Rumania Nears Agreement With Axis

Charges Nazis With Inroads On Economy

WASHINGTON, Nov. 21 (AP)—The Dies committee declared today in a special report on Nazi activities in the United States that the German government has been engaged in a "far-sighted policy" of penetrating the economic structures of the United States and Central and South America.

Making public a 500-page review of special months of inquiry, mostly in New York, the committee said: "As a result of these investigations, it became apparent that the activities of the German government in this country were not devoted solely toward propaganda and so-called military espionage, but also reflect the fact that the German government over a period of years has been engaged in the far-sighted policy of penetrating into the economic structure of this country and those of Central and South America."

Evidence Not Complete.

"It is true that the evidence before this committee up until the present time is not all-conclusive. Quoting from many documents which it had seized, the committee described in detail activities which it attributed to the Transcon News Service, a German organization (not connected with any United States news service); the German library of information of New York; the German railroad information office of New York, and the American Fellowship Forum.

The report also said that the committee had seized in files of the chemical marketing company in New York a plan entitled "The organization of German industry in America after the war."

The report asserted that the plan showed a "very definite link" with German industrial life by providing that activities in this country should be directed from a bureau to be established in the German ministry in Berlin.

Greeks Are Near City Of Koritza

ATHENS, Nov. 21 (AP)—Greek forces were reported to have reached the outskirts of the besieged Italian base city of Koritza in Albania this morning.

At the same time, in the coastal sector of the fighting zone, Greek columns were said to be marching rapidly on another important Italian base, Argirocastro, also in Albania.

Italian resistance in that zone was reported to have collapsed almost totally.

Latest information from the front said the Greeks were within six miles of Argirocastro, which is said to rank equally with Koritza in strategic value.

Band On Cities.

It was on these two cities that the Italians had based their drive into Greece. Huge stores of war materials had been assembled in both cities.

A thrust through the center of the Italian lines, putting the Fascist forces to hasty flight a point six miles within Albania, was the previous high spot of Greek successes reported today all along the 100-mile battlefront from the Ionian sea to Koritza.

A Greek government spokesman said the central break-through occurred at Merzani, Albania, west of the Aoo River and Northwest of Koritza, Greece.

Leaving munitions, arms, tanks, automobiles and lagard troops behind, the Italians were retreating so rapidly that the bayonet-banishing Greeks are hard put to keep up with them, he said.

Governor O'Daniel late yesterday appointed Williams to the office, which carries an annual salary of \$7,500 and is considered one of the prime appointments a governor can make.

Williams succeeds Orville S. Carpenter, an appointee of Governor James V. Allred.

Halifax Optimistic Over Soviet Picture

LONDON, Nov. 21 (AP)—Lord Halifax, foreign secretary, told parliament today that Britain had made "certain proposals" for a trade agreement with Soviet Russia and "had some reasons to believe" the proposals would be acceptable.

Proposals also have been made, he disclosed in a speech to the House of Lords, for "a compromise settlement arising out of Soviet annexations of territory" with regard to British obligations. Friction has arisen out of Russia's absorption of the three Baltic states last summer.

Adolf Hitler, the foreign secretary declared, is pursuing "his usual policy" of "combined cajolery and brutality" with France.

Battleship Guns Rock Territory Within 18 Miles

(EDITOR'S NOTE: If you sometimes wonder why it costs so much to build and operate the United States floating fortresses, read this story, the fourth of a series of six daily stories on our navy, which when completed will be the largest in the world. Tomorrow: Airplanes are the eyes of a modern navy.)

WASHINGTON, Nov. 21 (AP)—When the big guns of a battleship roar in anger, all living things within 18 miles move with care.

For one of these 16-inchers will throw a ton of TNT, housed in an armor-piercing shell of steel, that far with ease, in an arc high above the waves.

When the shell lands, the steel goes tearing through armor. The TNT explodes with a force and fury that rends and tears things that were built to withstand such mighty batterings.

Even the friendly handlers of the monster have to tread carefully. Outside the turret, the mighty blast will rip off a man's clothes, singe his hair and send him spinning.

Whole Ship Shudders.

The guns leap back six feet. The whole ship with its thousands of tons of weight shudders and plunges with a salvo. Light bulbs left in their sockets, burst. Everything loose and breakable is carefully stowed away beforehand.

Such a gun weighs up to 130 tons and a ship may carry from six to twelve of them, usually 14 or 16 inches. They are arranged in turrets of two, three or four guns each. The turrets are simply revolving gun houses, with motors for raising, lowering or turning the guns. The shell is raised by a hoist to the open breech. Up to 650 pounds of powder, brought up in silk bags, is stuffed behind it.

These guns are the primary battery of a battleship, the biggest striking power of the fleet. The secondary battery consists of four and six inch guns, from twelve to twenty of them to a ship. They weigh from two to eight tons apiece and have a range of about four miles.

Subs Are Targets.

Their targets are submarines, destroyers and cruisers, the outer fringe of the enemy fleet which move in ahead of the battleships.

The big guns of a modern battleship are aimed by a fire control system, complicated, confidential and very expensive. Its installation costs well over three million dollars per ship.

Most battleships are equipped with so-called blisters as a protection against mines and torpedoes. These are false steel hulls with water tight compartments in which an explosion would lose itself without damage to the true hull.

Thanksgiving

Americans Give Thanks In World Of Disturbances

Citizens In Thirty-two States Celebrate But Rest Have Same Spirit

By The Associated Press.

Under roofs unmenaced by bombers and at dinners prepared without ration cards, Americans in 32 states today returned fervent thank for a nation at peace.

The rest of the nation will celebrate Thanksgiving a week from today, but regardless of date both observances had the traditional spirit of the day in common.

President Roosevelt, like millions of other citizens, fell in with the mellowed custom of a family holiday—church services, a quiet home dinner, and hours of friendly talk. Mr. and Mrs. Roosevelt visited at Hyde Park, N. Y., with the President's mother, Mrs. Sara Delano Roosevelt.

Special Church Services.

Churches held special Thanksgiving services for communicants seeking spiritual reassurance in a world at war.

The Atlanta Constitution swept all war news from its front page and devoted the entire space to accounts of holiday festivities and a picture of three small girls kneeling in church services—"confident of showers of blessings, fearing no showers of bombs."

Although thanks for peace and freedom were the keynotes of the day, they came from a nation looking to its defenses as the Pilgrims looked to their ready muskets on the first Thanksgiving.

They will be concentrated temporarily at Fort Bliss, Tex., and will be transferred to the Mexican border to relieve regular army units early in 1941.

36th At Bowie.

The 36th (less the 36th tank company) will train at Camp Bowie, Brownwood.

Those also ordered to duty next Monday included these units:

11th observation squadron, Texas, to Brownwood.

Axis Builders At Work

One of a series of recent Axis parleys was this conference, which brought together Adolf Hitler, Foreign Minister Ramon Serrano Suner of Spain and Foreign Minister Count Galeazzo Ciano of Italy, and which was followed by hints of agreement on Spain's part with German plans, whatever they might be. The next big move favorable to Germany and Italy, however, was Hungary's decision to become a full-fledged partner of the Axis. Shown here (left to right): Serrano Suner, Interpreter Schmidt, Ciano, Hitler and Julius Schaub, Hitler's adjutant. The scene is at Hitler's Berchtesgaden retreat.

Premier And Foreign Minister Of Balkan Nation Arrive In Germany For Meeting With Nazi Officials

Italian High Command Announces Capture Of Boyd, British Air Official In Middle East; Bulgaria May Make Demands On Greek Nation

By The Associated Press.

Rumania's premier, Gen. Ion Antonescu, and Foreign Minister Prince Costin Sturza, arrived in Germany today, strengthening the current belief that Rumania, already dominated by the Nazis, is about to join the Axis powers.

In Berlin the German high command asserted that German speedboats since the start of the war have sunk six British destroyers and two submarines and other war vessels, totalling in all 11,300 tons, and also 212,000 tons of merchant shipping.

The Italian high command announced the capture of Britain's new vice commander of the air forces in the middle East, Air Marshal Owen Tudor Boyd, and six other men, four of them officers, who made a forced landing in Sicily en route to the Near East.

Acknowledges Capture.

The British Air Ministry later acknowledged Boyd was an Italian prisoner.

Dispatches received in Bucharest from Sofia, Bulgaria, predicted that Bulgaria would change her attitude of "defensive neutrality" as a result of current Axis political activity and make definite claims on Greece.

Bulgaria is not formally aligned with the Berlin-Rome-Tokyo powers, but German sources in Rumania have suggested that she may follow Hungary's example and find her place in Europe's "new order."

Nazis To Vienna.

Adolf Hitler, Field Marshal General Wilhelm Keitel, chief of the German high command, and Joachim von Ribbentrop, Nazi foreign minister, left Vienna last night and presumably were to see Antonescu and Prince Sturza in Germany.

Antonescu has just had conversations with Premier Mussolini at which observers presumed the groundwork was laid for Rumania to follow Hungary into a 10-year military, political and economic pact with Germany, Italy and Japan.

This diplomatic activity on the part of the Axis was seen as aimed at Britain—by forming an Axis highway to the borders of Greece and Turkey, possibly for a thrust at the Near Eastern oil fields and the Suez Canal.

Italian High Command.

In Greece, meanwhile, Greek troops were reported to have driven a wedge through the center of the Italian lines, forcing the invading Fascists into hasty flight six miles within the Albanian border.

A spokesman at the Athens government said the Italian were retreating so hurriedly that the Greeks found it impossible to keep up. The break-through, he said, occurred at Merzani, Albania, northwest of Koritza, Greece.

The Greeks also announced they had reached the outskirts of Koritza.

The Germans continued their unrelenting air war on Britain, concentrating for the second straight night on the industrial Midlands, but fierce anti-aircraft fire was reported to have taken the edge off the assault and the British reported the night's attacks as "intermittent and on a minor scale."

State employes held an impromptu celebration.

"Even if it is President Roosevelt's Thanksgiving Day, we're going to celebrate," he shouted.

Still to be counted by the state canvassing board are absentee votes, cast outside the state, for 15 of Kansas' 105 counties.

Let's All Be Thankful

Americans are the luckiest people in the world. If they were anything but devoutly and humbly thankful this Thanksgiving Day, they would be the most ungrateful people in the world. We are at peace—and thus we have been granted the most precious boon granted to any people in these days. We live in a plenteous continent stuffed with all the good things of material life. We have freedom; we have hope. Of all people in the world who should give humble thanks for their blessings, we should be foremost. We are at peace—but that is no great credit to our superior policies or even our superior good-will. Other countries have as earnestly sought and worked for peace, have had as great good-will, but peace was snatched from them. We live amid plenty. That this plenty is not available to all is a matter for our shame. But the opportunity has been given us. Plenty is ours. That we have not had the wit or the will to distribute it that all might share is certainly no fault but our own. We have freedom. Our forefathers won it for us with blood and tears. It comes to us today through no special merit of our own. Whether we shall keep it and extend it—that will be the test of our merit. But it is given us today without regard to our effort or merit.

Surely a people so blessed can do no less than to take a day of solemn thought to consider how it may become more nearly worthy of this bounty. More than 300 years ago a tiny band of Pilgrims on the Rocky New England coast saw their straggling crop wither in drought. They visioned another "starving time" such as they had looked upon before, when loved ones weakened and died before their eyes for lack of a little corn. Then came rain. The crop was saved. And for this simple bounty they declared a day of Thanksgiving. This is the day which we, who have been a thousand times more favored, observe once again. May we render these thanks with something of the humility and devotion that moved the Pilgrims, kneeling amid their ragged cornstalks at Plymouth.

A Diet For Peace Movement

The simon-pure, 100 per cent pacifist has become almost as rare as the dodo. To such a pass has Europe led the world that few indeed are the men and women who still feel that nothing is worth fighting for—that nothing is worse than war. The object lessons set up in Europe of things that definitely are worse than war are too impressive to be overlooked. This is that the peace movement, which flourished and waxed fat a few short years ago is on a slimming diet today and looks haggard and pale. The National Committee on the Cause and Cure of War is an example. For the past 15 years it has called together delegates from many groups in a national meeting. This year those groups are almost all having budgetary troubles, and the national meeting will simmer off into a few regional gatherings. To say this is not to say that the "peace movement" is dying. Most of the world is now at war. But the problem of constructing a peaceful world, of building ways of living at peace, was never more important. No amount of past failures can kill this imperative urge to reduce the chance that in the future the world's failure of 1914 and 1939 shall be repeated.

New Ambassador From Hollywood

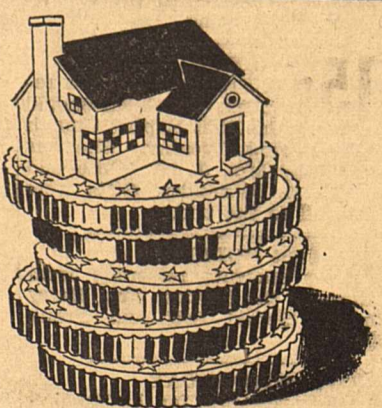

Hollywood has been a-journeing southward, and from its most recent trek it reports back with a stubbed toe. Heavily embarked in some elaborate vehicles essaying to portray life under the Southern Cross, Hollywood saw visions of increased sales in the South American market to replace in some part heavy losses in Europe. But the South Americans were amazed, shocked, irked, and even affronted at some of the Hollywood conceptions of them. It is extremely difficult to portray to another nation its own life. Even the meticulously-supervised and beautifully-sympathetic life of Juarez did not get unanimous praise in Mexico. Less careful efforts got something very like the razz. What the South Americans seem to like best is those strange North Americans portraying their own hectic lives—that, and El Pato Pascual, known to you as Donald Duck.

Dallas Grubbs, Harrisburg, Neb., dug 462 bushels of spuds in 10 hours. Now, is that being nice to the K. P. lads in the army?

SERIAL STORY

DUDE COLLEGE

BY OREN ARNOLD

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY: Ronnie hurries home, lands and reports her experience to her father. He advises her to call the sheriff. Ultimately, she talks to Inspector Sheridan Starr of Border Patrol. He identifies the five men as aliens, sets out to trap them. Ronnie goes along. Even when they leave the car and Starr rides away, Ronnie follows. She hears Starr order the men to stop, then hears a shot.

ANDRE MAKES PLANS. Chapter V.

"Whe-e-ew!" Andre Girardeau breathed that, then turned slowly down the arched corridor leading from the Pueblo U. administration building to the library. He went only a few feet before he halted, though; he felt that, for personal as well as professional reasons, he simply must have another and better look at the Mexican girl. The bespectacled man was at her left, helping her to walk. With her right arm she handled her one crutch clumsily. Andre decided her act was none too convincing. But he also decided that any sort of act was unimportant; what really impressed him was the appearance of this girl.

"M-M-M-m-m-m!" Andre gave murmured tribute again, already sensing the pleasure when he should meet this girl. He saw her perfection of teeth, lips almost too curving. He noted the way her hair clung to her head in ringlets, swept low and backward. He saw, too, that her initial touch of naughtiness had faded when the bespectacled man came to escort her from her car; patiently, then, this lady responded to masculine attention. Without being seen at least more than casually, he slipped on down the archways out of her sight.

He walked along the shaded avenue toward his hotel. An irrigation canal there made a rippling rivulet, beautiful in reflecting the trees as well as giving them life. At a lovely rustic bridge he paused a moment to study his image in the quieter pool. He smiled at himself; he, Andre Girardeau, should be able to enjoy this assignment, with a beautiful senorita and with Ronica Bailey both as protagonists in his little drama. He wasn't bad looking; not at all.

He adjusted his tie, whistled a little softly, meditatively, and walked on. He reasoned next that he would have to set himself up in some dude ranch nearby to give outward excuse for his presence in and around Pueblo. The idea was distasteful, but he supposed he would have to ride a horse some in the western way, and no doubt listen to tall tales of Indian massacres and such. However, when he should form his contact with the Mexican girl boredom ought surely to vanish. "If this goes smoothly I can net a quarter million or better, and then skip out," he reminded himself. "With that much I can probably take my choice—ha! Maybe—maybe Mexico City itself wouldn't

be so bad. As safe there as anywhere." He knew no particular fear. A conceited man seldom does, because conceit is but exaggerated confidence. Anyway, it was more pleasant to meditate on which of two lovely girls he should choose for permanent companionship. It simply did not occur to him that the Mexican senorita might not care for him. He purchased a sporty new car during the next hour, and with proper directors drove out a few miles to the expensive Rancho del Sol. There, as a business man from New York, he could be a typical dude guest, loafing the autumn weeks away. It would give him adequate front. He tried to telephone Ronica and learned that she was not on her father's ranch. He tried the college, with no better results. It occurred to him then that she would be somewhere on the campus and so he drove back there. Hearty young collegians seemed to be everywhere but he recognized none of them. Some of the co-eds were definitely interesting. He asked a few if they knew where to find Ronica Bailey. They knew about her, but not where she was. He kept looking for another glimpse of the Mexican girl, and while he did see several others of obvious Latin heritage, he did not see that particular one. He wished he had heard her name distinctly, somehow, soon, it would be his motive to approach her and make himself acquainted, but that would have to be handled with infinite tact, at least so far as public eyes were concerned. I must appear entirely natural, normal.

Historical Thanksgiving

Many scenes have been written into American history since the first Thanksgiving was observed! Styles have changed. Laws have changed. Science, industry and mechanization have made fast strides in every phase of business and life.

Much has changed. But people remain the same—and today as generations ago, we still are thankful for the land we live in. For the religious freedom that was made our heritage by those first Americans—emigrants all, from lands of persecution.

History has seen many changes. But to us in America, there is still much to be thankful for.

The Southeastern Sectional championship tournament which is conducted in Florida by the American Contract Bridge League each year, will be held at the Miami Biltmore Hotel, Coral Gables, Fla. The league conducts local tournaments in its various units throughout the nation, the winners of which are sent to the Southeastern Sectional championships. It is expected that more than 150 of these winners will participate in the event this year, augmented of course by a large local attendance.

Mrs. Meyer D. Rothschild of New York, known as the mother of bridge, is well into her 60's, but still loves to travel around to tournaments. Last year she participated in the Southeastern Sectional event, and I recall a very cute play she made to make her contract on today's hand.

Mrs. Rothschild won the opening lead in dummy with the ace of diamonds. She realized that West was probably void of clubs. Her next play was the deuce of spades, which East won with the ace.

When East returned the king of clubs, Mrs. Rothschild refused to cover and played the deuce. She realized that if she went up with the ace West would probably trump, and she might have difficulty in getting a club ruff in dummy. Also, it might be very embarrassing if the opponents continued firing diamonds to her.

East, of course, continued with the club queen and again Mrs. Rothschild ducked. Now when the jack was led she could trump in dummy, pick up trumps, and was assured of four spade tricks, four heart tricks, a diamond and a club.

Firemen To Demonstrate Nozzles At Monahans

MONAHANS, Nov. 21 (Special).—Monahans firemen are reversing the usual procedure by starting a fire and asking citizens to go to it. Firemen then will demonstrate the use of new nozzles in extinguishing oil fires. Parking space will be available for spectators at the demonstration.

Congratulations to:

THE CURTAIN CALL
News of the Civic Theatre
The Women From "The Women"
Let Us Present
Emogene "Bobbie" Buffington in the role of Mrs. Morehead, the mother of Mary Haines, and little Janice Jones as Mary's small daughter. This is Mrs. Buffington's debut with the local repertory company, and she is expected to give an intelligent and faithful interpretation of this modern mother-and-grandmother, despite the discrepancy in the ages of the actress and the character portrayed. Mrs. Buffington has had wide experience in radio work and public speaking and took part in theatrical productions at Southern Methodist University from which she was graduated. The part of little Mary is an ambitious one, and Janice is expected to delight the audience with her lack of affection and her understanding of the role. She is the daughter of Mr. and Mrs. O. H. Jones and is a dramatic art student of the Civic Theatre's director. Tomorrow: Let Us Present—DOROTHY SMITH as Crystal.

Mrs. Calvin Jones Speaks At Meeting Of Stanton Club
STANTON, Nov. 21 (Special)—The Stanton Young Mothers Club met Tuesday afternoon in the home of Mrs. L. J. Johnson, for a program on "Foods and Discipline." Mrs. R. G. In the business meeting plans were made for a Christmas party, which will be given Dec. 16, with Mrs. Morris Zimmerman and Mrs. Fred McPherson as co-hostesses. At that time, a Christmas tree will be held, and gifts will be exchanged for children of the members. Plans have been made also to distribute gifts to the underprivileged children of the community. Present at the meeting were: Mmes. O. C. Southall, Floyd Smith, Nowlin, Morgan Hall, two guests, Mrs. Jones and Mrs. Jack Reynolds and the hostess.

Richards Throws Touchdown Passes As Pups Win, 26-12

Game at a glance:

MIDLAND	BIG SPRING
13 First Downs	4
178 Yards Rushing	156
10 of 22 Passes Complete	1 of 6
1 Intercepted	3
172 Yds. Passing	19
5 for 45 yds Penalties	1 for 15 yds
3 Fumbles	4

Little Billy Richards had a field day yesterday, tossing four touchdown passes to spark the Midland Bulldogs to a 26-12 win over Big Spring's little Steers in the Junior's last game of the season.

Charles Kelly, lanky Pup end, caught two scoring passes, dashing 20 yards in the opening period to start the scoring, and taking another behind the goal-line in the second stanza.

Bill Stickney and Robert Wheeler accounted for the other two touchdowns. The former caught a pass and went 30 yards. Wheeler romped 18 after a pass.

Wheeler, who led the attack on Odessa last week, placekicked and ran over the two one-pointers.

Runs 88 Yards

Big Spring scored in the first and last quarters. Stewart, fullback, unreeled a 88-yard sprint for the first. In the fourth he bowled his way over from the 16, climaxing a 44-yard drive.

The Steers failed on extra-point attempts by running.

Midland scored the first time it got the ball. It kicked off to Big Spring and held for downs. Richards took the punt squarely on the 50 and ran it to the Steer's 45. Stickney swept 13 yards for a first down. Wheeler then took a backward pass and ran to the 17. A line play failed. Richards passed a short one to Kelly, who stepped 15 yards to start the scoring. Wheeler place-kicked the extra point.

Stewart broke in the clear over right tackle and rumbled 88 yards to the goal, but he failed for an extra point.

Free's eleven tallied again early in the second, traveling 68 yards. The Pups took the Big Spring kick-off, and from the 44 Richards unreeled a heave to Stickney, who sprinted across from the 30.

For the third quarter, the Pups smashed 80 yards by air and ground. Big Spring had punted over the goal-line. From its own 20 the Pups went to work. Wheeler drove and Richards spotted a receiver for a pass. On a tricky triple pass, Noyes tumbled backward to Richards, who heaved to Kelly on the 5. On the next play, Richards sent a pass to Kelly over the goal-line.

44-Yard Drive

It was 20-6 until the fourth. The Steers counted first on a sustained drive for 44 yards. A Midland penalty set up the scoring play. Stewart waded from the 16, but failed to stab through for extra point.

The final Pup marker came via the air. Wheeler snaring Richard's flip and running it across. A clipping infraction nullified Noyes' run for the extra point.

Bosick, Stewart, Mattlock, Brown and Deering were outstanding for Big Spring. Coaches played almost the entire Pup squad.

The lineup:

Midland	Big Spring
Estes	LE Newton
Whitmyer	LT Brown
Lee	LG Coffey
Watson	RC McDonald
Harris	RT Smith
Turnbow	EC Boykin
Kelly	RE Deering
Noyes	QB Mattlock
Stickney	HB Bosick
Richards	PB Simmons
Wheeler	FB Stewart

Golden Cranes Trounce Cowboys By 30-0 Score

GRANDFALLS, Nov. 21 (Special)—The Golden Cranes trounced Grandfalls' Cowboys here yesterday, running up a 30-0 score.

Crane tallied once in the first stanza, three times in the third, and twice in the last.

George Grounds, recently converted to a back, scampered fast and often to lead the attack.

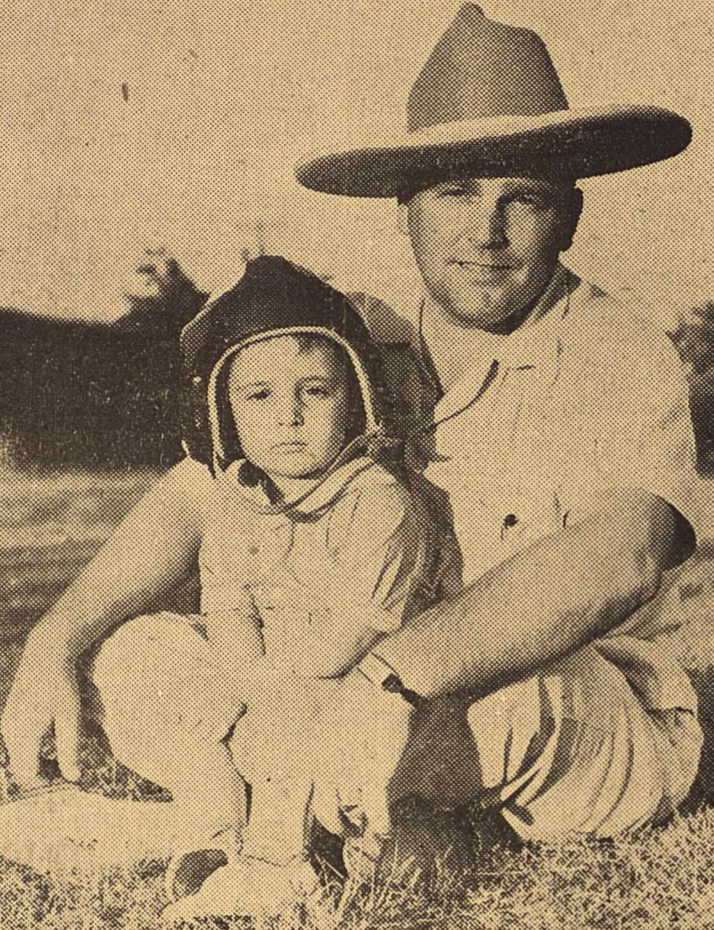

First downs favored Crane, 16 to 2.

Yellow Jackets Beat Monahans Team, 26-0

The smart guys out here don't figure Kentucky will beat Tennessee Saturday but they do think it will be a dog fight, like North Carolina and Duke, for instance. . . . Georgetown has given up hope of getting a Bowl bid and will settle for a post-season game with St. Mary's in San Francisco.

Porkers-Fordham Contest In East

NEW YORK, Nov. 21 (AP)—The Thanksgiving football fare today is almost as bare as the Thanksgiving turkey will be tomorrow.

There was a time when this holiday was just about the biggest moment in any football season. That was when Armistice Day, election day or any other red letter date on the calendar was considered set aside for the college schedule makers.

For several years, however, the trend has been toward sticking to Saturdays, exclusively, and the confusion over the celebration of Thanksgiving the last two years has just about cooked the day's goose as well as the turkey, so far as football is concerned.

As a result, the only game, in the East today involving a major team will be Fordham's fracas with Arkansas at the local Polo Grounds.

Undefeated Texas Tech and St. Louis University come to grips in another leading mid-western dispute.

American League Ruling Saddens Tiger Official

DETROIT, Nov. 21 (AP)—Some of the zest is gone from the life in the front office of the Detroit Tigers.

A good many weeks have passed since the Tigers won the American League championship, then bowed to the Cincinnati Reds in the world series, and General Manager Jack Zeller is lonesome.

The American League rule forbidding the champion from trading with other clubs in the league has lopped off a lot of Zeller's fun.

"Why," he said "I haven't even had a chance to deny a rumor since we won the pennant."

Taylor Appeals To Bulldogs For Midland Victory

Game Information
Midland Bulldogs vs Odessa Broncos.
District 3-AA Football Game.
Lackey Field, here.
Today, 2:30 p. m.
Decides 3-AA runnerup.

Asked by their coach to win the game for him, the embattled Midland Bulldogs today face invading Odessa's Broncos in a Turkey Day tilt before an expected 5,000 Permian Basin grid fans, on Lackey Field at 2:30 p. m.

The chips are down. Odessa is favored Midland is ready.

Deprived from victory since 1934 and smarting from an early season slump, yet improved in the last three games, the Odessans are bringing many supporters here. Odessa has twice ordered more tickets since selling out Monday.

Both elevens are primed. Both were idle last week but drilled extensively for the melee.

Bulldogs Better On Defense.

Odessa reported that Red Coats, stellar center, was ailing. The linesman, a mainstay, supposedly is weak from an attack of influenza. Coats is expected to start but may give way to Andy Everett or Jack Scott.

Ready to catch Hogan's heaves are Otis McKelvey and K. Evans, ends.

On the Midland side, Coach Bud Taylor has a tall pass defense, a charging line, and a fired up club. That may mean something to dopsters.

Announces Resignation

Wendell Williams, Otis Kelly, Jim White and Gordon Bigham, form the Bulldog secondary. Up front will be Maurice Bratton and G. Green, ends; Billy Hall and "Boog" Eidson, guards; Mike Buffington and Selmer Cooke, tackles, and Rehders, center.

Halfback I. Hall, end W. Lester and center Corbett are ready for replacement.

At a pep rally student assembly yesterday Coach Taylor announced that he was quitting as Bulldog mentor and asked the boys to win this "one for him."

Last night he expressed an opinion the team today would do just that.

On the District 3-AA front other tilts today command interest in the hot race. The league leading Big Spring Steers are in Sweetwater, home of the defending champs, Abilene, the darkhorse, is being entertained by San Angelo's Bobcats in a predicted thriller.

Title aspirations will be won or lost today. Abilene could throw the race into a tie-saw by winning over San Angelo and taking Big Spring next week. Midland would still be in the race with over a win over Odessa. The same is true if Odessa beats Midland. Big Spring can keep the lead by winning the last two.

Limber-legged Bill Henderson, the Texas Aggie's sophomore end sensation who bagged eight passes in a row for 117 yards against Rice, now has picked up 325 yards on aerials to lead his closest competitor, Hickory of Arkansas, by 104 yards.

Quiet Jess Neely, speaking of the forthcoming TCU game, said: "I hope they don't have a bill Henderson. He is the best pass receiver I have ever seen in football."

Four Champions To Emerge Today In School Tilts

By The Associated Press

Four district champions are expected to emerge today from a round of 27 games starting off the most crucial week-end of Texas school football.

The winner of the Amarillo-Lubbock tilt will be acclaimed as the champion of District 1 although both teams still have conference games on the schedule after today.

It's definitely the showdown in the Fort Worth District where Mason's Home's Mighty Mites will be aiming at an undefeated, untied and unscored on District campaign.

The Masons meet once-beaten Poly. Unless Poly stages an upset the title will be determined.

Stephenville Close

Stephenville has Brownwood standing in the way of an undisputed Oil Belt Pennant. The Yellow Jackets need only a tie with Brownwood today to clinch honors.

In District 11 Kilgore plays at Tyler. A tie would eliminate Tyler from the race and throw Kilgore into a deadlock for the top with Longview, should the latter defeat Marshall. Victory for Kilgore would give the Bulldogs the championship.

One finalist in the District 16 campaign will be decided. Corpus Christi's young and speedy Buccaneers meet Robstown's veterans for the North zone title today. Harlingen plays Brownville for the South zone crown tomorrow. Brownville must win to gain a tie for the top.

Fourteen games are scheduled in the state tomorrow with three Saturday.

Tiger-Jayhawk Battle Is Last For Christmas

COLUMBIA, Mo., Nov. 21 (AP)—Tradition has pulled crowds to the Kansas-Missouri football games for 48 years. Today the expected 20,000 spectators at their forty-ninth meeting will be there saying farewell to a low-headed kid, Paul Christmas, the Tigers' laughing boy.

Even the forecasts of near-freezing temperatures and Murky skies won't keep them away.

Mr. Christmas will go down in Big Six history for the 413 passes he has thrown up today, for the 189 that reached their mark and for the 3,822 yards he gained by both running and passing.

Leads Nation Scorers Knolla Of Creighton

SEATTLE, Nov. 21 (AP)—A few 1939 football statistical marks have already been gobbled up like today's turkey, but it appears that Michigan's Tom Harmon will have to stage a yard-eating feast against Ohio State Saturday if he's going to surpass his performance of last year.

American football statistical bureau figures released today show Harmon ranking eighth as a total offensive threat with 1,059 yards, compared to his 1939 total of 1,356 which ranked him second to U. C. L. A.'s Kenny Washington.

Meanwhile, the irrepressible Johnny Knolla of Creighton had a field day against South Dakota last week and took over first place as the nation's total offensive leader with 1,151 yards.

The leaders also included: Punting—Owen Price, Texas Mines, 48.15.

MISSOURI FAVORED IN ANNUAL TURKEY GAME

COLUMBIA, Mo., Nov. 21 (AP)—Eight Missouri seniors, including Quarterback Paul Christmas and Capt. Jack Crocker, were in today's lineup for the forty-ninth annual meeting with Kansas.

Kansas, winner in 27 of the previous games, was given but little chance to add to that string today.

We Have More Than They To Be Thankful For---

Yes, we have a right to be thankful. We have a duty, too—that our thankfulness be embodied in our determination to preserve those ideals which gave us Thanksgiving Day. Today, more than ever in our nation's history, the bounty of American fields and farms, the productivity and skill of American machines and factories, the resources and creativeness for human welfare of American men and women, is our greatest weapon for the continuation and preservation of the American life—and the true destiny of Thanksgiving Day in America.

Battleship Guns Rock Territory Within 18 Miles

(EDITOR'S NOTE: If you sometimes wonder why it costs so much to build and operate the United States floating fortresses, read this story, the fourth of a series of six daily stories on our navy, which when completed will be the largest in the world. Tomorrow: Airplanes are the eyes of a modern navy.)

By W. B. Ragsdale

WASHINGTON, Nov. 21 (AP).—When the big guns of a battleship roar in anger, all living things within 18 miles move with care.

For one of these 16-inchers will throw a ton of TNT, housed in an armor-piercing shell of steel, that far with ease, in an arc high above the waves.

When the shell lands, the steel goes tearing through armor. The TNT explodes with a force and fury that rends and tears things that were built to withstand such mighty batterings.

Even the friendly handlers of the monster have to tread carefully. Outside the turret, the mighty blast will rip off a man's clothes, singe his hair and send him spinning.

Whole Ship Shudders.
The guns leap back six feet. The whole ship with its thousands of tons of weight, shudders and plunges with a salvo. Light bulbs left in their sockets, burst. Everything loose and breakable is carefully stowed away beforehand.

Such a gun weighs up to 130 tons and a ship may carry from six to twelve of them, usually 14 or 16 inches. They are arranged in turrets of two, three or four guns each. The turrets are simply revolving gun houses, with motors for raising, lowering or turning the guns. The shell is raised by a hoist to the open breech. Up to 650 pounds of powder, brought up in silk bags, is stuffed behind it.

These guns are the primary battery of a battleship, the biggest and most powerful of the fleet. The secondary battery consists of four and six inch guns, from twelve to twenty of them to a ship. They weigh from two to eight tons apiece and have a range of about four miles.

Subs Are Targets.
Their targets are submarines, destroyers and cruisers, the outer fringes of the enemy fleet which move in ahead of the battleships.

The big guns of a modern battleship are aimed by a fire control system, complicated, confidential and very expensive. Its installation costs well over three million dollars per ship.

Most battleships are equipped with so-called blisters as a protection against mines and torpedoes. These are false steel hulls with water tight compartments in which an explosion would lose itself without damage to the true hull.

Kansas Governor To Celebrate FDR's Day

TOPEKA, Kas., Nov. 21 (AP) — Gov. Payne R. Rector, Republican who proclaimed Nov. 28 Thanksgiving Day in Kansas, will celebrate on President Roosevelt's day of Thanksgiving after all.

Proposals also have been made, he disclosed in a speech to the House of Lords, for "a compromise settlement arising out of Soviet annexations of territory" with regard to British obligations. Friction has arisen out of Russia's absorption of the three Baltic states last summer.

Adolf Hitler, the foreign secretary declared, is pursuing "his usual policy" of "combined cajolery and brutality" with France.

Greeks Are Near City Of Koritza

ATHEENS, Nov. 21 (AP).—Greek forces were reported to have reached the outskirts of the besieged Italian base city of Koritza in Albania this morning.

At the same time, in the coastal sector of the fighting zone, Greek columns were said to be marching rapidly on another important Italian base, Argirocastro, also in Albania.

Italian resistance in that zone was reported to have collapsed almost totally.

Latest information from the front said the Greeks were within six miles of Argirocastro, which is said to rank equally with Koritza in strategic value.

Band On Cities.
It was on these two cities that the Italians had based their drive into Greece. Huge stores of war materials had been assembled in both cities.

A thrust through the center of the Italian lines, putting the Fascist forces to hasty flight a point six miles within Albania, was the previous high spot of Greek successes reported today all along the 100-mile battlefront from the Ionian sea to Koritza.

A Greek government spokesman said the central break-through occurred at Mertzani, Albania, west of the Aous River and Northwest of Konitza, Greece.

Leaving munitions, arms, tanks, automobiles and laggard troops behind, the Italians were retreating so rapidly that the bayonet-banishing Greeks are hard put to keep up with them, he said.

CIO Denounces Isms Of Dictatorships In Session Resolution

ATLANTIC CITY, N. J., Nov. 21 (AP).—The Congress of Industrial Organization adopted today a resolution declaring "dictatorships and totalitarianism of Nazism, Communism and Fascism as inimical to the welfare of labor and destructive of our form of government."

The resolution, however, did not contain any reference to the proposal of the Amalgamated Clothing Workers to bar Communists, Nazis, and Fascists from CIO offices.

Thomas Kennedy, as chairman of the resolutions committee, moved for its adoption as "a plain, simple reaffirmation of the policies of the CIO" and John L. Lewis.

"It is not conceived in red-baiting, hysteria or witch-hunting," he said.

An overwhelming majority stood up for passage of the resolution after the convention first had voted against throwing the controversial issue open to debate.

Vice-president Philip Murray, presiding, announced adoption "by what the chair believes to be the unanimous vote of this convention."

An overwhelming majority stood up for passage of the resolution after the convention first had voted against throwing the controversial issue open to debate.

School officials this morning prepared to handle the sell-out crowd and predicted a seat for everyone.

The ticket box at the stadium opened at 12:30 today.

Bodies Found By Neighbors

James P. Harrison, 38, business manager of The Reporter-Telegram, and his wife, Mrs. Lilyan Harrison, 24, were found shot to death at 1 o'clock this afternoon in their automobile in the driveway at their new home, 1206 W. Kentucky Avenue.

An automatic pistol was found in the coupe. Neighbors said they heard the car drive in about midnight but none heard any shots.

Mr. and Mrs. Harrison ate dinner at a restaurant last night and later visited a friend's home until about 11 p. m.

Harrison's body was slumped under the wheel of the coupe when neighbors discovered the tragedy. Mrs. Harrison's body was on the seat beside him.

They were married last July 10. It was Harrison's third marriage and his wife's second.

Surviving him are his mother, Mrs. Minnie Harrison, a sister, Mrs. Clyde Barron of Grand Junction, Colo., and a brother, Bryan Harrison of Coleman, Texas.

Mrs. Harrison's mother, Mrs. Lucy Fuller, resides in Colorado City, Texas. Mrs. Harrison was graduated from Miami University at Oxford, Ohio. She came here last January to enter the employ of Dunagan Sales Company and left the position at the time of her marriage to Harrison.

Harrison joined The Reporter-Telegram staff in 1928, returning to Midland from Oklahoma after graduating from a teachers college. He graduated from Midland High School in 1921. He was president of his high school class during his junior and senior years.

They bought the new home at the time of their marriage.

Both were well known in Midland and vicinity.

Harrison was shot through the temple, the bullet coming out the other side of his head. Mrs. Harrison was shot above a hip, the bullet ranging upward and coming out her chest.

The gun was on the seat. Two bullets were fired and six remained in the weapon. Officers said there was no indication of a scuffle.

Justice of the Peace B. C. Girdley said both doors of the car were closed. The home was unlocked and lights were burning in the bedroom and kitchen. The gun's scabbard was on the bedroom floor near the bed. A dresser drawer was open.

Alvon Patterson, a neighbor, first discovered the tragedy and he called Edwin Farrell, another neighbor, who notified officers.

The Harrisons had visited at the home of another neighbor, William Hester, 1202 West Kentucky, last night.

Constable R. D. Lee and City Patrolman Ed Patterson aided Girdley in the investigation. The officers indicated it was case of murder and suicide and said an inquest will be held tomorrow afternoon.

Funeral arrangements had not been completed this afternoon.

Let's All Be Thankful

Americans are the luckiest people in the world. If they were anything but devoutly and humbly thankful this Thanksgiving Day, they would be the most ungrateful people in the world.

We are at peace—and thus we have been granted the most precious boon granted to any people in these days.

We live in a plenteous continent stuffed with all the good things of material life.

We have freedom; we have hope. Of all people in the world who should give humble thanks for their blessings, we should be foremost.

We are at peace—but that is no great credit to our superior policies or even our superior good-will. Other countries have as earnestly sought and worked for peace, have had as great good-will, but peace was snatched from them.

We live amid plenty. That this plenty is not available to all is a matter for our shame. But the opportunity has been given us. Plenty is ours. That we have not had the wit or the will to distribute it that all might share is certainly no fault but our own.

We have freedom. Our forefathers won it for us with blood and tears. It comes to us today through no special merit of our own. Whether we shall keep it and extend it—that will be the test of our merit. But it is given us today without regard to our effort or merit.

Surely a people so blessed can do no less than to take a day of solemn thought to consider how it may become more nearly worthy of this bounty.

More than 300 years ago a tiny band of Pilgrims on the Rocky New England coast saw their struggling crop wither in drought. They visioned another "starving time" such as they had looked upon before, when loved ones weakened and died before their eyes for lack of a little corn. Then came rain. The crop was saved. And for this simple bounty they declared a day of Thanksgiving.

This is the day which we, who have been a thousand times more favored, observe once again. May we render these thanks with something of the humility and devotion that moved the Pilgrims, kneeling amid their ragged cornstalks at Plymouth.

A Diet For Peace Movement

The simon-pure, 100 per cent pacifist has become almost as rare as the dodo. To such a pass has Europe led the world that few indeed are the men and women who still feel that nothing is worth fighting for—that nothing is worse than war. The object lessons set up in Europe of things that definitely are worse than war are too impressive to be overlooked.

Thus it is that the peace movement, which flourished and waxed fat a few short years ago is on a slimming diet today and looks haggard and pale. The National Committee on the Cause and Cure of War is an example. For the past 15 years it has called together delegates from many groups in a national meeting. This year those groups are almost all having budgetary troubles, and the national meeting will simmer off into a few regional gatherings.

To say this is not to say that the "peace movement" is dying. Most of the world is now at war. But the problem of constructing a peaceful world, of building ways of living at peace, was never more important. No amount of past failures can kill this imperative urge to reduce the chance that in the future the world's failure of 1914 and 1939 shall be repeated.

New Ambassador From Hollywood

Hollywood has been a-journeing southward, and from its most recent trek it reports back with a stubbed toe.

Heavily embarked in some elaborate vehicles essaying to portray life under the Southern Cross, Hollywood saw visions of increased sales in the South American market to replace in some part heavy losses in Europe. But the South Americans were amazed, shocked, irked, and even affronted at some of the Hollywood conceptions of them.

It is extremely difficult to portray to another nation its own life. Even the meticulously-supervised and beautifully-sympathetic life of Juarez did not get unanimous praise in Mexico. Less careful efforts got something very like the razz.

What the South Americans seem to like best is those strange North Americans portraying their own hectic lives—that, and El Pato Pascual, known to you as Donald Duck.

Dallas Grubbs, Harrisburg, Neb., dug 462 bushels of spuds in 10 hours. Now, is that being nice to the K. P. lads in the army?

Smoke over the New World means construction—over the old, destruction.

SERIAL STORY

DUDE COLLEGE

BY OREN ARNOLD

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY: Ronnie hurries home, lands and reports her experience to her father. He advises her to call the sheriff. Ultimately, she talks to Inspector Sheridan Starr of Border Patrol. He identifies the five men as aliens, sets out to trap them. Ronnie goes along. Even when they leave the car and Starr rides away, Ronnie follows. She hears Starr order the men to stop, then hears a shot.

ANDRE MAKES PLANS, Chapter V.

"Whe-e-ew!" Andre Girardeau breathed that, then turned slowly down the arched corridor leading from the Pueblo U. administration building to the library. He went only a few feet before he halted, though; he felt that, for personal as well as professional reasons, he simply must have another and better look at the Mexican girl.

The bespectacled man was at her left, helping her to walk. With her right arm she handled her one crutch clumsily.

Andre decided her act was none too convincing. But he also decided that any sort of act was unimportant; what really impressed him was the appearance of this girl.

"M-M-M-m-m!" Andre gave murmured tribute again, already sensing the pleasure when he should meet this girl.

He saw her perfection of teeth, lips almost too carmine. He noted the way her hair clung to her head in ringlets, swept low and backward.

He saw, too, that her initial touch of haughtiness had faded when the bespectacled man came to escort her from her car; patiently, then, this lady responded to masculine attention. Without being seen at least more than casually, he slipped on down the archways out of her sight.

He walked along the shaded avenue toward his hotel. An irrigation canal there made a rippling rivulet, beautiful in reflecting the trees as well as giving them life. At a lovely rustic bridge he paused a moment to study his image in the quieter pool. He smiled at himself; he, Andre Girardeau, should be able to enjoy this assignment, with a beautiful senorita and with Ronnie Bailey both as protagonists in his little drama. He wasn't bad looking; not at all.

He adjusted his tie, whistled a little softly, meditatively, and walked on. He reasoned next that he would have to set himself up in some dude ranch nearby to give outward excuse for his presence in and around Pueblo. The idea was distasteful, but he supposed he would have to ride a horse some in the western way, and no doubt listen to tall tales of Indian massacres and such. However, when he should form his contact with the Mexican girl boredom ought surely to vanish.

"If this goes smoothly I can net a quarter million or better, and then skip out," he reminded himself. "With that much I can probably take my choice—ha! Maybe—maybe Mexico City itself wouldn't

be so bad. As safe there as anywhere." He knew no particular fear. A conceited man seldom does, because conceit is but exaggerated confidence. Anyway, it was more pleasant to meditate on which of two lovely girls he should choose for permanent companionship. It simply did not occur to him that the Mexican senorita might not care for him.

He purchased a sporty new car during the next hour, and with proper directors drove out a few miles to the expensive Rancho del Sol. There, as a business man from New York, he could be a typical dude guest, loafing the autumn weeks away. It would give him adequate front.

He tried to telephone Ronnie and learned that she was not on her father's ranch. He tried the college, with no better results. It occurred to him then that she would be somewhere on the campus and so he drove back there.

Hearty young collegians seemed to be everywhere but he recognized none of them. Some of the co-eds were definitely interesting.

He asked a few if they knew where to find Ronnie Bailey. They knew about her, but not where she was.

He kept looking for another glimpse of the Mexican girl, and while he did see several others of obvious Latin heritage, he did not see that particular one. He wished he had heard her name distinctly, somehow, soon, it would be his motive to approach her and make himself acquainted, but that would have to be handled with infinite tact, at least so far as public eyes were concerned. I must appear entirely "natural, normal."

He did see the bespectacled young professor once, striding across the main campus court with four books on his arm, but was not interested in that gentleman.

When he was back in his car, Andre drove in a filling station to be sure of his fuel supply, and there encountered a youth as talkative as his kind is likely to be, especially out west.

"You hear the news?" the youth asked between windshield swipes. "About the Pueblo girl?"

"I beg pardon?" Andre was democratic only by effort.

"Yep. College girl from right here at old Pueblo, by George! Plenty of the old nerve, mister, let me tell you! They say she didn't even take a gun out there, but when the right minute come she—Why how-de-do, Miss Montoya!"

A second car had driven up to the pump and Andre found himself instantly deserted. He had paid his bill anyway, and his windshield hadn't really needed cleaning. He glanced out. Something about that name Montoya had caught his interest and there she was again!

The same girl. First time he had seen her a bespectacled professor had jumped to help her. Now, obviously, she had a filling station had enslaved.

"Iss so sweet of you, Jimmie," she was saying, musically, "you

come so queek to help me." "Aw, I'm supposed to ma'am. Anyway, I—well, gee! Say, have you heard the news, Miss Montoya?"

"News, Jimmie?" "Sure! One of our own Pueblo girls. Gosh, maybe you know her! Her old man's the big airplane builder. Name of Bailey, ma'am."

"I have only oom here wan week myself, you know, Jimmie. But what is it that—?" "Aw, sure, that's right. Well this Miss Bailey, she was—"

Andre, straining to hear, caught no more of it. A roadster piled high with collegians rolled up, looking behind him and through their hilarity someone broke into a college song. All he could do was drive out of their way.

Historical Thanksgiving

Many scenes have been written into American history since the first Thanksgiving was observed! Styles have changed. Laws have changed. Science, industry and mechanization have made fast strides in every phase of business and life.

Much has changed. But people remain the same—and today as generations ago, we still are thankful for the land we live in. For the religious freedom that was made our heritage by those first Americans—emigrants all, from lands of persecution.

History has seen many changes. But to us in America, there is still much to be thankful for.

The Southeastern Sectional championship tournament which is conducted in Florida by the American Contract Bridge League each year, will be held at the Miami Biltmore Hotel, Coral Gables, Fla. The league conducts local tournaments in its various units throughout the nation, the winners of which are sent to the Southeastern Sectional championships. It is expected that more than 150 of these winners will participate in the event this year, augmented of course by a large local attendance.

Mrs. Meyer D. Rothschild of New York, known as the mother of bridge, is well into her 60's, but still loves to travel around to tournaments. Last year she participated in the Southeastern Sectional event, and I recall a very cute play she made to make her contract on today's hand.

Mrs. Rothschild won the opening lead in dummy with the ace of diamonds. She realized that West was probably void of clubs. Her next play was the deuce of spades, which East won with the ace.

When East returned the king of clubs, Mrs. Rothschild refused to cover and played the deuce. She realized that if she went up with the ace West would probably trump, and she might have difficulty in getting a club ruff in dummy. Also, it might be very embarrassing if the opponents continued firing diamonds to her.

East, of course, continued with the club queen and again Mrs. Rothschild ducked. Now when the jack was led she could trump in dummy, pick up trumps, and was assured of four spade tricks, four heart tricks, a diamond and a club.

THE CURTAIN CALL

The Women From "The Women"

Let Us Present Emogene "Bobbie" Buffington in the role of Mrs. Morehead, the mother of Mary Haines, and little Janice Jones as Mary's small daughter.

This is Mrs. Buffington's debut with the local repertory company, and she is expected to give an intelligent and faithful interpretation of this modern mother-and-grandmother, despite the discrepancy in the ages of the actress and the character portrayed.

Mrs. Buffington has had wide experience in radio work and public speaking and took part in theatrical productions at Southern Methodist University from which she was graduated.

The part of little Mary is an ambitious one, and Janice is expected to delight the audience with her lack of affection and her understanding of the role. She is the daughter of Mr. and Mrs. O. H. Jones and is a dramatic art student of the Civic Theatre's director.

Tomorrow: Let Us Present—DORTHY SMITH as Crystal.

Richards Throws Touchdown Passes As Pups Win, 26-12

Little Billy Richards had a field day yesterday, tossing four touchdown passes to spark the Midland Bulldogs to a 26-12 win over Big Spring's little Steers in the Junior's last game of the season.

Charles Kelly, lanky Pup end, caught two scoring passes, dashing 20 yards in the opening period to start the scoring, and taking another behind the goal-line in the second stanza.

Bill Stickney and Robert Wheeler accounted for the other two touchdowns. The former caught a pass and went 30 yards. Wheeler romped 18 after a pass.

Wheeler, who led the attack on Odessa last week, placekicked and ran over the two one-pointers.

Runs 88 Yards
Big Spring scored in the first and last quarters. Stewart, full-back, unreled a 88-yard sprint for the first. In the fourth he bowled his way over from the 16, climaxing a 44-yard drive.

The Steers failed on extra-point attempts by running.

Midland scored the first time it got the ball. It kicked off to Big Spring and held for downs. Richards took the punt squarely on the 50 and ran it to the Steer's 45.

Stickney swept 13 yards for a first down. Wheeler then took a backward pass and ran to the 17. A line play failed. Richards passed a short one to Kelly, who stepped 15 yards to start the scoring. Wheeler place-kicked the extra point.

Steers Come Back
Big Spring came right back. Mattlock intercepted a Midland Pass on the 10-yard line. He hit center for 2. Stewart broke in the clear over right tackle and rumbled 88 yards to the goal, but he failed for an extra point.

Free's eleven failed again early in the second, traveling 68 yards. The Pups took the Big Spring kick-off, and from the 44 Richards uncorked a heave to Stickney, who sprinted across from the 30.

For the third quarter, the Pups smashed 80 yards by air and ground. Big Spring had punted over the goal-line. From its own 20 the Pups went to work. Wheeler drove and Richards spotted a receiver for a pass. On a tricky triple pass, Noyes tossed backward to Richards, who heaved to Kelly on the 5. On the 10-yard line, Richards sent a pass to Kelly over the goal-line.

44-Yard Drive
It was 20-6 until the fourth. The Steers counted first on a sustained drive for 44 yards. A Midland penalty set up the scoring play. Stewart went over from the 16, but failed to stab through for an extra point.

The final Pup marker came via the air. Wheeler snared Richards' flip and running it across. A clipping infraction nullified Noyes' run for the extra point.

Bostick, Stewart, Mattlock, Brown and Deering were outstanding for Big Spring. Coaches played almost the entire Pup squad.

Golden Cranes Trounce Cowboys By 30-0 Score

Crane tallied once in the first stanza, three times in the third, and twice in the last.

Head Boss at Hardin-Simmons Has Boss

Coach Frank Kimbrough of the Hardin-Simmons University Cowboys, in Abilene, big brother of Jarrin John and Jack of the Texas A. and M. defending Southwest Conference champions, has an heir apparent, Frank, Jr., shown here with Dad. Son Frank, helmeted, is watching a workout of the H-S-U Ranchers. Perhaps deciding whether to be a quarterback like Dad, a fullback like Uncle John, or an end like Uncle Jack. Or whether to play in the celebrated H-S-U Cowboy Band.

Sports Roundup

By Eddie Brietz

CINCINNATI, Nov. 21 (AP)—The gossip says Carl Snaveley is shopping—which may or may not be in line with that rumored Cornell de-emphasizing program. . . Five clubs are bidding for Eddie Miller, star shortstop of the Boston Bees. . . Here's a tip: When Minnesota plays Wisconsin Saturday, the spot will be ripe for an upset if there was one. . . Those who ought to know say the Texas Aggies haven't been unwrapped this season. The smart guys out here don't figure Kentucky will beat Tennessee Saturday but they do think it will be a dog fight, like North Carolina and Duke, for instance. . . George town has given up hope of getting a Bowl bid and will settle for a post-season game with St. Mary's in San Francisco.

Monday A. M. Quarterbacks

Looks like the boys around the drug Store finally won a game on Monday—the one Cornell gave back to the Indians.

The Cocktail Hour

The Canisius College gridders were so pleased with their victory over Long Island U. they bought a pipe for Pappy Kossack, former Cornell tackle, who scouted Long Island. . . Best line of the week was banged out by the fellow who called Clark Shaughnessy a "refugee from a string of Chicago goose-eggs."

Tom Stidham, Oklahoma U's smart coach, says Harold Lahar, 214-pound guard and ace backfield blocker, is the best pro football prospect he ever coached.

Porkers-Fordham Contest In East

NEW YORK, Nov. 21 (AP)—The Thanksgiving football fare today is almost as bare as the Thanksgiving turkey will be tomorrow.

There was a time when this holiday was just about the biggest moment in any football season. That was when Armistice Day, election day or any other red letter date on the calendar was considered set aside for the college schedule makers.

For several years, however, the trend has been toward sticking to Saturdays, exclusively, and the confusion over the celebration of Thanksgiving the last two years has just about cooked the day's goose as well as the turkey, so far as football is concerned.

As a result, the only game in the East today involving a major team will be Fordham's fracas with Arkansas at the local Polo Grounds. Undefeated Texas Tech and St. Louis University come to grips in another leading mid-western dispute.

American League Ruling Saddens Tiger Official

DETROIT, Nov. 21 (AP)—Some of the zest is gone from the life in the front office of the Detroit Tigers.

A good many weeks have passed since the Tigers won the American League championship, then bowed to the Cincinnati Reds in the world series, and General Manager Jack Zeller is lonesome.

The American League rule forbidding the champion from trading with other clubs in the league has lopped off a lot of Zeller's fun. "Why," he said, "I haven't even had a chance to deny a rumor since we won the pennant."

Taylor Appeals To Bulldogs For Midland Victory

Game Information
Midland Bulldogs vs Odessa Broncos.
District 3-AA Football Game.
Lackey Field, here.
Today, 2:30 p. m.
Decides 3-AA runnerup.

Asked by their coach to win the game for him, the embattled Midland Bulldogs today face invading Odessa's Broncos in a Turkey Day tilt before an expected 5,000 Peotiman Basin grid fans, on Lackey Field at 2:30 p. m.

The chips are down. Odessa is favored Midland is ready. Deprived from victory since 1934 and smarting from an early season slump, yet improved in the last three games, the Odessans are bringing many supporters here. Odessa has twice ordered more tickets since selling out Monday.

Both elevens are primed. Both were idle last week but drilled extensively for the melee.

Bulldogs Better On Defense.
Odessa reported that Red Coats, stellar center, was ailing. The linesman, a mainstay, supposedly is weak from an attack of influenza.

Odessa is expected to start but may give way to Andy Everett or Jack Scott.

Ready to catch Hogan's heaves are Otis McKelvy and K. Evans, ends.

On the Midland side, Coach Bud Taylor has a tall pass defense, a charging line, and a fired up club. That may mean something to dopes-ters.

Announces Resignation
Wendell Williams, Odell Kelly, Jim White, and Gordon Bigham, form the Bulldog secondary. Up front will be Maurice Bratton and G. Green, ends; Billy Hall and "Boog" Eidson, guards; Mike Buffington and Selmer Cooke, tackles, and Rehders, center.

Halfback I. Hall, end W. Lester and center Corbett are ready for replacement.

At a pep-rally student assembly yesterday Coach Taylor announced that he was quitting as Bulldog mentor and asked the boys to win this "one for him."

Last night he expressed an opinion the team today would do just that.

Four Champions To Emerge Today In School Tilts

By The Associated Press

Four district champions are expected to emerge today from a round of 27 games starting off the most crucial week-end of Texas school football.

The winner of the Amarillo-Lubbock tilt will be acclaimed as the champion of District 1 although both teams still have conference games on the schedule after today.

It's definitely the showdown in the Fort Worth District where Masonic Home's Mighty Miles will be aiming at an undefeated, untied and unscored on District campaign. The Masons meet once-beaten Poly. Unless Poly stages an upset the title will be determined.

Stephenville Close
Stephenville has Brownwood standing in the way of an undisputed Oil Belt Pennant. The Yellow Jackets need only a tie with Brownwood today to clinch honors.

In District 11 Kilgore plays at Tyler. A tie would eliminate Tyler from the race and throw Kilgore into a deadlock for the top with Longview, should the latter defeat Marshall. Victory for Kilgore would give the Bulldogs the championship.

A finalist in the District 16 campaign will be decided. Corpus Christi's young and speedy Buccaneers meet Robstown's veterans for the North zone title today. Harlingen plays Brownsville for the South zone crown tomorrow. Brownsville must win to gain a tie for the top.

Fourteen games are scheduled in the state tomorrow with three Saturday.
