

France Gambles Fate With Hitler Car Accident Injures Four Midland Youths

Sedan Runs Into Rail Embankment West Of Midland

Three Of Victims Are In Serious Condition; Sken Boy Unconscious

Four Midland youths were injured, three seriously, when the heavy sedan in which they were riding ploughed into a railroad embankment about one mile west of the city at 11:50 p.m. Saturday night.

Curry Sken, 16, son of Mr. and Mrs. C. H. Sken, was thrown from the automobile. He was unconscious early Sunday at a Midland hospital. He suffered severe facial and head cuts, body bruises, and other lacerations. His exact injuries had not been determined.

Melba Clendenen, 15, daughter of Mr. and Mrs. Oscar Clendenen, received a broken right leg, deeply gashed left arm at the elbow, and facial cuts and abrasions.

Edna Jean Roberts, 15, daughter of Mr. and Mrs. Harry Roberts, suffered head bruises and possible internal injuries. She was semi-conscious at a hospital.

Bobby Wilson, 16, son of Mr. and Mrs. T. R. Wilson, was bruised. His condition was less serious. Officers said the car, driven north by Sken, failed to make a turn, and struck the embankment. The car belonged to T. R. Wilson. It was demolished.

A Barrow ambulance brought Miss Roberts and Sken to a hospital. Sheriff Ed Darnell, carried Miss Clendenen to another hospital.

Midland Rodeo To Offer \$6500 In Prize Awards

Contestants, professional and amateur, at the seventh annual Midland Rodeo, Aug. 30, 31 and Sept. 1, will compete for prizes totaling approximately \$6,500, including entrance fees, according to information in the rodeo prize list distributed to performers over the state on Saturday.

No. 25 Waddell is located in the center of the west quarter of the west quarter of section 17, block 3, H. & T. C. survey. It extends the area one-quarter mile east. Production is from dolomite of the Ellenburger, lower Ordovician. Oil string of casing was set at 5,614 feet, through upper gas zones, and main pay was topped at 5,625 feet. Total depth is 5,651 feet in dolomite.

A wildcat one and one-half miles farther south, Continental Oil Company No. 1 E. B. Jones et al, 660 feet out of the north corner of section 12, block 3, is standing at 1,525 feet in lime and anhydrite after cementing 9 5/8-inch casing at 1,522 feet with 900 sacks. Gulf et al No. 1-B J. B. Tubb, wildcat between the Sand Hills pool and the extension area, is drilling past 3,590 feet in lime. On the west edge of the pool, Gulf No. 5-A Tubb is drilling lime below 3,820 feet.

Anderson-Pritchard Oil Corporation No. 1 E. F. Borer, southwest of the Apco-Warner pool in Northern Pecos County, filled 1,500 feet with oil after 5 1/2-inch casing was gun-perforated with 48 shots from 4,783-91 feet, top of cement. Total depth is 4,804 feet, corrected by steel line measurement from 4,812. Owner is running tubing to acidize lower Ellenburger zone through perforations and will test for sulphur Garden Rodeo.

The Midland Rodeo, again this year, is a member of the Rodeo Association of America and the Southwestern Rodeo Association, and is approved by the Cowboy Turf-Club's Association. It is open to amateurs.

Judges in the contests will be selected by contestants and approved by the management. Attractive prizes for averages, including \$100 saddle for best average, are being offered. Boys between 14 and 18 are eligible to compete in the boy's roping.

Livstock with the exception of the roping calves, will be furnished by the World's Champion Rodeo Corporation and will be the same as that at New York's Madison Square Garden Rodeo.

Extra attractions will include a cowgirls' sponsor contest, gaited horse show and colt show, with purses and prizes offered in each event.

Britain Says Planes Will Turn Germany Into Hells Of Death LONDON (AP)—The two RAF's—the British Royal Air Force and the Red Air Force—will ride Europe's lengthening night in superlative raids that will turn German cities into "hells of death and destruction" before the year is out, the British predicted Saturday night.

Informed quarters said that the dropping of British bombs would be doubled by longer nights permitting two continental trips nightly for each bomber and that the Russians would use mammoth, new six-motor bombers carrying bomb loads of 7,000 pounds.

In the light of this prediction, the RAF's present eight-week-old offensive would be little more than a scratching of the surface. The RAF reported leaving enormous fires Saturday night in Kiel and bomb ruins also in Hamburg and elsewhere in northern Germany, at a cost of four planes.

Governor Hints At Special Session

AUSTIN (AP)—Amid jocular discussion in his daily press conference, Governor Coke Stevenson Saturday agreed that Sept. 9 "might be an awful good date" to begin a special session of the legislature.

Purpose of the session would be to enact a state road bond assumption act, a question over which the House and Senate deadlocked in the recent general session and which Stevenson has recognized as a serious problem.

Answering questions, the governor said: "Several members of the legislature have mentioned the first or second week in September. Goat shearing on my ranch (in Kinney County) starts Aug. 25 and will be over by then. It'll be ready."

Someone mentioned Sept. 9 "That might be an awful good date," Stevenson agreed.

Crane Deep Well Flows 69 Barrels On One-Hour Test

By Frank Gardner Oil Editor

Large production was assured Saturday for the third well in the four-mile south extension area of the Sand Hills Ordovician pool in Western Crane County as Gulf Oil Corporation No. 25 W. N. Waddell et al flowed 69 barrels of 36.6-gravity oil on one-hour gauge through open 2-inch tubing.

The test was taken after the well had cleaned itself of a 91-barrel oil load used in conjunction with a 5,000-gallon acid treatment. Gas per day. The well was shut in at the end of the one-hour gauge and will be given official potential test Sunday.

No. 25 Waddell is located in the center of the west quarter of the west quarter of section 17, block 3, H. & T. C. survey. It extends the area one-quarter mile east. Production is from dolomite of the Ellenburger, lower Ordovician. Oil string of casing was set at 5,614 feet, through upper gas zones, and main pay was topped at 5,625 feet. Total depth is 5,651 feet in dolomite.

Britain Says Planes Will Turn Germany Into Hells Of Death LONDON (AP)—The two RAF's—the British Royal Air Force and the Red Air Force—will ride Europe's lengthening night in superlative raids that will turn German cities into "hells of death and destruction" before the year is out, the British predicted Saturday night.

Informed quarters said that the dropping of British bombs would be doubled by longer nights permitting two continental trips nightly for each bomber and that the Russians would use mammoth, new six-motor bombers carrying bomb loads of 7,000 pounds.

In the light of this prediction, the RAF's present eight-week-old offensive would be little more than a scratching of the surface. The RAF reported leaving enormous fires Saturday night in Kiel and bomb ruins also in Hamburg and elsewhere in northern Germany, at a cost of four planes.

Fast Climbing Interceptor-Fighters

New American-built Curtiss 21B interceptor-fighter planes, pictured for the first time, are lined up at the great air base at Bandoeng, Java. Called "the fastest climbing plane in the world," they're credited with over a vertical mile a minute. Many other types of U. S. planes are being used by the Royal Netherlands East Indies Air Force.

U. S. Puts Steel Under Priority Control And Raises Cargo Loads

WASHINGTON (AP)—In new steps to bolster the defense program, the government placed all forms of steel under priority control Saturday and arranged to permit ships to carry heavier cargoes.

A priority order from the Office of Production Management directed that manufacturers accept defense orders for iron and steel products, subject to certain exceptions, even if the acceptance meant deferment of non-defense orders already booked.

Authority was granted ships to carry heavier loads when the State Department announced the abrogation of the international load-line convention, a step taken simultaneously with Latin-American signers of the pact.

Meanwhile, German informed this government that two Americans who have been missing since the Egyptian steamer Zamzam was sunk in the South Atlantic more than 16 weeks ago, were still on board the German raider, the Tamesis, which sent the ship to the bottom.

The men were Francis Vievvari of New York City, the leader of a British-American ambulance unit, and Ned Laughinghouse of Wilson, N. C., Tobacco Company employe. Other passengers on the Zamzam were transferred to the German transport Dresden and landed in France.

Behind The Headlines

By Kirke L. Simpson

The week end of the seventh week of the German-Russian war, marked by astronomical estimates from the Nazis of Russian losses, happens to coincide with another date which may well might have been in Hitler's mind when he advanced his claims of bloody new victories.

The Battle of Britain began by the calendar on June 18, 1940, when France fell. Actually, however, it was more than two months later, on August 8 of that year, that Hitler thumbed his mighty Luftwaffe against England in all-out air attack.

His hope and expectation was to break British resistance within weeks at most and pave the way for invasion of England. He failed utterly, terrible as was the cost in British lives, and grievous as was the damage wrought by ruthless Nazi attack on London and other thickly populated English cities.

A year later, the people of Germany must be fully aware of the grim significance of that first Hitler failure. Day and night, increasing numbers of British bombs are falling now on Germany itself and on German occupied regions. There is mounting evidence, also, that at sea July, 1941, was a banner month for Britain defensively and offensively as compared to July, 1940.

Hitler could not have doubted that his arch foe, Prime Minister Churchill, would make the most of an opportunity to recapitulate for the world the events of the year since August 8, 1940, so powerfully bolstering British hopes of ultimate victory.

Levelland Oil Worker Dies In Boiler Blast LUBBOCK (AP)—William C. Kerby, 35, Levelland oil field worker, died at 4:42 o'clock Saturday afternoon of injuries suffered early Friday morning when a boiler exploded near Levelland Sunday afternoon and burial will be in Pampa.

Lindbergh Says U. S. Conceals Real War Plans CLEVELAND, (AP)—Charles A. Lindbergh charged Saturday night that the nation was operating under a policy of government by subterfuge leading to war.

"I fully realize that the charge of subterfuge is serious in the extreme," he said in an address prepared for an America First rally, "but let me recall to your mind a few facts that lie behind it." First, he asserted, Americans were told that repeal of the arms embargo would be the surest way to keep out of war. Next, he added, the country was told that to sell arms on a "cash and carry" basis would insure victory for the Allies.

Turn Down Hearing On British Crude

AUSTIN (AP)—A majority of the Texas Railroad Commission, state regulatory agency, Saturday bluntly rejected the request of a group of oil companies for reconsideration of a plan to permit one day's oil production Aug. 17 as a gift to Great Britain.

The request for another hearing on the matter, made by 30 Houston companies, met strong objections from Commissioners Jerry Sadler and Olin Culberson after Commissioner Ernest O. Thompson, on duty at Palacios with his National Guard regiment, declared he favored granting the application.

"We have conducted a hearing on the matter and have carefully considered the plan," said Culberson, on vacation at Rockport. "It's a purely voluntary proposition. If the operators don't want to give the oil, they don't have to."

Reds And Nazis Say 4,500,000 Are Casualties

MOSCOW, Sunday, (AP)—German planes were reported shot down in an attempted raid on Moscow during the night. Some high explosives and incendiary bombs fell on the city and there were some casualties.

The Russian-German war went into its eighth week Sunday with no decisive break in the struggle apparent, although claims from Moscow and Berlin reached a staggering total of more than 4,500,000 casualties—mostly in both sides.

Moscow dispatches said the Red armies were fighting doggedly along the entire 1,200-mile front from the Baltic to the Black Sea, holding the Germans at bay with slashing counter-attacks.

German war reports, claiming destruction of one Soviet division after another, asserted that the Russians still were pouring millions into the battles, but that a marked softening of resistance by the Reds was noticeable, and that the Nazi legions were plunging deeper into the Ukraine between Kiev and the Black Sea port of Odessa.

Moscow said heavy fighting was continuing in Karelia and Estonia, the fronts guarding the approach to Leningrad, near Smolensk, where the Reds have held back terrific German drives toward Moscow for a month, and in the Korosten and Bel Tserkov directions above and below Kiev.

The Germans claimed the capture of Korosten, 80 miles northwest of Kiev, as a companion victory to the occupation of Bel Tserkov, 50 miles south of Kiev on the road to the huge steelmaking, coal and ore mining and power producing city of Dnieperopetrovsk.

On the central front, the Germans claimed they had wiped out newly trapped forces at Roslav and taken 39,000 prisoners. Previously Hitler's field headquarters had reported the destruction of 25 Soviet divisions south of Kiev with 200,000 Russians slain or wounded and 103,000 captured.

Highlights of German and Russian claims for the week follow: Berlin Claims Russians killed: 3,000,000. Russians wounded: No total. Tanks destroyed: 8,712. Planes destroyed: 9,082. Guns destroyed: 11,874. Soviet prisoners: 1,036,000.

Moscow Claims German losses: 1,550,000. Tanks destroyed: 6,000. Planes destroyed: 6,000. Guns destroyed: 6,000. Nazi prisoners: No total.

The Russians admitted they had lost 600,000 killed and wounded; the Germans, as usual, were silent on their losses.

Meanwhile, the official Soviet spokesman, S. A. Lozovsky, said Russian warplanes which twice have bombed Berlin would continue to raid the German capital to help in breaking German morale.

Police Chief To Leave August 16 Police Chief L. P. McCasland said Saturday he would leave Midland August 16 and report at Austin the next day to rejoin the Texas Highway Patrol. His duties here end August 15.

Police chief here since April, McCasland was notified last week of his reinstatement with the patrol. He will serve as an instructor.

Frank Manning, city motorcycle officer, was appointed acting police chief, to serve until a successor to McCasland was named. McCasland headed Midland's first uniformed police department.

De Brinon States Vichy Government Accepts New World Order And Policy Incompatible With Britain And U. S.

Declares Collaboration With Germany Is No Business Of Roosevelt And Welles As Four Officials And Weygand Confer On Situation

By The Associated Press. VICHY, Unoccupied France.—Fernand de Brinon, envoy of the Vichy government in occupied France, declared Saturday in an interview in Paris, made public in Vichy, that France has decided to accept the German version of the new world order as opposed to that of Britain and the United States.

As the interview was made public there was considerable speculation on the results of the day-long conference here among Chief of State Marshal Philippe Petain, Vice-Premier Jean Darlan, General Maxime Weygand, pro-consul in Africa, and Defense Minister Gen. Charles Huntziger on the future of the French empire.

Throughout the day while the four conferred, informed circles insisted that the marshal was studying the legal position of the government in terms of the German armistice convention.

The four men met after postponement of a scheduled cabinet meeting, which had been regarded as important. The cabinet meeting was deferred at the last minute to give the leaders 48 hours longer to study the question of defense with Weygand.

Authorized circles said they were talking over "the delicate question of French-American relations" created by diplomatic exchanges between the two countries on the means by which the French intend to defend the empire.

Two World Conceptions. De Brinon's statement, as released here, said it was up to France to decide on collaboration with Germany and that it was "no affairs of the Messrs. Roosevelt and Sumner Welles."

De Brinon pictured the Anglo-Saxon concept of the world as completely different from that of the European order which France had decided to follow.

He added that there were two conceptions of the world—the one advanced by Great Britain and supported by Roosevelt and the other based on national socialism which "the French government has considered it in the interest of France to follow."

Mobile Clinic To Visit In Midland

A September visit to Midland County of a State Health Department mobile tuberculosis X-ray clinic will be sponsored by the Midland city-county health unit.

The clinic will conduct a case-finding survey. It is allowed to take 250 X-rays in the county. Persons with known contacts with tuberculosis, if referred to the clinic by family physicians, are eligible for X-rays. Case histories will be taken by the city-county unit.

Opponents Intensify Work To Beat Extension Measure WASHINGTON (AP)—House Republicans drafted amendments by the dozens Saturday for attempts to modify administration legislation which would keep the Army's rank and file in service indefinitely, and meantime, democratic leaders talked privately of compromise.

Polls taken by leaders of both parties showed that the vote next week on the question of unlimited extension of service would be so close that a few members, now uncommitted, could turn the outcome either way. But, at the same time, these surveys indicated that an 18-months continuation—already approved by the Senate—might win a House majority.

Have Two Amendments. Democrats said that the fate of the bill probably would be determined by the votes of their large blocs from New York City, Philadelphia and Chicago.

Representative Short (R-Mo.), one of the floor leaders of the opposition to the legislation, said the minority would make their principal fight for these two amendments: 1. To make the continuation of the service beyond the present 12-month period apply only to National Guard, reserves and enlisted men, thus permitting the selectees to be discharged at the end of their year of training.

2. To eliminate a preamble declaration of policy which says that "the national interest is imperiled."

Latest News Flashes Auto Accident Is Fatal For Lubbock Man CLOVIS, New Mexico, (AP)—W. D. James, 45, of Lubbock was killed Saturday night in a highway collision six miles south of Bovina, Tex.

James' three children, Maco, Elsie and Jo, were slightly injured.

Chileans Seize Four In Pro-Nazi Plot SANTIAGO, Chile, Sunday, (AP)—Authoritative sources announced Saturday the detention of four persons and the seizure of a quantity of arms at Puerto Montt in what was described as a pro-Nazi plot in far southern Chile.

COMMAND TO THE BRAVE: Watch ye, stand fast in the faith. Quit you like men, be strong. —I. Cor. 16:13.

The Silk Situation

The New Competition

Silk mills are now added to the plants that have to shut down for lack of raw materials. The jobs of as many as 200,000 may be endangered in the auto industry if production is shut down 50 per cent because of lack of metals.

Needless to say, the government is going to do all that it can to see that ways are found to keep these plants open, by giving them contracts for defense materials, by reducing their supplies of metal and material as slowly as possible.

But the government can't guarantee to do this in every case. The defense program is a great national effort, and it comes first. It doesn't matter much whose fault it is that there is a shortage of certain basic materials.

Face to face with the fact, what is American business going to do? It could whine and say, "The government is doing this to us, let the government find the way out."

Director of Purchases Donald Nelson has made it clear that business, if it has not lost the aggressiveness that made it world famous, must do several things. First it must conserve such material as it has, and by ingenious use of substitutes, changes in design, reduction of unnecessary models, make it go as far as possible.

The government market must be sold as aggressively as the competitive civilian market ever was.

Salesmen who used to go out in the market for orders in competition with one another may now find themselves in Washington or regional contract offices fighting for contracts.

That, at least, hasn't changed.

Ridiculous Reprisal!

Bolivia booted blundering Boches bluntly out of its bailiwick, perspicaciously perceiving pernicious plotting. Belligerent Berlin, bemused by Bolivian boldness, ridiculously arrested as a reprisal residents of the Reich from Bolivia.

Charging conspiracy to encompass the come-uppance of the horrendous Hitler hierarchy, Himmler's henchmen really rendered the Reich ridiculous. The world is well aware that wandering workers for Wotan persistently promote patsches in peaceful places; doubts definitely dumb "disclosures" saying South Americans were seriously seeking secret subversion of Hitler's heartless hegemony.

Unrighteous reprisals remind readers German justice just doesn't jibe with customary civilized concepts.

Scholarships For Miners

A new scholarship has just been established at the University of Illinois. We don't know whether it has a specific name, but it ought to be called the American Scholarship. There is something deeply American about it.

This scholarship goes to some young miner now actually working at that trade, or the son of such a miner. The Illinois Mining Institute has set up a series of such scholarships in order to provide mining engineering training to young men most likely to profit by it.

It was Woodrow Wilson in "The New Freedom" who said something to the effect that if a country is good for those who are on the make, it doesn't matter so much how it is for those who are already made.

Every time someone opens up an opportunity like this for young men on the make, we feel proud that we are in and of America.

On The Record

It's nice to understand one another. On the basis of the notes exchanged between the United States and Russia on economic aid to the Soviet Union, there would seem to be no basis for later misunderstanding.

Said Acting Secretary of State Welles: "This decision has been prompted by the conviction of the government of the United States that the strengthening of the armed resistance of the Soviet Union to the predatory attack of an aggressor who is threatening the security and independence, not only of the Soviet Union but also of all other nations, is in the interest of the National Defense of the United States."

Said Ambassador Omansky, "I wish to emphasize the correctness of the view..."

In short, we help Russia because (even against its will) it happens to be fighting against the principal aggressor who has wrecked the world's peace. So long as such a situation continues, we shall continue to help, but only so long and only to that extent. This leaves no room for misunderstanding.

Official Requests Private Industry To Construct Now

WASHINGTON (Special) — A warning that homes for defense workers must be built at once—that the government will have to take over the job with public funds if private industry does not meet the emergency—was issued Saturday by John H. Fahey, chairman of the Federal Home Loan Bank Board.

"The demand exists today and it will increase tomorrow and a few months from now may be too late to get building programs under way," said Fahey in calling for increased cooperation of all private enterprise to "lift the load off the shoulder of government agencies and do its own job."

"A reasonable supply of all materials for residential construction is available for defense housing. Labor can be obtained now. A shortage in both labor and materials is likely if there is any unnecessary delay."

Defense workers have been crowded into the industrial centers and into smaller communities where defense activities have created housing problems out of all proportion to their previous size. Fahey pointed out, and no ordinary building program can take care of the situation.

"\$660,000,000 Lended" — The government wants private industry to finance three housing units for every one it constructs with public funds, said Fahey. "But if private enterprise does not do the job, the government will have to do it. Defense workers must have decent places to live, at a price within their means."

Citing the fact that more than

CRACKERS CRANIUM

Men of the Past

Had there been headlines in days past, men like those described below would have had their names in big type. How many do you recognize?

- 1. What man was born on an island, died on an island, but once ruled nearly all of Europe?
2. Who caused the Walls of Jericho to fall?
3. What former secretary of the treasury was fatally shot by a U. S. vice president in a duel?
4. What famous man from Rome once successfully invaded Britain?
5. What American ship master, later a famous pirate, was commissioned by Britain to hunt pirates, and was later hanged as one himself for attacking British vessels?

Answers on Classified Page

\$660,000,000 has been lended by savings and loans associations of the Federal Home Loan Bank System in defense localities where a housing shortage exists, and have financed at least 100,000 newly built housing units in such areas over an 11-month period. Fahey said private enterprise in many districts has been more than equal to its task. At the same time, he said, other districts have lagged.

"Defense workers need low-cost homes," said Fahey. "Houses costing \$3,000 to \$4,000, or even less, are needed most. Those costing more than \$5,000 or \$6,000 are not meeting the problem."

Monahans Jaycees To Attend Midland Rodeo

MONAHANS (Special) — Monahans Jaycees plan to attend the seventh annual Midland Rodeo. Members will wear cowboy attire to the three-day event and will ride horses in the parade.

A committee of Carl D. Estes, Hal Adams and Cecil Hodges were appointed to make arrangements for the Jaycees to obtain horses.

Personals

Mr. and Mrs. Asa Collier are here from their home near San Saba for a visit with relatives. They lived in Midland County for a number of years before moving to their present home several months ago.

Mr. and Mrs. Claud Harris will be in Midland Sunday from Dallas to spend a two-weeks vacation with his parents, Mr. and Mrs. W. J. Harris.

Mrs. Nancy Cobb of Plainview and Mrs. Geo. Elliott of Kress will arrive Monday to visit the John Elliotts.

Miss Pauline Schatz left Saturday morning for Breckenridge where she will be guest on a ranch. Her mother, Mrs. M. Schatz, went to Denison for a visit.

Barney Grafa Jr. has returned from a visit to Earth, Texas. Returning with him to be his guest for several days was Miss Babe Kelley. The couple were guests of the Radford Hopes in Odessa Saturday night for a steak fry and Sunday night Miss Kelley will be entertained by Mr. and Mrs. Barney Grafa Sr. at a supper party. Other informal courtesies will be given for her during her stay.

Oil News--

(Continued from page 1) water. Perforating opposite upper pays likely will follow. The well topped the Ellenburger at 4,490 feet and entered the main pay zone at 4,686 feet.

In Northeastern Pecos, Gulf and L. H. Wentz No. 1 L. H. Miller et al. scheduled 6,000-foot Ordovician test, is drilling below 2,450 feet in lime. Magnolia Petroleum Company No. 1 State-Young, short southeast outcrop to the Abell pool in Northern Pecos, freed stuck drillpipe and is drilling at 4,970 feet in Simpson lime. It topped the Simpson, middle Ordovician, at 4,880 feet.

Stanolind Oil & Gas Company No. 1 Thrapp-Walker unit, one-half mile northwest extension test in the Abell pool, is drilling at 5,488 feet, headed for the Sharp sand in the lower Simpson. It tested only gas in the McKee sand, normal producing zone of the pool.

In the south part of the pool Phillips Petroleum Company No. 3 Sidney Silverman is preparing to core at 5,130 feet. It topped the Simpson at 4,790 feet and logged the Tulip Creek marker in that formation at 4,825 feet.

Harrison Resumes. L. C. Harrison No. 1 Nairn estate, wildcat discovery prospect in Central Lubbock County, Saturday was rigging up Cardwell cable-tool unit. Operations are to be resumed Sunday morning, with swabbing through casing first on the program. The well then will be deepened from present depth of 4,905 feet in lime which carried oil saturation in the bottom six feet.

Adams & Bradley No. 2-A Skelly Oil Company-University, proving a one-location east extension to the southeast part of the Emma pool in Southern Andrews County, flowed a rated 1,101.76 barrels of 35-gravity oil per day, with gas-oil ratio of 800-1, after acidizing with 1,500 gallons in pay lime from 4,216-90 feet, total depth.

Mascho Oil Company of Midland No. 1 The Texas Company-University, Northwestern Andrews wildcat, is drilling at 4,922 feet in gray lime. It bailed 13 barrels of sulphur water in 21 hours. First water was struck at 4,806 feet and broken increases have since been logged.

Honolulu Oil Corporation No. 19-52 Slaughter "B", in the Slaughter field of Southwestern Hockley County, set daily potential flow of 882.40 barrels after acidizing with 10,000 gallons at 4,990 feet.

Amerada Petroleum Company has completed two new wells in the Seminole pool of Central Gaines County. Its No. 1 Brown made 322.96 barrels a day after shooting with 110 quarts at 5,250 feet. Amerada et al. No. 1-A Mrs. Sarah J. Averitt was shot with 120 quarts at 5,260 feet and flowed 570.96 barrels daily.

Sinclair-Prairie Oil Company No. 1 C. E. Granger, north offset to the discovery well of the Onwby area in Southeastern Yoakum County, is preparing to pull tubing and re-run it with formation packer. Bottomed at 5,355 feet it flowed 310 barrels in 62 hours after acidizing with 1,500 gallons, making six barrels hourly the last six hours.

Deep Wildcats. Amerada No. 1-RA University, Southeastern Reagan County Ellenburger discovery seven and one-half miles southeast of the town of Big Lake, is drilling at 9,190 feet in lime. Formation has softened but presence of water or oil was not reported. The well tested natural flow of 95 barrels of oil in 24 hours while bottomed at 9,080 feet. It is being deepened to water or granite.

Army Develops Cotton Substitute For Silk And Navy With Supplies On Hand Report Synthetic Product

WASHINGTON (AP)—The Army, threatened with a shortage of silk for artillery powder bags, reported Saturday that it had developed a cotton substitute acceptable for most purposes.

At the same time, the Navy disclosed that it had developed a synthetic silk substitute, details of which were withheld, and also had laid in its own stockpile of silk for use in powder bags and parachutes.

Fabric bags are used in guns to hold the powder charge. Unless the material burns out completely with the discharge of the gun, a smoldering fragment of cloth in the breach may result in premature explosion of the next charge.

The synthetic fibre developed by the Navy fills this requirement and may be used also in parachute manufacture, it was said. Even before the Office of Production Management forbade silk processing by mills throughout the country to conserve the supply for military use, the Navy reported it had enough silk on hand for current needs, and was prepared to turn out the synthetic whenever need might arise.

The Army's experiments with cotton began seven years ago, the war department said, and have resulted in cotton bags which are suited to "most artillery purposes."

It cannot yet be used in place of silk tie straps for heavy charges, nor for silk powder bags in guns of very heavy calibre, but research is continuing for use of a substitute in guns of higher calibres.

Deep pool in North Central Crockett County, Amerada No. 1-B J. S. Todd estate is drilling at 5,686 feet in shale and lime. It had not encountered crinoidal lime of the Strawn, lower Pennsylvanian, in drilling to that depth. Amerada No. 1-C Todd, wildcat three and one-half miles west of the pool, logged odor of oil and gas at 1,522 feet and drilled ahead past 1,667 feet in shale and lime.

Plymouth Oil Company's deep test in Eastern Upton County, the No. 1 D. L. Alford et al. is drilling in black shale at 6,908 feet.

Magnolia No. 20 State-Walton, slated to test the Ordovician in Northern Winkler County, is drilling at 7,854 feet in lime and black shale. It is believed to have gone out of the Devonian, which was topped at 7,620 feet. The wildcat is one mile east of the Kamit pool and one and three-quarter miles west of the

Eldorado Visitors Honored At Picnic

Mr. and Mrs. James Young of Eldorado, Arkansas, were entertained with a picnic at Cloverdale Park, Friday evening. Mr. and Mrs. J. A. Sewell and Mr. and Mrs. The-ran Ruple were hosts. A fried chicken supper was served.

Mr. and Mrs. Young were returning from a trip to Gulf Coast and South Texas points including Galveston, Houston, Corpus Christi, and San Antonio. They left Midland Saturday.

Houston Flier Downs Member Of Luftwaffe

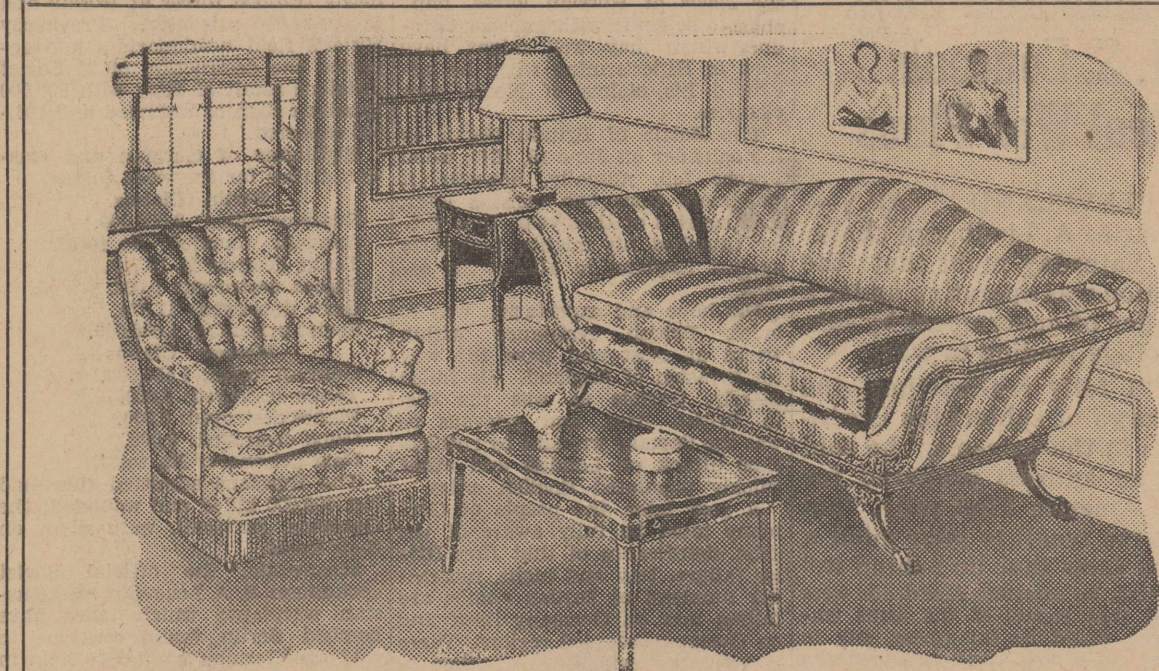

LONDON (AP)—Pilot W. R. Dunn of Houston, Texas, member of the American Eagle squadron fighting with the RAF, was credited with downing a German fighter Saturday over the English Channel. It was the squadron's seventh victim.

Dunn, who left a job as an air line pilot to join the Eagles, now shares top place with 20-year-old Gregory August Daymond of Los Angeles, each having three Nazi craft to his credit.

McKENNEY ON BRIDGE

By William E. McKenney
America's Card Authority

The world's leading Master Point holder until a few months ago, D. Bruce Burnstone had practically dropped out of bridge. When he heard, however, that our party was coming to the city, he made a date by wire to play with Waldemar von Zedwitz in the All-Western masters pair event.

Never having met the players participating in the event, I thought

the pair made a nice showing when they finished third. Later in the week, Burnstone, with Lou Mathe, Meyer Scheifer, and Roscoe A. Puffer, won the All-Western team-of-four championship. This victory may eventually put Burnstone back in the lead as the holder of the greatest number of Master Points.

In my opinion, Burnstone was always one of the greatest match point players in the country. Certainly his team, the Four Aces, has won more team-of-four championships than any other team. Today's hand helped Burnstone and his teammates win the All-Western team event.

The ace of clubs won the king. Burnstone (South) cashed the ace and king of diamonds and then led a third diamond to ruff in his own hand. When the diamonds split, Burnstone realized the board might already have been lost through his conservation in the bidding.

He decided that the other team would probably reach game. Hence all he could hope for was to find a bad break in spades, and the heart ace over the king—else four spades would be a laydown.

The play for game would be to cash the ace of spades, lead low to the king and cash diamonds. Burnstone deliberately avoided this line. He cashed the queen of clubs and ruffed out his loser. Then he cashed the king of trumps and started leading diamonds. East ruffed at once and Burnstone overruffed, then led a trump.

East could take his two trumps

Army Will Construct Chanute Field Arena

CHANUTE FIELD, Ill. (UP)—The country's first army post sports arena, capable of seating 4,000 spectators at basketball, boxing and wrestling matches, will be under construction here soon, according to Chanute Field officials.

Engineers, who planned the building, said the War Department intends to use it as a model for construction of arenas at 23 other army posts.

and ace of hearts, but could not prevent dealer from winning two more tricks. Thus Burnstone made four. The other team bid the game but went down one.

Recreation Council Will Continue Study For Midland Center

The Midland recreational council will meet at 7 p. m. Tuesday night at the city hall to continue discussions of a recreation center site and a temporary center to meet present needs.

The council is making plans for a recreational center, which would be financed by a grant from the Public Works Administration, to provide recreation for Midland citizens and similar needs expected to arise from the Army Air Corps Advance Twin-Engine and Bombarrier Training Center.

Plans are in the formative stage, and no application has been made or site selected.

Two Committees Of C. Of C. Will Plan Midland Decorations

Two important committee meetings of the Midland Chamber of Commerce have been called this week.

The retailers and business promotion committees will meet at 10 a. m. Thursday in Hotel Scharbauer to let a contract for rodeo decorations in the business district. Merchants or their representatives were urged to attend. Bids will be received from several decorating firms. Decoration of the city for the West Texas Chamber of Commerce convention in Midland this fall, also will be discussed.

W. B. Simpson, chairman of the retailer's group and Paul Nelson, chairman of the business promotion group, will direct the meeting. At 2:30 p. m. Wednesday there will be a joint meeting of the inter-city relations committee and the transportation committee of the chamber. Plans will be formed for a motorcade to the Big Spring rodeo on Midland Day Aug. 17. Chamber of Commerce officials predicted a large motorcade would make the trip.

Opposition To Broadening Tax Base Develops

WASHINGTON (AP)—Opposition developed in the Senate finance committee Saturday against further broadening of the income tax base, and, as an alternative, Senator Brown (D-Mich) suggested a modified form of sales tax applied chiefly to luxury items.

At a finance committee hearing Friday, Secretary of the Treasury Morgenthau proposed that tax exemptions be reduced from \$2,000 to \$1,500 for married persons and from \$800 to \$750 for single individuals.

Chairman George (D-Ga) of the

Payroll Checks Carry Pledge of Allegiance

SEATTLE, Wash. (UP)—A thousand employees of the Pacific Car and Foundry company at Renton, near Seattle, pledge allegiance to the United States once a week.

On the back of each payroll check is stamped a pledge "to support and defend the Constitution and laws of the United States against all enemies, foreign and domestic."

finance group endorsed the suggestion, and said he believed "a majority of the committee is disposed to accept it."

Brown said "an intelligent sales tax" might be levied on such articles as expensive clothing.

"We would exempt the man who buys a \$5 pair of shoes and the man who pays \$12," he said. "A man who spends \$12 on a suit would pay no tax, but the man with a \$125 suit would be taxed."

Strike Communists Names From Ballots

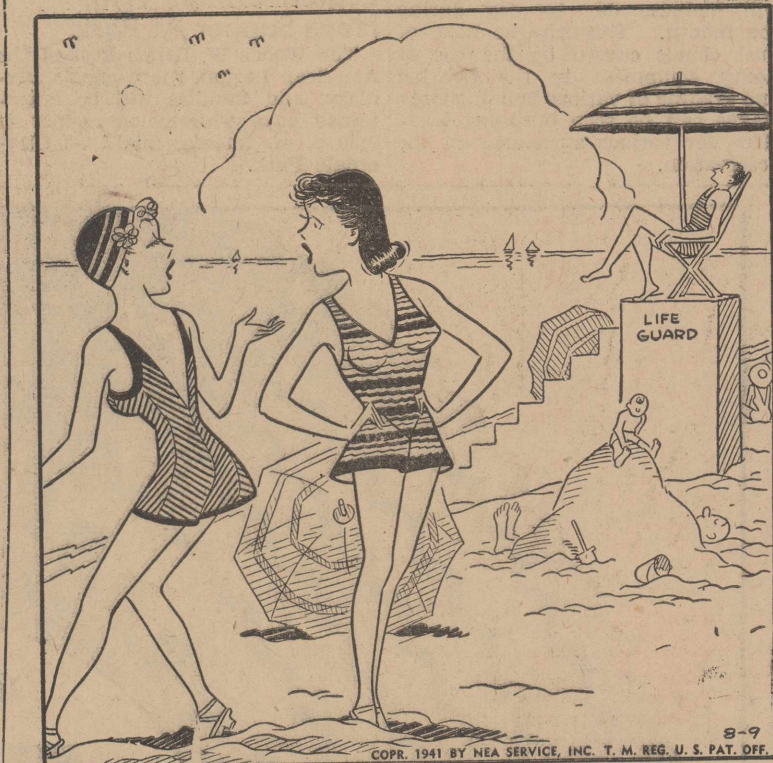

CHICAGO (UP)—Communists lost their place on the ballot in nine states during the first six months of 1941, a survey by the Council of State Governments reveals.

Arkansas, Illinois, Kansas, Ohio, Oklahoma, Oregon, Texas, Wisconsin and Wyoming enacted prohibitory legislation, bringing to 16 the number of states barring the party.

Similar proposals were defeated in Colorado, Idaho, Massachusetts, and Michigan. Others still pending in Missouri, New Jersey and Pennsylvania.

Illinois and Texas extend the prohibition to nominees of the Nazi and Fascist parties.

SERIAL STORY

SECRET VOYAGE

BY JOSEPH L. CHADWICK

COPYRIGHT, 1941, NEA SERVICE, INC.

CHAPTER I

THE boat lay with a list to starboard at 10 fathoms. Jim Mallory walked clumsily around it, careful not to foul his lines in the masts, and peered through the glass of his diving helmet at the hole in the bow. It didn't look like much of a job to raise. It looked like a little easy money for the Ajax Salvage Company.

From above, Curly Bates' voice came over the telephone in an incoherent mutter. Jim Mallory replied, "Yeah, I found her."

Curly's voice, distinct now, said, "Shut up, you!"

Men didn't talk like that to Jim Mallory; certainly not one of his crew. Astonished, he demanded, "What?" And Curly's voice was instantly apologetic.

"Not you, Spike. I was talking to—"

Jim Mallory had a quick hunch, a gripping suspicion. "Listen," he said, "haul me up." He was a man who always played hunches.

He heard Curly shout an order; he felt his lines pull taut, and slowly he began to rise through water that was green and crystalline. He saw the tug's black bottom, then reached the Jacob's ladder. He climbed into the bright Florida sunlight.

Blacksheep unbolted and removed the iron helmet. Blacksheep was grinning, his teeth shining ivory in the ebony of his face.

"Boss, we done got com'ny. Sure 'nough!"

"So I feared," Jim Mallory said, and came aboard. His eyes ran along deck to where the girl sat amidship, and halted there on her for a moment, narrowing. He was surprised that it was a girl. He hadn't expected them to put a girl onto him. But it was clever. Where bribes and threats won't work, use a woman.

Curly Bates came and put a cigarette between Jim Mallory's lips and held a match. Curly was a stooped little man of 55, much battered by life. He was very bald. His eyes were worried.

"They've put a dame onto you, Spike."

"Yeah."

"I don't like it a little bit. She's smooth as silk."

"I'll watch my step," Jim Mallory said.

Uncle Sam Needs You For Defense Jobs

Midland Bombardier School: Wire worker, aircraft engine mechanic, instrument mechanic, aircraft electrician, aircraft woodworker. More announcements for positions at this school will be announced from time to time.

Miscellaneous positions at various points in the United States and possessions:

Aircraft welders, aircraft woodworkers and pattern makers, aircraft sheet metal workers, blacksmiths, inspectors, supplies, optional branches, harness and saddle makers, instrument makers, machinist, milling machine, boring mill, planer, engine lathe operators, rivet heater, wood caulker, drop forger, angle smooch, tool and gauge designer, grinder.

Leather and canvas worker, junior engineering aid, engineers optional branches, chief engineering aid.

A large number of other positions are listed on the civil service board at the post office. Further information about any of these positions as well as application blanks may be obtained from Frank Smith, Secretary U. S. Civil Service Commission at the Midland post office.

The girl rose from the bulwark, drawing Jim Mallory's eyes. She was in a green swim suit, and her skin was a smooth brown. Her rubber cap was in her hand and, Jim Mallory thought, that was the place for it. You wanted to see her hair. It was thick and tousled, and the sunlight made it look like bright copper. Her eyes were wide and brown, with golden flecks. With her face and figure, Jim decided, you had the right sort to bait a man.

He spoke with the cigarette between his lips, saying, "Hello, hello," in a cautious, offhand fashion.

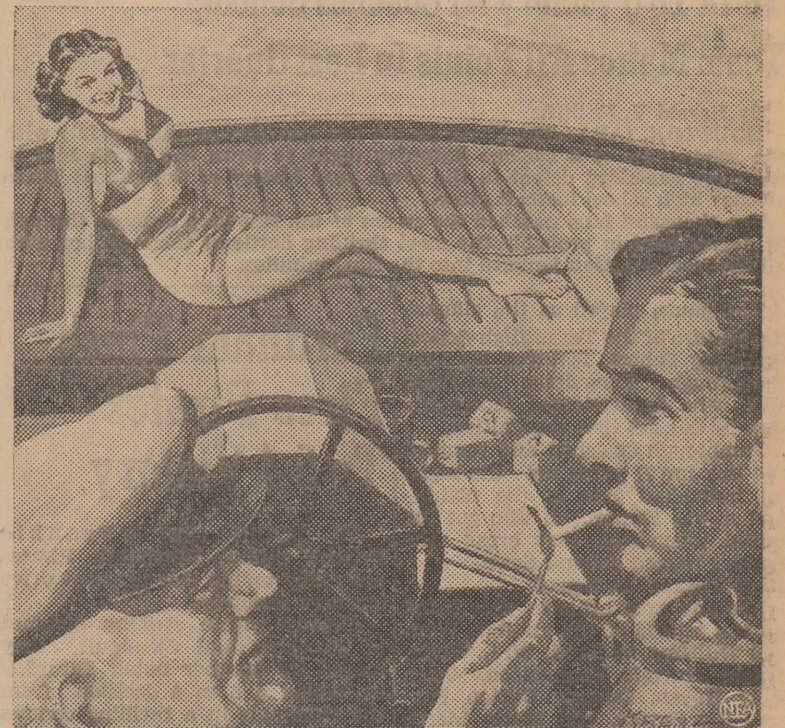

"Hello." The girl's voice was nicely husky. "Who is she?"

"A sport cruiser named Hannah that some landlubber let founder."

"Quite a beauty, I suppose. With trim lines. Or is she something else again?"

Jim smiled warily. He said, "I don't know you. Should I?"

"I don't think so. The name is Mary Larsen. I'm just a visitor."

Jim Mallory's eyes ran along deck to where the girl sat amidships. Curly Bates came and put a cigarette between his lips and held a match.

"They've put a dame onto you, Spike."

North All-Stars Beat South

Longview All-State Back Sparks Eleven To 14 To 0 Victory At Coaches School; Team Makes All Points In Last Quarter

By Harold V. Ratliff.
HOUSTON, (AP).—The North scored two touchdowns and a safety with the suddenness of a cyclone Saturday night to down the South 14-0 in the most one-sided defeat in the seven year history of the annual Texas all-star high school football game.

Ten thousand fans witnessed the cream of the 1940 crop struggle through 90 degree heat in probably the most thrilling battle of them all but with all the scoring action jammed into the final minutes.

The game, played as the climaxing feature of the Texas High School Coaching School, featured big Don Fambrough, Longview's All-State back, who demonstrated thoroughly how he earned that recognition.

Yanks Give Ruffing 13th Victory Aided By Athletic Errors

PHILADELPHIA (AP)—Taking advantage of two errors and a wild pitch to make their winning fourth run rally, the New York Yankees brought Charley Ruffing his 13th victory of the season Saturday, an 8-3 triumph over the Philadelphia Athletics.

Despite a revamped batting order that raised Joe Gordon to leadoff man and dropped Johnny Sturm to eighth place, the American League leaders got only six hits for a 3-2 margin for the first seven innings.

The "big fifteen" in the women's league, who have been at bat 15 or more times:

Sewell Motors Repulse Howe's By 10-7 Count

Sewell Motors of Odessa beat John P. Howe of Midland, 10-7, in an inter-city softball fracas there Saturday night.

The Odessans managed six runs in the second inning for the victory margin. Howe's counted five tallies in the first frame.

Midland added two more in the seventh but it was shy of the 10 runs Sewell got in the first three frames.

City Softball League Picture Changes As Howe And Texas Win

The complexion of the city softball league changed last week with the Texas Company dislodging the Independents from top of the men's circuit, and John P. Howe, first half women's winner, regaining the top perch from Central Pharmacy.

Miss Geneva Risinger And W. E. Cox Are Wed In Morning Ceremony Read At The Home Of The Bride's Parents

Couple Will Return To Midland After Honeymoon In West

An out-of-town wedding of special interest to circles in Midland was that of Miss Geneva Risinger and W. E. (Bill) Cox, both of this city, which took place in Rosenberg, Texas, Saturday morning at 11 o'clock.

The couple was married in the home of the bride's parents, Mr. and Mrs. Edward Risinger, with the Rev. Ed Barcus of Orange, Texas, reading the single ring ceremony in the presence of the families of the bride and groom and a few friends.

Wedding vows were recited before an altar arrangement of gladioli, fern, and tapers.

The bride wore an original model of grousse blue pebble crepe, designed with the new long torso line. Long streamers were tied at the V-neck and fell down the front of the dress. The skirt was slightly flared and the sleeves were three-quarter length. She wore a yellow orchid corsage and her costume accessories were in burnt almond shade.

The bride's mother wore Burgundy rhubum lilies and the groom's mother, Mrs. R. A. Cox of Austin, a tuberosus begonia corsage.

Ring-Shaped Cake A reception followed the wedding. Orchid and lily of the valley arrangements decorated the ring-shaped wedding cake. Tulle bows and tapers were used on the bride's table.

Mrs. Gus Vogelsang assisted in serving.

Mr. and Mrs. Cox left by automobile on a two-weeks vacation trip through western states.

The bride wore a navy and white dress for traveling, with navy accessories.

B&W President

Mrs. Cox is a graduate of the Rosenberg High School and holds a bachelor's degree in geology from the University of Texas. She is a member of Phi Beta Kappa, honorary high scholarship fraternity, and Chi Upsilon, honorary geological fraternity.

She came to Midland immediately after graduation from the University and has been employed for the last four years as geologist with the Humble Oil and Refining Company. Popular in her social circle, Mrs. Cox has also been active in organizations here. She is president of the Business and Professional Women's Club for the year now opening and is parliamentarian in the Midland branch of the American Association of University Women.

Mrs. W. E. Cox

Mrs. Attaway Named Secretary Of Bible Class

Twelve members of the Belmont Bible Class were present at the meeting of the group with Mrs. B. M. Hays, 1701 W. Kentucky, Friday afternoon.

The session opened with prayer by Mrs. J. M. King. Letters were read from absent members.

The class presented Mrs. H. M. Riegle with an autograph book in appreciation of her services.

Mrs. W. G. Attaway was appointed secretary to succeed Mrs. C. G. Murray, who is in ill health.

Mrs. W. L. Sutton taught the lesson from the twelfth and thirteenth chapters of Deuteronomy. Mrs. Riegle offered the dismissal prayer.

Present were: Mmes. King, H. E. Skipper, Reigle, W. P. Collins, A. C. Moore, Sutton, V. O. Baldrige, R. Chanslor, Maude Nemham, Gladys Holster, Attaway, and the hostess. Next Friday the class will meet with Mrs. Newnam, 723 W. Louisiana, and Mrs. S. L. Alexander will give the first of a series of reviews on the book, "Diggers for Facts".

HAS TONSILLECTOMY

Paul Anderson underwent a tonsillectomy at Western Clinic Hospital Saturday.

Geologist for Humble

Mr. Cox is the son of Mr. and Mrs. R. A. Cox of Austin and graduated from Austin High School. He is a graduate of the University of Texas, holding a master's degree in geology. He is a member of Sigma Gamma Epsilon, honorary geological fraternity.

A resident of Midland for about two and a half years, he is a geologist with the Humble Oil and Refining Company.

After their wedding trip, Mr. and Mrs. Cox will make their home in Midland, at least for a time. Scott Kielling of Van Horn was an out-of-town guest at the wedding.

Triple-Hostess Shower Honors Miss Zona Jones

Fiancee Of Abilene Man Complimented At Chapman Home

Miss Zona Lee Jones, bride-elect of George E. Caple of Abilene, was honored at a triple-hostess shower at the home of Mrs. W. Earl Chapman, 510 N. Marfield, Friday evening from 7 o'clock to 9. Mrs. Chapman, Miss Ruth Boggus and Miss Peggy Wilson entertained.

Orchid-hued scabiosa in white vases at either end of the mantel set the color scheme of orchid and white. Roses and various garden flowers were used elsewhere in the living room.

Assisting the hostesses in the houseparty, beside the honoree, were her mother, Mrs. E. Jones, and her sisters, Misses Lorine and Florine Jones.

Miss Lorine Jones presided at the guest register.

The refreshment table was laid with lace with a central arrangement of a bowl of orchid blossoms on a mirror plaque. A pair of wee crystal lovebirds perched on the edge of the reflector. At either side of the centerpiece, tapers in harmonizing shade burned in double crystal candelabra. The table service was in crystal.

Heart-shaped cakes suggested the bridal theme on the refreshment plates.

Miss Boggus poured punch, assisted by Miss Wilson.

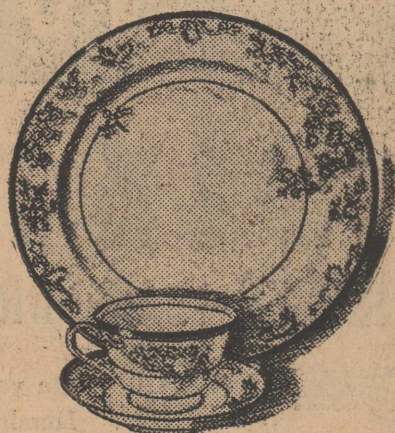

Gifts were displayed during the evening.

The invitation list included: The honoree, Mrs. Forest Hunter, Mrs. B. G. Grea, Miss Dorothy Hines, Mrs. J. F. Sirdevan, Mrs. Dona Dunagan, Mrs. Buford Bain, Mrs. J. Hollis Roberts, Miss Maedele Roberts, Miss Mamie Belle McKee, Mrs. H. D. Bruce, Miss Dorothy Horst, Mrs. Agnes Carney, Mrs. Eunice Cooper, Mrs. Mamie McLin, Mrs. Jackie Mumpower, Mrs. John H. Hughes, Miss Faye Powers, Miss Janice Watts, Mrs. S. M. Warren, Mrs. J. C. Smith, Mrs. Robert T. Cox, Mrs. Joseph E. Mims, Miss Dorothy Hamilton, Mrs. Howard Hodge, Mrs. Horace Busby, Miss Evelyn Haag, Miss Louise Whitson, Mrs. Frank Orson, Mrs. R. C. Hunter, Miss Mary Reising, Miss Nell Shaw, Miss Mamie Lusk, Miss Kathleen Elland.

SENIOR CLASS GRADUATED IN HALLS OF CONGRESS

LYNN, Ind. (UP)—Lynn high school's 17 graduates can tell their grandchildren they were the first class ever graduated in the historic House of Representatives in Washington.

The ceremony took place when the seniors took their annual trip to the nation's capital. Principal Will W. Moore of the school passed out the diplomas, with Sen. Raymond E. Willis and Reps. Gillie and Springer of Indiana speaking in an impromptu commencement ceremony.

Tea And Shower Are Compliment To Mrs. Bain

Trio Entertains With Affair At McKinney Home

The home of Mrs. S. R. McKinney, Jr., 608 N. San Angelo, was the scene of a tea and a pink-and-blue shower, Saturday afternoon from 4 o'clock until 6, when Mrs. McKinney, Mrs. M. D. Johnson, Jr., and Miss Marguerite Eivens were hostesses, honoring Mrs. J. Buford Bain.

Roses and other summer flowers decorated the party rooms.

Mrs. McKinney greeted arriving callers, Mrs. Johnson presided at the register, and Miss Eivens escorted guests to the gift-display room.

Centerpiece for the tea table was a pottery bowl and candlesticks in pink-and-blue tones. Blue shades predominated in the bowl which was filled with roses and the candlesticks held pink candles. The nursery colors were repeated in the tinted and ribbon-tied sandwiches on the tea plates. Mrs. Bill Iverson presided at the punch bowl.

Invitations were issued to: The honoree, Mrs. John B. Mills, Virginia Ann Dunagan, Mrs. Ralph Guyger, Miss Lou Annice Reeves, Miss Josephine Skeen, Mmes. S. P. Park, Z. B. Wilkins of Dallas, Ray Livesay, Jack Thames, T. S. Guthrie, T. H. Stringer, Ralph Osborne Jr., Henry McCulloch, Bill Iverson, Miss Peggy Matthas, Mrs. Ernest Neill.

Miss Aimee Falcon, Mmes. J. Howard Hodge, Frances Stallworth, L. A. Tullos, Ernest Nance, C. M. Dunagan, John Dunagan, W. C. Stout of Ennis, A. A. Jones, Bud Reeves of Monahan, Robert Dunagan of Monahan, Woodrow Beatty, P. O. Sill, L. C. Link, Hollis Roberts, J. H. P. McCullum Sr., Donna Dunagan, W. Ley Pratt, Eddie Blacher.

Mrs. Maedele Roberts, Miss Mary Page, Mmes. T. J. Potter, Johnny Sherrod, Cecil Waldrep, Riley Parr, John Porter, Clint Creech, G. B. Hallman, A. L. Hallman, Jr., Miss Dorothy Hamilton, Miss Alma Heard, Miss Norene Kirby of Fort Worth, and Mrs. Hayden Wilmoth of Crane.

Hostesses For Cowgirls Named By Chairman

Jo Ann Proctor and Nancy LaForce will be Midland's co-hostesses for cowgirls entering the sponsors' contest here during the Midland Rodeo, Roy Parks chairman of sponsors, has announced.

Miss Proctor is the daughter of Mr. and Mrs. Leonard Proctor and Miss LaForce is the daughter of Mr. and Mrs. W. Watson LaForce. Both are high school students. They will ride in the cowgirls' arena appearances but will not compete in the contest.

With only three weeks remaining before the rodeo week-end, entries in the sponsor contest are being received at a faster pace.

Cowgirl Entries Two additional entries, those from Monahan and from McElroy Ranch of Crane County, were announced Saturday by the chamber of commerce.

Mrs. Polly O'Brien Massey of Wicket has been selected by the Monahan Junior Chamber of Commerce to represent that city in the sponsor contest. She is an accomplished horsewoman and has represented Monahan at other such events over West Texas.

Miss Marilyn Lowe of Crane will be the representative from the McElroy Ranch.

School Dean Urges Common Language

STATE COLLEGE, Pa. (UP)—The maintenance of a common language is advocated by Dr. Marion R. Traube, dean of the School of Education at Pennsylvania State College, as a "social cement" to prevent the flourishing of "fear, intolerance and hatred in the soil of misunderstanding." Declaring good English is our first line of defense against the disintegration of our nation, Dr. Traube said, "When an international gangster is ready to steal another country he organizes a campaign of propaganda, using the instruments of language to tell the world of the sufferings and atrocities he must relieve by indiscriminate bombing and wholesale slaughter."

NEW MANAGER FOR MIDLAND LAUNDRY Elmer Harrington has announced that Ralph Mulli wshnlvbgkq ed that Ralph Mullins will arrive in Midland Monday to assume duties as manager of the Midland Steam Laundry. He comes here from Peecos. His wife and son will also move here.

Outdoor Sports, Dancing, and Bridge Are Favorite Entertainment With Wives Of Officials On Air Center Project Here

Vanguard of the hundreds of new citizens expected to take part in the social, civic, and sports life of Midland, during the next few months are the officials of Cage Bros. and F. M. Reeves and Sons Inc., contractors for the Advanced Twin-Engine and Bombardier Training Center now under construction at the Midland airport.

Praises for Midland—its hospitality, its citizenry, and its climate—were voiced by the wives of the officials who have the task of building for husbands and families a home and a place in the community during their stay here.

Most of the young couples share the enthusiasm of modern young people for outdoor and indoor sports and amusement, along with more serious interests.

They Like Golf Golfing is a favorite sport of both Mr. and Mrs. Felix Reeves who are making their home on Cuthbert Street.

Mr. Reeves is a golf enthusiast and though Mrs. Reeves modestly refuses to reveal her status as a golfer, 'tis said she is good at the game.

Mrs. Reeves enjoys tennis and riding but disavows any fondness for bridge.

The couple likes dancing, as do most of the other couples interviewed as to their likes and dislikes in the realm of living.

They are Presbyterians and their three-and-a-half-year-old daughter is already deeply interested in her Sunday school class.

They like Midland and have already met a number of people here, Mrs. Reeves declared.

"All In The Family" Illustrating the old belief that certain characteristics "run in families" is the fact that Mr. and Mrs. Henry Reeves, brother and sister-in-law of Felix Reeves, are also both golfers.

He is so fond of the game that his wife humorously says she is a "golf widow in the evenings" as he plays from 5 o'clock till dark. They, too, enjoy "tripping the light fantastic", and are anxious to go dancing while in Midland.

Mrs. Reeves is active in Parent-Teacher Association work. In Austin, which is her seven-year-old son, she is vice president of the Peace School PTA and on its publicity committee. She likes study clubs, too, and has enjoyed her PTA study group in Austin. She was secretary of her study club.

A favorite recreation these hot days is going bicycle riding with her son, a friend, and the latter's daughter in the morning before the sun is unpleasantly warm.

Bridge also ranks as a favorite on Mrs. Reeves' list of pastimes. In Austin they attend the Central Christian Church.

She and Mr. Reeves like the town because it is friendly. They are living at 610 W. Louisiana.

Parents Here The Reeves part of Cage Brothers and F. M. Reeves and Sons, Inc., is a family affair in Midland for F. M. (Cap) Reeves and his wife, parents of Felix and Henry, are also in Midland. They are at Hotel Scharbauer.

Naturally not leading so active an interview. Mr. Orr is personnel manager for the construction project and she is a typist. They are making their home at 707-A W. Tennessee, having moved here from Peecos, Okla. (See NEWCOMERS, Page Three)

Recipe Book of Old Southern Dishes given with

shaleen hosiery

Southern-made Shaleen stockings—with beauty befitting a Southern Belle—are here in fashion-right tested fall shades, named for favorite Southern dishes. The recipe book given with your purchase of Shaleen stockings tells you how to make Spoon Bread, Sally Lunn, Syllabub, Yum Yam and twenty-one other delicious Southern delights. Come in for this double treat—dainty, Shaleen hosiery in delectable shades and your copy of the recipe book.

Mrs. Jack Watts Is Honor Guest At Shower Party

Miss Annie Hankla Is Hostess For Afternoon Affair

Miss Annie Hankla entertained at her home, 414 E. Washington, Saturday afternoon with a blessed event shower for Mrs. Jack Watts. Party hours were from 2 o'clock to 4:30.

Various games were played, in one of which guests were blindfolded and asked to write their names.

When the honoree had written her name and the blindfold had been taken away, she found that shower gifts had been heaped before her.

Packages were then opened and inspected.

Pink and white cake and ice cream was served by the hostess assisted by Mrs. J. C. Roberts Jr. and Miss Verda Donaldson.

Present were: The honoree, Mmes. Lloyd Henson, John Taylor, J. C. Roberts Jr., M. D. Rutherford, J. K. Betts, Miss Lorene Betts, Miss Verda Donaldson, Miss Mildred Jones, Mmes. Edna Rutherford, Sam Kelson, E. J. Walden, Happy Stultz, G. E. Jones, L. E. Cook of Lovington, New Mexico, and the hostess.

Sending gifts were: Mrs. Erlene Jones, Kiddie Duggery, Mmes. L. J. Frager, Eddie Blacher, W. P. Chandler, Oma Long, John Wright, and Doris Richard.

Visit of Mrs. Harry Staples of New Jersey with her sister, Mrs. J. J. Black, continues to be inspiration for mid-summer entertainments.

Sunday Mrs. Staples and her daughter, and Mr. and Mrs. Black and their children go to Balmorhea for an outing.

Saturday night a picnic at Cloverdale park was diversion honoring the visitors from the East.

Friday Mrs. V. P. Neiss complimented Mrs. Staples at luncheon. Earlier in the week, a party including the visitors had gone to Carlsbad Cavern and also visited Mrs. John E. Adams at Carlsbad.

Mrs. Staples will remain here for several more days.

Midlante Club Has Picnic

Members of Midlante Club held a picnic at the home of Mr. and Mrs. Geo. Bennett, 2001 W. Brunson, Saturday night.

The affair took the place of the club's August dance.

"Practical" Is The Word For Anglers' Togs

But Outfits For Other Activities Should Be Part Of The Wardrobe

Late summer vacationists are heeding an urge to "get away from it all" and are heading straight for mountain lakes and cool, rippling trout streams.

The two costumes, shown above, were photographed at Maligne Lake in Canada, and are perfect for fishing. The pants are of wool foraging cloth and are tucked securely into rubber waders.

Slack Ensembles Are Proper At A Lodge For All Occasions

At right, attractive, lightweight plaid wool slacks, a white flannel shirt and white tweed jacket make a costume that is perfect for morning, afternoon or dinner.

Golf Luncheon Has Attendance Of Sixteen Women

Mrs. R. W. Hamilton and Mrs. Dan Hudson were hostesses for the weekly luncheon of the Women's Golf Association at the Country Club, Friday at one o'clock.

Sixteen women were present. The Association planned a one-club tournament for next Friday, opening at 9 o'clock. Prizes will be given for the best score and also for the least number of putts. All members are invited to take part.

Mrs. William Penn was received as a new member of the Association. Games were played in the afternoon and some golf was played in the morning.

RETURNS FROM VISIT Miss Betty Burnett returned Saturday after spending the last month visiting at Arlington and Bowie.

If Sunian Stays When Summer Leaves, Don't Wear Black

By Alicia Hart NEA Service Staff Writer

The darkly suntanned girl takes with a large grain of salt all of the advice about letting the first fall dress be a black one.

If she intends to keep right on taking sun baths through September as well as August, she'll think twice before getting a black dress. Smart as it is, black seldom is really flattering to suntanned arms and throats.

This year, her first fall dress might very well be brown or green. Both of these colors are important. The second fall dress, purchased when the suntan is fading, all too rapidly, may be black.

With suntanned skin and a brown dress, one of the brownish, coppery-red lipsticks and matching, brownish-red nail lacquer are excellent ideas.

With electric blue, red makeup that is bluish-red rather than yellow-red is something to consider. Nail polish always ought to harmonize with lipstick.

GRADUALLY LIGHTENS HER FACE POWDER Naturally, the smart woman sticks to her dark suntan powder until her coat of suntan has disappeared.

From time to time, as the suntan fades, she lightens her face powder by adding a bit of last winter's supply to the present, dark, summer shade. Not until her complexion is back to its natural shade does she put aside dark powder.

If she wants to continue to look tanned after her skin has become slightly bleached and therefore a bit yellowish, she uses liquid powder in a suntan shade for a few weeks—or until her face and throat are white again. This is a trick that caught on last fall.

Harvard Forest Is Site For Research PETERSHAM, Mass. (UP)—The Harvard Forest, oldest model woodland tract in America—is the scene of a vast scientific study by Harvard University professors.

In conjunction with the study two new buildings have been constructed. Shaler Hall, named in honor of Harvard's famous geologist, Prof. Nathaniel S. Shaler, will be headquarters for scientific workers and forestry students.

Fisher Museum, the second building, will be center for a public display of forest models and products. These models, in the building honoring Prof. Richard T. Fisher who directed the forest from its founding in 1907 until his death, are the first attempt to show treatments of various forest conditions and stages of forest development.

LONG READING PERIODS FOR COLLEGIANS URGED CHICAGO (UP)—"Reading periods," during which students may read and study for several weeks without attending classes, are advocated by a University of Chicago dean as an antidote to the prevailing American assumption that "education takes place only while the professors are talking."

"Reading periods constitute a step forward because they transfer a reasonable share of the responsibility for education to the student himself," declared Dean Robert Redfield of the university's division of social sciences.

RETURN FROM VISIT Mr. and Mrs. Hazen Woods and sons, Hazen Jr., and Bradley Martin, have returned to their home here. Mrs. Woods and children visited her sister, Mrs. Even Junkin, in Wichita Falls, and her mother, Mrs. Genevieve Bradley of Gamesville.

Barbecue

THESE youngsters are toasting marshmallows over one of the new cone-shaped barbecue grills. In this type barbecue, all of the heat is concentrated directly on the grill, which is protected from the wind, allowing the smoke and charcoal flavor to reach the meat properly.

Mills Extension To Relocate 8000

HOMESTEAD, Pa. (UP)—A mass evacuation movement, involving almost half the population of this industrial community of 19,000, soon will begin to make room for a huge \$75,000,000 extension to the local mills of the Carnegie-Illinois Steel Corp., made necessary by expanding defense requirements.

An estimated 8,000 people, now living in the area which will be razed to build the steel plant addition, must find new homes in the near future, when the 1,363 buildings in the affected section will be torn down.

The extension was approved by Director William S. Knudsen of the Office of Production Management. It will be built in response to Navy Department requests for construction of an armor forging and machine plant, a new open hearth plant and a new slabbing and wide plate mill, for which the property must be purchased and railroad tracks relocated.

NEW DISTINCTION GAINED BY ROCHESTER HOSPITAL ROCHESTER, Minn. (UP)—Rochester's St. Mary's hospital has opened a new addition to make it the largest single-unit hospital in the nation.

The addition, comprising a nine-story tower and new west and south wings, was started in Sept., 1939. It brings the hospital's total bed capacity to 868 beds.

WIMBERLYS HAVE FAMILY REUNION

Mrs. W. W. Wimberly Sr. and Wallace Wimberly were hosts the past week for a family reunion here. Mr. and Mrs. R. E. Witty and daughter, Malinda Claire, were here from Shreveport, La., and Mr. and Mrs. W. W. Wimberly from El Paso. The El Pasoans returned home Friday. The Wittys left Saturday and will visit in Claremore, Okla., before returning to Shreveport.

Pecos Livestock Show Sets Dates For 1942 Event

MONAHANS (Special)—Dates for the third annual Pecos Valley Livestock Show were set by directors of the association, and an executive committee elected. The show will be held in Monahans April 3 and 4, 1942.

An executive committee composed of Glenn Allen of Monahans, Jimmie Deacon and C. O. Finley of Pecos, E. Hall of Mentone and Dr. C. E. Wilson of Wink was named.

County Agent John L. Mogford of Ward County again will serve as general superintendent and will be assisted by Lee R. Pool, Winkler agent, and Ted Johnston of Reeves County.

Department superintendents for the show will be: Shannon Is Named G. P. Mitchell, Kermit, Herefords; Pat Wilson, Barstow, colt show; Fern Tatom, Monahans, dairy cattle; Jim Thornton, Pecos, auction sales; M. L. H. Baze and Lloyd Shaw, Monahans, parade committee; Lee Pool, Kermit, 4-H club and FFA exhibitions; Bob Corfee, Pecos, grounds; W. F. Harwell, Monahans, treasurer, and Dr. J. O. Shannon, Midland, sanitary officer.

The show is expected to draw one of the biggest collections of livestock in West Texas, since it was a success this year, Mogford said. The highest price paid for club calves in the United States last spring was paid in the auction following the close of the exposition.

Thirty-Six Children Attend Weekly Story Hour

A flag drill and salute to the flag opened the program at the weekly Story Hour in the children's library, Saturday morning.

Stories told were: "The Bunyip," "Father Grumbler," "Habog," "The Husband of the Rat's Daughter," "Asmund and Signy".

Mrs. O. J. Hubbard was in charge. Thirty-six children were present including: Odessa Mae Read, Peggy Lavelle, Joe Jackson Buser, John D. Jensen, Bob Frank Rutherford, Wanda Joe Hankla, Betty Joyce Richards, Betty Jean Wilson, Clara Hambleton, Judy Elizabeth Clark, Katherine Whigham, Frances Whigham, Ormay, J. Hubbard, Herman Hankla, Melba Lee Story, Marvel Grace Story, Homer Snodgrass, Tommy Vannaman, Wanda Pearl Early, Lanetta Early, Betty Sivals, Janice Hill, Charles Sheppard, Billy Jensen, Tommy Darnell, Jean Renfro, Winona Trent, Joy Dianne Deham, L. D. Whigham, Geraldine Smith, Paye Schott, Ethel Sue King, Harris Smith, Fowler Osburn, Sarah Ann Cameron, Ruth Hall.

"Take It Easy" Is Still Best Heat Wave Rule

By Alicia Hart
NEA Service Staff Writer

The prettiest faces at fall fashion showings, in air cooled cocktail lounges and on the dance floors of the smartest hotel roofs these midsummer days and nights are lightly, almost delicately made up. We don't see heavily rouged cheeks at all. Powder seems to have been applied with a restrained hand so that the natural texture of the skin is not completely hidden. A great many nails are covered with lighter, cooler looking lacquer. Lipstick appears to have been carefully blotted so that lips have a dull, mat finish rather than a gleaming shine. Hair is neat — extremely so. Neat and, more often than not, up — or at least dressed to give an illusion of a brushed upward line. People have taken to sauntering instead of half-running-half-walking along. As a result, they arrive calm and collected rather than hot and breathless.

LIGHT SCENTS ARE USED

The air in dressing rooms of the smartest spots is not perfume-laden. Women are using perfume, of course; but they like light, delicate odors better than heavy scents. And the light perfumes leave no trail of scent behind in dressing room or on the dance floor. Quite obviously, girdles haven't been discarded for the duration of the heat wave. Just as obviously, nobody is so bowed down by hot weather that she has given up having her dresses pressed, her hats cleaned.

There are fewer dripping veils no hats. Gloves (usually cotton ones) can't be plainer. Summer shoes on the most attractive feet also are ultra simple. All in all, the smart girls are being just as smartly turned out this summer as they were last winter. There's been no let-down in grooming because of the heat.

Marriage Licenses May Exceed July's

August with five marriage licenses recorded to date at the county clerk's office bids to surpass July's total of 9 issuances. Licenses went to: Ray Long and Wilene Hazel Fountain; Albertus Black and Eva Louise Hicks; W. E. Cox and Geneva Risinger; John Wesley Cooper and Jessie Lucille Tate; and Willard Franklin and Mary Z. Bledsoe.

Will Present Petition To Crane Commissioners

CRANE (Special) — A petition to redistrict Crane County as to justice precincts, election and commissioners precincts will be presented to the commissioners court Monday.

Plaids Go To College

MANY accessories for the campus were inspired by cowboy trappings. These "Wild West" gloves are of deerskin, trimmed with fringed medallions. They are of the new single-seam construction which makes even plump hands sleek and streamlined. Soft, supple deerskin is a brand new substitute for pigskin, which is becoming a rarity in this country. The flower-print wool scarf carries out the western motif. It's tied cowboy fashion.

Newcomers--

(Continued From Page One)

Philadelphia's Women Can Take Silk Hose Loss

PHILADELPHIA (AP) — Smartly dressed women, leaders in the city's society, business and professional life, are ready to abandon the silk stocking standard cheerfully. In fact, they agreed to gladly sponsor a cotton or other substitute style so that the nation's dwindling supply of silk might go entirely to the army and navy for parachutes and powder bags.

That's just their feeling as individuals, however, and there's no active campaign under way in this direction. "I shouldn't mind wearing cotton stockings at all; why, I used to wear them when I was a girl," declares Mrs. Harry Lippincott Cassard, long noted for her beautiful grooming.

The grandmother of debutante Sally Cassard, she recalls wearing cotton stockings as a youngster to match her dresses "like the fashion experts have been trying to get us to do recently." The colored cottons "were very pretty, and quite expensive," she said. Nina Liggett, glamour girl of the 1938-39 social season and now a prominent fashion columnist, draws the line at cotton but adds blithely she wouldn't mind saying goodbye to silks. "I'm going to wear make-up on my legs and never have to worry again about runs in my stockings," explains Miss Liggett. She's going to use a liquid "that goes on very easily."

Speaking for the business women, investment counselor Mrs. William Hamill says she'd be glad to wear cotton or another substitute, adding: "When cotton begins to appear you'll hear girls say 'everybody's wearing cotton stockings; I must get some right away.'"

Like Rodeos
Mr. and Mrs. W. C. Cotten, Jr., are at home at 1110 W. Missouri. The couple moved here July 14 from Austin where he was affiliated with Cage Bros. and F. M. Reeves and Sons, Inc. He is grading superintendent on the Air Training Center project here.

"I have found the people downtown to be very hospitable," Mrs. Cotten said. "Since we have been here I have met very few people outside of my husband's business." She added that they were very anxious to become a part of the community life. She is a member of the Methodist church.

Both are interested in bridge, dancing, swimming, golf and tennis. She also expressed a fondness for bicycling. The Cottens like rodeos and are enthusiastic about the coming Midland rodeo. Chief interest of the couple is their 20-month-old son, Michael.

The most entertaining thing to me is visiting new places and seeing the chief points of interest. I always like to see what is around the bend of the road. I am not part Gypsy, so I guess I get this from the kind of life I lead," Mrs. Elena Rapp, office manager for the contractors, told an interviewer. Mrs. Rapp moved here July 17 from Austin and is residing at Hotel Scharbauer.

She has been with Cage Bros. and F. M. Reeves and Sons, Inc. for a year, but says she has been in the construction work all her life. When Mrs. Rapp has time she enjoys dancing, bridge, golf and riding. One of her chief vacation sports is fishing. Before her husband's death her main hobby was collecting first editions, of which she has some 2100 volumes. For the last several years, she explained, she has not had place or time for collecting and has thought of giving her collection to some library.

Mrs. Rapp's mother is to come here from Dallas soon to live with her.

Other officials on the project have brought their families to Midland and are beginning to take their place in community life. Commutes By Air
Major Henry Baxter is house-hunting. As soon as he finds a house, he will bring Mrs. Baxter and their child here from San Angelo. Meanwhile the Major commutes from San Angelo to Midland by plane.

Later this fall, many Army officers are expected to bring their wives and families here and prediction is that the military element will help make the winter social season even busier than usual in Midland.

Love Beans Corporal, For National Defense

ATHENS (AP) — Love flew in the window and beamed Corporal Dick Hatfield of the 56th Cavalry brigade, Fort Bliss.

Somewhere between Hillsboro and Athens, Tex., a winsome blond, un-equipped with regulation cupid darts, flung a native stone with a note tied around it into the cab of the truck, en route to the Louisiana war games. It caught Corporal Hatfield alongside the ear. Down he went, but he came up reading. The note said: "Won't you write to me? I love soldiers and want to do my part for defense."

Corp. Hatfield said he would write, in the interest of National Defense. SETTLES LAND BOUNDARY WITH QUART OF WHISKY
HUNTINGTON BEACH, Calif. (AP) — T. A. Talbert and Rene Gallens, a rancher, settled their land boundary with — not over — a quart of whisky.

A deed giving Talbert a strip of land between their tracts stated "consideration for this deed is one quart of bourbon whisky; therefore being less than \$100 in value, no revenue stamps are required."

here from Dallas soon to live with her. Other officials on the project have brought their families to Midland and are beginning to take their place in community life. Commutes By Air

8:00 p.m. Wednesday—Prayer meeting.
9:30 a.m. to 3:30 p.m. Thursday—Women's missionary council meeting.
8:00 p.m. Friday—Young People's service.

MEN'S CLASS
Teachers—Marvin Umer and W. I. Pratt.
Meets at 9:45 a.m. Sunday in the Crystal ballroom of Hotel Scharbauer. It is non-denominational.

LEAVE FOR COLORADO

Mr. and Mrs. R. P. Simpson and son, Ray, Jr., of 902 West Kentucky, left for a week's motor trip to Colorado.

FEMININE FANCIES
By Kathleen Eiland

That indispensable of every bedroom, the coat hanger, is now appearing in transparent, colored plastic. Something definitely new. The plastic is molded to provide a horizontal hook over which to hang skirt loops or the straps of evening gowns.

In various colors, this 1941 edition of the coat hanger wins our approval. We should judge it practical as well as new looking. Did you ever stop to think what dozens and dozens of articles now are appearing in plastic—which is, after all, a synthetic material? So many things are being manufactured of the substance that we wonder how the world ever waggled along before such a thing was invented. We hope that the inventor (or should we say discoverer) of said plastic is reaping a rich reward. He deserves it.

On the whole, bracelets, rings, and necklaces leave us cold. They're too much trouble to bother with. But now and then we see something we like very much. Such a thing is the not-too-massive looking bracelet of gold metal with two cutout initials at the front. Approximately an inch wide, the bracelet is surprisingly thick—probably a third of an inch—this thickness giving it a blocky look. It is hinged at the back side and opens between the two initials to clasp around the wearer's arm. An attractive piece of jewelry and

New Wildcat Near Lake McMillan; Increased Activity In Red Lakes Center Interest On Eddy County

HOBBBS, N. M. — Eddy County came back into the Southeast New Mexico spotlight Saturday as it gained location for a new wildcat test in the Lake McMillan region and the shallow Red Lakes pool showed increased activity.

A short distance east of the south end of Lake McMillan, F. E. Baker and Bob Helms will drill No. 1 State 660 feet out of the northeast corner of section 32-19s-27e. The test is two and one-quarter miles southwest of the E. L. Fulton No. 1 Johnson small discovery producer.

Eddy's Red Lakes pool registered three new starts, one producer and one dry hole. As a three-eighths mile southwest outpost to the pool E. L. Fulton has staked location for No. 1 State 330 feet out of the northeast corner of section 36-17s-27e.

In the pool proper James E. Hughes located No. 6 Brooks 1,760 feet from the north and 220 feet from the west line of section 19-17s-28e. Earl Ployhar and W. D. Cunningham already have spudded their No. 1 State, 330 feet out of the northwest corner of section 30-17s-28e. It is drilling past 95 feet in red rock.

Encounters Water

The new Red Lakes producer is Comanche Drilling Company No. 15 Berry, in section 24-17s-27e, which pumped 25 barrels of oil per day upon completion at 475 feet, plugged back to total depth of 493 feet in sandy lime. It topped pay at 448 feet and was acidized with 1,000 gallons.

Hughes No. 5 Brooks, 2,310 feet from the north and 1,650 from the west line of section 19-17s-28e, has been abandoned a failure at 564 feet in lime. The well logged showing of gas in sand at 495 feet, showing of oil in sandy lime from 535 to 545 feet and salt water from 562 to 564 feet, the total depth.

Bryant, Sutherland and others No. 1 Neil H. Willis, gas strike six miles west of the Getty pool in Eddy, ran into sulphur water from 962 to 963 feet, the total depth, and is shut down for orders after plugging back to 953 feet. Located 1,980 feet from the north and east lines of section 14-20s-28e, it had gauged 7,000,000 feet of gas per day from upper shows.

Nick Manetas No. 1 Lane, Eddy wildcat south of the Getty pool and in section 13-21s-28e, is drilling below 2,976 feet in hard dark lime. With elevation of 3,305 feet it topped the lime at 2,825 feet.

Western Lea Failure

Flynn Welch & Yates No. 1 Parcel, four miles northwest of Getty production, logged slight showing of oil and gas in sand from 1,505 to 1,512 feet and is drilling ahead past 1,573 feet in sand. It is in section 34-19s-29e.

Failure for a Western Lea County wildcat seven miles north and slightly east of the Maljamar pool

Top Cowboy Hands Will Perform In Carlsbad's Rodeo

CARLSBAD, N. M. (Special)—"She's-a-westerner."

When they open the gates for the first performance of Carlsbad's big annual rodeo Aug. 22 and 24, all the top hands from Calgary to Cowntown will be on deck, because—"She's-a-westerner!"

That one phrase, long associated with the rodeo, takes in a lot of ground. The rodeo will present the southwest's only jerkdown steer roping contest, the country's first sheriff posse relay race, the nation's top "peelers" astride the west's worst outlaw horses, husky cowhands diving from racing horses to the horns of speeding steers to wrestle them down into the dust, Brahma bull riding, pretty girls in a flag race, and a host of other events.

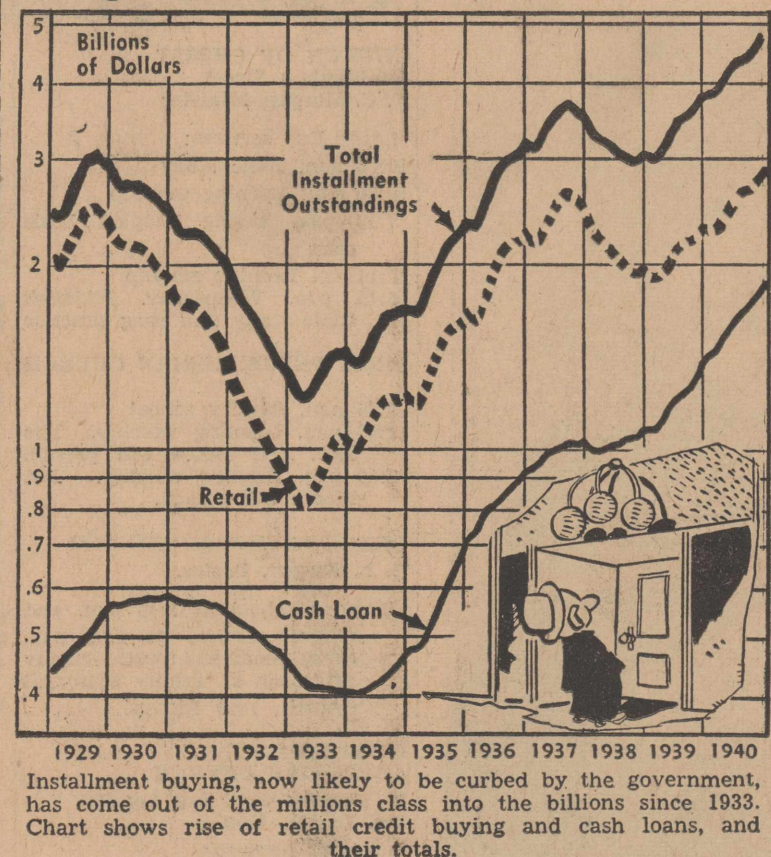

But to the cowboys who travel thousands of miles to participate, this wild west show they stage each year on the sunset side of the Pecos river is still the best of all because—"She's-a-westerner!"

Formerly a Fourth of July attraction, the rodeo is expected to attract more top-flight performers than before because it breaks right at a time when the riders and ropers are on the loose.

Steer roping was revived by the Carlsbad Rodeo as a special attraction three years ago, after the event had been barred by law for more than a quarter of a century.

Carlsbad Rancher Elmer Hepler, known for handling rodeo work at Fort Worth, Denver, El Paso and other major cities, again will direct the arena, while the outlaw horses and wild Brahma bulls of the Jernigan Brothers from nearby Hope will give competing cowboys all the trouble they want.

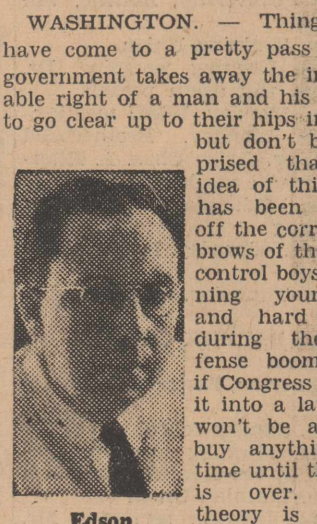

'High Finance' of Installment Plan

Installment buying, now likely to be curbed by the government, has come out of the millions class into the billions since 1933. Chart shows rise of retail credit buying and cash loans, and their totals.

Government Studies Putting Stop To Credit Buying--Price Control Boys Consider Law To Give Congress

By Peter Edson
The Reporter-Telegram
Washington Correspondent

Edson

WASHINGTON. — Things will have come to a pretty pass if the government takes away the inalienable right of a man and his family to get clear up to their hips in debt, but don't be surprised that an idea of this kind has been peeled off the corrugated brows of the price control boys planning your life and hard times during the defense boom. And if Congress makes it into a law, you won't be able to buy anything on time until the war is over. The theory is simply this:

Automobiles, refrigerators, washing machines, furniture and all such durable goods are manufactured in factories that might be used to make defense articles. As those are the articles most commonly bought on time, one way to stop their production is by preventing their purchase on the installment plan.

Second, because more people will be making more money in defense industries, they will be wanting more of these durable goods and, feeling there are no hard times in sight for a few years, they'll be willing to go deeper into debt to buy what they want. To curb this defense boom demand, the idea is to prevent purchase by the installment plan.

Third, it would be just too bad to have this defense effort end some sweet day, only to find all the people head over heels in debt. It will be bad enough just having the government that way, but with all the people that way too, there won't be anybody to pay the government's debts. Hence, to keep the populace solvent, there is this idea to prevent installment buying.

To get the full significance of what legislation of this kind would do to your normal methods of living you have to spoon a few statistics out of the Washington soup.

At the end of 1940, the good people of the land were privately in debt to the tune of \$27 billion—\$20 billion due in mortgages on the homes, \$3 billion due on autos, furniture, charge accounts and such, and \$2 billion due to finance companies for cash loans.

You Owe \$210

Getting that down to a per capita basis, it figures approximately that every man, woman and child in the country was in debt \$210—\$150 on the house, 40 owed to some retailer and \$20 in cash borrowings. If your family has the average four persons in it, multiply those figures by four and see how average you are by comparison.

You may figure that if they pass a law making it illegal for you to go into a store and "charge it," you will be able to outsmart them by stopping in at the loan company on your way to shop and borrowing the money there, but that's being thought of too. There may be no limitation on activities of lenders at first, but if cash loans start rising too much, there may be an effort to stop such borrowing by simply having the federal reserve banks stop advancing funds to the personal finance companies, the industrial banking companies, the commercial

Corpus Christi's Building Leads With Power Unit

By the Associated Press

Topped by boom-blessed Corpus Christi's \$769,555, six Texas cities issued more than \$100,000 in building permits the last seven days.

The other five were Dallas, Houston, Fort Worth, Lubbock and San Antonio.

Corpus Christi's total included a \$645,000 permit issued to the Central Power and Light Company for an additional power unit near Nueces Bay. The week showed the city's 1941 current total above \$100,000—\$100,000 to Houston's \$12,894,334.

Totals for the week and for this far during the year from various representative cities include:

CITY	WEEK	YEAR
Corpus Christi	\$769,555	\$10,329,614
Dallas	338,856	5,235,491
Houston	319,850	12,894,334
Fort Worth	216,422	4,307,893
Lubbock	126,328	2,212,111
San Antonio	208,870	4,093,456
Wichita Falls	52,200	986,974
Waco	44,967	3,408,161
Amarillo	35,050	1,694,893
Galveston	33,840	3,510,184
Port Arthur	28,976	752,701
Midland	22,500	340,720

banks and the credit unions.

The domestic distribution committee of the United States Chamber of Commerce has gone over the subject and issued a report saying that any curtailment of installment buying is unnecessary. According to this report, although real sales reached \$47 billion in 1940, only 10 per cent of them were installment sales and only 10 per cent of the 1,650,000 retail establishments in the country sold on time.

But in the 160,000 merchants who handle installment sales are 35,000 auto dealers, 17,000 furniture stores, 14,000 home appliance stores, 14,000 auto accessory stores, 12,000 jewelry stores, 9,000 hardware stores, 8,000 clothing stores, 4,000 department stores and 25,000 miscellaneous merchants who are the leading merchants, the big advertisers, the fellow whose entire business is built up on credit sales. There's no telling what would happen to them if they had to go on a cash basis.

Federal Agency Will Provide \$128,000 For REA Lines In Area

An allotment of \$128,000 to build 163 miles of rural electric lines to serve customers in Midland, Martin, Borden, Dawson, Glasscock, and Howard counties was among those totaling \$7,744,000 authorized by REA.

The grant was to the Cap Rock Electric Cooperative of Big Spring. Constructing 25 miles in lines south Midland County is underway and a north county extension also was approved. Whether the new allotment included additional projects was not learned from O. B. Bryan, supervisor of the Caprock cooperative.

Construction In City Proceeds At Pace Set By Air School Building With \$22,500 Authorized For Week

Construction during the first week in August totaled \$22,500, indicating this month of building may equal July when more than \$100,000 in permits was issued. Building for the year is \$340,720.

The largest permit last week went to Dr. Kurt Lekisch. It was for \$8,400 to build a brick-veneer residence at 1302 West Texas St. in the West End Addition. The size will be 68 by 45 feet and a garage will be attached.

A&L Housing and Lumber Company will build two \$3,000 residences at 1110 West Indiana St. and 1105 West Missouri St. respectively. Both will be five-room frame houses with garages attached. They will be 28 feet 10 inches by 36 feet, 6 inches. Three More Permits!

A permit for a \$4,000 residence at 707 West Cuthbert St. was issued to L. Wallace. It will be a five-room frame structure, 41 by 40 feet. A garage will be attached. Location is in the Country Club Addition.

E. P. Kenner received a permit for \$2,700 to build a five-room frame residence at 1211 West Kentucky St. in the West End Addition, 28 by 35 feet.

Minor permits issued were: Mrs. E. Jones, \$800 for construction of servants quarters at residence 506 N. Marinfeld St.; D. B. Wallington, \$400 for repairs to house and addition to garage at 708 West Illinois St.; and \$200 to J. L. Shive to construct boxed frame structure at 1405 South Main St. in Belmont Addition.

Five Will Attend Chamber Meeting

A delegation of five persons will represent Midland at the second annual convention of the Associated Southwestern Chambers of Commerce in Silver City, N. M. Sunday, Monday and Tuesday.

Dan Hudson and Bill Collyns left Saturday for the conclave. Fred Wemple and his sons, Allan and Fred, Jr., were scheduled to leave Sunday.

Collyns is chairman of the nominating committee. Wemple will speak at a retailer's meeting Monday on the subject, "I Sell Gasoline."

Wickett Resident Is Temporary Postmaster

MONAHANS (Special)—Boss Peacock, Wickett barber, was named temporary postmaster at Wickett to succeed Mrs. Bobby Wristen, who resigned.

Mr. and Mrs. Wristen moved to Grandfalls where they have ranching interests.

Wilson Is Chairman Of Observers Corps

CRANE (Special) — Judge John Watts presided at a meeting of the aircraft warning council when post-organizers were elected. He appointed Mrs. R. V. Wilson chairman of the observers corps of council.

Bob Conley, J. C. Regan, Kenneth Harold, Leland Martin, Jimmie Holley, W. W. Allman, W. B. Gunn, M. S. Ward, Hayden Wilmoth and Owen Shackelford are organizers.

Volunteers of the observers corps at the meeting were Mesdames W. B. Gunn, R. N. Hester, H. C. Harris, S. F. Robinson, C. A. Shaffer, W. R. Crownover and M. M. O'Neal. A state employment service representative will hold classes of instruction for volunteers soon.

Public Records

The largest number of warranty deeds in several weeks were recorded in the county clerk's office last week, Mrs. Susie G. Noble, clerk, reported.

The deeds recorded were:

G. G. Asbury and wife to W. W. Smith, all of lot 3 block 4, West End.

Lena C. Wimberly et al to Wallace Wimberly, lots 3 to 6 inc. block 19, Midland Heights, lots 7 to 10 block 70 Southern Addition, lots 10 and the south one half of lot 11 in block 80, Southern Addition.

W. C. Tatum et al to P. J. Mims, lot 17 and the west one half of lot 18, block 3 Country Club.

Frank Cowden et al to Karis G. Lineberry, et al, all of lot 18 and the east ten feet of lot 18, block 2, Country Club.

J. D. Brown and wife to L. I. Baker, all of lot 9 and the west ten feet of lot 10, block 7, Elmwood.

Hugh Corrigan to A. & L. Housing and Lumber Co., lot 11 block 29, West End.

Hugh Corrigan to A. & L. Housing and Lumber Co., lot 10 block 29, West End.

Hugh Corrigan to A. & L. Housing and Lumber Co., lots 9 and 12 block 29, West End.

Frank Briggs and wife to Raymond W. Dudley, lots 9 and the east one half of lot 8 block 102, West End.

A. & L. Housing and Lumber Co. to C. W. Ledebur, lot 8 and west half of lot 9, block 39 West End.

J. E. Palmer et al to Mabel M. Ford, the N/2 and the SW/4 Sec. 13 block 37, Township 3 South.

P. J. Mitchell to J. W. Thorne, lot 12 and east half of lot 11 block 70, West End.

May L. Simmons to C. P. Yadon, east one half of a 9.24 acre tract composed of 6.52 acres out of the south part of block No. 7 and 2.71 acres out of the southeast part of block No. 8 all in Johnson and Moran Addition.

F. F. Elkin trustee, to E. P. Kenner, lot 6 block 65, West End.

E. P. Kenner and wife to Dennis S. Hughes and wife, lot 4 block 54, West End.

Wm. R. Sonricker to Mrs. Rose Weinstein, and undivided 1/4 interest in lot 22, block 67, Original Town.

F. F. Elkin, trustee to E. P. Kenner, lot 4 block 54, West End.

W. M. Ford and wife to Una Roberts et al, lot 3, block 37, West End.

WEATHER MAXIM HOLDS FROM 3RD CENTURY, B. C.

PHILADELPHIA, (UP)—At least one archaic weather maxim seems to stand up fairly well under modern atmospheric records, according to a survey made by State College Geophysicist Dr. Hans Neuberger.

For instance, advised Dr. Neuberger, the thesis that a ring around the moon foretells rain appears in poetry of the 3d century, B. C. He said that in winter the odds are 7 to 1 that a halo will be followed by rain or snow within 48 hours. In summer, the scientist found, rain follows a halo a little more often than two times to one, and in spring and fall the ratio is three times to one.
