# Handful of senators launch canal debate

#### By DONALD M. BERG

WASHINGTON (AP) - With a flurry of parliamentary maneuvering and a torrent of rhetoric - but only a handful of members on the floor for much of the opening round -- the Panama Canal debate is underway in the Senate

More than 30 senators were on the floor for the start of what one senator called the "most intensive foreign policy debate" since the Vietnam

# FBI heads now focus of study

#### By RONALD J. OSTROW The Los Angeles Times

WASHINGTON - Two former assistant FBI directors and former acting director L. Patrick Gray III have become the prime focus of the FBI break-in investigation, the Los Angeles Times learned Wednesday.

The restructured Justice Department investigation thus reflects a decision to abandon the strategy of moving up the ladder of FBI authority just a rung at a time in an effort to fix responsibility for illegal actions.

Sources familiar with the sensitive investigation said questioning in recent weeks of former FBI oficials who allegedly had roles in authorizing the break-ins disclosed the new direction

of the inquiry.

But, as the speeches wore on, the number of senators on the floor dwindled to fewer than 10, not an unusual number.

For the first time ever, the American people could hear live radio broadcast of Senate proceedings as National Public Radio broadcast the debate.

The first session lasted six hours, as supporters and opponents of the

security division in New York. The five-year statute of limitations will not expire until next fall on Arbor Gray, who retired from the FBI in 1973

A pretrial conference last week in the case of the only FBI man indicted so far, John J. Kearney, indicated that mid-June is the likely date for Kearney's trial to begin. The lengthy and complex "discovery" process, under which Kearney's defense lawyers review thousands of pages of government documents, is expected to be completed by May 1.

Kearney, who headed Squad 47 until he retired from the FBI in 1972, was indicated last April on wiretapping and mail opening charges. Despite the decision to concentrate

on the former high bureau officials,

treaties stated arguments, grown familiar over the last year, for and against the two treaties

The debate began Wednesday with the Senate's two most skilled parliamentarians, Majority Leader Robert C. Byrd, D-W.Va., and Sen. James Allen, D-Ala., establishing ground rules for the debate and future maneuvering by both sides.

Allen said that while he and other opponents have no plans to seek unnecessary delays, there are "dozens of substantive amendments" the opponents will present.

Noting that the proceedings were being broadcast, Byrd urged senators to attend the debate so that a lot of time would not be "chewed up" with quorum calls, the usual device for killing time while senators who want to speak get to the floor.

Byrd said that he and Minority Leader Howard Baker, R-Tenn., had agreed they would object to committee meetings during the canal debate. Senate rules require that committees have permission to hold hearings while the Senate is in session

Sen. Paul Laxalt, R-Nev., contended that approving the treaties would amount to knuckling under to blackmail by Panamanian leader Omar Torrijos, an argument that was challenged by Sen. Frank Church, D-Idaho.

"I support the treaties for just the opposite reason," said Church. "They guarantee that we will have the use and security of the canal. That is not a genuflection in front of Omar Torrijos, who will not even be in charge of Panama in the year 2000," when Panama would take control under the treaties.

criticized for repression, including South Africa, Chile, Uganda and Cambodia, were not evaluated in the 426-page report, which covers only the 105 nations that receive U.S. arms or economic assistance.

Human rights policies

of U.S. allies criticized

Congress requires the reports under a 1976 amendment to the foreign aid law, supposedly to help in allocating American aid. The reports were

completed last week and furnished to Congress and the countries involved. State Department officials, speaking privately, have indicated that they consider the reports to be an unnecessary irritant in foreign relations because many nations consider it arrogant of the United States to evaluate human rights in other lands

attention. (Staff Photo by Bruce Partain)

## Justice Department begins Lozano probe

Department has launched an investigation into the death of an Ector County jail prisoner who died in custody, The Dallas Times Herald reported today

Dan Rinzel, deputy chief of criminal investigations in the Civil Rights Department said the investigation will be an attempt to determine if Larry Ortega Lozano, 27, died as the result of actions by Ector County officers and it will be an attempt to determine if Lozano's civil rights were violated.

The announcement by Rinzel came about 24 hours after it was revealed that an El Paso County medical examiner's report said that the bruises and other markings on Lozano's body indicate the death was a homicide.

Ector County Sheriff Elton Faught had said that Lozano's death was a suicide, that Lozano beat his head against a plexiglass panel in his padded cell. He died Jan. 22 following his Jan. 12 arrest.

At the request of Lozano's family, Dr. Frederick Bornstein, the El Paso County medical examiner in El Paso, performed an autopsy on Lozano. Bornstein said Wednesday he had

not yet released his report but did make it available to Ruben Sandoval, lawyer for the Lozano family in-vestigating the death.

The autopsy report said "It is my opinion that the man died from extensive blunt trauma, such as beating, hitting, kicking, as well as possible small wounds with sharp instruments."

Dr. Bornstein's report concludes "Therefore, it consider the mode of

DALLAS (AP) - The U.S. Justice death homicide. The pattern is incompatible with suicide.

Ector County Medical Examiner Dr. Krishnakumari Challapalli also performed an autopsy but has not released her findings.

She told the Dallas Times Herald that she "didn't want to be pushed or led by others" and declined to support or disclaim Bornstein's findings.

The Times Herald and San Angelo Standard Times quoted from the Bornstein report in copyrighted stories in Wednesday editions.

The shift is said to reflect Atty. Gen. Griffin B. Bell's desire to complete the investigations as quickly as possible

At the same time, it was learned, department investigators have been unable to establish that authorization for the illegal entries came from outside the authority-minded bureau. Bell has said he finds it difficult to believe that the FBI would undertake the illegal operations on its own.

The present strategy of concen trating on former high FBI officials has emerged from the new group of eight Justice Department lawyers assigned to the case in December after a five-man team guit the case in a policy disagreement with Bell.

As a result, primary targets of the inquiry being conducted through a federal grand jury here are said to be Gray, Mark Felt, the bureau's No. 2 man under Gray, and Edward S. Miller, former assistant director in charge of the FBI's domestic intelligence division.

The role of a former deputy to Miller, Robert L. Shackelford, is also understood to be under study by department attorneys.

The fact that a new strategy had been adopted became clear when the department allowed the five-year statute of limitations to expire on a former assistant director, Andrew J. Decker Jr., who retired from the FBI last Dec. 30.

Decker was special agent in charge of the domestic security division in the FBIs New York field office until January, 1973. In that position he oversaw the activities of Squad 47, which committed the illegal entries in searching for fugitive members of the Weather Underground.

Last summer, the department decided against prosecuting Decker's predecessor in the job, John F. Morley.

Sources said the department also has decided not to bring charges against Arbor Gray, who succeeded Decker in running the domestic

## **Big Spring man killed** in early morning robbery

Then one of the men fired twice through the front door, according to reports. Mrs. Longoria fled with her son, Arnold, 13, and a family friend, Arlando Verrera, 21, into a back room

Arnold Longoria told officers he heard what sounded like a scuffle and then shots fired as his father faced the gunmen alone, according to reports.

Family members told police the gunmen fired three times after they left the house. Mrs. Longoria's purse, which contained "nothing of value." was the only item reported stolen, police said.

Investigators said the weapons used by the gunmen were probably a .38caliber or .357-caliber magnum revolver and a smaller pistol, either a .25-caliber or A .32-caliber.

ligators are understood to have difficulty in recreating what one source called "a paper trail" of documentary evidence, particularly against Gray.

Miller declined comment Wednesday, while Gray and Felt could not be reached.

'There is a solid case in terms of evidence against Miller and Felt,' one source said, "but it's not necessarily winnable

His comment referred to the defense that prosecutors expect FBI men to adopt - that the break-ins and related steps were necessary in hunting for fugitives from a terrorist group that had admitted bombings.

charged the treaties were "riddled with ambiguities." But Sen. John Sparkman, D-Ala., said he thought they were "the best solution that could be negotiated."

Sen. Robert Griffin, R-Mich.

Both agreements need a two-thirds majority to be approved. Most recent polls note that opponents are about three votes shy of the 34 needed to insure the treaties' demise.

One of the opponents' frequent spokesmen, former California Gov. Ronald Reagan, in a nationally televised "fireside chat" Wednesday night, said Carter had "left the mistaken impression ... that the canal was somehow forced on Panama.'

## Stanton talk leans on humor, patriotism

STANTON - If something even faintly funny has been told oftentimes before, you can count on your friendly after-dinner speaker telling it again. Such was the case over here the other night at a more-informal-thannot banquet. The occasion was the annual Martin County Chamber of Commerce feast. And the role 'Coach'' Faye O'Dell was to play was that of funny man, joke teller, taleteller and, at evening's end, instiller

of patriotism. He, like a good football player, carried out his assignment to a tee His Uncle Strange might have been impressed

O'Dell, a winning coach and athletic director at Perry, Okla., retold jokes and made variations on others. And there was some originality

Here, in bits and pieces, is the way O'Dell's side of the evening went: - Variation on a boy named "Sue" By way of mentioning his service as a

U.S. Marine Corps officer, O'Dell said with a name like his - Faye - he had to be tough

No recall: "Five things happen when you get old," O'Dell said. "One, you don't remember like you used to

#### Pause.

- Just how literal is "literal"? When he was just a young fella, Faye O'Dell said he got into a boxing match. "I literally got my head beat off.'

- Weird: Perhaps the name that crops up more frequently than any other in his talking is that of his picked-on Uncle Strange, a 6-foot-8 and 280-pound constable up Tennessee way. "He had been constable for 23 years and never made an arrest," the

nephew said. Well, he had an opportunity to score a first when he spied an out-of-state Cadillac making an U-turn. He stopped the driver, and right off rmised that he had a smart aleck on his hands.

Uncle Strange asked the driver where he was from. He said

The uncle walked to back of the

**ROUSTIN** ABOUT with Ed Todd

sedan, looked at the license plate, and came back to the driver.

'Smart aleck," he said, "if you're from Chicago, how come you've got Illinois plates on your car?" Strange

- Spendthrift: O'Dell tells a story about another uncle. His will was read at his funeral, at which all the kinfolks had gathered.

The will read thusly:

"Being of sound mind and body, I spent all of my money while I was alive.'

- The message! At last, O'Dell got down to the substance, however brief, of his talk.

'Where are all the heroes?'' he said in giving the gist of his '76 Bicentennial speech. Gone are the heroes: Sergeant York, "Black Jack" Pershing, Travis, Houston, Booker T. Washington, George Washington Carver, Betsy Ross.

'American heroes? They're gone!" he surmised. "I wonder who leads, who searches for values.'

He became thoughtful.

"These are the times that try men's souls," O'Dell declared. He seemed to dread the possible "death of patriotism.

And yet, he talked about those brave souls who "have died for freedom."

Finally, against a backdrop of jute - cotton bagging material - and the United States flag, O'Dell raised a fist and firmly said what was lettered in red, white and blue behind him ; "God **Bless America**."

And the crowd clapped, gave a standing ovation, visited for a spell and went home.

the particular the second

WASHINGTON (AP) - The State Department is criticizing human rights policies of some of the United \$460. per Ac. States' staunchest allies, including Israel, which is said to use "extreme

> physical and psychological pressure' in interrogating prisoners in its occupied lands. In a report released today, the department said the Israelis run a model democracy in their own territory, but not in occupied Arab

lands "There are documented reports of the use of extreme physical and psychological pressures during in-

terrogation, and instances of brutality by individual interrogators cannot be ruled out," the report said. It also cited instances where Israeli

troops used excessive force against Arab demonstrators and destroyed the homes of Arabs suspected of complicity with terrorists.

The criticism of Israel was mild, however, in comparison to evaluations of authoritarian regimes like the Philippines. The government of President Ferdinand Marcos was accused of torturing political prisoners and of corruption so pervasive as to hamper aid to the poor. Some of the nations most often

BEIRUT, Lebanon (AP) - Syrian peacekeepers battled Christian regular forces near Beirut today. carrying their first major confrontation since the end of the Lebanese civil war into a third straight day.

The fighting, touched off by a dispute over a Syrian checkpoint. raged in a torrential rainstorm.

Syrian troops and armor also clashed in running battles with militiamen from Christian political parties' private armies along the midcity line separating the Moslem and Christian sectors.

In one such clash, witnesses said six Syrian soldiers were burned to death when their armored personnel carrier was set ablaze by an armor piercing rocket near the Christian residential area of Ein el Rummaneh.

A ring of Syrian tanks and rocket launchers pounded a beleaguered 600man garrison at the Lebanese army's Fayadiyeh Barracks three miles east of Beirut, where the confrontation erupted Tuesday.

There was a lull part of the night, but all hell broke loose again at daybreak," a Lebanese woman trapped in a basement near the barracks reported by telephone

Informed sources said the garrison commander, Col. Abtoine Barakat,

## Israel starts lobby against arms sales

#### By The Associated Press

Israel called on its American friends to lobby against U.S. arms sales to Egypt as the Carter administration planned a more active role in the search for Arab-Israeli peace as a result of President Anwar Sadat's visit to Washington.

Deputy Defense Minister Mordechai Zippori told the Knesset. Israel's parliament, that Israel would 'mobilize all our friends'' in America to block the sale of jet fighters and other weapons requested by Sadat during his six-day stay in the United States.

Prime Minister Menachem Begin, on a fund-raising visit to Switzerland, said American arms sales to Egypt would be a "very negative development in the Middle East peace process."

Sadat left Washington for Europe Wednesday night with high praise and a hug from President Carter but no public pledge of arms support. Of-

ficials said it would take Carter about two weeks to decide what to do about Sadat's request for weapons. Meanwhile, he called the Egyptian president "a great man" and "the world's foremost peacemaker" as he bade him farewell.

Sadat asked Carter for 120 F5Es, a short-range jet fighter, and expressed interest in more advanced F-15s and F-16s, a U.S. official reported.

"The best bet is that he'll get some F-5Es," said the official. He said he doubted Congress would approve supplying Egypt with the more advanced planes.

Sadat said the United States had moved from the status of "gobetween" in the Egyptian-Israeli peace negotiations to "complete partnership." Agreeing, one U.S. official in Washington said, "We are going to try to move things along more actively in the future."

Lebanese President Elias Sarkis dispatched a three-man delegation to Damascus, the Syrian capital, for talks with President Hafez Assad on arrangements to stop the fighting.

A cease-fire ordered by Syrian President Hafez Assad and Lebanese **President Elias Sarkis appeared to** take effect Wednesday night, but occasional bursts of gunfire and shell explosions continued.

Grand jury to hear evidence on shooting

#### By ED TODD

GARDEN CITY - Today, more than three months after the Nov. 6 shooting death of Tiburcio Griego Santome, a Glasscock County grand jury is meeting here to hear evidence in the case.

Griego, a 37-year-old farm laboror in the St. Lawrence community south of here, was shot to death following his arrest on a disturbance call at the annual festival to benefit St. Lawrence Catholic Church.

He was arrested by Glasscock County Sheriff Royce "Booger" Pruit after Griego, who reportedly had been drinking beer, struck his 14-year-old son, Martin Griego Santome, who reportedly had disobeyed his father. (Under Mexican usage, the man traditionally uses his middle name as

his surname.) Griego, according to sources close to the family, was ready to leave the festival near nightfall, but Martin wanted to stay and refused to get aboard the family's pickup camper. He was arrested by Pruit on the

church grounds.

And Griego, not yet handicuffed. was in the backseat of the sheriff's car. With the sheriff was G. B. Therwanger, 51, a former Dawson County and Martin County deputy sheriff, who reportedly had been visiting Pruit in Garden City when the sheriff got the disturbance call.

En route to Garden City, Griego, later described as belligerent, reportedly pulled a kitchen knife from his belt and attacked Therwanger, who by then had handcuffed Griego to him. Therwanger was in the front seat, and Griego was still in the back. Therwanger picked up a pistol from the console of the patrol car and shot Griego four times. Time of death reportedly was about 7:45 p.m. on that Sunday.

The grand jury was to interview the first of its 15 to 20 witnesses in the case at 10 a.m. today in the courthouse here, Assistant District Attorney Don Richard of Big Spring said this morning.

covered wooden coffin at Juarez,

Mexico. Shortly after his death, the Corpus Christi-based League of United Latin American Citizens (LULAC), called for a thorough investigation into Griego's death.

LULAC director Ruben Bonilla Jr. told The Reporter-Telegram that the League had nothing against Sheriff Pruit, who "apparently is well liked" and who is "held in high esteem" in the county and by fellow law enforcement officers.

However, Bonilla questioned the legality and ethics of Therwanger's riding with the sheriff.

Bonilla described Griego as a "good and decent man" who happened to have drank too much beer at the church festival.

Bonilla said Griego's wife said she had never seen him drink so much before. He was not a violent person, Bonilla said.

Bonilla said Griego was celebrating just like most everybody else at the November festival.

"He (Griego) wasn't at a bar," Bonilla said in a telephone interview. 'He was at a church function He had worked like hell all week and got a little drunk.'

Despite LULAC's initial involvement in the case, no LULAC representatives have affirmed appearances before the grand jury, Richard said.

'We have made eight public announcements . . . for anyone who knows anything (about the case) to witness" before the grand jurors, he said.

### Men fire shots at mail truck

STANTON - An exchange of gunfire between a U. S. Postal Service truck and two men in an old model Chevrolet Impala took place on Texas 349 today at 1:45 a.m., according to reports by the martin County Sheriff's office.

The mail truck was fired into six times, and the driver returned four shots at the vehicle as it passed him. No one is believed to have been injured, according to sheriff's officers. The truck was traveling from Lubbock to Midland when the shooting took place about five miles south of the intersection of Texas 176 and 349. In Midland, Postal Inspector Andy Ackermann said the mail truck was a contract vehicle hired to haul mail, and not a red, white and blue truck. He said this in response to a question as whether is was customary for mail drivers to carry firearms. He said postal rules forbade further discussion of the case.

## **Burglary** reported at Midland residence

Firearms, jewelry and electronic equipment worth approximately \$835 was taken from the Harry Harrison residence in the 1200 block of Stanolind sometime between 1 and 3 p.m. Tuesday.

According to police, entry was gained by prying open the lock on the kitchen door.

Taken was a .22-caliber revolver, .30-30 rifle, .36-caliber (black powder) revolver, .22-caliber rifle, 16 gauge shotgun, portable television, turntable and speakers and a diamond, pearl and jade necklace.

VANDALISM REPORTED Three acts of vandalism were reported Tuesday or early this morning. Two occurred at The Place, 3920 W. Wall Ave., with one incident involving a police unit.

An officer reported at 12:44 a.m. today that after checking The Place, he returned to his patrol car to find the red cover to the emergency lights broken and the left spotlight broken. Marline Mobley also reported vandalism to her vehicle, parked at The Place. The incident was reported at 12:56 a.m. According to Ms. Mobley, a window on her vehicle was

broken. Ann Parker reported vandalism to a fence and to her front lawn in the 2400 block of West Washington Avenue. According to Mrs. Parker, someone had been riding their

The jury has 10 cases to consider, he said, and likely will issue its report on the Griego matter sometime Friday. Griego, a Mexican national, had been working on farms in the St. Lawrence area since he and his family left Mexico in 1970.

His wife, Maria Griego Santome, was a sewing machine operator at the Levi Strauss & Co. plant in Midland until shortly after her husband's death

Later, she reportedly moved to San Angelo with her five children: sons Martin, Fred and Jaime and daughters Josey and Brenda. Griego was buried in a cloth-

## Traffic light demolished

The traffic light at the intersection of Texas Avenue and A Street probably will be out of operation until Friday, a spokesman for the traffic engineer's office said today.

The control box to the signal light was "demolished" Tuesday in a three-vehicle traffic accident, and the engineer's office is having to piece together the controls because they do not have a similar control box, the spokesman said.

Until the light is back in operation,

four-way, temporary stop signs have been placed at the intersection.

The accident occurred Tuesday morning. A vehicle belonging to Roy D. New of the 2600 block of Fannin Avenue was parked on Texas Avenue. A second vehicle being driven by Frances W. Steward of U.S. Route 1 was northbound on A Street, and the third vehicle driven by Mary C. Griffith of Odessa was eastbound on Texas Avenue when the accident occurred, police said.

There were no injuries, but damage to the light pole was estimated at \$2,000.

## Man uses jar for weapon

ODESSA - A robber using a mayonnaise jar for a weapon robbed a 7-11 store at 10th and Golder of an undisclosed sum of money today at 1:28 a.m.

The clerk in the store told Odessa police that the man threw the mayonnaise jar at her, hitting her in the eye and knocking her to the floor. He then opened the cash register, took the money and fled from the store.

The clerk was treated and released at Medical Center Hospital for lacerations to her left eye.

Odessa police are searching for the robber, whom they described as 5 feet 7 inches tall, weighing about 125 pounds, around 25 years old, with a mustache.

## Streets turn icy with drizzle

Due to the light rain and drizzle that fell on Midland Wednesday, the streets were rather slick this morning, causing hazardous driving conditions for those who had to go to work.

However, the weatherman said gloomy skies and drizzle which seems to have settled permanently over the city should turn into mostly cloudy skies with less than a 20 percent chance of precipitation through Friday. He said light drizzle may fall on this area late tonight and early Friday.

The low temperature tonight should drop to near 30 degrees, but it is expected to become warmer Friday with the high temperature reaching near 50 degrees. The National Weather Service at

the Midland Regional Air Terminal recorded .04 inch of precipitation within the last 24 hours, bringing this month's total to .19 inch of precipitation and this year's total to .41 inch.

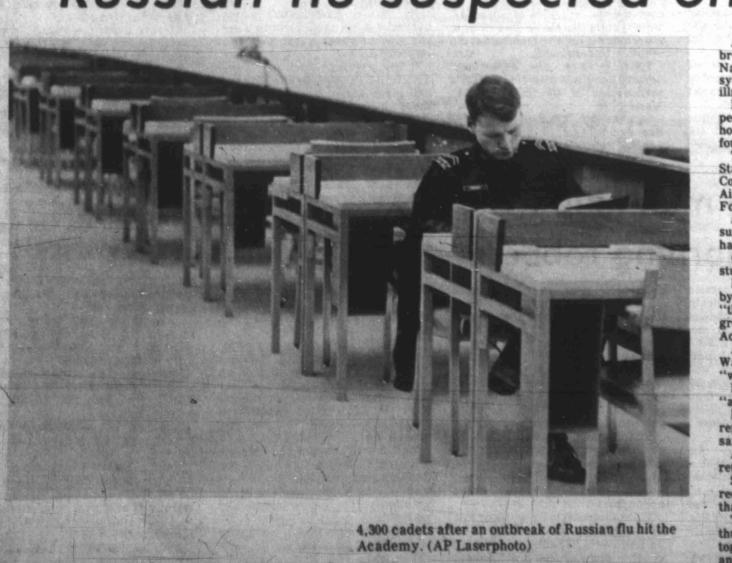

About .03 inch of precipitation fell on west Midland since Wednesday. according to reports. Greenwood and

the past 24 hours. East Midland had .11 inch of precipitation, and southern Midland County recorded .06 inch, according to Texas Electric Service Co. of Odessa. Wednesday's high temperature was

Midkiff reported up to .2 inch within

43 degrees, and the overnight low temperature was 27 degrees, the weather service reported.

All area towns reported similar weather conditions to Midland this morning with cloudy skies and rather

ANNAPOLIS, Md. (AP) - In the East Coast's first suspected outbreak of Russian flu, threequarters of the midshipmen at the U.S Naval Academy have reported to sick call in the past week with symptoms that doctors say fit the pattern of the contagious viral illness.

In addition to more than 3,000 midshipmen here, several hundred people in the Washington area have come down with flu symptoms that hospital officials here say are "very likely typings of A-USSR-77," the formal name for the Russian strain.

The only cases of Russian flu that have been confirmed in the United States this season, all since last month, have been in Wyoming, Colorado and Michigan. The Colorado outbreak involved cadets at the Air Force Academy at Colorado Springs and recruits at Lowry Air Force Base in Denver.

All classes and military training at the Air Force Academy were suspended this week due to the outbreak, which since early last week has afflicted up to 70 percent of the 4,300 cadets there.

Only two cases were reported in Michigan, involving a 19-year-old student and a 20-yearold factory worker.

Medical authorities here are awaiting the results of blood tests, due by Friday, before confirming this new outbreak as Russian flu. But "the chances are pretty good, based on the symptoms and the age group affected," Dr. James Hodges, chief medical officer at the Naval Academy, said Wednesday,

A spokesman at Children's Hospital National Medical Center in Washington said that after taking virus samples from two outpatients, 'we are 99 percent sure they have the Russian flu.'

Hodges said the first flu cases at the academy were reported Jan. 31, 'and just about everyone will have it before it is over.'

He said the outbreak peaked Sunday, when 1,300 midshipmen reported to sick call. Only 110 cases were reported on Wednesday, he said

About 1,200 cadets were ill Wednesday, and half were expected to return to classes today, he said. Symptoms include a high fever - up to 104 degrees, hacking cough,

red eyes, severe headache and muscular aches, said Hodges, adding that the illness generally lasts for between three and five days.

The Russian strain is believed to cause less severe an illness - and thus fewer deaths - than the Asian and A-Hong Kong strains that together killed 90,000 people in this country during epidemics in 1957 and 1968. 4

mediate legislation aimed at easing the "plight of the American farmer" continues to echo in the chambers of the House Agriculture Committee. Texas state Rep. Joe Hubenak, D-Rosenberg, told

WASHINGTON (AP) - Testimony favoring im-

the committee on Wednesday that the Lone Star State lost 2,013 farmers last year and "they didn't quit because they got rich.

"They quit because the profit was no longer present and the incentive to continue to produce has been diminished because of agriculture policies," the chairman of the Texas House Committee on Agriculture and Livestock continued.

Hubenak kicked off the third day of testimony before the committee. The committee hearings were sparked by the American Agriculture Movement's last month. The hearings resume this morning with Texas cotton, corn and grain sorghum associations spokesmen scheduled to testify.

The committee scheduled testimony from farmers, bankers, implement dealers, state officials and congressmen which will conclude next week.

"You may be assured that Texas and American agriculture will remain great only as long as it remains in the hands of our individual farmers and ranchers and not in the hands of large corporations,' said Hubenak, "Individual farmers and ranchers are the last family-based free enterprise system that we enjoy in this country.

"Please be assured that we are looking for a farm nation's capital lobbying propriations Committee. program without farm subsidies and readily accessi- congressmen, striking ble domestic and foreign markets without continued farmers claim they have Langston confirmed the goverment intervention.

situation as being "desperate."

"Let me be more specific," he added. "Texas A&M University estimates costs of production for wheat in Texas in 1978 to average \$3.88 per bushel. Texas is much good news for spokesman said the the largest producer of cotton. Our costs for the state him," said Marvin Meek, president's schedule for average 54.5 cents per pound.

"Comparing these costs with the target price of \$3 spokesman for the released until Feb. 13.

# House turns back on consumer protection bill

## By MARY RUSSELL The Washington Post

PAGE 4A

WASHINGTON - The House Wednesday turned its back on Ralph Nader, assorted consumer groups and its Democratic leadership to defeat, 227 to 189, a bill to create a new federal consumer protection agency.

The vote was a victory for business groups, which had lobbied heavily against the legislation. It was also a defeat for the White House, which had obbied for it.

The consumer protection agency idea has been before Congress in one form or another for eight years. The House action means the idea is now dead, Rep. Frank Horton, R-N.Y., a leader of the losing side, said Wednesday night.

White House consumer affairs ad-viser Esther Peterson agreed. She

viser Esther Peterson agreed. She said a bill to create an agency would not be re-introduced "in this session." She denied that President Carter was defeated, at least in spirit. "For the president to go down for something he believes in is never a defeat." However, she said the loss handed him a "terrific political issue.'

An obviously wounded Nader said of the defeat: "The corrupting in-fluence of big business campaign contributions promised or withdrawn has never been more clear than in the last few days. That is why big business' massive lobbying defeated a measure supported by a 2-to-1 public margin and by 150 consumer, labor, farm and elderly groups. But those members who today voted against the con-sumer should know that consumers

will organize to vote against them

tomorrow." But U.S. Chamber of Commerce President Richard L. Lesher said, "This is truly a remarkable victory. The House majority clearly heard the voices of the American people, who are weary of too much government in their lives - in too much protection, too much of what other people think is good for them."

In an impassioned speech for the bill, House Speaker Thomas P. "Tip' O'Neill, D-Mass., asked "in good conscience, can we deny to the consumer ... the same opportunity industry has to be heard before regulatory agencles. Business has its representatives, but the people send you here, ordinary John Q. Publics send you here, and you are the only one who can represent them.

O'Neill took a similar bill off the House calendar last year when it appeared he did not have the votes.

The bill was considerably scaled down after that. But even with the White House on its side -- President Carter personally called several members - this new version was defeated.

The bill had passed the House dur-ing the Ford administration by votes as great as 344 to 44. But that was when President Ford had threatened to veto it.

Now with a Democratic House and a Democratic president, the legislation has lost support, largely because many younger Democrats have campaigned on anti-government themes and do not want to create any new federal bureaucracy, even one designed to protect consumers.

## **Neel's nomination comes** as surprise to parties

#### By DAVIDS. BRODER he Washington Post

As for his membership would have been a add insulation this year. board of directors of Am- on the state Democratic Republican.

In fact, the fight over the new agency had become a largely symbolic battle of anti-government versus progovernment forces.

During Wednesday's debate, several members noted that Carter had promised to scale down the size of government.

In addition to anti-government sentiment, many middle-of-the-road Democrats resented the tactics of Nader, who blasted even former friends who expressed doubts about the bill as "mushy liberals." In some of these cases, Nader took his fight to their districts, calling press con-

ferences in their home towns to de-

Rep. John Anderson, R-Ill., sum-

bluecollar worker and consumer is that government's already too big, too intrusive and too bureaucratic. The people aren't crying out for more bureaucracies to presumably protect

them from other bureaucracies; they want us to strip away some of the layers of bureaucracy and red tape and make more common sense out of what we've got.'

As in former bills, the agency under Wednesday's bill would still have the power to represent the consumer in proceedings before other government departments and regulatory agencies, whenever it determines the interests of consumers are substantially affected

It would also have had the right to appeal agency actions or decisions to the court.

But, if it did not participate in the agency decision, it would have had nospecial right to appeal the decision, as in previous bills, a change made to insure that the proposed agency would. have had no greater right than businesses in the appeal process.

Also under Wednesday's bill, the agency could not have demanded that, businesses answer its questions.

The functins and funding for 80 consumer representatives already in some government departments and agencies would be transferred to the new agency, for what supporters say would be a savings of \$6.6 million.

LEASE

sumer representative. He had to, if he was going to get him on the Amtrak board. It already had five Democrats — all the law allows of one political party. And the same law said there had to be some consumer representatives.

Carter cared enough to see that Neel was both, because Neel had long ago showed Jimmy Carter he cared, too. In 1966, when Carter

made his first, losing bid for governor of Georgia, his Thomas County campaign chairman and fund-raiser was Frank H.

Neel. In 1970, when Carter ran again and won, Carter county chairman Neel was appointed to the Georgia Democratic Committee and two other state boards.

In the winter and spring of 1976, Neel left his \$2 million-a-year business for months and campaigned for Carter in the New Hampshire, Florida, North Carolina, Wisconsin, Pennsylvania and Ohio primaries. In the fall, he joined the Peanut Brigade in New Hampshire and Vermont

Thursday, the Senate Commerce Committee is scheduled to vote on Neel's appointment to the Amtrak board — the body that sets the rates and decides the routes for the federal railroad network. It should be routine.

But Sen. Robert P. Griffin, R-Mich., is even more skeptical than the folks in Thomasville about the remarkable transformation in Frank Neel's life

It's not the money — only \$300 plus expenses for each of Amtrak's monthly meetings Griffin says. It's the prin-The administration

has put you forth as a consumer representative and ... as an indepen-dent," Griffin told Neel during a brief confirmation hearing last November. "As a Republican, I don't like this at all. I think this is circumventing the pur pose and intent of the statute."

**Griffin said Wednesday** that he would raise the same objections ursday and insist that eel be recalled for fur-

When President Carter was inaugurated, he inherited 29 Chrysler Newport sedans used to ferry senior presidential aides to and from work. The Newports, with 400 cubic inch V-8 engines, were rated by the En-vironmental Protection Agency as getting 13 miles per gallon of gasoline in combined city-highway driving. The president ordered

his kinsman and chief staff economizer, Hugh Carter Jr., to end portal-to-portal. chauffeured service for White House assistants. Moreover, the younger Carter was directed to trim the size of the fleet.

Ferry service was ended for all except Zbigniew Brzezinski, the president's assistant for national security affairs. The exception was dictated largely by security considerations, ac-cording to the White House

Hugh Carter Jr., who has worked hard earning the nickname "Cousin Cheap," reduced the fleet of 29 chauffeured Newports to 14 and slashed the rest of the White House fleet, which includes trucks, vans and messenger cars, from 27 to 14.

The presidential cousin thus exceeded his own announced goal of trimming the fleet to 35 vehicles of all types. It's down to 28.

feet of gas.

SAN ANDRES WELL Leede Oil & Gas, Inc., of Midland

## Glasscock test staked

Diamond Shamrock Corp. of Amarillo No. 4-B Steve Calverley Jr. is to be drilled as an 8,000-foot test in the Blalock Lake, East (Wolfcamp) field of Glasscock County

Location is 1,980 feet from south and 660 feet from east lines of section 14, block 35, T-3-S, T&P survey. It is 1,430 feet south of production.

#### MIDLAND WELL

Halvey Energy Co. No. 1-B Braun is a new well in the Spraberry Trend (Clear Fork) field in Midland County

The oiler finaled for 1 24-hour pumping potential of five barrels of 39-gravity oil, through perforations from 7,360 to 7,378 feet. Gas-oil ratio was 3,600-1

Location is 1,320 feet from south and east lines of section 6, block 39, T-4-S, T&P survey and 18 miles south of Midland. The pay was treated with 2,000 gallons of acid and factured with 30,000 gallons.

## Stolen statue

loses power

DAVIS, Calif. (AP) - Whoever pinched a statue of "Hotei" from a Chinese restaurant here need not bring it back.

Hotei is a mythical figure which is

has completed its No. 6-47 University as a San Andres well in the farmer field of Crockett County.

Bottomed at 2,550 feet, the well finaled for a 24-hour pumping potential of 72 barrels of oil, no water, through perforations from 2,200 to 2,300 feet after a 40,000-gallon fracture job.

It is one location southwest of other production.

Location is 1,112 feet from north and 1,524 feet from west lines of section 20, block 47. University Lands survey and

24 miles northwest of Ozona. The northwest offset produces from the San Andres zone at 2,164-2,174 feet

#### LEA OIL WELL

Delta completes gas

strike in Eddy area

Supron Energy Corp. of Dallas has completed its No. 1 State of New Mexico as a Wolfcamp well in the Kemnitz, West multipay field of Lea County, five miles east of Maljamar.

The well, one-half mile West of the depleted Wolfcamp discovery, fianled for a daily flow of 711 barrels of 40.7gravity oil, through a 1/2-inch choke and perforations from 10,701 to 10,825 feet. Gas-oil ratio was 949-1 and the pay was treated with 3,300 gallons of acid

Location is 1,980 feet from north and west lines of section 33-16s-33e.

#### **ROOSEVELT WELLS**

Sundance Oil Co. No. 2 Cone Federal and No. 3 Cone-Federal have been completed in the Tomahawk (San Andres) field of Roosevelt County, N. M.

No. 2 Cone-Federal, one-half mile west of the field discovery, finaled for a daily flowing potential of 200 barrels of oil, through a 23/64-inch choke and perforations from 4,132 to 4,172 feet, natural

Location is 660 feet from north and 1,980 feet from west lines of section 31-

7s-32e and 16 miles south of Elida. No. 3 Cone-federal was finaled for a daily flow of 101 barrels of oil, through a 17/64-inch choke and San Andres perforations from 4,268 to 4,280 feet, natural.

This wellsite is 1,980 feet from north and east lines of section 31-7s-32e

#### QUEEN TEST

Amoco Production Co. No. 1-EV State Communitized is to be drilled as a 2,800-foot Queen sand gas project in Chaves County, 1/2-mile southeast of a Queen discovery completed in 1973.

The new project is 660 feet from north and 1,980 feet from west lines of section 16-12s-31e and 10 miles southwest of Caprock.

#### LEA STEPOUT

H. B. Rhoads & Associates of Midland No. 1-22 Atlantic-State is to e drilled as a 4,800-foot project in the Reeves (Queen) area of Lea County, 12 miles northwest of Monument. It is 3/4-mile northwest of the field discovery and 2,080 feet from north and 1,880 feet from west lines of section 22-18s-35e.

Senate gas conferees again fail to agree

#### By RICHARD L. LYONS The Washington Post

THE MIDLAND REPORTER-TELEGRAM, THURS., FEB. 8, 1978

WASHINGTON - Efforts to break the deadlock among Senate natural gas conferees failed against Wednesday, but Sen. Henry M. Jackson, D-Wash., said he is still optimistic and will try again Thursday

In an effort to get the Senate con-

ENERGY OIL & GAS

ferees off dead center, Jackson, chairman of the Senate Energy Committee, had proposed lifting price controls from newly discovered gas after seven years.

Wednesday, eight of the 17 conferees, including six of the seven Republicans, offered a counter proposal that Jackson and five other middle-of-the-road Democrats working with him flatly rejected. The Republican plan would deregulate natural gas prices in five years and would permit prices to rise at a much faster rate during the interim. Jackson's staff estimated the Republican plan would cost con-

## Explorer sites staked

A pair of wildcat operations have been announced for Chaves County, N.M.

Supron Energy Corp. of Dallas will drill No. 1 Conoco-Federal as a 6,600foot test 13 miles northeast of Dexter. It is 990 feet from west and 1,980 feet from south lines of section 8-11s-27e and 11/2 miles northwest of the Coyote (Queen) field and seven miles west of the Chisum (Devonian) field.

#### \$9.2 billion under Jackson's offer. Jackson has given up reaching an agreement among Senate conferees before the start of a 10-day Senate recess Friday. But he has backed

away from his statement that if the conferees don't agree this week they might as well give up. He hopes a meeting with some of the conferees Thursday will "define the problem areas" and permit staff to draft a compromise during the recess.

sumers at least \$33 billion more than

the House bill by 1985, compared to

Jackson said he felt "we were within reach of an agreement" last Friday after he had held several meetings with Sens. BennettJohnston, D-La.; Pete Domenici, R-N.M.; and others. Both Johnston and Domenici had supported deregulation, while Jackson supports President Carter's plan to continue price controls at higher levels. Jackson also hoped to win over Sens. Wendell Ford, D-Ky., and Mark Hatfield,, R-Ore., to support his offer.

But on Monday all the Republican conferees met with Ford and Johnston and agreed to stick together, at least for one more attempt, which failed Wednesday.

PAGE SC

Jackson said he will meet Thursday morning wit Johnston and Domenici and try again to put together a majority for a gas compromise that a majority of senators can approve and then offer to House conferees.

The conference on Carter's energy bill, which was his top legislative project last year, has been bogged down waiting for the deadlocked Senate conferees to make an offer and start the negotiating process of a conference. The House voted to continue controls, while the Senate voted deregulation after two years.

Jackson went to the White House Wednesday to tell Carter he still believes it is possible to reach a natural gas compromise that Carter and his supporters in Congress can support.

# Historic church folding as remaining members die

#### BY MICHAEL A. CHIHAK

PAGE C

TOMBSTONE, Ariz. (AP)- Church-going in the 1880s had to compete with saloons, gunfights and bawdyhouses in this legendary Western town.

There are fewer such distractions in modern Tombstone, but St. Paul's Episcopal Church, which easily survived the town's heyday, is having trouble drawing a crowd and is in danger of folding.

St. Paul's oldest Protestant church in Arizona, has about a dozen active members, said John Hoffman, who as warden is the congregation's head lay person.

"I imagine that if things go as they are now, without new members, within a few years it will fold up" said the 40-year-old Hoffman, one of the younger members of the congregation. "Only my wife and daughter are younger."

The next youngest church members are in their 60s, he said, and that is the problem.

The small congregation does not allow St. Paul's enough money for its own priest and barely enough for maintenance on the 96-year-old church building, he said. Priests from other southeastern Arizona Episcopal churches take turns conducting Sunday services.

"With that kind of congregation, it's

clear that our members will be gone soon." Hoffman said.

"We don't have a recruiting pro-cess," Hoffman said. "We should be calling on people to encourage them to come back." That job lies with the warden, but Hoffman said he works out of town and often is not home until late evening, leaving him little free time.

Why can't the church recruit new members, taking a lesson from a 19th-

century church leader who Hoffman says was known for his success in going from saloon to saloon collecting money for various church projects?

Why can't the congregation find the incentive to draw back its inactive members and rebuild what is a landmark of Protestantism in an area noted for dominance by Catholic missionaries?

"People who belong don't come because they feel they don't need to or they simply don't want to," Hoffman said. "I guess that's the way society's going.'

In addition, he said, it is difficult to build a sense of commuterist mecca such as Tombstone. People come here thinking they can make money off and that leads to bad feelings and isolation, he said. tion, he said.

Hoffman said he had no workable ideas for rebuilding the memberhsip.
