According to reports, Estes anweather forced them to postpone the

himself, according to police reports.

Smith was thought to be en route to Newport Beach, Caiif., police said.

Farmers attempt to intercept trucks

By LINDA HILL

BIG SPRING - "It was their feeling that if they were going to be out there helping the people of the United States, the trucks were going to stop," Big Spring farmer Roger Coats said of other farmers who were responsible for breaking a trucker's windshield this morning in Big

That incident was the only reported violence as farmers tried to convince truckers hauling food products to stop for 72 hours — part of a nationwide effort which American Agriculture Movement organizers hope will cause food shortages in the Northeast.

In the Permian Basin, farmers gathered on Interstate 20 and U.S. 87, trying to stop trucks leaving Big

Coats said he was at the U.S. 87 location when an object was thrown through the trucker's windshield. He turned their trucks around and went

said he immediately asked that the person responsible "leave and not come back" because the effort was to be a non-violent one. About 10 to 15 persons left, Coats said.

He said the farmers collected more than \$100 to help pay for the damage to the truck and the driver "seemed

Coats estimated that a total of 200 farmers are involved in this phase of the farm strike in Big Spring. "We got a lot of them (truckers) to stop and ask questions. We had a few who said they'd stop for 72 hours," he said.

"Right now, it's not near effective enough," he said. Coats said the farmers would try to

continue the effort the full 72 hours. St. Lawrence farmer Dennis Suchs said he worked from about midnight to 3 a.m. talking to truckers on his CB radio. During that time, he said, four or five truckers did stop - "They

back to town. How long they'll stay, I don't know."

He said another four or five trucks stopped long enough for their drivers to have coffee and talk to the strikers. And, he added, all of the truckers were polite when contacted on the CB. "We were afraid we'd get a little badmouthing.

Howard County Sheriff A. N. Standard this morning said there had been no problems with the demonstration.

"There were a number (of trucks that stopped), but this was strictly at their own discretion. There were no bottlenecks or traffic problems from this," Standard said. He said the farmers were staying in the rest areas and not blocking the highway.

Also, Standard said, a small group of farmers picketed a railroad in Big Spring. The picket lines were set up there were no problems, he said.

Farmers from St. Lawrence, Coahoma, Ackerly, Seminole, Seagraves, Roby, Haskell, Hamlin, Lamesa and Big Spring were involved in the Big Spring demonstration.

Wade Montgomery holds Herman, his 6-foot-long, decidedly serpentine watchdog.

He doesn't bark much, but he might put the squeeze on you

NEW ORLEANS (AP) -Herman, the guard at a local gas station, makes a formidable night watchman. He never blinks, eats only once a month and is meaner than a junkyard-dog — especially when he's shedding.

But Herman sheds skin, not hair. He's a 6-foot South American boa constrictor - half of a two-snake guard team that has foiled at least one burglary.

"We got broke into a couple of times before. The burglars they have around here just kill dogs, and we found the snakes would do better," says Wade Montgomery, chief boa handler at the station.

When the doors are locked at Plaza Towers Texaco, Wade turns loose bony Herman and his companion, an unnamed 41/2-foot Mexican boa.

The two brown and black snakes slither under the desk, stretch themselves up onto the shelves and coil around the water cooler until morning.

Lest the larcenous be unaware of their presence, a sign in the window warns of "a 12-foot boa hostile reptile.

"The 12 feet means both of them together," says Wade, 28, who allows that he has always preferred snakes over dogs.

The two boas, sexes unknown, probably could not seriously injure an intruder. They have teeth and nip a bit. And they become quite irritable when it's time to shed a skin.

But their value as guards is chiefly psychological. "Most people are kind of scared of snakes, especially if

they don't know where they are," says station owner Larry Montgomery, Wade's 29-year-old brother. Larry says the station has been

broken into only once during the two years the snakes have guarded it. Those burglars rifled a drawer or two but then lost heart and fled.

Decision protects minority voter

WASHINGTON (AP) — Even southern cities and school districts that do not register voters are subject to a federal law protecting the rights of minority voters, the Supreme Courts ruled Monday.

In a decision carrying great impact for Alabama and Texas as well as other southern states covered by the Voting Rights Act of 1965, the court ruled that all entities holding elec-tions within those states fall under the

The court voted 6-3 to reverse a ruling by a three-judge court in Alabama that Sheffield, Ala., is not covered by the law. In an opinion written by Justice William J. Brennan Jr., it said "the act covers all political units within designated jurisdictions like Alabama.'

Disagreeing with Brennan were Chief Justice Warren E. Burger and Justices John Paul Stevens and William H. Rehnquist.

Brennan's opinion specifically ruled that Congress meant to include under the 1965 law all government entities within states in its definition of 'political subdivisions.

Sheffield officials had argued successfully in the lower court that a "political subdivision" under the law is one that registers voters-and such duties in Alabama as well as in Texas are handled at the county level.

Monday's decision rejected that in-terpretation of the law.

In 1975, Sheffield officials decided to switch from a commission form of government to a mayor-city council system. The city advised the Justice Department of the proposed change, and won federal approval for the holding of a public referendum on it.

The city's residents voted in favor

of such a change, and plans were made to elect council members in an at-large election, meaning all council members would be elected from one voting pool in the 13,000-resident town rather than each member representing a certain portion of the city's The Justice Department objected to that and tried to block the election.

The Sheffield mayoral and city council elections were held, and the new form of city government already is in effect. Now, presumably the city will have to submit its at-large election system to the Justice Department or a three-judge court in Washington

If approval is not granted, the atlarge voting system will have to be

The decision may have a major impact on the political power of (Continued on Page 2A)

Kindergarten program supported

By MARLEEN RAY

Parents and teachers spoke out in favor of continuing full-day, multi-age kindergarten programs at Rusk, Long and Burnet Elementary schools in a panel discussion Monday night at the Rusk school. Nearly 100 persons came to hear the

seven-member panel, moderated by Sarah Crowe, mother of two children who are enrolled in the full-day, multi-age kindergarten program at Members of the panel were Printus Burkhart, principal of Rusk; Cindy Witten, teacher of the full-day, multiage kindergarten program at Burnet; Roberta Bain, teacher of the same program at Rusk; Carol Ann Hunt, mother of a child attending the Fullday, multi-age program at Rusk; Nancy Genzel, mother of a firstgrader at Rusk; Corby Considine, Midland attorney and father of a firstgrader at Rusk, and Gail Ashby, coordinator of early childhood

In an opening statement, Mrs. Crowe said the purpose of this discussion was "to inform the public, especially the parents of children attending Rusk, Long and Burnet Elementary" schools that the school board is considering doing away with full-day, multi-age kindergarten programs at these three schools.

In its Jan. 10 meeting, the school board discussed a list of alternatives, presented by Mrs. Ashby, for reorganizing the kindergarten program. Schools Superintendent Dr.

James Mailey said the board is contemplating changing the kindergarten structure because of the "inequity" of the programs among the schools. Currently, only seven schools, including Rusk, Long and Burnet, have full-day, multi-age kindergarten programs. The rest have self-contained, half-day programs, except for DeZavala Elementary School, which has a self-contained, full-day program. Mailey also pointed out that re-

Speck admits to killings

CHICAGO (AP) - "Yeah, I killed them. I stabbed and choked them." said Richard Speck, admitting for the first time that, while high on whiskey and heroin, he murdered seven of eight young nurses in a South Side townhouse almost 12 years ago.

Speck, whose account of the July 1966 mass murder was published in today's editions of the Chicago Sun-Times, said the eighth nurse was slain by an accomplice who Speck claimed to have killed later and tossed into a

railroad boxcar. But a spokesman for the Chicago Police Department was quick to discount the existence of an ac-

Speck, 36, said in a copyright in-terview with columnist Bob Greene that he killed his unnamed accomplice, "an effeminate homosexual," because he feared he would testify against Speck.

Speck, convicted of killing all eight nurses, originally was sentenced to die in the electric chair, but the Supreme Court overthrew that sentence. He was resentenced to eight consecutive prison terms of 50 to 150 years each for the murders.

"If that one girl wouldn't have spit in my face, they'd all be alive today, Speck told Greene in an interview at Stateville Penitentiary near Joliet.

Just a few hours before the murders, Speck said, he and his ac-complice met for the first time on the far South Side. He said at first he and his companion only intended burglary.

"We knocked on the girls' door. No one answered. It wasn't planned or nothing. When we got upstairs we seen them all in the bedrooms asleep. There were three or four bedrooms, I don't know how many.

'Some girls weke up. We said,

"Stick up! We want your money." I told one of them to get the money. She spit in my face and said she'd pick me out of a lineup. Ninety-nine percent of the people in this country are stool pigeons. I just blew."

"I can't tell you if the girls put up any resistance or not," Speck told Greene. "I killed seven of them; the other guy killed one. We left. He was frantic. He says he doesn't want any of the money at all. He's dead now.

"I know he's dead because I shot him six times."

Speck was apprehended several days after the murders in a skid row flophouse after a suicide attempt.

"Speck's a liar. It's not true," citywide police homicide Commander Joseph DiLeonardi said of the ac-

He pointed out that the surviving testified that Speck acted alone

Cloudiness not to last

Although it is expected to be cloudy and cooler in Midland today, the clouds should break up sometime tonight, resulting in fair skies and warmer temperatures Wednesday. the weatherman said.

The low temperature tonight should dip to the middle 30s with northeasterly winds decreasing to 5 to 10 mph. Wednesday's high temperature is expected to reach the middle 60s.

Monday's high temperature was 73 degrees, and the overnight low temperature was 39 degrees, the National Weather Service at Midland Regional Air Terminal said.

In Andrews, Lamesa and Stanton, the winds were blowing the sand around this morning. Otherwise, temperatures were cool and skies were somewhat overcast in most area towns with clear skies in Crane, according to reports.

RAIN IS FORECAST today for the Pacific Northwest with showers in the central Gulf. A band of rain and snow is expected from eastern Texas and Oklahoma to the Ohio Valley. Warmer weather is forecast for most of the West and in the Southeast but the remainder of the country is expected to stay cold. (AP Laserphoto Map)

North Texas - A flash floodwatch was in effect in the North Texas.— A flash floodwatch was in effect in the northeast portion early today. Otherwise, it should be mostly cloudy with Showers and occasional thunderstorms in the east. A few locally heavy showers, possibly causing flash flooding, were forecast for the northeast. The skies should be clearing from the west tonight and over the remainder of the area Wednesday. It will be cooler in the west and north today and over the rest of the area by tonight. The east should clear off by Wednesday. Lows tonight should be 30 in the northwest to 42 in the noutheast. Highs wednesday should be from 48 to 58.

42 in the southeast. Highs wednesday should be from 48 to 38.

South Texas — It will be mostly cloudy, windy and cool tonight with a chance of rain. The cloudiniess will be decreasing from the west tonight, becoming fair and cooler Wednesday. Lows tonight will be in the upper 30s to upper 40s. Highs Wednesday should be in the 80s.

Upper Coast — A small craft advisory was put in effect for today. Southwest winds 13 to 25 knots will be from the morth at 15 to 25 knots through Wednesday. Seas were expected to run between five and eight feet today, accompanied by scattered showers and thunderstorms.

Lower Coast — A small craft advisory was put into effect today. West winds 15 to 25 knots will become northerly 15 to 25 knots through Wednesday, Seas were expected to run between five and eight feet today.

West Texas — It will be cooler in the south tonight. Clouds should decrease leaving fair skies and warm readings Wednesday, Lows tonight should be in the mid 30s in the north to the mid 70s in the Big Bend area.

Aviation director points to illegality of landing

It just can't be done, according to Col. Wilson Banks, director of aviation for the city of Midland.

Banks said Monday that it is definitely illegal to park a fixed-wing or rotor-engine aircraft anywhere in Midland other than Midland Regional Air Terminal or Air Park, unless

there is an emergency.
He also said that Friday night he notified Police Chief Wayne Gideon that a helicopter was parked illegally at the edge of the parking lot at the Holiday Inn, 3904 W. Wall Ave.

TEXAS DEPARTMENT of Public Safety Trooper

Ray Salinas of Del Rio instructs Spanish-speaking

people in basic driving traffic safety at an Adult

Drivers Emphasis program at Our Lady of Guadalupe Catholic Church Monday night. Ap-

Reports Friday night said that two men flew in, landed the helicopter at the edge of the parking lot, went in and ordered "a couple" of drinks at the lounge and then left in a car.

According to police, officers had seen the aircraft before Banks called, but they were unsure of the legality of the parked helicopter. However, police said Monday they notified the pilot about 7 p.m. Friday to move the

A spokesman at the Holiday Innsaid the helicopter left about 8:30 a.m.

By JIM STEINBERG

During 1977, vandalism officially sost Midland's system of 29 parks

'But that's really only just the tip of the iceberg. There are a lot of things we can't readily determine whether the damage is done maliciously or done through improper use." said Robert Thomson, Midland Parks and Recreation director.

directly attributed to vandalism hasn't gotten particulary worse in recent years. In fact, Thomson said, since the closing of the Cole Park Zoo last summer, the problem may have improved slightly, on paper at least.

The category of damage that can be

But the type of vandalism that is assessed a dollar figure for parks department monthly progress reports provides little more than a peek into the actual loss, Thomson said.

Vandalism in parks has high cost

"When a department employee spends an hour or two trying to fix a

Third in a series

stopped up toilet, we don't know whether the toilet just doesn't work properly, or whether someone did their best to see that it doesn't work," Thomson said.

Surprisingly, perhaps, Thomson ranks the golfer right at the top of the list of the vandals whose deeds seldom can be tabulated on the vandalism report.

Who would think the smiling, cheerful duffer on the first tee was a closet sociopath?

"It's not just kids," Thomson said of the vandalism problem in Midland's park system. "Some (adults) have no concern at all for the property rights of others."
He said that too often the "temper

tantrum" of an adult golfer on a remote section of the course leads to the violent destruction of a portion of

the golf course.

Although not happening as frequently, Thomson said, there have been several instances when golf-cart drivers who have drunk a bit too much have driven their carts with damaging effects into trees and other course fixtures. Recently, a golf course ball washer had to be replaced after a golfer smashed into it with his

organization report.

He said the multi-age program

allows children "more than one adult

to relate to, more than one age to

relate to." Rusk decided to par-

ticipate in the multi-age program in

1972. It has been chosen as the multi-

age demonstration school by the

Texas Education Association this

During its March 14 meeting, the

school board plans to consider the re-

organization of the kindergarten

program. The school administration

is expected to recommend one of the

alternatives covered in the

plementing full-day kindergarten

throughout the district, Mrs. Ashby

said. The estimated cost of this

alternative would be \$541,354 the first

year only and \$427,354 the following

going to half-day kindergarten

programs districtwide, she said.

Total costs for this program are about

\$135,128, not including possible

remodeling costs to seven open-area

The third alternative for re-

organizing the kindergarten program

is implementing half-day sessions at

non-Title I schools and full-day sessions at Title I schools . Title I

schools are those schools which have

a majority of disadvantaged children-

and receive government help. Mrs.

Ashby said the estimated cost of this

choice is \$223,444 the first year and

establishing half-day kindergarten

programs at non-Title I schools and

full-day programs at Title I schools

and schools which already have

multi-age programs, including Rusk,

Long and Burnet. She said the total

cost of this alternative is about

\$272,400 the first year and \$252,900 the

The fourth alternative involves

\$203,944 the following years.

following years.

The second alternative involves

Among these alternatives is im-

damage was done maliciously, it will not be listed among the known vandalisms for the monthly report.

"We could cut our staff by one-third if we could stop people from lit-tering," said Thomson, who classifies littering as another form of vandalism which rates as "un-

measurable" in dollar impact. "People in ballfields are just terrible about cleaning up. You should see the stadiums at Hogan Park after a baseball game. If we thought people would make use of them, we would purchase extra trash containers for use at these games," Thomson said.

"I can imagine the frustration of the men who spend the better part of a day cleaning up a park, only to go to work the next day to find they have to do it all over again," Thomson said.
To correct the littering problem at

parks, Thomson feels, would require a major alteration in societal attitudes

In March of 1977, vandals broke into the zoo, stole \$20 in petty cash, a calculator and turned loose two adult elk. The cost to the public, not counting manpower and gasoline expense for the roundup, came to \$110. A few years before Thomson recalls one of the zoo animals was found strangled.

"Anything of interest and approachable without a lot of trouble is good prey for vandalism," Thomson

Although the animals were gone and the zoo closed early last summer, people found no shortage of parks equipment to practice their destruction on.

Here's a look at the vandalism report of the city's parks division for

November 1977: At Henderson Park, a car knocked down a portion of the outfield fence on the south field. Material damage was \$95. Labor came to \$56. At Hogan Park two broken commodes were replaced at a cost of \$118 for material and \$28 for labor. At Cole Park a car ran over four aluminum pipe sections. Replacement cost \$160 for material and \$4 for labor. Also at Cole Park, an estimate of restroom and electrical box damage came to \$200.

Summer months are the worst Thomson said, and 1977 was no exception. August brought the highest total damage figures: \$1,060. Damage to sprinkler systems and

restroom facilities account for the greatest majority of reported park vandalisms. Sprinkler heads frequently are stolen. They have no function for the

thief. They have no resale value. "It's the thrill," Thomson said. During the destruction of a restroom, a sledge hammer is sometimes used, Thomson said, 'Many cities are very reluctant to put restrooms in a park" Thomson ad-

Vending machines in the park are kept behind a steel fence that is locked at night. City pools, on occasion last summer, were filled with

garbage and glass. In September 1976, the Midland City Council approved an ordinance declaring a 10:30 p.m. curfew on 19 neighborhood parks, including Wadley-Barron, a park where a problem with congregating "undesireables" led to the ordinance.

A midnight to 6 a.m. curfew was declared on 10 other parks which have lighted facilities for night-time ac-

Thomson said impetus for the ordinance came from a a problem situation around Wadley-Barron Park. "Apparently," Thomson said, "the park was published in some underground newspaper as a place where people could buy drugs. We would find hypodermic needles in the park all the time, Thomson said.

"Undesirable" people collected in the park and were a nuisance to people in the neighborhood. At one point a fence around the whole park was suggested, Thomson said.

The curfew and frequent police patrols around park areas largely eliminated the problem last summer. Thomson said. The largest park in the city, Hogan

Park, is also the one with the greatest incidence of vandalism. Because of the large number of people drawn to the park for baseball games, off-duty policemen patrol the park on a 6 p.m. to midnight shift from April 1 to the end of August, Thomson said. Despite this extra police presence,

members of the Midland Woman's Club, located at the park, report they Mailey said the administration has have been harassed so much by not decided what alternative it will youths in the area that evening functions have all but been eliminated. Woman's Club members report that

they have had problems with tires being slashed and windows in the building being broken. In one incident, a garden hose was pushed through a broken window, flooding the building. "When a city has a traffic problem,

it installs a traffic signal. When it has a problem with a park, something should be done to keep the park viable in the scheme of the community.'

organization was proposed in light of a change in state funding laws. Now, he said, "The state only reimburses the school district for disadvantaged students in a full-day program half-a school year or a half-day program all

VANDALISM: Sometimes it's hard to be sure. But

During the discussion, Mrs. Hunt said, "Our problem tonight is not 'Can we afford an all-day kindergarten?' but 'How can we not afford an all-day kindergarten for our children?'

"The very people who are com-plaining about (the inequity of the kindergarten programs among the schools) are the ones who turned down (multi-age programs) for their schools," Mrs. Hunt said. "I don't

think they know what they want." Mrs. Hunt said it would be "a step backwards" if the board decided to discontinue the full-day, multi-age programs at Rusk, Long and Burnet.

She said she and her husband "feel strongly" about the so-called "basics of education" but they wanted more than that for their child. She said if they had enrolled their child in a traditional classroom situation her learning "would have been stifled"

because their child is shy. In her address to the audience, Mrs. Genzel said, learning the basics is not dependent on "the size of the classroom" She said she thought the open classroom, incorporated in the full-day, multi-age kindergdrten program, is "the best possible lear-

ning situation."
"What possibly is more important than the best possible early childhood education for our children?" she said.

She noted that if children have a personality conflict with a teacher in a multi-age classroom, they have other teachers to turn to, since these classes are taught by teams of

proximately 175 people seeking to earn their drivers' licenses attended the session, sponsored

by the Garden Lane Out-reach Center. Instruction

is in English and Spanish. The program continues

nightly through Thursday. (Staff Photo)

Another advantage of teamteaching, Considine said, is there's "never a lost minute." He said if a classroom only has one teacher and that teacher becomes ill, often a 'substantial disruption' of the learning process occurs when a substitute teacher must take over. He said the substitute teachers he's talked with say they prefer teaching with a team.

Considine invited the audience to sign a petition he had made up, supporting the full-day, multi-age kindergarten program.

The petition states that the signers believe this program is the "best educational system for our children and well worth the extra cost." It urges the school board not to take any action that would abolish the

Plans were made to circulate the petition and its copies during open house at Rusk, Long and Burnet. Considine said the petitions would be presented to the board at its March 14

'You don't take away an on-going and excellent program from one school to bring it back down to another school's level," he said.

"Nobody is trying to impose this program (full-day, multi-age kindergarten) on anyone else," Considine said, "We just want to keep

Also voicing support for the multiage program were Miss Witten and Mrs. Bain.

Specifying the advantages of a fullday, multi-age kindergarten program, Mrs. Bain said the program allows for "individualized instruction," which allows children to learn at their own rate of speed.

She said that, according to studies done on the Dallas school district, every dollar spent in early childhood education saves \$3 in educational costs for upper grade levels. She said parents in the Dallas school district, which is considered comparable to the Midland school district, expressed overwhelming support for a full-day program in a recent survey.

Mrs. Bain said she has "grown tremendously" since she began teamteaching in a multi-age classroom. She said team-teaching gives adults a chance to "share experiences, talents and material" and permits them to progress further than they would have teaching by themselves.

Principal Burkhard said "Rusk Elementary is proud to be part of the

Officials hint at new coal plan

WASHINGTON (AP) - The White House, anticipating initial defiance by coal miners to any back-to-work order, is hoping that available supplies and at least some resumed mining will tide coal-dependent states over until warm weather arrives.

We now think we could postpone indefinitely the day of economic catastrophe," said one official, referring to warnings that dwindling coal supplies were pushing the nation to the brink of serious economic

The White House plan was described by high-level officials, who asked not to be named, after President Carter announced Monday he will seek a back-to-work order under the Taft-Hartley Act.

It hinges on several factors convincing miners to return to work. among them court orders, increased wages - and loss of food stamps if

But it also includes the hope that individual coal companies and union districts can reach their own agreements, sending some of the nation's miners back to work under new contracts.

For several weeks, White House officials have been holding out the possibility that individual contracts could be reached outside the national bargaining effort so that some mines, if not all of them, could be reopened.

club's woman's auxiliary.

Hartley injunction might be conducive to such a solution. Once a few such contracts are agreed upon, it is hoped that other union districts and companies would be encouraged to take similar action.

have indicated a desire to negotiate independently," said one administration source. "For those that don't, we will be in a position to stretch out available resources until warm weather comes.'

One official, who asked not to be named, conceded that the "game plan" was more what the administration sees as a plausible scenario than a wellcharted course.

If the administration is not counting completely on the voluntary compliance of the miners, it is at least hoping that the arrival of U.S. marshals carrying back-to-work court orders to the Appalachian coal towns eligibility for food account for part of it. allotments." He said that may convince the miners to adopt a stamps, starting next The officials can't tell means loss of eligibility more cooperative attitude.

The administration also is prepared to use court orders to go after as many as 5,000 officials of the United Mine Workers, carrying the government effort well past the union's national level.

One official said at the White House that if court orders are defied, the administration would seek penalties that would put the union's local, as well as national, treasuries in

Taft-Hartley termed "slave-labor"

By The Associated Press

"It ain't gonna work," said one mine union official. Another called it 'slave labor." An Ohio miner was even more succinct as he watched President Carter on television invoking the Taft-Hartley Act. "That does it," he said, and walked out.

Similar comments were heard across the coalfields Monday as miners heard Carter announce the first moves to order them back on the 91st day of the United Mine Workers strike, a day in which even harsher power cutbacks were announced in Carter named a panel whose job it still listed as critical the coal-short Midwest.

will be to recommend an 80-day, back-to-work order during which new efforts could be made to negotiate a contract. The panel has scheduled a hearing Wednesday, and a federal judge could be asked for an order that

Administration sources also noted miners who violate a government order might become ineligible for food stamps and that refusal to work could result in fines or jail sentences for local union leaders.

Army staff officers, meanwhile were reported reviewing civil disturbance control plans, but Pen-tagon officials said federal troops would be used in the coal strike crisis only as a very last resort.

Dresser Inc. sues U.S. government

HOUSTON (AP) — A federal court suit has been filed against the government by Dresser Industries Inc. in an effort to bar public disclosure of names of company employes working overseas whose lives might be jeopardized in a probe of possible bribes.

The suit, filed Monday by the giant Houston engineering firm, asked U.S. District Judge Ross N. Sterling to order all information in the investigation sealed.

Government official declined comment on the suit.

The company asked for an injunction, a declaratory judgment and a protective order to safeguard personnel from acts of foreign nationals who the suit claimed had made "extortionate threats."

The suit said Dresser was one of 400 corporations which voluntarily reported to government agencies since 1976 the extent of its questionable payments to foreign interest in pursuit of business activities, the suit said.

The suit claimed the company agreed with the Securities and Exchange Commission in January 1976 to conduct a special inquiry into the payments which revealed that an 'immaterial" amount had been

The amount constituted less than 0.1 percent of Dresser's sales in any year and played an insignificant role in total business done by the company, the suit said. "Certain of the payments were

made pursuant to extortionate threats by foreign nationals against Dresser employees abroad," the suit said.
The suit said that Dresser has not

been accused of any securities violations. It claimed the government is "conducting a generalized fishing expedition in search of speculative violations" of securities laws.

Although the SEC originally agreed to keep the names of overseas personnel confidential in its continuing

Journalists subject to kidnapping, death

BUENOS AIRES, Argentina (AP) - In the last four years, more than 35 journalists have been killed in Argentina, 30 have been arrested and scores more have left the country after receiving death threats.

Oscar Serrat, 43, an Argentine citizen who works for The Associated Press, was one of the lucky ones.

Men in civilian clothes picked him up as he left home for work last November. He was released 18 hours later after the U.S. State Department, the AP, other international news agencies and foreign newspapers, and a few other governments pressured the military regime to "find" him.

He was freed near where he had been abducted. He could not identify his captors, who had put a black hood over his head.

Most missing journalists, whose publications lack the clout of a worldwide agency, rate only a few lines, if anything, in the local press, and many are not heard from again.

Many of the kidnappings are presumed to be the work of govern-

ment security forces. More than 700 persons died in political violence last year as the government stepped up its drive against leftists, and more than

Dallas to bury bus hijacker DALLAS (AP) - A 24-yearold

Nigerian, who died from a gunshot wound received when he tried to hijack a Dallas city bus, will receive a pauper's burial because his parents can't be found.

Osagie Omorodion died Feb. 18, three days after he was shot in the neck by a Dallas bus driver. Don Kirby, a spokesman for the Dallas County medical examiner's office. said the decision was made to bury Omorodion after several attempts via the Nigerian Embassy in Washington failed to locate his parents. We've done everything we can to

get a response from his family," said Kirby. "The family has been notified as far as we know. We've had no response from them. Omorodion will be buried today or

Wednesday at a cemetery in surburban Grand Prairie. Because it will be a pauper's funeral, there will be no formal service and the actual interrment will be carried out when weather permits.

Farmers Twice shot Larry Flynt to stop truckers

About 250 Roosevelt County farmers were John Hughes, hospital ad- asked to stop trucks on ministrator, said late Monday that Interstate 70 and U.S. 60 both men were conscious but were east of Clovis in an at-"not strong enough" to talk to police tempt to halt food deliveries to eastern Police said they had no suspects. cities.

Fahringer said a gunman was seen Dennis Baker, a Clovis farmer and coordinator for eastern New Mexico farmers, told the farmers A motorist who had been sought for questioning was interrogated Monday night, but police refused to give at a meeting Monday night in Portales to ask the drivers not to carry Hughes said a bullet from one of the victims was turned over to any food for four days authorities. He would not reveal its after they reach their caliber or from which man it was destination.

"Our objective is to stop the food delivery to eastern cities," said Baker in calling on the farmers to begin stopping the trucks Monday night.

He said some independent truckers have promised the farmers they would help them in the

conference last month that he feared Jimmy Ray Ward, a farmer from Eastland, for his life because of his private investigation into the assassination of Georgia, said, "This is Flynt had offered a \$1 million serious business. Georgia reward for information about the farmers need to see slaying, which he believed to be the something happening out result of a conspiracy.

Doug Campbell, Flynt's personal administrator, said Flynt had been

probe, the agency has since then began turning over all of its files to a

U.S. Justice Department task force "without concern for the agreement,"

Disclosure is being sought under the Freedom of Information Act, which the suit claimed exempts just such subjects from its coverage.

The suit alleges the SEC and justice

department action was an invasion of privacy and violated constitutional rights of equal protection and due process and abused the agencies' discretionary powers.

Large-scale vote fraud charged in Guatemala

By ALFONSO ANZUETO GUATEMALA CITY (AP) - The

the suit alleged.

votes cast in Sunday's national election in the capital district are being recounted, but the third man in the presidential race charges largescale vote fraud and demands a recount for the rest of the country.

The suit said that because of

blanket requests from news media

and others for records in the justice

department investigation, the employees could eventually be disclosed

to persons who might harm them or

A tightly guarded recount of the vote in Guatemala City and its environs began Monday night as incomplete returns from the rest of the

country gave Col. Enrique Peralta Azurdia, a former president and strong anti-Communist, 171,951 votes; Gen. Romeo Lucas Garcia, a moderate conservative said to have the backing of the military, 169,811, and Gen. Ricardo Peralta Mendez, considered slightly left of center, Since the capital district has a sixth

of the 1.8 million voters, the recount could swing the election.

Government supporters, and election officials conceded there had been some vote fraud but contended it was only in connection with the elections Sunday of mayors and local councilmen. But Peralta Mendez, the candidate of the Christian Democratic Party, told a news con-ference: "The anomalies were definitely at the national level.

"We are demanding that the government revise the entire elec-toral process," he said.

Boys softball registration begins at YMCA

The Alamo and Central YMCAs will be accepting registrations for first-to third-grade boys' softball until March 13. Any boy who is 6, 7 or 8 years old and who is an Alamo or Central member may register.

Pee Wee softball is a program designed to emphasize parent-son involvement. Mothers or fathers can play in the field along side their son to offer coaching and supportive en-couragement. Every boy plays all of every game.

Foreign policy makers at odds over Soviets

By MURREY MARDER The Washington Post

WASHINGTON - At the most sensitive time for shaping American-Soviet relations since President Carter took office, the signs of internal division among his administration's foreign policy managers are becoming increasingly visible.

Until last week, the administration generally was Until last week, the administration generally was able to keep its differences over foreign policy out of public sight. Even the highly-publicized analysis of "point man" Andrew Young, ambassador to the United Nations, helped to reinforce the image that everyone else at the top was in step with the "collegial approach."

The discord displayed last week punctured that claim. It revealed a dispute that extended through the top layer of the foreign policy establishment, not on a marginal issue, but on the core subject of detente strategy.

detente strategy.

The administration's ill-coordinated public attempt to try to moderate Soviet policy in the Horn of Africa by tying it to the American-Soviet strategic arms limitation talks (SALT) went badly awry.

Instead of focusing attention on the need to curb the flow of Soviet and Cuban forces and military supplies to Ethiopia in its war with Somalia, the effort

An Analysis

drew attention to disagreement inside the administration on its Soviet strategy.

President Carter and national security adviser Zbigniew Brzezinski, and Secretary of State Cyrus R.

Vance and chief SALT negotiator Paul C. Warnke, appeared openly at odds on whether there is "linkage" between the Horn of Africa and SALT.

Despite the official U.S. claim that the Carter administration was not "imposing" linkage but only pointing to the inevitable political "spillover" consequences of Soviet actions, the Soviet press denounced the whole affair as attempted "blackmail."

The diplomatic consequence, officials ruefully con-

The diplomatic consequence, officials ruefully conceded in private, was that American strategy was characterized as "totally confused." Many officials expressed hope that the "linkage" dispute would quickly disappear.

BRZEZINSKI'S public stress on "linkage" was privately derided by State Department critics as "about as effective as shooting yourself in the foot." Brzezinski was by no means alone in dramatizing

linkage issue. He seemed to have an ally in President Carter. While avoiding a total endorsement of Brzezinski's position on Africa-SALT linkage, Carter publicly came out closer to what Brzezinski said than he did to the position expressed by Vance and War-

The United States previously said it was susper ding American-Soviet talks on arms limitation in the Indian Ocean because of Soviet actions in the Horn of Africa. This was a calibrated "signal" of displeasure with Moscow. In addition, visiting Soviet parliamentary delegation last month was cautioned — in private — by the president, State Department officials and by numerous members of Congress about possible jeopardy to broad U.S.-Soviet interests, including the nuclear negotiations.

President Carter then decided, at a National

Security Council meeting, to increase the public display of concern. A State Department source protested last week that "instead of turning it up a notch, as intended, Brzezinski turned it up five or six notches.'

The dominant question is whether Brzezinski, or Vance, is closer to the president's overall intentions. On Friday, the White House openly criticized the Soviet position on human rights in a communique that concluded the East-West conference in Belgrade on European security and cooperation. A senior State Department official, the day before, said it was unrealistic to expect more from the Soviets in the communique. State officials tried to swallow their

HIGH ATTENTION is now centered on National Security Countil Meetings this week and beyond, where decisions will be made on the next stage of the nuclear negotiations in Geneva.

There is great speculation about whether the linkage issue will dissolve or disappear in the secret instructions that Carter sends to the American SALT

Many insiders and outsiders are convinced that the president already has decided not to try for a SALT agreement this congressional election year because of the controversy it will provoke on top of the Panama Canal treaties debate. Numerous politically vulnerable congressmen have urged the White House to delay on SALT.

Even if ratification of a SALT pact is beyond reach this year, its champions (many of whom refuse to concede that,) urge the completion of negotiations as rapidly as possible. Otherwise, they warn, there is the risk of a political shift of power in Moscow, plus a critical risk of lost momentum through delay, which can make the current negotiating pattern moot, overtaken by new nuclear weapons development and new commitments to the arms race.

The latter is the president's public position.
Carter sent Warnke back to Geneva with newly pledged support to try to bring the prolonged nuclear negotiations to a successful conclusion this year. That may require, the president said Friday, a meeting with Soviet leader Leonid I. Brezhnev to resolve several "quite significant" obstacles.

There are basic divisions. Officials are now more prepared then ever to admit in private about how.

prepared than ever to admit in private about how toughly or how moderately, the United States should conduct its end of the zig-zag policy of competition and cooperation with its principal world adversary.

This is "a spectrum of opinion — not a split," some senior officials insist. However no matter how it is

described, it amounts to a continuing contest for influencing "the president's mind." And there is increasing talk among senior officials of "the absence of consistent presidential leadership."

CARTER came into office describing himself as an "eager student" of former Professor Brzezinski. From the outset Brzezinski publicly has stressed that the Soviet Union must be induced to make American-Soviet detente "more reciprocal."

This means, Brzezinski has emphasized, "that the rules of the game are the same for both parties."

In Brzezinski" perception, the United States must not shrink from allowing the competitive side of the relationship to surface with stark reality. As national security adviser, he regards it as his special respon-sibility to bring the "worst case" interpretation of any issue to the president's attention, vigorously.

Vance, and the officials associated with him, including Warnke, and Vance's special adviser on Soviet affairs, Marshall D. Shulman, seek to avoid the polarization of American-Soviet differences.

Brzezinski and Shulman both were professors at Columbia University, representing contrasting approaches to Soviet policy. They remain on friendly and cooperative tlerms, as do Vance and Brzezinski, who are in continuing, close communication.

Canal pact opponents retrench after losses

WASHINGTON (AP) — Battered by repeated setbacks in trying to cripple one of two controversial Panama Canal treaties with amendments, opponents are retrenching with an agreement allowing the pact to come to a showdown vote in nine days.

We took a look at it and figured the time had come to expedite matters," Sen. Paul Laxalt, the anti-treaty forces' chief strategist, said after the

An Analysis

arrangement was announced Monday.

The agreement to set a time limit on debating the neutrality pact means the opponents have abandoned their attempts to attach amendments that would tie up Senate business for weeks and which Panama would not accept.

And, in all likelihood, a vote on the second treaty. which would actually give the waterway to Panama, probably will not come before the 10-day recess that

Behind the treaty foes' retrenchment is the evident hope that, over the recess, enough senators will hear enough sentiment against the treaties that the second pact will be scuttled in a floor vote.

For the present, the two sides are in a standoff: While backers don't have the 67 votes to ensure the neutrality pact's ratification, neither can its opponents count on the 34 votes needed to guarantee it

While opponents lost in another vote Monday, Laxalt, R-Nev., and Sen. Robert Griffin, R-Mich.,

said they were not conceding that the neutrality treaty will pass.

Monday's vote, on a proposal to restrict enemy ships from the waterway in wartime, saw the foes muster 40 votes, their highest total yet and six more than would be needed to block ratification

Majority Leader Robert Byrd, D-W.Va., played down the vote. "A lot of these amendments have surface appeal, and senators vote for them for reasons which I don't attempt to understand," he

Treaty foes are still trying, meanwhile, to pick up enough votes on what they consider substantive changes to the neutrality treaty to alter the

Laxalt and other treaty opponents said Monday they intend to raise new arguments about the so-called "leadership amendments" drafted by Byrd; Minority Leader Howard Baker, R-Tenn.; and other treaty supporters.

Laxalt said Monday's agreement came after a group of the most ardent foes - he called them the 100 percenters" - met over breakfast Monday. The March 16 proposal was then put to the Senate leadership, which accepted.

Even Sen. James Allen, D-Ala., who has led much

of the opponents' floor debate, agreed somewhat grudgingly to go along with the deal

The arrangement calls for debate on the neutrality treaty - which provides for joint U.S. Panamanian defense of a neutral Panama Canal after the year 2000 - to end after eight more days.

Byrd hopes that the arrangement will bring an end to the entire issue before May 1.

PLANNING for the 14th annual French Symposium are, from left, Lynn Erwin of Lee High School, Kelly Callaway of Trinity School of Midland, Kaki O'Shaughnessy of Midland High School and Patrick Kennedy of Edison Freshman School. An orientation session for local students helping with the symposium and the judges was held this

past weekend at Midland College. More than 1,000 high school students from schools across the state are expected to compete in the event, sponsored by French language teachers in Midland. The symposium will take place Friday and Saturday in the fine arts building at the college. (Staff Photo)

SS national computer complex security system not so secure

WASHINGTON (AP) - Congressional investigators testing the security of the Social Security System's national computer complex walked out recently with a cart carrying the names and addresses of 1.14 million beneficiaries.

The incident was acknowleged by agency officials who said corrective steps have been taken. The tapes were taken by representatives of the

General Accounting Office, the investigative arm of Congress, who later returned them to Social Security

'They were boasting that they were completely secure and we wanted to test and see," a GAO of-ficial said. "They were kind of embarassed."

The GAO has told the Carter administration that,

had real computer-era criminals stolen the tapes. adding to or altering the beneficiary list could have resulted in a massive fraud

The computer facilities at Social Security headquarters in Baltimore process about \$80 billion incoming Social Security taxes and outgoing Social Security benefits a year.

"This is probably the biggest civilian computer center in the world and, frankly, I am shocked at such lax security," said Sen. Abraham Ribicoff, DConn., chairman of the Senate Governmental Affairs Committee

The GAO has conducted several studies intended to ward off computer crime at federal installations at-

Supreme Court sharply limits states' protection against spills

By MORTON MINTZ The Washington

language ake place

ng at the

WASHINGTON - The Supreme Court Monday sharply limited the power, of the state to expand the pro-tections against oil spills provided by the federal government.

Over the protests of 16 cosastal and Great Lakes states, the justices ruled 6 to 3 that a provision of the Constitu-tion making federal law "The supreme law of the land" prevented the state of Washington from:

-Barring from Puget Sound, an estuary consiting of 2,500 square miles of inlets, bays and channels, supertankers with a cargo capacity of 125,000 or more deadweight ons

-Requiring tankers of between 40,000 and 125,000 DWT to have certain "safety features," such as twin screws, double bottoms under all oil and liquid-cargo comartments and two operating radars, one of them for collision avoidance.

By a vote of 7 to 2, however, the

Gulf finals Tubb well

Gulf Oil Corp. No. 304 W. N. Waddell and others has been completed as a 11/2-mile northeast extension to the lone Tubb gas producer in the Run-ning W field of Crane County, 21 miles northwest of Crane. Operator reporred a calculated, absolute open flow potential of 1 million cubic feet of gas per day, through perforations from 4,516 to 4,562 feet. The total depth is 6,030 feet and plugged back depth is 4,850 feet. Wellsite is 1,980 feet from south and 660 feet from east lines of section 5, block B-27, psl

require tug escorts for tankers of at least 40,000 DWT that don't have the safety features.

And the justices held unanimously that the state also could require pilots on tankers of at least 50,000 DWT — Provided they fly foreign flags.

The court took these actions in ruling on whether the Washington Tanker Law of 1975 was pre-empted by the federal Ports and Waterways Safety Act of 1972.

Justice Byron R. White, in the opinion for the ocurt, wrote that a panel of three federal judges had gone too far in invalidating the state law in its entirety. Only three others justices joined White in the full opinion.

The case arose on the day the st law became effective, with the filing of a challenge to its constitutionality by Atlantic Richfield Co. (ARCO). which operates a refinery in the northern part of the sound, and later by Seatrain Lines, which is buildig four 225,000-ton supertankers.

-Ruled 6 to 2 that Indian tribal courts lack inherent pwer to try to punish non-Indians for crimes.

"The power of the United States to try and criminally punish is an important manifestation of the power to restrict personal liberty," Justice William H. Rehnquist wrote in the opinion for the court.

"By submitting to the overriding sovereignty of the United States, Indian tribes therefore necessarily give up their power to try non-Indian citizens of the United Staesexcept in a manner acceptable to Congress," he

The record of the case shows that no features required by the state law. a collision with a tribal police car.

court said Washington state ws free to require tug escorts for tankers of at ARCO an estimated \$277,500 annually. but the requirement may be shortlived, because the federal government is considering pre-emptive regulations.

> In other actions the court: The court acted in a case in which the Suguamish Indian Tribe, whose reservation is on Puget Sound across from Seattle, arrested and moved to prosecute two non-Indian residents, Mark D. Oliphant and Daniel B. Belgrade.

> But the case has importance far beyond Puget Sound. Of the 127 reservations with court systems that exercise criminal jurisdiction, 33 in addition to the Suquamish claim authority over non-Indians as part of their tribal self-government

On many of the reservations non-Indians are a substantial proportion or even a majority of the rsident populations. In some cases non-Indians visit in substantial numbers. In addition, the decision poses a practical problem: at some reservations, federal law-enforcement officials are unavailable or inconvniently located, while state authorities lack jurisdic-

The decision reversed the Ninth U.S. Cirtcuit Court of Appels. Justice Thurgood Marshall, in a dissent, said that because no traty or law has withdrawn the right of tribes to try to punish all persons who commit offenses on reservations, the right remains "a necessary aspect of their restianed sovereightny ...

The charge against Oliphant was that he had assaulted a tribal officer and resisted arrest during the Susquamish's annual celebration of Cheif Seattle Days. Belgrade was arrested after an alleged high-speed race along tanker now affoat has all of the safety , reservation highways that ended with

More than 500 expected for annual SEG meeting

Registration was to get underway
1 p. m.Wednesday for the 31st
Annual Midwestern Exploration
Meeting of the Society of Exploration
Geophysicistis in Midland.

TUESDAY, MARCH 7, 1978

The meeting, with a theme of "Update on Exploration Expertise," will continue through Friday. Headquarters are the Midland Hilton, and the technical program will be presented in the Cinema I Theater.

The meeting, hosted by the Permian Basin Geophysical Society, with Fred D. Meyer of Geo Search Seismic Processors as the general chairman, expects to draw more than 500 delegates. It is the second major oil industry convention for Midland in two weeks. The annual Southwest Section Meeting of the American Association of Petroleum Geologists preceded the current event.

Registration will continue Wed-

Operators stake five explorers

Five new wildcat operations have been staked in West Texas counties. HNG Oil Co. No. 1-36 Hudgins is a 14,000-foot explorer in Pecos County, 21 miles southwest of Belding. There

is no nearby production. Drillsite is 2,200 feet from south and 1,150 feet from west lines of section 36. block 121, GC&SF survey.

MARTIN TEST

Hilliard Oil & Gas, Inc., No. 1 Grantham will be dug as an 11,200-foot wildcat in Martin County, surrounded by production in the Ackerly (Dean) field.

Location is 660 feet from south and west lines of section 30, block 34, T-3-N, T&P survey and five miles southwest of Ackerly.

CULBERSON TEST

Getty Oil Co. No. 1 Alice Pierson Thomas has been staked as an 8,300foot wildcat in Culberson County, 10 miles east of Nickel Creek.

south and 2,180 feet from west lines of section 34, block 63, T-1, T&P survey.

8,000-FOOT TEST

Herndon Drilling Co. of Midland No. Jack Allison and others is to be drilled 28 miles south of Fort Stockton in Pecos County.

Location for the 8,000-foot operation is 1,548 feet from north and 2,173 feet from-west lines of section 10, block 2, TCRR survey. There is no nearby production.

GULF TEST

Gulf Oil Corp. No. 1-MW State is a 3,500-foot wildcat in Pecos County, six miles southwest of Fort Stockton. Location is 467 feet from north and west lines of section 26, block 3, T&P survey and % mile northwest of a 3,542-foot dry hole.

USM PROJECT

Gulf Oil Corp. No. 1-B Nora Boatman and others is a new test in the USM (Queen) field, three miles north of Fort Stockton.

The 3,900-foot test is 467 feet from south and west lines of section 4, block 1, Fort Stockton Irrigated Lands

STERLING TEST

An 8,800-foot project will be drilled six miles southwest of Sterling City in

Sterling County.
It is W. C. Blanks of Midland No. 1-17 Terry, 660 feet from south and 933 feet from west lines of section 17, block T, T&P survey.

The site is 2¼ miles northeast of the WAM (Fusselman) field and % miles northeast of the Conger (Penn-sylvanian) field.

SECOND TEST

W. C. Blanks No. 1015 Brownfield is a new test % mile west of the Conger (Pennsylvanian) field in Sterling

Slated for a 7,700-foot bottom, it is 11 miles southwest of Sterling City and 660 feet from north and east lines of section 15, block 21, H&TC survey.

FOREST TEST

Forest Oil Corp., operating from Midland, announced amendement for its No. 1 Tiburon, Pecos County test 14

miles northwest of Fort Stockton. Originally planned as a 22,750-foot project in the Gomez (Ellenburger) ield, it now will be drilled to 12,000 feet as a project in the Gomez, Northwest (Wolfcamp) pool.

The test is 2½ miles northwest of

the Wolfcamp pay.

WARD PROJECT

Exxon Corp., operating from Midland, spotted a replacement for its No. 1 Leede Gas Unit, project in the Soda Lake (Fusselman) field of Ward County, 10 miles southeast of

The No. 1 is to be plugged and abandoned at 16,375 feet.

The new test, No. 2-1 Leede Gas Unit, scheduled for a 20,000-foot bottom, is 966 feet from northwest and outhwest lines of section 7, block 1, W&NW survey.

and resume at 7 p. m. and continue to

An Additional registration period will be from 8 a. m. to noon Thursday. An "icebreaker" party will be held for the delegates, their wives and guests from 7 to 9 p. m. Wednesday in the Midland Hilton.

The kickoff luncheon Thursday will

feature an address by Robert R. Aitken, acting chief of the Crude Oil Division, Office of Oil and Gas, Officece of Resource Applications, in the Department of Energy.

The kenote address will be made on "The Emergence of the National Oil Companies," at 9:15 a. m. Thursday by E. J. Northwood of San Francisco,

president of the Society of Exploration Geophysicists.

Events for the women attending the convention are geared to the theme,

'A Touch of Class.' A luncheon will be held in the Midland Country Club Thursday and will be accompanied by a book

A tour of the Permian Basin Petroleum Museum, Library and Hall

of Fame is scheduled from 2:30 to 5 p. m. Thursday, and a champagne brunch and jewelry style show by Sam L. Majors will be presented in the Midland Hilton Ballroom from

9:30 a. m. to 11:30 a. m. Friday. Transportation for the delegates will be provided from outlying motels and for convention activities away from the Midland Hilton.

Midland Mayer Ernest Angelo Jr. and Don Hibbitts, with Pennzoil Co. and president of the Permian Basin Geophysical Society, will make welcoming remarks at 9 a. m. Thursday, preceding the kenote address by Northwood.

Twenty papers will be presented during the two-day technical program, with the sessions beginning at 10 a. m. Thursday and 8:30 a. m. Friday. The final paper will begin at

3:30 p. m. Friday. Meyer said the registration fee for regular delegates is \$30. The fee for women and students is \$15.

A dance is scheduled in the Midland Hilton 8 p. m. to midnight Thursday, with the Western Electric band fur-

Texas Power & Light to seek higher rates

AUSTIN, Texas (AP) — Texas Power & Light Co., currently seeking a \$118 million rate increase, will request even higher rates in 1980, the company's president says.

Robert K. Campbell made the statement under cross-examination Monday, the first day of Texas Public Utility Commission hearings into TP&L's latest rate request.

"Is TP&L going to make a rate increase request every year?" asked

John Bell, general counsel for the commission.

'Based on what we've applied for, if we get that, we won't be back until some time in 1980," said Campbell.

TP&L has asked for a 37.9 percent increase in the basic rate for residences and 30.6 percent for all classes of customers.

Campbell said, however, that fuel savings would drop the actual impact of the request to 25.4 percent for households and 18.4 percent overall.

DRILLING REPORT

BORDEN — Britton Management
Corp. No. 1 Judge Williams, drilling
8,187 feet in lime and shale.
BREWSTER — Union Texas No. 1
Jane Sibley; td 13,881 feet, squessed top
of liner with 400 sacks of cement, now
waiting on cement.
