Vol. 50. No. 42, Daily 15c, Sunday 35c

Airline keeps all in the cockpit all in the family

HOUSTON (AP) - Like fathers, like daughters? Six women whose fathers are all pilots have won their wings as first officers from Texas International Airlines, which now boasts more women in the copilot's seat than any other major U.S. air-

The women, including the first black female to qualify as a major airline pilot, joined 32 men Wednesday in promotion ceremonies at the Houston-based airline. They are all

first officers who will sit in the righthand seat

Jill E. Brown of Baltimore, a home economics major who learned to fly along with her parents when she was 17, said an article on the small number of black commercial airline pilots in the United States prompted her to

see how far she could get. "I contacted Warren Wheeler, who runs the only black-owned scheduled airline in the country. He gave me an interview and then offered me a job," Miss Brown said. She started out at Wheeler's Raleigh, N.C., based air-line in August 1977, flying Beech 99

TI previously had no women pilots. Western Airlines has six women flight engineers.

Marcelyn Bishop, 23, of Oroville, Calif. became the first woman to serve as copilot on a scheduled TI flight when she sat at the controls of a DC-9 jetliner during a Dallas-bound run later in the day. Miss Brown will be flying 40-passenger Convair propjets for several months until the airline phases them out.

The other women pilots are Alberta Parkison, 33, Irving, Texas; Duana Bucklin, 22, Jamestown, R.I.; Linda Greco, 23, St. Petersburg, Fla. and Mary Rose Helfrick, 22, Elysburg,

Miss Parkison, who was a stewardess for 10 years, taught her father, a retired Air Force officer, to fly a seaplane.

Many of the male pilots gained previous flying experience during military service, but Miss Bucklin,

who plans to marry a pilot in August, said that didn't make much differ-

"Men probably get more encourge-ment to become pilots than women do," she said. "But we didn't have the problem of unlearning things from military flying experience like they

All six women said they would rather be out flying airplanes than discussing the historical and sociological significance of their new jobs.

TI vice president for flight opera-

tions Donald Breeding said the company has no female maintenance technicians, although he added he

THURSDAY, APRIL 20, 1978

48 PAGES, 4 SECTIONS

hopes women will apply for the jobs.

About 75 women and 400 men were
actually interviewed for openings in the airline's first pilot class in eight years. Breeding said no women ap-

plied for the job eight years ago.

Although the airline, which now has
338 pilots and 26 DC-9 jets, is expanding rapidly, Breeding said it will still be a few years before any of the new pilots moves into the captain's seat.

Message says Moro aliveuntil Saturday

attributed to the Red Brigades said political leader Aldo Moro is still alive but that if the government refuses to free jailed Communists by Saturday he will be executed.

Police found a body today in a frozen lake where an earlier message said the terrorists had dumped Moro after executing him, but it was identified as that of a local resident.

Meanwhile, the extremists who kidnapped Moro five weeks ago killed a prison guard in Milan, the ninth slaying claimed by the militants this year, excluding the alleged Moro execution. Copies of the latest message, which

turned up in Turin and Genoa, dismissed as "fake and provocatory" the one saying Moro, 61-year-old president of the Christian Democrat It demanded the Christian Demo-

crats free "jailed Communist prisoners" and "give a clear and definite reply on whether it intends to follow this road. "The Christian Democrat Party and its government have 48 hours of time to do it starting from 1500 hours (9 a.m. EST) of Apr. 20. Once this time has elapsed, the execution will

be carried out." Investigators were checking the au-

thenticity of the message.
The Red Brigades demanded the release of prisoners three weeks ago in exchange for Moro, but the government refused, even if it meant forfeit-ing the life of the former premier.

The body recovered today was found by frogmen in iced-over Lake Duchessa, 72 miles northeast of Rome, on the third day of searching after a message Tuesday said Moro

was dumped there. The body was identified as that of a 45-year-old man from nearby Corvaro who had been suffering from a nervous breakdown and had been missing from his home for several days,

police sources said. The police said they would continue to search Lake Duchessa and nearby

lakes and ponds. As the search continued without a trace of Moro, there was growing speculation that the message Tuesday was a hoax.

Interior Minister Francesco Cossiga said experts found it had the same features as six previous communiques from the kidnappers. But he said the delay in finding the body and a few other details prompted doubts about the authenticity of the message.

The terrorists' latest victim was Francesco de Cataldo, 53, who was shot by three men as he was leaving for work at Milan's San Vittore Pris-

The killers escaped in a car. A few minutes later, a telephone caller to an Italian news agency said he was speaking for the Red Brigades and announced: "We have executed officer Francesco de Cataldo, on duty at the San Vittore prison as a torturer of prisoners."

During the night, extremists hurled bombs and fired shots at a Rome military compound that included the home of Gen. Alberto Della Chiesa, a top anti-terrorist expert. Two small bombs also were thrown at the residence of Carlo Reviglio della Venaria, a retired district attorney who used to work with Della Chiesa. No casualties were reported.

Police also reported finding papers in a Red Brigades den they uncovered in Rome Tuesday listing recent kidnappings for ransom. Police said the Moro kidnapping and other activities of the terrorists were financed by the \$1.6 million ransom paid for the release of Genoa shipowner Pietro Costa last year after almost three months of captivity.

SEEMINGLY ASTONISHED, singer John Hager, left, and his brother, Jim, take notice of a Midland Jaycees pin. The twins, country music singers, rode in the parade Wednesday signaling the opening of the American Junior

Rodeo Association rodeo at Joe Thorp Arena northwest of Midland. The rodeo continues with performances at 7:30 p.m. nightly through Saturday. The arena is just off Farm Road 868 and about a mile west of Holiday Hill

Road. The Hagar brothers appeared at the rodeo Wednesday night, but are not scheduled to appear there in . the rodeo's remaining three performances. (Staff Photo by Brian Hendershot)

Chilean junta announces amnesty

SANTIAGO, Chile (AP) - Chile's military junta has decreed a general amnesty for its political foes that should free about 280 prisoners and allow thousands of exiles to return home without fear of arrest.

The amnesty signed by President Augusto Pinochet and the other three members of the junta applies to persons condemned by military tribunals since the overthrow in 1973 of the late President Salvador Allende. But persons convicted of murder, fraud, robbery, swindling and other common crimes are excluded.

The amnesty is one of a series of actions taken by the junta to ease its tight rule and improve its image. In recent weeks, it has also lifted the state of siege proclaimed Sept. 11, 1973, ended the early-morning curfew for pedestrians, allowed Christian Democratic leader Jaime Castillo to come home and named four more civilians to his cabinet.

Justice Minister Monica Madariaga said those in prison who are being pardoned would start leaving their cells immediately.

Among those affected are 107 prisoners who were being sent into exile. Now they can remain in the country

at liberty. The amnesty also affects about 1,-200 Chileans who were convicted of political crimes and expelled from the country. According to the Intergovernmental Committee for European Migration, 47 of them were sentenced

to life imprisonment. Informed observers also interpret the decree to apply to the thousands

The end to a two-county, two and a half month investigation by Midland police, Department of Public Safety

narcotics and intelligence officers

and Ector County Sheriff's deputies came Wednesday with the arrest of

two Midlanders and 17 persons in

Ector County for selling drugs. Warrants have been issued for the

arrest of seven more in Midland Coun-

were for the sale or delivery of con-

ty and five others in Ector County.

trolled substances.

who fled abroad because they feared they would be prosecuted. But official sources said it does not apply to former Communist leader Luis Corvalan and others who were expelled without

having been charged or sentenced. An estimated one million Chileans about 10 percent of the population
 left the country after the military
overthrew Allende's Marxist regime.
But many left for economic reasons

Peace Justice John Biggs set bond Wednesday at \$30,000 for Marsha Wil-son, 30, of the 3000 block of West

Kansas Avenue and at \$60,000 for Benjamin Aaron Bronston, 21, of the

Those arrested in Ector County in-

cluded Odessa College music professor Charles Edward Baxley, 28, and two Odessans, Rocke Darrell Flannigan, 22, and Claudie H. Franklin, 22. Bond on Flannigan has been set at \$10,000, and bond for Franklin was set

2300 block of North A Street.

19 arrested for drugs

when unemployment rose to nearly 20 percent after the coup.

There is no reliable estimate of how many persons fled for pelitical rea-sons. An estimated 8,000 took refuge in foreign embassies in Santiago after the coup and eventually were given safe passage out of the country. Thousands more left clandestinely.

"We have had agents in the two counties (Midland and Ector) work-

ing for two and a half months. Yes-terday we finished and decided to ar-

rest them all," the DPS spokesman

The arrests began Wednesday when Baxley was taken into custody and

were continuing today.
"We figure the rest of them will

show up sometime today. Except maybe four. I think they're going to be out of state," the spokesman said.

Rattlesnake Bomber Base getting new life

PYOTE - Pyote Army Air Base of World War II vintage has become a victim of the spoils of peacetime and air progress.

It served "the cause" and eventually was turned over to the wrecking and salvage crews. Pyote AAB, more commonly known as Rattlesnake Bomber Base, no more would train heavy bomber crews.

But there's an active force here that's striving to keep the old base from quietly slipping into oblivion. And at 2 p.m. Saturday, the "force" will drop the figurative

out the "new" Rattlesnake Bomber A museum containing artifacts, memorabilia and other tidbits from the base will be dedicated at that time. Included in the collection are

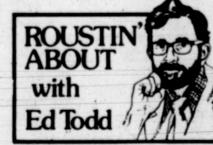

bombshell and will make a showplace

photographs and the dead-aim Norden bombsight. Flags will be flying, speeches will,

be made, songs will be sung, a band will be playing and airplanes will be flying overhead. "It's just my 'hobbyhorse,' and I've been riding it pretty hard," said Len-ora Price, who's part of that force

behind the museum. At the dedication, a flyover will be made by three Confederate Air Force warplanes: the Boeing B-17 Flying Fortress, the North American P-51D Mustang and the British Vickers Supermarine Spitfire.

bomber and the two fighters will land at the old base, where they will be on Then, at 3:30 p.m., the P-51D will become airborne and will be put

Flollowing that, the four-engine

through some aerobatic maneuvers.

It'll be a roaring show to give the museum and old base a boost. Throughout 1943 and during most of 1944, the base trained B-17 crews. And in late '44, those workhorse '17s were

replaced by the heavier, faster and higher-flying B-29s.

The nucleus of the training corps was made up of veterans of the U.S. Army Air Force's 19th Bombardment

(Continued on Page 2A)

Parking now prohibited

Parking along Big Spring street is prohibited as of 7 a.m. today. An ordinance passed at the March

14 City Council meeting eliminates parking along Big Spring street and gives the Texas Department of Highways and Public Transportation authorized to present a continuous left transportation. ority to paint a continuous left turn lane on Big Spring Street between Michigan Avenue and the U.S. High-

way 80 overpass. Lt. H. M. Wicker with the Midland Lt. H. M. Wicker with the Midland Police Department said persons who have been parking vehicles along Big Spring street have been told not to park there, and signs also have been posted. The police department will begin enforcing the ordinance to an extent today. Those parking along the street, despite the posted signs, will receive a verbal warning today, Wicker said. But, beginning at 7 a.m. Friday, tickets will be given to anyone ignoring the signs.

Vance, Gromyko open arms talks in Moscow

MOSCOW (AP) - Secretary of State Cyrus Vance and Soviet Foreign Minister Andrei A. Gromyko opened talks in the Kremlin today to try to ease differences blocking a new treaty to limit long-range nuclear arms. But U.S. officials expected no major

"We have hope for hope," said Gro-myko. And Vance, as he arrived Wednesday night from London, ex-pressed hope progress would be made but warned that "complex and diffi-

cult problems" remain.

Vance began the talks with a broad statement of U.S. views, then moved quickly to proposals to wrap up the treaty that has eluded the two superpowers since Soviet President Leonid 1. Basulney and former President Ford agree in November 1974 on

limits of 2,400 long-range bombers and intercontinental ballistic missiles

for each nation.

For the first time since that breakthrough in Vladivostok, the Russians
brought in a high-ranking army officer to take part in the bargaining. The
presence of Gen. Nikolai V. Ogarkov,
chief of the general staff and first
deputy minister of defense, indicated
some tough technical decisions might
be in the office.

some tough technical decisions might be in the offing.

Some analysts believe Brezhnev is having trouble persuading the Soviet military to accept various arms restrictions. They speculated he might want Ogarkov at the table to allay any suspicions within the military that the president was being too conciliatory.

Brezhnev was not at the opening session be U.S. officials expect he

Will appear later.

Vance's team included officials from the White House, Pentagon, State Department and the Arms Control and Disarmament Agency.

As the talks began, the Soviet wife of an American tried to chain herself to a fence in front of the U.S. Embassy to protest the government's refusal to let her join her husband in the United States. The woman, Irina McClellan, 38, was taken away by police. She is the wife of Woodford McClellan, a professor of Russian at the University of Virginia. She says she has been waiting four years for a visa.

Vance failed to budge the Soviets in his last trip here in March 1977, and U.S. efficials said they did not expect this visit to yield solutions.

RAIN is forecast today by the National Weather Service for most of the Great Lakes region and New England. Showers are expected for the Ohio River Valley area stretching from Iowa to the East Coast. (AP Laserphoto Map)

Group. The group had been a part of the action in the Pacific Theater since the Japanese attacked Pearl Harbor on that "day of infamy" - Dec. 7,

The group landed at Pyote on New Year's Day of 1943, and soon began training crews in the reliable B-17s. "They were kind of a cocky bunch,"

museum booster Jim Marks said of the 19th Bombardment Group, which was "fresh from overseas."

The pilots, bombadiers, navigators gunners, ground crews and most all at the base developed much rapport, historian Marks said.

"And they (fliers, gunners, navigators) all came together and were molded at Pyote," Marks said. "They became very close units and some life-time friendships were made. . . .

They knew they were going to war. "Many of them never came back. Pyote was their last home," he said. After the war, the base was turned into a storage field for mothballed B-29s. And in 1947, the Army turned the base over to the U.S. Air Force, which set up an early-warning air

Injuries minor

Only minor injuries resulted Wednesday from two traffic acci-

Dennis Daryl Wood of 403-J W. Estes St. was treated for injuries and released from Midland Memorial Hospital. Wood told police his motor-cycle skidded and hit a curb while he was trying to avoid a car that pulled out in front of him in the 400 block of N. Big Spring Street shortly before 4

Connie McCurry Saunders and eight children riding in a car with her were taken to a physician for treatment after the car she was driv-ing and a flat-bed truck collided about 10: 30 p.m. Wednesay at the intersection of Midland Drive and Thomason

Police said William Wade Blocker of 3917 Anetta St. had stopped the truck, loaded withIpipe, at a stop light when the car struck the bed of the trailer. The pipe went through the car's widshield.

With the outbreak of the Korean War in 1950, many of those B-29s were taken out of wraps and were outfitted for dropping bombs over Korea.

Three years later, after the Korean War was over, World War II's most notable -- or notorious -- warplane was put on display at the Pyote base. It was the Enola Gay, the B-29 which dropped the atomic bomb over Hiroshima, Japan, on Aug. 6, 1945.

At Pyote for awhile, too, was The Swoose, a B-17 which survived the bombing and strafing of Clark Field at Pearl Harbor.

Currently, the Enola Gay and The Swoose are in the Smithsonian Insti-

In the early 1960s, the aging and obsolete B-29s were cut up by the hundreds and were smelted by an aluminum company

Today, about all that remains at Pyote are the landing fields, a "giant" hangar, the red-brick boiler building for providing the heat for the hangars, and the native rock gateway, which was built in 1945 by German prisoners of war assigned to

That restored gateway also will be

dedicated Saturday. University Lands, which now owns the old base, has leased that entrance to Ward County, which is maintaining both the museum and the wingshaped rock gate.

The public is invited to the dedication and to the tour of the base, Mrs. Price and Marks said. She is a Ward County commissioner, and Marks is assistant principal of Monahans High

The featured speaker at the dedica-tion will be U.S. Congressman Richard C. White of El Paso. Singing a melody of patriotic songs will be Tammi Jo Whitmire of Odessa.

The colors will be presented by a color guard from Goodfellow Air Force Base at San Angelo. And the Monahans "Mean Green" High School Band will play Sousa marches and other tunes, such as "Off We Go into the Wild Blue Yonder."

"What this will be is a fun day," said Marks. "We just want to have a good time and to honor the people who served in the war."

TELLING of plans for Commercial Bank & Trust Co.'s new motor bank is bank President R. L. Pendleton. He spoke at groundbreaking

ceremonies Tuesday morning. The new facility is expected to be completed later this year and initially will offer 11 drive-through

lanes with access and exits on both Indiana and Missouri streets. (Staff Photo)

Veterans win long-awaited honor

By FRED S. HOFFMAN

WASHINGTON (AP) - Three decades after its six-month blitz across Europe's battlefields to link up with

Mine ending recovery try

FARMINGTON, W.Va. (AP) - The bodies of 19 men will lie entombed forever in the No. 9 mine here. Against the wishes of the dead

men's widows, the Consolidation Coal Co. has decided to cease recovery efforts, 10 years and \$11 million after explosions ripped through the shafts and killed 78 miners

And millions of tons of coal williremained unmined because of federal and state closure orders and a miners' taboo against taking coal when the bodies of their brethren remain inside.

R.E. Samples, Consol's chairman and chief executive officer, announced Wednesday the company would halt recovery efforts because deteriorating working conditions made it unlikely that the remaining 19 bodies would ever be recovered or the cause of the blasts found.

"This brings to a close over nine years of treacherous recovery work during which 59 bodies were recovered," Samples said.

He noted that a 1974 agreement with the families of the victims called for recovery efforts to go on only so long as it was "safe, reasonable, feasible and practical to do so."

"We have long since gone well be-yond that point," Samples said. But 19 widows disagree.

"It was their negligence that killed them, and I think it's their job to recover them so we can have a proper burial," said Sarah Kaznoski, widow of Pete Kaznoski Sr.

"If they'd had their way they would never have found number one. They started the battle to seal the mine and leave them entombed from the day of the explosion.

She added, "It just seems so inhuman to me. We know the men are dead, but they still deserve a proper

agreement:

Soviet troops in Austria, America's first all-black tank battalion is being awarded the presidential citation its survivors have fought for ever since.

The 761st "Black Panther" Battalion battled its way from France across Belgium and Germany for a record six straight months spearheading the allied drive and inflicting thousands of casualties on the Nazi

The battalion joined the First Ukrainian Army at Steyer, Austria, on May 6, 1945. The German high command surrendered a day later.

In its record 183 straight days in combat, including a key action in the Battle of the Bulge, the unit suffered a nearly 50 percent casualty rate, with a total of 36 officers and enlisted men. killed and 260 wounded. The battalion lost 71 tanks.

Its members collected eight silver stars and 62 bronze stars.

"The response by the unit has been amazing, said David Williams, the battalion's white commander who now is a Miami stockbroker.

"It means a lot to these guys. It's a

man but the battalion's members still

There are clear indications that racial discrimination and inadvertent neglect on the part of those in authority ... may have been a factor in the disapprovals," the Army summary

The case was reopened last year and this time veterans of the 761st won their citation.

Group asks grand jury study of Lozano death

tatives of Mexican-Americans in Texas have requested a federal grand jury to investigate the death of Larry Lozano in Ector County Jail Jan. 22, and threatened possible violence if the grand jury is not granted.

Ruben Bonilla, head of the League of United Latin American Citizens, said he had been in touch with John Huerta, deputy assistant attorney general with the civil rights division of the Justice Department in Washington, and with Jamie Boyd, U.S.

attorney of the Western District. "We have been trying to get a recommendation for a grand jury. We have been a little disappointed with the lack of direction from the U.S. Attorney's Office in the Western District because of the lack of forceful action in earlier killings, such as (Juan) Galaviz in Big Spring," Bonil-

Crane reveals class leaders

CRANE - The valedictorian and salutatorian of the 1978 senior class at Crane High School recently were chosen, D. L. Anderegg, school principal, announced. David Bizzak, 17-year-old son of

Mr. and Mrs. Edward Bizzak, was selected as valedictorian. A National Honor Society member, the youth was awarded a \$2,000 National Merit Scholarship. He has been participating in the industrial arts program four years and has been a Student Council member one year.

Seventeen-year-old Mary Witt, daughter of Mr. and Mrs. Tom Witt of Crane and formerly of Midland, was named salutatorian. Miss Witt has. been a member of the National Honor Society, Student Council and Spanish team one year. She has been a Pep Squad member two years. Her name is included in the edition of "Who's Who in Foreign Languages in Texas and Oklahoma High Schools."

CLOVIS, N.M. (AP) - New Mexis chief health officer, Dr. Jonathan was planning today to return to Santa Fe, confident that the sm outbreak here has run its

epidemic in Clovis appears to ' Mann said Wednesday. said most of the 33 botulism tims remained hospitalized, but bere is encouraging news of stabili-

tion in most cases and full recories in others." He added, however, that full recovry for the majority of victims may

weeks. The 33rd victim was admitted to ovis Memorial Hospital Tuesday ternoon, and one person was reed from the hospital, becoming first of those stricken to recover. eanwhile, a search of the Clovis p was under way in an effort to food cans that Mann said may p explain how the botulism outak began.

he cans hadn't been found dnesday night, but Mann said rkers would continue sifting bough the refuse today.

If the cans are not found, he said, "Then it may not be possible to completely determine the cause of this outbreak."

Mann said the cans were used in a Sunday meal at which five persons became ill.

The 33 persons stricken with botulism were among 800 who ate at the Colonial Park Country Club in Clovis between April 9 and April 13. Mann said the re-opening of the restaurant would be discussed "in the near fu-

He said, "We would like to re-emphasize that the restaurant's sanitary quality and professional management has never been in doubt during this entire investigation.

The cans, which contained a food Mann declined to identify, were taken to the Clovis dump during a normal garbage haul last Tuesday.

He said if certain information can be obtained from the cans, it could "make all the pieces of the puzzle fit into place."

If they are found, the cans will be turned over to the federal Food and Drug Administration for testing for botulism toxin, he said.

Holocaust' brings home war horrors

LOS ANGELES (AP) — The tragic ory of Jewish genocide by Nazi Gerany reached an estimated 120 milon American TV viewers this week. was the same story that Nazi-hunt-Simon Wiesenthal has told to thounds for 30 years.

NBC's four-part docu-drama, "Holcaust," told in terms of one fictitious amily named Weiss, reached more people in four nights than Wiesenthal has spoken to in his 69 years. The work made the estimate of how any people watched "Holocaust."

"I cannot say I am happy, because say you are happy in connection ith the Holocaust is wrong," said lesenthal, who saw much of the eries. "But I say it is good that they

Wiesenthal said he did not think the TV story overstated the brutality that occurred in the death camps of World

"The human language is inadequate to express the terror; you cannot present all the cruel situations,"

The Nazi hunter spoke in an interview Tuesday at the Simon Wiesenthal Center for Holocaust Studies, now

only one of its kind in the country, the center is dedicated to eeping alive the memory of the Holocaust, the name given to the systematic elimination of 11 million people by the Nazis in World War II. Six million of the victims were Jews like Wiesenthal

Wiesenthal, through his Viennabased Documentation Center, has labored to track down and secure the extradition and conviction of about 1,000 former Nazis responsible for genocide, including SS official Adolf Elchmann, who was hanged in Israel

"I don't agree with a number of letails (in the show)... but these are fittle things," said Wiesepthal, who spent 4½ years in Nazi prison camps. He referred specifically to the portrayal of SS officers as having military-like ranks.

"These were not soldiers. Soldiers fight with a risk, but these people fight with no risk... The German Army veterans didn't even want the SS included in their ranks. The SS was a criminal organization.

"Look, there were 10 million Nazi party members in Germany, but only 150,000 committed crimes... This 30 years I'm not fighting against Nazi party members, only against these people who commit crimes... We are

not anti-German.' He said that portraying one family heightened the show's impact.

The big impact of the diary of Anne Frank was not the story of a million children, it was the story of a young girl," he noted.

It was Wiesenthal who tracked down the Gestapo agent who arrested Anne Frank, a Dutch teen-ager who kept a journal while hiding from the Nazis, and sent her to the concentration camp where she died.

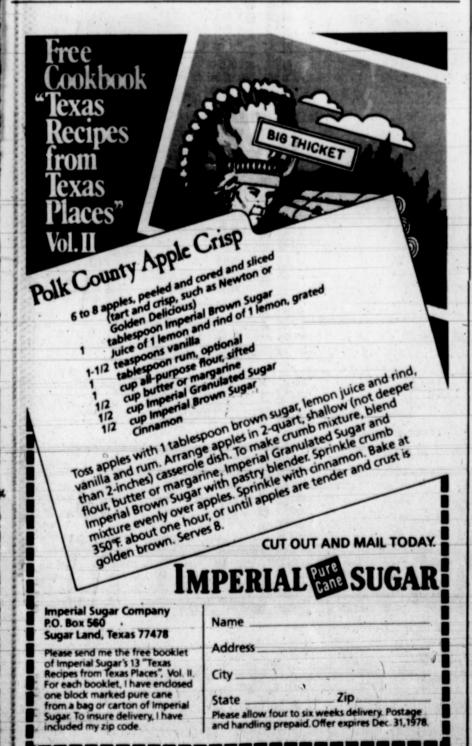

"I think this was good that they took a family, very good... Eichmann him-self said that 100 killed people is a catastrophe, but a million killed people is a statistic.

Wiesenthal is touring the United States to explain the atrocities and

raise funds for his Nazi hunt. Wiesenthal believes the United States should deport what he estimates are 100 former members of the - members and volunteers in units that helped kill civilians.

Boat capsized

DACCA, Bangladesh (AP) - A launch overloaded with 600 persons capsized today in the Ghorautra River, 200 miles northeast of Dacca, and officials said they feared more than 100 persons drowned

otulism cause sought; Rare disease threatens family

By ROBERT MACY

KANSAS CITY, Mo. (AP) - A rare blood vessel disease called hereditary hemorrhagic telangiectasis is more than Diane Crall can pronounce. But it is not more than she can compre-

It threatens the lives of her husband, Robert, 26, their children, Ste-phanie, 5, and Robert Jr., 3, and possibly month-old Scott as well.

One of the family's doctors at the University of Kansas Medical Center says he had seen only one previous case of the disease during his career. Yet Crall, his youngsters and a niece apparently are afflicted with it.

Crall's sister, Teresa, died three years ago at the age of 19, a month after giving birth to a daughter, Tracy. Doctors say Teresa's death may have been caused by the disease,

Reasoner pushed off news slot

NEW YORK (AP) - ABC News President Roone Arledge says Harry Reasoner will lose his anchor position on the "ABC Evening News" this summer. Barbara Walters, reportedly receiving \$1 million a year for her services, also will give up anchor chores but will remain in a featured role as an interviewer.

Announcing reorganization of the poorly-rated news show, Arledge said Wednesday that Reasoner "did not fit

CBS and "CBS Reports." 'primary" anchor. He will be in

and Tracy may have it

The disease surfaced last summer when Crall, an active, healthy man, began having problems with bleeding. Tests at the medical center diag-

nosed the rare disease. Splotches have appeared on the two Crall children's skin, and doctors say it may be a sign that they have the disease.

Crall cannot work, exert himself physically or tolerate heat. He has frequent broken blood vessels and the pain of massive headaches. Neighbors in the Kansas City suburb of Oak Grove have started fund-raising activities to assist the family, which has been on welfare the past several

A routine day of non-strenuous activity leaves Crall "almost incapacitated by evening," according to his

The disease, said Dr. James Couch of the medical center's neurology department, "is like having the sword of Damocles hanging over your head."

He said the disease is a formation of small blood vessels that bleed easily, located up and down the digestive tract and also on the surface of the brain and around the spinal cord. Victims can bleed to death internally if the vessels rupture.

"The chances of having something catastrophic happen are pretty high,'

Couch said because the rarity of the disease, little research is under way to find a cure.

First meeting of water task force slated

Governor's Water Resource Conservation and Development Task Force has been set for 2 p.m. Monday here by Department of Water Resources Executive Director Harvey Davis.

The 33-member group will meet in Room 118 of the Stephen F. Austin State Office Building.

Main topics of the meeting are to be the developing national water policy, the water policy proposals of the National Governors Conference, federal agency reorganization and the tax-free status of municipal

Gov. Dolph Briscoe re-established the group last winter, under an executive order.

Most of the members, who were appointed after issuance of that order, had served previously on the task force, which had functioned for some time before its authorization expired.

Members of the group are: Agriculture Commissioner Reagan Brown; David Brune, general manager, Trinity River Authority, Arlington; J.W. (Buck) Buchanan, manager, North Plains Water Conservation District No. 2, Dumas; Texas Water Commission Chairman Joe Carter; Roy Douglas, Upper Neches River Municipal Water Authority, Palestine; Department of Health Executive Director Fratis Duff; William A. Elmore, Neches River Conservation District, Lufkin; W.R. Farquhar Jr., general manager, Lavaca-Navidad River Authority, Edna; Charles Herring, general manager, Lower Colorado River Authority, Austin; John Hickerson, El Paso Water Utilities, and Davis.

Also, Owen H. Ivie, manager, Colorado River Municipal Water District, Big Spring; Victor Jaeg-gli, manager, West Central Texas Municipal Water District, Abilene; Douglas Mathews, director of utilities, Corpus Christi; J.D. Nixon, general manager, Lower Neches Valley Authority, Beaumont; W.D. Parish, manager, Hidalgo and Cameron Counties Water Control & Improvement District No. 9, Mercedes; Fred Parkey, Red River Authority, Wichita Falls; Fred Pfeiffer, general manager, San Antonio River Authority; I.M. Rice, director, Dallas Water Utilities; Carl Riehn, executive director, North Texas Municipal Water District, Wylie; J.L. Robinson, director, Fort Worth Water Department, and Felix Ryals, Panhandle Underground Water Conservation District, White Deer.

Also, Richard Sawey, director of utilities, Amarillo; Jimmy Schindelwolf, director, department of public works, Houston; John Simmons, general manager, Sabine River Authority, Orange; John Specht, general manager, Guadalupe-Blanco River Authority, Sequin; Homer Tanner, Northeast Texas Municipal Water District, Daingerfield; Wayne Wyatt, general manager, High Plains Underground Water Conservation District No. 1, Lubbock; Robert Van Dyke, general manager, City Water Board, San Antonio; McDonald Weiner, general manager, Edwards Underground Water District, San Antonio; Walter Wells, general manager, Brazos River Authority, Waco; John White, executive director, Nueces River Authority, Uvalde, and John Williams, executive director, Canadian River Municipal Water Authority, Stam-

Davis has been designated chairman of the group.

Midland Youth Center chatter

SHERI BAILEY and DINAH BOYD

This morning, the Senior Breakfast was held at Midland College, marking the near end of the seniors at MHS. Much fun was had by all as the Dubious Awards were presented.

The Junior Class is planning a garage sale to be held this weekend. Any Junior with junk to sell should take it by Jay McMahon's house, 2207 Hun-

Attention all girls interested in becoming a Pack-Backer. You may pick up your application in the office. The deadline is April 28th. The annual Industrial Arts Fair will be held next

week. The boys are really working hard on their projects and we are sure they will represent Midland High School well again this year.

Once again, we pay tribute to the mighty MHS tennis team. Cary Garton, Vicki Vasicek and Dinah Boyd are playing regionals this weekend in Lubbock. Good Luck Girls! Next weekend Kirk Farquhar, Joe Love, Jeff

Blamlett and Jeff Rea will compete in regionals in Lubbock. This is the first time that five out of eight teams have advanced to regional play. Keep up the good work!! The MHS Bulldog Baseball team meets Abilene

nere Saturday, so you all come cheer them on. Good luck fellas. Until next week-

Kim, Sheri, and Dinah P.S. The Junior Rotarians this week are Sarah Fullinweider and Bobby Floyd. Congratulations! P.P.S. The Senior Wills are now on sale. All seniors should write a will and give it to Jim Shaw, Rick Foster, Mr. Baker or Kim Wood. The price is two

cents a word and the deadline is May 5. P.P.P.S. The MHS Gymnastics team goes to state this weekend in San Angelo. Participants are Kyle Raybourne, Peter Schweinfurth, Tom Hurt, John Hurt and Pat White. Good luck!

Elvis sought to be narc,' writer says

MEMPHIS, Tenn. (AP) — Elvis Presley talked with former President Nixon about working as an undercover federal narcotics agent but nothing came of the offer, a friend of the late singer says.

Marty Lacker, one of two best men at Presley's Las Vegas wedding in 1967, said in an unpublished book that the singer had a problem with diet pills but did not use hard drugs.

"I can categorically state that Elvis did not have a drug problem if it's defined as someone using marijuana, LSD, heroin, cocaine or something of that nature," Lacker said in his 80,000 word manuscript.
"He did have a drug problem — and it began with the diet pills. Diet pills, which were prescribed, allowed us to stay up and work for long hours. To counteract the diet pills, we began taking sleeping

pills or tranquilizers."

Lacker said Wednesday night from his Memphis Lacker said Wednesday night from his Memphis home that excerpts from the manuscript will be published in the May issue of Ladies' Home Journal. He has titled the 18-chapter book, "Elvis: Portrait Of A Friend." He said his New York agent is negotiating with publishers.

Lacker, who worked for Presley several years, said the singer met with Nixon in the White House in 1970, but his offer to work as an undercover

narcotics agent went unanswered.

Bistinctively Christian Education"

"Serving people is what it's all about," said Marlin Johnston of the Texas Department of Human Resources as he spoke at the dedication of TDHR's West Texas Training Center Wednesday morning.

The agency serves some 700,000 needy Texans every year, he said, and has a budget of \$1.2 billion. Seventy percent of that comes from the federal government, the rest from the state, Johnston told The Reporter-Telegram in an interview prior to the dedication.

Among its services, TDHR provides financial aid to needy families with dependent children, and administers the food stamp and Medicaid programs in Texas, Johnston said.

The new 10,388 sq. ft. structure, which adjoins TDHR offices at 2301 N. Big Spring St., serves as a comprehensive training center for TDHR staff in Midland, Odessa, El Paso,

2. Solidly Christian Curriculum & Environment

Lubbock, Amarillo, Abilene, Wichita Falls and San Angelo.

Midland was selected as the site for the training facility because of its central location and accessibility to these major cities.

Johnston, associate commissioner for administration in TDHR, was substituting for Commissioner Jerome Chapman, who had to be in Washington Wednesday.

Johnston said the typical entrant into TDHR employment was a young woman of 26, just out of college, and from a middle-class family. She knows nothing of such things as poverty and abused children.

We teach her how these things come about and how to overcome them," he said.

One of the purposes of the new building, he said, is the continuing education of staff at every level, including management.

Without that continuing education, he said, the agency would be faced with an unacceptably high level of staff turnover.

The new facility has five classrooms, a library, two study rooms, and office space for a librarian and seven personnel trainers.

Offices to observe holiday

Friday is San Jacinto Day in Texas and all state offices will be observing the holiday by closing. This includes states offices located in Midland. City, county and federal offices,

schools and banks will remain open. The holiday observes the day Texas forces attacked Santa Anna's troops from Mexico at San Jacinto and won. The battle led to the independence of Texas and its annexation later to the United States.

Leaders of Panama's four political parties say the canal treaties are unacceptable and demand that Gen. Omar Torrijos submit the pacts to a new referendum.

They spoke out a day after Torrijos said he planned to allow them to resume an active role for the first time in 10 years and let political exiles return "without any strings or condi-

PANAMA CITY, Panama (AP) -

Torrijos, the head of government, based his pledges on what he saw as new national unity behind the canal

Only a few hundred students demonstrated against the pacts before the Senate approved the second one Tuesday, and there has been no public opposition to Torrijos or support for the oligarchy he overthrew in 1968.

But representatives of the Independent Democratic Movement, the Panamanista Party, Liberal Party and Christian Democrats gathered publicly for the first time in nine years Wednesday and called for a new canal

They said a reservation to the treaty guaranteeing the canal's neutrality was the main issue because it "leaves the door open for U.S. intervention in the internal affairs of Panama."

They also said they wanted more guarantees for political exiles before

Kissinger denies getting early 'Koreagate' tip

WASHINGTON (AP) House investigators say J. Edgar Hoover's 1971 warning of possible South Korean payments to congressmen got only as far as Henry A. Kissinger's office. Kissinger denies ever getting the

Kissinger, who was former President Richard M. Nixon's security affairs adviser in 1971, was set to testify today before a House international relations subcommittee about the Hoover message.

The subcommittee also wants to learn what Kisy did find out about South Korean lobbying efforts. Kissinger says that happen in 1975.

closed last month that the South Korean presithe late FBI director dent's aides were directwarned Kissinger and former Attorney General John N. Mitchell that millionaire rice dealer Tongsun Park and aides to South Korean Presi-

dent Park Chung Hee were making political payments in Congress. A summary of the Nov.

The investigators dis- intelligence had learned ly involved in a contribution "of several hundred thousand dollars to the Democratic Party."

It also said Tongsun Park was making payments to at least one congressman and was acting under the South Korean Central Intelligence Agency's direction.

they return home. Arnulfo Arias, the president Torrijos overthrew, lives in Miami, Fla. and has not decided yet whether to return.

New canal vote demanded

Panamanian voters approved the original versions of the canal treaties by a 2-1 margin in an Oct. 23 plebi-

The U.S. Senate approved the sec-

ond pact Tuesday and Torrijos told his nation shortly afterward it was acceptable and that no new plebiscite would be held.

The first treaty guarantees neutrality of the Canal Zone and the second turns the canal over to Panama by the

Mrs. J. H. Gill

SAN ANTONIO -- Mrs. J. H. Gill, 87, sister of V. G. Stolte of Midland, died Wednesday in a San Anothio nursing home following a lengthy illness.
Services will be at 10 a.m. Friday in

Alamo Funeral Home here with burial in a San Antonio cemetery. Mrs. Gill was born in Waco. She had been a resident of San Antonio

since 1925. Other survivors include a son, two sisters and four grandchildren.

Michael D. Payte

ODESSA - Services for Michael Daniel Payte, 33, were held Wednesday in Crescent Park Baptist Church. Burial was in Sunset Memorial Gardens directed by Easterling Funeral Home.

Payte died Sunday in Post of natural causes.

He was born May 9, 1944, in Hugo, He served in the Marine Okla. Corps. He moveto Odessa in 1957. He married Janie Coleman Nov. 26, 1968. in Odessa. He had been a physical education teacher at Permian High School here since 1974.

Survivors include his wife; two sons, Rickey Payte and Danny Payte, both of the home; a daughter, Tanya Payte of the home; his mother, Jamie Payte of Odessa; his grandmother, Annie Randolph of Broken Bow, Okla.; a brother, Wendel Payte of Big Spring, and three sisters, Candy Rehders of Odessa, and Louise Grisham and Joyce Wheeless, both of Claremore, Okla.

Bennie Smith

ANDREWS - Bennie Creel Smith. 57. died Wednesday in an Andrews hospital following a lengthy illness. Services will be at 4 p.m. Friday in Hubbard-Kelly Funeral Home in Odessa with burial in Sunset Memori-

al Gardens. Smith was born March 4, 1921, in Goldsboro. He married Faye Griffin Jan. 10, 1942, in Crane. He is a World War II veteran. He was a member of the Masonic Lodge in Goldsboro, the Baptist Church, an honorary member in the Goldsboro Order of the Eastern Star and a lifetime member of the St. Johannis Masonic Lodge No. 330 in Emden, West Germany.

Smith was a 27-year-resident of the Permian Basin. In 1968 he was transferred to England as superintendent of Phillips Petroleum Co.'s Bacton Plant. In 1973 he was transferred to Emden as operation manager of the Phillips plant. Due to ill health, Smith was transferred to Andrews in 1976.

Survivors include his wife; two sons, Bennie C. Smith Jr. of Houston and James B. Smith of Arlington; his mother, Ethel N. Smith of Novice; three brothers, Harley A. Smith of Snyder, Weldon R. Smith of McCamey and Bill W. Smith of Lewisville, and a sister, Leone Atchley of Pampa.

Jim Carter

BIG SPRING — Jim Carter, 68, died early Wednesday in a Big Spring

Services will be at 10 a.m. Friday in Nalley-Pickle Funeral Home. Burial will be in Trinity Memorial Park with military graveside rites.

He was born Nov. 14, 1909, in Lampasas and came to Big Spring in 1963. He retired from the military in July, 1959, and worked in civil service at Webb Air Force Base until his retirement in 1974. He was married to Blanche Casady Sept.28, 1949, in Abilene. He was a Baptist.

Survivors include his wife; one son.

Jimmy Carter of Big Spring; one daughter, Cathy Carter of Big Spring; two brothers, Taylor Carter of Pascu-Ja, Miss., and Frank Carter of View: and two sisters, Mrs. O. L. Bundick of Littlefield and Mrs. Albert Riley of Jourdanton.

Mrs. W. M. Fatout

ODESSA-Services for Willie Mae Fatout, 33, of this city were held Tuesday in Bethany Christian Church with burial in Andrews Cemetery. Hubbard-Kelly Funeral Home directed the services.

DETROIT (AP) - An investigation into alleged cheating in emissions tests at the Buick plant in Flint will be resumed shortly under an agreement between General Motors and the Environmental Protection Agency.

SE

The agreement, approved Thursday by a U.S. district judge. stipulates that the government must give the automaker at least 21 days' notice before it sends investigators to check cars taken from the assembly lines. The dispute stemmed from an anonymous letter written to the EPA charging that Buick employees changed emissions control gear on cars selected for testing.

YOUTH AND EXPERIENCE both are found among Midland's 1,500 draftsmen. W. G. Ray.

59, and Patti Campbell, 27, pool their knowledge at Atlantic Richfield. Draftsmen in

Service prepares info for newlyweds

Cooking, shopping hints for two

COLLEGE STATION-Shopping and cooking for two can create tasty, thrifty and nutritious meals when newlyweds use imagination and planning, says Mrs. Gwendolyne Clyatt. In planning, keep menus simple. Focus on quality and nutritional balance.

For example, don't leave out roasts, fresh fruits or vegetables because of leftover problems. Make plans for everything, and nothing will go to waste, says the consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

RECIPE CUTTING KEEPS PLAN VERSATILE Most recipes can be cut in half or thirds, so almost all are available to planner of menus for two, and that keeps any plan versatile.

If ingredients don't divide easily, use your best judgement to decide the correct amount-and don't worry. Few recipes are ruined by just a little more or less of most ingredients.

FRUIT-VEGETABLE BUYING

In buying canned fruits and vegetables, avoid small cans. Large ones are far more economical—with a plan.

For example, buy a large can of green beans. Butter and serve them as a hot vegetable on Monday. Marinate the rest in a bottle of Italianstyle dressing. Refrigerate them, and serve them as a salad on Wednesday.

Buy a large can of fruit. Serve part of it with cookies for dessert one night. Later in the week. serve the rest sprinkled with cinnamon and cloves as a meat accompaniment.

Also fruit-flavored gelatin can turn leftover fruits or vegetables into a special menu item.

For expample, fold fruit into half the mixture and create a dessert. Use odds and ends of fresh leftover vegetables in the other half to make a

For added economy, read labels to learn quality, size and weight. Fancy grades are not necessary to stews, soups, fruit puddings or pies. for instance. Lower grades offer the same nutrition and often just-as-good-flavor for less money.

In buying fresh produce buy seasonal items when they are most plentiful. They usually cost less, and their quality is usually better at that

FREEZER KEEPS MEAT PLAN FLEXIBLE

Divide uncooked ground beef into meal-size portions and freeze. Cook a roast and freeze the leftover portion for a curried dish, casserole or sandwiches

Also, most meat casseroles freeze successfully, so make the full recipes of favorites, and freeze the leftover portions. Do the same with spaghetti sauce and stew.

> TODAY'S SPECIAL PACKAGING. PROCESSING ADDS CONVENIENCE

Nonfat dried milk keeps indefinitely on the pantry shelf, and it offers a constant supply of milk in just the amounts needed. Other dried food products, such as soup mixes, hamburger. mixes and potato flakes, do the same.

Variety packages of cereal allow a larger selection without sacrificing freshness, but these generally cost more than other cereal products. Also, canned hams of two pounds or less have a long shelf life, but once they are opened, plan to use the leftovers within a few days.

How to choose flatware

COLLEGE STATION-Both partners should make the choice of flatware when marriage plans are in the making, says a family resource management specialist.

Following several steps will mean a satisfying choice for both, according to Mrs. Linda McCor-

She suggests, first, identify individual needs by considering lifestyle. Examine possible alternatives and study each

Consider money available to spend for flat-

ware and other tableware perhaps already chosen. Then make a choice using the guidelines below on type and pattern. Mrs. McCormack is with the Texas

Agricultural Extension Service, The Texas A&M University System

GENERAL BUYING GUIDELINES No matter what type of flatware a couple

chooses, the pattern will probably "catch their

Pattern is simply a matter of personal taste. Once a pattern seems like a possible choice. ask these questions:

-Does it feel comfortable to hold? Pick up several pieces to get the feel of the weight, size, and balance of each piece. Some pieces are so narrow, they cut into the finger.

-Are the edges smooth and even? Is the design free of imperfection? -What serving pieces are available? Different

manufacturers incude different serving pieces. Be sure the serving pieces fit your needs. Is the pattern open stock?

This mean that the patterns will be available indefinitely, since the manufacturers retain the original dies from all their patterns and then make old patterns available periodically. -For dishwasher cleaning, is the pattern

The base of pieces should be broad enough to keep from falling through the cutlery basket and interfering with dishwasher operations.

-Does the effect of the total place setting enhance the dinnerware and glassware it will ap-

WHAT TO LOOK FOR IN DIFFERENT TYPES Once a pattern answers "yes" to all the above questions, it needs a careful study to ensure quality, that will last a lifetime.

Different factors mean quality for different ypes, which include stainless steel, sterling, silverplate, gold electroplate and bronzeware. Below are some quality factors for each.

STAINLESS STEEL

-Look for stainless steel called 18-8. It contains 18 percent Chromium, eight percent nickel—a good grade of stainless.

-Balance of the knives is important. A solidhandled knife may be so heavy that it cannot be balanced on a plate. Consider the hollow-handled type if you prefer a large handle.

-Be sure it does not tarnish when used with foods that contain sulphur, such as eggs and

Remember, choices include a bright polished finish, a dull satin finish or a combination of

STERLING -The word "Sterling" stamped on the back of

a piece is assurance that it meets the government standard for solid silver. -Sterling II is a name given to flatware that

has sterling handles, but stainless fork tines, spoon bowls, and knife blades. Since it is combination of two metals, each

must be cared for differently. Ask about care. -Look for H.H. (hollow handle) knives. -Real sterling will last a lifetime, and will

never need replacing. -Temporary discoloration caused by eggs. mayonnaise and salt can be removed with silver

SILVERPLATE

—The quality depends on how the base metal (inside) is finished before it is plated (coated). the amount of silver in the plating and how well the plating is reinforced.

-The amount of silver used in plating varies from "A-1 plate"—which is standard, measure—to "Quad-plate" which is the best quality and will last a lifetime with normal use.

-Better quality silver plate has extra silver at the points of greatest wear—the bottom of the spoon bowls and fork tines and perhaps the tips of the handles.

GOLD ELECTROPLATE

-The more gold that is added the better the grade. It is dishwasher safe, and does not require polishing and will not tarnish.

BRONZEWARE

-It is an alloy made chiefly of copper and tin. a brown, yellowish-red-yellow in color.

—It may be treated with a tarnish retardant finish, otherwise it will tarnish

-The handles may be made of rosewood or bone, which require special care, and usually cannot be put in the dishwasher.

Eating from Food Groups ensures healthy life

COLLEGE STATION - Eating habits based on variety and the Four Food Groups ensure newly weds a healthy start that will last throughout life, says a foods and nutrition specialist.

'Newlyweds alone now are responsible for the household food supply. Menus they plan and food choices they make will influence the way they look, feel and work or play," says Mrs. Mary K. Sweeten. 'Choosing a good variety of foods in appropriate amounts will more likely mean a more desirable

level of health and energy," she adds. Mrs. Sweeten is with the Texas Agricultural Extension Service, The Texas A&M University System. According to Mrs. Sweeten, the Four Food Groups are these: Milk, fruits-vegetables, breads-cereals-

Daily Milk Needs Many Americans are shorting themselves on milk and its products, such as cheese, ice cream, butnutrient calcium, most adults need two or more servings of milk daily, she explains. Whole milk, buttermilk or flavored milk-or other

milk products—will supply needed calcium. For calorie cutters, skim milk or buttermilk is recommended.

Daily Fruit-Vegetable Needs Skipping fruits and vegetables results in lowerthan-normal amounts of Vitamins A and C-two other important nutrients, the specialist says.

Everyday include four or more servings of fruits and vegetables. Of these servings, make sure at least one is a serving of a Vitamin C item, such as citrus, cabbage,

tomatoes or green peppers. Also make sure one is a Vitamin A source, such as dark leafy greens or deep yellow vegetables.

For weight watching leave out extra sugar and

sauces also add calories.

Four or more bread-cereal foods are needed each day to give adults needed B vitamins, iron and carbohydrates. Servings should include enriched or whole wheat

Daily Bread-Cereal Needs

Daily Meat Needs Two servings of meat are needed each day. A

serving's size 1/2-3 ounces. Meat provides protein, iron and fat. For calorie counters, roast, bake, broil or boil meats, and trim off all fat before cooking.

Coping with conflicts in marriage COLLEGE STATION-One key to keeping the "newlywed feeling" is the ability to recognize and handle conflict, bad feelings, or guilt, says Dorothy Taylor, a family life education

"Even when there are differences, open conflict does not have to result, if couples try to really listen, try to reason and then give each other the benefit of a doubt when decoding messages they think they heard," she says.

'Couples must realize that each partner brings to the marriage a different set of complicated communication codes, hopes and two individual personalities," she explains. The specialist is with the Texas Agricultural

Extension Service, The Texas A&M System. Exchanges between new couples carry both information and feelings, she continues. "Newlyweds may feel guilty when they ex-perience feelings of both love and hate so early in a marriage and fail to recognize these as normal feelings for all human beings.

"Newlyweds need not lose feelings of deep love even if hate is present at times. No one loves totally, and couples naturally will feel good and bad about each other at different times," Miss

Even in the best marriages there will be con-

flict, the specialist stresses. "No matter how hard couples try, communica-

tion sometimes fails. 'Major causes of conflict are money, household management, personality differences, personal goals and sexual adjustments.

Recognizing the cause of a conflict as the real "villian," rather than making each other the villian will help keep communication lines open and lead to more mutually satisfying solutions, the specialist says.

Attacking the issue and not the person will help avoid such situations as open conflict. A conflict may start over who carries out the garbage and end up with, "If you loved me, I wouldn't have to ask you to help me," she explains.

There is merit in the sayings, "Kiss and make up," "Never go to sleep on a fight," and "Don't let the sun set on your anger," the specialist

"All three sayings indicate that couples do want help, that they want to face the real solution and that they do not want hostile feelings to prevail over their marriage relationship," she

Home furnishing plan outlined

Plan wardrobes for future

COLLEGE STATION-A newlyweds homefurnishing plan should have ample "room" for each partner's ideas and for new and old pieces of furniture, advises a housing and home furnishings specialist. When couples focus on comfort, convenience,

attractive decorating and wise spending, their home-furnishing plans are the most effective, says Mrs. Sue Young with the Texas Agricultural Extension Service, The Texas A&M University Their plan should include two parts-ways to

use furniture they already own and ideas for ac-quiring new pieces—so all furnishings will serve the couple to best advantage for the money spent, she adds.

In deciding how to use existing furniture, remember that the careful use of color is the most economical decorating tool. Quality older pieces of furniture or "hand-medowns" will merit the time and effort it takes to

refinish them. A coat or two of paint will make other older pieces usable quickly and easily. In planning for new pieces of furniture, remember each one should have enought personality and style to help accomplish the desired look, and each should blend with pieces already

In deciding on new furniture, couples can choose from faddish or "fun" pieces, better-quality contemporaryor traditional items or an-

A list of possibilities will help in the decision. It can point to a final plan for buying several pieces of faddish furniture or fewer pieces of better

quality, the specialist says.

Faddish or "fun" furniture—such as those with the "Egyptian" look—probably will be out of style in a short period of time, while quality items will remain in style and blend with other new peices throughout the years.

In considering contemporary furnishings, remember that many are made for houses and

apartments being built now.

These pieces add a spacious feeling to a room, and some actually allow for more living space, since they are smaller and lighter in weight. They offer portability without loss of strength,

Mrs. Young says.

Traditional furniture, on the other hand, can be accurate copies of real antiques or carefully scaled-down versions of antiques. This furniture will continue to be a favorite with lasting value. the specialist says.

For couples who like antiques, buying authentic ones has two advantages. They offer a way to furnish a home, and they are a financial invest-

Regardless of the choices, also remember that each piece should be easy-care and versatile enough to blend with several architectural styles, textures and colors, so they can move with today's mobile families, Mrs. Young adds.

Notify these if changing name

COLLEGE STATION-Although some women are choosing to keep their own name after marriage, the great majority are following tradition and adopting their husband's name.

If you decide to change your name, remember to notify those listed below, recommends Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System. -Employer. Notify employers a month in ad-

-Driver's license. Have the name changed on this within 10 days at a cost of one dollar. To find the office look in the Yellow Pages under Government-State for Department of Public

ing a note on the monthly statement for each one, or write a letter to each. -Charge accounts. Contact all stores with

-Credit cards. Contact all companies by mak-

whom you have credit accounts.

-Bank. Sign a new signature card for each savings and checking account.

Social security. Call the social security administration and ask them to send a form for change of name. To find the number of the nearest office look in the Yellow Pages under Government-U.S. Health, Education and Welfare Department-Social Security Ad-

-Voter registration certificate. Call or visit the office of the Tax-Assessor-Collector. -Doctor and dentist.

-Insurance company. Policies should be written in the new name. You may also want to change the benefactor. -Organizations you belong to. Wills and legal contracts. Be sure the new

name appears in your will and those in which you are mentioned.

Surprise is expressed by Ann Graham, when presented a birthday cake by residents of Leisure Lodge. Mrs. Graham has been the Bible instructor for weekly sessions at the home since 1964. (Staff Photo)

Bible teacher honored

Residents of Leisure Lodge Nursing Home honored their weekly Bible study teacher. Ann Graham, with a surprise birthday party recently in the home. Sixty guests were in atten-

Mrs. Graham, who has been the "permanent" Bible instructor since 1964, is a longtime member of the Alathean Class of the First Baptist Church.When the home opened as Parkview Nursing Home, the class selected it as a mission project, providing entertainment and devotional periods each week. The late Mrs. J. E. "Bob" Hill provided the leadership for the project, Mrs. Graham said.

The group made weekly visits to

entertain, present Bible studies and

serve refreshments.

Residents of the home always enjoy singing, Mrs. Graham stated, and this posed a problem in the beginning because of the lack of a piano or any musical instrument. Mrs. Graham said Mrs. Hill enlisted the aid of the Alathean Class, a class at the First United Methodist Church and other groups and individuals, and a piano was obtained. Mrs. Yates Brown has been playing the piano accompaniment for the singing sessions since that time.

When the sponsoring class decided to provide a continuity to the Bible studies, the First Baptist Church provided residents with religious quarterlies and large print Bibles.

Asparagus supply up, prices drop

By BETSY BALSLEY The Los Angeles Times

One of the most looked-forward-to seasons of the year is here. At long last asparagus has begun to drop in price a smidgin as supplies increase. Granted it still isn't cheap, but then not much is in the food field these days. About all one can do is wince a bit and then go on and pay the price or virtuously pass it

Things are looking up at the moment, however, for the Fresh Produce Council says that asparagus prices and quality "should remain constant or even improve" in the next week or so. California's shipping districts of Lodi and Stockton should begin harvesting their asparagus crops this week, weather permitting, so the next couple of weeks should show some improvement in the price of this wonderful spring vegetable.

with just a bit of butter and maybe a squirt or two of lemon juice. But even the most devoted asparagus lover likes a change now and then. And that's just what we have to offer today.

Asparagus has a wonderful affinity for cheese. Combine it with fresh mushroom caps, cover the two with a mustard and sherry-laced sauce, then top the whole thing with some shredded cheese and slivered almonds for a side dish that will complement any plain cut of meat. Or, if calories are absolutely of no concern, combine asparagus with artichoke hearts in a simple casserole that calls for the two vegetables to be baked in a creamy Swiss cheese sauce. Don't plan on any leftovers here.

If you'd like a good meatless main dish that features asparagus. Pasta With Asparagus-Tomato Sauce is your answer.

Although the recipe calls for penne, a long tubular pasta, almost any type of large macaroni can be used. This is a good recipe for asparagus that may not be perfect in size and shape as it is cut into short pieces before cooking. Decidedly Italian in its flavorings, the recipe calls for plenty of garlic and tomatoes as seasonings. But probably its greatest attribute is that it goes together in a jiffy. Serve it with a green salad and some fresh fruit, plus a bottle of good red Italian wine, and no one will leave the table

Served cold in salads or hot in side dishes, fresh asparagus deserves to appear frequently on dining tables during the season which, unfortunately, is always too brief. Here is a suggestion that will help you vary your use of this spring treat.

CHEESE-ASPARAGUS SOUFFLE

2 envelopes unflavored gelatin 1 cup chicken broth

8 eggs, separated

2 cups milk 2 cups shredded Gruyere or Swiss cheese

1 teaspoon Worcestershire sauce

1 teaspoon salt Dash hot pepper sauce

2 tablespoons minced onion 2 cups whipping cream, whipped

3 cups drained cooked asparagus pieces

12 drained cooked asparagus spears Soften gelatin in broth in top of double boiler. Add egg yolks,

milk, cheese. Worchestershire, salt and pepper sauce. Place over boiling water and cook, stirring constantly, until gelatin and cheese are melted and sauce is smooth. Remove from heat and chill, stirring now and then /until mixture mounds on a spoon. Beat egg whites until stiff but not dry. Fold into gelatin mixture along with onion and whipped cream. Add asparagus pieces and fold in lightly.

Meanwhile, grease a 2 1-2 quart souffle dish and fold a strip of wax paper long enough to go around outside of dish. Tie strip around dish so it extends 2 or 3 inches above top. Stand asparagus spears upright around inside of souffle dish and spoon souffle mixture into dish. Chill until firm. Just before serving. remove collar. Makes 8 to 12 servings.

6 tablespoons butter or margarine

1/2 teaspoon salt

EGGS ASPARAGUS

1/4 cup flour

12 sliced, hard-cooked eggs, or 12 poached eggs

By VIVIAN BROWN AP Newsfeatures

An old bathroom, especially a nice roomy one, may become a fun decorating project that includes boxing and tiling the bathtub.

Even a small room can be beautiful. In one instance, a well-known interior designer had two walls glass-paneled from tub to ceiling, and had the tub boxed in with white tile. It was a lovely effect and made the room look much larger.

If you build a strong frame you can have a successful project, says "The Complete Home Carpenter," edited by George Daniels.

The frame should be strong enough to resist warping in a steamy atmosphere. It must be properly fastened to all of the surfaces it touches so that it will be able to withstand knocks from mops or other floor cleaning equipment. The outer surface should be watertight with the pipework under the tub accessible for maintenance, the book recommends.

This excellent book has complete directions for building the tub enclosure. Other projects it offers room dividers, an English-style flat roof, Dutch doors, and even garden fences.

durable surfaces if one plans to tile, paint or completing his project.

laminate the surface of the enclosure. Before you buy anything, the space into which each frame should fit must be measured at several points where the floor might not be even and "the walls slightly out of true," as usually happens in an old house, the book advises.

After measuring, using plumb lines and following directions to the letter, scale drawings are made and the quantity of wood and other materials is determined. A reasonable amount must be allowed for

waste as tiles might break when you try to cut them. An old-fashioned bathtub with round corners can be put into a square box by bridging the gap at the

corners with a double round-edged corner tile. The author feels that the frames are simple to make even though the directions may seem complicated.

An experienced do-it-yourselfer may make his enclosure something special. He might put a wide border of tiles around the top of the tub, an effect that was observed in a newly decorated apartment. The bathroom must be fairly large if the tub size is ininclude a storage box on wheels, built-in alcoves, creased. For that kind of project a good tile man might be needed to do the project. A do-it-yourselfer who knows his own limitations can be an accurate One-half-inch exterior plywood is preferable to less judge of how much outside help he will need in

Permian Basin areas gain seven wildcats

Seven wildcat operations have been announced for counties in the Permian Basin of West Texas and Southeast New Mexico.

Bass Enterprises Procuction Co. of Midland spotted location for a 9,800foot wildcat in Glasscock County, eight miles southeast of Garden City. It is No. 1 Bass-Currie.

The location is 1,980 feet from north and east lines of section 28, block 32, T-4-S, T&P surveyl and 1% miles east of the Apple Creek (Wolfcamp) field.

Beekman Enterprises, Inc. of Midland No. 1 Robinson and others will be drilled as a 5,000-foot wildcat in Loving County, 12 miles northeast of

The test site is one location north of a 4,666-foot dry hole and 1,980 feet from south and east lines of section 5, block 56, T-1, T&P survey.

CROSBY WILDCAT

Delton Caddell of Ralls spotted location for a 4.950-foot Clear Fork wildcat in Crosby County, four miles south of Caprock. It is 3.5 miles southeast of production in the Ridge, South

Drillsite is 467 feet from north and west lines of section 1150, K. Aycock survey, Abstract 497. It will be drilled as No. 1 Phil.

The same operator also staked location for a project one location east of a well in the Ridge, South (Clear

Fork) pool. It is No. 1 Anna Belle, 467 feet from north and west lines of section 5, K. Aycock survey, Abstract 432, three miles southwest of Caprock. It is to drill to 4,300 feet.

EDDY WILDCAT

Anadarko Production Co. of Eunice, N. M., will dig its No. 1 Power-Federal Communitized as an 11,550foot wildcat in Eddy County, N. M., 11 miles southwest of Maljamar.

The location is 2,200 feet from north and 1,650 feet from east lines of section 26-17s-30e. It is 3% miles east of the Loco Hills (Morrow) field.

John W. Barbee of Abilene No. 1 Dolph Richards is a 4.100-foot wildcat in Runnels County, 13 miles northeast

The site is % mile west of a 3,951foot dry hole and 2¼ miles northeast of the Ashton (Dog Bend) field.

The location is 2,872 feet from south and 1,400 feet from east lines of SA&M survey No. 7. Ground elevation is 1,792 feet.

RE-ENTRY SET

Ronald R. Perkins of Dallas announced plans to re-enter the former Karl Hoblitzelle No. 4-A S. W. Horton and make tests as a wildcat.

The project is 330 feet from north and east lines of G. D. Cole survey No. 291/2. The elevation is 1,814 feet. The project was drilled to 4,620 feet

by Southern Production Co. and abandoned in 1956. It later was re-entered by Hoblitzelle. The project will be operated by

Perkins as the No. 1-B S. W. Horton.

MCCULLOCH PROJECT

Production Services of San Angelo spotted location for a 1,900-foot wildcat in McCulloch County, 10 miles north of Lohn.

It is No. 1-F Miller, 230 feet from north and 300 feet from east lines of Henry Cox survey No. 1186. It is 1/2 mile southwest of the Lojon (Strawn gas) field.

PECOS RE-ENTRY

MG&H operators announced plans to re-enter a Permian 3800 producer in the Abell multipay area of Pecos County and test for production in the 3200 and 2200 zones.

The project is No. 1 Hodges, 1,980 feet from south and 672 feet from east lines of section 31, block 9, H&GN survey and eight miles east of Imperi-

The well originally swas drilled as No. 1 D. W. Smith. It is 41/4 miles east of 3200 production and 31/2 miles southeast of Permian oil production.

NEW WELLS B&C Operating Co. has announced completion of a pair of wells-in the Abell (Clear Fork) area of Pecos

The operator's No. 1 Boys Ranch, a re-entry project, was finaled for a calculated, absolute open flow potential of 725,000 cubic feet of dry gas per day, through perforations from 2,940 to 3,492 feet after 4,000 gallons of acid and 40,000 gallons of fracture solution. Total depth is 3,950 feet and plugged back depth is 3,450 feet. Four and one-half-inch casing is set at 3,950

The location is 31/2 miles east of other Clear Fork gas production in the same zone and 1,500 feet from south and 330 feet from west lines of section 32, block 9, H&GN survey.

SECOND WELL

B&C No. 2 Boys Ranch, one location east of Abell (Clear Fork gas) production, finaled for a calculated, absolute open flow potential of 950,000 cubic feet of dry gas per day, through perforations from 3,043 to 3,479 feet. The pay was acidized with 1,100 gallons and fractured with 38,000 gallons.

Location is 660 feet from south and 683 feet from east lines of section 32, block 9, H&TC survey.

Lario Oil & Gas Co. No. 3 J. B. Tubb is a new well in the Sand Hills (McKnight) field of Crane County, 15 miles northwest of Crane.

Operator reported a calculated, absolute open flow potential of 4.6 million cubic feet of gas per day. The gas-liquid ratio was 20,950-1.

Production is through perforations from 2,922 to 3,099 feet. The pay was acidized with 2,000 gallons and frac-

tured with 30,000 gallons. A re-entry project, it is 660 feet from south and east lines of section 5,

block 32, psl survey. SUTTON EXTENDER

Amoco Production Co. No. 3-D Edwin S. Mayer Jr., a Canyon gas producer, has been recompleted to extend the Whitehead (Strawn) gas field of Sutton County2 % miles north-

The operatior reported a calculated, absolute open flow potential of 1,225,000 cubic feet of gas per day, through perforations from 7,708 to with 75,000 gallons.

Location is 1,145 feet from north and 1,199 feet from east lines of McMullen County School Land survey No. 4 and 15 miles northwest of Son-

Operator has requested permission from the Railroad Commission of Texas to comingle the two zones.

BORDEN TEST

Cobra Oil & Gas Corp. of Wichita Falls will drill No. 2 B. J. Belew 1,650 feet northeast of the Wolfcamp discovery of the Myrtle, North field of Borden Counth, 15 miles northeast of Gail. There is one Wolfcamp well in

The new project will be drilled 2,200 feet from the south and 660 feet from the west lines of section 480, block 97, H&TC survey.

SCURRY TEST

T. F. Hodge of Midland will re-enter his No. 2 N. G. Landrum in Scurry County and attempt completion in the Varel, North (San Andres) field. A former Glorieta well, it is 1,484 feet from north and 2,006 feet from east lines of section 487, block 97, H&TC survey and three miles east of Fluvanna.

Tests will be made at an unreported depth. The well originally produced at 2,731 feet.

Stepout slated

Depco, Inc., of Midland No. 1 O'Brien will be drilled as a 9,400-foot Strawn project in Chaves County, 12

miles southeast of Elkins. It is 3/4 mile southeast of the Many Gates (Strawn gas) field and 660 feet from north and 1,980 feet from west lines of section 13-9s-29e.

Beard Oil Co. of Oklahoma City, Okla., has announced the completion of an Atoka gas discovery in Eddy County, N. M., 11 miles west of Arte-

Discovery

announced

The strike was finaled for a calculated, absolute open flow potential of 1,424,000 cubic feet of gas per day, with shut in wellhead pressure of 1,590 pounds. The completion was through perforations from 7,022 to 7,034 feet. Total depth is 7,200 feet and 41/2-inch

plugged back depth is 7,112 feet. Electric log tops include Glorieta at 1,670 feet; Tubb at 2,990 feet; Abo at 3,640 feet; Wolfcamp at 4,630 feet; Cisco at 5,730 feet; Strawn at 6,769 feet; Atoka at 6,870 feet, and the

Mississippian at 7,150 feet. Elevation

casing is cemented at 7,160 feet. The

at ground level is 3,808 feet. The wellsite is 21/4 miles northeast of the High Hope (Abo gas) field and six miles northwest of an unnamed Atoka-Canyon gas discovery. Location is 1,983 feet from south and 1,992 feet from west lines of section 8-17s-

CHAVES WILDCAT

Supron Energy Cop. of Dallas No. 1-1 Conoco-Federal will be drilled as a 6,600-foot wildcat in Chaves County. 17 miles east of Roswell. Operator will test the formations through the Ellen-

Drillsite is 1,980 feet from south and 990 feet from west lines of section 8-11s-27e.

EDDY TESTER

Perry R. Bass of Midland announced site for a 13,350-foot Morrow wildcat in Eddy County, N. M., 15 miles northeast of Carlsbad. The explorer is No. 61 Big Eddy Unit.

The location is 1,980 feet from south and west lines of section 15-21s-29e. It is 2½ miles north of the Quahada Ridge (Morrow) field and 2½ miles southeast of the Golden Lane (Morrow) field.

OFFSET TRY

Plains Radio Broadcasting Co. No. 4-A-9 L. E. Ranch is a new field area test in Chaves County. Scheduled for a 2,250-foot bottom, it

is one location north of production in the Chisum, East (San Andres) field and 24 miles east of Roswell.

The location is 1,650 feet from south and east lines of section 9-11s-28e.

DELAWARE TESTS

J. M. Huber Corp. of Midland an-nounced locations for three projects n the Yarrow (Delaware) field of Eddy County. Each of the projects will be drilled to 3,600 feet.

No. 2-A Featherstone-McCoy will be drilled 3/4 mile northeast of production and 990 feet from north and east lines of section 22-23s-26e.

No. 1-D McCord is 660 feet from north and west lines of section 23-23s-26e and 11/4 miles northeast of pro-

No. 6-M Terra-State is 990 feet from south and 660 feet from west lines of section 14-23s-26e and 11/2 miles northeast of production.

Yeso well completes

Yates Petroleum Corp. of Roswell, N. M., has completed its No. 1 J.A. Wright in the Penasco Draw (Yeso) field of Eddy County, N.M.

The well finaled for a pumping po-tential of 18 barrels of 37.6-gravity oil and 153 barrels of water. through perforations from 2,855 to 3,037 feet, on a 24-hour test.

The pay was acidized with 2,000 gallons and fractured with 60,000 gallons and 95,000 pounds sand. The well, a re-entry project, was

orginally drilled by Magnolia Petroleum Co. as a dry hole.

Total depth is 4,199 feet and plugged back depth is 3,100 feet. Gas-oil ratio is 1,722-1. Location is 1,980 feet from north line

and 660 feet from west lines of section

34-18s-26e and 1/2 mile southeast of

Bone Spring discovery finals

Year-old Carter plan still mired in talks

WASHINGTON - It was a year ago Thursday that Jimmy Carter sent his energy plan to Congress. "The moral

equivalent of war," he called it. The president proposed the enactment of new taxes and other devices to drive up the price of oil and natural gas and discourage their consump-

The objectives were diplomatic as well as economic: to reverse the country's increasing and costly dependency on Arab and other foreign oil. Carter said the program was a test of both the national will and his own administration's effectiveness.

Today, however, the energy legislation remains in a House-Senate conference committee, where it has been stuck since Thanksgiving.

The president says the country should feel shame at this. His critics feel relief.

There are a number of reasons - or rationalizations - for the failure of

One is glut. Partly thanks to Alas-kan oil which started flowing into the lower 48 states last year, partly for other reasons, the energy problem in the United States right now is surfeit rather than shortage. The Depart-ment of Energy has had to consider a plan to export U.S. oil to Japan. The Texas Railroad Commission has quietly acted to restrict production of natural gas, to keep prices from falling. The experts say it is only temporary, but it is hard to persuade. people of the need for national sacri-

fice in times like these. In the upside-down world of energy, where good things are bad for us and vice versa, this basic problem of glut has been compounded by the problem of peace. We are learning to live with OPEC, the Organization of Petroleum **Exporting Countries whose membrs** now supply us with nearly half our daily oil. For various reasons the Saudis and other Arab oil producers no longer seem as menacing as they did some years ago, nor do the Israe-lis seem as blameless. Perhaps because of oil, U.S. political perceptions have shifted; so at least say the polls.

Nor do the economic implications of as they once did. The dollars we spend for oil have created unfavorable balances of trade and payments; there is a dollar glut abroad, and the value of the dollar has fallen. Some experts are alarmed at that. For one thing, it has added to inflation; imported goods cost more. But the falling value of the dollar has also added to the attractiveness of U.S. goods in foreign markets; measured in foreign currencies, U.S. goods cost less. So as a nation we may be gaining in produc-tion for export and jobs what we are losing in inflation.

The Carter energy recommendations have also run into problems in domestic terms. His proposals per-haps could help on the inflation front by stabilizing the value of the dollar. In a more direcct sense, however, they would add to inflation. Their basic intent is to increase prices. The

Employees honored

Employees of The El Paso Co. and certain subsidiaries who completed 10 and 15 years ofservice during the year ending April 30 were honored Tuesday at a dinner in the El Paso Country Club. Those honoredfrom the Permian Basin area are:

15 years - D.L. Chambers, M.J. Clark, C.J. Collins, R.W. Hamlett, E. Keedo, L.J. Martin, Mrs. Mabel L. Schlenker, J.D. Tatum, D.G. Todd, Mrs. Betty J. Wills and M.H. Wulle. 10 years - B.O. Bell, J.L. Boman, R.E. Conaway, J.D. Cook, G.D. Cox, J.E. Davis, J.S. Delk, J.A. Ferfuson, H.J. Fleming, R. Heyman, Jr., B.G. Jordan, W.L. Knight, J.L. McFarden, Mrs. Onie D. McNeese, G.?R. Moore, B.W. Mosley and Ms. Patricia A.

Also, K.N. Raney, Mrs. Betty J Russell, B.J. Sageser, R.W. Sprinkles, H.W. Steadman, Mrs. Judy L. Traylor and L.A. Westmoreland. crude oil tax that Carter has proposed would lift the price of that product more than 50 percent at the refinery gate, and he would also relax significantly the present federal price con-

trols on natural gas.

Congress voted for one big tax increase just a few months ago. That was in Social Security taxes, and

members are already having second thoughts. It is hard to ask them to vote for another big tax-price increase now, in an election year and time of plentiful supply.

That is especially true because

there are also doubts about how much good the tax and price increases

H. Steve Harperpromoted

of The Ortloff Corporation to project manager has been announced by Ortloff President W.L. "Bill" Barnes.

Harper joined Ortloff's process engineering group in 1975 as a senior engineer and was later promoted to staff engineer, performing a variety

of project engineering duties.

In his new position he is responsible for managing the execution of engi-neering and construction activities for Ortloff projects. He also is responsible for project liaison and coordina-

Harper received his bachelor's degree in Chemical Engineering from Georgia Tech in 1966. Following graduation Harper was employed 9 years as a process engineer with Standard Oil of California and received his Texas professional engineer's license in 1976. He is a member of the American Institute of Chemical Engineers and Tau Beta Pi.

> STOCKHOLM, Sweden - "Hoa" Dahlgren, the weightlifter, Janne Carlsson, the popular singer, and Per-Olf Edin, a labor economist, have one thing in common: they are among the new fathers taking advantage of one of Sweden's more unusual social

> welfare programs, paternity leave. Sweden's first non-socialist government in 44 years, despite an economic recession and a pledge to reduce swollen public spending, has expanded the pioneering program that gives fathers an equal claim to stay home with their children as the

> mothers have had. In recent weeks, the government has mounted a promotion campaign to get more fathers to take advantage of the role-switching program.

> Billboards and movie shorts featuring Dahlren and Carlsson, both popular personalities, have been used to publicize the idea of "daddys on childbirth leave." But Edin, a 37-year-old economist for the big Metal Workers Union, is more typical of the men who

> support the IEA. 'I think it is a very good reform, good on a personal basis, good for the father, good for the wife, and good for the child." he said during an interview

in his apartment near central Stockholm. "It is also good for my work for I get a better idea of household problems from actual experience - this is the real world. Most men in Sweden are too tied to their work. This gives us a chance to separate ourselves from the job a little bit."

Katharina, now one year old, is the first child for

Edin and his wife, Sonya, an editor. Between them, the Edins took a total of seven months of leave. Then Mrs. Edin left her job to spend more time with the girl.

"We decided to give the baby all our attention for Pearson, 1,650 feet from lines of section 33-7s-31e, her first year. Diapers and shopping are not problems - I've really enjoyed it." Edin said. But despite Sweden's general acceptance of liberal social reforms and deep democratic traditions, many men reject the idea that they should stay home to change diapers and mix formulas while their

wives are working. A lot depends on the mothers job, Soeren Kindlund, chairman of the Family Welfare Commission, said. "It is her position in the labor market that is very important. If it is a good job or one that is especially interesting she wants to get back to it right away. If it is a bad job or boring, the women want to stay home

as long as possible and do not let the men take advantage of the program." The original paternity leave plan went into effect in 1974 and was basically an amendment to a standard maternity leave system. Instead of mothers getting six months leave at 90 percent pay to deliver and care for a baby, the time could be shared with

In 1976, parliament expanded the total leave available to nine months with eight of them at 90 percent of salary and the other month at a minimum of about \$6 a day, effective last Jan. 1.

The reform also enabled parents to save as much s three months of the available time for use at any later time during the child's first eigh years. 'The publicity campaign is connected to the

reforms which went into effect in January." Kindlund said. "We get resistance from some employers who feel the entire program is too complicated." In 1974, under the original program, the commission found that 2.4 percent of the estimated

eligible fathers took part. This figure rose to 5.2 percent in 1975, 7.5 percent in 1976 and went over 10 percent last year. The first year, fathers stayed home an average of

26 days. In 1977, that number had risen to 42 days. Edin said that most fathers he knew who had used the program were professionals, highly educated and young. Kindlund said statistics confirmed that

"These people believe in this social program and believe you should use it," he said. "For the blue collar workers, this concept is new but I think in a few years this will be the normal situation. It is a question of tradition... Many men feel they have such an important job they can't be away from it.
