Requests Include Funds For Naval, Maritime Set-Ups

New Requirements For Three Branches Total Over \$8,000,000,000

WASHINGTON (AP) -President Roosevelt asked Congress Friday for \$3,323,-000,000 in cash and contract authorizations for the Navy

and Maritime Commission. With a request Thursday for \$4, 770,000,000 for the army, Friday's figures struck a two-day total of \$8,093,000,000 for defense.

Included in the \$1,625,000,000 which Mr. Roosevelt sought for the navy in cash was \$400,000,000 for maintenance and repair of defense installations in government or privately owned merchant snips.

WASHINGTON. (AP.) - President Roosevelt's request Friday for \$3,323,000,000 more for the Navy and Maritime Commission, pushed the projected cost of defense and lease-lend spending past \$52,000,000,000.

The London report that the Germans have renewed their Russian drive on a big scale fits with the expectations of military experts perfectly, since any idea that Nazis were definitely bogged down was the result of dangerous wishful thinking.

With completeion of reorganization of their forces after their initial long sweep into Russian territory, the invaders apparentirely now are ready for an allout assault on the great Stalin line. This will be the first time that a frontal operation has been undertaken against one of these modern 'Maginot" defenses.

The Virtue Of Being First

It is a relief to see anti-Nazi forces move first. Always they have been fighting desperate rear guard actions after the Nazi fuehrer has taken the initiative.

That's why the American move into Iceland is a logical, wisely foresighted step.

The full meaning of the setting up of an American naval base beyond what has been traditionally regarded the Western Hemisphere is not yet completely clear. But this probably wouldn't be far wrong:

With vast Nazi forces now engaged in Russia, there is a tendency throughout the anti-Nazi world to sit back. relax, and enjoy the breathing spell.

Nothing could be more fatal. A breathing spell wasted in lolling around is gone for good; a breathing spell utilized to the full to catch up and speed up is really useful. The Russian diversion is no time to lay back and take it easy on aid to Britain. It is a heaven-sent opportunity to double and redouble that aid.

Now Iceland. By autumn, one of two things will have happened. Either the Nazis will have beaten the Russian German Raiders army, or they will be deeply involved in a winter campaign in central Russia. We're not guessing which.

Dancing And Light Wines

The French are a gay people, ran the old saying, fond of dancing and light wines.

We doubt if there is much gaiety or much dancing in France these days, and now it is learned that even the light wines are on the point of being rationed. France, the country of the grinning grape, whose wines have delighted the world, now has not enough wine for itself. To ordinary French people, who know water only as something to wash with, this will be a blow indeed, and, adept as they are at watering down their ordinary table wines that grace every meal, an actual shortage of wine may

bring home to France the depths of France's fall. To add insult to injury, the shortage is caused by conversion of much of the new vintage into motor fuel. If our recollection of the average Frenchman is correct, he'd rather have wine, and walk.

Roots

When a prominent man dies, there is never a lack of the great and near-great to file before his bier.

Perhaps a good measure of a public man is the number of plain and unpretentious people who mourn him and who seek to do him a last honor. Thus when the body of Ignace Jan Pawerewski, the great pianist-statesman, lay in his New York hotel recently, many of the great and famous came to pay him this final respect. But among the crowd in this case were some 25 Polish charwomen
