# Cagers Divide Local Games With Keyes

The Stratford high school basketball teams played their fourth practice ball games of the Tuesday night in the high school gymnasium and when the games were over they were even for the evening. The Keyes, Oklahoma high school boys team bet the high school boys for their first loss of the season by the score of 41 to 36 while the Stratford girls won their fourth game of the stason by defeating the same high school girls team by the score of 45 to 25. The boys game was close all the way and it was not until the latter part of the fourth quarter that Keyes was able to get a lead and hold that lead until the end of the game. Leaders implore farmers and Keyes boys took an early five point that their son, Jimmie, had been and will include bingo, cake walk, ranchers to wake up before it is too lead during the first quarter and late as they believe industry and held that lead throughout the labor are strongly organized and first half of the game. At the half have pressure groups influencing time the score was 18 to 16 in favor of the Keyes boys. Then in the third quarter the home team went Farmers interested in state and ahead and maintained that lead Chicken national affairs demand strong or until after the start of the fourth ganization and leadership. #### Legion Airs

Sheriff's Sale notice would probably trict Courtroom at seven-thirty. fill the space just about as well because this is definitely one of my 'know-nothing days." I never knew very much even when at my very best, but my head feels like it had all been pumped out and the walls wiped dry. And no cracks about having a hangover, either, be-

urday night. The big news so far as the American Legion goes is the District Convention at Amarillo this week-end. There's some big politics brewing up there, and a lot of fun, so all you Legionaires take your wives and go up for the meetings Saturday and Sunday. There will be a dance Saturday night, and the business session will take place Sunday You'll miss a lot if you don't go. Those of you who have caps wear

cause haven't had a drop since Sat-

The membership drive is coming along at a slow snail's pace. I had a letter from George Berry last week. and he has stuck his neck out on this membership business, and it is up to us to rescue him before November 11. We are making no big drive for new members, though we certainly welcome them, but we de finitely are after all old members to pay up for the coming year. know that all of you will in time, but please don't take so much time about it. Drop in to see me or Chester Guthrie or Ernest right away and leave a check for your dues and paving allotment. If you aren't in town much these days, just drop a check for ten dollars in an envelope and mail it to us.

When I said that we were primar ily after old members, meant that our first duty is to make every man "one a Legionaire, always a Legionaire." It is a discredit to the Post to lose a member, so we are after those first. I know that there are a lot of fellows in the county who should belong, but for some reason or other have never done so. The American Legion like every other organization is unable to satisfy every individual. Not even the Church has been able to do that, which accounts for the hundreds of different religious beliefs, but I do believe that every veteran should affiliate himself with some veteran's organization, both for his own benefit and the benefit of other vet-Some will ask, "What good will it do me to join?" I'll answer it this way. It will do you a very little if you simply put your name on the rolls and then forget about it. The GI Bill of Rights was one benefit that the American Legion has given you. That bill was originally drawn op by Hanson Post 54 in Amarillo, and pushed through the various channels until it was finally passed by Congress. No other organization has more influence with Congress or the Veteran's Administration than the American Legion. We maintain the most powerful lobby in Washington to battle for the welfare of the veteran. This may not interest some of you, who are looking for a strictly recreational program. When we get our building finished so we can have a recreational program, we will do so, but at the moment we are pretty limited on that score. The recreation is fine, and definitely a part of the American Legion program, but it is of lesser importance than some of our more serious business, such as the battle against Communism. military preparedness, and the welfore of the veteran and his family. It is only through an interested and willing membership that we can accomplish anything. It is most important that you attend and contribute your voice to the program. Don't gripe about the way someone else is doing things when you nev-

Stratford Grain Co.

This Emblem Identifies **Great Trucks** 

#### Yes Sir! We're sincerely grateful to our Customers and Friends

Demand for International Trucks has been greater than supply. Our customers and friends know that. And our customers and friends have been patient and cooperative.

But a few people seem to think that what is called a seller's market is a bed of roses for the seller. Believe us that just isn't so. Our business is in this community; and when things pile up so we can't take care of our customers and friends as fast as they'd like to be taken care of, we're not in a spot that we enjoy

But there are two things we're proud of: One is the service maintenance we've been able to furnish to keep International and other trucks on the job and to hold operating costs down.

The other is the fine cooperation we've had from customers and friends. Our customers and friends have been mighty understanding; and we want to say, publicly, right now, that we deeply appreciate the fine spirit they've shown.

We urge truck operators now to do two things:

1. To continue to use our truck maintenance service for trucks now in operation. That way they'll get best results until new trucks are delivered.

2. To place with us promptly the specifications for the new trucks they need. That way they'll help us make the earliest deliveries possible.

W. T. MARTIN

In football, and scores of other activities, good eyesight is important. AND GOOD LIGHT IS IMPORTANT TO GOOD EYESIGHT.

School children need good light when they study more than at any other time. To protect their eyes and help them make better grades, make sure they have correct lighting.

But more than that, eyes protected in youth by good lighting, are more apt to stay bright and undimmed

through the years to come. Both for today, and tomorrow it's important for you see TO-DAY that your children have better light for better sight.

A Public Service Company lighting specialist will come to your home, office, or place of business to give you recommendations as to how to obtain the best in lighting. There's no obligation. Just call or write your nearest Public Service office.

stance, and use it in contrast.

\* \*

Pattern No. 8226 comes in sizes 14, 16, 18, 20; 40, 42, 44 and 46. Size 16, short sleeve, 4½ yards of 35 or 39-inch.

SEWING CIRCLE PATTERN DEPT. 530 South Wells St. Chicago 7, Ill. Enclose 25 cents in coins for each pattern desired.

Leaves used for decoration will last longer if dipped in paraffin right after cutting.

Place a rubber jar ring or towel under a chopping bowl when chopping food in it. This will steady the bowl and allow easier handling.

Needles can be stored in a small bottle to keep them from rusting or getting lost.

When making children's dresses, make a wide tuck on the underside of the hem. Dresses are then easy to lengthen, and the tuck does not show.

#### WEEKLY NEWS ANALYSIS-

#### Use Force if Necessary: Byrnes; Lewis Loses in AFL Controversy; German War Plants to Be Stripped

(EDITOR'S NOTE: When epinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

#### **MEMOIRS:**

No Patience

James F. Byrnes, who, when he was secretary of state, was a veri-table personification of "patience on a monument" in his dealings with Russia, stepped down from his pedestal and announced that it was time to start slugging.

In his published memoirs, "Speaking Frankly," Byrnes proposed that the U. S. reply to Russia's "obstructionism" on atomic energy and German peace treaty agreements with "better and more" atomic bombs and a decision to drive the Red army out of Germany, by force if necessary.

Exponents of the "get tough with Russia" policy now have a sturdy champion in the

former secretary

of state, who re-

signed that post

only last January because of ill

Byrnes pre-sented a 10-step

'course of action

for restoring peace, basis of which must be BYRNES the conclusion of satisfactory German peace treaty. At the same time, he conceded that the plan of action con-ceivably could lead to World War

health.

III if Russia refused to co-operate. First of all, said Byrnes, the U. S. should ask the Big Five to call a full-dress conference of all

What Do They Want?

Apprehensive of the constantly expanding area of Communism in the Old World, many Americans want to know just what it is the Russians are after. James Byrnes stated flatly, "I do not doubt that their ultimate goal is to dominate, in one way or another, all of Europe."

ations on Germany "early in 1948." If Russia refuses to participate or if she boycotts the conference, the other nations should proceed with-

Then comes the stinger which Byrnes advocates. If Russia refuses to sign the treaty and likewise refuses to withdraw Red troops from western Germany, other nations should ask the U. N. security council to order her out. And if Russia vetoes the security council order, then the U.S. must drive her out of Germany by force.

However, Byrnes is firm in his belief that the U. S. probably will not have to resort to warfare. He to pull Europe through this dreaded thinks Russia will withdraw her winter, but that dark outlook has troops from western Germany upon completion of a peace treaty.

#### BELABOR:

Lewis Downed

"On this issue I don't think the federation has a head. I think its neck has just grown up and haired over."

Thus spake John L. Lewis, he of the king-sized eyebrows, at the American Federation of Labor convention in San Francisco. The issue to which he so lustily referred was that of whether the AFL should vote to wipe out its 13 vice presidents, of which Lewis is one.

And despite Lewis' name-calling and hammy, mane-tossing histrion-

ics, the AFL did vote to abolish its vice presidents in a move to make the eligible to use the national labor relations board under the Taft - Hartley

The action, which leaves only William Green, president, and George Meany, secretary - treas-

federation JOHN L.

LEWIS

urer, as top federation officers, was taken in order to permit the AFL officers to sign non-Communist affidavits for AFL federal unions which have no national officers of their own. No union may have access to the facilities of the national labor relations board under the Taft-Hartley law unless their officers sign the affidavits.

Lewis previously had adamantly refused to sign the non-Communist affidavit on the grounds that he would be making a concession to the Taft-Hartley law, much reviled by labor.

#### TWO AND TWO:

Significance?

Maybe this is why mathematics always was such rough going in school: The President's scientific research board has warned that instruction in common arithmetic is faulty in U. S. schools and mast be improved if the country is to develop the large number of scientists it will need for security and advancement. The battle for competence in science probably is won or lost in the lower grades, the board ugees are skilled workers and are

#### Green of AFL

William Green, president of the American Federation of Labor, is shown addressing the recent AFL convention in San Francisco with great gusto. He favored the signing by union officers of non-Communist affidavits. John L. Lewis also spoke.

#### REPARATIONS:

Germany Pays

European aid took a different turn with an announced plan by British and American military govern-ments to dismantle 682 German industrial and war plants in their two zones for reparations.

Purpose of the move, slated to be carried out as swiftly as possible, is to expedite European economic recovery. Most of the factories are metal, chemical and electrical engineering, shipbuilding and power plants.

The announcement points up the problem, still not fully solved, of whether completely to destroy Germany's war potential by cancelling out her industrial strength, or to rebuild the German industry for peaceful production.

Obviously realizing the possible adverse effects which the dismantling of the plants might have upon the German people, the U.S. and Britain issued a joint statement em-phasizing that they would consider suggestions from the Germans for substitution of equivalent individual

Meanwhile, German public officials and trade union leaders have denounced the reparations policy as a blow to German economic revival and a source of unemployment.

#### **EMERGENCY:** On Account

Realistic U. S. government officials admit that everything they can not stopped President Truman from

His latest move in the desperate gamble was to make another 50 million dollars available to hungry, Communist-infested France to give the nation a new, temporary lease on survival.

This time the payment was not a loan, however. Mr. Truman advanced the money as an early payment to France of funds still owing for the procurement of supplies in France by the U.S. army during the war. France claims that a total of 80 million dollars is due it in such repayments. The 50 million was written off as a payment on

At the same time, it was disclosed that when congressional committees open hearings on November 10, the administration will have ready for them the entire long-range Marshall plan for aid to Europe as well as urgent pleas for immediate stopgap assistance.

However, it was in the wind that congress was preparing to debate violently and at great length on the European relief program, and few members were ready to commit themselves.

#### REFUGEES:

From Soviets

Streams of refugees are reported to be coming through Russia's iron curtain to the southeastern coast of Sweden.

Reason for their flight, they say, is that the Baltic lands where they made their homes, now under control of the Soviet Union, are being combed by the Russians for men and women to be deported to Siberia. A secret transportation route out

of the Soviet zone manages to spirit the refugees to Sweden. Cost for such a journey - 2,500 German

According to two Latvians who reached Sweden by sea from Redheld German Pomerania in a warsurplus American rubber dinghy, the current "epidemic" of escapes is the result of a Soviet order that all Balts in the Red zone of the Reich must be registered.

This is interpreted as the first move toward their deportation as slave labor to Siberia and the Arctic island of Novaya Zemla, where huge contingents of Balts already have been shipped. Most of the refreadily finding work in Sweden.

Christian Conduct

Lesson for November 2, 1947

CHRISTIAN standards of conduct

standards, not man's standards. Our

lesson makes this quite clear when

not bridled, or the ship when it is

Which brings the first practical

lesson—that of the tongue. "The tongue is a little member," says

James, "and boasteth great things.

Behold, how great a matter a little

IN PROVERBS 8:7, we read, "My mouth shall utter truth." And

again in Proverbs 25:11, we read, "a word fitly spoken is like apples of

Which adds up to this: The words we say have much to do with what people think of our standard of conduct. If we speak words of truth

and kindness, we need not be con-

cerned what people will think of us.

Boys and girls who guard their tongues will have friends. Boys and girls who speak words of envy, prejudice and falsehood will

WHAT is in our hearts determines

our hearts must be right—right with

I have just come from a playground where a group of junior boys and girls were having a picnic.

I got there at the moment when a

baseball game was in the decisive ninth inning. One of the junior boys was umpire. He called a pitched

ball a strike, and the batter object-

ed. Words followed-not altogether

pleasing words. They saw me standing on the sidelines, and asked me to settle the matter. I had not seen

the pitched ball closely enough to

The boy who had spoken most

sharply went to the boy who was

umpire, took his hand, and said,

"It's okay with me. I am sorry I

said what I did." That boy had

the right attitude. He turned

wrong words into right words, be-

SPEAK not one against another," writes James, 4:11. Two

teen-age girls were walking home

from school. One spoke bitterly to

the other of a third girl. They parted

at the corner, and the girl who had

spoken the bitter words of her neigh-

bor slipped and fell as she passed

the home of the girl about whom she had been speaking. The neigh-

bor girl rushed to her side, helped

her into the house where her mother

dressed the ankle. Waiting for her father to come with the car, the girl

who had spoken bitter words began

to cry. Thinking that her neighbor

was crying from the pain of the

ankle, the girl who had been bitterly assailed spoke sympathetically to

"Will you forgive me?" cried out the distressed girl.

"For the unkind words I spoke

Forgiven, they became trusted

THIS lesson should summon ev-

I ery heart to utter the prayer of

"Let the words of my mouth and

the meditation of my heart be ac-

ceptable in thy sight, O Lord, my

Our words reflect our character.

Christ's standard of conduct calls

for words wisely chosen. Longfellow put it well when he wrote:

It fell to earth, I knew not where; For, so swiftly it flew, the sight Could not follow it in its flight.

I breathed a song into the air, It fell to earth, I knew not where; For who has sight so keen and strong, That it can follow the flight of song?

I found the arrow still unbroke; And the song from beginning to end, I found again in the heart of a friend.

On 'CERTAIN DAYS' Of Month-Do female functional monthly disturbances make you feel nervous, irritable so weak and tired out—at such times. Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. It's famous for this! Taken regularly — Pinkham's Compound helps build up resistance against such distress. Also a great stomachic tonic!

LYDIA E. PINKHAM'S VEGETABLY

Author Loses Fortune and Ability in Plagiarism Suit

The most damaging plagiarism suit brought in this country was that against Richard Walton Tully in 1912 by a woman who claimed his play, The Bird of Paradise, had been stolen from one she had written. Not having any play to show the court, she disappeared until 1924 when she returned, reopened the case, produced a manuscript and was awarded \$781,990. In 1930, the decision was reversed by the N. Y. state court of appeals which found no resemblance between the two plays. The battle to clear his name cost Tully his fortune and left him unable to write during the remaining 15 years of his life.

More people are smoking CAMELS than ever before!

acres. The McKinleys keep their soil highly fertile by a five-year rotation and the application of 170 tons of fertilizer annually. An extensive steer and hog feeding program turns corn and roughages. into cash, and builds additional fertility in the soil. The farm is highly mechanized. All eight tractors roll on Firestone Tires.

E pion Farmer H. L. McKinley find costs go down when they use Firestone Champion Ground Grips.

Tests show that Firestone Champion Ground Grips clean up to 100% more effectively, pull up to 62% more, last up to 91% longer, and roll smoother over highways.

The reasons are simple. The curved bars cut deeply into the soil. Mud falls easily and cleanly from the tapered openings between the bars. Because the traction bars are connected, they're stronger, they have more tread rubber to push into the ground and pull. This extra tread rubber also lengthens tire life . . . makes tires roll smoother.

Although judged best by leading farmers everywhere, Firestone Champion Ground Grips cost no more than ordinary tractor tires. Specify the "Champion" when you order your new tractor, or when you buy replacements for your tires. See your nearest Firestone Dealer or Store today.

> Listen to the Voice of Firestone every Monday evening over NBC Copyright, 1947, The Firestone Tire & Rubber Co.

# Album of American Agriculture THEY CALLED IT A TRACTOR

DURING the summer of 1892, in the shade of a village store in northern Iowa, John Froelich built the first gasoline tractor that propelled itself either forward or backward. On the day of its first trial, Froelich's one-cylinder, gasoline burner stilled the most rabid critic and proved that it could pull drawn equipment as well as operate belt-driven machines.

The tractor company organized by John Froelich and his friends later became a part of the John Deere organization. From this beginning, came the famous John Deere Model "D" tractor—developed to meet the unprecedented demand for power equipment unleashed by World War I.

Today, the modern line of John Deere Tractors is playing a vital role in the power farming age.

Come in soon and let us show you why a John Deere Tractor will be your best tractor investment.
