Airlift supplies Navajos stranded by sea of mud

A pensive Marie Day sits inside Army helicopter carrying food to stranded Navajos in Arizona. Not long after this photograph was taken the helicopter

developed trouble and was forced to make an emergency landing. (AP Laserphoto)

By CHARLES HILLINGER The Los Angeles Times

KA K'AI LACHEE, Ariz. - Marie Day, 83-year-old sheepherder, had

trouble getting home Tuesday. Mrs. Day, a widow, is one of an estimated 18,000 Navajos stranded and cut off from the outside world by enormous seas of mud covering thousands of square miles of the nation's largest Indian reservation.

The red soil had been saturated by incessant rains, sleet and snow for more than a week

Hundreds of miles of dirt roads on the reservation are solid sheets of mud, four- to eight-foot-deep ooze. Nothing moves on the roads, not even vehicles with caterpillar treads.

The only movement is by foot or on horseback through thick pine and scrub oak forests, and thousands of Indians have been stranded for as long as 10 days. One Indian official called the situation the worst disaster to befall the Navajos in 10 years.

Military helicopters from three states are carrying tons of food, coal, livestock feed and medical supplies to the stranded Indians on remote mesas in Arizona and New Mexico.

Speaking in Navajo, Marie Day explained how she had left her hogan and 35 sheep on Monday and walked out for help.

"My sheep had no food. There was no food left for me. I had to go," said the old woman

She walked five miles, wading through mud one to two feet deep at times, finally coming to a paved road where she hailed a pickup truck. She

was driven to Window Rock, capital of the Navajo nation. at Window Rock Airport Tuesday, Mrs. Day boarded a huge army CH-47 Chinook helicopter to go home to her hungry sheep.

The 'copter was loaded with 110 burlap sacks, each filled with 65 pounds of emergency food, and with bales of hay for cattle and sheep to be airdropped to the Indians.

Mrs. Day's hogan, 30 miles southwest of Window Rock by dirt road, was to be the first stop on an all-day mission of mercy flights for the Chinook. It was her first flight.

She sat stoically in the cabin of the Chinook throughout the flight, protectors over her ears to seal out rotor noise, her long blue skirt covered with a blanket she had made, her head swathed in a scarf.

But about five miles from her home, cherry-red hydraulic fuel suddenly began to pour from the ceiling of the

"We've got a major problem! Land as soon as possible. Land as soon as possible," Staff Sgt. Terry Glascock, 18, shouted over the intercom to Major Robert McDonald, the pilot, 35.

Mrs. Day, the airmen and the Los Angeles Times reporter and photographer aboard were lucky. Maor McDonald and his co-pilot, Kenneth Vigneux, spotted an open meadow in the rough terrain and landed the big cargo helicopter with only minutes to spare to avoid crash

There was fear of fire. Everyone left the craft quickly, Specialist 4 Dennis Byrnes, 21, scooping Mrs. Day out of her seat and carrying her out.

The helicopter had landed a few feet from the hogan of Kee-Ya-Annie Tsosie, 76, who, like Mrs. Day, had

left to seek help. Sunday Tsosie had put his sheep in his hogan to prevent them from being eaten by wolves. The bones of one of the sheep, eaten by a wolf a few days before, lay in front of his house.

Two hours after the helicopter's emergency landing Tsosie rode up on his horse. It had taken him a day to go to the nearest road to report that several people on his mesa needed help. And it had taken a full day to

Tsosie was astounded to see the big twin-rotor Chinook on his property, but glad of it. The now-stranded crew presented the elderly Indian with a sack of food and bales of hay for his

Then a smaller helicopter clattered into view. It was an NBC helicopter bearing a television crew. The 'copter landed, the TV crew took pictures of the disabled Chinook, and then Mrs. Day got her second flight of the day when the NBC pilot offered to fly her to her hogan. The old Indian woman climbed into the helicopter showing

But 15 minutes later the 'copter returned with Mrs. Day aboard. Although she knew every foot of the area from the ground, she could not spot her home from the air.

Five hours after the emergency landing, Major McDonald and the newsmen from the Los Angeles Times were flown out by a smaller Arizona

Farmers feel betrayed; trucker 'in middle'

"It's just like everything else that ever comes up in a strike. The poor trucker is caught in the middle."

That's the way Bob Green, national representative for the Independent Truckers Association in Los Angeles, described the position of truckers in the American Agriculture Movement's efforts to slow down food

Permian Basin farmers abandoned their effort to persuade truckers to stop after 14 hours of a planned 72x hour attempt

Travis Reid, group spokesman, said the farmers did not view the effort as

a failure, because they had an opportunity to meet "a lot of nice truckers.'

But Reid expressed disappointment that only a few truckers agreed to delay their deliveries. "When we started this thing, the AFL and some of the Teamsters said they would honor our picket lines. They out and out lied to us," he said.

Reid, a Coahoma farmer, also said his group had been informed that the Independent Truckers Association had promised its members would honor the American Agriculture Movement picket lines.

"That's not true," Green said. "They (truckers) have never said the point where they can let the truckers know what they're going to do ahead of time, I don't think they'll get much cooperation.

"A lot of the truckers sympathize with the farmers and would help them if they knew how to do it," Green said, adding that the American Agriculture Movement is "so disorganized it's difficult for anybody to give them support.'

Green said the farmers would have been more successful had they tried to stop transportation of produce at the starting point, instead of

Unless they (the farmers) organize to with the farmers, and I tried to explain to them that setting up stopping places along the road wasn't going to

do a lot of good," Green said.

Aften Biggs, public relations director for the Teamsters, said the union supports the farmers' demands for "fair prices," but "because of our contractual obligations with the

"I was there (in McAllen) in jail employers for whom our members work, we cannot support the picket lines of the American Agriculture

> A spokesman for the national headquarters of the food delivery slowdown effort said Tuesday the group has verbal commitments from some independent truckers that the

picket lines would be honored.

Marlene Wolf, spokesman for the American Agriculture Movement's South Dakota office, told The Reporter-Telegram the farm movement in exchange has agreed to support a bill in Congress that would allow truckers to carry loads on

Flynt suspect arrested

NORFOLK, Va. (AP) - A young man arrested in the back of a local tavern was being held today on a Georgia fugitive warrant that named him in the attempted murder of pornography king Larry Flynt.

As Flynt lay in critical condition with a bullet near his spine in a Lawrenceville, Ga., hospital Tuesday night, a police teletype here punched out a message from Georgia authorities: Arrest Teddy Morris. "They even told us where he was,"

folk Police Department. Morris, described as a short man in his 20s, was being held for Georgia police, who were expected to arrive sometime today. Morris will also have to undergo extradition pro-

said Capt. Don McManus of the Nor-

Norfolk detective Sgt. R.F. Miller said early today that Morris, address unknown, had not been formally charged with any crime, but was named in a warrant on two counts each of attempted murder and aggravated assault in the shooting of Flynt and his attorney.

Flynt, the 34-year-old owner of Hustler magazine, and his attorney, Gene Reeves Jr., 47, were shot Monday in Lawrenceville where Flynt was standing trial on a charge of distributing obscene material.

Flynt had his spleen and parts of his intestines removed in surgery at Button Gwinnett Hospital, and a bullet remains lodged near his spine. Reeves, 47, who suffered stomach and liver damage, was listed in satisfactory

McManus said Morris was picked up at a tavern here about 9:30 p.m. A detective at the Gwinnett County Police Department refused to release any information on the arrest or what

had led them to Morris. Morris was sitting with a man and a woman when police found him, said Sgt. B.E. Devore. Morris reportedly offered no resistance and was not

Flynt and Reeves were under guard at the hospital, said county Police Chief John Crunkleton, who refused comment on the arrest.

Sources at the Georgia state crime laboratory said Flynt was hit by bullets from a .44- caliber rifle. Flynt's wife, Althea, and President

Carter's sister, Ruth Stapleton, were among the few people who visited Flynt Tuesday. An aide said Flynt joked with them, saying: "If I could get rid of the pain, the rest would be duck soup."

Flier could have had Stearman for pennies

The clearest vision of all is hindsight. It's right at 20/20, give or take a few steps, and often is on the other side of rose-tinted glasses. Sometimes distortion becomes part

of yesterday's picture. And what is perceived at the end of that kaleidoscope becomes as real as tomorrow's dreams are possible.

Like all of us who occasionally reflect on the past, Ben Simmons now sees clearly what he might have done more than 30 years ago.

He was just like many other fliers: long on adventure and short of cash.

Simmons recalls the closing of Pyote Army Air Base, which was alternately called "Rattlesnake" Today, a good, flyable Stearman is alternately called "Rattlesnake" worth a mint. Just ask Roger Canter the reptiles of the desert and the

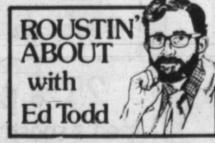

He focuses again and again on the junking, cutting up, sneltering and, yes, selling of the old warbirds at the bomber base that served "the cause" during World War II.

It was the steal-of-a-sale of some of the surplus aircraft that Simmons views with hindsight. For instance, the Air Force was

selling the Stearman PT-17, a tan-dem-seated biplane used to train pilots, for \$175 each.

The planes were in crates and were ready to be assembled for flying.

But Simmons didn't shell out the dough. He would today, but you couldn't even touch a prop to a Stearman radial engine today for that

paltry amount. "You know," Simmons said, "I've got the best hindsight of anybody in

of Midland. He owns a jewel of a modified Stearman.

Simmons, who has logged more than 50,000 hours in the cockpit, flew the pipeline for two decades before he bailed out of professional flying to run the Lajitas Trading Post on the Rio Grande. His home base was Midland.

Midland aircraft mechanic Johny Dean vaguely recalls "Rattlesnake Field" at Pyote, between Monahans and Pecos. Hundreds of the war's biggest bombers, the Boeing B-29 Superfortress, and other flying machines built around bomb bays, were stationed at the training base. Before it was taken to the Smithsonian Institution at

Majority of conferees support gas deregulation compromise

WASHINGTON (AP) - The apparent end of a three-month deadlock over the natural gas pricing portion of President Carter's energy program has brought senators up against another, possibly tougher, stalemate — this time over his proposed crude

The chairman of the Senate Finance Committee, Sen. Russell Long, D-La., broke the bad news Tuesday, saying that the crude oil tax cannot possibly pass the Senate.

House Democrats were caucusing

today to consider breaking apart the president's five-section energy bill and passing less controversial parts.

Although House leaders have wanted to keep the energy bill intact, Long's statement adds impetus to the move by Rep. Toby Moffett, D-Conn., and other congressmen to split up the

package.
Meanwhile, Sen. Henry M. Jackson, D-Wash., leader of Senate energy conferees, was to carry the proposed natural gas compromise to top House negotiators today to see if it can win their support.

The proposal would mean higher gas bills to consumers than the Carter plan for continued price regulation, passed by the House, but less than under the original Senate-passed bill for deregulation in two years.

A majority of Senate conferees

informally agreed Tuesday to support the compromise, which would lift price controls from newly found natural gas after Jan. 1, 1985. It also would allow a steady rise in

the regulated price between now and then, so that by 1985 the price ceiling would be roughly twice the present regulated top price of \$1.48 per 1,000 cubic feet.

Carter had wanted to raise the price to \$1.75, then allow it to rise with in-"We are no longer deadlocked,"

Jackson announced. "We're moving toward an agreement.

However, the equally deadlocked conference committee on the tax aspects of the plan may have to call it quits, Long said Tuesday.

He said Carter's proposal for a crude oil tax that would add 7 cents a gallon to gasoline and other petroleum products, does not stand a chance of passing the Senate "under

any imaginable circumstanes. The House-passed tax, which Carter has called the centerpiece of his energy program, is designed to make domestic oil as expensive as imported oil, thus encouraging

Long did not indicate what the fate might be of the two remaining taxes in the energy legislation — on inefficent cars and on industrial use of oil

and natural gas.

White House staffer, Jewish liaison, quits

By EDWARD WALSH and DON OBERDORFER The Washington Post

WASHINGTON - Mark A. Siegel, who for months has borne the brunt of Jewish criticism of President Carter's Middle East policies, has resigned his role as White House link to the American Jewish community for what he described as personal

Siegel will remain on the White House staff as one of the two deputies to Hamilton Jordan, the president's chief political adviser. But last week, in what he described as a "carefully thought out decision," he informed Jordan that he would no longer serve as the administration's point man in dealing with the Jewish community on the explosive Middle East situa-

Siegel, who said he did not know who would replace him in the liaison role, would not elaborate on the reasons for his decision.

Siegel's resignation as the White House contact with Jewish groups comes at a particularly crucial time in the Middle East peace negotiations process. Next week, Israeli Prime Minister Menahem Begin is scheduled to be in Washington for talks with Carter.

At those discussions, the president is expected to press Begin for some concessions on the issue of Jewish set-tlements in occupied Arab territories, particularly along the West Bank of the Jordan River.

Morever, the administration is now in the midst of pushing a complex Middle East arms sale package involving the supplying of American warplanes not only to Israel but to the Arab nations of Egypt and Saudi

Second Class-Postage Paid at Midland, Texas

HOME DELIVERY

aspects of the administration's Middle East policy have caused deep concern among American Jews, who in turn have transmitted their skepticism and unhappiness to the White

House through Siegel. Last week, for example, Siegel was booed and hissed at a Washington meeting of the United Jewish Appeal when he sought to defend the edministration's policies toward the Jewish settlements and the proposed sale of sophisticated E-15 fighter planes to the Saudis

Asked Tuesday whether that incident had anything to do with his decision, Siegel said, "Not directly." He described the decision as "personal and careful," but would not elaborate.

Over the months, Siegel has complained privately to friends about the difficulty of his role in seeking to explain Carter's Middle East policies to his Jewish contacts. He has also harbored a deep distrust of Zbigniew Brzezinski, the president's national security affairs adviser, blaming Brzezinski for those aspects of the administration's policies that have drawn the most criticism from Jewish groups

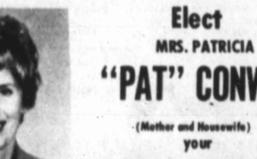

But Siegel was always comforted by the fact that he worked directly for Jordan and appeared to have Jordan's full trust. One of the ironies of his decision is that it comes at a time when Jordan's own role in foreign policy is being expanded on orders from Carter.

The president's two most senior Jewish aides, White House counsel Robert Lipbshutz and domestic policy adviser Stuart Eizenstat, have also dealt with Jewish groups on the Middle East and may now pick up some of the slack left by Siegel's resignation.

Siegel, however, carried the brunt of the load and was uniquely qualified for the taks. He is a former executive director of the Democratic National Committee who had extensive national contacts with Jewish leaders through his work with the party.

At a breakfast with reporters, former DNC Chairman Robert Strauss conceded that the president's Middle East policies have cost him support in the Jewish community.

"But I think there is considerable support also for the President in the Jewish community," he added.
"There is considerable lack of support among American Jews for Begin, and I share that view. I have spoken up and so have other distinguished Jews, other distinguished leaders.

Deletion of Marston praise causing stir

By RONALD J. OSTROW The Los Angeles Times

WASHINGTON - Justice Department lawyers deleted from a key affidavit in the Marston case a Philadelphia FBI official's praise of the ousted U.S. attorney, the Senate Judiciary Committee learned

That and other deletions were discovered by Sen. Malcolm Wallop, R-Wyo., who has been leading the inquiry into the firing of David W. Marston as the committee considers the nomination of Assistant Attorney General Benjamin R. Civiletti to be deputy attorney general.

Wallop denounced the deletions as "shocking" and charged that the department "and possibly even the White House sought to conceal information from the American people and protect their own image at the apparent expense of justice."

The deletions were made in the affidavit of Russell T. Baker Jr., a former Civiletti deputy, whose original sworn statement in the Marston matter was submitted to the committee at Wallop's request.

Dropped from Baker's affidavit was this recounting of a September, 1977, conversation he had with Neil J. Welch, special agent in charge of the FBI's Philadelphia office:

'Welch urged me to report back to Washington that Philadelphia was a 'cesspool' of political corruption, that Marston was doing an excellent job and that it was important to retain him. I reported that to Mr. Civiletti and Associate Attorney. General (Michael J.) Egan upon my return.'

A department spokesman denied that the deletion was made to avoid making Marston look good. He said it was done at the request of Welch and Baker 'because it appeared to get the FBI involved in a political situation.

The deletion was also made because the reference to Philadelphia was "quite possibly inflammatory, the spokesman added.

But Wallop said the deletion was artful and was done "not to protect an ongoing investigation, but rather to conceal statements that cast doubt on who knew what and when, and the seriousness of the mat-

Also dropped from Baker's affidavit, recounting a Nov. 16, 1977, conversation with a federal prosecutor in Philadelphia, were the words: "And he reminded me that the investigation involved Congressman (Joshua) Eilberg, D-Pa.

Who at the Justice Department and the White House knew of the investigation involving Eilberg, and when they knew it, are crucial, because Eilberg urged President Carter in a telephone conversation last Nov. 4 to replace Marston.

Marston announced this week that he is a candidate for the Republican nomination for governor of Pennsylvania.

Baker said in his affidavit that he twice relayed word of the inquiry to Civiletti - in August and November - but Civiletti testified he had no such

The Justice Department spokesman said the discussion of the Eilberg investigation was deleted because the department was not acknowledging the existence of the inquiry when the affidavit was made public in January

The spokesman said the department attorneys who made the deletions - J. Phillip Jordan, special assistant to Attorney General Griffin B. Bell; Ralph Hornblower III, former assistant counsel in the office of professional responsibility, and Richard M. Rogers, of the office of privacy and information appeals were aware the deletions might be criticized. "But they balanced this against the other concerns and

made the cuts," the spokesman said.
Sen. James O. Eastland, D-Miss., the Judiciary Committee chairman, apparently attempted to offset the disclosure of the censored affidavits when he interrupted Wallop to ask a series of questions that produced a highly unfavorable description of

Civiletti, taking note of Marston's candidacy in Pennsylvania, said Bell determined in June, 1977, that "Marston was unqualified and not competent to

run the U.S. attorney's office."

Eastland: A U.S. attorney's job is to prosecute peo-

Civiletti: Yes. Eastland: How many did he (Marston) try?

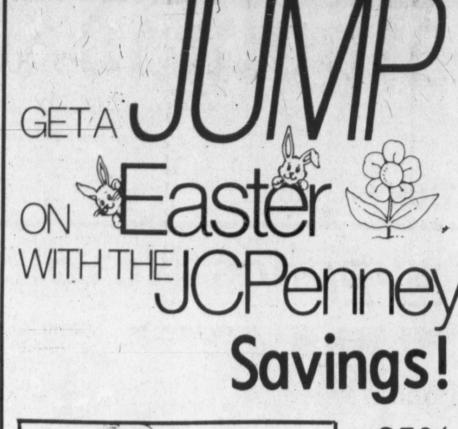

Civiletti: None

Eastland: He tried none? Civiletti: None

Eastland: Did he handle grand juries? Civiletti: Not to my knowledge.

Eastland: Seems to me the attorney general is (now) putting a good lawyer in the job. You may pro-

The Judiciary Committee scheduled a business meeting for today to consider Wallop's request for documents in the wake of the latest disclosures. Civiletti is expected to resume testifying after the

Minnick infant

Michael Don Minnick, infant son of Mr. and Mrs. John Edwin Minnick Jr. of 3707 Humble Ave., died at birth Sunday in a Midland hospital.

Graveside services were held Monday in Trinity Memorial Park in Big Spring with the Rev. Curtis Hollis, pastor of Temple Baptist Church in Midland, officiating.

Arrangements were handled by Nalley-Pickle Funeral Home of Big Spring.

Survivors include the parents; a brother, John Wayne Minnick of Midland; the paternal grandparents. Mr. and Mrs. John E. Minnick of Big Spring; the maternal grandparents, Mr. and Mrs. Bobby Roman of Big Spring; the paternal great-grandparents, Mr. and Mrs. Jim Skelton of Snyder, and the greatgrandmothers, Mrs. Fred Roman and Mrs. G. W. Chapman, both of Big Spring.

Miss Laubaugh

ANDREWS - Services for Teresa Elizabeth Lawbaugh, 23, of Andrews will be at 4 p.m. Thursday in Singleton Funeral Home here with the Rev. Bill Basse, pastor of McKinney Acres Baptist Church here, officiating.

Burial will be in Andrews Cemetery. Miss Lawbaugh died Tuesday in an Andrews hospital after a lengthy

She was born Jan. 2, 1955, in Odessa. She had lived most of her life in Andrews and was graduated from Andrews High School in 1972.

Survivors include her parents, Mr. and Mrs. James Lawbaugh of Andrews; her grandparents, Evelyn Lawbaugh of Bartlesville, Okla., and Mr. and Mrs. Ray Parker of Fayetteville, Ark.; a sister,. Nancy Loyd of Andrews, and three brothers, James Lawbaugh, Charles Lawbaugh and Tommy Lawbaugh, all of Andrews.

James Burney

ANDREWS - Services for James Andrew Burney, 90, of Andrews were to be at 2 p.m. today in Singleton Funeral Home here with C. A. Smith, minister of the South Side Church of Christ here, officiating. Burial will be in Andrews Cemetery. Burney died Monday in Andrews

after a long illness. He was a native of Madison County.

He was a former resident of Tatum, N.M. He was a member of the Willow Hole Baptist Church here. Survivors include two sons, E. A.

Burney of Tatum, N.M., and Douglas Burney of Snyder; three daughters, Ruby Barnett of Friona, Oneta Goar of Andrews and Mrs. R. C. Howard of Fort Worth; a sister, Nettie Adams of Houston; two brothers, Carl Burney of Corpus Christi and Lester Burney of Deer Park, 16 grandchildren, a number of great-grandchildren and two greatgreat-grandchildren.

George Kidd

George Kidd, 72, a Midland oil operator who had lived here since 1935, died Monday night in a Midland hospital following an illness of a few

He resided at 1505 Humble Ave. Services were to be at 2 p.m. today in the Newnie W. Ellis Funeral Home chapel. Officiating was the Rev. J. B. Stewart, associate minister of the First United Methodist Church. Burial site is pending.

Kidd was born Oct. 23, 1905, in Brownwood and spent his early life there. He attended Howard Payne University and the University of Oklahoma.

After leaving his college studies, Kidd joined his father in the banking business at Brownwood.

Later, he worked in the oil fields in East Texas. In the 1930s, he lived in Oklahoma City, Okla.

In 1935, Kidd moved to Midland and was in the oil business with his brother until World War II broke out. He served in the armed forces, returned to Midland following the war and continued in the oil business. Survivors include his wife, Lila; a brother, Barron Kidd of Dallas, and two nephews.

Ruth McGinnes

Ruth Currie McGinnes, 84, of 2800 W. Illinois Ave. died Monday night at her home.

Services were to be at 2:30 p.m. today in the First Baptist Church in Eldorado. Burial was to follow in Eldorado Cemetery there directed by Kerbow Funeral Home of Eldorado. Local arrangements were handled by Newnie W. Ellis Funeral Home.

Mrs. McGinnes was born June 10, 1893, in Ozona and spent her early life there. Her parents, Mr. and Mrs. Albert P. Currie, were engaged in the windmill business in Ozona and were instrumental in opening Crockett County to sheep and cattle-raising.

In 1918, Mrs. McGinnes moved to

Eldorado, where she lived 55 years before moving to Midland in 1972. She was a member of the First Baptist Church in Eldorado. She was active in civic organizations there. Survivors include three sons,

Samuel McGinty and George Williams Jr., both of San Antonio, and Robert H. Williams of San Diego, Calif.; two daughters, Beula Williams Neill of Midland and Helen Williams Merck of Eldorado, and 19 grand-

ANDREWS - Graveside services for Charles Laffetts Ogg, 73, of Andrews will be at 11 a.m. Friday in Andrews Cemetery directed by Singleton Funeral Home here.

Ogg died Monday in Andrews after a long illness. He was born June 6, 1904, in Ohio. He was a former Seminole resident. Survivors include a son, Louis C.

Ogg, residence unknown, and a sister,

Mary Vandragriff of Artesia, N. M.

William Spears

BIG SPRING - Services were to be at 4:30 p.m. today in the First Church of the Nazarene for William E. Spears, 82, of Big Spring.

Burial was to be in Trinity Memorial Park directed by Nalley-Pickle Funeral Home.

Spears died Tuesday night in a Big Spring hospital.

He was born July 23, 1895, in Merkel. He was married to Vida Littleton Aug. 20, 1920. He was a retired barber and farmer. Spears moved here from Lubbock 15 years ago. He was a member of the First Church of the Nazarene.

Theft, vandalism reported

Firearms worth approximately \$800 to \$900 were taken sometime Tuesday afternoon from the E. L. Campbell residence in the 2200 block of Whitney

Campbell told police that someone entered his residence between 2:20 and 4:30 p.m. and removed a 12-gauge shotgun, .22-caliber pistol, .22-caliber rifle, .270-caliber rifle and a .22caliber rifle.

Entry was gained by prying open the front door, officers said. VANDALISM REPORTED

Approximately \$400 damage was done to a residence under con-struction in the 1000 block of Schar--bauer Drive.

Louis Way, an employee of Jeff Carter Construction Co., told officers. that between 6 p.m. Sunday and 7 a.m. Tuesday three glass doors were broken, a wooden door damaged and two windows broken. Black paint was poured over the

front hood of a car parked in an apartment complex parking lot in the 3200 block of Wadley.

Police said they found the empty paint can across the street and the lid in the parking lot

The damaged car belonged to Dickey Box Motors and had been loaned to Sharon Howland while her car was being repaired.

Survivors include his wife; a son, Bob Spears of Big Spring; two brothers, J. P. Spears of Lubbock and Henry E. Spears of Brady; two sisters, both of Merkel, and three grandchildren.

Gibbs appointed to Pecos County sheriff post

FORT STOCKTON - The chief deputy sheriff of the Pecos County sheriff's office, Larry Gibbs, 39, was appointed sheriff Monday to fill the vacancy created by the recent death of former Sheriff Pete Ten Eyck.

The appointment was made at Monday's meeting of the Pecos County Commissioners Court. Gibbs had been chief deputy under Ten

Eyck for the past year. The post pays \$18,640 per year. Gibbs said he plans to file as a candidate to the unexpired term of Ten

Eyck through 1980 Deputy Sheriff Bruce Wilson has already filed as a candidate in the May Democratic primary, Gibbs said. Wilson will remain with the

department while he is a candidate, Gibbs said. Gibbs said a special filing deadline of March 27 has been set for can-

didates seeking the sheriff's post. Gibbs graduated from the Texas Department of Public Safety Academy in 1967 and was a member of the TDPS for seven years, stationed in San Antonio.

In 1976 he became police chief in Fort Stockton, leaving that office after a year to become chief deputy in the sheriff's office.

A native of Brady, Gibbs has at-tended Sul Ross University and Howard College, studying law enforcement and police administration.

Graves becomes Andrews schools superintendent

ANDREWS - Winters schools Superintendent Bill Graves has been appointed new superintendent of the Andrews school system.

The appointment was approved unanimously by the school board Monday night. Graves will assume the position May 1.

He was one of 40 applicants for the position. He has a bachelor's degree from North Texas State University and a master's degree from Texas

Tech University. Graves will succeed Dr. Norman

Study backs early desegregation for black children

ANGELES - The achievement of black youngsters in desegregated schools is more likely to improve if the integration process-begins in kindergarten or in the first or second grade, rather than in later years, a study by two Rand Corp. researchers has concluded.

Robert L. Crain, a senior social scientist at Rand, and Rita E. Mahard, a research assistant, also concluded that black students in mandatory desegregation programs were likely to do better academically than those in voluntary plans.

Their findings were presented in a report for Duke University's National Review Panel on School

review of 41 studies of black achievement in desegregated schools carried out by researchers across the country over the last 20 years.

Thirteen of these studies "found a more positive impact for those students desegregated in early grades," the two Rand researchers wrote, while only three found the

They also reported that five of 12 studies of desegregation at the junior and senior high school evel "show negative effects" on black achievement while none of the 10 studies of desegregated firstand second-graders produced negative findings.

grade." pointing out that only nine of the 21 studies of desegregation in third and fourth grades showed positive results.

They suggested this might happen because children are at a "vulnerable age" between 6 and 11, when disruptions of social relationships are more likely to affect their school performance than they do with either younger or older children.

"It has been widely argued that desegregation should begin in the early grades," Crain and Miss Mahard wrote. "It is gratifying to see the data support our conventional wisdom so clearly...

The study focused on black achievement because "virtually

agreed that white test performance is unaffected by desegregation. We think it is safe to assume that this issue is settled, at least until some dramatic new research is done."

In "the most complex and difficult finding" in the study, the authors concluded that "achievement gains (for black students) are more likely to occur when reassignment is mandatory," not voluntary.

Seven out of 15 studies of mandatory programs in Northern cities showed positive results, while in only two out of 11 voluntary programs studied did black achievement in-

Crain and Miss Mahard suggested several possible reasons for the apto achieve learning gains. -Black parents sometimes send

children who are doing poorly in segregated schools to white schools instead in hopes they will improve their academic performance.

However, the authors theorized, doing well in school is partly, or perhaps largely, a matter of adaptation to bureaucratic structure and to authority...and it may be that the least adaptive students may be volunteering to make this transition."

-Predominantly white schools sometimes do very little to adapt to the special needs of the black youngsters coming to them in voluntary desegregation programs.

have left many of their old friends behind

By JAY MATHEWS The Washington Post

HONG-KONG - Chinese . Communist Party Chairman Hua Kuofeng has said publicly for the first time that Peking has common interests with the United States in some world hot spots, singnaling hope for improved Sino-American relations.

In a porition of his lengthy govern-ment work report Hua noted the fundamental differences between Washington and Peking. Then he added, "Yet the two countries have quite a few points in common on some issues in the present international

Other released portions of Hua's speech also revealed new domestic policies, including a plan to eliminate rule by committee in factories, schools and villages in favor of more

statement in August, delivered just before U.S. Secretary of State Cyrus Vance arrived in Peking, the Chinese leader discussed terms for normalization of relations with Washington but mentioned no common international

Vance and his aides tried to emphasize in Peking, and in conversations with the Chinese since, that the Chinese since, that the two countries could help each other

against their common adversary, the The Americans have argued that although the sticky problem of Taiwan remains, Sino-American relations can still improve through

cooperation in areas threatened by

the Soviets such as Africa, Europe

and the Indian Ocean. The argument seemed to have an toast at the banquet ending Vance's visit, that the two nations had some common interests. Then the Chinese reacted angrily to what they felt were inaccurate statements by President Carter and in some U.S. publications that Vance had made progress on the Taiwan issue and the phrase dropped out of official Chinese discourse.

But Vance and U.S. liaison office chief Leonard Woodcock made energetic efforts in talks with the Chinese to repair the damage and Chairman Hua's new endorsement of the common interests concept suggested they had had some success.

Hua's Feb. 26 speech to the fifth National People's Congress, which the New China News Agency has begun to release in sections, reiterated China's

demands on Taiwan. Hua said in the 3 1-2 hours report full diplomatic relations with Peking could be retored. "This is the unswerving stand of the Chinese government," he said.

The language appeared most identical to what Hua had said before. But U.S. diplomats might find some hope in both his acknowledgement of common interests elsewhere in the worl, and the great outpouring of official praise this week for a principal chinese sponsor of ties with the United Staes, the late Premier Chou En-lai.

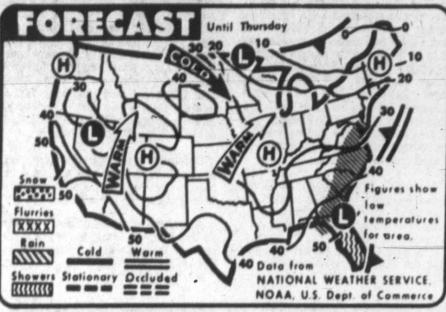

Celebration of the 80th anniversary of chou's birth seemed to exceed even the tributes paid to the late Chairman Mao Tse-tung on his last birthday.

A lengthy review of Chou's career in the People's Daily Saturday mentioned that he "played a direct part in breaking the deadlock in Sino-

east this afternoon, becoming fair to partly cloudy statewide tonight and Thursday. A little warmer west today. Warmer statewide Thursday. Highs upper 20s east to mid 30s Panhandle. Lows mostly 20s. Highs Thursday 30s east to 60s west.

New Mexico-Fair. Increasing cloudiness Thursday with isolated showers over the western quarter. Warmer temperatures. Highs 30s mountains and 80s and 70s lower elevations. Lows 30s mountains and 30s elsewhere.

Oklahoma-Partly cloudy west decreasing cloudiness

Vandalism in schools declining

By MARLEEN RAY Although "vandalism is a problem whenever you have any of it," Midland public Schools Superintendent Dr. James Mailey said the number of vandalism incidents seems to have declined over the past

Mailey said he couldn't single out any reason for this decline, but he said it was his impression that tensions among students have decreased over the past few years and that interpersonal relationships among them have been "much improved."

Bill Zeitler, director of transportation services for the school district, said the number of vandalism incidences on school buses has been reduced by 50 percent largely because the schools are concentrating harder on making out conduct

reports. He said these conduct reports are filled out whenever students misbehave in any way on the bus, including damaging the seats and windows. A copy is sent to their parents and their principal, and a copy is kept by Zeitler and their bus

The first time a conduct report is filed, students are given a warning, Zeitler said. The second time a report is made, students usually are suspended from riding the bus for three days. The third time an offense is committed, students must show a willingness to reform before they are allowed back on the bus.

Zeitler said students' bus riding privileges may be revoked for disciplinary reasons, making them get their own rides to and from school. He said these conduct reports are a

"way of communicating with parents" about violations their

Mailey said these reports also give bus drivers a chance to let the principals know about the violations since the drivers don't have time to talk with principals themselves.

L. A. Klebold, director of maintenance for the school district, said

Fourth in a series

the decline in the number of vandalism incidences may be due in part to the students behaving themselves and the schools using better security measures

"I do feel that we the school (officials) are doing everything we can to keep down the vandalism as much as possible," he said.

He said the district is installing alarm systems in the schools "as fast as the budget allows" and that this has helped the district in apprehending vandalism suspects. Klebold asked that the names of the schools with alarm systems not be revealed because he said the district wants to catch persons vadalizing these schools.

In addition, Klebold said the district is in the process of installing more sophisticated locks in doors and replacing windows with nonbreakable glass.

Mailey said window breakage is the schools' biggest vandalism problem. He said it's hard to apprehend persons for breaking windows unless someone actually has seen them break the windows.

Klebold said, in most schools, the average window measures about 16 inches by 48 inches, which costs the schools about \$4 to replace, not including about \$1.25 for other

materials and labor. He said in 11 schools out of 29 in the

district, damages primarily to windows, doors and locks cost the district \$5,548 to repair in the 1976-77 school year. However, this cost has decreased to \$3,309 for the 1977-78 school year so far. He said of these 11 schools, repair costs ranged from \$63

Klebold said there is "no rhyme or reason" to the incidences of window breakage. He said it varies from school to school. For example, he said one of the schools in the central part of the city had nine windows broken one week and 11 to 13 windows damaged the next, but only one has been broken since then.

Superintendent Mailey said, although every school experiences some vandalism, judging from the number of reports coming across his desk, Crockett Elementary School and Austin Freshman School seem to be the hardest hit by vandals. Mailey refused to comment on whether this had anything to do with the schools being located in minority neighborhoods.

Klebold said these two schools 'may have had more (incidences of yandalism) than the others, but he said it is "easing off now.

Don Furgeson, business manager for the school district, agreed that there were a greater number of vandalism incidences at Austin Freshman and Crockett Elementary, but he said the greatest monetary darnages resulted from fires at Alamo Junior High School, San Jacinto Junior High School and Burnet Elementary School.

Nearly \$100,000 worth of damages was done when vandals set fire to a storeroom between two science classrooms at Alamo Junior High some years ago, Klebold said. Mailey said a couple of juveniles were ap-

about a year ago caused between \$30,000 and \$40,000 worth of damages to the stage, completely destroying a grand piano, Klebold said. Mailey said this case still is unsolved.

A person was apprehended in the fire at Burnet Elementary in December 1976, which caused heat and smoke damages to the music room, amounting to \$600 to \$700 in damages, Klebold said. Insurance paid off some of the damages, he said, but since there is a \$25,000 deductible. for fires, the school still must pay for a large part of the costs.

Both Klebold and Mailey said no particular motive has been discovered for any of these acts of vandalism. Klebold said, according to school officials and police, the ones that are caught "don't know why they did it and promise never to do it again."

He said sometimes the one who are caught say they vandalized a school because they wanted to see if they could get away with it or because they were dared to do it.

Bill Zeitler said he noticed bus seats were torn up whenever students were unhappy with their teachers or principals. He said they "take out their frustration on the bus seats.'

"The relationship a youngster has with his school directly affects the rate of vandalism on school property," he said. A lot depends on the relationship the students have with their bus driver. Some drivers regularly check for damages to seats and windows, and some know all the students who ride their bus.

Zeitler said the school district repairs from two to four seat backs or bottoms every week caused by vandalism or normal wear at a cost of \$8 per seat back or bottom. He said the district operates 68 buses, containing 24 seats apiece.

Last school year, cost of repairing bus seats ran up to approximately \$2,400. Zeitler said about half of these repairs were due to vandalism and about half were due to normal wear and tear.

He said the number of vandalism incidences to seats seems "to run in cycles. If one seat is slashed, it serves as a kind of advertisement. About \$1,400 worth of damages were

done to bus windows last school year. Zeitler said almost all of this is due to vandalism and usually, the windows are broken at night when the buses are parked at the school district's warehouse lot. He said the district does employ a

live-in security guard to watch the lot, but he said the guard "is not up and awake at night." In addition, the guard must patrol a four-acre area, Zeitler said windows are "very

very expensive" to replace, running about \$22 for safety glass for the smallest window. He said about 1.5 to 2 percent of the windows must be replaced each year. Zeitler pointed out that Midland

public school buses haul about 5,000 students to and from classes every school day, but only about 1 to 2 percent of those students commit acts of vandalism. He said a vandal is not of any particular race, sex or socioeconomic status. Both Klebold and Mailey agreed

with Zeitler. However, Mailey said it seemed most vandalism is the product of juveniles, while most theft is the product of older individuals. He said the schools work closely

with the police and have helped to catch a few vandals. Police patrol the schools at night and over the weekend, when vandalism usually occurs, and school principals check to see that the buildings are secure before they leave at the end of the day, he said.

If a student is caught vandalizing sehool property, the principals try to recover the cost of repairing the damages from the parents, Mailey said. Last school year, Zeitler said the district recovered \$460 for vandalism done to bus seats and windows.

He said if seats are slashed in a particular bus, the students riding that bus are searched for knives, but he said, unless there is reason to suspect students, they are not searched. Zeitler said it takes "too much time" because the buses have to run 105 regular routes every school day.

When comparing to other districts, Superintendent Mailey said he thought the vandalism problem in Midland "is not as serious as it seems to be in the case of larger school

Klebold said he didn't know why this was so, but he'd like to think it was due to the citizens here, good control measures and because "Midland is a good place to live."

Stearman for pennies

B-29 which dropped the first war-time atomic bomb, was hangared (or perhaps tied down) at Pyote.

Dean does recall a fellow who bought scores of the old PT-17s at post-war surplus prices, turned 'em up on their noses, and later modified the sturdy afferaft, which became ag crop-dusters.

got on to the steal.

And Simmons, who would thrill to own and fly one of those aerobatic, open-cockpit Stearmans, will, for now, just settle in the left seat of his '59 Cessna 172, fly over the mountains and the Rio Grande, and occasionally reflect on what might have been.

That's the vision of hindsight.

The mass buying turned out to be a windfall of an investment. The initial investment per plane was about \$200, but Dean's not sure where the fellow

Rain, snow visit nation

By The Associated Press

Rain swept across the lower Mississippi Valley today and into the Southeast and mid-Atlantic region while snow stretched from Missouri across the Ohio Valley to the northern Virginia coast.

Travel advisories were posted for much of the snowfall area, with heavy snow warnings in effect for southern Pennsylvania.

Scattered heavy thunderstorms soaked parts of the Gulf coast region near the Florida panhandle, while a flash flood watch was issued for mountain regions of North Carolina where rain was expected to increase.

Rain also dampened the northern Pacific coastal arear with most of the showers centered in northern California and southwest Oregon.

Carter calls required coal panel

WASHINGTON (AP) - Amid warnings of violence in the coalfields, a presidential panel is holding a hearing on the 93-day coal strike so Carter administration can go to court to force miners back to work

The three-member board of inquiry that President Carter was required to create under the Taft-Hartley Act planned to write a report immediately after today's hearing. Once that report is handed to the president — that could be tonight or Thursday he may direct the attorney general to, obtain a court injunction against the

Administration officials say a federal takeover of the mines is still possibile if a court order is ignored.

The board planned to hear union and management representatives tell their sides of the dispute at a session described by one official as "pretty much a pro forma thing."
Immediately after the hearing, the

board planned to write a report, without recommendations, on the status of the dispute, issues involved and chances for a settlement. Until the panel submits its report to

the president, he cannot seek an injunction. The administration has said

Baron kidnapped

ANTWERP, Belgium (AP) Baron Charles Bracht, a prominent Belgian maritime insurance man and Austria's honorary consul general in Antwerp, was kidnapped Tuesday evening, police said.

However, his son and a company employee denied the baron was kidnapped, and there was speculation they were trying to hush up the ab-

Police said the baron was grabbed in the parking lot of his firm, Bracht-Regis, and that his canwas found in the lot after he failed to appear at his office Tuesday morning.

Bracht's son told The Associated
Press by telephone from the family
home that, "My father is presently for
a few days in Great Britain," then

hung up.
At the headquarters of Bracht's company, an employee said, "I cannot give you anybody from the management, they are in a meeting." Asked if the report of Bracht's kidnapping was correct the employee answered, "As far as I know he hasn't been kidnapped." it expects to go to court by Thursday. But many of the 160,000 striking miners are expected to defy a back-towork order, and some strikers predicted there would be fighting between those who try to obey the law and those who don't.

'The majority of the men - 95 percent - doesn't want to go back to work. And if the other 5 percent try to work, there will be violence. You can rest assured there will be," Patrick Burke, a United Mine Workers official in Ohio, warned Tuesday.

said a number of his members would return to work, also acknowledged that "there will be some problems."

Gov. Jay Rockefeller that if he brought in National Guard troops to enforce an injunction, "there will be

Warming trend

Even though the weather seemed to take a turn for the worse Tuesday in Midland, the weatherman predicts fair skies with a warming trend

Partly cloudy skies were reported in Andrews, Lamesa, Crane and Big Lake this morning. Otherwise, clear skies with rather cold temperatures were reported in Stanton, Rankin, Big Spring and Garden City

Under Taft-Hartley, the miners can ministration does not expect all the striking miners - or even most - to obey the injunction. But it hopes enough return to work so coaldependent states can avert sweeping layoffs and power cutbacks threatened by dwindling coal

If too few mines reopen under Taft-Hartley, administration officials say they are actively considering federal seizure of the mines as an alternate way to increase soft coal production.

Robert Strauss, Carter's trade negotiator and a key adviser on the coal strike, said Tuesday that the administration may ask Congress for legislation that would allow a federal takeover of the mines. But first, he said, "We've got to take a run at this (Taft-Hartley)."

Carter rejected an immediate seizure of the mines when he invoked the act on Monday.

Strauss disclosed on Tuesday that he and other administration officials had favored invoking Taft-Hartley and drafting seizure legislation at the same time. But working against the option of a government takeover was the length of time it would have taken to get the necessary legislation from Congress.

Miners, who rejected a proposed contract by a 2-1 margin over the weekend, have expressed a preference for working in government-operated mines rather than under a Taft-Hartley injuction Some administration officials say

that even in the face of mass defiance by the striking miners, an injunction may encourage the reopening of nonunion mines that were shut because of threats of violence from strikers and allow coal already mined to be shipped to areas in short supply.

WASHINGTON - President Carter warmly welcomed President Tito of Yugoslavia here Tuesday and strongly underscored American interest in the continued independence of his country

Tito arrived Monday to begin talks with the Carter Administration on a wide range of issues: the resumption of American arms sales to Yugoslavia; East-West detente; a possible mediating role in the Horn of Africa and the Middle East.

Carter lavished praise on Tito, the last of the major World War II leaders, calling him the symbol of East European aspirations for freedom and independence and a "true friend" of the United States.

In a remark apparently addressed to the Soviet Union, Carter warned against any outside interference in Yugoslav affairs after Tito leaves the political scene. The Yugoslav marshal will be 86 in May.

"The independence and the territorial integrity of Yugoslavia," Carter said in a welcoming speech, "is one of the basic foundations of world peace now and in the future."

As part of an effort to bolster Tito's government, the administration is preparing to sell U.S. arms to the independent communist nation.

The Yugoslavs have presented a shopping list that includes some of the latest U.S. weapons systems. According to Pentagon sources, the Yugoslavs are trying to obtain, among other things, Harpoon antiship tactical guided missiles; the air-tosurface Maverick, guided by a TV homing device; the antitank wireguided missile Dragon and an integrated naval defense system that includes surface-to-air missiles, radar and guns.

The Yugoslav request has created tensions between the administration and the military. Apparently reflecting this was the sudden firing of Col. Robert E. Bartos, U.S. Army

attache in Belgrade. Lawrence Eagleberger, the U.S. Yugoslavia.

ambassador to Yugoslavia, said Tuesday night that the reason for Bartos' removal was "basically a personality problem within the embassy. I don't fire people for policy differences." U.S. officials said that the ad-

ministration already has agreed in principle to sell the Yugoslavs several of the items on their shopping list. They said that it was highly unlikely that the sales would include the Harpoon and Maverick missile systems.

The administration has yet to overcome deep suspicions within the Pentagon on transfer of high technology to a Communist country,

The question of arms sales was expected to come up during the talks between Carter and Tito at their meeting Thursday. Defense Secretary Harold Brown is scheduled to attend those talks. It also will be discussed today by Secretary of State Cyrus R. Vance and Yugoslav

Foreign Minister Milos Minic. Since Tito's break with the Soviet Union in 1948, the United States has provided about \$750 million in arms aid to Yugoslavia. The military assistance program was terminated in 1960 at Yugoslavia's request. Subsequently, U.S. arms sales to Yugoslavia involved only spare parts, amounting to about \$1 million an-

Tito was the first Communist leader to visit the Carter White House, and was met by a full honor guard ceremony on the south lawn. A small group of Yugoslav exiles marched

outside the White House protesting Tito, 85, vigorous and somber, as Carter described him as a contemporary and "a friend and associate" of Winston Churchill,

Franklin D. Roosevelt and Charles De Gaulle. Carter also extended unusually high praise for Tito's role as a leader of the Third World. In contrast to Carter's effusiveness, Tito read a brief statement in which he expressed desire to improve U.S.-Yugoslav relations. The two men

office for a private conference, Tito smoking a long Cuban cigar. After their 90-minute discussion, White House spokesman Jerrold Schecter said:

"We have a commitment to support Yugoslavia's independence and in-

Just how broad the U.S. commitment is remained a question. While campaigning for the presidency, Carter said he would not favor the use of U.S. troops to assist Yugoslavia in the event of a Soviet attack. Since then, the administration has taken a number of steps to strengthen the Yugoslav regime.

During the past several months, Tito has visited a number of world capitals, including Moscow and Peking. He was believed to have

gained in talks with Soviet and Chinese leaders.

During his three-day visit, Tito is scheduled to meet with Congressional and business leaders. On his way home, he is to stop in London for an

Pet raccoon takes trip

GRAND JUNCTION, Colo. (AP) -Denny Crites finds it hard to believe his pet raccoon could travel 260 miles in three or four days. So does everyone else.

"When I talk about it, it sounds almost like a flying saucer story, said Crites.

Crites moved from Arvada to Grand Junction last fall and brought along Rocky, his pet raccoon. Since Rocky is an outdoor type, Crites occasionally lets her out to roam.

Everthing was fine until a week ago Saturday when Rocky went out and didn't come back.

Crites grew more worried as the days went by. Sunday. Monday. Tuesday. Still no Rocky. Then on Wednesday a friend called from

Hungry and thirsty, Rocky had showed up at the friend's apartment there, 260 miles from Grand Junction.

"It was her all right," said Crites, who took a bus to Arvada to fetch her. "Highly unlikely," said the people at the American Humane Society. "Improbable," said the people at the Colorado Division of Wildlife.

Rhodesian army admits to one strike into Zambia

By JOHN EDLIN

SALISBURY, Rhodesia (AP) -The Rhodesian army says it killed 38 black guerrillas and lost one man in its first admitted strike into neighboring black-ruled Zambia in 51/2 years of war with black nationalist guerrillas based there.

The military command reported it madé a "self-defense" raid on a guerrilla camp at Luangwa, 10 miles inside Zambia, after learning that guerrillas of Joshua Nkomo's Zimbabwe African People's Union were planning a major attack into whiteruled Rhodesia.

Zambia charged that the Rhodesian strike "unprovoked and indiscriminate." A government spokesman in Lusaka said Zambian troops shot down six Rhodesian planes, but the Rhodesians said no Zambian troops or civilians were in the vicinity of the camp.

The raid was disclosed as the U.N. Security Council continued debate in New York on black African demands that it condemn the agreement last week by Prime Minister Ian Smith and three black moderate leaders to give the black majority control of the Rhodesian government by Dec. 31.

Nkomo and Robert Mugabe, the leader of guerrillas based in Mozambique, were scheduled to speak in the council debate this afternoon. They oppose the Smith agreement because it shuts them out,

and they contend that they alone are entitled to control the future black government of Rhodesia, or Zimbabwe as it is to be known.

Bishop Abel Muzorewa, one of the black signers of the pact with Smith, was in Washington to confer with Secretary of State Cyrus Vance. He said he hoped to defend the agreement in the council debate, and a Western member of the council said he gave the bishop "an even chance" being heard. But the council refused to hear a representative of Smith, another diplomat at U.N. headquarters said.

Zambia made the first announcement of the Rhodesian attack, reporting Rhodesian forces attacked Luangwa with jets, helicopters and ground troops. No casualties were

reported. Later the Rhodesian command issued a communique which said its troops captured several guerrillas who revealed the existence of "a large terrorist base" across the Zambezi River in Zambia.

The Rhodesian government has admitted attacking guerrillas bases in Mozambique in the past 18 months, but had not previously announced any strikes into Zambia. The Zambian government also has said nothing official about any previous raids, although Zambian sources reported one last month in which 20 guerrillas high men.

"Lalo" Camarillo, who heads up the Midland Police Department's crime. prevention unit, and Marcia Ingram, executive director of Casa de Amigos, a social services outreach organization.

Agencies working together on upcoming crime seminar

Ways and means for senior citizens to combat erime will be discussed March 16 in a "Senior Citizens Against Crime" seminar in the Fine Arts Building at Midland College. -

The seminar, to be held from 9 a.m. to 3 p.m., will be sponsored by the Midland Police Department, Midland College's senior citizens program, Casa de Amigos, a social services outreach organization, and by Senior Services.

To be covered in the seminar will be procedures for reporting crimes to law-enforcement agencies and teps senior citizens can take to protect themselves fom harm from the criminal element and to secure their homes against burglaries and other break-ins.

Midland Community Theatre players are to present several skits on swindles. The seminar will be interpreted in Spanish.

Midland bankers will explain services banks offer to senior citizens.

A box lunch will be served at the college for those attending the seminar. "The main thrust of this program is to enlighten

senior citzens about crime, (thus) enabling them to feel safe and secure in their surroundings," said Janet Swallow, who is helping promote the seminar.

Those wishing to attend the seminar and who need outside transportation may telephone Senior Ser-

Common Market antitrust action one-way street

By JOHN ROBINSON Special to The Washington Post

BRUSSELS - Cars, cameras, computers or bananas - you can sell anything in Europe's 250million-strong Common Market, but you had better be darned careful about how you do it, especially if you're big business.

That is the increasingly clear message being bleeped to major U.S. companies who are finding business rules difficult to follow in a Europe where business just isn't best. Not unless you are politically protected.

No surprise, then, that American firms, already operating in a high-cost, low-growth European economy, now are focusing growing concern on the Common Market's stiffening antitrust laws directed at big business. Sparked by the massive, \$1 million fine slapped on United Brands by the EEC in mid-February, business tensions could increase in the coming weeks as Europe's trust busters prepare to tackle another U.S. giant.

TOP EEC OFFICIALS predict that Eastman Kodak will shortly be on the receiving end of a controversial Common Market decision involving an antimonopoly complaint.

Yet while the Common Market is busy castigating unfair competitive practices by major U.S. corporations, European governments, with Britain in the forefront, are giving an irate thumbs down to attempts by the Antitrust-Division of U.S. Attorney General Griffin Bell's Justice Department to pursue investigations in Europe of international cartels distorting American market conditions. A case in point is the alleged uranium price-fixing cartel, where the Justice Department's efforts to conduct a criminal inquiry in Europe constantly have been blocked by European governments invoking national

But no such political protection exists for U.S. companies in their tussles with the EEC's antitrust authority, the Common Market's Executive Com-

Besides United Brands, the commission already has used antimonopoly rules to attack a series of American multinationals, including General Motors Corp., Commercial Solvents Corp., and Continental Group, and is pursuing an extensive inquiry into International Business Machines' operations in Europe. Kodak is likely to be the EEC's next "cause"

EUROPEAN ANTITRUST officials admit that they are seeking to force the world's No. 1 camera manufacturer to divulge confidential legal information which they need to buttress an antimonopoly case they are preparing against the American com-pany. They object to Kodak's marketing its films and development in Europe in a single sales package, claiming that this practice forces independent film

developers out of the European market.

But Kodak objects to the breach of legal privilege the EEC would commit in forcing disclosure of secret information, admit Common Market officials. However, they are planning a decision which would enforce this. Such a move, it is felt here, could further increase American business alarm at the growing discretionary powers of EEC antitrust activities. power is not trammelled by the due legal process which must be followed in the United Staters.

Without this due legal process afforded by the U.S. judiciary system and the political protection cloaking many European state-run competitors, American multinationals can find EEC antitrust rules a tough proposition. Hence the claim made recently by Joe Sims of the U.S. Antitrust Division that, "If multinationals had their choice, American

antitrust principles would do quite nicely as a model for international antitrust codes."

Not that the EEC is specifically out to get U.S. multinationals, but simply big business abuses in general. The trouble is that many of the biggest firms in Europe are American. "We're not looking for U.S. companies: They're simply there and they're big," explains one EEC trust buster.

UNITED BRANDS was the latest victim of mushrooming EEC antitrust power, when the European Court of Justice — the EEC's highest legal authority — recently endorsed the charge that United had "abused" its dominant position on European markets for bananas, when in fact it held less than half the markets under investigation. Reacting bitterly, the company charged in return that the decision was "of ominous significance to every competitive trading company in the EEC."

Meanwhile, the EEC's attitude to international price-fixing cartels appears ambiguous.

According to sources in this city, it is vigorously investigating a cartel of paper pulp manufacturers, including seven U.S. companies. But this enthusiasm fades rapidly when, as in the case of the uranium cartel, interests are involved which European governments wish to protect.

The truth is that when the chips are down, the EEC antitrust authority must be responsive to political pressure to an extent unknown by its American counterpart at the Department of Justice. This is vividly illustrated by a letter just sent to John Shenefield, assistant attorney general for antitrust in Washington, by Willy Schlieder, the German director general of the European antitrust authority. In it, he warns that "the problems which could arise from the application of American antitrust legislation to enterprises established within the Common Market concern the sovereignty of (EEC) member states." concern the sovereignty of (EEC) member states."
In other words, "Hands off, Uncle Sam."

Ill health forces Habib to step down

The Washington Post

WASHINGTON — Philip C. Habib, the State Department's ranking career diplomat, is resigning his post due to ill health, administration officials said

His replacement as Undersecretary of State for Political Affairs is to be David D. Newsom, currently

ambassador to the Philippines, officials said.

Habib, 58, suffered a cardiac arrest last December after having a serious heart attack in 1972. Known as a tireless, intense worker, Habib was told by his physician that he could not resume a high pressure job at the present time. Unofficial reports said he is to be named diplomat-in-residence at Stanford University.

A native of Brooklyn and a devotee of blunt language and tough bargaining, Habib had long experience in Asia with service as chief political officer in Secul and Saigon, political adviser to the Paris peace talks and assistant secretary of state for East Asian and Pacific Affairs.

He became Undersecretary of State in July 1976, during the resign of Henry A. Kissinger at the State Department and was kept on the job as a key adviser by Cyrus R. Vance.

Virginia Mayo once more looks for 'that big part'

By JOSEPH P. MASTRANGELO The Washington Post

Virginia Mayo. The name conjures up thoughts of GLORIOUS TECHNICOLOR, Bi-i-g PRODUC-TION NUMBERS. Bob Hope. Danny

Kaye.
Virginia Mayo, nee Virginia Jones in 1920, is a grandmother now, but she says indeed she wouldn't turn down the offer of some juicy movie role and she's still working in theater and

It was raining in Thousand Oaks, Calif., the other day and Virginia Mayo cheerily told a phone interviewer that she was right in the middle of sewing a blouse.

"I just finished cutting out the pattern and I hope it comes out right because it's a pretty material.' It didn't seem so long ago when we

were watching her cavorting with Danny Kaye in "A Kid From Brooklyn.'

Tall and blond, Virginia Mayo was in the right place at the right time. She fit the image of the Hollywood chorus girl of the '40s and spent many hours in the background of color extravaganzas wearing slinky gowns

with slits up the sides and glittering three-dimensional, sequined-covered wires on her head.

Hollywood found out she could dance, so she was paired with Jimmy Cagney in "The West Point Story." From then on it was a series of

Hollywood movies with travalogue titles like "Pearl of the South Pacific" and "South Sea Island Woman."

She sailed the seas with "Horatio Hornblower," was captured by more pirates than almost any actress around and was always being rescued by guys who looked like Erroll Flynn. All in all she made some 54 movies,

including four with Danny Kaye ("'Up " "Move Over Mrs. Markham." in Arms," "A Song Is Born," "Secret Life of Walter Mitty," as well as "The Kid From Brooklyn"). With Bob Hope she made "The Princess and (what else?) the Pirates."

She married actor Mike O'Shea and they had a daughter who now has two children of her own. Now widowed. Mayo shares her big, roomy house with her daughter's family.

Virginia Mayo appeared a few months ago in a dinner theater in Atlanta, Ga., in a British comedy called

She has also toured in playes like "Cactus Flower," "No, No Nanette," and would like to do more movies. She also paints and has sold "a few."

Joel McCrea is a neighbor of hers. and Dennis Morgan sometimes drives down with his wife to pay a visit, but mostly she stays away from the Hollywood scene. Once she caused some controversy when she advised young actors to stay out of Hollywood, especially women, suggesting that Hollywood roles for women were poor

because of the number of homosexual writers, producers and directors.

"When women are included in their stories," she said, "they are unattractive people, or females are brought in for the nude scenes or explicit sex themes.'

But she says now that "homosexuals have contributed a lot to the movie industry, a lot more than than they harm it.'

She has no plans to retire, and says she's still looking for "that big part."

question and answer session with the luncheon guests.

hotel Lobby

Registration will resume at 8 a. m. Thursday and continue until noon.

Pump Station No. 8 again pumping crude

which claimed one life and was

blamed on workers mistakenly

opening a check valve, had delayed

an expected surplus of oil on the West

Coast. The line was scheduled to reach the 1.2 million level last

November, but without Pump 8 it was

Federal energy officials had predicted that with the \$7.7 billion

pipeline at the higher level there

would be a West Coast surplus of at

least 500,000 barrels daily. Several

long-term solutions have been

proposed, but in the meantime the excess oil likely will be shipped to Eastern markets through the

Standard Oil of Ohio, which owns about 53 percent of the oil, had no

comment on what it would do with the

additional oil. But the Oil and Gas Journal's March 6th issue quoted a

Sohio official as saying disposing of it

Sohio lacks West Coast refineries for Alaska oil and has been shipping

its Alaska oil through the Canal. It

will be receiving an additional 200,000

barrels daily with the increased flow.

limited to 730,000 barrels.

Panama Canal

"won't be easy.

ANCHORAGE (AP) - Technicians have started up Pump Station 8 on the trans-Alaska pipeline, which will boost the nation's crude oil production by about five percent.

The station was destroyed last summer in an explosion when workers were turning it on. With the startup of the reconstructed pump station, oil flow began increasing Tuesday from 730,000 barrels daily to about 1.2 million. Daily domestic oil production totals about 10.1 million

As the pumps at the \$30 million station started Alyeska Pipeline Service Co. officials waited "with a great deal of anticipation. And there was a great sense of relief when it was started satisfactorily," said Alyeska spokesman John Ratterman. Alyeska operates the line for the owner oil

L.M. Cook of Atlantic Richfield Co., said, "We're delighted. This is great news for the country.

Ratterman said it would take

several days for the flow to reach the 1.2 million-barrel level as operators increased the flow from wells at Prudhoe Bay.

Now the question is where the extra

Stuffing packets for the American Cancer Society's door-to-door educational and fund-raising campaign are, from left, Jan Amini, Laura Brown and Mary Emma Bennett, all volunteer workers for the society's Midland chapter. (Staff Photo)

Education emphasized in anti-cancer drive

Cancer Society volunteers conduct their door to-door campaign this year, the emphasis will be on education rather than fund raising.

Midlander Ron Rosignol, state chairman doorside education, has told members of the cancer society's Midland chapter that the campaign will raise money with or without the educational thrust.

However, he said, officials are more concerned with informing the public because concentrating on education helps reduce the need for treatmemt and rehabilitation.

To accomplish the broadened educational goals, volunteers are nducting a series of 'doorside education' meetings to train individuals involved in the

"The whole idea is to be more personal," Rosignol said. Campaigners will be trained to relate with 'the person at the door and explain some of the educational material

instead of just handing it to you. Rosignol said officials feel the educational program is responsible for saving 100,000 lives

annually in the United

States. This year's drive

is designed to increase

that total Susie Evans and Penny Sawyer are this year's residential drive cochairmen, and both report "good" response to the training program

which began this week. Mrs. Evans said the program seeks to reach 1,500 Midland volunteers by having each level of volunteer workers train

The city's four area chairmen, Glenna Krumboltz, Jan Amini, Mary Emma Bennett and Laura Brown, will train four tract chairmen who in turn, will train neighborhood chairmen. Block chairmen will be trained by the neighborhood cen.

The cancer society has made available a film for the training sessions which will be used along with group discussion. The training will be put

to use the week of March

Mexican government protests blockade

MEXICO CITY (AP) - The Mexican government has filed a formal protest of last week's blockade of Mexican produce by striking U.S. farmers at the Hidalgo-Reynosa border in Texas.

Foreign Minister Santiago Roel also demanded Monday that local officials at Hidalgo, Texas assure that no more blockades of the international bridge will be attempted.

'U.S. farmers are preparing a threatening public demonstration and may even dynamite the international bridge at Hidalgo," a statement from the Mexican foreign ministry said.

Three Midland students have high grade averages

DENTON - Three Midland students achieved high scholastic grade point averages during the 1977 fall semester at Texas Woman's University, Dr. Dave L. Gates Jr., vice president for academic affairs, recently announced.

The students were Penny P. Bruno of 2304 Lockheed Drive, Pamela A. Rasco of Route 3 and Jason G. Tankersley of 2506 Dengar Ave.

Midlander earns degree in vocational education

DENTON - Deborah Sloan Pettie, daughter of Mr. and Mrs. Clarence W. Sloan of 2602 Fannin Ave. in Midland, recently received a master's degree in vocational-technical education from North Texas State University at the end of the 1977 fall semester. She was among 863 students who were awarded degrees at the university.
