Morgenthau Asks Congress To Tax Millions Citizens Of Small Incomes

Air School Workers Get Wage Hikes

U. S. Army Engineer Announces New Scale For Skilled Workmen At Duty On Midland School's Construction

Captain Harrison Reports Wage Increases At Project And Heavy Machinery Operators And Others Return To Various Assignments

New wage rates were announced Friday for skilled workmen constructing the Advanced Twin-Engine and Bombardier Training Center.

Heavy machinery operators were back at their jobs as were all other workers who have been given assignments.

The new wage scale authorized by the U. S. Army District Engineer at Galveston and announced by Captain R. J. Harrison, supervising engineer of the project, follows:

Carpenters \$1.12 1-2 an hour; painters \$1.12 1-2; sheet metal workers \$1.50; welders \$1.50.

Operators of power equipment or heavy machinery will be paid according to the type of work they do.

Operators of air compressors, blade graders, distributors of bituminous, finishing machines, pumps, oilers, scrapers, tractors and spreaders will receive \$1 an hour.

Operators of mixers, size 10s and smaller, will receive 75 cents an hour, and operators of trench machines \$1.25.

By the action the wages of many skilled workers were hiked.

All workmen will be permitted to work 6 days a week, 48 hours, and will receive time and a half pay for over 40 hours, or eight hours a week.

The new scale was effective Thursday and was the result of a wage survey just completed by representatives of the district engineers office.

Captain Harrison said original wage rates were set by the U. S. Department of Labor.

Gov. Stevenson

Coke Stevenson, Kimble County ranchman, became governor of Texas Friday in a ceremony at the state capitol in Austin.

Stevenson Asks Texans To Back Chief Executive

AUSTIN (AP)—Governor Coke R. Stevenson in his inaugural address Friday declared every Texan should support the President in defense of American ideals, standards and fundamental principles.

"Our great President shows determination to resist every force of aggression and conquest which threatens the liberties we enjoy," he asserted. "Texas is a vital part of this aroused nation."

"It is incumbent on every citizen of Texas to support our Commander-in-Chief in the defense of our ideals, our standards of life and our fundamental principles." "We will continue to be alert and mindful of the necessities of a growing and progressive population," he said. "Whatever is necessary for the common good will be undertaken with collective energy and a genuine desire to accomplish the greatest good for the greatest number."

He spoke of the importance of Stressed Obedience of Laws He pointed to a six-plank program for the state which he had proposed when inaugurated lieutenant-governor for the second time last January, said it had been largely accomplished, but declared that because of that accomplishment legislation would not become stagnant.

"We will continue to be alert and mindful of the necessities of a growing and progressive population," he said. "Whatever is necessary for the common good will be undertaken with collective energy and a genuine desire to accomplish the greatest good for the greatest number."

He spoke of the importance of

Curtiss-Wright Propeller Plant Workers Strike

By The Associated Press Several hundred AFL members walked out on \$100,000,000 of defense work at the Curtiss-Wright Corporation propeller division plant at Caldwell, N. J., Friday while a CIO strike continued to hold up \$493,000,000 of naval and merchant shipbuilding at Kearny, N. J.

The latter case may be referred directly to President Roosevelt for action, a defense official indicated.

At Caldwell, a company official said the plant's entire production of defense orders was imperiled. The plant employs several thousand workers.

Those who walked off their jobs were members of the AFL International Association of Machinists. John Hart, company spokesman, said the workers "asked more money, but have made no specific demands and have not presented their request in writing."

The AFL union Thursday lost a National Labor Relations Board election for collective bargaining agent at Curtiss-Wright's Caldwell and Clinton plants. Propeller craft, an independent union, won, 1,094 to 526.

Three other shipyard strikes were called Thursday in East Coast yards of Bethlehem Steel Corporation, two at Brooklyn and one at Staten Island, N. Y. Both Brooklyn strikes ended quickly.

Treasurer Says More Billions Are Necessary

Official Urges Lowering Of Levy Exemptions And Stiffened Tax On Others

WASHINGTON (AP)—Advocating an "all-out tax program for defense," Secretary of the Treasury Morgenthau asked Congress Friday to tax millions of additional persons with small incomes by cutting personal income tax exemptions and to stiffen other taxes on married couples, corporations and others.

He told the Senate finance committee that the revenue from the House approved tax bill should be increased from its present \$3,206,200,000 to "at least" \$3,500,000,000. He hinted strongly he would like much more.

Under questioning, Morgenthau estimated it would be necessary to raise at least \$2,000,000,000 more that is expected to be approved by the pending bill if the federal government is to pay two-thirds of its operating costs.

John L. Sullivan, assistant treasury secretary, testified that anticipated expenditures for this fiscal year were \$2,000,000,000 with an estimated deficit of about \$12,000,000,000. To meet two-thirds of the cost, at that rate, he said, estimated revenues would need to be boosted by almost \$15,000,000, including the amounts contained in the pending bill.

Reading a 15-page statement, the treasury head asked a dozen changes to boost the yield of the tax bill, but said his proposed new taxes on "millions of people with low incomes" should not be attempted "unless we reach in other places where ability to pay is escaping its fair share of taxes."

He explained that this applied to married couples and corporations, particularly. He rejected FRD's Plan Morgenthau gave no figures on how deeply he thought personal exemptions should be cut. Only last year, however, the exemption for heads of families was cut from \$2,500 to \$2,000 and the exemption for single persons was reduced from \$1,000 to \$800. Suggestions have been heard recently that the next exemptions might be \$1,500 for married couples and \$700 for single persons.

President Roosevelt suggested lately that the exemptions be \$1,500 and \$700. The House ways and means committee rejected the idea. "We have now come," Morgenthau said, "to the point where it is a matter not merely of fundamental equity, but of the utmost necessity that all exemptions from taxation be reduced to the absolute minimum."

To Abolish Complexities. "Under the bill before you the base has been broadened to add about 2,000,000 new taxpayers, but even so there will remain a relatively large proportion of the population in the lower income groups which will not be directly affected by the income tax."

Morgenthau coupled this suggestion with a proposal that all the traditional complexities of making out an annual income tax return should be abolished for the small taxpayer.

Morgenthau also urged that "along with increased taxation should go the maximum reduction in the ordinary non-defense expenditures of government."

He urged speed in consideration of the tax bill because "the excise taxes and the estate tax cannot be imposed retroactively and every day's delay in the passage of this tax bill costs the treasury several million dollars in revenue."

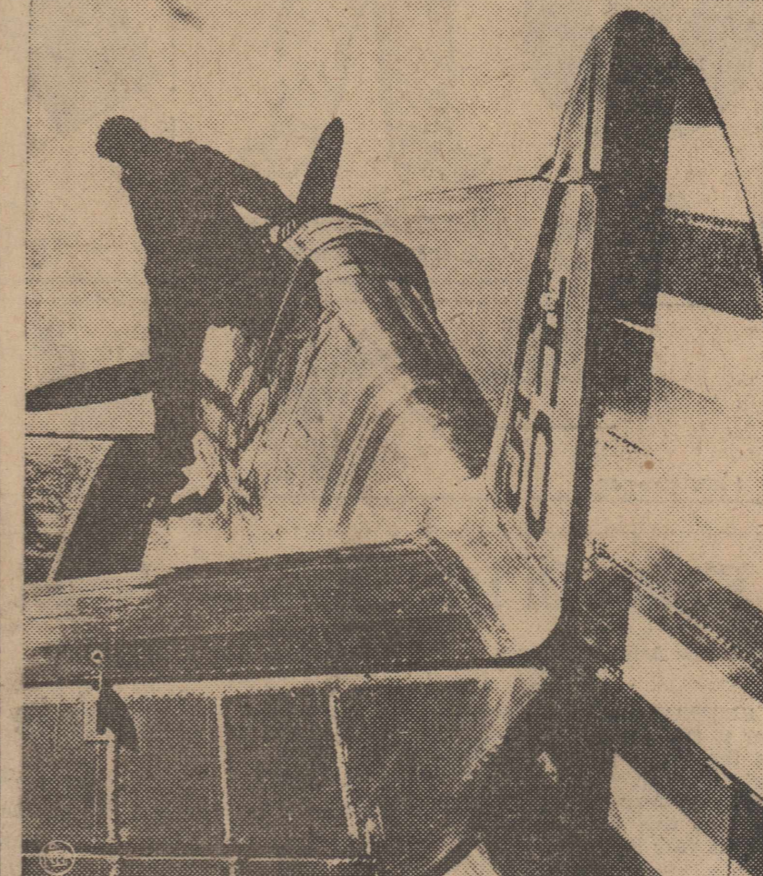

He added that, in fairness, taxpayers ought to know "as soon as possible" how much taxes they will have to pay next year.

Committeemen Will Report Center Sites

Mrs. N. A. Lancaster and Harry Gossett, committee members, were expected to report on prospective sites suitable for a recreation center at a meeting of the Midland center at 7 p. m. at the city hall Friday night.

Mrs. D. R. Carter, president, announcing the meeting, said it would last 40 minutes.

A Plane, a Pilot, a Picture

Army pursuit pilot and Curtiss P-36A plane are a striking picture of U. S. plans to step up Army pilot training from 12,000 to 30,000 pilots a year.

Five Hundred Workers Are On Air School Job

Hitler Command Reports 30,000 Russians Taken

By The Associated Press Adolf Hitler's high command reported Friday that German troops had annihilated a Red Army force trapped southeast of Uman, 125 miles south of Kiev, capturing more than 30,000 prisoners and the supreme commander of the Russian sixth army.

Earlier, unofficial Nazi reports said Kiev itself, the Ukraine capital had been surrounded. But the high command report indicated the main German thrust was directed at cutting off the Black Sea port of Odessa.

While the Germans pictured their armies as plunging headlong against wobbling Soviet defenses, Russia's Marshal Semion Timoshenko voiced a new note of confidence in this appeal to peoples in German-occupied territories: "Join your comrades and fight, starve, shoot and blow up the Germans and help the Red Army rout Hitler's dogs. Spill blood for blood, death for death, for the hour of victory is near."

Dispatches from Istanbul quoted well-informed sources there as saying that Britain was prepared to send several divisions of Indian troops through Afghanistan to bolster Russia's defenses in the oil-rich Caucasus.

These sources reported that Afghanistan would formally protest the passage of troops into the U. S. S. R., but ultimately would yield.

In the north, the Nazi high command said German columns driving toward Leningrad had captured Wessenberg, 68 miles southeast of the old czarist capital, and penetrated to the Gulf of Finland.

If true, this would indicate that the Russian-held capital of Estonia, Tallinn, is cut off by land. It would mean, too, that the Russian Baltic fleet was in jeopardy from German guns pressing toward its base at Kronstadt.

German reports said fighting was in progress within 25 miles of Tallinn.

Nazi dispatches indicated that the whole northeast part of Estonia, bounded by tidewater on two sides, was surrounded by German troops on the two other sides.

The Soviet high command, officially labeling Hitler's claims of vast successes as "Arabian fairy tales," declared that the 48-day-old struggle had cost the Germans more than 1,500,000 men against 600,000 Soviet losses, and termed the blitzkrieg a complete failure.

Hitler Command Reports 30,000 Russians Taken

More than 500 persons were at work Friday at the Military Reservation which will house the Advanced Twin-Engine and Bombardier Training Center.

About 30 more laborers and a number of additional skilled workers will be assigned to work Saturday, O. K. Johnson, project manager for the general contractors, Cage Brothers and F. M. Reeves and Sons, Inc., said.

Work on the warehouse which will be used by plumbers, electricians and heating workers will be started Saturday.

All workers were on the job Friday and indications were that many more men would be at work on the project within a week.

Work on the warehouse which will be used by plumbers, electricians and heating workers will be started Saturday.

More than 1,200 cars of gravel will be shipped from Pecos for the work here. The gravel will come from the H. T. Collier land about 20 miles from Pecos. Ralph Ingram of San Antonio has the contract to supply the gravel, and an application has been made for a spur track to the gravel pit. First shipments are expected to start within ten days.

Work on the spur track at the Military Reservation was progressing on schedule Friday with more than 50 workers on the job. Construction engineers hope it can be completed within a few days.

Leaders Stand Firm For Army Extension Without Time Limit

WASHINGTON (AP)—The House wasted no time Friday calling up army service extension legislation, and administration leaders stood firm for an indefinite extension in preference to the 18-month maximum just voted by the Senate.

The Senate approved the 18-month extension by a 45 to 30 tally late Thursday, providing \$10-a-month more pay for service beyond one year, and House leaders promptly ordered an unusual forenoon session Friday with the determination to get to a vote by Monday at the latest.

Manifesting no misgivings as to how the House vote would go, Chairman May (D-Ky.) of the military committee predicted that the chamber would disregard the Senate's 18-month time limitation.

"I'm getting sick and tired of this question of whether we are going to defend our country for six more months, or 12 more months or 18 more months," May told reporters. "I believe in National Defense without any time limit."

CAA Asks Site Be Selected Immediately

Engineers Will Be in Midland Soon And Inspect Proposed Locations; Officials Of City Are Considering Several Near Here

Civil Aeronautics Authorities notified city officials Friday the \$289,000 which the CAA recently announced for air port improvements at Midland is available for building a new municipal airport.

In a letter to City Engineer L. A. Rodenhiser, J. D. Church, CAA district airport engineer at Fort Worth, said engineers for the Federal agency would be here within a few days to inspect proposed sites for the new airfield to serve Midland, which has leased its fine Municipal Airport to the U. S. Army Air Corps for a Advanced Twin-Engine and Bombardier Training Center.

When the training center starts operations it may limit use of the airport to planes with two-way radio. This provision is made in the War Department's lease with the city.

The new airport must be several miles from the present field and that probably means it will be east, south or north of Midland. The site has not been selected.

City officials will start work immediately on the plans as the \$289,000 is a tentative allotment for the CAA's current program of airport development.

Several Sites Proposed Several sites have been offered the city and have been inspected. Airmen point out that practically any of them can quickly be made into an excellent port.

Church asked city officials to select the proposed site as quickly as possible so that work can get underway on the project. The CAA official said his organization is ready to start its surveys and prepare plans.

Congressman R. E. Thomason sent word August 1 that Midland had been granted funds by the CAA. The money will be spent for grading and draining of field, for seeding land strips outside of runways, for construction of runways and other improvements. He said it also provides for fencing and lighting the field.

The CAA designated the Midland airport as necessary for National Defense in granting the construction and improvement projects.

The airport was designated as Class 4, the top rank, and must have runways of 4500 feet or longer.

Senator Tom Connally has informed the Chamber of Commerce that the CAA plans to advertise for bids for the work within 60 or 90 days, and that the improvements probably will be made by contract. It hopes to complete work on the program shortly after the first of the year.

Construction and improvement projects under the supervision of the CAA are limited to airports owned by local governmental authorities. Work is restricted to the development of landing facilities.

Miss Mary Frances Carter, winner of the title, "Miss West Texas," at the recent Texas Stars on Parade in San Angelo, was a guest of the club Friday. She represented the junior chamber at that event and won first prize.

Taylor Cole and Earle Clark are new members of the Jaycees.

School Board Will Plan 1941-42 Term

The Midland school board will meet Monday night to make plans for the opening of the 1941-42 term. Supt. George A. Heath said the opening date would be announced after the meeting.

Latest News Flashes

House Groups Will Introduce New Highway Bill WASHINGTON (AP)—The House Roads Committee decided Friday to introduce a new defense highway bill to replace the \$320,000,000 measure vetoed by President Roosevelt.

Russian Sailors Recapture Village MOSCOW (AP)—Sailors from the Red Navy have been put into action on land duty with the Red Army on the Baltic front and have recaptured a village, a dispatch from the Baltic fleet reported Friday night.

Behind The Headlines

By DeWitt MacKenzie

Japan will be either very sure of herself, or desperate in the extreme because of economic difficulties and lack of essential supplies, if she makes further moves which may precipitate military action on the part of Britain and the United States.

When it comes to war, Nippon is terribly vulnerable in two respects. She would be in danger of strangulation by blockade, and her tiny island empire with its lightly built and highly inflammable structures would be a nightmare target for bombs, especially of the incendiary type.

That these two MacKenzie points are to the fore in Japanese calculations is indicated in Friday's news from Tokyo. A government spokesman charges America, Britain, China and the Dutch East Indies with military, political and economic encirclement of Japan.

Nippon Must Import So far as concerns naval attack, the Japanese likely would feel fairly secure in their own home waters—if Japan were self-contained and didn't have to import the bulk of her essential supplies. Every little

Flow For Britain Questioned

Sadler Condemns Operators Urging Further Oil Hearing

AUSTIN (AP)—Condemning those oil operators who would hide behind technicalities, Jerry Sadler, one member of the three-man Texas Railroad Commission, Friday asserted he saw no necessity of a further hearing on Texas' oil for Britain donation plan.

The commission, state oil regulatory agency, set Aug. 17 as the day operators voluntarily could run a day's crude production as a gift to Britain. The oil would aggregate more than 1,300,000 barrels if all producers contributed and has been valued at approximately \$5,000,000. Sadler's statement came after the

commission had received a request from 30 Houston oil companies for further hearings on the matter.

At one point in his statement, Sadler commended a fine spirit of cooperation he said had been shown by independent operators throughout the state.

"To my notion, as long as certain companies have everything coming their way, the path is rosy," he continued. "But once these companies are asked to donate something to the good of public welfare, then up goes a hue and cry that 'insurmountable difficulties' stand in the way."

McKENNEY ON BRIDGE

By William E. McKenney
America's Card Authority

Eight thousand miles may seem a long distance to travel, but stopping off at several cities a day and meeting the bridge players in those cities, you don't notice the distance. At least, that is the way Mrs. McKenney, Waldemar von Zedwitz, and I found our recent transcontinental bridge tour.

League, a former resident of Pittsburgh, and now located in Los Angeles, came up to meet us in San Francisco. While I did not have a chance to play with him in the tournament, I kibitzed a few hands he played with Mrs. Howard. He likes to put over a psychic once in a while. I thought he did a pretty good job on today's hand.

Of course, after Mrs. Howard's opening bid, Morgan (North) decided to go to at least four hearts. But to bid four hearts right over the double might simply incite the non-vulnerable opponents to bid four spades or five diamonds. In fact, this was precisely the effect of the jump when it was tried at other tables. So Howard decided to try to bluff the opponents out of bidding spades, which might be their best suit.

A bid of one spade would still let the opponents in cheaply, so he bid two spades, a bid that he knew Mrs. Howard would not pass. Both opponents were now content to wait and let North and South get into trouble. Thus they were talked out of their game and actually doubled four hearts, which of course was laid down.

Swimming Losers Can't Use Alibi On Hawaiians

ST. LOUIS (AP)—If the snappy Hawaiian team splashes off with honors at the National A. A. U. senior men's swimming and diving championships starting Friday, the losers can't use the alibi that the Islanders have lived in the ocean.

On the contrary, most of them learned to swim in an irrigation ditch and followed through with advanced courses in pools even as their competitors from the inland.

Manager Finds Few Prospects

PHILADELPHIA (AP)—Doc Prothro, back from an eight-day safari through the baseball bushes, is a little discouraged at the calibre of the new crop of players—not only for the sake of his own Phillies but for the big leagues in general.

"The stock," said Doc, "is not so hot. And I'm not alone in that opinion, either. Look around at either league."

The Phils' portly manager covered a considerable section of the southern states on his ivory-hunting tour. He saw most of the clubs in the Southern Association and the Cotton States League—and he came back home shaking his head.

Coloradoans Drive On In Golf Tourney

COLORADO Springs, Colo. (AP)—Bud Maytag and John Kraft were still the men behind the guns in the Broadmoor invitational tourney Friday as three Coloradoans who spilled favorites in the first round failed to repeat.

Maytag, only Colorado Springs entrant still in the running, met Francis (Mickey) Fleming of Evansville, Ind., in Friday's quarterfinal round, after ousting Gomas Green of Fairfax, Okla., Thursday 2 and 1.

Fleming knocked out H. F. Benson of Colorado Springs, who upset

"I don't see much of the natural player any more," observed Prothro. "I wonder where he went?"

DEFENSE BOND QUIZ

Q. In what denominations are the Treasury Department's Tax Savings Notes issued?

A. There are two series, A and B. Series A notes are issued in denominations of \$25, \$50, and \$100 each. Series B notes are issued in denominations of \$100, \$500, \$1,000, \$10,000, and \$100,000 each.

Q. Do these Tax Savings Notes earn interest?

A. Yes, provided they are used to pay income taxes.

Q. How much interest do these notes earn?

A. Series A earn about 1.92 per cent a year; Series B notes about 0.48 per cent a year.

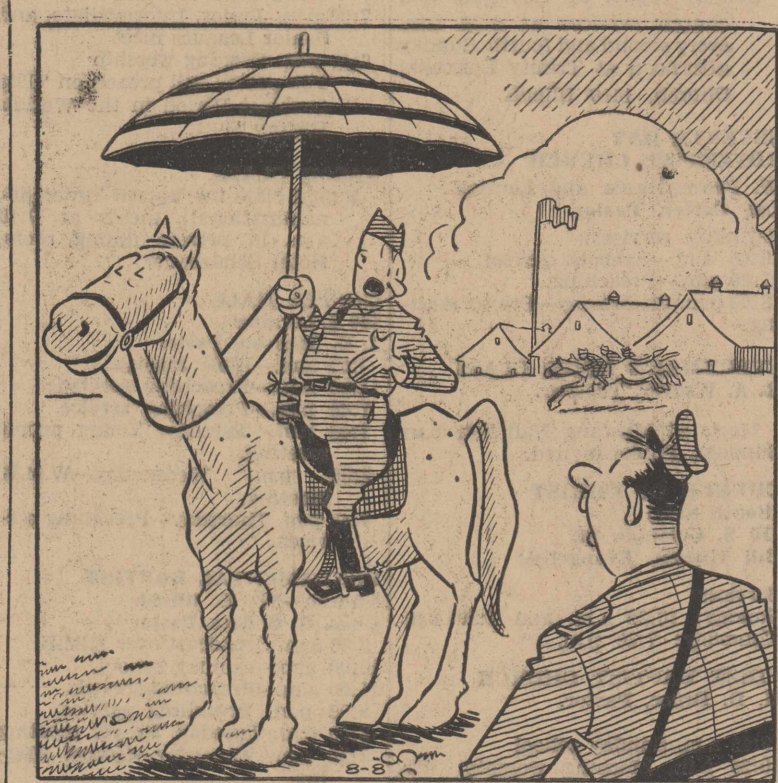

Note: For complete information about the new Tax Savings Plan, ask your banker or write direct to the Treasury Department, Washington, D. C.

ACTION DAMAGES WHITE STAR LINER GEORGIC

LONDON (AP)—The White Star liner, Georgic has been damaged by "enemy" action, the ministry of information disclosed Friday.

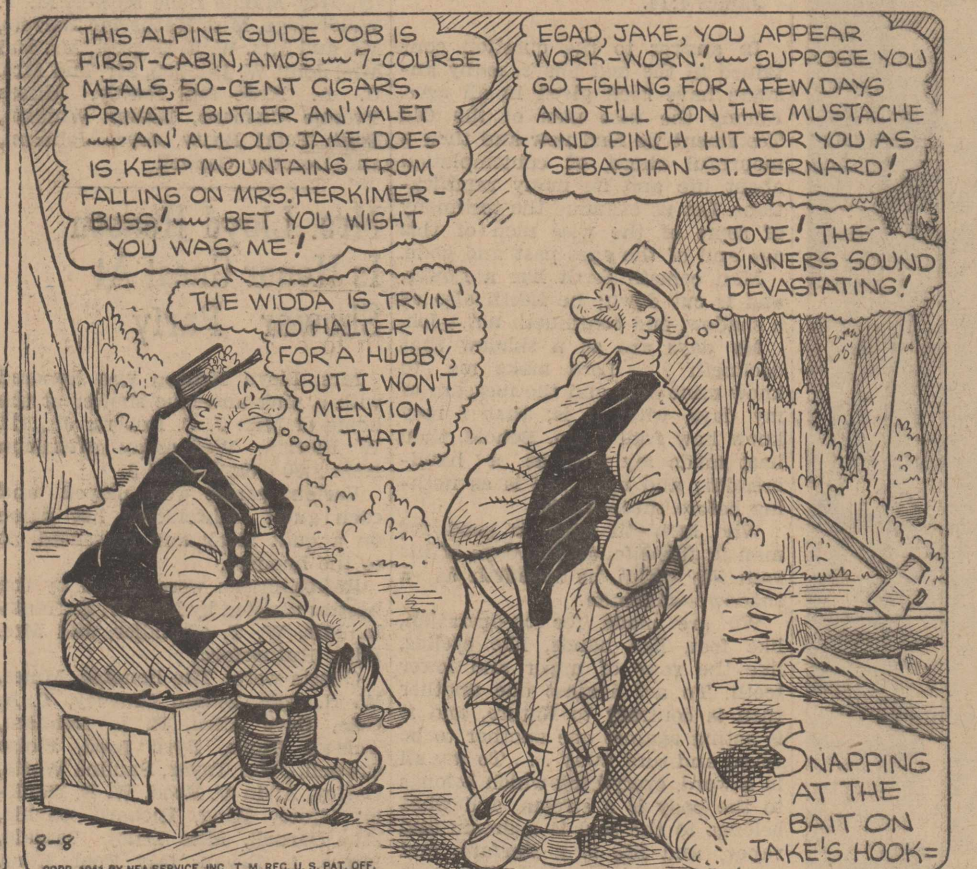

There were no troops aboard the 27,759-ton passenger liner at the time, the announcement said, and all crewmen were reported safe except the chief barkeeper.
