Budget Director Estimates Defense Outlays Will Reach Rate Of Billion Dollars Month When September Comes

Smith Says Acceleration Will Increase Costs For Fiscal Year To \$15,500,000,000; Figures Fall \$190,000,000 Short Of January Estimate

WASHINGTON (AP)-Harold D. Smith, budget director, predicted Saturday expanding defense expenditures would reach a rate of \$1,000,000,000 a month by September.

This acceleration, he said, should make good recent estimates that defense costs this fiscal year will be \$15,500,-000,000.

Reviewing the last fiscal year (which ended June 30), Smith said \$6,274,000,000 was spent for defense. The spending rate was \$807,000,000 in June.

"I have just spent three and a half weeks visiting defense plants," the budget head said, "and I got the definite impression that we are going to have a pretty sharp stepup in production pretty soon.

Although noting that the defense total of the past year was \$190,000,-000 short of the budget estimate made last January, Smith said it failed to reflect other millions of dollars of defense work being done by nominally "non-defense" agen-

Drawing Closer To Canada

What the relationship between the United States and various European countries will be after the war, no one can say definitely. But one thing stands out crystal clear in this fog of the future, and that is that the United States and Canada will be thrown closer together than ever before.

No two countries in the world are bound by such strong natural ties of common standards of living, common culture and ideals, complementary economies, ties of language and friendship. As Dr. Calvin B. Hoover, economist, pointed out in a recent speech, present world events suggest that neither country should attempt independent self-defense economies.

A long drawing together of 100 years' standing is now accelerated by world events. Beside these mounting imperatives, questions of nationalism, governmental forms, look more and more each day like details.

The Jolly Junglemen

Just a year ago, much of the Panama Coast Artillery moved out of its regular barracks in Panama to go out into the tropical jungle and build new defenses. The story of what they did in that year is a saga of the United States Army, told proudly by their own P. C. A. News, sprightly paper of that service. We want you to share their pride, so let them tell their own story:

"The Junglemen spat on their hands, grabbed their world's Warships. picks and shovels and dug in! They cleared their own emplacements and put in their own guns; they built their own roads through bottomless jungle mud; they licked malaria to a standstill! Then they built their own comfortable barracks, and moved in. . . . Today-a year later which nation it belongs. -there are a hundred little cities scattered over more than 900 square miles of tropical jungles; there are many hundreds of powerful seacoast and anti-aircraft guns. . . .

American soldiers who can do that kind of a job are the kind of soldiers America has always had; the kind of soldiers one can trust to do any job the world hands over to them.

Expects Twenty-Five Teams In Tournament Some Night Games May Be Played In Crane Players July-August Meet ___ Will Reinforce

Interest in The Reporter-Tele-gram's first annual invitational baseball tournament brought a predic-tion from Jim Payne, manager that 25 teams would compete here.

Payne returned from a tour of upper Permian Basin cities and contacted Lubbock, Big Spring, Level-land, Denver City, Seagraves, Wolfforth, Sundown, and other teams. Denver City, Dr. Pepper (Lubbock), and another Lubbock team are interested in the tourney.

Arrangements may be made, Payne said, to play some night games in the tournament on four successive weekends in July and August. Upper Permian and South Plains teams are in a semi-organized league and cannot play here except at night. Nine teams of the league may enter the Midland joust. Four Clubs Will Win.

Entry blanks to 25 teams were mailed early last week and several have replied favorably to entering. Fort Davis, Odessa, Goldsmith, and

Midland are definite entries. The tournament is scheduled July 25, 26, and 27, August 1, 2, and 3, August 8, 9, and 10, and August 15, 16, and 17.

1/2 per cont

Payne will make another trip to Lubbock, Levelland, and other South Plains cities this week for entries.

RUMSON, N. J. (AP)—After two weeks of anxious waiting because of parental objections and rules of the Catholic Church, Billy Conn and his the four major league home-run honors and Red Rolfe and Johnny Sturm joined with one each.

and Dickey

Hobo Baseballers

Midland semi-pros, with a re-vamped lineup and a will to break into the win ledger, were scheduled against Fort Davis baseballers there at 3 p.m. Sunday

Manager Jim Payne planned to take 10 or 12 players to Fort Davis including three additions from the Crane team.

The starting tosser for Midland was to be Bobby Walker, "Windmill" Brown, or Jones from Crane. Jones is a righthander.

Monday night at Midland's baseball park Payne's men will engage the touring Boston Hoboes. Alton Bostick, first string University of Texas catcher, will receive for Midland. He is a Big Spring product.

Yanks Slam Homers And DiMaggio Keeps Knocking Out Hits

NEW YORK. (AP.)-The New 16, and 17. Four top teams will receive money awards. The winner will receive \$150 or 30 per cent of the gross gate re-ceipts; runnerup 15 per cent; third place 7 1/2 per cent; and fourth, 2 NEW YORK. (AP.)—The New York Yankees were the bombers of old again Saturday as they blasted out a 10 to 5 decision over the Ath-letics for their seventh straight vic-tory and Joe DiMaggio ran his hitting streak to 46 successive games.

ers. DiMaggio set the tempo when Conn Weds Girl Friend In Spite Of Objections he connected with his 19th four-baser in the first inning to send the bombers into a 2-run lead. the bombers into a 2-run lead.

girl friend of four years, Mary Louise Smith, were married last Tuesday at St. Patrick's Church in Philadel-games in front. The score:

ing Max Leaman of Crane.

When the Boston Hoboes, traveling baseball team, tangle with Mid-land's semi-pros at 8:15 p.m. Mon-day night at the baseball park, "Kewpie" and "PeeWee" will be featured in a sideshow of "scream-lined" baseball.

SUNDAY, JULY 6, 1941

Icers-Central, Wilsons-Texans Will Open Week

After Monday the city softball league will resume its operations in the last week of the first half season. A baseball game is scheduled

Monday night. The schedule for the week is: Tuesday night: Southern Ice vs. Central Pharmacy, and Texas Company vs. Wilson Dry Goods; Wednesday night: Southern Ice vs. John P. Howe, and Wilson's vs. Independents; Thursday night: Central Pharmacy vs. Merchants Girls, and Texas vs. Mackeys.

Featured diamond talk of the past week was an announcement of Wilson's adding new players—Lee Hageman, ex-Mackey ace, and Mack Webb, fast fielding, Independent outfielder and infielders to its roster. The move was made to add interest to the title chase and dis-tribute player strength.

Mackey Motors continued on top of the league in last week's play by nipping Texas 13-4 to remain undefeated. The Independents uncovered Eddie Smyers, elbowing pitcher, who cuffed Texas 11-2. Southern Ice displayed a re-vitalized line-up in women's play but lost a thriller to Merchant Girls 11-12. Sewell Motors lambasted Central Phar-macy 12-4. Tuesday night's games were rained out.

Texas protested Lee Hageman's pitches but the objection was overruled by league officials. The league standings:

Doctor's Saddlebags And Prize Saddle In Museum Gifts

By Ola Dublin Haynes. The cowboy's faithful horse and the equipment he carried made the man of the Old West the efficient machine he was, able to cope with whatever problem arose in his daily life. Today, the horse carries nothing any distance for his less hardy master of a less hardy generation. Indeed, he has a comfort-able trailer of his own and covers ground by means of a newer kind of horsepower. The Midland County Museum would like to have a complete collection of articles carried by the horses of pioneer days, and has lately been enriched by some interesting relics.

Fifty years ago C. A. Goldsmith won a saddle in a steer roping contest here. It was the first saddle ever offered as a prize in the Mid-land country. This sturdy old sad-dle saw much service and is in a good state of preservation today. It looks as if it would like to tell of by-gone days when the west was being developed by a splendid bunch of cowboys who were always ready for the next experiences, good or bad. It knows the story of many horses, intimately, the top horses and the

onery ones. It is eloquent, with-out words. Mr. Goldsmith's family has given this old-timer to the pub-

long distances horseback. They with foreign countries leading a couldn't phone the pharmacist for normal existence, books on such what the patient required so every- countries are hard to find. Cloverdale Favorite Of Picnickers Both

Young And Old

With the growth of Midland's population, forecast by placing the U. S. Army Air Corps Training Center here, the city's parks take on ncreasing importance, The start of Midland's park system was somewhere back in the 'good old days" which are so clear in the minds of oldtimers. Actual developments of the grounds has been almost entirely during the last thirteen years, however. About 1928 A. B. Cole Sr. planted the

first trees at Cloverdale. Cloverdale Park, site of the city waterworks, is the premier park of the system-the most spacious and the most popular with citizens who flock there in private parties or large groups practically every day and night of the summer season. Picnic Equipment.

The park grounds, part of a large tract owned by the city, comprise about 21 acres. A wading pool, swings and other play apparatus combine with smoothly-clipped lawns and conveniently-placed picnic tables and barbecue pits and

Coal Operators And **CIO Union Workers** Work On Agreement By 'The Associated Press

The apprehension of defense officials over a new stoppage in soft coal production faded Saturday as spokesmen for the United Mine Workers (CIO) and the Southern soft coal operators sat down to draft a contract.

The meeting was presaged by comment from both UMW President John L. Lewis and L. Ebersole Gaines, representing the operators, that the negotiators to that point had shown progress-the first time either side had evidenced such view. The operators already had waived their one-time insistence on a 40cent a day differential between the \$7 a day paid by northern mines and the southern rate, that left comparatively minor details to be worked out in the written contract. Wanted Bargaining Rights Another immediate strike threat

vanished when the AFL Chemical that they negotiate meanwhile con- ets and a union shop.

This combine at work on the farm of J. J. Willis, nine miles south of Midland, is the first ever to harvest wheat in this county. This experimental field of 70 acres produced an average of 20 bushels per adre.

Oversubscribe **Quota For USO**

MONAHANS (Special) — Ward County's quota of \$750 in the Unit-ed Service Organizations drive has been over-subscribed, Murray J. Howze, county chairman, said. A total of \$821.41 had been received by Howze, and two committees were unreported. Several pledges also re-

mained to be paid. Expenses of the organization dur-ing the drive were \$16, and the balance of \$805.40 was forwarded to E. B. Germany, state chairman. Howze said every town in the

county exceeded its quota. Reports were: Grandfalls, \$76.50; Royalty \$99.60; Pyote, \$2700; Barstow, \$25,-76; Monahans and Wickett, \$592.54.

This map depicts current business conditions as compared with the same period last year. It will appear in the July number of "Nation's Business", published by the United States Chamber of Commerce

The almost all-white map depicts improvement from last year in practically every section due to conditions of agriculture and employment. The recession in April in industrial production due to work stop-pages was quickly recovered and the barometer chart line for May rose to a new peak.

KRLH Marches On

The architect's drawing of the KRLH Transmitter Building showing the tower in the background.

KRLH, only five years old, moves forward in 1941 with justified pride. KRLH has just completed a new, modern transmitter building housing one of the most modern installations of transmitting equipment in the United States. The erection of the new Vertical Radiator, standing 438 feet above the ground, was completed Saturday. KRLH has increased its power from 100 watts to 250 watts to better serve the vast West Texas area. KRLH Marches On!
