United Fund Aides Local Agencies

The Muleshoe Area United Fund, through its fund gathering means, helps the youth organizations. This year, the following three agencies will be among those receiving aid this year.

GIRL SCOUTS OF AMERICA — \$1431. This is another vital youth agency, providing supervised group recreation, individual training, and character-building. Over 200 girls in Muleshoe and Bailey County are active in Brownie, Junior Cadette, or Senior Scout units. Approximately 60 adults are working with these girls as volunteer leaders, committee members, or Neighborhood Association members. This budget allocation makes possible membership in the Caprock Council, and through it, participation in camping and activities above the local unit level. The Council provides Field Service out of its Lubbock Headquarters, including professional coordinating, leadership training, and various instructional materials. Mrs. Joanne Mayhugh is chairman of the Neighborhood Association.

MULESHOE AREA YOUTH CENTER — \$850. Stated purposes of this agency are "to promote the welfare of children and youth in home, school, church, and community and to promote supervised social, athletics, and recreational affairs of children and youth of Muleshoe and surrounding areas." It has done much to meet the general lack of recreation available to area high school age youngsters. There is also a "sub-teen" program. Programs are planned by a youth board and approved by an adult board. All activities are chaperoned by at least 6 adult sponsors. The budget allocation covers only the estimated deficit of the organization after membership and admission charges are considered. Tootie Middlebrook is chairman of the adult board, and Sandy Beaty is chairman of the youth board.

Ford gave a very inspirational talk and was also very informative. He stated that a two-party system gives every citizen "powersteering" over the vehicle of government. If one party or office-holder fails to keep the public trust, a slight turn of the wheel by the voters can correct its course. On the other hand, in a one party situation, the steering wheel is locked, with the voters unable to do anything about it.

Ford also stated, historically, a society has become great and productive because of a spiritual awareness. When this awareness fades, and dedication gives way to materialism, moral decay follows and then, soon after, the end of that civilization. Each of us must follow our conscience and do what we think is best for the long pull - for our children and for future generations.

Dr. Ross is widely known as the "monganga" (doctor) of the 1956-57 March of Dimes TV film entitled "Monganga."

Cochran History Being Published

Cochran County Historical Society has announced the forthcoming publication of the first book about the history of Cochran County, entitled TEXAS LAST FRONTIER: A History of Cochran County. The book was written by Elvis E. Fleming, a history teacher in the Morton schools. Included are biographical sketches of cattle baron Col. C. C. Slaughter, World's Champion Calf Roper Jake McClure, Korean Jet Ace G. A. Davis, and other notables who figured in Cochran County's past.

The early history of the county reads like a western novel, as the men over the county seat. The "nesters" fueded with the cattle-book is written in a scholarly, well-organized manner, and it should be a valuable contribution to the literary heritage of the South Plains. To minimize the financial risk of the publication, the Society has requested that persons desiring copies should make advance reservations by sending their names and addresses to Box 951, Morton. The reservation deadline will be December 1, at which time the book will go to the printer; it will be ready for distribution in a paper back, will sell for three dollars per copy.

A letter to our Congressman from JOE B. PHILLIPS

The Hon. George Mahon Congressman, 19th District 1211 New House Office Building Washington 25, D.C.

Dear Mr. Congressman:

This letter is written to request you to let the people of the area know how you stand on the issues which confront us in this coming election. I have been specific in outlining my position and would like you to speak out in a letter or in a face-to-face meeting.

Your unqualified endorsement of Hubert Humphrey as a Vice-Presidential Candidate carries with it a disregard for the feeling of West Texans. Because Mr. Humphrey was one of the founders of the Americans for Democratic Action, commonly known as the A.D.A., we are suspicious of his stand on vital issues.

The A.D.A. calls for the admission of Red China into the United Nations and for the Recognition of Red China. This proposal I oppose with every ounce of energy I possess. I am also against the A.D.A. endorsement of foreign trade with communistic countries and its willingness to disarm our own country and let Russia remain armed.

I am opposed to the A.D.A. - its organization, its founders, and its soft attitude toward communism. The voters of West Texas are anxious to know your attitude toward the A.D.A.

They know mine.

Very truly yours,

JOE PHILLIPS

Bailey County To Get Emergency Fund

Emergency loans have been made available through Farmer's Home Administration to eligible farmers in Bailey County for the 1965 crop year.

The designation was made by the Secretary of Agriculture because of the drought conditions that have prevailed the past 12 months.

In the last 11 months, the Muleshoe rainfall amounted to 8.99 inches compared with the normal rainfall of 15.10 inches.

This is only 60 percent of the normal rainfall, also, the rain received came scattered throughout the months and came at the wrong time of the year to benefit the farmers to its maximum.

These loans are available to established farmers who are unable to obtain credit from private lending agencies.

Emergency loans may be made for the purchase of feed, seed, fuel, fertilizer, replacement equipment, and for other items

FROM COMMUNIST NEWSPAPER, "THE WORKER," Sun., July 19, 1964, GUS HALL, Leader of Communist Party USA, URGES

SMASH THE CONSPIRACY OF THE ULTRA-RIGHTS

GUS HALL SAID, AND WE QUOTE ...

"FRIENDS: And since I am reasonably sure that it will not get you into trouble — I will say Friends ... and my dear comrades of the Communist Party.

"THE QUESTION is not whether Goldwater can be stopped. The question is what is going to stop this ultra-Right coalition? Just to defeat Goldwater ... as important as that is ... will not by itself smash this conspiracy.

"The remaining weeks and days of the 1964 election campaign are a crucial phase of the struggle against this conspiracy.

"It is clear one cannot expect much of a fight from the ranks of the Republican Party, and if the administration forces are going to fight these elements like they are not fighting them in Mississippi, the country is in for some tough sledding.

"But there is one force that can not only stop but smash this throwback from the stone age. It is an aroused, united people," Hall declared. "What is needed is a fighting, united people's democratic unity. The negro people have shown a very high degree of sensing the danger. The trade unions are beginning to move. What is needed is timely reaction and immediate initiatives on a wide number of fronts."

The speech was made to a public meeting under the auspices of the Hall-Davis Defense Committee at the Riverside Plaza Hotel on July 9, 1964.

ASK YOURSELF: WHY DO THE COMMUNISTS CONDEMN BARRY GOLDWATER

Read the facts and draw your own conclusions!! This is a REPUBLIC ... not a DEMOCRACY!

"THE WORKER," August 16, 1964 STOP GOLDWATER

Boston — A "Stop Goldwater Committee" has been formed by some 15 civil rights and civic organizations. Among the participating organizations are the Mass. Freedom Movement, the NAACP, CORE, PAX, Boston Friends of SNCC, Voice of Women in New England, the Women's International League for Peace and Freedom for others.

SOCIALISM FOR A SECURE FREEDOM and GOOD LIFE Quoted From The Aug. 16 "WORKER"

"Many have come to realize something is very wrong with a social system that produces poverty for millions and vast wealth for the few. They want a way of life where poverty, segregation, Jim Crow and divisive competition for jobs are ended forever. They want our Nation's vast resources and most modern industrial machine to be used to provide an abundant, peaceful life for all. They want the provision of such a life to be the normal function of government.

"Many know and many more will in the course of fighting for and winning a better life under capitalism come to understand that for a good life that is secure, they need Socialism."

Cotton Disappear; Export, Mill Noted

COLLEGE STATION — Disappearance of upland cotton during the 1964 - 65 crop year is expected to reach 14.8 million bales — up slightly from the 14.1 million a year earlier and the highest since 1959 - 60.

Mill consumption is expected to increase sharply while exports are expected to be maintained at a relatively high level, reports Johnny McHaney Extension economist Texas A-M University.

The estimated mill consumption of 9.6 million bales tops last year's total by 1.1 million — the highest since 1950 - 51. McHaney bases his 1964 - 65 estimate on an improved competitive price position for cotton and cotton textiles in the domestic market a continued high level of general economic activity and some rebuilding of "pipeline" inventories of cotton textiles.

The economist estimates cotton exports at 5.2 million bales

'65 Comet completes 16,200-mile durability run from Cape Horn to Fairbanks, Alaska, in 40 days

Liveliest Comet proves once again why it's the World's Durability Champion. Uses showroom models in day-and-night grind from the bottom to the top of the world.

FAIRBANKS, Oct. 22 — Three Mercury Comets today finished a run no car has ever attempted in so short a time—the rugged 16,200-mile grind from Cape Horn to Fairbanks.

En route, day and night, the cars had no major repairs, just routine maintenance. That's ample proof that 1965 Comets are powerful and tough, not just lively and beautiful.

Bottom to top, 16,200 miles.

Shades of Daytona! Comet is famous for durability. Last year, specially equipped Comets ran 100,000 miles at Daytona in 40 days.

Regular production-model Comets used, just like showroom Comets. Want to see the car that made it from Cape Horn to Fairbanks? Visit your Mercury dealer's. Check a 1965 Comet Caliente, with smooth Multi-Drive Merc-O-Matic. The only difference: the run cars had an extra gas tank, because service stations are frequently so far apart in South America.

Comets are ready for immediate delivery. No waiting, if you order yours now.

There Must Be A Reason...

Seldom in the history of the nation has a presidential candidate earned the widespread editorial support that President Lyndon B. Johnson has received from responsible newspapers and magazines—Democratic, Republican and Independent.

Many of these publications are indorsing a Democratic presidential candidate for the first time. One, the Atlantic Monthly, has never before in its long and respected history given its editorial blessing to any presidential contender.

THERE MUST BE AND THERE IS A REASON FOR THESE INDORSEMENTS

The owners and publishers of these newspapers and magazines are conservative businessmen, deeply concerned with maintaining and strengthening the very freedom which makes it possible for them to exist and flourish.

LIFE THE Atlantic Johnson

Herald Tribune Endorses Johnson
"So far as these two candidates are concerned, we unreservedly choose—as a newspaper that was Republican before there was a Republican party, has been Republican ever since and will remain Republican—is Lyndon B. Johnson."

The Sandhills Philosopher

Editor's note: The Sandhill's Philosopher on his Johnson grass farm asks a puzzling question this week.

Dear editor:

I haven't got room to list them all, but among the enormous number of things I don't understand is international relations.

For example, I read in a newspaper last night that Russia is charging the United States is trying to wreck the United Nations.

This is a serious charge, especially since we went to all the trouble and expense to put up all these United Nations buildings in New York where Khrushchev liked to take off his shoes and get comfortable, so I read the article first, ahead of the day's campaign dope.

As it turns out, Russia is behind in its dues to the outfit and the United States is insisting it pay up or lose its vote as the rules demand, and this, Russia says, is an attempt to wreck the organization.

This is what I'm talking about. It's like me telling a bank it's

trying to wreck this Johnson grass farm because I won't pay off a note, and if I could find a banker who would take such an argument seriously, I'd sure do some business with him.

Another thing I don't understand about the world is the difference between England and the United States. Over here, it takes nearly three months for both political parties to get through saying what scoundrels each one is, while in England they can do it in three weeks.

Of course it's like two lawyers lambasting each other in court all morning and then going out and having lunch together, but it ought to hurt our pride that an Englishman can think up all those words for liar and crook in three weeks while it takes us three months. The fault probably lies in the failure of the public schools to give proper grounding in vocabulary back in the lower grades. Something ought to be done about it.

Yours faithfully,
J. A.

LETTERS TO THE EDITOR

Dear Sir:

Since the beginning of my service on the State Board of Education I have learned to appreciate the sanctity of the permanent school fund.

By Amendment No. 1, to be voted on on November 3rd, the friends of Public education, including a very substantial majority of our State legislators, favor a constitutional amendment to prohibit using any part of the permanent fund for annual school expenses, but only to use the income for such purpose.

The Legislature has the authority to invade 1 percent of the school fund for current school expenses. This has occurred several times, but not recently. We hope that the power to invade the principal will be prohibited by the Constitution after November.

Sincerely yours,
Signed: Wm. H. Evans
