

House Urges O'Daniel To Succeed Sheppard

Representatives Ask Governor For Elective Period

Resolution Adopted By Rising Vote Mentions Official's Labor Policy

AUSTIN, April 10.—The Texas House of Representatives today adopted a resolution requesting Governor W. Lee O'Daniel to resign and accept appointment as United States senator in succession to Morris Sheppard, who died yesterday.

The resolution, which declared the governor should make his services available to Texas and American in a national capacity "in this hour of national peril," also requested him to announce as a candidate for the senatorial elective term ending in January, 1943.

It was adopted by a rising vote, which Rep. Dallas Blankenship of Dallas, who was presiding, first announced as "unanimous."

On an objection, Blankenship ordered that the Journal show merely "adoption."

A few "yipses" and some hand-clapping punctuated the reading of the resolution, of which Rep. Mark Halsey of Lubbock was the author. Cites Anti-Strike Program

The resolution said the governor could perform an "inestimable service" by obtaining national enactment "of his far-sighted program to end strikes and labor violence in defense industries" and adoption "of President Roosevelt's announced program for full federal payment of social security obligations."

"In these perilous times, Texas, as the nation's greatest Democratic State, is desperately in need of its junior Senator in the United States Senate—a seasoned and fearless statesman, who can command national respect and attention," it said.

"Governor O'Daniel is the best beloved and most popular governor this state has had since the late James Stephen Hogg, and because of his statesmanship, ability, courage and mastery of oratory and debate has become a national figure."

Reynolds Looms As Chairman Of Military Group

WASHINGTON, April 10.—(AP)—Chairman of the Senate military committee, which plays an influential role in shaping national defense legislation, appeared likely today to pass into the hands of strapping, ruddy-faced Robert Rice Reynolds, North Carolina Democrat often at odds with President Roosevelt's foreign policies.

Reynolds, first elected to the Senate in 1932, has opposed the administration on various foreign policy issues, but usually has gone along on Democratic legislation. He voted against repeal of the arms embargo in 1939 and more recently opposed enactment of the British aid law, Senate Adjutant General Nease.

In a gesture of respect and tribute, the Senate arranged to adjourn today immediately after meeting at noon. The Texas Senator's body then was to lie in state in the Senate chamber, with a military guard of honor, from 2 until 4 p. m. (Central Standard Time).

Vice President Wallace and Speaker Rayburn planned to appoint 21 Senators and 21 House members to accompany the body to Texas, leaving at 8:30 p. m. Funeral services will be held Saturday afternoon in the Masonic hall, Tex., Sheppard's home for 40 years.

Scottish Rite Masons Will Attend Services

Scottish Rite Masons of Midland and the vicinity will observe Maundy Thursday at a meeting at 7:30 p. m. tonight in the Masonic Hall.

Members of the Scottish Rite, who have received the 18th degree, were invited to attend the meeting, lodge officials said.

Scottish Rite club members of Midland, Stanton, Odessa, Monahans, Wink and Crane are expected here for the meeting.

Behind The Headlines

By DeWitt MacKenzie Associated Press Staff Writer.

The decisive engagement of the Battle of the Balkans still has to be fought, and as matters now stand it likely will hinge on the Greco-British main line of defense which is being forged across northern Greece, from the Bay of Salonika to the south Albanian port of Chimara on the Adriatic Sea.

Even this may demonstrate that the Balkan upheaval is merely a phase of a far greater project which is staggering in scope. Hitler's goal after he has smashed Yugoslavia and Greece (he hopes, and not without reason) is stated by the government-controlled Italian newspaper, *L'Espresso*, as the Suez Canal—a plan announced presumably calculated to serve some military purpose.

That is a logical possibility, as I suggested here last Saturday. It would involve the forging of the Dardanelles by the Germans and a drive through Turkey into the near East. This being the case, its fruition would depend on the extent of the Nazi success on the Balkan peninsula.

Two Possible Plans. There's still another possibility to which the British Premier Churchill called attention yesterday when he warned Russia "there are many signs that point to a Nazi attempt to secure the granaries and the oil fields of the Caucasus." Hitler might strike such a blow in conjunction with a drive into the Near East, or he might simply safeguard himself from attack in the Balkans and concentrate on the Bolsheviks for the time being.

Should the drive against the canal through the Near East eventuate we shall, in my view, find that the present Axis offensive along the Libyan coast is hooked with it very definitely, strange though that may seem. It is to this aspect of the situation that I wish to direct attention, especially since I have had numerous requests to explain the British Libyan retreat which has permitted an Italo-German force to recapture many of the Fascist posts so recently conquered by General Wavell in his sensational campaign against Italian Marshal Graziani.

No Italian Sting Left. When Wavell early in February took Bengasi—last Fascist stronghold in Libya save Tripoli—he had killed and captured so many of Graziani's men, and seized so much war material, as to render the great Fascist army impotent. There wasn't a wallop left in the Italian outfit, and the menace against Egypt and the Suez Canal had been removed for the time being.

Wavell found himself in the enviable position of (1) being able to go ahead and capture Tripoli; (2) employing his troops in the conquest of the rest of Italy's African possessions, or of (3) sending an expeditionary force to help the Greeks. Actually the cream of his army was sent to the Balkans.

In taking this action the British stripped the defending forces along the Libyan coast down to skeleton garrisons. Wavell did this deliberately, with full knowledge that the Axis might take advantage of the position to try for a come-back.

Troops Needed Elsewhere. The idea of this was to let the Italians over-extend their lines of communication so that the inhospitable desert would fight for the defenders. Precisely the same scheme was worked in the World War when the Turks and Germans attacked Egypt from the west. In both instances the British struck from Matruh and smashed the enemy.

Actually, as Premier Churchill explained yesterday, the Nazis managed to smuggle a large force of armored troops and planes through the British blockade to Tripoli, even before Wavell had captured Bengasi. Now they have struck in greater strength than the British expected so soon, and we see an Axis force of some 20,000 back-tracking and recapturing posts and cities with little or no opposition.

The only British reply has been that they are concentrating troops and they will deal with the enemy when the time and place looks good. This old desert strategy isn't new. The Britons employed it against Graziani, allowing him to advance clear to Sidi Barani in Egypt while they made their base 85 miles farther east at Matruh, head of the railway to Alexandria.

Named Midland Police Chief

L. P. McCasland, 31-year-old Texas highway patrolman, was appointed chief of police in Midland. His duties began April 15. McCasland is a champion pistol shot. He served with the police department in San Angelo before joining the highway patrol in 1936.

Phillips No. 1 Silverman Gauged At Natural Flow Of 254 Barrels In 3 Hours To Indicate Abell Record

By Frank Gardner Oil Editor.

Possible record production of the Abell Ordovician pool in Northern Peecos County was indicated by Phillips Petroleum Company No. 1 Sidney Silverman when it gauged natural flow through 2-inch tubing of 254 barrels in three hours.

Flow developed after 7-inch casing had been gun-perforated with 60 holes from 5,150-65 feet, opposite upper sand of the Simpson, middle Ordovician. Hole was located with down when the perforation job was performed. Two-inch tubing, perforated from 5,136-46 feet, then was swung at 5,150 feet and mud was displaced with water.

The well kicked off after several runs of swab, tanking 72 barrels the first hour, 92 the second and 90 the third. Only a small percentage of circulating water was present. The well was shut in at the end of the third hour but was scheduled to have started a six-hour potential gauge at 10 a. m. today.

No. 1 Silverman is a south offset to the pool opener, Stanolind Oil & Gas Company (formerly Taubert, McKee & Slemmons) No. 1 V. W. Crockett, completed last November for natural flow of 933 barrels in 11 hours and 23 minutes. The Phillips well was carried to a total depth of 5,635 feet but was plugged back to 5,610 after 71-hole perforation job from 5,586 to 5,619 feet, opposite lower sand, had resulted in swabbed production of slightly less than one barrel of oil hourly. Location is 330 feet from the north-east, 990 from the south-east of section 10, block 3, H.&T.C. survey.

Other Abell Wells. Stanolind No. 1 Conry-Davis Unit, four-mile east outpost to the pool, halted reaming at 2,952 feet and is preparing to run 9 5/8-inch casing. Total depth is 3,002 feet in lime. One mile northeast of the discovery, Abell et al. No. 1 Rixie is drilling past 3,400 feet in lime. Eastland No. 1 Simmons is shut down at 490 feet in anhydrite after cementing 10-inch pipe at 488 with 200 sacks. Slemmons No. 1 W. T. Walsh et al. is drilling past 1,398 feet in anhydrite. Magnolia Petroleum Company No. 1 Gerety is drilling anhydrite at 1,389, its No. 1-B Markey lime at 3,923, No. 1 J.

Gulf No. 3-A J. B. Tubb et al. farthest southwest well in the Sand Hills pool proper, recovered two feet of oil-stained, fractured Ellenburger dolomite by coring from 5,740-48 feet and is preparing to core two more feet. It had flowed 124 barrels of oil in three hours after acidizing with 5,000 gallons at 5,740 feet.

Gulf No. 1-F University, Eastern Crane wildcat and deepest active test in the Permian Basin is drilling at 10,582 feet in sandy lime. Teague Past 7,000. Magnolia No. 1 Teagu, deep wildcat in Northern Martin County, is drilling unchanged below 7,008 feet in lime and shale.

Gulf No. 6 Wristen Brothers, Silurian test in Southeastern Ward County, is fishing, bottomed at 6,784 feet in lime.

Engineers Stake Site For Midland Water Reservoir

Engineers today staked a location for a 300,000 gallon water reservoir—the start of \$70,000 waterworks improvement project for the City of Midland.

The reservoir will be at the Meissner farm. A. J. Gates, representative for Joe Ward, consulting engineer of Midland, is here to supervise preliminary work.

Representatives of a Lubbock firm, which has the contract for the project, were here yesterday and reported a crew of workmen probably would start work in a day or two.

Other phases of the project call for laying 16-inch mains to replace 10-inch lines; extension of the city's network of mains to include certain sections of the townsite; and the building of a pump house for new pumps.

City officials predict the project will be ready for summer irrigation.

Searchlights Pierce West Texas Skies As Soldiers Practice

Searchlights pierced the skies of West Texas last night as the Provisional Anti-Aircraft Searchlight Battalion of the 33rd Coast Artillery held a preliminary practice.

Beams of light from the powerful searchlights shot thousands of feet into the sky to locate a bomber which dodged around attempting to keep out of the light.

Major William H. Papenfuss pronounced the practice "satisfactory" and said the soldiers would be out with their equipment again tonight for a session. The command post was established atop the Petroleum Building.

Thousands of Spectators. It was Midland's first taste of modern anti-aircraft work and thousands of persons watched the beams of light swing in the sky.

The moon was on the job full force and caused some interference. Searchlight batteries prefer dark nights.

The soldiers stood inspection this morning before starting practice with searchlight equipment.

Lieutenant Colonel Charles S. Harris and Major Joseph Robinson, Coast Artillery officers, representing the commanding general of the Third Army with headquarters at San Antonio, arrived here for a routine inspection of the battalion and to offer helpful suggestions.

The searchlights will be located tonight in about the same positions used in the first preliminary practice. They will be ready for action at 8 p. m.

Axis Army Captures Tactician Of Britain

LONDON, April 10.—(AP)—The British acknowledged today that one of the six generals captured by a German-Italian force at El Mechili, Libya, was Lieut. Gen. Sir Richard Nugent O'Connor, one of the best tacticians in the British army.

Sir Richard was one of the right hand men of Gen. Sir Archibald P. Wavell, commander in chief of the British forces in the Middle East.

The war office at first gave out the name of the prisoner as Lieut. Gen. Sir Victor O'Connor but later corrected it.

In addition, the war department has chartered 10 freighters and Patterson said he had asked the maritime commission for more ships.

"Our greater activity in Hawaii, the Philippines, the Canal Zone and new Atlantic bases require full use of the transport service vessels," Patterson told a press conference.

Uncle Sam Takes Greenland Under Wing In Agreement Permitting Air Bases To Be Established On Island

WASHINGTON, April 10.—(AP)—The United States embraced Greenland within its hemisphere defense system today under an agreement permitting establishment of air bases and President Roosevelt said it was proposed to make sure the big island would remain a Danish colony.

The Chief Executive said in a formal statement that the present setup, which in effect brings Greenland under the protection of this government, "is a new proof of our continuing friendliness to Denmark."

Predicts Debate On Air Expansion. WASHINGTON, April 10.—(AP)—A spirited Senate floor controversy was reported in the making today over the most effective manner of expanding trans-Atlantic air service in preparation for a period of stiff international competition expected to develop after the war.

The dispute already has led to several heated sessions of the Senate appropriations committee which decided, after hearing a variety of expert testimony, to recommend substitution of a second airline to Europe in addition to that operated by Pan-American Airways.

The decision was made by a 14-13 vote. The proposed new service would be operated by American Export Air Lines, subsidiary of American Export Lines which is now operating a steamship service to Portugal. It has long had plans for an airline.

War Branch Diverts Troops And Supplies. WASHINGTON, April 10.—(AP)—The war department disclosed today that all army passenger and freight transport had been diverted to move troops and supplies between the United States and overseas possessions and bases.

Undersecretary Robert P. Patterson, announced at the same time that a complete censorship had been clamped on all military information on all overseas bases.

Twenty-six combination passenger-cargo ships and freighters which comprised the army transport service have been shifted to the new assignment.

In addition, the war department has chartered 10 freighters and Patterson said he had asked the maritime commission for more ships.

"Our greater activity in Hawaii, the Philippines, the Canal Zone and new Atlantic bases require full use of the transport service vessels," Patterson told a press conference.

British Raiders Hit Nazi Capital

LONDON, April 10.—(AP)—British air raiders dropped "powerful high explosive bombs" in the center of Berlin last night and started large fires, the air ministry announced today.

Overnight attacks also were made on an aluminum plant in German-occupied Norway and a radio station in Denmark, the British declared.

The British acknowledged the loss of eight planes in these operations and in daylight assaults yesterday on Brest and other targets, but declared that 11 German bombers were downed in heavy attacks last night on the English midlands and north-east.

President Asks For Broad Authority To Assert Ship Control

WASHINGTON, April 10.—(AP)—President Roosevelt asked Congress today for broad statutory authority to take over any "foreign-owned vessels bringing idle in our ports."

Nazi Blitzkrieg Slashes Through Greece To Border

Athens Sources Declare Main Army Is Intact As British Rush Northward

By The Associated Press. Fears of an imminent German attack on Turkey, neutral ally of Great Britain, were seen today in a Turkish government announcement that it had been "found advisable" to remove a considerable part of the population of Istanbul.

The announcement followed only a few hours after the Rome radio broadcast a report that Germany's ace diplomat, Franz Von Papen, ambassador to Turkey, had reiterated "the assurance that Germany has no intentions of attacking Turkey."

Istanbul lies on the European side of the strategic Bosphorus, link between the Dardanelles and the Black Sea. It is less than 100 miles from Germany-occupied Bulgaria.

Nazi blitzkrieg forces have already slashed down through Thrace in Greece alongside the Turkish frontier.

Greece's own struggle against the Germans took on a slightly brighter aspect as military quarters in Athens declared that her army remained intact "to deal a decisive blow at the German invader with Allied support."

British Hurry North. Battalions of British flame-throwers, tanks and armored cars newly arrived from Africa were reported rushing north today from Piraeus, the port of Athens, for a decisive battle with Adolf Hitler's blitzkrieg legions.

As the 5-year-old battle of the Balkans neared a showdown, unconfirmed rumors circulated in Budapest that Belgrade, the bomb-scarred capital of Yugoslavia, had been entered by Nazi troops.

German press dispatches indicated the British expeditionary force—estimated at 300,000 men—was massed in the vicinity of Mount Olympus, 60 miles southwest of Salonika, near the Aegean Sea coast.

Other reports said the British were compiling a new defense line stretching across the Green Peninsula from a point south of Salonika to the Albania port of Chimara, on the Adriatic Sea.

The Budapest newspaper 8 Oral Ujsag literally ("8 o'clock News") said Nazi troops racing across Yugoslavia had established contact with Italian forces in Albania.

German war correspondents said the break through the Greek Metaxas line was one of the war's hardest assignments for Nazi Panzer columns.

Stuka dive-bombers attacking for six hours, as well as artillery, played a prominent role in the attack, but the decisive break came when flame-throwers, grenadiers and infantry stormed Greek defense bunkers.

President Asks For Broad Authority To Assert Ship Control

WASHINGTON, April 10.—(AP)—President Roosevelt asked Congress today for broad statutory authority to take over any "foreign-owned vessels bringing idle in our ports."

This authority, he said in a message to the legislators, should be subject to the payment of just compensation.

Although the Chief Executive had asserted Tuesday that he would recommend legislation to permit the purchase or charter of 39 Danish vessels which have been taken into "protective custody" by the coast guard, the language of his message today was not limited to the Danish ships.

The President cited a provision of the Merchant Marine Act of 1936 which authorizes him to requisition or purchase any American-owned vessels in time of national emergency or when the national defense makes it advisable. The section provides for a method of compensation.

WASHINGTON, April 10.—(AP)—President Roosevelt asked Congress today for broad statutory authority to take over any "foreign-owned vessels bringing idle in our ports."

## You're In The Oil Business

Every resident of the Permian Basin has an important stake in the oil industry and its future. Ranchers, farmers, businessmen, professional men and all workers of the vast area know what oil means to us.

More than 12,000,000 acres of West Texas land now are under lease and almost one million now produce oil. More development will come quickly. Oil is needed for National Defense and the Permian Basin is the world's largest oil reserve.

Oil money is spent and respend in West Texas until every merchant, businessman and professional man—in fact—everyone in our section gets a share of it.

For this reason Midland should be well represented at the annual Permian Basin Association convention in Lubbock Sunday and Monday. This organization unites men from every walk of life into a body to represent the best interests of the basin. Definite ideas and suggestions can be carried to conclusion through proper channels by the association.

It seeks to adjust and equalize taxes, proration matters and other legislative problems.

Midland is headquarters for the great organization. It is up to Midland to have at least 100 delegates at the Lubbock convention.

## A Loss To State And Nation

Texas mourns the passing of one of its ablest and most distinguished sons—Senator Morris Sheppard. His death was a loss not only for the Lone Star State but for the entire nation.

Known as dean of the national congress, Sheppard was chairman of the Senate's Military Affairs Committee and was in charge of considerable legislation for the National Defense program.

His 33 years in congress made him one of the top authorities in national and international affairs but he always arranged time to consider thoroughly problems of his state.

He was a wise counsellor and a willing aid of President Roosevelt. He was a good citizen, a good patriot, a leader, a statesman and an efficient public official. He was at all times faithful to his government, his state, his party, his friends and his family.

The nation has lost a real leader.

## Unlisted Defense Cost

We like to think that thus far the United States is building its defenses without extra costs in blood. And yet—

The National Safety Council, in listing the second worst February in history in regard to traffic toll, believes that at least half of the increase is due to defense activities. In the first place, there are in general more vehicles on the road, and more miles are being driven. Then the roads are also carrying hundreds of military vehicles that were not there before. Counties which have new defense industries almost uniformly show great increases in traffic accidents.

A certain amount of this is probably unavoidable. But now is the time to make every effort to cut these losses to a minimum. Hours lost to the defense drive in a hospital bed are just as completely lost as those lost on a picket line.

## Canadian Predicts Increase In Ducks

ST. LOUIS, — (UP) — American hunters can look forward to a fall season offering approximately 14,000,000 more ducks than the estimated 71,000,000 last year, according to Tom C. Main, Canadian manager of Ducks Unlimited.

Main told members of the Mississippi Valley region of Ducks Unlimited that he expected about 85,000,000 birds to go south next fall.

He said he expected continuous increases in the number of birds if "they only are given a chance to reproduce." Main held that closed seasons were not necessary to increase the number of ducks.

"Drought is our biggest enemy," he asserted. "If we can preserve the breeding grounds the crops will increase." He estimated that drought last year caused the death of 22,000,000 ducks.

## Sweetwater Gets PTA Convention

BIG SPRING, April 10—(Special)—Sweetwater was named as site for the 1942 convention of the sixth district PTA at the 1941 convention which closed here today. Registration reached 309 for the meeting which opened Tuesday.

Mrs. L. B. Byerley of Midland, sixth district president, presided. The publicity book of the Midland High School PTA won a gold award and a rating of 100 per cent in one division, and the yearbook of John M. Cowden Junior High School PTA of Midland was awarded a rating in another.

Mrs. Ernest Sidwell was named on the nominating committee for next year's officers.

Mrs. Jas. H. Chapple of Midland was speaker at the Spanish-speaking conference group meeting yesterday and Mrs. Glenn Brunson assisted Mrs. A. L. Morgan in conducting a question box yesterday.

Dr. W. E. Irvin of Lubbock presented the chief address at the Wednesday night session, speaking on "The Home in American Democracy." The home is the hope of the world today, he told his hearers. He also said that when women are admitted to equality on an equal plane with men there will be no war and that wars have become fewer since women began gaining rights.

Mrs. Byerley was presented a life membership by Midland PTA's.

## Traffic Toll Reaches Five Deaths, \$10,000

The traffic accident toll of life and property in Midland County for the first three months in 1941 was: five deaths and \$10,650 loss in property damages.

Only accidents involving loss of life or more than \$25 in property loss were included in the report, made by Franklin Manning, city motorcycle officer.

There has been 51 accidents and three fatalities in the city limits, Manning said.

## Stevenson Was Ready But Opens Failed

AUSTIN, April 10—(AP)—Lieut. Gov. Coke Stevenson was in a jovial mood to start the new legislative week. When a quorum was lacking for the morning session, he commented, dryly: "Seems like we haven't got orders."

A group of reporters watched Governor W. Lee O'Daniel pen his signature to the anti-violence bill which was sped through the legislature on the governor's recommendation.

Son Pat O'Daniel sat in a nearby chair. "Can you really enforce it?" he asked his dad.

Colleagues admit Senator A. M. Aikin, Jr., of Paris, chairman of the important Senate finance committee, puts in the longest working day of any upper chamber member.

Since the session began Jan. 14 he's missed working only four nights. The finance chairman handles a greater volume of work than other committeemen, for it is his group that frames the big appropriation bills which are worked up item by item over a long period of time. Each one is turned out to a subcommittee but the chairman works with all of the subgroups.

## Newspapermen To Talk On National Defense

SAN ANTONIO, April 10—(AP)—Problems created by the national defense program and those pertaining to the publishing business will hold the attention of newspapermen of the South Texas Press Association at their annual convention here Friday and Saturday, April 25 and 26, it was learned today.

Col. James A. Mars, retired army officers, will speak on "Newspapers and National Defense" at the opening session. Raymond Foy of Dallas will outline advertising prospects in Texas and Sam P. Hardin, secretary of the association, will talk on valuation and insurance.

## House Will Throw Triple-Barreled Investigation At Defense Program; May Takes Lead But Has No Money

By Peter Edson  
Midland Reporter-Telegram  
Washington Correspondent.

WASHINGTON, April 10 — And now comes the inquiry. What started out as one congressional investigation of the defense effort has now blossomed out into a magnificent triple boom.

It won't be just Senator Truman's committee investigating the \$40 billion already earmarked for national defense and aid to Britain. On the other side of the capitol will be two more probes.

The House of Representatives, not to be outdone by the Senate, has doubled the bid and authorized both its Military and the Naval Affairs Committees to dig into their respective fields of construction for destruction and the dirt will fly.

The job was just too stupendous for Senator Truman's committee to get going on April 7, as had been announced, so the Senate show will not hold its premiere until April 15.

Wiry, baldish Andrew Jackson May of Prestonsburg, Ky., chairman of the House Committee on Military Affairs, has let no grass grow on his parade ground, so the first review of what's wrong with defense will be marched past his reviewing stand at the double quick in short, as well as close order. The House Naval Affairs Committee, under chairman Carl Vinson of Milledgeville, Ga., will not weigh anchor on its forced draft cruise of exploration until the end of the month.

Recess or no recess, Chairman May kept his committee in school and so, with no competition, he will have a monopoly of the headlines for two weeks, at least. He is going ahead practically without money, for the House recessed without authorizing funds for the investigation. May would like to have \$100,000 for the job. Truman, you may remember, got from the Senate only \$18,000.

## County Agent Conducts Treating Demonstrations

Two seed treating demonstrations, conducted by County Agent V. G. Young in a series over the county, were held today at the Earl Fain and W. M. Long farms.

Young reported today that 3,775 pounds of planting seed had been treated for smut.

## British Acknowledge Nazi Capture Claims

LONDON, April 10—(AP)—The British war office acknowledged today that German claims to the capture of 2,000 prisoners in the Axis thrust in Libya "would not be impossible under the conditions in which the encounters have been taking place."

The British have concentrated east of Bengasi in "an area more adapted to further operations," today's Middle East communique said, adding that in a period of several days "we have inflicted considerable casualties on the enemy."

## MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging back-ache quickly once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or stinging passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

# Civic Music Club Presents Annual Benefit Concert At North Ward

## Appreciative Audience Hears Group Of Chorus Numbers, Piano And Violin Compositions And Dance Selection

A receptive audience of approximately 175 persons Wednesday evening heard the Civic Music Club present its annual benefit concert at North Ward auditorium. Piano, violin, and chorus numbers, with a dance selection composed the varied program for the evening.

Opening number was a double selection, "On Wings of Song" (Mendelssohn) and "Down South" (Myddleton) played by Miss Jesse Scott Price and Jack Hurt at two pianos.

This was followed by two chorus numbers, "Gypsy Life" (Hungarian Dance No. 5 by Brahms) and "Rain on the River" (Fox) sung by selected voices.

Piano duets, "The Swan" (Saint-Saens) and "Parade of the Wooden Soldiers" (Jesse) were presented by Mmes. Joseph Mims, Robert M. Turpin, John Dunagan, Lee Cornelius.

"Concerto in D Minor" (Bach) Allegro was presented by Mrs. W. Lloyd Haseltine and Mrs. Edmond S. Hitchcock, violinists, accompanied by Mrs. Cornelius.

Mrs. Langdon Tennis presented an interpretative dance, "Valse Tri-ste" (Sibelius) with Mrs. Frank Miller playing the accompaniment. The dance is that which a son, watching by the bedside of his sick mother, sees her rise and give just before death comes.

A two-piano presentation of "The Singing Fountain" (Nieman) and "España Rhapsodie" (Chabrier) was played by Miss Frances Gillett and Mrs. Cornelius.

"Tales from the Vienna Woods" (Strauss) was sung by the chorus, Mrs. Haseltine and Mrs. Hitchcock playing the violin obligato.

Mmes. Mims, Turpin, Dunagan, and Cornelius again presented piano duets, "Naxos" (Nevin) and "Al Fresco" (Herbert).

"Gigue" (Stoessel) was a two-violin selection by Mrs. Haseltine and Mrs. Hitchcock, with Mrs. Cornelius accompanying.

"Manhattan Serenade" (Alter) and "Hungarian Rhapsodie No. 2" (Liszt) were played at two pianos by Mrs. Frank Miller and Wallace Wimberly.

A chorus, "God Bless America" (Berlin) closed the program.

Mrs. F. C. Cummings, club president, was in general charge of concert arrangements.

Mr. Wimberly and Mrs. Cornelius were piano directors.

Mrs. De Lo Douglas was director of the chorus and Mrs. Holt Jewell was accompanist.

## We, the Women

By Ruth Millett  
 Women of forty and fifty spend a great deal of time, thought and money to make themselves LOOK young. And they succeed. Then they turn right around and TALK old. It's very disappointing to men—as an observing man pointed out to me the other day. "You meet a young-looking, attractive woman at a party," he says, "and don't give a thought to her age. Then she brings into the conversation with such a remark as 'a woman as old as I am,' or 'at my age' or 'if I were younger' or even 'an old woman like me,' and right away she makes you more conscious of her age than her attractiveness." He thinks it is a sad mistake for any woman under 70 deliberately to call attention to her years. Why it's a mistake should be realized by such women, most are smart enough to keep the appearance of youth far into middle age without having to have a man point it out to them. But women don't seem to be smart enough for that. Listen and you'll hear them make such remarks about themselves constantly. A Defense Mechanism They have a reason, though not a sound one, for doing it. It is a defense. They start calling themselves old before anyone else gets a chance to. It is the same defensive attitude that makes a person belittle his own ability. If he doesn't appear to think he is as smart as the next fellow, he feels sure there will be less chance of anyone criticizing his brains. But it doesn't work that way. The woman who calls herself old is accepted as being old. And the person who belittles his ability may be liked, but he loses the respect of even those who like him. So unless a woman really would rather be thought old than young—and proves it by neglecting her appearance—she shouldn't talk about her age, even to her family. A woman isn't as young as she LOOKS. She's as young as she LOOKS and TALKS.

## SERIAL STORY

## DOLLARS TO DOUGHNUTS

BY EDITH ELLINGTON

YESTERDAY: Bee is furious when she learns the merchandise manager has stolen Anthony's idea. Refusing to listen to Anthony's protest, she leads the way to Mr. Fletcher's office, rushes in, demands an explanation. Fletcher is cold. "The idea was good so the store adopted it. There's nothing more to it. Perhaps you'd like to talk to the general superintendent." Bee snarls: "We will. Now. In this office."

## WEEMING STEPS IN CHAPTER XXVIII

"WHAT are you going to do, Bee?" Anthony asked oddly, reaching for the telephone. "You can't call Sheldrake! He wouldn't come!"

"Oh, yes, he will! Take your hand off the phone."  
 "But Bee, wait a minute—"  
 "What's the matter with you?" Anthony said evenly, "I'd rather you wouldn't."

"I bet you'd rather!" Mr. Fletcher sneered. "Let her go ahead. Let her call him. Do you think she'd even get to talk to him? His secretary's not that dumb."

Beatrice whirled on him. Suddenly all the arrogance of the days before she became Bee Davis was in her small face, in the lines of her body, in the way her voice cut levelly through the stillness.

"We've had quite enough from you, Mr. Fletcher. You are not only a thief, and a despicable coward who lives by picking the brains of helpless employees who work under you, but you are also an insufferable bore. I dislike being in the same room with you!"

She took Anthony's arm. "Come, we'll go to Mr. Sheldrake's office ourselves. I can't bear this person another moment."

Mr. Fletcher's mouth hung open. Anthony was looking at her in complete bewilderment. But he walked out with her, obediently.

IN the hall, he said admiringly, "Whew! You certainly laid it on the line that time." Then he said, slowly, "But we can't go to Sheldrake's office, of course."

"Why can't we?" She was boiling mad. "If you think Fletcher can hide behind Sheldrake, if you think I'm going to let anyone in this store intimidate me—"

"No, no, that's not it at all!" A curious embarrassment crossed his face. "It's just that I'd rather not see Sheldrake."  
 "Why not? You saw Fletcher. You can't give up now."  
 "Yes, but—but . . ." His eyes avoided hers.  
 "Anthony Bradley, are you afraid of the general superintendent?"  
 "No. I'm not afraid. But—" his hands balled up into fists, "I'm not afraid, Bee. But darn it, the man knows me!"  
 "Knows you? What do you mean?"  
 Anthony looked at the floor. Slow, painful red rose about his collar. He raked his strong fingers through his dark hair. "He—he knows me, that's all. He knows my connections and—"

"What connections? What are you getting at? Do you mean you knew his son or something like that at school and now you're ashamed for him to find out you've been working here as section manager?"  
 Anthony gulped. "Well, no. Not exactly. The fact is, I—I met him several times in the office of the old man. And he might think—well—"  
 "You mean you met him in the office of the old man who helped you through school? Your guardian?"  
 "Yes."  
 "But what has that to do with this?" She pulled at his sleeve. "Are you coming with me, or aren't you?"  
 "Bee, I can't. It would—it might reflect on my guardian."  
 "Reflect on your guardian? Are you out of your mind?"  
 She thought she understood, a moment later. She asked slowly, "Does your guardian do business with this store? Is that it? You're afraid a quarrel with Sheldrake might result in lost sales?" Anthony had once said he might have pulled strings to manage a promotion here, she remembered. "That's what you meant when you said you hated pull? Your guardian could have spoken to Mr. Sheldrake. You didn't want him to?"  
 "In a way," Anthony admitted uncomfortably.  
 THERE was a sound behind them. They turned to see Mr. Fletcher, brick red, running after them and shouting. "I called Mr.

You didn't want him to?"  
 "In a way," Anthony admitted uncomfortably.  
 THERE was a sound behind them. They turned to see Mr. Fletcher, brick red, running after them and shouting. "I called Mr.

Sheldrake myself!" he cried. "He's coming right down. You can't get away with this impudent insubordination, either of you. Now you two come back into my office and see Sheldrake, if that's what you were so hell bent on."  
 He rubbed his hands together. "A nice state of affairs when a salesgirl from the basement can barging into my office and insult me! I'll show you."  
 Behind Mr. Fletcher, his secretary stared with round, almost frightened eyes. Doors all along the corridor—the doors of department managers and head buyers and merchandise men—were flung open.

Beatrice saw Anthony's chin come up. He straightened his shoulders, took a long, deep breath. The muscles at his jaw bunched. But his hand on her arm was steady.

For the first time since Anthony told her about Mr. Fletcher's having stolen his idea, she remembered that Anthony didn't know who she really was. She could squelch both Fletcher and Sheldrake. She could blow the whole shabby mess wide open. But what would it do to Anthony?

It was too late to back down. She walked back into Mr. Fletcher's office beside Anthony with a blank face and high-held head. Carefully, and pointedly, she avoided any stray contact with the person of the paunchy, prematurely triumphant Mr. Fletcher.

Anthony drew up a chair for her. He sat down beside her. Mr. Fletcher scrambled around his big desk and stood there behind his protections, breathing hard.

A MOMENT later someone roared angrily outside. A tall, burly man in a dark business suit burst into the room.

"What's the meaning of this rumpus, Fletcher?" he demanded peremptorily. "Have you lost your mind? Can't you handle anything by yourself? Must I be annoyed for every blasted trifle?"

He surveyed the two young people sitting against the wall. "Now what the devil is all this?" Then his expression changed. He seemed to be puffing up in a vast and sullen fury. His collar was too tight for his neck. A vein in his forehead bulged.

"Oh, so it's you, is it? You whelp! So old man Weeming has been spying on me!"  
 "Weeming?" Beatrice bounced to her feet. "Did you say Weeming, Mr. Sheldrake? What connection has Mr. Weeming with Mr. Bradley?"

### Midland Plans To Send 100 Delegates To Annual Permian Basin Convention In Lubbock; General Brant To Speak

A bob-tailed convention for busy people of the vast Permian Basin of West Texas is the promise of the Permian Basin Association for its third annual session in Lubbock, April 13 and 14.

Hamilton McRae, PBA president, announced the innovation today, explaining that West Texas is so busy with national defense and business problems it would be unfair to drag out the important work.

West Texans are busy developing their oil and cattle industries and haven't time to spend days at a convention, he pointed out. For this reason the program will be abbreviated to vital essentials in a day's real work.

Capping the day of work will be an evening entertainment program.

This novel arrangement was worked out by McRae, Wilburn Page, executive secretary of the PBA, and its other officers.

Plans Large Delegation. Midland headquarters of the PBA, plans to send a hundred of its leading citizens to the Lubbock convention. An On-To-Lubbock committee has been organized. Allen Watts is chairman.

Principal speakers at the convention will be General G. C. Brant, commanding general of the Gulf Coast Air Corps training center, Randolph Field, San Antonio, and Charles I. Francis, Houston attorney.

Gen. Brant's topic will be "What the Defense Program Means to the Oil Business."

Registration will begin at noon April 13, followed by committee meetings. A championship horse show is a feature of the afternoon.

Other speakers include McRae, S. E. Cone of Lubbock, vice-president, Dr. Clifford B. Jones, president of Texas Tech, James N. Allison of Midland, G. H. Nelson, Lubbock, Sam B. Cantey Jr., of Fort Worth, and officers of the PBA which serves the nation's largest oil reserve.

Much Interest. Oil is vital to National Defense and every resident of the Permian Basin is interested in the oil business directly or indirectly. The Permian Basin Association unites business men from every walk of life into an organized body to represent interests of the basin. It is a medium through which definite ideas and suggestions can be carried to conclusion through proper and definite channels.

It seeks to equalize and adjust tax problems, proration matters and all other legislative problems affecting all parts of the basin it serves. More than 465 companies are engaged in the production of oil in the Permian Basin.

Four Lubbock business men—Paul C. Teas, Rayford Hills, Sam H. Reid and Charles H. Read—met with business men here yesterday to arrange for a large delegation from Midland at the convention.

### Believe None Dead In Train Accident

VALDOSTA, Ga., April 10—(AP)—A passenger train was wrecked near Dupont, Ga., today but first reports indicated none of the passengers were killed.

Thomas Giddens, ambulance driver for a local mortuary, brought one of the injured passengers here. He reported several coaches of an Atlantic Coast line train overturned.

Giddens brought Mrs. Sol Leif of Chicago to a hospital in Valdosta. All local ambulances were sent to the scene, about 15 miles north-east of Valdosta.

### COUPLES URGED TO STUDY MARRIAGE MORE CAREFULLY

BOSTON—(UP)—Dr. A. Warren Stearns, Tufts College Medical school dean, believes a happy marriage "is a matter of weighing assets and liabilities" and recommends every person getting married obtain a case history of the other party.

Dr. Stearns advises: "Don't marry an undesirable man on the basis that you are going to make a good husband out of him. A confirmed bachelor is not a good prospect—generally something wrong with him.

"But that's not true of an old maid. She can't go out after a mate the way a man can."

### BOY, 9, WEIGHS 290 FOR HEAVYWEIGHT CROWN

GLOUCESTER, Mass.—(UP)—Heavyweight honors are claimed still by 9-year-old Joseph Dandaza, Jr., who tips the scales at 290 pounds, but his crown never was more insecure.

His younger brother Salvatore, although not yet 3 years old, already weighs 85 pounds—more than Joe weighed at the same age.

Joe isn't worried, however. A year or two ago he went on a diet and peeled off a mere 60 pounds. Then he was stricken with pneumonia and the diet was suspended.

Now ice cream sodas are back on Joe's daily menu and in the last 14 months he gained 110 pounds.

Tickets for the lecture to be given here by E. R. Knickerbocker, noted war correspondent, on Sunday, April 27, were distributed to Bundles of Britain members at a meeting of the organization, Wednesday morning at the courthouse.

Mrs. C. G. Cooper is chairman of the ticket sales and additional tickets may be obtained by calling her at phone 1569-W.

Three more afghans were delivered to the organization and Dorothy Turner contributed ten dollars for wool.

Present were: Mmes. M. C. Ulmer, E. H. Ellison, Andrew Fasken, C. G. Cooper, C. W. Covington, R. G. Schuehle, M. D. Self, Harry Adams, McKinsey, E. M. Miller, A. E. McKay, G. Galligan, Frank Stubbsman, J. B. Sanders, J. H. Epley, Roy Downey, Sherrill White, and Miss Marguerite Hester.

### Scharbauer Is Officer Of Museum Association

LUBBOCK, April 10—(Special)—The completion of the West Texas Museum building, situated on Texas Tech campus, is the goal of the museum association.

Dr. J. T. Hutchinson of Lubbock was named president. Other officers are: George P. Kuykendall of Lubbock, first vice-president; Clarence Scharbauer of Midland, second vice-president; Ray F. Hinohey of Lubbock, third vice-president; A. B. Davis of Lubbock, fifth vice-president; and Mrs. A. G. Hinn of Plainview, sixth vice-president.

# Gotham's Two Million Italians Big Fascist Problem For U. S.

### Informed Observers Estimate One-Third Are Il Duce Backers

By Tom Wolf  
NEA Service Staff Correspondent.

NEW YORK, April 10 — After Rome, all roads lead to New York. About 2,000,000 persons of Italian origin crowd the metropolitan area's many "Little Italy" districts. That is twice the total population of Italy's capital, and largest city. With relations between the United States and Italy severely strained over American seizure of Italian ships and the recent request for the recall of Admiral Alberto Lais, Italian naval attaché at Washington, the conduct and attitude of these Italian-Americans becomes of the utmost importance.

Most informed observers estimate an "appallingly high" number of pro-Fascists among New York's Italian-Americans—from 30 to 50 per cent. How is this potential fifth column group organized? How will the strained U. S.-Italian relations affect its activity? Few Wear Blackshirts.

Practically without exception there are no organizations in New York City whose members actually wear blackshirts. Prior to 1929 many Italian Fascists openly strutted down New York's streets in raven-hued shirts. But in that year their chief organization, the Fascist League of North America, was broken up and driven underground.

Today most of the Fascist activity is carried on in the guise of various "cultural" and "educational" groups. These groups are under supervision by a central local Italian organization. This, in turn, is directed from Rome by the Association of Italians Aboard.

Not All Propaganda. As in the case of Nazi propaganda in this country, the slithers which suck Fascism from Italy and spew it into America are the Italian consular officers, who can operate with certain immunity. Assigned to every consulate are a number of "cultural attaches," whose duty is obviously the spreading of Fascism.

That the work of the various attaches may call for more than propaganda, however, is seen in Secretary Hull's request for the recall of Admiral Lais, connecting him "with the commission by certain persons of acts in violation of the laws of the United States."

It is unlikely that the strain on U. S.-Italian relations will materially change the methods of the Fascist Italian-Americans. They reach large audiences operating as cultural, social and educational organizations. They can spread the good word in safety and await the moment to strike.

The two sons of Italy, pictured at left, above, giving the Fascist salute at a pro-Nazi celebration near New York, are in the minority. The wearing of black shirts by Fascist-minded Italian-Americans has lost favor to more subtle forms of propaganda.

This is not Rome, but the sidewalks of New York during a church holiday in one of the city's many "Little Italy" districts. Nearly twice as many Italians live in the metropolitan area as in Rome itself.

### Easter Smartness Starts From Ground — With Good Shoes

By Alicia Hart

The woman who intends to be poised and gracious as well as beautifully dressed on Easter morning spends even more time buying new spring shoes than she does on buying a hat or any other accessory. She knows that unless her feet are as comfortable as they are trimly smart her entire appearance will suffer. Nothing puts a strained look about the mouth more quickly than pinched or otherwise uncomfortable feet.

If she decides to buy simple pumps (just as right with suits as with silk dresses and coats), she shops until she finds a pair which won't cut into her instep. Unless she can find shoes which do not slip up and down on her heels when she walks, she has special pads pasted inside, around the back of each shoe. These eliminate all danger of blisters.

Most important, she insists upon being properly fitted. She stands while the salesman measures her feet. No matter how much she likes them, she refuses to buy shoes which seem even slightly too snug.

**HIGH HEELS ARE NOT ALWAYS BEST**

She buys shoes with medium height heels for walking and for general wear in the office, getting

### We Are In The Army And We Like It

By Buster Howard.

FORT BLISS—The Army grows more interesting daily and we fast are becoming toughened to the rough, outdoor life. Every day brings new work and only part of each day is taken up with routine.

Our horse show was the best exhibition of horsemanship that I have ever seen. Enlisted men, officers and their families entered the show of the Fifth Cavalry which displayed the best of its 1500 fine horses. The arena contained many difficult hurdles but little trouble was experienced by riders.

The entire personnel of Fort Bliss participated in the Army Day review which required three hours. All equipment was in the ceremony. Army planes flew overhead and thousands of spectators saw the big review.

The El Paso "blackout" was a complete success and very interesting. During the "blackout" several Army planes were in the air and Army searchlights were used to spot them.

extremely high-heeled types for dressier wear only. She has long since given up the notion that only high heels make ankles look trim and slender. She knows that it is not difficult to find medium and even flat-heeled shoes that are really chic and ankle-flattering. Unless she can have more than one pair of spring street shoes, she does not get an open-heeled and toeless style. She knows that open toes and heels look silly on rainy days and that there are bound to be rainy days throughout the spring. As a matter of fact, if the budget allows for only one pair of shoes, plain pumps are the wisest choice. And they ought to be in a dark, neutral color which will go with everything. Red or green shoes—pretty as they are—are for those who have fairly elaborate shoe wardrobes.

### Jaycees Expect 200 Persons At Banquet; Culberson To Speak

Two hundred persons are expected to attend the second annual Midland Junior Chamber of Commerce banquet at 8 p. m. tonight in Hotel Scharbauer. Olin C. Culberson, member of the Texas Railroad Commission, will be main speaker.

Jaycee officers said ticket sales for the affair had been brisk. Junior Chamber members of clubs in the area and oil and business men of the Permian Basin were invited.

Nominations for Jaycee officers will be approved tonight. They are: Tom Brown, president; Delbert Downing, first vice president; Horace Busby, second vice president; Bill Collyns, secretary; Cecil Waldrep, treasurer; Ed Prichard and Bill Portwood, two-year directors; and Clint Dunagan and Ray Gwyn, one-year directors. Riley Parr, chairman of the nominating committee, will present the report of his committee.

Inman Is Toastmaster  
Curt Inman, retiring president of the junior chamber, will be toastmaster, and W. P. Z. German will introduce Culberson. Musical numbers will be on the program. Jaycees will vote on a proposed amendment, which states: "no officer with the exception of secretary shall be eligible for the same office for more than two terms."

### Fifty Cameramen Rush To \$10,000 Ohio Blaze

KENT, O.—(UP)—Honors for the most photographed fire in the country this year ought to go to a \$10,000 blaze near here which attracted some 50 cameramen attending a short course in photography at Kent State University.

The cameramen, who snapped scores of pictures of the fire and the working firemen, were attracted by the flames shooting up from a fire at a dairy farm on the outskirts of the city. Their automobiles made a parade to the farm and tied up traffic for an hour as they mingled with autoists, volunteer firemen, and regular city fire fighting equipment.

### Personals

B. C. Girdley, Jr., Charles Goldsmith, Gene Lewis, and Bob Throckmorton, University of Texas students, will spend the holidays in Midland. Girdley arrived last night.

C. M. Clisbee, of The Investor's Syndicate, left today for Oklahoma City. Mrs. Clisbee and daughter, Carolyn will join him there when school is out here.

Alfred Vogel and Paul Anderson, University of Texas students, are spending Easter vacation here with their parents.

### 1941 Style Details Will Smarten That 1940 Wardrobe

By Alicia Hart  
NEA Service Staff Writer

The woman whose budget won't stand for a brand new, complete spring wardrobe can take tips for making old outfits look like new ones straight from the 1941 collections of America's smartest designers.

For example, it might be possible to add new zest to an old black evening dress simply by covering the front of it with tiny clusters of little yellow flowers. Mainbocher uses this theme successfully. For the home dressmaker the trick lies in not placing the clusters too close together and in fastening them on neatly so that there are no bulges and no loose ends of thread showing.

White pique collars and cuffs are headlined in a number of spring collections. It may be that new collars and cuffs of snowy white pique will give last spring's navy or black dress a fresh new look. Anyway, you might try this idea before resigning yourself to wearing last year's clothes just as they were.

It may be that last spring's coat can be made over into a cape. It may be that last year's red evening wrap can be shortened and worn this year over day dresses. Capes are news, and so are red day coats.

**More Ways Than One To Be Chic**  
Don't overlook the best-dressed women's trick of using neckwear, jewelry and clusters of flowers to make one dress do the work of several. Try changing the appearance of the skirt and wearing it with sweaters or separate blouses. There are more ways than one to be chic. The obvious way is to have plenty of money and plenty of time to shop. Any of the other ways demands imagination and a willingness to make use of good things left over from other seasons.

### Fourth Victim Of Car Accident Dies

SAN ANTONIO, April 10—(AP)—A head-on collision of two trucks near Pleasanton early yesterday which cost the lives of three men took its fourth victim today with the death of Emenojildo Hernandez of Cameron County, who died in a local hospital today.

Other fatalities in the accident were identified by highway patrolmen as George Oliver Carson, 23, Wichita, Kan.; Alfredo Lugo, 45, and Manuel Lugo, 25, both of Rio Hondo, Texas.

### Culberson Speaks At Rotary Meeting

State Railroad Commissioner Olin Culberson today told Rotarians, at their meeting, he is confident Democracy will be built up to an even higher plane before the war is ended.

He defined Democracy at work as a united effort in carrying out the nation's will. He urged all persons to have faith and keep united for defense of the United States.

"Our Democracy still is very much alive and kicking," he declared. **Will Speak Tonight**  
Culberson was introduced by Curt Inman, president of the Midland Junior Chamber of Commerce. The commissioner will be the principal speaker at the annual Jaycee banquet at Hotel Scharbauer at 8 p. m. tonight.

### Texas Company Increases Pay

HOUSTON, April 10—(AP)—In keeping with the trend toward higher wages in many industries in the Texas Gulf Coast area, the Texas Company is making an upward wage adjustment for many of its employees, it was announced today.

Such an adjustment has been made at the Galena Park refinery, effective retroactively to April 1. It was understood the increase at Galena Park was five cents an hour for hourly paid employees and that increases for those paid by the month will be handled individually. There are approximately 200 hourly paid employees at the plant.

Similar wage adjustments have been just completed for 95 per cent of Humble Oil and Refining Company and Humble Pipe Line Company's nearly 13,000 employees and for some 10,000 Magnolia Petroleum Company employees.

### Daisy Cake And Mint Sherbets For Easter Feast

By Mrs. Gaynor Maddox  
NEA Service Staff Writer

Glistening white, delicate yellow and cool green are spring-like colors. A rich, beautifully frosted daisy cake served with sherbet glasses of fresh mint and lemon ice will bring an Easter dinner to a spring-like and satisfying close.

**Fresh Mint And Lemon Ice**  
Half cup lump sugar (tablets), 4 medium-sized thin-skinned lemons, 1 cup hot water, 2 cups cold water, 3/4 cup granulated sugar, 4 tablespoons crushed fresh mint leaves.

Rub entire surface of lump sugar over rind of lemons which have been washed and sponged until dry. Over this lemon-flavored sugar lump, pour 1/2 cup of lemon juice, combined with the hot water. Add crushed mint leaves. Stir until sugar is thoroughly dissolved, then add the cold water, into which has been stirred the granulated sugar. Cover, strain and freeze in hand freezer, using 3 parts of ice and 1 part of rock salt. Serve in sherbet cups and garnish with mint leaves.

**Daisy Cake**  
Two cups sifted cake flour, 1 teaspoon soda, 1/4 teaspoon salt, 1/2 cup butter or other shortening, 1 1/4 cups brown sugar, firmly packed, 2 eggs or 3 egg yolks, unbeaten, 3 squares unsweetened chocolate, melted, 1 cup milk, 1 teaspoon vanilla.  
Sift flour once, measure, add soda and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and

cream together until light and fluffy. Add eggs, one at a time, beating well after each; then add chocolate and blend. Add flour, alternate with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased deep 9-inch layer pans or three greased 8-inch layer pans in moderate oven (350 degrees F.) 25 to 30 minutes. Spread Seven Minute Frosting between layers and on top and sides of cake. Double recipe for three 10-inch layers. Cake may be decorated with daisies made with pastry tube, or yellow flowers may be bought ready-made and placed on frosting.

**Seven-Minute Frosting**  
Two egg whites, unbeaten, 1 1/2 cups sugar, 5 teaspoons water, 1 1/2 teaspoons light corn syrup, 1 teaspoon vanilla.  
Combine egg whites, sugar, water, and corn syrup in top of double boiler, beating with rotary egg beater until thoroughly mixed. Place over rapidly boiling water, beat constantly with rotary egg beater, and cook 7 minutes, or until frosting will stand in peaks. Remove from boiling water. Add vanilla gradually to hot frosting, and beat until thick enough to spread.

**MENU**  
**BREAKFAST:** Grapefruit juice, codfish cakes, hot cross buns, coffee, milk.  
**LUNCHEON:** Pork and beans, brown bread, baked apples, tea, milk.  
**LARGE FAMILY EASTER DINNER:** Fresh pineapple and orange cup, roast turkey, giblet gravy, fluffy mashed potatoes, new peas, cold asparagus, vinaigrette dressing, fresh mint and lemon ice, daisy cake, coffee, milk.

### C. Of C. Receives Hockley Invitation

The Midland Chamber of Commerce received an invitation from the Hockley County Board of City

Development to attend that organization's first annual men's banquet tomorrow night at Levelland. Olin C. Culbertson, Texas railroad commissioner, will be the main speaker. He will go there from Midland.

## H. R. Knickerbocker, Prominent War Correspondent, To Speak At Midland High School Auditorium, April 27

H. R. Knickerbocker, war correspondent for the International News Service, who was in the thick of some of the fiercest fighting in the Nazi blitzkrieg on Holland, Belgium, France and England, will give an eye-witness account of what he saw in Europe during the historic summer of 1940 in a lecture here at 3 p.m. Sunday, April 27 at the Midland High School auditorium, under the auspices of Bundles for Britain.

Knickerbocker spent 17 years in foreign correspondence and covered three other wars before he was assigned as a correspondent to the British forces in Holland last spring.

He was in Ethiopia when Haile Selassie's dusky troops tried to hurl back Mussolini's legions, he covered the civil war in Spain and was in the Far East during the early months of the Japanese invasion of China. Knickerbocker literally has roamed the world for news for the past decade on a roving commission for the International News Service. In 1930 he won the Pulitzer prize for foreign correspondence. He is the holder of an award from the Atlantic City Headlines Club.

This distinguished journalist, who hails from the Texas prairies, was in Europe when the war broke out in the fall of 1939. He covered it throughout the dramatic early months and then returned to the United States in December for a lecture tour. He sailed back to Europe in the spring, however, and was in France when the great Nazi offensive began on the Western Front. He immediately was assigned to the British army as a correspondent and was with the British soldiers in Holland, Belgium and the disastrous battle of Flanders.

After the capitulation of the French he flew to England and continued his reporting of the war from English soil. Long before Munich the Nazis put a price on Knickerbocker's head. Hitler hated him because so often Knickerbocker had written dispatches warning of his plans for world domination.

H. R. Knickerbocker

Knickerbocker first went to Europe in 1923. Though he had worked on several New York newspapers, he had decided to give up newspaper work and study medicine. Hitler's abortive "Beer House Putsch" in November of that year ended his studies at the University of Munich and plunged him back again into journalism.

**Won Pulitzer Prize.**  
From Munich, Knickerbocker went to Berlin as official representative of the Philadelphia Public Ledger and the New York Evening Post. Two years later he went to Russia for the International News Service, where he wrote among other brilliant articles, the series on "The Red Trade Menace" which won for him the Pulitzer Prize for the best foreign correspondence of 1930. Then came Spain, Ethiopia, Vienna, China, Jerusalem, Prague, South America and finally Paris and London once more.

Hubert Renfro Knickerbocker was born at Yoakum, Texas, the son of a Methodist minister. He was educated at Southern Methodist Uni-

### Magazines And Books Wanted For Soldiers

Dig up your old magazines and the books you no longer wish to read and give them to soldiers at the Midland Baseball Park.

That is the plea of Harry Gossett who has agreed to take the magazines to the soldiers. He suggests they be left at the Chamber of Commerce office.

Even the comic magazines are enjoyed by the soldiers, said Gossett who already has provided some reading material for the camp.

### Flashes Of Life From Our People

By The Associated Press

CINCINNATI.—You can't please everyone.

When the city hall clock stopped some months ago, so many complaints were received that it was finally repaired. Then came complaints that it made too much noise striking, so it was silenced. "And now," Councilman Herbert Bigelow told city council, "requests are coming in to have the clock strike again."

ST. LOUIS.—This is a story about a Missouri mule.

It took a tow truck to move him. Only in this case it was mule over mind. The mule became deeply mired in mud and for once he couldn't, rather than wouldn't move.

CHICAGO.—Mrs. Esther Reidinger, 38, has a reducing formula but she doesn't recommend it. She misplaced three rings valued at \$1,650 and spent two days in frantic search before they were found. Sighed she: "Since those rings were missing I haven't eaten a bite and have lost seven pounds."

WESTBROOK, Minn.—Mrs. Thea Refsal and family have been eating 1940 apples fresh from their orchard.

A pile of apples, left on the ground last fall, became covered with snow. The snow was removed recently and the fruit was found just as tasty and fresh as when first picked.

### Russian Organ Says Pact More Valuable

MOSCOW, April 10.—(AP)—Red Star, organ of the Red army, said today the Soviet Russian-Yugoslav friendship pact signed just before the outbreak of the Balkan conflict is "all the more valuable under the new conditions because the Soviet Union always fulfills its international pledges."

The paper said the pact gave "new proof to the attractive force of the principles of the peaceful policy of Soviet Russia." "It also reflected further the strengthening position and international role of the U. S. S. R. and increases its influence on the development of international relations," the army organ added.

# SPRING JUBILEE

*Get into the Spirit of Spring*

**Buick SPECIAL Convertible Coupe with Press-A-Button Automatic Top, \$1138\***

**WHAT** you see here is something more than the very picture of bright and thrilling action and trim fresh styling.

It is something even more than the most talked-about automobile in America—it is the most outstanding Buick in all our long history.

It is selling at record pace—making valued new friends among people heretofore unacquainted with Buick—and it not only holds fourth place in the country as a whole, but in the nation's No. 1 automobile market it holds second place,

topped only by one of the lowest-priced cars.

Such a record, when made by a car of Buick's size, power and price, really calls for jubilee, so we're staging one.

In all Buick showrooms, starting April 12, you'll find special displays in fittingly springlike surroundings where you can see, admire, sit in and probe into the year's unquestioned Biggest Hit.

Here you can get the whole story about FIREBALL design that squeezes more good and more mileage out of gasoline—here you can get all the facts (and straight) about Compound

Carburetion,\* and how it ups mileage as much as 10% to 15% over last year's engines of the same size.

Here you'll see and can try out the very newest Buicks, the four new, more compact Buick SPECIALS that wrap up FIREBALL straight-eight life and ginger in an easy-handling package that is actually roomier inside than some sixes that cost you more.

In a word, here you see the values that set the standard by which all cars are being judged today.

Why not drop in and browse around? The latch string's out—you will be very welcome anytime.

**BUICK PRICES BEGIN AT \$915** for the Business Coupe

 America's Card Authority.  
 While on my trip through the various buildings at Annapolis, I had the pleasure of meeting Allan B. Cook in the English History and Government Department, referred to by the midshipmen as the "bull department."  
 Cook is an enthusiastic contract player. He told me that he proposed, within the next year, to arrange weekly duplicate contests for the midshipmen. That same evening I had the pleasure of playing in a rubber bridge game with Cook and was surprisingly pleased at the fine defensive game that he played.  
 Here is an example of one of the defensive plays he put up against me.  
 I would have felt better had West made the more normal opening of a diamond. And East would have had an easier defense if the lead had been the jack of clubs.  
 As it was, I played a low heart from dummy and Cook won with the ace. Then he cashed the ace of hearts. After brief consideration he led a low club.  
 I could see what might happen. I tried to discourage Cook by taking the club ace, casting the top diamond to discard a club, before leading trumps. But Cook jumped up with the ace of trumps, led a second club, and the ruff by West set the contract.

Answers to Monday's "Know Midland" quiz, delayed, will appear in a few days because there is some discussion as to who had the first bath tub in Midland.  
 Answers to the following quiz must be brought to Saturday's meeting:

1. Where is the electricity made that lights the city of Midland?
2. From what section of Texas does Midland gas come?
3. Where and in what way is Midland garbage disposed of?
4. What do the steam locomotives cost that pull the trains through Midland?
5. How long does it take 50 men to build one locomotive?

# British Fliers Raid Axis Desert Columns

CAIRO, Egypt, April 10—(AP)—Bucking sandstorms which hid objectives, the RAF has carried out many raids and inflicted casualties on German and Italian columns in the North African desert, the British reported today.  
 Thirty-one Italian planes were left in a damaged condition when the Italians fled Addis Ababa, a communiqué said.  
 The air force, cooperating in the capture of Massawa, Red Sea port, bombed Italian ships which were shelling the British troops. One ship was reported hit. Gun positions on Mount Umberto also were bombed, the communiqué said.

# Mines Bureau Reports Gas-Oil Development Tests Are Successful

WASHINGTON, April 10—(AP)—Success of experiments in this country to develop gasoline and oil from America's virtually inexhaustible coal reserves was announced today by the Federal Bureau of Mines.  
 The bureau declared that known United States coal reserves were sufficient to supply the nation's coal needs through the new process for about 3,000 years, at the present rate of consumption.  
 Some Bureau of Mines experts have declared the present supply of petroleum in sight by known production methods is sufficient to last only 15 years more, although other oil specialists reckon the underground supply to be considerably larger. On the other hand, coal reserves were estimated at more than 3,000,000,000 tons—enough, the bureau said, to yield upward of 3,000,000,000 barrels of oil.

Used in Europe  
 The hydrogenation process of synthesizing oil from coal already is in use commercially in Europe, especially in Germany, and the technique was applied to American coals in the bureau's Pittsburgh laboratories.  
 While definitely establishing the process as practicable, and in certain circumstances, advisable, the government technicians did not estimate the cost of gasoline and oil produced from coal on a perfected quantity output basis. From experience in Germany and England, however, it has been indicated that the cost would be considerably greater than through the use of crude petroleum.

 "I have learned I am to remain at San Diego, so we decided to marry as soon as possible."  
 Roosevelt is a captain at the U. S. Marine base at San Diego and there recently had been speculation that he might be transferred.

# German Opera House in Ruins After Raid

BERLIN, April 10—(AP)—The gay state opera house on Unter Den Linden, Berlin's downtown Broadway, was viewed as a complete loss today by firemen as a result of an attack on the German capital last night by British aid raiders.  
 The high command reported that the Berlin raid was the heaviest made last night by the British. Those targets included Emden and reman and several other points in northern Germany.  
 A dense cloud of smoke hung over the center of the city this morning, attracting hundreds of curious spectators, but the scene was roped off and hundreds of yards of high pressure hose criss-crossed the broad venue.  
 It still was not established how many incendiaries had hit the state opera house, which is one of Hitler's favorite theaters.

Major Attractions For Indoor Season

NEW YORK, April 10—(AP)—The liveliest looking dead thing around at this writing is the business of bashing beaks. They've been saying for years that boxing is dead. Well, with the \$52,000-odd gate for the Joe Louis-Tony Musto fust in St. Louis Tuesday night, the fight game neared the million-and-a-half dollar mark for the nation's major attractions in this indoor season. Which is about as dead as a loaded machine gun. The thousands the armored car took out of St. Louis arena brought the total for Promoter Mike Jacobs' productions alone this season over the million-dollar mark. This includes his stopovers in Detroit, Boston, Philadelphia, Chicago and St. Louis, as well as in his own backyard, Madison Square Garden, which is having an indoor campaign paved with gold and reminiscent of Tex Rickard's fabulous heyday. The Garden gross on fights since the sport of scrambling cats came indoors last September has been about \$722,500 for 19 fights, an average of more than \$38,000 a card, and, just to show how much the heavyweight title counts in the picture, Louis appeared on only one program in that time.

Sports Roundup

By Eddie Brietz NEW YORK, April 10—(AP)—Leo Lindy, famous Broadway restaurateur, says he has been offered one of the Boston ball clubs at a good price. . . Jimmy Carroll's latest derby future book odds make Dispose undisputed favorite at 3-1, with Whirlaway next at 4-1 and Curious Coin third at 6-1. . . One of the Texas papers which generally front pages the news when Sammy Baugh breaks his suspenders, ran an obscure eight line item on the market page when Sammy bought a \$50,000 ranch the other day. . . Nat Fleischer, knock down time-keeper in Louis-Musto bout, was paid \$200 and expenses for counting "one."

Couple Of Couples Pennsylvanians may enact A state-wide "day" for Connie Mack.

Although you can't class both as phoeneys, It was a black night for the Tonys.

Sports Bulletin Board Texas U. gave its 71-year-old tennis coach, who has served 34 years Sans Pay, a "day" last week. A week would have been more like it.

Dick Chapman, a member of Craig Wood's club, Winged Foot, bought his pro in the Masters' pool for \$600. Wood later took one-sixth of the investment which paid off at \$7,500. . . Comedian Fred Allen, who once graced the Boston U. campus for all of five weeks, sent the committee for "Friends for Boston U's athletes" a check for \$25.

Baseball men say if Bill Lee signs up those 6-1 odds on the Cubs will be shortened. . . N. B. C. will televise the Yankee-Dodger collision at Ebbets Field tomorrow. That was Tony Galento limping into the boxing boneyard.

Today's Guest Star Lynn C. Doyle, Philadelphia Evening Bulletin: "Next to the Coulee Dam, the Athletics are currently the most talked about power source west of Joe Louis."

Head And Seen Benny Goodman and Tommy Dorsey will get creators if the City College track team wins the Penn relays. As each athlete does his tuneups these days he hears his favorite record played by means of special amplifying system. . . Jack Renault, the old Canadian heavyweight, is a doorman at one of New York's Longchamps restaurants. . . And Charlie Gooch, former big league catcher, is house dick at Washington's Hamilton hotel. . . Oklahoma City fans saw something New Yorkers probably never witnessed when Bill Dickey let a foul drop to the ground six feet behind the plate's MVP, Vandermeer, third of Charlie Bachman's assistants at Michigan State to get the "call," leaves for camp this week.

Just A Guess "Snavely must rebuild eleven," headlines the N. Y. Sun . . . from the Wavely to the Snavely system, maybe.

Reagan Passes Up Major League For Marine Corps PHILADELPHIA, April 10—(AP)—Frank Reagan, Penn's great football and baseball player, probably kissed \$7,500 goodbye yesterday when he enlisted in the U. S. Marine Corps reserves. Definitely big league timber as a catcher, he was reported to have been offered that amount as a bonus for signing with at least two major league outfits. The Phillies were said to be one of them. But Frank passed up a big league career to serve Uncle Sam and will enter the Marine Basic School at the navy yard here in October for training. He already mailed in his draft questionnaire and figured he'd be called up in July.

Alessandro Volta, an Italian electrical wizard, invented voltaic batteries.

CRANE, April 10—(Special)—Crane high school will participate in track and field events, tennis and volleyball at the District 31 meet in Midland Friday and Saturday.

Entries are as follows: Tennis, singles, Faye Griffin and Tom Hogan; doubles, Eileen Stauffer and Lorea McCorkle, and Earl Teague and J. L. Hutchinson; high and low hurdles, Frank Vaughn; shot and discus, Elmer Grounds; half mile and broad jump, Billy Joe Maynard; half or mile, Harold Pettit.

Miss Achasan Morris' volleyball girls include Jean Seay, Eileen Stauffer, Lorea McCorkle, Faye Griffin, Beverly Thomas, June Armstrong and Dorothy Cantrell, Floy Whitwell, Joyce Allman, Darlene Earp.

RUSK COUNTY CLUB GIRL WINNER OF SCHOLARSHIP COLLEGE STATION, Tex., April 10—(AP)—Miss Hera Jeanne Harper of the Minden 4-H Club, Rusk County, was announced today as winner of the Texas Home Demonstration Association's college scholarship for 1941. It is the top honor for Texas 4-H Club girls.

Dallas Scotties Will Make Strong Bid For Honors

By The Associated Press Highland Park's defending champion schoolboy tracksters are back in the middle of the picture as the big drive toward the 1941 title begins.

The Scotties, with the brilliant Larry Wolf at last hitting his stride, galloped in with the district championship at Dallas yesterday and qualified some ten athletes for the regional trials next week at Denton.

Wolf, state quarter-mile champion, ran this distance in 49.8. Just eight-tenths of a second over the interscholastic league record; ripped off the 100-yard dash in 10.1 and anchored a mile relay team that whirled around in 3:30.6.

Scotties Even Bet Bill Hannum, a 12-foot pole vaulter, also won his event and that makes Highland Park an even bet against the field to romp in with another title.

Elsewhere district meets get underway over the state today, to finish out the first round leading toward the state meet at Austin in May.

The Dallas and Fort Worth city districts will name their representatives, Fort Worth is afternoon and Dallas tonight.

Tomorrow and Saturday meets are scheduled at ten other points. Eight regional meets next week will send 400 athletes to Austin for the grand finale.

Midland Bulldogs Drill On Blocking

Blocking was stressed in the spring training session of the Midland high Bulldogs yesterday as Coach Earle Clark's charges banged away at dummies in a drill.

Tackling, blocking and fundamentals have been objectives this week, and Clark expects to work on the same order today. Offensive maneuvers also have been included in drills.

Two Players Are Out Calisthenics and conditioning exercises topped off yesterday's practice. Ivan Hall, expected to earn the tailback position, was absent from practice because of illness. Wilford Lester, lettered end, also was ailing.

Clark set up dummies and lined the team in offensive formation. Backs and guards received blocking orders and slammed away at dummies.

ABC Tournament To Get Into Gear Again ST. PAUL, April 10—(AP)—The 41st annual tournament of the American Bowling Congress will again swing into high gear tonight, with more of bowling big names adding color to the national pin classic.

Heading tonight's card is Mort Lindsey of Stamford, Conn., who flew from Florida yesterday to compete with the Stamford, Conn. team. Lindsey is one of bowling's biggest names. He has won ABC titles three times and holds an average of 198 for a period of 28 years.

Kirby Is Titleholder Of Augusta Tournament AUGUSTA, Ga., April 10—(AP)—First place in the Women's Titleholders tournament goes to Dorothy Kirby of Atlanta.

Miss Kirby came in 16 strokes ahead of the field in the 54-hole play over the Augusta Country Club course yesterday, turning in second and third rounds of 72 to set a new women's record and obtain a total of 224. Women's par is 75.

DOWNTON PLAYS CHAPMAN IN NORTH-SOUTH TOURNEY FINEHURST, N. C., April 10—(AP)—Al Dowtin of Raleigh, ace North Carolina shotmaker, moved today against Richard D. Chapman, national champion, in the second round of the North and South Amateur Golf tournament.

Dowtin defeated Fred S. Hale of Boston 4 and 2 in yesterday's round, and Chapman had an easy time eliminating Donald Ritchie of Boston 7 and 6. The biggest upset was the ousting of George T. Dunlop, Jr., defending champion.

Horned Frog Player Visits Parents Here

Dave Wofford, Texas Christian University football player and former Midland high performer, arrived here yesterday to spend Easter holidays with relatives.

He said the Horned Frogs of TCU had completed a good spring training and opined they would be a strong club next year.

Woodrow Adams of Midland, also a TCU griddler, may not be able to come home for the holidays because of a job, Wofford said.
