

Iran Appeals To Allies For Truce

Mother And Three Children Die In Brooklyn Murders

Four Victims And Two Others Are Slashed In Tragedy At Apartment By The Associated Press NEW YORK (AP)— A Brooklyn woman and three of her four children were slain, their throats slashed, and her other child and her husband were wounded similarly Wednesday, apparently, Assistant District Attorney Edward A. Heffernan said, because the entire family suffered from a contagious disease which he did not identify.

In the blood-spattered flat where the slayings occurred detectives found a note, which Heffernan said probably was written by the woman, Mrs. Mary Morey, 34. It read: "This is the best way out: Don't touch anything." The dead children were Marcella, 7, Claire, 4, and Paul, 3. The wounded were William, Jr., 11, and his father, William, a former policeman, both taken to Methodist Hospital. William, Jr. was not expected to live.

Wants Tank Cars To Meet Shortage

WASHINGTON (AP)— Senator Maloney (D-Conn) proposed Wednesday that all unused railroad tank cars be set to rolling in an effort to relieve shortages of gasoline, fuel oil and other products. "I have the feeling that we may press the now unused tank cars and other tank cars not badly needed otherwise—into immediate service," Maloney said. "I know that the cost of transportation by rail has been considerably greater than by tanker and pipe line."

Great Air War Over Leningrad

MOSCOW (AP)—A tremendous aerial battle for mastery of the skies over Leningrad was reported Wednesday by developed as the big city's army and militia defenses stiffened for a last-ditch fight against Finnish and German drives from the north, west and south. An early-morning communique said 101 of the 156 German planes listed as destroyed during Sunday and Monday were shot down in fierce dogfights along the approaches to the old capital of the Czars, or smashed in raids on nearby airbases from which the Nazi attacks were sprung. Defenders of the city declared that despite repeated German raids, not a bomb had fallen within the city limits.

Participants For Midland Rodeo Parade Will Meet At High School Building Site 9:30 A. M. Saturday

The larger horsemen's parade opening the seventh annual Midland Rodeo will form at 9:30 a.m. Saturday morning at the high school and the procession will start promptly at 10 a.m. Those taking part in the parade were requested to be at the high school by 9:30 a.m. so divisions may be arranged and there will be no delay in starting. More than 250 riders, four or five bands, several novelty features and other attractions, will be in the parade. Top riders of the range and stellar rodeo performers, both men and women, will ride in the procession opening the three day and night attraction. Any person with a horse may ride in the parade. The lineup for the parade is as follows: 1. Flag bearers 2. Hardin-Simmons Cowboy Band 3. Rodeo officials 4. Rodeo judges 5. Celebrities 6. Cowgirl sponsors 7. Midland High School Band 8. Contestants

Behind The Headlines

By DeWitt MacKenzie Thus far the Iranian (Persian) resistance to the Anglo-Russian invasion has borne the earmarks of being largely of the token variety, that is, a bluff calculated to be realistic enough to provide an excuse to the Nazis but not sufficiently serious to impede the occupation. In any event, armed opposition by the Persians now would appear to be too late, since the Allies already have occupied the strategic positions and reportedly safeguarded the vital oil supplies. Thus Herr Hitler has been frustrated in one of the objectives of his Russian invasion—the seizure of Persia.

It is an interesting commentary on the stoic Russian view of present cataclysm in which it is involved, Communist Chief Stalin has found time, while invading Iran and maintaining a back-to-the-wall defense against the Hitlerites, to rebuke another potential enemy—Japan. The Soviet will regard it as an unfriendly act if Nippon interferes with the shipment of American war supplies through Vladivostok.

The Red leader either is a colossal bluff or has the utmost confidence in his ability to defend Russia's interests. In view of the amazing resistance which the Bolsheviks have made to the Nazi invasion, he would seem to have a right to feel a very considerable degree of assurance. Certainly Japan will look twice before throwing down the gauntlet, for the Soviet is heavily armed in the Far East.

Land For Proposed New Airport Will Be Surveyed Soon

Plans were being made Wednesday for surveys of several tracts of land north of Midland to see which is best suited for the proposed new Midland airport for which the Civil Aeronautics Authority has allotted \$289,000. City officials and CAA representatives conferred Tuesday and inspected the lands. Engineers now will make the surveys.

Midland Dresses For Annual Rodeo Events

Midland was putting on its rodeo dress Wednesday to decorate the city for the big show. Decorators were stringing streamers and putting on store front decorations. The work started Tuesday night and is expected to be completed by midnight Wednesday. In a patriotic motif the decorations this year will feature flags. Two will be placed at lamp posts and at other places. Store fronts will be decorated with bunting and other decorations. A welcome banner to visitors has been up several days. It is across Wall St.

New Jersey Shipyard Opens As Uncle Sam Takes Over

The U. S. Government was their employer as these workers stream through the main gate of the Federal Shipbuilding and Drydock Co. plant at Kearny, N. J., after a strike that paralyzed operations since August 7th. Note that no naval guards nor officers are in evidence. (NEA Telephoto.)

Dawson Wildcat Shows Oil Stain In First Cores

By Frank Gardner Oil Editor. Stanolind Oil & Gas Company No. 2 Lillian Scanlan held attention Wednesday as it showed first oil staining and slight porosity in core from 4,845-63 feet. The wildcat is in Northwestern Dawson County four and one-half miles northeast of the Cedar Lake pool of Northeastern Gaines.

Seventeen and one-half feet of lime with anhydrite inclusions were recovered of the core. Top five and one-half feet were lime and anhydrite showing slight bleeding of oil; next five feet were lime bleeding oil; the next two feet dry lime and the bottom five feet oil-stained lime. The test is coring ahead. It is reported running favorably high on structure, having topped the San Andres line at 4,510 feet, datum of minus 1,365.

L. C. Harrison and associates No. 1 Nairn estate, Central Lubbock County test, was showing a decrease in sediment and water as it swabbed through tubing into tanks. The first five hours of swabbing yielded 50 barrels of oil cut up to 10 per cent with h's and water. Fluid cannot be swabbed below 2,500 feet from bottom. No. 1 Nairn was acidized with 2,000 gallons while bottomed at 4,911 feet then was deepened with rotary to 5,002 feet, where it was shot with 460 quarts.

Large Soma Well

M. & M. No. 1-F Noelke, in the Soma or Noelke pool of Western Crockett County, gauged natural flow through casing of 88 barrels in 30 minutes and is preparing to take another test. It topped the Soma sand at 1,300 feet and is bottomed at 1,325 feet in sand. The same firm's No. 1-F Bouscaren blew an estimated 40,000,000 cubic feet of gas per day at 1,570 feet in lime; the total depth, and has been shut in. Amerada Petroleum Corporation No. 1-B J. S. Todd, opening an Ellenburger, lower Ordovician, area one mile northwest of the Todd Creek pool in North Central Crockett County, is drilling at 2,995 feet in lime streaked with shale. Reagan Strike To Plug Back. In Eastern Upton, Plymouth Oil Company No. 1 Alford has reached 7,800 feet in black sandy shale. Amerada is preparing to plug back to 9,080 feet from total depth of 9,294 its No. 1-RA University, opener of the Barnhart Ellenburger area in Southeastern Reagan County. On last test it swabbed and flowed 54 barrels of oil and five barrels of water in nine hours. The well was killed with mud but tubing could not be pulled. When operators free stuck tubing they will plug back the hole. No. 1-RA University previously had flowed 95 barrels of oil 24 hours through 12 1/4-inch choke on 2-inch tubing while bottomed at 9,080 feet. Water was encountered in deepening.

Appeals To Court In Oil Field Suit

AUSTIN (AP)—A suit on file in a district court here Wednesday for the second time this year attacked the railroad commission's allowable oil production order for the Gulf-McElroy field of Crane and Upton counties. E. C. Marrs of Kendall County and two other mineral rights owners appealed to the court from an order restricting the field's permissible yield to 19,988 barrels gross and 13,543 barrels net daily in September. Judge J. Harris Gardner set Sept. 2 for a hearing on an application for a temporary injunction restraining the commission from enforcing the order, issued Aug. 23.

Freezing Of Crude Oil Price May Boomerang On Defense

By Ben Funk TULSA (AP)—Several spokesmen for the oil industry asserted Wednesday the government's effort to freeze crude oil prices might endanger the defense program by forcing private operators to abandon their stepped-up search for new petroleum reserves. Price Control Administrator Leon Henderson took action this week to halt the upward trend in crude prices. He established a ceiling on prices for Pennsylvania grade crude at the level prevailing before an increase of 23 to 25 cents a barrel was announced Aug. 14.

At the same time, Ralph K. Davies, deputy petroleum coordinator, urged that "wildcat" drilling be continued at the present rapid rate to prevent depletion of reserves as a result of the immense drain caused by the defense program and aid to Britain and Russia. Oil men here argued that exploratory drilling could not be carried on at current price levels because of skyrocketing operating costs. Wildcatting—ever an expensive gamble—will be highly unprofitable unless further increases are granted, they said. The Independent Petroleum Association of America, in a memorandum to Petroleum Coordinator Ickes, noted that "during recent years the price of oil has not been sufficient to bring about enough exploratory work to result in the maintaining of adequate reserves."

Effect Of Killing Agitation "If sufficient new reserves are not to be discovered," the IPAA added, "crude oil prices must not only return all costs to the producer, plus a reasonable profit, but must also provide an additional reward as an incentive to exploratory work." Pressure exerted on Pennsylvania purchasers to rescind the Aug. 14 price hike was expected to have the effect of killing recent agitation for a boost in the Mid-Continent region. Meanwhile, demands for an investigation of the reported gasoline shortage on the Atlantic seaboard resulted during the week in formation of a Senate sub-committee to inquire into the matter.

Davies asserted that reserve stocks of gasoline on the east coast had dropped to a supply sufficient for only 10 days. He spoke of a "perilous situation" and emphasized that more drastic measures might be necessary beyond the limited gasoline rationing now in effect. His analysis of the situation has been frequently challenged.

Rodeo Boosters Get Enthusiastic Welcome On Trip

Midland's Jaycee-sponsored goodwill trippers returned Tuesday night from a two-day tour to publicize the seventh annual rodeo. Arriving on schedule at 8 p. m. the group was greeted by citizens, Delbert Downing, president of the Junior Chamber of Commerce welcomed home the delegation. The Midland Cowhand band, which entertained at each city on the tour, played several numbers and Clint Dunagan, trip co-director, reported on the trip. The program was presented in front of Crawford Hotel, J. B. Crain was the other co-director. The 40 trippers, dressed in complete cowboy regalia, who visited 30 West Texas cities reported large crowds to greet them. Officials declared the tour was the best ever to publicize the rodeo. A police car, a Dunagan sound truck, and the 40-passenger bus were taken on the trip.

Mustangs May Earn Admission To Rodeo

Mustang Boy Club members may earn admission to the Midland Rodeo, it was announced Wednesday by Sam P. Spears, recreation director. Club boys were advised to see Spears and sign for work that will enable them to earn admission to the event. Rodeo officials co-operated in the offer.

To Take Applications For Wickett Official

WASHINGTON (AP)—The Civil Service Commission announced it would receive applications until close of business September 12, for a postmaster at Wickett. The salary will be \$1,800.

Pierre Laval Shot

VICHY, Unoccupied France (AP)— Pierre Laval, former Vichy vice premier and once heir to Marshal Petain, has been shot by a foe of the Germans at Versailles, it was disclosed Wednesday night. His wounds are not believed serious. Marcel Deat, former air minister and rightist leader, was wounded at the same time.

Japan Censures U. S. Plane Fuel Shipments

TOKYO (AP)—Domei, quoting what it described as reliable sources, said the Japanese government had made representations recently to both the United States and Soviet Russia against shipments of American aviation fuel to the Soviet via Vladivostok. The government, said the news agency, is taking a serious view of the situation. Reports that both Russian and American ships are transporting not only gasoline but other supplies through Vladivostok was said to be "greatly irritating Japanese sentiment." The fact that high octane fuel denied Japan was reported "passing under the very noses of the Japanese" was described as especially displeasing. Premier Prince Fumimaro Konoye was received in audience this morning by Emperor Hirohito. Foreign Minister Vice Admiral Tetsuji Toyoda later was received at the palace, presumably for a report on the complex international situation, but no details of the audience were disclosed.

Both the officials were received by the emperor this afternoon. Evening newspapers displayed long stories of the representations, saying the government viewed the situation with the utmost concern, but significantly avoided the term "protest." They used representation or "warning."

R. C. Langston, Midland Broker, Dies In Hospital

Robert C. (Red) Langston, 47, oil broker and World War veteran, died at 5:30 p.m. Tuesday in a Midland hospital after an illness of several months. Funeral services were scheduled at 4 p.m. Wednesday at the First Methodist Church with the Rev. W. C. Hinds officiating. Interment will be in Fairview Cemetery. Survivors include: the widow, Mrs. Louise Langston, Midland; two daughters, Betty John and Mary Louise, Midland; and one brother, J. J. Langston, of Pine Bluff, Ark. Pallbearers for services included: Pete Droppelman, R. M. Barron, Jack Rettig, Reese Cleveland, Hugh Corrigan and E. G. Bedford. Langston was born in 1894 in Arkansas. He came to Midland seven years ago.

Pender Talks To Lions Members

District 2-T Lions Governor H. C. Pender of Lubbock paid his first official visit to any club of the district at the Midland club's luncheon meeting Wednesday. He spoke on "Americanism, Lionism, and World Peace." Claude Crane, program chairman, introduced Pender. The Midland Cowhand band played several numbers, John Matthews sang a solo, and Jess Aiken sang specialty numbers. A surprise guest was "Old Whizz," Amarillo, famous cowboy clown. Murray Fly, Odessa, deputy district governor of Lions attended the meeting. G. W. Thatcher, representative of Lions International, also visited the club. R. C. Conkling was awarded a past president's pin by Claude Crane. A supper was served following the service.

Brooks Herd Leads In July Production

A monthly report of the Midland County Dairy Herd Improvement Association shows R. O. Brooks' herd of 27 cows at the top with average milk production of 644 pounds for last month. Four herds in the county are on test. They are those of Brooks, Jim Baker, J. C. Miles, and L. A. Brunson, representing seventy-three cows.

Blaylock Resigns As High School Teacher

J. E. Blaylock, science teacher at Midland high school, has resigned to accept a position as head of the science department at Lamarr Junior College at Beaumont. He taught at Midland high one year, 1940-41. His resignation was accepted Tuesday and a successor has not been named, Supt. George A. Heath said.

Sends Promise Germans Will Leave Country

Premier Mansur Stases Russian Are Bombing Open Undefended Towns By The Associated Press TEHERAN, Iran (AP)— The British and Soviet ministers, after an audience with the Shah, have transmitted to their governments an Iranian plea that the war cease and a guarantee that virtually all Germans would be expelled from the country within a week, it was reported reliably. A few Germans in "indispensable technical posts" would be kept for a while until substitutes could be trained to take their places, under the reported offer. Premier Ali Mansur in a ten-minute address before parliament charged that the Russians were bombing "open, undefended towns" in Azerbaijan Province along the Russian frontier. He told the legislators that the Soviet army was driving toward Tabriz, Iran's second largest city 60 miles south of the border, "with a great number of troops." (The Russians say they have taken Tabriz.)

Reporter-Telegram Owner Is Sued By Former Publisher

T. Paul Barron, former publisher of The Reporter-Telegram, has filed suit in district court here against James N. Allison, owner and publisher of The Reporter-Telegram, for \$19,000 with six per cent interest since February 15, 1941, and plus attorney's fees of ten per cent. In his petition Barron states Allison "refused" to pay an installment of \$2,500 on the note. Barron then elected to declare due all of the note, totaling \$19,000 and turned the matter over to his attorneys. The defense will be that sworn circulation statements of the newspaper were incorrect at the time Barron sold the property to Allison, August 15, 1940. Allison said he had requested an adjustment of the purchase price before the \$2,500 installment was due, August 15, 1941, and had withheld the payment pending a compromise. Allison will ask Barron for the records of his former corporation and will offer to pay the balance of the note if upon examination he finds the sworn statements were substantially correct. Circulation of The Reporter-Telegram has greatly increased since Allison acquired the newspaper.

Asks Merchants To Display Flags

Midland merchants were requested Wednesday by rodeo officials to display flags as decorations for the rodeo are going up. They are asked to display flags daily until the show closes.

Midland Legion Post And Auxiliary Induct New Year's Officers

Officers of the Woods W. Lynch Post No. 19 of the American Legion, and its women's auxiliary were inducted Tuesday night. G. Ward Moody, Odessa, commander of the 16th District, was presiding officer for the legion installation. Installed were: W. B. Preston, post commander; H. C. Hannaford, first vice-president; Carl Smith, second vice-president; H. A. Palmer, post adjutant; I. J. Prager, finance officer; Charles W. Kerr, chaplain; and J. H. Goodman, chairman of the child welfare committee. Officers absent and who will be installed at a later service, included: R. W. Hamilton, service officer; Percy J. Mims, historian; and G. C. Rann, sergeant-at-arms.

IT IS THE FOOL WHO SAYS IN HIS HEART THERE IS NO GOD: In the beginning God created the heavens and the earth.—Genesis 1:1.

Spreading The Work, Deliberately

The defense job naturally gravitated into the hands of the large companies best equipped to grapple with it directly, immediately, and on a large scale. Materials vitally needed for defense naturally were assigned to these large industries. Meanwhile many smaller industries, making goods not immediately necessary in the defense effort, and unable to get defense contracts, face shutdowns. Pools of unemployment are beginning to appear in the flood of defense jobs. Something has to be done.

The Office of Production Management is facing the problem. Already it has moved to remedy the situation by forcing the spreading out of defense work among smaller companies. The OPM proposes to proceed along this line:

Special efforts to get defense work assigned to communities already feeling the loss of jobs through lack of priority materials for their smaller industries; requirement that in all contracts over \$50,000 a definite percentage of the work be "farmed out" to subcontractors; negotiation of some contracts without competitive bidding, so that some small shops can get contracts even though perhaps the large firms might outbid them.

Obviously this is not the most economical way to proceed. It seems perfectly clear that some work is going to be allotted to certain towns and plants deliberately to alleviate unemployment, rather than on a strict economic basis. The taxpayer will pay, again, but it will be a price incident to defense. So with negotiated contracts instead of competitive bids: there will be instances in which Bethlehem Steel might be able to bid lower on a job, yet the Doakes Manufacturing Company be given the contract as a means of relieving the unfilled-order list of Bethlehem and spreading the work.

Time and morale are both elements in defense, just as machine guns and tanks. The proposed OPM plans look like a way to buy some of both by spending more money than production of the actual goods would cost if the lowest bidder were always to get the job regardless of time and the effect on the morale of small-plant employes thrown out of work.

It might well be economy in the long run to buy some time and morale in this way along with the actual goods.

The Hemisphere Should Act

In international affairs, as in business affairs, there is no way to accomplish something profitable and good without taking a risk of loss.

So with the controversy between Peru and Ecuador, still simmering and threatening at any time to break out into a real war. It should be settled. There are enough wars in the world. The Western Hemisphere, hoping to set an example of peaceful conduct of affairs to the world, must show its ability to adjust peaceably this small affair.

Nobody wants to bell the cat. The United States, for instance, has the friendliest feeling for both Ecuador and Peru. Probably no settlement it could be instrumental in enforcing could equally please both countries. Yet settlement is infinitely desirable. That is where the risk must resolutely be taken of perhaps offending one friend or the other. Again, the one most perilous course is to drift.

Buy Defense Bonds

100,000 Volunteer Nurses' Aides

Within the next year the Red Cross plans to train 100,000 volunteer nurses' aides. The nursing facilities of civilian hospitals are already seriously strained, what with increasing demands from the military, public health and hygiene services. Should a great emergency come, a broad, speedy expansion in hospital beds might be required, and though many subsidiary hospital workers have had some training through NYA, WPA, and other agencies, they would not be enough to meet a great emergency quickly. So a volunteer program for nurses' aides is planned, designed to increase the effectiveness of existing trained nurses by supplying qualified assistants who can work under them. Physically fit women between 18 and 50 with a high school education or its equivalent are wanted. Local Red Cross chapters and hospitals will collaborate in giving the courses.

Lots of women who have been asking, "What can I do?" may find an answer here.

Buy Defense Bonds

The French Pay

The cost of preparedness is high. Everybody is worried, and rightly so, about the increase in government debt, the cost, in money and time and sacrifice, of defense.

All roads are costly today. On the other side, take a look at France, which did not prepare well enough. Four hundred thousand francs a day France pays to Germany for the inestimable privilege of entertaining in its midst a conquering German army. How much that is in money is hard to say, because a franc today is what Berlin says it is. But you can get some idea from the fact that this annual indemnity of 146,000,000,000 francs is more than twice France's annual receipts, more than all other French expenditures.

So while it costs to prepare, it costs to be unprepared, too.

How's This--Better?

Ohio Father Gives Good Advice To Son In Army--Cites Danger Plotted By Germans To Generate Discontent

(Editor's Note: The following letter was written by a father at home to his son in Battery C, 135th Field Artillery.)

Alliance, Ohio
July 23, 1941.

Dear Son:

It is very disturbing to learn of the intense feeling of discontent and distrust that is being nursed into expression there at Shelby and among other armed forces. I cannot too strongly urge that you and all the men there be very much on your guard against allowing the feeling to grow any further.

God, you and we know we would, if we had our emotions only to govern us, have you here with us, as no doubt would all parents in this country tonight. But that, in all sincerity is why and exactly why we have a decent country to live in. It is built on mutual trust, faith, loyalty and the ability to get far enough from the trees to be able to see the woods as a whole.

It is no secret that human emotions are responsive to the nth degree and no one knows that better than the Nazi devils now loosed on the world—loosed to the extent that this is the only part of the world they haven't used their military might upon. They are and have been softening us up for the slaughter with their damnable propaganda just as they have done with the peoples of the other countries before they pounced.

Knowing that we are a clearer thinking, more home loving, and a more conservative people, they must necessarily do their softening on us in a more cautious and subtle manner, so they start the seed of discontent, jealousy, homesickness and work us into such a pitch that we lose or temporarily loosen, at least, our sense of values. Things and standards we believe in are misshaped in our minds and grow in an enormity of confusion until thoughts so disturbed and distorted prompt action in words and deeds that once committed cannot be retracted.

How I wish that I could get this fact home to the minds of every man and woman in uniform who really is loyal to us but have been worked into confusion.

Men in responsible positions, our President, our top-ranking military officers, know our country's needs and the precautions and means that must be used to keep us the nation we are. Don't you believe these men would rather be privately engaged and be able to do as they wished? They have a job to do and are doing their level best to do it. They know what is necessary. We as individuals do not, I am satisfied, to that.

Individuals cannot and must not be granted priority. It is the welfare of over one hundred and thirty million people that is at stake. Who cares if John Doe is making \$1 per day or \$10 or \$20? Each man has his job to do in the army or in civilian life. If he doesn't do it, only he really suffers from that failure.

It looks, as it always did, that the other fellow gets the breaks. That is not true. I was 18 during World War I, and I did not go. I was not deferred, but I did wait on the draft and it was over before I was sent to camp. I've been sorry for 25 years about my staying and waiting. Only I know to what extent. I say to you, my son, when they say or whisper, or infer to you to lessen your grip on your duty as sworn to upon your induction into the army, say to them: "I want no retreats to live with." Let's lick this job, then we'll see to the other.

Cranium Crackers

Sporting People.

You don't always have to turn to the sports pages to read about the players of the various games, for many make front page news. You may have seen the names of these "great" characters in the headlines recently.

1. What famous pitcher got a step closer to being inducted when he took his draft board physical examination.
2. What drafted ball player has risen to rank of corporal in the few months since he was inducted?
3. What well known tennis player recently married "the prettiest girl in tennis"?
4. Who is the boxer that has been having trouble keeping his golf score down?
5. What former boxer has been cast in a movie about the yoo-hooing soldiers?

Abilene Vs. Plainview Should Be Real Battle

ABILENE (AP)—When Abilene high school's Eagles meet Plainview Sept. 19, it will be a first-class game.

It is the Eagles' first game of the season.

It is the first night game at the Eagle Stadium.

It is Vernon Hilliard's first game as Abilene coach.

It is the first time since 1926 that an Abilene high school team will not be under Coach Dewey Mayhew.

It pits Hilliard against his former team for the first time since he left Plainview.

Official Reports No Shortage In Metals

CLEVELAND, O. (AP)—W. H. Eisenman, secretary of the American Society for Metals, says there is no immediate prospect of a shortage in national defense production.

Eisenman's optimistic forecast was made following a series of conferences with priorities officials in Washington. He said that civilian use of metals will continue to feel restrictive measures but there are adequate stocks to meet the demands of a speedup in armament production.

He suggested that government officials and manufacturing company executives soon will learn to operate under the pressure of defense demands without large stock piling. Because of fear that supplies were diminishing, there has been considerable "hoarding" of important metals in recent months, he said.

Applicants Will File For Brady Postmaster

WASHINGTON (AP)—The Civil Service Commission announced it would receive applications until close of business September 9 for the postmastership at Brady, Texas.

NEGROES ESCAPE INJURY WHEN CAR OVERTURNS

WINK (Special)—Jesse Minifiee, negro employe of the Humble Oil Company, in Wink, and a negro woman escaped injury when the car Minifiee was driving turned over on the highway near Hobbs.

Semi-Official Association Censures Strikes In Defense And Declares One Individual Should Head Production

WASHINGTON (AP)—The Army Ordnance Association, a semi-official body, Wednesday condemned strikes for a "disgraceful blot" on the record of defense progress and listed as a companion debit the lack of a single administrative head for armaments production.

On the subject of defense strikes, the association asserted flatly: "They should be outlawed once and for all in order that the vast majority of willing hands may do their share in defense production." The ordnance organization also found reason to deplore the delay in fixing "a ceiling on all prices"—a delay which it said "has added millions to the cost of National Defense and points the way to monetary inflation which may defeat the very purpose of the defense effort."

Group Also Praises. The opinions of the association were set forth in an editorial analysis of the accomplishments and defects of the defense effort which appears in the current issue of the organization's journal, Army Ordnance.

If the association found much to criticize in the defense effort, it also found much to praise, asserting that the "end of M-year (mobilization year) discloses military arma-

Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

Revolutionary New Oil tested against 5 other big brands. 6 new cars Destroyed to prove Economy and Protection.

The oil that reeled off an amazing 13,398 miles on one regular fill, in blazing Death Valley, was proved to be an oil of the Nth degree—an oil of new high character... Hence its name:

CONOCO Nth MOTOR OIL

This dramatic test, supervised impartially and Officially Certified, was simple, yet harsh. 6 identical new cars were taken to Death Valley—where the heat hits record highs. 5 of these cars were each assigned a different widely-known, highly advertised motor oil. The sixth car used new Conoco Nth motor oil.

Each car was broken-in on a brand assigned by lot. Then, one 5-quart fill of this same oil went into the crankcase—kept under lock. The cars were driven 57 miles an hour until oil failure cracked up each engine—utterly wrecked it! All of this under impartial official scrutiny, as was every step in the test, right on through the dramatic finish.

Here is what happened

New Conoco Nth oil went 13,398.8 miles. Not another oil came within 5,683 miles of this. One outstanding oil failed 8,268.6 miles sooner than new Conoco Nth motor oil. So it outdistanced the five competing oils by 74% to 161%.

Why this Astounding result was possible

New Conoco Nth motor oil contains a Conoco-originated synthetic (U. S. Patent 2,218,132) called Thialkene inhibitor. An inhibitor in motor oil acts

pretty much as an inhibition acts on you. Inhibitions hold you back; police many actions. And so Conoco's Thialkene inhibitor polices Conoco Nth oil... arrests pollution that otherwise comes from normal operation. And that's your aid against a dirty engine with inferior lubrication.

Are you an OIL-PLATING "fan"?

If you are, more power to you! Don't for a minute feel let down, for Conoco Nth also contains the famous synthetic that OIL-PLATES engines. OIL-PLATING comes from the magnet-like attraction that keeps it bonded to inner engine parts, so that it can't all quickly drain down to the crankcase—not while you're using Conoco Nth oil. This same famed OIL-PLATING is still yours to guard against wear.

Because of OIL-PLATING and Thialkene inhibitor, one 5-quart fill of new Conoco Nth oil went an astounding 13,398.8 miles. Of course, you'll never Death-Test your Conoco Nth oil in sinister Death Valley, nor repeat any other proving-ground tortures. You'll still drain and refill at the intervals recommended by qualified authorities. But how you'll expect to stretch the distance before you ever add a quart, judging by this big fact:

5 heavily advertised oils in the Certified Death Valley Test were out-mileaged 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Co.—Pioneers in Bettering America's oil with Synthetics

Afternoon Party Is Compliment To Miss Maxine Sill

Home Of Mrs. Herd Scene Of Another In Courtesy Series

Favors of pink and blue handkerchiefs tied as wrist corsages with ribbons featuring a design of wedding bells were presented at the bridge party with which Mrs. J. Harvey Herd and Mrs. C. L. Chase complimented Miss Maxine Sill at Mrs. Herd's home, 313 South N Street, Tuesday afternoon.

Miss Sill, who is to be married here at high noon Thursday to Walter Kenneth Graham, has been feted at a round of gaieties since announcement of her engagement.

Two shades of pink were employed in flowers for the party rooms. Bridge was played at three tables. High score went to Mrs. David B. Lawrence of New Orleans, sister of the honoree, and second high to Mrs. Geo. Byrne.

Miss Sill was presented with a white bride's book.

The bridal motif was emphasized in the individual heart-with-cupid molds of ice cream on the pink-and-white party plates served at tea time.

Present were: The honoree, Mrs. Lawrence, who will be matron of honor at the wedding, Miss Elizabeth Huff of Wichita Falls, Meses, C. M. Linehan, H. L. Beckmann, W. B. Robinson, Frank Miller, J. R. Brooks, Sol Bunnell, Geo. Byrne, Oliver Haag, and Miss Anabel Youngblood.

Mrs. P. O. Sill, mother of the honoree, was a tea guest.

Saving Grace

KIND to the wardrobe budget of a college girl is this charming box coat of supple, natural gray kidskin. Notice the trim raglan sleeves and smart pockets. The hat is of matching gray kidskin.

Morning Coffee Introduces New Resident Here

Mrs. Anderson Is Hostess For Affair For Mrs. Howard

To introduce Mrs. Russell Howard who moved to Midland recently from Fort Worth, Mrs. H. W. Anderson entertained with a coffee Monday morning from 9:30 o'clock to 11:30, at her home, 500 North Marientfeld.

Zinnias and marigolds were house flowers. The lace-spread coffee table was lighted by pale pink tapers burning in silver holders and centered by an arrangement of giant zinnias in which pink and cerise hues predominated. Table appointments were in crystal.

Frosted mocha coffee was served from a crystal punch bowl, presided over by Mrs. Allen Tolbert. Assisting in the houseparty were Mrs. Ralph Geisler, Mrs. Raymond Monkress, and Mrs. W. E. Fox. About 40 guests called during the morning.

FEMININE FANCIES

By Kathleen Eiland

Now comes the latest addition to informal eating in Midland—the corn dog. The corn dog, we've been informed, is a first-cousin to the hot dog, but the Weiner is served in a corn stick instead of in the usual roll or bun.

Having the Texan's love for cornbread, we plan to have a corn dog the very next time we feel in need of a hearty bite-between-meals.

Did you ever consider what fun it is to try out new things to eat? We were quite thrilled one summer over recipes we collected on a vacation trip in the west—from dishes eaten in Los Angeles to our favorites in a lumber camp.

Add things which we badly misjudge: The time it takes to cultivate a flower bed. One evening recently we decided that before starting our real task for the evening, we would just dash out and off-handedly, as it were, cultivate a couple of small flower beds. Ten minutes, we thought, would be ample for the work. Blithely we started out breaking up the crusty top soil. The minutes went by and the quarter hours and a half hour or two—dark came and we still toiled. Yes, we got the job finished at last but we were a wiser and a by far wearier woman when we finished. Next time that special task comes up, we'll just allot an entire evening to the work and be through with it. Live and learn, you know.

Huge gilded metal pins are now available for adding the finishing touch to turbans and wrap-around headresses. Or if one prefers, the pins (which come in sets of two) may be obtained in colored plastic.

Coming Events
THURSDAY. Needlecraft Club will meet with Mrs. J. A. Tuttle, 1506 W College, Thursday afternoon at 3 o'clock.

Red Cross sewing room in the old Heidelberg Inn, 700 Front Street, will be open Thursday morning from 9 o'clock until 12. All Midland women are urged to assist in the work.

Midland County museum in the courthouse will be open Thursday afternoon from 2:30 o'clock until 5. The public is invited.

FRIDAY. Belmont Bible Class will meet with Mrs. H. M. Reigle at the home of Mrs. W. G. Ataway, 404 W Ohio, Friday afternoon at 4 o'clock.

Women's Golf Association will have its regular luncheon at the clubhouse Friday afternoon at one o'clock.

Tejas Girl Scouts will meet at the Scout headquarters, Friday morning at 9 o'clock, with Mrs. James Lupton leader.

Red Cross sewing room in the old Heidelberg Inn, 700 Front St., will be open Friday morning from 9 o'clock until 12. All Midland women are urged to assist in the work.

Children's Service League will meet with Mrs. Frank Lewis, 1405 W Illinois, Friday afternoon at 2 o'clock.

SATURDAY. Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County museum in the courthouse will be open Saturday from 10:30 o'clock in the morning until one o'clock in the afternoon. The public is invited.

Midland Woman Student Of Cimini
Mrs. Maud Leonard has returned from California where she spent most of the summer at Long Beach.

She studied voice under Maestro Pietro Cimini, outstanding California teacher. He was for five years director of the Imperial Theatre at Warsaw, for five years director of the Chicago Grand Opera Company and for eight years director of the Los Angeles, San Francisco Grand Opera Associations.

Mrs. Leonard will open her voice and piano studio September 8.

Bridgette Club Meets At Home Of Mrs. S. O. Cooper

Mrs. J. A. Deffeyes was presented with a farewell gift at the meeting of the Bridgette Club with Mrs. S. O. Cooper, 808 W Louisiana, Tuesday afternoon. Mrs. Deffeyes is moving away from Midland probably on Friday of this week.

Club members gathered at 2 o'clock for a dessert-bridge and games were played at two tables after the dessert service.

Mrs. W. B. Stowe held high score and Mrs. Lamar Lunt second high. Present were: Meses, J. J. Kelly, E. D. Richardson, A. H. Riley, Deffeyes, Bill Van Huss, Chas. Duffy, and the hostess.

Next meeting of the club will be with Mrs. Fred Cassidy.

Crane WMS Elects Officers For Coming Year

CRANE. (Special) — Officers for the ensuing fiscal year were elected and the time of meeting changed to Wednesday afternoons at 2:30 p.m. at a meeting of the Woman's Missionary Society Monday afternoon at the home of Mrs. J. R. Boyd.

Mrs. Doyle Breedlove was re-elected president; other officers were Mrs. V. T. Stacey, recording secretary; Mrs. Phillip Brown, corresponding secretary; Mrs. Tanney Jones and Mrs. J. Pettit, circle chairmen; and other officers named included; Mesdames George Inlow, T. N. White, J. F. Branam, Glenn Jones, J. A. Ham, Herman Hanks, and W. R. Crownover.

Mrs. George Inlow taught the Bible lesson from Nehemiah and a new Bible study was adopted for the new year.

Couple Will Make Home In Abilene

Mr. and Mrs. Geo. E. Caple, whose wedding took place here, August 17, and who have been visiting in the home of her mother, Mrs. E. Jones, for the past few days, will leave Wednesday night for Abilene to make their home.

Mr. and Mrs. Barney Grafa were guests of the couple for coffee, Tuesday evening, at the Jones home, 506 N Marientfeld.

Mrs. Caple is the former Miss Zona Lee Jones.

A beverage course was served to the following: Mesdames C. W. Prittle, V. T. Stacey, George Inlow, Phillip Brown, Tanney Jones, John Pettit, Harold Thammich, T. N. White, Doyle Breedlove, W. R. Crownover, and hostess, J. R. Boyd.

Cotton Flat WMS Has Study Program

Miss Clara Campbell opened the program by giving "The Watchword" at the meeting of the Cotton Flat WMS at the Baptist Church, Monday afternoon.

Mrs. A. B. Montgomery led the Bible study.

An "Urgent Gospel Summons States to Enlarge, to Lengthen and to Strengthen" was presented by Mrs. R. D. Byerley.

Miss Clara Campbell dismissed the group with prayer.

Present were Miss Clara Campbell, Mrs. Byerley, Mrs. Montgomery, Miss Elsie Campbell, and Mrs. Gerald Hilde.

WINK METHODIST CHURCH OUT OF DEBT

WINK. (Special) — George W. Shearer, district superintendent, Clovis District, held the third quarterly conference of the Wink Methodist Church here Monday night. Rev. Ernest Roper is the local pastor, and since he has had charge of the Wink church, the entire church debt has been wiped out.

Midland Couple Is Married In Globe, Arizona

Miss Bertha Flournoy and Murl Reynolds, both of Midland, were married in Globe, Arizona, August 18, relatives here have been informed.

The couple will live in Miami, Arizona.

Mrs. Reynolds is the daughter of Mr. and Mrs. W. G. Flournoy and was reared in Midland. She is a graduate of Midland High School and before her marriage had been employed as cashier at Midland Drug store.

Mr. Reynolds attended school here and formerly was employed at King's sandwich shop.

Candle-Light Service Unites Couple Here

Miss Hattie Kathryn Widmer of Abilene became the bride of Homer D. Childress of Odessa in a candle-light ceremony here at the home of the bride's sister and brother-in-law, Mr. and Mrs. Chas. Galbraith, 310 N Carrizo, Tuesday evening at 8:30 o'clock.

Summer flowers, with yellow and white predominant, decorated the living room. Yellow and white blossoms, ferns, and white tapers burning in crystal candelabra formed the improvised altar where the couple stood to repeat the wedding vows. The Rev. W. C. Hinds, pastor of the First Methodist Church, officiated at the single ring service.

The bride wore an early autumn model of black jersey, designed with long torso and full, pleated skirt. Her off-the-face felt hat and other accessories were in black, and her flowers were a corsage of gardenias.

For something old and something borrowed, she wore an antique brooch of her mother's.

Cuts Bride's Cake
An informal reception was held after the ceremony. Mrs. Childress cut the tiered bride's cake which was decorated with love birds and wee figures of a bridal couple.

The cake centered the refreshment table which was lighted by white tapers.

Yellow and white chrysanthemums were employed in the dining room.

Only members of the bride's family were present for the wedding.

Mr. and Mrs. Childress left immediately after the reception for Odessa where they will make their home.

The bride, daughter of Mr. and Mrs. George Phillips Widmer, was reared in Abilene. She is a graduate of Abilene High School and attended McMurry College. Prior to her marriage, she was employed in the county clerk's office in Abilene.

Mr. Childress, son of Mr. and Mrs. F. D. Howard of Abilene, was also educated in Abilene where he graduated from high school.

He is owner and manager of the Odessa Paint and Glass Store.

Young People's Group Will Meet

The Inter-Denominational Young People, organization from several churches of the town, will meet at the First Presbyterian Church next Sunday evening at 6 o'clock.

From 6 to 8:30 o'clock, a get-acquainted period will be held.

Supt. Geo. A. Heath will be the speaker at the program period at 6:30 o'clock.

Refreshments will be served afterward.

Young people of the town are invited to attend.

Current Pictures Marking Highlights In Fast Changing World Of Events

Squeals on Wheels

Veronica McTighe, age 5, discovers the sidewalks of New York are really something to sing about. She came a cropper in the crackpot competition of an East Side anything-on-wheels derby in which 50 youngsters vied for glory, polo shirts and lollipops.

Dnieper Dam Dynamited?

To send a wall of water down the Dnieper river valley and delay advancing Germans, Russians are reported to have blown up this great power dam, pride of Soviet industry, on Stalin's orders.

Hunting Trouble

German mine sweepers clear waters of Biscay Bay, according to Berlin caption. Their perilous task is doubly dangerous now that British planes are attacking day and night along the French coast.

Need a Fourth?

Amalie Pollakova, bridge champ of Czechoslovakia before Nazis began stacking the decks there, arrives in New York on S. S. Excalibur looking for some card competition.

What, No Traffic Light?

Sign of the future is this airplane intersection at Randolph Field, Tex., where motorists are warned to watch out for low flying craft taking off from field adjacent to highway.

Smokes for South American Warrior

As new fighting was reported between Peru and Ecuador this picture, first from that western hemisphere war front, was received in U. S. It shows Senora Manuel Prado, wife of Peru's president, passing out cigarets to soldiers stationed at Tumbes.

Halifax Aide

Sir Ronald Ian Campbell, British minister at Washington, would take over duties of Lord Halifax in Washington if the British ambassador returns to England.

What the Army Does for You

After seven months in the Army, Winthrop Rockefeller turns up with a moustache, corporal's stripes and a handsome tan, looking quite different than he did when he first shouldered a duffel bag last January.

Mexicans Brand V's on Nazi House

Bold Victory V's on front of German consulate in Chihuahua City, Mexico, show temper of citizens toward Hitler as Mexican government ordered closing of all Nazi consulates by Sept. 1. Note German eagle, with small swastika above door.

Double-Decker Shelter for Air Raids

Britain is busy this summer building shelters for air raids expected in the fall, and is making best use of her space with double-decker shelters. Tube-shaped tunnels deep in the ground are divided into two stories to accommodate thousands of people. Bunks will line the walls.

Singin' Sam, Radio's No. 1 Farmer, Serious About Corn Crib Building

All the loving care an architect would spend on the design of an old Colonial home is spent by Singin' Sam on the construction of a corn crib on his 180-acre Richmond, Indiana, farm. Although it's the first corn crib Sam ever built, he's a right handy man with tools, (as shown by photo of the saws in his workshop) and if necessary could earn a living with his hands. Far from the conception of a radio artist living in the glare of Broadway's Bright Lights, Sam, the star of "Refreshment Time," is just as plain as an old shoe.

Soup in the Chicago Subway

There's quite a crowd on this Chicago subway platform, but no trains are running as traction companies haven't installed tracks yet in the new underground. Kiwanis Club decided to use idle tube for noonday luncheon, and found it several degrees cooler than up in the Loop.

Assassin Wounds Jap Vice Premier

Blow to ties between the democracies and Japan was the attempted assassination of Baron Kichiro Hiranuma, 75, above, Nipponese vice premier and friend of Britain and the U. S. The statesman was gravely wounded.

Shades of Sherwood Forest

Like a band of Robin Hood's daring men, a group of British Home Guards swing jauntily through the woods somewhere in England. They're making one of their daily "keep-fit" marches.

Yearning Oldster

Still dreaming of the old Vienna, Dr. Natziel Sigmund, 81, finally arrives in America aboard the Spanish steamer City of Seville. He fled Austria when Nazis moved in 3 1/2 years ago.

War Games: Hide-and-Seek and Peek-a-Boom

Boys in the brush play at blitz in Dixie as 100,000 soldiers of the new American Army go through their first big maneuvers. Crew handling 105 mm. howitzer, left, finds big leaves camouflage the big gun effectively, while a weary radio operator, right, relaxes in the shade beside his portable set after 48 hours on duty.

India, Like Persia, Imperiled by Nazi Menace

India enters the Near East war picture along with Iran as threatened Nazi drives across Turkey or the Ukraine emphasize proximity of German legions to Britain's biggest possession. Nazis are reported massing on Bulgarian-Turkish border, while British-Russian armies are said ready to enter Iran from three directions. Map shows possible German and British-Russian thrusts.

OIL FIELD DEVELOPMENTS

(From The Oil & Gas Journal)

Completions reported during the past week exceeded the previous high for the year by 19 wells. Although there were 4 fewer oil wells than last week, there were 6 more gas wells and 42 more dry holes, making a net increase of 44 wells for the week. Compared with the previous high, reported during the first week of August, there were 8 more oil wells, 8 fewer gas wells and 19 more dry holes. Compared with the corresponding week of last year, completions are up 167, or 30 per cent.

With the exception of southeastern New Mexico and the Forest City basin outside of the Falls City field, all parts of the country are taking part in the present drilling campaign. Michigan, which has lagged all year, has been given a new lease on life by the Reed City and Winterfield plays and production is steadily rising. With the exception of Illinois, all of the other eastern areas are running ahead of last year's record and Illinois is booming as a result of numerous discoveries in all parts of the basin.

This week, production has reached an all-time high, surpassing last week's peak by 5,015 bbl., despite the normal end-of-month decline in California's output. Kansas again recorded a new peak. With average daily production of 378,955 bbl., Illinois is far ahead of expectations generally announced at the first of the year. This increase is much more welcome than the state's peak last year because of the threatened shortage of oil on the coast and the proximity of this production to the eastern market. Practically all of the pipe-line systems serving the Atlantic seaboard are increasing throughput by improving old systems.

KANSAS: Outposts to the Pecos Creek field in Reno County and Zenith suggest that the two pools may eventually merge. Burbank production northwest of Rock may open either a new pool or an extension. Shallow Arbuckle production was picked up in Elk County. Two pool operators in Barton County and an extension to the new Forest Hills pool in Russell County complete the discoveries during a successful week.

INDIANA: A new gas pool has been found in the Francesville area, Pulaski County, with a 1,500,000-cu-ft. discovery. The new pool is about 55 miles southeast of the industrial area on the south shore of Lake Michigan and the pay was found at 610 ft.

OKLAHOMA: Bartlesville sand pay has been found at Guthrie. Another Cromwell sand pool has been opened up in Okfuskee County.

NORTH TEXAS: The north edge of the Fort Worth basin is due for more development as showings are found in the conglomerate and Strawn in two wells in southern Montague County. Bend conglomerate also showed oil in Benson and Benson.

WYOMING: The best completion for some months is a 2,400-bbl. out-post to Lost Soldier.

TEXAS GULF COAST: New sands have been found on the flanks of the Hull and Danbury domes and another new pay has been opened up in the lower Frio at West Ganado.

NORTH LOUISIANA: A new Wilcox pool, Trout Creek, has been discovered and a second is indicated northwest of Little Creek. The latter may be an extension. A test in Caldwell Parish is showing nearly 3,000 ft. below the top of the Wilcox.

Completions In All Fields

Week ended Aug. 24, 1940	382	45	124	551		

It may be in a lower series. LOUISIANA GULF COAST: The Lake Chicot discovery test has now picked up a total of five oil sands between 7,700 and 8,800 ft. An Eola Wilcox well has been plugged back and recompleted in the Sparta. A new sand has been found on the flank of Bayou Blue.

ILLINOIS: A wildcat northeast of Carlyle is showing Benoit oil. South Woodlawn, with 42 active operations, appears to be limited on the southwest edge. Johnsville reports a successful test of the Aux Vases. A McCloy discovery 11 miles southeast of Olney made 2,000 bbl.

CALIFORNIA: The Shafter area shows a thin oil sand, in either the Rio Bravo or Vedder zone. The west end of Rio Bravo appears to be defined. The deep Rincon test is flowing by heads and although production is small, it is hoped that it will increase when the well is finally cleaned out.

WEST TEXAS: A new shallow pool is in prospect for Crockett County, southeast of Noelke. Abell and Olson-McCandless have been extended. Two new tests have been announced in the new Ordovician pool in Reagan County. The Lubbock County discovery well in the Clear Fork is being deepened and shows more porosity and saturation below the first pay.

OHIO: Galey's Noble County Oris-

any test is being abandoned. It showed a small amount of gas and oil.

MICHIGAN: Production continues to rise as a result of Reed City and Winterfield development. Gulf's deep Bateson test appears dry in the St. Peter at 10,415 ft. and will probably be plugged back to the Salina gas pay.

WEST CENTRAL TEXAS: The Flippen zone marks the third pay for Wimberly, Jones County. The other pays are in the Cisco.

SOUTHWEST TEXAS: A new shallow sand on the north flank of Aqua Dulce is showing oil production. Stratton distillate production is extended 1 mile south and East Premonit is extended west.

MISSISSIPPI: The basal Entaw sand discovery at Tinsley shows improvement after a workover, making 65 bbl. in 3 hours with no water.

EAST TEXAS: Dry holes in the Pleasant Grove and Hawkins area as well as other wildcats whose chances appear slim gave the area a setback last week.

TEXAS PANHANDLE: Better-than-average wells are being completed in the Weatherly pool in Hutchinson County.

ARKANSAS: Two Lafayette County wildcats are approaching the Smackover lime, one of these is about 5 miles west of McKamie.

Congratulations to:

Mr. and Mrs. J. E. Cassidy on the birth of a daughter Wednesday morning at Western Clinic Hospital.

Personals

Miss Lydie G. Watson will return Wednesday night from a Dallas hospital where she recently underwent an eye operation.

Mrs. Erma Mancill of the Book Stall leaves Wednesday for Dallas on a marketing trip. She will be back early next week.

Frank McCormick, who has been visiting on the John Vest ranch in New Mexico, and at Hot Springs, N. M., for about two months is expected home this week.

Ann Ulmer went home from Ryan Hospital Tuesday.

R. C. Maddox, who underwent a tonsillectomy, went home from Ryan Hospital.

Mr. and Mrs. H. W. Anderson and children will leave Thursday for Fort Worth on a business trip. They will return Tuesday.

Mr. and Mrs. J. P. Inm: a Jr. and Mrs. J. P. Inman Sr have gone to the gift show in Dallas. They expect to return in time for the rodeo.

Mrs. Joe Roberts was admitted to Ryan Hospital Tuesday night for medical treatment.

Charles Teal, six-year-old son of Mr. and Mrs. Charles Teal, of Seminole, underwent an appendectomy Tuesday at Ryan Hospital.

Mrs. H. H. Hines and daughter went home Tuesday from Ryan Hospital.

Sgt. H. J. McCulloch, of the U. S. Army Air Corps unit at Midland Municipal Airport, went home Tuesday.

The condition of Melba Clendenen, injured in an automobile accident, is continuing to improve.

President States Sabotage Program Hinders War Aid

WASHINGTON, (AP.) — President Roosevelt bluntly charged Tuesday an organized campaign was in progress to sabotage the program of assistance to the foes of Hitlerism by spreading rumors, distortions and falsehoods.

The Chief Executive was aroused to this vigorous accusation by a press conference request for comment on reports of the misuse of lease-lend funds appropriated to finance shipments of war materials to England and China.

Free French 'Flying Wing' Ferried to Central Africa

A "flying wing" plane, with famed ferry pilot J. A. Mollison at the controls, soars over equatorial Africa, Free French territory held by De Gaulle forces. The plane has two booms to hold the tail assembly instead of a fuselage, and passengers and freight are carried in center section of the wing.

Senate Group To Probe Shortages

WASHINGTON (AP)—A plan of action against gasoline profiteering was drafted by the government Wednesday, and Thursday a Senate investigating committee proposes to begin finding out whether the reported eastern oil shortage is supported by facts.

Leon Henderson, price administrator, indicated he would proclaim forthwith a ceiling for motor fuel prices to protect the 10,000,000 Atlantic seaboard motorists against unwarranted price increases.

Secretary Ickes, the defense petroleum coordinator, was called as the first witness before a special sub-committee of the Senate commerce committee, set up Tuesday after Senator Maloney (D-Conn) had said he wanted to find out "if there is an actual shortage or if we are being pushed around for psychological reasons."

Ickes, however, was vacationing in the west, and it was expected Ralph K. Davies, acting coordinator, would appear in his stead.

National Wool Meeting Will Be Jan. 21 To 23

SALT LAKE CITY (AP)—The executive committee of the National Wool Growers Association decided Tuesday night to conduct the organization's 1942 convention at Salt Lake City Jan. 21 to 23.

New York Rain Storm Ties Up Transportation

NEW YORK (AP)—Streets, sidewalks, two subways and part of a railroad line caved in like paper bags Tuesday night as the city suffered its worst transportation tie-up in history under a violent deluge that held New York in its fury for several hours.

Within an hour and a half, sheets of rain, driven by a 50-mile-an-hour wind, inundated the metropolitan area with 2.13 inches of water and plunged the mercury from 87 to 70 degrees.

University Scientists Get Vitamin From Spinach

AUSTIN, (AP)—A new and important vitamin, which may prove to be one of the essentials of normal development of the tissues in the human body, has been developed from fresh spinach by University of Texas scientists.

The vitamin, known as "folic acid," was discovered recently by Dr. Roger J. Williams, Dr. Esmond E. Snell and Herschel K. Mitchell and announced by the American Chemical Society.

When purified, the scientists believe the acid will prove valuable in medicine. It is known to play a fundamental part in the life processes of plants, animals, and human beings.

Everyone in the service of mankind will go either forward or backward, and our high standard of service has kept us from slipping.

Oil News . . .

(Continued From Page One)

Magnolia Petroleum Company's deep project in Northern Winkler County, the No. 20 State-Walton, is drilling at 8,203 feet in black shale and lime.

Abell Producer. Stanolind No. 1 G. F. Simmons, proving one-half mile east extension of the Abell Ordovician field of Northern Pecos County, is shut in for storage after flowing an estimated 30 to 50 barrels of oil hourly into pits. Flow was through 2-inch tubing set at 5,446, nine feet off bottom. The well is producing from the Sharp sand, lower formation of the Simpson, middle Ordovician.

Gulf Oil Corporation and L. H. Wentz-Oil Division No. 1 L. M. Millar et al, Northeastern Pecos Ordovician test, is drilling at 3,975 feet in lime. Seeking Ellenburger pay in the Sand Hills pool of Western Crane County, Gulf et al No. 1 J. B. Tubb is drilling lime at 5,290 feet. Gulf No. 5-A Tubb has reached 5,674 feet, also in lime. American Liberty No. 13 Tubb is drilling at 4,850 feet in lime. Conoco No. 1 E. B. Jones et al, one and one-half miles south of Ellenburger production in the south extension area of the Sand Hills pool, is drilling in lime below 3,510 feet.

Scurry Wildcat Skated. Pearson-Sibert Oil Company of Snyder will start with cable tools next Tuesday in a 2,500-foot wildcat test one miles southwest of Knapp in Southwestern Scurry County. It is the No. 1 W. C. Addison et al and is 330 feet out of the southwest corner of the southeast quarter of section 122, block 25, H. & T. C. survey. In Borden County wildcat territory, Coffield & Guthrie No. 1 Conrad is drilling at 3,735 feet in lime, while M. L. Richards No. 1 Drum is drilling anhydrite at 2,050 feet.

The recent commissioning of lonely mid-Pacific Johnston Island as a U. S. Naval Air Station climaxed 80 years of intermittent interest in the island on the part of Uncle Sam.

Markets

LIVESTOCK

PORT WORTH (AP) (U. S. Dept. Agr.)—Cattle 3,800; calves, 1,800; most classes steady; good and choice steers and yearlings 11.00-11.50; beef cows 6.25-8.25; canners and cutters 4.00-6.25.

Hogs 1,300; few opening sales steady steady to 5 cents higher; top 11.60; packing sows steady to 25 higher, 10.00-10.50; stocker and butcher pigs 10.00 down.

Sheep 1,500; all classes fully steady; medium and good spring lambs 9.00-10.00; aged wethers 5.50-6.00; spring feeder lambs 8.50 down.

Wool

BOSTON. (AP. U. S. Dept. Agr.)—Business was rather slow on the Boston wool market Wednesday. An occasional buyer was in the market, but most purchases were of limited volume. Quotations were steady to firm despite slow sales. A scattered demand was mostly for graded fine territory wools and combed quarter blood territory and fleece wools. Prices on these grades were mostly unchanged, compared with last week's sales.

Since Caesar's days, there have been more than a thousand systems of shorthand.

take a trip to Boulder Dam. Looking at that project, you realize what planning the engineers had to do. A little planning in advance on any bridge hand will bring you a better score.

Today's hand is really a problem hand. Your contract is three no trump. With the opening lead, you are supposed to make three against any possible defense. Study the hand carefully before you look at the solution, and see if you can make the contract.

North is allowed to hold the jack of spades. He cannot help the defense by a shift. It is best to lead a second spade, letting the king fall to the ace, with the queen an entry to dummy.

West must now lead a low club and let South win with the ten. If he continues clubs, declarer wins two clubs, besides four diamonds, two spades, and a heart, as dummy has two quick tricks for declarer's ninth trick.

Army Camp Bustles With Construction

CAMP BARKELEY (AP)—Although most of its troops are in Louisiana for maneuvers, Camp Barkeley was bustling Wednesday as workmen rushed new construction.

Three new theaters costing \$170,000 were started. Work was under way on a clothing and equipment repair shop in the warehouse area. Road and parking areas are being paved and full crews are at work on the \$3,182,850 medical replacement center and on 14 buildings in the station hospital area.

Work will be started soon on three more warehouses and a two-floor Red Cross office-recreation-guest house structure costing \$20,000.

Japanese Warplanes Destroy Buildings

CHUNGKING, China. (AP)—The Chinese Central News reported Wednesday buildings of an American mission—possibly the Methodist Missionary Society—had been destroyed by Japanese planes in a raid Sunday on Changsha, capital of Hunan province.

Taylor County Will Not Have Chain Gang

ABILENE (AP)—Effective Sept. 1, Taylor County's chain gang will be no more.

County commissioners explained it is too expensive. A guard and truck must be sent with a gang that recently has averaged only 2 prisoners.

Flashes Of Life

By The Associated Press
UNFAIR WARFARE

ROCKINGHAM, N. C.—The first battalion of the 41st engineers didn't think so well of the second battalion Wednesday.

On small-scale maneuvers, the first battalion rode in trucks almost to the place where it was ordered to attack the hike-weary second battalion.

But the second battalion didn't wait for the attack. It marched in a wide flanking movement, captured its opponents' trucks, including the kitchen, and rode back to camp.

The first battalion hiked the nine miles back.

DEFENSE VICTIMS
RICHMOND, Va. — Richmond

barbers, who voted to increase their standard price for haircuts from 40 to 50 cents to meet increased living costs, were told by their attorney, Benjamin Loveston, that they were "suffering from National Defense more than any other trade."

"People are working so hard and trying to make so much money when they don't have time to get haircuts as often as they used to," he said.

Anders Will Direct Wink Music Students

WINK (Special)—William B. Anders, 27, has been named new head of the music department of Wink schools, succeeding Gene Hemmler, who resigned to accept a position in the School of Mines at El Paso.

Anders received his master degree in music from Louisiana State University, Baton Rouge, with a major in voice. He received his B. A. degree from Louisiana Polytechnic Institute, at Ruston.

23-second flight in the Southwest Model Tournament.

It disappeared in a rain cloud and landed two days later at Lake Creek, Texas, 100

Commission Warns Licenses To Expire

AUSTIN (Special)—Warning all types of licenses issued by the Texas Game, Fish and Oyster Commission expire Aug. 31 was issued Wednesday by the executive secretary of the commission.

Licenses for the 1941-42 fiscal year are being mailed license deputies in the state and sportsmen, commercial fishermen, fur dealers and all other persons required to purchase license under the law, will be able to obtain them during the last week in August.

Midland sportsmen may obtain licenses at Midland Hardware company, agent for artificial lure and other types of fishing licenses.

Oil Transportation Group Ends Meeting

HOUSTON (AP)—The federal oil coordinator's transportation committee for region three ended a meeting Tuesday without announcing the result of a canvass of facilities for transporting crude oil and petroleum products to the Eastern Seaboard.

The committee merely said it intended to survey the barge and tank car situation in this area "with a view toward their efficient utilization."

FARMER DISPLAYS FIRST COLLIN COTTON BALE

McKINNEY (AP)—The first bale of the 1941 cotton crop in Collin County was displayed Wednesday by W. S. Seastian, Josephine community farmer.

Questions On Page 2

- Bob Feller, Cleveland Indians' pitcher, was pronounced fit in his draft board physical exam, but is not likely to be drafted until after the season's end.
- Hank Greenberg, of Detroit Tigers, recently was made a corporal at Ft. Custer, Mich.
- Frank Kovacs, No. 3 U. S. tennis player, married Virginia Wolfenden, herself a tennis star.
- Joe Louis has been having trouble hitting par.
- Maxie Rosenbloom will play in a picture about the yoo-hoo soldiers.

UNCLE SAM NEEDS YOU FOR DEFENSE JOBS

Midland Bombardier School; wire worker, aircraft engine mechanic, instrument mechanic, aircraft electrician, aircraft wood worker, machinist, aircraft welder, leather and canvas worker. More additions to this list of civil service positions at this school will be added to this list as received.

Miscellaneous positions at various points in the United States and possessions.

Aircraft welders, aircraft woodworkers and pattern makers, aircraft sheet metal workers, blacksmiths, inspectors, supplies, optional branches, harness and saddle makers, instrument makers, machinist, milling machine, boring mill, planer, engine lathe operators, rivet heater, wood awlker, drop order, angle smith, tool and gauge designer, grinder.

A large number of other positions, including executive positions are listed on the Civil Service bulletin board at the Post Office. Further information about any of these positions as well as application blanks may be obtained from Frank Smith, secretary U. S. Civil Service Commission at the Midland Post Office.

Of the famous wars, the Trojan lasted nine years, the Peloponnesian 27, the First Punic War 17, the Hundred Years' War 114, and the War of the Roses 30.

Michigan Loses Eight Lettermen

ANN ARBOR, Mich. (UP) — Strong in the middle, weak at the tail and wings. That's not a bird, but the de-Harmonized University of Michigan Wolverines.

Having lost eight lettermen in graduation and two to the air corps, Coach Herbert O. (Fritz) Crisler can count on having on hand the first day of full practice Sept. 10.

In the backfield—a powerful-driving fullback, Capt. Bob Westfall, the only holdover of the 1941 season, who ranked second to Tom Harmon among the team's ground gainers and kept plunging for yardage when Harmon was grounded on muddy turfs.

Junior quarterback, George Ceitham, a Chicagoan who relieved Forest Evashevski and proved a heady field-marshal and a sure-footed tackler.

On the line—three 200-pound aggressive tackles, Al Wistert, Reuben Kello and Bob Flora. Wistert, brother of Michigan's 1933 All-American Francis, is fast, a good tackler, expected to surpass his brother's performances. Kello and Flora, are not so colorful as Wistert, but rank close in power and dependability.

Defense Cuts Down On National Crime

DENVER (UP)—The national defense program is causing a decrease in crime in the United States, but also is making the men behind bars work harder, according to James V. Bennett, director of the Federal Bureau of Prisons.

Bennett told a conference of federal wardens that there has been a considerable decrease in crimes prompted by economic difficulties and attributed it to the fact that many more men are getting jobs in defense industries.

"It's the idle man who gets into trouble," he said.

Inmates of federal prisons are working longer hours than before, he said, turning out such national defense products as shoes for the army, canvas for the navy and various types of steel equipment.

Melon Muncher

Grid Player Wears Big Shoulder Pads

MINNEAPOLIS, Minn. (UP) — The University of Minnesota football team claims one of the biggest pair of shoulders on the gridiron.

Urban Odson, the Gophers 247-pound veteran tackle, wears shoulder pads labeled "extra-extra large."

The pads are the largest ever made by the firm which supplies Minnesota with athletic equipment.

WAR EFFORT CONQUERS ENGLISH WILDERNESS BOG

FELTWELL, Norfolk, Eng. (UP)—For 40 years, Feltwell Fen, 6,000-acre wilderness of peat and bog in southwest Norfolk, has broken the heart of pioneering farmers who hoped to conquer its weeds and its marshes.

They all failed, being conquered by the united effort of the village women working with men laborers under the guidance of government experts directing Britain's drive for food production.

Tractors, machinery, fertilizers were sent into Feltwell Fen. Men were recruited for the job of beating the Fen.

Today, there are crops growing on Feltwell Fen. This year's harvest will include 400 acres of oats, 120 acres of sugar, and 120 acres of potatoes. And there will be much more next year.

SERIAL STORY WANT-AD ROMANCE

BY TOM HORNER

COPYRIGHT, 1941. NEA SERVICE, INC.

CHAPTER IV

WANTED—1000 CUSTOMERS for amazing new all-purpose cleaner and polisher—WONDROSOAP. The cleaner of 1000 uses. The first 1000 purchasers of this marvelous cleaner will receive a special FREE. See previous WONDROSOAP ads for list of dealers. On sale for first time TODAY!

TED ANDREWS clipped the advertisement from the paper, pasted it into a black notebook.

"There you are, little brainstem. Last of a long line of brain children. Now all you have to do is deliver."

Across the desk, Kay looked up from her list of dealers.

"You're not worried, are you, Ted?" she asked. "We've put out 10,000 cans of Wondrosoap. Surely we'll sell at least a thousand. Maybe we'll sell all 10,000."

"There are a thousand to be given away free," Ted reminded her. "Every person who gets a free one will sign for it. Then we'll pay them for testimonials, after we get started."

"That's a swell scheme," she said, nodding her head.

"Each dealer gives away one can to each of his first hundred purchasers," Ted went on. "We've 15 dealers signed up, grocery stores, drug stores, hardware stores, and one delicatessen. That's 1500 free cans if each one sells his full quota."

WONDROSOAP was a hit. Even Flynn, MacLeod and Goldberg had to admit it as they checked sales reports until late that night. Every dealer had sold his 100 free-gift customers and more, and one, the delicatessen, had sent a rush order for more stock.

Ted figured slowly on a scratch pad. "We must have sold at least 2500 cans of Wondrosoap. That's \$750 clear profit for us, less the cost of the 1500 cans we gave away. And wait until those deal-

ers start reordering! You'll have the old factory boiling full speed ahead trying to keep up with the demand."

"Grand girl!" Flynn's tearful eyes mirrored his pride in Kay's achievement. "Now you can start your state sales campaign, and ultimately go national. The country is needing a cleaner like this. I'm going to take some home and try it on my car."

Kay stood in the moonlight after the lawyers had gone. The factory chimneys cast long shadows on the ground before her. The warehouse loomed black and bulky in the background.

"You've won, Dad," she whispered. "You were right, and I've proved it. I'm so proud, proud to be Tim Donovan's daughter, proud to be the owner of Tim Donovan's factory."

"I'm proud, too," a voice said beside her. "Proud to be partners with a wonderful girl."

He took her in his arms and she did not push away. Ted's being there, in the moonlight with her, made everything perfect. She lifted her face.

He kissed her, gently.

SHE broke away from him before he could kiss her again. "No more now," she said. "This is a business proposition. You're my partner, not my sweetheart."

"Don't be sorry, Ted. I wanted you to kiss me then, I would have been disappointed if you hadn't. But right now we've got to sell Wondrosoap. When that warehouse is empty we'll talk moonlight, if you still want to, is it a deal?"

"It's a deal."

TED phoned early the next morning that he was sending Mary Marshall, a competent secretary, down for an interview. Mary should make an ideal companion for Kay, and she could help with the bookkeeping and office work. If Kay insisted on living out at the factory, Mary would have to say with her.

Mary was all that Ted had promised and more. Kay liked her immediately. No two girls could have been less alike, and that was the basis of their friendship. Kay was quick-tempered, either gay or in the depths. Mary was of a more even disposition, quiet, retiring. And Ted had told the truth when he called her a competent secretary. She took over management of Kay's affairs at once.

They almost clashed once, but strangely, it was Kay who gave in. That was over her father's old, battered washstand. Mary wanted to get rid of it and Kay hated

Sign of Times in Indo-China

Three languages tell who owns an oil distillery near Haiphong in Indo-China, in case invading Japanese are interested.

Londoners' War-Time Sport Has New Rules

LONDON (UP)—Local rules introduced by a London golf club:

- The position of known delayed action bombs will be marked by red flags placed at a reasonably but not guaranteed safe distance.
- A ball removed by enemy action may be replaced as near as possible to where it lay, or if lost or destroyed, another ball may be dropped not nearer the hole, without penalty. (It does not indicate which hole is meant.)
- Players during gunfire, or while bombs are falling, may take cover without penalty.

SAYS ELLIOTT ROOSEVELT HAS LEFT BRITISH ISLES

LONDON (AP)—The military air office of the United States embassy said Wednesday Capt. Elliott Roosevelt "checked out with us" and added it was to be presumed he had left Britain.

Bicycling Macondray's Don't Worry About Gas

SALT LAKE CITY, Utah (UP)—A young San Francisco couple, Mr. and Mrs. Stewart Macondray, aren't worried about any restrictions of gasoline.

The Macondrays visited Salt Lake City on the last leg of a 3,000-mile vacation trip. They made the tour on bicycles—three—speed, gear-shifting vehicles which permitted them to travel about 50 miles a day, even in mountainous country.

Leaving San Francisco in May, they pedaled north through Oregon and Washington and then ferried to Vancouver Island for a cycling tour there. Later, they headed east to Banff, and then returned to the United States on the famous "Highway to the Sun" in Montana.

While the ladies of the Colonial days wore cotton hose, their shoes were made of silk.

Big Spring Troop 3 won the annual Buffalo Trail Council swimming meet held at Pagoda Pool in Midland, and Troop 54, Midland, ranked third behind Sea Scout Troop 1 of Sweetwater, second. Contest results: Twenty-yard side stroke: C. A. Smith, Big Spring, first; Ladd Smith, Big Spring, second; and Bobby Bell, Coahoma, third.

Independents To Play Texas In Crucial Tilt

The Texas Company-Independent tilt and the Southern Ice-John P. Howe tracas were slated to close out the city softball league season Wednesday night.

Sports Roundup

By Hugh S. Fullerton, Jr. (Pinch-Hitting for Eddie Brietz) NEW YORK.—(The Special News Service)—They really were hanging 'em from the rafters at Ebbets Field Tuesday... Lots of the standees found they could see better by climbing up onto the beams, and if the Dodgers had been anywhere near winning that second game it probably would have hailed fans when the storm came up.

HUGH FULLERTON, JR.

It's a different story in men's play with the Texans and Independents tied for first, putting everything on the line. The winner will be champion of the second half and may tangle with the Mighty Macks of Mackey Motors in the playoff. League officials will determine whether a playoff will be held.

Golfers Should Shoot For Pars

OMAHA (AP)—If these high-scoring National Amateur Golf championship seekers will take a tip from Omaha's Johnny Goodman, they'll start shooting for pars instead of birdies. That was Johnny's advice Wednesday as 54 qualifiers for match play in the 45th Amateur, none too successful in their medal-play battles with the Field Club's stubborn par—72, turned to personal engagements, with two 18-hole rounds on the program.

Rebels And Buffs Split Double Bill

By The Associated Press The Houston Buffs know very well that the Dallas Rebels have their hearts set on being in the Shaughnessy playoffs, but that didn't stop 'em from beating the Rebels 8-7 in the second game of a doubleheader in Houston Tuesday night.

Lesnevich Wins Boxing Title In New York Battle

NEW YORK (AP)—Gus Lesnevich the fellow who has always been the bridesmaid and never the bride in the light-heavyweight picture was boss of the 175-pounders Wednesday, but he's going to have to prove it again to make it stick.

Schedules Capital's Longest Boxing Bout

WASHINGTON (AP)—Bill Poland, up-and-coming young Jewish battler now being groomed as a heavyweight title contender, and Eddie Blunt, rugged New York negro, were scheduled to fight Wednesday night in a 25-round main attraction of a 67-round boxing card.

Dodgers Didn't Defeat Enemy But Came Out Of Crucial Series With Remaining Contests Favoring Team

By Judson Bailey Associated Press Sports Writer Brooklyn's beloved bums have met the enemy and although they didn't conquer, neither were they conquered. It had been apparent that the Dodgers and their fierce foes, the St. Louis Cardinals, were very evenly matched even before they came up to their crucial four-game series at Brooklyn this week and everything done in their two doubleheaders served to emphasize this fact.

College All-Stars Polish Plays For Big Football Game

CHICAGO (AP)—Eighteen days is a comparatively short time to condition a football team and get it keyed for a big game, but the coaches of the college all-stars believed Tuesday night's drill in Soldier Field may have turned the psychological trick. The collegians were in the uniforms in which they will face the Chicago Bears, pro champions, Thursday night. They passed and executed running plays under the floodlights.
