The Moscow radio, however, insisted that the big industrial city of Kharkov, Russia's "Pittsburgh of the Ukraine," was still in Soviet possession. Official German reports said the city fell last Thursday.

Adolf Hitler's field headquarters picturing the Russians as on the run, reported that German troops Monday penetrated the town of Kramatorskaya, 100 miles southeast of Kharkov, in the sweep through the Donets Basin.

"Thus the Soviet Union has lost one of its biggest tank factories," the Nazi communique said. Other important industrial towns

were taken by Hungarian units. Pursuit of the retreating enemy is being continued."

German front-line dispatches said bad weather was proving a powerful ally of the Russians, but asserted the Red armies already were defeated from a military point of view and that a break in the weather would bring the destruction of remaining Soviet forces and "thus conclude the war in the East according to German plans."

A Red army bulletin reported that flerce all-night fighting raged in the sectors of Mozhaisk, 57 miles west of Moscow, and Maloyaroslavets, 65 miles southwest of the U. S. S. R. capital, while on the Ukraine front, the heaviest action centered around Kharkov and Taganrog.

#### Football Bowl As Melting Pot

Every time this country gets into a war or a war emergency there are people who vocalize the failure of the American melting pot. They say it has failed to melt into the common stock the various foreign elements that have poured in. Some of them make remarks about immigrants forgetting President Roosevelt recalled to them that all Americans were either immigrants or descendants of immi-

America, with its free institutions, its open field of opportunity, its essentially democratic ways, has a habit of making loyal Americans out of the vast majority of those who come to these shores.

Most people who leave Europe to come to the United States propose to stay here. Here they hope to have a better chance than they had in the old world. Here they dream of a better way of life for their children and their children's children.

Working at the bench or the counter, or in the fields alongside older Americans, joining them in religious worship, affiliating with them in lodges or clubs, the newcomers begin to absorb the American way of thinking and Cranium acting. Their children absorb it 100 per cent.

One indication of this is to study what happens in the big playing bowls of the country where American college and university football teams meet. A quick glance at the roster of players in northern and western teams show that to bring a new laugh. #### MURDER IN PARADISE

BY MARGUERITE GAHAGAN

THE STORY: Two murders at Paradise Lake renew the old romance between school teacher Many O'Connor, vacationing there with her mother, Mandie, and reporter Bennis Flyan, sent down from the city to cover the story. Police are convinced sophisticated Herbert Cord was killed by gangater Stush Veretti, although Cord's death at first implicated Jeanie Morris, whom he had courted for two summers only to bring Margie Dixon to Paradise this year as his financee. Second mysterious death was that of Miss Millie Morris, Jeanie's stern spinster aunt, who kept locked in her heart the secret of a girlhood romance with someone who signed his letters "Kit." Other characters in the story are Liza Holmes, Miss Millie's maid who stays on with Jeanie; elderly innkeeper Chris Gordon; local editor Tod Palmer, in love with Jeanie. Tod, Mary, Jeanie, and Dennis spend a pleasant evening in the city. The next day Mary calls at Jeanie's home and they discover that Liza is missing.
