# Wallace says he's out of Senate race

MONTGOMERY, Ala. (AP) — George Corley Wallace, once a feisty symbol of segregationist resistance and four times a candidate for president, has ended his political career with a surprise announcement that he will not run for the U.S. Senate.

On Tuesday night in Mobile, after days of reflection at the gubernatorial retreat at nearby Gulf Shores, the Alabama governor told the Alabama League of Municipalities:

"Having thought all day yesterday, and last night and today ... I want to make this announcement to you. I've decided ... I will not be a candidate for the United States Senate.

"Although I feel I could win the U.S. Senate seat, my conclusion in the last few days is to retire," he concluded. His stunned audience stood and ap-

plauded. The governor smiled slightly as he shook hands with well-wishers. The announcement shocked even some of his closest aides for the 59-

year-old Wallace had been considered the Democratic frontrunner in the race for the seat being vacated by Sen. John Sparkman. The decision, assistant press aide Elvin Stanton said, means Wallace

will retire from the political wars when his current term as chief executive ends next January. By law, he cannot succeed himself as governor a third straight time. However, one person who refused to

write his political obituary was his second wife, Cornelia, divorced from Wallace last year after a widely publicized marital dispute.

Mrs. Wallace said Tuesday night that her former husband was not "the George Wallace of old." But she

"Let's face it. This is a man who likes the roar of the crowd."

During 16 years in state and national politics, Wallace was called savior, devil, reformer, bigot and buffoon. But he was never ignored. Wallace burst onto the national po-

George Wallace

litical scene in 1963. In January he stood on the steps of the state Capitol to give his inaugural address, crying, 'Segregation now! Segregation to-

morrow! Segregation forever!" In June, he stood in a schoolhouse door to block two black students from entering the University of Alabama.

He parlayed that defiance of a federal desegregation order into three terms as governor and runs for the presidency in 1964, 1968, 1972 and 1976. He became a symbol of Dixie-styled convervatism.

Wallace made his impact on the national political scene - he once campaigned on a vow to "shake the eye-teeth" of the bureaucrats in Washington — as a symbol of defiance: his own defiance of big government, the troubled parent's defiance of court-ordered school busing, the conservative voter's defiance of promises made by the two major

political parties. In 1968, running under the banner of

the American Independent Party, he carried five states and won 46 electoral votes. He captured 13.5 percent of the popular vote, the largest showing

by a third party candidate since 1924. But while campaigning in 1972 at a Laurel, Md., shopping center, Wallace was cut down by a fusillade of bullets fired by Arthur Bremer. His wounds left him partially paralyzed and in constant pain.

It was the assassination attempt -"the shooting" as Wallace now calls it - that numbered his days as a factor in presidential politics.

Although confined to a wheelchair, Wallace made one last run for the presidency in 1976. By then, however, his "too much bureaucracy" theme had been pre-empted by another southerner, Jimmy Carter.

As his presidential hopes faded in 1976, Wallace came to realize the effect his paralysis had on "the faith-

"All they see is the spokes on my wheelchair," he complained.

Wallace was first elected governor in 1962, campaigning hard as a segregationist. At the time he was unable by law to succeed himself, so his first wife, Lurleen, ran and won the governorship in 1966. She died of cancer two

Wallace came back and, won the governor's office again in 1970, and again, while crippled, in 1974. The law had been changed to allow a governor to succeed himself once.

In the meantime he made periodic forays onto the national political scene, a barnstorming and defiant figure at first. He admonished 'pointy-headed bureaucrats." He demonstrations as "acts of treason. He criticized federal courts and promised to "get the federal government out of the business of busing little boys and girls halfway across a city" to achieve racial balance. As an inde-

# Independent candidate predicts election victory

By MARLEEN RAY

R.A. "Pete" Peterson, independent candidate for Texas governor, is confident — he thinks he's going to be occupying the top executive seat in Austin come inauguration.

"I think I'm going to be the next governor 'cause I'm right," Peterson said Tuesday at Midland Regional Air Terminal.

The 33-year-old candidate, who formerly owned radio stations in Andrews and Crane, said his campaign is not well-organized yet. Right now, he said, he is passing out petitions to get 16,550 signatures of persons who did not vote in the May primaries in order to get his name on the November election ballot.

Currently, he said, he has "a couple hundred" signatures and "about 5,-000" petitions circulating. The state government has given him until July

to solicit names, he said. Campaigning full time now, Peter-son said before he started he gave nearly all of his possessions away, including his 1974 Cadillac. He left his home in Austin, where he heads an advertising agency, with only 50 cents in his pocket and an airplane ticket.

"If you have to be a rich man in Texas to get elected, something is

wrong," he said.

Peterson calls himself "a Dolph Briscoe conservative" when it comes to spending money and a liberal when it comes to individual liberties. He advocates decriminalization of marijuana. He said he's just the opposite of Texas Attorney General John Hill, Democratic candidate for governor.

Hill, Peterson asserted, deceived the teachers of Texas "when he promised them a pay raise without raising taxes. That's not possible," he

Claiming Hill is worried about him, Peterson said the attorney general will not win the governor's seat because he "covets it. He (Hill) doesn't deserve it," he said. Bill Clements, the nominated Republican candidate, "doesn't figure" in the race for governor since "Texas never has elected a Republican for this office."

The number one issue of this campaign, Peterson said, is attitude. Presently, attitude is poor because there is too much government, he

"The least government is the best," he said, "You should keep controls close to the people." Expressing concern about the rising cost of energy, Peterson said prices are escalating due to regula-tions of the Texas Railroad Commission and Public Utilities Commission. He said there is no energy shortage, but rather "an abundance" of oil and

He said he supports deregulation of prices on energy but claims the oil companies are "playing games" to keep the cost of energy up.

Although he has no experience in government, Peterson said, he is qualified for office because he is young, right and willing to serve. He said he has no special interests and is a family man. He said the radio business served "as a good training ground" for learning about how to deal with government.

In addition, he said he has studied the issues while on sabbatical this past year, saying people have given him books to read wherever he goes.

A native of Riverton, Wyo., Peterson has no college education, he noted. He was graduated from high school in Wickenburg, Ariz. Current-ly, he is head of Budget Advertising Agency in Austin. He and his wife, Jo Ann, have-two sons, Jeff, 12, and

# Flier finds 'ideal world' in air

Earth may be a light-year or more from Utopia.

Mrs. J. Howard (Veda) Hodge

But never mind that, 'cause Frank Smisson surely must reckon that his ideal world is somewhere between heaven and earth. He's a flier.

"Life's too short not to do what you enjoy," Smisson said, as he was driving his car to the airport for a pleasure flight in a hefty single.

Smisson has been flying for almost two-thirds of his life; he's 57 now. He has flown aircraft of most every description - from the open-cockpit,

biwing prop jobs to the clearly-out-ofsight jets. Flying's his livelihood.
"All in all," he said, "I've found out that flying . . . beats the hell out of working for living."

Smisson flies a twin-engine business jet - a' Rockwell International Sabreliner — for an energy company in Midland. That, you might say, is his second career.

His first, which lasted 25 years, was flying warbirds and transports for the U.S. Air Force.

Smisson, who's from Georgia and also from a family of fliers, learned to fly in the Stearman PT-17, a biplane, and earned his Air Corps wings in the AT-17, a bamboo bomber, otherwise known as "the termites' delight," at

Afterward, Smisson recalled, he got some time in the B-17 Flying Fortress at Hobbs, N.M., soon got into the war and was piloting the lumbering B-24 Liberators, which Smisson, without overflowing sentiment, called the "triple threat." It'd wipe out the enemy by "bombing, strafing or (by)

Midland College.

As a matter of fact (romance and hefoics aside), Smisson was commander of a B-24 which did fall: It hit the Pacific drink after it was attacked by about 25 Japanese Zeros on the home-bound leg of a bombing run. The crew was adrift for 61/2 days before rescuers came along. Upon his return to the States in late

1944, Smisson was assigned to the Flight Test Division at Wright-Patterson Field, where he flew the P-51 Mustang, the P-39 Aircorba, the P-47 Thunderbolt, the P-61 Black Widow, the Me-108, the B-29 and other aircraft. 2. In 1946, after the warbirds were

retired and most were lined up for eventual destruction, Smisson was flying the F-80 Shooting Star, the nation's first production jet fighter. A year later, he was flying in the Berlin Airlift in the C-54.

Out at the airport, Smisson parked his car next to a hangar, ambled over to the flightline and freed the Rockwell Commander 114, a single-engine, luxury craft, from the tie-downs. He and Frank "Kip" Agar have gone into partnership in marketing flying ma-chines made by Rockwell, the same outfit that put the Space Shuttle

He was proud of the aircraft, not so much because it was "sexy" looking but because it's a plane of the triple S: sturdy, safe and speedy.
"It's so rugged," he said, "you can

# Conductor Steinberg dies

NEW YORK (AP) - William Steinberg, the renowned conductor who fled Nazi Germany, founded the Palestine Symphony, now known as the Israeli Philharmonic, and led the Pittsburgh Symphony for 24 years, died Tuesday of an apparent heart attack. He was 79.

# 19th District runoff election officially set

George W. Bush of Midland officially accumulated 6,296 votes against run-off opponent Jim Reese's tally of 5,498 in the May 6 Republican primary election for the party's nomi-nation for the 19th Congressional District seat, according to figures released Tuesday by state GOP offi-

Joe Hickox of Shallowater drew 1,-455 votes in the West Texas district which came open to Congressional aspirants when Rep. George Mahon announced last year he would not seek re-election after 44 years of hold-ing the office. Bush and Reese, of Odessa, will face each other in a run-off for the GOP nomination on June 6. Democrat Kent Hance of Lubbock will be the winner's opponent in

November general elections.
In other action following Tuesday's state Republican Executive Committee canvassing, state GOP Chairman Ray Barnhart said in Austin that independent Hank Grover's entrance in this year's U.S. Senate race will notcrowd out incumbent Sen. John Tower-Texas.

"Even in talking with Hank, I have not found him expressing any major disagreement with the voting record of Sen. John Tower, R-Texas," Barn-

Grover, who gave Gov. Dolph Briscoe a scare in the 1972 governor's race, is running as an independent

against Tower and Rep. Bob Krueger, D-Texas. He must obtain almost 17,ooo signatures from persons who did not vote in either primary to be placed on the November ballot. "Hank is an unknown quantity," Barnhart added. "I think he's encoun-

tering difficulty as people realize they could do serious damage to the re-election of John Tower."

Republicans are running a strong ballot this year, said Barnhart, who added he was encouraged by the 150,000-plus turnout in 206 counties for the

ooo-plus turnout in 206 counties for the Republican primary.

"I said I would be disappointed if we didn't have 140,000 and this is beyond what I expected," the GOP chairman said. More counties held Republican primary balloting than during the 1976 presidential straw vote, when 190 counties conducted GOP primaries. GOP primaries.

The only surprise came when a double-check revealed Republicans defeated a non-binding referendum on pari-mutuel betting, 74,281 to 69,638. Unofficial returns from the Texas Election Bureau had indicated Re-

publican approval.

At least 30,000 votes were unreported when the election bureau called the Tace, Barnhart said.

In the gubernatorial race, Dallas industrialist Bill Clements drew 114,-

# Senate moving to labor filibuster

By HELEN DEWAR The Washington Post

WASHINGTON - The Senate. caught in a heavy crossfire between business and labor lobbyists, took up the administration's labor law revision bill Tuesday and found itself moving inexorably toward a filibuster, perhaps a long one.

Conservative opponents of the union-championed measure said they had speeches prepared to last through the Fourth of July and would talk until Labor Day if necessary to block the measure.

Debate began in a desultory fashion, with the bill's backers claiming they eventually will have the 60 votes necessary to close debate and bring it to a vote, possibly in a couple of

The bill simply is designed to "end delay and bring an end to the growing number of violations of employee rights" in organizing unions and win-ning contracts, said Senate Human, Resources Chairman Harrison A. Williams, D-N.J.

It is an "overbroad solution to an exaggerated problem" that would smother small businesses and upset the current balance in labor manage-ment relations," said Senate Minority Leader Howard H. Baker, R-Tenn.

There was litte drama to the birth of this filibuster: no delaying tactics, no cots, no baggy eyes, only long and generally predictable speeches from both sides that sounded like a routine warmup for a vote. The Senate stopped talking before sundown and was not scheduled to resume again until midday Wednesday.

But there were hints of things to come, with Sen. Jesse Helms, R-N.C., summoning visions of "Snowbelt vs. Sunbelt" civil war to "unionize the South by federal force" and Sen. Strom Thurmond, R-S.C. pledging to fight this bill and fight it to the last."

The Senate Democratic leadership hunkered down for another long siege after the 10-week Panama Canal debate, saying it will not withdraw the

LIMITED-EDITION

 labor bill, no matter how long it takes to get it passed.

At the same time, opponents pre-pared to fight on even if their first filibuster is cut off, by offering 500 or more amendments to the bill and then by filibustering whatever comes out of House-Senate conference on the

The House passed a somewhat stronger version of the Senate's bill last October, 247 to 163, that was before business groups marshalled forces for what AFL-CIO Pesident George Meany has called a "holy war" against unions, which have made the bill their top priority for this session of Congress.

The result has been a multi-milliondollar lobbying campaign by both sides, one of the most intense in history, according to many senators who also concede that general public interest in the bill, outside of the business and labor community, is marginal.

President Carter also pointedly has reaffirmed his support for the measure, making it another test of the administration in Congress as well as a key element in his sometimes shaky relations with organized labor. Labor is counting on Carter's help as time goes on to get the bill passed

The bill, drafted jointly by the White House and the AFL-CIO, would set deadlines of from 30 to 75 days for union representation elections, require time-and-one-half back pay for workers fired illegally for union organizing and compensation for wages lost during illegal bargaining delays, permit the government to deny contracts to repeated labor law yiolators and let unions campaign on company property if employers do so.

Proponents argue that the bill plugs loopholdes by which anti-union employers defy the intent of existing labor laws, while opponents characterize it as an anti-business weapon by which unions are seeking to make up for recent membership losses and establish a foothold in the South.

# as provocative by its "grace period" that

By JOHN M. GOSHKO and DUSKO DODER The Washington Post

WASHINGTON Prime Minister Bulent Ecevit has told President Carter that Turkey will not make any commit-ments about the size of its future military role in NATO as long as the United States maintains its arms embargo against his country.
In a letter to Carter,

Ecevit said Turkey cannot agree to a proposed joint declaration that the United States hopes to have approved at the summit meeting of NATO heads of government to be held in Washington May 30 and 31.

The proposed declaration, which would be made public on NATO's 13th anniversary next year, would be a statement of specific alliance goals in the years ahead.

Carter administration officials refused to comment on the contents of Ecevit's letter. However, reliable sources said it did not contain any threats of a Turkish withdrawal from NATO.

But, the sources added, it did contain a clear implication that Turkey would reduce substantially its NATO defense role if the embargo is not lifted. The sources said he told Carter that, in the absence of clear-cut guarantees about future U.S. military assistance, Turkey cannot afford to make any commitments

that might be regarded

· Ecevit's warning came against a background of increasing expectation that Congress will not respond favorably to Carter's appeal for an end to the embargo. which was imposed in 1975 after Turkey's invasion of Cyprus. Turkish forces continue to occupy about 35 to 40 percent of that island country, which has an 80 percent Greek population.

embargo have been resisted fiercely by the Greek-American community and its supporters in Congress. Last week, the Senate Foreign Relations Committee rejected the request for repeal, and congressional leaders are pessimistic about the chances of reversing the committee's action

Efforts to repeal the

While the embargo has eroded U.S.-Turkish relations and caused concern within NATO about an unraveling of alliance defenses on NATO's southern flank, U.S. officials are still hopeful that Turkey can be kept in NATO.

These sources said Washington and Ankara are engaged in active discussions about a rescheduling of payments on the more than \$1.6 billion in loans and credits that Turkey owes the United States.

At the same time, the sources added, the financially hard-pressed Turkish government is negotiating with major U.S. banks in an effort to reschedule commercial debts of almost \$1.5 bil-

Under present ar rangements, Turkey is supposed to pay debt service to the U.S. government of \$124 million this year and \$194 million next year. Its problem with the private U.S. banks is even more pressing since more than two thirds of the amount owed them is due in less than a year.

According to the ources, the to reschedule their debts to the U.S. government over a seven-year period, including a three-year

# Clergymen elect Texan

SAN DIEGO (AP) Momentarily sidestep-ping their hottest issue, United Presbyterians have elected as presiding officer a Texas clergyman who has stayed neutral about whether the church should ordain avowed homosexuals.

But there was a possi ble straw in the wind about the highly volatile question in the voting Tuesday night for the post of moderator at the denomination's 190th general assembly.

The Rev. William P Lytle, 54, of San Antonio, who has remained uncommitted on the matter, won on a third ballot, but his two closest contenders in a six-way race had openly opposed al-lowing homosexuals in the ministry.

Lytle, thanking representatives of the 2.6 milion-member church for their "trust and confidence," voiced prayers that "we deliberate and do the thing that is right

and good. He got 396 votes to 199 for the Rev. James G. Emerson Jr. of Denver and 40 for the Rev. Vahe H. Simonian of Pasadena, Calif., the two runners-up. Simonian, who had vigorously fought the proposal for ordaining acknowledged homosexuals, polled higher on earlier ballots.

# Tots stage operetta'

The nursery is a Unite ed Way agency located in the former Bunche Ele-mentary School, 700 S. Jackson St. It serves children ranging in age

### Turkey uncommitted on Garner T. Armstrong future NATO military role says he understands why he lost his TV show would free them from payments on reducing

DALLAS, Texas (AP) - Garner Ted Armstrong said he understands why his father stripped him of his power in the World Church of God and cancelled his television show, "but that doesn't make it hurt any less."

In a telephone interview with the Dallas Times Herald, the media evangelist said he is "hurt, bewil-dered and embarrassed." He said he is leaving for three or four days with 'some old fishing buddies" to try to sort things out and let the dust settle. Armstrong played down specula-

tion that a power struggle is under way for control of the 80,000 member church and college, which collects more than \$60 million annually. 'There is nothing more sinister in it than that a man at the age of 86, once

control of what he started," the younger Armstrong said. Herbert W. Armstrong founded the World Church of God more than 40 years ago.

again wants to take over complete

Garner Ted Armstrong said what hurt the most was that his father did it all without consulting him. "I quess he felt that I would try to come on strong and urge him to change his mind. He was determined to do it, and he just didn't want to have to go through an hour-long discussion with me about it."

The media evangelist, who says he has not talked to his father since the announcements, said he has lost 10 pounds in the past week. He also said ne will not tape any of his "The World Tomorrow" radio broadcasts for at least several days, until he is rested and in better spirits.

The younger Armstrong also hopes the cancellation of his television show is temporary and he blamed the cutback on financial problems in the church organization.

# Democrats not assured of sweep

AUSTIN, Texas (AP) - It is too early to tell whether the Democrats in Texas are united enough to sweep the November elections, Republican Jim Baker, candidate for attorney general, said Tuesday.

"I'm running against someone who referred to Attorney General John Hill's organized crime force as his secret police force," Baker said of his Democratic opponent, Mark White.

"I wouldn't accept the thesis yet that the Democrats are totally united," he said at a news conference.

Baker said he has raised \$400,000 in cash contributions, and has taken no loans. His organization is established in five heavily populated counties and has targeted 28 counties for further expansion of campaign efforts.

heart attack.

M. B. Ripley

M. B. "Rip" Ripley, 67, of 3105

Roosevelt Ave. died Tuesday in a Mid-

land hospital following an apparent

Services are pending at Newnie W. Ellis Funeral Home.

Ripley was born May 24, 1910, in

Abilene and grew up there. He moved

to Comanche and then to Brady in the

1940s. In the late 1940s, he moved to

Midland. He was an auto mechanic

Sarah Edwards

sisters and 17 grandchildren.

BIG SPRING - Services for Sarah Edwards, 46, will be at 3 p.m Thursday in St. Mary's Episcopal Church with burial in Trinity Memorial Park directed by Nalley-Pickle Funeral

Miss Edwards died Monday in an El Paso hospital from injuries received May 6 in an automobile accident.

She was born Nov. 7, 1961, in Ruidoso, N.M. She had resided in El Paso since October. She was a junior at Coronado High School.

Survivors include her father, William R. "Stormy" Edwards of Ruidoso, N.M.; her mother, Mary Edwards of El Paso; a brother, Rowan Edwards of El Paso; paternal grandparents, Mr. and Mrs. Sunny Edwards of Ruidoso; maternal grandmother, Maurine Nugent of Big Spring, and her great-grandmothers, Ova Maé Edwards and Mrs. Travis Reed, both of Big Spring.

Tomas Navarro

BIG SPRING - Tomas Navarro, 63, was pronounced dead Monday en route to a Big Spring hospital. Peace Justice Gus Ochotorena ruled death due to natural causes.

Services for Navarro are pending with Ceballos Funeral Home in Rio Grande City. Local arrangements were handled by Nalley-Pickle Funeral Home here.

He was born Dec. 29, 1914, in Garciaville. He had been a resident of Big Spring since 1965.

Survivors include two brothers, Manuel Navarro of Garciaville and Rubin Navarro of Ackerly, and a sister, Mrs. Leonard Trevino of McAl-

Alice Davis

two sisters.

KERMIT - Alice Ann Davis, 69, of Wink, sister of Virgil Ward of Hobbs, N.M., died Tuesday in a Kermit hospital following a lengthy illness.

Services will be at 2 p.m. Friday in the First Baptist Church in Wink. Burial will be in Kermit Cemetery directed by Cooper Funeral Chapel. Mrs. Davis was born June 5, 1908, in ·Pilot Point. She was a Baptist. She

had been a resident of Wink for 42 Survivors include her husband and

# Dawson election settled on recount

LAMESA - A.B. "Abe" Furlow, commissioner of Dawson County Pre-cinct 2 since 1955, gained one vote, but still lost his bid for a return to office, following a recount Saturday of votes cast in the May 6 Democratic Party's primary election, it appeared today.

In the initial count, challenger Kenneth Pearson received 319 votes to Furlow's 317. Both are cotton farmers at the O'Donnell community in northwest Dawson County.

In Saturday's recount at the courthouse, a vote not counted May 6 went to Furlow, Leon Cohorn, chairman of the county's Democratic Party, said

Cohorn said the ballot was cast aside on night of the election "because it had an indefinite mark.'

"But the (recount) committee decided that the (pencil) mark was closer to Mr. Furlow's name than it was to Mr. Pearson's," Cohorn said. The final tally gave 319 votes to Pearson and 318 to Furlow.

Both Furlow and Pearson were at the recount, which took most of Saturday morning to complete, Cohorn

"I've never seen an election this close," he said.

Pearson, unchallenged in the November general election, will begin his first four-year term in office Jan.

Dawson County Clerk Billie Jean Bingham, who recorded the count, today said that the Furlow-Pearson election was "too close . . . makes you want to squirm.

# Contract readied for MIDTRAN

A contract with General Motors Transportation Systems Division to implement a six-month program for MIDTRAN will be signed during a press conference at 9 a.m. Monday in the Arbor Room of The Midland Hil-

MIDTRAN is a public transportation system sponsored by the Midland Chamber of Commerce.

Present at the conference will be officers and directors of MIDTRAN; H. Blair Tyson, manager of the Transportation Engineering Department of GM TSD, and Dr. Don Constantino Sr., developmental econo-mist for the firm.

Tyson is one of the founders of the Transportation Division and has participated in several GM projects, including moving walkway systems, rail vehicle design and bus design.

Constantino has published several papers on transit systems and currently is involved in developing a small battery electric bus.

# Fire hurts two, destroys building

By KAY HORD

Fire Chief Raymond Lewis and Firefighter Gary Huckabay were treated Monday night at Midland Me-morial Hospital for injuries received while fighting a fire in a camper shell manufacturing plant near Midland Regional Air Terminal.

They were released following treat-

Firefighters spent more than four hours fighting the blaze, which caused an estimated \$100,000 in dam-

Lewis was treated for corneal abrasion, and Huckabay received a sprained wrist while pushing an air-plane away from the burning build-

Firefighters encountered some difficulty in putting out the fire, including having to move a private aircraft owned by Applied Composite Technology Inc., leasee of the destroyed

Ted Windecker, part-owner of the company, said the airplane was tied down approximately 100 feet from the building. In addition to the aircraft, two vehicles had been parked next to the building and a pickup hitched to a trailer was parked between the burning building and an adjacent struc-

Firemen spent approximately 30 minutes moving the airplane and vehicles, Chief Lewis said Tuesday.

The fire alarm was turned in by the Midland Regional Air Terminal Control Tower at about 10 p.m., after an air traffic controller spotted the smoke and flames approximately one-half mile north of the terminal.

'The building was completely involved when we got there. All we could do was cover the exposures and keep it from spreading," Lewis said. Approximtely 15 men, four trucks

and three Fire Department cars from three fire stations responded to the fire alarm. Windecker said Applied Composite

Technology, Inc., which manufactures and sells camper shells for mini-pickups, occupied two adjacent buildings. One contains inventory and the other, the one that burned, contained manufacturing equipment and "We are fortunate because we did

not lose everything since the building next door had a lot of our inventory, and it was saved. We probably saved one-third of our inventory. What we lost was our equipment, molds and

"It will probably take about six weeks to replace the equipment,"

Windecker said Tuesday.

"We're also very lucky in that the firemen managed to keep the fire out of the office. All our records are still intact. In fact, I found some checks from some of our customers floating in a pool of water this morning, and they were still legible. I'm going to take them down and deposit them today. The firemen really did a fantastic job," he said.

The fire started in the south end of the building. Firemen began fighting it from the north end in an effort to contain it and keep the blaze away

from an office. The building, although occupied by Applied Composite Technology, is owned by the city of Midland.

As one of the units returned to the fire station at Midland Regional Air Terminal after extinguishing the fire, the automatic gate to the parking lot closed on one of the fire trucks. Lewis said the truck was not damaged, but the gate was damaged to a slight

# Youth arrested in shooting death

ODESSA - A 16-year-old youth today was in the custody of the Ector County Sheriff's Office in connection with the shooting death of a 40-year-

old Odessan late Tuesday night.
James Lee Hulsey was pronounced dead at the scene, a residence in the 2500 block of West 49th Street, a sheriff's office spokesman said.

Hulsey had been shot with a .22-caliher pistol, the spokesman said.

# Police arrest Midland man

Police Tuesday night arrested a 19-year-old Midland man in connection with an alleged Saturday night attempted assault on an 19-year-old Midland woman.

The man was arrested at a north Midland apartment complex.

Saturday night, police said, they were told that a man followed the woman into a north Midland apartment. He reportedly threatened her with a pistol, took her into a bedroom and attempted to rape her. The woman told police the man apparently became frightened and left.

#### Texas area forecasts

South Texas—Scattered thunderstorms southwest, central and southeast portions this afternoon, tonight and Thursday Partly cloudy and warm to hot temperatures this afternoon and Thursday. Mild tonight with night-time and morning cloudiness. Afternoon highs near 103 northwest and southwest, 80: central, south and southeast sections to low 50s upper coast. Lows tonight in the low.

West Texas—Clear to partly cloudy southwest scattered chundersforms elsewhere today through Thursday, a few possibly severe northeast this evening. Not as warm days most sections. Highs today near 80 Panhandle to near 182 Big Bend. Lows tonight upper 80 north to middle 80s southeast except upper 80s months in Highs Thursday upper 70s Panhandle to upper 80s Big Bend.

# Little chance of rain

The high humidity level early today in Midland made it seem more like Houston here than West Texas due to the "enormous increase of moisture" overnight, according to the weather-

With a western front expected to pass through here early Thursday, the weatherman predicted a slight chance of thunderstorms through Thursday. Probability of rain was 20 percent today, increasing to 30 per-

# Spring storm intensifies

By The Associated Press

An intensifying spring storm continued to trigger an assortment of bad weather in the central Rocky Mountains early today, including severe thunderstorms, flash flooding and locally heavy snow.

Local flash flood warnings were in effect for parts of southeastern Wyo-

The leading edge of much cooler air was sweeping across the high Plains and setting off showers and thunderstorms over the eastern parts of Colorado and Wyoming.

Snow was falling in parts of the Colorado, Utah and Wyoming Rockies prompting hazardous driving warnings for the higher passes.

Elsewhere, thunderstorms were scattered over the eastern Gulf Coast region and the southern Plains and a few intense storms were rumbling over western Oklahoma. Rain, drizzle and fog still covered the northern Atlantic Coast states and the upper

High pressure building in the far West brought clear skies to the Pacific Coast states and western portions of the Plateau region.

It was also mostly clear from the eastern Dakotas through Minnesota and the western Great Lakes. Dense fog with local visibilities near zero developed before dawn over southern Indiana, western Kentucky and southern Illinois.

cent tonight and back to 20 percent Thursday.

Skies should be partly cloudy through Thursday. The low temperature tonight is expected to fall to the lower 60s, with southerly winds de-creasing to 10 to 20 mph tonight. Temperatures Thursday should be cooler than today's with the high near 90 degrees.

Tuesday's high temperature was 96 degrees, said the National Weather Service at Midland Regional Air Terminal. The overnight low was 63 de-

Area towns reported clear skies and warm temperatures early today.

# Showdown likely in governor's race

PHILADELPHIA (AP) - Crime busting Pittsburgh prosecutor Richard Thornburgh and mayerick Peter Flaherty, ex-mayor of Pitts burgh, weathered a hotly-contested gubernatorial primary to set up a western Pennsylvania showdown this

fall in the general election. Thornburgh, a go-for-the-jugular former U.S. attorney, turned back former Philadelphia district attorney Arlen Specter. Latecomer David Marston, the former U.S. attorney who tried to cash in on his unpopular firing by Attorney General Griffin Bell, was fourth in the seven-man

Republican struggle. Marston proved to be more of a spoiler than a factor. Asked if the primary would be the end of his political career, the 35-year-old lawyer said, "It's certainly not a very auspi-

cious beginning." Flaherty, 53, the unorthodox campaigner who spurned party endorsement to protect his independent image, beat out three other candi-

Thornburgh, 45, the sharpest GOP critic of the corruption-plagued ad-ministration of outgoing Gov. Milton Shapp, poised himself for a tough fight against a Democratic registration edge of 824,000.

# Flier seeks 'ideal world'

(Continued from Page 1A)

drop it in anyway you want to, and you're not going to hurt it." He zeroed in on the impact-absorbing landing gear and lauded the craft's structural integrity, which has been given the "fail-safe" checkout.
It's no Piper Club. It sells new for

about \$80,000, including \$21,000 in avionics for the pilot who might want some electronic gear to do the flying and, possibly, the

landing for him "It's a very nice airplane for flying

at night." Smisson made the pre-flight checkout, cranked her up, taxied a bit but shut her down to take on about 15 gallons of fuel to even up the weight in the wings.

Again, he turned over the 260-horsepower engine, revved it up, checked out the magnetos and other gadgets on the panel, taxied out to the threshhold and, after another check and a word or two with a controller, pushed the throttle forward.

The 114 was off and was tucking in its landing gear at 80 knots. Smisson took the plane up to about a third of its 17,400-foot service-ceiling flying altitude and switched on the auto-pilot. He "let" the plane's sophisticated gear read the air currents and fly in the course the pilot prescribed. No longer was it "man against machine." The pilot relaxed as if to take a nap; he didn't.

The craft was cruising at about 155 knots.

"It's better than having a parachute," he said of the plane which, as if by remote control, can land itself. Smisson switched off the auto-pilot, and turned to Roustin' About, who

was eager to feel the controls. "Do anything you want. She'll take care of you," he said. Roustin' About didn't really "try" anything foolish in this aeroplane, which is a tame, nonwarring descendant of North Ameri-

can's P-51 Mustang. Roustin' About, seated at the right, dickered with the primary controls for a spell, did a bank or two and maybe an unintentional waggle, but did nothing particularly daring to see if the plane's wings really would stay affixed to the fuselage in an outside loop; that's mostly for those who don't care if they-don't fly again.

There was no Devil-be-damned attitude on this flight. However, Smisson, to put some

spice on this tame "spin," pulled off a no-stress barrel roll. Presently, he made the Midland-Odessa loop, and, with a nudge here and there, let the craft fly herself in.

The good-will flight was over. Once again, Smisson returned to earth from the ideal.

# Withdrawing, Wallace says

(Continued from Page 1A)

pendent in 1968, he said there is not "a dime's worth of difference" between the major party candidates. He drew wild crowds.

After "the shooting," his image changed. He moderated on race and was a welcome figure in the Democratic fold. His national star declined. Wallace said through aides several weeks ago that he would retire if the

Legislature did not pass a law giving him two state trooper bodyguards for He got the troopers, who will also serve as medical aides, and Wallace then told reporters he definitely was

in the campaign. But that changed Tuesday night. Wallace has said in the past that, when he leaves political life, he might like to teach, write, perhaps return to his old law practice. It was revealed

recently that efforts are under way to establish a teaching chair for Wallace at a major Alabama university.

# Indigent policy discussion slated

Discussion of indigent care policy is to be one of the items of business when Midland County Hospital District Directors meet at 3.p.m. Thursday in the Midland Memorial Hospital board

Also to be considered are a service contract for interior design planning services, confirmation of anti-discrimination policies of the district, reports from the board of trustees and advisory board and real estate acqui-

# Water safety clases offered

Central YMCA has announced four water safety classes for elementaryaged children are being scheduled at the Central YMCA May 30 through June 2. Advanced registration begins May 22.

The program is designed primarily for non-swimmers, and will be open to Midland children who are not members of the YMCA. The 45-minute classes are slated for 1, 1:45, 2:45 and

Ribbons will be awarded to those for 100 percent attendance, tadpole float, 25-foot swim, 75-foot swim and safety swim

Parents must register their children at the Central Y, 800 N. Big

Further information may be obtained by telephoning the YMCA, 682-

lawyer in Midland. Administering the oath is Judge Perry D. Pickett. Stewart is a December 1977 and Aldridge law firm. (Staff Photo)

# Dominican army halts election vote count

By ELOY O. AGUILAR

SANTO DOMINGO, Dominican Republic (AP) - The Dominican army stepped in and halted the vote count in the presidential election early today but denied rumors it had seized control of this Caribbean island nation. The army intervened in the electoral process after challenger Antonio Guzman took a big lead over incumbent President Joaquin Balaguer.

A military communique, broadcast by Dominican radio, said rumors of a coup were false and added, "the armed forces respect the constitution and order." The radio said it was issued by Lt. Gen. Juan Beauchamps Javier, who was identified as secretary of the armed forces. The army gave no reason for its intervention,

Military officers invaded the headquarters of the Central Electoral Board, stopped the broadcasting of

LAUSANNE, Switterland (AP) -

The body of Charlie Chaplin, stolen

from his village grave the night of

March 2, has been recovered and

police have arrested the two alleged

thieves, a Pole and a Bulgarian, au-

The two men were arrested Tues-

day after allegedly calling police de-

manding a ransom for the return of

the comedian's remains, said Exa-

mining Magistrate Jean-Daniel

He said the body was found near

Villeneuve, a small town at the east-

ern tip of Lake Geneva about 10 miles

east of Corsier-sur-Vevey, where

Chaplin spent the last 25 years-of his

life and where he was buried last Dec.

Tenthorey said the body was reco-

vered early this morning. He said

**Pickwick Players** 

to host meeting

The Pickwick Players, the young

people's performing company of Mid-

land Community Theatre, will host an

informal get-together Thursday af-

ternoon for potential members off the

company. The 4:30 p.m. event will be

in the Blakemore Children's Room of

MCT's new theater at 2000 W. Wadley

season will begin May 30 and continue

through early August. Three stage

productions will be presented during

Pickwick Players, ranging in age

from 13 to 18, will spend six hours

daily, five days weekly, during the

season, rehearsing, building sets,

constructing costumes and learning

Training and supervision of the

summer program will be provided by

Debbie Waddell, director of children's

theater at MCT; Rick Schiller, man-

aging director of MCT, and a guest

instructor, Roger Thomas, of Ponca

City, Okla. Thomas, a Midland native

and former member of the MCT staff,

now is director of the Ponca City

The three leaders of the summer

program will be assisted by two

drama students from The University of Texas, Everett Moran and Elliott

H. Krohn 793:

The 70-year-old president was running for his fourth four-year term. About 2 million of the country's 6 million people had been expected to

cast ballots, and officials said the turnout was heavy. Shooting broke out in Santo Domingo Tuesday night as the polls closed and two persons — a soldier and the mayor of a small town - were killed in incidents in the interior. Several

persons were reported wounded and dozens were arrested. Balaguer was first elected in 1966, after the civil war that followed the military overthrow of President Juan Bosch and the U.S. military intervention that ended the war. Bosch, who founded the PRD but broke with it to run Tuesday on a more leftist platform, was the first popularly elected president in the Dominican Republic after the 30-year dictatorship of Ra-

There were a total of eight presidential candidates, but the race was between Guzman, a 67-year-old landowner and former minister of agriculture, and the 70-year-old president.

fael Leonidas Trujillo, who was as-

Balaguer campaigned on his record of political stability and economic recovery and charged that the PRD would flirt with communism and socialism. Guzman accused him of allowing corruption during his 12 years in office and claimed economic recovery had not reached the masses, who had been hard hit by 20 percent unemployment and 16 percent inflation.

# State highway official slated

as rotary speaker B.L. DeBewy, chief administrative officer of the State Department of Highways and Transportation, will be guest speaker at noon Thursday during the Downtown Rotary Club lun-

cheon in the Midland Hilton. His address comes as part of Na-tional Highway Week, and the Highway Committee of the Midland Chamber of Commerce is bringing DeBerry

to Midland. DeBerry joined the department in 1937 as an instrument man and became the department's resident engineer in 1946. Following that came positions of senior resident engineer, assistant district engineer, district engineer in Lufkin and district engineer in Dallas. He became assistant state highway engineer in 1968 and was appointed to the department's top administrative position in 1973.

He serves on the executive committee of the Transportation Research Board and on the standing Committee on Engineering and Operations of the American Association of State Highway and Transportation Officials. DeBerry has received the Thomas H. MacDonald Award, AASHTO's highest award, and has been named a distinguished engineering graduate of

His department is in charge of construction, maintenance and operation of a 70,000-mile, all-paved, toll-free system of highways of all types in

Amoco Production Co. No. 4 Bonourant-Federal has been spotted in the Tonto, West (Yates) area of Lea

Scheduled for a 3,350-foot bottom, it is 3/4 mile southwest of production and 2,310 feet from south and 1,980 feet from east lines of section 13-19s-32e. It is separated from the field pay by depleted producers.

The location is 14 miles south of

#### COKE WILDCAT

Fisher-Webb, Inc., of Abilene No. 1 Malone is to be drilled as a 7,100-foot wildcat in Coke County, six miles southeast of Silver.

Drillsite is 660 feet from north and 2,104 feet from east lines of section 322, block 1A, H&TC survey.

The project is 1,650 feet northwest of the Pennsylvanian sand re-opener of the Panther Gap field.

#### SUTTON EXPLORER

HNG Oil Co. of Midland announced plans to drill a 6,500-foot wildcat in Sutton County, 7/8 mile east of Canyon gas production in the Sawyer multipay field.

It is No. 1-48 Askew, 933 feet from north and west lines of section 48, block 9, TW&NG survey. It is 10 miles northeast of Sonora.

The seventh Strawn gas producer has been completed in the Ozona, Northeast multipay field of Crockett County, seven miles east of Ozona.

Seven-eighths mile west of comparable production, the well, No. 1 R. A. Harrell, was completed for a calculated, absolute open flow of 1,800,000 cubic feet of gas per day.

The production is from the section behind casing perforations from 8,795 to 8,814 feet. The zone was acidized with 3,500 gallons.

Wellsite is 1,980 feet from north and 660 feet from east lines of section 48, block GH, GC&SF survey. Total depth is 8,814 feet and 41/2-inch

casing is cemented at 8,795 feet.

#### COKE PRODUCER

Sun Oil Co. No. 9-A Central National Bank has been potentialed as the third well in the F.P. (Pennsylvanian) pool of Coke County, eight miles southwest of Silver.

Operator reported a 24-hour flowing potential of 37 barrels of 42-gravity oil, through a 10/64-inch choke and perforations from 6,005 top 6,046 feet. The pay was acidized with 400 gallons and fractured with 50,000 gallons.

Total depth is 6,200 feet and 51/2-inch pipe was landed at 6,198 feet. The plugged back depth is 6,158 feet. Gas-oil ratio is 4,243-1.

The oiler is 1,980 feet from north and east lines of S. M / Conner survey

# Allowable pattern steady

AUSTIN, Texas (AP) - The Texas Railroad Commission today continued its years-long pattern of setting the statewide oil production allowable for June at 100 percent of capacity for most fields.

It established the production factor for the rich East Texas field and the Kelly-Snyder field at 86 percent, as it has in past

The commission found that oil companies' demand for Texas crude in June totaled 3,545,387 barrels per day, a drop of 6,037 barrels per day from the forecast for May.

Commission chairman Mack Wallace said imports of crude oil and petroleum products into the United States now represent 42 percent of current demand in this country.

HOUSTON-Injuries in the oil and

gas drilling industry decreased by 1.5

percent during 1977, according to sta-

tistics compiled by the International Association of Drilling Contractors,

"Even though the number of active

rigs continue to increase, therefore exposing more drilling personnel to accidents, the drilling industry is

steadily improving its accident rate,'

says Orlie Pearce, safety director for

Nicklos Drilling Co., and Chairman of

According to Pearce, the cumula-

tive injury rate of frequency for the drilling industry in 1977 was 43.43.

This is the number of disabling in-

juries per one million man hours

worked, and based on reports from

companies do not report), while re-

ported injuries have only slightly

more than doubled, from 1,942 to 4,-

071. There has been an almost steady decline in frequency, from 74.41 to

According to the IADC statistics, the part of the body most frequently

injured was the trunk with finger and

leg injuries following in descending

order. As to injury cause, an employ-ee, 'caught between' an object or 'fall-ing' led the list. The next most fre-

quent cause was an employee 'struck by' an object. Again, in 1977 the em-

ploye group having the most injuries,

67 percent, were new employees.

# Virginia's hedge tactic may be major scandal The spokesman, Gene Harris of the By PAUL G. EDWARDS department's regional office in Phila-delphia, said he could not say whether The Washington Post

RICHMOND, Va. — Five years ago when the Arabs slowed oil shipments to the U.S., Virginia officials responded with a novel program that made the state a major purchaser of fuel oil as a hedge against shortages.

Now, in the midst of investigations by U.S. and state agencies, top state officials privately are acknowledging that the program was mismanaged from the start and could become a rare, major political scandal in the

The investigations already have taken several unusual turns:

-A U.S. Energy Department audit of state records disclosed that Virginia was overcharged "\$2 million to \$3 million" for fuel oil it bought under the program.

-Almost 8 million gallons of the oil was allowed to oxidize before being used, an action that forced the state to take a \$1.2 million loss on sale of the

-Gov. John N. Dalton fired Louis R. Lawson, a director of the state's energy office, after a delegation of influential legislators and others complained about Lawson. Lawson has said he briefly hired his son and then arranged for him to get state unemployment benefits.

-One of the key advisers to the state's program made commissions on the oil that he recommended that the state buy.

-Virginia state police made late evening seizures of massive amounts of records from the state energy office and other state agencies. There have been recurring rumors

that the program begun under the administration of former Gov. Linwood Holton, was in trouble, but state officials have maintained until recently that it was a prudent hedge against statewide oil shortages. First public confirmation of the

overcharges came Tuesday from John R. Settle, the area administrator for the U.S. Energy Department. Settle said his office completed its audit of the Virginia operation late last year and that the results are being studied by the department's officials in Philadelphia and Washington.

Under orders from Gov. John N. Dalton, both the State Police and the state auditor have begun a wideranging, separate investigation into state official said that officials now believe that the initial charges against Lawson were either groundless or frivolous. But the state's probe has now focused on more important questions of how the state's oil storage programs were run, he said.

Police moved into the energy office when it closed at 5 p.m. on May 8 to remove in the absence of office employees eight file cabinets of allocation orders and on the next morning police at the office of Secretary of Commerce and Resources Maurice B. Rowe to request oil purchase records.

Those documents were removed over a three-day period from the State Department of Agriculture and Commerce, which keeps records of both oil purchases and office operations for the energy office.

Dalton's authorization of the investigation came a day after he fired Lawson as director of the energy office. The governor said "questions of propriety" had been raised about operations of the office.

The Energy Department's Settle said the overcharges to the state came on purchses of heating oil at prices up to 65.6 cents a gallon in the winter of 1973,74. Settle named Keystone Fuel Oil Inc., of Wilmington, Del., as one of the first that charged Virginia more than federal laws allowed at that time.

Henry J. Staudinger, Washington lawyer for Keystone, said in an inter-view that his client denies overcharging the state. In 1975, the Federal Energy Administration, forerunner of the Energy Department, issued a formal notice of probable price violation by Keystone based on its sales to Virginia, but the notice was later rescinded. An Energy Department spokesman said the original audit on which the notice was based was found to be "defective." "They just did some things in the wrong way," he

the new audits will lead to a new agency charge of price violations.
"An audit is just a part of the investigative process," he said. "It is still being reviewed."

During the high oil price period of the Arab embargo, the state relied on Richmond oil distributor Ralph G. Roop, president of Petroleum Marketers, Inc., to buy heating oil for the emergency reserve. Roop was paid about \$25,000 in commissions for the purchases on which the state lost about \$2 million, including its losses on operation of the York River depot. Part of the losses at Cheatham Annex resulted from a fire that destroyed its

Settle called Roop's fee "modest compensation," but the distributor's dual role as puchasing agent and unofficial adviser to Edward H. Ibell, a state official, on the program led in 1975 to a state attorney general's in-quiry. A spokesman for the attorney

general's office said it was concluded that there was no conflict of interest because Roop had no official voice in energy office decisions about oil pur-

Lawson said in an interview that he had no control over the purchase of millions of gallons of fuel oil the state has stored at the Cheatham Annex depot on the York River since 1973. The Cheatham Annex operation was run by Isbell, once Lawson's deputy director in the energy office and now administrative assisant to Secretary

Lawson said he once raised questions about the emergency oil storage program but was told by Rowe to leave the operation to Isbell.

Lawson also said he did not have direct control over the emergency fuel allocation program, saying it was run by Isbell and others in his office. Under that program, the state could allocate up to 3 percent of the petroleum supplies coming into Virginia to distributors unable to contract for fuel in the private market.

# DR. NEIL SOLOMON Yes, jeans are safer

Dear Dr. Solomon: We've had a standing agrument in our family for some time now because I keep trying to get my daughter to put on a skirt instead of pants. Recently, she told me that she had heard for a fact that jeans have been found to prevent accidents among girls. Is there any truth in the statement?-Mirian D.

Dear Miriam: The statement does seem to be based on fact. A very good example is burns. The one accident that used to be more frequent among girls than boys under 10 years old was burns. The reason was all those inflammable little frilly dresses.

But during the last 15 years, burn fatalities have dropped 55 percent for females, as compared to only a 12 percent drop for males. Two researchers at the Johns Hopkins University School of Public Health, G. Steward Young and Susan P. Baker, have found that burn deaths went down as the popularity of blue jeans and slacks went up.

So dresses and skirts may look better, but pants are apparently safer.

Dear Dr. Solomon: Just what exactly is "behavior therapy?" My sister absolutely panics at the thought of being in a closed room — even if the door is open a crack, she feels uneasy. And last week someone was telling me how behavior thereapy can do wonders for

Dear W. R.: Behavior therapy deals directly with the symptoms of a neurosis like claustrophobia - the fear your sister has of being in a closed place. It treats the problem as if it were a bad habit that the patient must break and replace with a healthier habit. In contrast, the older traditional kinds of psychotherapy try to untie the psychological knots that might be causing the phobia. Behavior thereapy, or behavior modification as it is frequently called, has a good record of success with phobias and is not likely to take as long as the conventional approach

Anti-depressent drugs used in combination with behavior thereapy appear to be quite helpful, too. Researchers at Harvard Medical School and at the National Institute of Mental Health found that in treating patients with severe agoraphobia — the fear of open spaces and crowds — up to 94 percent im-proved with the combined therapy, and only 50 percent with behavior therapy alone.

If your sister is really handicapped by her phobia, I would urge her to get some professional advice. And the best person to start with is usually your family

# How are things in Bora Bora?

By HUGH A. MULLIGAN

AP Special Correspondent
BORA BORA, French Polynesia (AP) — The
World Boring Congress will be held late this month at redium House on the shores of Banality Bay here in Bora Bora, bringing to the otherwise blameless Society Islands a veritable snore of bores from the arts, politics and whatever passes for high society these days.

All the beautiful boring people will be there: Bore Vidol, Lennie Borestein, Jackie Q, Shirley McPaine, al, Charles O. Finbuck, Mick Jaguar, Diana von Firstgear and a whole host of similarly certified yawn-inducers whom you can't wait to miss tomor-

yawn-inducers whom you can't wait to miss tomorrow's newspaper to lose track of.

The six day Bora Bora Bore-in, held under the auspices of the Fatuity Foundation (a wholly owned subsidiary of Seconal), will get off to a crashing start, bore-wise, with Ellasworth Bunkhouse leading a nine-hour seminar on "The Moral Imperative of Returning the St. Lawrence Seaway to the Huron

Indians.'

Indians."

Aficionados of catalepsy will not want to miss Howard Hardsell reading unexpurgated excerpts from his half-time interviews with grounds keepers and helmet shellackers at the 1972 Superdrone game. For many the highlight of the whole boring affair, a guaranteed eyelid drooper, will take place in Bora Bora's new Comatose Theater when British film producer Kenneth Bustle sneak previews his new epic, "My Husband and I," a hard rock musical based on Queen Elizabeth II's Christmas messages over BBC-TV. Eminent drama critic Kenneth Tiresome will be in the chair, actually a chaise lounge, some will be in the chair, actually a chaise lounge, for an audience participation yawn-by-yawn dissec-

tion of the work. Norman Mailedfist is flying in to discuss other American writers worth discussing, if he can think of any. Bella Abscess will toss her battered trilby into the ring for the islands' parliamentary elections, giving her always stupifying "Bella's back where she belongs" speech, which reportedly put her own foot to sleep when last delivered. And Boozy Cartwheel will be carried into Tedium House on a portable throne by a phalanyx of colorful natives in peanut leaf grass skirt (designed by Bill Blast) and balancing cases of Boozie beer on their heads.

Should any of the Congress orators go beyond the bounds of humanly bearable boredom, as measured on a sonar snoring device perfected during recent Senate debate on the natural gas bill, Red Aflair and his oilwell firefighters will be helicoptered in to cap the offending aperture. Norman Mailedfist is flying in to discuss other

the offending aperture.

the offending aperture.

Other turgid subjects due to be covered during the six-day slumber party, which Congress sponsors hail as a meaningful assertion of global vapidity, include "Common Market Sugar Beet Policies and Price Structures," "Photographic Aspects of Cher's Umbillical Cord," "Getting Our Priorities Right in Sonar Energy Development," "Where Body Language is Spoken, Are You A Functional Illiterate?" and "Hitherto Unreleased FBI Files on Calvin Coolidge's Cabinet Nominations" As usual Calvin Coolidge's Cabinet Nominations." As usual, the Senator Borah Trophy will be awarded to the speaker logging the most Zzzzzz's on the audience

the Senator Borah Trophy will be awarded to the speaker logging the most Zzzzzz's on the audience snore-o-meter.

On the lighter side, there will be field trips to Bora Bora's new pineapple husk recycling plant, poetry readings by Erica Jhunk and Helena Gurnsey Bored, transcendental mediations with Larry Flintlock and a prayer group of born-again soft porn centerfold models, group encounters of the Third World kind with begging urchins along the beach and, of course, the final night fancy dress Boring Ball.

Veteran jet set tedium connoisseurs are jetting in from everywhere to add their yawns to this gala night of narcolepsy: Truman Capricous, Lucina Pigske, Pat Boreford, Chuck and Lynda Borehob, Dianca Banal, Hamilton Borden, Anita Boreusall, John and Mary Linseed, Kingman Borestaer, Aurthur Dozinger Jr. and Amost everyone else who mercifully faded from view the second you flicked the "off" switch to black out your most boring TV interview. One entracing sidelight of the Congress, scheduled for siesta hour on the penultimate day, has Dick Cavity hosting a TV talk show on the theme of "The Real Ennul Behind Donnie and Marie."

As an added tranquilizer, Tenille, Halton and Liberace are going to reveal their first names and explain in tedious detail why they never use them in public.

# Carter poised for major health insurance push

By JACK NELSON The Los Angeles Times

WASHINGTON - In a major strategy shift, President Carter has decided to mount a massive campaign this year on behalf of a national health insurance program that would provide universal and mandatory coverage for all citizens.

His decision, already relayed to some congressional supporters of such a program, means the nation is in for another bruising congressional battle - a struggle perhaps greater than the confrontation over the Panama Canal.

Cutting sharply across party lines, the issue will pit liberal and organized labor groups against or-ganized medicine, big business in general and the insurance industry specifically.

ALTHOUGH HE recently reaffirmed his intention to introduce such legislation, Carter also has appeared to back away from any all-out effort to push this year for congressional approval. In fact, his comments have been widely interpreted as no more than a gesture meant to appease labor and congressional supporters who were demanding that he carry out a campaign pledge to introduce the legislation.

Now, however, senior White House officials say privately that Carter has decided to launch an all-out push for the controversial legislation before the end of the year, even though the enormous cost of such a plan, perhaps \$50 billion annually, has made many in Congress leary of pushing for it.

Congressional supporters of national health insurance are pressing ahead with efforts to reach agreement on details of a plan so as to present a united front when the White House campaign begins.

Sen. Edward M. Kennedy, D-Mass., who has been trying to get a comprehensive health insurance program through Congress for the past seven years, told The Los Angeles Times, "I think this is it. If we don't get a program now, it'll be another generation before we get one."

KENNEDY SAID he is optimistic a comprehensive program will be passed. He called it "the most important domestic issue to be dealt with in the next

One of Carter's most consistent supporters in the Senate, Kennedy said he is confident the president will not falter in pressing a Panama Canal-type drive this year "because he told me so."

The Carter administration timetable calls for the legislation to be introduced in July. Lenghty hearings and debate on the matter will mean that final congressional action could not come until next year, at the earliest.

Supporters of national health insurance have argued that, if the White House only introduces a bill and does not begin to press hard this year, final action coud be delayed well beyond next year.

White House officials concede the question of when to begin their drive is a tough one. "It's a question of how far you can sustain a full-court press," presidential press secretary Jody Powell said recently, em-ploying a basketball term.

Dr. Peter Bourne, Carter's assistant for health matters, agreed that the precise timing is important, because "you could have a flurry of interest at first and then have it die out before Congress is ready to

Nevertheless, White House officials say the decision has been made to begin pushing hard this year. Both organized labor and Kennedy's Senate Retheir campaign late this summer. And the administration is unlikely to remain on the sidelines for long,

The administration's bill, which is being drafted in consultation with Kennedy and labor leaders, is likely to run into strong opposition from some Democrats unless a compromise can be worked out before the measure is introduced.

Carter has called a meeting at the White House for Friday with three key Democrats on Kennedy's subcommittee — Sens. Herman Talmadge, D.Ga., Abraham Ribicoff, D.Conn., and Russell Long, D.La. - apparently to seek their support for the legisla-

All three now support a bill by Long and Ribicoff that would provide for catastrophic coverage for all citizens th agh the private sector of the fedgral govern a coit but which would not provide comprehensive bealth insurance.

# Paratroops rushed into southern Zaire

KINSHASA, Zaire (AP) - President Mobutu Sese Seko rushed paratroops and other reinforcements into southern Zaire to try to dislodge invading rebels from the copper mining capital of Kolwezi, but

information on the military situation was sketchy.

Government officials said air force C-130 transports dropped paratroops Monday night to try to retake Kolwezi from the rebels. It was not known how many men were dropped, but the French-trained paratroops are considered Mobutu's only effective fighting force.

Informed sources reported Air Zaire was ferrying troops to join the defense of Shaba province, invaded last week by an estimated 4,000 exiled Lunda tribesmen from Angola who crossed northern Zambia and in two days grabbed Kolwezi, 25 miles from the Zambian border.

The United States and Belgium alerted paratroop units for possible movement to Zaire if needed to rescue American and Belgian civilians caught up in the fighting.

THE PENTAGON readied elements of the 82nd Airborne Division at Fort Bragg, N.C., and Military Airlift Command planes, but a spokesman said no deployment has been ordered. Sources in Brussels said a company of Belgian paratroops was alerted

but no decision had been made to move them out.

President Carter told congressional leaders he would welcome legislation easing restrictions on presidential power to send U.S. military aid abroad. House minority leader John Rhodes, R-Ariz., said Carter did not specifically request relaxation of the controls but indicated such a proposal would be

Secretary of State Cyrus R. Vance told reporters attempts are being made to speed up delivery of military supplies already designated for the Zaire

Diplomats in Kinshasa reported at least nine Europeans — eight Belgians and an Italian — had been killed in the fighting near Kolwezi, a city of 100,000 people 840 miles southeast of Kinshasa. About 2,800 Belgians live in the area, center of Zaire's vital er-mining industry

REPORTS REACHING Brussels said several Eu-

ropeans were being held by rebels as hostages.

The Johannesburg Star, a South African newspaper, reported from Zambia that all able-bodied white men in rebel-held territory had been placed in

protective custody. Other reports said a large group of Europeans had taken refuge in Jean XXIII College, a Catholic school in Kolwezi.

LEARNING some new folk dance steps are Fannin Elementary School fifth-graders. The students held a "Fun Day" Tuesday.in the school patio, which included songs,

games and performances by string players and tolk dancers. (Staff Photo)

WEIGHT & BUILD: Can come in all

# TRAITS:

We are looking for boys or girls with courage to do something for themselves. Boys or girls with enough gumption not to complain that it's too cold or too hot, or that they have no time after school; who can understand that tomorrow can be more important than today and have the desire to work for desirable goals; who may need an outsider's discipline, but above all are of good character and would like to know they are doing something to contribute.

#### CAUTION!

The subject, in some cases, may be armed with a weekly allowance and, therefore, may not want to appear to be working. Do not be alarmed if the youngster has red-rimmed eyes, perhaps from watching too many TV programs.

#### HOW TO HANDLE:

If you know the whereabouts of alert, active and responsible youngsters of this description please contact us; we would like to have the opportunity to help train them for their future. To give us the information by telephone, call
