

Roosevelt Asks Congress For Seven Billions And House Adopts Aid Bill

Gulf 17 Waddell Shows Distillate And Gas On Test

Ellenburger Prospect In Southwestern Crane Counties Six Million Feet

By Frank Gardner Oil Editor. Gulf Oil Corporation No. 17 W. N. Waddell et al, wildcat in Southwestern Crane County, today indicated opening of the county's third Ellenburger, lower Ordovician, pool as it showed 6,000,000 cubic feet of gas and some distillate on drillstem test.

The test was made from 5,602-37 feet, with tool open 45 minutes. Gas volume gauged 6,000,000 feet at the end of 40 minutes, and when drillpipe was broken down it contained 60 feet of fluid, 30 per cent 64-gravity distillate and the balance drilling fluid. No. 17 Waddell this morning was coring ahead at 5,644 feet, with another core scheduled to be pulled at 5,645. It went out to the Permian into the detrital zone at 5,538 feet, missed the Simpson, middle Ordovician, and topped the Ellenburger at 5,584 feet, datum of minus 3.121.

The prospect is located 660 feet from the northeast and southeast lines of section 15, block 3, H. & T. C. survey, four and one-quarter miles south by southwest of the South Sandhills Ellenburger pool of Western Crane and seven miles north of the Abell Simpson pool of Northern Peos.

Gulf No. 1-F University, Eastern Crane County deep well, is drilling at 9,975 feet in shale, probably of Simpson age.

Ward Shilurian Acreage Sold. An unconfirmed report today stated a firm has purchased from M. M. Whitaker of Haskell and C. H. Storts of Fort Worth a 100-acre lease about one-half mile southeast of Gulf No. 5 Wriston Brothers, first Shilurian producer in Texas and opener of the Shipley Deep pool in Southeastern Ward County.

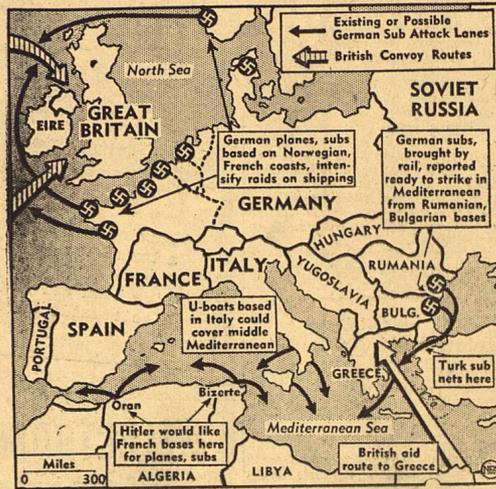

The lease comprises the northeast 100 acres of the north quarter of section 3, block 5, H. & T. C. survey. Consideration, also unconfirmed, is said to be \$125 an acre cash and \$750 an acre to be paid out of one-quarter of seven-eighths of the oil.

Gulf No. 6 Wriston, east offset to the discovery, is drilling below 5,420 feet in lime.

State-Sharp Tested. Prospects of production from the second sand of the Abell pool appeared favorable today at Magnolia Petroleum Company No. 1 State-Sharp when it showed oil and gas-cut mud on drillstem test. Dry in the upper sand, logged from 5,468-73 feet, the well topped the second sand at 5,915 feet but found it hard and tight until drilling break occurred at 5,932 feet. A core was pulled from 5,932-35 feet, total depth, with recovery of three feet of light oil-stained sand. The core showed no water. Packer was set at 5,912 feet but failed to hold for the first 10 minutes. It then was reset and held, and a 25-minute drillstem test from 5,912-35 showed a steady blow of air and 800 feet of fluid, top 290 feet of which was gas-cut and bottom 590 feet oil and gas-cut. Test was through 3/8-inch bottom-hole choke. The well headed when all but five stands of drillpipe had been broken down. Another test is scheduled for the well. No. 1 State-Sharp is three-quarters of a mile north-west of the firm's No. 1 Markey Heirs, second Simpson producer in the pool.

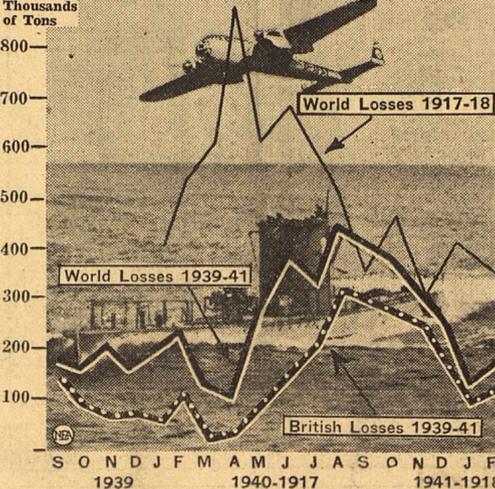

Northern Martin County's important wildcat, Magnolia No. 1 N. B. Teague, this morning was preparing to core at 4,677 feet in lime after losing circulation from 4,675-77 feet. Atlantic-Sun No. 2-B O. B. Holt Estate, Southern Andrews County well extending the North Cowden pool of Ector one and one-half miles north, is said to have flowed 548 barrels of oil the first 22 hours of potential gas. Flow was through open 2-inch tubing. Gas-oil ratio was low, averaging only 200-1. The well is bottomed at 4,520 feet in sand and has been shot with 540 quarts

German Sea Menace Extends South

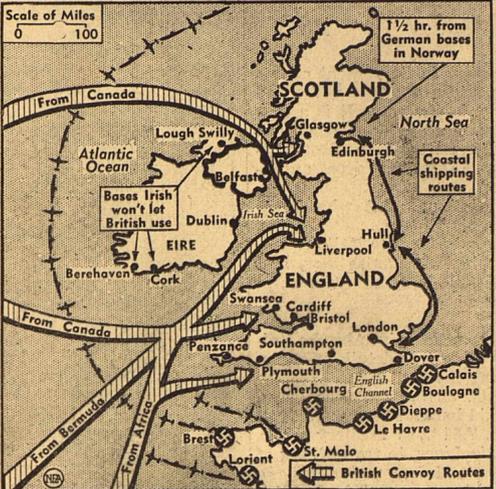

Menace of German submarines and planes to British shipping grows as Hitler's threatened "unprecedented sea warfare" hits in the Atlantic and other waters. U-boat attacks may extend to Mediterranean, where German bombers have already been raiding British vessels.

Shipping Losses Swing Up Again

Here is toll of world shipping taken by German U-boats, bombers, mines and raiders during first 18 months of war. Chart compares current losses with those of first World War's "unrestricted" submarine warfare campaign, which began in 1917. As spring comes, sinkings increase.

How Resources Reach Empire's Heart

Last few hundred miles on the shipping lanes of Britain's far flung empire are the most dangerous, for it is around the British Isles that German submarines and bombers take their greatest toll of vessels. Map shows principal British ports and German attack bases on the occupied coast of France.

Members Ballot 317-71 In Favor Of Amendments

President Probably Will Request Sum Wednesday; Executive Signs Measure

By The Associated Press. WASHINGTON, March 11.—Congress completed action today on the historic British aid bill, just after President Roosevelt set \$7,000,000,000 as its starting appropriation.

This round figure, which would be the largest peacetime appropriation ever requested in America's history, was announced by congressional authorities who met with the President.

He signed the bill at 2:51 p. m. (C. S. T.) today.

The roll call vote which sent it to the White House, was announced as 317 to 71, on House acceptance of Senate amendments.

Mr. Roosevelt is expected to request the \$7,000,000,000 formally in a special message to Congress tomorrow.

Members of the Congressional delegation at the White House said the money would permit purchase of "all articles authorized in the British aid bill." They were not specific.

The two big developments came on a day that in London air minister Sir Archibald Sinclair told the House of Commons that American warplanes "will get here in time" for the developing battle of the Atlantic, and another authoritative source said "the spring blitz which Hitler promised has begun."

House acceptance of an even dozen Senate amendments was the final legislative act on the precedent-shattering measure. The measure was sped to the White House almost two months to the day after its introduction, Jan. 10.

Unprecedented Authority. As soon as the president signs it, he will have the unprecedented authority to manufacture or otherwise produce any defense articles and turn it over to the government of any country whose defense he deems vital to the defense of the United States.

A \$1,300,000,000 limit is imposed by the bill on the amount of existing military or naval equipment which could be turned over to other nations.

The president's powers under the law would end June 30, 1943, unless terminated earlier by a majority vote of the House and Senate but contract negotiated under the bill could run until July 1, 1946.

Senator Byrnes (D-SC), when asked what period the appropriation would be for, said it would cover "the life of the bill."

Furthermore, the \$7,000,000,000 total, Byrnes explained, is inclusive of \$1,300,000,000 of present war supplies now in possession of the army and navy which may be transferred to Britain or other nations.

In other words, Byrnes explained, if the President transferred to Britain \$500,000,000 of army equipment, \$500,000,000 of the new \$7,000,000,000 fund could be turned over to the army for the acquisition of new equipment.

The \$7,000,000,000 would be the largest peacetime appropriation ever requested in America's history.

The Chief Executive moving rapidly ahead with plans to put the British aid program into full and immediate operation, began a conference with the ranking officials of the war and navy departments immediately after informing the delegation from Capitol Hill of the huge appropriation he planned to ask.

Midland Has Fortieth Accident Since Jan. 1

An automobile crash at the intersection of Baird and Wall streets yesterday was Midland's 40th traffic accident of the year.

Four hundred dollars in damages resulted to the automobiles involved in the crash, Franklin Manning city motorcycle officer, said. No one was injured. Manning said 85 automobiles had been involved in 40 wrecks where damages of \$25 or more were reported.

School Trustees Election April 5

An election will be held April 5 to elect two members to the board of trustees for Midland schools. Election notices were to be posted today, following a meeting of the school board last night.

Retiring board members are L. C. Link and W. A. Yeager. They are eligible for re-election. Link is chairman of the board.

Holdover members of the board include C. D. Verrees, secretary, Percy Bridgewater, Russell Conkling, Ray Upham, and John Larsh.

Brother Of Mrs. Haag Dies In Car Accident

Roy Colwell, 51, brother of Mrs. B. Frank Haag of Midland, was killed in an automobile accident at El Centro, Calif.

The body will be brought to Midland tonight and taken to Sylvester, Texas, tomorrow by Ellis Funeral Home for funeral services at 2:30 p. m.

Mrs. Haag's husband, a state legislator, was killed in an automobile accident between Midland and Austin several years ago.

Britain States Personnel Could Run All Of United States Fleet

By The Associated Press. A high London naval source declared today that Britain wanted all the ships she could get from America and that enough trained British personnel was ready to man the United States fleet if it were turned over to Britain for the developing "battle of the Atlantic."

On the diplomatic front, Axis propaganda guns assailed the United States—hinting at trouble in the Pacific—as Japan's foreign minister, Yosuke Matsuoka prepared to leave the Far East for important talks with Adolf Hitler and Benito Mussolini.

The British comment on preparedness to take over the United States navy was made after questions by American correspondents in London.

Fascist sources in Rome hinted at an impending Japanese move under the triple alliance in reaction to the United States' British aid bill.

The Italian newspaper La Tribuna declared bluntly that Matsuoka's trip was the "immediate answer" to Washington's threatening move.

"Yesterday America spoke," the newspaper said, evidently referring to Senate passage of the British aid bill Saturday. "Soon Japan will say its word. It is for this that Matsuoka is coming to Berlin and Rome."

Yugoslavia To Make Decision. Berlin: Informed Nazis said Matsuoka's visit was one of a series of counter actions to the United States aid-to-Britain bill. It was regarded as significant that Matsuoka would be accompanied by military experts.

Rome: Italians said Matsuoka would discuss Japan's role under the three-power pact in the event of trouble with the United States over the British aid bill.

In the Balkan crisis, Yugoslavia's recent Prince Paul summoned the Crown Council to meet tomorrow to decide whether Yugoslavia would join the Axis—under a reported demand by Adolf Hitler that she sign as a full-fledged member.

Belgrade sources said yesterday Hitler had refused to accept a mere non-aggression pact with Yugoslavia, and most diplomatic observers in the Balkan capital today predicted the Crown Council would have no alternative but to yield to Germany.

LATEST NEWS FLASHES

Turks Let Fly Shells At German Planes. ISTANBUL, March 11—(AP)—A foreign diplomatic source said tonight that three German warplanes which flew over Turkish fortifications on the Bulgarian frontier yesterday were fired on by Turkish anti-aircraft batteries.

Fliers Fight Short Battle Over Estuary. LONDON, March 11—(AP)—A short but fierce air battle was fought tonight under low clouds over a Thames Estuary town.

Blast Rocks Rendel's Hotel In Turkey. ISTANBUL, March 11—(AP)—A heavy explosion rocked the Pera Palace Hotel tonight a few minutes after George W. Rendel, former British ambassador to Bulgaria, and his legation staff had taken up headquarters there. Screams of the wounded and dying could be heard from the street immediately after the blast as police and firemen fought their way into the hotel.

Wallace And Rayburn Hasten Bill To President. WASHINGTON, March 11—(AP)—Within a short time after Congress completed action on the momentous British aid bill today, Vice-President Wallace and Speaker Rayburn signed it and arranged to dispatch it at once to President Roosevelt for his approval.

Senate Chamber Passes Judiciary Bill And Waits For Tax Measure Approved By House

AUSTIN, March 11—(AP)—Speeding ahead of normal schedule, the Senate today finally passed with amendments the House bill allocating approximately \$2,444,000 annually to support of the judiciary for the next biennium.

The action heads the bill, the first major appropriation measure of the session, toward free conference committee where it will be finally shaped.

Senate alterations were minor and did not materially change present appropriations under which the state's vast judicial system operates.

Its approval clears the way for consideration of other big money bills, including those for state departments, eleemosynary institutions and state supported colleges, all of which probably will be ready for floor consideration within two weeks.

Meanwhile the Senate awaited arrival of a \$30,000,000 omnibus tax bill approved, 137 to 8, by the House in the small morning hours in a

climax to one of the longest single day's sessions in recent legislative history.

Vote After Midnight. The final vote came after midnight in a quiet calm following more than 14 1/4 hours of continuous and at times tumultuous debate during which the laboring lawmakers ate sandwiches for lunch and dinner.

Aimed at satisfying demands for increased social security and other spending, the bill originally designed to add \$14,500,000 to the state's income, was hiked to its eventual today by degrees by arduous argument.

Prior to the last votes, the weary legislators refused by heavy votes to substitute for the proposal Governor W. Lee O'Daniel's 1.6 per cent transactions tax and his \$20,000,000 omnibus levy offered at the start of the general convolve in January.

Several attempts to alter revenue allocations by amending the bill to

Midland County Bar Names Sealy For Presidency

Tom Sealy was elected president of the Midland County Bar Association in a meeting last night. He succeeds E. W. Hamilton.

C. C. Keith was chosen vice-president and James T. Smith secretary-treasurer. Keith was retiring secretary-treasurer.

The association voted to assist in forming a district bar association to include counties of this judicial district—Midland, Howard, Glasscock, and Martin.

Guests of the association at last night's dinner meeting were: District Judge Cecil C. Collins, District Attorney Martelle McDonald, and Burton Slaughter, county attorney of Martin County.

A committee of the Midland Bar Association will study and plan the proposed district bar association.

Midland Court Convicts Three

Two drunken driving cases and a car theft case were heard in 70th District Court here today and yesterday.

V. L. Roberts, tried before a jury for driving while intoxicated was convicted, fined \$50 and sentenced to five days in jail. His driver's license was revoked for six months.

Wayne Hawkins pleaded guilty to driving while intoxicated and received a five-day jail sentence, \$50 fine, and lost his license for six months.

Steve Reyna, charged with theft by bailee of a motor car, received a two-year suspended sentence. He was tried before the court.

The Traffic Cop

Today I am reminded of a story: A gentleman was making a left turn from the right hand side of the street and failed to hold out his hand signaling his intentions. The car behind him collided with the rear of his car and both drivers, of course, got out to inspect the damage.

The driver of the second car on getting out yelled, "Why didn't you hold out your hand?" The driver of the first car promptly said: "What difference does it make? If you could not see my car how the devil could you see my hand?"

Folks, please, watch your signals. Tomorrow I will explain them for you. Watch this space every day for hints as to your safety.

To date 1941: 5 deaths and 40 accidents in Midland.

A BIBLE THOUGHT FOR THE DAY
FOLLOW SINCERELY THE LIGHT YOU HAVE: I was not disobedient unto the heavenly vision.—Acts 26:19.

Speaking Of Aid--

The United States feels uneasy in its present course of sending arms and aid to one party to a war, while still firmly resolved not to take part in the war. It is a new technique, and we tend to think back to days when one was either in a war or not in it. So we feel uncomfortable in the present situation, and shy away from aggravating it.

It is indeed a strange technique. But who introduced it?

The German flyers and technicians, the Italian "volunteers," who helped Franco win the Spanish war, and the Russian technicians and "moral-builders" who helped the Republic lose it, set the pace.

Interesting indeed is the accounting given by the Italian official Stefani news agency of certain details of equipment sent to Franco Spain during the civil war.

There were, Stefani reports, \$375,000,000 in loans, very little of which has been paid back. There were 1900 cannon, 10,135 automatic arms, 7,514,537 artillery shells, 7,668 motor vehicles, and 763 airplanes, to say nothing of two submarines, four destroyers, and four motor torpedo boats. Ninety-one Italian warships engaged in Spanish war activities; 92 steamers ferried the supplies; Italian submarines sank 72,800 tons of "hostile" shipping.

Italy was never "in" the Spanish war, of course, even when Italian-uniformed troops under Italian officers were taking active part in the campaigns. These were "volunteers."

But read over the list of equipment sent, which one presumes to be in addition to the equipment carried and used by the Italian "volunteers" themselves. Note how closely it paralleled the kind of equipment which the United States has been selling to Britain, and which it is now will be provided on a "lend or lease" basis.

Surely there is going to be no complaint from Germany or Russia about the United States supplying to some kind of materials which all these states supplied to one side of a civil war within one country a few short years ago.

Having set the pace for such maneuvers, the axis countries have, by and large, conceded the right to the United States to supply Britain.

What might have been considered a "cause" for war a few years ago is no longer considered to be such. The kind of war now raging in Europe does not depend on the often-flimsy "causes" which peace-loving countries used to be so eager to avoid. This kind of war is often not even declared, but simply waged without warning whenever the aggressor country believes there is advantage to be derived from it.

Teachers Will Attend Meeting

A holiday has been declared for Midland schools Friday, and teachers will attend a district four meeting of the State Teachers' Association in Big Spring.

The 24-county meeting will open at 9:15 a. m. Friday at the Big Spring municipal auditorium. Three general sessions will be held. Various subjects taught in schools will be discussed at sectional meetings.

Speakers at the meeting include: Dr. George S. Counts, of Columbia University; Claude V. Birkhead, major-general at Camp Bowie; Dr. A. J. Stoddard, Superintendent of Philadelphia public schools; and Dr. W. B. Irwin, superintendent of schools at Lubbock.

Most of the faculties from Midland will attend, officials said today.

Texas Ranges Best In Ten-Year Period

AUSTIN, March 11—(AP)—The best Texas range condition since 1931—82 per cent of normal—is reflected in reports to the agricultural marketing service.

The federal agency announced today the March 1 range condition compared with 80 per cent a month ago, 70 per cent a year ago and 75 per cent for the 10-year average March 1 condition.

The outlook for early spring range feed was exceedingly favorable and the moisture situation was better in all areas than for a number of years.

Cattle made good gains in all districts except the eastern where rainfall was excessive. The condition of cattle at 82 per cent of normal was 10 points above the condition a year ago. Sheep range conditions were almost ideal, the service reported, and the condition of sheep at 85 per cent of normal was the highest for March 1 since 1931.

Authorities cannot agree as to whether the sweet potato is a native of tropical America or the East Indies.

Highway Department Authorizes Topping On Midland Stretch

The Associated Press reported today the Texas Highway Department had announced Midland among 128 counties to benefit from a 1941 asphalt program, costing \$2,434,100.

The Midland County project calls for 8.5 miles of asphalt surfacing on state highway 158, northwest of the city on the Andrews' road.

Other projects announced included:

Howard and Martin 23 miles seal coat on U. S. 87 from Big Spring to Dawson County line.

Ector, 17.2 miles seal coat on state 51 from Andrews County line to Odessa.

Howard, 9 miles seal coat on U. S. 87 from Glascock County line to 4 miles south of Big Spring.

Mrs. Lekisch Speaks To Business Members

Mrs. A. Lekisch, who recently arrived in Midland from Germany by a route through France and South Africa, spoke at a meeting of the Business and Professional Women's Club in the private dining room of the Scharbauer Hotel last evening.

She discussed her experiences in France as a refugee from Germany. The meeting was in charge of Miss Ophelia Greene. About 30 were present.

Mrs. Frances Carter, president, presided at the business session during which Miss Norene Kirby reported that the club will send a Midland girl to business college next year.

The B&P Club has been invited to present the program at the monthly meeting of the High School PTA late in March. Mrs. Frances Stallworth will conduct a forum.

F. M. Ayers, Former Resident Here, Relates Interesting Experiences In Tropics, But Won't Return To Area

By Kathleen Eiland Society Editor.

New Guinea, Sumatra, Java, Bali—such places to most Midland citizens remain only lyric names whose syllables are laden with the languorous spell of the tropics and the mystery of the East. But to F. M. Ayers, former resident here who has been visiting in Midland after returning from a few years' residence abroad, they are more than painted areas on a map—they are actual places whose names conjure up memories of varied experiences which he went through there.

New Guinea—he spent a year and a half there, working for an oil company in the strange islands where there were just two modes of travel—boat and on foot. The men in his party traveled upstream by boat as far as possible and then struck out on foot through the jungle, sometimes so dense that a pathway had to be cut. In the forests they selected camping places with care, being sure there was no dead tree near which might crash in the night, and seeing to it that camps near the rivers were well above the danger of flood.

Few Feroocious Animals. Borneo dyaks formed the nucleus of the native servants in the party, with the remainder Papuan natives.

For all its jungles, Ayers found there were few ferocious animals in New Guinea, though tree kangaroos, ground kangaroos, cockatoos, parakeets, and the Bird of Paradise abound.

Green is the word for the jungle as he saw it. Not the green and the colorful flowers of Hawaii but green in its varying shades.

The heat and copious rainfall with humidity were unpleasant, but there was no serious trouble with the natives. The party carried its own food so did not have to exist on native diet.

Returned Unusual Pictures. Among fascinating pictures which Ayers brought back are some of the negroit demissa people, nomads of the jungle, living on wild pigs, cassowary and wild fruits. The men wear sticks in their noses, projecting like stiff mustaches.

Sumatra and Java and Bali have long been settled and more or less civilized. In them Ayers spent considerable time. The Balinese, a brown Hindu people, whereas the

Back From New Guinea

other natives are mostly Mohammedans, the American found artistic and cultured.

Huge temples with elaborate carvings found in the islands show love for beauty and ability to create it.

A missionary who worked among the natives told Ayers that black magic is a power that his religion can not cope with.

The natives, when the white men respects their customs, work well and are kind and loyal to their masters.

Back in the familiar surroundings of West Texas, which he left three and one-half years ago, Ayers said he liked the experience in the East but does not intend to return.

Maybe Kipling was wrong, when he wrote "If you've 'eard the East a-callin', why, you won't 'eed nothin' else."

Charges Major For Britisher's Death

LONDON, March 11—(AP)—A Reuters, British News Agency, dispatch today from Nairobi, Kenya Colony, said that Major Sir Delves Broughton had been charged formally with murder in the death Jan. 24 of the Earl of Erroll, hereditary high constable of Scotland.

When Lord Erroll was found dead it was first believed he had been killed in an automobile accident.

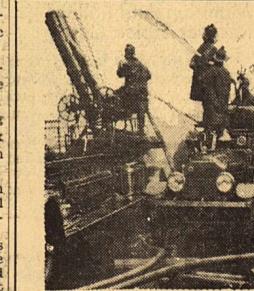

The dispatch said that later it was determined that death was caused by a revolver shot.

"No evidence was called and the case was adjourned to March 19," Reuters said.

Housing Committee Of C. Of C. Organized

The Chamber of Commerce's housing committee had its organization meeting today and discussed the housing situation in Midland. Its members discussed both residential and business problems. Carl Young is chairman of the group which will meet again March 25.

A committee, composed of R. E. Langford, Marvin English and C. H. Shepard, was appointed to study south side housing facilities and a committee, composed of J. F. Friberg, G. W. Brennan, Gordon Holcomb and J. L. Barber was named to encourage modernization of business property.

Many Britons Are Prepared To Use U. S. Materials

LONDON, March 11—(AP)—Great Britain has trained vast skeleton formations of fliers, sailors and soldiers to man immediately a great flood of airplanes, ships and guns expected from the United States, it was disclosed today.

A vast pool of manpower, well-informed neutral sources said, is ready to pour into battle as soon as the United States opens stores of equipment under the aid-to-Britain measure.

It was asserted that American military, naval and air experts have been working here more than four months in close cooperation with the British so the empire's forces can absorb American equipment quickly.

Neutral sources said:

1—Britain's naval forces are prepared to man a Mosquito boat fleet to patrol the channel against any invasion and use any additional destroyers for convoy and other purposes.

2—There is a huge reservoir of pilots trained in the use of American planes and ready to fly patrol bombers described as needed for "defense in depth of the Atlantic" against attacks on British shipping.

3—There are tank formations without tanks, machine-gunners without guns and rifleman without rifles who are ready to be fitted into operating units as soon as they are equipped.

"It's lack of equipment that's been holding us back," a British source said.

U. S. Crude Oil Output Totals 3,600,000 Barrels

TULSA, Okla., March 11—(AP)—Daily crude oil production in the United States increased 12,405 barrels to 3,635,840 for the week ended March 8, the Oil and Gas Journal said today.

California was up 22,900 to 610,150; Eastern fields, 275 to 113,675; Louisiana, 3,305 to 296,080; Texas, 4,400 to 1,349,400; and the Rocky Mountain States, 1,940 to 105,880.

Illinois declined 3,255 to 325,420; Kansas, 9,000 to 191,550; Michigan, 440 to 39,775; Oklahoma, 6,875 to 402,850, and East Texas, 115 to 374,450.

MEXICO WILL FIND ILLEGAL RESIDENTS

MEXICO CITY, March 11—(AP)—The Mexican Ministry of the Interior announced today a campaign to locate all foreigners residing illegally in the republic.

In addition to tightening the watch on border points and ports of entry, the ministry said Mexico's governors and mayors would check immigration credentials of all foreigners in their jurisdictions.

U. S. Intervenes To Aid Prisoners

WASHINGTON, March 11—(AP)—The United States has intervened today, on behalf of thousands of Spanish republicans who are prisoners in Spain or political refugees in unoccupied France.

Appeals from Secretary of State Hull to Spanish Generalissimo Francisco Franco, it was learned, sought clemency for the political prisoners on "humanitarian" grounds after receipt of reports of wholesale executions and crowded prisons in the wake of Spain's bitter Civil war.

The friendly request of Franco was disclosed by individual letters from the state department to a number of American citizens interested in the fate of the Spaniards who fought vainly to save the Spanish republic.

More Than Fifty Models To Be Style Show

Light Business Houses To Enter Representatives

More than 50 Midland models, ranging under the auspices of Midland business houses, to display the newest in women's fashions at the Hotel Water at 8 o'clock. The occasion will be the yearly style show held by the Episcopal Auxiliary-Trinity Church. Firms enterprising will be: J. C. Smith Kiddies Toggery, Gwen's Shop, Everybody's, The Fashion-Wadley's, Wilson's, and the store.

B. K. Buffington and Miss Sill will announce the show who will display their costumes for sports, morning, daytime, evening wear, both in the Crystal room and on the mezzanine. Program to precede the end of the models has not been decided and is to be in the nature of a surprise.

A patriotic color theme will be in decorations.

Drinks will be sold during intermission.

Public is invited to attend the tickets being on sale at the store.

TY-TWO PRESENT INTERMEDIATE BTU

Forty-two were present at meeting of the Intermediate department of the First Baptist BTU, Sunning.

Officers were Lavonne Weaver and Ann Theis.

Special duet was sung by Marjorie and Jacqueline Theis.

Christian Circles Meet In Homes For Study Sessions

Mrs. L. B. Pemberton brought the devotional when members of the Rijnhart Circle of the First Christian Church met with Mrs. Glenn Brunson on N Carrizo street, Monday afternoon.

The hostess was in charge of the study on "Miracles of the Bible." A refreshment plate was served to one guest, Mrs. C. C. Johnson, and the following members: Mmes. A. B. Allen, Kate Hunter, H. G. Bedford, G. W. Breneman, Lynn Butler, J. S. Correll, S. P. Hall, Joe Norman, Pemberton, Ella Ragsdale, W. E. Shipp, and the hostess.

Mrs. Alvin Johnson taught the lesson on "Eunice, the Mother of the Church" from the book "Women in the Church" at the meeting of Priscilla Circle with Mrs. J. Roy Jones, 310 S. Marlenfeld.

The devotional was presented by Mrs. Delbert Downing and the first prayer by Mrs. John E. Pickering. Mrs. Jones, president, presided at the business session and plans were made for the third Monday luncheon next week at which time Mrs. J. Howard Hodge will present a book review.

A social hour followed the study and refreshments were served. During this time Mrs. J. L. Bush of Kansas City told of the work of the women of her church.

Mrs. Jones was assisted by her daughter, Glenna, in serving. Present were: Mmes. L. A. Arrington, R. J. Auld, J. L. Bush, Charles Klapproth, Downing, Johnson, Pickering, D. B. Snider, Miss Josephine Guly, and the hostess, and Glenna.

First Baptist WMU Initiates Week Of Prayer Observance

Martha Holloway Circle of the First Baptist WMU Monday afternoon was in charge of the initial program in a series of four to be presented in observance of the week of prayer for home missions.

Mrs. H. D. Bruce was director of the program which opened with group singing.

Mrs. O. L. Beville presented the devotional.

Two vocal solos were given by Mrs. Joseph Mims.

Others taking part on the program were Mrs. T. C. Bobo, Mrs. Geo. Grant, and Mrs. D. W. Brunson.

Mrs. H. S. Collings told of plans for the week's programs, to be held each afternoon through Thursday.

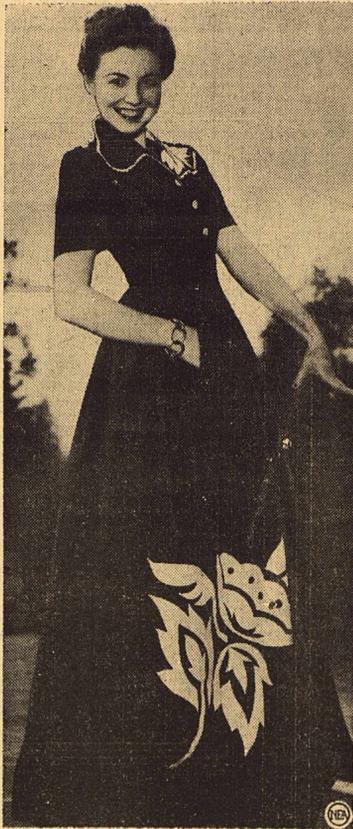

Present were: Mmes. Mims, Grant, Bobo, Brunson, J. C. Hudman, T. A. Cole, S. L. Alexander, B. C. Girdley, R. V. Hyatt, Beville, Billy Gilbert, A. E. Magnuson, F. H. Latham, J. Webb Miller, R. O. Walker, J. O. Nobles, Bob Preston, W. A. Suddreth, John Hix, C. A. Travelstead, Fred Wycoff, M. Schatz, H. S. Collings, Bruce.

Kara Scarborough Circle is in charge of today's program.

PECOS OFFICIALS VISIT HERE TODAY

Mayor E. A. Tolliver, City Secretary M. D. Cowan and County Commissioner Buck Jackson, all of Pecos, were in Midland today conferring with city and chamber of commerce officials as to the recently completed WPA paving project here.

Looks Are Deceptive

With its full, sweeping "skirt," screen actress Joan Leslie's outfit looks like an ordinary gown. But it isn't. It's a two-piece patio pajama, with tremendously wide trousers. They are caught up in a wide, rounded waistband. Dramatic color accents are lent by the huge tropical flower and leaf applique on the right trouser leg and on the left rever of the jacket.

Coming Events

WEDNESDAY

So-Sum Club will meet with Mrs. E. C. Hitechock, 704 N Pecos, at 2:30 o'clock, Wednesday afternoon.

Dos Reales Club will meet with Mrs. Jerry Phillips, 407 W Illinois, Wednesday afternoon at 2 o'clock.

Fine Arts Club will meet with Mrs. R. C. Tucker, 1411 W Illinois, Wednesday afternoon at 3:30 o'clock.

Presbyterian Church will sponsor a potluck dinner at the church, at 6:30 o'clock, Wednesday evening. Rebecca Circle will be in charge of arrangements with Mrs. J. W. Bradberry as chairman.

Annie Barron Circle will be in charge of a program observing pray-

er for home missions, Wednesday afternoon at 3:30 o'clock at the First Baptist educational building.

Firemenettes will meet with Mrs. D. H. Casper at her home on the Lamesa Road, at 2 o'clock Wednesday afternoon.

THURSDAY.

Delta Dek Club will meet with Mrs. John B. Richards, 1400 W College, Thursday afternoon at 2 o'clock.

Needlecraft Club will meet with Mrs. J. A. Tuttle, 1506 W College, Thursday afternoon at 2:30 o'clock.

Town Hall Club will present R. M. P. Burnet, archaeologist, in a lecture at the high school auditorium, Thursday evening at 8 o'clock.

City-County Federation will meet with Mrs. Andrew Fasken, 1511 W Missouri, Thursday afternoon at 2:30 o'clock. The Odessa Woman's Forum will present the program.

Glenn Walker Circle of the First Baptist WMU will present the concluding program in a series of observing prayer for home missions Thursday afternoon at 3:30 o'clock in the church educational building.

The 1928 Club will meet with Mrs. John B. Thomas, in her apartment in the Thomas Building, Thursday afternoon at 2:30 o'clock.

Twelve-ite Club will meet with Mrs. R. C. Crabb, 1001 W Missouri, Thursday afternoon at one o'clock.

Westside Home Demonstration Club will meet with Mrs. J. L. Huddle at her home northwest of town at 2:30 o'clock Thursday afternoon. Miss Alpha Lynn will be in charge of the program.

FRIDAY.

North Ward PTA will present Mrs. Clara Hood Rugel in a lecture on "What the Axis Alliance Has Cost Italy" at the high school auditorium, Friday evening at 8 o'clock. Tickets may be purchased in advance or obtained at the door.

Lucky Thirteen Club will meet with Mrs. Delbert Downing, 1205 W College, Friday afternoon at 3:00 o'clock.

Cactus Club will meet with Mrs. S. H. Hudkins, 1200 W Indiana, Friday afternoon at 2 o'clock, instead of on Wednesday as first announced.

Methodist Leagues will have a banquet for the department at the church, Friday evening.

Children's Service League will meet with Mrs. Tom Parker, 1508 W Texas, Friday afternoon at two o'clock.

Belmont Bible Class will meet with Mrs. V. O. Baldrige, 600 S Fort Worth, Friday afternoon at 3:30 o'clock.

Circles Of WSCS Meet For Study Of China And Bible

Mrs. J. L. Tidwell presented the study on China at the meeting of Mary Scharbauer Circle of the Methodist WSCS for which Mrs. Douglas Nix was hostess at her home, 600 S Colorado, Monday afternoon.

Mrs. H. A. Ferguson reviewed "Yang and Yin."

Prayer by Mrs. Mollie McCormick closed the meeting which was opened by repetition of the Lord's Prayer.

Mrs. Fred Frohhold conducted a short business session.

Three visitors were present. They were Mrs. Ferguson, Mrs. M. L. Gard, and Mrs. J. E. Payne.

Members attending were: Mmes. Tom Hart, O. F. Hedrick, McCormick, L. T. Fowler, Velma Stewart, Tidwell, Roy McKee, Fannie Barrett, Ira Cole, Frohhold, and the hostess.

Winnie Prothro Circle.

Mrs. M. M. Fulton was hostess and Mrs. Jimmie Locke cohostess to Winnie Prothro Circle which met at the Fulton home, 716 West Kansas.

Mrs. D. A. Pass presided at the business session during which Mrs. Johnny Ratliff was named on the ways and means committee.

A check for one hundred dollars was presented to the circle from J. Howard Hodge, the money to be applied on the Methodist Church building fund through the circle. A vote of thanks was given Mr. Hodge.

Mrs. C. M. Chase, study leader, was in charge of the program.

Mrs. Geo. Vannaman reviewed "My Country and My People" by Lin Yutang, after which Mrs. Chase spoke on "China's Blitz-builder—Ril Alley."

Mrs. S. B. Hazlip presented a synopsis of Pearl Buck's "We Must Stand Together," a reply to an article by Madame Chiang Kai-Shek.

Mrs. Pass offered the closing prayer.

Refreshments were served to 25 women including: Mmes. Johnny Ratliff, A. J. Bedford, Leland Davison, J. P. Goodwin, C. M. Chase, Oliver Haag, V. G. Young, Fred Brasted, E. Wade, J. C. Williamson, J. A. Jorgensen, S. B. Roach, Burl Self, Bob Baker, Hugh Walker, Ross Carr, Allen Flaherty, Lester Short, Hazlip, a new member, Mrs. R. O. Ritchey, and Mrs. J. C. Kuper, and two hostesses.

Laura Haygood Circle.

Laura Haygood Circle met with Mrs. N. A. Moore, 610 W Kansas for study of China. The meeting opened with unison repetition of the council prayer, followed by a devotional by the hostess.

Mrs. H. M. Reigle taught the last chapter of "Dangerous Opportunities" after which Mrs. C. P. Wilson reviewed "Three Sisters."

A tea plate was served to: Mmes. Reigle, J. M. Prothro, Jimmie Lott, Ellis Conner, Geo. D. McCormick, A. L. Ward, G. K. Kelly, J. F. Nixon, Minnie, F. J. Nicholson, Geo. P. Bradbury, C. R. Fitch, Wilson, and the hostess.

Viola Holt Circle.

The third chapter of Genesis was discussed by Mrs. Bill Wyche at the meeting of Viola Holt Circle in the educational building. Mrs. J. J. Black opened the meeting with prayer.

A roundtable discussion was held. Present were: Mmes. John Dublin, A. C. Weyman, O. B. Holt, Wallace Irwin, Walter Jarrett, Foy Proctor, Wyche, Ross Williams, J. B. Zant, Kemper Kimberlin, Mayne Stokes, C. Schnurr, Black, Fred Wemple.

Belle Bennett Circle.

Twenty-five members of the Belle Bennett Circle met with Mrs. E. V. Guffy, 510 W Kansas. Mrs. D. W. Young conducted the short business session during which announcement was made of the Chinese luncheon to be held next Monday for the four circles which have been studying China.

A spiritual life group prayer meeting at the home of Mrs. O. F. Hedrick was announced for Wednesday morning.

Mrs. M. J. Allen brought the devotional from Psalms 33.

Mrs. W. E. Chapman discussed the fifth chapter of "Dangerous Opportunities."

Mrs. W. F. Prothro and Mrs. D. W. Young discussed topics; and Mrs. S. H. Hudkins offered the closing prayer for China.

Present were: Mmes. E. B. Patterson, John Ficke, J. L. Barber Sr., Prothro, Chapman, Hudkins, J. R. Custer, M. H. Crawford, Young, H. M. Reynolds, W. B. Hunter, Dennis Murphy, Otis Ligon, W. A. Black, Allen, W. T. Gracey, Rea Sidorf, B. G. Graf, S. M. Vaughan, R. J. Kelly, Phil Scharbauer, J. B. Sanders, W. Iley Pratt, Ray Gwyn, and the hostess.

Friday Knitting Club for Bundles for Britain will meet Friday afternoon with Mrs. Burl Self, 1203 W Wall. Anyone interested in the organization is asked to communicate with Mrs. C. G. Cooper, phone 1589-W.

Calvary Baptist Meets In Circles For Study Programs

Mrs. J. A. Forrester was hostess to the meeting of Katherine Shelburne Circle of Calvary Baptist WMU at her home on East Florida, Monday afternoon.

Mrs. Walter Smith talked on "Prayer"; Mrs. W. G. Flournoy taught "Enlistment"; and Mrs. Fred McPherson taught the Bible study. Prayer was offered by Mrs. Katherine Shelburne.

Present were eight members including: Mmes. Smith, Flournoy, J. C. Skelton, Shelburne, Doyle Lester, Gene Shelburne, McPherson, and the hostess.

Carrie Sarge Circle.

Six members and one visitor were present at the meeting of Carrie Sarge Circle with Mrs. Walter Wingo, 508 S Loraine. The visitor was Mrs. E. B. Early.

Mrs. Harvey Kiser opened the meeting with prayer.

Mrs. R. C. Frazier brought the devotional and offered prayer.

Mrs. Hoyt Burris taught the lesson from the year book.

The group elected Mrs. Kiser mission study chairman.

Closing prayer was offered by Mrs. Burris.

Members present were: Mmes. Burris, Frazier, Kiser, Dave Bizzell, Joe Roberts, and the hostess.

WMU Sponsors 'Kidnap Breakfast'

The Calvary Baptist WMU sponsored a "kidnap breakfast" at the home of Mrs. Hoyt Burris, 708 S Loraine, Monday morning, proceeds going to the piano fund.

Prize for the most comic "kidnap costume" went to Mrs. Fred McPherson.

Forty women were present.

British Capture Many In Ethiopian Sector

CAIRO, Egypt, March 11—(AP)—A brigade commander, a resident commissioner, their staffs and "many hundreds of additional prisoners" have been captured by British and native forces in deep drives into Ethiopia, British general headquarters declared today.

Imperial forces in Western Ethiopia "have captured the Afadu Escarpment and are now advancing toward Asosa," its communique said, and further east "patriot forces have captured the town of Dambra and are continuing their pursuit of the Italian columns retreating towards Debra-Markos."

Asosa is just inside the Ethiopian frontier from the Anglo-Egyptian Sudan and south of the frontier outposts of Kurruk, where British forces entered Ethiopian soil. Dambra is about midway between British-captured Burie and Debra-Markos in the Gojjam area.

Delegates Arrive To See Fort Worth Show

FORT WORTH, March 11—(AP)—Delegations from six cities and towns arrived in Fort Worth today to celebrate special days at the Southwestern Exposition and Fat Stock Show, now nearing the halfway mark in its 10-day program.

Martial music resounded throughout the downtown area as first the McGregor high school band and then the high school band from Anson led parades of the visitors.

Expected later in the day were delegations from Wichita Falls, Big Spring, Cleburne and Tyler. The latter city was scheduled to bring its 75-piece high school band for a concert in front of the coliseum.

A highlight of the morning program at the Stock Show was dedication of the new \$45,000 swine building, F. I. Dahlberg of College Station, swine superintendent, was master of ceremonies.

Oklahomans Ballot Lightly In Election

OKLAHOMA CITY, March 11—(AP)—Reports from precincts over the state indicated a light vote was being cast today in the special state wide election on the proposals to amend the constitution.

The proposal, sponsored by Governor Leon C. Phillips, would set a limit of \$500,000 on the state debt, establish a coordinating board to regulate curricula and standards of the state's schools of higher education and permit Oklahoma to participate fully in any augmented old age pension program of the federal government by eliminating the current \$30 monthly limit.

HAVE MORE LEISURE TIME this Spring

Springtime is hobby time... tending the garden, painting, sports... Our quick, up-to-date, efficient laundry service not only gives you much more time to spend at your hobby, but enhances it by cleaning hobby-soiled clothes. You'll find spring a much more enjoyable season when the washing and ironing hardships are taken over by us. We call and deliver.

Streamliner "Torpedo" Six Sedan Coupe \$923* (white sidewall tires extra)

A Pontiac tells you all about itself except how little it costs!

YOU DON'T NEED us to tell you what a whale of a car the Pontiac "Torpedo" is. The new Pontiac speaks for itself—and it tells you clearly that a smarter, roomier, sweeter-acting car will be hard to find.

The only time this Pontiac needs our help is when somebody says, "It's too high-priced for me." That's when we go to work, and here's what we tell them:

With all of its size, its beauty, its "expensive" look, Pontiac's prices are so close to the "lowest-priced three" that the difference is only a few dollars per month.

COMFORT. You will never guess from a ride in a Pontiac that it's a low-priced car. Pontiac's perfected "Triple-Cushioned Ride" is conceded to be without equal in any car at any price. You can go on and on in a Pontiac... and step out relaxed and rested at the end of the trip.

SIZE AND LUXURY. Nor will you get any impression of low cost from the roominess and luxury you find inside its handsome body by Fisher. Pontiac is tailored and fitted to compare favorably with the finest cars on the road.

ECONOMY. When you own a Pontiac, however, you realize that it's a tight-fisted miser with gas and oil and remarkably trouble-free in the bargain.

PERFORMANCE. If you plan to buy a new car soon, try this new Pontiac now. You'll learn that way why Pontiac owners are our most enthusiastic cheer leaders. And remember, if you can afford any new car you can afford a new Pontiac!

Pontiac
THE FINE CAR WITH THE LOW PRICE

PONTIAC PRICES BEGIN AT **\$828** FOR THE DELUXE "TORPEDO" SIX BUSINESS COUPE

By Wm. E. McKenney
America's Card Authority

The World Bridge Olympic, which will be held this year on Thursday, April 17, is proving more popular each year with the masses of players, for this reason—ordinarily, in a set of 16 hands, you would find only one or two interesting ones, but because these 16 hands are selected by a committee, every one has action.

Last year Hand No. 9 proved interesting to a player in Trinidad. The correct contract was four spades by North, which could be defeated if West was smart enough to hold up his ace of hearts when South led a heart; but our friend in Trinidad got himself into the peculiar contract of four hearts in the East.

A spade was opened and trumped. My correspondent writes: "I reasoned that the Olympic committee had selected this hand because it required some kind of a strip and endplay. So I knocked out both the minor aces. South was kind enough to force me to ruff two spades."

"I was successful in getting three rounds of both minor suits out of the way. This left dummy with four trumps, while I had two trumps and a good club and a good diamond.

"Now I woke up to the fact that even if North held the king and queen of hearts, he would always be able to exit with his fourth card. However, I led the thirteenth diamond. South, trying to give his eight of hearts some value, trumped, and dummy over-trumped with the ten-spot.

Shorthorn Breeders Re-Name All Officers

FORT WORTH, March 11—(AP)—All officers of the Texas Shorthorn Breeders Association were re-elected at the annual banquet of the organization last night. W. E. Peterson of Justin is president; John P. Impson of Beeville, vice president, and J. D. Miller of De Leon, secretary-treasurer.

GENERAL WILL VISIT WINDSORS IN BAHAMAS

VER CRUZ, Mexico, March 11—(AP)—General Maximino Avila Camacho, both of Mexico's Chief Executive will visit today for Havana on the Ward Liner Monterey. He arrived last night by train from Mexico City, accompanied by several friends and members of his family.

The general planned to go to the Bahama Islands for an unofficial visit with the Duke and Duchess of Windsor.

Thomas Jefferson, author of the Declaration of Independence, was born April 13, 1743.

First Trainees At Camp Wolters

MINERAL WELLS, March 11—(AP)—Eleven-million dollar Camp Wolters, largest of the army's four infantry replacement centers, knuckles down to the real business of national defense today with arrival of its first class of selective service trainees.

Before noon, officers predicted, the initial detachment of 181 selectees from the reception center at Fort Sill, Okla., will shoulder their rifles and go to drilling.

They will retrain at 7 a. m. (CST). A second group, 800 white trainees from Illinois, are tentatively scheduled to reach Camp Wolters later in the day.

Headed For Infantry
Approximately 8,000 in all will

MINES STUDENT VISITS HERE FOR WEEK-END

T. A. Frazier, student in the College of Mines at El Paso, spent the week-end here with his mother, Mrs. L. P. Boone. A surprise party honored him on his arrival Friday evening.

He received here before March 20. Ultimately 64,000 men a year will be processed. As rapidly as they complete the basic 18-week course, they will be reassigned to infantry units as needed throughout the country.

Utilizing a guinea pig crew selected from the skeleton forces that have been on hand here for several weeks, under command of Col. Fay W. Brabson, a dry run or dress rehearsal of the reception schedule has already been held. Officers said not a minute would be lost in getting down to work.

Oil News . . .

(Continued From Page One)

George P. Livermore, Inc. No. 1 Ombay, discovery well in South-eastern Youkum County, flowed 121 barrels of new oil through casing in 24 hours, with gas-volume of 2,363,000 cubic feet. Operators now have shut in the well pending decision to deepen or complete at present depth of 5,294 feet. Tubing and packer have been pulled, and machine has been rigged up for deepening.

Seeking northward spread of the Cochran County side of the Slaughter pool, Magnolia staked No. 4 F. L. Woodley 580 feet out of the northeast corner of lot 1, league 57, Oldham County school land. It is 1,285.8 feet north of No. 3 Woodley, new producer which will be given official gauge tomorrow.

French Officials And Thailand End Frontier Dispute

TOKYO, March 11—(AP)—Thailand and French Indo-China signed a Japanese-sponsored peace agreement today, ending their border dispute and giving Thailand parts of Cambodia and Laos embracing some of Indo-China's richest rice producing areas.

Diplomatic circles expressed belief Japan already had received assurances that she could purchase the total rice crop and timber output in the ceded areas. Japan is short in both products.

It was understood Thailand would acquire some 25,000 square miles of

territory, which is somewhat short of the concessions she claimed. The agreement, signed in a ceremony at the official residence of Japanese Premier Prince Fumimaro Konoye, marked Japan's first successful task of mediation undertaken in her proclaimed role of leader of a sphere of influence in Greater East Asia.

Provides Boundary Group
The pact provided for a boundary demarcation committee to work out details of a new frontier which would return to Thailand the Paklay district of Laos and one-fourth of Cambodia.

That represented some last-minute concessions by the French, but fell far short of Thailand's original demand for approximately one-third of all Laos and Cambodia provinces.

The men who signed the pact after 40 days of conferences gave little sign of their feelings. None

Secretary Knox Leaves By Airplane For Corpus

NEW ORLEANS, La., March 11—(AP)—Secretary of the Navy Knox left here at 12:46 p. m. in an army transport plane for Corpus Christi, Tex., where he is to attend the commissioning of the new naval air training base there tomorrow. The trip was expected to take about two and one-half hours.

The French representatives were particularly stern-faced. Approximately 40 representatives of Indo-China, Thailand and Japan and newspaper men were the only witnesses to the brief, austere ceremony in the premier's ballroom.

When the last signature was affixed, Foreign Minister Yosuke Matsuoka declared:

"By this signature, friendly relations between France and Thailand have been restored x x x"

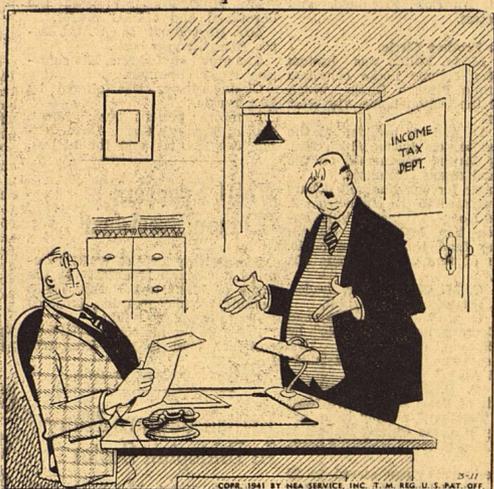

MIDLAND GROUP TO FORT WORTH

Leaving today for Fort Worth were Mrs. H. D. Bruce, Mrs. J. M. White, Mrs. R. O. Collins, and Mrs. Fred McPherson. They will attend the state Baptist WMU board meeting at the Theological Seminary to be held on Wednesday and Thursday. The party will return Thursday night.

Congratulations to:

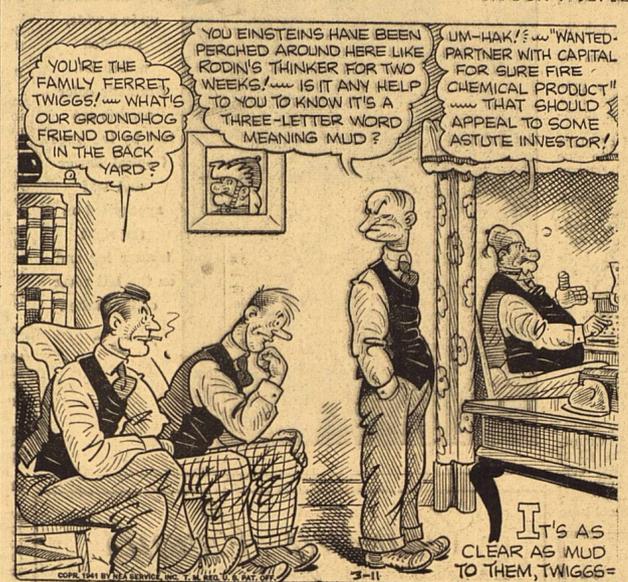

Mr. and Mrs. L. B. Gardner on the birth of a daughter last night at Ryan Hospital.

Answers To Cranium Crackers

Questions on page two

1. Destroyers (36 knots) are faster vessels than both cruisers (32 knots) and battleships (21-28 knots). Battleships, with heaviest guns and armor, run slowest for they are designed to stand and fight, not to chase.

2. Battleships are named after states (Pennsylvania, Texas, etc.) while cruisers are generally named after cities (Chicago, Tuscaloosa, etc.).

3. The 35,000-ton battleship North Carolina is scheduled for commissioning early in April.

4. Fleet chiefs are: Pacific and whole U. S. fleet, Admiral H. E. Kimmel; Atlantic Fleet, Rear Admiral E. J. King; Asiatic Fleet, Admiral T. C. Hart.

5. The British battleship King George V anchored near Annapolis recently when it brought Lord Halifax to U. S. as new British ambassador.

Candidates Deadline Leaves Four Seeking City Council Places

M. C. Ulmer, seeking re-election as mayor of Midland, and Ralph Barron, D. H. Roettger, and Tom Sealy, candidates for councilmen, will be unopposed in the city election April 1.

Yesterday was the deadline for filing candidacies, City Secretary J. C. Hudman, said. No other candidacies were filed.

Ulmer would enter his fourth full term as mayor April 1. He has been in that office three and one-half terms since April of 1934 when he was chosen to serve out the unexpired term of Leon Goodman, who resigned.

Barron has served continuously on the council since April 1929. Roettger has been a councilman since April of 1934, and Sealy is seeking re-election to his second term.

Barron is candidate for place one on the council; Roettger place two; and Sealy place three. Ballots are being printed.

Houston Bank Head To Talk On Factory

Roy C. Davis, of Houston, president of the Houston Bank of Co-Operatives, will speak to Midland County dairymen, farmers, and citizens, here at 8 p. m. Thursday in the county courtroom.

Davis will discuss the feasibility of establishing a cheese factory in Midland.

SERIAL STORY

DOLLARS TO DOUGHNUTS

BY EDITH ELLINGTON

Copyright, 1941, NEA Service, Inc.

All characters, incidents and organizations in this serial are entirely fictitious.

YESTERDAY: Beatrice Huntington Davenport, rich, bored, heiress to the Huntington department store millions, is furious because her guardian, old Mr. Weeming, refuses to honor her check paying for a string of polo ponies. The polo ponies are for Clarence, suave continental nobleman, frankly a fortune hunter, to whom Beatrice has recently become engaged. As a friend and associate of her grandfather, who started Huntington's, Mr. Weeming warns Beatrice that her money may soon disappear if she continues this mad spending. She demands action on the check, leaves. At the door, however, she hears a young, masculine voice addressing Mr. Weeming: "That girl's the world's most useless object. She should be quietly chloroformed."

CHAPTER II

AS she stood there, trembling on her tall lucite heels, the mink coat suddenly too warm around her, Beatrice Huntington Davenport knew a swift and devastating fury. She wanted to go in there and tear that unknown young man's eyes out! She wanted to slap him, hard, across his hateful, smug face.

She wanted to scream, "Who do you think you are, saying that I should be chloroformed? What do you know about me? Is it my fault my grandfather left me millions? Is it my fault that the money breeds envy everywhere I go? I didn't earn it, no. Perhaps I don't deserve it. But just having it doesn't make me bad, black and inhuman!"

"You think I'm stupid and arrogant and conceited. I'm not. I'd like to work with my mind, my brain. You don't know how I've tried, sometimes, to do something—find a something—worthwhile. They laugh at me! Even Mr. Weeming laughs!"

"I'm a prisoner, that's what I am. Grandfather's millions—the life he brought me up to live—keep me locked up in a little world. I hate it. I'm bored, do you hear? I've known that a long time but I never knew, until I heard you, how bitter it is."

"What else will there ever be? What else will I have? What am I living for? Where are the thrills, the satisfactions, the contentment they talk about and write about in books? Where's the love—the ecstatic, passionate, soul-lifting love—I see in movies, read of, dream of?"

The impulse to rush in there and confront the owner of that scornful voice died inside her. Her anger went with it, and now there was only the fear. She felt lost and helpless and suddenly she thought, "I hate him for making me look at my life! I hate him for tearing away the little pieces of camouflage I've managed to hide in..."

She turned, and peered through the narrow crack of the opened door. "I hate him!" It was as if she had to see him—had to transfer this hatred to some concrete image.

All she could see was a broad, gray back, sitting in the chair she had vacated. A brown hand rested on the arm of the chair—a big hand, with strong, blunt fingers. And above the wide gray shoulders she saw a tanned neck and a well-shaped head with dark hair.

Fiercely her gloved hands curled into fists. "I'll see you again, you—chloroformer, you!" she promised him silently. "I'll see you again and I'll make you eat that chloroform!"

BUT she was almost herself again when she walked into the lobby of the Regique. Clarence moved toward her from the discreetly lighted lounge.

"Carol!" he whispered. "You are weary, no? Come, we shall have a drink." His black eyes were tenderly solicitous, his hand on her arm gentle.

She thought, "How shrewd Clarence is! How well he understands me. He knows so much about women..."

Over her glass she asked him, "Do you understand everything about me, Clarence? Just everything? Or only when I'm tired or not tired?"

He made a little gesture. "Who can understand a woman, Beatrice? I try. I study you. I love you so, and want always to please you..."

"You mean, you want always to be able to read me. So that you won't ask me for something at the wrong moment. So that, at the right moments, you can wind me around your finger?" She was thinking out loud. There was no resentment in her tone, it was merely an appraisal.

Clarence was in love with her. He had to be, to have given up Mimi Frothingham who had just as much money and would have been easier to manage. In a way, Clarence was amazingly perceptive. She twirled the slim glass in her fingers. "Clarence," she said softly, "Clarence, suppose I told you I'm unhappy, bored, restless. What would you say?"

"See?" The black eyes glowed, and his hands reached for hers. "I would say my little bird needs relaxation, happiness, new scenes, love, tenderness. In short, Beatrice, I would say that it is time for the honeymoon!"

SHE drew her hands away. "But I don't want to get married just yet, Clarence. I—I can't really see that it's going to be any different after we're married. Except for the house at Westbury, of course. But that—"

She dropped her eyes. A sharp little ache of disappointment stung her. Almost, she had hoped that beneath Clarence's flattery and lovelaking—beneath the polished manners, the amusing little tricks—she would find some depth to comfort her—some sympathy that would warm her, something real and strong to evoke response.

"Clarence," she said lightly at last. "It's the same old trouble. Tired business men have it with

"Clarence," she said softly. "Suppose I told you I'm unhappy, bored, restless. What would you say?"
"Ah, carissima." The black eyes glowed. "I would say it is time for a honeymoon."

once is! How well he understands me. He knows so much about women..."

"Clarence," she said lightly at last. "It's the same old trouble. Tired business men have it with

their wives, darling, and rich girls like me have it with their fiancés. You don't understand me!"

"Ah! A moment ago, you thought I understood, all too well..."

"Let's leave it," she said.

BUT somehow, it could not be left. Even while they sat together in her car, and Jenkins drove to the club where Clarence lived, it nagged at her. At last she burst out, "Clarence, I think I'll go in for good works. Those social workers have always taken my checks but never let me do anything. I'm going to fix that! I want to do something! It's the people who work who always seem to be so happy..."

"Work to do in the world?" he scoffed. "Ah, love, it's not the people who work who seem so happy. It is only the people who are not happy who, looking at other people, think they are happy. You must know, to a girl in a five-and-ten-cent store, you appear to be the happiest creature in the world."

"I wish I were a girl in a five-and-ten-cent store!" she cried. "I'd live. I'd worry. I'd fall in love—I'd have some real feelings, some real emotions!"

"You are having some real emotions now," said Clarence, very softly. "Of course, you want to live! His arms reached for her, and he held her tight. "With me, you shall live. I shall teach you what life is, Beatrice. I love you. I love these little hands and your bright hair and your bad little temper..."

He put a finger under her chin and lifted her face until her eyes met his. There was a fire in his eyes, a dark and burning look that could not be false. Yes, he loved her. That much was true.

"Kiss me, little Beatrice. Kiss me and then dare to say you cannot have a real emotion!"

Afterward, he did not let her go. His lips against her hair, his voice husky with feeling, he said, "No more running away, Beatrice. Next week, we shall be married." (To Be Continued)

Brookfield Leads West Texas State To Scoring Record As Team Defeats Dubuque In Kansas City Tournament

By Harold Claassen.
KANSAS CITY, March 11—(AP)—The National Intercollegiate Basketball Tournament lost a champion but gained a scoring record and a new favorite in the opening half of the first round.

Tarkio, Mo., college, whose black-shirted warriors raced to the 1940 crown, was eliminated last night by St. Mary's College of Winona, Minn., 38 to 28, after the Missouri school's drum and bugle corps played "taps" during the halftime rest period.

Price Brookfield, West Texas State forward, carried his towering mark to the scoring mark in the Buffalo's 77 to 39 triumph over averaged sized University of Dubuque, Ia., club. Brookfield dunked in 30 points.

The old tourney mark was 73, set by Glenville, Va., State at the expense of the 1939 Peru, Neb., Teachers. The Texas giants are the No. 1 choices to replace Tarkio.

But should they falter another team from the Lone Star state, Texas Wesleyan of Fort Worth would become the favorite. The Rams, unbeaten in 22 games before coming here, won 71 to 62 over Evansville, Ind. college, a quintet that was expected to go far on the exploits of Wilford (Gus) Doerner, the one-man-team.

Doerner did pump in 27 points but it wasn't enough.

The Fort Worth team displayed two aces in Capt. Hazen Ward, deft forward, and Cullen Walsh, a reach-headed Irish guard and center. Each got 11 points.

Although they now represent a small school from a big city, both competed for men smaller high schools. Ward leads from Ames, Texas, which has a population of 18. Walsh is from Jonesboro whose business district is made up of a combination filling-station-grocery store-postoffice building.

Today's 12-hour schedule completes the first round and makes possible the appearance of such top flight quintets as the University of Baltimore; San Diego, Calif. State, finalist on both its previous visits; Pittsburgh, Kas. Teachers, and the Stephen F. Austin Teachers, another of the Texas entries.

John Tarleton Gets Tie In Cage Tourney

STEPHENVILLE, March 11—(AP)—By whipping Tyler 40-34 here last night John Tarleton gained a tie with Lee College of Gause Creek in the playoff for the State Junior College Conference basketball title.

Both will be played at Tyler. Lee will meet Tyler there tomorrow and Tarleton plays Tyler March 15. If Tyler wins both games the playoff will go into a three-way tie.

REAR SEAT DRIVER ARRESTED

PHOENIX, Ariz. — (UP) — Pierce Alexander, 37, was sitting in the rear seat of an automobile, teaching a friend to drive. Up came a policeman and haled him into court on a charge of reckless driving. The driving friend was arrested.

ELK HUNTER BAGS OLD-TIMER

BUTTE, Mont. — (UP) — The "grand-daddy" of the Mount Fleece herd of elk here has been brought down, revealing the fact that its number tag was 435, which meant that the elk had been tagged in 1910.

Golden Gloves Bouts Represent Manly Art Of Modified Murder

By Bill Boni
NEW YORK, March 11—(AP)—Boxing has been called the manly art of self defense. Golden Gloves learn more towards the manly art of modified murder, and that's what makes their shows such fun.

Some day some of these lads competing at Madison Square Garden tonight and tomorrow for the right to battle the midwest's best may develop into professional champions. Joe Louis and Melio Bettina, former lightweight champ, are ex-Golden Gloves examples who come to mind.

One kid from Huntington, W. Va., talked himself into a frenzy before the start of each round last night. During the round he made ferocious faces (and also landed some terrific punches). Yet when it was all over he grinned as broadly as the next one and ran over to shake hands with the boy he'd licked.

Boys are Proud
Some of them are proud of their ability. Cirvey Kinsey, a Trenton, (N. J.) boy, knocked his man cold in the second round. "Lucky," yelled a heckler as Kinsey stepped down out of the ring. "Lucky, hey," the boy called back. "That was skill."

Some of them are disappointed when they win too easily. Eddie Saunders, 147-pounder on the team of the host New York Daily News, belted out a kid from Virginia in 1:31 of the first round. Eddie was disgusted when he returned to his corner.

"Is that all there is to the bout?" he asked his seconds.

Pistol Matches Open In Florida

TAMPA, Fla., March 11—(AP)—Hot lead flew today with the opening of the 10th annual National Mid-Winter Pistol tournament, second only to the Camp Perry matches in number of contestants.

Most of last year's winners were back to defend their titles in all but one of the opening day's events.

Champions seeking to repeat were Loyce McCasland, Texas Highway Patrol, in the 22 caliber slow fire; Jesse N. Woody, Stanton, Texas, 22 caliber rapid-fire competition; and Arvid Anderson, U. S. treasury department sharpshooter from Minneapolis, 22 caliber national match course shoot.

Charles Askins of Texas will not defend his laurels in the Bausch and Lomb trophy match, 40 shots slow fire at 50 yards with any caliber gun.

Many state police patrol and federal law enforcement and military units were represented, as well as Mexico, Cuba and Salvador.

Landis Is Likely To See Most Anything At Dodgers Quarters

By Sed Feder
HAVANA, March 11—(AP)—This is just a friendly tip to Baseball Commissioner Landis:

You'd better tie a chain strap on that Fedora if you're planning to drop over and see the Brooklyn Dodgers train. Because when you get one look at the ways the boys and girls hereabouts have thought up to bet on the pure sport of baseball, that famous skypiece is liable to pop right off your head.

They'll bet the family jewels—or Una Peseta, anyway—on anything. They'll start with such simple things as the next pitch or whether a man on base will score. From there they go on to whether the next batter will take two and hit to left, or whether Ducky Medwick will come up with a brown or white bat, or no bat at all.

All during the game, bookmakers run up and down the aisles quoting prices, not only on who's going to win, but also on the color of Larry MacPhail's sports jacket creation.

The "pools" are something special. Before the game the odds-layers are around selling slips, each of which has the name of a diamond position, pitcher excepted, printed on it. These sell for a dime up. The fellow who buys the slip on the player scoring the first run picks up the marbles at odds of 7 to 1.

Hereford Association Names Brook President

FORT WORTH, March 11—(AP)—James M. Brook of Brady, Texas, was re-elected president of the Texas Hereford Association at a meeting of the organization here yesterday. All directors were renominated.

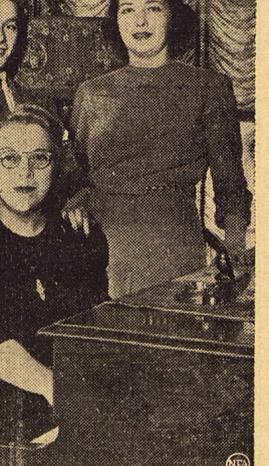

Three Citizens Of Monahans Announce Mayor Candidacies

MONAHANS, March 11—(Special)—Three persons have announced candidacies for the office of mayor of Monahans in the April 1 election, and two candidates are entered in the races for city secretary and city attorney. No announcements have been made for the two city council posts open this year.

Mayor Elmer Hill, Councilman Jimmie Terrell, and Ed Duffey announced candidacies for mayor, and Incumbent Ilda Vernon and Mrs. Earl Estes announced for city secretary. Earl Earp, city attorney, is opposed for that office by R. B. Rawlins.

Council posts to be filled are those of Terrell and Ira Hudler. Hudler is filling the unexpired term of J. Conrad Dunagan, who moved to Dallas several months ago.

First Family of the White Sox

Control of the Chicago White Sox is back in the hands of the Comiskey family with election of Mrs. Grace Reidy Comiskey, in foreground above, as first woman club president in the history of the American League. Her daughters, Gracie Lou, rear left, and Dorothy, were named trustees. Dorothy is also club treasurer. Charles II, now 15, is expected to become part owner when he reaches 21. Presidency of the White Sox has been vacant since the death of Mrs. Comiskey's husband, J. Louis Comiskey, in July, 1939.

Sports Roundup

By Eddie Brietz
NEW YORK, March 11—(AP)—War correspondents with the Doggers report one of Col. Bastista's gendarmes stood guard outside Van Mungo's room Sunday night.

Hot lead flew today with the opening of the 10th annual National Mid-Winter Pistol tournament, second only to the Camp Perry matches in number of contestants.

Champions seeking to repeat were Loyce McCasland, Texas Highway Patrol, in the 22 caliber slow fire; Jesse N. Woody, Stanton, Texas, 22 caliber rapid-fire competition; and Arvid Anderson, U. S. treasury department sharpshooter from Minneapolis, 22 caliber national match course shoot.

Charles Askins of Texas will not defend his laurels in the Bausch and Lomb trophy match, 40 shots slow fire at 50 yards with any caliber gun.

Many state police patrol and federal law enforcement and military units were represented, as well as Mexico, Cuba and Salvador.

Landis Is Likely To See Most Anything At Dodgers Quarters

By Sed Feder
HAVANA, March 11—(AP)—This is just a friendly tip to Baseball Commissioner Landis:

You'd better tie a chain strap on that Fedora if you're planning to drop over and see the Brooklyn Dodgers train. Because when you get one look at the ways the boys and girls hereabouts have thought up to bet on the pure sport of baseball, that famous skypiece is liable to pop right off your head.

They'll bet the family jewels—or Una Peseta, anyway—on anything. They'll start with such simple things as the next pitch or whether a man on base will score. From there they go on to whether the next batter will take two and hit to left, or whether Ducky Medwick will come up with a brown or white bat, or no bat at all.

All during the game, bookmakers run up and down the aisles quoting prices, not only on who's going to win, but also on the color of Larry MacPhail's sports jacket creation.

The "pools" are something special. Before the game the odds-layers are around selling slips, each of which has the name of a diamond position, pitcher excepted, printed on it. These sell for a dime up. The fellow who buys the slip on the player scoring the first run picks up the marbles at odds of 7 to 1.

Hereford Association Names Brook President

FORT WORTH, March 11—(AP)—James M. Brook of Brady, Texas, was re-elected president of the Texas Hereford Association at a meeting of the organization here yesterday. All directors were renominated.

Three Citizens Of Monahans Announce Mayor Candidacies

MONAHANS, March 11—(Special)—Three persons have announced candidacies for the office of mayor of Monahans in the April 1 election, and two candidates are entered in the races for city secretary and city attorney. No announcements have been made for the two city council posts open this year.

Mayor Elmer Hill, Councilman Jimmie Terrell, and Ed Duffey announced candidacies for mayor, and Incumbent Ilda Vernon and Mrs. Earl Estes announced for city secretary. Earl Earp, city attorney, is opposed for that office by R. B. Rawlins.

Council posts to be filled are those of Terrell and Ira Hudler. Hudler is filling the unexpired term of J. Conrad Dunagan, who moved to Dallas several months ago.

Yankee Manager Uses Big Words To Laud Rookies

By Gayle Talbot
ST. PETERSBURG, March 11—(AP)—Joe McCarthy is not a man who enthuses easily about a new ball player, because he has handled Babe Ruth and Lou Gehrig and Joe Dimaggio and has been surfeited with baseball success as manager of the New York Yankees.

So it was a little short of amazing to sit on the bench with him and hear him rave about the two youngsters out on the field—Shortstop Phil Rizzuto and Second Baseman Gerald Priddy. Either Joe is softening up or these two really are something special. As practically everybody knows, they came up from Kansas City together this spring.

"If you want to see something pretty, just watch them," he said with something akin to parental pride. "Look at that Rizzuto. How can he miss being popular. He's little but he's strong as a bull—great arms and hands. Just sit here and watch him and Priddy handle that ball."

"The beauty of it is that if I didn't have either one of them I'd still have the same club I had last year, and we finished third with the poorest hitting in the American League most of the year and with no pitching to speak of from either Monte Pearson or Lefty Gomez.

"We'll be stronger if even one of these new pitchers come through, and I never saw a greater bunch of prospects. There's a half dozen of them with great records in double A company at Kansas City and Newark. They've all got fast balls and know how to pitch."

"Who is that playing first base—Zeke Bonura?" interrupted a heckler. He got a wintry stare from McCarthy.

"That," said Joe, "is Joe Gordon, and he is plenty of first baseman too. Maybe he's got a few little things to learn about playing first, but it won't take him long—not that boy. All he's got to learn is how to handle his feet, and that's easy for him. He used to be an acrobat."

"There are a lot of silly ideas about players not being able to shift from one position to another, anyway. Gordon was great on second and he'll be as good on first. I told everybody last spring that Hank Greenberg would be a great outfielder when they shifted him from first, and I won't be surprised if Harry Danning makes the Giants a good outfielder."

Hargrave Announces Basketball Lettermen

Coach W. N. Hargrave announced nine basket ball lettermen of the Midland junior high Bulpup team. H. G. Bedford, Jr. was chosen captain.

Cagers, who earned letters and who will receive sweaters are: Bedford, Jimmie Watson, Bill Richards, John Larsh, Hubert Drake, Bobby Conking, Copper Daugherty, Guy Tom Cowden, and Bobby Hyatt.

Wilson And Oliver To Arrange '49-er' Party

Jimmy Wilson and Don Oliver, committeemen of the Junior Chamber of Commerce, will plan a "49-er" party March 21 at the Log Cabin.

Curt Inman, Jaycee president, said today Oliver and Wilson were to be in charge of the event. The party will initiate a drive for memberships.

The organization plans a burlesque show at the Yucca Theatre March 27.

Stocks

NEW YORK, March 11—(AP)—Closing price of the fifteen most active stocks today:

NY Shipbuilding	28
Anaconda	24 5/8

Stock List Pushes Up Fractions, Then Drops

NEW YORK, March 11—(AP)—The stock market seemingly shot away most of its buying ammunition in yesterday's sharp rally for most leaders today were unable to extend the upswing.

The list pushed up fractions at a fast opening. Prices then began to fade and volume dwindled.

After midday dealings slowed appreciably and transfers for the full proceedings were around 500,000 shares.

Stocks tending to shift into reverse gear included U. S. Steel, Bethlehem, Chrysler, General Motors, Sears Roebuck, Douglas Aircraft, United Aircraft, Anaconda, American Smelting, Westinghouse, Santa Fe and Chesapeake & Ohio.

New School Head Of Midland Visits Here

George Heath, of White Deer, superintendent-elect of Midland public schools, in a visitor in the city.

PREDICTS PASSAGE FOR CAMACHO'S LEGISLATION

MEXICO CITY, March 11—(AP)—Deputy Ismael Lozano, secretary of the permanent commission of congress, today expressed the opinion the special session would approve all legislation submitted by President Avila Camacho and adjourn before the end of the week.

C. Of C. Directors Endorse Show Plans
Endorsement of the Midland County 4-H Club Show and Sale here March 26-27, and the second annual Dairy Day here, May 23, and assurance of full support and cooperation in both attractions was voted by the board of directors of the Midland Chamber of Commerce at its monthly meeting last night.

A committee composed of P. A. Nelson, chairman, W. B. Simpson, John B. Mills, R. L. Miller and J. C. Miles was named by President James N. Allison to arrange financing of the two events.

Another committee was named to have a number of bidders attend the sale of the 4-H Club stock on March 27. The committee is composed of J. C. Smith, chairman, O. W. Stice, T. R. Wilson, H. M. McReynolds and T. Paul Barron.

Directors also endorsed the plan of the conventions committee, H. F. Cox and John P. Butler, co-chairmen, in attempting to obtain for Midland the 1942 convention of the West Texas Chamber of Commerce. Plans for handling the large convention, should it be brought to Midland, were discussed. Members of the board assured the committee of full cooperation.

Reports were made concerning activities of various standing committees.

Welfare Committee Will Meet Wednesday

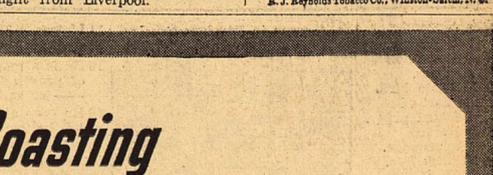

Members of the welfare committee of the Midland Chamber of Commerce, with Dr. John B. Thomas, chairman, will meet at the organization's office at 2 p. m. Wednesday.

Committee members are Thomas, Mrs. J. A. Haley, Mrs. N. A. Lancaster, the Rev. John O'Connell, Dr. L. B. Pemberton, the Rev. John E. Pickering, Mrs. Phil Schaubauer, Miss Josephine Skeen, Mrs. J. W. Christian, J. C. Roberts, and W. I. Pratt.

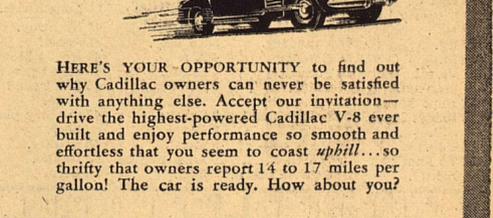

BRITISH SHIP TO TAKE ASPHALT FROM MEXICO

TAMPICO, Mexico, March 11—(AP)—The 1,500-ton armed British merchantman "Forreback" was in port today to load 4,000 tons of asphalt for England. It arrived last night from Liverpool.

Cox Appliance Co. Holds Electrolux Records For Sales

The Cox Appliance Company of Midland has led in sales of Servel Electrolux refrigerators four out of five years in a 28-county district. The appliance company, organized in 1936-37 maintains two stores, one in Midland at 101 South Main and a branch in Odessa, M. D. Cox is manager of both units. W. M. Hester operates the Odessa store. Cox Appliance has just unloaded a carload of 60 Servel Electrolux refrigerators. This is the fourth carload received within a year, Cox said. The equivalent of two more carloads have been sold here.

Steady Growth
The company was organized in 1936-37. It has grown steadily to the point where refrigerators are ordered by the carload. Three salesmen and three service men work from the Midland store.

Cox maintains installation service departments. It also sells Roper ranges and Zenith radios.

The Servel Electrolux—the refrigerator runs on natural gas, butane, or kerosene. In its freezing

Fifty Years Tooting For Mill Whistle Ends

FORSTORIA, O.—(UP)—Residents of this area soon will have to find a new means of learning the time and getting the weather reports. The old Harter mill whistle is to be silenced.

The whistle has been used for nearly 50 years to signal time and weather conditions to the countryside through a code system of shrill blasts, but steam boilers at the mill are to be replaced by electrical equipment making it impossible to operate the whistle.

A tiny little flame is the motive power that keeps the refrigerant circulating, or in other words, keeps the freezing system at work, freezing ice, chilling and preserving foods, making frozen salads and desserts, crispening up vegetables and fruits.

With no moving parts, there is nothing to make any noise whatever.

New 1941 models of Servel Electrolux offer an increase in the ice-freezing compartment of from 39 to 42 per cent.

Students' Fund Keeps Mongrel Pup In Luxury

BATON ROUGE, La.—(UP)—"Oscar the Pooch" is living in the lap of luxury from the proceeds of a trust fund set up by Louisiana State University students.

The pup, mostly fox terrier, was run over by a motorist. It hobbled to the side of the street and was found by Miss Maureen Lawrence, a student from Los Angeles.

Miss Lawrence rushed the pup to a veterinarian, and the injuries were diagnosed as not serious. Later, the students set up a trust fund for Oscar until a good home is provided.

QUEBEC REGISTERS FIREARMS

MONTREAL (UP)—Enough rifles, shotguns, revolvers and automatics to equip a well-sized army have been registered by citizens of Quebec province. Police director Marcel Gobeury estimated the number at 350,000, with many applications yet to be made.

Cooking Expert For School Here

Miss Mary Alice Crosson, home economics expert, will conduct The Reporter-Telegram's three-day cooking school at the Yucca Theatre which starts at 9:30 a. m. tomorrow. Sessions also will be held Thursday and Friday mornings.

Miss Crosson To Hold Three-Day Session For Midland Housewives

Archaeologist Believes Papoose Idea Healthful

POCATELLO, Ida.—(UP)—A New York archaeologist who studied tribal customs of the Shoshone-Bannock Indians near Pocatello in 1937 has decided the so-called savages know best when it comes to rearing a child.

Dr. Charlton G. Laird, a professor at the University of Idaho, South, received a letter from Godfrey J. Olsen, the archaeologist, who lives at Danskammer Point, N. Y.

Olsen said he was convinced the Indian system of carrying their papooses on "boards" was sound, both from health standpoint and for practical purposes.

VIOLIN CASE AS TOOL KIT

CAMP FUNSTON, Kas.—(UP)—Hundreds of workers unqualified for the jobs they seek are drawn here by the prospect of profitable wages on the extensive defense contracts. One job seeker carried his tools—two saws, a hammer and a rule in an old violin case.

FATIGUE OF IDLENESS GROWS

CAMBRIDGE, Mass.—(UP)—Dr. David B. Dill of Harvard University's fatigue laboratory says "fatigue of idleness" is responsible for numerous military service rejections. He recommends walking or participation in sports as a means of preventing fatigue.

WELLESLEY PREPARES DRAMA

WELLESLEY, Mass.—(UP)—Complete dramas, staged and produced for an average \$10 cost, are being developed by Wellesley College students in an effort to create inexpensive army camp entertainment.

The Reporter-Telegram Brings Home Economics Expert For Daily Sessions At Yucca Theatre Emphasizing Preparation Of Everyday Foods

Those vexing questions which face every homemaker such as "How shall I make every-day foods attractive and delicious?" "What shall I have for dinner?" "How may I use left-overs?" will be discussed in The Reporter-Telegram's three-day cooking school which opens Wednesday at the Yucca Theatre.

The cooking expert who will answer these and other questions is Miss Mary Alice Crosson, home economics graduate and former newspaperwoman.

Miss Crosson will conduct the school sessions at 9:30 o'clock on Wednesday, Thursday and Friday mornings. All Midland women are invited to attend and a balcony section will be reserved for maids. Each session will occupy about two hours, which will allow those attending to be home for lunch at noon. Gifts will be distributed.

Miss Crosson conducts her cooking schools informally. Anyone is privileged to ask questions during the demonstrations. For the sake of time-economy, she has all ingredients for the various dishes measured before the cook hour starts and merely has to mix and cook them during the demonstration.

One day she will discuss cake baking at this altitude. She has made a study of this problem and during the four years she has been in Texas has made more than 1000 cakes. One of the principles which she lays down as essential to the making of "melt-in-your-mouth" cakes is that shortening and sugar should be in ratio to the amount of flour used.

She debunks the old theory that some one walking heavily across the floor or talking loudly will cause a cake to fall.

Another thing that she will present will concern the basic facts of food and the doing-away with such food fads as the belief that milk and fish are injurious when eaten together.

She will stress the cooking of meats according to cut and will show how the less tender cuts of meat may be prepared so that they will be tender and good for eating.

The buying of foods which are in season will be shown as a way to economy in purchasing.

Cooking and attractive serving in everyday foods will be the cornerstone of her series of lectures, with emphasis laid upon oven meals and broiler meals as saving time and energy.

In her opening lecture tomorrow morning she will prepare an oven meal consisting of: Rolled flank steak, stuffed green peppers, buttered rice, and apple crisp pudding.

In addition, she will make: Bacon and chopped beef grill, sausage and vegetable grill, broiled apple rings, frozen fruit salad, Spanish chocolate cake, chocolate frosting, and broiled chicken.

At The Reporter-Telegram COOKING SCHOOL Yucca Theatre

YOU'LL SAVE WORK, FOOD, MONEY WITH THIS MODERN REFRIGERATOR FOR HOMES ANYWHERE

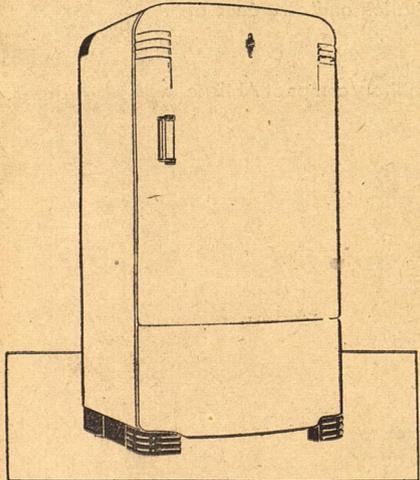

Mrs. J. L. HUNDLE of MIDLAND says:

I have had my SERVEL ELECTROLUX for six years and I was the first to buy one of the new kind in this county.

I can keep all my milk and butter fresh at all times and can keep my supply of vegetables fresh for weeks.

The cost of operation is very little compared with electric refrigeration and I haven't been out a penny yet for repairs. I also like it because it doesn't make any noise. If I had to part with all my furniture, my ELECTROLUX would be the last to go because we are all so proud of it.

Moist cold to keep vegetables, crisp, garden-fresh.

Dry or moist cold storage—and a variety of moistures in between.

- NO MOVING PARTS TO WEAR in its freezing system
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- MORE YEARS OF DEPENDABLE SERVICE
- SAVINGS THAT PAY FOR IT

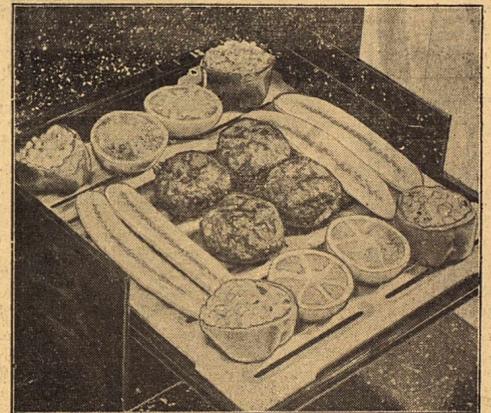

Operates on... BUTANE, BOTTLED GAS, KEROSENE—AS WELL AS NATURAL GAS

The only automatic refrigerator backed by a 10-year guarantee

West Texas Gas Co.

Crustene Shortening Will Be Featured At Big Cooking School

Miss Mary Alice Crosson, well known home economist and lecturer, who is conducting the three-day cooking school of The Midland Reporter-Telegram on March 12, 13, 14, has selected Creamy Crustene Shortening for use in her cooking demonstrations.

Miss Crosson has said, "I have used Crustene in so many of my cooking demonstrations that I feel that it is an old friend ready to help me with all my baking. Its snowy whiteness symbolizes its purity, and since it is carefully and scientifically pre-creamed, it mixes so easily with all the other ingredients that it takes most of the work out of cake-baking and pie-making."

Creamy Crustene is an all-purpose shortening, made entirely from choice vegetable oil. Whether the homemaker wants better textured cakes, flakier pie crusts, delicious hot biscuits, or fried foods with no greasy after-taste, Crustene becomes her choice, just as it is the choice of thousands of good cooks throughout Texas and the Southwest.

Fits Every Budget

Expenditure for shortening takes such a fractional part of the food dollar, it is surely wisdom on the part of the homemaker to choose a quality shortening. When one is frying foods, baking a cake, pie or biscuits, she wants to be sure of the shortening she is using, sure that it will combine easily and properly with the other ingredients, sure that it will provide healthful, easily digested foods.

The makers of Creamy Crustene Shortening are proud of the fact that it is an all-purpose shortening, economical, fitting every thrifty homemaker's budget.

Miss Crosson invites the homemakers of Midland and the surrounding area to attend the cooking demonstrations and see not only Creamy Crustene Shortening, but many other well known food products used in the school.

Crustene has provided an ample supply of "Kitchen Secrets of the South," an attractive booklet containing a choice selection of recipes you'll want to add to your collection. These will be presented free to those in attendance at the cooking school with the compliments of Creamy Crustene Shortening and the grocers who recommend and stock it for sale in the Midland area.

Cooking School...

(Continued From Page One)

will be distributed at each lecture for addition to housewives' home files.

Miss Crosson, home service director for West Texas Gas Company, is pleasant-mannered and friendly, with a quick smile. She has successfully conducted cooking schools in West Texas cities including Lubbock and Plainview, with large attendances recorded.

Popular For Tea

This American theme is appropriate for patriotic teas.

Apples Yield Cheap Dessert For Any Meal

Apples make high-tasting, low-cost desserts in winter. Let's go into that subject. Here's a recipe for a cake to be served hot for dinner or for the afternoon tea meeting of your local defense club.

APPLE CAKE

Two and one-half cups sifted cake flour, 1 1/2 teaspoons combination baking powder, 1/2 teaspoon salt, 2 tablespoons sugar, 3/4 cup cold shortening, about 1/3 cup cold water, 3/4 cup sugar, 1 1/2 teaspoons cinnamon, 6 large apples, pared and cut in eighths.

Sift flour once, measure, add baking powder, salt, and sugar, and sift again. Cut in shortening until pieces are about the size of small peas. Add water, a small amount at a time, mixing lightly with fork. Handle as little as possible. Wrap in waxed paper and chill thoroughly before rolling. Roll 1/8 inch thick on floured board. Line three 8 by 2 by 2-inch pans with pastry, allowing pastry to extend 1 inch up sides of pans. Combine sugar and cinnamon; sprinkle 2 tablespoons of sugar mixture over pastry in each pan. Arrange apples in rows on dough, and sprinkle with remaining sugar mixture. Bake in hot oven (400 degrees F.) 30 minutes, or until apples are done and crust is browned. Cut into 1 1/2 x 4-inch strips. Serve hot or cold. Makes 2 1/2 dozen strips.

APPLE DUMPLINGS

(8 Dumplings)

Two cups sifted flour, 2 teaspoons combination baking powder, 1 teaspoon salt, 1/2 cup butter or other shortening, 3/4 cup milk,

8 small apples, pared and cored, 1/2 cup sugar, 1/4 teaspoon cinnamon, 2 tablespoons butter, 1/2 cup brown sugar, firmly packed, dash of nutmeg, dash of cinnamon, 1/3 cup butter, 1 1/3 cups hot water.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening, add milk gradually, stirring until soft dough is formed. Turn out immediately on slightly floured board and knead 30 seconds, or enough to shape. Roll 1/8-inch thick. Cut in circles large enough to enclose a small apple. Place apple on circle. Fill cavity with mixture of sugar and cinnamon, and dot with butter. Bring dough up over apple, pressing edges together. Place dumplings in pan, with joined edges underneath; allow space between each.

Combine sugar, nutmeg, cinnamon, butter, and water, and pour into pan with dumplings. Bake in hot oven (450 degrees F.) 15 minutes; then decrease heat to moderate (350 degrees F.) and bake 25 minutes longer.

MENU

BREAKFAST: Sliced bananas, fried cornmeal mush, honey, crisp bacon, coffee, milk.
LUNCHEON: Creamed vegetables on wholewheat toast, half grapefruit, tea, milk.
DINNER: Veal stew with mashed potato top, buttered carrots, creamed cabbage, apple pie, coffee, milk.

Children And Rest Of Family Should Have Eggs Weekly

By Mrs. Gaynor Maddox, NEA Service Staff Writer. Every child should have four or five eggs a week; every other member of the family at least three. But those eggs, so essential to growth and health, can appear in any form desired. Desserts with eggs in them please everyone. Also nourish everyone.

In budgeting your eggs, count those eggs used in desserts served during the week. If there are four in your family—two adults and two children—your minimum egg budget should be 14 eggs a week. If you use, for example, the two desserts given below during a week's menu, you use four eggs, so that means you have only 10 more to use for the other meals. It means, also, that getting the family to eat its required minimum quota of nutrient-rich eggs need be no problem at all.

Next time you make a floating island, try making it with fresh orange juice for the liquid. For a pudding with surprises inside, add orange cubes or sections. Pile it in tall-stemmed glasses with whipped cream. Or, turn it into a pie by making it a bit thicker and serving it with cookies as a base, in a glass pie dish.

FLORIDA ORANGE MERINGUE

(Serves 4 to 6)
One-half cup sugar, 3 tablespoons cornstarch, 1/8 teaspoon salt, 1/2 cup heavy cream, 2 egg yolks, 1/2 cup water, 1 1/4 cups orange juice, grated rind and 1 orange, 24 small cookies, 2 egg whites, 4 tablespoons powdered sugar, 6 to 8 orange sections.

Combine and mix sugar and cornstarch in top of double boiler. Add cream and egg yolks, mixing thoroughly. Add water, orange juice and grated rind. Cook over hot water, stirring frequently until thickened. Cover and cook 5 minutes longer. Place small cookies (vanilla wafers, chocolate drops or other kind) in the bottom and around the edge of a 9-inch pie pan. Fill with the orange custard.

To make meringue: Beat egg whites until stiff, add sugar gradually and continue beating until stiff and glossy. Pile meringue in spoonfuls on custard and top with orange sections. Bake in slow oven (325 degrees F.) for 15 minutes.

COCOA CREAM TAPIOCA

(Serves 4 to 6)
Three tablespoons granulated tapioca, 1/3 cup cocoa, 2/3 cup sugar, 1 2/3 cups boiling water, 1 tall can evaporated milk, 2 eggs, separated, 1/2 teaspoon salt, 1 teaspoon vanilla.

Blend tapioca, cocoa and sugar, add boiling water and cook, stirring often until tapioca is clear and comes to top. Add milk blended with egg yolks and continue cooking with constant stirring until mixture thickens. Pour over stiffly beaten salted egg whites, add vanilla and cool.

TOMORROW'S MENU

Breakfast: Tomato juice, fried corn meal, bacon, syrup, coffee, milk.
Luncheon: Vegetable chowder, hard rolls, cocoa cream tapioca, tea, milk.
Dinner: Scalloped potatoes with pork chops, red cabbage, orange meringue, coffee, milk.

Tiny Tortoises Of Prehistoric Family Live

MIAMI, Fla. — (UP) — A set of twins born here last August is increasing daily in weight and value. They are two tiny Galapagos tortoises, the only ones of their kind ever hatched in the Americas. Attendants at the North Miami Tropical Zoo, where the two live, estimate their present value at \$1,000 each.

The tortoises belong to a family of prehistoric creatures that never have changed their size or shape from the beginning of time, according to scientists.

A daily record of the tortoises hatched here is sent to the New York Zoological Society, which owns the parents of the twins.

When the two tortoises crawled from their billiard-ball appearing eggs they weighed two ounces each. They now weigh about a half pound each and are expected to double their weight annually for the next five years, their rate of growth then slowing down.

Natives of the Galapagos islands group, tortoises are the longest-living creatures on earth, according to scientists.

Canada Provides Corvette Boats To Fight Craft

By NEA Service. OTTAWA. — The Royal Canadian Navy is preparing a surprise for enemy surface and undersea craft which may venture into Canadian waters. The first of a series of "Corvettes" have gone down the ways and into active service.

These little craft are "hush-hush" as far as speed and armament are concerned. There have been guesses and speculations but these have been so wide of the mark that Canadian naval officers are chuckling and hoping the good work of misinforming the enemy keeps up.

The "Corvettes" are of whaleback type, similar to but distinct from a slow sloop. They carry a crew of 50 to 60 officers and men. In addition to their primary armament they carry what the navy succinctly terms "adequate" anti-submarine armament. They are good sea boats and are designed specifically for escorting duties on the Atlantic and elsewhere.

Banner MILK

Miss Mary Alice Crosson

Miss Mary Alice Crosson has selected Banner Milk to use in The Reporter-Telegram Cooking School, for it gives quality and taste. The success of cooking with Banner Milk is due to the fact that it is pasteurized and homogenized. Banner Milk by being homogenized is made more digestible. All ladies will find that in using Banner Milk for cooking that the last cup in the bottle is just as rich in flavor as the first one.

It is safer to use Banner Milk because it is pasteurized, which means there is no danger in getting any of the diseases contacted from cows. By pasteurization we mean that the milk has been heated from 143 to 145 degrees. Streptococcal throat germs are killed at 134 degrees, Typhoid at 137 degrees, Undulant Fever at 138 degrees and T. B. germs at 139 degrees. Therefore the heating of milk to 145 degrees and holding it there for 30 minutes will make it PURE. The heating of milk does not harm any of the good qualities, but it does destroy all harmful ones.

Leading physicians say it is more easily digested. And, too, the U. S. Government takes no chances with food for our soldiers. Their milk MUST be PASTEURIZED. Our Milk Pasteurization Plants are under regular inspection of both city and state health departments. They must meet these standards of cleanliness, sanitation and assurance of proper pasteurization.

Of interest to the public, Banner Products are sold to the military camps at Abilene and Brownwood.

Creamy crustene Shortening

used exclusively in the Reporter-Telegram Cooking School

Attend the cooking school, see how Miss Crosson, like thousands of Texas homemakers proud of their reputation as cooks, uses Creamy Crustene Shortening in her cooking demonstrations. See how amazingly easy it is to use, how it mixes easily and quickly with other ingredients in the making of biscuits, cakes, and pies. For better textured cakes, flakier pie crusts, light-as-a-feather biscuits, and fried foods with no greasy after-taste, use this vegetable oil shortening—so white, so light, so pure. Economical Crustene fits every thrifty homemaker's budget. Get a carton of Creamy Crustene next time you need shortening.

Expert To Present Attractive Menu At Opening Session Cooking School

ROLLED FLANK STEAK

Flank Steak
1 1/2 c. Stale Bread Cubes
2 t. Fat
1 t. Salt
1/8 t. Pepper
1 onion, minced
Tomato Paste
1/2 c. Chopped Celery

Wipe meat with damp cloth. For the stuffing—brown celery and onion lightly in the fat. Combine celery and onion with other ingredients and tomato paste to moisten. Spread stuffing over steak. Beginning at one side of steak, roll it like a jelly roll, and tie or skewer into shape; when carved in slices, the meat will be cut across the grain, if rolled from side and not the end. Sear in small quantity of fat in skillet. Turn meat frequently until browned on all sides. May pour tomato paste over the roll, if desired. Preheat oven to 350 degrees F. Bake one hour or until tender.

SAUSAGE AND VEGETABLE GRILL

1 lb. sausage, stuffed or country
Cooked potatoes, peas, carrot, Lima beans, etc.

Preheat broiler of gas range 5 minutes. Grease broil pan and arrange vegetable on it. Season lightly. (This is a good way to use left-over vegetables which do not taste left-over.) Canned, drained vegetables may be used. Grease broiler rack and place over broiler pan and arrange sausage on it. Put broiler pan and rack 3 to 3 1/2 inches from flame. Broil about 10 minutes or until done. Turn sausage at least once.

BROILED APPLE RINGS

Brush thickly sliced apples with lemon juice, then with melted butter. Sprinkle with sugar. Arrange around sausages. Broil until golden brown on both sides.

FROZEN FRUIT SALAD

1 t. Gelatin
2t. sugar
1 c. Mayonnaise
1 can fruit for salad
1/2 c. juice from canned fruit
1/4 c. boiling water
1 c. whipping cream
2 t. cold water

Soften gelatin in cold water and add boiling water, add sugar, let cool slightly. Whip cream; fold into the mayonnaise; fold in fruit carefully, to retain the lightness of beaten cream. Add prepared gelatin liquid, mix lightly and pour into tray. Allow to freeze firmly. Serve on crisp lettuce. This is a nice party salad.

SPANISH CHOCOLATE CAKE

2 c. Light Crust flour
1 egg
2 t. soda
1/2 t. salt
1 1/3 c. thick clabber milk
1 t. vanilla
1 c. sugar
4 t. cocoa
1/3 c. Crustene

Cream shortening and sugar until light and fluffy. Sift flour, cocoa, salt and soda together twice. Add egg to shortening-sugar mixture. Beat. Add flour mixture alternately with milk. Add vanilla with last of milk. Pour batter into greased loaf pan. Preheat oven to 350° F. Bake 45 to 60 minutes.

CHOCOLATE FROSTING

One 3-lb. pkg. cream cheese
2 to 3 t. milk
2 squares unsweetened chocolate, melted
Dash salt
2 c. sifted confectioner's sugar

Soften cream cheese with milk. Add sugar, 1 cup at a time, blending after each addition. Add chocolate and salt and beat until smooth.

BROILED CHICKEN

Select broilers weighing from 1 1/2 to 2 1/2 pounds and have butcher split them down the back. Wash and dry thoroughly; rub with butter or oil, sprinkle with salt and pepper and place skin side down on greas-

ed rack in broiling pan. Preheat broiler oven 5 to 10 minutes. Place chicken about 3 inches below the flame. Sear top side, then turn and sear second side. Allow about 20 to 30 minutes for total broiling.

If preferred low temperature broiling may be used—place broiler pan with chicken on rack in preheated broiler then reduce heat when chicken is put into broiler oven. Turn chicken when half done; allow about 25 to 35 minutes for total broiling.

When done remove to hot platter and garnish as desired. Allow 3/4 pound per serving.

Pittsburgh Hopes To Eliminate Smoke By Studying St. Louis

PITTSBURGH, March 11—(UP)—The Pittsburgh City Council is following an example set 136 years ago by a council when the community was only a borough, by undertaking a study of the problems created by the then smoky atmosphere in the area.

This time, however, the council has found it necessary to travel in a body to another city—St. Louis—to make its study. St. Louis recently reported successful culmination of a drive to eliminate its smoke problem.

In recent years, a City Bureau of Smoke Regulation, operating under direction of Dr. H. B. Meller, with carrying on research on the smoke problem. That agency, however, was discontinued more than two years ago.

The smoke control problem has again been brought to the fore following a period of winter weather in which "smog"—a combination of smoke and fog—shrouded Pittsburgh for days at a time. Newspapers, civic groups, business interests, educators and representatives of many community interests have demanded action to "clean up the city."

Hollywood Takes To Good Old Fashioned Easter Bonnet

Hollywood's Frank Borel likes realistic fruit, vegetables and birds made of feathers on his new spring hats. The white baku, worn by Anne Gwynne, above, is decorated with feather radishes and leaves. Their colors are carried through in the scarlet felt, facing and green veil.

"Feminine Nonsense" Decorates Filmdom's New Spring Bonnets

By Lucie Neville
NEA Service Staff Correspondent

HOLLYWOOD.—There's a pleasant promise that this spring's hats will be prettier than they have been in several years, and millinery designers obligingly have made both colorful, big-trimmed South American types and lavishly decorated bonnets in the best Easter parade tradition.

It's my guess that the Latin hats will be more popular when summer's white and bright colored dresses come in, though they'll be smart with tailored light wool spring suits.

The Easter bonnets are naturals for your first navy silks, lingerie blouses and small prints. I guarantee that neither style will be welcomed by husbands and beaux who detest stark turbans, doll's hats, towering crowns and poke-in-the-eye quills.

FOR UPSWEEP HAIRDOS AND POMPADOURS

THE majority of Borel's collection is the Easter bonnet type, of pastel straws, trimmed with colored veils, feather birds, pink roses, velvet bows and all sorts of feminine nonsense. Toya, baku and other fine straws are the materials, and their colors are delicious—delft and Alice blues, ice-cream-pink, green - chartreuse, and scarlet with white.

If at first these seem over-decorated, in comparison with plain dark winter hats, remember that they won't be worn with fur coats—they'll be for new pencil-slim suits and frocks, for upswep black hair and smooth pompadours.

The most elaborate of Borel's Easter bonnets is a postilion shape in dull gren baku straw with a riot of natural colored cherries, strawberries and tiny bananas, made of feathers, piled at the front and a streamer-snood of bright green jersey.

More feminine and flatter is an Alice blue baku with a full-brown pink silk rose posed against an up-standing bow of blue velvet, or an ice-cream-pink straw with a band and bow of black velvet, a cluster of deeper pin roses and a thin black veil dotted in chenille. The startling real fruit, radishes, and birds of all sizes, made of smooth feathers, decorate a number of the

A tall raffia rose in rose-to-wine shades tops this citrus green baku from Frank Borel's new collection, worn by screen actress Jean Kelly. The pale blue band forms a scarf. This is a "natural" for spring's first navy silks, lingerie blouses and small prints.

THE SOUTH AMERICAN INFLUENCE—MODIFIED

THE South American hats that Frank Borel (one of the aces among West Coast designers) is shown aren't so extreme that they look like ship's party favors.

A modified sombrero of cream-colored paper-Panama has only a

fat rope of scarlet yarn for trimming, banding the crown and looping through the brim to make a crown of a shiny red straw sailor.

A saucer-brim sailor of red toya straw has a band of cobalt blue yarn, embroidered in raffia flowers, around its edge, and a Spanish cap of red silk jersey inside holds it snug to the head.

Turbans of loosely woven striped cottons with bright tinsel threads run between the stripes of red, yellow and blue aren't too Carmen Miranda-ish for everyday wear.

Movie Star Proves Old Ladies Younger Than Appearances

By Paul Harrison
NEA Service Staff Correspondent

HOLLYWOOD.—When an actress is going to play a doctor's role, it's routine for her studio to announce that Miss Gitter will visit a local hospital and witness a major operation.

Thus, instructed, she'll be able to perform an emergency appendectomy in the tiny cabin of a pitching tuna schooner, giving a great dramatic performance the while. Or sometimes the star is cast as a woman attorney or a beautiful defendant, in which case she supposedly spends a day at a real murder trial, learning how to plead a case or have hysterics for the jury.

Went To Home
Barbara Stanwyck really did visit the old ladies of a local Eastern Star home before she started her 100-year scenes in "Pioneer Women." She went, not to copy the beldames' mannerisms, but to prove that a centenarian isn't as old as she's cracked up to be.

"I had an argument with a couple of people," Miss Stanwyck said. "They insisted I spoke my lines too quickly, because old ladies quaver. I said they didn't, especially the kind of women who crossed the country in covered wagons, fought Indians and raised huge families. They might look like their own grandmothers when they were 30, but there wasn't anything slow about their minds."

"So Bill Wellman, the director, and I went out to this home. And I want to tell you, they're pretty doggoned spry! They not only talk faster than I do—they think faster. Sure, I proved my point. And I'm not going to shake and totter either; this Pioneer Woman is a vigorous old girl."

'No Censorship'

Permanent status for the office of government reports was approved by the House committee on executive expenditures after the office's director, Lowell Mellett, above, assured members administration plans no censorship.

TEXAS COCA-COLA BOTTLING CO.

Take a Good Look at HONEY and stop getting "stung" on Drip Coffee flavor

Slice a honeycomb into large and small pieces — and only part of the honey drains out. Most of it's locked inside the wax cells in the larger pieces. If you want to get all the honey — you must get at each separate cell.

Coffee berries are honeycombed with flavor, too. So you need a drip grind for good drip coffee. Don't lose flavor with an all-purpose grind — the water seeps through your coffee too fast to soak flavor from the large particles.

STOP THROWING AWAY COFFEE FLAVOR IN THE GROUNDS!

IF YOU LIKE delicious coffee, and want to make it quickly, easily, with unfaillingly good results — then drip coffee's the kind for you!

But remember this big difference in drip making. Your coffee's flavor is not boiled out in the water. Instead, the flavor's soaked up as the water seeps through your coffee. So, you need a special grind of coffee—like Folger's Drip Grind! It makes your drip coffee better these two important ways:

- MORE FLAVOR.** Unlike all-purpose grinds, Folger's Drip Grind is uniformly cut, extremely fine for drip makers and vacuum glass coffee makers. In drip-making, the water seeps through too fast to soak full flavor from the large particles in all-purpose grinds — so you leave flavor in the grounds.
- BETTER FLAVOR** — because Folger's is mountain-grown! Up to 3 out of 4 coffees come from the lowlands — but Folger's is grown in vitally different mountain air, sunshine, and volcanic soil. Acquiring such vigor of flavor — lowland-grown coffees taste thin and flat by comparison.

If you want your husband to say he gets the world's best coffee at home — order Folger's today. Look for the words "Drip Grind" — and see how much better your drip coffee can be.

Every 4th Cup FREE!

Over 7,000 women write:—instead of using 4 spoons of coffee for 4 cups—they need only 3 spoons of Folger's! These women say: "Its mountain-grown flavor's so much richer — you use 1/4 less coffee! Same as getting every 4th cup FREE!"

FOLGER'S COFFEE
Mountain Grown

AVAILABLE IN BOTH REGULAR AND DRIP GRIND

Southern Ice Company Displays New Models Of Coolerators Here

The new 1941 Coolerator, the ice conditioned refrigerator, will be displayed at The Reporter-Telegram Cooking School through courtesy of the Southern Ice Company, Midland distributor.

R. C. Harkins, Southern Ice Co. manager, explained features of the 1941 Coolerator and asserted the principal of ice-conditioning in a Coolerator refrigerator keeps food naturally fresher.

Coolerator keeps vegetables fresh. Its flow of clean washed air prevents excessive drying out or mingling of food odors.

Coolerator not only keeps foods at a constantly cold temperature, whether the ice chamber is full or nearly empty, but keeps them as near to their original freshness as possible over a longer period of time.

Four Features

Four features of Coolerator are: Constant cold; one-way circulation; washed air; and balanced humidity.

"Coolerator has been tested and approved by more than 500,000 women all over the world," he said. "It has met with instant success and approval wherever keeping of perishable foods is a primary factor. It has stood the tests of years of use under all conditions."

Convenient features include: Sliding shelves—large items can be placed in the refrigerator including watermelon or whole turkey; easy to clean—the sliding baffles is the secret to Coolerator's performance. It forms the bottom of the ice-conditioning chamber where the air is washed before returning to the food chamber.

Other features of Coolerator include: Polymerin finish; streamlined design; real air-conditioning with fresh ice water; finger-touch latches; two-to-four inch insulation; welded steel cabinet; adjustable legs for uneven floors; no motors, no gases, no machinery, safe, economical, and silent.

Coolerator has models for the home, hospitals, schools, hotels, restaurants, and markets.

The complete line of all models is on display at the Southern Ice Company, 310 South Main.

CORN ONCE BOUGHT FEW SEATS

NEWTON, Mass.—(UP)—Citizens bid for pew seats with corn in the 18th century, according to records found by a WPA historical records survey. Early members of the First Church of Newton (Congregational) paid an average of a half bushel per seat at an annual auction.

U. OF P. COORDINATES DEFENSE ACTIVITIES

PHILADELPHIA — (UP) — The University of Pennsylvania has appointed a Committee on National Defense to co-ordinate all defense activities at the university. The committee also will act as a liaison group between the university and governmental departments.

Potatoes And Bacon Make Nutritious Standby

Baked potatoes and bacon make economy meal

Any liberal diet must include at least one serving of potatoes or sweet potatoes. Of all ways of preparing potatoes, baking is one of the best from a nutritional viewpoint—and also from the standpoint of taste.

Large, uniform-size potatoes are best for baking. A wise housekeeper always bakes enough potatoes at a time for two meals. On the second day, the left-over baked potatoes can be creamed or hash browned.

General Directions
Scrub uniform-sized, large type baking potatoes; rinse thoroughly, dry. If a soft, tender skin rather than a crisp, crunchy skin is desired, brush well with melted fat. Place the potatoes in a cold oven, bring the oven temperature up to 450 degrees and bake until the potatoes are tender when pinched. This will require about one hour for the large potatoes. However, they may be baked much more quickly by starting in a hot oven (450 degrees F.). This will require about 45 minutes, possibly less, and the potatoes will have the crisp skins.

Variations
Cut baked potatoes in half lengthwise; scoop out inside and mash with butter, salt, pepper and hot milk. Refill shells and slip into a quick (450 degrees) oven for five minutes. Or, before putting the potatoes back into the oven, make an indentation in the stuffed potato and fill with cheese sauce, buttered vegetables, creamed vegetables,

creamed fish, creamed meat or eggs.

Southern Baked Potatoes

Scrub uniform-sized, baking potatoes, rinse thoroughly, dry. If a soft, tender skin rather than a crisp, crunchy skin is desired, brush well with melted fat. Place the potatoes in a cold oven, bring the oven temperature up to 450 degrees F. and bake until the potatoes are tender when pinched. This will require about one hour for the large potatoes. However, they may be baked much more quickly by starting in a hot oven (450 degrees). This will require about 45 minutes, possibly less. Place a piece of sliced bacon on top of the potato after it has been baked and the top cut off. Then broil it until the bacon is crisp and brown and the juices have soaked through the potato.

Suggested Menu

BREAKFAST: Apple sauce, cracked wheat cereal, raisin toast, coffee, milk.

LUNCHEON: Creamed codfish on toast, hard rolls, grapefruit and orange cup, cup cakes, tea, milk.

DINNER: Southern baked potatoes, buttered carrots with minced parsley, mixed greens salad, baked chocolate bread pudding, hard sauce, coffee, milk.

Almond Topping Lends Zest To Chocolate Brownies

A crisp crunchy almond topping gives a new flavor to these tender chocolate brownies. The recipe is so easy to follow that you will want to keep some of the brownies on hand for afternoon snacks.

An the children will enjoy bringing home their friends after school or in the evening—particularly if they are sure there are delicious Almond Brownies in the cake box to be served with a tall glass of refreshing milk.

The recipe calls for two-inch-deep cake pan but if you are having a crowd and want to stretch the recipe bake the Brownies in shallower pans for a shorter period of time.

Almond Brownies

- 1 cup sifted all-purpose flour
- 1/8 teaspoon salt
- 1/2 cup butter
- 1 cup sugar
- 2 eggs
- 1/2 teaspoon vanilla
- 2 squares (2 oz.) chocolate, melted
- 1/4 cup shredded almonds

Sift flour; measure and sift with salt. Cream butter until softened; add sugar gradually, beating until light and fluffy. Add eggs, one at a time, beating thoroughly after each addition. Stir in almonds. Turn mixture into an 8x8x2-inch greased pan; spread evenly. Bake in a moderate oven (350° F.) 25 minutes. Sprinkle with brown sugar and almond topping. Continue baking 10 minutes, or until done. Cut into

Trains Students For Aerial Force

MELBOURNE—(UP)—Down in the cellars of a city gasworks a volunteer teacher is giving lessons on two or three nights to the most eager group of students he has ever taught.

He is one of 647 honorary instructors and his pupils are some of the 2,800 Royal Air Force reservists who are taking part in what has been described as "the biggest experiment in democratic education ever undertaken in Australia."

This is the scheme by which R.A.A.F. recruits waiting to be called up for training receive an intensified course in algebra, arithmetic, trigonometry, mechanics, and physics to bring them up to the standard required for initial air force training.

Through the course, wastage of men who otherwise would be unable to get through their training because of educational lag, has been avoided, time required for training slightly reduced, and the field of recruiting widened.

squares, and remove from pan while warm. Makes 12 to 16 brownies.

Brown Sugar and Almond Topping
1/2 cup brown sugar
1 tablespoon butter
1/4 cup shredded almonds.

Mix sugar and butter to make coarse crumbs. Add almonds, and mix well. Sprinkle over top of brownies, as directed in the above recipe.

Plans \$2,000,000 Center For Fort

FORT ORD, Cal., March 11—(UP)—Construction has been begun on a \$2,000,000 recreation center for the use of an anticipated 50,000 soldiers on the Fort Ord military reservation.

Described as the "most complete recreation project in the United States," the center is being built by the WPA in cooperation with army engineers.

Work on the first element—a \$250,000 enlisted men's club—was started Feb. 26 and engineers expect the building to be completed by June 30. Final engineering details for a non-commissioned officers' club of the same size and cost are now being worked out.

Recruit Turns Recruiter

ST. LOUIS—(UP)—Allen A. Sanders, Jr., 29-year-old St. Louisan, first volunteered for a year's military service, long before his draft order number was due to place him in line for a call. He then turned to recruiting on his own and, before being inducted, brought in seven friends as volunteers.

Army To Train Smithies

FORT RILEY, Kas.—(UP)—Because a garage now occupies the site under the chestnut tree where the village smithy used to stand, the army is going to establish a blacksmith's school at this cavalry center to train "mechanics" for the horse divisions.

BETTER SEEDS; FEWER WEEDS

LAFAYETTE, Ind., —(UP)—Better seeds mean fewer weeds, according to Oliver C. Lee, Purdue University botanist, in a warning to farmers and gardeners getting ready for spring planting.

ing to Oliver C. Lee, Purdue University botanist, in a warning to farmers and gardeners getting ready for spring planting.

Spring Fashions Of New York Will Suit Taste And Budgets

By Alicia Hart
NEA Service Staff Writer

There's enough variety in the spring collections of New York's fashion designers to enable every woman to find clothes which are one hundred per cent certain to suit not only her taste but her type, her budget and her mode of living.

There are sloping shoulders, to be sure. But there are many models with shoulders that do not slope at all. The latter are right for the not-so-slim-hipped and for the woman who just isn't happy in sloping shoulders.

Evening dresses with wide, almost knee-length bands of transparent net at the hemline are for girls with truly beautiful legs. The woman whose legs are just so-so shouldn't even consider them.

It would be a mistake for the long-faced, thin-necked girl to insist upon wearing blouses with plunging necklines. There are quantities of new spring blouses with high necklines that will minimize the length of her face.

Spring Style Suggestions

In addition, it would be a bad idea for—

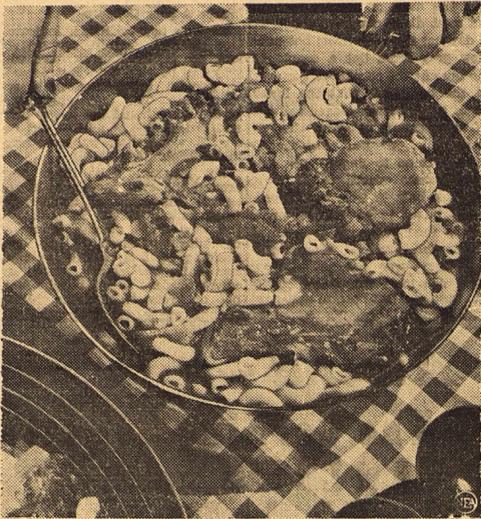

A short, plump woman to try to wear the new giant cartwheels. (There are plenty of smart little hats for her.)

The woman who can have only one new evening dress to get an extreme décolleté, exotic model of sirenish, 1914 inspiration. (New variations of the ever-flattering shirtwaister are what she might very well look at first.)

The girl whose shoe wardrobe is quite small to buy bright colored or extremely high-styled shoes. (Plain pumps in neutral colors, which may be worn with everything, are her forte.)

Any woman to buy anything about which she has an "I-can-take-it-or-leave-it" attitude. "Unless she feels that she must have it, she shouldn't buy it at all."

Macaroni And Mushrooms Aid Pork

Macaroni and mushrooms make pork chops go farther.

To make a little meat go much farther, combine it with some form of macaroni or noodles. Well seasoned sauce is an important part of this nutritious extension. Tomatoes, onions, green pepper, kitchen herbs and spices are important. A small can of mushrooms cost little and does wonders. Buy the canned stems and pieces for sauces rather than caps. They are cheaper and just as flavorful as the perfect caps which are more useful for garnishing.

For the following recipe, drain a can of mushroom stems and pieces, saute the mushrooms lightly in butter before using. Any mushroom, either fresh or canned,

is improved in flavor when sauteed before cooking.

Broiled Pork Chops With Macaroni and Tomato Sauce
(Serves 4 to 6)

Three-quarter pound elbow macaroni, 6 rib pork chops, 1 No. 2 1/2 can tomatoes, salt and pepper to taste, 1/4 chopped onion, 1/4 cup chopped canned mushroom stems and pieces, 1/4 cup chopped green pepper.

Pan broil the chops until well browned. Add the can of tomatoes and the mushroom liquor. When it comes to a boil, cut fire low and add the uncooked macaroni, onion, mushroom pieces and green pepper. Season to taste, cover tightly and simmer until all ingredients are tender, about 21 minutes. Add boiling water or stock if needed. Serve at once.

Broiled Hamburger Steaks With Spaghetti

Three-quarter pound spaghetti, 1 1/2 pounds hamburger, 1 sweet Spanish-type onion, 2 tablespoons butter, 4 medium tomatoes or 1 No. 1 can tomatoes, salt and pepper to taste.

Cook the spaghetti in boiling water, salted, until tender. Drain and place in pan beneath broiling rack. On the broiling rack place the hamburgers, shaped into equal patties. Broil the meat slowly. When it is nearly finished, place on the rack the onion, sliced; the tomatoes, cut in halves. Add a little salt and butter on top of each and broil while meat completes cooking. The juices from the meat and vegetables drip below and season the spaghetti. If fresh tomatoes are not available, pour the can of tomatoes over the spaghetti at the beginning of the process and it will season the spaghetti and heat through while the meat and onions are broiling.

MENU

BREAKFAST: Sliced bananas and dates, cornmeal griddle cakes, syrup, coffee, milk.

LUNCHEON: Hot bacon rolls, fruit salad, cheese, fig cookies, tea, milk.

DINNER: Broiled hamburger steaks with spaghetti and sauce, buttered cauliflower, orange snow pudding, custard sauce, coffee, milk.

Bachelor 70 Years Old Has Variety Of Hobbies

FREETOWN, Mass. — (UP) — Charles Thomas, 70-year-old bachelor, says he has 238 hobbies.

Space permits listing only a few, but they include shoemaking, farming, bricklaying, music, painting, mechanics and collection of local Indian relics.

Living alone in the century-old family homestead, Thomas finds time to indulge in many branches of arts and crafts during each week.

White's Auto Store Features Leonard 1941 Refrigerators

One look at the 1941 Leonard Refrigerator will tell you more about its beauty than any number of words and pictures.

The Leonard is on display at The Reporter-Telegram Cooking School through courtesy of the Whites Auto Stores, Incorporated, in Midland.

The Leonard has many built-in conveniences, offering many practical values. Outstanding is the Leonard Glacier Sealed Unit—the dependable, money-saving mechanism. Use Rust-Proof Steel.

Every 1941 Leonard has a cabinet with sides and top formed from one piece of rust-proofed steel with back and bottom panels welded in place—heavily insulated—sealed against outside air and finished in enduring Permalin.

Leonard Models LH-6, LH-8 have in addition to the coils in the Zero Freezer, a second set of refrigerating coils in the walls and bottom of the food storage compartment. Thus correct temperature and humidity are maintained in every part of the glass-shelved food chamber. This guards food freshness and protects precious vitamins.

Featured on all Leonard models is the Temperature Selector making possible instant control of freezing and food storage temperatures. The Selector has eleven freezing plus "Defrost"—"Vacation" and "Off" settings.

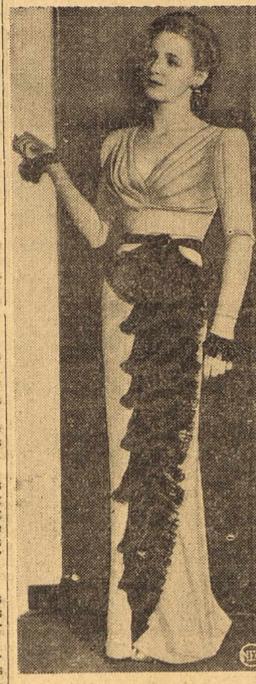

Extra-Fast Freezing. Two extra-fast freezing shelves for quick freezing of ice or desserts are provided in the Zero Freezer on all Leonard models.

Len-A-Light is nother outstanding Leonard feature. This is an automatic light recessed in reflecting panel behind freezer to prevent breakage and give added storage space. The entire food chamber is flooded with light when door is opened.

Beyond these four essentials—cabinet, freezer, mechanism and storage space, the 1941 Leonard offers a host of advantages that formerly were available only at higher prices.

"In choosing a new Leonard, we believe, you are getting the refrigerator with the features you want and sound value for your money. We invite the public to come into our store at 215 West Wall and see this improved refrigerator," the White Auto Store management stated.

Fashion Puts On FRILLS

The frills of fashion appeared in a big way when this pale pink dinner dress was shown at a recent New York display of the newest spring fashions. It features a waist-to-hem black lace frill down one side.

"Apple a Day" Forgotten

ATLANTIC CITY, N. J.—(UP) The old axiom about an apple a day keeping the doctor away seems to be losing its popularity. Porter R. Taylor, head of the fruit and vegetable division of the Surplus Marketing Administration said that the apple crop has decreased steadily in recent seasons.

Candidate Announces For Year Of 1942

PHOENIX, Ariz.—(UP)—Working on the theory that the early bird gets the worm, Howard Sprouse of Globe has announced his candidacy for the Democratic gubernatorial nomination in 1942—scarcely six weeks after Gov. Sidney P. Osborn took office for a two year term.

PRIMA BECOMES FOIST

PROVIDENCE, R. I.—(UP)—Brown University officials checking an inquiry about a student named Foist found he was the son of immigrant parents who had Anglicized their name. It had been Prima.

BALLET IN BALSAM WOOD

TULSA, Okla.—(UP)—Carving ballet dancers from balsam wood blocks has become the hobby of a retired dancer. The dolls, whittled by Miss Margaret Taylor, represent the various positions of the ballet.

Fort Custer Men Can Now Relax

BATTLE CREEK, Mich.—(UP)—Battle Creek merchants and civic leaders, seeking to provide health-recreation facilities for soldiers stationed at Fort Custer, have financed two military clubhouses where men can relax on off-duty hours.

FROM EVERY ANGLE THERE'S NOTHING BETTER!

America's Greatest Woman?—Goddess Of Liberty Is Choice

By Ruth Millett.

There is no question but that she is the Outstanding Woman of 1940.

During a trying year, when the convictions of many wavered and doubted, she stood for everything the word America sums up.

Nor did she overlook the importance of letting the world know it. She proclaimed the dignity and rights of individuals. Human beings were not meant, she told the world, to think and act and live in goose-step.

Rights Are Respected.

While supporting rule by the majority, she upheld the right of minorities to their beliefs and opinions.

She did not succumb to any doc-

trine of superiority. Always she has accepted men for what they were—not for the race, nationality, or religion, given them by birth.

She upheld the tradition that America should be a haven for the persecuted of other lands.

She disdained the idea that America might "make up to" the dictators.

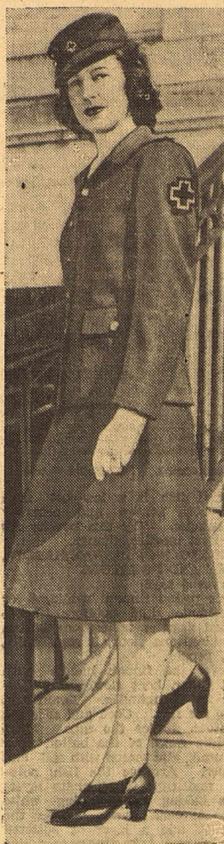

All Know Her.

She stood by the firm conviction that only in a democracy is life worth living and supported the belief of realists that only people who are strong can be free.

You know her—and love her—this Outstanding Woman of 1940. Her home is New York's great harbor. Her job is to hold the torch of liberty—to remind Americans of their rights and their duties as fortunate citizens of a democracy.

She is the Goddess of Liberty—America's greatest woman of this and of all years.

Red Cross Goes Snappy

Volunteer women workers in the nation's 3700 chapters of the American Red Cross will wear this new outdoor uniform, designed by Frances Orth of national headquarters staff in Washington. Featuring functional simplicity, the uniform is of blue-grey wool gabardine, with Red Cross emblems on cap and sleeves. Different colored shoulder straps will differentiate the various Red Cross Corps.

"SAFEST" RAILROAD TO DIE

BRIDGEPORT, Me. —(UP)—One of the nation's safest railroads soon will disappear because of dwindling business. The Bridgton & Harrison Railroad, a branch line powered by diminutive locomotives on two-foot gage tracks, has had no one injured seriously in 58 years of operation.

Homemaker Should Know Cuts In Order To Buy Meat Wisely

"To buy meat to the best advantage the homemaker should know the cuts of meat, what the characteristics of these are, and the methods best suited to cook them," Miss Mary Alice Crosson, cooking expert said. "The less tender cuts should be cooked by the method which will increase their tenderness; and the tender cuts by methods which will retain their tenderness.

"Good beef is firm, well mottled or marked with fat, and has a characteristic bright red color. The fat (meat) should be creamy white and firm, and there should be no disagreeable odor.

"It is more economical to cook meat at a low temperature because there is less shrinkage in the meat. Hence, there are more servings to take to the table. It takes a longer time to cook meat at a low temperature, but the fuel consumption is actually less. Furthermore, the meat is more tender and juicier, more attractive and more uniformly done. There is less splattering in the oven or broiler and less watching.

"Any tender cut of beef may be roasted. Beef ribs, either standing or rolled, are the usual choice for roasting. A standing rib roast need not be placed on a rack as the bones of the roast form a natural rack. A rolled roast should be placed on a rack.

"Water is not added to the roasting pan. Formerly, water was added to prevent the drippings from becoming excessively brown due to the high oven temperature. With the low oven temperature now recommended for roasting, the addition of water is unnecessary.

"The low oven temperature is recommended for roasting, although the roast may be seared if a crispier, browner exterior is desired. The roast may or may not be rubbed with salt before putting in the oven. Since it has been proven that salt penetrates not more than one-half inch, it appears to make little difference. Certainly, there is no point in allowing a certain amount of salt per pound as is sometimes suggested, since much of the salt falls into the drippings making them too salty.

"All cuts of lamb, with the possible exception of the neck and shank, are tender enough to be cooked by roasting, broiling and parbroiling. For the sake of variety, other methods as stewing and braising are used.

"The meat research, which has been carried on during the past fifteen years, revealed that lamb is juicier, more flavorful and probably more tender when it is cooked medium done. The outside of well prepared lamb cooked medium done will be uniformly brown, the fat will be golden brown and not charred; and the roast or chops will be puffy and not shrunken. When cut the interior will be faintly pink and the juice will have a faint tinge of pink.

"However, personal preference may be for well-done lamb, in which the cut slice will be uniformly gray throughout.

"There is a thin paper-like substance over the outside of lamb which is known as the "fell." Formerly, it was the general practice to remove the fell in the meat market. This has been found to be both unnecessary and undesirable in the case of lamb leg roasts. The leg will keep its shape better and will cook in less time if the fell is not removed. Others are of the opinion that the fell does not detract from the appearance of the roast.

"However, when cooking chops it is a better practice to remove the fell which is a tough membrane. This has sufficient time to become tender during the roasting period, but not during the relatively short time required for cooking chops.

"For the best results in broiling, lamb steaks and chops should not be cut too thin, about three-fourths of an inch to two inches thick. Loin and rib chops are the favorite cuts from lamb. The loin chops are meatier than the rib, but sell for a

Cameron's Central Pharmacy Displays Crosley Shelvador

"Twice as much food to the front" is the slogan of the 1941 Crosley refrigerator with the new Super-Shelvador. That slogan means the saving of precious minutes for the housewife who needs foods at her finger-tips if she is to carry out her preparation of three meals a day with greatest efficiency.

The 1941 model will be on display at The Reporter-Telegram Cooking School, March 12-14, through courtesy of the distributor, Cameron's Central Pharmacy.

Crosley's "Moist-Kold" models provide an answer to the question of how and where to keep salads, fresh fruits, cheese, sliced meats, and leftovers. These may be placed on uncovered dishes in the "Moist-Kold" section to retain the freshness and appetizing appearance. Separated from the dry-cold section below it by a heavy glass shelf, "Moist-Kold" compartment is sealed when the outer door closes.

Other Features

A frozen storage compartment for keeping foods extra-cold; a cold storage compartment; and a glass covered crisper compartment for such foods as lettuce, celery and carrots are other advantages of the new model.

Like all Crosleys, it boasts the Shelvador as a convenience unique in the world of refrigerators. The top shelf of the Shelvador is specially designed to hold eggs without breaking and (something all housewives will applaud) without rolling hither and yon every time the door moves. Another shelf provides refrigeration space for bottles.

Shelf bottoms removable for cleaning and acid resistant porcelain are two additional assets of the refrigerator.

Has Storage Bin

A roomy storage bin for such non-refrigerated foods as potatoes, placed beneath the refrigeration compartments, adds to the efficient conservation of space in the kitchen.

For those to whom the question of defrosting has been a problem, good news is the bright red defrost indicator on the side of the Freezer-cold compartment. When this frosts over, it's time to defrost. But that is no chore with this Crosley. Simply push the "Electro-saver Control," and there's nothing more to do until the little red indicator has shed its coat of frost.

Streamlined for beauty and designed for efficient service, the Crosley Super Shelvador is a handsome addition to any kitchen.

bit more. These may be boned and rolled into cunning little filets. Have the fell removed from the chops. For a lamb chop grill that classes as a "budget" buy, we suggest round bone shoulder chops.

Getting A Head Start On The Other Knitters

You'll always have your knitting on your mind if you wear one of the new hats, demonstrated here by radio star Bess Johnson. It consists of a knit cap, atop which is perched a ball of knitting yarn. Actually, the yarn rests in a small celluloid container and feeds through a hole in the side, but this was removed to show how the hat works. It comes in three colors—red, white and blue.

MIND Your MANNERS

T. M. Reg. U. S. Pat. Off.

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. If you are writing a letter to your congressman, should you be as brief as possible?
2. When writing your congressman, should you sign your full name and give your address?
3. How should a letter to a congressman be addressed?
4. How should a letter to a senator be addressed?
5. Is "Dear Sir" a correct beginning of a letter to a senator or congressman?

What would you do if—
You write a "fan" letter to someone in the public eye—
(a) Sign it "A Friend"?
(b) Sign your name?

Answers

1. Yes. State your opinion clearly and briefly. Type the letter if possible.
2. Yes. Otherwise, the letter will carry no weight at all.
3. The Honorable A. B. Jones, House of Representatives, Washington, D. C.
4. The Honorable John Doe, Senator from Iowa, Washington, D. C.
5. Yes. Or Dear Madam.
Best "What Would You Do" solution—(b).

"Successful cooking begins by using good groceries," says Miss Crosson, cooking school lecturer....

We make no claims as an authority on cooking. But you can bet your boots we have the best groceries that are available. We carry all standard brands of nationally advertised merchandise. Groceries used in the Cooking School are on sale at our store.

Fabric Walls And New Furniture Brighten Your Home For Spring

Padded Walls Are Among Season's Novelties

A screen of poles, decorated with pots of growing ivy, a wall padded, instead of papered or painted, give Gilbert Rohde's ultra-modern room, above, novelty and distinction. The padded wall is made of simulated leather, in a creamy cafe au lait tone, tucked over separate squares. The Swedish walnut furniture is bleached a soft, grayed middle tone that shows off the wood grain.

By NEA Service.
NEW YORK—Padded walls are not as crazy as they sound. They're one of the many delightful things modern designers are doing with walls and wood finishes for people who seek a novel change from paint and paper.

Gilbert Rohde designed the padded walls which are pictured. They are made of simulated leather tucked over separate padded squares and could be easily reproduced and installed by your neighborhood upholsterer.

STRIKING BACKGROUND FOR NEW FURNITURE

The color he chose for the room was creamy cafe-au-lait to serve as a striking background for modern furniture. The latter pieces, created in the new "dusty" finish by Swedish designer Jan Ruhtenberg, are of soft, middle-shade walnut. The wood pattern shows up well in all lights.

Two cabinets against the dark wall are cleverly arranged for

wardrobe storage space. On the opposite wall are two bookshelf units with cabinet space for a radio. A desk and chair with open arms stand opposite the day-bed. Two more cabinet units—for linens—are placed in the dinette.

One entire wall in another new room—a bedroom—is hung from floor to ceiling with a modern cotton fabric striped sage-green and white. The other three walls are papered in an off-white with a big design of lines and circles. It's surprising what a pleasant background the full soft fabric makes.

In another room, one wall is covered with a rough new wood-fiber that looks almost like fresh bark. It's novel and inexpensive, and stylish as well.

"A CHINTZ FOR TO HANG ON HER WALL"

Walls draped with fabric, or "papered" with it, are also having a vogue in traditional rooms. In a recent exhibition, this theme re-

turned around a line from Samuel Pepy's Diary: "I bought my wife a chintz for to hang on her wall." Against a wall hung with white flower-printed chintz stood a slender ebony four-poster flouenced and canopied in crisp white organdie.

Another room has all four walls papered in off-white chintz, with an old bird-cage-and-basket design sketched in lines of red. Modernized period furniture bleached to the tone of old fruitwood is used here.

The new walls call for new and novel furniture arrangements, make particularly effective backgrounds for soft wood tones.

One suite, in the new "grayed" or "dusty" walnut, has ebony and white ash worked out in checkerboard squares; in another group, walnut and olive burl—both bleached almost white—are used together in furniture designed along William and Mary lines. Several new bedrooms use wood of soft middle shades with white painted wood, while

1941 Kelvinators Are Distributed Here By Phillips-Adams Co.

High on the list of the new "food glorifiers" is a refrigerator that presents an appearance of gleaming glass and stainless steel before an immaculate background of snow-white porcelain. Its design, according to Kelvinator refrigeration experts, was based on the idea of "glamorizing" the family food supply by making it highly appetizing in appearance, as well as keeping it in finer condition for a longer period of time.

Giving added sparkle to the household larder in this new Kelvinator refrigerator are all-glass shelves and a glass-enclosed humidity compartment for the storage and preservation of many kinds of foods consumed in homes today. This marks the first time that all-glass shelves have been used in an electric refrigerator, and they give a new kind of beauty to the kitchen and to the contents of the food storage compartment.

New Cooling Method

From a scientific point of view, this new refrigerator is cooled in a different manner than heretofore. In addition to cooling coils that freeze ice, there is a separate set of coils in the walls. This design provides the greatest control of temperature and humidity known to household refrigeration, it is claimed, and make it possible to maintain several different humidity conditions and temperatures in the same refrigerator. It also enables the homemaker to store food in uncovered dishes, and it reduces transfer of food odors to a minimum.

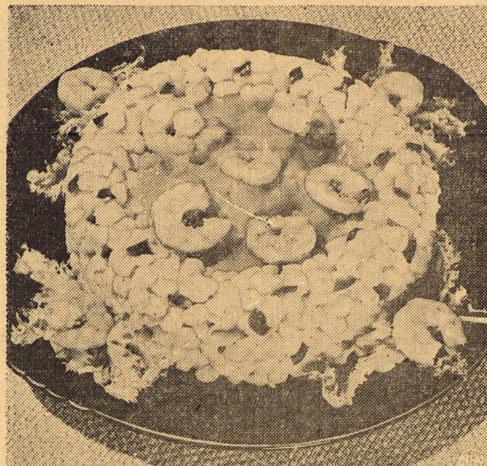

Aside from the glass shelves and glass-enclosed humidity compartment, there are numerous other beauty features in this year's refrigerators to snap up the appearance of the household larder, and included in these is a lustrous new stainless steel strip around the door opening. It is estimated by Kelvinator that this strip eliminates some eighty unsightly screwheads which heretofore have caused such a cleaning problem in electric refrigerators. In addition it outlines the food storage compartment and its contents with gleaming metal that shines and sparkles in the light.

Larger Crispers

Although beauty and glamour are stressed in the new electric refrigerators, there are many new convenience features to tempt the housewife to trade in her old model. Things like the new "Magic Shelf" with its five interior shelf arrangements and the new bigger crispers with 30 per cent more capacity offer many new advantages to the modern homemaker and give her more flexibility with her refrigerator interior than she's ever had before.

And if you're a farmer there's another points up the soft gray tones with turquoise blue leather. One particularly interesting living room group is inlaid with strips of white holly.

Shrimp In Hominy Adds To Meal

Southern Lenten dish . . . shrimp in hominy with creole sauce.

Shrimp in hominy ring is an old southern custom just right for the Lenten meal. As both the shrimp and hominy are readily available anywhere, this recipe will appeal to kitchenette and business wife, too.

CHILI SHRIMP IN HOMINY RING

(Serves 4 to 6)

Four tablespoons butter, 1/4 cup chopped green pepper, 3 cups whole cooked hominy (one 1-lb., 13 oz. can), 1 teaspoon salt, 3 tablespoons butter, 3 tablespoons flour, 1/4 teaspoon salt, 1 1/2 cups tomato juice, 1/2 cup chili sauce, 2 cups canned shrimp (2 No. 1 cans).

Melt butter in frying pan, add green pepper and cook slowly until the pepper is tender. Add hominy and salt and cook slowly until shrimp are heated. Arrange Melt butter in saucepan; blend in flour, tomato juice and chili sauce and cook, stirring constantly, until thickened. Add shrimp; cook until shrimp are heated. Arrange hominy in ring on platter or pack into 8-1/2 inch buttered ring mold and heat in moderate oven (350 degrees F.) 15 minutes. Fill center with shrimp mixture.

special refrigerator for you in 1941. It's a large model (8 cubic feet) and has three lift out half shelves that enable the housewife to make almost any kind of shelf arrangement she desires. With all the half shelves removed practically the entire half of the refrigerator is cleared—and that's enough to store a five-gallon milk can or twenty dozen eggs.

Kelvinators are sold by the Phillips-Adams Co., 110 So. Baird, also dealers in farm machinery, windmills and motor trucks.

Dried fish is a low-cost item with both Lenten and economy advantages. Try this novelty for the next meatless dinner.

CASSEROLE OF FINNAN HADDIE, EGGS AND POTATOES

(Serves 4 to 6)

One pound finnan haddie, 4 or 5 medium sized potatoes, hard-cooked eggs, 4 tablespoons butter, 4 tablespoons flour, 3 cups milk, salt, pepper.

Cover the finnan haddie with cold water, heat slowly, and simmer for 10 minutes. Drain and flake the fish. Cook and slice the potatoes. Slice the eggs. Make a white sauce of the butter, flour and milk, and season with salt and pepper. Arrange the fish, potatoes and eggs in alternate layers in a baking dish, adding white sauce to each layer. Cover the dish or add a layer of buttered crumbs and bake in a moderate oven until thoroughly heated.

MENU

BREAKFAST: Tomato and lemon juice, oatmeal griddle cakes, crisp bacon, syrup, coffee, milk.

LUNCHEON: Casserole of finnan haddie, cabbage and apple salad, nut cookies, tea, milk.

DINNER: Chopped mixed greens salad, shrimp in hominy raw carrot sticks, green peas, butterscotch pecan tarts, coffee, milk.

REUNION FIRST IN 60 YEARS

SEATTLE, Wash.—(UP)—Four brothers and sisters whose ages totalled 296 years held their first reunion in 60 years. Meeting one another here were: Mrs. Barbara Richter, 75, Seattle; Charles Stoltz, 71 of St. Paul, Minn.; Peter Stoltz, 78, Valier, Mont.; and George Stoltz, 72, Crescent City, Cal.

Trainee On First Train Ride
