural commodities so high that they

cannot move in trade channels. **COTTON:** Efforts are now being made to effect a compromise that might lead to legislation this session. At present the cotton industry is in deep distress. The so-called "two-price" program, wherein foreign users can purchase American cotton cheaper than our own users can purchase the wheat referendum. And, if no corrective legislation is forthcoming at this session, we can think those bureaucrats who insist that the farmer (and everyone else) play the game their way or not at all.

CATTLE: I have joined with Senator Simpson of Wyoming and others in sponsoring legislation designed to restrict the importation of cattle, beef, and veal. The measure, S. 557, would establish an annual quota equal to the average annual quantity imported during the five-year period ending December 31, 1962. Beef and veal imports have jumped 41 percent in the last year, from 689.1 million pounds in 1961 to 979.9 million pounds in 1962. Live cattle imports are up about 20 percent, and exports of beef and veal are down about 9 percent. It must be remembered that the cattle industry is not under federal subsidy. Ranchers have resisted the temptations of a floor under their prices, despite the fact they must buy feed that is grown under subsidy. Under these circumstances I believe they deserve all the help they can get. I do not believe they should be driven to the wall by an unanticipated flood of foreign cattle and beef dumped on the American market by an Administration that seems to think more of the wishes and desires of foreign governments than it does our own people. We shall endeavor to attach the bill as an amendment to the first appropriate vehicle that comes out of the Senate Finance Committee.

POULTRY: We were extremely unhappy to hear that the European Common Market has increased its already high tariff against the importation of American poultry. Some time ago, as a result of letters from Texas constituents, we asked the Secretary of Agriculture if more legislation was needed in order that America might negotiate more favorable trade relations with foreign markets for our poultry. The European area has been a comparatively lucrative market for American poultry farmers, a great many of whom are Texans. The Secretary of Agriculture assured us, and the letter is in our files, that no new legislation was needed; that the government intended to accelerate its efforts in this field, and implied that things would get better. Now, with the announcement that tariffs will go even higher, the results of this government's efforts are obvious.

HAMILTON'S HORSE WINS — Speculator, owned by Price Hamilton of Muleshoe, and trained by Ted W. Wells, Jr., won the third race at Ruidoso Downs, Saturday, June 8th. The 2-year-old chestnut colt ridden by George Koyk, ran the 350 yards in 18.8.

McMurry Slates Twirlers Meet

A 16-member staff for the annual McMurry College Summer Band and twirling school has been completed, with plans being set for the opening of the two-week school July 14. Dr. Raymond T. Bynum, director of the famed school and head of the McMurry Band, said the two-week school will be held from July 14 to July 27. Described as "one of the biggest, most colorful and most faithfully-attended events of the college year," the Band and Twirling School attracts teachers and students from throughout Texas. Last year more than 500 students, representing some 50 cities in West Texas, attended the band school, and students have already begun enrolling for the school this summer. Students of instruments, twirling and drum-majoring are encouraged to register immediately for the school, Bynum said. Full information and registration blanks are available upon request from Bynum's office.

30 Years Ago

A very interesting golf tournament was held at Farwell between members of the Farwell and Muleshoe teams last Sunday.

There were five foursome games played, Muleshoe players winning two of them.

Those attending from Muleshoe were: A.J. Gardner, Delma McCary, Gilbert Wollard, Elwin Smith, Roy Cobb, Connie Gupton, D. W. Winn, Jess Osborne, Pat Bobb, J. L. Taylor, Jim Alsop, Albert Isaacs, Al Burnett, and Walker Moeller.

Muleshoe leather swatters crossed bats with the neighboring team of Sudan on the south last Sunday afternoon, the score resulting 21 to 6 in favor of the local lads.

A good crowd of fans witnessed the game.

The Muleshoe post office has on sale this week two new issues of postage stamps.

One issue is the 3-cent denomination, of regular size, purple color, issued in commemoration of the Century of Progress World's Fair now being held in Chicago.

The other is a green 1-cent issue, carrying a picture of old Fort Dearborn and commemorating the Chicago World's Fair.

Bill Wingfield and Buford Butts, members of the local fire department, left Sunday morning for Corpus Christi where they will attend the annual state firemen's convention, returning Friday of this week.

Judge and Mrs. R. J. Klump visited Sunday with her parents, Mr. and Mrs. D. L. Harding, Texico, New Mexico.

Connie Gupton is rearranging his grocery store, rebuilding the shelving and putting in more display racks.

News of People In Armed Services

LUKE AFB, ARIZ. — Captain Jerry N. Hicks of Muleshoe is being reassigned to Cannon AFB, N. M., following his graduation from the United States Air Force training course for F-100 Super Sabre pilots here.

Captain Hicks, already a rated pilot on flying status, is now qualified as "combat ready" in the supersonic jet fighter.

The captain, a graduate of Patton Springs High School, Afton, Texas, is the son of Mr. and Mrs. Thomas B. Hicks of 706 Main St. Muleshoe. His wife, Shirley, is the daughter of Mr. and Mrs. Roland Matthison of Muleshoe.

CAMP PENDLETON, CALIF. (AFHC) — Marine Private First Class Guillermo F. Armendariz, son of Mr. and Mrs. Faustino G. Armendariz, Muleshoe, recently completed a three-day tactical test with other members of Company E, Fifth Regiment, First Marine Division at Camp Pendleton, Calif.

FORT LEAVENWORTH, KAN. (AHIC) — Army National Guard Col. Ross Ayers, whose wife, Flora, lives in Friona, completed a one-week National Guard combat division refresher course at the U. S. Army Command and General Staff College, Fort Leavenworth, Kan., May 25.

The course provided refresher training as a unit to the division's commanders and staffs, helped develop staff teamwork and offered instruction in the application of current Army doctrine.

Colonel Ayers is regularly assigned as commander of the 30th Division Artillery, an Army National Guard unit in San Antonio, Texas.

The colonel is the son of George M. Ayers, Formosa, Ark.
