Greeks Drive Back Enemy On Front

Roosevelt Gets Behind Increase In Aerial Power

U. S. Would Have Best Plane Power In World; Craft Also For British

BOSTON, Oct. 31 (AP)—President Roosevelt has given his support to a proposed step which he said would let Great Britain order 12,000 more American planes and, by building up production capacity, help make the United States "the strongest air power in the world."

He selected a political speech in the Boston garden last night to announce that he had asked the defense priorities board to give "most sympathetic consideration" to a British request for permission to order the planes.

When these orders were approved, he said—adding "I hope they will be"—Britain would have undertaken to purchase a total of 25,000 American planes, and still more new plant facilities would be needed.

Production Holding Up
"The productive capacity of the United States that I talk about, which has made it the greatest industrial country in the world," he said, "is not falling now. It is going to make us, in making us the strongest air power in the world."

A capacity crowd in the Garden sent up a loud cheer when he added: "and that is not just a campaign promise."

The President returned to Washington for a speech at 3:15 p. m. (CST) today, dedicating the National Institute of Health, and a final brief interlude in pre-election campaigning before traveling to Brooklyn for another political address at the Academy of Music tomorrow night.

Works In Two States
The Boston speech ended a day in which he campaigned in Connecticut and Massachusetts, which gave a total of 25 electoral votes.

In this address he denounced what he said was "the record of Republicans of farm legislation," and singled out for criticism their National Chairman and House Leader, Rep. Joseph W. Martin, Jr., whose home state is Massachusetts.

Republican campaign orators were "ridiculous," Mr. Roosevelt declared, "when they shed those old crocodile tears over the plight of the farmer."

"The American farmers will not be deceived," he asserted, "by pictures of old guard candidates, patting cows and pitching hay in front of moving picture cameras."

First Vote at 96 Planned
CANTON, O. (UP)—For 96 years Mrs. Rose Ann McKinney, Canton, has sat on the sidelines politically, but now she has decided to cast her first vote.

Whozit has been in the politics believed in leaving the politics to men," she said, as she registered. "But I've been thinking things over and I think it's about time we have a change in Washington."

Whozit has been in the politics believed in leaving the politics to men," she said, as she registered. "But I've been thinking things over and I think it's about time we have a change in Washington."

Pecos Ordovician Strike Flows 100 Barrels Per Hour

Legionnaires Will Entertain Citizens With Big Breakfast

Every resident of Midland—man, woman and child—is invited to the American legion's free breakfast at 6:30 a. m. Armistice Day, Nov. 11, at the Boy Scout headquarters, Colorado and Illinois Avenues, and the legion will do its best to see that all are there.

It will be a sunrise flag raising service.

Waker-Uppers are being enlisted by the legion to make all noise possible with sirens, automobile horns, bells, etc. in the morning for all every resident in time for the breakfast.

On Friday Nov. 8, the legion will cooperate with the city schools in an Armistice Day celebration at the high school auditorium. Legionnaires will meet at the courthouse and go together to the school.

A special church service for all ex-service men will be held Sunday November 10. The name of the church will be announced later.

War Department To Get 12,000 Bombers

WASHINGTON, Oct. 31 (AP).—The war department was reported today to have planned production of 12,000 additional bombing airplanes largely with the aid of the automobile industry.

This program, to cost possibly \$2,000,000,000, was described as separate from the 12,000 warplane order which President Roosevelt said last night Great Britain has proposed to place in this country.

Recent conferences of William S. Knudsen, defense commissioner in charge of production, with automobile industry leaders, were concerned with plans for the new American bomber production.

Two Plants Planned
The program was reported to call for erection of two large plants to assemble parts manufactured in automobile factories.

Whether the plants would be operated by the government or by automobile or aircraft industries was said to be undecided thus far. Government operation was favored by some authorities.

Tentative estimates for appropriations to finance this newest project—phase of plane construction already authorized—were \$100 million, for the bureau for later transmission to Congress, it was learned.

No delivery dates for the new planes were indicated.

By Frank Gardner

Northern Pecos County's sensational Ordovician discovery well, Taubert, McKee & Siemoneit No. 1 Mrs. V. W. Crockett, yesterday disappointed no one when it flowed through tubing at an estimated rate of 100 barrels of 43-gravity oil per hour.

The well first indicated opening of a major field when estimated flow of two barrels of oil a minute was registered on drillstem test from 5,234 to 5,237 feet, total depth. Production is from Simpson, middle Ordovician, sand at 5,270-80 and 5,320-45 feet.

Storage Being Erected.
No. 1 Crockett ran 2-inch tubing to 5,265 feet and circulated clear water to displace balance of drilling mud left in the hole. It unloaded through casing an hour after about two-thirds of the mud had been washed out. Operators "rocked" the well—switching flow from tubing to casing and back—to clean out further.

It flowed for four and one-half hours into pits and was shut in at 7:30 yesterday evening. Two high 500-barrel storage tanks are being erected, and high-pressure separator capable of carrying 250 barrels an hour is being connected. Gas volume of the strike was estimated from 5,000,000 to 8,000,000 cubic feet daily. It had 600 pounds flowing pressure on casing and 140 on tubing.

The discovery, one of the most important yet found in West Texas, is located 660 feet out of the southwest corner of the Crockett tract in section 4 1/2, block 3 H. & T. C. survey. It topped the Simpson at 4,755, datum of plus 2,363 and 27 feet higher than Magnolia Petroleum Company and Tex-Mex Petroleum Corporation No. 1-A J. H. Meece, a mile and a quarter north, which three years ago headed oil and gas from the same zone but failed to produce commercially because of rotary mud having drowned out the pay.

Ellenburger Well Flows
Ten miles south and slightly east of the Taubert et al well, Humble Oil & Refining Company No. 1 W. T. Shearer et ux was acidized with 1,000 gallons at total depth of 4,731 feet. Treatment was administered under 69-barrel oil load. Last night operators had swabbed out 152 barrels, 83 of new oil, in 10 hours and shut the well down. It had 2,700 feet of oil in the hole while swabbing. This morning swabbing was resumed, and the well kicked off, flowing 20 barrels of oil the first hour. It will be re-acidized with 3,000 gallons. No. 1 Shearer proves one-quarter mile northwest extension of the Apo deep pool, producing from the Ellenburger, lower member of the Ordovician. It topped the Ellenburger at 4,696 feet.

H. C. McCauley No. 1 E. Hall, Loving County wildcat four miles southeast of the Wheat, Delaware pool, is drilling below 892 feet in shale and anhydrite.

Crinoidal Topped Low
Continental Oil Company and others No. 6 J. S. Todd Unit, one-quarter mile south outpost to the Todd deep pool of North Central Crinoidal County, topped crinoidal lime of the Strawn, lower Pennsylvanian, at 5,875 feet, datum of minus 2,417. The marker is correlated by some as approximately 210 feet low to Conoco et al No. 5 Todd Unit, producer a quarter-mile north, and 27 feet low of Amerada Petroleum Corporation No. 1 Todd Estate, farthest west well in the pool. It is drilling ahead past 5,884 feet in lime.

Kenneth Slack of Pecos No. 1 Pat Wilson, Western Ward County Delaware test, is drilling anhydrite below 2,650 feet.

Miss Glidewell Takes Angelo Church Place

Miss Vivian Glidewell has resigned as secretary of the First Baptist Church here to accept a place as young people's leader in the Park Heights Baptist Church at San Angelo.

Her resignation will become effective Nov. 8. She will assume her duties at San Angelo Nov. 10.

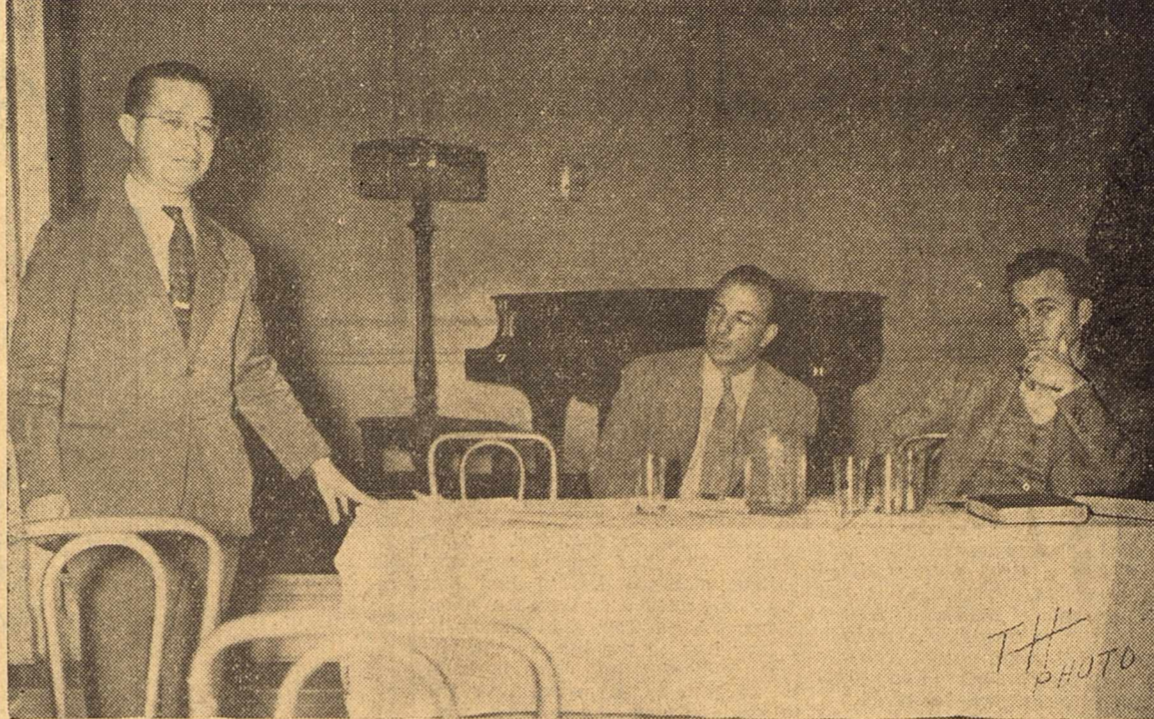

Miss Glidewell has been in Midland for nearly two years. She is an active member of the Civic Music Club and a former member of the Business and Professional Women's Club.

WAR DEPARTMENT ANNOUNCES CANAL BRIDGE'S APPROVAL

WASHINGTON, Oct. 31 (AP).—Approval of the Texas State Highway Department's revised plans for a bridge across the Louisiana-Texas intracoastal canal near Freeport, Texas, was announced by the War Department.

The revised plan changed operation details of the pivot barge, the department said, but approved changes remained unchanged and there was no effect upon navigation.

Stubbeman Explains Proposed City Charter

Frank Stubbeman, standing, is shown addressing a mass meeting audience of Midland voters last night at Hotel Scharbauer on the proposed city charter change that will be voted on November 5. Curt Inman, Junior Chamber of Commerce president, is in the center, and Joseph H. Mims, a member of the sub-committee that drew up the charter, is at the right.

Proposed New City Charter Is Discussed In Detail At Mass Meeting; Urge Citizens To Vote

South America's Defense Problem Is Told By Grant

Lester Grant told Rotarians at their meeting today it will take "an enormous fleet to move men and supplies to South America if we have to defend it."

Grant, manager of the McElroy ranch in Crane and Upton counties, and former professor in the Colorado College of Mines and Metallurgy, described conditions in the countries below the Rio Grande. He spent a number of years in Latin-American countries as a mining engineer.

"Read the editorials of your newspapers and try to understand what is going on in the world and do not give so much attention to the details of battles," he suggested.

"Selfishness is the one great thing which caused this war. There are two kinds of selfishness—blind, unreasoning selfishness as in the case of the dictators and enlightened selfishness.

"Enlightened selfishness is the only hope of democracies and with it they will progress. Real civilization comes from thinking men but it didn't start until their stomachs were full."

He described the area, the highways, transportation, communications, and population of South and Central America and then pointed out that water commerce is slow.

"Scientists have led the parade too fast with transportation and communication and education has lagged," he asserted.

Ocean Travel Is Slow
He said the fastest ship from New York to Valparaiso requires 17 days for the trip, and that although some passenger liners can travel 300 miles a day, most freighters can not go 200 miles a day.

Civilization in South America, except for a few larger cities, he said, compares with that of the United States in 1840.

Grant suggested Spanish should be a required subject in every high school and college in the United States so we can communicate with the people of South American countries.

"We've got to think about their culture,"

Tax questions bobbed up last night at the city-wide mass meeting for discussion of the proposed new charter for Midland and members of the commission which drew the document pointed out that under it there will be no change in the method of assessing and collecting municipal taxes.

Frank Stubbeman, head of the sub-committee which drafted the proposed charter, said plans for tax assessing and collection are "identical with the system we have now, providing for an equalization board, and also provide that if a taxpayer is not satisfied with the board's decision he can appeal to the city council."

He also pointed out that the proposed charter provides a maximum city tax rate of \$2.00 per \$100 valuation although under the present arrangement the city can set a rate of \$2.50.

Mrs. J. J. Redfern and Hilda Blair Fry brought up the tax questions after Stubbeman, Ed. M. Whitaker, chairman of the charter commission, and Joseph H. Mims, a member of the sub-committee, had discussed the proposal which will be submitted to a vote at the special city election Tuesday.

The meeting was called by the Junior Chamber of Commerce and Midland League of Women Voters, both non-partisan organizations, to acquaint voters with the proposition and to urge citizens to vote in both the city and general elections Tuesday.

After tax questions had been discussed Mrs. W. Watson LaForce said the men who took the time to draw the proposed charter and persons who arranged for the open discussion should be given a vote of thanks. Applause followed.

Curt Inman, president of the Junior Chamber of Commerce, who presided, urged citizens to vote in both the special city election and the general election to get a true expression from the community.

Mayor M. C. Ulmer told the more than 100 persons who attended the meeting in Hotel Scharbauer's ballroom the mayor and city council wanted to present the proposed new charter as "just an offer to the people" and not to urge it on them.

"The best form of government is self-government and the nearer home you can get it the better the people will like it," he said, explaining the proposal would give Midland home rule.

"Vote as you wish, but vote," was the urge of all speakers.

Percy Mims, at the opening of the session, explained the \$250,000 county road bond proposal which will be decided at the polls November 14, and asserted it will not increase taxes one cent as the federal and state governments, and the Texas and Pacific railway will do the work.

"I don't believe it is possible that we will ever have to pay a penny of the bonds," he said.

Wife Of Browder Is Ordered Deported By Justice Department

WASHINGTON, Oct. 31 (AP).—The justice department today ordered deportation of Mrs. Raissa Berkman Browder, wife of Earl Browder, general secretary of the Communist party in the United States, on the ground that she had entered this country illegally.

The order signed by Attorney General Jackson also denied application for suspension of the deportation order on the ground that Mrs. Browder's "evasive testimony regarding her relationship to the Communist party had created doubt as to her eligibility for leniency."

Immigration officials said that Mrs. Browder, who is 43, would be given a "reasonable time" in which to present herself for deportation to her native Russia.

The period she will be permitted for winding up her affairs will be determined within a few days, it was said.

Mrs. Browder and her husband, the Communist party candidate for president, were married in Moscow in September, 1926, and have three sons. Two were born in the Russian capital. One was born in New York city in 1934. The family resides in Yonkers, N. Y.

Grand Jurymen Summon Leaders On Vote Inquiry

PHILADELPHIA, Oct. 31 (AP).—A federal grand jury investigating alleged violations of election laws sent out subpoenas today to leaders of the Republican and Democratic parties in Pennsylvania in what a spokesman termed an "unprecedented" action.

Announcement of the move was made after Democratic national chairman Edward J. Flynn told his press conference in New York yesterday that Republicans "intend to buy this election." He added "the evidence is pretty positive" that Joseph N. Pew, Philadelphia industrialist and Republican leader, "has raised \$2,000,000 to buy the election in Pennsylvania."

Five Summoned
Summoned to appear November 7—two days after election—together with Pew were Democratic state chairman Meredith Meyers; Jay Cooke, Republican candidate for the U. S. Senate and city chairman of Philadelphia; John B. Kelly, Philadelphia Democratic chairman; James F. Torrance, Republican state chairman; and Luther Harr, Democratic state campaign manager.

The jury also subpoenaed, by title, treasurers of the city and state committees of both parties.

Pew terms Flynn's accusations "too ridiculous for comment and said of the jury's action "I haven't heard of it."

Storm Hill Under Heavy Fire North Of Ioannina In Counter Stroke As Large Supplies Of Arms Are Seized

Italian High Command Reports Meager Drive Impeded By Torrential Rains While Little Greece Decides Turks Not Needed At Present

By The Associated Press.
A Greek counter-attack north of the besieged town of Ioannina (Janina) was reported to have thrown back invading Italian troops on the northwest front today, with Greek soldiers storming and recapturing a hill.

Dispatches from Athens, capital of Greece, said Greek warriors rushed the hill under heavy fire and seized big quantities of abandoned arms and equipment.

Searching Party Finds Lost Girl Returning Home

Betty Jean Thompson, 11-year-old daughter of Mr. and Mrs. E. N. (Tommy) Thompson, 906 South Ft. Worth, was found by officers about 16 miles south of Midland today after being sought since she left home late Wednesday.

Deputy Sheriff Fisher Pollard and County Agent V. G. Young found the girl, walking towards Midland, about six miles south of a ranchhouse where she spent Wednesday night at the home of Mr. and Mrs. John King. The girl told officers she was returning home.

Left On Bicycle
According to the girl's father, she left home on her bicycle and spent the night at the King home, about 10 miles south of the city. Immediately after leaving the ranch this morning she was overtaken by King, who took her bicycle to prevent her continuing the trip towards Rankin.

Eluding the man, the girl headed into the rough country east of the house. King notified Thompson, an electric welder, and he immediately got officers and friends to search for the girl. About 50 persons participated. Thompson chartered a plane and flew over the area where the girl was last seen but was not able to find her.

The girl had recrossed the highway, traveling south on the west side of the road. She was headed north when located.

The girl, who refused to divulge a reason for leaving home, was none the worse for her experience.

Proctor Cattle Deals Reported

Extensive deals in buying and selling cattle, most of them in New Mexico, recently were made by Foy Proctor, well-known ranchman here. Proctor purchased 350 head of calves from J. V. Stokes of Carizozo and resold them immediately. From Tombe Foster he bought 151 steer calves that had been fed out in Midland county and resold them. Three hundred head of steer calves from his own ranch were sold to Cudahy Packing company of Los Angeles, and 397 to an Exeter, Calif., packing company.

Four hundred calves were purchased from Driggers Bros. of Santa Rosa. Proctor and Roy Parks also purchased 667 calves from the Midland Farms, Inc. and sold them to Bill Bryant, who resold to W. M. Pyle.

Waker-Uppers Are Wanted By Legion

WANTED—WAKER-UPPERS.
The American Legion is enrolling Waker-Uppers for its program to arouse everyone in Midland before 6:30 a. m. Armistice Day so they will not miss the free breakfast of doughnuts and coffee, served by legionnaires, at Boy Scout headquarters.

Anyone who wants to be a Waker-Upper should phone immediately Fred G. Middleton chairman of the wake-up committee of the legion. The number is 30.

JAYCEES TO MEET.

Regular weekly luncheon of the Junior Chamber of Commerce will be held at the Crawford Hotel tomorrow at noon. Details of the "Get Out the Vote" campaign of the organization will be explained.

LATEST NEWS FLASHES

Guns Blast At Germans.

LONDON, Oct. 31 (AP).—London's aircraft guns spoke tonight in an almost continuous roll to combat German planes attacking in dank, murky weather.

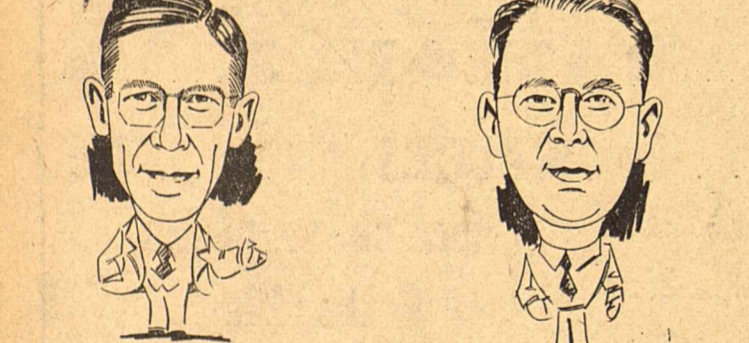

Nazis Reported Moving East.

BUCHAREST, Oct. 31 (AP).—Fast German troop trains were unofficially reported tonight to have passed through Rumania's western province of Banat, presumably east bound, and heavy movement of German war supplies was reported on the Timisoara-Brasov railway.

War Prediction At Oil Session.

FORT WORTH, Oct. 31 (AP).—Probability that the United States would be at war with the totalitarian states within 90 days was forecast today by Mayor I. N. McCrory of Fort Worth, before the twenty-first annual convention of the Texas Mid-Continent Oil and Gas Association here.

WHOZIT?

If you have something on your mind concerning the beautification of our city, Mr. Whozit is the man to talk to. For years it has been his first consideration.

As a developer, he has, with his associates, given the city such additions as the High School Addition, Country Club Heights, Elmwood and Ridgela.

Mr. Whozit was born in Cleburne, Texas, and it was there he attended public schools. While in high school he was catcher on the baseball team. During his senior year he was physical director of the Y. M. C. A.

He has been in the real estate and development business all his life and developed Country Club Heights in Fort Worth in 1920.

After leaving Fort Worth, he went to Lubbock and handled the city expansion through two additions there. He moved to Midland in 1927.

He is one of the organizers and the first secretary-treasurer of the Lions Club. He belongs to the chamber of commerce and the Odd Fellows Lodge. He is a steward in the Methodist Church.

You've heard of a month of Sundays, but Midland boasts almost an entire week of another day in Mr. Whozit and his four brothers.

Mr. Whozit has one of the most popular boot and saddle shops in the entire country. People from all over Texas and from all over the west come here to have their western leather made up as they like it.

Born in Coifax, Louisiana, Mr. Whozit has spent many years in West Texas. Since 1922 when he started in the boot business he has been all over this section building his reputation. He came to Midland in 1928 and worked here about two years. Then he went to Lamesa where he opened a shop of his own. In 1932 he came back to Midland and opened another shop, keeping the one in Lamesa for another year. He now operates three in this city.

He belongs to the chamber of commerce and the Odd Fellows Lodge. Mr. Whozit finds his business about the most entertaining hobby he could work with and gives it most of his time.

Gene Autry and many other national characters are on his list of customers, having all their leather equipment made by Midland's Mr. Whozit.

You will see him and his co-workers later in The Reporter-Telegram Get-Acquainted page.

Yesterday's Whozit was Dick Hinkle.

Numbers For Midland County's Registrants

The third list of serial numbers for the national draft drawing Tuesday in Washington appear today in The Reporter-Telegram. Previous numbers were published Tuesday and yesterday.

The numbers follow:

Stock Market Quickers With Large Turn Over

NEW YORK, Oct. 31 (AP).—Traders stepped on the buying accelerator in today's stock market and steels, airfrats, rails and industrial specialties shot up 1 to more than 3 points at the best.

Activity quickened on the extension of Wednesday's modest advance and, despite frequent slow-downs after mid-day, transfers of about 1,400,000 shares formed one of the biggest turnovers in the past several months.

High price marks for the session were attained in the majority of cases around noon. Profit taking then made its appearance and numerous extreme gains were reduced at the close.

ORDERS FREIGHT SHIPS.

WASHINGTON, Oct. 31 (AP).—Secretary Morgenthau disclosed today that the British government has ordered "a large number" of freight ships in this country.

CORN HUSKING CHAMP.

DAVENPORT, Ia., Oct. 31 (AP).—The Corn Belt acclaimed a new national husking champion today in Irvin Bauman, youthful Illinois farmer who became the Nation's top "farm athlete" on his third try.

KANSAS OIL INCREASED.

WICHITA, Kas., Oct. 31 (AP).—Kansas allowable oil production in November will be 190,000 barrels a day, an increase of 1,500 barrels over October.

The Bureau of Mines estimated market demand for Kansas crude in November at 186,000 barrels a day.

Record Absentee Vote Set In Nov. 5 Election

Convincing proof that Midland county voters are interested in the general election November 5 was found today in a report from the county clerk's office showing 91 absentee ballots cast—a record number for the county.

Approximately 50 ballots have been cast for the road bond election November 14. Meanwhile, only 20 absentee votes were reported at the city hall on the city charter change election, also November 5.

Saturday is the final day for absentee voting in the general and city elections.

INVESTIGATES FIRE.

WASHINGTON, Oct. 31 (AP).—A wing of the War Department's munitions building remained under military guard today while an official board pressed an investigation of a fire which swept through a \$110,000 addition to the fourth story yesterday.

RECORD VOTING POTENTIAL

CHICAGO, Oct. 31 (AP).—Registration of voters in Cook County, the metropolitan area embracing Chicago, reached an all time high of 2,185,166, the Board of Election Commissioners announced today.

No. F-103
Glazed Nut Rolls

Broadcast by Mary Lee Taylor
October 31, 1940

6 tablespoons melted butter
1 cup light brown sugar, lightly packed
4 1/2 tablespoons water
3/4 cup chopped nuts or other nuts
2 cups prepared biscuit flour
1/2 cup Pet Milk
4 1/2 tablespoons water

Turn on oven and set at hot (425° F.). Grease a dozen 2-inch muffin tins. Put in bottom of tins 3 tablespoons melted butter, then 1/2 cup sugar and 6 tablespoons nuts, dividing equally. Meanwhile, put flour in bowl. Stir in milk diluted with water and beat for 30 seconds. Turn out on floured paper, roll into sheet 8 x 12 x 1/4-inch thick. Brush with remaining 3 tablespoons melted butter, sprinkle with remaining 1/2 cup sugar and 6 tablespoons nuts. Starting at 12-inch side and with aid of paper, roll up like jelly roll. Cut into inch slices. Put cut side down into tins. Bake 15 minutes, or until browned. Turn out while hot. Serve at once.

Cornell At Head Of Statistical Leaders

SEATTLE, Oct. 31 (AP)—Team performance continued to keep pace with popular favor as Cornell's football team again ranked first today as the nation's outstanding offensive unit.

For the past three weeks Cornell placed first in the weekly Associated Press sports writers' poll, and for those same three weeks, figures compiled by the American Football Statistical Bureau have borne out the selection.

The "Big Red" eleven from Cayuga leads in total offense with an average of 424.3 yards per game by rushing and passing, some 35 yards ahead of the nearest contender, and for the fourth straight week the Cornellians capture honors as the "passingest" team, being 63 yards per game above second place Princeton.

Falls Off Slightly

In both classifications, Cornell is down from the previous week. The total offensive average last week was 466.7, and the passing offensive average was 272, compared to this week's 227.3.

In four games Cornell, in 249 plays has lugged the ball 788 yards and thrown in 909 for a total advance of 1,697 yards. The club completed 45 of 75 passes, with 5 intercepted.

Undeclared teams top four of this week's six divisions. Lafayette's Leopards boast the greatest rushing offense. The Navy has the most impregnable ground and air defense against rushing, finally took over first place in that classification. Twice defeated and once tied, Mississippi and Creighton dropped from the top ten.

Rushing offense—Lafayette, also first last week, 311.6 yards average per game, compared to last week's 342; Detroit, a game shy, 287.8; Brown 280.4; Boston College, 267.4; and Pennsylvania 264.5. Michigan, 260.6.

Pass offense—After Cornell comes Princeton, 164 yards average per game, Marquette, 162.5; Texas Mines 141.7; and Missouri, 133.8.

Total defense—Navy has kept land and air attacks down to 63.2 yards per game. Then comes Alabama, 71.5; Penn State, 105.8; Georgia, a game shy, 111; San Jose State 116.4 in seven games; Boston College, 117.8; Michigan, 120.4; Tennessee, 123; Texas A&M, 124.6.

Defense against rushing—Texas A. and M., yielded but 28 yards per game, average, to its five opponents. Following are Penn State, 29.5; Alabama, 31.8; Navy, 36.6; and Arizona 44.4.

Texas Minor College Teams Settle Issues On Home Grid Fields

By The Associated Press

There is a marked fall-off this week in inter-sectional games by Texas minor conference college teams as they settle some vital issues in backyard melees.

Both the Texas and Lone Star conferences have important games with the leadership in the balance in both.

North Texas State will be battling for a cinch tie for the Lone Star title in a game with Southwest Texas State while East Texas State works to keep its unbeaten record in a tilt with Sam Houston State.

Leaders At Fort Worth

In the Texas Conference two of the three leaders battle at Fort Worth with Howard Payne meeting Texas Wesleyan. The other—Abilene Christian College—has a date with once-beaten Austin College.

Two inter-sectional tilts are scheduled, Texas Tech entertaining University of Miami at Lubbock and Stephen F. Austin being host to Louisiana Normal at Nacogdoches.

The week's schedule.

Friday—North Texas State vs Southwest Texas State at Denton (day); Abilene Christian College vs Austin College at Sherman (night); Trinity vs Southwestern at Georgetown (night); University of Miami vs Texas Tech at Lubbock (night).

Saturday—McMurry vs Daniel Baker at Brownwood (night); East Texas State vs Sam Houston State at Commerce (night); Stephen F. Austin vs Louisiana Normal at Nacogdoches (day); Howard Payne vs Texas Wesleyan at Fort Worth (night); Texas Mines vs University of Arizona at El Paso (day); Hardin-Simmons vs West Texas State at Canyon (day); Texas A. and I. vs Rice at Houston (night).

Midland Juniors To Tackle Teams Today, Saturday

The Midland Junior High Bulldogs, seeking their second game of the season, were scheduled to meet Big Spring's Red Devils at 3 p. m. today on the latter's gridiron.

Coach L. M. Freels of the Bulldogs, dissatisfied with his boys in practice this week, threatened a wholesale shakeup in his starting lineup.

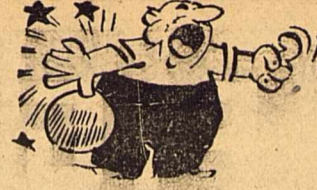

Anticipating one of the toughest games of the season, Freels and Assistant Coach Hargrave have been driving players hard for the past three days. Most of the injured boys on the squad are ready.

Develops Players

The Red Devils are coached by the veteran Ben Daniels, for many years the junior high coach at Sweetwater. Each year he turns out teams capable of holding their own with others in West Texas. Most of the boys on the league leading Big Spring high school team were developed by Daniels.

The Bullpup defense has looked good all season limiting opposing teams to not more than six points in any game, but the offense appears weak. The team has been able to score only one time, gaining a 6-0 decision over Sweetwater.

The Bullpup coaches left for Big Spring today with their fingers crossed against injuries. The San Angelo Juniors, 6-0 winners over the Midland team two weeks ago, will be played there Saturday afternoon.

Sports Roundup

By Eddie Brietz

NEW YORK, Oct. 31 (AP)—Alice Marble to turn pro is the latest—and for the same Chicago firm that grabbed off Patty Berg. . . One of the Broadway columns says Lou Gehrig has settled that damage suit for \$250,000. . . Cleveland scribes now insist Luke Sewell, not Buckey Harris, will be first choice. . . Mike Jacobs got a call from Washington yesterday, then telephoned his favorite bookie to lay \$16,000 to \$10,000 on FDR. . . Some of the Ohio papers are joining in the blast of Messrs St. John and Schmidt for squawking about Carl Snavely's alleged wig-wagging.

Ken Overlin is 5-8 over Steve Belloise tomorrow night. Also Issy Kline, his trainer, hasn't had a loser in 11 fights here this year. But it will be Overlin's 13th bout in his 13th year of boxing. Mebbe that will put the whammy on him. . . Larry MacPhail now reveals the lettuce involved in the Joe Medwick deal was considerably more than the reported \$125,000.

Clyde (Bulldog) Turner of the Chicago Bears was the only National Football League player too young to register for the draft. . . Joe Rossini of Los Angeles won a Marathon bowling match of 30 games with a score of 6171—took him seven hours and 50 minutes. . . The war is playing the dickens with Al Weill's fight stable. Arturo Godoy was No. 3976 and Marty Servo and Austin McCann are in camp with national guard regiments.

Poster Contest For Roll Call Is Begun In Schools Of City

A poster contest in the grade schools of the city was started yesterday by officials of the Midland County Chapter of the American Red Cross in connection with the annual roll call here today. The contest will end November 8, according to Barney Greathouse, roll call chairman.

Both room and grade winners in the contest will be awarded ribbons, with first place winners in various grades to receive complimentary tickets from theatres here. Prizes also will be awarded first place winners of the schools involved.

Winning posters will be exhibited in a downtown store window at the end of the contest, Clint Dunagan, publicity chairman, said.

Today's Guest Star

James E. Doyle, Cleveland Plain Dealer: "Vitt out. . . Alva Bradley gets the put out and 12 Indians get assists."

He'll Show 'Em

Just to prove that everything is on the up and up, Carl Snavely has agreed to sit on his hands during the remainder of Cornell's games.

RECORD TO PRESERVE

DALLAS, Oct. 31 (AP)—Coach Matty Bell has a record he hopes to preserve this week-end. In his five years as head football coach at Southern Methodist the Mustangs played against the University of Texas Longhorns.

During 1939, the state of Pennsylvania issued 2,818,574 operators' licenses; second highest was 2,666,550, and third was Illinois with 2,539,449.

Beaumont Eleven To Get Big Test From Port Arthur

By Harry V. Ratliff

The South Park Greenies, one of Texas schoolboy football's most amazing teams, get their big test Friday night in the week's outstanding game of 44 that make up the busiest schedule of the campaign.

Last season the Greenies heard before almost every test that they were going down—that their winning streak just couldn't last. But the Beaumont eleven didn't believe what it read, winning the District 14 championship over such worthies as Beaumont, Port Arthur and Livingston.

Winner To Be Favorite

This year it was bruited about that they were nothing like as tough as last season, yet today we find the Greenies among the state's undefeated, untied teams and when they battle mighty Port Arthur Friday night the winner will become the favorite for the district title.

Three other districts have highly important games with Lufkin playing Mexia, Waxahachie meeting Corsicana, and Lamar tackling Jeff Davis's unscored on Panthers in a highlight of the Houston district race.

Lufkin and Mexia are unbeaten in conference play in District 12 and Lufkin is among the state's 15 undefeated, untied teams. Mexia has taken four drubbings but of recent weeks seems to have recovered and hit a stride that bodes no good for the other contenders.

Key District Game

Waxahachie, which last week took the top rung of the Central Texas District, faces a fast-improving Corsicana team that can snarl District 10 with a victory at Corsicana Friday night. The game looms as hard as that against Bryan when Waxahachie which the district favorite with a 2-0 decision.

Lamar and Jeff Davis will be fighting for the lead in District 13. Here, too, the winner will become the outstanding title favorite.

There are 31 conference games on the schedule with Amarillo and Robstown swinging into action as the last teams to enter title play.

The week's schedule by districts includes:

4—Friday: Phoenix, Ariz., at El Paso High, Pecos at Ysleta.

9—Friday: Graham at Breckenridge, Stephenville at Mineral Wells (conference), Brownwood at Cisco (conference), Ranger at Eastland.

Coach Taylor's Eleven To Host's City Today

The Midland Bulldogs, determined to bounce back after last week's defeat by Big Spring and remain in the fight for the championship of District 3-A.A. take a short workout this afternoon and then head for Abilene where they will spend the night.

The Bulldogs will meet the Eagles at 3 p. m. tomorrow on the Abilene high school gridiron in a game that will eliminate one of the clubs from further consideration as for the pennant.

Players are in poor physical condition for the game. Williams, Bill Hall and Lester continue to favor bad legs, and substitutes are likely to see quite a bit of service. "Geudy" Green can replace Lester at end without making a lot of difference in the club, but the replacements for Hall and Williams are not as capable as the first stringers. Ivan Hall is the replacement for Williams but he suffered a split lip and may not be able to play much.

Little Belton Anderson probably will divide time with Williams and Ivan Hall. E. G. Foster is first replacement for Bill Hall but lack of weight is likely to prove a handicap to him.

Drills On Defense

Word from the Eagle camp indicates Coach Dewey Mayhew has been drilling his team most of the week on defense, particularly against passes. The Bulldogs took to the air for wins over Sweetwater and Breckenridge and Mayhew had both games scouted. The Abilene team has been potent on offense all year but has not shown a lot of ability on defense, having been scored on by all opponents except Odessa.

Pass defense of the club has been much better than ground defense, only 25 of 60 aerial attempts having been completed by the opposition. Most of the completions were registered by the first two teams the Eagles met.

Uses Midland Plays

Abilene spent yesterday's drill on defense with the second team using Midland plays. A few passes were completed by reserves but for the most part first stringers were in control.

The Bulldogs, meanwhile, spent their final sessions working on Abilene plays. With assistant coaches helping out reserves, the first string was forced to give ground several times but convinced the staff it would be able to cope with the hard running game of Abilene.

Army Eleven Out To Defeat Notre Dame For Stricken Mate

WEST POINT, Oct. 31 (AP)—If it's in the books that Army should register the greatest upset of the season by tripping Notre Dame this Saturday, you can credit the victory to a player whose name won't even appear in the program.

Not only that, but the new West Point hero will be hundreds of miles removed from Yankee Stadium, New York, the scene of battle. He will be lying flat on his back in a hospital at Hot Springs, Ark. His name is Harry Heffner.

Coach Bill Wood's revitalized squad is out to "win this one for Heffner," and if pre-game spirit and determination has anything to do with it, the Irish are as good as licked right now.

Paralysis Stricken

Heffner was stricken with infantile paralysis while visiting his parents, Captain and Mrs. Pete T. Heffner, at Fort Sill, Okla. Last summer. There followed many anxious weeks when physicians wouldn't predict how much longer the boy might live.

But Heffner today is back on the road to recovery. Despite his absence, Harry is still maintained on the Cadet roster of the Military Academy. He is still a member of the corps—that to him is everything.

No More Games

Heffner won't play in this Notre Dame game. There probably will be no more Notre Dame games for him. Hatch, too, will be missing this Saturday when Army engages the Irish. He hurt his ankle three weeks ago, and Coach Wood has just about vetoed every hope of his getting into action.

But from the Yankee Stadium bench on the Army side, Hatch will be yelling encouragement to his teammates: "Win this one for Heffner."

The team tried to defeat Harvard two weeks ago "for Harry" and failed. That they are 6 to 1 underdogs this time means nothing. They will try not to disappoint Heffner again.

Of all accidental and careless causes of premature tire failure, carcass and body bruises—generally ignored by the average motorist—are the most dangerous and the most frequent.

Pep Squad At Ranger Forgets Touchdowns, Urges First-And-Tens

RANGER, Oct. 31 (AP)—The pep squad at Ranger high school makes a lot of noise but instead of yelling "we want a touchdown" it's "we want a first down."

You see, Ranger has played six games this year, hasn't scored a point

Approves Housing In 63 Defense Sectors

WASHINGTON, Oct. 31 (AP).—Charles F. Palmer, defense housing coordinator, announced today that President Roosevelt had approved "immediate construction of housing projects in 63 vital defense areas" with \$45,762,500 of defense funds.

This money, Palmer told a press conference, will provide 13,315 family dwelling units scattered throughout the United States. Contracts will be handled by the Federal Works Administration, John M. Carmody, he said.

The defense housing coordinator said the projects approved by the president would not exceed a maximum cost per unit of \$3,000.

Officials said funds had been provided for construction of the following family units, chiefly for housing families of enlisted men of the army and navy, at an estimated cost of not more than \$3,000 for each unit:

Albuquerque, N. M.—100 units; Houston, Tex.—200; San Angelo, Tex.—100; Fort Huachuca, Ariz.—35; Fort Sill, Okla.—150; El Paso, Tex.—200; Fort Clark, Tex.—350; San Antonio, Tex.—500.

Christmas Packages To Foreign Nations Should Be Sent Now

By Eddy Gilmore

WASHINGTON, Oct. 31 (AP).—It's 55 days until Christmas, but if you're playing Santa Claus to people in foreign lands, you'd better start doing something about it now.

Packages, particularly those designed to hang on European Christmas trees, are going to be the worst problem.

The post office department has suspended holiday parcel post service to 40 countries, a list which reads like a trip through the Atlas.

Among those countries, however, which the old U. S. mail will try to help Santa reach are:

England, France, Scotland, Ireland, Spain and Portugal.

Non-Yuletide List

On the other hand, the following nations definitely are not on the postal Yuletide delivery lists:

Germany, Poland, Italy, Belgium, Bulgaria, Greece, Czechoslovakia, Union of Soviet Socialist Republics, Turkey, Sweden, the Netherlands.

Ironically, Christmas parcels may not be sent to the Vatican City state and Palestine, the Holy Land.

There are many little and faraway places to which the Kris Kringle parcel service has been suspended, such as:

Albania, Aden, Luxembourg, Anglo-Egyptian, Sudan, British Somaliland, The Channel Islands, Cyprus, Danzig, Egypt, Denmark, Estonia, Ethiopia, Finland, French Somaliland, Hungary, Iran, Iraq, Latvia, Lithuania, Malaya, Norway, Saudi Arabia, Syria and Republic of Lebanon, Trans-Jordan and Yugoslavia.

Should Mail At Once

Packages for the other places should be mailed immediately, and Christmas cards and letters should be posted as early in November as possible.

In years past the post office department has had a rule against allowing Christmas stamps or stickers on the address side of articles mailed to foreign countries.

Saddened by the whole Christmas situation, the department has lifted this regulation for the period Nov. 15 to Jan. 15, 1941.

So go ahead, if you want to brighten up your foreign mail with bright little stickers proclaiming "Merry Christmas" or "Peace on Earth, Good Will to Men." The department knows it'll mean more work, but conceivably it may do a little good—at the other end of the line.

FEMININE FANCIES

By Kathleen Eiland

Well, here it is Halloween again and for all the times we've looked in mirrors in the moonlight, or implored witches to tell us of the future, or done any of a dozen other things guaranteed to bring results, no great adventures have yet come our way.

Speaking of new gadgets, we hear the problem of washing spinach or lettuce thoroughly, without breaking the leaves has been solved—by

But every year brings its Halloween and we'll keep right on hopping for something glamorous, exciting and extremely nice to come to us before the witches ride again next year.

Squash takes on added appetite-attraction when it is sliced, seasoned with butter, and a spoonful or two of good chili sauce like Mother used to make is added. There should be sufficient sauce to give the squash a tart tang.

We pity the poor government employees who had to deal with the draft numbers in Washington. Reading proof on the numbers for Midland County proved almost too much for our patriotism. If we had to do it again, we'd about as soon go to war—maybe.

More Evidence To Be Produced Next Week In Race Horse Case

LOS ANGELES, Oct. 31 (AP).—With seven men under grand jury indictment, accused of conspiring to "fix" horse races by paying off the jockeys on favored horses, district attorney's investigators promised today that additional evidence would be presented to a reconvened jury next Wednesday.

Five "John Does," named by the investigators as "higher ups" in a

gambling syndicate, were indicted late yesterday along with Bernard Mooney, described as a bookmaker, and Sol Greenberg, a trainer. None is in custody.

The complaints, specifically charge the seven with contributing to the delinquency of minors and conspiring to commit grand and petty theft.

The Times said investigators were told last night of a coup Sept. 1 at Del Mar track, in which two horses were pulled up to permit Testa to win, thereby netting \$180,000 for gamblers who had spread bets largely with eastern bookmakers.

HEROES ARE MADE—NOT BORN

Advisory Board To Make Plans Tonight

The Midland County draft advisory board of 14 members will meet at 7:30 p. m. today in the office of Jerry Norris, board member, in the First National Bank building to make plans to assist registrants in filling out selective service questionnaires.

Members of the board, considering possible difficulties that might arise from the numerous questions in the questionnaire, will arrange methods to give assistance to young men. Several plans have been suggested. Judge Charles L. Klapproth is chairman.

Officials announced that questionnaires would not be mailed out until the complete draft order has been received from Washington. Because many of the men registered for army service will probably not be called up for a year or two, questionnaires will not be sent to all immediately. Members of the draft board said they would send out the questionnaires at the rate of ten a day far enough in advance of each group called up to procure all needed information well ahead of the time scheduled for registrants to report to the army.

Ready, of registration numbers was announced at the draft office. Number of Allen Cowden is 1822 and Murray Lee Bryant is number 1827.

Willkie Says Plane Output Would Quicken

ABOARD WILLKIE TRAIN EN ROUTE TO CAMDEN, N. J., Oct. 31 (AP).—Wendell L. Willkie told a cheering crowd at Wilmington, Del., today that if he is elected president a British request for 12,000 American planes would be "insignificant" because, he declared, production would be geared to a new high.

Speaking to a filled city hall square, the Republican presidential nominee quoted President Roosevelt as saying he wanted sympathetic attention to such a proposal.

"Well, who wouldn't?" Willkie asked. "If you elect me president, such a request will not even be news, because it will be so insignificant. We will be turning out planes by the hundreds where we now are turning them out by ones."

Help Of Labor

"Have you any doubt that Wendell Willkie, with the confidence of American labor, can do more than Franklin Roosevelt can to bring about peace and keep us off the road of stagnation?"

Democratic speakers Willkie continued, now agree with him that the question of whether the nation will come through the present period depends "upon America becoming productive."

Willkie said he was "the only candidate" who could bring labor, industry and agriculture into a united movement "to make America strong."

Board Members Get Ready For Naming Trainees

WASHINGTON, Oct. 31 (AP)—With army corps area commanders already calling for the initial contingents of men, national selective service officials concentrated today on clearing the way for local boards to begin actual selection of the 800,000 trainees who will be summoned by next June 15 for a year's military training.

Just a few hours after Tuesday's historic conscription lottery was completed, Maj. Gen. George A. Woodruff, corps area commander at Boston, called on the 6 New England governors in that area to provide 984 men by Nov. 18 under the selective service system.

Simultaneously on the Pacific Coast the ninth corps area at San Francisco dispatched to the governors of 7 Far Western States its opening requisition for a total of 1,630 men to report to induction stations between Nov. 18 and 22.

Eighth Corps Notices
The eighth corps area headquarters at San Antonio issued notification to the states in the Southwest on the number of men they were to furnish. Other army areas either were following suit, or planning to swing into action before Saturday.

This first selective service call—designed to bring 30,000 young men—was in accord with the war department's previously announced plan of inducting approximately that number of trainees into service between Nov. 18 and Dec. 1.

Two Out Of Thousand Texans To Be Called

AUSTIN, Tex., Oct. 31 (AP).—Selective service headquarters estimated today about two men for each thousand registered by each of the state's 951 local draft boards would be called in Texas' initial quota of 1,573 men.

The Texans will be part of the 30,000 scheduled for induction Nov. 18.

Draft boards when assigned their quotas now being determined by the state staff—will first call on the volunteers who have registered with each board.

Should enough be found physically fit and otherwise acceptable, it will be unnecessary to induct other registrants.

Reports to headquarters indicate that volunteers since registration day may exceed the state's first call quota.

To Make a Long Tale Short

we wonder whether the man who composed the song, "I'm Dancing With Tears in My Eyes" had for a partner a girl who had been eating onions or garlic? Pack a lunch, take a friend and the dog along, and enjoy a real outing in one of our conditioned cars; it will take you there and back again as well as a new car.

Charter . . .

(Continued from page 1)

the mayor-council type was best for Midland.

"In all cities of any consequence the police department is under the council," he asserted. "Eventually we want civil service on our police department. We want cooperation between all departments of the city government. If I was on the council I'd keep the same people in office but you can't tell what we might get in later years under the present system."

Want Best Government
"We want the government which is best suited to us in any conditions. The proposed charter is essentially the same as charters of other cities. There was no thought of taking control of the schools or affecting the schools in any way."

Stubbeman described the present government as "disorganized" and "disconnected" and suggested it should be unified.

"The city marshal is elected but not responsible to the council which pays the bills," he asserted. "The government is too disorganized. Let's be frank about this thing."

The fundamental question is whether the mayor and city council is the group to run the city and hire and fire and hold the responsibility or whether to leave things disconnected as they are. At present we operate under the general laws of Texas.

"Now we have the privilege of setting up one document—a charter—under which to operate. It would make the mayor and city council the only elective officials and make them responsible to the people and they in turn would operate business affairs of our city."

"The proposed charter would continue the present mayor and councilmen in office until their terms expire. Under the new charter, councilmen would be elected for certain places on the council. It provides that a public utility can't be a franchise for more than five years without a vote of the people."

"It provides for recall, to get rid of officials; initiative, so taxpayers can demand new legislation, and referendum so taxpayers may rescind ordinances."

"The charter cannot take away homestead rights and makes practically no change concerning paving work."

Can Be Amended
"It would be unusual for us to have a perfect charter and it probably will have to be amended every two years if necessary. Shall we amend our government or leave it disconnected?"

"Once we get a charter we can change the form of government and work to perfect it and advance with progress."

"There was no intention to affect the schools in any way. Provisions of the proposed charter are similar to those already provided by general law for the city concerning schools."

"It would take a specific vote of the people to get rid of the independent school district and put the schools in the hands of the city."

Stubbeman read an opinion from the state attorney general's office, and communications from the League of Texas Municipalities and the state superintendent of public instruction's department and said all agreed the proposed charter does not affect the status of Midland schools.

Urges Home Rule
Mims said he was glad to see so many Midland people interested in their government and asserted now is the time for the voters to choose their form of government.

"Under the proposed charter, the city is free from going to the legislature every time it needs a law passed and the legislature is free of the problems of a specific community," he said.

"Home-rule government stimulates interest in government. You are solely responsible for the kind of government you have under a charter," he said, and explained the provisions for recall, initiative and referendum.

Need Safety Valve
"Any government to do the job must have power and steam but needs a safety valve. You have that in the power to recall. The question is, do the benefits and advantages outweigh the imperfections?"

New, Old Members Of Draft Board Meet

One Killed In Rain Storms Over State

By The Associated Press

One person was killed and buildings were destroyed as damaging windstorms accompanied generally beneficial rains over most of Texas Thursday.

Ralph R. Blankenship, 46, was killed by lightning near Texarkana during a thunderstorm, four homes were leveled by a twister near Fredricksburg, and the Houston vicinity was battered by a 45-mile-per-hour wind. Hall fell near Electra, and Camp Hulien, near Palacios, was struck by a gulf squall that disrupted communications. There were no reports of casualties in the windstorm.

Heavy, beneficial rains fell throughout Texas Wednesday night, breaking long dry spells in some sections, but the farmers were yelling for more.

Squalls whipped in from the gulf in the vicinity of Palacios, battering Camp Hulien with heavy rain and violent lightning, but doing little appreciable damage.

Dallas and Fort Worth had 1 and 1.32 respectively, badly needed for agriculture. Northwestward in the Wichita Falls region the rainfall was general, 1.10 at Wichita Falls. It was especially beneficial to parched grazing lands and to winter wheat. Breaking of land has been held up by dry weather in that area, and now farmers may go into their fields with their plows.

East To Tyler
The rainfall extended as far east as Palestine and Tyler. The precipitation continued steadily at Tyler this morning, providing needed moisture for winter cover crops. Trinidad had 1.31, Mt. Pleasant, in Northeast Texas, 2.23, Paris, 70, Sherman 2.50, Kaufman 2.15, Greenville 1.29.

To the northwest, the rainfall reported included Clarendon 1.20, Memphis, 25, Spur, 83, Miami, 73, Crosbyton, 1.55.
