Maddened by Hunger, Dogs **Terrorize Farm Community**

ABINGTON, MASS.-A pack of 50 wild dogs which has been terrorizing the countryside for several weeks, killing and devouring livestock, was being stalked in their lairs by farmers determined to rid the community of the menace.

While the posse pushed through the heavy thicket section, town officials issued a warning to parents, cautioning them against allowing their children to wander in woodland or farm sections for fear the hunger-maddened dogs might attack them. Deprived of their normal source of food by the deep snows and bitter cold that sent small wildlife into their burrows, the vicious dogs turned to domestic livestock for their prey.

Four large hogs, valued at \$200, were torn to pieces in the piggery of Anthony Gawronski. Later, Gawronski shot and killed one of the wild canines as the pack attempted to break into his henhouse.

Two more dogs met the same fate at the farm of Pasquale Cacalisco, where only a few days previously they tore to pieces a dozen turkeys.

Brakes Fail

BRISBANE, CALIF.—(Soundphoto)—Tilted gas pumps and mass of debris are all that is left of steel-frame gas station here after it was hurled off its foundation and carried 20 feet when a huge 18-wheel truck-trailer veered off Bayshore highway and 'smashed through it. John Vincequerra, 24, San Jose Calif., the truck driver, said two automobiles in front of him suddenly stopped directly in his path. He applied airbrakes, but they failed, and he swerved to avoid hitting the cars. The truck plunged across curbing and into gas station, carrying it with it before coming to rest (rear) against hill.

Vending Machine Business Zooms

Guest Just at Mealtime? Novel Slot Device Will Feed Him.

NEW YORK .- Within four years the coin machine industry will soar to an annual volume of two billion dollars, in the opinion of Robert Z. Greene, president of National Automatic Merchandising association.

With the aid of vending machines, he said, employed women will be able to do their laundry during the lunch hour and housewives can pick up emergency groceries without leaving their apartment building. Other details included in Greene's

By 1952 there will be 2,300,000 coin-operated merchandising machines throughout the United States.

Daily sales of 10 cents a machine for penny and service devices, \$1 for candy, \$2.50 for carbonated beverages and \$4 for cigarettes will account for a combined volume of

Additional sales from devices such as vendors of stamps, coffee, milk, ice cream, sandwiches, insurance, and groceries "will bring the total sales from automatic merchandising to well over two billion dollars before 1952."

Groceries in Apartments.

Greene foresaw automatic merchandising in the grocery field as ultimately reaching an annual volume of 100 million dollars through installation of machines in apartment buildings.

"Most of these sales," he said, 'would be plus sales that otherwise would not be made. Now if a housewife finds herself out of beans or rice when preparing dinner, she isn't apt to make a special trip to the grocery, but will do without it.

"Most items sold through vending machines are impulse sales that otherwise would be lost forever,' and the proper location of the machine can give that impulse a profit-

able outlet. Automatic merchandising some day will "bring to retail distribution the same advantages the machine age has brought to manufacturing and agriculture," Greene continued.

Forms Store Front. He said a machine now on the drawing board will be able to form part of the store front at night, thus

achieving late-hour operation and customer convenience without high "In England (prior to the war) there were over 200,000 cigarette machines that were rolled out in

front of stores after the closing hour of tobacco shops. "And today in Holland, Denmark, and Switzerland, where the food shortage is not as extreme, a variety of merchandise is sold in this

manner," he said. Turning back to the U.S., Greene concluded, "The war taught employers the value of vending machines in keeping employees on the job and increasing their efficiency.

"Even coin-operated washing machines are now used in some large plants to cut down absenteeism. Women employees can now bring their wash with them on Monday and do it during their lunch hour instead of staying home."

MACHINE "C" (all photographs unretouched) BEFORE AFTER Compare with Bendix results in top picture.

"HOW THE TESTS WERE MADE"

The soil removal tests were made in accordance with the Test Manual of the American Washer and Ironer Manufacturers' Association, with water temperatures of 160° for the automatic machine and 125° for non-automatic type machines as specified by the Manual.

For the germ removal tests the washing procedure as above was supplemented by a pre-determined rinse procedure established from contact with authorities in the field of home laundering including the manufacturers of the machines used. The Bendix was used in accordance with the manufacturer's published instructions. Staphylococcus aureus bacteria (bacteria commonly used for test purposes) were used to measure efficiency of germ removal. The four washers used, three non-automatic and a Bendix automatic Washer, were purchased in the open market by the Pittsburgh Testing Laboratory

washer wisely!

No general words . . . no vague statistics ... but actual, unretouched photographs SHOW THE BENDIX METHOD IS MORE THOROUGH !

At last it's possible to know in advance what results to expect from the washer you buy. No more disappointments if you read and heed the results of tests just completed by America's largest independent testing laboratory.

The Bendix outwashed all others tested for both soil and germ removal.

Matched against three leading non-automatic washers in two-way tests of washing thoroughness, the Bendix did a much better job than any of the others, according to reports from the Pittsburgh Testing Laboratory.

In soil removal tests, the Bendix automatic Home Washer removed 23.3% more soil than the "next-best" machine tested. In germ removal tests, the Bendix did 10 times as good a job as the other washers tested!

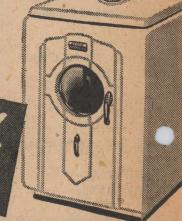

Best way is also thriftiest and easiest!

According to the Pittsburgh Testing Laboratory's report, the do-everything Bendix used 40% less soap than the average of the other washers tested, and averaged 10 gallons less water for a single load of clothes! Get the whole story and see a demonstration at your authorized Bendix Dealer's.

Arts, Mechanics Lure Most G.I.s Postpones

Average Veteran Student Is 26; Former Army Enlisted Man.

WASHINGTON. - The average Notice is hereby given that on the first Saturday in April, the veteran in training under the G.I. bill of rights is just past 26 years same being the 3rd day of April, an election will be held for the old. He was an enlisted man in the army, had previously completed 3.7 years of high school, and is entitled to 39 months' training under the bill.

This was shown by a recent census of G.I. students, released by Veterans' administration. The report showed that while more veter-The polls shall be opened at ans are studying liberal arts than any other one course, the favorite occupational aim of those taking onthe-job training is that of mechanic.

Thirty-eight per cent of the students, according to the report, are married, and half of them have dependents - wives, children or parents. The census, taken on a 1 per Board of Trustees of the Stratcent sampling of all veterans who entered training before April, 1947, showed that 1,825,118 G.I.s are studying in schools of higher learning or other institutions, and 619,647 are in on-the-job training. Another tees, Stratford Rural High 1,049,661 have either finished their training or dropped out.

Few Women Students. Notice is hereby given that on the first Tuesday in April, the Not quite 2 per cent of the veterans in training under the G.I. bill are women, although women comprise 2.2 per cent of the total veteran population. And, the report showed, women account for 2.4 per cent of the trainees in schools, but only 0.4 per cent of those in job training.

Most of the G.I.s in schools are in universities or colleges-907,554 of them, according to the study. But 91,000 are in professional or technological schools, 54,700 are in teachers' colleges and 72,200 are in junior colleges. Of those attending other schools, 61,100 are in technical institutes, 99,400 in business schools, 125,100 in elementary or secondary schools, and 413,300 in vocational or Mayor of the City of Strat-ford, Texas. trade schools.

Engineering Ranks High. Following liberal arts as the more

popular courses among the veterans in schools are engineering, crafts and trades, business courses and business administration, flight training, agriculture and medicine. On the bottom of the popularity list is social work-only 3,377 students are studying it under the G.I. bill, according to the census. Second from Hutchinson County line to Gray the bottom is dancing.

Most popular employment objec-Sherman Co. Line; From Moore | tive of veterans in on-the-job training is that of mechanics and repairmen for motor vehicles and railroads, with 56,764 students. Second is the job of farm manager or foreman, and third and fourth are mechanics and repairmen in other 455-2-8, C 727-1-5, C 727-3-2, C fields, and managers and officials.

MEDITERRANEAN

Used in Food Sterilization OMAHA. - An Omaha dairy firm has been experimenting more than a year in the use of waste radioactive material from atomic energy production for the sterilization of food, J. Gordon Roberts, the firm's president, disclosed.

USSR

Patents are being sought on devices to apply the sterilizing radiation, and not on the basic idea of applying the rays, he added.

A sterilizer using the process has been developed by Robert S. Berry, 24-year-old former University of Omaha student, who has been working for the dairy firm since he went to Roberts with his idea in August, 1946

Results of tests to determine if radiation sterilization will change the flavor, vitamin content or food value of milk or other foods are expected to be made known soon. Byproducts from the manufacture of atom bombs have been available for the research, he said.

Consumers Co., Inc. "We are Open 24 Hours a Day"

World Champion Butterfat Producer

FERNDALE, CALIFORNIA—Silken Lady's Ruby of F., a registered Jersey cow owned by the estate of the late J. W. Coppini of Ferndale, has become the official World Champion Lifetime Butterfat Producer of all breeds. Her production of 166,020 lbs. milk and 9,165 lbs. butterfat was recorded under supervision of The University of California and has been officially verified by The American Jersey Cattle Club. Ruby ascended to the championship of the United States a year ago. Her production of 10,032 lbs. milk and 615 lbs. butterfat, during the 12 months intervening, surpasses her nearest rival for official World honors by 103 lbs. butterfat.

If all Ruby's milk had been churned it would have produced approximately 10,782 lbs. of butter. Packaged in standard one pound prints and stacked on end. this would make a tower of butter more than three and one-half times higher than the werld's tallest structure, the Empire State Building. At the present rate of butter consumption in the United States, this would furnish a year's supply of butter for a town of nearly 1,000 people.

Excavators Discover

Hoard of Gold Coins

Buried Wealth Found at Site

Of New School Building.

MONTEREY, CALIF.—Hundreds

of men, women and children were "prospecting" with shovels, rakes,

trowels, knives, forks and even old

mining tools in a gold rush that

swept Monterey.

The "bonanza" is located in a 100-

by-100-foot school excavation site,

only two blocks from the main

street of this historic California city.

It's not nuggets the "prospectors"

are after, but \$20 gold coins. Al-

ready more than 125 of the coins

have been dug up by the treasure-

seekers. Their nominal value is

more than \$2,500, but they are worth

considerably more because the

state-wide proportions with the objective of bettering health conditions for the citizenship should include surface cleaning drainage, the improvement of treets and alleys, the cleaning o playgrounds, and the clearing off of weeds and rubbish from va-cant lots, according to Dr. George W. Cox, state health officer, in urging all communities and cities in the state to cooperate in Texas Clean-Up week April 4-11.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises will be, said Dr. Cox, "of inestimable value in helping to keep down summer health hazards such as dysentery, typhoid and polio-

Dr. Cox stressed the fact that many dangerous diseases are filth-borne, and the only possible way to control them is to eliminate the unsanitary conditions responsible for

British May Trim House Of Lords by 600 Peers

LONDON. - Conservative party sources said about 600 British peers would lose their hereditary seats in the House of Lords under reform proposals considered by Conservative leaders as counter to the Labor government's plan to curb the upper chamber's powers.

A committee of Conservative peers is considering a proposal to limit membership to about 300 lords with outstanding public service rec-

Simulated Spring Speeds Up Romance Among Queen Bees

ORANGE, CALIF.-Bees are going to do their romancing early this year in some California hives, thanks to the ingenuity of Leroy Bell, Orange apiarist, who has become a specialist in simulating spring weather.

Seeking to offer his queen bees on the market before nature takes its hand in normally increasing the population, Bell had engineers of Minneapolis - Honeywell Regulator company devise a weather system that stirs the dormant urge in indifferent drones.

The "spring-maker" automatically controls temperature in hives at a balmy 80 to 85 degrees and provides relative humidity of 60 to 65 per cent. To carry the deception further, Bell has artificial illumination that brings dawn earlier and delays "sunset."

He lets California sunshine take care of the daylight hours, when the queens actually mate out of doors, but the simulated springtime of the hives speeds the grafting of larvae from which new queens emerge.

Railroads Improve Equipment With New Box Cars, Engines

CHICAGO.-All railroads and private carlines had 125,395 new freight cars on order on December 1, the Association of American Railroads has announced. The number on order on November 1, 1947, was

Of the total number on order December 1, Class I rails and railroadowned private-controlled refrigerator companies had 110,882 new freight cars on order. This was the largest number on order at any time since April 1, 1923, when the total was 116,890.

New freight cars on order Decem ber 1 totaled 63,616 while on November 30 the total was 109,467.

Class I rails also had on order 1,180 locomotives. This was the most since October, 1923, when there were 1,242 locomotives on order. On December 1, 1946, the railroads had 364 on order.

From 1795 to 1799 the execuive power of France was held by 'The Directory," a body of 5 men

In the world's champion Chevrolet engine, the valves are located in the head of the cylinder, directly over the pistons . . . hence the name, Valve-in-

2 Valve-in-Head design provides faster intake of fuel mixture . . . and quicker and more complete exhaust of burned gases . . . all of which contributes to better performance and economy.

3 Valve-in-Head design also permits a more compact combustion chamber; and this, together with Chev-

rolet's "Blue Flame" combustion, means more driving power heat loss—and maximum economy.

Valve-in-Head engines are inherently easier to cool; and Chevrolet's individual cooling of cylinders prevents waste of power-promotes efficient operation-

is far ahead because it gives an outstanding combination of performance, endurance, dependability and economy.... Chevrolet—master builder of this master motor—has proved this by producing more than 20 million Valve-in-Head engines during the past thirty-seven years—engines which hold the distinction of having delivered more billions of miles of satisfaction, to more owners, over a longer period, than any other power-plant built today! Chevrolet's World's Champion Valve-in-Head engine is another powerful reason why CHEVROLET AND ONLY CHEVROLET IS FIRST :: :

another convincing proof that only Chevrolet gives

Solar Houses For Apes

CHICAGO, ILL.—It's the new look at Chicago's Zoological Park monkey house. A special plate glass, used in place of the conventional iron bars permits "nose-to-nose" inspection of the monkeys by the visitors, and of course, vice-versa. Karjeung, a Malayan orangutan, wistfully eyes his pretty guest after pummeling with pile-driver blows what is apparently empty space in a vain attempt at closer acquaintanceship.

This may deflate your ego, but zoo officials say this glass, for the first time in zoo history, affords protection to both visitor and visited—you can't give Karjeung your nasty cold, and he can't keep your arm as a souvenir. Zoo Director Bean says his experiment with Pittsburgh Herculite Flexseal plate glass has changed the whole concept of animal display cages. "It will probably revolutionize the method of showing animals in zoos throughout the country," he stated.

Albert's Grocery & Market

Bandit Is Just a 'Crumb';

Waitress Proves Her Point DETROIT. - Mrs. Imogene Corretta, 38, waitress in a local restaurant, brushed off a would-be bandit as she might have flicked a bread crumb off the counter, holdup squad officers said.

A man strode into the restaurant, right hand threateningly in his overcoat pocket in the approved manner. He announced boldly, "This is a stickup.'

Mrs. Corretta pretended not to hear him.

"Open the cash register," the desperado blustered.

Mrs. Corretta ignored him. The "bandit" reached across the counter and started to open the till

Mrs. Corretta calmly rapped him across the back of his hand with the dull edge of a large butcher knife and the toughie yelped and fled.

Old Issues Revived

The long drawn out battle between margarine manufacturers and the dairy interests is expected to reach new intensity at this session. Nub of the fight is over federal taxes imposed on margarine. Ap' parently margarine makers would be satisfied to see colored margarine taxes cut to the same level as the present levy on uncolored margarine. In 16 states revenue from cottonseed and other oils is more than that from butterfat.

. . .

Pack of Seed Nets Million Dollar Crop **Plant Immigrant Has Typical Success Story**

Rabbit and Chicken Raising Is Profitable

To offset high meat prices, home production of rabbits and chickens can be carried on very economically, making the family at least partially independent of commercial sources.

Raising of rabbits and chickens at home has a big advantage in the economical use of feeds, because such animals mature more quickly and at a lower feed cost per pound of gain in weight.

Eternal Life

Lesson for March 28, 1948

shall live. Easter is the day that re- child last October. minds us of this blessed truth—the truth of eternal life. Well has Henry Burton expressed it in these lines:

"There's a light upon the mountains, And the day is at the spring, When our eyes shall see the beauty And the glory of the King; Weary was our heart with waiting, But his triumph day is breaking And we hail it with a song.

'He is breaking down the barriers; He is casting up the way; He is calling for his angels To build up the gates of day; But his angels here are human, Not the shining bosts above; And the drumbeats of his army Are the heartheats of our love."

READ John 21:1-14 for the exquisite account of Jesus appearing to his disciples in the early

disciples knew not that it was Jesus." Jesus told them

to cast their net on the right side of the Dr. Newton did, and they

they did eat.

BLESSED ASSURANCE BEFORE his death, Jesus had B said to his disciples, "Because I live, you will live also," John 14:19, but they did not fully grasp the meaning of the great words. But that morning on the sea shore, they understood. They remembered that he had died on the cross, and now they were assured that he was really alive, for this was the third time he had appeared unto the disciples after the resurrection.

bread and fish on coals of fire. And

How happy they must have been! How happy we should be on this recurring Easter season, assured that he is alive evermore. And because he lives, we too shall

. . .

WHAT IS ETERNAL LIFE?
SUNDAY'S lesson leads us on to the answer to the question, What is eternal life? In Colossians 3:14

Soretone is in a class by itself. Fast, gentle, satisfying relief assured or price refunded. 50c. Economy size \$1.00.

Try Soretone for Athlete's Foot. Kills all 5 types of common fungi—on contact! and 12-17, we have the declaration, "Your life is hid with Christ in God. . . " If we have believed on him — cast ourselves in implicit trust into his keeping — we have eternal life, which is his gift to ev-

ery believing heart. Paul goes on to admonish those who have "entered into life eternal," through faith in the riven, risen, reigning Saviour, to put on the garments of his presence and power and peace - kindness, humility, meekness, long-suffering,

forbearance, forgiveness. The evidence of eternal life is to be found in the fruits of the Spirit

in our daily lives. CERTAINTY OF ETERNAL LIFE WE READ in John 17:3 this word of further assurance, "This is eternal life, that they know thee the only true God, and Jesus Christ whom thou hast sent." And in I John 5:11-12, we read, "And this is the record, that God hath given to us eternal life, and this life is in his Son. He that hath the Son hath life; and he that hath not the

Son of God hath not life." In another passage John tells that we know that we have passed from death unto life because we

love the brethren. Easter is the day of eternal nope. It lifts above the fog of earthiness the glory of the blessed hope that fadeth not away. We have God's own testimony that we shall live with him forever, through Jesus Christ, our risen, reigning, returning Lord.

Our Richest Treasure

The Bible walks the ways of all the world with familiar feet and enters land after land to find its own everywhere. Children listen to its stories with wonder and delight. and wise men ponder them as parables of life. The wicked and the proud tremble at its warnings, but to the wounded and the penitent it has a mother's voice. It has woven itself into our dearest dreams; so that love, friendship, sympathy, devotion, memory, hope, put on the beautiful garments of its treasured speech. No man is poor or desolate who has this treasure for his own. -Henry Van Dyke.

N. Y. Court Decision Holds

Test-Tube Baby Legitimate NEW YORK. — A supreme court justice ruled that a child born as the result of artificial insemination

is legitimate. The ruling was made by Justice Henry Clay Greenberg in deciding that the estranged husband of Mrs. Julie Strnad, 31, had a right to SCRIPTURE: John 21:1-14; Colossians visit her daughter, four-year-old An-:1-4, 12-17; I John 5:11-12. DEVOTIONAL READING: John 14: uct of artificial insemination.

Mrs. Strnad claimed that her husband, Antoine, 42, was sterile since birth, an allegation he denied. She sought to prevent him from seeing the child on the ground Antoinette was not the offspring of her ex-"HE Lord has risen indeed," mate. She had won a separation I and because he lives, we too decree and principal custody of the

Farm Mechanization Boosts Production to Record Level

OMAHA, NEB. - Americans are harvesting 20 million more acres today than they did in 1940, although there are three million fewer people

doing it, and on 200,000 fewer farms. Fast-growing mechanization of farms is largely responsible for this feat, Joseph A. Hoban, merchandise manager of B. F. Goodrich company, told members of Midwest Implement Dealers association. He cited the fact that the nation's tractor "population" had doubled, from one million to two million, just since

Praising "the way America's farmers and other food producers had come through to ease tragic conditions in many lands," Hoban cited the following estimates on the nation's 1947 exports of foodstuffs: 392 million bushels of wheat, five times the amount exported in 1939; 88 million bushels of corn, compared to 32 million in 1939, and 328 million pounds of meat products, against 193 million in 1939.

The farm market offered "the biggest sales opportunity" for in-dustry in 1947, Hoban said, adding that "there is no question that this market is going forward at as great

or even greater pace in 1948.' Hoban said that all tractors now made are rubber-tired, and that changing all a farm's rolling stock from steel to rubber tires produced an average saving of 24 working days and 675 gallons of gasoline per year, for each 150 acres worked.

How To Relieve Bronchitis

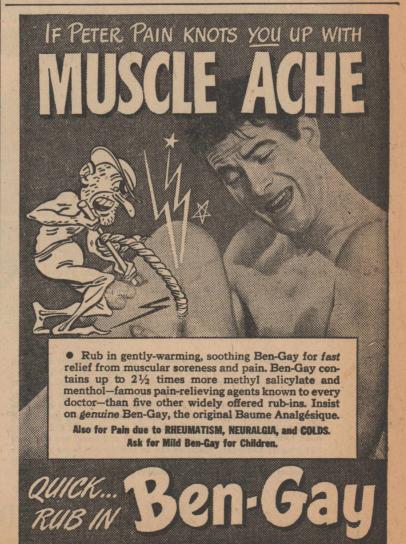

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, infiamed bronchial muccus membranes, Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back. 1947 SALES UP PROFITS DOWN

CHICAGO—Aldens, Inc. consolidated net sales for 1947 totaled \$79,248,308, an increase of \$9,137,139 or 13% over 1946, to mark the seventh consecutive year of gains in sales and establish an all-time high in the company's 59-year history, Robert W. Jackson, president, informed stockholders.

The 1947 profit, after deduction of federal income taxes, amounted to \$1.061,046, as compared with

of federal income taxes, amounted to \$1,061,046, as compared with \$2,622,782 in 1946. "The decrease in profit," Mr. Jackson explained, "was due to the necessity of taking heavy inventory depreciation, increased payroll and general expenses and narrower profit margins because of rising merchandise costs after the mailing of the Fall cataafter the mailing of the Fall cata-

log."
Plans for 1948 call for increased assortments within established lines with greater emphasis on price and quality to assure the best possible value. Aldens will rigidly adhere to the policy of maintaining dominant and outstanding fashion leadership.

Persistent Soldier Talks Way to Jail

G.I. Spends Two Days Telling Authorities of Theft.

* KANSAS CITY, MO .- A 24-year-If you do, take a tip:
Stay in one spot. And the best spot ing to convince authorities here that he had stolen a motor car made some progress when he was arrested and held in jail.

The man was Leonard Martin West Jr. of Cimarron, Okla. West said he spent four and one-half years in the army, including overseas service in World War II, reenlisted December 15 in the army air corps and has been stationed at Lowry field in Denver.

West said he went to Montrose, Colo., to visit friends. There, he said, he stole an Oldsmobile sedan from Sam Trujillo and drove it to Amarillo, Tex., where he abandoned it at a filling station and hitchhiked to Kansas City.

"Sam is one of my best friends," West told police. "I don't know why I ever stole his car unless it's because I have a war neurosis-I have headaches and things like that."

After arriving here, West's conscience began to trouble him, he police. He said he was u to sleep and arose, dressed and went to the federal courthouse determined to confess and surrender. "A guard over there told me to come back later when some of the federal agents would be there," West said.

"I went back and confessed and they didn't seem to believe me. Someone gave me a dollar and told me to go out and get me a good breakfast. I did, and went to a movie, but I couldn't forget about that car and about being almost AWOL from the army."

West said he returned to the federal building, intent on making another attempt to convince agents he had stolen a motor car.

By that time agents had checked West's story and were more interested in him, he said. They turned him over to police, who also questioned him and placed him in jail.

The Magna Charta, charter of English personal and political iberties, was obtained from King
