She's willing to pay in hope of insuring crime doesn't

NEW YORK (AP) - A Manhattan grandmother has confessed to her husband that she risked their life savings to rent the 5,000-seat Felt Forum at Madison Square Garden tonight for a 'People's Rally Against

Mrs. Marianne Hofmann said her husband, Heinrich, was concerned but forgiving when she explained the

Hofmann asked for an explanation

after he was astonished to hear a radio report Wednesday that his wife had emptied their savings account to give troubled New Yorkers a chance to speak out about street crime, burglaries and arson.

"He was very understanding," Mrs. Hofmann said. "He just hopes enough people come and pay \$1.50 so I'll get some of the money back."

Politicians will be welcome - to listen rather than speak — so the rally

will belong to persons who have been, or fear they may be, victims of crime, said Mrs. Hofmann.

As coordinator of "the Law and Order Committee," Mrs. Hofmann said she was calling for restoration of police, fire and sanitation forces to full strength to combat the crime, fire and health hazards that worry many of the city's nearly 8 million resi-

Mrs. Hofmann, who lists her age as "over 21," became concerned about crime after her previous Manhattan apartment was burglarized twice in 1963. The first time was in the summer. The second was "just two days before-Christmas, and they cleaned

"I was crying, and my husband took me in his arms and said, 'You have your life, I have my life, we can

buy new things," she recalled. The Hofmanns moved to Manhattan's Inwood section in 1964 to get away from the higher-crime area but found that the crime wave caught up

with them.

Mrs. Hofmann said they lost \$30,000 on an Inwood delicatessen they sold because of neighborhood deteriora-tion. In 1971, although not Jewish, she said she witnessed a youth gang attempt to rob a synagogue congrega-tion and chased the youths down the street while "the men just stood and watched."

The Hofmanns left the city in 1972 to look for a home elsewhere. But she said she woke up one morning in Florida and told her husband, "Let's go back to New York, even with its crime. New York belongs to its citizens, not to the criminals."

Editors find court press ruling ominous

WASHINGTON (AP) - "In many cities and towns, it could become open season on journalists," predicts an Oklahoma broadcaster.

That assessment was made after a Supreme Court ruling on Wednesday that newspaper offices - and the offices of other news organizations as well — enjoy no special protection against police searches.

Ernie Schultz of telvision station KTVY in Oklahoma City and president of the Radio-Television News Directors Association said the court edict sparking his prediction was both disappointing and ominous.

That view was shared by many news executives across the nation. The high court's decision was reached in a case involving a 1971 police search of the offices of Stanford University's student newspaper, the

Stanford Daily. Officers, armed with a search war-

rant and seeking photographs and negatives that would help them identify demonstrators who had injured nine police officers in a campus riot, searched the Daily's photo laborawaste paper baskets.

The newspaper sued, won in two lower federal courts but now have seen those victories reversed.

Speaking through an opinion written by Justice Byron R. White, the court rejected arguments that persons and businesses not actually suspected of a crime should be asked to submit materials desired by police before being subjected to searches.

Voting 5-3, the court also held that newspaper offices essentially are entitled to no greater protection against such searches than other business establishments. The ruling explicitly rejected free press arguments.

Not many years ago, journalists suffered several major defeats in the Supreme Court when arguing in vain that reporters and their work should not be subject to the subpoenas of prosecutors seeking help in criminal investigations.

Arguments then, as in the case decided Wednesday, centered on fears that such intrusions into the news business would inhibit confidential sources from volunteering information.

Wednesday's ruling conceivably could prove to be a worse defeat. Subpoenas may be contested in court - search warrants in virtually all instances cannot be.

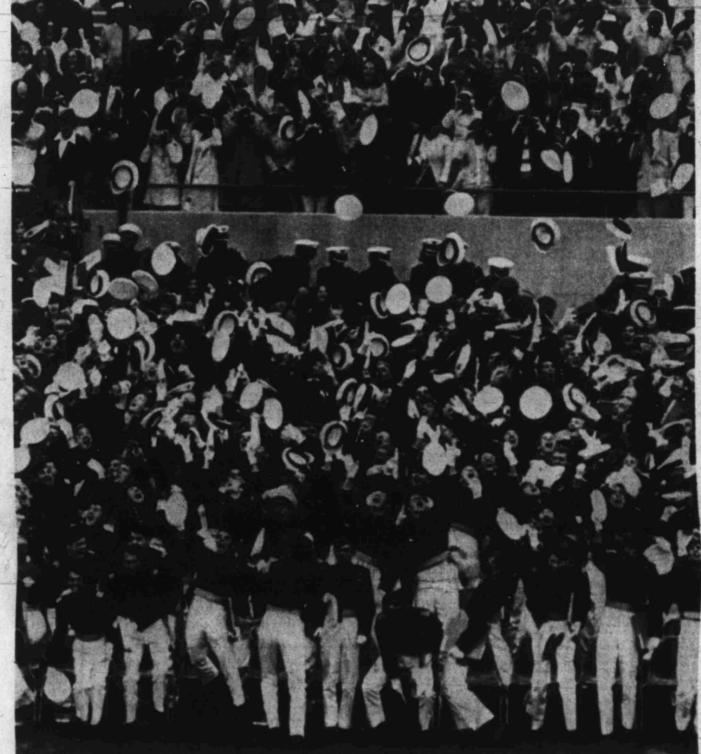

The decision, said Mike Maloney, managing editor of The Register in Santa Ana, Calif., "leaves us, the newspapers, with no pre-search way of resisting the warrant. ... It really opens up the door to newspaper of-

Keith Fuller, president and general manager of The Associated Press, called the decision disappointing, saying "My main concern is that this could open the door to harassment in situations where local authorities are irritated over news coverage."

Benjamin C. Bradlee, executive editor of the Washington Post, said that under the ruling "the Pentagon Papers could never have been published."

"The police would have entered newspaper offices and seized them before newspapers could bring the facts to the people," Bradlee said. "If this decision were in force during Watergate, it requires no stretch of the imagination to see police in these

Minimum-security jail to go where Webb was

BIG SPRING - A minimum-security camp for up to 500 "white-collar" federal prisoners will be set up on 33 acres of Big Spring Air Industrial Park, formerly Webb Air Force Base, Big Spring Mayor Wade Choate said today.

He said the camp, to be operated by the Department of Justice's Federal Bureau of Prisons, will be operational by this October and will be contained in a fenced-in area on the 2,200 indus-

Choate said "very, little objection" has been voiced here over the coming of the camp, and most of that comes from initial reaction to the word

The type of inmate here, he said,

would be men convicted of white-collar crimes, such as embezzlement and income-tax evasion. Those convicted of murder, robbery, rape and other violent crimes against people would not be kept here, said Choate.

The Big Spring City Council on Wednesday unanimously endorsed the Bureau of Prisons' placement of a minimum-security camp here. Choate said he personally has heard no serious objections to the camp's

proposed location near Big Spring.

Choate said the Bureau of Prisons initially contacted the city and asked to lease the acreage.

"They (the bureau) contacted us (and said) they were interested in the facility . . . It met their needs and

Indian artifacts.

Big Spring plane causes stir; Midland enjoys rain

BIG SPRING — A plane seeding clouds over Big Spring evidently did its job Wednesday but it also caused an uproar among residents at the same time, according to law enforcement officials in that town.

While seeding the clouds the pilot dropped flares, and residents thought lightning had struck the plane and set it on fire, according to reports. One official said about 100 persons called to report the lights and that the plane possibly was on fire.

The plane and pilot were not in any trouble, the official added.

Meanwhile, much of the Permian Basin received rain, whether or not the seeding did its job.

Midland Regional Airport received .30 inch. The city of Midland received amounts ranging from .09 inch on the east side to .1 inch on the south at the Permian Basin Petroleum Museum to 51 inch on the north side around Midland College. Midkiff received .2 inch and Odessa had .16 inch.

Other area towns are wetter than Midland today after receiving at least an inch of rain. Stanton, Rankin and Lamesa had about an inch while Andrews and Big Lake reported more than an inch of precipitation. Big Spring had from .32 to .50 inch and Crane reported receiving rain, but no amount was available. Garden City did not receive any moisture, said

Indian art now 'low man'

The weatherman with the National Weather Service at Midland Regional Airport said there is a 30 percent chance for more rain tonight and a 40 percent chance on Friday. Low tonight should be in the middle 60s, but the high on Friday should be cooler than Wednesday's with the mercury "scheduled" to reach only into the upper 80s. High on Wednesday was 92

The normal average rainfall for the month of May is 2.16 inches and Midland passed that this year with 2.62, the weatherman said. Wednesday's rainfall helped to push it to that mark,

a nominee for the 19th Congressional District seat being vacated by George Mahon. George W. Bush and Jim Reese will be on that ballot.

Democratic voters will be choosing a nominee for railroad commissioner from between Jerry Sadler and John

The Indian, though supposedly "civilized" and "tamed" under white man's rule, has yet to wholly blend into the great North American melting pot. Those who do so or at least attempt to blend in often are shunned

by their tribal brothers. some feel ostracized if they try to achieve in the white man's world," Carley said. Those who do "forsake" the tribe are called "apples" by other red men; they're red on the outside

So, many just stay on the reserva-

tion and, perhaps, long for what they must believe were better days — the days of their ancestors - before white men trespassed Indian country. The Anglos, of course, did this in the name of Manifest Destiny. They conquered the "natives," took over the land, but not without warring, and corralled the Indians. No longer would Indians nations roam the land, hunt buffalo and deer and fight among themselves

"It's heart-rending to see their cir-cumstances," said Carley, who worked with Cheyennes and Arapahos in an Upward Bound program for disadvantaged ethnic groups after he moved to the former Indian Territory

from Texas about five years ago.

That work was incidental to his main work as a member of the art faculty at Southwesten Oklahoma

State University at Weatherford.

"The Indian is very passive," said Carley. In the Upward Bound program, Carley said he observed that blacks were more extroverted than

Chicanos, whites and Indians, whom he labled as introverted. The lastnamed exude dispair.

"There are individual exceptions to any generalization like that," he

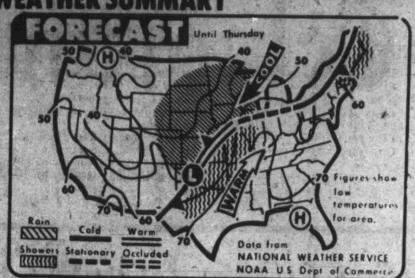

But the Indians are not so passive "once you get to know them on their own ground."

Long before the white man's invasion of the Continent, the tribes warred among themselves and marauded. This came to the fore with the coming of "The Day of the Horse" on the western plains sometime after the Spaniards introduced the migrat-ing horse to North America early in

Simply, Carley noted, it is in "the nature of man" that caused the nomads to want what the settled Indians had developed. The passing of time hasn't changed that principle.

That aside, Carley, 41, got caught up in collecting Indian tools and arrowheads and spearheads when he

On the academic scene, professors sometimes "lose sight of the real world . . .," Carley said, "(while) we're trying to prepare people for careers in the real world."

Carley's latest major project was the acrylic painting of an 8-by-24-foot mural for the Cheyenne-Arapaho Tribal Administration Building at Concho. The mural is something of a time capsule of the tribes' histories and depicts their real and spiritual worlds. The mural, for instance, illustrates a sun dance for the renewing of life and the seasons, and a ghost dance, which expresses hope for a messiah to lead the Indians in driving out the white man and in regaining

their land. Carley, who demonstrates working interests in both archaeology and anthropology, calls Indian artifacts a "non-renewable resource," which he hopes will remain for all time.

ville in Dallas County, Choate said. Big Spring officials recently toured

"They said it's just like a college campus - real neat and clean,' Choate said.

The bureau is setting up the camp in West Texas because "they'e trying to keep these type (white-collar) of people closer to home. Most of the inmates, who will be working while here, will be from Texas, he said. Others may be from New Mexico and Oklahoma.

Choate said the bureau had already decided on the Big Spring site, but was waiting on a formal "invitation" from Big Spring officials.

'They (the bureau) didn't want to come (to Big Spring) if the city didn't want them," he said.

Col. Harry A. Spannaus, manager of the industrial park, said to call the minimum-security camp a "prison" would be a misnomer because of the

Midland independent oilman, in the November elections. In the May 6 Democratic primary,

Sadler garnered 45 percent of the vote, while Poerner, who was appointed to the three-member commis-sion in January following Jim Langdon's resignation, received 28 per-cent. Eliminated from the race were Jake Johnson of Round Rock and Ray Lemmon of Houston.

Poerner has been quoted as calling his opponent a "public disgrace" and has said Sadler himself is the major issue in the campaign.

Poerner has said Sadler's winning

would be an embarrassment to Texans, according to the newspaper accounts. "They (the voters) must know what the name (Sadler) repre-sents and stands for," he has said. In a telephone interview with The

Reporter-Telegram, Poerner pointed out that while serving as state land commissioner, Sadler was censured by the state House of Representatives in 1969 for hindering a legislative committee's investigation into the way he handled recovery of sunken treasure off Padre Island.

According to newspaper stories, Sadler alledgedly tried to choke then state Rep. Jake Johnson when he and another legislator tried to see some of the recovered treasure. Sadler has denied that he tried to strangle Johnson, saying that he grabbed the former state representative by the tie instead.

Poerner also said Sadler and his firm, Sadler Corp., were declared bankrupt in June 1972. "I don't want Sadler on the commission, and I don't think the people of Texas do either."

Sadler could not be reached for comment.

On the other hand, Poerner has not escaped criticism either. He has been charged with possessing oil and natural gas holdings which allegedly con-stitute a conflict of interest in his job as railroad commissioner.

The commission primarily is responsible for regulating the oil and gas industry in the state. It also oversees the transportation industry and administers the law concerning reclamation requirements for land that has been surface mined. But Poerner said Tuesday he has

'never been connected" with the oil and gas industry. According to earlier newspaper accounts, he said he bought the land at his three South Texas farms for farming and has placed these holdings in a blind trust at Austin National Bank.

"I've never bought an oil and gas lease in my life. Never bought any minerals in my life," he has been quoted as saying. In addition, Poerner, 45, has been

accused of having too little experience to serve on the commission. In reply, he pointed to his membership in the House of Representatives Transportation Committee while he was a legislator. He said he also offers "good government" and "hard work" to the public. Since he's been commissioner he has worked at the office from 7 a.m. until dark, he

The 70-year-old Sadler served three years as railroad commissioner before resigning to join the U.S. Army in 1942. A practicing attorney 42 years, Sadler was a land commissioner 10 years and filled out three terms in the state House of Representatives. This is his second attempt to get elected to the Railroad Commission

According to his wife and fellow campaigner, Laura Sadler, Sadler is running a "very informal" campaign and simply is getting out to see peo-ple. She said recently in a telephone interview that he has been working hard, looking well and even has lost a

Sadler has said that, if elected, he would promote the public interest by working with the federal and state governments and the oil industry to recover energy reserves "in order that Texas consumers will not be penalized as they now are," according to the Voters Gulde of The League of Women Voters of Texas Education

He has pledged to promote conservation at all levels and blames the energy crisis for inflation and the trade deficit, according to the Voters

Throughout his campaign, Poerner has repeatedly said a balance must be maintained between consumer interests and oil and gas industry inter-

"At the root of everything the commission touches — from oil and gas production to transportation to surface mining - we members have got to preserve the balance between insuring that the companies have the opportunity for adequate capitalization and growth, and insuring that the costs of the commodities and services fit within the framework of the con-

sumer's budget," Poerner has said.

He has pledged to fight any federal energy bill which includes control of intrastate oil and gas and has said coal will become a major source of power in the future in Texas. Coal comprises 40 percent of the state's energy reserve, he has been quoted as

In 1969, Poerner was elected to the first of three terms in the State House of Representatives from his hometown of Hondo. A retired land surveyor, Poerner considers himself a rancher, farmer and businessman. He is a member of the board of directors of the Hondo National

ANDREWS - Services for Grace Eloise Steed, 64, of Andrews, were to be at 1 p.m. today in the First Baptist Church here. Burial was to be in Andrews Cemetery, directed by Singleton Funeral Home.

She died Tuesday in an Andrews

hospital after an illness of five

Mrs. Steed was born June 16, 1913, in Vivian, La. She had lived in Wink and Midkiff before moving to Andrews 16 years ago. She married J.B. Steed in Ranger on Oct. 10, 1942. She was a member of the First Baptist

Survivors include a husband, J.B. Steed; a son, James Strixner of Andrews: a daughter, Mrs. Kenneth Laird of Bartlesville, Okla.; a brother, J.D. Keel of Pasadena, and a granddaughter, Suzann Master of Hobbs, N.M.

Fred Ray

ODESSA — Services for Fred Bouman Ray, 58, of Odessa, brother of Lucy Flowers of Hobbs, N.M., will be at 10 a.m. Friday in Hubbard-Kelly Funeral Home. Burial will be in Sunset Memorial Gardens.

Ray died Tuesday in an Odessa hospital.

He was born March 23, 1920, in Clara. He married Irene Hedger in March 1946 in Kermit and came to Odessa the same year from Longview. He was a pumper for Amoco for 32 years. He was a Baptist and served with the Army in World War II. He was active in Odessa softball for many years, both as a player and a Survivors include his wife; a son,

Fred Bouman Ray Jr. of Odessa; two daughters, Janie Martin of Garland and Gwen Ray of Odessa; three brothers, Lawrence Ray of Odessa, James Ray and Barnie Ray, both of Longview; four other sisters, Willie Edison of Magnolia, Ark., Nellie Schroeder and Jannie Bartley, both of Burkburnet and Rose Annie Johnson of Beaumont, and a granddaughter.

Jessie Pinnell

ANDREWS - Services for Jessie S. Pinnell, 91, are pending at Singleton Funeral Home. She died Wednesday in an Andrews nursing home.

Mrs. Pinnell moved to Andrews in-1907 from Alvarado and was one of the early settlers in the community. She was a native of Georgia and a member of Means Memorial United Methodist Church. Her husband, D.M. Pinnell Sr., died in 1937.

Survivors include four sons, D.M. Pinnell Jr., J.W. Pinnell and B.H. Pinnell, all of Andrews, and Charles Pinnell of College Station; 10 grandchildren and eight great-grandchil-

Mrs. McNew

BIG SPRING - Services for Mrs. Sadie McNew, 72, are pending at Nalley-Pickle Funeral Home in Big

Mrs. McNew died in San Antonio

She was born Sept. 11, 1905, in Lockhart and was married to J.H. McNew March 31, 1923, in Lamesa. She had resided in the Big Spring area since 1930. She was a member of the Berea Baptist Church.

Survivors include her husband; five sons, Ray McNew of San Antonio, Jack McNew of Odessa, Joe McNew of Carlsbad, N.M., Richard McNew of Fort Worth and LeRoy McNew of Midland; five daughters, Mrs. Bill Croft, Mrs. Jerald Burgess, Mrs. Roger Coffman, all of Big Spring and Mrs. W. O. Posey of Lomax and Mrs. N.D. Ewing of Coleman; one brother, Pat Franks of Denver; 32 grandchildren and 19 great-grandchildren.

Mrs. Herring

BIG SPRING - Services for Mrs. Fred (Iola) Herring, 75, of Big Spring, were to be at 2 p.m. today in Nalley-Pickle Funeral Home. Burial will be at 2 p.m. Friday in Peoria Cemetery in Hill County.

She died Tuesday in a Big Spring

Mrs. Herring was born May 31, 1902, in Hill County. She was married to Fred Herring on Nov. 10, 1923, in Peoria. They moved to Big Spring in 1950. She was a member of Trinity Baptist Church.

Survivors include her husband; a daughter, Mrs. Jack Swafford of Fort Worth; a son, Kenneth Herring of Shelton, Wash.; a brother, Arden Battle of Dallas; a sister, Mrs. Seldon Bennet of Whitney; six grandchildren and a great-grandchild.

William Johnson

BIG SPRING - Services for William Homer Johnson, 88, a former Big Spring resident, will be at 10:30 a.m. Friday in the River-Welch Funeral Home in Big Spring. Burial will be in Mount Olive Memorial Park.

Johnson died Monday night in El Paso.

He was born March 18, 1890. He retired as an engineer from Texas and Pacific Railroad in 1962. He had moved to Big Spring in 1914 and lived there until 1974. He was a member of the 14th and Main Street Church of

His wife and daughter preceded him in death.

Ida Gray

NOCONA — Services for Ida Aline Gray, 66, mother of Monroe Harris of Lamesa, were held Tuesday in the Assembly of God Church. Burial was in Center Point Cemetery directed by Scott Brothers Funeral Home. Mrs. Gray died Sunday in a Nocona

nursing home. She was born July 21, 1911, in Rich-

land and had lived in Nocona since October 1976. She was a member of Joy Baptist Church in Nocona.

Survivors also include twoother sons, five daughters and 20 grandchil-

Judge approves train hotel bid

PHILADELPHIA (AP) - A federal judge has approved the Loews Corp.'s high bid of \$55 million in the sale of three New York hotels by the bankrupt Penn Central Transportation

A three hour hearing Wednesday before U.S. District Court Judge John B. Fullam, who oversees the Penn Central bankruptcy case, assumed the air of an auction as a second group attempted to outbid Loews for purchase of the Biltmore, Barclay and Roosevelt Hotels.

Biltmore Associates, described by the New York Times as having Middle Eastern backers, bid \$50 million May 4 after Loews' bid of \$45 million was provisionally accepted by trustees of

Loews subsequently objected to the trustees' consideration of the Biltmore offer.

Tornado kills three in home

HOLTON, Kan. (AP) - A tornado storms killed three persons, seriously injured one other person, derailed a freight train and damaged houses and

Jackson County Sheriff Don Collins said the deaths and injuries occurred about three miles southwest of here when a tornado struck the mobile home of Edgar Larrison shortly after

6 p.m. Wednesday. Killed were Emma Jean Larrison, 43, and her 6-year-old daughter Susan. Larrison, 68, who was transferred to Stormont-Vail Hospital in Topeka in serious condition, died

Penny Bird, 18, Mrs. Larrison's daughter by a previous marriage, was hospitalized in Holton in serious

The Kansas Highway Patrol put initial damage estimates in the Holton area at about \$500,000.

"This is by far the worst tornado Jackson County, Kan. has ever had," said Allen Pearson of the National Weather Service. The last tornado to hit the county was on May 6, 1973.

About 26 miles southeast of Marysville, 16 cars of a Union Pacific Railroad train were derailed when a tornado hit the rear of the eastbound

Union Pacific spokesman Dick Lohr said the train's four-man crew sighted the tornado at about 5:20 p.m., stopped the train and ran for cover. The tornado struck the rear of the 129-car train, flinging cars in all di-rections, Lohr said. He said one car landed ¼ mile from the track.

The National Weather Service in Topeka said one tornado left a path of damage 20 miles long and one-half-mile wide through south-central **Jackson County.**

'Sav-A-Life' project

The Midland Jaycees, long on civic project sponsorship during the almost 40-year history of their organization, still aren't looking back when it comes to serving the community and its residents.

And a special project scheduled Saturday is another example of the type of civic service for which Midland Jaycees are noted.

It is the Midland Jaycees Sav-A-Life Smoke Alarm Sale, which is being brought back by popular demand (while they last). The sale is scheduled from 9 a.m. to 4 p.m. at Western State Bank, 1030 Andrews Highway.

The Jaycees, in cooperation with Station KCRS, staged a most successful Sav-A-Life sale on the weekend of March 18, selling hundreds of smoke alarm units for placement in Midland homes.

Since then, the Jaycees have had many requests for additional units, and it was decided to have a follow-up sale this Saturday.

Les L. Riek, civic vice president, emphasized that this is strictly a civic project, rather than a ways-and-means program. "We, as Midland Jaycees, are

working to keep Midland a safer

approaches \$11.4 billion annually. More than one-half of the 12,000 fatalities from fire, he said, occur in dwellings - somewhere between 6,000 and 7,000 per year. Fifty percent of the total number of fires start in the living room or bedrooms.

It is noteworthy also that most fatal residential fires occur at night when most people are asleep, with 75 percent of all dwelling fires beginning as slow, smoldering and smokey.

This is why smoke alarm units are so important, and this is what the Jaycees are talking about when they say they are working to keep Midland a safer place to live, through the sale and placement of smoke alarms. It would be wonderful if every home in the community had one or more operating units in place.

Whether you purchase units from the Jaycees or a retail outlet, we would recommend prompt purchase and placement.

ART BUCHWALD Obscenity trial jurors have tough assignment

WASHINGTON — The Supreme Court is still wrestling with the question of obscenity. Last week it ruled that, while juries must vote what is obscene by the standards of the local community, they cannot include children as part of the community. The juror must decide not just for himself but for everyone in the area what should and what should not be permitted to go through the mails.

It's a helluva burden to put on somebody as Melcher, a friend who is now sitting on a jury judging an obscenity trial, told me the other night.

Melcher said, "This is tougher than

a murder trial. I'm not just sitting in judgment for myself. I'm representing the entire community, excluding

"That shouldn't be hard," I said. "Everyone in this neighborhood is against obscenity.

"That's what they say," Melcher said. "But they tell me one thing and then go out and tell Kinsey and Mas-ters and Johnson researchers something entirely different. If we believe their statistics, there's more going on in this community than people will

"Well, I was trying to figure out some way of getting a fix on what the community thought was or was not obscene, so I took a copy of "The Joy of Sex' and went from door to door asking people what positions in the book appealed to their prurient inter-

Art Buchwald

Melcher replied, "Nobody would talk, but I sold 61 books." "That's a lot," I admitted.

"Everyone tells me they're against X-rated movies, but 'Deep Throat' is still playing at a downtown theater. It's had a longer run than 'Star Wars.' Who keeps going to the movie?".

"Probably people from George-town," I said. "Their morals are a lot looser than those of us who live in Wesley Heights. I'd say they've been lowering the community standards in Washington by at least 10 percent."

"That's the problem," Melcher said. "The Supreme Court has ruled that a jury in an obscenity case must take into consideration the opinions of everybody in the community from the 'most sensitive people' as well as 'deviant sexual groups' before we come to a decision.

"What do they mean by 'deviant sexual groups'?" I asked him.
"Nobody has really spelled it out

for us. Maybe it's people who go skinny dipping or who dress up in each other's clothes."

"We don't have anybody like that in our neighborhood," I said. "I heard that's the sort of thing that goes on in

"But Bethesda is part of the community," Melcher said. "I have to think of them, too."

"Don't forget Chevy Chase," I told him. "They pretend to be straight, but I've heard the husbands go to massage parlors when their wives areaway on summer vacation."

Melcher said, "That's my problem. Every time I think I've got the community standards down pat someone tells me something that throws them completely out of kilter. You've heard about the waterbeds at the Water-

gate, haven't you?' tergate waterbeds? You know something, Melcher? I think you're taking the Supreme Court guidelines on obscenity too seriously. If you try to figure out whether the guy is guilty or not by community standards you're going to go crazy. Send him up for life and forget about it."

'But the conviction could be thrown out by a higher court."
"Why?" I asked.

"Most of the pictures the defendant

mailed were taken on Capitol Hill."

THE BIBLE CAN YOU QUOTE IT?

IF HISTORY BOOKS CAN HAVE A FINAL

CHAPTER?

WASHINGTON MERRY-GO-ROUND

Mysterious and deadly leaders

By JACK ANDERSON

WASHINGTON - Hundreds of thousands of faceless men and women and their anonymous children have been shot and bludgeoned to death behind the sealed borders of Cambodia. The crime has been so monstrous, yet invisible, that it is not easy to reduce to human terms.

There have been few witnesses to the slaughter. All traffic with the outside world is blocked at borders that are laced with barbed wire, buried mines, machine gun nests and gun emplacements. Anyone caught in this no-man's-land is killed on the spot. One intelligence source described it as "far more formidable than the Berlin Wall.'

Nor can the bloodletting be ascribed to some identifiable ogre in the manner that Adolf Hitler personified the Nazi horrors. The perpetrators are as faceless as their victims.

Our associates Doug Southerland and Jack Mitchell spent weeks trying to find out who in Cambodia ordered the massacres ... who, therefore, should be hauled before the bar of world opinion ... who should be named to the Hall of Infamy alongside Adolf Hitler and Josef Stalin.

The awful orders came from a mysterious ruling clique known only as the "Angar," which means "The Organization." Apparently, it is part of their idea of a classless society that they remain largely anonymous, their real identities camouflaged behind aliases, falsehoods and obscurity.

This much is known: They are the hard core of a terrorist group that formed in Paris during the late 1940s and early 1950s. They were radical

students who met at a place called 'Cambodian House" and forged their own anarchist ideology. There is evidence that they directed subversive political activities inside their native Cambodia as early as the

Those who now belong to the tight little ruling circle hold the power close to their chests, trusting no one and confiding in no one outside their group. They have even intermarried, much political clout as the men.

Apparently, they are not poor, sim-ple peasants, with their roots in the soil, as they pretend. Some came from land-owning families, others from families in the civil service. Yet these ruthless new rulers have sought to wipe out their own class in an insane attempt to remake society from the ground up.

Nor do they lack the education they won't abide in others. Not only did they study in Paris, but some of them returned to Cambodia as teachers. Yet they have marked all teachers and students for execution in order to stamp out the old culture. They are busily "re-educating" illiterate, teen-age cadres to build the new order.

Most of the leaders are in their early 50s. But they don't trust people their own age, because they may be tainted by the past. The leaders want to "create a new man," as they put it, by eliminating the older generation and putting the emphasis on youth. A Yugoslav delegation, just back from the first visual tour of Cambodia since the communist takeover, said they saw hardly any older people, just

young. people.

By all accounts, the top dog in Cam-

Time is running out on the Equal Rights Amendment

WASHINGTON - Three more states must ratify the Equal Rights Amendment in the next 10 months, or by rules of the game, it joins other defeated amendments, including that conferring titles of nobility, one pro-tecting slavery and another allowing child labor. Within one month after Congress

sent ERA to the states in 1972 (threequarters must ratify) 14 states ratified. Only 11 months later, 30 had voted yes. Since seven years are allowed for

ratification, the quick initial acceptance of ERA indicated that it would easily become the Twenty-Seventh Amendment to the Constitution. After all, more than half the voters are women, and which politician can resist such a large bloc?

Moreover, fair-minded men realized when ERA was overwhelmingly passed in the U.S. Congress that women's pay should be equal to men's for the same work, that women should not be discriminated against in employment, bank loans, estate settlment and other areas where women suffered from bias.

Consequently, by the mid-Seven-ties, government, business, education, the military and other sectors of American life had knocked out many discriminatory practices. In fact, reverse discrimination on behalf of women was put into operation in

Meanwhile, ERA sailed along, and by March, 1975, when North Dakota ratified, only four more states were

Nick Thim mesch

needed. But now, in 1978, ERA seems stopped. Its frantic backers demand that the rules be changed, and that Congress vote for a seven-year extension for ratification

This is like a team, losing in the last of the ninth, demanding that this particular baseball game consist of 18 innings. Such an unprecedented extension, being seriously considered by fearful Congressmen, is not only unfair on its face but possibly unconsti-

Why has ERA, which started like gangbusters, run into a stone wall? Partly because of conservative elements in the dissenting states, but also because the vanguard group for ERA, the National Organization for Women, has offended large groups of fair-minded Americans with an outright display of bad manners and

bigotry.
NOW and other militant women's "liberation" groups somehow thought that the ERA movement should also include militancy on behalf of abortion-on-demand, special rights for lesbians, and even "sexual independence" demonstrations featuring simulated lovemaking between lesbians and exhibits of dildos and other apparatus a female can use alone.

For all its consciousness-raising hoopla, NOW lost sight of the main objective, namely, getting ERA passed. Why else would they attack Mormons and Catholics by lumping them with the Ku Klux Klan, Nazis and Communists, because elements in their churches opposed ERA? Why do they offend many unopposed to ERA by imposing strong-arm boy-cotts on states which haven't ratified? Why don't they argue ERA on its

NOW and other groups vow they will defeat state legislators this fall who voted against ERA, and will also push Congress to cut loose with that seven-year extension.

But it seems pro-ERA groups are becoming bad sports. After all, no constitutional amendment took more than four years to be ratified, and these folks want 14 years, hardly a "reasonable" length of time.

One wonders, if ERA is ratified, what demands the Jacobins would make of Congress and the bureaucracy for enforcement. Would ERA become a sort of sexual OSHA, with all manner of feminist pecksniffs snoopng about, checking octave levels of radio-TV commercials, eyeballing executive lounges for gender counts?

With or without ERA, women hold enormous power. Mothers, wives and lovers have plenty of clout. What is this mystical power that the militants seek? Is it in the Constitution, in cloakrooms of state legislatures, in Phyllis Schlafly's purse?

It is one matter to make sure women are treated fairly before the law, and as well as either sex, in life itself. What is a man worth if he does not respect any woman for her ability and accomplishment? But it is quite another matter for all men, of whatever skill or qualification, to be regarded as a privileged class, backed by an army of enforcing bureau-

Again, shame on editors for dispatching feminists to cover feminism and radical feminists. Where is the Mencken tradition? Why not occasionally assign a cigar-choming, curmudgeon male to skewer the knaves and louts who certainly exist in the female population?

BUFFALO, N.Y. (AP) - Rejecting their claims of remorse and saying he wished he could punish them more, a judge sentenced two former Buffalo policemen and another man to the maximum prison terms in the beating death of a teen-ager.

After each man read a statement Wednesday, state Supreme Court Justice Norman A. Stiller contradict-

ed their version of events and sentenced each to four years in prison — the maximum for their criminally negligent homicide convictions.

Court officials said the three men -Gary Atti, 26; Philip C. Gramaglia, 31, and Jack Giammaresi, 30 — could be eligible for parole in 10 months.

Atti and Gramaglia were fired as policemen after the death of Richard

wrong," said Atti. "I have damaged the lives of people I love and are dear to me, and I damaged my life beyond repair. I could never express the sorrow I feel in my heart every day for

The 72-year-old judge shot back: "Whoever wrote it did a good job. To attack this boy even alone would be a vicious attack, but with accomplices ... I have no sympathy for you.

"This wasn't a foolish act, it was a vicious act. I'm sorry I can't give you more than four years. I hope the

probation department will extend you no leniency," the judge said.
Giammaresi spoke next: "I think back to June 24 as if it were a nightmare. I've never been a fighter or a bully, much less a killer. All I ask is that you believe my testimony."

To which the judge replied, "I believe your testimony. You took your clog off and hit him in the head with

As his wife held a yellow handker-chief to her mouth, Gramaglia said, "It's an awful weight to carry around for the rest of my life. I know the pain the Long family is going through. All I

can do is ask forgiveness." Then the judge said, "You're a police officer who's trained to keep his temper. You had plenty of time while you were chasing that car to ask

yourself, 'What am I doing? What am

Seven men were indicted for manslaughter in the case, but a jury found four of them innocent and convicted the other three on the reduced charge

of criminally negligent homicide.

On the evening of June 24, 1977, the men had been celebrating the upcoming wedding of exonerated defendant Richard Atti, older brother of the convicted policeman.

Human cloning opposed by group

seem successful, but the transplanted nuclei, after

this rather traumatic treatment, have so far proved

incapable of replacing the egg nucleus and bringing

about the development of any embryo, let alone a

However, Dr. Mintz was even more adamant that

human cloning as not been done and probably will

Because of the biological problems, she said, "cloning has not been achieved and very likely will

not ever be achieved. The prospect of human cloning

The procedure, in animals, requires that a body

cell nucleus containing a full set of chromosomes be

implanted in an egg cell—the nucleus of which has been destroyed. The embryo would, in turn, be

implanted in the uterus of a woman to be carried for

normal adult mammal," said Dr. Markert.

WASHINGTON (AP) — A self-acclaimed public advocacy group says that human cloning is a "destructive and anti-social technology" that should be outlawed in the future.

The mechanics of the microsurgical transfer

Jeremy Rifkin, co-director of the Peoples Business Commission based here, told a House health sub-committee Wednesday that he is skeptical of the claims made by a science writer that a healthy baby has already been cloned.

But Rifkin said the potential for human cloning and the artificial creation of life challenges the entire value system.
"No technology threatens the disruption, the disin-

tegration, of the family more than human cloning,"

Cloning is the making of identical copies of a single cell or organism.

Also testifying at the hearing were four eminent cientists who said they personally regard a cloning book by David Rorvik as "a work of fiction."

Dr. Beatrice Mintz, senior member of the Institute for Cancer Reseach in Philadelphia, and the other scientists agreed that the technology exists to begin the process of cloning a human baby. But they said cloning experiments with tadpoles and mice lead them to the conclusion that a cloned human embryo

would not survive long.

Dr. Clement L. Markert, Yale University biology professor, emphasized that as of now human cloning

Independence for Scotland suffers setback

LONDON (AP) - The cause of Scottish independence was at a low point today following the defeat of fiery nationalist leader Margo MacDonald in a cru-cial parliamentary election in Hamilton, her home-

Mrs. MacDonald failed to take the House of Com-mons seat from the ruling Labor Party in a special election Wednesday that was widely considered a make-or-break test for her Scottish National Party; which seeks to end more than 270 years of rule from

Labor candidate George Robertson, a union organizer, won with 18,880 votes, nearly 6,500 more than Mrs. MacDonald. The defeat was a stinging blow to the party and to her, the best known politician in Scotland and the voice of Scottish nationalism. But it was not expected to endanger her position as the party's senior vice chairman and chief strategist.

Hamilton was the third defeat in two months for the "Scots Nats." They lost another special election in April in Glasgow's Garscadden district, a traditional Labor stronghold, and ran badly in regional

The Financial Times said despite its defeats, the nationalist party was not dead.

"A party with more active members than all other political parties in Scotland combined and which is better financed and better organized, particularly at grassroots level, is unlikely to be buried by a setback at Hamilton or even the next general election," the

Mrs. MacDonald, a 34-year-old ex-teacher, vowed the independence campaign will continue. "Independence will come," she said. "It'll just take longer than we expected. The Scottish people want political and economic control of their own destiny. The days of the subsidized Scot are end-

Four years ago the SNP was the fastest growing political party in western Europe. It won 11 of the 653 seats in Commons in a surge of nationalist fervor that jolted Labor and Britain's other major party, the Conservatives. But if the pattern of the Hamilton vote is extended across Scotland in a fall general election, the party will lose five or six of its seats and cease to be a major threat to Labor's traditional control of Scotland. Scotland has 71 seats in the

House, and Labor holds 41 of them.
Support for the SNP has dwindled mainly because the canny Scots, suffering a near-catastrophic economic decline with one worker in 11 jobless, have had second thoughts about cutting loose from the British

They have apparently gone for Prime Minister James Callaghan's alternative — "devolution," or limited home rule, a legislature in Edinburgh and London holding the pursestrings. Recent polls showed that 72 percent of the Scots were against independence but supported partial home rule.

Urban life magazine under way

By LARRY KRAMER The Washington Post

NEW YORK - Next year, Jann Wenner probably will launch his third magazine. Joining Rolling Stone and Outside will be Inside, magazine for young urbanites.

Like so many other business decisions made at Rolling Stone's parent corporation, Straight Arrow Publishers Inc., the decision to attempt an urban life magazine was made by owner Wenner out of purely personal instinct.

"His wife, Jane, never leaves their apartment," said one of Wenner's employees. "It used to be an office joke after we started Outside that he would start a magazine for Jane called Inside. As usual, Wenner will probably get the last laugh when the thing makes a fortune.

A new magazine is just another step on the stairway to corporate maturity for Rolling Stone. Now comfortably into its second decade, Rolling Stone is showing its first signs of coming of age, of passing from the era of being an entrepreneurial enterprise under the tight control of one man into the age of systems, controlled by no one individual, and dominated by printed forms for everything from vacation

requests to staff terminations. Most symbolic of this change is Wenner's hiring of his first general manager, a young Harvard MBA with an impressive background in publishing. Frank Johnson was hired because Wenner needed someone who could engineer his rise to respectabili-

They make an unlikely duo, Wenner and Johnson, but they understand each other. They are the same age, 32, but couldn't be more different. A shoot-from-the-hip gambler with an uncanny knack to recognize what will become popular. We mer came up the hard way — taking chances and hop-

Johnson is methodical and traditional. A Phi Beta Kappa English graduate from Rutgers, Johnson served as a company commander in Vietnam on his way to Harvard Business School. There he did a master's thesis on the Hearst newspapers that attracted the attention and respect of William Randolph Hearst III, a young heir to the Hearst fortune who later became the managing editor of Outside, and eventually introduced Johnson to Wenner.

But first, Johnson put in a few years at Dell Publishing, where he earned a reputation as a hard working and effective manager. He was as surprised as anyone when he was approached for the Rolling Stone job, which he began in January.

'It's a tremendous challenge," he said in an interview in his 28th-floor office overlooking Central Park. "This year this will be a \$20 million company, and it will be a \$100 million company 10 years from now. It is a major publishing house, and it is going through a major evolutionary change. It can't have the ups and downs it has always had."

When Rolling Stone moved the bulk of its operations to New York City from San Francisco last year, that

> GRAND **OPENING JUNE 5 TO 9** REGISTER FOR FREE PRIZE

flowerland 682-1634

With Johnson's arrival, phase two begins - the development of systems that will allow the company to run itself. In the case of Rolling Stone, that will be no easy task, because so much of the success of the magazine was due to the energy of its staff and its creator. Wenner. It remains to be seen whether spontaneity can be pro-

Born in the age of the flower child in

San Francisco in 1967, Rolling Stor started when Wenner fueled his dream with \$7,500 of borrowed capital and a lot of help from his friends. Now there are 135 employees on both coasts, and a paid circulation of about 520,000 for Rolling Stone and something less than half that for Outside, an outdoorsy magazine started last spring.

To be sure, Rolling Stone IS Jann

MNB OFFERS NEW CD'S & IRA'S

NEW HIGHER INTEREST CD'S

Effective Thursday, June 1, The Midland National Bank is offering two newly authorized certificates of deposit. These will permit MNB customers to earn higher interest rates than were previously available from commercial banks.

6-MONTH MONEY MARKET CD

The first CD is a short-term money market certificate with a ceiling interest rate which will be set weekly with changes in the average yield on new issues of six-months Treasury bills. The money market certificate can only be issued in denominations of \$10,000 or more with a six-month (26 week) maturity. Interest will be paid according to the average (auction) yield for the six-month Treasury bill in the most recent week's auction prior to issuance of the CD. For example, the average auction yield for six-months Treasury bills in May 1978 ranged from 6.935% to 7.141%. Of course, these rates will vary week to week according to money market forces. Presently, banks can pay 51/2% on CD's under \$10,000 for 90 days to one year.

The new market certificates are nonnegotiable, but can be pledged as collateral for a loan.

8-YEAR 7 3/4% CD

The second CD is a long-term certificate issued in minimum denominations of \$1,000 at maturities of eight years or more at a maximum rate 7 3/4%.

NEW DEPOSITS TO IRAs EARN 8%

Effective June 1, Midland National will pay 8% on new deposits to Individual Retirement Accounts. This rate is the highest rate a federally insured bank or savings and loan may pay on time deposits of maturities of more than six months. Rates on existing IRA accounts will be increased to the maximum rate when they mature. With daily compounding, the effective annual yield on 8% IRA deposits will be 8.33%.

Federal law and regulation prohibit the payment of a time deposit prior to maturity unless three months of the interest thereon is forfeited and interest on the amount withdrawn is reduced to the passbook rate. Accounts for each person are insured for up to \$40,000 by the Federal Deposit Insurance Corporation.

For more information, contact John Stanley, Senior Vice President, or call 683-2751, ext. 290.

Mrs. E. J. Flannery, left, receives the Midland Woman's Club Woman of the Year award from Mrs. Ray Trammell, chairman of the Woman of the Year committee and a past recipient of the award. (Staff Photo)

Mrs. Flannery named 1977-78 Woman of Year

The Midland Woman's Club pre-ented its 1977-78 Woman of the Year award to Mrs. E. J. Flannery during a incheon in the clubhouse

Mrs. Flannery received a silver vase as winner of the award dedicated to Mrs. Jack Samples. Mrs. Ray Trammell is chairman of the club's Woman of the Year committee.

The program was presented by the Modern Study Club, a 53-year mem-ber of the Woman's Club. Mrs. Harry C. Lovejoy, president of Modern Study Club, introduced Momo Laugh-lin of Laughlin Interiors, who presented the program with Sylvan Garrett of Hancock of Dallas Corp. and Janis Kennon. "How to Beautify Your Home" was the subject of the pro-

ram. Mrs. Harlan M. Shade installed the

new Woman's Club officers. They are Mrs. Ralph Peters, president; Ruth A. Cochran, first vice president; Mrs. Yale E. Key, second vice president; Mrs. Samples, third vice president; Mrs. S. M. Erskine, recording secretary; Mrs. Taylor E. Bowers, corresponding secretary; Mrs. W. W. Smith, treasurer, and Mrs. Eugene Clements, assistant treasurer.

Mrs. I. W. Hynd presented Mrs. Peters with a gift of appreciation, and Mrs. Flannery was presented a gift for her services as treasurer.

The hostesses were Mrs. Lovejoy, Mrs. Harrie C. Smith, Mrs. M. H. Endsley, Mrs. Ted Bicknell, Mrs. J. C. Snyder, Mrs. G. A. Plummer, Mrs. John Kaplan and Mrs. J. T. Gist.

PRESENTING A life membership pin in the Texas Congress of Parents and Teachers to Doris Schultz, teacher at Austin Freshman School, is John Bizilo, Austin principal. Mrs. Schultz was honored by the school's PTA unit. (Staff Photo)

YOU ASKED ABOUT

By MINNIE BERNARDINO The Los Angeles Times

Q. I love to bake and my pies ae good but I have a problem with lemon or banana cream pie that I top with meringue. My problem is the liquid that builds up between the filling and the meringue when the pie cools. This occurs even before I refrigerate the pie. What am I doing wrong?

A. This must be the season for meringue pies, judging from the number of letters we get describing this same problem. There could be several reasons for this meringue phenomenon that is called "weeping." To prevent it, meringue should be beaten until all the sugar crystals have dissolved and the meringue stands in stiff glossy peaks. The meringue also should be placed on the filling when it's hot. The heat from the filling helps bake the egg whites on he bottom where oven heat doesn't penetrate during the short baking period. Meringue should be baked until it is a pleasing brown color. Underbaking is one of the most common causes of weeping. Baking at 350 degrees for 15 minutes is preferred over the 400-degree temperature for a shorter period. Weeping also can be reduced by adding 1-2 teaspoon cornstarch for each egg white. Sift cornstarch over the meringue in the final beating stage.

Here is a step-by-step procedure to follow in making a perfect meringue topping: Use 1-8 teaspoon EACH cream of tartar and salt and 4 tablespoons sugar for every 2 egg whites (at room temperature for best volume). Sometimes a little more sugar helps to stabilize the foam, particularly if you are using larger eggs.

Beat egg whites with cream of tarar and salt until they form soft

mounds. Gradually sprinkle in 1 to 2 tablespoons sugar at a time, continuing to beat. When all sugar is in-corporated, beat well for 3 to 5 minutes. Test meringue between your fingertips and if it is still grainy, beat longer until sugar is all dissolved. Vanilla, lemon juice or cornstarch, if desired, can be added at this point.

Spoon about half the meringue around the edge of the hot filling, using a rubber spatula to gently push meringue into each of the small indentations at the edge of the crust. Pile remaining meringue in the center then spread to make an even rounded top, swirling or pulling into peaks (avoid high peaks that will burn during baking). Bake on center rack at 350 degrees about 15 minutes or until golden brown. Cool at least 2 hours before serving.

Q. Because I'm allergic to chocolate, I'd like to know how to use carob powder. I collected, washed and dried carob pods, then put them through my blender. The powder will not blend with milk or water hot or cold. There must be some ingredient added to it to make it usable. Can you advise me?

A. Before mixing carob powder with any liquid, it is best to mix it first with a small amount of oil to help distribute the powder throughout the liquid. To remove the raw taste, heat carob slightly by mixing it with het liquid or heating in top of a double

One should remember, though, that not all carob pods in the trees grown in the United States are suitable for eating. There are some trees, particularly enormous one swith 3-inch pods, that are used only for landscaping. Other varieties have giant-size pods that do not have any flavor.

Copycat cooking: bakeshop dessert

Eva Gabor's Elegant Lady,

By CECILY BROWNSTONE Associated Press Food Editor

DEAR CECILY: Have you ever heard of a Covered Apple Cake? It's not a cake at all, but two layers of pastry with an apple filling in be-tween. My mother used to buy it at a small bakery now gone. I've never seen a recipe for it. If I had one, I'd try baking it. — COPYCAT.

DEAR COPYCAT: Your Covered Apple Cake is in a cookbook from the

Mid-1920s, though under another name. When we tried the "cake," we found it excellent. It's not rich, but that may be one of its charms. Here's

the updated recipe. — C.B.
COVERED APPLE CAKE Pastry, see below 4 large (1½ pounds) apples

(greening or Granny

pared stockinet-covered rolling pin, roll out half the dough at least ½-inch larger than the bottom of a buttered 2-quart glass baking dish (11¾ by 7½ by 1¾ inches). Line the prepared dish with the dough, pressing it into the corners and a short way up the

Pare apples, core and coarsely grate — there should be 4 loosely packed cups; spread over pastry in the dish; sprinkle with the ½ cup sugar and the cinnamon.

Roll out the remaining portion of the dough to a 12 by 8-inch rectangle; , place over the apples, pressing it down at the edges and sealing it to the bottom pastry. Brush with a little slightly beaten egg white and sprinkle with a little extra sugar.

Bake in a preheated 350-degree oven until apples are cooked and the top is golden — 45 minutes. Cut in squares and serve hot. Makes 8 servings.

Pastry: Stir together 1 cup sifted all-purpose flour, 1 cup sifted cake flour and a pinch of salt. Cut in ½ cup sweet butter until its particles are fine. Whisk together 2 egg yolks (from large eggs) and 35 tablespoons commercial sour cream; add to the flour mixture and stir with a fork until a dough forms.

Her career covers TV, killing roaches

Big spa in sky on side of would be dieters

By ERMA BOMBECK

Basically, I am a person with a great deal of faith and literally put myself into the hands of the Deity. I feel if God does not want me to make fattening yeast rolls. He will let the expiration date on my

If He does not want me to bake a three-layer chocolate cake from my favorite recipe. He will see that I do not have three squares of unsweetened chocolate on my shelves. The other morning, I awoke and said, "Lord, if you

do not want me to go on a diet and get sick, give me a The sign couldn't have been more obvious. It was posted over the lettuce in the produce section of the

supermarket and read: LETTUCE 98 cents. I don't need a bolt of thunder and a flash of lightning to fall on me. How could I possibly have a lettuce

orgy at 98 cents a head? The omen held true all up and down the produce aisle. The price of celery was exorbitant. Spinach was a luxury item. And when I viewed the price of tomatoes, I didn't know whether to buy three of them

or make the house payment.

To some of you who never diet, you will fail to see the ramifications of this price. In simple language, it means to me that God has taken a side—the side of

the dieters. The thousands of men and women who face famine daily-who jog, sweat, groan, exercise, are pounded, patted, steamed, who count calories, pop pills, take shots and who lust ... don't forget lust. Who wake up every morning knowing that they will never see gravy again. The sticky little buns rolled in caramel and nuts

hadn't gone up in price at the supermarket. Neither had German chocolate, French garlic bread, pasta, When I told my friend, Mayva, she said, "That is the most ridiculous reason for falling off a diet you

have come up with to date. I don't for a minute believe these orders came from big spa in the sky." I'm used to doubters. I took her to the supermarket

Important part

BERKELEY, Calif. (AP)-After studying 7,000 Alameda County residents, an epidemiologist be-lieves good friends and close family ties are impor-

tant ingredients for the recipe for a long life.

Dr. Liza Berkman, 27, who followed the mortality of the residents for nine years, said the result showed that people who were isolated with a low level of social contact faced from two to four times the risk of dying than people with strong social ties. She said she didn't know whey this was so.

and placed her on the head of lettuce marked 98 cents and said, "Now do you believe?"

At the checkout, I grabbed up a candy bar which had not gone up one penny in price. Wickedness never tasted so good!

Potential paperhangers practice at special school

By NANCY SHULINS

RUTLAND, Vt. (AP) - Hanging around Stan Warshaw can be a sticky - but profitable - experi-

A former New York City contractor, Warshaw is the founder and president of the U.S. School of Professional Paperhanging. He is a man with a monopoly — and a dream.

Someday, Warshaw vows, the ancient comic image of a clumsy paperhanger who glues his hands in his pockets and gets wrapped up in his paper will

be given a long-overdue burial. To that end Warshaw's school was born in an old machine shop in September 1973 with an enrollment of six students.

Today, the fledgling institution is the only paperhanging school to be accredited by the National Association of Trade and Technical Schools. Immaculate in a white medical jacket with a razor blade clipped to his pocket, Warshaw runs his hands

through thinning brown hair and reflects on the importance of wallpaper. Outside the tiny room, three dozen students climb ladders, cut paper and mix paste in a series of large, oblong work rooms. A strange melange of stripes,

flowers and geometrics covers every available surface, It is an interior decorator's nightmare. Paper is being wrinkled and ripped. Mistakes are being made, and that's the way Warshaw wants it. Once they're in the field, mistakes are going to cost them time and money. You can't very well hang \$50,000 worth of foil and hope you used the right ther, Bill Larsen. Kevin received his eagle badge recently during ceremonies in Memorial Christian Church. He is a

"I tell them, 'Make your own decisions. I'm not going to be with you in the bathroom.'

Instructor Larry Elsner, Warshaw's son-in-law and a U.S. School alumnus, says the course opens with extensive lectures and demonstrations. On the second day, he says, students begin hanging the cheapest grade wallcovering available. An atmoence at the Washington United States to discover have asserted that Soviet sphere of fear and confusion prevails. and Cuban involvement

"The stuff is like hanging wet toilet paper," he improve the atmosphere

Ford sculpture called symbol of nation's vitality

By EILEEN ALT POWELL ,

NEW YORK (AP) — When the Gerald Fords look out the north windows of their new California home, they see not only the fresh greenery of the Thunderbird Golf Course but also the stark, clean lines of a sculpture designed in the former president's

The abstract piece, titled "Endless Force," is the work of New York

sculptor Paul von Ringelheim.

To the artist it symbolizes "the past, present and future of America
— the vitality of the land, the optimism to go forward and the projection into the universe." And it stands for "an inwardly strong, quiet man" who led the nation through the stormy months following the Watergate scan-

The gleaming, stainless steel monolith was a gift to Ford from architect
MacDonald Becket of Los Angeles.
Becket designed the T-shaped ranch
house and adjoining office near Palm Springs that Gerald and Betty Ford moved into in mid-March.

The sculpture is the latest in a series of von Ringelheim works that began in 1964 with his first major commission — a 50-foot long, bronze "wall" that the Kennedy administration chose as its artistic symbol of freedom for the New York World's

The new Ford piece is also "a real high point" for a Viennese emigrant who left a business career in New York "to come to grips with whether to make art my life or continue it as a

After he decided 15 years ago to create sculpture full time, von Ringelheim's massive metal works began appearing across the nation:

"Arrival," commissioned by Nebraska for the nation's Bicentennial, rises 40 feet beside Interstate 80. The Westinghouse Nuclear Center near Pittsburgh has the 50-foot high, polished aluminum "Fulcrum."

Other von Ringelheim works are at

suburban Detroit's Lakeside Mall, the Worcester (Mass.) Center and the Texas Eastern Corp. in Houston. This summer a new work - bright yellow and four stories tall - will be erected in Los Angeles as a tribute to the late

Bing Crosby. While the 39-year-old von Ringelheim was overseeing installation of the Ford piece, he also was preparing for a show that opened Saturday at the O.K. Harris Gallery in New York's "SoHo" neighborhood.

The sculpture for the show - made of an unlikely combination of galvanized steel studs and corrogated cardboard - consists of twin, 12-by-20 foot panels that will be shifted weekly to create three different formations,

Von Ringelheim has been described as a "monumental minimalist." an artist who works on a large scale with grace and simplicity. He sees sculptures like the Ford piece as "dealing with illusion, light, surface and the correct scale for the environment." Most important, however, is his de-

sire to encourage the public to learn through his art. "An abstract work can be a catapult to understanding for those people who want to take the time to look at it or have an encounter with it." he says.

In the Ford sculpture, two satin-fin-ished sections rise together on a 65degree angle to a height of 12 feet. Three inches of space between the sections allows sunlight to play on both elements, resulting in everchanging light-and-shadow patterns in the sun-drenched California cli-

"There's a unity, but also a tension between the two elements," the artist explained. "You can see between them, which creates an element of mystery. And it thrusts itself upward from the ground to no visual end point, creating the feeling of endless force that I sense about America and its future.",

Von Ringelheim was commissioned

more than \$50,000, he figures — after his design was selected from among five submitted by nationally known

Von Ringelheim was 2 when his parents brought him from Austria to the United States. He spent most of his boyhood in Brooklyn. His father, a doctor, encouraged his son to follow him into medicine

Von Ringelheim did study biochemistry but later he earned a master's degree in economics and began a business career. Training in art, a hobby in his youth, began at the Brooklyn Museum of Art and continued at the Art Students League.

Then, from 1960-61, he studied sculpture in Munich on a Fulbright Scholarship.

It was the Berlin Wall that inspired the sculpture "World Peace," the massive World's Fair work of bronze

"pierced with abstract shapes, from openings that are barlike to openings you can step over or even walk

Now there is "Endless Force."

in new ways.'

"It's very exciting," he said. "It's so rare that an artist has the opportunity through his work to do something that in time might help people to think

Lanham gains 50-year award

ma during baccalaureate here. Members of the class of 1928 met on campus for their 50-year reunion.

Baptists eyeing **Bryant**

TULSA, Okla. (AP) -Singer Anita Bryant has been asked to accept nomination as a vice presdent of the Southern **Baptist Convention this** summer, but she has not decided whether to accept, church officials were quoted as saying

Miss Bryant, a South-ern Baptist and former member of the First Baptist Church here, said it would be an honor to be nominated. But, she knows little about the position, she was quoted as saying, and does not want to become part of anything she cannot be active in. She declined to say whether she would

Her husband-manager, Bob Green, said the request came "many weeks ago." He could not recall who made the re-

Miss Bryant, a former Miss Oklahoma and runner-up in the Miss America Pageant, has been active recently in opposing gay rights ordi-nances in various locali-

She is to address the Southern Baptist Pastors' Conference, an auxiliary meeting preceding the convention session in Atlanta, Ga., June 11.

Jobs few in Spain

MADRID, Spain (AP)

— Nearly a million of Spain's 13-million work force are unemployed, the National Institute of Statistics reports. The construction industry is suffering most, with 191,-300 jobless.

Teachers courses offered

Two special summer courses are being offered in Midland by The University of Texas of the Permian Basin for teachers of kindergarten, first-grade, secondgrade and special edu-cation students.

The first course, called "Perpetual Motor Development of Exceptional Children," will be taught by Dr. Rob Carlson, UTPB associate professor and chairman of physical education and health. Three separate course sessions are being offered June 5 to 9, June 12 to 16 and July 31 to

Aug. 4. The second course, taught by Dr. John Boelter, assistant professor of physical education and health, is called "Movement Patterns of the Severely Disabled." It will be held Aug. 7 to

Both of these threecredit, graduate-level courses will meet from 8 a.m. to 5 p.m. Mondays through Fridays each

Interested persons may sign up for these classes from 6 to 8 p.m. Wednesday in the Bowie Elementary School li-

USGS makes estimate on California reserves

By BRYCE NELSON The Los Angeles Times

WASHINGTON — TheUnited States Geological Survey, in its first esti-mate of California's federally owned offshore oil reserves, reported Wednesday that there are 674 million barrels of oil and 1.45 trillion cubic feet of natural gas in demonstrated, recoverable reserves in the Santa Barbara Channel and San Pedro

While these Southern California offshore reserves constitute a significant portion of the nation's offshore oil, they pale by comparison with the reserves of the nation's two leading oil states — Alaska and Texas. Both states have proved reserves of more than nine billion barrels of oil.

The world's oil giant, Saudi Arabia has proven reserves of more than 110

The report helps set the stage for new sales of Federal offshore oil leases from the Santa Barbara Channel south to San Diego. The sales are scheduled for June, 1979.

The sale is likely to include pre-

MGF Stakes Terry test

MGF Oil Corp. of Midland No. 1 Edwards is to be drilled as a 3,500-foot wildcat in Terry County, four miles

southeast of Wellman. The prospector is one mile south of the Wellman field and 1,320 feet from north and east lines of section 9, block C-36, psl survey.

FIELD TESTS

The Wellman, Southwest field, three miles south of Wellman, gained a pair of projects. They are Eagle Oil & Gas Co. of

Wichita Falls No. 1 U. D. Lewis and No. 1 Jeff Good. No. 1 Lewis is 3,107 feet from north

and 1,787 feet from west lines of section 62, block DD, J. H. Gibson sur-No. 1 Jeff Good is 3,107 feet from

south and 1,787 feet from west lines of section 62, block DD, John H. Gibson

Each of the projects will be drilled

viously unleased tracts in the Santa Barbara Channel, areas near Danta Rosa and Santa Barbara Islands, the Tanner-Cortes Bank west of San Clemente Island, and an area immediately beyond the three-mile limit from San Pedro south to the United States-Mexican border.

The Southern California offshore reserves make up about 2.2 percent of the total United States demonstrated oil reserves, both onshore and offshore, and about 1 percent of the nation's total natural gas reserves, according to a Survey official.

Request rejected

AUSTIN, Texas (AP) - The railroad commission has rejected a request by Arkansas Louisiana Gas Co. (Arkla) to implement proposed higher rates in 27 northeast Texas cities and has ordered a hearing.

Arkla sought to raise rates earlier this year, and the cities turned down the request.

Arkla appealed to the commission on March 31 to raise rates and in April asked to be allowed to charge a higher interim rate while the appeal was pending.

The commission Tuesday said Arkla should have first asked the cities for the interim rate. In other action Tuesday, the com-

-Suspended for 120 days a proposal by Entex, Inc., to change natural gas rates in the environs of La Marque, Angleton, Texas City, Baytown, League City, Palacios, El Campo, Dickinson, Santa Fe, Edna, New Braunfels and Silsbee.

Suspended for 120 days a proposal by Lone Star Gas Co. to raise gas rates near Brownwood and Lampa-

 Dissolved a commission order so roposed new rates can go into effect in the environs of Canadian and unincorporated areas of Hemphill County and in the environs of Mobeetie and unincorporated areas of Wheeler

Delta gasser extends gas production in Irion

Delta Drilling Co. of Midland No. 2 Marie Baker has been completed in Irion County, 1/2 mile south of Delta No. 1 Marie Baker, recently completed Canyon gas well.

The new well finaled for a calculated, absolute open flow potential of 1,500,000 cubic feet of gas per day, through perforations opposite the Canyon from 6,882 to 7,019 feet after 6,000 gallons of acid. The project also produced an unreported amount of 41.5-gravity oil on the potential test.

Wellsite is 1,999 feet from south and 660 feet from west lines of J. P. Pittman survey No. 1234, abstract 1133 and eight miles southwest of

Total depth is 7,825 feet and 4.5-inch casing is set on bottom.

IRION PROJECTS

Union Texas Petroleum Corp. of Midland announced locations for three projects in the Rock Pen (Canyon) field of Irion County, five miles west of Mertzon.

Each of the projects will be drilled to 7,400 feet.

No. 5-57 Farmer is 1,980 feet from south and east lines of section 57,

block 1. H&TC survey. No. 5-56 Farmer is 1,731 feet from south and 678 feet from west lines of section 56, block 1, H&TC survey.

No. 6-57 Farmer is 1,833 feet from north and 635 feet from east lines of section 57, block 1, H&TC survey.

FISHER EXPLORER

R. L. Foree of Dalls No. 1 Baptist Foundation of Texas spotted location for a 5,500-foot wildcat in Fisher County, two miles west of Royston. The explorer is 900 feet from north

and 660 feet from east lines of Bastrop County School Land survey No. 313. The wildcat is one location south of a depleted producer.

RUNNELS TEST

J. V. Braswell of Dallas announced plans to drill a 4,000-foot wildcat in Runnels County, eight miles northeast of Ballinger.

It is No. 1 M. Brookshier, 467 feet from north and 1,069 feet from west lines of section 162, ETRR survey. The site is 7/8 mile northwest of the PWC (Serratt) field and separated from it by depleted producers.

Ray W. McDonnell of Abilene No. 2 Exxon-Harris Estate is to be drilled 1,322 feet east and slightly north of the only well in the Lygay, East (Strawn lime oil) pool of Coke County.

Slatted for a 6,500-foot bottom, it is 660 feet from north and 1,980 feet from

west lines of section 479, block 1-A, H&TC survey. It is eight miles south

STEPOUT SCHEDULED

Anderson Petrioleum Co. of Ozona

No. 2-23-I Moody Minerals is to be drilled as a 7/8-mile southeast stepout to the Ozona (Canyon sand gas) field in Crockett County.

Scheduled for a 7,500-foot bottom, it is 28 miles southwest of Ozona and 1,530 feet from south and 730 feet from west lines of section 23, block MM, T&StL survey.

LAWRENCE TEST

C. F. Lawrence & Associates, Inc., of Midland No. 1-H Rtodd is to be drilled as a 1/2-mile east and slightly north stepout to the middle portion of the Howard Draw (Grayburg-San Andres) field of Crockett County.

Contrcted for a 1,600-foot bottom, it is 17 miles northwest of Ozona and 1,980feet from south and east lines of section 69, block UV, GC&SF survey.

SUTTON SWELL

Willial Perlman of Houston no. 2-129 Mack Cauthorn has been finaled to extend the Shurley Ranch (Canyon gas) field of Sutton County 1/2 mile

Operator reported a calculated, absolute open flow potential of 3,100,000 cjubic feet of gas per day, natural, through perforations from 6 810 to 6.819 feet.

Location is 770 feet from south and 2,052 dfeet from east lines of section 129, block C, HE&WT survey.

UPTON OILER

John L. Cox of Midland has filed potential test for his No. 2 Moergan, 1/2 mile west of production in the Spraberry Trend Area field ofd Upton County.

The well finaled on the pump for 133 barrels of 40-gravity oil and 91 barrels of water, with gas-oil ratio of 685-1. The pay section, through perforations from 7,114 to 8,572 feet, was

fractured with 90,000 gallons. The well is 1,320 feet from south and west lines of section 24, block B, CCSD&RGNG survey and 14 miles northeast of Rankin.

COLEMAN WILDCAT

Blithe Enterprises, Inc., of Midland No. 1-A Fraser is to be drilled as a 1,200-foot wildcat in Coleman County, 1,650 feet southeast of production in the Coleman County regular field.

It is four miles northwest of Trick-

ham and 1,744 feet from south and 2000 feet from east lines of Pleasant Young survey No. 494.

Amoco Production Co. mo. 11 J. F. Postelle will be drilled in the Rhoda Walker (5950 Canyon) pool of Ward County, six miles southwest of

The 7,550-foot operation is 1,880 feet from northwest and 1,880 feet from southwest lines of section 117, block 34, H&TC survey, abstract A-236.

Nominees to speak

HOUSTON-Independent oilmen will have an opportunity to meet and evaluate the Democrartic and Republican nominees for governor of Texas at the 32nd Annual Meeting of the **Texas Independent Producers &** Royalty Owners Association in Houston.

The meeting will begin Sunday and continue through Tuesday.

Democratic candidate John Hill will address rhe Monday morning session, and Republican candidate Bill Clements will speak at the afternoon meeting Monday.

Also speaking at the meeting will be the Republican and Democratic nominees for U.S. Senator from Texas.

Senator John Tower addresses the Monday afternoon session and Congressman Bob Krueger will talk at the Tuesday morning session.

Other speakers include Senator Bennett Johnston of Louisiana, David Bardin with the Department of Energy; Mack Wallace, Jon Newton and John Poerner, members of the Railroad Commission of Texas; Dr. Walt Rostow of The University of Texas, and Jim Flug of Energy Action, Washington.

Hecla must seek loan extension

By JOHN M. WILLIS **Associated Press Writer**

SPOKANE (AP) - The moneytroubled Hecla Mining Co. is facing a financial crisis and must seek an extension on a giant loan payment due July 1, says the company's president, William H. Love.

Hecla, based in Wallace, Idaho, operates one of the nation's richest silver mines, the Lucky Friday near Mullan, Idaho.

Love said Wednesday that Hecla's involvement in the operation of the Lakeshore Copper Mine near Casa Grande, Ariz., has seriously hurt the the collapse of a deal which was seen as the company's financial savior.

The deal which fell through involved the Superior Oil Co., of Houston. Texas, which was to have purchased 2.5 million shares of unissued Hecla common stock at \$7.50 a share and taken over 50 percent of Hecla's committment in the Lakeshore operation. Additionally, Hecla gave Superior two options on 2.5 million shares of unissued stock at higher prices.

Proceeds from the proposed stock sale were to have gone to lower Hecla's large, long-term debt, and would have given the firm a financial

But after an investigation of Hecla's properties and operations, Superior officials announced late Tuesday that they were withdrawing from the tentative agreement.

Superior's announcement pushed the price of Hecla stock \$1 lower to \$7 in trading Wednesday on the Spokane Stock Exchange, and Love's comment that the company must seek an extension on a loan payment is expected to put further downward pressure on the price.

In a letter to stockholders, Love said it was unfortunate that Superior had opted not to go through with the deal because he thinks the agreement would have been beneficial to both

Court tells Southland where to sell its gas

By RICHARD CARELLI

WASHINGTON (AP)-The Supreme Court ruled by a one-vote margin Wednesday that owners! of gasproducing land must obtain the government's permission before they abandon interstate market commitments held by the land's previous owners.

Voting 4-3, the justices handed a substantial victory to the El Paso Natural Gas Co. which had been handling interstate sales of natural gas from 45,000 acres of Crane County, Texas, land under lease to the Gulf Oil

Also coming out winners in Wednesday's decision were California residents who had been receiving the bulf of Gulf's natural gas carried in the interstate market before Gulf abandoned the commitment.

The decision was a setback for the Southland Royalty Co. and Texas offi-

Contract signed

STEARNS, Ky. (AP) - Blue Diamond Coal Co. has signed a contract with a newly formed union at the Justus mine in southeastern Kentucky, where the United Mine Workers union has been on strike 23 months, a Blue Diamond spokesman said Wednesday.

Blue Diamond, of Knoxville, Tenn., parent company of Stearns Mining Co., signed the pact Tuesday night, said the spokesman, who asked not to be named. The Justus Employees Association

vas formed last week by non-striking miners who have been crossing UMW picket lines at the Justus mine. About 80 miners and 20 supervisors have been producing coal at the

mine.

Castee Basham, chairman of the employees association, said members of the new union ratified a 3-year contract by a vote of 79-0. The union was recognized by Blue

gaining agent for the work force at Basham did not reveal details of the contract, but said the wage scale is above the UMW national scale.

Diamond after it was formed as bar-

About 150 Justus miners walked out in July 1976 in an effort to win a UMW contract. The strike has often been violent, involving gunfire btween union pickets and security guards hired by the company.

cials, who had argued that such a ruling could jeapardize their state's intrastate gas supply.

leases were signed providing for the natural gas produced on the Crane County land to be sold outside Texas.

In 1925, two 50-year oil and gas

In 1951, Gulf began selling gas from the property to El Paso, which shipped it through an interstate pipeline to California. To do so, Gulf got a certificate from the federal government dedicating its gas to interstate commerce.

In 1975, the original lease expired and control of the land's mineral rights reverted to the Southland Rohalty Co. and other owners. Southland decided to sell the gas in

the intrastate market, where prices are uncontrolled and about 25 percent higher than those commanded in the interstate market.

The Federal Power Commission ruled that government permission

was needed before the withdrawal of significant gas supplies from insteratate commerce.

The 5th U.S. Circuit Court of Appeals reversed the FTC and ruled in favor of Southland, sahying that Ghlf could only dedicate what it ownedthe gas produced during the 50-year term of the original lease.

In reversing the appeals court ruling, the Supreme Court said in an opinion by Justice Byron R. White:

We conclude that the commission acgted within its statutory powers in requiring that respondents (Southland) obtain permission to abandon interstate service." Joining White were Justices William J. Brennan Jr., Thurgood MaRSHALL AND Harry A. Blackmum. Disagreeing were Chief Justice Warren E. Burger and Justices John Paul Sgtevens and WilliamTH. Rehnquist:

Justices Potter Stewart and Lewis F. Powell Jr., took no part in deciding

By HUGH A. MULLIGAN

P Special Correspondent RIDGEFIELD, Conn. (AP) - Lines prepared for a commencement address no one asked me to deliv-

'Honorable regents, learned professors, wealthy

trustees, bankrupt parents, relatives and friends lured here under duress, women and men and any minority genetic permutations of either or both in

the Class of 1978. "You are about to walk out into a world withered by Watergate, vitiated by Vietnam, corrupted by Korea-gate, nervous to the point of neurosis over neutron bombs and, if I could think of a suitable alliteration, I'd include the mess in the Middle East too because it's timely, and this is going to be a timely speech. The only advice I can give you are the words a platoon sergeant with the 1st Division gave to his riflemen heading out on patrol into the jungles of War Zonce C west of Saigon: C.Y.A. Cover your

"I hate to break it to you this late in the academic game, but the world is not out there waiting for you. They've begun without you. The dropouts and copouts already have grabbed off all the best jobs, all the best marital partners, all the safest sinecures and cushiest political appointments in the baronies of bureaucracy, which is why so many of you stay with us here on campus year after year, growing old gracefully in the Student Union, hobbling off on your canes and crutches and aluminum walkers to an occasional meaningful demonstration against tthe entrenched tools of power and a harmless burning down of the president's office...

"No man is an island. Some of us are peninsulas and palisades and stolls. A few are soaring peaks, and some despondent, death-like valleys. I recently ran into a chap with an aggravated hemorrhoid problem who fancied himself a calcareous stalactite. Or was it a calcium carbonated stalagmite? 1/4 Any how, check, with your geology professor; he ought to

"As the countdown of opportunity heads inexorably toward the lift-off Life, remember the words of President Gerald Ford when they forgot to put up the landing steps for Air Force One: 'One floundering foolish pratfall for Mankind and bust that blasted crew sergeant to a buck private' ...

"Life is parade, a stirring procession of events,

triumphs, tragedies, sorrows and joys, marched to the music of time in a sort of Runic rhyme. Listening to a different drummer only louses up the line of march. And besides, he probably doesn't even hold an A.F.M. card... "Men of West Point and, now, ladies, too (polite laughter, a few 'Bravos,' 'Huzzahs' and 'Right Ons'). never let it be said of you when we answer the roll

up yonder that in your command relations with the troops you were partial to the brigade but rotten to Seeing your eager, promising faces bobbing up in this tasselled sea of mortarboards reminds me of a joke. The actress and the archbishop met one day on a mink ranch. Oh, No, not that one. Pardon me, Your Grace. Anyhow, the future is yours, fly to it

call of the Last Reveille on that great parade ground

on gossamer wings. Who else wants it?... "Caught up in the cares and challenges of life, you may soon forget old Alma Mater, O faithless sons and daughters. But Alma Mater will never forget you. An addressograph plate bearing your name and residence already is on file, and our Alumni Secretary will explain to you in a few moments the workings of our annual giving program by which you set aside a healthy portion of your income so our learned faculty members do not at this stage in their

careers have to go out and seek honest work... "In a few hours you leave these hallowed halls utterly changed. Class marshals will pick up the rented gowns at the gymnasium door. Some of you will go forth into law, into medicine, into engineering, into the nation's corridors of power and the maximum security wings of our state and federal institutions; and why some of you aren't there already only points up the growing inadequacies of

our crime supression programs... "If it wasn't for the honor of the honorary degree they're conferring on me here today, plus the \$1,500 under-the-table, tax-free stipend and the promise to accept my idiot nephew Wilbur as a freshman, I'd be down at Trudy's Topless Bar right now soaking up a few boilermakers instead of wasting my time talking over the heads of your pampered punks...

From rags to riches, Salt Lake author makes it with land

NEW YORK (AP) — Would you prefer to work for someone else at the rate of \$1,000 a day for 35 days, or for yourself at an income beginning with 1 cent the

for yourself at an income beginning with 1 cent the first day and doubling on each succeeding day?

Wherever he goes Mark Oliver Haroidsen asks that question. Most people choose the \$35,000 that comes with the first option, never realizing that the second would endow them with nearly \$340 million.

He uses the illustration to prove the power of compounding, and how it works in real estate. While it's unlikely that anyone will double his money daily

it's unlikely that anyone will double his money daily, he says, many people can do it by the year.

An example: An income property is bought for \$50,000 with \$5,000 down. Its value appreciates \$5,000

to \$55,000 in the first year, a 100 percent gain. True, there are expenses, but there is income also.

Like himself, he says, many ordinary people can become millionaires by following his simple formula of buying income property, fixing it up, refinancing, and managing it wisely or selling at an opportune

The tremendous compounding comes from the leverage of using borrowed money, since some properties can be acquired for very little down, and n some instances for nothing at all. Says Haroldsen, there aren't enough days in a year or years in a lifetime for most people to become

millionaires while working for others. On their own they can do it in remarkably short order. Seven years ago the 34-year-old Salt Lake City resident owed \$7,000. Recently he estimated his worth at \$5.5 million, but that was before he bought

an apartment house, he says, for \$600,000 less than Haroldsen, a clean-cut, disarmingly direct and enthusiastic motivator, a Mormon, now seeks to arouse the dormant financial instincts in millions of Americans. And he hopes to make more millions

doing so. He has flooded the nation and intrigued hundreds of thousands in the past year or so with his magazine advertisements promising to demonstrate "How to

Wake Up the Financial Genius Inside You." That, in fact, is the name of a book Haroldsen wrote while working on his second million. He published it himself, and already, he says, has sold

350,000 mail order copies at \$10 each.

The book is now making its way into bookstores, and Haroldsen says confidently: "I'm sure it will be on the bestseller list." It already would be, of course, if sales by mail were included.

The book's reception, and the availability to him of mail order customers, convinced him to establish a monthly magazine, the "Financial Freedom Report." It too is a success, he states.

So, he says, was a recent \$1,000-a-person seminar at a Utah ski resort, and now Haroldsen's company, the National Institute of Financial Planning, has scheduled seminars in other areas too. Haroldsen isn't the only one with the same insights

about income property. He concedes a debt to William Nickerson, author of "How I Turned \$1,000 into Three Million in Real Estate - in my Spare

Haroldsen, however, might have the biggest goals of all. He has only begun, he states, and has every intention of continuing to compound his successes until he is one of the richest men in America.

"Money is a scorecard to me now," he said reflectively. "It's like playing poker for matchsticks. Money is the matchsticks." What is his magic? Haroldsen chuckles; he knows

there is no magic. "Not unless you define it as desire. If you want to do it, you do it. It means you cannot do 24 other things. You can't do everything.' Which means you must concentrate your energies

or, less complimentary, that you must have a one-track mind. Haroldsen's capacity for work is enormous. Father of five, he wrote his book between midnight and dawn. What he and some other authors may fail to

emphasize, however, is that most people lack the motivation. They can't accept the self-denial, financial sacrifices, disappointments, hard work, fail-

To him, intense, overwhelming motivation is the beginning of a fortune. Then a person must set goals; his personal goal at age 27, when he was in debt, was to make a million by the time he was 30. He did, and

But good intentions don't move you ahead unless you have a vehicle. Haroldsen found his when he discovered a stock market customer, Larry Rosenberg of Denver, had accumulated a fortune in prop-

erties. He then borrowed as much as he could and bought small properties. For six months, he says, he didn't dare assess his progress. When he did, he found he was ahead. He quit his job.

The decision in 1975 to go fulltime into real estate,

he says, was "the toughest decision I ever made, to leave a salaried job and depend totally on my own skill, ability and hustle."

The toughest part, he tells those who seek to follow him, is getting started, "because of the fear all of us have of something new." But, he says, "through action you'll learn what you need to know."

At home or work it all looks the same

DOVER, Ohio (AP) — Fire Chief George Bair Jr. doesn't leave his work behind when he goes home at night. Now he retreats to a recreation room complete with a "Fire Dept." neon sign, hose nozzle lamps and fire extinguisher ashtrays.

The firefighting memorabilia caused his children to nickname the room "The Firehouse."

The 20-year-old neon sign was salvaged when the old Dover fire station was remodeled in 1975. Two lamps with authentic antique brass nozzles for bases were made by Bair's son-in-law, Herb Wills of

Bair took 30-year-old soda-acid fire extinguishers and made them into free-standing ashtrays. An antique Dover fireman's helmet, dating to the early 1900s, hangs on one wall and red lights from a 1952 emergency truck are suspended above the bar.

Equipped with a few tools, a little imagination and about \$400 in materials, Bair and his son, Gary, transformed a 13-by-30-foot basement room into a

firefighter's dream. "We built everything except the furniture," the chief said. He is especially proud of the bar, com-plete with an Atlas dynamite case converted into a

Bair said he and his son utilized odds and ends and even gathered some items from rubbish, including the neon sign and red lights.

Also in the room is a gun rack containing an 1849 Pennsylvania .36-caliber rifle, which Bair's great-great-grandfather carried in the Civil War, and other 5/31/78 which Bair admits he bought "just for myself."

Art works shown during run of MCT play

Midlander Betty Lynch is the exhi-biting artist at Theatre Midland, the new home of Midland Community Theatre, during the run of "God's

The Neil Simon comedy opened last weekend and will resume its run with performance at 7:30 p.m. today and other presentations at 8:30 p.m. Friday and Saturday. A matinee is sche-duled for 2:30 p.m. Sunday, with concluding performances on the evenings of June 9 and 10. Theatre Midland's box office telephone number is 682-4111. The theater is at 2000 W.

Mrs. Lynch is a longtime Midland Community Theatre supporter and worker and has designed covers for the Prompter, the MCT playbill, numerous times. She is the widow of Raymond A. Lynch, a Midland attorney, and is the mother of four grown children and grandmother of six. She is a graduate of The University of

Mrs. Lynch's distinctive watercolor paintings include landscapes and still life vignettes from the U.S., Mexico and Europe. She seeks out the unusual and freely interprets it with an amazing variety of techniques, com-position and colors. She has had special study with such noted artist-teachers as Leonard Brooks, Robert E. Wood, Tom Hill, Dong Kingman and the late Eliot O'Hara.

The artist has had many solo shows in the Southwest and has won numerous awards in regional competitive exhibitions. She is a member of the Texas Watercolor Society and has been represented in shows of the Texas Fine Arts Association, the Dallas Museum of Fine Arts and elsewhere. She currently is represented with works in the 12th annual Southwestern Area Art Show on view at Midland's Museum of the Southwest, 1705 W. Missouri Ave. Mrs. Lynch's work is handled by the Baker Gallery

AT THE "BASS" of the collection of music instruments at Midland College is the instrument fund. Making a \$1,800 contribution to that fund is Mrs. Dillard Anderson, center, chairman of The Musicians Club, Texas Federation of Music Clubs. Accepting the check are Robert J. LaFontaine, left, head of the Midland College[music department and Dr. Al Langford, president of Midland College. (Staff Photo)

Tony Awards aiming for brevity

MICHAEL KUCHWARA **Associated Press Writer**

NEW YORK (AP) - Can Tony do what Oscar, Emmy and Grammy can't? Can the Tony Awards show, to be telecast June 4 at 9:30 p.m. EDT on CBS, shoehorn into 90 minutes what Oscar took three hours to accomplish this year and what most award shows need at least two hours to cover?

Emphatically yes, says Alexander H. Cohen, Broadway showman who along with his wife, Hildy Parks, have co-produced the Tony Awards show ever since the annual presentations for distingished achievement in the theater went on national television in

Miss Parks said it will be "infinitely" more difficult to do the show in the 71 minutes and 30 seconds allowed after commercials, especially since the show did creep to two hours or more in several of its last airings.

"It may be a tighter, better show this year but it's particularly difficult because of the musical numbers," she

And this year, the musical numbers will include bits and pieces from the four musicals nominated as best of the 1977-78 season — "Runaways,"
"Ain't Misbehavin'," "Dancin'," and "On the Twentieth Century," as well as a snippet from Liza Minnelli's virtual one-woman show, "The Act." "For example, if you're doing a number, from 'Dancin' that Bob

Baptist Church.

Fosse (its director and choreographer) has worked on for four or five months ... and that number runs nine minutes, it's very difficult for Mr. Fosse to put his head in the place where he can make that number four minutes now," Miss Parks ex-

"If he had wanted it four minutes, he would have made it four minutes in the first place."

Besides the musical numbers, Miss Parks has planned a sequence featuring Bonnie Franklin, star of CBS' "One Day at a Time," who "sits in the orchestra and remembers probably some of the things that a lot of people sitting in the audience are also remembering-when she first came to New York, where she studied, the auditions she went to, the first job she got, the first time she was ever on the Tony Awards as a performer, the night she was up for an award and somebody else won.'

This year's theme revolves around 'the first time you saw live theater," Miss Parks said, "whether it was a Broadway show or a high school production. Some people reacted as audiences and other people said, 'Gee, I want to be part of that."

And those persons who will share their theatrical experiences include some names now more familiar on television that around Shubert Alley.

Music Teachers Association.

Besides Miss Franklin, who first gained public recognition belting out the title song in the 1970 musical, "Applause," nostalgic glances into their past will be provided by Ed Asner of "Lou Grant" who did stage work in Chicago and New York before making it in Hollywood, and Dick Van Patten, now of ABC's "Eight Is Enough," but once a popular juve-nile actor on the New York stage in the 1940s.

To save time, some of the more technical prizes will be presented before the telecast, saving time and eliminating the awards of least interest to a nationwide audience.

"We're planning to do some before we go on the air, taping them and using a quick flash (of names) on the screen," Cohen said.

But in the end, whether the show stays within its 90-minute format depends on the winners and the unex-

pected happenings of live television. "You're never prepared. It's an emotional occasion when someone wins an award. And if it's something that they've wanted a lot, they react emotionally. Sometimes when they are thanking people they don't realize how long they are talking," Miss Parks said.

Cohen thinks most theater people have no trouble in adopting to demands of a live television show.

"I think people of the theater are much more disciplined than people who work in film. It's only logical that they should be," Cohen said. "They're trained, their timing is precise. Their instincts are for living theater or live television."

But in past years there have been exceptions who have become terribly emotional, sighed Cohen. "One of them was a producer who went oh interminably. The next year we sold a long-playing record of his speech."

Recitals continue as year's studies end

End-of-season music recitals continue in the city as piano and voice students of Midland music teachers bring their year's studies to a close. Mrs. William H. Maitland's piano students performed in recital in the

fellowship hall of Grace Lutheran Recitalists included Ann Marie Howe, Alicia Thompson, Tracy Castillo, Kendall Askins, Bo French, Christina Ward, Margaret Mogford, Jennifer Bryant, Kara Akins, Sharon

Phipps, Tim Smith, Tamie Ward, Sharon Scroggin, Allison Sellers, Walter Paul Miller, Kathy Taylor and Leslie Finkbeiner. Mrs. John Greer's piano and voice students were heard in a pair of recit-

Rogers, Terri Taylor, Sandi Spauld-

ing, Vanessa Stipp, Karen Pietrusz-ka, Elizabeth Ann Greer, Leslie

als in First Baptist Church. Participants were Diane Schaefer, Robert

Wheatley, Ann Caroline Garlitz, Kathy Dickerson, Angela Schaefer, Vicki Madden, Dawn Harris and Becky Dugan.

Recognition for outstanding work went to Misses Pietruszka, Harris and Dugan, and several other students who have participated in vari-ous special music events this season also were honored.

Keyboard students of Mrs. Troy Martin presented their spring recital in Mrs. Martin's home, 3104 Metz Drive.

Playing on the program were Lisa Miller, Kristi Graham, J'Nan Eason, Trina Whitefield, Jeff Connally, Julie Hopkins, Scott Seay, Lisa Fields, Derek Tompkins, Michele Martin, Jennifer Murray, Dana Tompkins and Troy Martin Jr. The recitalists were honored with a party following

OF THE YEAR AWARDS '77-'78

Christmas may come for country-rock fans

By PETER J. BOYER

LOS ANGELES (AP) - For fans of that hybrid music form called country-rock, it's a dream to wonderful to be wished. Yet there it is, the glimmering promise of Christmas in summer -Dolly Parton, Emmylou Harris and Linda Ronstadt in glorious com-

It's a fleeting union, though, lasting only until country-pop's leading ladies have finished their trio album, the most eagerly anticipated record this year. The record, a collection of songs mostly written by Miss Par-ton, is due in late spring or early summer.

The album is not the harbinger of a permanent supergroup, though, because the principals are individually too busy to even consider a joint tour. Rather, it's a celebration of the dizzying success of country-rock, a sort of party given by three women who are so undeniably at the top they can afford to enter the recording studio just for the hell of it, knowing that the music world awaits outside, panting for the result.

"Good music is just good music, and that's why we're doing the trio

Harris. "It's fun, the dividually, we might not do. Together, we might do something really off-

Senior group members give recital

It's a good time for country-rock, a volatile musical genre unhampered by the limitations of the stagnating pop mainstream or the restrictive ways of tradi-

tional country. Parton, Harris and Ronstadt are among those disciples of country who labored to bring their music out of the backwoods and into the big city lights. They've broadened the horizons for country music, and their reward has been a huge chunk of the lucra-

tive pop audience. The crossover from country to pop has been particularly rewarding for Miss Parton, a walking, talking extravaganza who epitomized the Nashville cliche. With her prodigious figure, tight-fitting sequined jeans and elaborate coifs, Dolly represented everything a nice little lady singer should be. But the life left the am-

bitious Miss Parton wanting; country music was a low stakes game, even for as big a star as Dolly Parton, so she packed her twang and went Hollywood. She endured sneers from her pals on Music Row for a spell, but the rewards of her crossover came quickly and were of the type you can take to the

"I'm very happy and I don't feel I've lost any friend that was a true friend," says Miss Parton, resting in the Beverly Hills apartment she rented while working on a TV special here. "Tlove the traditional ways, the traditional records, but they're the ones that ain't selling very much. If you got to eat, you got to eat. If I could have made the kind of living that I wanted to make, I probably wouldn't have been as keen about push ing on out of Nashville.

But I was just working too hard for too little for too many for too

Her first country-pop album was also her first old album, suggesting the crossover was a good move. The high-money atmosphere of the pop Y game affords the freedom for such projects as

prospect of the three of us going into a studio and doing something that invery well with the people and the album became I was working with," she hits was nice, but Emsays. "Out here, there's mylou was bothered by such a relaxed atmo- the fact that the products sphere. We just go in and were being considered sing because we sing, pop works. which is the way it would be. I enjoy it. It's good

> much a move as it was a was, 'But it's a country matter of waiting for her album!' To me, it's my vast pop audience to tune most country album. But in to the country themes I realize that I'm not she'd always had in her Tammy Wynette, that I repertoire. She'd been don't have that kind of now, it's easier to get folks to listen to a few Ronstadt - pop's resident Kewpie doll makes the transition easier for hesitant pop fans with her powerful vocal' style and come-on

matter of getting the pop audiences to accept the country in them. For Emmylou Harris, the crossover was in the

other direction. Miss Harris is country convert, a pop singer born-again into the country fold. She is a disciple of progressive country's prophets, the outlaw clique of Waylon Jennings and Willie Nelson.

Miss Harris was shown the light by Gram Parsons, a country rocker ahead of his time who died too young in 1973. Parsons, a former member of the Byrds, showed Miss Harris the art and soul that lived behind the sequins and shiny cars of country music, and she likens the conversion to a religious experience.

"Gram's the one who really took me over to the deep edge of it, and pointed out the really deep, dark poetry of country music," she says. She stops short of proselytizing, but her approach to country music is fired by the zeal only a convert could know. The slender, long-haired, soft-spokennative of Washington, D.C, has mostly a pop-oriented audience, but a wish for acceptance from the country crowd is the driving force behid her

Her latest album, "Quarter Moon in a Ten
