Navy Abandons Hope For Sub Crew

Study Prospects For Oil Pipeline To East Coast

Proposed Carrier Also Could Serve Big Chicago Area

Opinions Of Major Company Executives Will Be Obtained

Prospects for construction of a crude pipe line from the vast Permian Basin oil fields to serve the Chicago market and the New York-New Jersey area were discussed here Saturday by a number of oil men of this section.

Meeting in the office of the Permian Basin Association, they elected P. F. Brown, vice president of the Honolulu Oil Corp., chairman of the session.

Routes of proposed pipe lines to rush oil to the worried east were outlined and discussed and several operators asked why the unlimited reserves of the Permian Basin were being overlooked in discussions at Washington.

A number of operators pointed out proposed lines would not be able to take oil from the basin and suggested the attention of Washington officials be called to the reserves of West Texas and that an effort be made to build a line from here to the Chicago and New York markets and refineries so that oil from this area can avoid the bottleneck which has developed on the Gulf coast because of a shortage of tankers.

MAY TIGHTEN ALLOWABLES Some operators suggested that if the bottleneck is not relieved quickly, allowances may be tightened in the Permian Basin. Midland is the pipe line junction of the Permian Basin area and several large tank farms are situated near here.

All operators pointed out present pipe lines from this area to the north and east are operating at capacity and that unless additional carriers are provided Permian Basin oil could not be delivered to fill National Defense needs and supply markets anxious to get more petroleum.

Executives of major pipe lines and oil companies operating here will be asked for their opinions on the situation and the oil men will meet again Monday noon.

Another meeting on the designation of proposed pipe lines will be held Thursday in Washington.

Some operators expressed the hope major companies would quickly arrange for construction of a pipe line to the big refineries of the Chicago and New York areas to handle West Texas-New Mexico crude oil

Officers Aboard The Missing Sub

Lieutenant Howard J. Abbott (left), commanding officer on the ill-fated sub O-9, and Ensign Marks P. Maganess, U. S. N. R. O-9 is one of the oldest subs in the U. S. Navy. (NEA Telephoto.)

Two Attempts Of Divers To Reach 33 Victims Fail

Tremendous Pressure Forces Rescuers To Give Up On Efforts

By The Associated Press PORTSMOUTH, N. H.—

(AP).—The first two attempts by Navy divers to reach the pressure-crushed submarine O-9 failed Saturday, and the probability grew that the craft and her 33 dead had found a permanent grave 440 feet below the surface of the Atlantic.

The second effort resulted in a descent of 370 feet—the deepest working dive ever made in the North Atlantic—but the tremendous pressure at that depth, said the Navy, laconically, forced "difficulty in breathing."

Earlier, Frank Knox, Secretary of the Navy, returned from the scene to report that "at that depth it is highly improbable that a salvage attempt would be undertaken."

He said "some form of service" would be held over the spot where the 23-year-old submarine rested upon a muddy clay bank, if it was decided she could not be raised.

Obviously moved, Knox expressed a reluctance to speak publicly at any length.

"Those poor fellows are dead out there," he explained. "They are just as much heroes as if they had died in action."

To Continue Dives.

George Crocker, 27-year-old native of Seattle, Wash., made the first two diving attempts today, and even after he finally had been hauled up, Rear Admiral Richard Edwards, commanders of submarines in the Atlantic fleet, announced the diving efforts would continue.

As searchlights played on the calm waters of a huge square marked as the resting ground of the ill-fated O-9, officials announced that the diving operations would continue through the night.

The glare from the little hand lamps carried by divers could be seen at infrequent intervals, apparently signifying another courageous attempt was being made to reach the submarine far below.

Navy May Enter Yards' Dispute

By The Associated Press

A conference of naval officers and an AFL international officer at San Francisco Saturday was followed by reports that the navy, perhaps in conjunction with the army, would take action Monday to put the strike-bound Bethlehem Shipyard back into production of \$300,000,000 worth of defense contracts.

The conference followed by a day a demand by Harvey W. Brown, international president of AFL machinists, that the union local striking at the Bethlehem plant and other shipyards in the area return to work.

Germans Move To Positions On Wide Front

NEW YORK, Sunday (AP)—A German radio announcement heard by NBC said "German troops all along the Russian border, from the Baltic in the north to the Balkans in the south, are moving to their last minute positions."

Condition Of Harrison Grows Worse

WASHINGTON (AP).—Senator Harrison (D-Miss) grew steadily weaker today and his family feared the end was drawing near. The 59-year-old Harrison underwent an operation for an intestinal obstruction.

Behind The Headlines

By Kirke L. Simpson

The longest days of the year that Hitler once assured his people would see Britain beaten to her knees by Nazi air power have seen British bombers doing most of the day and night air blasting instead.

No Nazi counter bomb barrage of notable vigor had fallen on England for a month or more. Night after night British fliers ranged the invasion coast from Norway to Southern France and deep into Germany. And Saturday British planes filled the skies over the channel, roaring East for a daylight attack on the "invasion" port of France.

Nazi air resistance encountered has been only normal in most instances. The bulk of the Luftwaffe clearly was somewhere else, although no authorized British spokesman professed to know why or what the protracted lull in the air attack on England foreshadowed. In part the stepped-up British air offensive sought an answer to the problem of where Hitler would strike next. It matched the brief and savage British tank foray in North Africa in that respect but apparently without like results in disclosing enemy strength and possible deployment for attack.

Spring Plans Revised

Certainly German air power would

British Fighters Attack Coastline Held By Germans

LONDON (AP).—British bombers and fighters struck the German-held invasion coastline in two mass assaults of 150 planes each today and claimed 28 Nazi fighters while losing only five planes themselves in the resultant far-flung battles.

Observers at the coastline who totaled the number of planes used pointed out that Britain now was attacking the continent with waves of fighters and bombers as great as Germany sent against England in the tremendous attacks last fall.

Around midnight Saturday the RAF was at it again, giving the Nazi held channel bases a blasting that made the ground tremble along the English Kent coast on this side.

"It was the fighter command's most successful day of operations since the battle of Britain last year and two of the largest sweeps yet made over enemy territory since our fighters resumed the offensive" the air ministry said.

The attacks which continued through the full light of the year's longest day and on into the long twilight, were described by U. S. Army and Navy air observers as "the most striking demonstration yet of increased RAF strength."

The attacks were the fifth in a week upon German coastal positions.

WASHINGTON UNPREPARED

WASHINGTON (AP)—U. S. government officials in Washington were caught short, entirely unprepared for Germany's declaration against Russia. President Roosevelt's aides said that so far as they knew he was not awakened for the news.

Adolph Hitler Declares War On Reds And Orders Army To March

By The Associated Press

Allies Capture Damascus After 14-Day Invasion

CAIRO (AP).—The ancient capital city of Damascus, a center of 4,000 years of war-spotted history, fell today to the British and Free French armies on the fourteenth day of their invasion of French-mandated Syria, the British Middle East command announced tonight.

The Allied forces marched into the ancient Moslem capital just 24 hours after they began to shell it with big guns. This bombardment was launched after French high commissioner Gen. Henri Dentz had refused a British ultimatum to withdraw his defending troops.

(The German radio reported that British artillery had destroyed Mezze, western suburb of Damascus, with artillery fire prior to fall of the capital. A French dispatch from Beirut, Syria, indicated that the capital itself may not have been defended. This dispatch said that French troops withdrew from the city, after which it was occupied by the British.

(The French, in dispatches from Beirut, admitted they had been forced to withdraw from the capital to positions to the north, where it was said the Vichy troops were taking up new defense positions.

(The British radio said French forces also were retreating northward toward Beirut. The radio said this meant the main body of French in the mandate would be concentrated in front of that coastal city and that the main battle for Syria might take place there.)

The fall of Damascus, believed to be the oldest inhabited city in the world came almost two weeks after Syria's frontiers were first crossed on the opening day of the campaign June 8.

The attacking forces apparently closed in hard in their final thrusts from both the south and west, with hard fighting today just outside Damascus.

A Beirut dispatch to Vichy said that 80,000 of Beirut's 180,000 inhabitants had fled that city to avoid British bombardment.

Threaten Beirut.

Taken together the reports meant that Damascus, 4,000-year-old capital of Syria, had been surrendered to the British and Free French siege forces while coastal Beirut, capital of Lebanon, was increasingly threatened.

Capture of both Damascus and Beirut might mean collapse of the Vichy resistance which had turned the "protection" offensive of the Allies into a bloody struggle of old comrades-in-arms.

The British and De Gaullists said that Lebanon and Syria had to be wrested from Vichy lest they become bases for German operations against Britain's bastions in the Near East, including the vital Suez Canal and the Alexandria naval base.

A Vichy report that the British had delivered an ultimatum to French Somaliland, giving that East African colony's administration the choice of joining the De Gaullists or undergoing a starvation blockade, gave promises of an extension of the struggle between Vichy and London.

"This ultimatum, without precedent in history, means condemnation to a slow death by famine of a population living in a land totally uncultivated with the intention of forcing it to declare a rebellion against the fatherland," said a Vichy note to Britain and the United States.

German troops marched on Soviet Russia along a 1,500-mile front from Norway to Rumania Sunday after a sudden, dawn declaration of war by Adolf Hitler and the London radio declared a statement had been issued in Moscow stating that Britain and the U. S. S. R. were in full accord.

The Italian army was said by the Rome radio to be standing by ready to aid Germany in the struggle.

A dispatch telephoned from Berlin to New York said German troops massed in East Prussia, along with soldiers from Finland and Norway in the north and Rumania in the south were on the march.

Adolf Hitler himself ordered the Nazi armies to move out after assailing the Soviet Union bitterly in a proclamation broadcast to the world.

He said he had had enough of Russian violations of the German frontier and had commended the fate of the Reich to the armies which have been all-victorious since September, 1939.

The German radio announced that within the next 24 hours representatives of the international press would be given documentary proof that Russia had come to a secret understanding with Great Britain behind Germany's back. Propaganda Minister Paul Joseph Goebbels read the proclamation and then Foreign Minister Joachim von Ribbentrop came on the air to read out a formal declaration of war against the nation with which Germany linked herself in a 10-year non-aggression pact less than two years ago.

Foreign Minister Ribbentrop, who negotiated the Nazi-Russian pact of 1939, charged in his radio declaration that the Russian secret police commissar had "systematically trained German Communists for the disintegration of Germany."

"The Soviet Russian diplomats and consular agents aided greatly in this," he added. "We are in possession of a great number of documents proving this and also sabotage acts. No less than 16 German ships have been attacked by sabotage."

Hitler, in his proclamation, said it was difficult for him to send an ambassador to Moscow in 1939

(See HITLER, page 4)

Attorney General Gerald Mann Tells Midland Crowd Johnson Is Friend Of CIO; Says He Will Support Roosevelt

Attorney General Gerald C. Mann pushed his campaign to Midland County Saturday with a two-fisted hammering of his foes in the wide-open United States senatorial race.

From the courthouse lawn, where less than an hour before Governor W. Lee O'Daniel addressed a crowd, the attorney general read a letter and asserted another opponent in the race, Congressman Lyndon Johnson, had a warm friendship with the CIO.

Mann also took several veiled pokes at the governor.

The attorney general, told the crowd which cheered him he did not have a monopoly on honesty.

"Neither do I have a monopoly in this race on the practice of holding drawings for bonds and cash prizes at political rallies, advertised as patriotic meetings. The 32-year old congressman from the tenth district has that distinction in this campaign for the place held so long by the high-principled Morris Shepherd.

Reads Letter "The young congressman seems to think he has a monopoly on the

reading of letters in this race. I have a letter that I want to read. It is addressed to a prominent Texas citizen. The letter is written on the letterhead of the CIO United Mine Workers Union and is signed by Welly K. Hopkins, its senior counsel. It contains the following statements:

"My friend, Lyndon Johnson, having announced his candidacy for the United States Senate, I am writing to you about him. I believe in him without reservation and most deeply and sincerely commend him to you. Let me urge upon you with all the sincerity at my command actively to support Lyndon. I have known him intimately for many years and I know that you will never have occasion to regret any assistance you may be able to render him."

"The best job is going to be done for Texas in the United States Senate by sending there a man of individual courage, personal conviction and the moral stamina to do

(See MANN, page 3)

Governor O'Daniel Asserts People "Should Rule Our Great Democracy" And Asks Votes Of Midland Citizens

Governor W. Lee O'Daniel Saturday asked Midland County citizens to send him to Washington as United States senator from Texas so he could carry his campaign to the nation's capital.

"The people should rule in our great democracy and I mean all the people and not a clique," he shouted from his special silver-domed sound truck.

"The people to rule must know the problems and what they are," he added.

He invited all his supporters to come to Washington to "see him," telling them "bring your dinner and horse feed and stay all day."

Describing himself as the "common citizen's candidate," the governor came to Midland with his family, bus, sound equipment, special truck from which he speaks and other motor cars and campaign equipment.

"The will of the great rank and file of people of Texas should be considered in this campaign and not the desires of professional politicians," he continued.

The governor charged political machines are trying to weaken his power and reviewed his administration at Austin.

"Behind One Leader"

"The people of Texas are behind one leader now and they will send him to the Senate June 28," O'Daniel said. "The professional politicians are trying to wreck our works by putting so many candidates in this race. This powerful political machine now knows none of its candidates can be elected."

"Elect O'Daniel and we will carry our program to Congress and succeed as we have with the Legislature."

"Give O'Daniel a landslide so Congress will know Texas is with him in his program for National Defense, social security and old-age pensions. I'm just your hired hand and that is why I come out and talk with you on the problems of government."

He termed his administration as governor as "Democracy in Action,"

(See O'DANIEL, page 3)

Urges Citizens To Trim Sunflowers And Tall Weeds

Miss Elma F. Graves, chairman of the city beautification committee of the Midland Chamber of Commerce, Saturday urged citizens to cut sunflowers and weeds which have become traffic hazards.

She received several calls from residents that sunflowers and tall weeds on vacant lots were obstructing the vision of motorists and urged that they be cut to aid in avoiding accidents.

G. R. Gibson of Columbus, O., has joined the geological staff of Magnolia Petroleum Company here. He formerly was a professor of geology at Ohio State University.

Lynn And Garza Counties In Spotlight As Tests Staked

By Frank Gardner Oil Editor

The northeast portion of the Permian Basin came in for renewed interest Saturday as Northern Lynn and Central Garza counties each received location for an important wildcat test.

The Lynn project is Ross Sport et al No. 1 J. E. Rice, two miles northeast of New Home. The proposed 5,500-foot test will start with rotary Wednesday at location 660 feet out of the northwest corner of section 18, block 11, E. L. & R. R. survey.

Garza's new test is Ed McAdams of Lubbock et al No. 1 K. Stoker, 1,320 feet from the south and east lines of the northeast quarter of section 942, block 97, H. & T. C. survey, six miles south of Post. It is scheduled to spud immediately with cable tools and is slated to drill to 3,500 feet unless production or sulphur water in the lime is encountered at shallower depth.

Wiggins & Hyde At 3,850

Five and one-half miles northeast of the City of Midland, Wiggins & Hyde No. 1 Stimson & Burley, Southwestern Martin County wildcat, late Saturday was drilling at 3,850 feet in anhydrite, red shale and brown sandy lime. D. E. Kervin of Dallas, vice-president and part owner of M. J. Delaney Company, which is drilling the well, was at the location and seemed optimistic over its chances of finding production. The test has checked favorably structurally on the anhydrite and Yates sand markers, topped at 1,870 and 2,820 feet, respectively.

Mascho Oil Company of Midland is plugging to abandon its No. 1 Gulf Oil Corporation University, Southern Andrews County failure about midway between the Emma and Fuhrman pools. Total depth is 4,517 feet, corrected by steel line measurement from 4,518 feet. A 30-minute drillstem test from 4,476 feet to total depth returned 80 feet of drilling mud, with no oil, gas or water present. Contract depth was 4,500 feet.

In Northwestern Andrews, Mascho No. 1 The Texas Company University is drilling at 4,326 feet in hard lime. Some sample analysts have picked top of the Grayburg lime at 4,175 feet. Magnolia Petroleum Company No. 1-20-38 B. B. Ralph, north of the west central part of the county, is drilling at 5,272 feet in porous brown lime. The well showed sulphur water in nominal Permian lime zones and is being carried deeper.

The Five-Ring Price Circus

One of the hardest jobs in a myriad of hard jobs now being tackled at Washington is Leon Henderson's job of trying to hold down the level of prices.

It is especially hard because every step in that direction is certain to tramp on somebody's toes. It is doubly hard again because some price rises seem inevitable; once they occur, they generate others.

The question of "Which came first, the hen or the egg?" is simple beside the question "Do wage increases cause prices to rise, or do rising prices make wage increases imperative?" The answer would seem to be "both," and both must be tackled at once in a way that makes the circus rider daringly riding two galloping horses look like a fireside chair-sitter.

Of course the whole thing is made trebly difficult because it must be accomplished, so far as possible, without infringing on the rights of labor or management, but through voluntary co-operation. Otherwise, there sits right around the corner flat government control of wages, profits, and prices.

When Henderson recently asked the auto industry to rescind an announced price advance, that looked tough in view of recent wages advances of around 10 per cent throughout the industry. But Henderson reasoned this way: "... price advances are not justified when profit levels are favorable, even though some costs have advanced. Moreover, no increases will be permitted when they merely anticipate as yet unrealized cost advances."

The whole problem of preventing rapid price increases, which, if big enough, could merge into an inflation which would be disastrous to everybody, is an extremely difficult one. There are those who say it is impossible. Perhaps it is impossible of 100 per cent importance; in fact some prices have risen a little already.

But this is certain: unless labor co-operates by seeking only such wage increases as are necessary to keep abreast of living conditions, and unless management co-operates by increasing prices only when modest and reasonable profits are actually being eaten up by increased costs, then there will be only one solution—compulsion. Which is what neither labor, management, nor ownership wants.

Dogs Enrolled As "Barkers For Britain" By Aid Organization

The first dog of the nation, Fala, President Roosevelt's pet Scottie, has been chosen president of "Barkers for Britain," an organization of dogs of the United States created by Bundles for Britain Inc. to afford opportunity to dog lovers to aid the cause of British relief through the purchase of tags. All dog members will wear this badge of membership.

In a simple ceremony conducted at the west portico of the White House, Fala was inaugurated and accepted the title and insignia of his high office with a dignified and well modulated "Woof, Woof." Only a few of his intimate White House friends and a group representing Bundles for Britain were present. Mrs. Paul White, executive director of branches, administered the oath and presented Fala with a bronze token. He acknowledged congratulations with a single "Woof."

The "Barkers for Britain" badge is a tag of bronze, slightly larger than a 25-cent piece, to which is attached a metal hook by which it may be fastened to collar or harness. The obverse shows the head of the British bulldog with a sailor's hat cocked jauntily over the left eye, imposed upon a background of the Union Jack. Around the lower rim is inscribed the legend "Barkers for Britain." At the top of the reverse are the crossed flags of the United States and Great Britain. Between them is the letter "B," and at the bottom are the words "helped Bundles for Britain." A space has been provided for engraving the dog member's name.

The tag's design was executed by Elizabeth Gordon, and was the young sculptress' first commission in bas-relief. Fala accepted the presidency of "Barkers for Britain" with the full approval of the White House. Pets of other officials and diplomats in Washington will be enrolled shortly, and they, with the leading dogs of various breeds, will constitute the governing body of "Barkers for Britain." Membership is open to all dogs residing in America. The sole qualification is that they wear the tag. All branches of Bundles for Brit-

Wink Bridge Clubs Hold Meetings

WINK (Special)—The Intermediate and Junior G. A. society of the First Baptist church will leave Tuesday morning for the G. A. Encampment at Paisana. Twelve girls accompanied by Mrs. G. O. Ragland will make the trip.

WINK (Special)—The Friday Bridge Club met with Mrs. J. P. Hollis as hostess at her home. Mrs. D. D. Limbocker a guest from Monahans won high and Mrs. Dee Rose low. Members were Mesdames Tom Meacham, Dee Rose, J. P. Lester, E. C. Page, George Armstrong, L. T. Cope, and Paul Jette Jr.

WINK (Special)—Mrs. D. A. McClatchy was hostess to the Thursday Bridge Club at her home entertaining one table of guests. Guests were Mesdames Lee Johnson, J. L. Wooten, B. B. Hutsel and Fizer Middleton; Members, Mesdames L. G. Winder, L. H. Riley, Lee Furse and the hostess, Mrs. L. G. Winder won high and Mrs. Lee Johnson second. A desert course was served at the end of the games.

Forty Students Sign For Pilots Training Course

Forty Midland citizens who will take a civilian pilots' ground training school of instruction will meet Monday night. Classes will be held four nights a week at a classroom in the high school building. Classes will last about one and one-half hours. A competitive group includes men students between ages of 19 and 24. A non-competitive class is open to any citizen. J. W. Hunt of the Odessa Flying School is the instructor for the course, sponsored by the Midland Chamber of Commerce. One of each five students in the competitive group will be eligible for advanced flying work. Seven more competitive students are needed for a full class. Twenty-three already are signed and seventeen have enrolled for the non-competitive class. Headlee to Examine Physical examinations must be taken from Dr. Emmett Headlee, Odessa, not later than Monday by competitive students. Competitive students include William Durwood Riggs, Elmer Allen Voliva, Joe Sam Truss, Thomas Edward Grimes, Harold Hensley, Van Ed Watson, Edward Lloyd Dorsey, Wesley Weems Williams, Robert Charles Flynt, William Harry Lees, Jack Cross, Hugh Luther Huff, Robert Lee Filson, David Holster, Benjamin Rich Murray, Vincent White, Lee Hageman, Norman Moore, Frank Hinkle, J. R. James, Clyde Porter, Charles Ray Allen, and Felix Holcomb. Non-competitive are W. H. McCumber, Ben Sevier, J. Ed Erwin, Richard Hinkle, C. A. Roark, Charles Gibbs, Sam Warren, Fred Kotyza, Billie Bennett Kotyza, C. A. McCamey, Mrs. C. A. McCamey, R. O. Smith, H. W. Midkiff, Mrs. Jerry Williamson, Paul Castle Filson, H. J. McCullough and Clint McFarland.

Survivors include a son, Noel Cowden, and a daughter, Mrs. Virginia Simpson, both of Dallas; a sister, Mrs. I. H. Bell, of El Paso; and a brother, E. W. Cowden, of Midland. Among survivors are his nephews, Elliott, Clyde, and Frank Cowden and nieces, Mrs. Clarence Scharbauer, Mrs. B. H. Blakeney, Mrs. B. C. Girdley, Mrs. John Nobles, Mrs. Ellis Cowden, all of Midland, and Mrs. George McEntire, of California.

Collings Extends 70th Court Here

District Judge Cecil C. Collings for the second time extended 70th District Court in Midland a week. The term was scheduled to close the week of June 9. No cases have been set for this week but a suit to remove a school trustee probably will be tried, Judge Collings said.

Appoint Mrs. Peck Advisor To USO

E. B. Germany, state chairman for the United Service Organization, announced the appointment of Mrs. Hel C. Peck of Midland as sixteenth congressional district advisor for the USO. Curt Inman is Midland County chairman of the organization.

Car Accident Kills Private At Barkley

ABILENE (AP)—Clarence Patrick, 20, private of Company B, 120th Quartermaster Regiment, at Camp Barkley was killed Saturday when the car in which he was riding crashed into a bridge abutment on U. S. Highway 80 east of here. He was from Healdton, Okla. Raymond D. Phelps, 20, also of Healdton, was injured internally, and Jack Pemberton, 21, of Healdton, received face, throat and knee injuries. Both were members of Company B. Patrick's body with a military guard of honor was returned to Healdton for burial Saturday afternoon.

Capture Ex-Convict After Plan Robbery

DENISON (AP)—An ex-convict from Denison was captured near Durant, Okla., Saturday several hours after a masked bandit took \$1,923.61 from the Hennings Bros. Egg Breaking Plant at the Kraft Cheese Factory. The money was recovered and the man brought to the county jail. Sheriff's officers of Denison and Sherman made the arrest. The bandit held Bill Howell, plant manager, and his secretary, Miss Mary Ellen Davidson, at the point of a gun and forced them to fill a small sack with the company's payroll. The money was in small denominations and was in sealed envelopes.

Congratulations to:

Mr. and Mrs. E. E. Watts, Midland on the birth of twin girls, at Western Clinic Hospital Saturday night.

Funeral Held Here For J. D. Cowden, Retired Ranchman

Funeral services for J. D. (Jeff) Cowden, 78, Midland pioneer retired rancher, who died here Friday night were held at 4 p. m. Saturday at Ellis Funeral Chapel with the Rev. W. C. Hinds officiating. The Rev. Fred McPherson assisted. Interment was in Fairview Cemetery. Cowden was born in Palo Pinto County in 1861. He came to Midland in 1885 and was associated with his brothers in ranching. He also was a veteran peace officer. Cowden had been in ill health several months.

Survivors include a son, Noel Cowden, and a daughter, Mrs. Virginia Simpson, both of Dallas; a sister, Mrs. I. H. Bell, of El Paso; and a brother, E. W. Cowden, of Midland. Among survivors are his nephews, Elliott, Clyde, and Frank Cowden and nieces, Mrs. Clarence Scharbauer, Mrs. B. H. Blakeney, Mrs. B. C. Girdley, Mrs. John Nobles, Mrs. Ellis Cowden, all of Midland, and Mrs. George McEntire, of California.

Winkler County To Build Caliche Road

WINK (Special)—The Winkler County commissioners court authorized the building of 3000 feet of caliche road in the northeast part of the county to serve the Oolby sand area of the Keystone field.

Place Order For New Fire Trucks

WINK (Special)—Winkler County commissioners placed an order for the purchase of two fire trucks, one to be in Kermit, and the other in Wink. The one for Kermit will cost \$8,000, and Winks \$4,000.

McKnight Visits Midland Reporting Senate Battle

Felix R. McKnight, former Associated Press sports writer for Texas and now staff correspondent for the Dallas News, visited in Midland Saturday. He is on a tour of the state with senatorial candidates and was in the Gerald C. Mann party when it stopped here.

Willkie Wanted FDR To Ask Congress For More Authority

BRUNSWICK, Me. (AP)—Wendell Willkie declared Saturday he had hoped that President Roosevelt, in his special message to Congress would ask for "authorization to use the United States Navy to clean up the Atlantic at once" as a means of guaranteeing delivery of supplies and munitions to Britain. In a commencement dinner speech to graduates of Bowdoin College, which conferred upon him an honorary Doctorate of Laws, the 1940 Republican presidential standard bearer described Britain as "defending the outposts of our Democracy."

William H. Davis Succeeds Dykstra

WASHINGTON (AP)—William H. Davis, vice chairman of the defense mediation board, was chosen Saturday to succeed Clarence A. Dykstra as chairman. The White House announced President Roosevelt would appoint the 61-year old New Yorker to direct the board when Dykstra quits on July 1 to devote his full time to the presidency of the University of Wisconsin.

Capitol Observers Predict Lawmakers Will Set New Mark

AUSTIN (AP)—The 47th Texas Legislature has all but cinched the record for longevity of a general session. It will pass the 163-day standard of the 46th if it is alive next Thursday and there were many around the capitol Saturday who viewed this probability as sure-fire. In fact, inching farther out on the limb, they predicted the session would not end before early in July. The reasoning behind this forecast was that the House would stay cemented to its plan to draw out the session, either by recess, adjourning from day to day or working continuously. Highly placed officials of the two legislative branches joined those who foresaw at least another 10 days added to the session. If for no other reason the proximity of the special United States senatorial election, a sort of bell-weather in Senate-House wrangling over a quiting day, would extend it, they declared.

American Skysleeper Makes Forced Landing

FORT WORTH (AP)—An American Airlines skysleeper, eastbound to New York, was forced down about 9 p. m. near the Tarrant-Dallas County line, airline officials announced. None of the 13 passengers or crew members were injured. Reports here were that the two motors of the ship failed.

CIO Signs Contract With Ford Motors

DETROIT (AP)—One final step—the rank and file's ratification—lay before the CIO's United Auto Workers Sunday in validation of the union's biggest prize of its comparatively young life. The union shop contract with the Ford Motor Company, first of its kind in the automobile industry, will be placed to a membership vote at a UAW-CIO mass meeting. Union leaders said they expected approval of a "huge majority."

Chamber Of Commerce Drive Nets \$2,230 And 54 New Members

The annual budget of the Midland Chamber of Commerce by Saturday afternoon had been increased by \$2,230.50 as a result of the whirlwind, streamlined all-out membership and dues drive campaign which got underway Thursday. Several volunteer workers had not made complete reports, final results of the drive will not be known until next week.

New membership and dues increase cards continued to arrive at the Chamber of Commerce office Saturday. Several persons not reached in the campaign, called at the Chamber of Commerce office Saturday to increase dues. The drive will be continued next week or until prospects have been seen. Follow-up work in the campaign will be by the membership committee of which Daniel H. Griffith is chairman. He was director-general of the campaign.

A total of 77 members increased membership pledges to increase the annual budget by \$1,305.50, while 54 new members added \$925. Cash brought in to date amounted \$251.

The whirlwind campaign was one of the most successful ever staged in Midland and Chamber of Commerce officials were gratified at the results obtained. They expressed appreciation to members who increased pledges and to citizens who affiliated with the civic organization. The Chamber of Commerce is now in a better condition to carry on increased activities which will result from the establishment in Midland of the U. S. Army Air Corps Advanced Twin-Engine and Bombardier Training Center, they said. All were of the opinion that the budget increase will total at least \$2,500 by the time the campaign is finally completed. Griffith issued a statement expressing appreciation on behalf of the Chamber of Commerce to the 25 volunteer workers who took time off from their businesses to conduct the steamlined campaign. He requested workers who had not turned in final reports to do so as soon as possible. The workers previously lauded the excellent spirit of all citizens. Midland's progressive and ever alert citizens are ready and anxious to do their share in making Midland a bigger and better place in which to live, they said.

Capitol Observers Predict Lawmakers Will Set New Mark

AUSTIN (AP)—The 47th Texas Legislature has all but cinched the record for longevity of a general session. It will pass the 163-day standard of the 46th if it is alive next Thursday and there were many around the capitol Saturday who viewed this probability as sure-fire. In fact, inching farther out on the limb, they predicted the session would not end before early in July. The reasoning behind this forecast was that the House would stay cemented to its plan to draw out the session, either by recess, adjourning from day to day or working continuously. Highly placed officials of the two legislative branches joined those who foresaw at least another 10 days added to the session. If for no other reason the proximity of the special United States senatorial election, a sort of bell-weather in Senate-House wrangling over a quiting day, would extend it, they declared.

Midland Man Speaks To Big Spring Club

"Americanism and the way everyone may help in forever preserving this heritage" was the theme of a recent address by Ross Carr, Midland, to the Big Spring Kiwanis Club.

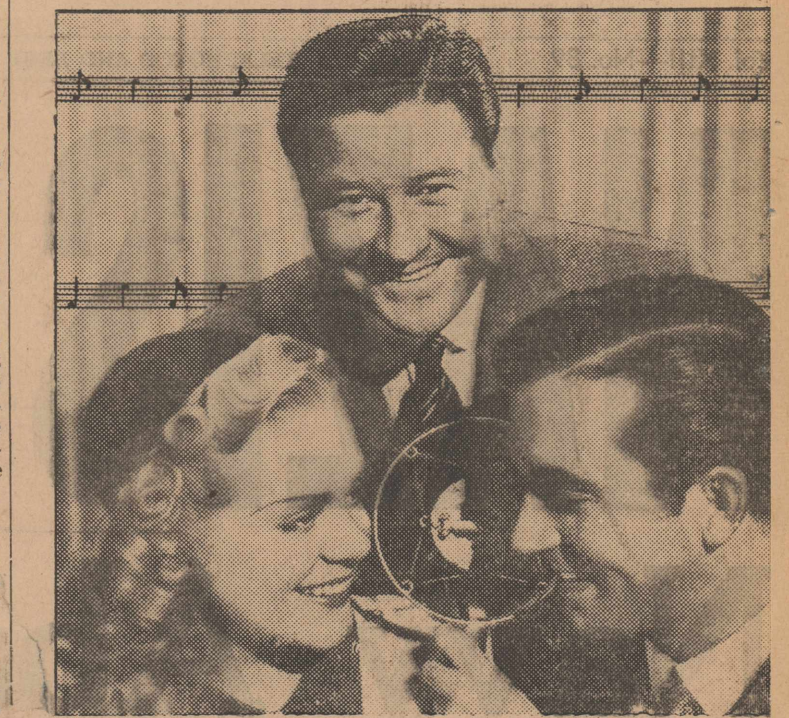

Winkler Discontinues Sewing Room Projects

WINK (Special)—Winkler County commissioners voted to discontinue sponsorship of the sewing room project in Wink and Kerri Sewing rooms have been opened jointly by the government and county several years. The order effective June 30.

BUDAPEST AND BERLIN LINES INTERRUPTED

BUDAPEST. (AP)—Telephone communications between Budapest and Berlin have been interrupted the past four days.

"The Great American Broadcast"

"The Great American Broadcast" stars Alice Faye, Jack Oakie, John Payne and Cesar Romero in a film full of popular songs and clever dances. Featured prominently in the new musical are the Four Inkspots, The Nicholas Brothers and The Wier Brothers. I plays at the Yucca Theatre, Sunday, Monday and Tuesday.

Mother Of County Health Nurse Dies

Mrs. J. T. Cox, mother of Miss Bessie Cox, Midland County health nurse, died at her home in Big Wells, Texas, Saturday after a long illness. Miss Cox left immediately for Big Wells.

Auction Stock Prices Maintain Steady Level

Prices for cattle and other livestock at auctions of the Texas Cattle Sales, Inc., are maintaining a steady level. Last week's sales was the best in four or five with many out-of-town buyers present.

Long Lease Expires For Grandfalls Man

GRANDFALLS (Special)—J. Covill was told by his attorney that a 99-year lease of Covill's had expired on 160 acres of land in She County in Ohio. The lease was given to Covill his grandfather in 1840.

A particularly fine Chinese Chippendale lamp table of genuine mahogany with decidedly attractive pierced and arched cross bracing. Priced now at. Made by America's Outstanding Designers and Makers of Smart and Authentic Occasional Furniture. BARROW

### Naval Department Estimates British Sea Force Gaining

WASHINGTON (AP).—An estimate that Great Britain, despite heavy losses at sea, had gained in relative naval strength over the Axis powers in the last four months came Saturday from the Navy Department.

A compilation of fighting ships built and building for the seven principal naval powers debited the British empire with a net loss of 22 combat craft since February 19, Italy with the same number and Germany with the loss of the new battleship Bismarck.

Germany has 120 U-boats in service and 180 under construction, by the Navy's estimates, which reflected a lack of detailed information on the Nazi effort to sever the British trans-Atlantic supply line.

The British losses included the battle cruiser Hood, destroyed by salvos of the Bismarck before the giant German battleship itself was sent to the bottom.

### Wink News

Mr. and Mrs. Glenn Claiborne are visiting in Quanah, and will spend the next two weeks vacationing in Oklahoma and New Mexico.

Mrs. Mark Benton and children are visiting relatives in Abilene.

Mrs. Hollie Burrows is spending several days in Dallas.

Mrs. Opal Tudor, and daughter, Wanda, are guests in the home of Mr. and Mrs. A. F. Phillips. Mrs. Tudor is a sister of Mrs. Phillips.

Visitors in the homes of Mr. and Mrs. J. H. DuBose and Miss Oleta Sibley, are: Mr. and Mrs. E. H. Gibbs of Natchitoches, La., and Mr. and Mrs. R. L. Sibley and son, Bobby from Henderson, Texas.

Mrs. Fiser Middleton has been visiting her parents, Mr. and Mrs. Dow Miller this week. Mrs. Fiser's home is in Lubbock.

Mr. and Mrs. Fred Riley announced the birth of a five pound baby girl.

Miss Alice Hill and Miss Adele Watson, of Fort Worth, are guests in the home of Mr. and Mrs. D. O. McAdoo.

### Oil News--

(Continued from page 1)

No. 1-C Midland Farms Company, Southeastern Andrews County will cut 18 miles northwest of Midland, cemented 1 1/2-inch casing at 200 feet, two feet off bottom, with 250 sacks and is standing while cement sets.

**Slaughter Completions**

Magnolia No. 5-J Mallett Land & Cattle Company was the larger of two producers completed Saturday in the Southeastern Cochran County sector of the Slaughter field. It flowed at a rate of 1,367 barrels per day, with gas-oil ratio of 565-1, after acidizing with 10,500 gallons at total depth of 5,060 feet in lime.

George P. Livermore, Inc. No. 3 H. T. Boyd made 1,078.60 barrels of 32-per cent oil daily upon completion at 5,048 feet after acidizing with 12,500 gallons. It topped pay at 4,993 feet and had gas-oil ratio of 700-1.

In the Wasson field of Southern Yoakum County, North Shore Corporation of Midland No. 5 Bennett flowed 338.08 barrels on daily potential test after treating with 8,000 gallons in pay lime from 5,100 to 5,270 feet, total depth. Oil tested 34-gravity and gas-oil ratio was 659-1.

Texaco No. 1 S. T. Murphy, in Western Terry County wildcat fluid, swabbed 61.46 barrels of fluid on 25-hour gauge. It was making 60 per cent oil near the middle of the test but only three per cent at the end. Operators are continuing to swab and plan to re-treat the well as follow-up to first acid job of 1,000 gallons. Water is probably of bottom-hole origin. Total depth is 5,275 feet in dolomite.

In the Seminole pool of Central Gaines County, Cameron Petroleum Corporation No. 8 T. S. Riley made 716.08 barrels a day after treating with 2,000 gallons at 5,260 feet. Magnolia-Atlantic No. 11-217 Havemeyer & Jenny set potential of 518.96 barrels daily at 5,325 feet following treatment with 6,000 gallons.

**Gulf 4-A in Ellenburger**

One-quarter mile west extension of the south end of the Sand Hills Ellenburger pool in Western Crane County was indicated by Gulf No. 4-A J. B. Tubb as it cored oily, porous Ellenburger dolomite. It topped the Ellenburger, lower Ordovician, at 5,706 feet, datum of minus 3,165. This places it 24 feet low to its east of the No. 3-A Tubb, which is higher than other Ellenburger oilers in the pool. The new well was cored from 5,664-84 feet, recovering nine feet of Permian lime, and from 5,684 to 5,704, with recovery of 10 feet of the same formation. Five feet were recovered of core from 5,704-24 feet present total depth. Top two feet were gray to black, worked shale with nodules of Ellenburger dolomite. The next one foot was dense dolomite and the bottom two feet highly fractured dolomite showing good porosity and stained with live oil. A drillstem test then was run from 5,680 to 5,724 feet. Tester was open for 45 minutes but packer held only for the first 15 minutes. The test recovered 2,200 feet of drilling fluid slightly cut with gas and showing a rainbow of oil. A light blow of air was present throughout the test. Operator now is running 5 1/2-inch casing which will be cemented on shoulder at 5,684 feet.

Stanolind Oil & Gas Company No. 1 Spencer-Evans, new reef lime discovery two and one-quarter miles west of the north end of the Estes pool in Ward County, is reported to have cemented 5 1/2-inch casing at or near total depth of 2,990 feet. Pipe will be gun-perforated and testing will be started Tuesday. The well drilled broken pay lime from 2,925 feet to total depth. A 30-minute drillstem test from 2,920-90 feet returned 2,700 feet of 28.3-gravity oil and 220 feet of sulphur water. The well blew air and gas during the first 24 minutes of the test and the last six minutes flowed an unestimated amount of oil and drilling mud. It is located 487 feet from the northwest and 2,173 feet from the southwest line of section 53, block 34, H. & T. C. survey, in an area geologized and blocked by D. C. DeVito, Midland independent operator who opened the Henderson pool of Winkler County early in 1936.

**Abell Test Staked**

Sinclair-Prairie Oil Company has staked location for No. 1 Sidney Silverman as a west offset to Magnolia No. 1 Bowman, indicated one-third mile southeast extender of Simpson, middle Ordovician, sand production in the Abell pool of Northern Pecos County. The new test is 330 feet from the northeast and southeast lines of the southwest half of the east quarter of section 10, block 3, H. & T. C. survey.

In the pool, Magnolia No. 3 Crockett is preparing to take drillstem test at 5,554 feet after recovering oily sandy shale in cores. The firm's No. 1 J. F. McKee, offering prospects of the pool's first Ellenburger production, is standing, bottomed at 5,940 feet in dolomite, after cementing 5 1/2-inch casing at 5,914 feet with 400 sacks.

Magnolia No. 1 D. P. Gerety, which topped Ellenburger at 6,088 feet, halted coring at 6,292 feet, corrected by steel line measurement from 6,300, and is remaining hole preparatory to running 5 1/2-inch liner. Magnolia and Stanolind No. 2 Tex-Mex-McKee, bottomed at plugged-back depth of 5,292 feet, swung 2-inch tubing 5,290 feet and cleaned itself after hole had been washed with water. It blew gas with a spray of oil for five hours and has been shut in. Tubing pressure is 1,800 pounds and casing pressure 1,700.

Magnolia No. 1 Bowman still is w. o. c. on 7-inch casing set at 5,170, ten feet off bottom. The same company's No. 2 Markey is drilling at 4,640 feet in lime and its No. 1 State-Silverman has reached 3,966 feet, also in lime.

Stanolind No. 1 Conroy-Davis Unit, indicated several miles east of the Abell pool, is w. o. c. after plugging back to 3,815 feet preparatory to testing lower Permian shows. It missed the Simpson and was dry in the Ellenburger, running into granite at 5,740 feet and quitting at 5,745.

Upton Wildcat Shows Gas

Mesquite Oil Company No. 1 Neal Brothers, Upton County wildcat one mile north of Rankin, is drilling be-

### Executives Of Independent Petroleum Association Of America Will Address West Texas Oil And Business Men

**H. B. Fell**  
H. B. Fell of Ardmore, Okla., executive vice-president of the Independent Petroleum Association of America, will discuss affairs of the oil business from the national viewpoint, at a meeting of oil men and business men of West Texas in the Crystal Ballroom of Hotel Scharbauer at 7:30 p. m. Wednesday.

Midland and Odessa committees of the I. P. A. A. arranged for Fell's talk here. C. E. Buchner, Tulsa, executive manager of the association, will also speak.

**C. E. Buchner**  
James FitzGerald, Jr., chairman of the Midland committee, said the meeting would be informative to oil and business men concerning the setup of the oil industry and the part it will play in National Defense.

Fell now is in Washington observing plans that are being formed by Coordinator Harold Ickes.

Luther Neal is chairman of the Odessa committee. FitzGerald, E. A. Culbertson and W. W. LaForce are members of the Midland committee.

### Mann . . .

(Continued From Page One)

what he believes is right," Mann said predicting success for his campaign.

**"Democracy Not For Sale"**

"The people of Texas are not going to stand for the office of United States senator being placed on the auction block," Mann thundered. "Democracy in Texas is not now and never has been for sale to the highest bidder. Texas cannot be high pressured by big money or small talk."

To Johnson's assertion recently that Mann "seems to have a monopoly on honesty," the attorney general said:

"Recently I stated that my conception of official integrity was such that I wanted the people of Texas to know at all times the amounts and sources of my income while I am serving in public office. I intended to do nothing heroic when I took that step. Thus far, I am the only candidate who has seen fit to reveal to the people of Texas the source of his income and that of his household."

"I want to be a real United States senator and shall work for my people of Texas. President Roosevelt is a man of action. I will support him and I believe in his principles for the United States. I will cooperate with him as I have with the governor of Texas. I want to help him build a bigger Army, Navy and Air Force. To be able to do this a man elected to the Senate must be able to win the confidence and respect of his colleagues. In this way he can gain needed legislation."

He charged social security and old-age pensions had become political footballs and he promised if elected to seek laws which would settle the problem for all time.

"But," he continued, "National Defense is the pressing problem for America. Every man must do his part and Congress must see to it that every man does his part."

**"Must Be Prepared"**

"We must be prepared. We must be ready. We must not fiddle while London burns. In the United States Senate I will support President Roosevelt to the limit."

Mann blamed the protective tariff for the troubles of agriculture and said he would work to solve its problems.

"I will support proposals to give the farmer full purchasing power for his dollar."

He also said he favors soil conservation, river control and rural electrification.

The attorney general said Congress should solve labor problems and promised that "when I get to Congress I'll start action to end these troubles."

"We must unify American people. That is the American way."

"I want legislation to increase the pay of American soldiers and sailors to \$40 a month. The government should put the difference between that amount and what they now receive in a special fund to be paid them when the trouble is over so they will have money for a fresh start."

### Midland Building Climbs To Ninth Most Active City

By The Associated Press

Contracts for 200 defense home corporation houses to shelter its rocketing family of defense workers shot Corpus Christi back into the Texas building lead the last week.

The DHC's \$750,000 gave the Gulf city a seven-day building permit total of \$844,100 to raise its current 1941 total to \$8,606,985—second only to Houston.

Runner-up for the week was Lubbock with \$349,639, but five other cities had weekly totals above \$100,000. They were Houston, Austin, Dallas, San Antonio and Fort Worth.

Totals for the week and for thus far during the year from various representative cities include:

| City           | Week      | Year        |
|----------------|-----------|-------------|
| Corpus Christi | \$844,100 | \$8,606,985 |
| Lubbock        | 349,639   | 1,803,462   |
| Houston        | 303,475   | 10,564,049  |
| Austin         | 203,109   | 3,000,709   |
| Dallas         | 183,456   | 4,607,785   |
| San Antonio    | 139,893   | 2,726,140   |
| Fort Worth     | 119,029   | 2,982,229   |
| Amarillo       | 63,039    | 1,331,007   |
| Midland        | 22,850    | 197,950     |
| Tyler          | 21,245    | 345,179     |
| Galveston      | 16,231    | 3,174,049   |
| Beaumont       | 14,710    | 1,033,867   |
| Wichita Falls  | 13,094    | 716,724     |

### Jibuti Governor Must Make Up His Mind Now

LONDON (AP).—General Sir Archibald P. Wavell, British Middle East commander, has called upon the governor Jibuti, French Somaliland, to make up his mind either to join the Free French forces immediately or openly disassociate himself from the pro-Axis policy evident in Syria, it was learned here Sunday.

In the event of the governor's refusal to negotiate regarding the proposal, General Wavell has stated his willingness to evacuate women and children from Jibuti and to supply them with milk and essential foods until this evacuation is completed, it was said here.

Jibuti is the chief port of French Somaliland and is the terminus of the only railroad running into Ethiopia.

### O'Daniel . . .

(Continued From Page One)

and described the work of lobbyists at the Legislature. He charged they were responsible for the slow start of the legislative program last January and asserted "Austin now has become a health resort" for some legislators because by staying in session they "get 85 a day which is more than some of them can earn at home."

"It looks like a sit-down strike in the House of Representatives. You already have paid out more than \$1,000,000 to legislators and they are still sitting down."

While the governor was talking, a collection for his campaign was solicited from the crowd which gathered on the west side of the courthouse. He said he had to raise money in this manner as he depended entirely on contributions from citizens for his campaign.

Reporting on his legislative program he said that this month every citizen of Texas 65 years of age or low 3,150 feet in anhydrite. It logged a good showing of gas in sandy shale from 2,785-95 feet.

In Eastern Upton, Plymouth Oil Company's scheduled Ordovician test, the No. 1 D. L. Alford et al. is standing at 3,620 feet in lime and sand after cementing 10 3/4-inch pipe at 3,589 feet with 1,700 sacks.

An Ordovician test in extreme Southeastern Reagan County, Americana No. 1-RA University, is drilling unchanged at 7,452 feet in shale and lime shells.

Magnolia No. 20 State-Walton recovered 17 feet of lime showing oil and gas but with only slight porosity by coring from 5,347-85 feet. It is coming ahead past 5,376 feet in lime. The well indicates opening of a deep Permian area between the Kermitt and Keystone pools of Winkler County.

### Seeks More Money

"I'm going to Washington to get additional money needed for pensions as we now have all we can get in Texas," he asserted.

He reviewed his anti-violence strike law, asserted there are no strikes in Texas and that he will take the same bill to Washington and get the strikes settled all over the United States.

The governor also said he had gotten "deficit spending" stopped in Texas and will go to Washington to get it stopped there.

The first half of his address was broadcast. At the start the governor criticized the charges of Attorney General Mann, who also seeks the Senate seat.

"I'm disappointed in him," O'Daniel said, "due to inexperience and youth he has allowed some selfish politicians who hate me to improperly influence him. Mann is a good attorney general and a nice fellow. In spite of what he says I like him."

"After a few years experience the politicians will not be able to put a bride on him."

Less than 30 minutes after the governor's silver-domed sound truck troupe left Midland, Mann spoke from the courthouse lawn.

The governor went to Odessa from Midland.

**U. S. GRANTS \$500,000 CREDIT TO COSTA RICA**

### Starting Of New Tests In Eddy And Lea County Pools Heralds Increase In Southeastern New Mexico Activity

**HOBBS, N. M.**—Large increase in Southeastern New Mexico field activity was seen Saturday as wells were started in the Red Lakes, Leonard, Root, Loco Hills and Grayburg pools of Eddy County and in the Maljamar, Monument and Skelly pools of Lea County.

A deep failure was registered for Northeastern Lea with the plugging of Helmerich & Payne, Inc. No. 1 Phillips Petroleum Company-State, 1,980 feet from the south and 660 from the west line of section 9-14-38E. The well ran low structurally to a 6,300-foot dry hole five miles to the northwest and failed to log any important showings. Total depth is 5,635 feet in lime.

L. E. Elliott No. 1 State, Southeastern Chaves County wildcat 660 feet from the north and 1,980 from the east line of section 16-11-31E is shut down for orders at 3,992 feet in brown dolomite after encountering water. Its log shows salt water from 3,990 to 3,933, with an increase from 3,950 to 3,955 feet and from 3,960 to 3,963 feet, where it was making one and one-half barrels hourly. A zone carrying a little dead oil and some porously was found from 3,970 to 3,973 feet. The well ran into the big water from 3,982 to 3,987 feet, filling at the rate of 100 feet per hour for the first ten hours.

**Leonard Area**

R. I. Willson No. 1 E. L. Brown, Chaves test 1,980 feet from the south and 660 from the west line of section 29-11s-23E, is shut down for orders at 2,000 feet in lime. No shows have been reported.

In Eddy's Leonard area, Hammond Brothers No. 2 State-Keyes, in section 15-17s-28E, pumped eight barrels of oil per day following a 70-

quart nitro shot in pay horizon from 1,958 to 1,976 feet, the total depth. Republic Production Company staked location for a Leonard area test at No. 1 Yates-State, 1,650 feet from the south and east lines of section 33-17s-28E.

Mac T. Anderson No. 14 L. T. Root, in the Root area of Eddy, gauged 24-hour flow of 200 barrels of oil through 2-inch tubing set at 2,540 feet. The well was shot with 60 quarts from 2,555 to 2,576 feet. It topped pay at 2,500 feet and reached a total depth of 2,700 feet in lime. Location is in section 12-17s-29E.

**Grayburg Active**

J. F. Elder of Midland, Texas staked No. 4 Root, 1,980 feet from the south and 660 from the west line of section 7-17s-30E.

Danciger Oil & Refining Company completed a large producer and started two new tests in the Grayburg area of Eddy. It's No. 10-A Turner, 1,980 feet from the south and east lines of section 16-17s-31E, flowed 300 barrels of oil per day through open 2-inch tubing set at 3,460 feet. It made 18 barrels of oil an hour the last three hours of the 24-hour gauge. Pay lime from 3,457 to 3,465 feet, total depth, was acidized with 1,000 and with 3,000 gallons in successive stages.

Extending Grayburg production a short distance east, Aston & Fair No. 3 Hudson, 1,650 feet from the north and 330 from the west line of section 17-17s-31E, gauged natural flow of 100 barrels per day through 3/4-inch choke on 2-inch tubing set at 3,379 feet with a packer at 2,755 feet. Pay was logged from 3,493 to 3,497 feet, total depth.

Danciger No. 3-B Turner was staked 330 feet from the north, 660 from the west line of section 20-17s-31E, as a southeast outpost to Grayburg production. The firm's No. 12-A Turner, already spudded and drilling below 465 feet in red rock, was spotted 330 feet from the north and 660 from the east line of section 19-17s-31E.

**Wildcats Drilling**

Harry Leonard and Van Welch No. 1 State, Western Lea wildcat three and three-quarter miles east of the north end of the Halfway pool, is drilling below 2,961 feet in gray lime and sand. With elevation of 3,523 feet it topped Yates sand at 2,795 feet. Showing of gas was logged at 2,961 feet.

A Lea wildcat four and one-half miles west of the Vacuum and the same distance east of the Maljamar pool, Richmond Drilling Company of Midland No. 1 Shell Oil Company, Inc.-State, is drilling below 3,065 feet in anhydrite. It is 660 feet from the south and 1,980 from the east line of section 22-17s-33E.

Culbertson & Irwin, Inc. of Midland and Sanders Brothers of Artesia No. 1 DeTemple, Eddy wildcat five miles south of the Shugart area, is drilling with machine below 360 feet in red rock. It is 660 feet out of the southwest corner of section 27-19s-31E.

Depth of 2,090 feet in anhydrite

### Stalin Stayed In Background Of European Picture While Hitler Drew Huge Designs

**By Henry Noble Hall  
Written For NEA Service.**

Machiavelli would have rejoiced at the machinations of Soviet diplomacy since Stalin—the Man of Steel—came to power in 1927. His foreign policy has been absolutely realistic, and is certain to remain so. What he has achieved almost passes belief; what he seeks to achieve may well send shivers down the spines of plain, everyday people the world over.

One cannot get a bird's-eye view of such a shifting scene as Soviet diplomacy, but here is a motion picture of it:

By the Treaty of Brest-Litovsk in March, 1918, Russia lost 34 per cent of her population, 54 per cent of her industry, 90 per cent of her coal mines. She was cut off from the Black Sea. She had to surrender Russian Poland, Lithuania, Latvia, Estonia, the islands of the Baltic. She had to recognize the independence of the Ukraine, where Germany had set up a puppet state, and of Georgia, where Stalin was born.

When Realist Stalin heard of Germany's new mechanical might, he did not pooh-pooh the idea as did the French General Staff. At right, Soviet troops take over a Polish village . . . enabled to do so because fact, not fancy, guided Realist Stalin in his relations with Hitler.

Latvia and Lithuania into the Soviet Union. A year ago an ultimatum to Rumania caused the cession to Russia of Bessarabia and Bukovina. Hitler is chained to the wheels of conquest. He cannot stop, he must go on. In the Eastern Mediterranean, this means that if Syria and Palestine, and the oil of Iraq and Iran are to be his, he must control the Dardanelles.

**Russia Has Recovered.**

Today Russia has recovered everything of value that she lost. She has added Bessarabia and Bukovina, Prince Rupert Land to the North Pole and beyond. She has secured control over vast spheres in North China, Tannutiva, Outer Mongolia and Sinkiang, and a great deal of influence in Iran and Afghanistan. Her interest in the Dardanelles has revived.

After the last war, stunned by defeat, Russia at first adopted a policy of complete diplomatic isolation. The Soviet leaders, insecure at home, lived in constant fear of foreign intervention and looked upon England as its inspirer and upon France and Poland as its active instruments.

Indeed, in 1920 the Poles under Pilsudski and General Weygand took the West Ukraine and West White Russia from the Soviets.

Stalin had long seen that war was inevitable. The construction of the Siegfried Line which made it impossible for the Western Powers to go to the assistance of Czechoslovakia or Poland, rendered Russia's position precarious indeed. Stalin saw that if ever Prague and Warsaw fell to Hitler, it would be Russia's turn next and the Nazis would take the rich granary of the Ukraine, the ideal lebensraum promised by the Fuehrer to the Germans.

Stark, naked realism is and always has been Stalin's strong suit. He knew just how strong Germany was, for when reports reached him in May, 1939, that Hitler had 4000 heavy tanks, 50,000 motorcycles armed with machine guns and 18,000 planes, he did not pooh-pooh the idea as did the French General Staff. He made it his business to find out. He also knew just how weak France was, and how unprepared England. So he dismissed Litvinoff and took Molotoff as Foreign Minister.

Stalin negotiated with both Germany and the Allies. Hitler sent diplomats, financiers and business men to Moscow; the Allies sent a military mission . . . with plans. Stalin played one off against the other and having made a bargain with the envoys of Hitler, whom he hates and distrusts, entered into the non-aggression pact with Germany on August 23, 1939. What did he get out of it?

After the conquest of Poland by Germany, Russia's share was five-eighths of the territory and more than half the population. Since then she has occupied the Baltic states and incorporated Estonia,

### Construction In Midland Soars To \$22,000 During Week After News Of Bombardier Center's Establishment

News of Midland's selection as a location for the U. S. Army Air Corps Advanced Twin-Engine and Bombardier Training Center spurred building and construction in the city last week to its highest seven-day period in several weeks. Permits for \$22,850 worth of construction were issued.

The largest permit was for \$6,700 to Ben Damsky, Jr., to construct a brick-veneer residence at 723 West Outbirth St. in the Midland Country Club Addition. It will have one-story and materials will be brick and lumber. The residence will be 42 by 70 feet.

E. P. Kenner received a permit to build a \$2,500, 25 by 27 feet frame residence, at 1101 West Kentucky St.

A permit was issued to Ira Cole to construct a frame building at 606 San Angelo St. It will be of lumber, 32 to 22 feet and the residence will cost \$1800.

Repairs to a frame-stucco will be made by Z. G. Cox at 306 N. Carrizo St. in the Original Township Addition at a cost of \$300.

Two A. & L. Permits

B. F. Stanley will construct a 26 by 30 feet structure, asbestos siding on lumber frame, at 303 N. Carrizo St., at a cost of \$1,650.

A. & L. Housing Company received permits to build two residences. One will be a frame residence at 1108 West Indiana St. in the West End Addition. It will cost \$3,000, and will be 27 by 36 1/2 feet. The other will be a five-room frame building for a residence at 1408 W. College St. The size is 54 by 34 feet with one-car garage attached. The location is in the West End Addition and the permit was for \$4,500.

J. J. Hamlett will build frame servants quarters at his residence, 204 S. Big Spring St. The cost will be \$400.

A dwelling will be moved from 904 S. Fort Worth to 406 N. San Angelo St. at a cost of \$2,000. The owner is John Scharbauer.

The \$22,850 week put Midland near the \$200,000 mark for 1941, \$197,950 having been authorized.

### War Department Asks Extension Of Service For Guardsmen; Congress May Keep Draftees In Uniform Longer

**WASHINGTON (AP)**—Simultaneously with a War Department recommendation that the National Guard be kept in active service beyond the single year originally planned, the author of the selective service act said Saturday that Congress would quickly authorize an additional year's training for draftees if the administration requests it.

Rep. Wadsworth (R-NY), who introduced the draft bill, added that if it is decided to prolong the training period of the selectees, men over 28 years of age, now in service, should be permitted to withdraw after completing their 14 month training periods.

While Wadsworth insisted that 21 to 35 age-limits be written into the original law, he said that experience had shown that those from 28 or 30 to 34, although "good men," haven't proved "so readily trainable."

Meanwhile, the office of production management announced a plan for curtailing civilian use of rubber, and Price Administrator Leon Henderson said a ceiling on the prices would be established within a few days, providing in effect that prices may not exceed those charged on June 16. The limitation will apply to tubes, and to reclaimed, crude and scrap rubber, as well, he said. The OPM said rubber for civilian use should be reduced 20 per cent by December.

**Orders Substitute**

With an eye to the need for metals in manufacturing defense articles, Nathan Strauss, administrator of the housing authority, ordered that substitutes for steel, copper, bronze and other metals be used in constructing USHA homes. A ton to a ton-and-a-half of metal could be saved on each such dwelling, he said.

House wives throughout the nation were asked by the government to contribute their discarded aluminum pots and pans to the defense program. A nationwide drive for collection of such aluminum probably will be conducted for one week in July. The OPM decided on the campaign after it had conducted tests in Madison, Wis., and Richmond, Va., which brought in approximately 80,000 pounds. The aluminum collected will be sold by the OPM and the funds probably will be used in the civilian defense program.

The army made public orders consolidating its mobile general air headquarters air force and the service branches of the air corps into a "single unified organization" to be called the "Army Air Force." The purpose was to provide unity of command under an officer responsible only to the chief of staff.

Registration Necessary

In making known its recommendation for holding the National Guardsmen for further active duty, the War Department noted that legislation would be necessary. The final decision, it said, was "a mat-

### Seven Reasons Why Midland Is "Home Sweet Home" To Bill Chancellor

Half-a-dozen younger-generation Oklahomans who call Midland home are the children of Mr. and Mrs. C. W. (Bill) Chancellor. All except one arrived here a few days ago with their mother from Oklahoma City to join Mr. Chancellor, Sin-clair-Prairie district landman, and make their home at 4710 W. Mis-souri. The oldest son, Robert, has finished his first year at the Uni-versity of Oklahoma (he's a Sigma Chi, there) and is now on a cruise in South American waters with the Naval ROTC. He will arrive in the summer.

Already settled in their new home are Harold, a junior in high school, who chooses dramatics as his extra-curricular interest; Billy sophomore, whose special loves are football and baseball; Camden who at eight years of age, paints in oils and has displayed his work at the University of Oklahoma; Rich-ard Stuart, three-year-old baby brother "Stu"; and Phyllis Ann, 12, whose status as the only girl in the family brings her added affection and consideration from her broth-ers, big and little. The Chancellor children were reared in Oklahoma City.

Although Chancellor, for about 12 years in charge of the Sinclair-Prairie land department and office manager in Oklahoma, disavows any social career in the city where he and Mrs. Chancellor have spent the past years, declaring they have been "in the business of raising a family," Mrs. Chancellor has found time for outside interests in addi-tion to running her home. She was a member of the Oklahoma City Club and of several bridge clubs and attended the Methodist Church.

The Chancellors already have joined the Country Club.

**WYOMING TRANSPLANTS FISH BY AIRPLANE**

CHEYENNE, Wyo. (AP) — Fish dropped from the sky in Wyoming. But it wasn't a miracle, the state game and fish department ex-plain. It was simply the trout of a new method of stocking high and almost inaccessible mountain lakes with fish. They were dropped from a low-flying airplane.

**Plan Your Menus Week At A Time For Best Results**

By Mrs. Gaynor Maddox  
NEA Service Staff Writer.

Every homemaker must begin an intensified course today in keeping her family menus up to nutritional standards despite possible defense restrictions. By planning her menus a week at a time, by careful daily study of food market reports and by application of scientific knowledge of cooking methods to her own domestic food preparation, she will be able to maintain health and stamina in her family with nutritious food within her budget.

Here's a series of low-cost bal-anced menus for a week:

**Courthouse Site For Registration**

Midland County young men, who were 21 years old since Oct. 16, 1940, will register for selective service July 1 in the nation's second regis-tration day.

Registration here will be held in the basement of the courthouse be-tween 7 a. m. and 9 p. m. W. L. Simmons, chairman of the draft board announced Saturday.

Aliens, as well as American citi-zens, who are 21 years old July 1 must be registered. General Watt Page, state director emphasized. He pointed out aliens between 21 and 36 who have come to the United States since the first registration, October 16, 1940, and have not been registered, must appear before local boards to register.

Special registrars will be pro-vided men who cannot appear be-fore the local board because of ill-ness or other incapacity.

**Hundreds Visit Big Oil Show In Odessa**

ODESSA (Special)—Hundreds of West Texans visited the second an-nual Little International Oil Show at Ector County Park here Saturday. It opened Friday evening with an elaborate educational and enter-tainment program.

Admission is free to exhibit and the show continues through Sun-day. Features Saturday included a street parade, safety show, first-aid contest, patriotic defense rally, bar-becue and dances.

Speakers included Governor W. Lee O'Daniel and Attorney General Gerald Mann.

A water show and bathing beauty contest is on Sunday afternoon's program. Sunday evening union church services will be held in the oil show auditorium.

## Coming Events

**MONDAY.**

Presbyterian Auxiliary will meet at the church at 3:30 o'clock Monday afternoon for a combined inspira-tional and business meeting.

Methodist WSCS will meet at the educational building at 3:30 o'clock, Monday afternoon.

First Baptist WMU will have a missionary program at the educa-tional building, Monday afternoon at 3:30 o'clock with the Annie Bar-ron Circle in charge.

Calvary Baptist WMU Circles will meet as follows: Carrie Sarge Cir-cle with Mrs. Leonard Jones, 1104 S. Loraine; Katherine Shelburne Cir-cle with Mrs. W. G. Flournoy.

Red Cross work will be done at the Red Cross workroom at the old Baptist annex on N Main street, Monday morning from 9 o'clock un-til 12 noon. \*\*\*

**TUESDAY.**

Red Cross work will be done at the Red Cross workroom at the old Baptist annex on N Main street, Tuesday morning from 9 o'clock until noon.

Tuesday Bridge Club will meet with Mrs. R. S. Dewey, 1210 College, Tuesday afternoon at 1:30 o'clock.

Midland county museum in the courthouse will be open Tuesday afternoon from 2:30 o'clock until 5. The public is invited. \*\*\*

**WEDNESDAY.**

Midland Garden Club will have a garden pilgrimage Wednesday. Hours are from 9 o'clock in the morning till noon and from 5:00 o'clock to 8 in the evening.

Work for the Red Cross will be done at the Red Cross workroom at the old Baptist annex on N Main street Wednesday morning from 9 o'clock until 12 noon.

Bluebonnet Club will meet with Mrs. Lena Wimberly, 617 W. Texas, Wednesday afternoon at the usual hour.

Banner Club will meet with Mrs. C. A. Brown, 410 Marshall street, Wednesday afternoon at 3 o'clock.

Miriam Club will meet at the I.O.O.F. hall, Wednesday afternoon at 2:30 o'clock, with Mrs. Martis Miller hostess. \*\*\*

**THURSDAY.**

Work for the Red Cross will be done at the Red Cross workroom at the old Baptist annex on N Main street, Thursday morning from 9

### Wife Quarrels With Husband Twice Month

CLEBURNE (UP). — The Cle-burne Times-Review published this description of an average woman:

She marries at the age of 24.

Quarrels at least twice a month with her husband.

Spends four years washing dishes. Is 5 feet 4 inches tall.

Spends 2,784 hours (five years) gossiping.

Weights 128 pounds — until she becomes careless about her figure.

Spends \$312 in beauty parlors and \$387 on drug store cosmetics.

Attends 2,875 movie matinees, many of them double features.

Threatens at least eight times to go home to mother—but never does.

Spends three years and eight months on the telephone.

Never learns to play a golf game that satisfies her husband.

Buys 369 hats and 582 dresses.

Devotes the best years of her life attempting to make her husband over—without success.

Ruins three fenders on the car and tears off one garage door.

Occasionally wishes she'd married someone else.

Lives five years longer than her husband.

Darns 4,827 pair of socks.

Never learns to drive a nail with-out hitting her thumb.

And makes a darn good wife in spite of it all.

MEN'S CLASS Teachers—Marvin Ulmer and W. I. Pratt. Meets at 9:45 a.m. Sunday in the Crystal ballroom of Hotel Scharbauer. It is non-denominational.

NAOMI CLASS Naomi class for women (inter-denominational) meets at 9:45 a.m. in private dining room, Hotel Scharbauer.

Trend Toward Brief Bob For Summer Makes Care Of Hair More Important

Leonce, coiffure expert, created these new short hair-dos for hot summer days. A row of ringlets at the neckline and a brief pompadour distinguish the flattering style at left. The other coiffure is brushed upward in soft rolls all the way around. Notice that this pompadour also is low and casually informal.

By Alicia Hart NEA Service Staff Writer With more and more smart women, including the Hollywood stars, adopting shorter coiffures for summer, hair health and well-being become doubly important.

Regular and proper brushing is the great cure-all for minor hair ailments, of course. "Regular" means at least four times a week. "Proper" means using a brush with long but fairly flexible bristles, holding it loosely in the hand and, with each stroke, placing it flat against the scalp and then moving it upward and outward to ends of the hair.

Homeless War Children Take Over Wealthy Flats LONDON. (UP)—Three year old Peter Natty pedaled his tricycle along the carved oak passages of Gloucester House, Park Lane flats rented at \$400 a week, raced gaily through a drawing room containing furniture worth \$200,000 and colliided with an earl.

Homeless War Children Take Over Wealthy Flats LONDON. (UP)—Three year old Peter Natty pedaled his tricycle along the carved oak passages of Gloucester House, Park Lane flats rented at \$400 a week, raced gaily through a drawing room containing furniture worth \$200,000 and colliided with an earl.

Desserts Give Energy In Diets, Clubwomen Told

"Desserts in the diet give us energy and may, if made with milk and fruits, give us essential vitamins and minerals," Miss Alpha Lynn, county home demonstration agent, told the Prairie Lee Home Demonstration Club members meeting in the home of Mrs. E. D. Ward, Tuesday.

Of the four desserts given, Russian Cream was the one favored most by the club members. The recipe follows: Russian Cream 1c sweet cream 3/4 c sugar 2 t gelatine 1/2 c cold water 1/4 t salt 1 cup sour cream 1/2 t vanilla Berries

Heat sweet cream with sugar in double boiler until lukewarm. Soak gelatine in cold water about five minutes; add to heated cream and stir until dissolved; chill. When mixture begins to thicken, fold in sour cream, slightly beaten, salt and vanilla. Pour into molds and place in refrigerator. Serve cold with fresh or preserved fruit.

The afternoon program was devoted to a study of the State Home Demonstration Association. Miss Lynn discussed the beginning and objectives of the organization.

A noon luncheon was served to: Mrs. W. F. Francis, Mrs. W. H. Lynn, Billie LaJean Pigg, Velda Dee Pigg, Thelma Francis, Marie Ward, Marjorie Ward, Carl Ward, John Ward, Mrs. W. E. Pigg, Mrs. G. O. Stewart, Mrs. J. L. Ledbetter, Mrs. J. E. Wall.

By William E. McKenney  
America's Card Authority.

The laws of duplicate contract bridge counsel the tournament director to protect the field, that is, to prevent a pair from getting an unduly good score by some inconsequential slip of procedure. But he must also be cautious about setting aside penalties to further this object.

I recall a difficult case that came up at Skytop, Pa. The director was the late C. F. (Friday) Waltman.

At the conclusion of the bidding, East laid down the ace of hearts, out of turn. Waltman was called and explained that the declarer could either direct the suit to be led by West, or treat the ace of hearts as a penalty card, which must be played at the first opportunity.

South chose to make the heart ace a penalty card and West led the jack of diamonds. Declarer won and took three rounds of trumps. On the last round East was compelled to play the ace of hearts. Thus declarer was able to discard all of dummy's clubs on the set-up heart suit, and dummy had two trumps to ruff South's two losing clubs.

Seven spades redoubled at six, gave declarer a tremendous score. Before the lead out of turn was

### COURTSHIP MILEAGE HIGH

SYRACUSE, N. Y. (UP)—A 34,000-mile courtship has been ended with the marriage of Corporal Gerald L. Jones, stationed at Fort Monmouth, N. J., and the former Miss Dorothy Holmes of this city. Jones calculated he had driven that distance in visits to the home of Miss Holmes.

made North and South were slated for a bad score on the board. But the misplay, while it gave no information to the defenders, allowed the declarer to win a top score.

Do you think that South should be allowed to score the grand slam doubled and redoubled, or do you think the field should be protected? It is problems like this that make a tournament director's life miserable.

### Bell County Former Residents To Picnic

ABILENE (Special)—Second annual picnic of the West Texas Ex-Bell County residents will be held at the Presbyterian camp-ground at Buffalo Gap on Sunday, July 6. That date was picked at the picnic last year when some 700 ex-Bell countians formed their organization.

President of the voluntary organization is A. J. Smith of Anson, with C. J. Glover of Merkel as vice-president. Secretary is Mrs. Florence Clifton of Abilene, with James P. Stinson of Abilene, who led in the organization, is chairman of the advisory committee.

Any former resident of Bell County is eligible to attend the picnic and join the organization—no dues—if he wishes, it is pointed out. A basket dinner will be served on the grounds everyone is to bring his own lunch.

The July 6th session starts at 10 o'clock in the morning.

# Stamford Plans Show Features

STAMFORD (Special)—Two main features of the Texas Cowboy Reunion are the old fiddlers contest and the chuck wagon meals served from wagons and brought in from well-known West Texas ranches for the occasion. The reunion will be July 3, 4 and 5.

The old fiddlers contest, will be in the Coombes Roundup Hall the second day.

More than 25 contestants are expected to enter this year's contest, according to J. T. Stell, Stamford, chairman. A number of registrations already have been received. Contestants must be not less than 50 years of age, and professional

### WOMAN INJURED, DRIVES ON

SHERIDAN, Wyo. (UP)—When Alma White, 34, of Hudson, Colo., cut a gash in her head on the windshield wiper in an automobile accident, she wrapped a towel around her head and drove 40 miles here for medical aid. Doctors said she virtually was "scalped."

musicians are barred.

Among the ranches expected to send chuck wagons this year include the 6666 ranch of Guthrie, the Matador ranch of Matador, the DDD ranch, Reynolds Land and Cattle Co., Kent County; SMS Flat-ranch, Stamford; SMS ranch, Spur, the SMS Throckmorton ranch, Throckmorton and the Bar-Cross ranch of Colorado City.

# Patriotic Rally In Upton County

McCAMEY (Special)—Citizens of Upton County gathered on Badger Field Thursday for the first of a series of patriotic rallies sponsored by Company B of the 34th Battalion.

Supt. H. E. Stoker, was master of ceremonies and invocation was by the Rev. J. M. Lewis.

Captain Earl Bone of the battalion introduced M. J. Knickerbocker, Odessa, commander, who made an inspirational talk, followed by the principal speaker District Attorney Alan Fraser of Alpine.

Fraser sketched the historical facts of the European countries the

### JUDGE MARRIES SPEEDER AND DISMISSES CHARGE

SAN FRANCISCO (UP)—Municipal Judge Kaufman told George Washington Wayne his excuse for speeding 40 miles an hour—going to the courthouse to get a marriage license—was an old one. At that Wayne produced the marriage license, beckoned to his fiancée, among the courtroom spectators—and was married by the judge.

The speeding charge was dropped.

last 15 centuries.

Mrs. Geo. W. Ramer and Kenneth Babcock spoke concerning Boy and Girl Scouts training. They were followed by Miss Jeanne Coulter and Jimmy Hayes who also talked on the organization.

Patriotic songs were led by Mrs. Robert Jackson, with Mrs. Edward Bierschwale at the piano.

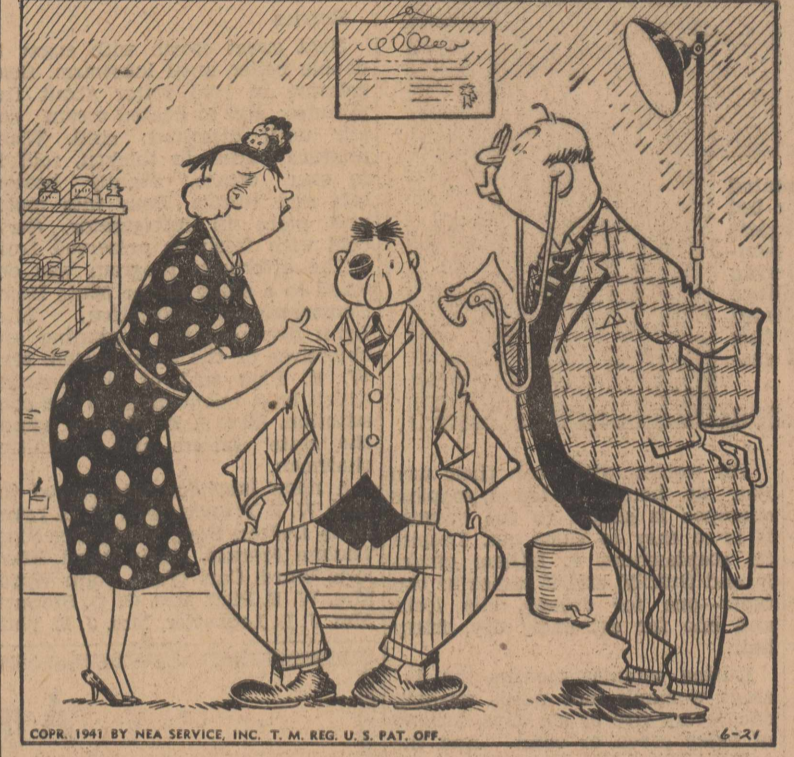

### Ohio Officials Work Against Subversion

CLEVELAND, O. (UP)—While the public thrills to hat-raising adventures of comic-strip and movie "G-men," industrial and government officials here and in northern Ohio are working quietly and efficiently to combat espionage and sabotage.

Within the past weeks, one Cleveland industrial plant has put up seven miles of high wire fencing about its vitally important properties.

Two years ago when "Fifth Columnist" was a strange new addition to the American vocabulary, agents of the federal bureau of investigation and army and navy intelligence began systematically to plan protection to power plants, communication facilities and defense production. In Cleveland, they are working closely with the city's safety department and private industry.

# Current Pictures Marking Highlights In Fast Changing World Of Events

## Going to Press in Chungking Cave

Deadline time on the liberal Chinese newspaper, Ta Kung Pao, finds typesetters busy beneath the rough roof of a cavern hewn out of solid granite hills on which Chungking is built. Paper, forced to move three times to escape Japanese, needed complete air-raid protection, for one bomb can pi a lot of type.

## Scotland's Bonnie Banks Bristle

New picture from Scotland shows artillerymen with tractor and six-inch gun fording stream in defense maneuvers as Britain hears Germans mass troops in Norway for possible invasion of land of heather and highlanders.

## Rare Is Right

You don't often see anything like this, for here with its mother is one of the four glibbons ever born in U. S. territory. They are guests of University of Puerto Rico School of Tropical Medicine.

## And Still the Battle Rages

The Associated Apparel Manufacturers of Los Angeles are defiant against what they term the wanton aggression of the Hays office. And so they have enlisted Muriel Morris, above, as proof that sweaters are wholesome articles of feminine dress and should not be banned by movie censors.

## Heading for the Last Roundup in Crete

British soldiers, hands in air, surrender to German parachute troops in Battle of Crete, according to caption passed by Italian censor. Original picture has just arrived in America.

## Summer Chapeau for U. S. Troops

To an army whose troops have more hats than shoes, there comes this new cotton cap, part of the official uniform for U. S. soldiers. It's worn with brim down in front, up in back.

## Vicious Vishnu---American Style

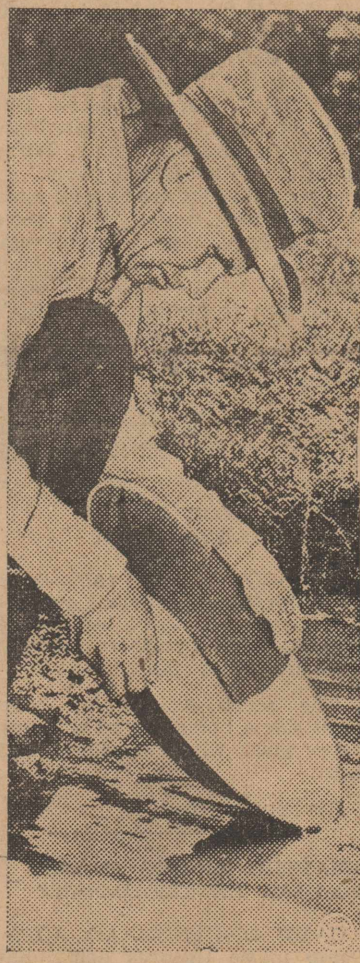

Looking every bit as well supplied with arms as the Hindu god and much more potent, this 1941 edition of Uncle Sam's fighting man shows how (aided by hidden buddies) enemy might see him equipped with new Garand rifle.

## Hidden Taxes? Tin Panner for Defense

Woman with scarf over head taxes imagination as Internal Revenue Bureau in Seattle conducts mysterious investigation into income tax evasions in Washington State.

Crouching like a gold-hunting forty-niner, W. F. Estes prospects for tin in stream near Mason, Tex. WPA project there is searching for minerals vital to national defense production.

## Flies Robin Moor Reports to U. S.

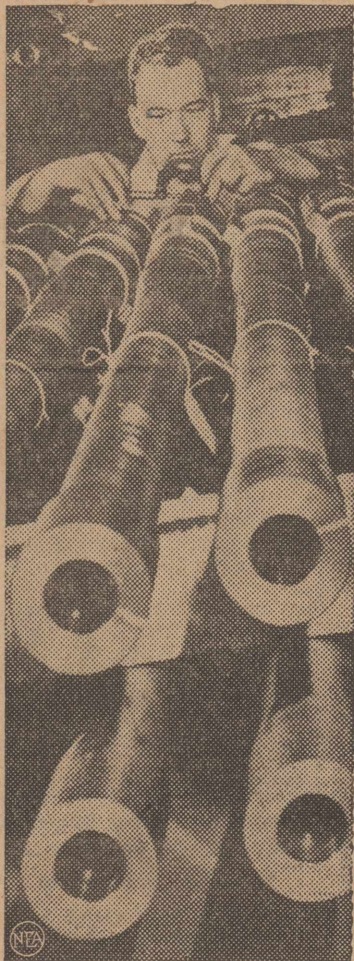

Big news from Brazil is brought by Philip Williams, above, American U. S. vice consul at Rio de Janeiro, who flew to Washington with first-hand account of Robin Moor survivors' stories. American boat was torpedoed by German sub, U. S. claims.

## Role in Reno

Actress Tallulah Bankhead relaxes in Reno with lion cub "Winston Churchill" and Pekinese "Anne" after divorcing John R. Emery. Cub, afraid of Peke, is bottle baby.

## Barrels for Britain

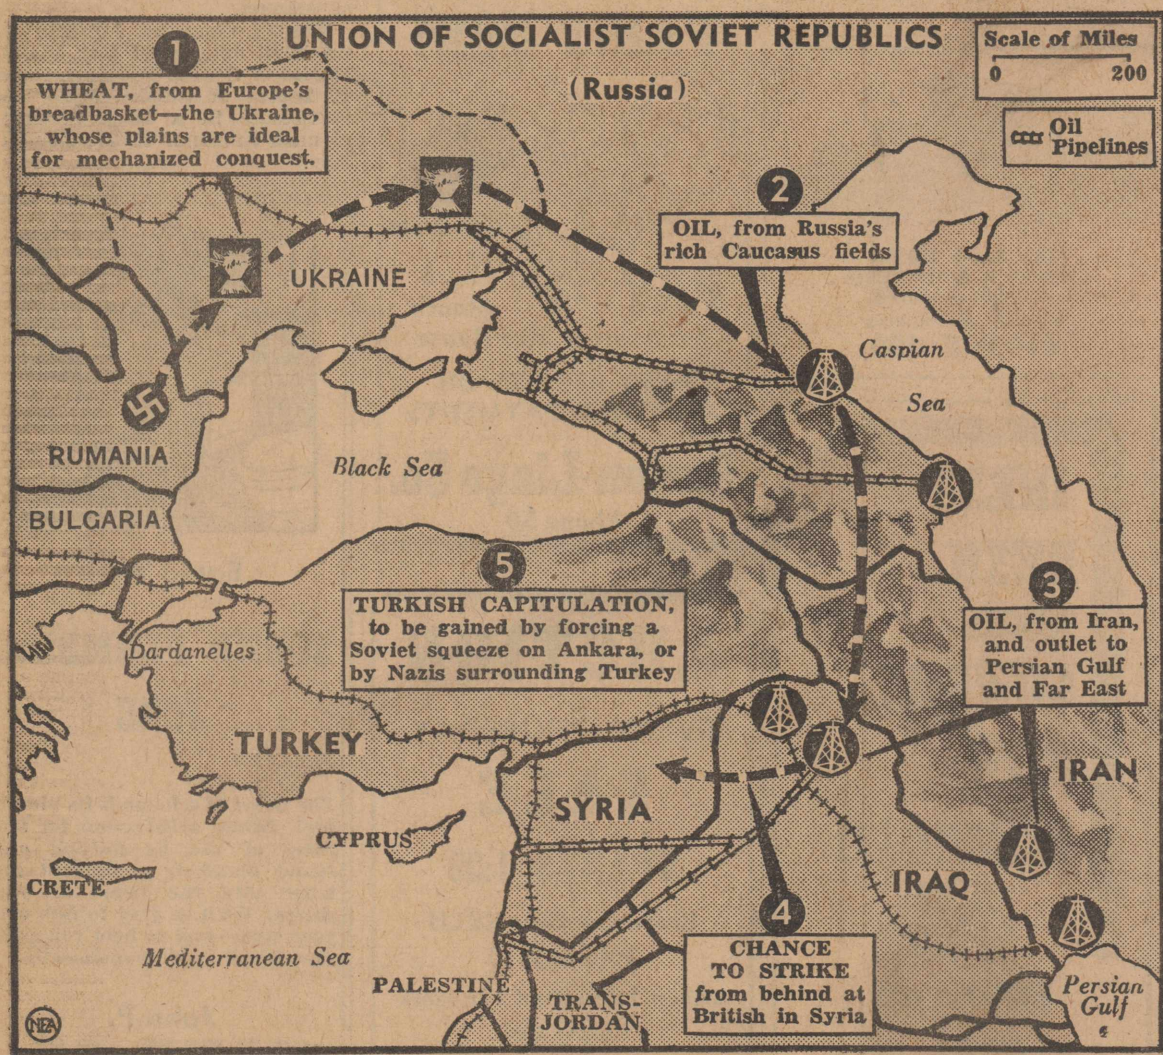

Canadian craftsman looks down barrels of two-pound, anti-tank guns and Hitler's legions may get the same chance if they try invasion of England. Manufacture of these weapons is most recent undertaking of Canada's war industry.

## U. S. Observer Missing in Iraq

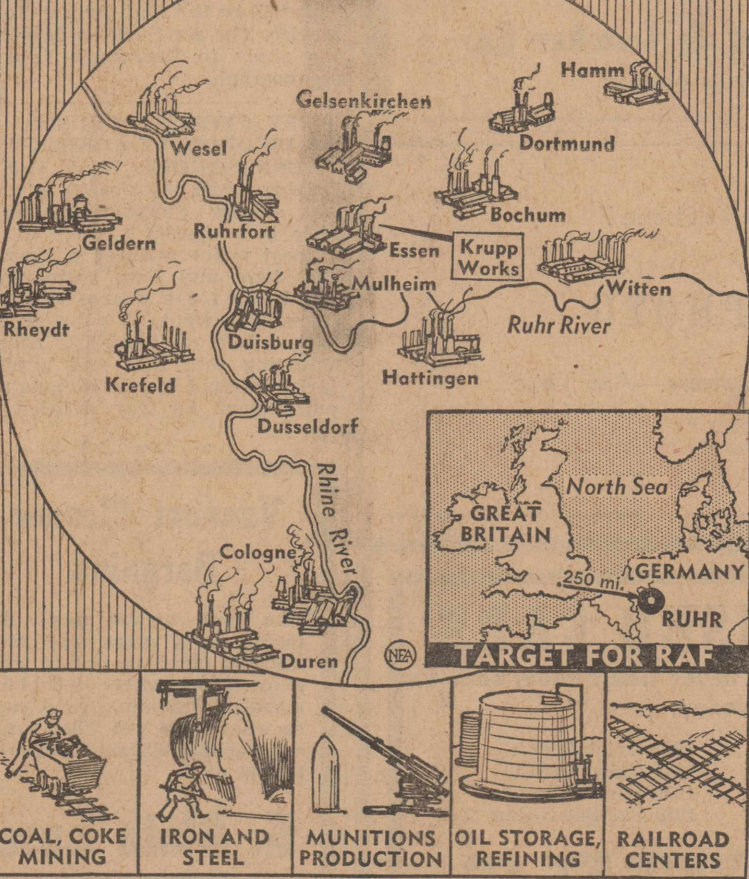

Lieut. Comm. George Wilson Grove, above, U. S. reserve officer on duty as naval observer in Near East, is missing after fight with British in Iraq.

## Five Prizes Conquest of Russia Would Net Germany

Russia seems due for a dish of conquest, either diplomatic or military, from her strong neighbor Germany, now reported massing troops on the Nazi-Soviet frontier from the Baltic to the Black Sea. Map shows five prizes Germany might gain by sending her troops across southern Russia.

## VALLEY OF THE RUHR

Continual target of RAF bombing raids is Germany's great Ruhr valley, called the world's most powerful center of industry, as Britain seeks to destroy an important source of Nazi iron and steel products, munitions, and synthetic oil. Most of Ruhr cities shown on map have been bombed.

## Warm Hand of Welcome for Uncle Sam's Enemies

Etched against sky at Maxwell Field, Ala., traditional army .45's are aimed by army air cadets. The revolvers may be no match for dive bombers, but they are mighty handy in hand-to-hand fighting on the ground.
