# Reports of Moro's death called hoaxes

By EDWARD MAGRI

ROME (AP) - A flurry of anonymous telephone calls announcing that former premier Aldo Moro had been executed by his Red Brigades kidnappers was received today by the Italian news agency (ANSA). The agency said all had been proven hoaxes.

The calls were received by ANSA offices in Rome, Turin and Milan. One caller said a communique was left in a trash basket and a "surprise" in the

trunk of a car parked near the Italian television production center near the Vatican. But an ANSA reporter and police officers searched trash receptacles and cars on the street and found nothing unusual.

The calls came in after the government and the ruling Christian Democratic Party on Monday rejected an ultimatum from the Red Brigades to free 13 imprisoned terrorists to save Moro's life.

Last week, a communique attributed to the Brigades claiming the 61-year-old party president had been executed triggered a massive search of a frozen mountain lake northeast of Rome. Officials said that message may have been sent by Moro's kidnappers as a ruse to weaken the government's refusal to negotiate for

Today, crowds of Italians marked the 33rd anniversary of the nation's liberation from fascism by visiting Via Mario Fani, the Rome street where Moro was kidnapped and his five guards slain March 16.

Premier Giulio Andreotti told journalists on arriving for a leadership meeting at Christian Democrat headquarters in downtown Rome that he had "nothing new" to report.

The premier on Monday had reiterated the party's no-deal line after conferring with key cabinet

He declared: "All requests for an exchange with detained persons were and are unacceptable beause they are directed against the freedom of all, against the respect which is due to the

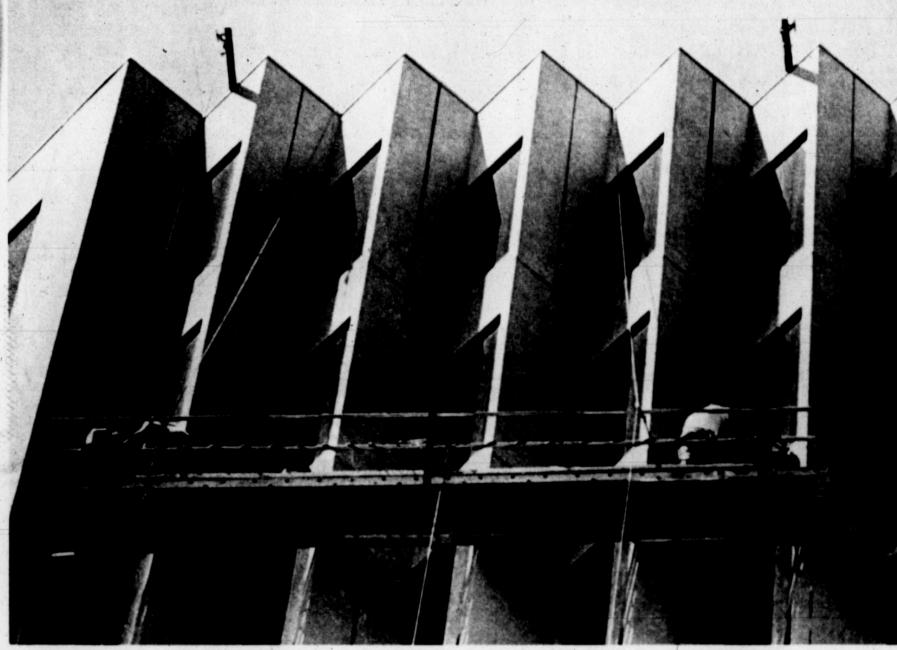

victims of subversion and against the laws of the Republic."

Il Popolo, the Christian Democrats' newspaper, said a handwritten letter found by the newspaper Vita Monday night had been authenticated as Moro's. In it the 61-year-old party president of the Christian Democratic Party and five-time premier who was kidnapped March 16 begged the other leaders of his party to agree to an "exchange of war prisoners (war or guerrilla war, as you prefer), as is done where the war is on, as is done in highly civilized countries...

We are nearly at the zero hour. It is a matter of seconds rather than minutes. We are at massacre time," said the letter.

"With mine goes the cry of my mortally wounded family. For this reason, for an evident incompatibility. I request that no state authority or party official should participate at my

## Did disclosure reveal too much?

WASHINGTON (AP) - U.S. intelligence specialists are concerned that a remark by President Carter's national security adviser may have given the Russians a clue to the ef-

Midland County commissioners

Monday voted to apply for \$500,000 in

U.S. Department of Housing and

Urban Development Community

Development funds for 1978 to pave

streets in low-income areas of the

County Judge Blake Hansen said

the target areas to be specified in a

pre-application fall both inside and

outside the city limits. The county can

pave roads within the city limits,

Hansen said, if there is an agreement

County Commissioner Jack Leonard said the county has such an

agreement with the city for streets

fectiveness of U.S. monitoring of

They fear this may have been a result of Zbigniew Brzezinski's disclosure to reporters Friday that

Soviet jet fighters had fired on a South Korean airliner well inside Russian Soviet air defenses. territory At the time Brzezinski said this, the Russians had acknowledged that their

fighter planes had intercepted the airliner. But they were silent about any shooting. It wasn't until more than a day

later, after they reached Helsinki,

#### An analysis

Finland, that survivors confirmed the Soviet attack.

Therefore, it became clear that Brzezinski obtained his information about the shooting through U.S. intelligence monitoring of Soviet communications and a "reading" of

Russian pilot radio talk. Both the United States and the Soviet Union use a variety of highly sophisticated intelligence-gathering electronic devices from satellites, ships, submarines, airplanes and land

While each government knows the

other is doing this, intelligence officials are extremely close-mouthed on what kind of methods they use in sensitive situations, and what kind of

results they achieve. These officials contend that public disclosure of methods and results is likely to tell the Russians much about the effectiveness of U.S. intelligence. This could lead to Soviet countermeasures, the specialists say.

Defense officials did say that no radio distress message was received from the Korean plane and no radio call was sent to it from U.S. sources. They did not elaborate.

There are indications that Norwegian radar detected that the South Korean airliner had entered the Soviet air space, said two U.S. of-

ficials. Sources at the U.S.-Canadian North American Air Defense Command headquarters in Colorado Springs, Colo., said the Korean plane was about 1,000 miles outside the range of the Distant Early Warning radar line.

## Briscoe to 'take interest' in WIPP

LUBBOCK - While campaigning here Monday, Gov. Dolph Briscoe Jr. said he intends to "take an active interest" in the proposed Carlsbad. N.M., Waste Isolation Pilot Plant. Briscoe made his remark in

response to questions from reporters. The pilot plant is expected to be used for disposal of low, intermediate and high grades of nuclear wastes.

Gov. Briscoe said he would have to start from the position of being opposed to the project or any that might endager the citizens of this state.

He said he will ask the Texas Congressional delegation to "closely monitor" the project, in addition to those state agencies already doing so. The Radiation Control Branch of the Texas Department of Health has been reviewing plans for the plant all along and will continue to do so, he said.

920,000 acre-feet of water approximately 40 miles from the proposed plant site on the New Mexico-Texas border.

This untapped water supply beneath the T-Bar Ranch in Loving County could fill the city's water needs 62 years at the present rate of consumption.

Projected completion date for the project is set at 1985, according to Department of Energy officials , but approval of the plan is not expected until 1981.

Texas Attorney General John Hill has asked Energy Secretary James Schlesinger to order public hearings in Midland, El Paso, Odessa and Lubbock on the proposed project. The request came in a letter released

### Good 'mommies' sought for abandoned 'babies'

What mother would abandon her children?" asked Geneva Caruthers, who has a Dream Baby who's all her

Certainly she wouldn't. Her precious doll is only three or four years younger than she and is worth more to her than gold. It's a bisque

"I guess my mother paid \$2.98 for it, and the silly thing now, 50 years later, I guess is worth \$200."

Mrs. Caruthers could, and did, go into the personal history of her Dream Baby. It was a study in human behavior, for the doll had been exposed to a broad spectrum of human emotion: care, jealousy, love, for-sakenness, and back to care and love.

For now, Mrs. Caruthers' concern is not her doll with the ceramic head. It's those hundreds of rehabilitated

dolls that now need homes. Most of the babes indeed were abandoned and somehow ended up at the Salvation Army. The abandoned and often broken dolls were given

away or just discarded. But the dolls were salvaged, and people like Mrs. Caruthers mended and dressed the dolls at the two "doll

hospitals" in Midland. But, she asked, why would a mother forsake "her children?"

"They (mothers) love them for awhile, clean them and dress them over and over. Yet at some point they become tired of them. Maybe a new baby comes into her life," reasons Mrs. Caruthers, who, at her age (she's a for-real grandmother) still plays with dolls. And why not? Don't men have their "toys" too? And women who don't toy with dolls have

their own playthings anyway. "Maybe the mother 'grows out' of wanting children and babies, she

'Then, they (mothers) hide their babies in closets or abandon them in trash cans or on the doorstep of the Salvation Army. Well, that's exactly how many of

the dolls come into the care of people like Mrs. Caruthers in the United Federation of Doll Clubs.

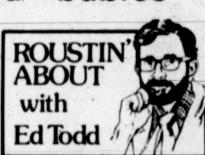

"Most are dirty and uncared for. Some are marred and wounded. Most are naked and cold - starved for their mothers' love."

The doctors, nurses, designers, dressmakers and others mend and rejuvenate the forsaken ones.

We have cleaned these babies and put new clothes on them. We have replaced arms and legs that are missing. We have done plastic surgery on smashed-in faces and erased the scares of mistreatment on their faces," Mrs. Caruthers noted of the process.

Now, the problem is finding homes for these mended babes. And here's how: They'll be up for "adoption" for fees ranging from 50 cents to \$5 from 10 a.m. to 5 p.m. this Saturday at Dellwood Mall in Midland.

There will be about 1,000 dolls awaiting "permanent adoption" by mothers "between the ages of 0 and

99." The adoption fees will be turned over to the Salvation Army.

Now, to the doll people, what's paramount is finding homes for these 'hundreds of children' the doll doctors and aides mended and nursed back to "life."

### Rain chance again slim

If Midlanders keep their fingers crossed, there might be rain tomorrow, but chances are slim.

According to the National Weather Service at Midland Regional Air Terminal, there is a 20 percent chance for thunderstorms Wednesday. But, the weatherman said the air has been extremely dry and Midlanders should not get their hopes up.

Winds are expected to diminish to 10 to 15 mph tonight. Southerly winds should be 10 to 25 mph Wednesday. The low tonight is forecast to be in the middle 50s Wednesday's high expected to hit in the middle 80s. It should turn partly cloudy tonight.

Area towns reported clear skies and warm temperatures.

Widely scattered thunderstorms were expected to rumble across Southeast Texas today following a night of violent weather in Northeast, North and Central Texas.

Early today, most of the thunderstorm activity was centered in the Hill Country of Central Texas. Elsewhere, skies were mostly fair in the western half of the state and mostly partly cloudy in the eastern half. Dense fog was reported in the Victoria area in Southeast Texas and other fog was reported along middle portions of the Texas coast.

Early morning temperatures ranged from the 40s in Northwest Texas to the 60s and 70s in South Texas. Highs were expected to reach the 70s in North Texas, the 80s in South Texas and into the 90s in the Big Bend country of Southwest Texas.

Forecasts today called for fair skies in northern sections and partly cloudy in the southern half of the state.

A cold front stalled along a line from Texarkana to Del Rio Monday evening, causing formation of at least two tornado clouds, some locally heavy rain and some hail. No injuries were reported and property damage was confined to hail damage in most of the areas along the line.

Delivery Service 682-5311 Want Ads 682-6222 Other Calls 682-5311 named in an application for \$230,000 in 1977 funds.

Leonard said the target areas in the pre-application for the \$500,000 will encompass the southern portion of the city, including several "leave-outs" from the city limits, and a portion on the east side of the city.

The vote was 3-0, with Commissioner Win Brown abstaining. Brown said he did not vote for the preapplication because, "we're already obligated to 50 housing units (for rental subsidy). This is probably going to add more, because they (HUD) keep tacking on. And we don't

have 50 units." He said he did not vote against the proposal because, "I really think the road phase of it is all right.

Leonard said he does not believe the additional funding would increase the county's rental subsidy obligation. "We've already fully obligated ourselves, so I don't see how this would add to it." he said.

At their last meeting, the commissioners had discussed the possibility of applying for funds to set up a senior citizens center. Leonard said that project was not included in this application because it will be at least 18 months before the city of Midland is ready to give up the Circle Drive Fire Station, committed for use as a senior citizens center.

Also Monday, the commissioners agreed to participate in a highway sign program to bring county signs up to national specifications which go into effect in 1980. Hansen said there will be no cost to the county for the

### What's Life? Again it will be magazine

NEW YORK (AP) - "What's trade publication of magazines Life?" the old joke began. "A magazine," was the reply.

And a magazine it will be again. Time Inc. announced Monday that it would begin publishing Life again in October. The publication - in its old 1316by 101/4-inch page size with the familiar white-on-red title, is the latest step in the rebirth of American magazines. Ninety-one magazines have

announced so far this year that

they will begin publication, ac-

cording to Folio magazine, the

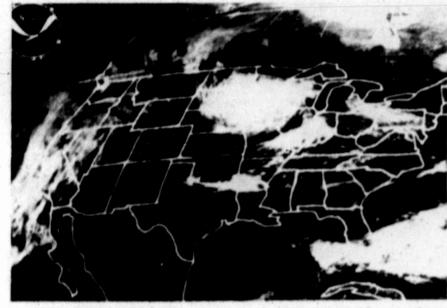

In all of 1974, there were 124 such announcements. Figures from the Publishers

Information Bureau put gross advertising revenue for 96 consumer magazines at \$1,965,410,809 for last year. The year before the figure was \$1,626,656,136. As it was put by Chuck Tannen,

editor of Folio: "The magazine business is booming." And now there is Life. What's Life? A magazine. What's it cost?

Ten cents. Haven't got ten cents. That's Life.

SHOWERS are forecast today over the Pacific Northwest and the Rocky Mountain states, as well as the southern tip of Florida. Rain is predicted ober the southern Atlantic states and as far inland as Tenessee. The National Weather Service forecasts warmer temperatures in the southern portion of the country, with cooler temperatures expected elsewhere. (AP Laserphoto Map)

A NEARLY OVERCAST concentric cloud area is visible over the northern Midwest in Monday's satellite cloud picture, recorded at 1 p.m. EST. Also visible are lines of clouds from Lake Erie through Pennsylvania and Missouri to Indiana. Thunderstorm clouds are seen over Arkansas and high, thin clouds cover the western quarter of the nation. (AP Laserphoto)

A SPECIAL CONCERT by the Midland-Odessa Symphony is possible through a \$7,500 grant from Atlantic Richfield Co., as Dr. Thomas Hohstadt, left symphony conductor, accepts the check from C. E. Cardwell Jr., manager of Arco's Permian District. The presentation was made during a luncheon Monday in the Petroleum Club. (Staff Photo)

### Eagle case witness is dead

LEAKEY, Texas (AP) - Some five months after he testified as a prosecution witness at the trial of three Real County men who were convicted of killing golden eagles. ranch foreman Alfred Zimmerman is dead.

A Department of Public Safety spokesman said the case is "being investigated as a possible homicide.'

Uvalde Texas Ranger Joaquin Jackson said Zimmerman, described as about 46-47, was found dead early Monday by his son, Cecil, in the foreman's quarters at the Eagle Ranch in rural Southwest Texas. Authorities said he had been hit by a shotgun blast.

After a preliminary investigation. Jackson said he doubts Zimmerman's testimony was a factor in his death.

"That was the first thing that went through my mind," he said, "but I don't think so." He added that police do have a "suspect in mind" but refused further comment. Police said there was no sign of a struggle at the death scene.

Shortly after the shooting was reported, Real County Sheriff John Elliott asked for assistance from Jackson, Texas Ranger Capt. John Wood of San Antonio and a DPS crime

Zimmermann had said earlier he experienced some trouble with vandals shortly after he reported seeing an eagle shot down by a helicopter. It was that report to a state game warden Dec. 10, 1975, that touched off an official investigation into the airborne killing of the birds above ranches in rugged Real County.

Zimmerman's testimony was heard last December in San Antonio during the federal court trial of three men charged with conspiring to kill eagles. He testified he heard shots coming from a helicopter flying over the Eagle Ranch. He said he heard three shots and then the helicopter and eagle dropped from sight.

A followup investigation led to indictments against former government predator trapper Andrew Allen of Uvalde, Real County ranch foreman Norman M. Pape and Real County Commissioner Lanny Leinweber. All three were convicted at the trial of conspiring to kill golden eagles, a federally protected species. Pape and Allen were also found guilty of illegal airborne hunting and killing

They received fines ranging from

### U.S. woman sets appeal

JERUSALEM (AP) - Terre Fleener, an American serving a fiveyear jail sentence for gathering intelligence for Arab guerrillas, will appeal for clemency to Presidentelect Yitzhak Navon, her attorney said today

Felicia Langer, Miss Fleener's attorney, said she would base the appeal partly on the government's promise to review cases for amnesty to mark Israel's 30th independence

Miss Fleener's father, Paul G. Fleener, said by telephone Sunday from his home near Hartford, Ky., he also would file a separate appeal to the Israeli justice ministry.

A third appeal was being filed by Miss Fleener's mother, Mary Boettcher, of Enon, Ohio, according to a source at the U.S. Embassy in Tel Aviv. Mrs. Boettcher and Fleener are

### Groups seeking liquor vote

ABILENE, Texas (AP) - Two citizen's groups have made applications here to circulate petitions calling for referendums to decide if liquor should be sold both by the drink, and in package stores.

Abilene currently allows for the sale of liquor only in private clubs.

One group, called "Citizens for Moderation" (CFM), has begun petitioning for liquor by the drink. CFM made its application for petition Monday morning, and by afternoon it had the required 10 signatures to begin distributing petitions.

About the time CFM began seeking petitions, another group called 'Update '78." made application to petition for sale of liquor, not only by the drink, but in package stores. That group should have its required 10 names by today, officials said.

The last time Abilene voters went to the polls on the liquor issue was two years ago when the drys won by 1,600

### Lamesan files suit against city, airline

A Lamesa woman Monday filed a \$200,000 damage suit against Continental Airlines and the city of

Midland Nadeen Blair, joined in the suit by her husband, Welton Blair, alleged in her suit that she received permanent injuries to her arm, shoulder, back and neck when she allegedly thipped on a protruding board on a walkway at Midland Regional Air Terminal between the baggage area and the shuttle bus pick-up area

EXTINGUISHING a house fire Monday at 1208 W. Dakota St. is a member of the Midland Fire Department. An open flame heater was the cause of the fire, according to Fire Department reports. The house, owned by Antonio Rangel, suffered heavy damage.

## Clements touches on budget, energy, WIPP

Bill Clements, Republican candidate for governor, promised Monday to trim \$600 million off the state budget — but he declined to specify how he would accomplish

"I would be stupid if I identified how and where and whom. I have no intention of telegraphing that punch, but I know we can do it.

"As U.S. Deputy Secretary of Defense, I trimmed 25,000 people from the payroll each year I served The thing that has been lacking is that no one down there (Austin) had the management capabilities it takes to do all this, and they did not have the guts," he said.

Clements said Gov. Dolph Briscoe has increased expenditures by more than 73 percent and bureaucracy by

Clements also promised a new school finance bill by 1979.

'Ad valorem taxes are not equitable, and this is my solution. As soon as I am elected your governor, I will informally establish a task force with the most outstanding experts I can find throughout the state. There is a person here in Midland whom I have

"This task force will come up with a plan, we will present it to the Legislature, and we will have a reform act on ad valorem taxes. And

### Rally set for Saturday .ODESSA - A rally and march here

Saturday, led by Mexican-American leaders from across the state, is being planned in protest to a ruling of accidental death in the case of Ector County Jail inmate Larry Lozano.

The Concerned Citizens for Justice committee, formed shortly after an inquest jury returned its ruling on April 6, organized the rally and

Lozano died Jan. 22, 12 days after his arrest

A spokesman for the group said the committee was to go before the Odessa City Council today to request a parade permit for the march. Plans call for the march to start at

St. Joseph Catholic Church and circle the Ector County Courthouse before returning to the church Brown Beret members will serve as

security during the march to maintain order within the group and to keep out trouble." a Brown Beret official said.

Speakers for the rally include Ruben Bonilla, state director of the League of United Latin American Citizens; Consuelo Lozano, Larry Lozano's mother, and Bishop Patrick. Flores of San Antonio

### Runnels home after surgery

WASHINGTON - U.S. Rep. Harold Runnels of Lea County, N.M., is back Drive. in his Arlington, Va., home where he The was flown after having been released late last week from Memorial Sloan-Kettering Cancer Center at New York

Runnels, 55, is recovering from surgery and treatment of a malignant growth on his left lung. Mr. and Mrs. Runnels will remain at Arlington for a few days before continuing to their 3416 W. Wall St. Midland serves as its farm at Aldie, Va. They will be there Mid-Comtinent Division Office. for two weeks and then will go to their recuperation time.

The congressman underwent surgery on April 6. Doctors have said they expect complete recovery for it will be an act we can be proud of." he said. Clements touched lightly on the

subject of deregulation and energy. "The only way we can cure the energy problem is through the production of energy - and not just

oil and gas. We must turn loose the oil and gas industry, the coal industry and the nuclear power plant-building capacity and the technology we have in this field. "I have no question that our technological base is such that we can

entirely in a safe manner make a disposal system for nuclear wastes that will do a safe job," Clements said, referring to sites such as the proposed nuclear waste site near Carlshad, N.M.

waste materials buried thousands of feet deep in impermeable rocks than paid day off for such meetings. have a lot of nuclear weapons sitting at my back door," he said.

House group gets battle on tapes

AUSTIN, Texas (AP) - Two legislative supporters of Gov. Dolph Briscoe have bucked the battle of the teachers' tapes to a pair of House committees.

It's up to the committees on public education and administration whether to issue subpoenas forcing the Texas State Teachers Association's political arm to release the tapes.

Reps. Jim Nugent and Hamp Atkinson want the public to know before election day - what Attorney General John Hill said in his interview with the TSTA's Texas Educators Political Action Committee. The political committee endorsed Hill. Nugent says he thinks there was

a "back room deal." Hill says it's OK with him to release the tapes, but the committee won't do it. Sitting as a House subcommittee. Nugent and Atkinson voted Monday to ask the administration and public

education committees to consider issuing subpoenas for the tapes. Rep. Pete Laney, D-Hale Center, administration committee chairman, said he needed to get briefed on his

authority to issue subpoenas as well as on the tape issue. "I have not been keeping up with it. I've got my district to represent.... I don't know enough about it to comment," said Laney, a Briscoe sup-

porter. The committees can't meet without posting five days' notice.

That would put any meeting to issue subpoenas in the week of the Democratic primary, and the teachers could be expected to resist a

subpoena in court. Nugent and Atkinson, D-Texarkana, not only raised the subpoena question but also called on the teachers association to make tapes of its interviews public if "there is nothing to hide.

They asked voluntary release of the tapes "so that everyone concerned can take whatever commitments were made, if any, into consideration before they are called on to select their candidate for governor.'

Nugent, D-Kerrville, produced two witnesses - Raymon Bynum, associate state commissioner of education, and Garland Davis, superintendent of the Medina Independent School District - to show TSTA benefits from state, local and federal tax dollars and, therefore, has no right to keep the tapes secret.

Both testified about the one "inservice" day a year allowed teachers for meetings of TSTA and other professional organizations.

Bynum said if every teacher and "And I would much cather have administrator took the day, it would nuclear wastes or atomically active cost about \$14 million a year. Local districts have the right to disallow the

"Not all teachers belong to the same associations." Davis said.

Finalizing the sale of a three-acre site in the Midland Industrial Park to Core Laboratories Inc. are, from left, Ruff Bynum, vice president and Mid-Continent Division manager for the company, and C. W. Barclay, president of the Industrial Foundation of Midland Inc. (Staff Photo)

### Three-acre site in park sold, foundation says

A three-acre tract in the Midland Industrial Park has been sold to Core Laboratories Inc., officials of the Industrial Foundation of Midland Inc. announced today C. W. Barclay, president of the

Industrial Foundation, said Core Laboratories has acquired the threeacre site on the southeast corner of Imdustrial Avenue and Commerce

The company is expected to con-struct a 16,000-square-foot facility on the site as soon as plans are finalized by its architects, according to Ruff Bynum, vice president and Mid-Continent Division manager for the company

Core Laboratories currently occupies a 5,900-square-foot facility at

Core Laboratories will be the 25th Humble City, N.M., home for further tenant in the Midland Industrial Park located just west of the city on West Highway 80 at Holiday Hill Road. The 194-acre park opened in late 1968 and is owned and operated by the Industrial Foundation which is a branch of the Midland Chamber of Commerce.

Approximately 60 acres remain to be sold in the park. Core Laboratories is the third business to locate in the park this year, with Bancroft Paper Co. and Christensen Diamond Products mow under construction.

Senate committee investigating Soviet defector thought a 'plant By ROBERT G. KAISER The Washington Post

WASHINGTON - The Senate Intelligence Committee has begun an inquiry into hotly disputed assertions that the United States was duped by a phony Soviet defector who came to this country in 1964.

According to a new book, two bran-ches of the Centra! Intelligence Agency concluded that the defector was probably a Soviet plant, but their conclusion was overrid den and the defector is now actively e mployed as a consultant to the CIA.

An independent inquiry by The Washington Post has established that the book's account is essentially correct, and that doubts about this defector sharply divided the U.S. intelligence community. The doubts are ficials regarded Oswald as suspicious dismissed as unfounded by the FBI and other CIA officials, including former director William E. Colby.

The Post also has found that some former high-ranking CIA officials believe that acceptance of the defector as legitimate has gravely compromised some U.S. intelligence and counterintelligence programs, perhaps even rendering them useless in the secret cold war with the Soviet

The defector in question is Yuri Nosenko, who defected to the United States in February 1964, and claimed to have intimate personal knowledge of Lee Harvey Oswald's two-year stay in the Soviet Union before the assassination of President John F. Kennedy. The defector said Soviet of-

and had no substantive dealings with

CIA suspicions about Nosenko led to his being held virtually a prisoner for about three years and subjected to intense questioning. The Rockefeller Commission that reported on CIA activities in 1976 described Nosenko's handling without naming him:

"For much of this time (three years) the defector was held in solitary confinement under extremely spartan living conditions. The defector was apparently not physically abused. The justification given by the CIA for the lengthy confinement arose out of a substantial concern regarding the defector's bona fides...

According to author Edward Jay

Epstein, whose new book "Legend" was published April 9, senior officials in the CIA concluded that Nosenko was sent to the U.S. with a reassuring message about Oswald by the Soviet Committee on State Security, the KGB. Epstein charges that after exhaustive investigation the CIA and other U.S. agencies decided that they could not decide whether Nosenko was legitimate or phony

Later, Epstein contends, new executives in the CIA cleared Nosenko and declared him bonafide.

The staff of the intelligence committee is now investigating these events, according to a member of the committee.

The Post's inquiry into Epstein's allegations was hampered by the fact that although sources who sympathized with his viewpoint were willing to discuss the case, present or former officials involved in the decision to clear Nosenko were not available for ques-

One former CIA official who was a source for Epstein's book told The Post he had read the final CIA report on Nosenko that was the basis for clearing him. This former official claimed that the report did not respond to dozens of the questions raised about Nosenko's reliability, but merely concluded that he was a selfserving liar, not a planted KGB agent.

The CIA refused to discuss the case. except to say: "We are satisfied with Nosenko's bona fides."

The basic challenge to Nosenko's reliability came fom the CIA's

counterintelligence division, then led by James J. Angleton, and the Soviet Russia Division, then led by David Murphy and Tennent H. Bagley. Angleton - who is well known for his suspicious view of defectors in general and his great respect for KGB wiliness - was fired from the CIA by Colby. Murphy and Bagley apparently both resigned.

The Post's inquiry has established that senior U.S. intelligence officials, including at least some of those who were fired or retired in various personnel upheavals at the agency, fear that the ultimate acceptance of Nosenko has effectively destroyed the ability of U.S. intelligence to conduct a secret war against, Soviet intelligence organs, and has seriously compromised other U.S. intelligence

#### HOUSE OF REPRESENTATIVE

All candidates for U.S. House of Representatives were asked the following questions:

1. Please describe your training and experience that contribute to your qualifications for this office. 2. What measures would you support to correct the current bal ance of

payments deficit? 3. How would you propose the Con-gress deal with the problem of welfare reform?

NAME: George W. Bush Box 3429 ..... Age: 31 Midland, TX 79702 Occupation: Independent Oil & Gas

Producer

DISTRICT 19 Republican Party BA-YALE, MBA-HARVARD, Filew F-102's in Military. I am an independent oil and stas producer. I started my own

business learning the lessons of risk taking and the problems confronting the small businessmail. The concept of profit and loss is not alien to me. I have worked in several politica l

campaigns and was reared in a political atmosphere. I know the amount of energy required to do an excellent job for West Texas. and I believe in the concept of public service. I have never held public office.

My approach will be fresh and un-2. The United States must:

A. Reduce our dependency on foreign energy by encouraging domestic exploration and conservation through effective pricing. This is a number one priority. We now import roughly 8.000,000 barrels of crude oil

per day at \$12 per barrel. Balance the budget to slow domestic rates of inflation thereby making U.S. products price competitive in

foreign markets. Aggressively market internationally competitive products such as food and fiber so vital to the West Texas economy.

The Congress must redefine the intent of welfare. Programs such as aid to families with dependent children encourage wage earners to leave the family rather than assume responsibility. Unemployment programs using government training (SITA) do little to train people for lasting jobs. We must promote vocational training through the incentives to industry and teenage jobs through minimum wage differentials.

The Congress should use the State of California computer system as a model to eliminate welfare cheaters from the rolls.

NAME: Kent R. Hance 1203 Metro Tower . . . . . . . . Age: 35 Lubbock, TX 79401 Occupation: State senator/attorney/businessman DISTRICT 19

Democrat Party 1. BBA-Business, Texas Tech; UT Law School graduate; 11 years of law practice; 5 years professor at Texas Tech; Regent at West Texas State Univ. for 3 years; State Senator for 4 years; served on Finance, State Affairs, Natural Resources and Education committees as Senator; voted 100% on all issues that came before the Senate floor.

2. Increase the number of exports in agriculture commodities; let oil prices for old oil float on the world market to increase the incentive for secondary recovery. This would make us less dependent on OPEC countries for foreign oil and less money would be going out of our country to pay for

foreign oil. Insure that only the truly needy receive welfare benefits. I carried legislation in the State Senate that would make certain types of welfare fraud a felony; this was. designed to stop those who were using welfare and were not entitled to receive it.

Lubbock, TX 79410 Occupation: Retired Military DISTRICT 19 Republican Party

1. High School president of FFA. 16
years of farming. BA degree in

International Relations. MA degree in Soviet Studies. Graduate of Industrial College of Armed Forces with emphasis on national security, foreign affairs, energy, crime, and U. S. economy. Command pilot and Vietnam war veteran with 750 combat hours. Served two years with the U. S. Embassy in Moscow. Loyal service to America for 20 years in the Air Force. Active member of VFW and American Legion. President

of Shallowater Little League.

Scoutmaster. Church and family

man with four children. 2. (1) Deregulate oil and gas-develop and expand U. S. supplies which would dramatically cut imports. Cost of energy will increase anyway, so use our own. (2) Expand animal and agricutural exports-these items are our biggest assets. Aggressive promotion of sales of U.S. foods to countries that don't now buy from us. Expand Food for Peace Pro-

gram. (1) Make it less profitable to loaf rather than work. How? By keeping welfare payments lower than what a person could make if working. (2) Prosecute welfare cheaters.(3) Drastically reduce the size of the Welfare Department and increase efficiency. (4) Take all welfare programs away from the Agricultural Department.

NAME: Jim Reese P.O. Box 7099 ..... Age: 47 Odessa, TX 79760 Occupation: Stockholder DISTRICT 19 Republican Party

1. My wife, Jayne, and I have grown up and raised our family here in West Texas. We have lived in Lubbock, Midland, and Odessa. We are part of this country and this country is part of us.

I have run a business for years—meeting a payroll and paying taxes. West Texans deserve representation by someone who has shared our problems, working under excessive regulations and taxes.

I am co-chairman of the National Congressional Countilworking with members of Congress on ways to solve the problems of West Texas and our country.

I served six years as Mayor of C'dessa (also, President of Texas Association of Mayors, Councilmen, and Commissioners), Piresident of Odessa Family YM-CA, campaign chairman for United Way, President of Texas Jacycees, Vice-president of US Ja vcees, etc.

We itiust cut oil imports and expand agricultural exports. If we get gov ernment out of the way, we can accomplish both. Deregulation of natural gas and free market pricing of oil can expand supplies, assuring an affordable supply of energy without costly burea ucratic interfernece.

We cam expand agricultural exports by taking export contracts away f rom the State Department. Farme rs, assisted by the USDA, can ach lieve fairer pricing and explore ne w markets.

3. We should' de-federalize the welfare system. Local and state officials can do a better job of administering a wei fare program and assuring that the truly needy get help. The federal government should relinquish tax sources so a welfare program could be funded adequately without federal revenue arid control.

NAME: Morris Sheats Age: 37 7807 Kenosha ... Lubbock, TX 79-123 Occupation: Minister DISTRICT 19 Democrat Party 1. a. Graduate of Texas Tech Univer-

sity with a BA in History b. Graduate of Southwest Baptist Theological Seminary with a Master of Divinity c. Pastor of Trinity Church (a

non-denominational congregation) which has grown from 100 members in 19t i5 to a membership of 4,000 in 1977 d. As Senior P'astor, oversees a

staff of 75 em ployees (40 full-time)—has led in 9 building campaigns, the most recent being the completion of a .1.2 million dollar sanctuary-DEBTFREE!

 Author of 2 bool ts.
 The deregulation of oil and gas would provide incentives for domestic exploration and production and significantly reduce our

**VOTER'S GUIDE** PRIMARY ELECTION Polls open May 6, 1978

balance of payments deficit caused by the importation of vast amounts of foreign oil. Additionally, increased exports of our agricultural products, through expanded world markets, would help turn our deficit into a

balance of payment surplus. Everyone is concerned about the welfare of those in need. However, the present system because of its bureaucratic structure.encourages fraud and inefficiency. To allow tax dollars to best reach those truly in need, I recommend a complete reorganization of the present welfare system with these priorities:

-stricter screening of eligibility of those receiving welfare payments
—more localized control of the

welfare system encourage the able bodied to work -providing more vocational training to encourage better job placement

-essentially to provide mechanisms to help persons work their way off the welfare rolls and onto the tax

#### STATE SENATOR

NAME: W.E. (Pete) Snelson 2406 Shell Street ..... Age: 54 Midland TX 79701 Occupation: Businessman DISTRICT 25

1. Please describe your training and experience that contribute to your qualifications for this office. I now represent the 25th District fifth in seniority. A native of the Permian Basin, I have been in

in the Texas Senate where I rank business in Midland for the past 23 years. In the Senate I serve as Chairman of the Intergovernmental Relations Committee on the Education and Finance Commit-

What are the major issues in the criminal justice system in Texas and how would you deal with those issues? Legislature will need to evaluate

the impact of bills enacted last year, including Speedy Trials; state-wide system of probation; "shock" probation; and increased number of courts. Additional legislation might be necessary for law enforcement agencies to protect the public from organized criminal activity.

3. What do you think should be the major emphasis of a new water plan for Texas?

Major emphasis will need to be on how "water-short" areas of Texas can be helped by "water-surplus" areas. Better management and use of present water resources will be an important factor. There are no easy solutions to our long-range water pro-

#### STATE REPRESENTATIVE

NAME: Tom Craddick Midland, TX 79701 Occupation: State Representative. Sales Representative-Mustang Mud. 1. What qualifications and issues pro-

mpted you to run? I have served in the Legislature for five terms. I am currently chairman of the Natural Resources Committee and a member of the Energy Committee. I am concerned about the growing problems of the Oil & Gas industry in our state and the

shortage of water in West Texas.

What immediate goals do you hope to accomplish in this office?

I will continue to work for legislation enhancing the oil and gas industry and against any bills to its detriment such as the regulation of intrastate gas, changing the percentage of "take or pay", and price redetermina-tion. I will also continue to work for the enactment of a strong

statewide water plan.

What do you feel are the most important decisions the state legislature will have to make during your new term?
Funding the State Budget without new taxes A statewide water plan

Oil and gas legislation Growth of the higher education

#### JUDGE OF THE 318 DISTRICT COURT

NAME: Barbara G. Culver Midland County Courthouse Midland, TX 79701 1. What qualifications and issues pro-

mpted you to run? Law degree, licensed to practice law in Texas since 1951; ten years experience as attorney; over 15 years as county judge. I hope to preside over this court efficiently; scheduling hearings conveniently for litigants and at-

torneys; I hope to rule fairly and

#### **JUDGE OF THE 238** DISTRICT COURT

promptly on all cases.

NAME: Vann Culp P. O. Box 1766 . . . . . . . . . Age: 48 Midland, TX 79702 Occupation: Judge, 238th District

1. What qualifications and issues prompted you to run? Presently serving as judge, 238th

district court. Prior to assuming the bench, specialized in the trial of cases in State and Federal courts. MEMBER: American Bar Association; Texas Bar Association; Midland Bar Association, and other professional organizations. EDUCATION: Bachelor of Science Degree, University of lexas; Graduate work, Trinity University; Law Degree, St. Mary's Universityy; numerous legal institues and seminars.

#### MIDLAND COUNTY JUDGE

All candidates for Midland County Judge were asked the following ques-

1. What qualifications and issues prompted you to run?

What immediate goals do you hope to accomplish in this office? . What do you feel are the most important decisions the Court will face during your term?

NAME: Blake Hansen 3225 Cimmaron ..... Age 28 Midland, TX 79701

Occupation: Midland County Judge 1. The County judge presides over the Commissioner's Court, essentially a business function. The judge also presides over criminal, civil and probate court proceedings. My education is in business administration and law. I have tried criminal and civil cases before the County Court and also handled probate matters. Consequently, I feel I can energetically fill all the

responsibilities of the position. . One of the first priorities is an effective coordination of efforts between the county court and county court-at-law. With an ever increasing caseload, cooperation is a must for both judges. Of equal importance is to study the new growth of Midland and its impact on the county budget.

3108 Stanolind ...... Age 34 3.—Correct implementation of the Speedy Trial Act which goes into effect the summer of 1978.

-With increasing inflation, it is important to maintain the existing low tax rate, while at the same time provide necessary and efficient community services to the citizens of Midland County.

NAME: William B. Ahders 1410 Lanham ...... Age: 62 Midland, TX 79701 Occupation: Municipal Court Judge

. My experience as Municipal Judge for ten years qualifies me for the legal aspect of the job. The administrative aspect requires the leadership which has been developed through 26 years of service as Special Agent with the FBI. The issues involved in the office are experience, mature judg-ment, dedication to justice and frankness with the people.

First, to follow my past judicial practice of trying cases and letting justice be served as quickly as possible. To provide strong mature leadership to the County Court. To promote a more open relationship between the Commissioners Court and the people. To redistrict Midland County for equal representation.

Compiled By The League Of Women Voters of Midland State Guide of Public Officials available for the Leaque of Women Voters of Midland. 3. The most important decision in the

SPONSORED AS A COMMUNITY SERVICE BY

THE FIRST NATIONAL BANK OF MIDLAND

judicial area is in implementation of the Speedy Trial Act, which requires the trial of criminal cases within a short prescribed time. Administratively, redistricting of the Commissioners precincts and federal funding restrictions are of the highest importance.

#### COUNTY COURT OF LAW

NAME: Willie B. Dubose 1005 Alpine . . . . . . . . . . . . . Age: 37 Midland, TX 79701 Occupation: Judge, County Court at

1. What qualifications and issues pro-

mpted you to run? I have been a resident of Midland for 12 years. I served as County Attorney for 5 years and have been in the private practice of law for the past 6 years. I was elected by the local bar association to act as judge of the Domestic Relations Court during an illness of the judge of that Court. My primary goal will be to reduce the docket and make the court a convenience

to the citizens of Midland County.

### COUNTY CLERK

NAME: Rosenell Cherry 2210 North H Street ..... Age: 51 Midland, TX 79702 Occupation: County Clerk 1. What qualifications and issues prompted you to run?

I am your present County Clerk and consider it a great honor to have the opportunity to serve the citizens of Midland County. I have been in this office for the past 30 years and have seen Midland grow from a very small town to the city it is today. With the every day experiences I have had I feel that I am qualified to continue to serve in this capacity with efficiency that the office must have and demands.

#### COUNTY TREASURER

NAME: Dee Thompson 700 East Broadway ..... Age: 58 Midland, TX 79701 Occupation: County Treasurer

 What qualifications and issues prompted you to run? I have been County Treasurer since 1959 and feel that these twenty years experience are my qualifications. I am deeply grateful to the people of Midland

County for allowing me to serve in this capacity. There are no issues involved in the office of County Treasurer. since it is not an administrative or policy-making office but is a position of honor and trust.

### DISTRICT CLERK

NAME: Madge B. Wallis 1909 WesternAge: Midland, TX 79701 Occupation: District Clerk 1. What qualifications and issues prompted you to run? Deputy District Clerk 5 years and District Clerk 4 years. My experience and knowledge has made possible to handle efficient-

#### **COUNTY SURVEYOR**

ly the expansion of two additional

district courts. I pledge to continue

courteous and capable service.

NAME: Max A. Schumann Jr. Box 504 ..... Age: 55 Midland, TX 79702 Occupation: Civil Engineer-Land Surveyor

1. What qualifications and issues prompted you to run? I have been County Surveyor since 1953 and wish to continue to hold the office.

#### COUNTY COMMISSIONER, PRECINCT 2

All candidates for County Commis-sioner, Precinct 2 were asked the following questions: 1. What qualifications and issues pro-

1. What qualifications and issues prompted you to run?

2. What immediate goals do you hope to accomplish in this office?

3. What do you feel are the most important decisions the Commissioners court will face during your term.?

NAME: Charles R. Welch Route 1, 76 Katie Lane ..... Age: 52 Midland, TX 79702 Occupation: County Commissioner,

farmer and rancher, water well service business. 1. Experience in serving as your county commissioner qualifies me to seek another term in this office. I understand how to operate our county government in an economical manner, and will con-

tinue to see that we receive full value for every dollar spent. My goal is to provide the best county government at the least possible cost to the taxpayers. We need to keep pace with demands created by our current growth, and to encourage new industry to locate in our county. Cooperation with other governmental bodies

and civic groups is vital to the bet-terment of Midland. During the next few years, we will be working on the North Loop road around Midland, and will be expanding the public library. We need a tax office building to handle the great increase in that work load, and we need to continue to improve our law enforce-

ment.

NAME: Sam H. Snoddy 2802 McClintic ..... Age: 52 Midland, TX 79701 Occupation: Independent Oil

believe that a balanced Commi sioners Court will benefit all of the citizens of Midland County. I have lived in Midland since January of 1951 and am interested in Midland's continuous growth. I am a college graduate with a B.A. degree in Economics and have

been self-employed since 1969. 2. I plan to study the county expen-ditures with the purpose of obtaining the most efficient results for

the tax money spent. 3. All decisions concerning personnel will be considered with extreme

#### COUNTY COMMISSIONER, PRECINCT 4

NAME: Winfree L. "Win" Brown 1400 Murrary Street ..... Age: 51 Midland, TX 79701

Occupation: Independent Landman

1. What qualifications and issues prompted you to run?
I filed for the office of County Commissioner in 1970 with the intention of bringing better managerial expertise to the county government of Midland Coun-ty. Midland County operates with a budget in excess of four million dollars and good business procedures are mandatory to best utilize the taxpayers dollar. I will continue to work to upgrade the effectiveness of our county

#### JUSTICE OF THE PEACE. PRECINCT 1, PLACE 2

government.

NAME: Robert H. Pine 501 Scharbauer No. 7 . . . . . Age: 62 Midland, TX 79701 Occupation: Justice of the Peace. Precinct 1 Place 2 1. What qualifications and issues pro-

mpted you to run? Have been serving in this office since December 1, 1964. Resident of Midland for 31 years. Have sincere desire to be of service to the citizens of Midland County.

#### LEAGUE POLICY

The League of Women Voters is The League of Women Voters is a non-partisan organisation which supports no candidate or party. Its purpose is the promotion of political responsibilities through informed and active participation of citizens in government. This voter guide is published to prepare the voters to east an informed vote. The statements of the candidates are printed as received word for word without the candidates are printed as received word for word without alteration and do not necessarily reflect the views of the League. The reproduction of this voter's guide, in whole or part, is prohibited without the written consent of the League of Women Voters of Midland. For futher information about the League call 1994-1991.

# Investmen# clubs make profitable

return By JOHN CUNNIFF

**AP Business Analyst** NEW YORK (AP) - "When you invest over a long period of time, just a small am ount of money grows into a big sum," said Tom O'H ara, chairman of the National Association of Investment Clubs.

Members of the Mutual Investment Club of Detroit know this. At their first meeting in February 1940 the six organizers deposited \$10 each. Each of those deposits is now worth \$793.82. One of the original members invested irregularly

during the first 8 years of the club's existence, and has made only sporadic investments in recent years. But his \$8,124 investment is worth \$83,783. Another member who joined a year later has deposited \$8,238 to date. He has withdrawn \$6,000

from his account, but it still has a current worth of O'Hara, who was a founder of that club, reports that the 16 current members have deposited \$112,929. have drawn out \$193,643, and as of March 31 still had

\$502,000 on hand Over the years members have withdrawn funds for housing, for education and for other essentials and emergencies. They have in a sense lived the biblical parable of the multiplica tion of the fishes.

Interest is growing ag ain in investment clubs after some relatively bad times when the stock market fell out of popular favor. As small investors withdrew from the market, many clubs were disbanded.

But thousands kept going, and many of them managed not just to survive but to roll up extraordinary gains, if not on a month-to-month basis then frequently in the comparison of one year with another

Did the Detroit ciu o discover some dazzling insight into the market? Hardly. They discovered some fundamental truths, the kind that many small investors ignore in their eagerness to make a fortune.

First off, they learned patience; that time is important, that time cannot be hurried. People who invest for a quick killing, they learned, often find they have slain the mselves.

Those who have patience, however, often find their stocks grow as the economy expands, and often at a much faster pace. And the sole obligation of the investor is to ride along with that growth. Learning from their experience in the founding

club, O'Hara and his associates developed a philosophy that now underlies the thinking of almost all member clubs. First, the stocks selected for consideration almost

always are the se of companies growing faster than the industry of which they are a part. And, of course, the industries chosen are also growing solidly.

Second, members are encouraged to deposit a certain amour it each month, and all the cash on hand each month is invested.

### Aerocar didn't get off ground

By JIM TR UETT

LONGV'(EW, Wash. (AP) - Twenty-eight years ago. Moul ton B. "Molt" Taylor thought his flying car would rev olutionize transportation. Today, the Aerocar sits in his workshop here, still

waiting for its time to come. "It would be one thing if this were a dream, but it's not," says Taylor, 65. "My flying auto is way ahead

of its timie. Taylor designed and built his first Aerocar in 1950. The Fe deral Aviation Administration certified the vehicle in 1956, but financial problems have blocked produc'tion.

He e stimates it would cost at least \$200 million to begin producing the Aerocar, which would sell for about \$10,000. Most of the initial investment would be spent satisfying government safety and antipollution regulations, he says. "Timing has to be right. People have to be right

and the interest has to be right," says Jim Pope. chie f of the industry and government liaison division of thie Office of General Aviation in Washington, D.C. 'We haven't been able to put together those var lable's so far. Maybe sometime in the future." Inquiries still trickle into Taylor's office and wo rkshop in Longview, about 60 miles north of

Portland. He says he gets about six a week, down from the 30 a day when his invention was announced. Four of the seven Aerocars built are in museums a) ound the United States now, says Taylor. One was w recked in a South Dakota wind storm. Two are

p arked in Taylor's workshop - a static test model orn apart and the latest Model III. With a 500-mile range in flight, the Aerocar cruises at about 125 miles an hour with two adults and 100

pounds of baggage, he says. It burns eight gallons of fuel an hour in a 143-horse Lycoming engine. On the highway, the car travels up to 60 mph at 15 miles per gallon The vehicle tows its wings, tail and propeller around on a self-contained trailer system and Taylor

says the car can be converted to an airplane in about five minutes. The wings fold forward and the tail section with a pusher propeller attach to the rear of the car. Taylor says he hasn't flown the Aerocar in over a year because the vehicle is not currently licensed. He said the car takes eight licenses to operate legally -

federal and state airplane licenses, state auto license, state trailer license, federal radio license, federal radio-telephone operator's license, state pilot's license and federal pilot's license. Taylor, an aeronautical engineer who sells plans for homebuilt airplanes and advises aircraft builders

on design, still has hope for his Aerocar, but he admits he is a little frustrated. "It's the only vehicle that will get you from my

house to your house and average more than 50 mph."
Taylor says. "The name of the game is time."

### Government shuffle due in Egypt?

Agence France-Presse,

CAIRO - Speculation mounted here Monday that President Anwar Sadat might reshuffle the Egyptian government in early May.

The right-wing weekly Al-Ahrar said the revamp might be limited to the economic group presided by Abdel Moneim Kayssuni, deputy prime minister for economy and finance.

Scharbauer Drive in Midland. Making the presentation is Dr. Heber Taylor, chairman of the journalism department. Jones is president-elect of Phi Epsilon Rho, an honorary broadcast society and assistant news director of KLCT radio here.

# Land ownership survey begun

The Washington Post

WASHINGTON The U.S. Agriculture Department - using techniques developed in part during a study that revealed striking patterns of wealth, absentee ownership and estate size in Rappahannock County. Va. — has begun the first nationwide survey of land ownership in the United States.

The study of Rappahannock County, located in the Blue Ridge mountains 70 miles west of Washington, found that 53 percent of the land owners lived elsewhere.

The study, conducted by USDA senior economist Gene Wunderlich, also found that only five percent of the owners were primarily farmers and that 41 percent of the land was owned by people with annual incomes of at least \$50,000.

Demand for the national study, long sought by agricultural economists worried by the steady decline of crop land in the United States, was sharply increased recently by worries over the potential impact of widespread foreign investment here.

The study is designed to develop information on such things as the income, nationality, place of residence, age, race and sex of the owners not now existing on a national basis and this study will provide a base line to measure future changes in land ownership and use.

'It's clearly recognized that there is a serious lack of data on land ownership, Wunderlich said. "For example, if we want to know how a farm subsidy really affects a community we need to know something about the structure land ownership.'

Robert Otte, also an economist in the Natural Resource Economics of income and residence related to Division of the Economic Statistics and Cooperatives Service. "We've had a piecemeal survey of farmland, but this will be the first survey of the entire land surface area of the nation. Each parcel of land will not be surveyed, but data will be amassed, from a sampling of land owners considered large enough to provide statistically valid results.

Otte said questionnaires have been mailed out in recent weeks to owners of about 70,000 "points" of land. Only Alaska, which has little farmland, and central cities will not be included according to Wunderlich and Otte.

The "points" are sites picked by the Soil Conervation Service for which the owner, soil type and land use already are known. By next fall, information from detailed questions about the owner will begin to be correlated.

"We should be able to say how much land is owned by very large owners - over one million acres and how much is owned in tracts of less than an acre. We should be able to determine how much land is owned by individuals and how much by corporations," Otte said

Wunderlich said, "This will provide us core data with which we could test hypotheses such as does age or income make a difference in land conservation. The intent is to give us a core of data which does not now exist.

Wunderlich also is working in two closely related areas. Under the International Investment Survey Act of 1976, USDA was directed to examine the feasibility of a system of monitoring foreign investment in U.S. real estate. Currently overseas money may be masked through corporations or U.S. front men.

Wunderlich said methods of tracking foreign investment could range from a simple foreign registration law to a more complex and useful computerized land information system.

He designed and tested such a computerized system in Rappahannock County, describing it in a USDA publicationn as "an inexpensive land information system

suitable for small rural counties." If compatible systems were installed in all 3,000 of the nation's counties, computer linkages could provide continuous, up-to-date information on changes in land use through development, foreign investment or the impact of tax changes, Wunderlich said.

His system uses a special code for each parcel and links tax, transfer. and land use records to provide extensive data useful for such things as tax billing, assessent and planning

decisions. Wunderlich, after an actual test of the system, concluded that it would satisfy all legal record keeping requirements and save the county money by eliminating operations now

Wunderlich's survey of Rap-pahanock County, published in 1975, revealed that 47 percent of the owners, owning 58 percent of the land, lived in the scenic, rural county. Forty-three percent of the owners considered themselves to be in professional, managerial or technical occupations and an additional 25 percent were retired. Only five percent were farmers.

Only nine percent of the owners reported incomes of \$50,000 or more, but they owned 41 percent of the land. Owners with income under \$10,000 made up 31 percent of the total but owned only 13 percent of the land.

WASHINGTON - President Carter has decided not to propose any changes in his \$25 billion tax reduction and "tax reform" bill, even though the plan is in serious trouble in the House Ways and Means Committee, administration officials said Monday

Instead, these officials said, Carter will "ride out" whatever changes the panel makes, and then will try to reinstate his original proposals when the bill comes up on the House floor and, later, in the Senate.

Officials said the president made the decision after a late afternoon

meeting with two GOP members of the Ways and Means Panel in which the Republicans advised him to stand by his proposals despite considerable opposition

Senior Democrats on the Ways and Means Committee have been urging Carter to withdraw most of his "tax reform" proposals and trim the overall size of the tax reductions, in order to avoid further defeats during the bill's markup. But aides said Monday Carter will "not retreat

Carter's decision was conveyed to key administration officials in a series of meetings at the White House following the president's conference

with the Ways and Means Republicans. Carter is said to have pledged to work more closely with committee members to try to avert further setbacks

The administration has also decided to push for approval of its energy bill by a House-Senate conference committee before it renews its campaign for enactment of the tax plan. The White House still is pressing for passage of a crude oil excise tax to discourage energy consumption.

The Ways and Means Panel formally laid aside the tax bill Monday ostensibly to allow members more time to work on the newly revived energy bill. The tax package had suffered a week of defeats as the panel systematically rejected many of Carter's "tax reform" proposals.

The president's decision culminated a week of talks between Carter and Ways and Means Committee members in which key Democrats told him bluntly his tax proposal was in danger of being scrapped. Carter was reported to have said he was "shocked" to hear the bill was in such trouble.

There was no immediate indication how Carter's decision would fare with committee members. The chairman, Al Ullman, D-Ore., has been working closely with the administration, but many liberals and conservatives on the panel appear to be rebelling against the administration's tax package.

Monday that members still were divided sharply over what provisions the tax bill should contain, making it unlikely that a compromise will come easily. Vice President Mondale is heading an administration task force to assess the outlook for Carter's "tax reform" proposal.

Ullman said Monday that the idea for the committee to postpone further consideration of the tax bill for a week had been "cleared with the White House." The committee is expected to resume its drafting of the tax bill possibly next week.

In their visit with the president Monday, the two Republicans, Reps. Barber B. Conable, R-N.Y., and William Frenzel, R-Minn., urged Carter not to retreat on his original tax proposals, but simply to work with the committee to push through a sizable tax cut

'We told him not to panic, that we were willing to cooperate with him on getting the tax bill to the floor," said Conable who is the panel's ranking minority member.

### Organized crime strong in unions 20 years after first inquiry

WASHINGTON (AP) - Two decades after a Senate committee laid bare a pattern of racketeering in parts of the labor movement, another Senate panel is being told that organized crime still enjoys wide influence over some unions.

Justice Department lawyer Thomas Puccio told the Senate permanent investigations subcommittee that "...many of the individuals whose names first surfaced during those hearings (in the late 1950s) are today principal figures in illegal labor activities now under investigation ....

The Senate panel was listening attack from some quarters on Monday for not doing enough to help the anti-racketeering effort.

Justice Department lawyers said there were not enough specially trained Labor Department investigators assigned to the organized crime strike forces set up by the Justice Department.

And Sen. Sam Nunn, D-Ga., acting subcommittee chairman, said, "It is apparent that the Labor Department. needs more people and they need to have a new attitude and a new spirit."

In testimony Monday, acting Deputy Attorney General Benjamin Civiletti said an estimated 300 union locals across the country are "severely influenced" by racketeers, with most of the locals affiliated with a handful of unnamed national and international organizations.

There are an estimated 75,000 union locals nationwide.

Civiletti told the subcommittee the federal government's organized crime strike force program "is alive and well, and...we have intensified our efforts in the area of labormanagement racketeering. He said investigators look into

cases such as these: -"Ghost"employees, frequently organized crime members, paid for

doing no work. -Kickbacks to trustees of pension

funds in return for loans to shaky investment projects that in turn are looted.

-Payoffs to union officials in return for keeping an employer's labor costs to a minimum -Embezzlement from union

Civiletti told the panel he was

satisfied with an agreement recently

reached by Justice and Labor department officials concerning the contribution the Labor Department will make to the organized crime strike force effort.

The department will assign 15 investigators full time to the strike forces and will ask the Office of Management and Budget for an additional 125 investigators who would be available as needed.

#### DEATHS

#### Mrs. Kinkle

SUN CITY, Calif. - Mrs. William . (Jacque) Kinkle, formerly of Midland, died Saturday here.

No services are planned The Kinkles moved to Midland in the 1920s. They moved to San Diego. Calif., about 10 years ago.

Survivors include her husband; a daughter, Connie Brannen of Rosamond, Calif., and two grandsons. The Kinkles resided at 26251 McCall Boulevard, Sun City.

### J. A. Fogerson

FORT COLLINS, Colo. - Janie A. Fogerson, 84, died Sunday in a Fort Collins nursing home following a lengthy illness. She was the mother of Jack D. Fogerson of Midland and the sister of Ida Harwell of Hobbs, N.M. Services will be at 1 p.m. Wed-

nesday in Warren Funeral Chapel here with the Rev. Joseph R. Laughlin, pastor of the First United Presbyterian Church here, officiating. Burial will be in Grandview

Mrs. Fogerson was born March 15. 1894, in Palmer. She had lived in Clovis, N.M., 40 years before moving to Fort Collins in 1972. She married Zeth Fogerson Nov. 11, 1915, in Silverton. He died Jan. 2, 1976. She was a member of the First United Presbyterian Church here.

Survivors also include two other sisters, a brother and two grand-

### J. D. Page

Services for J. D. Page, 40, of 504 E. Dakota Ave. were held Monday in Newnie W. Ellis Funeral Home with burial in Resthaven Memorial Park.

Page died Friday afternoon in a Dallas hospital. He had been in failing health several years.

Pallbearers were to be Daie Ivie. Tony Wynne, Buddy Brothers, Freddie Haynes, David Jones and

#### L. W. Hanson

ODESSA - Lottie W. Hanson, 72. died Sunday in an Odessa hospital following a lengthy illness.

Services were to be at 10 a.m. today in Easterling Funeral Home with burial in Odessa Cemetery.

Mrs. Hanson was born Jan. 15, 1906, in Coleman. She married Ares Edgar Hanson April 9, 1936, in Brady. They moved to Odessa from Coleman in 1952. She was a member of the Northside Baptist Church.

Survivors include three daughters, Launa Reese of Midland, Ann Harrell of Fort Stockton and Mrs. WillEdd Greenwade of Pilot Point; a brother. A. K. Brady of Houston; a sister, Laura Hamm of Soquel, Calif., seven grandchildren and four greatgrandchildren.

### Dan Vogel

Dan P. Vogel, 58, of Route 3, died donday in his home.

Services will be at 2 p.m. Wednesday in the Howell-Doran Funeral Home in San Saba County with burial in High Valley Cemetery. Local arrangements are being handled by Newnie W. Ellis Funeral Home. Vogel was born March 11, 1920, in

San Saba County. He moved to Sonora n 1950 and worked as a ranch foreman at several ranches. In 1956, he moved to Midland and worked for the Midland Independent School District. In 1965 he went to work for he city of Midland.

Survivors include his wife, Bessie Vogel a son, Norvel Vogel of Midland: daughter, Rebecca Teague of Lovington, N.M.; his father, E. F. Vogel of Richland Springs; three brothers, Edgar T. Vogel of San Saba. W. T. Vogel of Lampasas and Joe Vogel of Odessa, and four grand-

#### Mrs. Coleman

SAN ANGELO - Services for Mrs. R. (June) Coleman, daughter of Mr. and Mrs. Steve Kennedy of Big Spring, were to be at 2:30 p.m. today in the First Baptist Church in Bronte with the Rev. Fred M. Wiesen of the Park Heights Baptist Church and the Rev. Cecil Harper, pastor, officiating. Burial was to be in Fairview Cemetery in Bronte directed by

Johnson's Funeral Home of San Angelo.
Mrs. Coleman died Monday in a San

Angelo hospital. Other survivors include her husband, a son, three sisters and two grandchildren.

### M. C. Hamby

BIG SPRING-Services for M. C. "Mell" Hamby, 75, were to be at 10 a.m. today in NalleyPickle Funeral Home. Burial was to be in Trinity Memorial Park.

Hamby died Sunday night in a Big Spring hospital.

He was born Nov. 7, 1902, in Caldran, Ark. He married Elsie Horner Dec. 10, 1921, in Floral, Ark. He was a retired oil operator and a member of Wesley United Methodist

Church Survivors include his wife, Elsie Hamby; a daughter, Valena Bryant of Big Spring: a brother, Joe Hamby of Big Spring; a sister, Mrs. Waldo Stewart of Odessa, six grandchildren and 11 great-grandchildren.

#### Mrs. Mosier

ODESSA - Services for Lucille Juhree Mosier, 58, of Odessa were held Monday in Hubbard-Kelly Funeral Home here Burial was in Sunset Memorial Gardens

Mrs. Mosier died Sunday in an Odessa hospital after a lengthy

She was born May 20, 1919, in Elk City, Okla., and came to Odessa in 1950 from Monahans. She married Roy V. Mosier March 2, 1940, in Monahans. She was a member of Morning Star Fellowship Church.

Survivors include her husband; a son, Gary V. Mosier of Odessa; two daughters, Barbara Green and Bettie Cravens, both of Odessa; her parents, Mr. and Mrs. R. L. Reed of Elk City. Okla.; two brothers, Richard Reed of Wichita Falls and Doyle Reed of Elk City, Okla.; five sisters, Lillie Mae Williams of Tilla Toba, Miss., Marie Mayer of Wichita Falls, Twinkle Chitwood of Elk City, Okla., Violet Anderson of Big Spring and Ruby Anderson of Amarillo, and eight grandchildren

#### Lillie Davis

MESQUITE - Services for Lillie Davis, 79, of Mesquite, mother of Floyd Burns of Midland, were to be at 11 a.m. today in the Friendship Baptist Church in Dallas with the Rev. Charles Breithaupt, pastor. officiating and the Rev. M. D. Franks,

assistant minister, assisting. Burial was to be in Grove Hill Cemetery in Dallas directed by Anderson-Clayton Bros. funeral home of Mesquite:

Mrs. Davis died Monday in a Dallas hospital following a 13-day illness. She was born July 14, 1898, and had been a Mesquite resident the past 18

Survivors also include her husband. a son, a sister, a half-sister and three grandchildren.

### Law review hearings completed

The Los Angeles Times

WASHINGTON - A House Judiciary subcommittee completed hearings Monday on a controversial bill to revise the entie body of federal criminal law

The last witness, Robert Fiske, U.S. attorney for the South District of New York, was the 110th witness to testify before the subcommittee on criminal justice, which began considering the bill after it passed the Senate Jan. 30 on a 72-15 vote.

As it now stands, the bill would consolidate scattered federal statutes in an easier-to-read digest and make important changes in present law.

It would, for example, set up a sentencing guidlines system for federal courts to eliminate what the The Washington Post bill's sponsors have called unwarranted disparities in sentencing procedures used by some federal

Fiske told the subcommittee he had been asked by Attorney General Griffin B. Bell to analyze the bill and determine whether it would aid federal prosecutors in doing their job. Fiske testified that it would make "a positive contribution.

In general, federal judges, many law professors and the Department of Justice support the code revision. The American Civil Liberties Union has criticized it as an infringement on freedom of speech and assembly and on the constitutional right of defen-

Subcommittee members have refrained from taking a stand on the bill so far, with the exception of Rep. Elizabeth Holtzman, D-N.Y., who has come out against it.

Subcommittee members plan to spend several weeks digesting material from thehearings and then begin drafting their version of the legislation. If congressional action is to be completed this session, sources on the subcommittee said, the bill must clear the full committee by early July.

The difficulty in moving quickly on the legislation lies in the need to balance the rights of an accused with the needs of a prosecutor.

That problem was illustrated in testimony Monday on proposed changes in the rape statutes.

Carolyn Bode of the Women's Lobby organization testified in support of limitations the bill place on the admissibility of evidence of a rape victim's past sexual history.

"It's been shown that a victim's sexual history is in most cases irrelevant, and when admitted as evidence is highly prejudicial," she said.

She was followed by Georgetown University law professor Paul Rothstein, who said a prohibition on such evidence would deny an accused a fair trial.

Rothstein suggested that a number of specific grounds for admission of sexual history evidence be written into the law. He cited psychiatric conditions of victims that might include sexual fantasies and evidence of a pattern of behavior tending to prove

that a victim had consented. The professor said the defense should be required to give advance notice that such evidence would be presented and that the trial judge should hold a preliminary hearing in the absence of the jury to determine whether the evidence was admissible.

## Russians soften slightly on NATO Key issues at stratgic arms talks

By OSWALD JOHNSTON The Los Angeles Times

WASHINGTON - The tight lid of secrecy on Secretary of State Cyrus R. Vance's strategic arms talks last week in Moscow was lifted slightly Monday with a cautious claim that the Russians had yielded slightly on the complex issue of transferring weapons technology from the United States to U.S. allies in Europe.

Vance stopped overnight in London to confer with representatives of the other Western powers involved in negotiating a peaceful South African withdrawal from Namibia. He is understood to have touched briefly on the technology question in a separate meeting Sunday with Hans-Dietrich Genscher, foreign minister of West Germany, the European ally most concerned with that issue.

On the way to Washington Monday. reporters were told that Vance is confident that he allayed the concern of Western European allies that "we might not end up with a treaty that maintains their security as well a ours.

The Moscow mission, which also took Vance to southern Africa and covered about 25,000 miles, ended late Monday with a report to President Carter at the White House

Upon arival at AndrwspAir Force Base outside Washington, Vance said in a statement that he had achieved some forward progress in a number of matters." Reporters were told that he does not intend to divulge publcly any details of what he accomplished.

At the White House, Vance gave President Carter a 90-minute report on his trip. Meeting briefly with reporters as he left, the secretary pointedly avoided specifics of the Moscow Talks

"All I'm going to say is that some progress was made," Vance said, adding that in negotiations with Moscow, "The mark of the seriousness of the negotiation is the confidentiality of the negotiations."

The Russians regarded it as "a propaganda exercise." Vance said, "if one gets into detailed public discussion of matters under negotiation." Because he was anxious to do nothing to jeopardize "the serious negotiations going on between us," he said, he intended to say only that "the talks were useful and ... we made some pro-

Vance conceded to a questioner that this attitude represented a shift from the position he took last year on his first trip to Moscow, when he spoke on the issues frequently and in some

Reply ing to another question. Vance said he thought agreement on a strategicarms limitation treaty "could be this year." but he could fix no firm date.

Vance called it "significant" that Soviet President Leonid I. Brezhnev. in a statement issued after their meeting, "indicated that both sides have to work together" to achieve an arms agrement. Past Soviet statements have sought concessions by Washingon, not Moscow.

On the African segment of his trip, Vance said he felt: That he and British Foreign Minister David Owen made "some progress on a couple of the key issues: in their meetings with the Rhodesian Patriotic Front. He conceded "differences of view" with the front, but commended it for acceptance in principle of Anglo-American proposals that a Britishappointed resident commissioner have exclusive powers in the areas of internal security and defense and that the United Nations should supervise a Rhodesian cease-fire.

Despite Vance's reluctance to go into detail about his discussions in Moscow, reporters accompanying him from London to Washington were told in guarded terms that the Russians have tentatively agreed to drop their insistence that any new strategic arms agreement contain an outright ban on the transfer of U.S. technology involving weapons such as the cruise missile, whose range and deployment would be limited in other parts of the SALT package.

In return, the Russians are believed to have accepted a formal American assurance that the North Atlantic Treaty organization - whose members would not be signatories to an arms treaty and not bound by it would nevertheless be subject to the same restraints cruise missiles that would bind the United States.

Under the compromise, if it holds up, NATO access to weapons banned under the treaty would be restricted under a general "non-circumvention" clause rather than by any U.S. promise to limit cooperation with NATO. Any such promise would have been unacceptable to the alliance, especially to the West Germans, and would have raised fierce opposition to the treaty in the Senate. The progress made on the circumvention issue. described as "considerable" was said to be the main achievement of Vance's three days of talks in Moscow. The issue had been described as one of three key issues that will have to be solved before a treaty can be agreed on.

The "non-circumvention" clause would assure the Russians that the United States would not circumvent limitations on the cruise missile by

making the weapon, or the technology available to its NATO allies.

The other two issues involve putting limits on the modernization of existing missiles and the deployment of new missiles, and imposing construction and deployment limits on the Soviet mid-range Backfire bomber to prevent its use on strategic missions against the United States.

### Melody nostalgia Mark Les Brown

Midland Community Concerts Association gave its members a full measure of nostalgia, and lots of good, listenable music, when it presented Les Brown and the "Band of Renown" in concert Monday night as the association's fifth and final entertainment event of the current season

The Midland High School auditorium was almost at capacity for the event, and a near-full house it remained for the entire concert although the program was a long one. The audience was rapt and extremely attentive throughout the evening.

Part of the success of the concert is attributable, no doubt, to the fact the event was billed as a salute to Glenn Miller. Actually, only about half the program was devoted to Miller and many of the songs he made famous. The first segment of the program presented the Brown band in a wide spectrum of "oldies and goodies" that were every bit as pleasing to the ear.

Among the Band of Renown's many offerings were "Satin Doll," "On A Clear Day," "I've Got My Love to Keep Me Warm" and the band's theme song, "Leap Frog." A firstrate production number was Richard Rodgers' "Slaughter on 10th Avenue," featuring various instrumentalists of the band. In a more contemporary vein, the band offered the theme from the recent movie. 'Rocky." It was well done.

Vocalist Jo Ann Greer was featured in a set consisting of "Sentimental

Journey." "My Funny Valentine." "Our Love Is Here to Stay" and "Kiss Today Goodbye." Vocalist Stumpy Brown offered "Sing" and "Opus I." and vocalist Butch Stone (a member of the Brown band since 1941) gave out with hoked-up versions of "A Good Man Is Hard to Find," "Bad, Bad Leroy Brown" and "Old Man Time."

The second portion of the concert. the part paying tribute to the great Glenn Miller, started off, appropriately, with the band playing "In the Mood." Then, vocalist Ray Eberle, who joined the Miller orchestra in 1938, came on stage to sing some of the songs he helped make famous. They included "Serenade in Blue," "At Last," "Blue Champagne" and "Where Or When," plus a loaned" song, "Tangerine."

Finally, to round out the evening, singer Paula Kelly and the Modernaires, who also had been part of the Miller band in its golden era, made their musical contributions. The foursome presented their distinctive arrangements of "Little Brown Jug," "Out of the Blue," "Juke Box Saturday Night," "Dream," Laughter in the Rain," "Don't Sit Under the Apple Tree With Anyone Else But Me," "Chattanooga Choo-Choo," "Moonlight Serenade," "Blue Velvet" and "Sunny Side of the Street." Ray Eberle joined the group in singing such old favorites as 'Moonlight Cocktail" and "Elmer's

# Models discover they are persons

By DAVID BEHRENS Newsday

The Beautiful Model is everywhere. Her choice of shampoo foams across our TV screen. Her choice of perfume wafts across our magazine page. Her choice of lover gossips out of our newspaper columns.

Her presence does not surprise us at all. After all, she has been selling for a long time - everything from diamonds to diapers, from fashions to foodstuffs. But today, something new is happening. The Beautiful Model has discovered a new product:

For example, fashion model Cheryl Tiegs, zooming to celebrity status in one well-planned year, makes the cover of Time magazine. Farrah Fawcett-Majors, once a model for shampoo, becomes the hottest pin-up poster since Betty Grable. And in the eternal battle over women's skin, Margaux Hemingway and Lauren Hutton reach new heights, rising out of the plush trenches of multimilliondollar cosmetic warfare.

These are new role models: the model as personage, as celebrity, as superstar. Now, we even know where she discoe'd last night and with

But it was not always this way. There were periods when beautiful women were simply glorious but unknown. Their faces were recurring but nameless. Most often, they were hardworking and underpaid. The great models mirrored much of our

social history. At times, they reflected Woman as stylized sex object and dependent creature; in more recent times, they have characterized modern women's striving for freedom of movement and self-expression. They have reflected some of the worst and some of the best in ourselves self-deceptions and dreams, petty biases and ideals. Yes, of course, beauty is skin-deep, but why not look like Suzy Parker, the greatest model of them all? -

There is no Hall of Fame for the great models of the past and, perhaps, rightly so. Suzy Parker, who reigned

MR. AND MRS. L. E. Malone of 3518 Seaboard St. announce the marriage of their daughter, Suzanne Malone, to James Lynn Powers, son of Mr. and Mrs. Alan Ware of Houston.

### **Dallasite** to address association

Valerie Willard Althouse of Dallas, a speaker on a wide range of subjects, many of them in the field of ESP, psychic phenomena, parapsychology and astrology, will be the speaker for the Midland Country Club Ladies' Association luncheon Friday in the clubhouse.

There will be a social period at 11:30 a.m., followed with the luncheon and

Since 1969, Mrs. Althouse, wife of the Rev. Lawrence W. Althouse, a United Methodist minister and writer, has been a weekly lecturer at the famed Neiman-Marcus Greenhouse in Arlington. In addition, she is a personal consultant who interprets dreams, analyzes handwriting, makes palm analyses, computes numerology charts, teaches classes in parapsychology, instructs Yoga and erects astrology charts.

While conducting a psychiatric research program for the American Medical Association in 1954, she met and formed a firm friendship with a young woman medical doctor, a Hin-

for nearly two decades as America's premier model and as a movie star in the late '50s and early '60s, suggested one rason: "In the old days, being recognized was the beginning of the end for most models." The designer, she said, wanted you to look at the dress, not at a familiar face.

Now married to actor Bradford Dillman, Parker looks back on her modeling career with affection and amusement. Thanks to her association with photographer Richard Avedon, she was allowed to be "more than a coat hanger." she recalls. But, Parker said, she nver forgot that the job of a fashion model was to model

"I didn't get to wear the Dior dresses. I wore the shlock dresses those terrible little \$10 dresses. The people who hired me were desperate. They just hoped I could make those dresses look like something. I had to sell them. That's why I earned that much money. That's a little like Babe Ruth saying

all he did was hit home runs. But even so, in the big legues of fashion modeling, the DiMaggios and the Ruths are remembered, too. So with the help of experts, reviewing dozens of greats and near-greats, it is possible to come up with an all-star line-up, a photographer's "dream team." The list was compiled with the help of Jerry Ford, co-owner with his wife, former model Eileen Ford, of Ford Models Inc., largest model agency in the world; Susan Slavin, models editor for Vogue Magazine; Louise Roberts, vice president of the Stewart Models Agency, and others in the field. Here is the Divine Dozen: The 40s - Lisa Fonssagrives, Dorian Leigh, Carmen.

The '50s - Suzy Parker, Jean Patchett, Dovima, Dolores Hawkins. The '60s — Jean Shrimpton, Twiggy, Wilhelmina, Veruschka.

The early '70s - Lauren Hutton. It all began more than 100 years ago with a Parisian shopgirl named Maria ernet Worth, according to Charles Castle, author of "Model Girl," a newly published history of the world of models. Mrs. Worth became the first professional mannequin in 1852 to help her husband, a dress salesman.

Today, the top models become media stars, wheeling and dealing for up to \$2,000 a day, winning exclusive contracts from firms such as Revion. Faberge and Chanel, breaking into films, seemingly staying young forever.

When Suzy Parker began her modeling career in 1948 as a tall, freckle-faced adolescent, the best models were paid \$25 an hour. When she retired in 1965, her modeling fee had soared to \$120 an hour, unheard of at that time. And her annual earnings were more than \$100,000, also spectacular for the period. She was famous as a fashion model, even before she became a movie star, starring in such films as "Ten North Frederick," with Gary Cooper.

But Parker's 17-year career was certainly the exception, according to Vogue's Susan Slavin. Vogue, for example, is likely to use a model for only four or five years, while her face is still not too familiar, Slavin said. Like a butterfly or a ballerina, the brilliance is often fleeting.

Parker was another story. "Just a classic, classic beauty, a face that no one would ever grow tired of," Slavin said. It was a look, she said, that had a timelessness and a classic quality. and yet it was an American look "Like the Lauren Hutton look, which is not classic. Parker looked the way Americans like to see themselves."

### Same tricks used today to cut food costs

By MARIAN BURROS The Washington Post

WASHINGTON - One recent Saturday morning, as Esther Peterson, the Carter administration's consumer advisor, tried to push a cart down the aisles of a supermarket, she was "mobbed" by frustrated shoppers seeking advice on how to cope with the spiralling cost of food

"Should we boycott beef?" "What are we going to do? I can't afford to buy food anymore!"

"Esther, where are you now that we need you?

Peterson's mailbox at the White House reflects thhe same concerns. It is filled with letters from increasingly militant consumers, who must have a feeling of deja vu.

In 1973 and '74, food prices rose more than 14 percent a year. For each of the first two months of this year food prices rose well over 1 percent, which means that before the year is out they could rise as much or more than they did five years ago.

Some of the same tricks that have been successful in cutting food costs in the past still work today.

There are two cardinal principles to

One is to buy as little processed food as possible, whether it means slicing your own cheese, peeling your own potatoes or making your own chickencoating mix.

The other is to seek out those products with the least amount of packaging, manufactured by com-

panies that do little or no advertising. One of the more dramatic examples involves cereal. Quaker Oats produces Puffed Wheat and Puffed Rice, which are packaged in traditional boxes lined with plastic coated paper.

These cereals sell for between \$1.58 and \$1.84 a pound. General Mills produces Cheerios, which sells for \$1.23 a

A small company in Minneapolis, Malt-O-Meal, also produces puffed wheat and rice and a product similar to Cheerios called Toasty-O's. They are not advertised and are packaged in see-through plastic bags that a company official says are 10 cents cheaper than the standard box liner. In addition, Malt-O-Meal fortifies the puffed cereals with iron and three B vitamins - thiamine, niacin and riboflavin. Quaker does not fortify its competing products. But 16 ounces of either Malt-O-Meal cereal, wheat or rice, sells for \$1.04. Malt-O-Meal's answer to Cheerios sells for 80 cents.

One is hard put to tell the difference in taste between the nationally advertised brands and the less expensive Strickland alternatives. Yet Malt-O-Meal does not have wide distribution in this area; only Safeway carries its pro-

significant savings, but they do cost a few cents less than their name-brand counterparts and often are manufactured by the same well-known companies. A recent price check showed with Carlson that when Campbell's Tomato Soup was 4 for \$1, the house brand was 4 for 89 cents. A pound of house-brand butter was \$1.49; the name brand was aluminum foil would have saved 4 cents; of salt, another 4 cents.

It's also a good idea to read the unit pricing on the shelf label - used by many stores. It does the cost comparisons for you, relieving you of the time-consuming chore of calculating in the Westside Church of Christ.

costs per ounce, per sheet or per yard. Unit prices can warn shoppers that

if they buy individually wrapped sliced American cheese instead of unsliced cheese or sliced cheese without paper between each piece, they will be paying more money; that a whole piece of liverwurst is less per pound than sliced liverwurst; that it's much cheaper to buy non-fat dry milk in bulk than in individual packages

The difference between the prices of other convenience foods and the raw ingredients from which they are made is not so easy to spot.

-Frozen-in-the-bag vegetables with sauces are a very costly way to serve vegetables. Often the sauces

House brands do not offer such TO SQY VOWS

Mr. and Mrs. Gaylon N. Strickland \$1.53. Buying the house brand of of 3815 Monty Drive announce the engagement of their daughter. Karen Sue, to Steven Wayne Carlson, son of Mr. and Mrs. C. C. Carlson of 3816 Monty Drive.

The wedding is set for 3 p.m. May 6

are nothing more than a pat of butter and a little salt or some cheese mixed with milk to make a cheese sauce. It is quite simple to cook plain frozen vegetables and season them for a fraction of the cost, as much as 20 or 30 cents less for two servings.

—There is no way to know by reading labels that the new alter-natives to 100 percent coffee, products such as Sunrise and Mellow Roast. contain almost as much cereal grain as ground coffee. For those who choose such products because they prefer the taste, price may be unimportant. But there is no savings between the price of the cereal-coffee products and the house brands of pure coffee sold by many local super-

## DEAR ABBY

## His preoccupation with death bores friend

By ABIGAIL VAN BUREN

DEAR ABBY: A classmate of mine who lives down the block is slowly driving me up a wall. Here's how it all started:

A few months ago we both started taking an extension course in human behavior at a nearby university. When it came time to pick topics for term papers, this guy I know picked the subject of death. Ever since then I've had it up to my ears with questions like, "Shirley, would you rather die in a plane crash or in an auto accident?" Or, "Would you rather drown or burn to death?"

He's a nice guy, but he has become so preoccupied with death that he's driving me crazy. Every time I see him, he starts in with these depressing questions about death. I've tried avoiding him, but unless I drop the course (which is almost over), it's going to be impossible.

What should I do? I feel like telling him to lease a hearse and leave

DEAR SHIRLEY: Tell your friend that you'd rather die by drowning, accident or fire than be bored to death. And he is becoming a colossal

DEAR ABBY: I am a widow, living on a fixed and very limited income. I have a neighbor who is always hounding me to buy raffle tickets. greeting cards, cosmetics, etc.

want nor need, although I've bought a few things just to get rid of her.

Please help me. I am running out of excuses, and she is very persistent .-SUMMERVILLE, GA. DEAR SUMMERVILLE: As long

as you offer excuses instead of reasons, your neighbor will continue to hound you. Simply tell her that you can't afford it, and that will be the end DEAR ABBY: I know you hear

from plenty of children who wish their parents wouldn't interfere in their lives so much, but what do you think of parents who expect their children who have left the nest to call and write, but who never phone their children or scribble a note to find out how the children are doing?

I am constantly in touch with my parents, as are my older brothers and sisters, yet we feel rather hurt that they don't, on occasion, contact us. It would be nice to think that maybe they wonder how we weathered the last crisis or how the new job is going. Just because we've grown up and out of their hair shouldn't mean that we've also gone out of their thoughts. I'm always hearing how they're doing when I call, but seldom do I get a thoughtful. "How's everything going with you?" I'd sure appreciate your thoughts on this .- SET ADRIFT

DEAR SET: Are you putting me on? Many more children who have

I can't afford to buy things I neither flown the nest neglect their parents than the other way around. Stop sulking in silence. Speak up. To THEM-not to me!

> DEAR ABBY: I am an unattached woman in my early 50s. I frequently receive dinner invitations from gentlemen who come to town on business, having been in business myself for many years. I enjoy their company and want to reciprocate without the muss and fuss of preparing a dinner for two in my own apartment, so I invite them to be my

I stress that they are to be MY guests, but somehow, when the bill is presented, I wind up being the guest. In order to avoid a scene, I quietly yield, but it bothers me because I know that in some cases I can better afford to pay the check than the gentleman. How does a lady get the check when she truly wants to be the hostess?—ALWAYS THE GUEST

guests at a fine restaurant.

DEAR GUEST: When she makes the dinner reservation, she selects a restaurant where she is known and has credit. She instructs the maitre d' to charge everything to her account. including the usual gratuities. No muss, no fuss, no check, no embarrassment, and everyone will be

DEAR ABBY: This winter, as in

home to friends and relatives who are eager for a reprieve from the bitter north winds.

We enjoy having houseguests, but some of them leave our guest room in worse shape than they would leave a motel room! We have no help in the house, and we both work, so we can't very well clean up after them daily.

Do you know of a pamphlet or a short publication with a few tips on how to be a good houseguest? Even a poster would do it. Thanks.—LIVES IN FLORIDA

DEAR LIVES: Putting up a poster would be about as subtle as a kick in the shins, so if you're willing to go that far, simply tell thos guests who need it (and you should know who they are by

now) exactly what you've told me. CONFIDENTIAL TO YOU: If you are into contemporary poetry, get Jim Kavanaugh's newest book of poems titled, "Winter Has Lasted Too Long." I loved it. If your local bookstore doesn't have it, it should

THE STRAIGHT LINE TO

# Male children no longer preferred over female

NEW YORK-Male children are no longer preferred over female ones, according to a survey released in which 80,000 young women revealed that, contrary to current public opinion, motherhood is still the most important event in a woman's life.

Twenty-five percent of the married women who participated in the survey conducted by Redbook magazine and reported in its curent (May) issue, said, in fact, that they planned to have a baby this year, and two children was considered the ideal number to

Nearly all the survey respondents (97%) said they consider childrearing an emotional and intellectual experience, and 67% believe it is a total full-time commitment for a woman. However, 66%, of the women agreed that a child can be adequately cared for by a good day-care center of a loving mother substitute while a mother works.

The working women who par-

ticipated in the survey felt committed quisite before having children. Finanand positive about having children. but they were less likely (58%) than homemakers (72%) to say they'd feel "incomplete" without a child: While 66% of the non-working women considered childbearing the most important event in a woman's life, fewer than half of the full-time workers

Although 58% of the survey respondents said they had no preference about the gender of their children, a slightly higher percentage (21%) said they would prefer a girl than said they would prefer a boy (19%). But the most significant indication that the age old preference for sons no longer exists is found in the 8% who said they would increase their family size for a girl, compared to only 6% who said they would do so.

'A happy, stable marriage" was cited by more than half (54%) the women as the most important prere-

cial security rated second and emotional maturity third. When asked, however, what factors would affect the size of their family. 66% listed the 'number of children I could afford." And 78% said that people who can't afford to properly care for children should be discouraged from having

Birth control seems to be successful for the majority of women. Only 21% said they had not planned their first child. While the survey indicated an overall trend toward zero population growth, Catholics still want more children than other women. Forty-two percent of the Catholic women said they wanted three or four children, while 67% of Protestant and Jewish women wanted only one or two.

The average age of the survey participants, who completed a questionnaire published in Redbook last

### Fall styles returning to '40s look

By BETTY OMMERMAN

If you're a clothes-saver from way back, or young enough to enjoy browsing through thrift shops for vintage styles, then you're in luck. For you probably already have one of the big looks from Paris for next fall - the padded shoulder. The wider shoulder, a throwback to

the 1940s, complete with nipped in waist and pared-down skirts, appeared throughout the designer ready-to-wear collections shown last week. And, if the idea of going backward me (a fashion pastime) doesn't appeal to you, then you may prefer clothes that make you look as padded as a modern-day football player or a character out of "Star.

The '40s look is best exemplified by the Joan Crawford film costumes. which seem almost re-created by Jean-Louis Scherrer in houndstooth check tweed suits with squareshouldered jackets, belted waist and slim mid-calf skirts. Jean Claude de Luca, one of Paris' hottest new designers, also included brightly colored satin gowns with high puffy shoulders and deep V-necklines accessoried by harlequin-shaped dark

Debutantes presented by the City Federation of Black Women's Clubs include, left to right, seated, Laura McCoy, Amelia Grant, Ava Lott, Terri Thomas, Joan Mason, Janet Johnson and Pamela

Thomas, and, standing, Glenice Carter, Alfreda Hubbard, Donna Nelson, Ruby Taylor, Carla Harnage, Roesandra Jackson, Sandra Johnson and Genette Garnett. (Staff Photo)

FORT WORTH - LaVonna Christina Gates, daughter of Mrs. Christine Gates of Grapevine, and Kirk Austin Franks, son of Mr. and Mrs. Toney Franks of Midland, were married at 2 p.m. Sunday in the Fort Worth Botanic Gardens.

Norman Beaver of Irving was the officiating minister.

Betty Crossland of Carrollton was the maid of honor, and Mrs. Bruce Coonfield of Bentonville, Ark., was matron of honor. The best man was Mike Koblentz of Richardson.

After a wedding trip to the Ozark Mountains, Arkansas and Missouri, the couple will reside in Carrollton.

The bride attended the Executive Secretarial School and National Beauty School and is a manicurist and manager of The Gates Way Health and Beauty Studio. The bridegroom attended DeVry Institute of Technology and is a design test engineer with Mostek Corp.

## The Midland Reporter-Telegram

TUESDAY, APRIL 25, 1978

BAYTOWN, Texas (AP) - U.S. Rep. Bob Eckhardt, DTexas, says the United States is getting the short end of the stick concerning competitive bidding with Canada for projects involving construction of the Alaskan Natural Gas Pipeline

U.S. Rep. Bob Gammage, DTexas. adds the United States "is giving

Canada the stick to hit us with. Both congressmen are members of the subcommittee on energy and power of the House Committee on Interstate and Foreign Commerce which met at city hall Monday. U.S. Rep. John Dingell, D-Mich., chairman of the subcommittee, also attended the hearing.

The congressmen were particularly critical of Canada's insistence that 54inch or 56-inch pipe be used for a 1,100 section of the 4,800 mile pipeline to be constructed from Alaska through

Canada to the lower 48 states. Eckhardt said that move effectively prevented any U.S. manufacturer from bidding for the project since no U.S. firm produces pipe larger than 48 inches. The U.S. Steel Texas Works plant here is the only American facility capable of manufacturing 48-

inch pipe. "I would like for this committee to probe why a 48-inch pipe made at a steel plant in Baytown and found to require the lowest cost of service, was rejected by Canada in favor of a pipe manufactured there," Eckhardt said. Construction is scheduled to begin in 1981 on the 4,800 mile pipeline at an

estimated cost of \$10 billion Gammage said Canada had set up an agency to assure that Canadian firms would get a large share of the projects connected with constructing

the pipeline. Gammage quoted Canadian Prime Minister Allas J. MacEachen as saying the Canadian government would try to assist the Canadian pipeline company's goal of having Canadian firms provide 90 per cent of the goods and services.

"We're not only taking it on the head, we're giving them the stick to

# Discovery

Cotton Petroleum Co. and Tomlinson Oil Co., of Wichita, Kansas, is preparing to take four-point gauges at a Fusselman discovery in the Worsham-Bayer multipay field of Reeves County.

rates flow

also announced location for a wildcat in Borden County. The Fusselman discovery is No. 1

Cotton, operating from Midland,

Meriwether, a re-entry project in Reeves County, 11.5 miles northwest of Coyanosa.

The operators reported a flow of 1.8 million cubic feet of gas per day, through perforations from 14,788 to 14,837 feet. It was gauged through a 14-inch choke and tubing pressure

was 1,300 pounds. Location is 660 feet from south and west lines of section 5, block 7, H&GN

WILDCATSITE

Cotton No. 1 Clayton will be drilled as a 9,900-foot Fusselman wildcat in Borden County, 11.5 miles southwest

The drillsite is one-half mile northeast of the Good (Fusselman) field and 2,310 feet from south and 1,650 feet from east lines of section 28. block 32, T-4-N, T&P survey. It is

separated from the field by a dry hole.

were

workable.

Deregulation on way? distributors and pipeliners, that proposals originally submitted as part of President Carter's national energy plan "gave the wrong answers" and in some cases

have failed to institute a set of safeguards for future competitive bidding. The Canadians are wielding that stick very well.

Victor G. Glass Jr., general superintendent of U.S. Steel's Texas Works here, said the Texas facility was built to provide arctic grade steel pipe for use in transorting oil and gas from Alaska and Canada down to the lower 48 states.

Glass said employment opportunities at the Texas plant would

opportunity to participate in the projects for which our commitment was made.'

Deputy Assistant Secretary of State Stephen W. Bosworth told the subcommittee the 56-inch pipe would be used on only 1,100 miles of the 4,800 mile pipeline.

"We fully expect American companies to compete to supply goods and services for all of the pipeline segments, and we will do all we can to ensure that competitive conditions prevail," Bosworth said.

### Wildcats, discovery reported in WT areas

Texas Pacific Oil Co., Inc., staked a pair of wildcat operations in Reeves County, and Fred M. Newman has completed a re-entry project as a Delaware discovery in the same

WILDCATSITE

## A look back at one final, fatal day

By ROBIN MILLER The Indianapolis Star

INDIANAPOLIS - It's not always popular to wear a U.S. Auto Club Patch. and Sunday at Trenton was no exception.

A scoring snafu had created mass confusion among the leaders in the fourth race of the 1978 championship trail, and people were still throwing verbal darts as the sun set on the New Jersey Fairgrounds.

But Ray Marquette. Frankie DelRoy. Ross Teegarden, Shim Malone, Stan Worley, Don Peabody and Judy Phillips all managed to get out of the track unscathed. Then they boarded an airplane and flew to their destiny.

THOSE SEVEN USAC officials and Dr. Bruce White, along with pilot Don Mullendore, perished in a devastating crash southeast of Indianapolis late Sunday night. Unlike many of the men they represented and worked with, they had no control over their fate.

Even though what turned out to be their final race was spiced with controversy, this group carried out their assignments with few problems.

DelRoy, the spry little technical director who was probably the most respected official in USAC, began the afternoon by catching a couple of teams trying to get a better "bite.

It's a USAC rule that you must start championship races on the tires you qualified on, and Frankie spied two machines that had changed rubber. So just before "Gentlemen, start your engines" was uttered, these crews hurriedly had to

Malone, the starter, told the competitors at the drivers' meeting that he didn't want to see any leaders jumping the field on the restarts. And when that exact thing happened three times in a row during the race. he flashed the yellow instead of the green until everyone got a fair shake.

THE CLOSEST to the eye of the storm was Worley, the 65-yearold registrar who rode shotgun in the pace car. It was that

vehicle that literally led the confusion. because it was the incorrect positioning of it (in front of Danny Ongais instead of Gordon Johncock) that started the screaming.

But Stanley wasn't at fault. He was just doing what the scorers told him over the radio when instructing pace car driver Bob Harkey to pick up Ongais' car in the two

When the checkered flag had dropped and Ongais was asked to vacate victory lane so Johncock could pull in, the rest of the staff got in the action.

Teegarden, DelRoy's sidekick on the tech crew, was in the midst of the conference between USAC boss Dick King, chief steward Art Meyers and Ongais' defendants, owner Vel Miletich and sponsor Ted Fields, immediately afterwards.

HE STATED some facts, asked some questions and did a lot of listening.

Up in the press box, where he'd spent many years as a writer, Marquette was listening to all the chatter from the Fourth Estate. They were laughing about what a disastrous way it was to finish such a good race. Ray had to agree, then went down to get USAC's official statement.

Judy Phillips, a diligent worker in USAC for many years, finally got the finish to

type with 80 or so sports writers impatiently standing over her shoulder.

White, a pleasant young physician who served as official track doctor for USAC championship races along with Dr. Steve Alvey, told a couple of friends just before leaving the track that he was going home on the USAC charter and they were welcome to his reservation on the commercial flight from nearby Newark.

Then there was Peabody, who ran the sprint race in Reading, Pa., Saturday night. The goodnatured Californian, who had weathered the childish behavior of a few promoters before he'd even run his first race, had just commented last week that his luck just had to change.

So when King decided to remain on the East Coast and take care of some business in New York City, Peabody was offered his open seat on the chartered flight.

## 3-0 Rebs face Big Spring today

Robert E. Lee hopes to keep the lead and Midland High will be trying to stay in the District 5-4A baseball race today.

The Lee Rebels travel to Big Spring while the Purple Pack entertains the San Angelo Central Bobcats in 4 p.m.

Lee, with a 3-0 5-4A record, faces a vastly improved Steers team that has pounded out 28 hits in its last to two games in whipping Midland and Odessa Permian

Midland knocked off a strong Abilene nine, 3-2 in eight innings Saturday to prove it can beat anybody in the league. Both Abilene and Lee shared the first half championship

with 5-2 records. While Lee takes a 3-0 loop mark into today's game with Big Spring, the Steers, Cougars and Eagles, all stand 2-1 in second place one game behind

COACH ERNIE JOHNSON will call upon junior righthander Terry Willis to face the Steers today. Willis has a 5-2 mound record with his best pitching performance a strong two-hitter against Midland in the first half of the

Gary Gibson started against the Steers the first time Lee squared off with them and was the winner with relief help from Doug Schmidt.

Midland plans to throw sophomore Tracy Gann (3-4) at San Angelo Central at the Memorial Stadium

Lee takes an 18-7 season mark into the game while the Steers are 10-15 on the year. Midland, meanwhile, is 10-13 while Central is 11-10.

Joining Willis in the lineup today in Big Spring will be Schmidt at first; Don Rasure, second base; Steve Pitts. shortstop and Craig Van Horn at third. In the outfield will be Todd Clements in left; Pat Moore in center and Tyler Alcorn in right field with Clay Calhoun catching.

Midland will start Mark Mead at first; Mike Mowles at second; Jimmy Zachry at short and James Allen at third. In the outfield it will be Steve Cole in left; Goode in center and Joe Mowles in right with Tommy Munoz handling the catching chores. Coach Larry Peel has chosen Rick Foster to be the designated hitter, while Johnson won't use a designated hitter against the Steers.

GARY HIX of Odessa Permian. leads the 5-4A batting race with a robust .516 average. The senior third baseman had a pair of doubles in the Panthers' 8-7 loss to Big Spring last Saturday.

Lee's Richard Josefy is next with a 455 average, but he has only been to bat 11 times. The No. 3 hitter is Moore, who went four-for-five against Cooper. The senior outfielder is hitting at a .432 clip in league play.

Big Spring catcher Tony Mann, like Moore, has been on a hitting spree in recent games and the 220-pounder. owns a .406 average.

John White of Lee is hitting 400 along with Cowboy Hester of Abilene. Mann leads the loop in runs-battedin with 13 while Terry Austin of Abilene has 12 RBIs.

MOORE LEADS in doubles with seven while Clements, who is hitting .314 in 5-4A play has the most triples

with three. Mann also is the top home run hitter

with five. Alcorn leads the Lee attack on the year with a .410 average while Moore is hitting .392 and Josefy .375. Next comes Calhoun, Clements and Van Horn with .368, .356 and .354 averages. respectively. White owns a .333 mean and Schmidt is hitting an even .300 on the year as the Rebs are spanking the horsehide at a .333 clip as a team.

Midland is hitting .275 as a team with Zachry the top hitter with a .375 average followed by Munoz and Allen

### Eastern finals start Sunday

NEW YORK (AP) - The National Basketball Association announced Monday night that the NBA Eastern Conference final will start in Philadelphia on Sunday afternoon, April 30, in the event that Washington eliminates San Antonio in either five

The Bullets lead the Spurs 3-1 in the best-of-seven series with the fifth game scheduled for San Antonio Tuesday night and the sixth in Washington Friday night.

with :333 and 302. Mark Mead is hitting 306 now

Zachry and Allen both have 23 RBIs on the year while Clements has been the top RBI man for Lee with 20. Van Horn has 18 and both Calhoun and Moore have 17 each

WHO SAID Russians never smile? Tennis player Teimuraz Kakulia (left) clowns a bit for the camera while eating a roast beef sandwich during a trip to a fast food restaurant in Atlanta

over the weekend. Fifteen-year-old tennis pheonom Tracy Austin grins at the antics of her friend. The two competed in the four-day American-Soviet tennis series which was held in Atlanta.

# Everybody's happy with Bucs-Oilers deal

Cruelest month brings sweetest results

again

TAMPA, Fla. (AP) - "It's a good deal for Houston and it's a good deal for us," said Coach John McKay after his Tampa Bay Buccaneers gave up their No. 1 pick in next week's pro football draft in a five-for-one deal with the Oilers.

The Bucs get tight end Jimmy Giles and four draft choices.

The Los Angeles Times

Waste Land.")

("April is the cruelist month.

breeding Lilacs out of dead land, mix-

ing Memory and desire, stirring Dull

roots with spring." -T. S. Eliot, "The

If I were Ronald Charles Cey, the

third baseman, I would not waste

April going after curveballs and

trying to bat the Dodgers into the

pennant. I would take myself im-

mediately to Monte Carlo, the nearest

baccarat table, any high-stakes poker

For Ron Cey. April is not the cruelest month, it's the sweetest.

Every place he looks there are belt-

high fastballs, hanging curves,

fielders out of position, reachable

fences. Money. Aces and flushes and

sevens on the first throw. The um-

pires give him the corners, the ground

balls have eyes, and the pitchers

serve up mistakes - "B" pitches and

game or the stock market.

JIM MURRAY

Trophy winner Earl Campbell of Texas with their first-in-the-nation selection. Houston owner K.S. "Bud" Adams said his club was willing to do what was necessary to get the big Longhorn running back.

"Houston gets what it wants and needs and before we're through with

A jungle belongs to a lion, an ocean

to a shark - and April to Ron Cey. He

has better Aprils than Paris, better

It's obvious T. S. Eliot never saw

Ron Cey in April with a bat in his hand

and a three-and-two count and the

Ron Cey, in the spring, is Babe

Ruth, Lou Gehrig and Rogers Horn-

sby in the shape of a penguin. They

bench him if his average dips below

400 that month. They don't give him

hit or take signs, they point to the

fence. If April could be extended the

whole season, they'd have to send him

directly to the Hall of Fame before he

wrecked the game. On a team that

had four 30-homer hitters last year, he

Last April, Ronnie Cey batted .425.

hit nine home runs, drove in 29 runs. It

ever came out of the box the way he

bases loaded.

springtimes than lovers in the park.

this, we will have vastly improved our football team," McKay said of the Monday trade. "Before we are through with the offshoots of this proposition we will have done more for ourselves than we could possibly have done if we had used the No. 1 pick for one single college player." With Giles, the Bucs get the Oilers

did. Man O'War never left so many

rivals at the gate. Ron Cey in April is

like a werewolf in a full moon. It's

unfortunate the month is only 30 days.

On April 30 last year, after Ron Cey

got through with his April showering.

the Dodgers' record was 17-3 and they

were 71-2 (count 'em) games ahead of

the pursuing, or non-pursuing, Reds

and the old ballgame was over for

1977. The Reds never got that close

This year, he's right around .400.

What is it about April and Ron Cey?

Is he like the forsythia, he's got 30

days a year to break out and the rest

Not really. In May, June, July, and

August Ron Cey is an All-Star third

baseman, a dangerous slugger, and

still the Dodgers' cleanup hitter. It

isn't as if he's not Pie Traynor, it's

just that he isn't the Bambino, the

Georgia Peach, the Sultan of Swat.

They don't name candy bars after

of the time he just sits there?

and their third and fifth picks in the 1979 draft. Barring any further trades, Tampa goes into the National Football

League draft with 10 picks. Giles, 23, is 6-foot-3, 241-pounds and

was a rookie last year out of Alcorn State. He was Houston's second

Still, Ron Cey is one guy who should

hate to see daylight saving time come

in. The Penguin doesn't turn into a

pumpkin, he got 21 other home runs

last year, he batted in 81 other runs.

But, for National League pitchers, it's

almost as if Ron Cey swallows a

magic potion on April 1 and it doesn't

wear off till May Day. He's no April

Fool, he's April real. In the batter's

box, he turns into Mr. Hyde before

feel stronger in the April, air?" he

was asked. "Does he ball look bigger,

the pitches slower, the outfield

closer?" Cey shakes his head. The

only explanation that occurs to him.

he says, is that, once April was over,

last year, so was the pennant race.

'Athletes are self-motivated anyway,

but April gave us such a lead, the

pressure was relieved. From a

psychological standpoint, it had an

effect on the team. You also have to

remember, for me to do well, the

team had to be doing well. I mean,

you can't bat in 29 runs a month

unless an awful lot of teammates are

getting on base in front of you."

Ron Cey can't explain it. "Do you

their very eyes.

first and second picks next Tuesday. choice in the third round of the 1977

draft. He was a starter at the beginning and the end of last year at Houston, grabbing 17 passes for 147 yards. But for most of the season he was troubled by an ankle sprain and lost the starting role to Mike Barber. He faced another battle with Barber this

season. The trade is contingent on Giles

passing a Bucs' physical. "Of course, the key is that we have to be right about Giles," McKay added. "I look on him as a Ken McAfee with a year's experience." McAfee is the Notre Dame tight end who some say is the best available in this year's draft.

"Our information tells us Giles can be a great one," McKay said. "And you don't have a champion without a good tight end."

Says Bucs quarterback Gary Huff: "We had to have help. The tight end is the most important receiver to a quarterback. The first reason is, he's the closest."

The Bucs are 2-26, with their only two victories coming in the last two games last season.

Ken Shipp, an assitant Oilers coach says, "Jimmy Giles is one of the best prospects that I have seen. I've had the opportunity to coach three of the best tight ends-Charlie Sanders, Jackie Smith and Richard Caster, and I rank Giles right up there with them.

"He is most certainly an All-Pro propsect. He is a great runner when he catches the ball. You don't find many tight ends who can go the distance, but he can.

"He improved in blocking, but he still needs some work there."

## Amarillo edges Cubs in 12, 7-6

AMARILLO - Lefthander Bob Clark walked Tim Derryberry with the bases loaded and two out in the 12th inning as Amarillo squared its Texas League series with Midland at 1-1 by virtue of Monday's 7-6 victory.

The Gold Sox forced the game into extra innings when Dan Illertson hit a two-run homer off Jack Uhey with one out in the ninth to tie the score at 6-6.

Midland jumped to an early 4-0 lead when Jim Buckner homered over the right field fence in the first and the Cubs took advantage of three Amarillo errors to score three unearned runs in the third.

The Sox bounced back in the home third on Derryberry's three run

Midland scored in the fourth when Tony Pepper doubled, Brian Rosinski walked and both runners moved up on

Kevin Drury's sacrifice. Eric Grandy then singled home one run and another scored on Kurt Seibert's grounder to short.

With two out in the fifth. Cubs' starter Lee Smith walked Earl Battey and Bill Bestwick and Tony Castillo followed with a run scoring single, That made it 6-4 and set the stage for Hertson's ninth-inning heroics.

In the 12th, Clark walked Brian Greer. Joe Hicks singled. Bill Hallstrom lined out to first and then Clark walked Barry Evans and Derryberry on eight straight pitches. CUB PRINTS - Gary Lucas, 1-1,

will start for Amarillo tonight while Manager Jim Saul will counter with Ron Davis, 0-1, for Midland... Buckner continued his torrid bat work with four hits in six trips. The burst raised Californian's average to .458 and for the last eight games Jimmy is 23 for 45, a .547 average... Buckner's hitting streak reached 10 straight...

Did he tire the rest of the year, did he feel stronger in April than September? "Everybody does," con-ceded Cey. "But, with a 14-game lead, I think it's your concentration that wanes." Could it be the adrenalin does, too? "I think," says Ron Cey. 'we were more team-motivated than individual-motivated. I think the emphasis was on winning, not starring. And we were winning easily. In other words, the real pennant race was April. The rest of the year was mopping up. Nevertheless, many

ballplayers can point to great years -Joe Di Maggio can say, "You should have seen me in '41 when I hit in 56 straight games," or Bill Terry can say, "You should have seen me in '30 when I hit .401," or Hornsby can point to .424 in 1924. But Ron Cey can say. "You should have seen me in April -HBP- by Mustad (Pepper) WP- Ubey T-3:50 any April."

Earl. . . headed for
