

## Colonel Davies To Command Field

Lt. Colonel I. Davies, slated to be commandant of the Advanced Twin Engine and Bombardier Training Center here, visited Sloan Field Thursday with Major H. R. Baxter, project officer for the Air Corps, and Major P. D. Coates, slated to be director of flying. The colonel is shown on the left, Major Baxter in the center and Major Coates on the right.

## Urges Revision--Door Left Open

WASHINGTON — President Roosevelt, asserting it was time for the United States to "stop playing into Hitler's hands, and to unshackle our own," urged Congress Thursday to revise the Neutrality Act speedily to permit the arming of American merchant vessels.

In a special message he also left the door open for further revision later to wipe out another major prohibition, that preventing American cargo ships to travel to belligerent ports.

Saying that Adolf Hitler "has offered a challenge which we as Americans can not and will not tolerate," the president said:

"We will not let Hitler prescribe the waters of the world in which our ships may travel. The American flag is not going to be driven from the seas either by his submarines, his airplanes, or his threats.

"We cannot permit the affirmative defense of our rights to be annulled and diluted by sections of the Neutrality Act which have no realism in the light of unscrupulous ambition of madmen.

"We Americans have determined our course.

"We intend to maintain the security and the integrity and the honor of our country.

"We intend to maintain the policy of protecting the freedom of the seas against domination by any foreign power which has become crazed with a desire to control the world. We shall do with all our strength and all our heart and all our mind."

Administration leaders moved rapidly to implement the President's message, introducing bills in both houses to repeal the Neutrality Act provision against the arming of American merchant vessels.

Resolutions offered in the Senate by Chairman Connally (D-Tex.) of the foreign relations relations committee and in the House by Chairman Bloom (D-NY) of the foreign affairs committee would specifically authorize the President during the period of national emergency to arm or permit the arming of American merchantmen.

## Board May Alter New Credit Rules

WASHINGTON (AP)—Another twist of the screws holding down consumer installment credit appeared to be eminent Thursday.

Authoritative indications from the federal reserve board were that minimum down payments might be increased and maximum time to pay the balance might be reduced on some articles.

The reserve board was said to be studying this question earnestly and getting ready for a decision within the next 10 days.

The present regulations apply only to installment purchases of 24 types of goods, ranging from both new and used automobiles to new furniture and radios. The rules specify what percentage of the purchase price should be paid down—for instance, 33 1/3 per cent of automobiles and 10 per cent on furniture—and how long a time should be allowed to pay the balance—18 months in each case under present rules.

One change being studied would plug up what some officials consider a loophole in the down payment rules. The present regulations permit a person to borrow the price of a new car or other articles from a bank or finance company and then to escape the down payment restriction by paying that cash to the dealer or merchant.

The board may require banks and others who make cash loans to get written promises from borrowers that the loans will not be used to evade the down payment rules.

## Colonel Davies Who Will Command Sloan Field And Major P. D. Coates Inspect Air Corps Training Center

Lt. Colonel I. Davies, slated to command the Air Corps Advanced Twin Engine and Bombardier Training Center at Sloan Field, was a visitor in Midland Wednesday and Thursday. With him was Major P. D. Coates who is scheduled to be director of flying at Sloan Field.

With Major H. R. Baxter of the Air Corps, project officer, they inspected the field and construction work and expressed approval of the progress made. Major Baxter will be executive officer at the field when the training center starts operation.

Both Colonel Davies and Major Coates also were "house-hunting." They are anxious to obtain adequate housing for their families in Midland. The housing committee of the Chamber of Commerce is making every effort to obtain desirable homes which the officers may rent.

The colonel plans to move here in two weeks from Kelly Field, San Antonio, where he is assistant commandant.

Major Coates, a native of Miami, Fla., has been in the air corps 13 years. He graduated from Georgia Tech. For the last three and a half years he has been at Kelly Field.

Prior to that time he was at Brooks Field six years. He will bring Mrs. Coates and their two sons, Phillip, Jr., 9, and William R. Coates, 6, to Midland when he takes over the assignment here.

# Panamamanian President Flees Nation By Plane

## Russia Staggers Under Vast New Offensive On Eastern War Front

By The Associated Press  
Adolf Hitler's press chief declared Thursday "the Soviet Union is militarily finished" and that the 110-day-old war on the eastern front was virtually decided, with nearly 1,000,000 Red Army troops caught in two vast encirclements in the German drive on Moscow.

The sensational pronouncement, which was not elaborated by any details of specific land gains, came from Dr. Otto Dietrich arriving in Berlin direct from the Fuehrer's eastern front headquarters.

"From the springs of the Volga to the Sea of Azov," he asserted, remnants of Soviet armies everywhere are in retreat.

The Berlin radio broadcast a Shanghai dispatch quoting "Soviet quarters" as reporting that the Russian government was fleeing Moscow. There was no confirmation elsewhere.

All Divisions Crushed.

Keyed with Nazi claims of triumph, the Germans published a special order of the day issued by Hitler a week ago at the start of the new offensive, declaring:

"Today (Thursday, Oct. 2) begins the last great, decisive battle of this year. It will hit the enemy destructively and with it the instigator of the entire war, England herself.

"For if we crush this opponent, we also remove the last English ally on the continent."

A special high command bulletin, heralded by a fanfare of trumpets over the German radio, declared Russia's battered Red Armies had not a single division left fit for battle on the entire front.

"Attacked from the rear by strong armored forces, three enemy armies must expect their annihilation also in the area of Bryansk," the Nazi high command said.

"Together with units already encircled at Vyazma, Marshal Timoshenko has here sacrificed the last truly able armies of the total Soviet front."

Red Reports Contradict.  
Bryansk is 220 miles southwest of Moscow, Vyazma 125 miles west of the U.S.S.R. capital. They are about 130 miles apart.

Russian troops were reported retreating strongly north of Orel after a 3-day battle in which they first abandoned the town, recaptured it and finally withdrew again under pressure by numerically superior Nazi forces.

A mid-day Red Army bulletin said Marshal Semeon Timoshenko's forces on the central front were still battling fiercely against the Nazi juggernaut in the Bryansk and Vyazma sectors.

Tass, the official Russian news agency, indicated the Soviet troops still held Vyazma.

Russian warplanes, the news agency said, "concentrated heavy blows on enemy tank columns which managed to break through" in that sector and "struck telling blows at one such column proceeding toward Vyazma."

Russian civilians were now reportedly fighting shoulder-to-shoulder with Red Army soldiers to stem the Nazi smash toward Moscow.

A projected 7,200-foot Clear Fork, lower Permian, test in extreme Northwestern Gaines County, Likins & Hall of Midland County, L. E. H. Jones, topped the anhydrite at 2,130 feet, datum of plus 1,537, and is drilling below 2,140 feet in anhydrite and red rock.

String of casing will be set when depth of 2,160 or 2,170 feet has been reached. The first marker in the Likins & Hall test is 52 feet low in Argol Corporation No. 1 Jones, nominal Permian failure three miles to the northeast.

Crane Discovery Swabbing  
Continental Oil Company's new Simpson, middle Ordovician, sand discovery well in Southwestern Crane County, the No. 1 Ewan B. Jones et al, recovered 96 barrels of oil in 12 hours in swabbing to bottom of 2-inch tubing set at 5,974 feet. Tubing was raised to 5,742 feet and swabbing resumed, with yield of 48 barrels of oil in 12 hours. Owner still is swabbing and may elect to re-treat the well with mud acid to clean up hole.

It already has been treated with 1,500 gallons. Total depth is 6,004 feet in brown Simpson lime.

Only one and one-half miles to the north in Crane's Sand Hills Ellenburger, lower Ordovician, pool, Gulf Oil Corporation drilled plug from its No. 29 W. N. Waddell et al and is preparing to run tubing for a test. Total depth is 5,646 feet in dolomite.

Southeast of Fort Stockton in Pecos County, Pure Oil Company No. 1-A George C. Fraser et al (TXL), a scheduled Delaware test, is fishing for drill-collar, bottomed

## Anhydrite Found High In Lubbock County Wildcat

By Frank Gardner  
Oil Editor

High anhydrite top is credited to L. C. Harrison and Tobe Foster, both of Lubbock, No. 1 E. L. Steck, new wildcat in Central Lubbock County.

No. 1 Steck reportedly logged first anhydrite at 1,480 feet, datum of plus 1,767, which makes it, according to some correlations, 134 feet higher than Harrison and his associates' No. 1 W. G. Nairn estate, first producer in the county, three and one-quarter miles east by southeast. No. 1 Steck, only two miles northeast of Lubbock, is drilling ahead past 2,000 feet in anhydrite and red rock.

The No. 1 Nairn discovery, last year reported cleaning out earnings at 4,985, 17 feet off bottom. In one eight-hour period of swabbing through casing it yielded 65 to 70 barrels of fluid, practically all oil. Salt water is decreasing, while gas is increasing.

In Motley County, Humble Oil & Refining Company No. 1-D Matador Land & Cattle Company is drilling at 5,486 feet in lime.

Location from the league boundaries of Broderick & Calvert, Inc., et al No. 1 G. H. Hayward, new Central Bailey County 5,500-foot wildcat, is 1,389 feet from the south and 4,167 from the west lines of league 173, Sutton County school land. It is in the center of labor 24, as originally reported.

South of Post in Garza County, Ed McAdams No. 1 K. Stoker encountered a hole full of water from 3,048-55 feet and is drilling ahead below 3,150 feet in lime.

Yokum Wildcat Running Pipe  
Honolulu Oil Corporation No. 1-13 L. H. Wright, Eastern Yokum County prospect, is running casing after reaming hole to bottom at 5,262 feet. Operator will rig up cable tools after pipe has been set.

The wildcat logged first oil staining and slight saturation at 5,190 feet. Cores from 5,232-62 feet showed some oil stains and saturation.

American Drilling Corporation No. 1 W. T. Hufnall, new wildcat in Western Terry County, is rigging up rotary. It is to be a 5,500-foot test.

A projected 7,200-foot Clear Fork, lower Permian, test in extreme Northwestern Gaines County, Likins & Hall of Midland County, L. E. H. Jones, topped the anhydrite at 2,130 feet, datum of plus 1,537, and is drilling below 2,140 feet in anhydrite and red rock.

String of casing will be set when depth of 2,160 or 2,170 feet has been reached. The first marker in the Likins & Hall test is 52 feet low in Argol Corporation No. 1 Jones, nominal Permian failure three miles to the northeast.

Once toast of Bucharest and darling of all Rumania, Lisette Vereva is just a refugee in U. S. A.

## Defense To Have Priority On All Building Works

WASHINGTON (AP)—The Supply Priorities and Allocations Board issued a sweeping policy decree Thursday forbidding the start of any public or private construction which would use critical materials essential to the nation's defense or to the public health and safety.

The ruling applied, the SPAB announcement said, to power, navigation, and flood control projects, office buildings, post offices, hotels, highways, and even residential construction. Its effect was to suspend such non-essential building for the duration of the emergency, SPAB officials said.

The ruling carried the implication that the priorities division headed by Donald M. Nelson, by using its priority power to deny materials to projects it considers unessential, could block public works projects approved by Congress.

In such a case, it would permit exercise of a virtual veto power to halt action on one project approved by Congress while permitting another project contained in the same legislation to go ahead.

A hung jury was dismissed Thursday morning in the J. E. Glasscock case in 70th District Court after all-night deliberation.

Charged with forgery, Glasscock will be re-tried Oct. 23.

The jury went out at 4:30 p. m. Wednesday and was dismissed about 9:30 a. m. Thursday.

Harry Byars Thursday pleaded guilty of charges of auto theft and received a two-year sentence in the penitentiary.

Fourteen-Year-Old Girl Is Critical At Hospital

The condition of Miss Doris Richmond, 14-year-old daughter of Mr. and Mrs. J. H. Richmond, was described as critical at a Midland hospital Thursday.

She is suffering from pneumonia.

## Purloined Letter Contents Mystify Officials Of U. S.

WASHINGTON (AP)—The capital was intrigued Thursday by the big mystery of how the German government learned the contents of the personal letter President Roosevelt sent to Premier Joseph Stalin, promising Russia the material help of the United States in the fight against Hitler.

The official German news agency, DNB, raised the curtain on the mystery in Berlin Wednesday by distributed the purported text of Mr. Roosevelt's communication.

Some time later, the White House released the text here, and invited a comparison of it with the version that DNB was circulating.

"When such a comparison is made," the White House statement said, "the propaganda objectives of the Nazi action became very clear."

A comparison disclosed that the wording of the body of both texts was identical, except for an occasional phrase here and there in the DNB version—and such variations were reported to be due largely to translation.

There were two very pointed differences, however. Where the salutation in the White House text was "My Dear Mr. Stalin," the unofficial translation of DNB's version had it "My Dear Friend Stalin."

Similarly with the conclusion—"Yours Very Sincerely" for the White House, and "Yours in Friendship" for DNB.

The White House apparently referred to these differences when it spoke of Nazi "propaganda objectives."

## Nazi-Minded Arias Departs Secretly Under Political Fire And Guardia Is Sworn In To Direct Government

United States Troops In Panama Are Ordered Back To Posts After Upheaval As Observers Predict Regime Seeks U. S. Collaboration

By The Associated Press

PANAMA, Panama.—Panama's reputedly Nazi-minded president, Dr. Arnulfo Arias, has fled the country in secrecy, apparently under political fire of a faction favoring collaboration with the United States, it was disclosed here Thursday.

So secretly did Arias flee by airplane at 5:30 a. m. Tuesday that his departure was not revealed until a successor was sworn in this morning.

Neither his motives for leaving the country nor events leading up to the sudden development were clear but the country was quiet.

The supreme court of Panama Thursday swore in Ernesto Jean Guardia, second vice president of Panama, who is reputed to favor collaboration with the United States as acting head of the government.

The Arias regime, in office about one year, recently had refused to allow ships flying the flag of Panama to be armed. Many ships under Panama registry are carrying United States war aid to Great Britain.

Arias was said to have flown to Barranquilla, Colombia, in a Pan-American-Grace airways plane and since to have reached Cienfuegos, Cuba.

One report said he surrounded his departure with utmost secrecy, using his mother's maiden name, forbidding disclosure that he had left and failing to designate a temporary successor.

(Arias was reported in Havana to have been in the Cuban capital in cognate since Wednesday morning, using the name "Am. Madrid," his mother's name. Neither how he reached there nor his present whereabouts were known.)

Police reserves remained in their barracks.

All United States soldiers and sailors on leave in Panama were ordered back to their posts Wednesday.

Construction of the government's \$8,000,000 San Jacinto (Texas) ordnance depot was at a standstill because of an AFL strike, but some progress was achieved toward settlement of a similar strike at an \$11,000,000 ordnance project near Texarkana, in the same state.

Another AFL strike halted steel making at the south's largest mill, near Birmingham, Ala.

Texarkana Tie-Up Improves  
Work on the San Jacinto job stopped Wednesday when several hundred workers walked out. A spokesman for the AFL Teamsters Union said the contractors had refused to recognize the local as bargaining agent.

Officials of the construction company declared that only 5 per cent of the employees belonged to the teamsters union.

At the Texarkana project, where AFL building trades union workers have been on strike for three days, representatives of strikers accepted a settlement formula proposed by Bryce P. Holcombe, a U. S. labor conciliator. The contracting firm asked additional time to study the plan, which calls for a check of payroll records to determine whether a majority of the company's 3,000 workmen were union members.

The union was reported to have asked the company to provide an arrangement under which no non-union worker would have to pay a certain sum for a job.

Survivors include her husband; three sons, R. Henderson, Robert and Billy, all of Odessa; her mother, Mrs. Mollie Henderson, and a brother, R. Wallace Henderson of Odessa; a brother, Charles O. Henderson, of Clifton Forge, Va.; a grandson, Ralph Henderson Shuffler of Odessa.

Funeral services will be held Friday with burial here.

Mrs. Shuffler was born in Greenwood, Va., and was married to Ralph Shuffler at Waynesboro, Va., in 1907. They moved to Plainview, where he became publisher of a weekly newspaper. In 1910 they became publishers of the Olney Enterprise.

Midland Is Ready To Again Entertain Searchlight Troops

Midland again is ready to play host to a provisional searchlight battalion from Camp Hulen if the Army decides to send the 800 to 900 men here for six to eight weeks of maneuvers, starting late this month.

City officials offered their full cooperation to Major C. A. Dance who is here investigating possibilities for taking care of the three batteries of anti-aircraft men. Major Dance was here last spring with the provisional battalion which maneuvered in Midland county. The city offered the Army the use of the baseball park again and offered to cooperate to make it as comfortable as possible for the men.

Odessa has offered the Army the use of the Ector county park and the buildings there to house the troops. The Army is anxious to obtain buildings to house the men, but Dance said the situation at Midland is superior from a tactical standpoint as the Petroleum Building roof may be used again as a command post.

He will return to Camp Hulen Friday to discuss the plans with other officers before a decision is announced.

Seniors of Midland High School Wednesday elected officers for this year's Catoico, school year book.

Elma Jean Noble heads the staff as editor-in-chief. Other officers are: Associate editor, Roy Long; and business manager, Muriel McHargue.

Representatives from the junior, sophomore, and freshman classes have not been elected.

### 'Protector's' Qualifications

Of all possible titles for the man chosen to hold the Czechs in subjection, the Nazis would have to choose "protector." It is their "protector" who is marching the cream of Czech patriots before the muzzles of Nazi firing squads. Well qualified for establishing such "protection" is Reinhard Heydrich, newest appointee to the title. As a boy of 15 he learned brawling as a member of the Free Corps in his native Halle, in the day when rival bands of Communist and Nationalist roughs fought each other for possession of the streets. At 23 he was an efficient operative in the navy intelligence branch. An original Nazi, he quickly understudied Himmler, and now vies with him for the chance to become the Fouché of the Nazi Revolution. It is an epic of Nazi success to be entrusted at 37 with the effort to outblot the terror of the French Revolution.

Buy Defense Bonds and Stamps  
**One Price To Soldiers**

Profiteering is always and in any case a nasty business. There is one phase of it that is even worse than the ordinary variety. That is the effort to profiteer at the direct expense of soldiers.

During the recent Arkansas-Louisiana maneuvers, it was noted by officers that wherever the troops appeared there was a tendency for prices to shoot up, and for one set of prices to exist for civilians, one price to soldiers.

Communities in which large numbers of soldiers are operating may wish to protect their own names against any such charges by taking local measures to prevent it. To profiteer on the small pay of soldiers on active duty is not a thing in which any community will take much pride.

Buy Defense Bonds and Stamps

### Wants Defense To Get Old 'El' Steel

BOSTON (UP)—There are "several destroyers, quantities of shells and guns, and even a couple of oil tankers" anchored in Atlantic avenue, according to the Boston Better Government Association, which would like to see them put in active service.

At present they're in the form of thousands of tons of abandoned elevated structure property of the Boston Elevated Railway Co. and the Better Government Association is quite frankly tired of seeing it standing there, a traffic obstruction which winds for about two miles along the waterfront.

The line has been out of operation since Oct. 1, 1933, and realty associations have backed the better government group in demanding that it be torn down.

### Declares Civilized Damage Uncivilized

CHICAGO (UP)—The benefits of modern civilization often have a destructive effect on uncivilized communities and may cause the loss of entire populations, Dr. Bernhard L. Hormann of the University of Hawaii contends.

Dr. Hormann, speaking at the annual institute of the Society for Social Research at the University of Chicago, blamed modern civilization for the disintegration of the customs and taboos of the uncivilized groups.

This, he said, leads to the reduction of the birthrate, since families are separated, the economy disrupted, and apathy regarding traditions prevails.

### WORK FOR BLIND SPONSORED

TOPEKA, Kas. (UP)—The Kansas social welfare board has opened its tenth refreshment stand to be operated by blind persons. Since the fall of 1938 the board has been sponsoring projects to aid the blind in making their own living, and the small businesses have earned more than \$11,000 for their operators.

### Wyoming Spurs Beaver Farming

CHEYENNE, Wyo. (UP)—Beaver is Wyoming's most valuable fur resource and the state game and fish commission is launching an extensive long-range project to "produce beaver on state and public lands as a crop, much in the same manner as livestock is produced by ranchers."

"Present plans are to have Wyoming virtually a statewide 'beaver farm' by 1946," said Lester Bagley, state game warden.

The fur resource project will be carried on by the game and fish commission under the Pittman-Robertson act. It will have other activities, but the most important, the beaver project, will involve the transplanting of the animals from one stream to another and making a study to determine the exact amount of suitable beaver habitat in Wyoming and the number of beaver the areas can support continuously.

### Denver Is On Guard Against Sabotaging

DENVER (UP)—Sabotage - prevention measures are in full swing in the Denver area, with an airplane patrol, law enforcement officers and more than 1,500 volunteers cooperating in a drive to protect vital communication and utility lines.

Capt. Harry L. Wood of the Denver police department, is the man responsible for the work. For seven months he's been detailed to the task of perfecting plans to guard the lines.

Wood first put into practice his anti-sabotage campaign on the 247-mile pipe line which brings natural gas to 75,000 Denver consumers from a Texas Panhandle field. The Colorado Interstate Gas Co., owner of the line, has purchased a private plane to use to patrol the road, which passes several counties in Colorado.

Mrs. A. R. Houston and son of Stanton went home Wednesday from Ryan Hospital.

### Rescue Job

### Iceland Chief

Maj.-Gen. Charles H. Bonesteel, above, commands U. S. forces now stationed at increased garrison in Iceland.

### Finds Cure For Dreaded Disease

BERKLEY, Cal. (UP)—After three years of experimentation, first on animals, then on human beings, the University of California has announced a specific cure for polycythemia, a heretofore incurable disease.

The cure is the first definite conquest of disease with the radioactive products of the university's atom-smashing, radium-producing cyclotron, which won for its inventor, Prof. E. O. Lawrence, the Nobel prize.

The official announcement of the new discovery was made by his brother, Prof. John H. Lawrence, director of medical research with the cyclotron's radioactive products.

Polycythemia is a disease characterized by a cancer-like multiplication of the red corpuscles of the blood.

### •Cranium Crackers

BIG AND BIGGERS

The bigger they come, the harder they are to distinguish, as you'll find in this group of comparisons of places and things around the world.

### Drug Clerk Starts Ballot Drive Early

ATLANTA, Ga. (UP)—Curly-haired drug clerk James Vickers has started out on the self-assigned task of ringing the doorbell of every residence in Atlanta. The reason is that two years and six months from now, in the spring of 1944, he plans to run for the city council.

Using brush salesman tactics is heard on the feet and calls for considerable diplomacy, Vickers says. But the 33-year-old clerk says many housewives are interested in his campaign, especially after he gives them his little gift. The present is a package of matches with this message on the cover: "To contact all my friends in Atlanta, I'm starting a little early."

### CHILDREN SAFELY CAUGHT IN JUMPING FROM FIRE

OMAHA, Neb. (UP)—Harold Rady, 29, has his own method of rescuing children from the roof of a burning house. Hearing cries nearby, Rady rushed to a smoke-filled house to see Esther, 14; Edwin and Etta, both 7, of the Propesch family, on the roof of a front porch. "Jump," Rady advised, and he caught each of them safely.

### Australians Outline Order Requirements

SYDNEY, Australia. (UP)—Practical requirements for a New Order in Australia were outlined here in speeches, by coincidence, on the same day by former Prime Minister Robert Menzies and Dr. Evatt, prominent Labor parliamentarian. Dr. Evatt, who is honorary director of research in the reconstruction division of the Commonwealth department of labor and national service urged that planning for the post war period should begin now. He emphasized the importance of the principles set out by Prime Minister Winston Churchill and President Roosevelt. He quoted the references to "improved labor standards, economic advancement, and social security" and the fact that there should be "an assurance that all men in all lands may live out their lives in freedom from fear and want."

### U. S. Anti-Tank Gunners Sharpen Sights On Range

PLATTSBURG, N. Y. (UP)—American anti-tank gunners are sharpening their marksmanship.

In a far removed valley in northern New York where the armies of three nations have struggled for control of the western world, soldiers are acquiring skill on the new tank combat range at the Macomb Military Reservation.

The Federal government cleared 65 acres of ground with WPA labor to construct the device which enables simulated attacks on fast moving tanks.

The range embodies approximately 3,800 feet of narrow gauge railroad track on which the simulated track travels only by gravity. The target, in the shape of a tank, is mounted on small railroad flat cars.

The anti-tank gun is nearly a mile away. Rolling downhill, the flat car winds in and out among the hills, at times accumulating speed up to 55 miles an hour.

The gunners get not more than six glimpses of the target as it coasts down the track. Three of those shooting chances give a broadside view of the "tank." Flashing over the course the target has the practical appearance of an attacking tank.

The "tank" itself consists of a rough lumber structure covered with scrap tin, mounted on a flat car. As the car is released from a bomb proof shelter it takes a down grade course through a grassy valley.

### Invent New Method To Measure Clouds

SCHENECTADY, N. Y. (UP)—Scientists have developed a new method of measuring the height of clouds which is expected to help the U. S. Weather Bureau and aviators.

The glow of a tiny searchlight is spotted on clouds during the daytime and the height is computed by simple geometry, triangulation.

The method was developed by the Bureau of Standards at the request of the Weather Bureau and is explained in the Bureau of Standards Journal of Research.

A small 1,000-watt mercury lamp developed for searchlights and television studios is used in the new system. The "splatter" of the light where it hits the underside of the cloud is perceived by a photoelectric eye separated from the light on the ground.

"During the daytime," scientists explain, "dark overcast clouds at an elevation of 9,000 feet have been readily detected. For cumulus clouds illuminated by direct sunlight and having elevations up to 4,000 feet, the detection is positive."

### Reflects On Problems

Maj. Gen. Joseph Cummins of Chicago is shown in a pensive mood during a moment of reflection on national problems.

### Rayburn Predicts Quick Lease-Lend Passage In House

WASHINGTON, (AP)—Speaker Rayburn Thursday forecast quick House passage of the new \$3,985,000,000 lend-lease fund in the exact form requested by President Roosevelt, and even some critics of the huge appropriation conceded that attempts to amend it would be futile.

One vital change—to bar use of any of the money to aid Russia—was expected to be offered by Rep. Day (R-Id.).

Rayburn predicted that "we will beat the Russian amendment badly" others.

"It would be unfortunate to make any change in the president's recommendations," the speaker said.

Rep. Taber (N.Y.), senior Republican member of the appropriations and "go right down the line on the committee, expressed the opinion that only about 50 of the House membership of 435 would support the no-aid-to-Russia amendment. He said that proposals to cut \$300,000,000 from a \$1,875,000,000 fund for agricultural, industrial and other products would be more strongly supported.

The Arab conquest, which politically altered the whole history of Egypt, had no appreciable influence on the physique of its inhabitants.

### Markets LIVESTOCK

FORT WORTH (AP)—(U. S. Dept. Agr.)—Cattle 2,900; calves 2,300; cows strong, calves opened steady, closing weak to lower, other classes about steady; common and medium beef steers and yearlings 6.50-9.50, good kind 10.00-11.00, choice scarce; beef cows 6.25-9.00, few to 8.50, bulls 6.00-7.75; good fat calves 9.00-10.00, common and medium lots 7.00-8.50, good and choice stocker steers calves 10.00-12.00, common and medium 6.50-10.00.

Hogs 1,400; most butchers 10¢ lower than Wednesday's average; top 10.75; good and choice 10.25-10.75; packing sows steady, mostly 9.25-50, few 9.75; pigs 25¢ lower, most stocker pigs 9.25 down.

Sheep 1,200; lambs steady; yearlings strong to 10¢ higher; other classes scarce; odd head medium to good lambs 9.00-11.00; Good grain fed yearlings 9.75; feeder lambs 9.00 down.

### Wool

BOSTON (AP)—(U. S. Dept. Agr.)—The Boston wool market was more active Thursday. A number of manufacturers who were awarded contracts for government defense needs were taking up their options on wools. Others, who had not completely covered their requirements, were purchasing graded wools in Boston sufficient to cover their immediate needs. Sales included graded French-combing fine territory wools at \$1.05 to \$1.07, scoured basis, for average to good lengths and at \$1.03 to \$1.05 for average to short wools. Graded three-eighths blood combing territory wools brought 94 to 96 cents, scoured basis, and sales of half-blood staple-combing territory wools were reported at \$1.03 to \$1.05 scoured basis.

WASHINGTON, (AP)—Speaker Rayburn Thursday forecast quick House passage of the new \$3,985,000,000 lend-lease fund in the exact form requested by President Roosevelt, and even some critics of the huge appropriation conceded that attempts to amend it would be futile.

## Marriage Of Midland Coach Is Announced

Dewey Johnson And Miss Lena Snitker Wed At Roswell

Mr. and Mrs. F. C. Snitker of Morton, Texas, announce the marriage of their daughter, Lena, to Dewey Johnson of Abernathy and Midland.

The wedding took place July 19 in the home of Dr. D. A. Dulaney, pastor of the First Baptist Church of Roswell, New Mexico. Dr. Dulaney officiated at the single ring ceremony.

The bride wore a beige and white suit with white and autumn brown accessories. Mr. and Mrs. Johnson are both graduates of West Texas State Teachers College at Canyon, Texas, being members of the class of 1941.

Mrs. Johnson was a member of Alpha Chi, national scholarship society, Gamma Phi social sorority, and BSU Council. She was chosen football queen by the 1939 Buffalo squad. She taught in the Sundown public schools the past spring semester.

Mr. Johnson, son of Mr. and Mrs. A. N. Johnson of Abernathy, is a graduate of Abernathy high school and received a B. S. degree from West Texas State Teachers College. While in college he was outstanding for his leadership in the major sports. He lettered three years in varsity football and was co-captain of the 1940 squad. He also lettered three years in varsity basketball and was a member of the so-called "World's Tallest Basketball Team."

He served as president of the Athletic "T" Club and was a member of the student council. He is now teaching and coaching in Midland Junior High School, while Mrs. Johnson is teaching in the Sundown school system.

## Campus Bound

This sturdy all-wool plaid coat will take the campus-bound and office-bound girls through several hard winters. Wide armholes and bias-cut sleeves add to the smartness of the new straighter, but not skimpy, silhouette.

## Tejas del Oeste Opens Season At Dessert-Bridge

A fall motif was employed in the appointments for the dessert-bridge given by Mrs. Ed Darnell in her apartment at the courthouse, Wednesday at 1:45 o'clock, as the first party of the season for Tejas del Oeste Club.

Cornflowers and daisies were used in floral arrangements. Three guests, Mrs. Mark Carraway, Mrs. Buster Guthrie and Mrs. Jessa Lou Stewart, played with the club members.

High score in the games went to Mrs. Guthrie, second high to Mrs. Stewart, and bingo to Mrs. A. L. Stevens.

Tejas del Oeste members present were: Mmes. W. G. Epley, Wayne Gregston, Frank Lord, Stevens, and the hostess.

Next meeting of the group will be with Mrs. Epley.

## So-Sum Club Meets At Home Of Mrs. Kelly

A quartet of guests, as well as club members, attended the meeting of So-Sum Club with Mrs. R. J. Kelly, 1001 W. Kansas, Wednesday afternoon.

The guests were Mrs. Barney Grafa, Mrs. Rea Sindorf, Mrs. J. A. Camp of Houston, and Mrs. T. H. Stringer.

The afternoon was spent in sewing until the tea hour, when a refreshment course was served.

Members attending were: Mmes. Terry Elkin, S. M. Vaughn, W. M. Schroek, W. Iley Pratt, Addison Wadley, N. B. Larsh, J. L. McGrew, E. C. Hitchcock, and the hostess.

"V FOR VICTORY" GAME MAY CROWD OUT BINGO

CLEVELAND, O. (UP)—The outlawed game of Bingo shortly may be supplanted by a new game here.

The game, as described by persons familiar with it, differs only in that cards instead of grains of corn are used and that when a row has been filled with cards, the successful players shouts, "Victory!" instead of "Bingo!"

Police are considering whether it is permissible to play "V for Victory" after numerous calls from churches and social clubs.

## Bridge-Luncheon Is Reassembly Party For Club

Reassembly party for the Mid-Week Club was in the form of a bridge-luncheon for which Mrs. J. M. Armstrong was hostess at her home, 1307 W. Missouri, Wednesday at one o'clock.

Yellow chrysanthemums were employed in party decor. Luncheon was served at small tables after which the afternoon was devoted to bridge.

Mrs. D. C. Sivals scored high in the games, while cut went to Mrs. E. A. Culbertson.

Present were a trio of guests, Mrs. William Chancellor, Mrs. Ed Warren, a former member, and Mrs. Anna Brown of New York.

Members present were: Mmes. W. L. Brown, Culbertson, I. E. Daniel, John House, Robert E. Nolen, Paul Oles, M. D. Self, Sivals, Fred Wright, and the hostess.

## Mrs. Geo. Kidd Leads Program For Fine Arts Club

Mrs. Fred Wilcox was elected first vice president at the meeting of Fine Arts Club Wednesday for which Mrs. T. Paul Barron was hostess at the home of Mrs. Elliott H. Barron, 507 N. Lorraine.

The club voted to re-subscribe for the magazine, Hygeia, for the county library and to subscribe for three true story comic magazines for the Latin-American and Dunbar branches of the library.

It was proposed that each club member buy a defense stamp book. Mrs. E. Hazen Woods resigned as an active member of the club and became an associate member.

Mrs. Geo. Kidd was leader for the program on "Influence of Geography on the Economics of the Americas." She discussed "A General Geographic Survey" and Mrs. T. Paul Barron read a paper prepared by Mrs. E. H. Ellison on "Economic Influences."

Mrs. Geo. Heath was a visitor. Members present were: Mmes. L. A. Ashner, E. H. Barron, Tom. C. Bobo, L. G. Beyerly, F. H. Fuhrman, O. J. Hubbard, J. Webb Miller, Roy Parks, W. Y. Penn, A. P. Shirey, R. C. Tucker, Fred H. Wilcox, and the hostess.

## Announces Date For Contest Here

A contest to select a speaker to represent Midland in the "My Home Town" speaking contest for Districts 6, 7, 8 and 9 in Odessa will be held in high school assembly Oct. 22, Miss Pauline McMurrey, director, said.

Four entries are definite and more are expected. Entries are Margaret Ann West, second place district winner last year, Kathryn Hanks, Joyce Strong and Frances Ellen Link.

Winner of the combined districts' contest in Odessa between Oct. 27 and 30, will receive a cash prize and be eligible to compete in the contest at the West Texas Chamber of Commerce convention in Midland, Nov. 4.

## PTA To Sponsor Halloween Party

COURTNEY (Special) — "The Home in the National Defense Program" was the theme of the program presented at the meeting of the PTA at Courtney, this week. Mrs. E. R. Crews and Mrs. Bill Blocker presented papers on the subject.

Miss Sue Lattimore was elected secretary to fill the place vacated by Mrs. Riggs Shepperd who moved away.

Plans were made for the traditional PTA-sponsored Halloween party at the gymnasium, and Miss Laura Gainer was appointed Carnival chairman.

Decision was made to have a PTA booth at the Martin County Fair. Mrs. Almon Angel was appointed chairman for this project.

Plans were discussed for purchasing a projector with sound effect to be used as visual aid equipment. Skating in the gymnasium as a school project was also discussed.

Attending the meeting were: Mmes. E. R. Crews, Clifton Hazlewood, John W. Blocker, Joe Stewart, Bill Blocker, M. W. Alcorn, Sid Cross, Bill Hull, Elmer Hull, Earl Powell, Almon Angel, Irvin Myrick, Supt. Nolan J. Robnett, Mr. and Mrs. Raymond Louder, Misses Ann Bickley, Ganevera Middleton, Laura Gainer, Sue Lattimore, and Mrs. Ode C. Hazlewood.

## TWO WESTERN GOVERNORS LACK SKILL WITH RIFLE

LANDER, Wyo. (UP)—The governors of Wyoming and Colorado may be big shots, but they're not crack shots.

Heading teams from their states with a Texas team competing too, Gov. Nels Smith of Wyoming and Gov. Ralph L. Carr of Colorado trekked into the mountain wilds in search of antelope and the championship of the one-shot antelope hunt.

There were five men on each team; each man had one rifle bullet. The team that bagged the most antelope with their five shots won.

When the final results were posted it was found the governors had missed completely. The Wyoming team, however, won with three antelope downed.

In summer, the Alaskan Indian catches great quantities of salmon, which are hung over poles to dry and then stored for the winter months.

## Golf Luncheon Is Postponed

Weekly luncheon of the Women's Golf Association scheduled for one o'clock Friday at the Country Club has been postponed. Absence of many who plan to attend the Dallas game and the still-wet condition of the links were given as causes for the postponement.

The luncheon will be held as usual on Friday, October 18, and reservations for it should be made with the hostesses, Mrs. Curtis Inman, phone 1481, and Mrs. L. A. Ashner, phone 844.

The maze of islands of the Alexander Archipelago in Alaska, hundreds in number, are remnants of a submerged mountain system.

## Couple To Live Here Following Wedding At Odessa

ODESSA (Special)—T. M. Whiteaker of Midland and Miss Allene Hughey of Andrews were married in the parsonage of the First Methodist Church here Sunday afternoon at 4 o'clock with the Rev. G. A. Schleuter reading the single ring ceremony.

The couple had no attendants. They will make their home in Midland where Mrs. Whiteaker is employed.

## Kelley Is Station Manager Of KRLH

Boyd Kelley has been promoted to station manager of KRLH by W. D. Reiger, general manager. The announcement was made Thursday by Reiger. Kelley has been with the station more than a year.

## Congratulations to:

Mr. and Mrs. Jack Phelt on the birth of a daughter Wednesday at Western Clinic Hospital.

## COLORADO QUARRY CLOSES; FURNISHED NOTED MARBLE

DENVER (UP)—The stone quarry from which was taken the marble for the tomb of the Unknown Soldier, parts of the Lincoln Memorial and the Colorado statehouse is to be shut down.

The Yule Colorado Marble Company has announced that, because of the use of substitutes, there is little demand for the more expensive marble, and that the quarries on Colorado's western slope are being closed.

The largest piece of marble ever quarried was taken from the Gunnison, Colo., deposit for the tomb of the Unknown Soldier. Three weeks were required to lower it from the quarry and a special railroad car was built to handle it.

## OHIO FLIER TELLS HOW LUFTWAFFE WAS EXPANDED

COLUMBUS, O. (UP)—A Columbus man, who says he hates Hitler, admits he was one of the three men in Germany who trained 6,000 pilots for the Luftwaffe — although without knowing it.

Alfred Lussheim, who is now a naturalized citizen, says he helped organize the Storm Bird (Sturm-vogel) gliding organization, which at one time had 10,000 members, 300 gliding planes and 28 airplanes. It trained young German workers to fly.

When the Nazis came to power, Lussheim says, the Storm Bird groups were disbanded, but the young men they had trained became pilots in the Luftwaffe.

# SAFeway

*They May LOOK Alike... But...*

**One may weigh as much as 40% more than the other. Don't pay the same!**

**Questions and Answers**  
About Buying Fruits and Vegetables by the Pound

**Q.** For years I have been buying fruits and vegetables by the dozen or each. I don't know what they weigh. How can I calculate my needs by the pound?

**A.** Make your selections by count, and then we will help you figure the price of your selection by the weight. You'll soon get the habit.

**Q.** If this plan is so good, why have merchants been selling by the count so long?

**A.** Selling by piece is merely an old trade custom. In many localities apples, cauliflower, etc., have been sold by weight for years. Safeway is convinced that prices fixed by weight are fairest.

**Q.** You say that by buying by weight Safeway can make savings that will be passed on to the customers. How is that?

**A.** Well, take oranges, for instance. When growers must grade oranges for size they charge us more than the price they ask when we buy the oranges as they come from the trees, regardless of size... only checked for quality, of course. It would be hard for us to quote a fair price on these big-and-little oranges by the dozen, but with a price by the pound you can select either the big or the little ones. And in the end you will pay less, just as we have paid less.

Relieves STUFFY NOSTRILS

MENTHOLATUM

You've won half the battle against cold discomforts if you can open those stuffy nostrils and breathe through your nose without that smothery feeling. If your nostrils are clogged up, insert Mentholatum. Note how effectively it eases your breathing and relieves the sneezing, sniffing, soreness, swelling, and redness. With all these annoyances checked, you can go about your activities in comfort. Jars or tubes, 30c.

BOYS DREAM COMES TRUE; HE OWNS 'PIRATE' ISLAND

BOWDINHAM, Ma. (UP) — Arthur Lee Stevens, a 12-year-old from Rhode Island, has what many a boy has dreamed of—a real island on which to play pirates.

The island, a gift from his father, is a rocky little cone containing a summer cottage and located off the Bowdoinham shore in famed Merrymeeting Bay. Arthur pays all real estate taxes himself. They total \$1.39 annually.

NUT GROWERS' CO-OP SETS PRICE ON FILBERT CROP

SALEM, Ore. (UP) — The North Pacific Nut Growers' Cooperative has set prices to be advanced by its local association to grower members on door delivery of 1941 crop filberts, according to A. C. Jacobson, general manager.

Eight cents a pound dry weight will be advanced on all deliveries received prior to and including Oct. 11, with a reduction to 6 cents a pound for deliveries made subsequent to Oct. 11.

British Trawler Sinks Submarine

LONDON (AP)—A British trawler, the Lady Shirley, was credited Thursday with shelling and sinking a German submarine in a spirited battle at sea with what the admiralty called a "larger and better equipped adversary."

The admiralty said the gun-layer of the Lady Shirley was killed by machine gun-fire from the U-boat, and his place was taken immediately by an officer.

"After having been hit by several four-inch shells, the U-boat crew held their hands above their heads and shouted that they surrender," the admiralty announced.

The submarine sank almost immediately and the Lady Shirley rescued 44 survivors, who were taken to Gibraltar as prisoners.

Aluminum owes its name to the Romans, who called certain salts, now believed to be the mixed sulphates of iron and aluminum, alumen.

Double Wedding Ceremony Is Read For Midland Couples At Odessa By Rev. Murphy At Presbyterian Manse

Charles Dodsons And Howard Koonces Are Making Homes Here

Two Midland couples repeated marriage vows in a double wedding ceremony read at the Presbyterian manse in Odessa, Tuesday evening at 9:30 o'clock.

The Rev. Thomas D. Murphy, pastor of the First Presbyterian Church at Odessa, officiated at the service in which Miss Charlene Crawley became the bride of Howard Koonce and Miss Gwendolyn Ward became the bride of Charles W. Dodson, Jr.

Mr. and Mrs. J. B. Hanks of Odessa were the only attendants. Mrs. Koonce's wedding dress was of moss green with black accessories while Mrs. Dodson's costume was of brown and tan with British Tan accessories.

Mrs. Dodson is the daughter of Mr. and Mrs. F. D. Ward and has been reared here.

Mrs. Koonce is the daughter of Mr. and Mrs. P. L. Crawley. She is a junior in Midland High School and has been active in the home making club and a member of the choral club.

Both Mr. Koonce, son of Mr. and Mrs. M. F. Koonce, and Mr. Dodson, son of Mr. and Mrs. C. W. Dodson Sr., are graduates of Midland High School.

Mr. and Mrs. Koonce are at home at 906 S. Big Spring and Mr. and Mrs. Dodson at 106 E. Washington.

MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

- 1. Should parents permit a child to speak disrespectfully of his teacher when talking to them?
2. If a child is kept in after school should a mother take the matter up with the teacher?
3. Should parents teach a small child how to behave toward a teacher, or leave the training of his school manners entirely up to the teacher?
4. If a child is asked to bring a small amount of money to school for some project, should his parents see that he take it?
5. If a child marks up library books or tears pages from them, is it the fault of his home or school training?

What would you do if—
You are a mother and your small child wants you to attend a meeting of mothers at his school—
(a) Refuse to do so if you think it might be boring?
(b) Feel that a child's invitations should be treated as seriously as the invitations of grownups?

- Answers
1. No. Respect for older persons is an important part of courtesy.
2. She should stay out of the matter. If it is really serious and the teacher wants her co-operation she will tell her so.
3. Parents should feel responsible for teaching a child to get along with his teacher and other students.
4. Yes, for co-operation should be taught a child when he is young.
5. It is the fault of his home training if he has no respect for the property of others.
Best "What Would You Do" solution—(b).

Puts Iron And Steel Scrap Under Priority

WASHINGTON (AP)—Donald M. Nelson, director of priorities of the OPM, Thursday placed iron and steel scrap under full priority control.

The OPM said the action was taken to avert a situation which it said threatened to shut down or curtail the operation of steel mills, working at full capacity on defense orders, and relieve serious day to day shortages.

Missions To Russia Arrives In Britain

LONDON (AP)—The British and United States missions to Soviet Russia arrived in Britain Thursday after their conferences with Joseph Stalin in Moscow.

Personals

Mrs. M. H. Collins and son went home from Ryan Hospital Wednesday.

The condition of Miss Edna Mae Franks, Midland County health nurse, who underwent an emergency operation for appendicitis, was reported greatly improved at a Midland hospital Thursday.

Mrs. Anna Brown is here from New York to spend the winter. She is the sister of Mrs. Fred S. Wright.

Mr. and Mrs. E. W. Love of Austin left Thursday morning after a brief visit with his mother, Mrs. S. O. Love, and his sister, Mrs. Geo. Streeter.

Mrs. B. B. Houze made a trip to San Angelo Wednesday.

Pvt. Phillip H. Auld, an instructor in the Army Air Corps mechanics school at Chamute Field, is visiting his parents, Mr. and Mrs. E. J. Auld. In the army 14 months, Auld will be transferred next month to Sheppard Field at Wichita Falls as an instructor in the army's new school there.

San Angelo Man Says Hoyt's Gave Wonderful Relief

Kidney Misery That Kept Me Awake Nights, Bloating After Meals And Gas, Were Routed By Hoyt's Compound, Says Mr. Evans.

Mr. Clarence H. Evans of 126 East Nineteenth Street, San Angelo, says: "For six years I was a victim of constipation, indigestion, gas and

Mr. Clarence H. Evans
bloating after meals. Gas caused terrible pressure. I couldn't eat pork. It seemed to cause misery, I had to get up often each night because of my kidneys. I had tried several medicines for relief, but I got no results. "I have now taken two bottles of Hoyt's and can truthfully say that after I completed them I had no more trouble with my bowels. It relieved the indigestion, gas, bloating and pressure. I no longer have to get up at nights and I get more restful sleep. I now have two more bottles of Hoyt's and I feel sure that by the time I finish taking them, I will be much more improved!"
Hoyt's Compound is recommended and sold by the City Drug Store and by leading druggists everywhere. (Adv.)

Emerald Macedoine salad will brighten any Friday dinner.

No Cloisters For Oysters:

By Mrs. Gaynor Maddox NEA Service Staff Writer

Oysters travel these days. You can get them not only along the coast but far inland. Quick freezing and rapid transportation have made this popular sea food a common dish in American homes.

OYSTER STEW (Serves 2 to 4)

One pint Bluepoint oysters, 4 tablespoons butter, 2 to 4 cups rich milk, or 3 cups milk and 1 cup light cream, scalded; salt, paprika.

Saute oysters in butter until edges curl. Add to hot milk, season with salt and paprika, and serve at once.

OYSTER LOAF A LA GARDINER'S ISLAND (Serves 4 to 6)

Two pounds beef chuck, ground; 1 cup deep sea oysters, 1/4 cup melted shortening, 1/4 cup minced onion, 2/3 cup tomato juice, 2 cups bread crumbs, salt and pepper, 2 teaspoons paprika, 1 teaspoon dry mustard.

Combine, beef, oysters, and shortening. Add onion, tomato juice, crumbs, and seasonings. Mix thoroughly. Form in loaf. Bake in moderate oven (375 degrees F.) one hour.

Friday's meatless dinner seems a little gayer when garnished with a molded salad.

EMERALD MACEDOINE SALAD (Serves 6)

One package lime-flavored gelatin, 1 3/4 cups hot water, 1/4 cup vinegar, 1 teaspoon salt, 3/4 cup sliced stuffed olives, 1 1/4 cups finely chopped celery, 1/3 cup diced green pepper.

Dissolve gelatin in hot water. Add vinegar and salt. Chill until slightly thickened. Fold in olives, celery, and green pepper. Turn into mold. Chill until firm. Unmold on crisp lettuce.

MENU

BREAKFAST: Prunes in orange juice, fluffy omelet, whole-wheat toast, coffee, milk.

LUNCHEON: Tomato juice, creamed salmon on enriched toast, celery, grapes, peanut cookies, tea, milk.

DINNER: Oyster loaf a la Gardiner's Island, boiled potatoes, carrots with parsley, emerald macedoine salad, frosted cup cakes, coffee, milk.

FRIDAY
Red Cross sewing room in the Old Heidelberg Inn will be open Friday morning from 9 o'clock until 12. All Midland women are urged to assist in the work.

Civil Service League will meet with Mrs. R. L. Blunden, 2011 W. Brunson, Friday afternoon at 2 o'clock.

Belmont Bible Class will meet with Mrs. W. L. Sutton, 511 N. Pecos, Friday afternoon at 3:30 o'clock. Mrs. W. L. Sutton will teach the lesson on the fourteenth chapter of Deuteronomy.

Needle and Thimble Club will meet with Mrs. Ray Gwyn, 807 W. Louisiana, Friday afternoon at 2 o'clock, with Mrs. E. B. Patterson co-hostess.

The weekly luncheon of the Women's Golf Association has been postponed for this week. It will be held as usual October 18 and reservations for that date may be made.

SATURDAY
Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County museum in the courthouse will be open from 10:30 o'clock Saturday morning to one o'clock Saturday afternoon.

Britain Views Reds Position With Concern

LONDON (AP)—Germany's mighty new drive toward the heart of Russia—impelling the armies that guard Moscow—was viewed Thursday with mounting concern by the British, who saw no real hope of easing the pressure on their Soviet allies by reopening a western land front.

With supply as the chief means of aid, Britain and United States missions to Moscow returned to England loaded with data on Russia's needs and pledged to deliver the goods.

Newspaper military commentators took the view that the next few weeks would decide the fate of Russia's main armies, now locked in one of the mightiest battles of history.

Reds Rush Equipment

Authoritative sources declared the twin drives Adolf Hitler launched northwest and southwest of Moscow in a race with winter had created pockets in which vast Russian forces might be trapped.

British sources heard that the Germans were hurling every land and air weapon in their military arsenal against the Red Army stand on the central front. The belief was expressed, however, that the Russians had rushed up equipment—even down to flamethrowers—that was almost as formidable.

These sources said the German push father south, from Poltava toward Kharkov, was meeting extremely stiff resistance. There was no word of further Nazi advances down the Perekop peninsula into the Crimea, nor of further Axis gains in the siege of Leningrad or Odessa.

Students Will Hold Football Pep Rally

As a pep rally for the Midland-Sweetwater football game Friday night—the first home conference game, Midland high school students and the band will parade at 7 p. m. Thursday night in the business district.

A bonfire rally will be held near the school following the parade.

Reports Roosevelt Will Name Fahy To Position

WASHINGTON (AP)—President Roosevelt was reported in informed quarters Thursday to be about ready to appoint Charles Fahy solicitor general.

Fahy has been acting solicitor general since June 13, when Francis Biddle was moved from that post into the attorney generalship. Fahy went to the justice department from the labor relations board, where he was general counsel.

According to the National Bureau of Economic Research, although population increased only two and a half times, there was an eightfold increase in output of commodities between 1879 and 1939.

Army To Employ Carbine Weapon

WASHINGTON (AP)—The army's newest field weapon, an authoritative source disclosed Thursday will be a stubby, lightweight, semi-automatic carbine developed by the Winchester Repeating Arms Company of New Haven, Conn.

The abbreviated rifle, deadly at 300 yards, was reported chosen over six other competing models, all specially designed at the army's request for a rapid-fire gun to replace the 45 caliber service automatic pistols now carried by most officers and non-coms.

The army believes that the substitution of carbines for pistols will increase the rifle firepower of every infantry regiment by 50 per cent, for the carbine is rated as both an offensive and defensive weapon, whereas the pistol is considered purely defensive.

Farmers Will Make Effort To Receive Share Of Prosperity

WASHINGTON (AP)—An effort got underway Thursday to organize millions of farmers and all branches of agriculture into a potent and unified group for the announced purpose of assuring agriculture a share of prosperity from the National Defense program.

Senator Thomas (D-Okla.) said representatives from more than 30 states and officials of all major farm organizations had assured him they would attend sessions at the Raleigh Hotel.

Thomas said he would offer this three-point program to the assembly and then "ask them to work out their own organization."

1. A proposed new bill for computing "parity prices" under present and future programs, which Thomas has introduced in the Senate.

2. A proposal that government stocks of cotton and wheat, acquired under price-supporting loans, be "frozen" or withheld from markets to avoid depressing prices on new crops.

3. A poll of farm sentiment on proposals to fix prices or place price ceilings on farm products.

Trinity Proponents Resume Arguments

WASHINGTON (AP)—Proponents of a \$14,500,000,000 navigation and flood control program on the Trinity River in Texas resumed Thursday their arguments before the House rivers and harbors committee, seeking to win its approval.

A delegation from Fort Worth was scheduled to testify during the day, with Mayor I. N. McCrary listed among the witnesses. Aron Carter, publisher of the Fort Worth Star-Telegram, was the sole Fort Worth spokesman to testify Wednesday.

Oil News . . .

(Continued from page 1)

at 2,033 feet in anhydrite. In the southwest extension area of the Apco-Warner Ellenburger pool in Pecos, Anderson Prichard Oil Corporation No. 3 Blanche F. Boren is drilling at 4,880 feet in Ellenburger dolomite topped at 4,740. One location to the east, the firm's No. 2 Boren, has reached 4,525 feet, presumably still in Permian lime.

M. D. McQuinn No. 2 O'Neil estate, shallow test west of the Apco-Warner pool, is shut in at 1,760 feet in lime with hole full of oil. It logged slight showing of oil and gas from 1,610-19 feet, an increase in gas from 1,619-25 feet, and showing of oil from 1,625-45 feet, where oil rose 240 feet in 48 hours. Another showing of oil was encountered at 1,650 feet.

Plymouth Oil Company No. 1 D. L. Alford et al, West Texas' deepest active test, is drilling at 9,955 feet in black shale. It is in Eastern Upton County about 10 miles northwest of the Big Lake Ordovician pool of Reagan County.

In South Central Mitchell County, Humble No. 1 I. L. Ellwood estate is drilling Pennsylvania sand, shale and lime at 6,718 feet. It is slated to test the Ordovician.

Shell Oil Company, Inc., No. 1 Sealy-Smith Foundation, scheduled 11,000-foot test three miles northwest of Monahans in Ward County, is drilling past 5,936 feet in lime. J. S. Meriwether, Sr., No. 1 Luis Bobadilla, El Paso County wildcat, is drilling lime below 637 feet.

# Grasshopper Planes May Carry Messages

By NEA Service  
 WASHINGTON — Army orders and other important communications may be carried by "Grasshoppers" instead of being flashed by radio in wartime if ideas being worked out in current maneuvers jell. The Army's new "Grasshopper Squadron" consists of tiny cub planes.

Because military observers of the U. S. army on European battlefields have brought back stories of how easy it is for the enemy to "jam" radio communications during battles, the army has been experimenting with the little planes as message-bearing substitutes.

Taylorcrafts, Piper Cubs, and Aerocubs were invited to participate in most of the army maneuvers in various sections of the country during this summer and autumn. As members of the Grasshopper Squadron, they have been undergoing test runs with an eye to their extensive use.

**THEIR IS A THREE-FOLD JOB**

The small and very maneuverable are feared to a three-fold mission: they carry messages from one army CP (command post) to another. They are used to transport army officers from one battleground sector to another. And they are being tested as observers and locators for artillery fire.

The aerial jeeps are not armed and they operate strictly in the rear of the forward echelon.

The cub planes are perhaps the easiest of all aircraft to pilot. What the army brass hats have in the back of their minds is to draw from the big pool of civilian pilots trained in the government-sponsored, Civilian Pilot Training Program. It is believed that graduate pilots from

this course, pilots with 30 to 35 hours of actual flying experience, can be intensively trained by the army for a few weeks—and then emerge as capable behind-the-lines army pilots.

During the Tennessee maneuvers and the later Louisiana maneuvers, the little planes operated with effectiveness. Instead of being assigned to any one of the major air task forces, the little planes were allotted to the army command posts out in the field.

**TOOK OFF ON PUBLIC HIGHWAYS**

Under leafy camouflage they would remain near the commanding officer's tent, and when he had a message that ought to go to another CP, or to the corps headquarters, the cub plane would be pushed out on the concrete highway. The military police would hold up traffic momentarily, never more than eight or 10 minutes, and in no time the grasshopper plane would run a short distance down the hard-surfaced road, take off, and be above the trees cruising along in next to no time.

The planes habitually fly very low, and they are camouflaged on top so they blend with the forest or ground immediately below them. In this way they expect to escape the notice of enemy combat planes cruising across the front lines.

Even if sighted the cub planes would be extremely hard to knock down because of their agile maneuverability. Flying at 40 miles per hour, the cubs can dodge, zig zag and swing completely about in a circle 150 feet across. Fast fighter planes find it extremely difficult to fly less than 200 miles per hour—and it usually takes half a mile for them to swing about and turn. The cubs would probably be out of the air and under cover in that time.

## CAN'T KEEP GRANDMA IN HER CHAIR

She's as Lively as a Youngster—Now her Backache is Better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and wastes out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your system, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, biliousness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 10 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## Travel Costs Rise With Federal Levy

WASHINGTON (AP)—The cost of travel will go up 5 per cent at midnight Thursday night because of a new federal tax.

The transportation tax was included in the recent big tax bill, but the effective date was made 10 days later than other excise provisions.

The tax is 5 per cent of the amount paid for passenger travel on a railroad, bus line, air line, ship route. Ordinarily it will not apply to local buses and street cars, because tickets costing less than 35 cents are exempt. Taxicabs are exempt, too, because the tax applies only to transportation over regularly scheduled routes.

## Behind The Headlines

By DeWitt MacKenzie

The Russian position on the fighting front is exceedingly grave, but not hopeless.

The greatest danger to the Red defense line in the Central sector west and southwest of Moscow.

Here the Nazis have continued to drive into the Bolshevik line the two long salients from which great encircling movements have been thrust out in an effort to surround and destroy sections of the enemy forces. One of these salients extends along the direct Smolensk-Viazma route to the threatened capital, and the other is farther south in the strategic Bryansk-Orel area.

The Germans Thursday morning claimed to have crashed through this vital central sector and to have encircled from sixty to seventy Red divisions. This would mean between three-quarters of a million and a million men.

If this is true it will tax Soviet Marshal Timoshenko's skill to the utmost to avert a major disaster. A collapse of the Russian defense in the center would make it exceedingly difficult for the Reds to save the situation to the north and south, especially in the latter sector in the Ukraine where Marshal Budyenny is fighting with back to wall.

To Encke, Destroy, Kill.

The initiative and the advantage rest with the Germans in this writing. Whether the invaders are able to exploit their gains depends on a matching of wits between attacking Marshal General Fedor von Bock and defending Marshal Timoshenko.

Bon Bock's strategy is to encircle and annihilate—to kill and capture men rather than to take territory and cities. Timoshenko's defense must be to evade those great encircling arms of steel, and to extricate his troops if the Nazis actually have encircled them as claimed. The Red commander must do all this and still maintain the defense of Moscow, and contact with the Red Army on his right and left. Some task!

The Nazis are smashing their way into the Red defenses by sheer weight of numbers and equipment. Men are being flung into the lines with the abandon which always has characterized German military operations. It may easily be that history never before has recorded a battle of such dimensions as is now proceeding on that crucial central front.

## Ballad Singer Dies In Chicago Hospital

CHICAGO (AP) Helen Morgan, whose name was synonymous with tearful love ballads ever since she starred in Flo Ziegfeld's "Show Boat" 15 years ago, died Wednesday night.

The 41-year-old torch singer, stricken last month while in Chicago for a theatrical engagement, had been in critical condition since an operation Sept. 25 for removal of the spleen. She was given 13 blood transfusions and had been unconscious for several days.

Her husband, Lloyd Johnson, wealthy Los Angeles automobile dealer whom she married July 27, and her mother, Mrs. Lulu Morgan of High Falls, N. Y., were at her bedside in Henrotin Hospital when she died.

## Japan Reports Big Chinese Offensive

SHANGHAI (AP)—The greatest offensive of the Chinese army in four and a quarter years of warfare is apparently under way Japanese army sources said Thursday.

They reported that 80,000 Chungking troops attacked Japanese forces Oct. 3 on all fronts of Central China and said fighting was still in progress north, west and south of Japanese-held Hankow, Yangtze River port.

Japanese said the principal Chinese objective was Ichang, which Generalissimo Chiang Kai-Shek ordered recaptured, and it was acknowledged that a Chinese division had occupied some frontal positions, there briefly. The Japanese declared they later recaptured those and his place was taken immediately and shouted that they surrendered.

**DIARY OFFERS EVIDENCE AGAINST ACCUSED YOUTH**  
 CAPE MAY, N. J. (UP)—If 19-year-old George Marsh of Philadelphia ever keeps a diary again the chances are he will not address it as "dear."

Arraigned before Judge Thomas Siddall charged with breaking into a road stand, the youth said it was his first offense. State Police Detective Harry Cox, however, said he found Marsh's diary containing accounts of a service station robbery and the theft of two cars.

Asked why he kept the diary, Marsh replied: "It was just a habit." The Court ordered him to get and keep the habit of staying out of Cape May County.

**STUDENT IN DATA QUERY APOLOGIZES FOR TEACHER**  
 HARTFORD, Conn. (UP)—A Tombstone, Ariz., high school student, satisfied only with first hand information, sent the following letter to the Hartford Chamber of Commerce.

"Will you please send me some information about the following: 'Main industries — Scenic Points — Educational institutions — Commercial aspects—Working conditions — Population—historic points of Hartford, Conn. I need these because I have a teacher with peculiar ideas.'"

**RAIDS STRAIN RELATIONS NEAR U. S. BORDERS**  
 OYOSOOS, B. C. (UP)—The usually friendly relations between Canada's Mounties and braves living on the peaceful little Chopaka Indian reserve near the American border here are somewhat strained.

The cause of the breach in relations are raids staged on homes in the reserve by the Royal Canadian Mounted Police in search of goods imported from the United States without payment of duty and in violation of the foreign exchange board regulations.

**NO-FLASK LAW IN OHIO COVERS MILK BOTTLES**  
 COLUMBUS, O. (UP)—Ohio's liquor enforcement act is now so stringent babies can be fined \$50 for pulling the nipple from a milk bottle in public.

Seeking to penalize toppers from carrying flasks, the general assembly approved the law, but neglected to limit it to alcoholic beverages. Any persons with an open bottle (of milk or liquor) in public places would be technically guilty of violating the law. The fines set up range from \$10 to \$50 for each offense.

**BROTHER MEETS BROTHER TO ONE'S EMBARRASSMENT**  
 ELYRIA, O. (UP)—Mike Kirsch, felt he should know the stranger who came into his cigar store, but couldn't quite place him.

"Don't you know me?" the man asked.

Kirsch looked at him closely. "I'm sure we've met some place, but I can't remember where," he said.

The stranger then introduced himself. He was John Kirsch, a brother who had been away for 22 years.

You can't fail to make perfect frosting the KARO way!

For frosting that's fluffy, flavorful—frosting that doesn't get sugary and crack—frosting that piles up nicely, looks beautiful and cuts smoothly—follow this fool-proof Karo recipe:

**PERFECT KARO FROSTING**  
 3 cups granulated sugar 1 tsp. vanilla  
 1/2 cup Karo (red label) 1/2 tsp. salt  
 1/4 cup water 2 egg whites

Cook sugar, Karo, and water over low heat, stirring only until sugar is dissolved. Then boil rapidly, without stirring, to 242 degrees F., or until syrup forms a firm ball when a small amount is dropped in cold water. Add vanilla and salt to egg whites, and beat until stiff but not dry. Pour syrup slowly in a thin stream into beaten egg whites, beating constantly. Continue beating until mixture will stand in peaks and is of consistency to spread. Makes enough frosting for filling, top and sides of 3 (9-inch) cake layers.

### Bulldogs Take Hard Last Practice For Sweetwater With Club In Good Condition For District Game Here

Midland's Bulldogs Wednesday took a last hard drill for Friday night's conference game here with the powerful Sweetwater Mustangs.

Coach Earle Clark gave new plays and pass catching backfielders was absent from practice, Kelly has been sick all week and is not expected to be ready for Friday night.

The rest of the Bulldogs are in top shape with the exception of Gene Estes, who has a sore neck, and Tom Tisdale, a ball. Estes is a tackle; Tisdale, a back.

News from the Mustangs' corral lists one hurt pony back. He is Mark Yoakum, out with a broken hand. Yoakum is not a regular but is one of the first-line replacements of Sweetwater.

**Works On Pass Plays**  
Big guns of the Mustang attack, Flanagan, Young, Turner, Hedrick, Eberle, Wilkinson, Hawley Mays are ready for the whistle. They are lettermen.

Sweetwater has worked on pass defense this week and although the Midland pass plays worked against them earlier in the week, the fast and agile Ponies have stopped the aerial game cold two days straight.

Sweetwater with a crushing ground game that brought them almost a 1,000 yards in three pre-conference games is expected to stick to the turf but can pass if necessary. The Mustangs swing into offensive action from the "T" and box formations, with Flanagan totting the mail.

Midland again will put its potent aerial attack on the line with Wheeler throwing, and Watson and Lester, catching. Ivan Hall will be ready to speed on the ground.

Results of bowling matches Wednesday night in the city league follow:

### Sports Roundup

**By Hugh Fullerton Jr**  
NEW YORK (The Special News Service)—Here are some guys who ought to sympathize with Mickey Owen and the Dodgers.

Forrest Main, a pitcher for Idaho Falls in the Pioneer League, had a no-hitter against Boise with two out in the ninth when Jack Radtke bounced an easy one and Shelly McConnell, the second sacker fell down trying to make the throw.

The American Football Statistical Bureau's first compilations released Thursday showed Southern and Midwestern outfits topping the figures for total offense and defense.

On offenses, Northwestern, after its thorough 61-3 whipping of Kansas state, holds first place with a 521-yard average for the one game.

Defensively, it's Georgia, which in two games against Mercer and South Carolina held the foe to only 11.5 yards per game.

Georgia, which gets its first stiff test this week against Mississippi, also ranks third in total offense—gains rushing and passing—rolling up an average of 438.5 yards per game.

West Coast reporters here for the series spent a lot of time quizzing the Southern about Duke after the Blue Devils knocked off Tennessee. They'd like to see Wallace Wade's boys in the Rose Bowl again if all goes well.

Wonder if those cops who pinched Gerry Priddy and Johnny Sturm in Jersey were trying to square up for the Bluecoats who got in Mickey Owen's way on that play?

**Today's Guest Star**  
Carter (Scoop) Latimer, Greenville, S. C. News; "Mickey's muff of that third-out strike saved the American people at least a million bucks that would have been spent on tickets, drinks, etc., for the sixth game at the Stadium."

**Jacobs Beachcombing**  
Local papers are blasting the N. Y. Boxing Commission for suspending Ray Carlen and Willie Gilbert for letting their fighters coast.

They want to know if its good strategy to say "go in there and get your block knocked off." Joe Gould is offering Red Cochrane \$15,000 to fight Young Kid McCoy for the welter title either here or in Detroit.

Howard Pollet is going to get a new manager, Hell marry Virginia Clark in New Orleans Oct. 18.

**A Y's Move**  
The football rule-makers have forbidden Ozzie Solem's "Y" formation in which the center faces the backfield. Maybe they thought Ozzie had the guy sitting on the ball to hatch out some new trick plays.

Dutch Bergman, former Catholic U. coach who was supposed to be getting ready to buck the Redskins in Washington next year, has taken a job officiating National League games.

Players who have run into Temple say that Al Druis, the blocking back, is a better ball player than the highly-rated Andy Tomasic.

**Kermit To Use Passes In Game**  
KERMIT (Special)—An aerial attack will be Kermit High's weapon against heavier Pecos high here Friday night in a T.A. conference game.

Pecos is one of the favorites in the title chase and possesses a score-producing ground and air attack.

Both clubs won their opening conference games, Kermit taking Crane, 25-13, and Pecos overpowering McCamey 33-12.

Kermit will be outweighed 10 pounds to the man.

**Members Of Baptist Brotherhood Elect Crane Man President**  
CRANE (Special)—John North of Crane was elected president when the zone brotherhood of the Baptist churches of Rankin, McCamey, Sheffield, Inman, and Crane met Tuesday.

John T. Kee of Odessa was principal speaker. McCamey will be host next month.

The outgoing president, J. A. Edwards, McCamey, was in charge of the meeting. North gave the devotional, and A. L. Byrd sang a solo, accompanied by Edwards.

Taylor White, Odessa, gave the invocation, and Miller Harris a resume of the organization's work.

Registrations were the following: McCamey—Jack Ott, the Rev. LeRoy Smith, Edwards, Wilbur Harris, Jerry Bass, V. V. Randall, C. G. Forrester, Elmo Mitchell, G. F. Coles, W. B. Seales, O. O. Barrett; Odessa—W. L. McHaffey; Crane—G. D. Jones, Lassiter, Fred Gray, L. B. Russell, D. E. Lockhart, W. E. Wood, V. A. Hayes, R. M. Knight, Miller, Harris, Jim McCorkle, D. L. Crittenden, R. B. Shahan, E. N. Beane, Lois Virdell, Paul Malone, R. E. Webb, J. B. Ashburn, O. S. Reynolds, George Inlow, Geo. Ashburn, A. L. Byrd, W. J. Mathes, W. O. Mays, W. O. Murray, C. R. Stonecipher, North, R. L. Anderson, and the Rev. Philip Brown.

**Fort Wayne, Ind. Cited For Low-Cost Housing**  
FORT WAYNE, Ind. (UP)—Fort Wayne's newest housing project is the "lowest cost, low-rent housing project in northern United States," Administrator Nathan Straus informed officials here.

He said the average net construction cost of the units, \$1,830, was 15 per cent less than the previous low in the northern area. The previous low was \$2,137, set by the Armistead Gardens in Baltimore, Md.

The Fort Wayne project, Westfield Village, is built on a 15-acre tract and will house 120 families when completed. Base rental will be \$12.50 for a unit containing living room, two bedrooms, kitchen and bath. Rentals will rise a dollar a month with each additional bedroom.

### Season Football Favorites Take Statistical Lead

**By Gail Fowler**  
SEATTLE (AP)—Football teams which most experts picked to clean up this season are doing all right in the early statistics.

The American Football Statistical Bureau's first compilations released Thursday showed Southern and Midwestern outfits topping the figures for total offense and defense.

On offenses, Northwestern, after its thorough 61-3 whipping of Kansas state, holds first place with a 521-yard average for the one game.

Defensively, it's Georgia, which in two games against Mercer and South Carolina held the foe to only 11.5 yards per game.

Georgia, which gets its first stiff test this week against Mississippi, also ranks third in total offense—gains rushing and passing—rolling up an average of 438.5 yards per game.

West Coast reporters here for the series spent a lot of time quizzing the Southern about Duke after the Blue Devils knocked off Tennessee. They'd like to see Wallace Wade's boys in the Rose Bowl again if all goes well.

Wonder if those cops who pinched Gerry Priddy and Johnny Sturm in Jersey were trying to square up for the Bluecoats who got in Mickey Owen's way on that play?

### Down SPORTSLANE With Tanner Laine

A letter from Austin high at El Paso is a posey to Midland for that good old hospitality displayed when that school brought its team, band, pep squad, and a large following of fans here Sept. 26. Read it, written to Bill Collins, Chamber of Commerce secretary:

"Just a note to tell you how we enjoyed the many courtesies as we visited the old home town last Friday (he formerly lived here). The interest in our trip was greatly appreciated. Our students, including the football players and coaches, are high in praise for Midland hospitality. Yours very truly, W. W. Wimberly, Principal."

The trip here was the official school trip of the year for Austin high and besides taking back a grid victory, they took back praises for Midland which won't hurt us a bit.

Fred Harrell, sports writer of the Sweetwater Reporter came out with a brand new column "Between The Goal-Posts." He dedicates it to support of the Sweetwater Mustangs, win, lose, or draw. Harrell joins the other column scribes in 3-AA, such as Blundy Cross and "Top 'O Morn," at San Angelo; Jack Douglas and "Looking 'Em Over," at Big Spring; Howard Green at Abilene; and (pardon it please) Tanner Laine and "Down Sportslane," at Midland.

Dewey Johnson, basketball coach at Midland high school and an assistant grid mentor, is married. His marriage to the former Miss Lena Snitker, football queen at West Texas State Teachers in 1939, was announced this week. It happened in July at Roswell, N. M. Sportslane saw her picture on Johnson's dresser in the bachelor quarters he shares with Coach Earl Killough of junior high and surmised it was a "Mrs." Mrs. Johnson is teaching this year at Sundown. The coacher at WTSTC was an outstanding athlete. He lettered three years in varsity football and was captain of the 1940 squad. He also lettered three years in basketball, being a member of the "World's Tallest Basketball team," was president of the "T Club," and was a member of the student council.

**ROUNDING UP THE STRAYS**  
Virgil Turner, fullback on the Sweetwater team, is a younger brother of "Bulldog" Turner, little All-American center from Hardin-Simmons and now professional gridster. And we bet money, marbles or chalk Emmett Young, halfback, is kin to Horace Young from Sweetwater, blocking back of the SMU Mustangs. Put the "watch for" sign on M. L. Alexander, junior high passer, for he's headed for the Midland backfield and Clark's aerial circus. He and Wilbur Yeager of the Pups can fling that pigskin. Don't get 'em mixed, Homer Robert May, plays right end for Sweetwater, and Ed Mays plays right tackle. D. H. Carter of Midland used to be a coach and reportedly tutored a college eleven. Sweetwater's backfield coach Adria Clark had nicknames of "Toy" and "Pitt-Putt" when he was in Texas Tech.

Rival coaches, Earle Clark and Red Ramsey, San Angelo, had a friendly word for each other last week about their "children." Red is the proud poppa of a boy about three weeks ago and Clark is still walking nights with Caroline, future pep squad leader for MSIS, born this summer. A pat on the back for Marvin Hoekendorf and Bill Nolen, two hustling junior high bulldog gridsters. Note to the Bulldogs a game with Wink here next week is only a possibility; Friday night's scrap with Sweetwater is a reality. Clark outran his backs in a sprint the other day, but Bob Wheeler wants him on a longer distance and Ivan Hall might beat them both over 50 paces straight running. J. W. Graham, personable athlete transferred from Courtney, is now full-fledged manager for the Bulldogs.

The big 190-pound lad is marking the calendar until he gets eligible for football and then watch out. Graham was a track, six-man football, and basketball star for Courtney and Midland was lucky to get him. Here we go out on the limb again. ODESSA over Big Spring; SAN ANGELO over Colorado City; SWEETWATER over Midland (but the Bulldogs can still play for our money); ABILENE over Lamesa; MONAHANS over Crane; PECOS over Kermit; WINK over Levelland; BAYLOR over Arkansas; TCU over Indiana (yes, Earle); SMU way big over College of Pacific; TEXAS plenty over Oklahoma; RICE to upset Tulane; TEXAS A&M over New York University; PRINCETON over Columbia; FLORIDA over Villanova; MARQUETTE over Michigan State; CLEMSON over Boston; NORTH CAROLINA STATE over Furman; SOUTHERN CAL over Oregon U.; HOLY CROSS over Syracuse; VANDERBILT over Kentucky; COLGATE over Dartmouth; SANTA CLARA over California; Washington over Washington State; CORNELL over Harvard; PENN over Yale; MISSISSIPPI STATE over Louisiana State; MICHIGAN over Pittsburgh; OKLAHOMA AGGIES over Washington at St. Louis; ARMY over Virginia Military; NEBRASKA easy over Kansas; NAVY over LaFayette; TEXAS TECH over Loyola of California; CENTENARY over Hardin-Simmons. NOTRE DAME over Georgia Tech; TULSA over Creighton; SEWANEE over Davidson; AUBURN over Louisiana Tech; and NORTHWESTERN over Wisconsin.

### Crane Lions Announce Newspaper Sale And Baby And Style Show

CRANE (Special)—Observing ladies' night, the Crane Lions Club featured Mrs. Harry Sessums of Odessa as speaker. Tuesday, announced a baby and style show for next Tuesday evening at the high school auditorium, and a newspaper sale at 10 a. m. Friday.

Mrs. Sessums who is president of the women's forum in Odessa, spoke on "Women's Viewpoint of National Problems."

With Jack Rozman contributing The Crane News, all Lions will sell papers.

Places were prepared for Messrs. and Mmes. Clifton Durham, Jack Bowman, Vance Martin, Preston Stell, Jack Porter, J. A. Vickery, L. A. Williams, M. S. Wood, D. L. Chaney, L. L. Martin, C. B. Hussey, E. A. Crites, J. L. Hutchison, R. J. Holley, J. W. Murtishaw, C. H. Hurdston, R. D. Shaffer, G. H. Wilmoth, A. S. Shaw, Harry Sessums; Mmes. Vogel, A. B. Cook, W. R. Crowover, and E. J. Wasler, E. S. Wesberry, Jr., W. V. Stell, O. S. Reynolds, A. V. Patterson, and A. E. Brown.

**Saboteur, Stymie**  
CLEVELAND, O. (UP)—Johnny Adams, the 1937 national riding champion, explains the art of stretch drives and why some jockeys seem to get more out of their mounts than others.

It's a matter of "holding a horse together," according to Adams. As simple as that.

Some race fans attribute a jockey's greatness to powers of persuasion in whispering in the horse's ears; others, more matter-of-factly, to strong hands and broad shoulders, but Adams believes he's closest to the secret.

"I guess it's just a matter of holding the horse together," Adams said. "The important thing is to help hold the horse's head up. A rider can sense when the horse is starting to tire under him. And when the horse is starting to 'fall apart,' his head keeps sagging lower and lower and becomes a big burden."

**Argentina Buying Coal In This Country Now**  
MOBILE, Ala. (UP)—An 8,000-ton cargo of Alabama coal for a utility firm in Buenos Aires cleared through the port of Mobile recently.

Mobile port authorities said that trade with the Argentine was "constantly increasing" and predicted that if the coal shipment proved satisfactory, Alabama mines would find an important outlet in the South American market.

The firm which purchased the fuel formerly obtained its coal from England and Germany. With the European nations temporarily out of the business, the Alabama mines expect their greatest competition from West Virginia mines shipping via Hampton Roads.

**Germany May Build Far East Influence**  
SHANGHAI (AP)—An increased German effort to strengthen Nazi influence in the Far East was forecast Thursday by sources who said they had learned that Berlin had appointed Heinrich Von Stahmer, one of its ace negotiators, as ambassador to the Japanese sponsored Nanking government.

Something more than a year ago Von Stahmer was most active in Tokyo where he was credited with influencing Japan's final decision to join the Rome-Berlin Axis.

**Freshman For Fourth Time Without Class Failure**  
AUSTIN, Tex. (UP)—Can anyone equal the record of Ernest Speck, University of Texas student from Llano? Speck has never failed a course, yet he is enrolled as a freshman for the fourth straight time.

It happened this way: Speck enrolled first for only part of the freshman course. He passed his work, and enrolled again as a freshman. This time he dropped out of a school. Speckman registered last fall for a third time as freshman, and passed all his courses.

When he enrolled again this fall, it was learned that Speck lacked six hours of having enough credits to be a sophomore. So it is Freshman Speck once more.

**To Attend Texas-O. U. Game**  
Mr. and Mrs. E. C. Hitchcock and Mr. and Mrs. E. S. Hitchcock left Thursday for Dallas where they will attend the Texas-Oklahoma University football game Saturday.

Others planning to go from Midland include: Mr. and Mrs. H. A. Hemphill, Mr. and Mrs. Harris Eastham, Mr. and Mrs. John Cornwall, Mr. and Mrs. William Chancellor, and Oscar Champion.

### Austin High Will Provide Test For Corpus Grid Club

**By Harold V. Ratliff**  
Associated Press Sports Writer  
Corpus Christi's high-gear machine in three games—the top scoring unit of Texas school football—gets its telling test this week, a test destined to show whether the Buc's rate the label of strongest team in the Southern region.

The Buccaneers battle Austin's once-beaten, once-tied but highly-rated Maroons at Austin Friday night.

It's an important week all the way around the field with 55 games on the schedule by districts:

The week's schedule by districts includes:  
1-Thursday: Tahoka at Borger; Friday: Austin (El Paso) at Amarillo, Bowie (El Paso) at Pampa, Breckenridge at Lubbock.

2-Friday: Vernon at Wichita Falls (conference), Olney at Burk Burnett (conference), Electra at Quanah (conference), Paschal (Fort Worth) at Graham.

3-Friday: Big Spring at Odessa (conference), San Angelo at Colorado City (conference), Sweetwater at Midland (conference), Abilene at Lamesa (conference).

4-Friday: Arlington Heights (Fort Worth) at El Paso high.

5-Friday: Bonham at Highland Park (Dallas), Denison at McKinney, Lancaster at Arlington, Woodrow Wilson (Dallas) at Sulphur Springs.

6-Friday: Aron Carter River-coach at Midland high school and an assistant grid mentor, is married. His marriage to the former Miss Lena Snitker, football queen at West Texas State Teachers in 1939, was announced this week. It happened in July at Roswell, N. M. Sportslane saw her picture on Johnson's dresser in the bachelor quarters he shares with Coach Earl Killough of junior high and surmised it was a "Mrs." Mrs. Johnson is teaching this year at Sundown. The coacher at WTSTC was an outstanding athlete. He lettered three years in varsity football and was captain of the 1940 squad. He also lettered three years in basketball, being a member of the "World's Tallest Basketball team," was president of the "T Club," and was a member of the student council.

7-Thursday: Wink over Levelland; BAYLOR over Arkansas; TCU over Indiana (yes, Earle); SMU way big over College of Pacific; TEXAS plenty over

Failure To Believe Prophecies Mistake

SAN FRANCISCO. (UP)—After a brilliant career as an inventor, business man and prophet, Cleve F. Shaffer says the greatest mistakes of his life were not to believe in his own prophecies.

He has scrap-books of newspaper clippings dating from the turn of the century in which he made prophecies out of which others have arrived at fame and fortune, but which he himself neglected to follow.

In 1909 he stepped out of an airplane made largely of canvas and baling wire at Los Angeles and declared to a gathering of newspaper men:

"I have seen a lot of California cities, but none can compare with this. There is little doubt you have here the future center of aeronautical construction in the West."

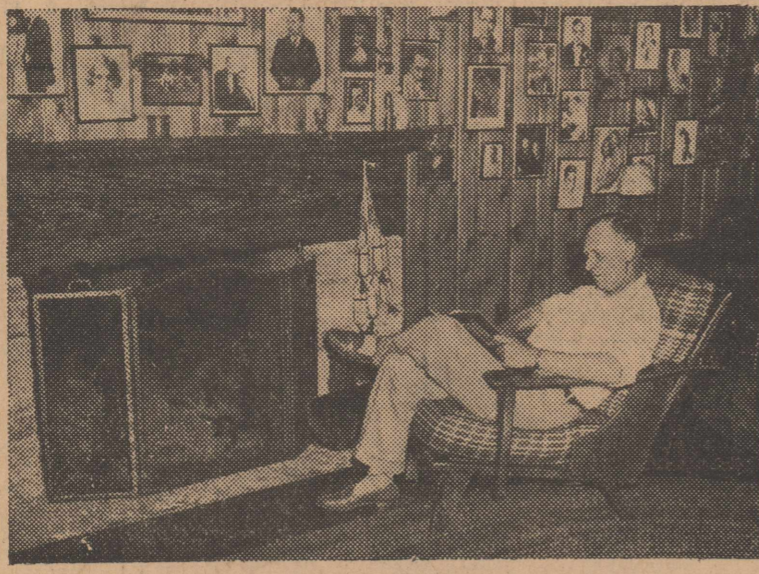

But after working for only five months with one of the first Los Angeles airplane plants, he gave up aviation as "something the public would never accept."

Men, Women Over 40 Don't Be Weak, Old

Feel Peppy, New, Years Younger Take Outex. Contains general tonics, stimulants, often needed after 40—by bodies lacking iron, calcium, phosphorus, iodine, Vitamin B. A 73-year-old doctor writes: "It did so much for patients, I took it myself. Results fine." Special introductory size Outex Tonic Tablets costs only 35c. Start feeling peppy and younger this very day. For sale at all good drug stores.

Whozat Room "Memory Room" for Singin' Sam

SINGIN' SAM calls the playroom of his Colonial farmhouse at Richmond, Indiana, the "Whozat Room." His reason? Folks visiting always ask about the pictures on the walls and keep asking, "whozat?" Sam is shown (above) relaxing in the gaily decorated room, surrounded by memories of a colorful, crowded life in show business. Some of his friends, whose pictures hang on the wall, are Bing Crosby, Amos and Andy, Jeanette MacDonald, Edgar Bergen, Jack Benny, Major Bowes, and Fred and Adele Astaire. Singin' Sam knew most of them at the beginning of their careers. "The Old Boy," he says, referring to himself, "wouldn't trade these memories for a million dollars."

SAN FRANCISCO BAY BRIDGE TO LOSE LUSTER COATING

SACRAMENTO, Cal. (UP)—The San Francisco-Oakland Bay bridge, famous combined suspension and cantilever span across the San Francisco bay, will lose its familiar shiny luster, when the next coat of paint is applied.

The Office of Production Management notified state officials that the aluminum paint formerly used no longer would be obtainable because of national defense requirements, and a gray paint without aluminum content will be substituted.

TROUT CONSERVATION HOBBY OF MASTER AND DOG ENDS

WHITTEMORE, Mich. (UP)—Edward Parker and his dog, Teddie, will give up their trout conservation pond near here to a non-profit sportsman's league, Parker has announced.

Parker for several years has tagged and fed trout in a pond he made. Teddie also likes to help. The dog not only drives fish back upstream when they elude Parker during tagging operations, but acts as an animated landing net to retrieve Parker's catches when he is fishing.

SAILOR STRIKES MATCH, FIRES SEAT OF TROUSERS

HALIFAX, N. S. (UP)—Amateur fire fighters in Halifax found a blaze to their liking in a local restaurant when a sailor's trousers caught on fire. The seaman was attempting to light a match on the seat of his trousers when the fire started.

By the time city fire equipment reached the scene of action, persons in the restaurant had quelled the conflagration with a few well-placed smacks.

Eire's Food Position Better Than Britain's

DUBLIN (UP)—Eire feels the war mostly in the increased outlay for defense, rising cost of commodities, shortage of certain raw materials resulting in dislocation of industry, and shortage of fuel and certain foods.

Eire's food position is far better than Britain's, inasmuch as it is self-sufficient in many commodities. The Irish produce sufficient meat, butter, milk, sugar, potatoes and vegetables. All but 60,000 tons of the normal wheat requirements were grown this year and Eire expects to be self-sufficient in wheat next year. Other cereals are adequate for human consumption and for normal livestock feed.

University Adopts Fireworks Program

ALBUQUERQUE, N. M. (UP)—There still will be a "hot time in the old town" the night of Oct. 17—as usual; but it won't be as expensive to the University of New Mexico as usual.

This year, for the first time, the university asserted that a planned fireworks display will replace the traditional school "homecoming bonfire," which, in the past, has been fueled chiefly with pieces of property—fences, porch chairs and the like—that the university had to make good to irate owners.

"We hope to keep the spirit up to the usual fiery pitch without the usual destruction of private property," said Tom Popejoy, comptroller.

Chutist Rescued After 6 Days, 5 Nights

Bewildered and tired but still cheerful, daredevil George Hopkins, of San Antonio, Texas, was rescued Monday night from the Devil's Tower that had held him prisoner for six days and five nights after he parachuted to its top on a \$50 bet. He is shown here broadcasting after eight skilled mountain climbers had taken him off of the tower. (NEA Telephoto)

See the Invincibles?

Official German picture radioed from Berlin shows German soldiers holding up in the face of Russian counter-attacks. Picture of scared looking youths hardly bears out legends of Nazi invincibility. (NEA Radiophoto)

Canada Solicits Southern Trade

By Lawrence S. Haas UP Latin American Editor

The Dominion of Canada is making a quiet and little publicized trade drive in South America.

James A. MacKinnon, Canadian minister of trade and commerce, with a group of government aides, has concluded a series of trade pacts with West Coast South American countries, and is about to reach an agreement with the Argentine government.

The agreements not only will widen South American markets for Canadian products, but will work to the advantage of the South American countries by opening new markets for their products in Canada. Perhaps the full effects of the treaties will not be felt until the war is ended when Canada's industry will be shifted from its present war effort to its normal status, but Canadian-South American commercial interchange should gain considerable impetus before long.

Increased Canadian participation in Inter-American affairs since day conceivably may be expanded to include membership in the Pan-American Union, which is now confined to the American republics, exclusively. Direct Diplomatic relations between Canada and several of the South American countries have been established.

Over 3000 Physicians Will Study Medicine

MINNEAPOLIS, Minn. (UP)—More than 3,500 physicians and surgeons will assemble here Oct. 13 for a four-day study of developments in medical science.

Specialists will conduct clinical studies and lecture courses in conjunction with the 26th Annual International Medical Assembly. Scheduled speakers include Dr. Frank Howard Lahey, president of the American Medical Association, and Dr. Everts A. Graham, president of the American College of Surgeons.

BRITISH COLUMBIA TAKES FIRST CHINESE CENSUS VANCOUVER, B. C. (UP)—It's a Chinese puzzle and it's never been conquered, but census officers are hopeful that soon they'll have the first 100 per cent record of all Chinese in British Columbia.

Many of them do not know their ages, but they know in what year of what dynasty they were born. For instance, a man born in the fourth year of the Hung Gee dynasty is now 74.

Moyness Report More Tourists SALT LAKE CITY (UP)—Officials at Salt Lake's famous Temple Square say the tourist season of this year was by far better than that of 1940. They reported that approximately 2,000 persons daily visited the LDS church square including the famous Mormon tabernacle.

Catholic Conference Will Start Oct. 19

HOUSTON (UP)—The Most Rev. Amleto Giovanni Cicognani, Apostolic delegate to the United States, will open the National Conference of Catholic Charities here with an address Oct. 19.

A four-day series of meetings of charity workers is expected to attract 18,000 persons from the United States, Canada and Mexico.

Although the conference is sponsored by the Catholic Church, chairman William M. Ryan of the Houston general committee extended an invitation to all members of the clergy to participate. He said that outstanding speakers and program leaders to attend are representatives of non-sectarian agencies.

Feet Should Be As Carefully-Groomed As One's Hands

By ALICIA HART NEA Service Staff Writer

Your new fall shoes may cover up more of your toes than last year's did, but your social-graces score still depends upon how well you take care of your feet.

For one thing, people are more conscious of feet nowadays. Foot-consciousness has been growing since the first Paris mannequin stepped out in barefoot sandals. And sandals, by the way, are still important evening slippers.

Feet should be as beautiful as hands. Children's usually are. The average adult foot, however, is nothing to show off in public, at least not until you've groomed it a little.

First of all, feet need a careful soaping and daily scrubbing. You can be a daily bath addict and still neglect your feet. Use a brush on them, soap them, wash them from the ankles down and up and up and down.

Clean stockings daily are an essential. And stockings should be long enough in the foot to prevent any pull whatsoever—but they shouldn't double under the heel either. Of course, well-fitting shoes which provide good balance are imperative.

A Callous Is A Warning Give your feet air and sunshine. Pad around barefooted in your own room before going to bed and before dressing. Wear barefoot sandals about the house, and don't confine your feet, ever, under too heavy shoes or comforters.

The foot is a group of bones which fit together delicately—though perfectly. When you think of a foot this way, you begin to wonder at the average foot's capacity to "take it." They stand an incredible amount of pounding against hard pavement—sometimes very different from the soft earth, which is what nature developed them for walking on.

Yet fallen arches are less common today than they used to be. When they come, though, they require expert and costly attention. A bad callous on your foot may be a signal that the arch is beginning to fall—and that's the time to catch it.

For falling arches, at the outset, may be coaxed back into place. Just remove the strain on them by turning your foot over slightly. A heavier sole on the weighted side may help to ward off a chronic condition.

# McKENNEY ON BRIDGE

By William E. McKenney  
America's Card Authority

I had the pleasure of taking J. Patrick Dunne, the blind bridge player from Miami, Fla., to the Asheville tournament with us. Pat spent the summer in Richmond, Va. where he joined us. At Asheville he played in the mixed pair championship with Mrs. McKenney. Pat lost his eyesight in a hunting accident about 16 years ago. He uses braille cards and plays an exceptionally fine game. It was the first time that Mrs. McKenney

**Mrs. McKenney**

 Pass 4♣ Pass Pass  
 Opening—♥4. 9

and he had played together. There were 76 pairs in the event and they finished fifth. The winners were Mrs. J. E. Folline of Richmond and Ben O. Johnson of Spartanburg, S. C.

Seldom if ever will Pat lose a trick on defense. Mrs. McKenney gave me today's hand, which was played in the championship game at Asheville.

Declarer won the first trick with the ace of hearts and returned the suit. Dunne, sitting South, was forced in the lead, and from now in he had exit trouble. The way he solved it was remarkable. He began with the nine of spades, won by West's ten.

West led a diamond and the king fell to the ace. Dunne now led the deuce of diamonds, and the ten forced the queen. Dummy led the queen of clubs and won the trick when both South and West played low.

Next came another trump lead for another winning finesse, and West led his last diamond. This put Dunne in for the third time, but he simply led the king of spades, forcing West in. Then Pat was bound to make his king of clubs.

## Button Front

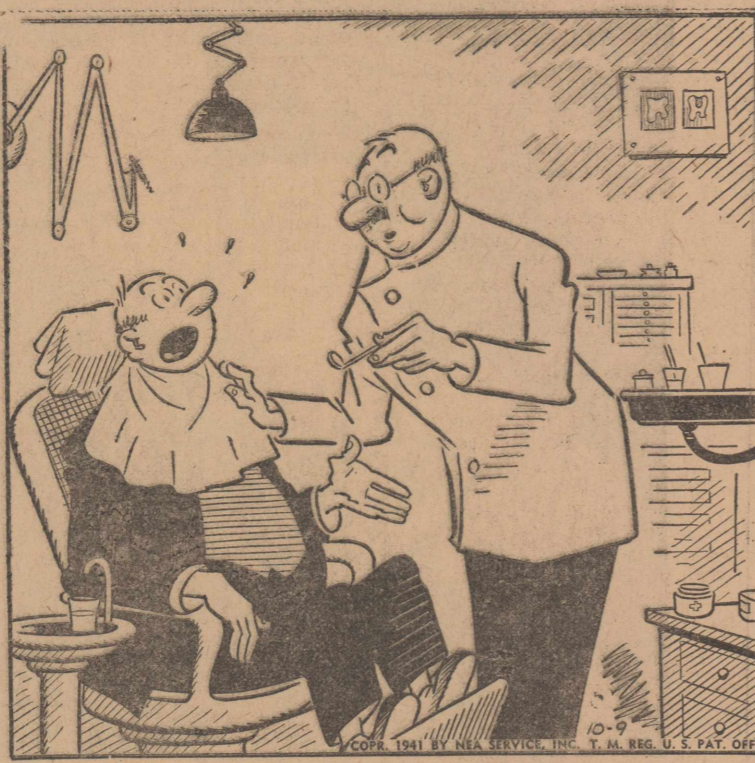

Make your new shirtwaist dress fall with a touch of newness which lifts it out of the ordinary and gives it distinction. Pattern No. 8042 adds to the clear cut lines of the classic button-front favorite a pair of panels down the front with notched pockets topping each. It is the perfect design for any new fabrics you may have in mind—a wool crepe or tweed, a vivid new plaid, a sturdy gabardine or flannel.

Pattern No. 8042 is in sizes 14 to 20; 40, 42. Size 16 requires 4 5/8 yards 35-inch material, 2 7/8 yards 54-inch. Collar, cuffs and belt in contrast require 5/8 yard 35-inch material.

For this attractive pattern, send 15c in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W. Wacker Drive, Chicago.

The Fall Fashion Book is a parade of new styles in every size range. Send for your copy today. Pattern, 15c; Pattern Book, 15c; One pattern and Pattern Book ordered together 25c.

ANSWER: Estivation.

NEXT: When Pittsburgh was almost bombed.

**SORORITY PIN IN WRONG PLACE UNCOVERS THEFTS**

OKLAHOMA CITY (AP)—A mystery yarn entitled: Mystery of the Jewel Box, was uncovered by Miss Virginia Winters when she peered into the window of a second hand shop and recognized a sorority sister's sorority pin there.

"Surely Sally couldn't have been so hungry she had to pawn it," said Miss Winters.

She hurried to Sally's home and asked her about it. Sally was surprised and scurried to the family jewel box. It was practically empty.

The result: Sally reported to police someone had rifled the box "during the past six or eight weeks" and pawned \$300 worth of jewelry in various stores.

BACK HOME PEGGY GETS HER MAN

PEGGY, YOU'VE LASSOED ME FOR LIFE WITH THIS SWELL COFFEE OF YOURS.

YOU WIN IN THE ROUND-UP—WITH FOLGER'S, GIRLS!

# Mexican Government Watches Growth Of Strange New Party Of 700,000 Members

By Marshall Hall  
NEA Service Correspondent

EL PASO, Tex.—A strange new mass movement is rising in Mexico, and it has Mexican Governmental officials guessing.

It is the National Sinarquista Union which, its leaders claim, now has an active membership of 700,000 with branches in the United States and throughout Latin America.

Some critics say the Sinarquista movement may be the forerunner of totalitarian rule. Its leaders say it will be the salvation of faction-torn Mexico.

President Manuel Avila Camacho of Mexico recently warned the Sinarquistas to watch their step.

The word Sinarquista means "without anarchy," an end to rightists and leftists and in-between factions and a "united front" of the "Mexican family." In other words: One party—and one leader.

### ALL TRAPPINGS OF FASCIST MOVEMENT

The Union has its fuhrer, a lawyer named Salvador Abascal, who demands and apparently receives blind obedience. The Union has its own banner—a silhouette of Mexico in a circle on a dark field. It has its salute—right hand across the heart. And its martyrs.

Last summer two Sinarquistas were shot to death by police in a cemetery in the town of Puruandiro, Michoacan, where members had gathered for memorial services. The police ordered them to disband because they had met without a permit, and the shooting followed.

Here enters a feature that puzzles the gun-toting Mexican politico. The Sinarquistas refuse to carry arms; they believe in non-violence—and even court martyrdom. "Hate an easy and comfortable life," says one of their "Rules of Sinarquist Life." "We have no right to it as long as Mexico is unhappy. Love discomfort, danger and death."

### NATIONALISTS AND ANTI-COMMUNISTS

Just what are the Sinarquistas

Lawyer-Leader—Salvador Abascal quit his law practice to lead Mexico's new mass movement towards a "united front of the Mexican family."

driving at? They have promulgated sixteen basic principles, the more important of which are:

"We proclaim the real union of the Mexican family . . .

"We condemn the Communistic tendency to unify all countries in a sole universal republic . . . and will defend the independence of Mexico.

"We repudiate the anti-patriotic trend to divide the people into leftist, rightist, revolutionary and reactionary parties. . . .

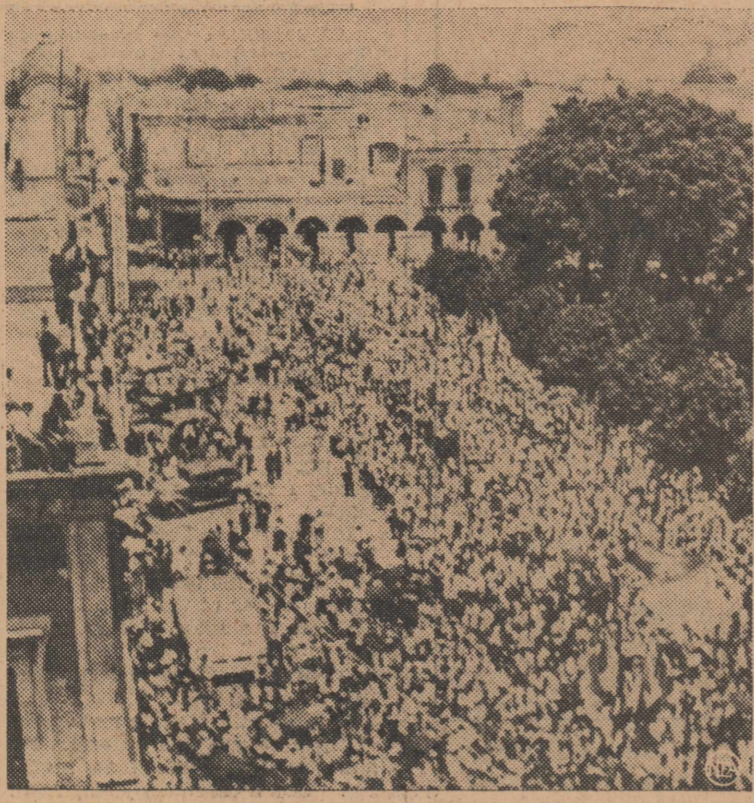

"We refuse all symbols foreign to our nationality. The Nazi swastika, the Communist Red Star are not ours. . . .

"We affirm the right of private property. To the Communistic cry of 'All Proletarians we proclaim 'All Owners.' . . . 'Sinarquism condemns race hatreds. We urge close collaboration between labor and capital.'"

### MEMBERS REFRAIN FROM VOTING

Salvador Abascal quit his law practice four years ago to organize the Union in the Mexican city of Leon, Guanajuato, with a nucleus of 400 humble followers. The Union undoubtedly has grown. At a command from Abascal 30,000 Sinarquistas marched in parade in Morelia when President Avila Camacho visited there — despite an order from the military command to disband.

Abascal is a quiet, slender, studious man who apparently tries to avoid any resemblance to dictators. Just how the Sinarquistas expect to gain control of Mexico is not clear, since they refrain from voting in elections. They evidently seek to convert everybody to their ranks.

Sinarquistas on parade—Four years ago Salvador Abascal formed the Sinarquista Union in Leon, Guanajuato, Mexico, about a little faithful band of 400 followers. When 30,000 members, above, marched in Leon recently, the movement claimed 700,000 adherents.

Right hand across the heart—Like most totalitarian movements, Mexico's mysterious National Sinarquista Union has its own salute, which some of its members are pictured giving, above. The union has a banner, a "fuhrer" and martyrs, too.

### We, the Women

By Ruth Millett

"L. N. D. O. C.," one wise father of a large family says whenever frank family comment about one of the children, either present or absent, becomes critical.

And right away someone switches the conversation to a more impersonal topic. For every member of the family knows that those letters stand for "let's not discuss our children."

By not letting his family fall into the habit of picking each other to pieces, that father not only has done a great deal to keep bad feelings to a minimum, he has given all the children a sense of personal security.

Each one knows that his faults, his mistakes, his current personal problems aren't going to be hashed over by the entire family or any combination of its members the minute his back is turned. Each one feels that his right to privacy is respected, and that no matter what he is going through at the moment it isn't going to make dinner table conversation.

"L. N. D. O. C." WORKS  
This family itself is proof that the five letter reminder, "L. N. D. O. C.," is a good idea. Though most of the children are grown and several of them are living away from home, they are still a closely knit family unit.

Instead of dreading a visit home, as so many young adults do, the children of this family manage to get home at regular intervals whether it is convenient or not. They don't do it from a sense of duty, but because they like and admire each other and enjoy catching up on the details of each other's lives.

There would undoubtedly be more congenial families if more parents would outlaw the practice of members of the family picking each other apart and dwelling on each other's shortcomings and mistakes. "L. N. D. O. C." Say it the next time one member of your family is being analyzed and criticized by the other members. Keep on saying it whenever the need arises. The members of your family are sure to end up with more real liking and respect for each other and a kinder feeling for home if you do.

### OREGON DELAYS BUILDING

SALEM, Ore. (UP)—Oregon's proposed \$1,000,000 state office building probably will not be constructed until after the national emergency. State officials believe delay would save in construction costs, keep the state out of competition with the federal government for building materials and help relieve post-war unemployment.

## General Motors Rushes Delivery War Materials

DETROIT (UP)—General Motors Corporation, the nation's biggest producer of automobiles and trucks, is speeding delivery of defense materials.

Its far-flung industrial empire, embracing 60 operating units from coast to coast, already has turned out \$209,500,000 worth of defense goods ranging from tiny ball bearings to giant Diesel engines.

Output thus far, however, represents only the beginning. G. M. scarcely has scratched the surface of a huge backlog of defense orders and will not reach peak production until the last six months of 1942. It is building 14 new plants, some of which are completed, and enlarging others.

Shipment of defense materials by General Motors through last June was composed chiefly of Allison liquid-cooled aircraft engines and parts, \$60,900,000; military trucks and transport equipment, \$45,400,000 and Diesel engines for the navy, \$43,000,000.

Plants have already swung into production of machine guns, shells, instrument equipment and various other vital armament. Deliveries of defense materials by G. M. during the second quarter of 1941 were reported 70 per cent greater than the last three months of 1940.

All African Bushmen pray to the moon and other celestial bodies, and have an extensive series of myths and legends relating to them.

## Filipinos Join Far East Force

MANILA (UP)—The incorporation of thousands of Philippine army reservists into U. S. army forces in the Far East under command of Lieut-Gen. Douglas MacArthur is progressing smoothly.

Ten Philippine army reserve regiments, numbering more than 20,000 men, have been mustered into the U. S. army. These 10 regiments did not include the army air corps, which was the first Commonwealth military unit to join the U. S. forces.

In his executive order placing "all the organized military forces of the government of the Philippines" in the service of the armed forces of the United States, President Roosevelt said these forces would remain in such service "for the period of the existing emergency."

Reliable source said the number of reservists to be called next may exceed the number already mustered. It was understood Philippine army authorities already have called to active duty the officers and non-commissioned officers who would be the immediate superiors of the reservists to be summoned.

### CUPID AT THE MICROPHONE

LONDON (UP)—The B. B. C. played Cupid in the romance of Neil Munro, organist of the BBC Puzzle Corner, and actress Anne Allan. They met when Anne played in Puzzle Corner. On the wedding day, Puzzle Corner—a recorded program—included a wedding proposal competition.

### ROOKIE BUSY ON K. P.

DRINKS 18 PINTS OF MILK  
FORT CUSTER, Mich. (UP)—A Michigan farm rookie, assigned to kitchen police duty in a mess hall here, wondered if it would be all right if he drank one of the half-pint bottles of milk.

The cook, who had been noticing him working pretty hard, said, "Sure. And if you want another one later, take it."

When they caught up to him he had put away 36 half pints. He told his K.P. buddies he was accustomed to drinking more than that at home.

### AIR CADETS FLY SHOELESS TO "FEEL" FOOT CONTROLS

TULARE, Cal. (UP)—Air cadets at the army air corps primary training school here rarely wear their shoes when they take off for flight.

They explain that modern, high-speed planes have such sensitive foot controls that heavy shoes hamper the correct "feel." Some of the pilots fly in stocking feet, but most prefer moccasins.

## States Body Can Resist Bombing

LONDON (UP)—A young English anatomist, Prof. S. Zuckerman, famous for his researches into the anthropoid ape, believes the human body can resist bombs and their blast far more effectively than bricks, mortar and concrete. Since the bombing of Britain's towns and cities by the Luftwaffe began it has been generally held that blast would destroy the lungs or other vital parts, but the main damage is due to bruising caused by the impact of the blast wave on the body's wall.

Others have been in rooms in which bombs have exploded. The buildings have collapsed around them, but they have escaped unhurt. One man was only 25 feet away from a 2,000-pound bomb.

## Australian Women Ask For Even Pay

SYDNEY, Australia. (UP)—Because many women are doing a "man-sized" job, there is increasing agitation in Australia for equal pay for men and women workers.

A conference representing 28 trade unions decided to ask the arbitration court early next year to establish the principle of equal pay for the sexes. In their demands the women have the support of a majority of the men trade unionists.

The decision of the Melbourne Tramways Board to pay women tram conductors the same scale as men is the first recognition in war-time in Australia of the principle. There are few industries in which women are paid on an equal basis with men.

### EX-BIG LEAGUE HURLER KILLS WILDCAT WITH STONE

TEMPLE, Texas (UP)—Twenty years ago, Roy Mitchell, farmer, pitched big league baseball. Recently, he demonstrated that he has lost little of his speed and control.

Wildcats had been killing Mitchell's goats and pigs. When he happened upon one of the big cats, he was unarmed.

He maneuvered it into a corner and threw a rock at it, killing it.

## "Beauty" Should Be Item On Even Most Limited Budget

By Alicia Hart  
 NEA Service Staff Writer

The fact that your budget is extremely limited is no excuse at all for being unkempt day in and day out. As a matter of fact, one who has only a few beauty preparations and a limited wardrobe often can use the preparations more tellingly and keep her clothes in better order than the woman who has creams and lotions stuffed in every drawer, more dresses than she ever steps to count.

As to clothes, the No. 1 rule for an attractive, economical wardrobe in any income bracket is: every garment in service. And it's much easier to follow that rule when you have a few carefully chosen, suitable, simple clothes than when you accumulate frills for their own sake.

**Cleanliness Costs Little**

As to beauty and grooming, the most important thing is absolute cleanliness. And soap and water cost very little. The price of a daily bath, weekly shampoo and lukewarm suds in which to wash underwear and stockings every night is so little that it scarcely dents the minimum budget.

Very modest also is the cost of electricity to heat an iron for pressing. And shoe trees, hatstands and the tiny metal gadgets which keep hair neatly curled are inexpensive in the long run. You budget them for several years—they do last indefinitely.

If you have only one cream, use it regularly and carefully every night. Remember homemade masks, made of egg, almond meal or milk, really are worthwhile, and ice-water does make the cheeks firmer, though it's no substitute for fragrant, flattering tonic. Lemon juice is one of the very best bleaches for elbows and hands. And the only thing that's needed to keep average hair lovely is that nightly, faithful brushing.

## Answers To Cranium Crackers

- Questions on Page 2**
- Newfoundland (40,200 square miles) is slightly larger than Iceland (40,000 square miles).
  - Azizia, a village in Tunisia, Africa, recorded a temperature of 136.4, one of the hottest places on earth; Verkhoyansk, Siberia, is known as the coldest inhabited spot in the world, with a reading of 90 below.
  - Caribbean Sea is 7614 feet deep; the Mediterranean, 4560 feet.
  - Mt. Shasta, 14,380 feet, in California, is higher than Pike's Peak, 14,180 feet, in Colorado.
  - World's water area is 139,440,000 square miles, land area is only 57,510,000 square miles.

## Hold Everything!

"He says he doesn't have to take orders from us any more—he bought a defense bond and that makes him a stockholder."

## Uncle Sam Needs You For Defense Jobs

Announcement of open competitive, unasssembled examination for the position of, storekeeper, assistant storekeeper, junior storekeeper, checker, junior checker, stock clerk, under checker, with a salary range of \$1800 to \$1260 yearly. Place of employment, War Department, Air Corps, Midland, Sherman, Lubbock, Mission, Texas, Lake Charles, La. Do not apply for application unless you have had experience in the receipt, storage, and issuance of shipment of supplies, stocks, and material, and in the systematic keeping of records thereof.

For application blanks and further information see Frank Smith, U. S. Civil Service Secretary at the Midland Post Office. Closing date for filing application October 21, 1941.

## BONE FRACTURE PATIENTS NOW EXERCISE IN BED

**LONDON (UP)**—A woman surgeon's bravery while she was bedridden has brought about a new method of treatment for convalescent and crippled patients.

The surgeon fractured her thigh, and was forced to bed. But she was determined that she would preserve her fitness.

Using the support of ropes, springs and slings, she thought of a way by which she could exercise the arms, legs and body muscles while lying in bed, and by means of this idea considerably reduced her period of convalescence.

Other results of the treatment have been found successful, and the plan is in use in many hospitals.

## MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below.

- Is it good manners to brag continually about your home town when visiting another city?
- If an acquaintance tells you what town he is from and you have been there should you try to find something complimentary to say about it?
- If you live in a city and visit a friend who lives in a small town should you laugh at small town customs that are unfamiliar to you?
- Is it a good idea to say to the visitor you have just met, "Well, how do you like our town?"
- When you meet a person from a different part of the country is it good manners to talk about how different the people are in his part of the country?
- What would you do if—  
 (a) A house-to-house salesman rings your doorbell and you do not want to buy his product—  
 (b) Tell him so in a pleasant but definite manner?  
 (c) Even though you know you will not buy it, let him give his sales talk?  
 (d) Feel that you can turn him away rudely in order to get rid of him in short order?

### Answers

- No.
- Yes.
- No. For it is just fishing for a compliment, as he must say he likes it whether he does or not.
- No. Not unless you are sure he will find the differences complimentary to his part of the country.
- Best "What Would You Do" solution—(a.)

### SPECIAL LICENSE NUMBERS COST EXTRA IN FLORIDA

**TALLAHASSEE, Fla. (UP)**—Florida motorists who want special numbers on their automobile license plates will have to pay for the privilege in 1942.

Previously, if a driver wanted a license number that corresponded with his telephone number or street address, he had it reserved at no extra charge. But the 1941 legislature passed a measure fixing a \$1 fee for special numbers. The revenue will go to dependent children.

### ZEPPELIN ALUMINUM RELIC DONATED FOR WAR PLANE

**ZANESVILLE, O. (UP)**—L. F. Thoral, Zanesville sheet metal worker and war veteran, hopes that a part of a former German Zeppelin may appear over Germany again as the part of an American-made British bomber.

When the ill-fated German airship, L-49, fell behind the French lines in 1917, Thoral obtained a piece of aluminum from the demolished craft. The material was donated to Muskingum county's recent drive for cast-off aluminum.

## SERIAL STORY

## MURDER IN PARADISE

BY MARGUERITE GAHAGAN

COPYRIGHT, 1941, NEA SERVICE, INC.

**THE STORY:** The suspicion of many resorters at Paradise Lake rests on pretty Jennie Morris when the body of sophisticated Herbert Cord, with whom Jennie had romanced for two summers, is found by Henry O'Connor and her mother, Maudie. Miss Miller, Jennie's straight-faced spinster aunt, had bitterly objected to Cord's attentions, felt justified when he came to Paradise this year with another girl, Margie Dixon, introducing her as his fiancée. Mary talks at the man with its elderly proprietor Chris Gordon, who sheds no light on the mystery. She returns to the cottage to find a young man interviewing her mother.

### THE NUMBERS GAME

#### CHAPTER V

**AS** soon as I saw the pencil and paper in the young man's hands, I realized what was happening.

It was hard to be firm with Tod Palmer, for that was his name, according to Maudie, who said that he was editor of the Lake County Gazette, the little weekly paper that gave all the local news from strawberry festivals to farm auctions.

Both he and Maudie sensed my attitude about this interviewing and Maudie hastened to soothe me. "He's a charming young man; not at all like the newspapermen we know." Maudie always had a weakness for members of the fourth estate because of papa who had made her married life a three-ring circus with his strange assortment of reporter friends.

But she was right in saying that Tod Palmer wasn't like the newspapermen we knew. He was young, about 25, with nice wavy brown hair and steady brown eyes that were serious in his tanned, angular-jawed face. Maudie already had done most of the interviewing, I was happy to learn. She informed me that Tod—for he was the type of youth one could call by his first name immediately—had worked in Detroit a few years before coming home to edit the little weekly paper his father had left him as the result of a life's work. Tod was the sort to fit into a little community, too. He was patient, kind, tolerant, but for all that direct and a thorough sort of young man.

"Neither of us has much to tell," I insisted. "We don't know why, how or by whom the man was killed and that's what makes the story."

He agreed. "We'll have to wait for the inquest for light on those matters."

"But," said Maudie, "I should think if you snooped about a bit you could find what people have motives, and what those people were doing last night. I'm sure that's what I'd do."

"But you've no part in this picture," I reminded her grimly. Before she could do more than give me a cold, dignified glare through her glasses a car stopped outside and I heard a voice calling.

**FROM** the look of absolute delight on Maudie's face and the sinking sensation in my own interior, I knew who had arrived. Why it had never occurred to me that Denny would come, I don't know, except that things had moved so swiftly as to leave me more confused than usual. But he was there. Dennis Flynn had worked with the boys in the city room and was one of the best crime reporters in town. If he was here now the story must have big angles, I thought, following Maudie outside.

I sort of gathered myself together, figuratively speaking, because Denny did things to me. I hadn't seen him in a year and I hoped now that the sight of his red head and freckled face with the funny, crooked eyebrows wouldn't make me feel in a way no teacher of Lit. I should feel. I'd felt that way about him for a long time and I had put up with a lot, too, because being with Denny after teaching smartly sophomores in high school day after day was like changing from Cinderella into the traditional fairy princess.

I mean life to Denny was a grand adventure, only sometimes the adventures were too crazy. It was one of those that he had taken in stride that finished things between us a year ago. After all a school teacher has her reputation to consider, and I was quite sure the Board of Education wouldn't approve of his calling for me in a patrol wagon he happened to catch a taxi out to our house.

Well, Denny had met Tod Palmer when he was out this way on some state assignment, and the way young Tod looked at him I could see he was another pushover for the Flynn charm. The young reporters always were that way. Denny stood for the old type school of newspaperman to them and they were naive enough to hang on his every word in open-mouthed admiration. At least, I thought, I can look at him without such an expression on my face. The vision of that Black Maria parked before the house while Denny waited to escort me to the theater in it was still vivid in my mind.

We sat there, Maudie and I, and listened to Denny and young Tod put the pieces of the picture of

the crime together. Where Denny had acquired all his information I don't know, but he knew what we knew and more besides. Maudie was in seventh heaven. While passing out beer and goose-liver sandwiches, which she had made in about two minutes, she managed to ask all the questions she had been mulling over.

**DENNY** let her talk. "Sorry, Maudie darling, but I don't think there's going to be much romantic mystery," he told her finally. "Maybe this little country dame Jennie did have cause to bump Cord off, and maybe your green-eyed Dixon gal had just as good cause, but he was plugged by a good old 32 slug and, knowing his pals in town, I'd say it was the work of the numbers boys."

I was nonplussed, but Maudie put it into words. "Numbers boys? I suppose you mean the ones being investigated by the Grand Jury," she said. Maudie keeps up on the news.

"Cord had been doing a little fine manipulating," Denny said. "He was getting his cut all right and he was due to be called by the Grand Jury. He's been around town long enough so that someone probably figured he'd talk and talk plenty."

Maudie looked bewildered. "What's the matter?" I demanded. "You've still had a murder. Aren't numbers boys exciting enough? Here you've had one right in your back yard, so to speak, with a smoking gun in his hand and a nice corpse left as a remembrance. What more do you want?" Personally I felt like drawing a big breath of relief.

I don't know just what I expected to develop out of that crime, but now I was sure that little Jennie Morris wouldn't be involved, and her faded romance with Cord wouldn't have to be blazoned across every front page. But that feeling wasn't evidenced on Maudie's plump face.

"You may be a good leg man, Dennis Flynn, but this time you're wrong."

"How come, darling? What do you know that I don't know?"

She went into one of her dowager freezes and flicked the ash into the tray at the crucial moment. "You're such a great reporter you should know all the possibilities," she said with dignity.

Denny looked at me and a flicker of doubt clouded his eyes. I felt a moment's panic myself. Maudie spoke with such authority. (To Be Continued)

### PHILIPPINE CAMPAIGNER AT LAST GETS MILEAGE

**ROCK ISLAND, Ill. (UP)**—In 1898, Norman P. Ramsey, now a brigadier general in charge of the army arsenal here, returned to the United States from the Philippine Islands, where he had been stationed during the Spanish-American War.

From 1898 until last summer Congress periodically passed a bill granting mileage to Philippine veterans. Each time it was vetoed. Now, 43 years later, Ramsey has received a \$382.94 check representing mileage.

### CENTRAL VALLEY PROJECT COSTS \$69 PER MINUTE

**SACRAMENTO, Cal. (UP)**—California's huge Central Valley project, a rampart against flood and drought, is costing \$69 a minute to construct, according to R. S. Callard, district engineer for the U. S. bureau of reclamation.

Forty states already have furnished about \$30,000,000 worth of material and expenditures to date top \$80,000,000. The current cost is about \$3,000,000 a month, including both materials and payroll.

### MISSOURI CO-EDS OUTRANK MEN IN CLASS STANDING

**COLUMBIA, Mo. (UP)**—The girls at the University of Missouri get the prize for being best students by a wide margin.

Recently compiled figures on grade averages for the second semester of the last school year showed the men with 219 out of a possible 400 points. The girls were 22 points better.

Basketball players had a lead in brain power over football men, getting 226 while the pigskin pounders had 190. The boys in fraternities had 209 and those not belonging to Greek letter societies scored 215.

### TWO AMBITIOUS MERGED. HE'S SOLDIER IN ALASKA

**AUDUBON, N. J. (UP)**—Harry W. String, 24, had two ambitions in life—one to see Alaska, and the other to be a soldier.

He decided to realize both of his dreams by enlisting in the army for service in Alaska. But that wasn't so easy. He resigned his job and went to the Camden, N. J., recruiting station. He was informed there, however, that the only way of getting to Alaska was to go to the West Coast and enlist.

He sold his motor car for \$250 and bought a second-hand auto for \$45 and set out for Spokane, Wash.

Two weeks later on his arrival he sold his battered car for \$20 more than he had paid for it, which covered the cost of his coast-to-coast trip.

Then he enlisted for three years duty with the regular army in Alaska. Within two days, his ambitions were realized—he was parading the streets of Anchorage in a khaki uniform.

## DUSTY DEFENDERS OF BRITAIN

Endless mass of motorcyclists rolls out of the dusty English countryside. These mechanized units in Britain's great anti-invasion forces are armed with American Tommy guns.

**Midland High Vs. Sweetwater High**

The wild Mustangs of Sweetwater high, "the team" to beat in District 3-AA this year, come bucking into Midland Friday night at 8 p.m. to test Coach Earle Clark's "pass-minded" Midland Bulldogs. Picked by all the coaches and sports-writers for the title bunting this year, coaches Larry Priddy and Adrian Clark at Sweetwater have a big, balanced, and fast team, studded with veterans and capable performers. Spearheads of the Ponie's attack are Marion Flanagan, state leading scorer, at halfback and Sparky Eberle, bidding for all-district honors at center. Sweetwater holds decisions over Brownwood and Graham this season in pre-conference play. It is their first conference tilt. Midland has lost one conference tilt and two pre-district tilts. The game is the first home conference melee for Midland.

**1941 Schedule**

- Sept. 12—Midland 6, Ysleta 13.
- Sept. 26—Austin Hi 26—Midland 12
- Oct. 3—San Angelo 13—Midland 6
- Oct. 10—Sweetwater, here, Friday
- Oct. 17—Open.
