

Stored Wheat And Cotton To Give Government Control Over Billion And Half Dollars Winter Supplies

WASHINGTON, Oct. 17 (AP)—Farmers are storing millions of bushels of wheat and thousands of bales of 1940 cotton under loan programs which are expected to give the federal government control over upwards of \$1,500,000,000 worth of food and fiber supplies by mid-winter.

Similar loans will be made available on corn and possibly several other crops within a few weeks.

Agriculture department officials said the loan programs, designed originally to bolster producer prices, were being fitted into the national defense program to assure the country of reserve supplies in the event of war and to protect consumers against sharp price advances such as occurred in the last war.

Foreign Market Crops

Crops being placed under government loans are mainly those which normally would move into foreign markets now closed by the war.

Officials explained that in the event the United States became involved in war and prices began to increase sharply, supplies stored under loans could be released from storage and probably would fetch actual price advancing tendencies.

Loans totaling about \$150,000,000 have been advanced on about 210,000,000 bushels of surplus wheat. Loans amounting to about \$26,000,000 have been advanced on about 520,000 bales of cotton. With little cotton moving into export markets, officials expect upwards of 2,000,000 bales of the 1940 crop to be stored under the government program.

Foreclosed On Loans

The government owns large quantities of farm crops which it acquired under foreclosure of loans on odd crops. Included are about 6,500,000 bales of cotton, 88,000,000 bushels of corn, 190,000,000 pounds of tobacco, 1,500,000 bushels of wheat, 28,020,000 pounds of peas and vetch and 58,296 pounds of rubber. The rubber was obtained in a deal with Great Britain under which that country obtained surplus American cotton.

Other crops of which supplies are stored under government loans include 1928 and 1939 corn, raisins, barley, hops, rye, dates and pecans.

Commodities placed under loans are sealed in warehouses, cribs and elevators and cannot be sold as long as the loans are outstanding.

Big Six Schools To Decide Grid Bowl Game Idea

KANSAS CITY, Oct. 17 (AP)—It was to be a surprise, but Big Six faculty representatives will gather in Kansas City Oct. 24 and 25 to decide, once and for all, the conference attitude of football bowl games.

The action follows the recent approval of the University of Kansas for the proposed annual Jan. 1 clash of the Big Six and Southwest Conference football champions, and the taking over of the Cotton Bowl by the Southwest schools.

Met In December

Big Six faculty representatives met to define the conference attitude last December and carried the discussion over until the spring meeting in Lincoln, Neb., without reaching a decision either time.

At the Nebraska gathering they heard emissaries from both the Cotton Bowl and from the Southwest Conference, who suggested a game along the lines of the proposed Big Ten-Pacific Coast hookup for the Rose Bowl.

One of the reservations tied to the Cotton Bowl capable of seating 52,000 is controlled by the two conferences. This was met in part last week when the Southwest schools acquired the game site and rights.

Royal Air Force Unloads Anew On German Targets

By The Associated Press

LONDON, Oct. 17—The RAF's incessant bombing of German war bases and war industries, now tied in with a growing naval offensive, was reported today to have caused new "extensive fires" at Kiel and fresh damage at Hamburg, Bremen and Cuxhaven.

The fierceness of attack and defense in last night's RAF operations was hinted in a concise air ministry communique acknowledging loss of five planes.

Prowling for action in the English Channel and the North Sea, British warships were reported last night to have destroyed an entire convoy of five German vessels and to have attacked a sixth ship "successfully."

Sub In Action

Apparently this was a submarine action—a follow-up to the recent reported naval bombardment of Dunkerque and Cherbourg, on the German-occupied French coast.

In the Mediterranean phases the admiralty admitted the 9-100-ton cruiser Liverpool had been damaged in an Italian torpedo-plane attack. The Liverpool, one of eight ships of the Southampton class, reached her base with an undisclosed number of casualties.

Jobless Subject Of Speeches In Political Drive

By The Associated Press

The problem of America's jobless held the campaign spotlight today as Wendell L. Willkie called for a revision of the WPA program and Henry A. Wallace termed present unemployment insurance too conservative and said that it would have to be made more generous.

Willkie charged that the new deal had made a "frank and shameless promise" of more unemployment insurance and added that "our promise is more jobs."

In a speech prepared for Evansville, Ind., he called for changes in the WPA including greater emphasis on public works projects under private contractors and allocation of relief funds to the states according to the amount of unemployment. Willkie's talk was one of a number on the day's crowded schedule of campaigning in Indiana, Illinois and Missouri.

Would Extend Benefits

Wallace advocated extension of social security benefits as he replied to Republican charges that the Roosevelt administration's policies would lead to national bankruptcy and failure to meet workers' claims. The Democratic vice-presidential nominee spoke at Pittsburgh last night.

"Such talk," he said, "is in the same class with the story that went out in pay envelopes just before the election in 1936 that you would have to wear license numbers around your necks like dogs. x x x

"Our system in its present form is far from bankruptcy; it is more troubled with surplus than with deficits."

Little George Has Weather Forecast

Little George McEntire is sure winter will be here soon.

He saw a truck load of watermelons headed south between Big Spring and San Angelo.

"That's the best sign," Little George said. "Some people talk about the birds, others the winds and others have their own ideas, but you can't beat southbound watermelons as an indicator of the first sign of winter."

Police Officers Of Dallas Are Jittery Over Safety Record

By Oleu W. Clements

DALLAS, Oct. 17 (AP)—Sometimes police captain B. B. Smith wonders why his head does not ache all the time. The captain's job is to keep Dallas the champion deathless city of the nation in the 250,000-300,000 population class.

His troubles are manifold and on this, the town's 138th day without a traffic death, the captain is a bit weary.

The wear and tear on peoples' nerves is beginning to tell. Most everybody is deathless day conscious. Policemen wear arm bands proclaiming the number of days Dallas has escaped an auto death.

Nerves On Edge

Things have reached the state where the first person who kills somebody with a car is apt to be mobbed.

Just yesterday a rumor reached Captain Smith that Anna Elizabeth Sewell, 7, a negro girl hit by a pie truck, had died and was buried secretly.

The captain investigated, found Anna beaming and alive.

The strain on motorists is mounting. A car stalled in an underpass. Another motorist obligingly pushed the stalled machine. His bumper dented the rear fender of the other car and the owner pulled out a piece of lead pipe and whacked the good samaritan on the noggin.

"A bad case of nerves," said the cops.

Negro Is Saved

A negro was injured in a wreck. Hospital doctors said he would die. The traffic squad, undaunted, aroused a noted brain surgeon at 3 a.m. and the doctor saved the negro's life.

That's just one of the town's narrow escapes. A woman was killed 50 feet from the city limits. A man died in a wreck a block from town.

Night before last a car hit three pedestrians, killing one. Everybody thought sure that accident happened in town. But the traffic squad measured off the spot and found it was just outside.

So the champion deathless day city in the 250,000-300,000 class goes on, happy that its per capita traffic deaths technically have bested the per capita deathless day in Providence, R. I., which set a record of 157. Providence is smaller than Dallas, so experts figured Dallas

bested Providence when the Texas town passed 135 deathless days.

Eight guests were present including: Mmes. N. A. Lancaster, Roy Proctor, Cooper Hyde, Eugene Russell, W. R. Mills Jr., Miss Ruth Carden, and two out-of-town visitors, Mrs. Jones and Mrs. Armstrong.

ONE of the most difficult things in bridge for the amateur to master seems to be defense. The new amateur team-of-four champions handled defense well at Asbury Park this year. Today we have a nice defensive hand played by C. W. Potts and J. L. Shearn, Jr.

East made a nice play in under-leading the ace of diamonds, and Potts (West) won with the queen. He returned a heart, declarer won with the ace, played the queen of clubs and took the finesse, which lost to Potts' king. Another heart was played back, won in dummy with the king, and dummy's ace and jack of clubs were cashed, declarer discarding the nine of hearts.

The next play was the deuce of spades. Potts won with the queen and returned a diamond, East winning with the ace.

At this point, Shearn (East) played the high club and Potts made the nice play of ruffing with the spade ace. This, of course, established a trump trick for East, so the defense won three trump tricks plus two diamonds and a club, setting the contract one.

STEAM ROLLER LOSES SET-TO WITH TRAIN

OAKLAND, Calif., Oct. 17 (AP)—Patrolman Henry T. Rose never thought a five-ton steam roller could lose a traffic argument.

But the evidence was indisputable. Answering a routine call he found the steam roller 40 feet from the spot where an interurban train had hit it.

To make it more impressive—the steam roller was right in the middle of Patrolman Rose's lawn.

Designs Frock Shown In Mirror

A dress design created by a young Midland woman was given wide publicity in a recent issue of The New York Mirror when it was one of the selections shown in Jane Arden's Wardrobe feature column.

Mrs. G. B. Hallman, the former Laverne McMullan, is the designer. The dress shown in The Mirror was an afternoon frock featuring a set-in corselet effect with fullness in the blouse front gathered below a yoke line and above the corselet section. Sleeves were long and full and the skirt full.

Is "meat upon the table!"

Stock Interest Today

On Steady Steel Group
NEW YORK, Oct. 17 (AP)—Stock traders centered their interest on the steady steel group today, permitting most of the market to follow an irregular course.
Operations were mainly of a tentative, testing nature, held to a minimum by the uncertainties of war developments. About 600,000 shares were exchanged.
The closest approach to a trading barometer—and it was not widely accepted—was gentle, recurrent lifting movement among steels, followed, to some extent, by aircrafts.

Officers Return Pierson To Jail

AUSTIN, Oct. 17 (AP)—Howard Meritt Pierson, 26-year-old slayer of his parents who was captured in Minneapolis last week after escaping from a hospital for the insane in 1938, was returned to the Travis county jail here today.
The youth who lured Supreme Court Justice William Pierson and Mrs. Pierson to the Hill Country north of Austin and shot them to death April 24, 1935, was turned over to Sheriff Jim McCoy by Texas Rangers Rip Collins and Ernest Best, who brought him back to the jail where he was incarcerated the night of the slaying.
Pierson escaped the night of April 16, 1938, from the hospital where he had been confined after a jury adjudged him insane.
District Attorney Edwin G. Moorhead has filed an affidavit in District Judge Ralph Yarborough's court expressing the opinion Pierson is sane.
Ranger Collins said Pierson was a "model" prisoner on the trip.

(Continued from page 1) new adventure in peacetime conscription. Few Disturbances Disturbances were few, although one man was killed in a gun-fight at a Nebraska registration place.

As soon as registration ended at 9 p.m. last night, registration cards began to move from the registration places to county clerks, for distribution to 6,500 local draft boards which began functioning officially today.

The boards first will shuffle the cards and give them serial numbers which will be drawn in a national lottery in Washington to determine the order in which the men will be subject to call for service.

Hershey expected to be named deputy director will turn over his temporary duties today to Dr. Clarence A. Dykstra, president of the University of Wisconsin, who arrives from Chicago to take office as director by appointment of the president.

Meanwhile, clerks of local boards will register those unavoidably detained yesterday, start action against delinquents and receive voluntary army enlistment offers for one year from men between 18 and 36.

GEOLOGISTS TO HEAR WOLFORD Midland Geological Society will hold a luncheon meeting at the Crawford Hotel Friday noon.

We, the Women

By Ruth Millett IT'S a mistake for a woman to refuse to tell her age—for several reasons.

To begin with, the very fact that she has grown coy about her age is positive proof that she is older than she would like to be.

Then, too, an attempt at concealment makes age seem a shameful secret. Also, as long as a woman refuses to tell her age, all her friends speculate on it.

Persons summoned for petit jury service in 88th district court next week were notified by District Clerk Nettie C. Romer today not to appear.

Stopped the Show

Mary Howard, wearing a red velvet hostess gown with scroll applique of gold kid, outlined in royal blue, and a gold kid belt, stopped the Garden Festival fashion show at Pickfair in Hollywood.

T. D. Kimbrough, Midland attorney was named by Governor O'Daniel and Dr. Tom C. Bobo were named as official draft appeal agent for Midland County.

The appeal agents will protect the interests of both draft boards and registrants in matters of difference, and are not to be confused with boards of appeal which will hear the cases of registrants protesting classifications assigned them by draft boards.
